UNION GOVERNMENT ANNOUNCES GREAT NEW NATIONAL POLICY Germans in Naval Fights Capture Moon Island in Gulf of Riga

OBJECTIVE OF CAMPAIGN HAS BEEN REACHED

Half Million Mark Passed With Collections of Yesterday.

ANOTHER DAY'S DRIVE

Store-to-Store Canvass to Be Undertaken by Team Captains.

The following letter was received at the headquarters of the British Red Cross campaign yesterday from a soldier who sent with it one dollar:

"The British Red Cross means to you—only a small little, unselfish sacrifice. The British Red Cross means to the boys at the front—everything—life, happiness and reward. Your subscription, no matter how small, helps to keep the ambulance wheels moving, the drivers busy, large supplies, the doctors on the jump and the nurses doing their great work. Let not there be any failures to contribute to this great cause.

The Toronto objective is gained—\$50,000 being the figure reported last night—the campaigners set out today to reach, and if possible pass, the \$100,000 of last year's collection. Yesterday's story of discouragement, as told by the morning and afternoon papers, put the public on their mettle and by night there was the glad news which told that the people had risen to the occasion and had met the situation with their usual generosity.

Shop-to-shop canvass. The city has been divided into districts and the captains will have charge thereof of the shop-to-shop canvass, which it is expected will be an important factor in the results of the next twelve hours.

Much is hoped from the evidence given during the past twenty-four hours of the determination of the people of Toronto that they are not going to lag behind, but are going to keep pace with the things asked from them for the Red Cross. That this

London, Oct. 18.—The British official communication issued this evening says: "During the day hostile artillery shelled vigorously various localities in our forward and battery positions east of Ypres. Concentrated fire has been directed with good effect upon a number of targets.

LONDON EXPECTS RAIDS WITH HUNTER'S MOON

Metropolis Will Not Be Caught Napping—King and Queen Inspect Shelters in the East End of City.

London, Oct. 18.—King George and Queen Mary, accompanied by Princess Mary and Prince Albert, today toured the east end of London and inspected the air raid shelters provided in that section, where thousands of poor families live. The royal party went thru many buildings, including warehouses and factories, and also several tunnels.

The King and Queen expressed the keenest interest in the work. King George directed that he be kept informed of the progress made toward ameliorating conditions which, in the recent raid, led to confusion among the populace and which a great number of casualties might have been avoided.

With the approach of the "hunter's moon," which is expected to be at its brightest next Tuesday, London is preparing so as not to be caught napping by German air raiders.

Kiloran of the Liberal Association in an attempt to bring together in unionist government convention the win-the-war elements in both parties.

MOON ISLAND FALLS BEFORE ENEMY FLEET

Russian Naval Detachment Hard Pressed by Germans in Sound.

LIVELY FIGHT IN GULF

Allies Offer Vigorous Resistance to Attacks—Lose Old Warship.

Petrograd, Oct. 18.—An official communication issued this evening points out that the centre of gravity in the naval struggle is the maintenance of communication between the Gulf of Riga and Finland, and says the Russian torpedo boats are making strenuous endeavors to prevent the enemy from penetrating Moon Sound.

London, Oct. 18.—The German forces have captured Moon Island, according to a Berlin official statement tonight. Apparently contingents of the Russian fleet—in all, about 20 warships of various classes—are bottled up in Moon Sound, with a cordon of German warships barring their egress northward back into the Gulf of Finland, or to the south into the Gulf of Riga.

Brave, but outgassed by reason of superior gun range and heavier tonnage, the Russians gave battle to the German armada off Oesel island. Standing far outside the shelter zone of the Russians, however, the guns of the German dreadnoughts sank the battleship Slava—a relic of the days before the Russo-Japanese war—so badly damaged other units that the Russian flotilla was forced to seek refuge in Moon Sound.

Russians in Sound. Immediately seeing their advantage, the Germans, according to the latest German official communication, began intensive operations against Moon Island, hammering its shore batteries until they were silenced and also attacking the Russian guns on the mainland, putting them out of action. Moon Island was captured and the Russians took refuge inside Moon Sound.

Thereupon the Germans threw warships to the eastern part of Kaasar Bay, lying to the north of Moon Island, barring exit from the northern end of Moon Sound, and also rushed contingents to the south of Moon Island, apparently closing the passage to the south into the Gulf of Riga.

