Development in Yesterday's Insurance Enquiry — Actuary Harvey Explains "Industrial" Insurance Methods — Salaries Detailed.

When the examination of the Union Life was resumed before the royal commission yesterday morning, Chas. J. Harvey, consulting actuary and director of the company, was on the stand. Harvey, who is an expert on industrial insurance, and consulting actuary to several large American companies, said that he received a small retaining fee from the Union. His voting power in the company was given to Cashier Carrie.

Mr. Tilley commenced at once to delve into the intricacies of so-called "industrial insurance." Mr. Harvey said that he had instituted, on coming to the Union Life, a policy called "industrial savings bank policy." In industrial insurance the premiums were paid weekly, which necessitated the loading of the premiums more so than in other companies, for the public were charged this extra expense of collection. The loading in an ordinary company amounted to 50 per cent, but in industrial insurance the loading was from 100 to 110 per cent. Policies ranged from \$15 to \$50. Children were insured at the age of two months, and in some instances, in England, at the age of two weeks.

Mr. Harvey next explained the working of the company under control which was divided into districts and placed under the charge of a superintendent. He had five or six districts, each with a superintendent who in turn appointed five or six agents, or canvassers, apiece. Each superintendent received a weekly salary, and each agent received a commission and a further bonus when his business was above his regular weekly debit. This bonus was exactly fifteen times the net increase in the Union Life the death rate was 15.8 per cent. of premium receipts.

Child Insurance.
Child insurance was then taken up by the Dominion counsel. Witness said that in his opinion it was a splendid idea. It had decreased pauperism. The very fact that a man could insure his child for a small amount was a boon to the poor man. The British parliament had taken up the question, and to-day it was in force in both the old countries and the United States. It was a practice that was almost universal in insurance for the rich and the poor.

The financial side of the business was then gone into, and Mr. Harvey thought that the business of an industrial company was to be increased the company would be under financial restraint for many years.

Mr. Harvey, carefully managed, would be supporting, but the business could never be increased to large proportions. The weekly debit of the company was sufficient to pay it, which was satisfied to stay as it was. That was not the case. It was the aim of the directors to build up the industrial insurance business on the continent.

"Why, then, do the company declare dividends?" asked counsel.
"For the simple reason that people will not put up their money unless they can see something coming back."
"In time the company would pay enormous profits, I suppose?" asked counsel.
"Yes. In many companies the shareholders have been satisfied without any dividends, such as day, after the early struggles of organization, was paying handsome profits."
Mr. Harvey admitted that the payment to shareholders was a means adopted to keep shareholders satisfied and willing to pay up calls on stock or make new investments in stock or debentures.

Witness explained the savings bank policy which he had instituted. According to his system, in addition to the insurance provided, during the term the insurer is paid one-half the premium he has paid in at the end of twenty years. This would be about \$140. The advantage of this type of insurance was that it necessitated the keeping up of a higher reserve than any other form.

Not Misleading.
The examination of Mr. Harvey was continued in the afternoon by Mr. Tilley.
"Do you think that the term 'savings bank policy' would not be misleading?" asked Mr. Tilley.
"I should not imagine so," replied Mr. Harvey.
Mr. Tilley put in a statement showing the business done by the Union Life as follows: 1902, 524 policies issued and no lapses; 1903, 27,742 policies issued and 16,525 remained; 1904, 28,620 policies issued and 17,197 remained; 1905, 36,550 policies issued and 23,582 remained.

When asked what he thought of the statement, the witness said that the lapse rate compared with other companies was very low. He had prepared a statement comparing the Union with other American industrial companies, which showed that the Union Life to be in better shape re lapse ratio than many of the others.

Mr. Harvey, in explaining the effect of a large lapse ratio, which he claimed was a heavy loss to any company, said that on the average premium, which was 8 cents per week, six weeks could be used up in paying the medical examination fee, which was 50 cents. There was no medical examination on infantile life up to 10 years of age. The loss on lapse policies would be about \$244.12. The Union Life was entirely a non-participating company.

Cross-examined by Mr. Hellmuth, the witness—

TOBACCO, LIQUOR AND CARDS AID TO ARCTIC EXPLORATION

Paid for by Government, But Opposition Won't Pass the Item Just Yet.

Ottawa, May 11.—(Special).—Mr. Adamson, Liberal (Humbolt) to-day resumed the debate on the abuses in the land departments. He made light of the cases cited yesterday by Mr. Ames. Why had he not taken proceedings against these agents? He had visited the west for a few weeks, and was, no doubt, imposed upon by malicious gossip. He had heard these stories before, and investigated them. As a rule they were entirely without foundation. He put the arable lands at 171,000,000 acres, instead of 90,000,000.

Mr. Lake (Qu'Appelle) admitted that the west was enjoying great prosperity, but that the public had been misled by the Toronto Globe in that respect. Indeed, his speech had been garbled and distorted beyond all recognition. The prosperity of the west was due to Providence, and to the way in which the government. He corroborated the statements made by Mr. Ames (Montreal). It was notorious that western land companies blanket all the best land, everybody knew that. Mr. McIntyre (Strathcona) claimed that no specific instance could be pointed out where the homestead law had been violated. He admitted that millions of acres had been homesteaded years ago and never cancelled.

The debate came to an end early in the evening when the house went into committee of supply, taking up the ocean and river service.

Arctic Supplies.
The first item was \$375,000 for maintenance and repairs of government steamers and icebreakers, including the S.S. Arctic, which was used on the Hudson Bay expedition. The opposition brought up the bills for supplies for the Arctic on that trip, which was planned for three years, but lasted only one year. The supplies included large quantities of cigars, cigarettes, tobacco, wine, whiskey, rum, pipes, playing cards, etc.

"It was a rascally bill," said Mr. Fowler, and another had featured in the bill, but they were not called for.

The minister stated that Captain Bernier of Arctic fame was given authority to fit out the Arctic, and that gentleman was prepared to go before the public accounts committee and explain his purchases.

The opposition held that Captain Bernier was not responsible to parliament, but the man responsible was the minister in charge of the marine department.

The opposition refused to pass the bill until more information was brought down, and they also asked for information respecting the fitting out of the icebreaker Montcalm.

At 11.45 the committee rose, and the house adjourned.

Webb's Sold for Hotel \$75,000 to be Spent on it

Proprietor O'Neil of the St. Charles Will To-Day Put Finishing Touches on Deal—Bed Rooms to Replace Banquet Halls.

Something of a new kind in the strenuous line has developed from the assiduity of the license commissioners, inasmuch as it means the establishment of a large hotel right opposite the sky-scraper Traders Bank Building and at very short notice, to take the place of the St. Charles' calling cache.

When Webb's were burned out not long ago the desirability of the position of the restaurant appealed not apparently to anybody on account of the high leasehold rental of the property. Now, door to the old Webb place was the St. Charles' handy place, which had to be an hotel instead of a popular drinking spot, by the edict of the license commissioners, so Mr. O'Neil, the proprietor, said he might as well take in Webb's old place and make his acquirement one of the best hotels in Canada.

The Manning estate own that desirable property which is the subject of interest. It is not a large space ordinarily, but in this position it must be valuable. It has a 50 ft. frontage on Yonge-street and 90 ft. on Melinda-street, with neat entrances and exits.

At \$10,000 a Year.
The conditions of the new lease, which was entered upon late last night, and is not yet even endorsed by Mr. O'Neil's lawyers, Messrs. Malone & Malone, are that Mr. O'Neil takes the leasehold of the property at \$10,000 a year for 21 years, with renewable privileges for a perpetual lease, or, in other words, 400 years, 99 years of the other lease having expired. The time limit is not a cause for worry.

Of course this is only a business transaction, but it involves a certain amount of interest as to the value of property on lower Yonge-street. Take a strip of 60 ft. divided only from Yonge and Melinda-streets by the Dominion Bank and the St. Charles' Cache, is a thinking point to be stuck on somewhere.

It means a good healthy rental to the Manning estate, which is used to it, but in view of the business tendency to the north as far as Queen-street the rental which Mr. O'Neil says is \$10,000 per year for 60 ft. on Yonge-street and a frontage of 90 ft. on Melinda-street looks like a nice thing for a thoughtful speculator, but is apt to tap the doubtful vein of the dubious.

"Twill Be a One."
This deal has a large significance on the hotel situation. Many rumors are about as to what is going to happen when the new Union Hotel is built. Big hotels are the order of the day.

There is, if Mr. O'Neil tells the truth, \$75,000 to be spent on this new hotel in two years.

Before midnight Mr. O'Neil was asked by the World to define his plans, and he did. He said he would have the Webb Building repaired in five weeks at a cost of \$10,000, which was all he could afford just now, but within two years he would have it one of the big hotels of Toronto. The quiet and upstairs dining halls will be converted into bedrooms at once.

Mr. O'Neil looks upon the opening of the Traders' Bank Building as a sufficient excuse for his investment, and his display of confidence was simply great.

THE HAT HE GOT IN NAPLES.
Might Have Been Bought in Toronto Any Time These Years.

A Torontonian who recently returned from a trip over Europe told Dineen's he had bought a hat in Naples that excelled, in every way, any make of hat he had seen in America. He was asked to bring in the hat, and he said he would come day when he was passing. He wore it down town yesterday, and went to Dineen's to show off his prize. "Now," he said, "why don't you sell hats like that?" "Why don't you buy them?" the Toronto hatter asked in reply. "We have never imported that sort of hat for years, and we can send you up a case out of stock any time you order it." A funny point about the incident was that the hat cost almost as much in Naples as it would have in Toronto at the corner of Yonge and Temperance-streets.

