French, Receiving Apology For Hotel Affair, Call German Minister's Attention to More Serious Incident of March 4.

London, March 11.—When General Nolle, head of the French mission, and M. de Marcellis, French charge d'affaires in Berlin, received the apology of the German minister of foreign affairs, Herr Meuller, for the Aldon hotel incident, they called attention to a more serious incident which has not previously been published, says the Daily Mail's Berlin correspondent.

This, the newspaper continues, was a violent and apparently organized attack on three British officers on March 4, when a French lieutenant and a Belgian comrade were visiting the barracks at Prenzlau, province of Brandenburg, in connection with the demobilization of the German army.

The visitors undertook to walk toward the officers' quarters, where the commandant advanced to meet them and ordered the yelling soldiers to fall in. They immediately obeyed, showing, says the correspondent, that they were not out of hand and giving the impression that the demonstration was arranged to continue until it was ordered to cease.

THE NEW CITIZENSHIP.

There is an intellectual breadth, a clearness of vision, and a quality of sympathetic understanding about an address delivered by Rev. Dr. George C. Pidgeon which, joined to his attractive delivery, bring inspiration as well as illumination to those who hear him. His address in St. Andrew's church last evening on "The New Citizenship" was wide in scope, very broad in its grasp of world movements and currents of thought, and particularly impressive in its application to conditions, problems, duties, dangers, and opportunities for service in our own Dominion. The war, he pointed out, did not solve our problems but made the way clear to build up a great Canada. But the war also set in motion great forces which bring with them an element of danger. The farmers are asserting themselves. Labor is asserting itself, national groups are moved by new aspirations, and everywhere there is an expression of views, an assertion of ideals, a self-expression and a self-assertion quite unknown before the war. That struggle taught us the meaning of the state, for the latter could command our substance and our lives, and had its machinery broken down the result would have been calamitous in the extreme. But if all people have a new conception of the state, its relation to them and their relation to it, there are some who dream of seizing its machinery to encompass as had another, as Russia has proved. The great danger to the nation is that the new forces now in motion may move along sectional and class lines, instead of in harmony. For the common good, it is this we must guard against, for that liberty is unavailing which does not give to others the same rights we claim for ourselves. The task, therefore, of these forces, recognize the contribution of each, and unite them all in the upbuilding of the nation. The narrow, parochial, sectional, must give way to the larger aim. It involves an adjustment of the relations not only an adjustment of the relations of class with class, but extreme care in the selection of new citizens and very wise treatment of those who come in order that they may in the spirit of the Canadianism even while holding tenaciously to their pride of origin. It is a great and fascinating task Dr. Pidgeon reveals, and one which ought to inspire young and old with a desire to have their part in meeting and overcoming the obstacles to the development of a great, prosperous and united country.

Now that the legislature is in session the matters at issue between the city and the New Brunswick Power Company must be threshed out again.

THE NEW BRUNSWICK FEDERATION OF LABOR is in session in Fredericton. It is a parliament, dealing with labor's manifold questions of the greatest importance to the industrial and social welfare of the people.

for those mentally capable of being made self-supporting though not able to keep up in the classes with children of normal mentality. Dr. Hinde has succeeded, each dealing with his subject that his addresses leave a lasting impression upon the mind.

The Social Service convention in this city has been a success. Rev. H. A. Goodwin is to be congratulated on his re-election as president. The new arrangement by which this province will be linked up with Quebec and have the services of a trained general secretary in the field should be of great advantage. Had there been a more general response throughout the province when Rev. C. McL. Smith was in the field this change might not have been necessary, but in the end it may produce better results in all the provinces east of Ottawa. Rev. Mr. Smith did much valuable preliminary work, and the way is paved for an extension of that work in co-operation with Councils from coast to coast, each dealing with its own particular problems as well as those that are nation-wide.

SIR DOUGLAS HAZEN, in his eloquent introductory remarks as chairman last evening, made the suggestion that the Social Service Council might well consider public service as a part of its field of operations, and endeavor to get the ablest and most honorable citizens to enter public life, whether in the national, provincial or municipal field. Sir Douglas doubted if any other group of men selected from any walk in life would, under the test and strain of public life, and criticism, have proved themselves superior to those who have been in the public eye in Canada, but he added that there was always room for improvement, and there never was a stronger challenge to men to give the highest service than comes to them today. It was a very happy introduction, and both Dr. Hinde and Rev. Dr. Pidgeon made graceful acknowledgment of their appreciation.