Foe Repulse in North. Already the Germans have attempted to attack from north, but the Russian guns have held them back successfully. Among the German warships attacking the old line vessels of the Russian fleet were at least two dreadnoughts of the Grousevitz type—vessels displaced 15,516 tons for the Slava. A majority of Russian torpedo boats when the vessel took its final plunge.

With this advantage of German naval forces over fresh disaffection in the German fleet and also of a mutiny in the Austrian fleet in the Adriatic and of bitter feeling between German and Austrian seamen in the Adriatic, German sailors at Ostend are reported to have decided to follow officers in the Adriatic to ill-treatment by their officers and the bad food served to them.

The bitterness of feeling between the Germans and Austrians at Pola, Austria's naval base in the Adriatic, resulted in a fight in which men on both sides were killed. The trouble was due to the overbearing conduct of the German seamen, who were attacking the submarine flotilla, and it was necessary to change the German base in the Adriatic to a point further south.

BIG PROGRAM OUTLINED BY COALITION MINISTRY

Borden Issues Statement Pledging Administration to Vigorous War Policy, Civil Service Reform, Equal Franchise, Increased Taxation of War Profits and Incomes, Encouragement of Immigration, Railway Developments, Reduction of Public Expenditure and Other Notable Reforms.

Ottawa, Oct. 18.—After consultation with his colleagues, the prime minister has issued the following statement with regard to the formation and personnel of the new government and with respect to policy so far as there has been opportunity to consider it.

The present Union or National Government has been formed with a desire to give representation to all elements of the population who support the purpose and effort of Canada in this war. Representative men of both political parties are included in its personnel, and it is intended forthwith to give to labor special representation upon the principle already followed with regard to agriculture. Impressed by the urgent necessity of putting aside all minor considerations, of sinking all party differences and of presenting a united front at this solemn and momentous juncture in the nation's history, the members of the government have come together in the duty of service to the national interest.

The lines of policy which will be followed chiefly relate to the prosecution of the war and to the consideration and solution of problems which will arise during its progress or which will supervene upon the conclusion of peace. They may be outlined as follows:

VIGOROUS WAR POLICY.

1. The vigorous prosecution of the war, the maintenance of Canada's effort by the provision of necessary reinforcements, the immediate enforcement of the Military Service Act, and the most thorough co-operation with the governments of the United Kingdom and of the other dominions in all matters relating to the war.

2. Civil service reform, with a view to extending the principle of the present Civil Service Act to the outside service, and thus to abolish patronage and to make appointments to the public service upon the sole standard of merit. The Civil Service Commission has already been directed to make a report to the prime minister as to the necessary steps for that purpose. Such arrangements will be subject to the existing regulations, which give preference in appointments to returned soldiers who are duly qualified.

3. The extension of the franchise to women, with suitable provisions for enabling married women to determine their nationality and to obtain naturalization notwithstanding marriage.

4. Adequate taxation of war profits and increased taxation of income as necessitated by the continuance of the war.

5. A strong and progressive policy of immigration and colonization, accompanied by suitable provisions to induce settlement upon the land, to encourage increased agricultural production and to aid in the development of agricultural resources.

6. Effective arrangements for demobilization, for the care and vocational training of returned soldiers, for assistance in enabling them to settle upon the land, and for adequate pensions to those who have been disabled and to the dependents of those who have fallen.

BROAD RAILWAY PROGRAM.

7. The development of transportation facilities, the co-operative management of the various railway systems so as to secure economy in operation, to avoid unnecessary construction and to secure the widest and most effective use of existing railway facilities, the encouragement and development of the shipbuilding industry and the establishment of steamship lines upon both oceans and upon the Great Lakes, co-operation with the various provincial governments for the improvements of highways, the investigation of the possibilities of air service for important national purposes.

8. The reduction of public expenditure, the avoidance of waste and the encouragement of thrift.

PREVENT EXCESSIVE PROFITS.

9. Effective measures to prevent excessive profits, to prohibit hoarding and to prevent combinations for the increase of prices, and thus reduce the cost of living.

10. The encouragement of co-operation among those engaged in agricultural production, with a view to diminishing the cost of production and marketing so that the price paid to the producer may conform more closely to that paid by the consumer.

11. The general development of all the varied resources of Canada and their conservation and utilization to the best advantage of the people with the co-operation and assistance of the state in every reasonable way for that purpose.

