ONTARIO BABY MADE STRONG

Mrs. Jarvis Says Cassell's Tablets cured her Delicate Child when nothing else could. Mrs. Jarvis, Box 286, Penzance P.O., Ontario, writes: 'It is a pleasure to tell you that Dr. Cassell's Tablets have done for my baby. When only five months old he fell ill, and though I had medical advice for him he got worse, which I tried several special foods, but none of them would stay on his stomach, and he became so thin that he seemed just skin and bone. He only weighed 10 lbs., and we thought he could not live. But when I heard of Dr. Cassell's Tablets I got some for my baby, and am thankful I did. He is a bonny boy now, quite cured and weighs 25 lbs. at twelve months old.'

Gathering of Manufacturers Approves Policy of Building Smaller Wooden Ships in Lower Provinces

The need of encouragement for the construction of wooden vessels of smaller sizes than provided in the British government specifications for the Munitions Board contracts, was strongly urged at the meeting of the maritime branch of the Canadian Manufacturers' Association which was held here yesterday. A general resolution pledging the support of the association for shipbuilding met the practical objection that the maritime provinces could do little under the present government programme because the necessary materials are not available. Stock would have to be imported for larger ships from the Pacific coast or the Southern States, and the national director of shipbuilding has given blunt warning that transportation difficulties make it impossible to depend on these sources. It was pointed out, however, that there would be no difficulty in carrying on a much smaller scale, the building of smaller wooden vessels, such as now are under construction in these provinces, and that the market for and usefulness of these craft is practically unlimited. The executive was instructed to amend the resolution so that it be presented to the government authorities to express these views fully.

The evening session was devoted to a lecture by Professor H. V. Sexton, of the Nova Scotia technical college, on vocational training. Owing to the absence of the newly elected chairman, the retiring chairman, A. M. Coll of New Glasgow, presided, and introduced the speaker.

Mr. Sexton's address was a telling argument for vocational training, not only for the benefit of the young people who would receive it or for the manufacturers and others who would benefit by it, but also as a measure of imperial preparedness for after-war conditions.

At the close of the address, A. D. Ganong moved as follows:—

Afternoon Session

At the afternoon session, a resolution proposed by A. H. Wetmore regarding price fixing by manufacturers, was seconded by Mr. Starr and adopted. It endorses the resolution passed at the joint meeting of manufacturers, wholesalers and retailers, held at Ottawa on February 6 and is against passage of the bill introduced by Mr. Bennett in the House of Commons. This it declares under present circumstances and what further investigation as asked for would be unjust and inadvisable.

The resolution regarding ship building, which was proposed at the morning session by A. G. Robb, was seconded by Mr. E. Elkin and adopted by Mr. Estabrook that the resolution be left to the mover, seconder and chairmen to amend in accordance with the views of the meeting, was carried.

A resolution dealing with the employment of returned soldiers was presented by S. F. Elkin and it was resolved that the executive appoint a committee to advise in accordance with the views of the meeting, was carried.

The resolution regarding the provincial boards for securing employment of returned soldiers, in seconding the motion, John Keefe, of St. John, strongly urged the value of the day's work, and the close of the address, A. D. Ganong moved as follows:—

The election of officers resulted as follows:

Chairman—W. S. Fisher, St. John.  
Vice-Chairman—K. E. Shaw, Sydney.  
W. W. Simms, St. John; C. C. Starr, Halifax.

Executive—S. K. Elkin, St. John; C. Crowell, New Glasgow; Clifford McAvity, St. John; R. H. McKay, New Glasgow; W. Fawcett, Sackville; T. Cumming, New Glasgow; A. D. Ganong, St. Stephen; C. S. Cameron, Sydney; Angus McLean, Bathurst; W. Humphrey, Moncton; H. R. Silver, Halifax; H. S. Crowell, Yarmouth; D. Turnbull, Halifax; A. R. McPherson, Windsor; C. S. Sutherland, Amherst; Bruce Stewart, Charlottetown; Geo. T. Douglas, Amherst; Arch. McInnes, New Glasgow; A. G. Robb, Amherst; H. R. Thompson, secretary.

A. D. Ganong and George Hanson were appointed delegates to the Dominion conference in Winnipeg and the executive was given power to act in their stead.

The matter of local executives in St. John, Halifax and other centres was left with the executive.

It was decided to appoint a committee of five on export trade, and to hold a fall meeting in Sydney.

A farmer who had recently bought a vacuum cleaner sent a friend of his, and persuaded him to go home and see it work. The farmer said it would clean anything. In front of the house was a dirty cow. The friend humorously suggested that the cow be given a dose of the cleaner. A few days afterwards the friend met the farmer and said:—"Did you ever try your vacuum cleaner on the cow?" "I did," laconically replied the farmer. "What happened?" asked the friend. "Milked her, dry, begun!" said the farmer.

Frank Burnand

In a personal tribute to Frank Burnand, the retired editor of Punch, who recently died, "H. W. L." writes in the Daily Chronicle: The public tasted his quality in many forms, on the stage and from the printed page. He was at his very best at the head of the Punch table. Seated there, he literally bubbled with jokes, which lost none of their effect from the contagion of his own hearty enjoyment. It was the same in his correspondence, and he was a tireless letter-writer. Considering the pressure and amount of his literary work, it amazed me to receive from him at brief intervals letters of four, sometimes eight pages—not dictated or typewritten, but done with his own pen. Quip and frank gleamed on every page, absolutely unpremeditated, apparently born out of the spurring of his pen.

She Couldn't Go Her Corns Wouldn't Let Her.

She remembered the agonies of the last dance. It kept her at home to coddle her touchy corns. She simply couldn't face the pain again.

How easy it would have been, what instant relief, if she had only known of Blue-jay. Other millions of men and women have found relief this way. Blue-jay stops pain instantly. And the miserable corn is gone, roots and all, in 48 hours.

New shoes—smart styles—have no terrors to Blue-jay users. These soothing plasters, inset with a medicinal wax, have ended millions upon millions of corns.

Many tests conducted by experts show that the first application removes 91 per cent. Stubborn cases require a second or third treatment. Why wait longer? Why suffer?

**Vice Versa**

The London Evening Standard tells the following anecdote: At the outbreak of the war the principal partner in a big Midlands manufacturing firm joined an infantry regiment formed from his own ranks. He was soon promoted to sergeant, but in that rank he stayed, and refused many offers of a commission. In due course he went to the front—Gallipoli—and was wounded. A few months later he was invalided out and returned to his work in the Midlands. Recently he advertised for a manager for a certain department of his works, and among the applicants was his late company commander! The captain had himself been invalided out. He did not know to whom he was applying for the post, but the sergeant recognized the handwriting. The sergeant has engaged his captain-on probation.

**The Street of Inaction**

Is there some occult connection between tall hats and intemperance? H. Simons, in his book "The Street of Inaction," says that twenty years ago, "no man on the commercial side of a newspaper would have ventured into Fleet Street unless dressed in a frock coat and silk hat." In those days, too, the "Street of Inaction" was a "Street of Drink." Mr. Simons alludes to the number of men who fell victims to the drink habit. Many a promising young man, he says, was ruined mentally and morally by his associates. "I recall one brilliant young man, at one time editor of one of our 'Variety papers, who succumbed to his temptations and was finished in a few months, and afterwards sent a note to me at my office for sixpence to buy bread." Such cases were, unfortunately, only too common. Happily nowadays, "you can find no more sober class than newspapermen."

