# SEAGOING SCHOONER

Full of enthusiasm over his plan to lift the America's Cup next year with Canadian-manned yacht, Commodore A. C. Ross of the Royal Cape Breton Yacht Club outlined the means by to The World at the King Edward Hotel last night.

Commodore Ross has just arrived from New York, and he states that public opinion in the States is all opposed to the freak yachts which can only sail in certain kinds of weather, and is longing for a real honest-togoodness sailorman's race, in which the boats will not have to wait for made-to-order weather before they can venture forth to race.

The type of boat with which Com modore Ross proposes to try for the America's cup is that of the sea-going schooner used by fishermen off the

Ross, "will be men whose every day at sea witnesses not a race for sport, but a race for livelihood." He hen went on to describe how a man was stationed aloft to watch for schools of fishes. Flocks of sea birds always followed the schools, and as soon as the birds were sighted the aloft gave the signal to the crews below, and then ensued a race among the various schooners to get to ool first, for the first to arrive got the biggest catch.

said Mr. Ross, "after the fish are taken there is another race to port, for the schooner that gets there can get the highest price for its From these fishermen, whose faily toil is a race for livelihood, we the crew for the challenger, and the captain of one of fishing schooners will be chosen to sail the Maple Leaf, for that is what the challenger is to be named.'

The money handed into the newspapers will be turned over to designated trust companies, who will act as trustees of the fund. The trustees will then issue a certificate to the contributor certifying that he is a snareholder in Canada's national week!

Mr. Ross hopes that the Royal Cape Breton Yacht Club will be able to challenge in time to have the race sailed next fall. The terms governing the competition demand that the challenge, with a full description of the challenger, be in the hands of the deenders, the New York Yacht Club, ten months before the race. This makes necessary immediate preparations for raising the money to build the "Maple Leaf" and full details are likely to be announced in a few days.

Besides the newspaper subscription lists Mr. Ross has in mind a tag day, to be held all over Canada about the middle of October. Subcriptions will be limited from \$1 to \$100, and with one exception none but Canadians

Asked by whom the boat would be built, Mr. Ross replied: "No Nicholor no Fife will design her, but a real Canadian fisherman, who knows a ship from keel to topmast. List of Capable Heroes Are Desirous of Finding Steady Work.

At the present time the Amputation Association has about fifty men listed who are out of employment. Many have been engaged in casual work of a temporary nature, and others have recently been discharged from hospital, or have completed courses of vocational training under the D. S. C. R. In the latter case it has been found that the trades or professions for which they trained are at present too crowded to admit them. The majority of the men are married, in many cases with children dependent many cases with children dependent upon them, and the question of how much pension a man is getting is too often taken into consideration when wages are fixed, Many of our men are holding response be positions, and as a rule, it has been found that an amputation is steadier than the average return man, and with congenial employment will settle down to steady work.

The Dominion and provincial governments and the clivic authorities have been approached regarding employment, and all have promised to five preference to amputations which they can fill. No doubt, in time a good number of the men could be placed in the civil service or in civic positions, and such positions would give the men a sense of security to which they are fully entitled but in the meanting that the trained and directors. Another matter that called for improvement at once was the lavatory accommodation on the grounds. The present accommodation was a disgrace.

Need More Accommodation.

If the support of the public was desired, proper accommodation for them would have to be provided. Also thousands of benches were required. It would only be fair, said Mr. Mc-Bride, for the city to permit the Exhibition directors to retain all this year's surplus over \$100,000 to be used in providing these needed improvements.

In closing, Mr. McBride paid a warm dition of the stage.

President Fleming and General Manager Kent both expressed themselves on Saturday night as being entirely on Saturday night as being entirely the 1920

The harbor improvements would transform the situation south, east and west of the Exhibition grounds, and the federal government had promised to aid in building a bridge across the western gap, and this general forward movement would work in with the plans of the Exhibition.

