AN M.P. DEBUNKED BY HIS OWN PARTY

M. F. McLean (S. Huron) Stirs Up an Unpleasant Scene by Interrupting Geo. Clare and Declining to Be Shut Up.

OTTAWA, March 8.—(Special.)—A little scene, indicative of a feeling of members of both sides of the house towards M. F. McLean, the Liberal member for South Huron, who has made what may be termed the only really unpatriotic speech during the debate, occurred this afternoon. George A. Clare, the German-Canadian representative of South Waterloo, was interrupted by Mr. McLean while in the course of an amiable speech, which was being listened to by the largest attendance seen during the debate, since the premier and Mr. Borden addressed the house. Mr. Clare, who has been in bad health for some time, was obviously speaking under difficulties, and the Conservatives resented the sneer with which Mr. McLean accompanied his interrupted speech. "What is the matter with you?" he asked. "You are sending \$25,000,000 to England for Dreadnoughts?"

They shouted "Oh, oh" and "Sit down." Mr. McLean refused to sit down, and the hubbub grew boisterous. The speaker intimated that Mr. McLean could not interrupt the debate without Mr. Clare's permission, but McLean refused to take the hint. He said something which was inadvisable, owing to shouts of "Order, order," and "Put him down."

The premier nodded to the speaker, and gave McLean a warning look. Mr. Fiddling also turned round and signalled with his hand to McLean to sit down, but the member for South Huron would not. The speaker: I have already told the hon. member to sit down. The hon. member for South Waterloo has the floor and cannot be interrupted. (Mr. McLean still endeavored to proceed, and amid cries of "Name him," the speaker formally ordered him to sit down.)

Mr. Clare then remarked that never in his seven years in the house had he interrupted any one, and when a gentleman was in poor health, he would always endeavor to assist him. General applause, in which Mr. Fiddling joined, greeted this, and the incident closed.

Only a War of Commerce.
Mr. Clare paid a warm tribute to the Germans of Waterloo County, and of Canada. He said they were loyal Canadians, and proud of the great general to which they owed allegiance. His parents had been born in Germany, and while they were proud of the land of their birth, he believed they were prouder of the country in which they had made their home.

"We are one people in this country, and one people only," he said, "and the only way we differ is in how best to do our duty to the empire to which we belong."

WHAT IT COST TO REJECT BUDGET

Lloyd-George Estimates Loss of Revenue at \$142,500,000, and Doesn't Know How Much is Recoverable.

LONDON, March 8.—The rejection of the budget by the house of lords in the preceding parliament cost the country in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd George in the house of commons to-day.

TORONTO NEWSBOYS' HOME CAMPAIGN INAUGURATED

Everybody Will Have Opportunity to Subscribe to a Noble Cause.

With the appearance of the Newsboys' Building Fund coupon in yesterday's World, a campaign for the raising of twenty thousand dollars for the erection of a home and gymnasium for the little newspaper merchants of Toronto was inaugurated. The coupon means exactly what it says, that the funds subscribed are to be used exclusively in the purchase of a site, preparation of plans, erection and furnishing of a Toronto Union Newsboys' Home and Gymnasium in Toronto.

Already many members of the Newsboys' Union have been assured of the support of the people, and there is every reason to believe that the campaign will be successful. Children may contribute from their pennies and the adult from their thousands, and every donation, great or small, will be appreciated.

There is an argument needed to convince the philanthropic citizens of Toronto that a building such as is proposed for the little urchins who vend their wares on the street corners, and who are engaged in such work, is very much needed in Toronto.

RAILWAYMEN VOTE STRIKE

OTTAWA, March 8.—(Special.)—A private meeting of the parliamentary committee on the Miller anti-betting bill was held to-day, and adjourned till Thursday.

MR. FOSTER BREAKS DOWN

Recent Strain Has Overtaxed His Health—Will Take Rest.

OTTAWA, March 8.—(Special.)—Hon. George Foster, the British premier, has given away as a result of the strain of the recent libel suit in Toronto.

MR. FORGET AND THE NAVY.

MONTREAL, March 8.—(Special.)—Do away with the British pretence and contribute three millions to the Imperial navy, is the policy advocated by Rodolphe Forget, M.P. for Charlevoix, who left town this evening to give his vote on the navy bill.

IS C.P.R. BUYING CARLTON ST. LAND?

Corporation Has Money Available and Regards Toronto as Prolific Source of Revenue—Central Location for Depot.

The best deduction The World can make after many inquiries is that the land purchases now going on north of Carlton and east of Yonge-street are on account of the Canadian Pacific Railway.

The purchasing agent in chief appears to be H. H. Williams, the big real estate firm on Victoria-street. They have done a lot of confidential work for the Canadian Pacific in the past.

The size of the two blocks bounded by Carlton, Yonge, Alexander and Church-sts (including Wood-st in the centre), is 600 feet and a little over on Yonge-st, and 900 feet on Carlton (to Church), about six and one-fifth acres.

The two blocks will cost in the neighborhood of two millions of dollars.

C. P. Has the Money.

The Canadian Pacific has plenty of money—over forty millions on deposit in the banks alone.

There are few other concerns that can get money easily to buy on so big a scale these days. The other roads are short of ready cash.

What does the C. P. R. want with this property? The World's guess is that the company has not as yet made up its mind. But it is bound to be ready for any emergency.

It is also certain that the C. P. R. has changed its attitude toward Toronto, and now regards it as the city with the most sources of income to the railways of any city in Canada.

LIQUIDATOR CONFESSES TO HUGE EMBEZZLEMENT

May Reach a Million—Had Been Acting for French Government in Winding Up Religious Bodies.

PARIS, March 8.—M. Duez, employed by the government as a liquidator for some of the congregations which were dissolved by the law of 1901, was arrested to-day, charged with embezzlement of the funds which he handles. The shortage is reported to be \$3,000,000.

TARIFF WAR WITH THE U.S. NEGOTIATIONS HAVE FAILED

OTTAWA, March 8.—(Special.)—Negotiations between the representatives of the United States Government, who have been here since last week, endeavoring to come to an understanding with the Canadian Government regarding the tariff between the two countries, have concluded, it is believed, without any arrangement having been arrived at, and the American commissioners have left for home.

The question of the Franco-Canadian trade treaty has been the stumbling-block from the point of view of the United States.