The Evening Times and Star

ST. JOHN, N. B., MAY 31, 1917.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

DISAGREABLE FACTS

The British losses announced in May have been over 112,000. This indicates the desperate character of the fighting, especially on the western front. The Canadian losses have been considerable, and there is heavy fighting ahead.

with his fellow citizens. He had an abiding faith in Canada, and though his friends once prevailed upon him to essay an entrance into public life he was not the man to indulge in any personal projects that the attempt was not successful.

The Ottawa correspondent of the Standard says that Canada will have a coalition government within a fortnight or a general election within a month. He predicts that "Sir Lomer Gouin, premier of Nova Scotia, and Hon. N. W. Rowell, leader of opposition, Ontario, Liberals, all are to be invited to enter a 'win the war' government."

The opposition at Fredericton would be much more effective in its criticism but for its own record. The government will no doubt profit by the experience of its present critics and see to it that its own record is not such as to tempt quation in years to come.

LEADERLESS

A leaderless Canada still blunders along, waiting and hoping for the man and the hour of its deliverance. The men on the battlefield are calling for aid, the returned soldiers are pleading for justice, and the people at large are clamoring for relief from the unnecessarily high cost of living.

The Standard must not try to disown Mr. Tancred Marsil. He was the Conservative candidate in the constituency of Paget in the general election of 1911, and has exercised the Borden government patronage in that riding since his defeat by J. E. Marsil, the present Liberal member, who has two sons at the front.

Keen criticism will not be at all bad for the Foster government, but somebody should take Mr. J. K. Pender into a corner and whisper to him a few words of earnest counsel.

The Manufacturers' Association has ranged itself on the side of increased food production, shipbuilding and technical education. It stands pledged also to aid in securing employment for returning soldiers.

A movie of the Standard throwing fits over the moving picture censorship would draw full houses. The agony is so long drawn out.

Charges Society "WOMEN" WITH BEING "SLACKERS"

Charges that society women of the fashionable Back Bay districts, Boston, invited shop girls into their homes to sew for soldiers while the mistress of the house and her daughters looked on and then get credit for patriotic work when they turn in the finished product to the various relief agencies were made by President Edward F. McGrady, of the Boston Central Labor Union at a meeting of the organization on last Sunday.

These young women, after working for many hours in the shops, have gone to some of these homes where they have been put up against big piles of cloth with orders to make handkerchiefs and towels.

One little boy wrote a letter to his chum, and described a slight accident to a playmate thus: "You know Charlie Miller's neck? Well, he fell in the pond up to it."

FELT LIKE A NEW PERSON

After Taking Only One Box Of "Fruit-a-tives"

East Ship Harbor, N. S. "It is with great pleasure that I write to tell you of the wonderful benefits I have received from taking 'Fruit-a-tives' For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, I feel like a new person, to have relief from those sickening Headaches."

LIGHTER VEIN

"Father, what is the social scale?" asked a little girl.

"Usually," replied the father, "it's a place where they weigh money."

Old Lady—"You talk like a gentleman, sir."

Tramp—"Yes, ma'am. I'm related to royalty. Wound I was stung by a queen bee."

He—"I hope love, we shall always be of one opinion."

She—"Well, dearest, you know mine so well that I think we always shall be."

She—"In a way, getting married is like using a telephone."

He—"How so?"

She—"One doesn't always get the party one wants."

Flinn—"Had you any luck on your fishing trip?"

Fluke—"Yes. Counting those that got away and those we threw back to get organized but two men to go."

Mother—"I really think you'd be happier if you married a man who had less money."

Daughter—"Don't worry; he will have less before long."

He—"Your father is heartless! I told him I couldn't live without you."

She—"And what did he say?"

He—"Offered to pay my funeral expenses."

Glady—"And what is the height of your ambition?"

Dick (after a careful survey of her)—"Well, dearest, I should say that it was about five feet three."

"It isn't necessary for you to spend so much money on clothes. Look at Mrs. Wile. All the men follow her, and yet she dresses very simply."

She—"The attractiveness of the woman. She wants to show the rest of us that she can do it in spite of her clothes."

GOT 2,000 MEN TO GO TO WORK ON FARMS

Toronto War Production Club Has Done Great Work

City Folk Are Busy—Gardens Have Been Dug for 1,000 Soldiers' Wives in Toronto

Toronto, May 30.—The War Production Club of the Toronto Board of Trade will soon wind up its spring campaign and then launch its summer campaign, to extend throughout June, July and August, which in turn will be followed with other activities to be continued through the month of autumn.

Organized but two months ago, the results the club has obtained are nothing less than marvelous, and form proud credit to the farmers of Ontario, by the drafting of such men from the shops, offices, and industries as had some knowledge of agricultural work and were willing to convert their vacation—usually spent in idleness—into one of genuine service on a farm.

The club has already succeeded beyond the expectations of its promoters. Over 2,000 men have been lined up of whom at least 1,000 are now in the fields of rural Ontario doing a man's job cheerfully and patriotically. Seventy per cent of these are more or less experienced in farm work, and over 600 of the first 1,000 are out to stay on the farms for three months or longer.

The banks, insurance and railway companies have been the largest contributors to this total, although all classes of business have done well.

Army Will Grow. There is unmistakable evidence that as vacation days draw near the army of volunteer workers will grow. Over one hundred firms, all of whom employ scores and some hundreds of men, have pledged their co-operation to the scheme by allowing such of their employees as agree to go to work on a farm during their period of their annual holiday a vacation of three instead of the customary two weeks, the third week without pay. As the farmer to whom such men are sent pays them during the term of their employment at the soldiers' scale of pay, \$1.10 a day with board, the city man

who volunteers for farm employment profits financially from his vacation and performs outdoor work which brings him back to the duties in the city at the end of three weeks benefited physically as well.

To indicate the extent of co-operation business firms are given the club, it may be stated that one large department store has allowed thirty of its employees to go to the farms for the entire season, and have promised 400 men to assist in the harvest. Only yesterday the announcement was made by the Canadian Consolidated Rubber Company that they would close their seven large rubber factories in Ontario and Quebec for one full week during the farmers' busiest season to allow the company's employees, numbering several thousand, to help farmers take care of their crops when such help is most needed. The Ontario factories of the firm are located at Kitchener, Elmhurst and Port Huron.

Dug Soldiers' Gardens. In addition to the question of securing labor, the members of the club—and any one may be a member without cost who signs a card agreeing to take up farm work for three weeks or longer—have dug the back gardens belonging to the families of over 1,000 Toronto soldiers who are overseas. The club pro-

vides the potatoes and seeds, and the family of the soldier who is overseas get the produce. As a consequence it is expected that many of these families will have a larger supply of vegetables for their own use than in any year in time of peace.

The club has also interested business houses having a large staff of employees in taking up large sections of the subdivisions adjoining Toronto and cultivating them. About 700 acres in all in plots of cultivation of a fifty acre farm, have been put to productive use. The Rotary Club members have become responsible for the cultivation of a fifty acre farm, the members volunteering one day's work a week upon it. There is a cottage on this farm in which all accommodation is provided for the volunteer workers.

Churches Respond. The most encouraging feature of the club's work has perhaps been the response which the churches and Sunday schools of the city have made to the appeal to utilize vacant lots in the city for increased production. Nearly fifty churches have allied themselves with this movement, some of them cultivating as much as ten acres. The enthusiasm of the younger people of the churches in vacant lot production is remarkable.

The direct result of interesting so many city people in production by work which they can perform within the city or suburbs in their spare hours will, it is expected, so interest them in agricultural production in larger form that hundreds will respond to the call to go into the harvest fields next August and assist in harvesting the season's crops. It is in fostering this desire to perform a necessary as well as a patriotic service that the War Production Club largely exists.