BRITISH FLEET IS READY MAY AID SULTAN TO THINK

Ultimatum Time Limit is Up To-Morrow Midnight—Settlement is Expected.

London, May 12.—Diplomatic activity seems to foreshadow an amicable settlement of the Tabah difficulty. Both at London and Constantinople, Turkey is seeking to make an arrangement.

The latest despatches from Constantinople state the sultan's advisers counsel yielding to the British demands, and that on Thursday Turkey offered to evacuate the disputed points, but on conditions that were not acceptable to Great Britain. It is understood the decision now rests with the sultan, who is studying the matter.

Meanwhile the British naval preparations are maturing. A despatch from Athens announces that the Mediterranean fleet is ready for immediate departure. Prince Henry of Battenberg's cruiser squadron left, Phaleron Bay last night for an unknown destination. The great size of the British fleet in Turkish waters is due to the necessity of providing landing parties should Turkey continue obdurate.

It is practically certain that there will be no attempt to force the Dardanelles or make a demonstration before Constantinople. Rear Admiral Lambton's squadron at Port Said is in readiness to protect the Suez Canal should the Turks attempt to advance along the El Arish route. He has several light cruisers and torpedo boats.

The ultimatum to Turkey expires at midnight Sunday.

IN JUSTICE TO SENATOR COX

Bourassa, M.P., Corrects Inaccuracy as to Attendance and Indemnity.

Ottawa, May 11.—(Special).—Mr. Bourassa (Labelle) made an explanation to-day respecting his recent statement in the course of the "salary grab" debate. Senator Cox had accused him of one session of parliament for seven days and drew \$7000.

He desired to say that this statement was not accurate. He had consulted the report of the auditor-general, he learned, and now desired, in justice to the hon. senator, to state the actual facts. It had been in fact that he (Senator Cox) had been in attendance eight days (instead of seven) and had drawn therefore \$2160 (instead of \$7000).

INDIANS SEND FRUSTRATED AFTER THREE MEN IN A BOAT.
Victoria, B.C., May 11.—(Special).—That the pursuers of the Imperial Limited train robbers have been on the right trail is confirmed by the discovery near Campbell Meadows of three exhausted saddle horses and abandoned saddles.

Indian trackers are on a hot scent, and bloodhounds from Nelson will be put out to-morrow.

Two men were given chase near the Meadows last night, who, finding themselves the object of attention, took to the river in a boat which a companion appeared to be holding in readiness for instant use.

A boat in which were three men was later subjected to a fusillade of shots from the Indians near the upper bridge. Its occupants landing hastily on the southern bank and disappearing.

Word of a capture and a battle with the outlaws is now looked for hourly.

FISCAL REFORM THE POLICY CHAMBERLAIN STANDS BY IT

So Do Other Leaders of His Party — Regrets Government's Colonial Waverings.

(Canadian Associated Press Cable.)
London, May 11.—Addressing the Liberal Unionist Club to-night, Jos Chamberlain said the pretension that the last election had settled the fiscal question was too absurd to waste time over. With the inevitable waning of the pendulum in the future constructive program would come once more to view.

He also regretted that the new government had not shown the same continuity in the colonial as in the foreign policy.

He denied the opposition had endeavored to embitter relations with the colonies and hoped in future the government would show a more chastened spirit.

Further, Mr. Chamberlain intimated that fiscal reform was the cardinal of the party. Those who didn't accept it had a right to call themselves what they liked, but they were not in accord with the policy of the official leaders.

By the official party this is regarded as significant.

By request, Alfred Mosely to-day addressed the Association of Trade Protection Societies. In his recent visit to Canada, he said Premier Laurier told him there was ample scope for British traders in Canada, but they must go into the market and not be content with conducting their business from this side of the water.

NEARLY BURNED TO DEATH.
The legislative committee of the Trades and Labor Council are dissatisfied with the Whitney government. They claim that nothing was done at the session just concluded in favor of laboring men, and that with the federal government also the capitalist is getting in his work against labor.

At the close of the meeting last night John Platt said this was going to give rise to a strong labor agitation, and declared that in three months' time a political labor party would be formed in Toronto.

He instanced conditions in the imperial government of England, which had given rise to an upheaval of discontent. To-day the Labor party was twenty-three members in parliament.

Wales Back on English Soil.
The Prince of Wales was right enthusiastically received on his return from his tour throughout the great Empire. It is reported that he is in excellent health and high spirits.

Canadians may possibly trace his good health to the fact during his trip to India on the battlement Renown and throughout the Indian empire, he was supplied with that excellent Canadian water, radnor.

Surely, when radnor has sufficient good quality to gain such royal recognition, it should be patronized before all foreign waters by Canadians themselves.

No better mixer with wines, spirits or milk exists than radnor.

BANK OF MONTREAL STATEMENT

Montreal, May 11.—(Special).—The Bank of Montreal's statement for the six months ending April 30, issued today, shows profits amounting to \$340,562.90, compared with \$781,960.40 for the corresponding period of 1905. These profits, with the balance of profit and loss account, carried over from October, 1905, gives a total of \$1,642,418.31. From this sum two quarterly dividends of 2 1/2 per cent. on the capital stock of \$14,400,000 were paid, leaving a balance of \$922,418.31 to be carried forward to profit and loss account. The sum of \$665,156.41 was left for this purpose last year. Interest-bearing deposits increased during the half year about \$5,250,000, deposits not bearing interest by \$4,000,000, a total increase of almost \$10,000,000 over 1905.

MONTREAL STOCK EXCHANGE

HAMILTON HAPPENINGS CITIZENS' LEAGUE FORMED

Not an Exceptionally Encouraging Attendance, But a Representative Committee is Selected.

Hamilton, May 11.—(Special).—The sewers committee this afternoon decided that it had no money to bestow on the employes of the sewage disposal works, who all applied for more pay. It was agreed to have a bylaw prepared in time to be considered by the meeting of the council Monday night, providing for the laying of a sewer to drain the east end annex.

Only about a score turned out to the "mass" meeting held in the board of trade rooms this evening to form a citizens league, but all those present were influential citizens. The idea of the movement is to free municipal government from partyism and to promote morality. It is non-political and non-sectarian. The following nominating committee was appointed, and given a week to report: W. A. Robinson, F. Claringbowl, Rev. J. K. Unsworth, George Rutherford, Thomas S. Morris, Alfred Powis and A. Alexander.

Must Have Licenses. The chairman of the committees have promised to bring in a bylaw at the council meeting next Monday evening providing that all maternity hospitals and "baby farms" must be registered. The license fee will be \$5. The object of the bylaw is to bring these establishments under the inspection of the medical health officer.

The teachers of the Collegiate Institute are asking that they will make a general application for more pay. The maximum for masters of departments is now \$1400 a year.

It is rumored here that Henry Carscallen, K.C., M.L.A., will retire from the legislature to become chairman of the new railway commission. William T. Murphy, who for several years worked as a bartender in the city, is making a fight for \$75,000 from his father's estate in Ireland.

It is suspected that a pair of jewelers thieves caused a disturbance at Hamilton, N.Y., and who were identified as Frank Kelly and Mary Hennessey, are the couple who fleeced Klein & Binkley here several weeks ago.

Bringers of the Peabody-Hobson Company told the license commissioners that Inspector Birrell either has to proceed with the alleged case he has against Peabody's firm or make a public apology. A.O.F., Court Pride of Ontario, No. 6640, met at the Foresters Hall Thursday evening. Ten candidates were initiated by Chief Ranger Alex. Davidson, assisted by Sub-Chief Ranger S. Irons. Senior Past Chief Ranger John J. Haygarth spoke upon matters of the important duties entrusted to a Forester, while Secretary Bro. A. Martin ably placed before the members in general the question of insurance, bringing facts to their notice which enabled them to compare various other societies with that of the A.O.F.

During the evening Bro. Walter Harvey was introduced as a visiting member from Court Robin Hood of Toronto, and was accorded a hearty welcome.

D. N. Miller has been appointed superintendent of the street railway, and John Pearson assistant.

GRENADEER SERGEANTS DINE

The staff-sergeants and sergeants of the Royal Grenadiers held their annual dinner last night. The gathering was a large one.

The guests included Col. Galloway, Col. Ryerson, Lieut.-Col. Davidson, Lieut.-Col. Stimson, Lieut.-Col. McLean and a number of other representatives of Toronto garrison and outside corps. Major Mason was toastmaster. The toast of the "Empire" was responded to by Thos. Crawford, M.L.A., and Capt. Montgomery, Lieut.-Col. Davidson and Col. Ryerson spoke for the Canadian contingent. Lieut.-Col. Stimson, Major Gooderham and others for the commanding officer and staff, and Aid. Fleming for the city council.

TWO PASTORS IN TROUBLE

Victoria, B.C., May 11.—(Special).—The British Columbia Methodist conference meeting in this city has under consideration two serious cases. The first is that of Rev. J. J. Baer, charged with habitual drunkenness. The case has been waiting investigation for some time. Rev. John Stone of New Westminster is charged with debauchery by his own daughter.

A Birmingham, England, vicar calculates that 2 lbs. of rice are thrown at wedded couples every week at each of the seventy-five churches in Birmingham, and he says that 3000 lbs. of rice are thus wasted every year, which might be used to feed people in famine-stricken India.

H.M. battleship Cornwallis, which has been undergoing repairs at Devonport, was about to be floated out of dock when it was discovered that the stokeholds were flooded. A valve had been left open. Measures were at once taken to pump the vessel clear.

A Japanese tea-room is a feature of the new Holland-American liner Nieuw Amsterdam, which has just been delivered to the company by Messrs. Harland and Wolff. Delicately colored Japanese lanterns hang from the ceiling. On the walls are lacquered and inlaid specially procured from Japan.