12. Adequate consideration of the needs of the industrial population, the maintenance of good relations between employers and employed, and such conditions of employment as will assure suitable standards of living among the laboring classes.

UNITE EAST AND WEST.

The policy of the government will also aim at a truer understanding and comprehension between the various communities both east and west, and the development of a national spirit of united effort among our people as the trustees of a great heritage.

For the purpose of effectively carrying out these policies the following methods have been determined:

1. A new portfolio, that of immigration and colonization, has been established.

2. For the effective prosecution of the war a permanent committee of the cabinet will be established.

3. For the purpose of considering and carrying out the other lines of policy above mentioned, another permanent committee of the cabinet will also be constituted.

The orders-in-council establishing these committees have been prepared and as soon as they have been approved by His Excellency the Governor-General they will be given to the press for publication. The personnel of each committee will be announced at the same time.

ORGANIZE TO SUPPORT LAURIER IN THE WEST

Opponents of Union Government Form Association in Manitoba. Winnipeg, Oct. 18.—At a meeting of the Liberals who are opposed to the union government and who are in favor of following the leadership of Sir Wilfrid Laurier, a provincial association was organized. Alex. Dunlop, editor of The Napawa Press, was elected president of this association, with John A. Knott of Winnipeg as vice-president. The secretary is W. J. Donovan, also of Winnipeg.

WAGE DEMANDS WILL AFFECT MANY ROADS

From 35 to 50 Railroad Systems Are Facing Added Expense. Ottawa, Oct. 18.—From 35 to 50 railroad systems in the northeastern part of the United States and in eastern Canada will be asked to increase the wages of trainmen, baggage men, brakemen, yardmen and conductors not less than 20 per cent, as a result of the deliberations of 104 chambers of the trainmen and conductors' organizations on these lines at the annual convention which concluded here this evening. The convention's will at once be communicated to the railway and after their approval and afterwards the railroads will be notified. If the increases will mean the addition of millions of dollars to the annual payroll of the half hundred systems concerned.

COCHRANE LIKELY TO REMAIN IN CABINET

He Will Be Connecting Link Between C. N. R. Board and Management. Ottawa, Oct. 18.—It is altogether likely that when Hon. Frank Cochrane becomes chairman of the C. N. R. board he will continue to be a member of the cabinet without portfolio. The ex-minister of railways, should he remain a minister of the crown, will constitute the connecting link between the C. N. R. board of management and the government.

The practical ownership by the government of capital stock is made, will transfer of capital stock is made, will render such a connecting link necessary and desirable. Mr. Cochrane will spend a considerable portion of his time in the capital, more particularly during the sessions. He will have an office and staff in the railway department. During the parliamentary recesses he will make his headquarters at Toronto.

No Negotiations for Peace Conducted With Vatican

It's a Shame the Way Some People Are Taken In

SPEAKING with a gentleman one day last week about clothes and the present day prices, he told us the following: **Always** used to paying a fair price for his suits (and by the way he has worn a lot of our make), in an off moment he was persuaded to try a store that was selling \$30.00 suits for \$20.00, **all wool worsted**. He discovered he was **stung** about a week later when he had the pants of the suit pressed. They simply **wouldn't** and can't be made to remain in shape because of the big percentage of cotton in them. We repeat that 'tis a shame the way people are taken in by misleading ads. In **this store, wool is wool and cotton is cotton**, and when it's **mixed** it's sold as such, and if we don't know what it is we tell you so, but we never leave you in doubt, it doesn't pay.

We have fine **Pure All Wool Worsted Suits** at \$30.00, \$35.00, \$38.00 and \$40.00, but not at \$20.00. We have good mixtures at \$20.00, \$18.00, \$16.50 and \$15.00.

Telling the **truth** about fabrics and standing behind our salesmen and our goods has kept us in business for forty years, and today it's the **strong firm** you look to in this great struggle we are going through to protect your interest as we do our own.

Overcoats

A name may suggest nothing to you, but we ask you to see our models, **Jutland, Trench, Ulsterette, D.B., Slip-on and One Hundred**. They are the last word in Proper Toppers, and any one a coat you'll feel proud to own. Priced from \$18.00 to \$60.00, the latter are all lined with Skinner silk and are peers among the Toppers of the clothing world.