A Ridiculous Rumor

Without a vestige of reason to justify such faith, not only thousands of soldiers at the front, but hundreds of people in or near society hold the conviction that Lord Kitchener is still alive. The latest developments of this hallucination are two: Firstly, the statement, widely circulated by word of mouth, that a letter has been received mysteriously from some one who went down in the Hampshire. No names were given but the preposterous tale seems to obtain credence. Secondly, a lot of old women of both sexes now assure all and sundry that the revolution in Russia is the work of Lord Kitchener, who is over there today. Really, the Liverpool Post, explains, such nonsense, solemnly put forward, surpasses even the former tale that General Mackenzie was really poor Hector Macdonald.

Cherlyman—"It is bad to lose a husband, madam; but I'm sure that as he was such a good man he is happy where he is."

Widow—"Oh, but I know he isn't happy."

Cherlyman—"Why?"

Widow—"Because he said he could never be happy without me."

PROBATE COURT CITY AND COUNTY OF SAINT JOHN

To the next of kin of CHRISTOPHER McDADE, late of the City of Saint John in the City and County of Saint John, Carriage Manufacturer, deceased, and all others whom it may concern.

The Administrator of the above deceased intestate having prayed that a license may be granted to him to sell the real estate of the said Christopher McDADE, deceased, you are hereby cited to appear, if you so desire, before me at a Court of Probate, to be held in and for the City and County of Saint John, at the Probate Court room, in the Pugsley Building, in the City of Saint John, on Monday the eighteenth day of June next, at the hour of eleven o'clock in the forenoon, to show cause, if any, why a license to sell the real estate of the said Christopher McDADE, deceased, should not be granted to the said Administrator, as prayed for and as by law directed.

Given under my hand this twenty-seventh day of April, A. D. 1917. H. O. McNEIRNE, Judge of Probate.

STEPHEN B. BUSTIN, Registrar of Probate. MACRAE, SINCLAIR & MACRAE, Proctor for Administrator.

A FRIEND'S ADVICE

Woman Saved From a Serio Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness, could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE FRANKLIN, 1821 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

**A Lad's Sacrifice**  
The Bishop of Chelmsford (Dr. Watts-Ditchfield), tells a moving story of the sacrifice of a Bethnal Green lad who had been reared in "an indifferent home." The boy wrote to his parents after he had been at the front for more than a year and said he expected to obtain leave. "About the time the lad should have reached home," said the bishop, "another letter arrived. 'Mother,' the lad wrote, 'I found a man near me very sad. I said to him 'What's the matter, Bill?' He said he had just heard his little girl was ill, and he could not go home and see her. Mother, I know it will be a great disappointment to you, but I went to my officer and asked him whether Bill could not have leave instead of me. So he will go home, and I will stay behind.' A few days later the mother received a telegram saying her lad had been killed while staying behind. That," concluded the bishop, "was a magnificent and noble sacrifice."

The Boy—I shall be glad when I am old enough to do as I please.  
The Man—And about that time you'll go and get married, so it won't do much good after all.

**RECENT DEATHS**

The death of Charles E. Ferris, aged ninety years, occurred at Robertson's Point, Queens county, on Saturday. The late Mr. Ferris was born at White's Cove February 17, 1827, and had been a member of the Jesuit Baptist church for the past sixty years. For many years he resided at Jemseg, but lately had been living at Robertson's Point. He is survived by his wife, formerly Miss Hannah Wason, of Cumberland Bay, Queens county, and by nine children, twenty-one grandchildren and seven great grandchildren. The children are Mrs. H. H. Rigby, Mrs. Alexander Abel, Mrs. George MacLean and Miss Addie Ferris, of Boston; Charles A. Ferris and Mrs. C. McGow, of St. John; J. B. Ferris, of Jemseg; E. B. Ferris, of Robertson's Point and Mrs. Charles Gunter, of White's Cove.

The funeral was held on Monday from his late residence. The remains were taken to Jemseg where interment was made. The late Mr. Ferris was held in high esteem by residents of Queens county.

Edmund Davis, an old resident of Acton, York county, died at his home there on Friday afternoon. He was a son of Richard Davis, one of the pioneers of Acton, and was in the eightieth year of his age. He is survived by his wife and a number of children, among whom are Charles Davis and Philip Davis who reside at Acton. He is also survived by three brothers, Thomas, residing at Upper Kingsclear, John, residing at Acton, and Richard, residing here.

**Killed By Train.**  
Mrs. Williams of Spar Cove road received word yesterday telling her of the death of her nephew, Private Edward D. Watson, who had been accidentally killed in Newmarket, New Hampshire. He was a member of Company L, 8th Regiment, U. S. A. In company with another soldier named Smith they moved aside to let a train pass, but as they did they were struck by a train coming the opposite direction. Both were killed. Private Watson was eighteen years of age and was to be married next week. He left St. John about six years ago.

**Blindfold!**  
In the St. Dunstan's Review, Sir Arthur Pearson tells of an interesting conversation he had with his old friend, Lieutenant-General Sir Robert Baden-Powell, B. P., although he has excellent eyesight, makes a habit of doing many things as though he were blind. He blindfolds himself for regular periods, and "he encourages his Boy Scouts to do the same thing, recognizing that by temporarily depriving themselves of the use of sight, they are enabled to cultivate the use of the other senses to a degree which is impossible so long as the eye is employed."

**ALTERATION SALE!**

We are making extensive alterations and changes in our upstairs departments, especially in the Ladies' Ready-to-Wear, Coats, Suits and Draperies. Our present stocks in these departments must be reduced to make room for the workmen and to clear up all lines that we do not wish to retain. We must move them quickly and Lowered Prices Will Do It. In these days of rising costs and high prices, this sale will prove wonderfully timely, as it offers remarkable opportunities for savings. It's a sale no one can afford to miss. You will marvel at the big values and these low prices. Read this partial list, then join the rest of the thrifty people at the store.

- ALTERATION SALE—TAPESTRY COVERINGS**  
Good tapestry coverings, 50 in. wide, a line of goods that we have decided to discontinue as it takes too much space. Splendid for portiers or furniture, wood shades, green, crimson, etc., reg. \$1.35 goods.  
Alteration Sale Price, 79c a yard
- ALTERATION SALE—LACE CURTAINS**  
A large number of better quality scrim curtains, numbers that have only two to six pairs, now reduced to clear, many designs with insertions and edgings, cream, white or ecru.  
Alteration Sale Price, 20 p.c. off
- ALTERATION SALE—LACE CURTAINS**  
Special lot of good quality Nottingham lace curtains, 8 yards long, double thread strong net, overcast edge, a number of attractive designs, reg. \$1.75 curtains.  
Alteration Sale Price, \$1.29 pair
- ALTERATION SALE—REMNANTS**  
Choice of a large number of single pairs and sample curtains, some slightly soiled from use as samples. Also special lot of odd curtains to clear, cream, white or ecru.  
Alteration Sale prices, 30 p.c. to 1/2 off
- ALTERATION SALE—REMNANTS**  
Curtain scraps, all short lengths, placed on tables for quick sale, 2 1/2 to 6 yard ends, cream, white or ecru, plain or hemstitched.

### NO SENTIMENT IN WAR

#### Military Want the Last of Tea Brothers

London, May 30.—A remarkable record has been disclosed at Shoreditch Tribunal. It was stated, when an appeal was made by a firm of upholsterers on behalf of an apprentice named Wyatt, aged eighteen, that he was one of ten brothers. Six were now in the army, one in the navy, one in a munition factory, and one had been killed.