Two world-famous railway engines, "The Lord of the Isles" and "The North Star," have just been sent to the scrap heap at the Great Western Railway works at Swindon, England. The company offered them in vain to Owens College and to Birmingham University. The "Lord of the Isles" was designed in 1842 by Sir Daniel Gooch, and went all over the world on exhibition.

Best old man named Alfred Whitty was charged at Halifax (England) with selling for sale articles made from turnips. They were clearly cut and beautifully painted, giving the impression at a distance that they were chrysanthemums. He was discharged.

TONGORDE AND KILLEYDALE WORK FAST MILE IN 1.42.3-4

Over Eighty Horses Arrived Yesterday—Eighteen Declared Out of King's Plate.

Yesterday was about the first fine day the trainers had had at the Woodbine this week. At that, it was a little bit on the raw side.

Tongorde, with Jockey Smith up, and Kinleydale, with one of the stable boys, were sent a mile in 1.42.3. Tongorde won by a nose.

He Found Nothing to Equal Dodd's Kidney Pills, for They Cured Him of His Trouble

Mr. W. H. Wallace is a Well Man to-day, But He Was Pretty Bad Before He Got Cured by Dodd's Kidney Pills.

Campbelltown, N.B. May 11.—(Special)—"It was a cold started my trouble," says Mr. Wallace of this place, "I am a contractor and builder and my work takes me to and fro and exposed to all weathers, so I suppose it was in that way I got cold. Any way it settled in my kidneys and made me pretty sick. I got lambo in the back, cramp in the muscles, pains in the loins, shortness of breath, a dragging pain at the loins and my urine was thick with dark sediment. Then I knew the kidneys were to blame, so I took Dodd's Kidney Pills, and they soon put me in shape and cured me so that I have had no trouble with my kidneys since."

A STRANGE POWER!

Secretly Used by Many Prominent Men and Women

To Influence the Minds of Others—Heal Themselves and Others of Chronic Diseases, Nervous Disorders and Habits as If by Magic

How Every Man, Woman and Child in the World Can Have "The Secrets of Magnetic Force, Health and Power" Absolutely Free.

Prof. F. T. McIntyre, a well-to-do scientist of this city, has created a sensation in the hypnotic world.

By blending the magnetic force of nature's mysteries he has discovered a delicate but powerful system that seems destined to revolutionize the theories of the most noted authorities on Mind Force.

Explaining the method Professor McIntyre says: "I am convinced that everybody can accomplish the things I have done if they understand the system. It would be a grand thing if every man, woman and child in this country learned the use of this wonderful but so easily understood system. There should be no more disease, immorality, drunkenness, despondency, separations, poverty or failures in the world."

"The Light Beer in the Light Bottle"

(REGISTERED)

has already become famous. The demand for it has increased by leaps and bounds, and even the immense capacity of the O'Keefe Brewery finds it hard to keep up with it.

O'KEEFE'S PILSENER LAGER

"The Light Beer in the Light Bottle"

(REGISTERED)

is brewed with filtered water, pure barley malt and choicest hops. It is filtered again before bottled and finally pasteurized. Absolutely pure, healthy and invigorating. By its flavor it is known apart from all others.

REBELS SLAUGHTER GIRLS TO RENDER BRAVES IMMUNE

Thousands of Zulus on Way to Join the Fighting Chief, Bambaata.

Durban, Natal, May 11.—Thousands of Zulus from Chief Kulu's kraal are reported to be on their way to join the rebel chief, Bambaata, and colonial troops are being hurried forward to prevent their junction.

Chief Kulu, who is suspected of disaffection and was recently arrested, was placed in jail at Pietermaritzburg today. It is presumed that this led to the arrest of this chief which led to the rising of his followers.

Natives captured by the colonial forces report that witch doctors are sacrificing children in order to render the rebels immune from British bullets. Before a battle they kill a girl and concoct a "medicine" from her body, with which they anoint the warriors.

POISONED FOR HIS MONEY.

Woman is Arrested for Alleged Crime to Secure a Bank Account.

Worcester, Mass., May 11.—Mrs. Myra Bemis of Bera Bera was arrested today on a charge of poisoning a former employe, John Hammond, whose death occurred under suspicious circumstances Nov. 27, 1905. Mrs. Bemis was later brought to Worcester.

Shortly after the man's death she is said to have presented an order to the War Savings Bank at War, directing that institution to wire to her all the money standing in the name of Hammond. This amounted to \$1200 and it is claimed that the bank turned the money over to her.

Hammond was buried under the general belief that the cause of death was alcoholism. The case will be presented to the Worcester County grand jury.

SESSIONS ARE ENDED.

Ex-Policeman Boyd Pleads Guilty—Sentences on Monday.

In the sessions yesterday R. T. Kelly, 512 East King-street, said he was not guilty of stealing a horse from Mrs. Margaret Quinn. After hearing the evidence Judge Winchester instructed the jury to return a verdict of not guilty.

John Boyd, the ex-policeman, pleaded guilty to stealing \$20 from a fellow policeman's trunk. He will be sentenced on Monday, along with others who were convicted.

This practically closes this sitting of the sessions. Judge Winchester and Crown Attorney Drayton do not believe in wasting time nor the people's money by making cases last as long as possible.

U.S. POACHERS MUST BEWARE

Fleet of Gasoline Launches Will Protect Fisheries.

Hon. Dr. Reume intends taking vigorous action to suppress the poaching being carried on by United States fishermen in Canadian waters, and to this end intends to develop a small-sized fleet of brisk gasoline launches, being a 24 horsepower craft, and it will be tried out on Lakes Erie and St. Clair, where the steamer Gilgipe, now in commission, has been found too unwieldy for effective work among the inlets and shallows. The new launch will be transferred to Georgian Bay should it prove unsuitable to the other lakes, and will help to form the nucleus of a fleet.

ELORA GRANTS BONUS.

Elora, May 11.—A bylaw was voted on by Elora today to add to the extent of \$3500 loan and exemption from municipal taxation for a period of ten years, Andrew Parker, who will put into operation an establishment for the manufacture of furniture. The bylaw carried by 187 to 5.

The First Train.

Guelph, May 11.—(Special).—The first train to pass over the Guelph and Goderich Railway line as far as Elmitra was taken Thursday afternoon. The trip was arranged by J. G. Macklin, divisional engineer, and was completed most successfully. A party of citizens accompanied him.

The line is partially ballasted from Guelph to Grand River. From Grand River to Elmitra the rails have been laid.

Returned From France.

Hon. Adelard Turgeon, minister of lands and forests for the Province of Quebec, has just returned from a visit to France. During his stay in Paris the minister was entertained at several prominent functions, including one given by the president of the republic.

Burn Burned.

Guelph, May 11.—(Special).—The home of L. West, who lives on the old Hume farm, near Arkell, was completely destroyed by fire, together with most of the contents. Mrs. Hume, who lives with Mr. West, lost all her effects. The loss is placed at \$2000.

The New Manager.

Guelph, May 11.—Logan Stewart, the new manager of the Guelph Store Co., in succession to W. Doherty, has assumed his duties. Mr. Stewart comes from Topeka, Kansas, but was formerly of Detroit, Mich.

DIDN'T APPEAR.

Woodstock Inventor, Charged With Conspiracy, Fails to Show Up.

Woodstock, May 11.—Eber B. Tree, who is charged with conspiracy to defraud, did not appear at the police court this morning. He is the inventor of a rotary engine, and was placed under arrest on Monday upon a charge of conspiracy to defraud. Bail was granted for \$5000. Tree himself, his brother and his father going surety. On Tuesday morning Tree left the city and has not returned. On Tuesday a warrant was issued for forgery upon a charge preferred by Sidney Pearson of East Zorra, who alleges that Tree deposited a duplicate note for \$1000 in one of the local banks, and that the original is in Pearson's possession. The note, given Tree, is claimed, was marked "copy."

BUTCHER CART UPSETS QUEEN

Automobile Collided With It and Occupants Were Thrown Out.

Berlin, May 11.—The Dowager Queen Emma of the Netherlands, mother of Queen Wilhelmina, was thrown from an automobile to-day at Steinfurt, Westphalia, where she was attending the silver wedding of Prince and Princess Victoria. By the treaty of marriage, Sir William gave his wife life interest in half his estate at Lambton Mills. By a will made later he gave it to his wife and on her death to O. A. Howland and after his death to Wm. Howland. He since mortgaged and sold the property. He says the clauses were put in the will by clerical error.

THE MARATHON WINNER.

Col. Hugh Clark, M.L.A., in Kin-cardine Review: Speaking about a government position for Sherring, he may be just as well without it in the long run.

We learn that the Bell Telephone Co. are green with envy of Sherring's rate for long distance.

Hamilton would never have forgiven Byron if he had married. "The Mountain looks down on Marathon."

While Sherring was a brakeman he is said to have had a good run on the G.T.R.

The Mountain looks up to Marathon. Hamiltonians were always fast, anyway.

The Greek who first ran the 26 mile race from the Marathon battlefield carries the news to Athens and who died immediately on arrival was himself a dead game sport.

The fact that Sherring was able to live in Hamilton ever since he was born proved that he had marvelous staying powers.

"Here's looking at you!" as the Mountain said to Marathon.

Two Accidents at Stratford.

Stratford, May 11.—(Special).—George Snyder, employed at the G.T.R. shops, was seriously injured to-day. He was working at a boring machine on a large casting. In some way the casting caught while the machine was revolving and was thrown with terrific force against his body. Snyder was knocked to the floor and the casting, which weighed 800 pounds, fell on his breast. He was removed to a doctor's office, where he was given morphine to alleviate the intense pain he was suffering. He is injured internally.