CONVALESCENT.

I've recovered from the flu, but I'm feeling worn and weak, and my nose and lips are blue, and my hinges groan and creak. Rucked and broken down I am, and so long have I kerhooped that my priceless diaphragm from its moorings is unmoored, and my ribs are flapping loose, I feel pains throughout my trunk, and I'm feeling like the deuce, if the deuce is feeling punk. Soon again I may be strong, but no cheerful thoughts I think, something else will come along that will put me on the blink. And the learned physicians say, "You will soon be strong and hale," but he's talking through his fee, and he ought to be in jail for he knows diseases wait round the corner, and they'll ride me till I'm dead. In this happy frame of mind are the victims of the flu, when those convalescents find that some a ghastly lot, as old Rachel used to weep for the children who were not. I am lying on my couch, singing songs of broken hearts, for I have the grisly grout that the dad-blamed flu imparts.

Dominion Happenings of Other Days

CHASING BIG BEAR.

One of the most fearless Indian chiefs with whom the Canadians ever had to deal was Big Bear, an Indian who led the rebels in the North West rebellion of 1885. He lived in the Frog Lake district and for a long time had been known as a difficult man to control. So when a revolt came he went on the war path against the whites. His first attack was upon an Agency, where they demanded food and supplies. On Good Friday he shot dead nine worshippers in a church near Frog Lake including two priests who were killed while ministering to the dying. He carried off, too, the women and children of some of those he slew.

At once a force under General Strathcona was sent against the rebels, but it had to cover a difficult part of the country so that the chief had considerable time to commit his depredations before resistance could arrive. He raised a force of about 250 men, all mounted, and started his blood thirsty charge against the troops who were forced to abandon the place a little later. The Big Bear and his band of high rank until the troops arrived in numbers sufficient to deal with him as he deserved. The Big Bear fled, but he found it impossible to shake off the relentless pursuers. Sometimes he could not take his food or even the most needed supplies. His band dwindled rapidly after the end of its string of victories, and the braves sped away to their reserves, hiding their weapons and claiming to be friendly to the soldiers. So on July 2, 1885, the Indian surrendered to the troops and was taken to a camp with as the law of the land might determine. He had lost all by espousing the cause of the half-breeds.

WOMEN'S AUXILIARIES.

At the annual meeting of the Women's Auxiliary of St. John's church held yesterday in the school room of the church, the devotional exercises were led by the Rev. R. P. McKim. In the absence of the president, Mrs. R. P. McKim, the honorary president, Mrs. William Smith, presided. The work of the year was reviewed and much progress reported. The usual special gift was sent to Miss Shaw, a missionary in the West.

With great regret the resignation of four members of the executive was accepted. Those who refused re-election were Mrs. W. Harrison, Mrs. George G. C. P. McIntyre. Each was heartily thanked for untiring and faithful service. By acclamation, Mrs. R. P. McKim was re-elected president. Other officers elected were as follows: Honorary president, Mrs. R. P. McKim; first vice, Mrs. Alex. Scott; second vice, Mrs. H. J. Roberts; third vice, Mrs. D. H. Naser; recording secretary, Mrs. L. Lingley; corresponding secretary, Mrs. W. L. Gregg; treasurer, Mrs. Leslie Waters; Dorcas secretary, Mrs. John Brown; assistants, Mrs. Arthur Brown and Mrs. J. B. McKinney; united thankings, Mrs. D. Betts; E. C. D. secretary, Mrs. Holy Lingley; delegates to the annual provincial meeting, Mrs. Leslie Waters and Mrs. G. B. Taylor; substitutes, Mrs. Arthur Brown and Mrs. H. Anderson.

LIGHTER VEIN.

"No, dear; why do you ask?"
"I think he must be, 'cause I heard pa say last night that he raised his hair."

Mrs. Billups—Why is Willie crying so now?
"He's yelling because I won't let him have my false teeth for a cowcatcher."

"Repairing or Hiding?"
"It was said that Mr. Wendler had been suffering from a nervous breakdown and had been under the care of a physician for some time."