Wyatt had been taken by the military authorities, and sent to Portsmouth, but was got back as he was an apprentice. Wyatt said he did not want to join the army, as he was the only one at home with his aged parents. He had no sisters. The tribunal gave Wyatt six months' exemption in view of the splendid service of the family, and suggested there should be no appeal.

A member said they had granted the exemption, whereupon Captain Fisher said that Wyatt was an A man, and he should appeal.

Captain Fisher.—Why not? There is no sentiment in war time.

### THE BEST MEDICINE FOR LITTLE ONES

Baby's Own Tablets are the best medicine a mother can give her little ones. They are a gentle laxative—mild but thorough in action—and are guaranteed by a government analyst to be absolutely free from opiates and other injurious drugs. Concerning them Mrs. Auguste, St. Brieux, Sask., writes: "Enclosed find twenty-five cents for another box of Baby's Own Tablets. I find them the very best medicine a mother can give her little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Going away on a holiday, old man? You look fagged out."—"Isn't that proof enough that I've been on my holiday and just got back?"

### FOUR ROOMED COTTAGES AT A RENTAL OF \$150

This is the Scheme of the Halifax Housing Co. Ltd.—Dividends Limited to 6 Per Cent

(Halifax Echo)

The Halifax Housing Co. Ltd., established to erect a number of modern, sanitary, four roomed cottages, at a minimum rental, on the north slope of Fort Needham, where there is space for about fifty double tenements, have decided that it will be necessary to erect at least the first group of wood, though the original intention was to erect all of fireproof materials. The change is made necessary because of the high cost of materials. The capital of the company is to be \$50,000 in 1,000 shares, and shares are now being subscribed. It is proposed to raise as required, an additional \$50,000 on mortgage, making a total fund available of \$100,000, sufficient approximately for housing one hundred families at an estimated cost of \$1,400 per four roomed house. Through the generosity of C. C. Blackader the land has been purchased at a cost of \$4,000 and will be donated to the company when organized.

It is understood that the 10% per cent on the capital cost will be sufficient to provide a return of 6 per cent on the money invested including beside the 6 p.c. interest, 1 p.c. depreciation, 1/2 p.c. taxes, 1 p.c. repairs, 1/2 p.c. insurance and 1/2 p.c. administration. This will mean a rental of about \$150 per year for each house. When sufficient stock is subscribed to warrant the building operations will be at once begun. 10 p.c. of the stock subscribed will be payable on application and the balance in monthly instalments not exceeding 20 p.c. It is proposed to limit stockholders' dividends to 6 p.c.

### THE CHRISTIAN GUARDIAN CRITICIZES GOVERNMENT

The Toronto Christian Guardian says: "If ever Canada needed men of keen foresight and swift resolve, quick to appreciate a difficult situation and prompt to meet it with adequate legislation, she needs them today. This is no time to plan for party advantage, but a time to provide for national security; no time to dilly-dally over unimportant business, but a time to appreciate the most serious situation that ever confronted us, and to take wholly unprecedented measures to meet a wholly unprecedented situation. For the time being Grit and Tory should drop out of sight, and every patriot should vie with every other in rendering the wisest, most efficient and most unselfish service which is possible to him. And yet—we say it with extreme regret—there is an unmistakable feeling throughout the country that the government is dealing with the situation in a very inadequate way."

The Guardian also says:—"The enormous and outrageous increase in prices of the necessities of life is another matter concerning which the people are not satisfied. What the government could do or could not do to prevent the present situation or keep it from getting worse may not be quite clear, but it cer-

### NOW ADMIT FAILURE OF SUEZ CANAL ATTACK

The Hague, May 31.—Paul Schweder, "imperial Ottoman war correspondent," contributes to the German press an interesting story of an unsuccessful Turkish-German advance from Hebron across the Peninsula of Sinai toward the Suez Canal, the feature of which was kept secret until the most careful calculations being upset by hard facts, owing to the final Peninsula being virtually an unmaped country.

Schweder explains that it was impossible to march along the Mediterranean shore owing to fear of the British fleet, the only alternative being forced marches across 200 miles of terrible desert, harassed by sandstorms, locusts and lack of everything. Native guides were scarce. Of these he says:

"We found the local Bedouins, who owed allegiance to England, most difficult to enlist in our service, and often traitors. The holy war idea left them completely cold, as they are indifferent to religion."

Schweder further confesses vexation because the scheme to stir up a holy war among the Mohammedans generally proved a "rank failure" and adds significantly: "Other means had to be devised to win over the Bedouins. But they are absolutely unfit for soldiering, they have no idea of time, place, or anything else, and apart from occasional scouting services they were quite useless."

The correspondent concludes with an amusingly fierce attack upon "the German professions" of newspaper scribes and bluestockings, who pretended to know all about the country from brief trips on the Anatolian railway, but whose information—upon which the German staff of the expedition evidently greatly relied—turned out to be utterly misleading and damaging to the cause.

### GREAT DECLINE IN GERMAN BIRTH RATE

Decrease Shown by Statistics of Last Three Years Causes Disquietude

Copenhagen, May 31, via London.—The great decline in the German birth rate due to the war continues to produce disquietude among German sociologists. Official statistics of the imperial health bureau for cities with populations of 15,000 and over and 200,000 and over show a further heavy decline in the birth rate of 1915, compared with that in 1914, which itself was some twenty per cent. below that of 1913. Twenty-six German cities in the class of population of 200,000 and over report a decrease of 88,000 births or 32.3 per cent., as contrasted with the number of children born in 1914, while the percentage in all cities with populations of 15,000 and over is slightly higher, namely 33 1/2 per cent.

The decrease in births was accompanied by a corresponding fall in the death rate of infants under one year old, which was 1.8 per cent. per hundred births, but this has not diminished the anxiety of the sociological experts, who are holding congresses to awaken popular interest in this menace to Germany's future.

The government simultaneously is de-voting intensive study to the reproduction problem through commissions attached to the minister of the interior, and shortly will introduce legislation in the Reichstag to counteract the nation's falling rate of growth by measures calculated to stimulate the birth rate and lower infant mortality.

### Had Awful Attacks of Heart Trouble FOR 5 OR 6 YEARS

Diseases and disorders of the heart and nervous system have become frightfully prevalent of late years.

One can scarcely pick up a paper but he will find recorded instances of sudden deaths through heart failure, or of prominent men and women unable to prosecute their ordinary business or profession on account of a breaking down of the nervous system.

We do not desire to unnecessarily alarm anyone, but to sound a word of warning.

When the heart begins to beat irregularly, palpitates and throbs, has shooting pains through it, it is time to stop and think.

To all sufferers from heart and nerve troubles, Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. Frank Arsenau, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found relief from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

At the present time my sister is using them for nervousness and finds great comfort by their use."

To Vancouver  
Mrs. F. W. de Mille and children left Fredericton yesterday for Vancouver

### YOUR LIVER IS THE BEST BEAUTY DOCTOR

A dull, yellow, lifeless skin, or pimples and eruptions, are twin brothers to constipation. Bile, nature's own laxative, is getting into your blood instead of passing out of your system as it should.

This is the treatment, in successful use for 50 years—one pill daily (more only when necessary).

Colorless faces often show the absence of iron in the blood. Carter's Iron Pills will help this condition.

### Against Conscriptio

The Sydney Record of Saturday says: The Sydney Trades and Labor Council have declared against conscription in Canada. At a meeting last evening the local council passed a resolution against compulsory enlistment and calling upon the government to submit the question to a referendum before enforcing the measure. Ald. J. R. Martin, president of the Sydney Trades and Labor Council, declared that the council were against the movement on the ground that it is opposed to democracy and the cause of freedom enjoyed by all England's dominions.