Discrimination against those to the south of us is alleged. It is now understood in Ottawa that a tariff war between Canada and the United States will begin after March 31 next, the Americans placing their surtax of 25 per cent. on Canadian products, imported into the United States.

Chicago Legislates Against Long Hat Pins.

CHICAGO, Ill., March 8.—Women's long hatpins were declared to be a public nuisance and an anti-hatpin ordinance was ordered drawn up by the judicial committee of the city council to-day.

MUNICIPALITIES WANT THE PROTECTION OF LAW

Ask Government Not to Assent to Telegraph or Railway Plans Without Civic Consent.

OTTAWA, March 8.—(Special.)—At a meeting to-day of the mayors and representatives of large cities, a resolution was passed declaring that, in order to prevent confusion of plans of operation and of different controls (provincial, federal and civic), and to prevent injury to local franchisees, it is essential that all plans of railways or telegraph companies be not granted rights by parliament except such plans be subjected to the consent of the municipalities expressed by law.

Those present included Mayor Guerin and Controller Wanklyn of Montreal, Mayor Geary and Controller Spencer Ward and Church, Toronto; Mayor Hopewell, Ottawa, Mayor Pelletier, Fort William; F. H. Chrysler, K.C., representing Winnipeg; M. S. McCarthy, M.P., representing Calgary, and Fred Cook, past president of the Halifax, Victoria, Vancouver and Port Arthur gave their assent to the resolution by telegraph.

NO SINGLE TAX IN ONTARIO'S POLICY

Premier Whitney "Entirely in Opposition" to Fripp's Proposed Amendment to the Assessment Act.

"I, W. A. Douglas, chief push of the Toronto Single Tax Association was present at the session of the legislature yesterday afternoon, it must have grieved his heart to hear the ruthless way in which Premier Whitney put his foot down on Mr. Fripp's baby Henry George bill. The prime minister's foot came down so hard that the cradle was rudely upset and the baby cast beneath the wheels of the governmental juggernaut."

"There are a number of gentlemen who believe in the Henry George theory," said Sir James Whitney, when the house came to the vote on the assessment act introduced by A. E. Fripp (West Ottawa). "Printed resolutions were sent all over the province; in fact there was a propaganda. And many municipalities did pass these resolutions, without much thought, as I believe."

"I am entirely in opposition to the proposition of this bill, but I think it just that it should be discussed, together with the bill of Hon. St. Hanna, so that is the only way that the matter can be brought to the notice of the members of this house and the people they represent."

The Government Bill.
Hon. W. J. Hanna recalled the arguments heard by the special committee on assessment and called attention to some of the features of the government bill.

Religious institutions which were practically money-making concerns were to have exemption from taxes removed.

In connection with the proposal to raise the wage exemption to \$1200, he called attention to the fact that the assessment commissions of Toronto, Ottawa and London, made the practice of allowing the double expense of railway men at both ends of their run to be considered as a reduction of the salary.

Clubs were made liable to business assessment. Practically no town assessment was left in cities under the new bill.

A. E. Fripp (W. Ottawa) claimed that his bill had been misunderstood. It gave the municipalities what was desired, the power to put a higher tax rate on land than on improvements. People were beginning to consider the incidence of taxation gives the value by the fact that 270 municipalities had passed resolutions in favor of the principle of his bill.

"Land values," said Mr. Fripp, "are given by the community, and not by the individual." It is the coming together of people that gives the value. "In our effort to get at the income of the rich man," he continued, "we tax 20 people who can afford it."

Manitoba, he said, did not tax houses and buildings in rural districts, Alberta and Saskatchewan taxed land only. Australia had a tax on the value of property taxation whatever. Mr. Fripp read from an American magazine article.

R. & O. AFTER HAMILTON LINES

Deal Likely to Go Through at About Four Hundred Thousand Dollars.

MONTREAL, March 8.—(Special.)—Rodolphe Forget, M.P., president of the Richelieu and Ontario Navigation Company, confirms a report that negotiations are on for the purchase of the Hamilton lines by the R. & O. Company, and the Turbina S.S. Company.

It is said the deal will go thru for about \$400,000, to be paid in bonds of the Richelieu Company.

It is also said that the near future will see the Niagara line come under the control of the R. & O.

STILL AFTER RUTHERFORD

Resolutions As to Stripped Files and Missing Thousands.

EDMONTON, Alta., March 8.—Insurgent leader Boyle has introduced a resolution in the legislature presenting the action of the government in tampering with and stripping the files relating to the Great Waterways Railway deal; while Stuart Sedgewick gives notice of a demand for "immediate and conclusive evidence" as to the whereabouts of \$740,000 on the sale of the bonds as represented by the difference between sale at par, as claimed by the government, and 110, as indicated by reports.

A RETROSPECT.

March 3, 1824.—An Act to promote the progress of useful arts in this province, Canada, received royal assent. It was the beginning of the patent system in Canada.

The "Fabricque Act," was passed in Lower Canada, empowering the priest and church wardens of every parish to provide a school for every family.

RECLAMATION OF ASHBRIDGE'S BAY.

COMMISSION TO GOVERN TORONTO WATERFRONT

Leading Business Men of Toronto Endorse Suggestion of Board of Trade President.

The voice of over 400 of Toronto's business men, representing millions of dollars in capital, was raised yesterday in support of a suggestion to place the whole Toronto waterfront, from the Humber to Scarborough bluffs, in the hands of a commission.

It was at the call of President W. J. Gage of the Board of Trade, that these gentlemen gathered in McConkey's at noon, when the following resolution was unanimously passed:

Whereas the Board of Trade of the City of Toronto consider the control of the waterfront in and contiguous to Toronto is essential to the commercial development of the city:

And whereas no satisfactory plan of development can be devised and carried out without permanent concentration of authority:

Be it therefore resolved that this meeting most strongly urges placing the management of our waterfront in the hands of a commission, and that the secretary be instructed to forward a copy of this resolution to the mayor, board of control and council of the City of Toronto, with a request for immediate action.

should plan, not for a city of 500,000, but 1,000,000, in the next few years. Need for improvement.

Hugh Blair, in proposing the resolution, said: "I consider the present state of our waterfront and the obstacles in the way of getting into the city, we cannot but say there is great room for improvement, and I firmly believe there should be a permanent commission organized with authority to control and direct the whole waterfront from Humber Bay to Scarborough Heights."