Our Furnishing Man has a broad smile and a wealth of beautiful merchandise to show you—in Neckwear, knitted and fancy, 50c to \$2.50. Hosiery, Gloves, Mufflers, Underwear, Shirts, Pajamas, Caps, Suspenders, Collars and all the requisites of a well appointed men's wear store.

BOARD OF CONTROL HOLDS TO POLICY

Will Keep Down Capital Expenditures in Public Works Department.

PARKING PRIVILEGES

Matter of Handling Automobile Congestion Downtown Left With Police.

The board of control at a meeting yesterday morning followed the policy adopted several months ago of economizing in public works capital expenditures during war-time, by referring back the report of the works committee recommending proceeding with the filling of Sully crescent and the extension of Crawford street at a cost of \$47,672.

The controllers likewise struck out the street lights for Kennedy, Wilford and Western avenues. Controller Foster objected to the proposed expenditure of \$16,000 on winter risks and slides. "That is a luxury," he declared. "Can we afford to spend this amount when people are starving?" The board, however, voted the money, Controller Foster dissenting.

Consideration was given the report of the department of public health on the school medical inspection service. The mayor intimated that there would be a deficit of \$35,000 at the end of the year. The report was sent on to the council, but the finance committee must report on the question of finding the funds. The city solicitor is also to report on the legality of the board of health's action in providing for increased expenditure without reference to the city council.

The board considered complaints regarding the parking of automobiles on downtown streets. Col. H. J. Gossett, chief of police, declared that sooner or later regulations would have to be introduced restricting the length of time that automobiles might be left on the downtown streets. The mayor suggested using the driveways in front of the city hall as parking reserves, but objection was taken to this by Parks Commissioner Chambers. The matter was finally left in the hands of the police.

The increases that firemen would have received under the old grading bylaw were stopped when the council earlier in the year granted an increase of \$150 to members of the fire department under the rank of captain. Controller Shaw made a motion at yesterday's meeting that the increases that the men would have received under the bylaw be allowed as well. The board will take up the matter with the chief on Tuesday.

No More Sidewalks. Recommendations by the works commissioner for concrete walks on Gerrard street and Eridale avenue were struck out, and the controllers ordered that no local improvement recommendations or petitions on the initiative principle should be sent on by the officials.

The board passed the request of the works committee to instruct the finance commissioner to provide \$7,000 to complete the Bloor street railway extension to Runnymede road.

The proposed sale of an acre in the Bay area to the Imperial Oil Company, has been left in abeyance, and meanwhile the board, in conjunction with the harbor commissioner, will consider a policy of setting aside for sale a portion of land measuring 189 acres at the north end of the area east of the Don River.

PIM'S IRISH POPLIN NECKWEAR DAY AT SCORE'S.

It is wonderful the demand which is being created for Pim's neckwear.

To introduce it to our customers is to "make friends" with it at once—and for this reason Score's are making Friday a special introduction day for Pim's poplin, and as an extra inducement place on sale a most exclusive effects in the four-inch handkerchiefs in plain colors, stripes, pin spots and fancy patterns. Regular \$1.50 for \$1.25. R. Score & Son, Limited, 77 King street west.

REFUGEES ARE GRATEFUL.

That the shower held by the Friends of France Club last June has been responsible for the shipment to French hospitals of more than a ton of needed supplies during the past three months is the gratifying news given out by Mrs. A. E. Wells, secretary of the club. These supplies have given comfort to thousands of refugees as well as to hundreds of wounded, and the refugees have been especially grateful since these gifts have proved their chief relief from the distress of destitution after leaving hospital.

THIRD AND FINAL INSTALMENT 1917 TAXES.

(1) Ratepayers are reminded that Friday, October 19th, will be the last day to make payment of the third and final instalment of 1917 taxes without penalty; after that date 5 per cent. will be added to all amounts unpaid, and later, in addition to the 5 per cent., interest will be charged at the rate of 6 per cent. per annum.

(2) By making payment now taxpayers avoid the rush on the last day, 19th of October, and the possibility of entirely overlooking payment.

(3) If payment is made by cheque, the cheque must be "marked" by the bank, have war stamp affixed, and be payable at par in Toronto, to order of the "City Treasurer."

(4) If payment is made in cash, the exact amount of change should be tendered; this will prevent delay.

(5) Receipts for taxes sent by mail will be forwarded as speedily as possible, if stamped and addressed "return envelope" accompanies remittance.