### IF FOOD DISAGREES DRINK HOT WATER

When food lies like lead in the stomach and you have that uncomfortable, distended feeling, it is because of insufficient blood supply to the stomach, combined with acid and food fermentation. In such cases the plan now followed in many hospitals and advised by many eminent physicians of taking a man part of pure bisphated magnesia in half a glass of water, as hot as you can comfortably drink it. The heat draws the blood to the stomach and the bisphated magnesia, as any physician can tell you, instantly neutralizes the acid and stops the food fermentation. Try this simple plan and you will be astonished at the immediate feeling of relief and comfort that always follows the restoration of the normal process of digestion. The bisphated magnesia should be taken at times to secure hot water and travelers who are frequently obliged to take heavy meals soon prepared, should always take two or three five-grain tablets of bisphated Magnesia after meals to prevent fermentation and neutralize the acid in their stomach.

### RUSSIANS AND AUSTRIANS IN LIVELY FIGHTING AGAIN

The Russians and Austrians in the eastern theatre are fighting in more lively fashion than has been the case for months. This is particularly true in the Caucasus, where several days ago the Russians began an offensive. As yet the Petrograd war office has made no comment on the situation as it now exists in this region, nor has the Austro-Hungarian official communication given any news as to the extent of the successes or an intimation of the exact zone where fighting is going on. The anticipated commencement of hostilities by the Russians and Rumanians in Roumania has not yet materialized.

**Shipping Losses.**  
The losses of British shipping from the maritime war as reported this week total 21, as compared with a total of 36 set in the previous week. While the losses of vessels exceeding 1,000 tons each remain the same as in the last previous report, the number of vessels of less than 1,000 tons is reduced from nine to only one. The number of fishing vessels sunk is reduced from three to two.

### Deputy Attorney-General's Appointment is Agreed To

Fredericton, May 30.—The session of the house today was remarkable for some amusing exhibitions by Mr. Baxter who in the first instance assumed political virtues no one dreamed he possessed and questioned the right of members from Kent and Northumberland sitting in the house while holding offices in the gift of the government. Mr. Baxter was careful not to quote the actual words of the election act which forbids persons holding "offices of emolument" in the gift of the government. Neither Mr. Dymally nor Hon. Mr. Murray holds any office of emolument. There are no salaries attached to their petty offices and they are not considered as coming within the meaning of the act.

**HAS SHORT MEMORY.**  
Mr. Baxter has a short memory. He himself while a member of the house accepted a retainer of \$500 from A. R. Gould, a contractor building a railway with money provided by the government. He paid the money back when Gould asked for an additional subsidy and the railway books were about to be examined. He when on the witness stand acknowledged that Gould had arranged to pay him \$2,000 a year and that the \$500 he paid back was the first instalment. Today he was bubbling over with political virtue. When advance instalment. Today he was bubbling over with political virtue. When advance instalment. Today he was bubbling over with political virtue.

Hon. Mr. Veniot introduced a bill to make further provision for permanent bridges and other works of permanent character. This he explained, was to provide for raising \$800,000 to finish under construction, which were now provided under the consolidated revenue account and to this had been added \$200,000 more for other permanent structures, making \$1,000,000 in all which had been provided previously. The names of the bridges that it was proposed to construct were set out in the bill.

The house went into committee with Mr. Young in the chair, and agreed to the bill to enable the town of Milltown to provide a water supply.

The house again went into committee, with Mr. LeBlanc in the chair, and agreed to the bill relating to the appointment of county auditors in York, to change the name of James Edward Barry McKewen and others with certain amendments.

The house again went into committee, with Mr. Leger (Westmorland) in the chair, and took up consideration of the bill relating to shorthand reporting in certain courts.

The bill was agreed to. The house again went into committee with Mr. Leger (Westmorland) in the chair and took into consideration the bill to provide for the appointment of a deputy attorney-general.

Hon. Mr. Byrne said the salary of the attorney-general was \$4,000 and it was not proposed to increase it. He would continue to perform the same duties, the collection of accession duties excepted.

After discussion continuing until the evening session, the bill was agreed to.

### Six Divisions Faded Away

Canada's "Lost Army" Totals 120,000 — 70,000 Did Not Cross Ocean — 50,000 Discharged in England

Ottawa, May 30.—An answer given in the commons this afternoon by the minister of militia to Hon. Frank Oliver indicates that upwards of 70,000 of the men enlisted in the Canada's expeditionary forces apart altogether from the wastage of casualties, that there were 100,000 men who were still on duty in Canada, give an aggregate of 337,978. According to the recruiting figures given out by the department at the beginning of the month, the total enlistments since the outbreak of the war, were approximately 400,000.

In reply to a further question of Mr. Oliver as to the total number of officers and men who reached England on overseas service and who without getting to the front had been sent back to Canada as unfit for service, up to May 1 last, the minister of militia made the somewhat surprising statement that there were no records in the department. According to the report of Colonel Bruce, of Toronto, in connection with the re-organization of medical services in England, however, evidence is quoted showing that in some battalions, at least which got overseas, a further medical examination of the men showed as high as sixteen per cent. unfit for service at the front. If this ratio were applied to the three hundred thousand men who got to England from Canada it would appear that perhaps another 50,000 of the men enlisted were not really effective.

On the face of it the deduction may fairly be drawn that in recruiting Canada's army of over 400,000 the country has borne the expense of training and maintaining an army of over 100,000 who never actually got to the front. Averaging the cost of each man at \$100, that is two dollars the actual—though perhaps in some part unavoidable—waste, figures out at about \$20,000,000 a month.

There was a storm in the house tonight over the removal of rails from an important section of the C. P. R. in the west. Hon. Frank Oliver declared this section of the country was ruined by the minister of railways who, asked pertinently why the C. P. R. had not been asked for a contribution to the Trans-continental.

Replying to a question by G. W. Kyle as to the amount of the business profits taxed levied upon the Ogilvie Flour Mills Company, the minister of finance, Thomas White, said the assessment levied against the company during the fiscal year 1917 for the accounting period of 1916 was \$29,850. Returns had not been received, said the finance minister, showing the net earnings made or the profits distributed by the company during the fiscal year 1917. In the accounting period ended August 31, 1917, the preferred stock of the company amounted to \$2,000,000, common stock \$2,500,000 and accumulated profits \$1,122,466.

### ITALY'S WONDERFUL WORK IN MOUNTAIN COMBAT

New Have Won Plateau—Aequiduct Built Bit by Bit as They Go Along

(New York Times Editorial)  
If the Austrians should check the Italian advance today, it would still remain the most remarkable of the year—an assault that lasted for sixteen days with all its original fury. The French and British have been fighting for little hills, for "rising ground"; the Italians have been scaling mountains. The French and British have been going upward; the French and British fighting horizontally. The Italians have been going upward; the French and British fighting horizontally. Now they are on a plateau and can go forward, but what a plateau! It is of volcanic origin, and it consists of craters, rocks, and caves; it is like the pictures of the dead moon. It is bare and blasted and waterless; never was a battlefield in such a petrified spasm of nature. Because there is no water the Italians have been acquiduct, bit by bit, as they go along. This land of caves and hiding places and desolate rocks has been fortified by the Austrians and complicated with barbed wire and chevaux de frise until nature and art have made it seemingly impassable by man.

But to the Italians these incredible obstacles come as a relief, a modification of their task to the comparatively easy. For two years they have had to fight their way up into the air. They have had to ascend the steep faces of high mountains which ordinary men do not ascend in time of peace, and these mountains have been infinitely fortified and garrisoned by a powerful enemy. The other armies, opposed to Germany have had to attack peaks. Peak by peak they took them. They were taken heavy guns and supply trains

led his dashing battle-cruiser squadron against the whole German High Seas Fleet. He not only held them till Jellicoe arrived with his dreadnoughts—he hammered them so hard that they were glad to slink away in the mist to the harbors they have hugged ever since.