Playing Safe.
Miss Oldbird—It is very strange. Not one of my male relatives has called on me since New Year's day.
Miss Young—Nothing strange about it; this is leap year.

DAYLIGHT SAVING.

To the Editor of the Times—
Sir—The Trades and Labor Council would have the city go to the expense of settling the daylight saving question at the polls.

It would be a good idea for the labor bodies to have a vote amongst themselves before any official expressed himself on their behalf.

So far as can be ascertained it is a case of a minority passing its views off as being those of the majority.

If a vote were taken on the daylight saving scheme by the members of the different unions, the result might prove to be a big surprise to some of their officials who personally prefer the old time.

It is unfortunate that it was suggested that the ballot should be extended to others besides those entitled to vote at civic contests, as this suggestion infers that there is a number of the members of labor bodies who are not tax payers.

How many numbers of the different unions have sons and daughters who are clerks? The father who opposes daylight saving evidently does not consider the benefits his family receive from it.

The writer has heard a good many teamsters and painters express themselves very strongly in favor of daylight saving, and they are not the only ones by a long way.

Yours faithfully,
P. H. BUTLER,
Editor The Clerk.

CHAPELAIN HOOPER'S SICK AND WOUNDED SOLDIERS' FUND

Since 1915 this fund of mine has had a splendid record of beneficent ministry. By its means I have been able to supply needy comforts, and meet all sorts of needs for nearly 30,000 Canadian soldiers during their hospital experience of pain and sickness. I have in my care, all the wounded and sick men of the province who are under treatment in our four hospitals. There are in round numbers, 100 at the River Glade hospital, 60 at Lancaster, West St. John, 40 at the county hospital, East St. John, and fifty at the River Glade Sanitarium. Of course these numbers vary. I see them each week.

Mine is a work which is very real, but I need money. I spend at the very best \$100 a month. I have received the most wonderful kindness and generous sympathy during the past five years, and several thousands of dollars have been sent me, most of it without any solicitation on my part, from individuals and societies in New Brunswick. So though my fund is very low, I am confident that its needs will be met, and I earnestly ask all who read this, and who think that my work is worth while, to send me such a contribution as they can afford. My address is

MAJOR E. B. HOOPER, C.F.,
133 Hazen Street,
St. John, N. B.

It was December 23 when I made my last request for help. Since that date I have received \$200 and have expended almost \$300.

KILLED AT MAINE BORDER IN SUSPECT SMUGGLING CASE

Candle Dummies of Van Buren, Me., was shot and killed by United States Special Officer Venter, when he would not stop his team on being told to do so by the officer yesterday morning. An inquest was held and it was considered that the officer was justified in shooting the man, he having declined to surrender. As a result of this the officer was not placed under arrest. The man who was shot was driving a suspicious looking team across the St. John river yesterday morning while the officers and another were on duty looking for those who were trying to smuggle liquor into the United States. They noticed the team and when it came onto Maine soil the officer stepped in front, asking the driver to stop. Instead the driver struck him with a whip and drove the horses as if to run him down. He succeeded, however, in escaping this, and caught the rear of the team and the driver then struck him over the head with a riding inflating wheel. It was at this time that the officer opened fire, the bullet striking the smuggler in the head, killing him instantly. The other occupant, Albert Morneau, escaped into the woods.

Commanded by Capt. O. Clark, and carrying a crew of six men, the schooner Thomas H. White, Perth Amboy, N. J., for St. John with coal, has about been given up for lost. She has not been heard from since before last Christmas. The dead man left an estate valued at \$7,000.

33-YEAR WILL FIGHT.

London, Eng., March 11—An appeal in relation to the will of Sir Joseph Whitworth, a millionaire, who died thirty-three years ago, was heard in the House of Lords. It is claimed the executor to whom the residue of the estate was apparently given absolutely, in fact received it upon a secret trust. The dead man left an estate valued at \$7,000.

THE PAVING QUESTION.

To the Editor of the Times—
Sir—I do not agree with some of the arguments advanced at the council meeting, that abusers should pay a large part of the cost and the general public satisfaction out of good pavements than a working man? I know cases where men live on city roads at a bad pace, and twice a day traverse our streets to their workshops at a lower rate, so they do not have reason to bless good smooth paving most of the way saving their tired feet and costly shoe leather. Let us all pay a fair proportion.