ARBITERS MEET MONDAY.

The arbitration board dealing with the grievances of the men of the street cleaning department will not meet again until next Monday at 10 o'clock.

HALIBURTON MAN IS VICTIM OF THIEVES

Plays Strangers at Matching Coppers in Queen's Park and Has Pockets Picked.

Claiming that he had been swindled out of about \$25 by two unknown men in a gambling game, and later held by one of the men while the other went thru his pockets and stole \$175, a farmer who runs a general store at Haliburton went to detective headquarters yesterday morning and told the police of how he had been induced to Queen's Park and robbed in broad daylight.

The visitor told the police that he came in to Toronto from the country to purchase some goods. After alighting from the train in the Union Station, he walked out onto Front street, and while admiring the new union station he was approached by a man who also claimed to be a stranger in the city. The farmer is a man about 60 years of age, and was so impressed with the conversation of the stranger that they decided to go for a walk and take in the sights. In the meantime the friendly "sightseer" signaled to a second man that everything was working according to their plans.

The farmer and his new friend proceeded to Queen's Park to look over the parliament buildings. They had hardly landed in the park when they were approached by a third man, and after being introduced, it was suggested that the three indulge in a game of matching coppers, odd man winning. After winning about five cents, the two men started to cooperate against the farmer, one getting a head and the other tossing the coin a tail, with the result that between the two of them they collected every time from their victim. This game evidently was not fast enough, and after learning that the Haliburton man had quite a sum of money on him, one of the men turned on him and held him while the other searched him.

The farmer gave chase down University avenue after the two thieves, but they darted onto the side streets, and their pursuer lost trace of them.

A military policeman on duty in front of the armories, after hearing the old man's story, directed him to the detective department.

Letter From France Tells of His Activities Among Soldiers.

Capt. J. D. Morrow, who left here as chaplain of the Sportsman's Battalion, writes from France that he has been doing a great deal of work in the hospitals, cheering the sick boys, writing letters for them, playing his mouth organ and singing to them. Everyone, he says, has a good word for our Canadian boys, for they have played the game well and have earned the good name of Canada unspotted. He said that in his opinion Canada could not do too much for these men.

"There is another great army of workers who live in the hearts of the men," he writes. "The soldiers whose services have been like ministering angels in their dark Gethsemanes. These boys will never forget them for their lives of faithfulness and sacrifice, and no reward is too great for them here or hereafter."

AGENTS OF PACKERS HELD CONFERENCES

Investigation Into Packing-House Profits on Bacon Resumed.

CANCELED CONTRACT

Were American Firms Behind Unofficial Reason for This?

Secretary-treasurer T. F. Matthews of the Matthews-Blackwell Packing Co. was yesterday afternoon subjected to examination by both Chairman G. F. Henderson and Government Counsel James W. Bain at a session held by the cold-storage commission investigating the affairs of the two concerns, the Matthews-Blackwell, Ltd., and the William Davies Co. This was with a view to finding from Mr. Matthews whether both his company and the William Davies Co. were American firms behind the contract with the Matthews-Blackwell Co. The witness, while not admitting either impeachment, appeared to be unable to account satisfactorily for the high prices of bacon etc. prevailing in Canada.

The secretary-treasurer of the Matthews-Blackwell Co. was in the box all the afternoon. Touching upon the rebates on duty for hogs, etc., imported from the United States, Mr. Matthews stated that the total government duty excused from his company from August 1915, to August, 1917, amounted to \$2,991,327, with a refund from the government of \$1,696,281 for the same period, and granted only when the stock was shipped out of Canada.

Trend of Sales. The following figures were produced to show the trend of sales from the packing sheds: In 1913 the packing-house sales amounted to \$10,439,823; to \$9,644,861 in 1914, \$13,969,000 in 1915, \$15,958,076 in 1916, and \$20,876,761 in 1917 up till September. The net profits on the ordinary basis of depreciation were about 1.9 per cent. in 1913, 1.5 per cent. in 1914, 2.2 per cent. in 1915, 2.2 per cent. in 1916, and 2.45 per cent. on sales from all departments in 1917. The figures for the year 1917 included other sales as well as those direct from the plants.