He was a believer in municipal ownership. There were some public utilities that appealed to him particularly in this regard. The first should be water supply, and the second waterfront control. The best thought of the time regarding transportation can along three lines, viz., the management of harbors by private ownership, or by railway ownership, or by public ownership.

Public Ownership. Experience had shown that private ownership was impractical. It usually assumed unreasonable charges and didn't give the public a satisfactory service. Railway ownership showed the same defects. Public ownership on the other hand, aimed not only at making money, but at making harbors and providing the very best service the public could demand. "So I say that public ownership is the best possible suggestion," he declared.

Continuing, Mr. Blair said that Canada's best national asset was the Dominion Waterways' Commission. It had spent \$14,000,000 on Montreal harbor and widening canals, and had given Montreal the greatest grain controlling capacity in the world.

Touching the importance attached to harbor improvement in other great cities, he cited Glasgow, Liverpool, Manchester, Newcastle and Hamburg had spent variously from fifty to two hundred millions on harbors.

Our Waterfront. Edward Gurney, who seconded the resolution, said it was almost impossible to get into Toronto. The railway accommodation was a disgrace; to get in by water was almost impossible on account of the tracks on the waterfront, and the water one had to travel over was filthy. He suggested that in striving to secure a commission, the co-operation of the C.M.A., city council and the press were essential.

To this D. R. Wilkie added the provincial and federal governments. Hon. W. A. Charlot reflected that 114 years ago the first house was built in Toronto, the next year the first parliament opened. Ninety-seven years ago the population of Toronto was 400 souls. From that day to this, the beauty of the waterfront had been constantly fading away. An Indian had told him concerning our water difficulties: "The white man is a funny man; he live on the lake and can't get water."

"By all means, yes," he concluded, "if, if possible, the co-operation of the Dominion Government. Let us try and get the powers that be in Ottawa to remember that Toronto is a part of Canada."

At the head table were the following guests of Mr. Gage: His honor, the Lieut.-Governor, Sir Mortimer Clark, Chief Justice Britton, Rev. Dr. Falconer, Rev. N. Burwash, Ven. Archdeacon Cody, Hon. W. A. Charlot, Rev. Dr. Milligan, D. R. Wilkie, J. W. Flavelle, Hugh Blair, Professor Alexander, Captain D. Douglas Young, Professor Alfred Baker, Dr. D. H. Goggin, J. G. Sing, James L. Hughes, George H. D. Lee, Edward Gurney, J. P. Ellis, W. J. Douglas, J. S. Williams, John A. Ewan, H. C. Hocken, David Henderson, Senator Robert Jeffrey, R. S. Gourlay, W. H. Greenwood, John Cooper, John Robinson, A. C. C. Jennings, A. C. Lewis, F. W. Field.

INTERNATIONAL CHESS Play for Newnes Trophy Begins Friday in London and Brooklyn.

NEW YORK, March 8.—British chess talent will be well represented on the team of ten players which will defend the Newnes trophy against the American team in the annual cable match to be played next Friday and Saturday, judging by the list which was received at the Brooklyn Chess Club from London yesterday. It will be headed by H. E. Atkins, the British champion for four years, and who will have the support of J. H. Blackburne, J. H. Blake, T. F. Lawrence, R. F. Mitchell, G. A. Thomas, V. L. Wadhvani, G. E. Wainwright, W. Ward and F. D. Yates.

As first reserve the British will have E. G. Sargant, while there is a possibility also of the inclusion of Amos Burn of Liverpool. Atkins, Thomas and Yates did not participate in the match of last year, which the British won by the score of 6 to 4.

By winning his final game with L. Beyer in the trial tournament among the Brooklyn Chess Club, Roy F. Black, champion of that club, and formerly the best player at Cornell University, has emerged as winner of that event and qualified for a place on the American team.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) which affects many men, but which few of them really understand. It is a condition which is not a matter of mere weakness, but a matter of the vital forces that sustain the system. No matter what may be its cause (for they are almost numberless), its symptoms are the same: the more prominent being sleeplessness, nervous prostration, weakness, depression, spirits and want of energy for all the ordinary duties of life. Now, what else is absolutely essential in such cases is increased vitality—VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience that a right success in life may be more certainly secured by a course of THE NEW FRENCH REMEDY THERAPION NO. 3 than by any other known combination. Big Basketball Game To-night.

The big international basketball game to be held at the West End Y.M.C.A. between the Detroit champions and the West End seniors promises to be one of the finest exhibitions of the season. The Detroit team are the Michigan state champions, and are considered to be the fastest team in the west. The seniors are in first-class condition and will play the game of their lives.

Big Membership Hustle.

At a meeting of the membership committee of the West End Y.M.C.A. last night, it was decided to hold a rousing membership campaign from March 22 to 23. Enthusiasm is running at high pressure, and as the campaign is to be run along novel lines it promises to be a tremendous success.

WEDNESDAY MORNING, MAR. 9, 1910.

ADMITTING THE RADIALS.

Mr. Herbert Lennox is one of the nice young men of the Ontario Legislature. But he is not on that account to be neglected. He has just introduced a bill which has for its main object the granting of permission to the County of York to apply to the railway and municipal board for power to have a connection established at North Toronto between the Metropolitan Railway and the Toronto Street Railway.

Mr. Lennox knows very well that this has been a burning question in Toronto for years, and he will probably not be disappointed, as he is such a nice young man, when he discovers that his bill is not the medium selected to settle the question. It was very considerate of Mr. Lennox to bring in the bill as a contribution to the subject, but he is too rash and impetuous if he thinks that it can all be settled as easily as that.

The City of Toronto thought it could be settled almost as easily when it proposed that the connection should be established at once with the condition that at the end of the period for which the franchise had been granted to the Toronto Street Railway the whole situation should be returned to the status quo ante. The Street Railway refused to have connections established upon such conditions, and now Mr. Lennox thinks that the connection might be established without any conditions.

On the whole we think not. Probably Mr. Lennox will adopt a similar view on thinking matters over. It would be very nice for the railways, and for Mr. Lennox, to have solved the puzzle. But Toronto takes quite a different view. We incline entirely to the Toronto view of the case. Let the connections be made on the conditions formerly proposed. Or else wait till the franchise comes into the possession of the city once more, and negotiations can be carried on without risk of endangering the rights of the citizens.