PRINCESS ROYAL HAS SELECTED CANADIAN PIANO

Amherst Firm Singularly Honored by Royalty—The King, the Queen, Queen Alexandra, Prince of Wales and Princess Mary All Enjoy Amherst Music.

If any of the people of the Maritime Provinces are of the opinion that our manufacturers do not compare favorably with the world's best, they will be startled to learn of the success of Amherst Pianos. This factory was started only a few years ago and already thousands of these pianos have been sold all over Canada, but down here many people seemed to think that because it is made in our own territory it must necessarily be a little better.

Musicians of world wide fame have testified to its quality. Pol Pianon, one of the world's greatest basses, went out of his way to say that it was one of the best pianos he had ever used. A short time ago this firm opened warehouses in London, England. February 18 is the birthday of the Princess Royal and it was decided to give her a piano as a birthday present, as she is the most musical one of the Royal Family. The Princess Royal and party personally visited the piano warehouses and selected an Amherst piano. She was so pleased with the instrument that she has it placed in her own private reception room where she receives her personal friends. She christened the particular style of piano she selected as the "Princess Louise" and authorized the Amherst Piano Company to use her name in recommending the piano and created the manufacturers by "Royal Appointment."

H. R. H. the Princess Royal received about sixty of her personal friends on her birthday and among them were: The King, The Queen, Queen Alexandra, Prince of Wales, and Princess Mary. She said to them all, "Come up to my room and see my lovely Amherst Piano." She played it over to them and said it was the best birthday present she had ever received.

This is something for Amherst to be proud of, and the company is to be congratulated on its well merited recognition of its product.

The piano selected was taken out of stock and not especially made in any way, as the company had no notice of the visit, and no time to prepare anything extra.

SAYS LYNCING IN STATES IS DOOMED

DESPONDENT WOMEN

A prominent writer claims that "women are naturally despondent" but often mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, backache, headaches, sleeplessness, and consequent despondency. Lydia E. Pinkham's Vegetable Compound goes to the root of this trouble, it gives tone and strength to the system and restores women to a normal, healthy condition.

GOOD THINGS COMING
TO THEATRES OF
ST. JOHN

A REAL TREAT
AT OPERA HOUSE

Nancy Boyer and Company
Will Conclude Clever
Comedy Skit Tonight—
Other Good Acts—Friday's
New Programme.

Those who are fond of good comedy drama should not miss the play-
let which is being presented in the
Opera House by Nancy Boyer and Com-
pany. It is an original skit entitled
"Mary Lou," and is a real treat for
lovers of the legitimate stage. Miss Boyer
has associated with her Henry Tetso,
who was formerly with Thomas E.
Shea, and Harry Hamilton. In addition
James Tetso and Company, one of the
greatest and most sensational jumpers
in the world, will give a demonstration
which made a popular hit Tuesday and
Wednesday evenings. He was formerly
one of the star attractions with the Bar-
num and Bailey circus. There will be
three other good acts, which are team-
ing with interest, and another episode of
"The Black Secret," featuring Pearl
White.

The new bill for Friday evening will
be as follows: Arthur Hill and Com-
pany, in a sensational cycling novelty,
"Comedy Wheel," and "The Wonder-
ful Violinist," who will render a
number of pleasing selections; Nelson
and Bailey, in a comedy skit entitled
"Fun at a Moving Picture Studio;" Karl
Karey, in a vocal and piano offering,
"A Songbook with musical cartoons;
Keno and Wagner, in a novelty scenic
dancing act, "Babes in Toyland." There
will also be another episode of the mo-
tion picture serial, "The Midnight Man,"
featuring James J. Corbett.

ST. JOHN'S NEXT
BIG ATTRACTION

Asserting that "Male and Female" is
"truly a great film," the motion picture
reviewer of the New York Sun says,
justifies the white hot public interest in
it, for Director DeMille, in addition to
presenting the ordinary stage scenes
with his usual polish and directness has
lavished additional effects impossible be-
hind the footlights, but possible to a
film Belasco with all nature at its com-
mand. There are thrilling scenes
... and the picture moves with an
artistic eye for the telling moments
which hold the audience around the
Rivoli imporing the ushers for a
chance to get at the picture, coming
to Imperial Theatre, March 18th.