George Stull, an employe at Brickman & Oman's plumbing establishment, who has been in the city for three days, while at work to-day cutting a piece of galvanized iron, gashed his hand very severely.

New Dairy Instructor.

Joseph Charboneau of Plantagenet has been appointed dairy instructor to relieve the congestion of work that has piled up lately in Prescott and other eastern counties.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been she learnt to resign herself to her lonely lot? The absence of this link to bind man and wife together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they meet on the children of others. To them the largest family does not seem too numerous.

Many of our barrenest druggists possess the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, proflaps, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do, because the formulae which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

WANTS TO CHANGE WILL.

HOWLAND APPLIES TO COURT.

Sir William Pearce Howland has applied to the high court to have certain clauses in his marriage settlement struck out. Three children, Alice Muriel-Easton, Mabel and Gladys are defendants in the suit and object to the change. By the treaty of marriage, Sir William gave his wife life interest in half his estate at Lambton Mills. By a will made later he gave it to his wife and on her death to O. A. Howland and after his death to Wm. Howland. He since mortgaged and sold the property. He says the clauses were put in the will by clerical error.

Samaria Stopped His Drinking

A London Lady cures her husband permanently of the drink habit and without his knowledge.

"How glad I am that I overcame my habitation about writing you for a Free Sample of Samaria. At that time my husband was drinking very hard, and I was in despair. The effect of your treatment was immediate, and now he is entirely free from the Drink Curse. I gave my husband the tablet in his tea, and he never knew. As the taste for liquor left him, his general health improved and is now splendid—many, many thanks. I will be glad if you will tell others of my experience."

LIBRARY PLANS ACCEPTED.

Committee Decides on Wickson, Gregg & Chapman's Drawings.

The judges on the library board plans gave their decision to the board yesterday. Those submitted by Wickson & Gregg and A. H. Chapman of Toronto, who worked together, have been considered the best. The three sets coming next nearest the requirements were submitted by the following architects: Gordon & Hellwell, Toronto; J. A. MacKenzie, Toronto, and William Newlands, Kingston.

The board will meet some day next week and settle on which of these plans to accept, but the decision of the judges will likely be that of the board.

The new building, according to the plans submitted, is of classic design, in Grecian architecture. It would be constructed of grey stone and brick, and have two main entrances, one at each end of the building.

The following accounts were passed by the board: Library account, \$508.21; building and finance, \$1762.71. An order was sent in for eighty-three new books at a cost of \$138.

The reference library at the end of this month will be closed in the evenings for the season, and the central library building will be closed from June 4 to 9 for cleaning and repairs.

TRAINS IN COLLISION.

The G.T.R. officials yesterday reported \$40 damage to a baggage car which was run into by a C.P.R. special train from Lindsay colliding with it.

The special contained the members of the Prince of Wales Lodge, I.O.O.F., who were returning from a fraternal visit to the eastern town, and only for the prompt action of the C.P.R. engineer many of the passengers would have been seriously injured.

PUBLIC AMUSEMENTS.

A number of writers throughout the country, who, evidently, have the Kipling cult very much at heart, have lamented the fact that the author of the one-act play, "The Man Who Was," in which E. S. Willard is to appear on Monday at the Princess Theatre, has taken a good many liberties with Kipling's story of the same title. The purpose of the play, "The Man Who Was," is to give the competent actor an opportunity to in-

Thurston had scarcely been heard of in the City of Toronto until her appearance here four seasons ago in "The Little Minister." On that occasion a small audience greeted her but so impressed was the work of this young woman that the small audience grew more enthusiastic over the performance than in the case of many more pretentious organizations, and when this dainty comedienne returned to the city for another engagement she was greeted with an ovation. Miss Thurston's appearance at the Grand next week is of greater interest, as she will present

appear at the Majestic Theatre next week.

Virginia Earl and Her Johnnies will next week head the bill at the well-known dainty and successful comic opera star. Six "Johnnies" surround Miss Earl in her act and each has been chosen for the particular line of work in which he excels. The scene is a drawing-room, the Johnnies calling and Miss Earl putting them thru their paces. A big special feature Manager Sher has placed Les Dumonds' international singers. Les Dumonds have not been heard in Toronto in several seasons. The present one of the best comedy acts of the season, "The Two Rubies." This pair of comedy stars are new to Toronto. Patty Brothers are the cleverest head to head balancers in vaudeville. One of the distinctly novel acts on the bill is Mlle. Chester and her statue dog. Miss Chester poses in a hunting suit with this magnificent setter. Eleven changes of pose are made. The Wilson Trio will supply a number of laughs in a high-class comedy Dutch act, entitled "A Padded Collar." The Wilsons sing songs in German and introduce much "novelty" into their offering. Avery and Hari are colored entertainers, who present one of the best comedy acts of the season. The kinetograph is furnished with a full line of new films.

"The Girl in Blue" will be the feature next week, when the Tiger Lilies come to the Star. This woman is the talk of two continents, and the management has reported among the missing of a good attraction for its patrons. "The Girl in Blue" will be at every performance of the Tiger Lilies.

Shakespeare without scenery, as done by Ben Greet's admirable company, proved a most interesting and delightful entertainment. Both from the press and public, as was given last season to Richards & Pringle's Famous Georgia Minstrels. You could hear it on the streets, in hotels, on the train; in fact, everywhere, the good things that were being said of the performance; the band also came in for their share of praise. The management promises this season as good, if not a better show, than ever; they have retained the leading members from last year, and added a lot of new ones that are said to be exceptionally clever artists. They will

BUCKET BRIGADE DID NOBLY

Mining Town in Pennsylvania Was Threatened With Destruction. Pittsburgh, May 11.—Five business houses and two residences were burned to-day at Sutterville, a mining town of 2500 inhabitants, 20 miles east of Pittsburgh, on the Baltimore and Ohio Railroad.

The fire spread so rapidly that for a time it was feared the entire town would be swept by the flames. Aid was requested from this city, Connellsville and McKeesport, but before assistance arrived the fire was checked by a bucket brigade.

The loss is estimated at from \$50,000 to \$75,000.

SOIL IS OF GREAT DEPTH AND RICHNESS

Cagayan Tobacco-Yield is Enormous and of Very Finest Quality, Notwithstanding Primitive Methods Employed.

Manila, Jan. 3, 1906. Philippine Plantation Company, San Francisco, Cal. Gentlemen:

As I wired you a few days ago, after visiting the properties of your company and inspecting them carefully, I found they conformed to the description I had previously received. The plantation exceeded all my expectations, even the most rosy, and even then I did not see it under the most favorable circumstances, as the weather was partly rainy most of the time. More than 20,000 acres of the plantation were overflowed at that time. When the period of inundation is at its height, probably about 30,000 acres are overflowed. Something like 15,000 acres of the land is gently rolling and suitable for the cultivation of sugar cane. I intend sending you a sample of the soil taken from one of the hills just as we rode along and scraped it from the surface. It is a rich jet black when wet.

The country in the vicinity of the plantation is level and fairly well settled, there being several villages of 200 or 300 people in the vicinity. The road was partially flooded by recent rains, but the higher ground was fairly dry and hard, having been a stone road at one time and kept in good repair by the Spaniards. Solana is a town of 6000 population, only six miles from the plantation. Two miles further is Taguigarao, a still larger place. Along the road from Solana to the plantation we passed many fields of sugar cane, beans, corn, rice and tobacco; also many beds where the young tobacco is grown before being transplanted. Various fruits were also seen growing everywhere. Where the country is not under cultivation it is level and covered by a very heavy growth of grass. One variety of grass, frequently grows as high as a man's head.

We visited one of the plantations of the General Tobacco Company, where about 2000 acres are under cultivation.

THAT OVER WORKED, PLAYED OUT FEELING AMONG WOMEN

There are thousands of females all over our land who are broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young. Often they have pale or sallow complexion, hollow, sunken eyes, with a lifeless look; the face has a pinched and haggard appearance; they are weak, weary and trembling, often extremely nervous, starting at every little noise. Many are low-spirited, and some are fretful. Some are apparently bloodless, with cold hands and feet, while others are flushed by an unequal circulation of the blood, dizziness, and sometimes dimness of vision, loss of memory, and often loss of appetite and sleep, and are wearied with terrible dreams.

MILBURN'S HEART AND NERVE PILLS

They bring health to the broken down, energy to the weakened constitution, tone up the tired, overstrained nerves, and strengthen the weak heart. Palpitation of the heart, nervous prostration, smothering and sinking spells, shortness of breath and the sensation of pins and needles are all indications of a weakened condition of the heart or nervous system, and should any of them be present we would strongly advise the use of Milburn's Heart and Nerve Pills 50 cents per box or three boxes for \$1.25, all dealers or The T. LEAVE CORPSE AT CHURCH.

Funeral Drivers Ordered to Strike by Walking Delegate.

New York, May 11.—Several hundred funeral drivers in the boroughs of Manhattan and the Bronx went on strike to-day in support of a demand for increased wages. They contend that they are entitled to share with the funeral directors the increased scale of prices established in the last few months. They also demand that no non-union men be employed, that their union be recognized, and that their hours be shortened.

At the Church of the Guardian Angel, in West 23rd-street, while funeral services were in progress a walking delegate ordered the drivers, who had brought the party to the church, to leave. They obeyed, taking the horses and their carriages with them. Before those in the church discovered the loss of their vehicle the pall-bearers had borne out the casket. It was placed on the sidewalk until an undertaker's wagon had been secured. The mourners and friends went to the cemetery on street cars.