The general rise in the prices of bacon etc. now came up for discussion. Mr. Matthews emphasized the fact that during the past four years the price of hogs has increased all over the world. The price of bacon itself during that time in Canada had risen 78 per cent. on breakfast bacon, 61 per cent. on hams and 58 per cent. on other parts. The company in its trade with the retail market had made good profits on only pure lard.

Chairman Henderson now drew the question around to the inference that the prevailing high prices both of hogs and bacon were due primarily to the restrictive operations of both Matthews-Blackwell, Ltd., and the William Davies Co., both on the Chicago market and in Britain.

Mr. Henderson: "What conditions, Mr. Matthews, in your opinion, affected the market price in Britain?"

"I should say they were made by the importations by Britain from every possible part of the world."

"Now, I understand the war office was buying bacon at the market price. Who fixed that market price?"

"A committee of home and foreign exchanges."

"And you would say that they alone, that is the members of this committee, fix the market price in Britain?"

"Yes."

"Mr. Matthews," fired out the chairman, "what would be the practical effect of a consultation between your agents and the William Davies Company's agents in London on the market price of bacon in Britain?"

"I assume any such consultation would in a measure affect the price."

"You said the other day you had no consultation with the Davies

Company, but that your London agents did consult their London agents?"

"I assumed they very likely may have done so."

"Is it reasonable to assume also that agents of Canadian companies were in consultation in Britain with your agents and the Davies Company agents?"

"Well, I think not. Our agents dealt exclusively with Denmays for the war office contracts."

"If I am trying to get at this: If there had been such a consultation one might expect some results. If two or more of the leading counsel of this city got together and decided to fix prices the public would have to abide by their decision. Is it not a fact that the various agents in view of fixing the market price in Britain?"

"Mr. Chairman, I do not like your inference. As I have already said the committee of home and foreign exchanges fixed the price."

"What then was the idea of this consultation among the agents in London?"

"The conditions at the time were such as to make them anxious to secure reservation, space for their consignments. Censorship was very keen, and these agents consulted to get on the basis of which cables should be sent. I discussed this matter with Mr. Fox. I may say that this matter concluded I turned to Mr. Fox and asked him why we should not also discuss the price."

"Ah! We are getting something tangible at last. I am trying to figure out why prices went up so high here. My feeling is this, that due to the regulation of prices in Britain the prices rose here. In order to make large profits in Britain I suggest you bought hogs at high prices here?"

"No. Well, but in the process of buying large orders you must have created competition here."

"Commissioner Clarkson: Did not the prices in Britain react upon those here?"

"Mr. Matthews was not certain. Mr. Bain here took up the thread of the examination."

"What commission did you pay your agents in London?"

"Two per cent. on consignments. Who arranged the contracts?"

"What, in your opinion, increased the price?"

"I should say they were influenced by the increased demand and decrease of material."

"What of our allies hold contracts for supply with your company?"

"No. Well, was there really a shortage of the necessary products?"

"With a million or more men in the field, Mr. Bain, there would necessarily be a very heavy demand."

"Who are the other exporters in Canada, Mr. Matthews?"

"Well, there are the Wm. Davies Co.,

Did you have competitors?

Well, the Davies Co. were aggressive competitors. They raised the market price here. We are aggressive, too.

Reason for Increase.

Oh, yes, to be sure. I was coming to you in another minute. Then we may safely assume the rise in price was really due to the aggressive policy of both the Matthews-Blackwell Co. and the Wm. Davies Co.

Listen, Mr. Bain. If we and the Davies Co. had been out of the buying market thousands of hogs could not have been bought in Canada. With this result that Detroit and Buffalo in the United States would have bought and therefore regulated the market.

WORKERS, BUYING BONDS.

J. R. Long, who is addressing the employees of the many factories in the city, to further the purchase of the small government war loan certificates, states that the employees are responding exceptionally well to the call. The response of the Chinese and Maltese employees has been exceptional, and that of the Jews, Italians and Greeks has been falling to do their part, also carrying practically all their savings to the campaign. The general success of the campaign is attributed to the plain statement of facts as to the situation in Europe today.

WHAT DYSEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are in that vital condition which can only come from a well-fed body. For the benefit of these sufferers, who are obliged to exclude from their diet all starch, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest, that you should eat a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of blaurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which will be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Blaurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than possibly be done by any drug or medicine. As a physician I believe in the use of medicine wherever necessary, but I must admit that I cannot see the sense of doing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of the trouble. Get a little blaurated magnesia from your druggist, eat what you want at your next meal, take some of the blaurated magnesia, as directed above, and see if I am not right."