CHARLIE CHAPLIN
AND LILA LEE AT
UNIQUE TODAY

Charlie Chaplin in "A Day's Pleas-
ure" at the Unique today, has sick cylin-
der laugh ignition that will mend any
crank case. There comes a time in
everyone's life when an auto they'd own,
no matter what strife it takes to attain
it, for mortgage or cash. Thus it is
with poor Charlie, who gets into a
screw with a burly traffic cop. The picture
is a screen from beginning until the
end, and it will be gala entertainment for
auto owners. Don't fail to see Chaplin
in this great comedy. In addition, Lila
Lee will be seen in "The Secret Gar-
den," a new Paramount photoplay pic-
tured by Frances Hodgson Burnett, and
will surely delight everyone. Prices re-
main the same, 15 and 25 cents.

If every child wore Hurlbut Shoes
There would be no deformed feet
in later life

BECAUSE Hurlbut Shoes are sci-
entifically shaped to nature's
demands. They are not only
roomy to give every toe its
right to grow, but they support
step, arch and heel, and de-
velop the growing foot.

Hurlbut's are comfortable—
Hurlbut's are flexible. Sole and
heel sewn to the up-
pers by the patent welt makes them
more flexible. The shoe gives to
the bend of the foot.

No tacks—no ridges—
—cushion sole from heel to toe, prevents
jar and jolt. This all adds to the
length of life.

There isn't any question
that Hurlbut's are the
highest quality children's
shoes in Canada to-day.

needs of the farmers and at the same
time utilize a valuable, natural re-
source will, I am confident, have the
highest approval of agriculturists every-
where.

You will be pleased to learn that
the reports of the provincial foresters
indicate that the lumber cut for 1919-
20 will again assume its normal propor-
tions and that the territorial revenue
for 1919-20 will be the largest in the
history of the province, also that every
effort is being made, consistent with
the rights of the lumber licensees so to
restrict the operations of the lumbermen
as to conserve this most important asset
of the province as far as possible.

I am pleased to know that the Valley
Railway has been completed to West-
field in Centreville but will afford
another entrance from the West to St.
John, one of Canada's winter ports. In
the matter for sincere congratulation
the government has been able, by reason
of the lowered price in the English mar-
ket of its guaranteed debenture stock
and the rate of exchange prevailing to
purchase and cancel such a portion of
the outstanding stock as to effect a con-
siderable reduction in the liability for
the construction of this road.

My government is pleased to announce
that, during recess, bonds guaranteed by
the province in connection with the con-
struction of the International Railway to
the amount of \$896,000 have been paid
off by the company and cancelled, there-
by further reducing the liability of the
province.

No decision has yet been given respect-
ing the claims of the several provinces
upon the dominion government. New
Brunswick, in confederation, will insist
that there be no division of the lands or
natural resources unless all the provinces
which formed confederation are given
the fairest consideration.

During recess conferences have been
held between my government and the
federal highway board with respect to
the agreements necessary for co-operation
between dominion and provincial govern-
ments for the construction of roads of
legislative standard and I am pleased
to announce that legislation will be in-
troduced at the opening of the session
to give effect to such agreements.

The public works department
is to be congratulated on the notable
progress already made in the construction
of more durable roads in every
county of the province, and the work
will be continued in addition to that
mileage built with federal assistance.

Water Power.
The advantages that will result from
additional manufacturing industries
throughout the province and the in-
creased demand for power light have
caused my government to give further
consideration to the development of its
water power. With this end in view
the Dominion Water Powers Branch of
the Power Commission of New Brunswick
has gathered valuable information which
will be submitted to you in their report,
and to enable the government to proceed
without delay with the develop-
ment of such water powers as are found
to be commercially feasible.

The report of the committee ap-
pointed at the last session of the legisla-
ture to enquire into the question of
salaries of school teachers will be laid
before you, together with their recom-
mendations upon the subject, and I
should like to call your attention to the
fact that additional financial assistance
on the part of the province, my govern-
ment will give some favorable consid-
eration.