Admiral Beatty himself, now Commander-in-chief of the Grand Fleet, is a fitting type of the gallant British tars who guard the freedom of the world. Their sleepless vigil on the Seven Seas has been the dominant factor in changing the Kaiser's dream of world dominion first into a hymn of hate—then into a proposal of peace—and soon now into a plea for mercy.

These are the lean, clean, efficient men who use most regularly and appreciate most thoroughly the Gillette Safety Razor. The Navy certainly believes in clean shaving, and agrees that the Gillette is the only razor that makes it comfortable, or even possible, day by day on a North Sea patrol.

On land as well as on sea the Gillette Safety Razor has made a most emphatic hit with our fighting forces. Yet some of our brave Canadian lads still have to borrow one—or do without! You could scarcely do a better turn to any one of them, soldier or sailor, than to send him a Gillette Safety Razor and a good supply of blades! Then get one for yourself and you'll see how he will appreciate your gift.

## You may think you are satisfied

—but your face is going to experience a new standard of satisfaction after you've read this.

A SHORT time ago we wrote advertisements to a certain lot of men. We wanted to reach those who weren't satisfied with their shave conditions; who were looking for something better in the way of soap and who were willing to try a new one. This time we want to talk to an entirely different lot. We want to hear from men who are satisfied; who think the soap they are now using can't possibly be improved on. We believe we can show you that Mennen's means a better shave than you have ever known, and we offer you a very simple way to find out. If you are willing to risk a ten cent piece we will undertake to provide you with enough Mennen's Shaving Cream for thirty full shaves. When it gets to you, if you will try it and compare it; if you will squeeze some into your brush, and with hard, soft, cold or hot water (it doesn't make any difference) work the cream into a lather—following directions exactly. If you don't find it a better lather, a creamier lather; if it doesn't soften your beard quicker (without any rubbing-in); if it doesn't make your shave easier; if it doesn't make your face feel better (both during and afterwards); if it dries before you are finished—Then we'll be satisfied that you're an exception; and the cream that is now making a million men thank Mennen, is not for you. But until you do make this simple little test, we contend that you have no right to think you've got the best Shaving preparation there is for you. If this sounds like a reasonable proposition—there's a small coupon at the bottom of this page, to make it easy.

P.S.—And in addition to Mennen's Shaving Cream, let us also send a trial of Mennen's "Talcum for Men." It's new and does it better.

### FUND FOR FAMILIES OF WAR SURGEONS

New York Doctor Starts it With \$10,000 Gift and Others Add Contributions—Call for 20,000 Doctors

New York, May 31.—At a meeting of the Medical Society of the County of New York it was announced that a fund had been started by Dr. Edward B. Cragin "for the support and care of wives and families of members of the society and other members of the profession in New York City" who may require financial aid as the result of the service of the family being called into the service of the country. Dr. Cragin started the subscription with a gift of \$10,000. This was followed by gifts of \$5,000 from Dr. John F. Edmann and \$1,000 from Dr. Seth M. Milliken. Dr. J. Bentley Squier, president of the society, announced the formation of a National Service. Dr. Walter James is chairman, and Doctors Edward L. Hunt and J. Bentley Squier, secretary and treasurer, respectively. War problems as affecting physicians was the general theme of the meeting. Captain Tasker of the United States army, spoke of the urgent need of 20,000 doctors to care for the wants of the first million men to go abroad. He said this was one of the most perplexing problems that confronted the army and navy, and he urged the members of the society to do their share in solving it.

### THE STATESMAN'S MESSAGE

(Halifax Chronicle)  
No overseas statesman has done more to inspire the patriotism of the British people the empire over, and to bring home to them the greatness and the justice of their cause in this world war than General Smuts. The soldier leader, the statesman, the man of vision, the outstanding figure of the recent imperial war conference. His was the voice which inspired the people of the mother country and sounded the note of true imperialism that is based upon and will endure in a free commonwealth of autonomous nations. He has laid the whole empire under a debt of gratitude by the soundness and vision of his public utterances. His latest speech at an Empire Day celebration at Stepien is the message of a far-seeing and sober-thinking statesman: "I am a barbarian from the veldt, a fiercer who fought for three years against you when you were very young indeed. However, we have helped to convert you and win you back to the right road of freedom and liberty, and on that road you are now making the biggest struggle of your whole history. I am fighting with you, and not I alone but thousands of my old companions of the Boer war. What has brought these men into the struggle? I don't think it is love of the British empire. It is that

they feel what you feel—that the greatest, the most precious and most spiritual forces of the human race are at stake. "Either we are going into the future under the drill sergeant on Prussian lines, or we shall move forward as free men and women. It is not the battle of the British Islands or the British Empire, order to lay on the altar the best they could give for the good cause. "It is a great privilege," he added, "to live in such times and to take part in this inspiring appeal sink deeply into the hearts and minds of all Canadians. It is a great privilege to live in such times and take part in this great struggle for humanity."

### Conscription Bill Not To Be So Drastic As Anticipated

Ottawa, May 30.—The conscription bill, when it comes before parliament, which may possibly not be until some time next week, will probably turn out to be much less drastic than has been generally expected.

The unexpected difficulties which the government has found, political and otherwise, in securing anything like united party support for the measure, or even general support for it throughout Canada, leaving Quebec sentiment entirely out of the question, have led to a decision to very greatly modify the original proposal.

The government's aim now is to bring in a "mild" measure which will minimize, as far as possible, the opposition to conscription, both on principle and in regard to its individual effect. It is understood that the drafting and re-drafting of the details are in charge of Sir Robert Borden, Hon. Mr. Doherty, and Hon. Arthur Meighen.

Well authenticated rumor has it that the plan they are now working on is to specify a large number of exemptions according to industries to which conscription will not apply. It is understood that these exempted industries will include agriculture, mining, fishing, transportation, and all other industries which might be included under the somewhat vague term "essential."

"Business must not be unduly interfered with," and on this assumption it may be found that the conscription measure will apply practically ONLY TO THE YOUNG MEN WHO ARE NOT ENGAGED AT ALL IN ANY FORM OF PRODUCTIVE OR NECESSARY WORK.

**Nothing Definite on Coalition.**

It is hoped that the exempt classes will promptly cease any opposition to the measure and be content to let the other fellows—the real and obvious sticklers—be conscripted. On this basis, too, it is hoped that there may be a chance of securing something like unanimity on the measure in the Commons.

Until the fog lifts over the political situation, and the prime minister sees some ray of light ahead in regard to cabinet re-constitution, or coalition, or extension, or election prospects, it is probable that no debate on the bill will be precipitated.

This Report of Coalition. (Canadian Press).

Ottawa, May 30.—There are strong indications today that the perplexed political situation will be settled by an arrangement between the leaders for a coalition ministry, probably, so including some prominent men not connected with politics.

### ANTI-CONSCRIPTION LEADER DISPENSES TORY PATRONAGE

Ottawa, May 30.—Tancred Marsil, the young anti-conscription agitator in Montreal, who has been leading demonstrations and demanding revolution there, and who was the Conservative candidate in the constituency of Bague in the general election of 1911, has exercised the

Borden government patronage in that riding since his defeat by J. E. Marsil, the present Liberal member, who has two sons at the front.