YOUNG DESPERADOES.

Three Youths Appear in Sessions and Are Found Guilty.

After a trial which lasted about an hour and a quarter in the court of criminal sessions yesterday, Charles Lusty, aged 22 years, was found guilty on six charges ranging from obtaining money by false pretences to robbery; Gordon Allan, aged 17, was found guilty on five of the charges, and Lloyd Groh, aged 15, was found guilty on the one charge of robbery.

The trio were the three who, some time ago, held up W. L. McMillan, a druggist of Vaughan road, and robbed him of \$15, after which they made their escape in a motor car which was afterwards proved to have been stolen. The youths were all found guilty on this charge and that of stealing the motor car.

This was the only charge against Groh, but Allan and Lusty were charged on two counts with house-breaking. They were both found guilty on these charges also.

The charge which Lusty faced alone was that of false pretence. He was said to have endorsed a cheque for \$100 payable to "M. Schwartz," and Lusty endorsed it "M. Schwartz." This and the difference in handwriting proved his downfall on this charge.

Allan, in defence of himself in the witness box, admitted that things had been so bad that he could not remember all the daring deeds they had attempted.

Owing to the fact that Thomas O'Connor, who appeared for Allan, could not be present, Judge Winchester deferred sentence, although finding the boys guilty on all charges.

TEACHERS ALLOWED TRIP.

Household Science Instructors Will Visit Rochester to Inspect Methods.

The household science teachers of the public schools of Toronto will visit Rochester next week to see the schools there, and to study the American methods. The inspectors have now given their permission to go to Rochester, but they will have to say all their own expenses. Fourteen teachers in all plan to take the trip, and while there they will visit the Rochester schools, the mechanics' institute and some factory lunch rooms.

Annual Meeting of Association Held Yesterday Afternoon Shows Good Progress.

The University Supply Association held its annual meeting at the University of Toronto yesterday afternoon, Lady Falconer presiding. Mrs. G. M. Wrong read the treasurer's report of the year. Mrs. Vlyten Henderson read the report of the work done by the association during the past year. Mrs. Henderson announced that the appeal of the Red Cross for 5000 stretcher caps had been answered by the University Hospital Association's contribution of 7000. Mrs. Henderson stated that there were 103 stockings for the soldiers and 25 for the nurses for Christmas. There are 48 churches and clubs working for the benefit of the Red Cross. The associations use all their own material. Mrs. Henderson urged a strong appeal for workers. The club has a wonderful supply of material but lacks helpers. It was also stated that No. 4 Hospital, moved from Saultona, to Englewood, have been 103 stockings for the soldiers and have turned for help to the British Red Cross, which makes more urgent the British Red Cross appeal.

Two Whole Battalions of Toronto Boys Enlisted from the Y.M.C.A

MORE than 2,500 are fighting or in training. One hundred and sixty have suffered wounds. More than one hundred brave Toronto Y. M. C. A. boys have given their lives for Canada.

Is there in all Canada an institution that has greater reason to be proud of its part in the Great Cause than the Y. M. C. A. ?

All soldiers, no matter from whence they come, whether members or not, enjoy full membership privileges absolutely free in Toronto Y. M. C. A.'s.

Right proud is the Toronto Y. M. C. A. of its tremendous sacrifice of memberships for the war. No less proud is it of its opportunity to be a great guiding star to thousands of soldiers in Toronto. To carry on this work, however, membership must be maintained at full strength.

Join the Y.M.C.A.

and replace a member absent at the front

While the physical, social and religious work of Toronto Y. M. C. A.'s is conducted as usual for both civilians and soldiers, the buildings are regular beehives of activity on behalf of the boys in khaki.

A large proportion of the expenses of maintaining buildings and facilities is borne by membership fees. Membership not only benefits you, but it enables you to "do your bit." More than 4,000 new members are needed. Help the Y. M. C. A. to help the soldiers! Become a member!

The Y. M. C. A. must look forward to the glorious days of peace, when our returned armies will need its guidance more than ever. Thousands of men are learning to respect and love the Y. M. C. A. for its magnificent help to soldiers in military camps from Vancouver to France! Help the Cause by becoming a member now.