Train Smashes Trolley. Chattanooga, Tenn., May 11.—An incoming train on the Chattanooga Southern Railroad struck and crushed the Chattanooga Electric Line to-day. Two men were killed and a third received probably fatal injuries.

Woodenware Men Claim Unfair Competition as Result.

A deputation of manufacturers waited upon the premier yesterday to protest against the contract which delivered to Taylor-Scott & Co. the woodenware products of labor at Central Prison. It was claimed that the firm, which really consists of one person, Ellen Charlotte Taylor, trading under her name, was supplied with woodenware at from 23 1/3 to 75 per cent below the actual cost of the labor to other manufacturers, who were unable to compete.

A number of items were submitted, among them that of flooring, which is supplied under government contract at 50 cents a thousand feet, lumber measure, while it is claimed, the ordinary cost of manufacture was from \$6 to \$8 per thousand.

The deputation, which was introduced by Mr. McNaught, was made up of Chas. Boehk, H. S. Cameron, Newman, W. Seaman, Y. P. Darboz and S. W. McKeeown, solicitor.

Coffee Hurts One in Three

It is difficult to make people believe that coffee is an absolute poison to at least one person out of every three, but people are slowly finding it out, although thousands of them suffer terribly before they discover the fact.

A New York hotel man says: "Each time after drinking coffee I became restless, nervous and excited, so that I was unable to sleep five minutes in one place, was also inclined to vomit, and suffered from loss of sleep, which got worse and worse."

"A lady said that perhaps coffee was the cause of my trouble, and suggested that I try Postum Food Coffee. I laughed at the thought that coffee hurt me, but she insisted so hard that I finally had some Postum made. I have been using it in place of coffee ever since, for I noticed that all my former nervousness and irritation disappeared. I began to sleep perfectly, and the Postum tasted as good or better than the coffee, so what was the use of sticking to a beverage that was ruining me?"

One day on an excursion up the country I remarked to a young lady friend on her greatly improved appearance. She explained that some time before she had quit using coffee and taken Postum. She had gained a number of pounds and her former palpitation of the heart, humming in the ears, trembling of the hands and legs and other disagreeable feelings had disappeared. She recommended me to quit coffee and take Postum and was very much surprised to find that I had already made the change.

"The doctor's brother had also received benefits from leaving off coffee in taking on Postum Food Coffee."

"There's a reason."

BANKING MISCONDUCTED. SYMONS WAS GIVEN LOANS

Hard Times Are Due to Sending Money to Foreign Lands.

What may be the nucleus of an organization to discuss banking systems and financial investments was the gathering of a few business men in Broadway Hall last night to hear an address by W. M. Hall on "Banking Systems."

The system of banking as revealed by Mr. Hall incited the audience, small as it was, to act with a view to enlightening the public on the question through a course of lectures.

The present system of banking, according to Mr. Hall, was accountable for any hard times there may be in this country. There was no other country that provided banks for other countries. He had no doubt that all the capital of the banks was used in the United States, and the reason for hard times was simply due to the circulation of the country's money in foreign lands.

The fault in the present system was the cornering of credit notes, thus preventing a normal clearance by continuing or suspending their own liabilities. The remedy in the present separation of the savings bank and the bank proper.

PITY THE POOR BONDHOLDER

Injunction in His Behalf Against Gotham's Gas Law.

New York, May 11.—A complaint was filed to-day in the United States Circuit Court by the Central Trust Co. of New York against the New Amsterdam Gas Co. by the attorney-general of the State of New York, District Attorney Jerome and the three members of the state gas and electricity commission, the object of which is to prevent the enforcement of 80 cent gas law. The trust company states it is the trustee of an issue of the bonds of the New Amsterdam Gas Co. amounting to \$20,000,000 and that if the new law is enforced the gas company would be unable to meet the interest charges, thereby making a hardship on the bondholders, who will, it is claimed, be deprived of their property rights without due process of law.

ENOCH ARDEN TRAGEDY.

Husband Returns and Finds His Wife Remarried.

An Enoch Arden tragedy came to light in Paris recently, when Jacques Briset returned after three years' absence, and on learning from his wife that she had remarried, fell dead at her feet.

Briset ran away to Belgium with a music-hall singer three years ago. He took with him \$100 of his employer's money and left his penniless wife the burden of supporting two children.

About a year ago she was informed that her husband had been found dead, with his throat cut, on a road near Lille, and her husband's passport and other papers were handed to her.

Soon afterwards M. Courty, a neighbor, asked her to be his wife, and they were married and lived happily together.

While M. Courty was away from home yesterday there was a knock at the door. Mme. Courty went to see who was there, and found a thin man, with hair almost white.

Before she could ask what he wanted he fell down on the floor, and she called her pardon. In bewilderment the woman asked what there was for pardon, and then he told her that he was Briset, her husband.

He said that his life with the music-hall singer had been most unhappy. His wife had left him, and he had had fallen into the hands of a man who robbed him of his last penny. For the last two days he had eaten nothing but bread and butter.

He was eating related the history of the past two years. When she came to the account of her marriage, Briset set up a convulsive start and fell dead at her feet.

M. Courty, who had unwittingly committed bigamy, was taken to the morgue, and a second wife of Courty after they have both attended Briset's funeral.

WHOLE FAMILY POISONED.

One is Dead, Others Very Ill, After Eating Beef Steak.

Rochester, N.Y., May 11.—A whole family named Oppenheimer, living on Russell-street, were taken violently ill to-night after eating supper. One, the eldest daughter, aged 24, died about 10 o'clock to-night. The father, another daughter and two sons are in a precarious condition.

The family had beefsteak for supper, and it is believed this contained some poison.

All were taken ill about the same time. One of the boys had the same sense of mind to telephone for a doctor, or they would have all died.

DAVE HILL BEFORE THE BAR.

New York, May 11.—An investigation into the relations of former Senator David B. Hill to the Equitable Life Assurance Society was begun to-day by a special sub-committee, appointed by the grievance committee of the New York Bar Association.

"Were you not consulted about the enactment of insurance legislation?" "No, sir, never," replied Mr. Hill.

Attacked in Darkened Hall. Johnstown, Pa., May 11.—Thomas Jones of Philadelphia and George Beck of Boston were arrested at Windber to-day charged with felonious assault with intent to kill.

It is charged the men attacked Jos. Genter, organizer of the United Mine Workers of America, and injured him seriously. Beck and Jones were stopping at the same hotel as Genter, and last night called him out of his room on the pretence that he was wanted at the telephone.

As Genter passed thru the darkened halls of the hotel he was set upon and badly beaten.

Doctor Advised An Operation.

Mrs. Chas. F. Smith of 3 Wallace-avenue, Toronto, is so grateful for the remarkable cure she obtained from Dr. Chase's Ointment that she states her experience for the benefit of sister sufferers.

Mrs. Smith writes as follows: "I was in continual torment for nineteen years with that terrible disease, itching, bleeding piles, and notwithstanding all the remedies and doctors' treatments I was unable to get any but slight temporary relief. The doctor advised an operation, but my husband objected, and it seemed as if I was to suffer for all time to come, when I was told of the wonderful effect Dr. Chase's Ointment had on that complaint."

"I have since used it and found it really marvelous in its action, soothing and healing very quickly, for since using two boxes the parts are entirely healed and the itching and bleeding permanently ceased. Considering the length of time I suffered, the change and freedom from pain is a great relief. I honestly believe that Dr. Chase's Ointment is the only positive cure for piles."

Dr. Chase's Ointment is the only positive cure for piles—a box, at all dealers, or Edmanson, Bates & Co., Toronto.

150 FUNERALS DELAYED.

New York Strike Which Has Ghostly Features.

New York, May 11.—The strike of 1500 funeral drivers ordered last night tied up the undertaking business in New York City so completely that 150 bodies remained unburied.

Hearses and carriages were driven away from churches, mourners were kept waiting all day in homes of dead, and in several instances non-union drivers of hearses and carriages were attacked in the street, and police protection had to be called.

In many cases undertakers appealed to the board of health for permits to postpone burials beyond the four-day limit, while others asked for permission to convey bodies to the cemetery on trucks or street cars under police protection.

In every case permission to use street cars for funerals was denied, but in cases where death had resulted from contagious disease, and immediate burial was required, undertakers were forced to make use of caskets or street cars.

The strikers declared to-night their fight for \$14 a week was denied. Their employers, the Coach Owners' Association, met to-night and decided not to grant the increase.

COLLUSION CHARGED.

Chicago, May 11.—Direct charges of collusion between the Standard Oil Co. and the Illinois and Iron Mountain Railroad were made during to-day's hearing before the interstate commerce commission.

Crying Sin Against Health

Why the Usefulness of All Organs is Destroyed by Costiveness.

Most important to health and comfort in proper action of the bowels. By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, bring on nervousness and anaemia.

Habitual costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is exactly consistent with nature.

Not a drastic purgative—not even a pain or sensation of grip, because Dr. Hamilton's Pills are vegetable and free from irritating mineral substances found in so many widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring sure relief from headache, biliousness and other manifestations of constipation.

James McConnell of Walkerton writes: "Since I was comparatively a young man I have not enjoyed real good health."

"My appetite was good and strength kept up, yet I knew something was wrong."

"Frequently I took bilious attacks and violent headaches. My stomach was disordered, skin was murky, under my eyes were heavy dark rings."

"Last winter I read through the 'Polson's' almanack and decided my trouble was constipation. I used Dr. Hamilton's Pills, and can hardly tell the help they have been. I am now as fresh, strong and well as a boy."