The facts were brought to the attention of parliament tonight when the civil service estimates of the customs department were under consideration. Mr. Marsil rose to direct the attention of Hon. Dr. Reid to a case in which he had previously made an ineffectual protest, that of an assistant appraiser named Hector Hamel, in the customs service in Montreal, who was reduced to the office of preventive officer with an actual reduction of \$800 per annum in his salary on the recommendation of Tancred Marsil.

who held the government patronage for the riding.

Mr. Marsil desired to know if, in view of recent developments, the government would restore Hamel to his original position and salary.

Hon. Dr. Reid smiled, but had no response. He did not remember the case, but if injustice had been done he would make inquiry.

Hon. George F. Graham, who was leading the opposition, took up the matter vigorously. He pressed for a declaration from the minister as to whether the request of Mr. Marsil would be considered and also desired to know whether the government was still influenced by the recommendations of Tancred Marsil, and whether that gentleman still held the government patronage for the riding.

The minister, however, would not commit himself.

### NERVOUS CHILDREN

From early spring until July is the time that St. Vitus Dance usually develops, and nervous children should be carefully watched during that time for symptoms of the disease. Irritability is one of the first signs noted. The child frets, is quarrelsome and does not sleep well. The jerky movements that characterize the disease come a little later. The patient becomes pale and often constipated. The limbs and sometimes the whole body jerks spasmodically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible, and above all things give a course of Dr. Williams' Pink Pills for Pale People. The patient becomes pale to magenta, and blood and strengthen the nerves. Without this treatment St. Vitus Dance may become chronic, and the patient a life long sufferer. Mrs. W. A. Squires, Cannington, Ont., says: "A few years ago my only daughter was troubled with St. Vitus Dance. She was so bad she would lose control of her limbs, and her face would become contorted. We had to take her from school and had her under a doctor's care, but it did not help her. She only became worse. We had to give her Dr. Williams' Pink Pills, and by the time she had taken five boxes she was completely cured, and has had no sign of the trouble since."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

### Baggage Master for 47 Years

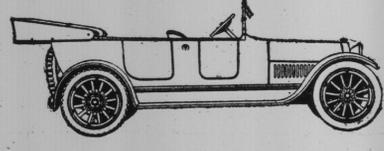

John Henderson Who Holds Record for Length of Service on I.C.R. Retires—William Kelly Succeeds

After forty-eight years of continuous service John Henderson, the oldest employe of the I. C. R. in point of service on the I. C. R. in St. John, N. B., is believed for that matter throughout the entire system, is to retire from the service under superannuation on June 1. On Friday Mr. Henderson will sever his connection with the railway after a period of service faithful, steady and painstaking. His record for continuous service and for the continued courtesy and efficiency with which he has discharged his duties for almost half a century will stand comparison with that of any man on any railroad.

Mr. Henderson joined the service when he was but nineteen years of age. He was the first baggage master ever appointed on the system here. When Mr. Henderson first entered the railway service that portion of the railway running between St. John and Moncton was known as the European and North West coast railroad, but some years later was incorporated into the then developing system known as the Intercolonial. Mr. Henderson first went out on duty when the old station was at the foot of Dorchester street. At first he was the only baggage master, then he was given assistants. When the new depot went up in 1884 he moved there and he has discharged his duties there from the day the first train ran into the then palatial structure. He has seen the business grow such proportions that today the present depot is insufficient to meet the demands made upon it. He saw the beginning of the present structure and he will, in all probability, see it torn down to make room for better and larger quarters.

Mr. Henderson will be succeeded as chief baggage master by William Kelly, also a veteran in the service. Mr. Kelly ranks next to Mr. Henderson in point of service having seen forty years in the service on the railway. These veterans of the service are as active and energetic as many of the younger generation of today.

**Studebaker**  
Established 1858

**Built to Give Lasting Service**

The Series 18 Studebakers are the best cars the great Canadian Studebaker factory at Walkerville, Ontario, has ever produced. They have been perfected by four years' experience with the same basic design.

They embody ninety distinct improvements in mechanical construction, convenience and comfort, over the Series 17, which made such a great record throughout the Dominion for Studebaker in 1916.

They are made of carefully selected materials, tested and developed in the great Studebaker laboratories. Their workmanship is experienced, painstaking and carefully supervised. The inspections are rigid and exacting in the extreme.

Studebakers are probably the most powerful cars on the market in ratio to their weight. In ratio to power they are most economical in the consumption of gasoline.

For these reasons Studebakers stand up on the hardest, hilliest drives in all Canada and under the most racking tests of the road at a minimum cost for upkeep.

Let us prove the quality and economy of Studebakers—let us give you a thorough demonstration.

### Russian Monks Demand Votes

Petrograd, May 31.—The inmates of the Russian monasteries, in an excess of revolutionary zeal, are demanding equal political rights with the lay population, including the vote, which until now has been forbidden by precedent. In order to prove their fitness for citizenship the monks have set about eradicating all traces of their former autocratic, reactionary and, in particular, anti-Semitic activities, destroying their stores of alms and pogram literature which was supplied to them by the police "security department," now abolished.

The monks of Russia's biggest, richest and most famous monastery, Troitskaya, near Moscow, which is historic for having withstood two sieges by Polish armies in the seventeenth century, made bonfires last week of reactionary pamphlets in the monastery courtyard. One report says that the monks danced round the flames. The father superior of the Moscow Monastery of the Passion has condemned all autocratic propaganda literature, and has forbidden its use even for the wrapping of parcels.

Real or Feigned.

Still greater revolutionary enthusiasm, real or feigned, has been displayed in Kiev's celebrated Pestchera monastery.

Those who are inciting the people of Quebec to make street demonstrations against conscription are doing an ill-service to French-Canadians. Conscription cannot become the law of the land except by the action of parliament, and once it becomes the law of the land, riots in Montreal or Quebec will be of no avail. They will serve only to isolate the Province of Quebec, and to play into the hands of those who are striving to arouse prejudice against the French-Canadian people.

March will depend upon the attitude of the government and parliament. If there is any division at Ottawa, if there is any

### SUES TO HOLD MOVIE STAR.

Company Fears Clara Kimball Young Will Transfer Her Services.

New York, May 31.—Action was begun in the Federal District Court here by the Clara Kimball Young Film Corporation to restrain Mrs. Young from acting for the benefit of any other concern. It is alleged that she is under contract with the corporation at a salary of \$1000 a week, to appear only in moving picture plays produced by it.

Mrs. Young, according to the complaint, has received from the corporation \$25,000 without having rendered any service. She is suing the corporation in the supreme court for alleged breach of contract.

**BORDEN'S BLUNDER**

Halifax Chronicle—It is admitted now even by Premier Borden's warmest supporters that he acted precipitately and rashly in the way in which he presented the conscription proposal to parliament and the country. Indeed, two weeks before Sir Robert Borden made his announcement his minister of militia, Sir Edward Kemp, said in the house of Commons in reply to a question by E. M. MacDonald, that the government had never even considered the question of conscription. It is any wonder that the premier now finds himself in his present difficulties and that the country is threatened with disunion at a most critical period of her history?

**CLOSING OF MAY DEVOTIONS.**

The closing of May devotions took place in St. Peter's Church last evening, Rev. J. Gallager, C. S. R., officiated at Solemn Benediction of the Most Blessed Sacrament, and was assisted by Rev. J. McDougall, C. S. R., as deacon, and Rev. J. F. Coghlan, C. S. R., as sub-deacon. A large number of boys and girls took part in a procession, which was in charge of Rev. Peter Costello, C. S. R.