As Mr. Lennox is an outsider, so to speak, he probably does not take so serious a view of the Toronto case as a real Toronto man would. But he must be convinced that the Toronto view cannot be ignored. Premier Whitney might take a note to the same effect.

WIDENING OUR STREETS.

We fully sympathize with The Globe in its desire to see the main thoroughfares of Toronto put into creditable shape for the traffic they will have to bear within a few years, not to speak of the inconveniences now arising out of the narrow width of the leading streets.

The Globe points out to its readers, as we have frequently done, that a commission armed with powers of expropriation could settle the whole question on business lines in a very short time and with considerable profit to the city. Also that a private corporation with the same powers would not hesitate a moment before undertaking the project.

But the present city government is altogether too small for such work. The city will not even make the necessary estimates and calculations for such a plan. We may regret with The Globe, that Mr. Hocken was rejected by the citizens, but this will not inspire Mayor Geary to go ahead with the widening of Yonge-street and King-street, and Queen-street, and St. Clair-avenue.

The Globe itself sticks at the building of the Bloor-street viaduct, which is as necessary as any of these plans, and thereby weakens its own case. Perhaps Mayor Geary could pull out another notch and show that he has got some go in him after all. The city is looking for a big man, and would be delighted to find anybody half like one.

BETTER AT DETAILS.

Women nearly always do things better than men. They are more practical, more ingenious and more concerned with the thing that immediately matters. Men look farther ahead and take broader views of life, but when it comes to the minutiae and the detail of life, leave it to a woman. Did you ever notice how they hang their coats? They have a loop in each armhole, and when the garment is hung up it gets no ugly twist as your coat does with its loop on the collar. But do you think you could get your tailor to adopt that plan?

CANADIAN AND UNITED STATES TARIFFS.

As a matter of principle the United States has no right to expect to share in reductions made in the Canadian tariff to countries which have granted reciprocal and equivalent concessions. What our neighbors are attempting to do is to coerce our nations into granting them an exceptionally advantageous position without on their part giving anything in return but the ben-

eff of a minimum tariff. They want also to be accorded "most favored nation" treatment hereafter on the same basis. Canada ought to maintain her right to enter into commercial treaties irrespective of United States menaces and to refuse "most favored nation" treatment without corresponding concessions. The United States may be a great power, but its endeavor to force channels for its own trade while maintaining its tariff wall intact should be firmly resisted. If the United States wants special benefits, let it make itself ready to reciprocate.

No British field officer could be more acceptable to Canadians than the gallant cavalryman Sir John Denton Pinkstone French. His is the type of imperial commander the empire requires. Lloyd George calculates the loss to the British revenue thru the rejection of the budget at \$25,000,000, but he has always the unearned increment attributed to appropriated by the class Joe Chamberlain immortalized as "those who toil not, neither do they spin."

Times are altered when fear for one's soul's salvation is brought forward as evidence of ungodly mind. In earlier days a man under conviction of sin would have been regarded as in a hopeless condition. Burns wrote: "The fear of hell's the hangman's whip, the keep the wretch in order." We have changed all that.

While it is nothing new for a so-called Liberal government in Canada to be strongly reactionary the Hon. Mr. Graham's attitude towards municipal rights and public rights in general is exceptionally adverse. An old country Liberal works for the people, not for the exploiters of franchisees for private profit.

It is not getting itself into disrepute with the classes whose respect for it is most essential when it descends to little quibbles which a schoolmaster would not tolerate for a minute in a pupil? That Calcutta ticket decision may be very smart, but was it a square deal?

A city motor car by any other name does not seem so sweet to a city official. Deputy Engineer Scott objects to ride in a motor which is hoodooed with the name of Toronto in its exterior. He is only the latest recalcitrant. Will some of these gentlemen say why they are willing to work in a building labeled "City Hall"?

Contrary to the Ottawa statement that is going the round, specialized long-barreled Lee-Method and Leesfield rifles are not used in shooting for the King's Prize at Bisley, but for what are called "match rifle" competitions. Only the authorized service rifle is available for the Blue Ribbon of the meeting and there is no hardship in the rule. Why should any difficulty be made in Canada in connection with it?

C.M.A. Excursion.

The next annual meeting of the Canadian Manufacturers' Association will be held in Vancouver during the month of September. Arrangements are being made with the C. P. R. for a special private train to convey the members, who will take advantage of the trip.

Coming back they will stop at Calgary for a day or so, and then on to Edmonton. From there they will proceed over the new C. P. R. branch to Fortage la Prairie.

PHONE SERVICE FOR FARMERS

ELECTORS OF ONTARIO: Cut out the accompanying card, sign it, place it in an envelope, and address it to your local member at the Legislature, Queen's Park, Toronto. Mr. Charters' bill is designed chiefly in the interests of the farmers, but it will help every telephone user in the province, and will assist every independent telephone company in its struggle with a monopoly. Let your member know you want him to support it.

I am one of the voters in your constituency, and I wish you to represent me in supporting the telephone bill introduced by Mr. Samuel Charters. I want fair play to the telephone users in the province, and protection for the independent rural and farmers' companies from monopoly.

GRAHAM RAPS TORONTO ON ADMITTING RADIALS

Says People on Outside Have Right to Get In—Would Limit Stations to Two, However.

OTTAWA, March 8.—The City of Toronto today lost the first round of the fight against the bill to incorporate the Hamilton, Waterloo and Guelph Railway, when the railway committee, by 31 to 48, adopted the preamble. Hon. Mr. Graham, minister of railways, supported it, suggesting that the company be restricted to but two stopping places in the city limits, one at the boundary and the other at the terminals.

Mayor Geary and Controllers Spence, Ward and Church opposed the bill on behalf of the city, and Secretary Light-hall and Mayor Howepell of Ottawa opposed it on behalf of the Union of Municipalities. Edmund Bristol, after the preamble was read, moved to carry out the Graham proposal, but E. A. Lancaster hotly opposed, urging that the whole thing should be left to the railway committee. Mr. Light-hall will be further considered to-morrow.

Controller Spence, in pointing out that the company was asking for power to do a local business in Toronto, said the city was advertising principles which may apply to any other city. A unified system alone could provide a city with an efficient and economical service. There should be local control, which the present company sought to avoid by coming to Ottawa for incorporation.