Just try the wonderful magic of Dr. Hamilton's Pills. Sold by all dealers. 25c per box or five boxes for \$1.00. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

GETS HIS MEDAL BACK.

Bob Newman Recovers '45 Souvenir Under Peculiar Circumstances.

As many know, R. C. Newman, stage manager of Shea's Theatre, is a veteran of the Northwest rebellion as a private in the Royal Grenadiers. He was one of those presented with a medal by Gen. Middleton. In 1887, two years after the war was over, the medal was stolen from Mr. Newman.

Yesterday Mr. Newman was talking reminiscences with John Woods of the Arcade Printing Co., 106 East King-street. Mr. Woods remarked that his aunt had one of the 1885 medals, which she had purchased in a second-hand store. Newman mentioned he had lost his medal and told Woods his name.

Last night Newman had his medal

Important, if True.

In the obituary notice of a prominent citizen Detroit newspaper remarks: "Of his careful and most successful conduct of his late office, of his unscrupulous sense of duty and extreme watchfulness no record here has been made."

This is important, if true. A man with an unscrupulous sense of duty is rare—extremely rare. And a "late office" is equally so.

MRS. BECK STILL WINNING.

Adds Three More Blue Ribbons—Other Winners at Montreal.

Montreal, May 11.—(Special.)—With a diminution of attendance, but none in the quality of the exhibits, the third day of the horse show was rounded out by the Corinthian class to-night, in which R. A. Allan's "Pat" took the blue ribbon.

The success following Mrs. Adam Beck's entries was again in evidence when she added three blue ribbons, a total of ten in three days. Her victories were in the harness class, the heavyweight green hunters, and dress pairs.

Miss Wilks of Galt showed Rhea W. in the roadster class and won, making three wins in these classes. Western horses were fairly successful in the harness classes, taking two of the three blue ribbons, while local exhibitors, with the exception of Mr. Allan, had to be content with being placed.

"Pat" managed to beat such horses as Cloth of Gold, Sir Robert, Kakabeka, and the fine entries of Joseph Kilgour of Toronto. The Wasp, the Crow and Murray performer, won in the harness tandem, ladies to drive. Mrs. Beck won with Kakabeka, while Gloaming and Dawn, two Kilgour entries, were second and third. In the harness tandem, ladies to drive, Mrs. Beck's pair had the ribbon all the way, two local entries taking second and third. In the harness pairs at night, H. H. Beck took a white ribbon, two entries of Mrs. Beck were first and second, while a Pepper pair were third.

One of the notable things has been the non-success of George Pepper, who is usually counted upon for a large share of the ribbons.

CUBA--The Land of Sunshine

Canada-Cuba Land and Fruit Co., Limited.

HEAD OFFICE: MANNING ARCADE 24 KING STREET WEST, TORONTO.

President, Harold B. Robinson, Esq.; Vice-Pres., James Curry, Esq. Directors, Messrs. Whitford Vandusen, John J. Main, W. C. Eddis, Horace Bascom, M. D., H. W. Maw, C. H. Thompson. Managing Director, Geo. F. Davis. Manager and Legal Adviser in Cuba, J. Walter Curry, K. C.

The company's estate covers over 140 square miles of the best fruit, vegetable and tobacco lands to be found, and is now under the able management, in Cuba, of Mr. James W. Curry, the former crown-attorney of Toronto, who is now residing on the company's estate.

This company own and operate over 100 of the finest tobacco plantations, producing the highest grade of tobacco to be found in the world, and are at the present time clearing and planting orange plantations in various parts of the estate for the company's benefit.

On and after August 15 next, the price of all this company's land will be increased to \$40 per acre; up to that date the price will be \$20 per acre, so buy now and make money.

By purchasing now, you can have your land put under cultivation and planted with oranges, by the company at the lowest possible cost, thus pre-

paring for you a future home and a sure independency for life, even if you do not desire to go to the property for a year or more.

It is to the interest of the company to locate for its purchasers in the best positions and most desirable lands possible, free from rock or swamp, and that will grow all kinds of citrus fruits and vegetables. At this price \$20 per acre, it is an opportunity that will never occur again. Remember, no frost, snow or freeze-outs. One perpetual June. No extreme heat. Florida orange-growers are removing to Cuba because they have suffered so extremely by freeze-outs in Florida that they will never take chances when they can purchase a home in Cuba.

This is an opportunity now offered to the public of purchasing some of the choicest fruit, vegetable and tobacco lands at the low price of \$20 per acre, which land is bound to double in value within a short period. We have

only one price, \$20 per acre. The same lands, we have no hesitation in saying, will realize over \$60 per acre within two years' time, and are unsurpassed for the profitable growing of all kinds of citrus fruits, oranges, lemons, pineapples, grape fruit and all small fruits. It has been demonstrated beyond doubt that every variety of vegetable grown in Canada is now growing on our estate, and when shipped during the winter months they bring the highest prices in the northern markets. Our property will be made a magnificent fruit orchard and a huge winter vegetable garden, requiring only ordinary effort to reap rich reward. An orange plantation means a sure independency for life, with the least outlay of any business known. Ocean Beach is fast becoming famous for the fertility of its soil; its climate and its beautiful sandy beach and crystal waters for bathing, boating, fishing and general sport render it an ideal health resort, while as a permanent place of residence it cannot be surpassed.

OLD "HEADLAND" CLAIM INVOLVED IN SEIZURES

Capture of Yankee Fishing Smacks Adds Another to Vexatious Cases to Settle.

Washington, May 11.—The seizure by Canadian cruisers of the fishing smacks Rayman of Boston and Parthia of Gloucester adds another to the many vexatious cases of this kind, regarding which the state department is now preparing to negotiate directly with the British government.

It is pointed out, however, that from the press reports these new cases appear to differ essentially from those of

the Gloucester boats seized a month ago off the Newfoundland coast and brought into St. John's. While it is a debatable question as to whether the Newfoundland authorities were within their rights in arresting the Gloucester fishermen, who were there under the terms of the treaty of 1818, granting them equal privileges with British subjects in the shore waters, no such claim is made by the state department here as to the waters of New Brunswick or Nova Scotia, and no American fisherman has the right to trawl therein without the consent of the authorities. It is conjectured that this case, however, may involve a construction of the old and long-disputed "head land" claim, and that the American fishing boats, while within an imaginary line drawn from head land to head land on the Nova Scotia coast, near Cape North, were actually more than a marine league distant from the nearest shore, and so were within their rights. This is a question to be determined by the court before which the capturing of the vessels will appear, and these facts must be awaited by the state department before it undertakes to make any representations in the case.

While President Louzon of Toronto University has conveyed to Premier Whitney notice of intention to resign, the step has not yet been taken nor has any date been set.

President Louzon said last night he had no statement to make on the matter.

SPIER HEAVILY INVOLVED LOST MONEY IN STOCKS

In His Transactions, He Made Improper Use of Securities Entrusted to His Keeping.

New York, May 11.—Investigations which followed the mysterious death of Charles L. Spier, confidential agent for H. H. Rogers, who died from a bullet wound several days ago, disclose the fact that his financial affairs were more involved than at first thought. Expert accountants who had been retained by Mr. Rogers to examine Spier's books, have uncovered some discrepancies, and to-day it developed that Spier had been speculating in the stock market for many months, and that securities owned by Mr. Rogers had been deposited.

One lot, valued at \$180,000, which had been deposited with the brokerage firm of Keck, Loew & Co., figured most prominently in to-day's disclosures. These securities, a member of the firm said, were returned to Spier upon his promise to replace them. The promise was not kept.

It has been developed by the present investigation that Spier had been pressed by Mr. Rogers for the securities, and that when he got them from the brokerage house and made return to Mr. Rogers, the latter entrusted him with \$840,000 worth of bonds of a new company.

The investigation of Spier's accounts has not been completed, and it is not yet known whether his shortage will exceed the \$180,000 already found. F. S. Keck of the firm of Keck, Loew & Co., made the following statement to-night: "As statements of our possible loss thru the late Charles L. Spier have been greatly exaggerated, we wish to state that the maximum loss possible to us in this account is \$275,500. This neglects entirely claims for securities and moneys sufficient to cover the whole amount, which claims we regard in every way as legitimate."

OFF TO BARTLE.

New York, Wednesday, May 9, 1906.—(Special.)—The official photographer of the Munson Steamship Line was on hand to-day at pier 6 in Brooklyn, when the Munson steamship "Olinde" weighed anchor for Cuba. More than one-half the whole passenger list of the vessel was booked for Bartle, Cuba, the progressive town founded by a Canadian enterprise.

Just before the vessel sailed a group picture was taken of those booked for Bartle, arranged on the deck of the vessel, with Mr. Duncan O. Bull, the general manager of the Cuban Realty Company, in the centre of the group. Mr. C. C. Downey of New York, the president and general manager of the J. B. Brewster Company, carriage works, who is also vice-president of the Cuban Realty Company, and Mr. W. P. Bull, barrister, of Toronto, were at the vessel.

The party who were sailing for Bartle included men, women and children; some from Brampton, Ont., some from Hamilton, some from Toronto and others from Lindsay and different points in Ontario. In addition to this there were some from various parts of the United States.

About one-half of the party had visited Bartle and various other parts of Cuba during the past winter and had returned to their homes in Canada and the States to wind up their business, and were on their way back to Bartle to permanently settle there, while others of the party were going to Bartle for the first time in order to inspect lands and property which they had purchased there.

Duncan Bull stated that he would return to his office in New York within a fortnight, and that a number of other parties were being arranged to sail for Bartle by the various steamers going during the spring and summer. Your correspondent met at the pier, Mr. Hanson of Nuevitas, who had just arrived in New York on a steamer. In conversation, Mr. Hanson stated that the development of the Bartle colony had been under the most progressive and substantial lines and spoken most highly of the treatment it had always given its people, and of the high position it occupied from a financial, commercial and social standpoint, and certainly to better class of people have ever sailed for any city or country than those that left this port to-day for Bartle.