Among the many winners in pigeons at the poultry show held this year at the C.N.E. was the well known labor man, John B. Vick, business manager for the International Union of Bricklayers in Toronto. The Ontario cabinet on Saturday an-nounced a large number of salary in-creases to civil servants who have long

creases to civil servants who have long been anticipating the list, even despite the fact that only recently Hon. Peter Smith, provincial treasurer, predicted a deficit on the year. The advances are retroactive to Nov. 1 last.

Many of the permanent officials have been generously dealt with. Horace Wallis, the nominal "deputy premier." jumps from \$3500 to \$4400, while G. Grant, who is the real secretary to the premier, and who had the modest pay of \$1800, gets a well-deserved rise pay of \$1800, gets a well-deserved rise to \$2400. A. H. U. Colquhoun, deputy minister of education, and a good one at that, goes from \$4800 to \$5400. W. B. Roadhouse, another deputy minister, is recognized for his services to agriculture by a boost from \$3750 to

J. A. Ayearst's "running after rummers" ability has won him a jump from \$4000 to \$4200. Dr. J. W. S. Mc-Cullough, a genuinely hard-wc-ked official, is advanced from \$4700 to \$5100. The increases for the department of the attorney-general were only approved by the lieutenant-governor late on Saturday, and have not been announced. Employes at Osgoode Hall will be dealt with this week.

The increases are as follows:

President Fleming responded to the loast to the Exhibition management and directors. He was especially thankful for the support given him by all the directors, and also by members of the city council, He then reviewed the needs for expansion on the grounds. Report Judgment Unanimous. The pudgment of the commissioners which, it should be pointed out, is unanimous; being concurred in by all the commissioners who sat upon the case, further indicates that the objections now urged were taken into account, and emphasizes that such objection went to the measure of relief that ought to be granted rather than to the claim that no increase should be made. claim that no increase should be made. The official judgment of the interstate commerce commission of the United States has, as well, been available for reference. This judgment, it may be noted, is now in force. A perusal of this judgment discloses that more general, and, in many cases, heavier increases have been granted to railways in that country. In Feature at Blue Bonnets

Montreal, Que., Sept. 12.—The Hendrie Memorial Steeplechase, over a distance of two miles and a half, offered as today's feature of an exceptionally good card, resulted in a splendid victory for Mrs. E. Ambrose Clark when Blighty II. led the way home for his s'able companion, Minata, with the locally-owned Jim Thorpe third. The race was a spectacular one and was contested without a quarter, resulted in an easy victory of J. MacManus' three-year-olds so of Uncle—Continental, King's Champion.

Attraction at Royal Alexandra.

Al Joison in "Sinbad." Al Jolson, generally accumined as being the world's greatest entertainer, will be the game attraction at the Koyat Alexandra beginning this evening, under the direction of the Messis. Lee and J. 3. and depending this evening, under the alrection of the messrs. Lee and J. J. Snubert. In selecting Al Jolson in the winter Garden's most famous travesty, "sinbad," as the opening attraction of the new regular season here, the Messrs. Shubert are offering the playgoers of this city the most popular star known to the American stage. Al Jolson's success in "Sinbad" has been unprecedented. His magnitude in the piece may be understood when it is known that during his ten weeks' engagement in Philadelphia the receipts averaged \$28,000 per week, and that hie played two engagements at Boston, one of ten and a return engagement of five, to an average of \$30,000 per week. Other than Al Jolson, this mammoth extravaganza has a brilliant array of tallented singers, actors and dancers, chief among which are: Helen Ely, Sue Creighton, Clara Carroll, Margaret Mack, Elsie Eckert, and MaBelle, the famous dancer; Lawrence D'Orsay, Franklin A. Batie, Francis Lieb, Eddie Lynn, William Burn. Samuel Critcher on and William Dunn.

The statement that the misdemeanors of one generation will be visited upon the next has become a commonplace, but the following of a passionate, daring cast of-character thru three generations of beautiful women is unusual in literature and on the shadow stage. Alhambra This Week.