When W. D. Lighthall was introduced, Mr. Nesbitt asked how many municipalities were represented. Motion on order of adjournment was made by Geo. Kappeler, K.C., an official referee. Motion enlarged until 11th inst., and some one of the speakers was to be called on by Mr. Clark Estate—F. W. Harcourt, K.C., for an order of adjournment. Enlarged until 11th inst.

Kidney Disease Does It Threaten You? The kidneys struggle hard to maintain purity of the blood and carry from the system the waste materials that liver and bowels should remove. The kidneys become over-worked in this effort and soon their activity is exhausted. Then follows a long train of evil consequences, among them Bright's Disease, languor, excessive blood pressure, poor color, heaviness and sleepiness.

It is imperative to give the kidneys' aid, give them relief from excessive work by using Dr. Hamilton's Pills. Under their beneficent action the liver and bowels will act splendidly, the kidneys will be restored and the entire system will give manifold evidence that at last robust, good health has returned.

For general family use in the rapid cure of stomach trouble, headache, backache, biliousness, constipation, kidney and liver ills, no medicine can be more effective than Dr. Hamilton's Pills of Mandrake and Butterbur, 25c per box; all dealers or The Cattaraugus Co., Kingston, Canada.

wards' speech a number of times, and he couldn't interpret it in any other way.

Dr. Edwards insisted on a withdrawal. Dr. Neely said he would accept the statement of the member for Frontenac, but he would have to qualify his withdrawal by saying that, if Dr. Edwards hadn't made such a charge, he had used the wrong words and phrases to express his intention. This was not satisfying to Edwards, and some more cross firing occurred, but the speaker in the end ruled that Neely had complied with the rules of the house.

Dr. J. D. Reid, Grenville, supported Mr. Borden's amendment, as something of material service to Canada, and the empire would be gained by it.

Lemieux and Independence.
W. H. Smyth, West Algoma, read a newspaper report which stated that Hon. Rodolphe Lemieux had, at a public meeting in Montreal, supported a resolution declaring for Canadian independence.

Mr. Lemieux denied the truth of this, and stated that he had expected to be reminded of an incident at Bohmer Park in 1893, when as a member of the Monument National, he had been asked to take part in a four-cornered academic debate. He had been assigned the role of urging the independence of Canada, and Elgin Myers had advocated annexation with the United States. Another Montreal gentleman, Mr. McEwen, had pleaded the cause of imperial federation.

J. E. O. Gladu, Yamaska, supported the bill, and advocated the building of Canadian warships in Canada. He reviewed the Foster-Macdonald libel suit and made an attack on Mr. Foster. Major Beattie, London, said he would remain silent but for the remarkable statement of M. Y. McLean of South Huron, that Canada owed nothing to Great Britain but good-will and affection. He reminded the house of the great benefits which the imperial authorities had conferred on the Dominion of recent years. He used the word Dominion advisedly, he said, for he hated that word "nation." It smacked of separation.

The adjournment was moved by W. S. Loggie, for Hon. R. R. Emmerson.

May End To-Night.
The division on the navy bill is not expected to take place until Thursday night, but there are over a dozen speakers to come yet and the whips are undecided to-night whether it will take place to-morrow night or not.

Are Daily Credited to the Wonderful Powers of "Fruit-a-tives."

Bancroft Man Thinks This Fruit Medicine Will Work Miracles.

It is the old chronic case, the stubborn case, the case that will not yield to the ordinary remedies of the physician, that "Fruit-a-tives" never fails to cure. Many of the cures made by "Fruit-a-tives" are so wonderful and admiration of the doctors who cannot understand how "Fruit-a-tives" can do what they cannot.

Bancroft, Ont., October 17.

NO FRENCH LANGUAGE
IN THE PUBLIC SCHOOLS

Slogan of Grand Master Belcher of the Royal Black Knights in Annual Address to That Body.

ST. CATHARINES, March 8.—(Special.)—Grand Master Lt.-Col. A. E. Belcher of Southampton presided at to-day's session of the Royal Black Knights of Ireland, the attendance, 200, being much larger than was expected. He reviewed the year's work and congratulated Toronto's mayor on his election.

Col. Belcher declared himself emphatically in favor of the naval scheme of R. L. Borden. He also favored the development of the Canadian Defence League. As to the navy, he said: "It seems to me that what we have at stake is worth the price, and we can afford to pay it."

He also declared the British elections had been of great interest, and that his sympathies had been with the Unionists, as the strength of the empire lies in union.

Referring to the recent R. C. planetary council at Quebec, the grand master asked "What is our united conference of Protestant ministers, developing such missionary schemes? It seems to me that they are hammering away, Sunday after Sunday, to Protestantize us Protestants, or to keep us Protestants. Get a move on, Protestant clergymen, or you are a lagard in the race."

Of the recent French-Canadian congress at Ottawa, he said it was intended to press for French teachers in the separate schools and bilingual normal schools.

"French to the east of us, French to the north of us, French to the south of us, they want to do the same at Ottawa from northern Ontario, Russell, Prescott, Stormont, old Scotch Protestant Glangarry, Kent, Essex and Ottawa. They now send five French-Canadian students to study in England, and claim that they hold the balance of power in 32 constituencies," said the colonel.

"We learn from the press that part of the program at Ottawa was the perpetuation and protection of the French language and more legislative representation to French-Canadianists. We know well that every privilege—social, religious and political—which they possess and enjoy—is in consequence of their British citizenship; and yet we find some French-Canadian leaders, Laurier, Monk, Bourassa and Paquet, who say they are opposed to Canada's participation in the empire's wars; and who say the whole French opposition will vote against the navy. It betokens an acceptable future. Just now the French have the whip hand. They will become anything but French. Hence, to realize their destiny, Canada must be, according to the name of the British citizenship, the language and must remain so."

"I do not know, in the history of mankind, of a more stupendous and overwhelming fact than the supremacy of the English tongue over the rest of the world. The wheels of civilization's coach don't turn backward. I think one of the greatest weaknesses of Canada is a lack of British Canadianism."

"This is along the line of empire building. The majority should and must rule, and while we will be liberal and generous in politics, religion and education, let us be just as well as generous, plant our foot firm and say, 'Thus far and no farther, and no French language to be taught in public schools.'"

The night session was practically a discussion of a resolution of an entirely devoted to that recently platform similar to that adopted by the grand lodge of British Columbia. To-night the visiting knights were entertained at banquet at the Grand Central Hotel by the local chapter.