The first report of the Workmen's
Compensation Board, covering a period
since the act came into force, will also
be laid before you and certain amend-
ments to the act, based upon adminis-
tration experience, will be submitted for
your consideration.

Matters relating to health throughout
the province have been given continuous
watchful care by the department of
public health. Most of the municipali-
ties have co-operated generously with
the department and good progress has
been made in providing medical inspection
in the schools, collecting vital statistics and
organizing to cope with any epidemic
which may threaten the province or any
of its communities.

I am pleased to know that the women
of the province look advantage of the
legislative provision extending the fran-
chise to them for the first time and af-
forded the revisors much assistance in
placing their names upon the voters' lists.
To provide for anxious legislation will
be introduced allowing names to be ad-
ded to the official lists upon proof of
proper qualifications. The right to vote
by women of the province will for all
time be an outstanding event in the
history of New Brunswick.

Big Matters for Legislature in Speech From Throne
(Continued from page 1.)
Speech From Throne.
The speech from the throne was as
follows:
Mr. Speaker and Gentlemen of the
Legislative Assembly:
It gives me great pleasure to welcome
you to the fourth session of the seventh
legislative assembly of the province of
New Brunswick and the first session
since the proclamation of peace, which
will enable the world to carry on the
great task of restoration and reconstruc-
tion made necessary by the ravages and
destruction caused by the Great War.
During the recess, the people of New
Brunswick have rejoiced in the home
coming of those of their sons and
daughters who had remained on duty
overseas great sources of pleasure
were the visits of His Royal Highness
the Prince of Wales and His
Excellency The Governor General of
Canada, the Duke of Devonshire, His
Royal Highness honored this province
by landing in Canada at St. John and re-
ceived a most royal and enthusiastic wel-
come. Memories of his visit, his delig-
ent personality and the splendid im-
press of the heir to the throne will
ever remain with the people.

N. B. Prosperity.
The great scarcity of food stuffs which
still prevails in many parts of the world
has so lessened the margin between de-
mand and supply as to increase prices
everywhere and emphasize the diffi-
culties attending the cost of living. On
the contrary, the ability of its people was
distinctly shown by their share of the last
Victory Loan. Our chief industries,
agriculture and lumbering, were never
so productive or their products in such
demand. It is a source of gratification
to note the favorable condition of the
crops in New Brunswick during 1919.
The official reports of both dominion
and provincial agriculture departments
show that the live stock and field crop
average of New Brunswick were large-
ly increased. The importance of the live
stock industry cannot be over-estimated
and the increase in the number of cattle,
horses and swine was more than a quar-
ter of a million, and the increased value
nearly \$50,000,000. An increase of nearly
2,000,000 bushels of oats and nearly
2,000,000 bushels of potatoes more than
\$600,000 bushels of buckwheat and
total output of creamery butter of about
1,000,000 pounds and 1,250,000 pounds of
cheese will give some idea of the pro-
gress made in this basic industry in
New Brunswick.

The arrangements of the department
of agriculture to provide a sufficient
supply of ground lime at cost for the

erty were disposed of as a trust fund,
your attention will be invited to a con-
sideration of how the said fund should
be disposed of.

I have directed the accounts of the in-
come and expenditure for the last year,
as well as a statement of the receipts and
payments of the coming year up to the
opening of the present session, to be laid
before you.

The estimates of the probable income
and expenditure for the current year
will be submitted to you, and I believe
that you will find that the estimates
for the expenditure have been prepared
with a due regard to economy and the
requirements of the public service.

I wish to assure you, in conclusion, of
my belief and confidence in your patriot-
ism and zeal for the public good and to
express the hope that your deliberations
will result in promoting the welfare and
increasing the prosperity of the province.

FEELS BETTER THAN IN YEARS

Although a Young Man Dumphy Felt Like an Old One, But is Feeling Fine Since Taking Tanlac.