Thomas Meighan has been seen in motion picture stories of great human interest but never before has he had such a lovable role as that given him in "The Prince Chap," in which he appears at the Alhambra Theatre today, Tuesday and Wednesday. The story is rich in emotional acting. It concerns a little girl who is left with him to bring up. That he finds himself confronted with a perplexing problem, when the girl buds forth into womanhood, is the natural sequence to what takes place before. There will also be shown that hilarious comedy, "Jiggs in Society"—with all the laughs imaginable

Mitchell Lewis is a man of big success and has been popular on the screen for a long time. The nature of the stories in which he appears commends him and them to a public desirous of obtaining bigness, and character in photoplay entertainment. Today, Tuesday and Wednesday Mr. Lewis is appearing in "King Spruce." Motor to the Oakwood, leave your car in the care of our attendant and enjoy this picture and the others that fill out a fine program, together with the excellent music by the Oakwood Orchestra.

Romance at The Strand.

What is your reaction to the phenomenon of a young, pretty, high-spirited girl marrying a man much her senior and very wealthy as well? Could she marry him for love, or is it always his wealth and the comforts and the luxuries it can give her that she seeks? In a romantic, old-world setting that only Spain could give to "The World and His Wife." there lived beautiful, passionate Feedora who did marry for love altho her husband was old, wealthy Don Juan. Would she live happily with him until he died, dreaming not of the love that might have been hers had she chosen a younger man from among the gallants who courted her? That is the life problem from an older, more dashing, colorful civilization that Alma Rubens interprets at The Strand Theatre this week.

C.P.R. was weak on Wall street, but quite a little of the stock was put out here at 134. Bell Telephone was lower at par, and Steel of Canada and Dominion Steel were both weak.

Dome and Nipissing were strong, the former selling at 12.50 for 200 shares, and Nipissing selling at 11.00 for a broken lot.

The banks and other investment issues were steady. The War bonds had a slightly firmer undertone, with the 1931 issue up to 92

STERLING EXCHANGE ON THE DOWN GRADE RAIDS DIRECTED

New York, Sept. 11.-Further depression in foreign exchange market was a disquieting feature today. Despite heavy gold imports, remittances to London fell below \$3.50 to the pound for demand bills, with sympathetic de-clines in the rate to France, Belgium, Germany and Italy.

Today's quotations for British remittances were the lowest since March 4 last, and the reaction in quotations to continental Europe are the lowest in several months.

Dealers in foreign exchange reported

daily large offerings of bills on Lon-don and Paris, mainly for exports of According to reports, there has been heavy speculative selling of foreign exchange, based largely on industrial conditions in England and Italy.

DUN'S INDEX NUMBER. The movement toward commodity price readjustment, which has recently been a conspicuous feature of the commercial situation, again finds reflection mercial situation, again finds reflection in the fourth consecutive monthly decline in Dun's Index Number of wholesale quotations. At \$248,257 on Sept. 1, the latest compilation is not only 1,6 per cent, below the figure of a month previous, and 5.7 per cent, under the top level of \$263,332 of May 1 last, but is little above the bottom point of this year, touched on Jan. 1. While the probable extent of the current downward trend of prices is a matter of uncertainty, it would appear that the process of deflation in some markets, at least, has not yet been completed. Comparing with a year ago, at which time a moderate recession was witnessed, the present index number shows a 4 per cent, increase, and there is a rise of 14.4 per cent, over the \$217,037 of March 1, 1919—the lowest basis reached since the signing of the armistice.

With the close of the holiday season and a slow down in the attractions of other securities, it is thought that more attention will be given to mining stocks. Only to this can the market look for increased speculation and activity. An increase in labor at the mining camps will supply the best argument for the purchase of gold shares and this is in fair prospect for the coming winter. Sales on Saturday were made at practically unchanged figures.