Capital Lacrosse Club.
OTTAWA, March 8.—The Capital Lacrosse Club to-day applied to the city council for the use of Lansdowne Park for games and practice. The matter was referred to the exhibition executive.

Fixing Stanley Cup.
OTTAWA, March 8.—Messrs. P. D. Ross and William Foran, trustees, left an order this morning for the first improvements that have ever been made to the Stanley Cup. The present base of the famous trophy is carved and marked up to such an extent that further names could not possibly be put upon it; consequently, the trustees have ordered a new base for the cup, also a new silver ring, which will possibly be put upon it; consequently, the trustees have ordered a new work on the trophy has been completed. It will be shipped to the Wanderers.

MAY NOT DISCRIMINATE
Fort Erie Ferry and Railway Co. Must Give Canadians a Square Deal.

Unfair discrimination against Canadians with regard to fares was charged against the promoters of the Fort Erie and Niagara Railway Co., under the name of the Fort Erie Ferry and Railway Co., in the railway committee of the legislature yesterday.

The company asked power to increase its capital to \$500,000 and to issue bonds for \$300,000. J. A. Ross (Monck) declared that the fare for Canadians going to the American side was 25 cents, while the fare for Americans crossing to Canada was only 20 cents.

President Webber of the company denied the allegation. Two new boats, he stated, would be built if the bill passed, one on each side of the border, and \$212,000 would be spent on an amusement park and hotel at Fort Erie.

The bill was reported, with an amendment safeguarding the question of discriminatory rates.

The Monarch Railway bill was allowed to go through, with an amendment permitting the City of Toronto to impose conditions for the conveyance of passengers and freight into the city over other lines. The road will be allowed to come into the city itself.

Mme Melba's Tour.
Frederic Shipman, sole manager of Mme. Melba, and a Toronto boy, is back in the city after an absence of two years. He has just returned from Australia where he arranged the tour of the great singer, who is now on her way to England for her 21st season at Covent Garden. Mme. Melba will be in Toronto for a concert about Sept. 15.

Boy Violinist's Recital.
A large audience attended the recital of Louis Ruthenberg, the boy violinist, given last night in Association Hall. He was assisted by Miss Lillian Smith, Arthur Blight, Owen Smiley and Frank E. Blatchford.

Reverse for Merchants.
OTTAWA, March 8.—Mr. Monk's bill respecting co-operative credit and loan societies was reported by the banking committee to-day and an endeavor will be made to have it taken up as a government measure.

Hon. Dr. Pyne, minister of education, is in Chatham, taking treatment for rheumatism.

Another Patient Case.
Another patient was added to the list of those taking treatment for hydrophobia in Toronto hospitals yesterday. George Wolchanski, aged 4, of Berlin, had a finger bitten by a dog. His parents were too poor to pay the expense of treatment, so the authorities of Berlin will defray all expenses. The boy is in the Hospital for Sick Children. The dog was killed. There are now twenty-two patients being given preventive treatment in Toronto, onto.

Claim Cut Down.
Frank Brown, contractor, sued George and Elizabeth Henderson for \$570 before Judge Morgan yesterday and was awarded \$9.31 without costs. Brown contracted to build a house for \$1000. He was given \$570, and defendants claimed to have paid \$670 out for supplies.

Hon. G. W. Ross' Illness.
OTTAWA, March 8.—Duncan Ross, M.P., to-day denied that his father, Hon. G. W. Ross, was seriously ill. A bad cold, following the senator's assiduous attention to the insurance bill in the senate, has temporarily confined him into his room.

COMPULSORY EDUCATION DEFEATED
WINNIPEG, March 8.—(Special.)—On a straight party vote, the resolution of the opposition, declaring in favor of compulsory education, was defeated late to-night in the legislature.

The minister of education declared that he is in favor of the principle, but claimed that if such an act was enforced Catholics would appeal to Ottawa for remedial legislation, and the whole school question would be reopened.

RIVERDALE NOT TO HAVE MORE FIRE PROTECTION

Chief Thompson Against Adding Two Fire Halls—Foundry Wins Out.

Riverdale will have to be content for at least another year with the two firehalls it has, namely, on Bolton-avenue and at New Beach.

Chief Thompson reported to the fire and light committee yesterday against Aid. Hilton's proposal that two additional firehalls be located in the district bounded by Queen-street, Pape, Broadview and Danforth-avenues.

Aid. Hilton contended that the fire and light committee of two years ago had promised Riverdale more fire protection as soon as the new territory east of the Don had become part of the city, and declared that the safety of Riverdale school children made such a step advisable.

That Foundry Issue After many vicissitudes, it looks as if the Robert Macaulay foundry and the city's permission to continue its brass foundry at the corner of Junction-road and Mulock-avenue, in the seventh ward, for several months, the battle has been waged, and at the previous meeting a vote created a deadlock.

Chief Thompson reported that he and the waterworks engineer would act as soon as possible on the matter of giving adequate water connections for the protection of the parliament buildings and the university group, as the parliament buildings fire last September had shown the service to be deficient.

The committee agreed that the chief and city architect inspect the valuable time in inspecting the wooden signs which yield the city revenue, and the city solicitor will be asked to report on whether inspection fees can be charged the sign companies.

SUPPLY FULLY EQUAL TO THE DEMAND.

Trading at the Toronto Stock Market to-day was much more diversified, but outside of the fact that prices held firm there were no advances made for the day. The active securities were Rio, Mackay, N. S. Steel, Porto Rico and Coal, but in each of these yesterday's figures were only adhered to, while in one or two instances prices were shaded on realizing transactions.

Several Issues Are Advanced In the New York Stock List

Boycancy Still Maintained by Wall Street Cliques—Profit Taking Influences the Toronto Market.

World Office, Tuesday Evening, March 8. The local market was more active to-day, but prices failed to respond to the transactions.

Announcements of regular dividends were made to-day on Sao Paulo and Winnipeg Railway, and this was the only news that came into the market.

The active issues were Mackay, Rio, Sao Paulo, Dominion Coal and Nova Scotia Steel. Mexican Light and Power was bid up as high as 79 during the day, and no stock was offered. These shares are extremely scarce here, having practically all been taken off the market.

Some of to-day's selling came from traders who think that the market has had a sufficient rise for the present, and this served to hold prices in abeyance. Considerable Rio stock has recently arrived from London, but this delivery has made no impression on the stock's price thus far.