Few of the ills that flesh is heir to are so distressing or so unfit a man for his daily work as chronic indigestion. Among the many thousands of testimonials received which prove that Tanlac is particularly successful as a remedy for this complaint, is that of Charles Edward Dumphy, who resides at 83 Simonds street, St. John, N. B. Mr. Dumphy is a carpenter who has lived in St. John for many years and is well known to a large circle of friends in his district. This is what he has to say concerning his own experiences with Tanlac:

"Chronic indigestion has been my trouble. It started a little over three years ago. I ever ate anything like fat meat, or case it used to upset me. Then as I got worse all my food used to disagree with me and my stomach used to sour up horribly after every meal. The gas would so form that my stomach would feel as light as a drum and I used to fairly gasp for breath. This feeling was very bad at night and I often awoke with a feeling that I was being smothered. Then I would have to get up and take something like soda to try and get the gas off my chest. Often I would be hours unable to get relief. I got so at last that I was afraid to eat anything at all because of the way I used to suffer if it afterwards. I guess I tried nearly every known so-called treatment for indigestion but none of them gave me more than temporary relief. I'm still a comparatively young man, but I tell you I was feeling like an old man.

"One day a paragraph in the papers caught my eye. It was the statement of a man who had suffered just as I had, and who got wonderful help from Tanlac. I put on my hat and went straight off to the Ross Drug Company and bought a bottle. Well, sir, I'm here to say that Tanlac did more for me than anything else I ever tried. It seemed to settle my stomach right away. I soon found that my food agreed with me and that I could eat almost anything without having to suffer for it afterwards. I've had four bottles in all and I'm feeling better today than I have done for years. Life is worth living now, and so long as I can obtain Tanlac I shall not fear the indigestion."

Tanlac is sold in St. John by Ross Drug Company and by the leading drug druggist in every town.

ULSTER AND THE HOME RULE BILL

Unionist Council Decision as to Six Counties

For Control by Ulster Parliament — Unionists Win, if Lloyd George Bill Adopted, Says Sir Edward Carson.

Belfast, March 11.—The Ulster Unionist Council decided yesterday in favor of the six Ulster counties being controlled by an Ulster parliament, should the new home rule bill be enacted. The council decided to accept any responsibility in regard to the bill, and it is understood will make no attempt to defeat it.

Dublin, March 11.—At a meeting of the Irish Unionist Alliance yesterday, a resolution was passed reaffirming the determination of the southern Unionists to oppose home rule by every means in their power.

Sir Edward Carson.

Belfast, Ireland, March 11.—Sir Edward Carson during a speech yesterday said that if the present home rule bill passed, Ulster would be lucky, he added, in getting without fighting what he had contended to fight for. If the bill had included the whole of Ulster, said Sir Edward, they would have had to oppose it tooth and nail; then if it were rejected, the 1914 act would have come into force, and they would have a home rule parliament in Dublin.

The address was made at a meeting of the Ulster Unionist Council, attended by delegates from all parts of the province. Sir Edward Carson presided.

Lord Farnham offered a resolution to the effect that the council would abide by the covenant and refuse to accept any form of government which did not include the whole of Ulster. It called on the parliamentary leaders to take steps to secure its inclusion in the present home rule bill. The resolution was defeated.

Lord Wallace then offered a resolution, which was adopted, reaffirming faith in the legislative union of Ireland and Great Britain, adding:

"Inasmuch as the new bill is based on the principles of home rule and would deprive us of our equal citizenship in the parliament of the United Kingdom, this council cannot recommend that any parliamentary representative of Ulster accept any responsibility for it. But inasmuch as the bill is in substitution for the government of Ireland act of 1914, and it recognizes the right of the six counties of Ulster to separate from Ireland, for which Ulster tenaciously has striven, and offers a preferable alternative to the act of 1914; and inasmuch as there is no prospect of procuring a simple repeal of that act, this council is of the opinion that the Ulster representatives should not assume responsibility for attempting to defeat the bill, but should press for such amendments as are necessary and desirable in the interests of Ulster throughout the west and south of Ireland."

At a largely attended meeting of Ulster Unionist business men yesterday affirming the belief that the business interests of Ireland would best

TO BE SEPARATED

Washington, March 11.—Do not separate us. We are happy as we are. This was the plea of Washington "Siamese" twins when they were informed that by a simple operation the ligament which binds them together could be severed.

The boys, Lucio and Simplicio Sodho, are students at St. John's College, under the guardianship of Theodore L. Yanko, Philippine commissioner. Specialists at Johns Hopkins were consulted and after examination, they decided the boys could be separated. But since they wish to remain as they were, Commissioner Yanko said he would not consent to an operation.