CLINICAL EXAMS.

Why Not Travel the Electric Belt Line to Health and Strength?

Is the skeleton in your cupboard, as with thousands of others, some complaint for which you are unable to get a cure? In the frantic struggle to regain lost health, millions of dollars are secretly spent by many who vainly try to travel the Drug and Doctor Routes to Health. You are but one among many.

I am called a Specialist of Last Resort. Why? Ultimately by means of my Belt I seem to get and cure nearly all those cases which before no method has been able to remedy. If then your case is not far advanced, judge for yourself how easy it is for my Belt to cure it!

Back of my cure is the use of the strongest and most potent healing force in the world, ELECTRICITY. Prolonged study and experiment have enabled me to harness this vital life-giving, magnetic power—the basis of all animal vitality—to a scientific method of healing mankind of their weaknesses.

Dr. McLaughlin's Electric Belt

is the grandest remedy of the twentieth century for renewing lost vitality. From the start, the use of the Belt alleviates pain. Into every fibre and particle of your being it pours the foundation of new life, new energy, new strength—ELECTRICITY. People who they feel ten to fifteen years younger. Their gratitude is unlimited. My treatment turns gloom into joy, sickness into health. If you are weak and puny, feel despondent and unable to attack the problems of life with that strenuous energy which spells victory, I can reverse all this and make you feel as well as ever.

PAY WHEN CURED

Is the offer I am making to any man who wishes to regain his strength and vitality. All I ask is security for the belt while you wear it.

Dr. M. J. McLAUGHLIN, 112 York St., Toronto, Can.

WHAT THE CURED SAY

I can express my opinion of your Belt and its effects in my case in a very few words. It cured me. Chas. Jackman, Killeth, Ont.
I have been cured of weakness and varicocele and feel like a different man; would not be without your Belt for any money. D. Jannison, Steelton, Ont.
Your Belt cured me and I feel like a new man. Fred, J. Cuterback, Brockville, Ont.
I cannot say too much for your Belt. It is better than drugs. John Guergens, Neustadt, Ont.
Since using the Belt I have never been troubled with rheumatism. John Crawley, Collingwood, Ont.

Thin Blood

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla! Sixty years of curing thin blood, weak nerves, general debility! We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks it will do for your case. Then do precisely as he says.

ONE WAY STOCK MARKETS CONTINUING IN EFFECT

Both at New York and Toronto—Canadian Securities Make Some Advances.

Friday Evening, May 11. The one irregular and depressing incident in to-day's at least superficially buoyant market was a further decline in Canadian General Electric of two points, the selling in this issue appeared to be urgent and the results of an accumulation. At the bottom, 141,700 shares were transferred after an opening price of 142 1/2. Several theories were advanced for the price movements of this stock, but the one that found chief favor was that the portion of a large speculative block of the security which has been hanging over the market for over a year, was being disposed of by parties to whom the shares were hypothecated. Traders were, however, suspicious of the whole operation and the subsequent rally of 2 1/2 points gave the impression that the early drop was for effect, and as on previous manipulations, the precursor to a later rise. The market as a whole was a good deal better than on any previous day in the week, and with some irregularity prices throughout were supported to a higher level. Among the specialties Mackay and Sao Paulo were put higher than yesterday, the former reaching a new high record in this market at 68. A number of the directors was stated to be taking place to-day at New York, at which some action as to the next dividend was expected. No new gossip was forthcoming on any issue in the market, and the only outside news to be noted was the published transactions. The bank shares were kept in a state of fair activity at steady prices, in the case of Hamilton a small further advance was made. The close was steady to firm, with the support well maintained.

Ernie & Stoppani report the close on Cons. Ledge Superior, 19 1/2 to 20; do bonds, 82 to 83.

St. Paul pushing work on extension from Missouri River to Seattle from several points at once.

B.R.T. shows increase of 14 per cent. in fares paid during the first quarter of 1906.

Money sent to San Francisco now totals \$33,702,000. Return movement should set in soon.

Slight changes in Steel and Iron prices during past week.

Fair demand for stocks in the loan crowd.

No prospect of dividend on Babber commencing this year. Babber reports after dividends paid \$1,053,178.

Lackawanna surplus after charges equal to 30.23 per cent. on capital stock.

Banks have lost \$400,000 to sub-treasury since Friday last.

Eric is tipped for a substantial upward movement. For some time the stock has acted well and there are indications of steady accumulation, and we believe it will go much higher.—Town Topics.

Blayden to R. R. Bondard: Talk of increased dividend, 6 per cent. rate, on Twin City next month. The best buying was yesterday by W. A. Bondard & Co., rest speculative buying.

According to the advice \$400,000 in gold left Australia to-day for Vancouver, while there was a shipment of the yellow metal to the amount of \$200,000 from Cape Town for London. In the London market bar gold and American eagles both declined.

The March earnings of the Southern Pacific Company, which are usually published coincident with those of the Union Pacific, will not be out for some time. The San Francisco fire destroyed most of the records of the company, kept in that city.

The known movements of money for the week ended with the close of business yesterday show a net gain of \$3,000,000 for the local banks of \$5,000,000; of this amount \$3,000,000 represents the net gain from the direct express and the balance was made up by the banks gaining in addition from the sub-treasury \$2,000,000. The sub-treasury record shows that the banks have lost \$400,000 but this does not credit them with \$2,400,000 gold coin received from Europe.

Joseph says: Pacific will assuredly go better. Mo. P. is likewise going up. The Grand roads will fare comparatively well this year. Buy Washabes and M.P. cautiously. Keep long of the steels and do not let the amount of the Superior Pump sell at 75. Hold B.R.T., 4's for big money.

Boston, May 11.—The local market has been fairly active, with prices irregular. North Butte and Shannon, the leaders yesterday, lagged to-day. Butte selling to 83 1/2 and Shannon to 94. Bingham sold at 103 1/2; Boston Consolidated rose 2 points to 28 1/2; Copper Range to 77 1/2; Osceola to 107 1/2; Mohawk to 62 1/2; Franklin rose strongly to 18 1/2; Utah Consolidated sold at 62 and 61 1/2. Telephone rose to 19 1/2. Dominion Steel sold at 30 and 30 1/2, closing 30 to 30 1/2. Dominion Coal sold at 74 1/2.

A wager of \$50 was made in a Toronto street broker's office some days ago when Mackay was selling at 62, that it would sell at 75 before Richelieu reached par. Toronto's greatest speculator took the Richelieu and of the bet, while a well-known Toronto street real estate man favored Mackay. It looks now as if the real estate man had the best of it.

MAYOR IS A GREAT DRIVER DODGED PAVEMENT HOLES

Engineer Has 21 Repair Gangs at Work—Ward Must Make Good—City Hall Matters.

Skilfully manipulating the reins guiding two brave bay steeds dragging a carriage similar to the vehicle that takes the country people to church, Mayor Coatsworth proved that the Canadian Horse Show is a great educator and the civic grant is vindicated.

Mayor Coatsworth's drive was akin to that of the expert artillerymen, who dodge in and out of obstacles by fractions of an inch. In some cases several fractions were necessary on this drive, for his worship was trying to dodge the holes in the pavements. The reason he tried to dodge them was because he wanted to see them.

With him were Controllers Shaw and Jones, and City Engineer Rust.

This is the open season for holes on main thoroughfares, and the municipal party had no difficulty in locating the shoals of them. The fact that the party came back without bodily harm is a tribute to Mayor Coatsworth's equestrian skill. They found all kinds of holes, excepting caves, on the pavements along Yonge, King, Queen, Jarvis and Sherbourne-streets. Many

were missed because they could not see them on account of the dust. The water cart brigade had headed them, but only once when several applications were necessary. Each street they visited resembled somewhat a map of the thousand islands with a lot of little extra islands thrown in to keep the others from becoming lonesome.

The engineer explained that he had 21 gangs of men at work filling up holes, and that in a month or so there would be nearly so many unless a lot more are made in the meantime. A vast improvement is promised, and Mayor Coatsworth, slightly burned by the spring sun and warmed up by the numerous jolts, was enthusiastic when he got out of the rig. Whether his enthusiasm was the result of getting out of the rig or due to the engineer's assurances is not stated.

Shaw Saw the Holes.

Controller John Shaw is an older man than the mayor, and he found quite a difference in the way the streets are and the way they used to be. He doesn't want to be quoted as to what he thinks of their condition, but only in what he says. His family journal could not quote what he thinks about it, but he says that repairs will have to be made on a most vigorous plan in order to get the streets into respectable shape. The mayor intimates that only the main streets are in the condition to be remarked upon in the profane line of vocabulary, but the tributary streets, which were taken by the party once in a while, possibly to rest the horses and allow the passengers' works to settle, were in a state to be quite cozy after what had been seen and felt.

The dust was worse yesterday than heretofore this season. It got into everywhere. A hide and seek wind picked it up, dropped it and then turned it all back again. Sore eyes are the order of the hour.

The numerous local improvements were hampered too by the vagaries of the wind. Much sand was deposited where it was not needed, and more was taken away from where it was wanted.

Solicitor After Ward.

The island committee had a long talk yesterday afternoon regarding Wm. Ward's relations to the city. It culminated in the city solicitor being instructed to take all necessary steps to bring Mr. Ward to time to make him pay what he admits he owes the city, and to get his neglected lease of city property properly attended to.