**NOT TO GO TO CAMP.**

Orders were received at the office of the New Brunswick command this morning to the effect that none of the forestry units in the maritime provinces will go under canvas this summer. Just recently orders were that the forestry units were to proceed to Aldershot Camp, but these have been cancelled for some unknown reason. It is likely that the forestry units will proceed to England instead. The training of a unit of this kind amounts to little, as practically all the members are well up in lumbering.

**MORRISON-SEMPLER.**

The Catholic wedding scene of an interesting event at an early hour this morning when with nuptial mass, Rev. William M. Duke united in marriage Miss Mary E. Sempler and Daniel D. Morrison, both of this city. The bride wore a becoming traveling suit of navy blue with hat to match and carried a bouquet of cream roses. She was attended by Mrs. A. C. McGinnis, while the groom was supported by Mr. McGinnis, a policeman on the local force. Mr. and Mrs. Morrison left on the Boston train for a short honeymoon to American cities. On their return they will reside at 192 Waterloo street. The groom is attached to the staff of the Victoria hotel. They were made the recipients of many useful and valuable gifts and the best wishes of a host of friends will be extended to them.

**GUNNER HAYTER NOW IS IN ENGLISH HOSPITAL**

Good News That St. John Soldier is On Road to Recovery

In a letter to his parents, Mr. and Mrs. James H. Hayter, of Water street, Gunner George H. Hayter, who was officially reported wounded on April 28 and admitted to No. 13 General Hospital, Boulogne, writes that he has been removed from hospital in France to one in England. Gunner Hayter said that he was doing as well as could be expected under the circumstances. He is suffering from wounds in the chest, shoulders, left hand and legs.

Gunner Hayter was a member of a large battery that went from St. John. At the time he received his wounds it was thought they might prove fatal but the letter from him this morning brought reassuring news of his condition and his relatives and friends are pleased to learn that he is now on the fair road to recovery.

the crown that has been placed in this country.

"That is our spirit in Canada, and nothing has caused us at any moment to feel otherwise than the most perfect and solid loyalty towards the crown, towards this country, and to the rest of the empire. The world has discovered that we will all stand by one another, and that no matter what happens we will come from every direction. They talk of 'lion's cub' they will be pretty well grown up when they come the next time. (Laughter.)

"But this is the last war so far as we are concerned. No one will dare to touch us, or in any way insult this great empire, after this. They have been looking on rather carelessly at the Kaiser and his crowd, his men, who perhaps have never had a rifle in their hands before, very soon learn to use it, and when they do, they use it effectively.

"Now we see one of the greatest things that could have happened, the other huge Anglo-Saxon confederacy, the United States, coming forward side by side with us, and, for the first time in the history of the world, the whole of the Anglo-Saxon people are united in one great cause." (Applause.)

In conclusion, General Steele paid a tribute to the N. C. O. He had been one himself, and had gone through the ranks, and there was no one he appreciated more than the N. C. O., who was the backbone of the service, and often stood in a very difficult position, between helping the officers and assisting the men. He thanked Lady Sargent very much for giving him this opportunity.

Lady Sargent, who wore hospital uniform as commandant of the V. A. D., then, with a few happily chosen words, presented to Sergt. Gifford a pair of gold sleeve links, from all the staff and patients at the hospital. Sergt. Gifford, who had been with them for some time, was very ill when he first came, and they would like him to accept that little gift as a remembrance of the V. A. D. in health and strength. (Applause.)

With the links was presented a list of the names of the staff and patients, handsomely illuminated by one of the men.

It looked rather pointed, Lady Sargent remarked, that Sergt. Barry was not included in this gift, but the reason was that the fact of his being entitled to the medal was only announced two days ago, and it was only by telegraphing to his officer that they were able to get the medal there in time for the general to present it.

Mrs. Marke Wood very kindly offered to make a presentation to Sergt. Barry.

The interesting ceremony concluded with the playing of the National Anthem, and "The Maple Leaf for Ever," by the band, and with cheers for General Steele.

**SENDS HOME WORD OF BROTHER'S DEATH**

Percy Allaby's Supreme Sacrifice—Nine Killed by Shell and Frank Hamm Alone Escapes

The following letter has been received from Pte. Kenneth S. Allaby, dated France, May 12, telling of the death of his brother, Percy, who left St. John with the Divisional Ammunition Column in June, 1916.

France, May 12, 1917.

Ere this reaches you, you will have learned of Percy's death. At the close of a beautiful spring day, we saw him for the last time alive, as he left with a party to take ammunition over Vimy. Spurgeon had been spending the afternoon with us, something which he had been able to do but once before. Spurgeon and I were eating supper and Percy came in and told us he was going up the line. We stopped for a few words with Spurgeon, then went to harness up. We saw him again for a few minutes before he left, after which I walked some distance across the fields with Spurgeon. Our talk was of Percy and the folks in the home town. We sat for a few minutes on the top of a hill and watched the sun go down, then we walked down to the trench. A few hours later I again crossed those fields on a sad errand.

Nearly the next morning (the 10th) I heard the whole sad story. About midnight an enemy shell got a party of ten men from No. 3 Section. One alone escaped; his name was Frank Hamm (he worked in Vassie's), he and Percy were the only ones of the party who left camp with the D. A. C., the others were all new men. From Frank I was able to get full particulars. It was he who went up the next night and helped locate those who could not be brought down in time before.

Percy lived only about ten minutes. As Frank was the only one uninjured he had a painful and difficult task. Percy was the first one he located. Percy asked for a drink of water, and told Frank to "do what he could for the rest." Help was near, and an attempt was made to get the wounded to a dressing station, but Percy did not live to get there.

The next night his body was brought down, and the following afternoon we buried him in a valley near the foot of the famous Vimy Ridge.

It means a lot to know where Percy lies, and to have seen him and given him a Christian burial.

**FROM WEST TO ST. JOHN TO ENLIST; ALSO FINDS BRIDE IN THIS CITY**

From the far away west to enlist in the Canadian Engineers in this city came Sergeant Harold Montrose, some three weeks ago. Last evening at eight o'clock he enlisted in another great army, the army of the Benedictine, for he was taking as his bride a daughter of a fair city in the east.

The interesting ceremony took place at the home of the bride's parents, Mr. and Mrs. Fred Macaulay, West St. John, last evening when their youngest daughter, Annie, and Sergeant Montrose, were united in marriage by Rev. J. H. Jenner, Baptist minister of West St. John. The bride wore a becoming suit of pink silk and carried a bouquet of white roses. Her sister, Mrs. J. H. Tremaine, who wore a suit of pink silk and carried a bouquet of pink and white roses. Sergeant and Mrs. Montrose will make their home in St. John for the present but the groom is connected with the Canadian Engineers here. Sergeant Montrose is from Scotland, a former member of the North West Mounted Police, having served with them for five years. Although in the city only a short time he has made many close friends.

**SPECTACLES STOLEN; BOYS ARE IN COURT**

No arrests were made yesterday in the city. Two boys from Carleton were before Magistrate Ritchie in the juvenile court this morning following arrest by Sergeant O'Neill for alleged theft of a pair of gold rimmed spectacles and a trinket from the home of Mrs. Hansen, Charlotte street, West St. John. The glasses were valued at \$12. Evidence was given by Mrs. Hansen, who stated that as she returned to the house yesterday she noticed several young boys running down the cellar and others whom she did not know, escaping through the back door. Two of the identified in court this morning. The case was postponed until tomorrow morning.

Further evidence was taken in the case of a boy who was arrested by the local detective department some time ago for alleged breaking and entering into two stores in Brussels street. Following the taking of evidence the youth was remanded.

**ST. JOHN BUILDING WORK**

The value of the building permits issued from the first of the year to today is \$469,400, as compared with \$245,700 for the corresponding period last year.