Over one hundred shares of St. Lawrence Navigation were disposed of to-day, but the price held firm. Bank shares were quiet, but Commerce continued its advance, and was bid up to 208 at the close, and no stock was offered.

At the close traders were inclined to think that the market may have a steady rise for a few days before any fresh speculative advances are witnessed.

The Knights of Pythias have a number of important invitations for Wednesday evening's meeting.

Genevieve Gleiser, daughter of Mr. and Mrs. H. Gleiser, 230 Ostrander-avenue, died this morning, and was buried this afternoon at Prospect Cemetery.

The funeral of Lawrence Magee, son of Mr. and Mrs. S. Magee, 50 Uxbridge-avenue, will take place to-morrow morning at 10.30 to Prospect Cemetery.

A large number of the school teachers in West Toronto will take the trip to Boston at Easter.

The Toronto Teachers' Association will meet in Ryerson School on Friday and Saturday next, and West Toronto schools will be closed on Friday.

The public schools of Toronto are still overcrowded, and yesterday the property committee of the board of education decided to place in this year's estimates about \$85,000 to relieve the congestion of the schools in the western section of the city.

The members of the committee, accompanied by Chairman Simpson, Secretary Wilkinson and Inspector of Buildings Bishop, in the afternoon visited a number of schools in ward seven and recommended that the following additions be made: Howard school, six additional rooms, to cost about \$20,000; Annette school, four-room build-

ing to be erected on the south side of the school lot, at a cost of \$25,000; Summerside Collegiate, six additional rooms, to cost \$20,000.

The reason for erecting a separate building at Annette school was owing to the condition of the present structure, which will necessitate a new school in the near future, and the provincial building will be added to when necessary. The management committee also recommended that the property tax be increased to meet the cost of the new schools, but the latter declined to claim that there was no building activity in those districts, and it would not be many years before factories would replace the present dwellings.

NORTH TORONTO.

NORTH TORONTO, March 8.—(Special.)—Without a division the bill to extend the time in which expropriation proceedings to open up a new street thru Mount Pleasant Cemetery for another year was passed by the private bills committee of the legislature this morning. This will give the town and York Township ample time in which to complete the work in hand.

President Ellis of the North Toronto Ratepayers' Association is not one of those who share in the fear of a water famine in the town. In the course of an interesting resume of the whole water situation (which The World will later take up in detail) Mr. Ellis pointed out that with comparative little cost an ample flow of water can be secured from local sources to supply a population of 20,000 people.

HUMBER BAY

HUMBER BAY, March 8.—The Humber Bay Athletic Club will hold a progressive euchre party to-morrow (Wednesday) evening in the club-rooms, for ladies and gentlemen, and on March 17 there will be a big St. Patrick's ball in Miles' banquet hall under the same auspices. The hostess will be Mrs. Vincent, who is expected shortly to take permanent charge of the Baptist mission and will then reside in this district.

Mr. and Mrs. Horwood of Queen-st.

have purchased a house north of the school and will move there in a few weeks.

Rev. J. J. Ross will give a lecture in the Baptist Mission on the evening of March 12. A "war" collection will be taken at the door.

WANTS PUBLIC TO CONTROL.

Editor World: If, as you say in your editorial in your issue of to-day, the only solution for the many problems now facing North Toronto is to "get into the city as fast as it can get in," thus becoming a part of the Greater Toronto that is to be, an opinion in which probably a large majority of the people will agree with you; why does The World, the avowed advocate and champion of public ownership, and low its columns to be used for the purpose of persistently boosting a projected private enterprise which has for its chief object the securing of rights and franchises affecting the future water supply of North Toronto under municipalities? Why should the town be saddled with an incubus, in addition to that it already has in the Metropolitan Railway franchise, by giving another franchise to a water supply company, if an adequate water supply can be obtained in the near future? How can the Town of North Toronto get into the city, if it allows itself to be bounced into giving away to private corporations valuable rights and franchises which would later have to be bought back again, or prove to be only em-barrasment, and a large number of possible future negotiations for "terms" with the city?

I venture to say that the alleged "well defined movement" through the aid in every way the application of the Artesian Wells Company" is which succeeded in giving the town a severe set back when they defeated the "sewer bylaw" after it had been voted by the majority of the people, and would now further tie up the town by giving a water supply franchise to a private corporation.

ETOBICOKE COUNCIL.

Southern Portion Will Have Modern Sewage System.

MIMICO, March 8.—(Special.)—Owing to the enforced absence of Reeve John Gardhouse, his place at Monday's council meeting was taken by Deputy J. M. Galloway.

When the council considered the dispute with the C. P. R. regarding the level crossings of the railway on Dundas and Church-streets, it was decided that following the settlement of the question of expense, the council will meet the engineer and representatives of the C. P. R. and all outstanding disputes will be settled.

T. Ald Murray, C.E., who was present, advised the plans for the new Toronto sewerage system, and was very much impressed with Mr. Murray's scheme, and if it meets with the approval of Dr. Hodgkins and the provincial board of health, the council will at once take steps to advertise for tenders for the work.

Council also at Monday's session passed the bylaw putting into immediate effect the muzzling order, with a view to the prevention of rabies.

MALVERN.

Former East Toronto Chief of Police Is Ill.

MALVERN, March 8.—(Special.)—James L. Tidberry, merchant, and chief of police in East Toronto, formerly of this city, is reported to have been stricken with partial paralysis, and is in a serious condition. There are reports that the eastern part of the city and up the river, contains many known and more generally liked than "Jim" Tidberry, and they will hear with severe regret of his illness.

OAKVILLE.

Supposedly Mad Dog Bit Several Others and Was Then Shot.

OAKVILLE, March 8.—(Special.)—What was evidently a mad dog ran thru the town yesterday, snapping and biting at everything in its way. Three dogs are known to have been bitten and these saved it thought all been secured. Chief McCleary and a number of others started in pursuit, but the animal was shot by a farmer, Henry Schmidt, and the dog's carcass was taken to the dog house in York Township, hearing date 1909. Enquiry is said to have elicited the fact that the dog belonged to F. Forster, who lives in the town. The dog was sent to Dr. Amyot for an examination.

MAIN LINE STILL BLOCKED

May Be Weeks Before Avalanche Debris Is Removed.

VANCOUVER, B. C., March 8.—(Special.)—Wearry after their harrowing experiences in dodging snow slides at the summit of the Selkirk or 150 passengers reached here this morning on No. 97 west bound thru express of the C.P.R.