More than 620 men, rejected for some physical defect, were fitted and accepted for military service. If the Y. M. C. A. can make these men efficient, it can do the same for business men carrying the extra burdens due to the war. It can help young men (unfit for military service) to improve their physique and make better citizens. It can help boys upon whom Canada's future depends.

Join the Y. M. C. A. Have your boy join. Visit or phone the nearest Y. M. C. A. and get full information.

KEEN'S MFG. CO., LTD., EMPLOYEES' CONCERT

Workers Hold Entertainment to Gain Funds to Send Over to Soldiers Overseas.
Having as its object the raising of funds to supply Christmas comforts to its members overseas, a grand patriotic entertainment was given Wednesday night in Foresters' Hall by the employees of The Keen's Mfg. Co., Limited. The chair was taken by J. H. Keen, who in his opening remarks, reviewed the work of the past year. There are ten former employees of the firm now overseas, and every month a parcel has been sent to each one. To the British Red Cross the sum of \$300 has been handed over, and to both the Davison and the Whitby military hospital six bicycles have been presented at a cost of \$400. Two hundred pairs of socks have been forwarded, and in the greater production campaign five acres of land were obtained on Yonge street and, as a large supply of other things, have been obtained. A touching tribute was paid by the speaker to the one member of the firm that has laid down his life, and to the returned hero, Pte. Paul Cooney, who was present last evening.
Major Church was present, and in his address spoke of the great patriotic showing the employees of the various manufacturing concerns have made in the great war. He urged upon the employers of labor the great necessity of providing for the soldier when he returns again to the city, and said that the many employers of labor in Toronto must not expect 100 per cent. efficiency from the returned man, but he believed the various manufacturers were patriotic enough to do their best for them who have done so much for all.
A first-class program was rendered

EXEMPTION TRIBUNALS.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are over 1,250 boards throughout the country, each composed of two men, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-fitted to appreciate such reasons for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (a) That it is expedient in the national interest that the man should instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (b) That it is expedient in the national interest that the man should instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.
- (c) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.
- (d) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position.
- (e) Ill health or infirmity.
- (f) That he conscientiously objects to the undertaking of combatant service and is prohibited from doing so by tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belongs.
- (g) That he should be exempt because disfranchised under the War Time Election Act.

No Claim for Exemption should be put forward unless one or other of these grounds in fact exists, and no loyal citizen should assist in, or allow himself to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the men selected themselves or by their parents, near relatives or employers. Application for exemption must be made on printed forms to be found at every post office, which are to be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

VICTORIA INDUSTRIAL SCHOOL OVERCROWDED

Absence of Fathers on Service Has Resulted in More Boys Being Sent There Recently.
The need for increased accommodation in the Victoria Industrial School was discussed at a meeting of the industrial school board in the city hall yesterday afternoon. A communication from Hon. W. D. McPherson was read, in which he stated that the school was overcrowded, and advised the reduction of the number of inmates. In reply, the board intimated that at least one extra cottage was needed, which would cost in the neighborhood of \$20,000. The number of boys who were cared for by the institution had largely increased lately, owing to the absence of many fathers and the consequent relaxation of parental control. A delegation will meet the provincial secretary in the near future to talk over with him the need for increased accommodation.
Representatives from the Alexandra Industrial School for Girls made an appeal for an increased appropriation. The school had been affected by the high cost of living, particularly as stocks of supplies purchased two years ago had run out and must now be replenished.
Hundreds of Russian women have offered to train themselves as crews for battleships, and it is said that their services have been accepted.

EXALTED TO DEGREE.

Eastern Scarlet Chapter of the Orange Association of the city last evening exalted the following members to the scarlet degree: Bros. Benjamin Deakin, Herbert Loft, W. J. Stewart, Wm. Anthony and Wm. Scarborough. Companion Vernon Winnett occupied the chair.

The 82nd Squadron of the Royal Flying Corps is expected to be away from Camp Borden by the end of the third week in November, and the entire force will be out of that camp by the end of November, with the exception of a hundred odd E. R. P. men, who will be retained to repair old and broken machines. Some ten per cent. of the men of the 82nd Training Corps are experienced men sent over from Britain.

PTE. FRASER WOUNDED.

Pte. P. G. Fraser, son of P. Fraser, 402 Huron street, has been wounded. He is 22 years of age and attended the Northern Congregational Church. He has been in France since the beginning of the year.