The committee endorsed a plan for a 60 foot roadway along the right bank from Chippewa-avenue to the brook-water.

Don't Like Environment.

The board of trade wants the Central Prison removed from the city as soon as it can be managed by the government, because too many sympathizers with inmates hang around the closed-in place. Some reflections were cast upon the efficiency of the police force by Vice-President Woods, who thought it queer that three explosions should occur in one night without a policeman hearing them. The locality is really indigestible. In the day-time little bunches of loafers lie around on the grass plots and cut off timid respectable people from the beauties of the property adjacent to the old fort, which is a natural park on the lake front.

The request was a puzzle to the board, but the mayor as usual promised that consideration would be given to the complaint.

As the summer season threatens to come on a lot of the nice people in the locality hope the consideration will be serious.

Observatory Will Stay.

Mr. Weatherman Stupart had a talk with the mayor yesterday because the Ottawa powers had notified him that the observatory was to remain in Toronto and temporary quarters, as offered by the city and the Ontario government were required. It is likely the government's offer will be accepted.

Can Force New Pavement.

The matter of resurfacing Jarvis-street is being left over for a day or two. The pavement has been down for sixteen years and a two-thirds vote of council can force a new pavement, instead of resurfacing at the expense of the city.

There was another squabble in the board of control yesterday regarding

Wm. Mackenzie's way of doing what he pleases with Edmund-street, some residents of the district protesting, some matters were discussed privately by the city solicitor and the controllers.

Numerous immigrants apply at the city relief office for food and clothing, but they are sent back to the immigration offices. The number of unemployed is increasing every day.

\$4000 for Commissioner.

Controller Jones has intimated that \$4000 should be the salary for his appointee as commissioner of industries. He will officially say so two weeks hence if he does not change his mind. Talk about it is spreading rapidly.

Where He Can See It.

The engineer is glad the government is not going to put down a pneumatic tube system for the postoffice department in Toronto. He prefers having the system where it can be seen, as the hidden expensive operation in the United States have not been a glorious success.

Another T. S. R. Suit.

The Toronto Railway Company is asking the courts to interpret the Toronto Railway Company agreement of 1891 with the city and George W. Kieley et al in regard to repairs of track allowances. It seems to be another time-saver on technicalities which are doubted. The company holds that the city is liable for the construction, renewal and repair of payments on the track allowances in return for the mileage pavement allowance in numerous cases. The company asks that the city may regulate but not prohibit, the laying of tracks. It also asks the court to declare that the city is not empowered under the agreement to order time-tables and street routes for the operation of the cars.

ASKED TO HAVE COUNSEL AT RAILWAY COMMISSION

Board of Trade, However, Desire Only Businesslike Decision on a Long Standing Complaint

A board of trade deputation, which appeared before the railway commission yesterday morning, was rather shocked by a suggestion tendered by Chairman Killam.

In connection with the board of trade's long standing (since 1904 in fact) application for a reduction of freight rates through the province the following deputation waited on the railway commission yesterday—Peleg Howland, president; Hugh Blair, Jas. Woods and Secretary Morley. They were informed that the commission would be unable to hear the case until during the last week in May. Judge Killam went further and suggested that the board of trade be represented by counsel, as it was customary for companies appearing to be so represented. He could also give precedents in England and the United States. The railways were represented by counsel, and he thought it was fairer.

“I think that the board of trade should be either represented or accompanied here by counsel. Only in this way can its interests be fully protected,” said the chairman.

“I am very sorry to hear that statement,” said Mr. Howland. “I think it should not be necessary for the board to hire a lawyer in order to get justice. That is all we want. A fair businesslike judgment after a fair businesslike enquiry.” The board already placed tariffs before the commission, which showed plainly that discrimination was practised.

Judge Killam replied that the commission constituted no greater protection to an appellant than did any other court. The commission would in any event, however, endeavor to make the best enquiry possible.

The Davies Case.

The commission then resumed with the Davies matter. W. D. Miller for the company asked to have a statement of Messrs. packer of Peterboro, concerning rebates. On a protest by A. G. Blair, the commission declined to accept the statement.

W. B. Bulling, assistant freight manager of the C.P.R., said he believed the Davies Case had a rebate of 2c a cwt. He knew of no others similarly favored.

In argument on the Davies case, Mr. Miller said comparisons should be made with United States rates which complainants had to compete with.

“The saturated experience of twenty-five years’ of the railway officials,” he continued, “has not enabled them to know, generally speaking, what is the rate per ton per mile between Toronto and Montreal.” The Davies Company did not claim that because they had had an unprofitable year the railways should per bushel between Toronto and Montreal was a reasonable rate.

F. H. Chrysalis for the Grand Trunk, declared that the present rate was a variable one, and the now 18 cents, it was apt to go up or down, according to the Chicago market, the sliding scale being fixed by the board. Such a rate was not likely to go any higher, but it might easily go below even 16 cents, as it had last summer. Mr. Chrysalis said that water competition did affect the rates, even the no packing-house products were carried by boat.

Mr. Blair argued that the Davies people were making the complaint because they had previously had a lower rate. The packing company could not demand on any facts disclosed in evidence. He ridiculed Mr. Miller, who had formerly been a clerk in a railway office, and now undertook to teach men of long experience in rate-making.

“I do not know of any man who can tell the mark of profit, because there is no mathematical process by which it can be figured out. If Mr. Miller can demand that every railway in the world,” commented Mr. Blair.

Mr. Blair thought it remarkable that no other packers appeared before the commission. The Davies Company, who had a “pull” had enjoyed a rebate and a special rate.

Time is Valuable.

Mr. Blair spoke about an hour. He was cut short with a reminder from Chairman Killam that brevity was a desideratum.

“Can't you cut it short, Mr. Blair?” said the chairman. “This case is dragging out too long.”

Mr. Blair thought that the commissioners might not realize how important the case was.

“I will have to ask you to condense your argument,” persisted Judge Killam. “If all the cases like this which come before us take up as much time as this it will be impossible for the board to do its business.”

The matter of lower rates west than east then became the subject of discussion. The complaint was made by Stauntons, Limited, wall paper manufacturers, who claimed that the difference allowed the Montreal manufacturer to sell cheaper in Toronto than Stauntons could in Montreal. It was shown that the rates west were cheaper because of the great traffic in from the west when the grain began coming in. The manufacturers of the east went west.

RAILWAY MAKES PROGRESS.

The Temiskaming Railway returns for the quarter ending March 31 show earnings of \$98,996, with operating expenses of \$60,631, the net earnings being \$38,364. The railway's first quarter of last year, comprising 3 1/2 months, showed earnings of \$25,235, with expenses of \$21,895, or a balance of \$3,340. Thus there is an increase this year over last in net earnings of about \$35,000, while the ratio of running expenses to receipts is only 61.2 per cent, as against 86 per cent last year.

Capt. Robertson on Out of It.

Montreal, May 11.—It is announced that Capt. R. A. Robertson, 13th Regiment, will not go to Bielew.

Capt. Robertson stood third on the Bielew twenty. It will be a disappointment to all that, for business reasons, he cannot go with the Canadian team this year.

OBITUARY.

R. A. Brennan.

R. A. Brennan, a music teacher, formerly of Toronto, is dead, at Detroit, the result of a fall in stepping off a street car, which gave him concussion of the brain. His demise will be deeply regretted by his many friends and former pupils here. He is survived by his widow and one niece Mrs. Chas. K. Judson of Detroit, and three grand nieces, Mrs. John S. Fleming of Los Angeles, Mrs. Ernest McLean of Cleveland, and Miss Mary Love of Detroit.

did not compare in magnitude to the grain sent east, so the manufacturers in the east were allowed the benefit of lower prices.

To make this advantage worse, the railway had on Nov. 15 last raised the rate from 35 cents a hundred pounds to 38 cents a hundred to Montreal. Thirty-three cents had been the rate for twenty-five years and was only reasonable and fair.

The commission left for the east last night.

THE SECRET OF HEALTH

Is Rich, Red Blood—Dr. Williams' Pink Pills Make New Blood.

Good blood—rich, red blood—is the only cure for such complaints as anaemia, decline, heart palpitation, skin eruptions, rheumatism, kidney troubles, and a host of other every-day ailments. Good blood makes you less liable to disease of every kind, because it strengthens and stimulates every organ in the body to throw off any ailment that may attack it. Good blood is the secret of life, and the secret of good, rich, red blood is Dr. Williams' Pink Pills for Pale People. These little blood builders have saved lives that doctors and nurses had despaired of. They have cured thousands of others—they will cure you, too. Mrs. Wm. Booth, Montreal, Ont., says: “For a couple of years my daughter Meta was in failing health. She complained of headaches and distressing weakness, and seemed to be rapidly going into decline. We consulted several doctors, but they did not help her. She was apparently bloodless, and we were afraid she would not recover. She had no appetite and was greatly reduced in flesh. At this stage a friend advised me to give her Dr. Williams' Pink Pills, and in a few weeks we noticed some improvement in her condition, and that her appetite was improving. We continued the treatment for a couple of months longer, and by that time she was again in the best of health. She had gained thirty-two pounds in weight, had a good color, and was in the best of spirits. I do not think I am outwitting it too strongly when I say I think Dr. Williams' Pink Pills saved her life.”

Dr. Williams' Pink Pills do only one thing, but they do that well. They do not act upon the bowels; they do not bother with mere symptoms. They actually make the new, rich, red blood that goes right to the root of the disease and drives it from the system. But you must get the genuine with the full name, “Dr. Williams' Pink Pills for Pale People” printed on the wrapper around every box. All medicine dealers keep these pills or you can get them by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams Medicine Co., Brockville, Ont.