When the second avalanche followed on the first slide, and at same identical spot, the train was stalled at Rogers Pass station, just one mile east of Creek station, seven or eight miles east of Rogers Pass depot, had just been reached when a slide covering the track to a great depth for a distance of 1000 feet crashed down the mountain side. A brakeman, sent back to flag a train, had to run for his life. These events occurred late Friday afternoon. Through the night, the passengers heard the boom of a muffled roar of avalanches, expecting that their own fate might be sealed at any moment. Daylight Saturday brought confirmation of rumors, persistently circulated, that the work train crew, bridge gang and section men had been buried a mile further on.

It was not until 10.35 yesterday morning that No. 97 was enabled to start for Vancouver. The main slide, it appears, has not been removed from the tracks. The train was enabled to get by the spot as the main line, half a mile east, was connected by temporary tracks with an old line covered by a snow slide.

The passengers declare that weeks will elapse before the enormous mass of debris can be removed from the main line.

Most of the avalanche victims are being found in a standing posture, with faces toward the slide on various levels. Many are in a climbing attitude, with arms extended. The number found up to this time totals 24, 16 white men and 8 Japs. A committee of citizens and the fraternal societies at Reveltoke has been formed to look after the burial of the men.

The Scotch Linoleum Sale Continues with Vigorous Enthusiasm

40c Printed Cloth for 27c—Blocks, Tiles, Florals, Parquettes in new designs.

45c and 50c Goods for 33c—Blocks, Tiles, Planks, Matting, etc.—high-class and new.

DON'T forget that the linoleum in this sale is Scotch. That means much. You don't have to be a Scotchwoman to believe that. Ask anybody who has had any experience with linoleum. Scotch Linoleum doesn't peel—it has been too Scotchly seasoned. Scotch Linoleum doesn't crack, because the linsed oil is so Scotchly thorough in its preparation. The printing, too, is done in the Scotch manner—the paint is rich in body and thickly applied. The consequence is, the printing doesn't wear off nearly as soon as the ordinary linoleum.

Every bit of the linoleum in this sale is Scotch, thoroughbred Scotch. And we sell it as "Seconds."

RESTRICT MARRIAGE

Pastor Hutchison Would Require Medical Examination.

That the government should make it necessary for every person obtaining a marriage license to pass a medical examination was a statement made by Rev. R. J. Hutchison, pastor, Jarvis-street Unitarian Church, in an address to the Canadian Purity Association last night in the Guild Hall.

In many cases, the speaker declared, disease was the cause of children being born mentally defective. These were a care to the state, and a menace to civilization. Criminals and drunkards should also be forbidden to marry. With these laws in effect there would soon be an appreciable decrease in crime and immorality.

Mr. Hutchison also spoke on the pure milk question, and child labor. These two were problems that should be given a great deal more attention than they are received during the past. In connection with the former, Mr. Hutchison advised an immediate installation of a pasteurizing plant by the city.

Don't Blame Your Stomach

When Without Exertion or Cost You Can Enjoy Meals and Cure Dyspepsia.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Don't blame your stomach or your liver when your meals declare war on you.

When the stomach won't do its work it is because it cannot.

When foul smelling odors come from your stomach, when the head aches, when the sourness of mouth every morning makes you hate your breakfast, when dreams and nightmare assail you, don't give up the fight.

It is now the fight of nature, and it should be heard.

Over-eating, late suppers, poorly chewed food, rich pastries, and under-done cooking are some of the causes of the stomach's ill-health.

When the stomach is busy it presses from food and with its juices dissolves into liquid form or pulp everything which comes into it.

If such food be poisonous it affects the blood, attacks the stomach, goes into the blood and weakens the entire system.

Stuart's Dyspepsia Tablets will dissolve a full meal easily without material assistance from the stomach. They resist the gastric fluid with all the elements needed. They build up the elements, destroy sour taste, bad breath, belching, stomach and bowel trouble and quickly restore natural conditions.

One grain of Stuart's Dyspepsia Tablets will digest 2000 grains of food in the stomach or in a glass vial without aid of the human digestive apparatus.

The method of Stuart's Dyspepsia Tablets are the methods of nature.

It is why a man can eat a meal of the stomach and digestion. After a meal one of these little tablets when it enters the stomach mingles with the juices, attacks the food and breaks it, it removes the fermented and decayed mass, lying stagnant there, and eases the stomach at once.

Looking at Eye-Glasses

From the wearer's point of view there is not much discrimination to be made in buying. The trouble is that too few who need them take the trouble of going to a regular optician to have their eyes examined and find out the best kind of glasses to wear. We examine your eyes and adjust the right lenses to the eye, so as to give perfect vision to those who are suffering from defective sight.

Man Dead in Sleigh

Harvey J. Scott, 40 years, 200 Bolton-avenue, was found dead at 7 o'clock yesterday morning in a sleigh in a vacant lot opposite Mono-street in East Queen-street. The body was discovered by Earl Potts, a passer by. Dr. Fitch was due to heart failure. The body was taken to the morgue and Chief Coroner Johnson and the coroner's jury were notified. The body was given to the sister for burial and no inquest will be held.

Scott worked for the Firstbrook Box Company. We was at work the day before.

THE WEAK MADE STRONG

Don't Suffer Pains and Weakness While You Wait for the "Sure Cure" to Come Along. YOU CAN TRY MY BELT AND PAY IF IT CURES YOU.

If you come to me and I tell you that I can cure you, I've got confidence enough in my treatment to take all the chances. I am curing hundreds of weak men and women every day, and I know what I can cure and what I can't. If you will secure me, you may wear my belt free until cured.

I know that no man remains a weakling because he wants to. I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a bander, and I know that if you have a reasonable foundation to build upon, I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to know that I have learned to restore it; also I want to tell you the names of some men who will tell you that when they came to use they were physical wrecks, and are now the finest specimens of physical manhood.

COULD NOT STOOP OVER.

Dear Sir, I got one of your Belts some time ago for some time ago, which was very painful, and prevented me from stooping, so at times I could hardly get away entirely. I would not take \$100 for it, and if I could not get another I would not part with it at any price. I can recommend your Belt as a complete cure to all afflicted with this trouble. Yours very truly, W. McNeill.

DR. McLAUGHLIN'S ELECTRIC BELT