CHARGES TENANTS FOR HANGING WASH ON LINES—AND POLES DON'T BELONG TO HIM

Jersey City, N. J., March 10.—Charging tenants \$1.50 a month for the privilege of hanging their wash on lines strung from a pole, is the latest proceeding by the "meanest and cheapest landlord" yet discovered, according to James G. Gannon, director of revenue and finance—and the pole doesn't even belong to the landlord, but to the New York Telephone Company.

Mr. Gannon said the landlord was Harry Drasnow, whose tenants at 138 Monticello street, are compelled to pay for sun and air. But in a letter to Drasnow, Mr. Gannon has made it clear after addressing him as the "meanest and cheapest landlord," that if Drasnow persisted in "this petty larceny practice" except my assurance that your receipt of assessment will be what it should be instead of what it is.

BAD COLD LEFT HIM WITH BRONCHITIS

However slight a cold you do have you should never neglect it; if you do you can have one result. It leaves the throat or lungs, or both, affected. Bronchitis is one of the most common ailments of a neglected cold, and neglected bronchitis is the principal cause of consumption.

Dr. Wood's Norway Pine Syrup is just the remedy you require to cure the bronchitis. It does this by loosening the phlegm, and stimulating the weakened bronchial organs, allays irritation and subsides inflammation, soothes and heals the irritated parts and thus prevents its becoming chronic.

Mr. R. P. Sundblad, Franck, Saska, writes: "I had a very bad cold which left me with bronchitis. I tried several cough remedies and oils of all kinds, but they all failed. At last I got Dr. Wood's Norway Pine Syrup and after using two bottles I have had no sign of bronchitis since. I therefore can honestly recommend it for coughs and colds."

Don't accept a substitute for Dr. Wood's. The genuine is put up in a yellow wrapper; 8 pine trees the trade mark; price 25c and 50c. Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

If Thin And Nervous Try Citro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that deficiency in phosphorus may not be met by the use of Citro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nervous tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION.—White Citro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

FIRES ON PARENTS WHEN IN DREAM

Danbury, Conn., March 11.—Engaged in an imaginary battle while apparently in a dream, Franklin M. Komp, 19, son of Frank S. Komp, shot his father and mother in their home at midnight, and otherwise injured them during a struggle that followed.

The elder Komp is in the hospital with a bullet wound in the shoulder, another in the hip, and lacerations caused by blows and bites. Mrs. Komp, at her home, has two wounds upon the head, one apparently caused by a bullet. The son, charged with assault with intent to kill, is held in \$2,000 bail.

The Komp family moved here from Brooklyn, N. Y., a few months ago. Mr. Komp is the head of the Longden Company, electrical goods manufacturers.

When Mr. and Mrs. Komp retired last night their son was at table reading a Sunday school paper. Two hours later their room and found the boy with a revolver in each hand, firing at random.

A struggle ensued, in which the family, barefooted and in nightclothes, went out of the house and into the deep snow. Mrs. Komp wrestled one of the revolvers from her son and struck him upon the head with it. At the fourth blow young Komp ceased the struggle, rubbed his eyes and looked in evident amazement at his surroundings and the revolver in his hand. He remembered nothing that had happened, but said in a dream he had had a struggle with a party of men who had entered the house.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. I refused to do so. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no loss of time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation. If you write to me, I will, in return, send you a copy of my story, and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

GROWING DEAF WITH HEAD NOISES? TRY THIS!

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Farmit (don't get strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

Give Stomach What it Needs

The Alkaline Effect of Stuart's Dyspepsia Tablets Usually Corrects the Stomach Faults that Provoke Attacks of Indigestion or Dyspepsia.

To sit back after a good meal and know there is not going to be sour risings, gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to something they ate and can still "take" it. And it surprises them, invariably, to note how quickly relief comes after using one or two of these Tablets. Whether it is highly seasoned food, rich pastry, the heavy hearty foods or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline and it just as it does naturally when it is working in a perfectly healthy condition.

Stuart's Dyspepsia Tablets are so widely known and used that you can get them in any drug store in the United States and Canada at 50 cents a box.

Hairs Quickly Vanish After This Treatment

(Helps to Beautify.) Science has aided in simplifying the banishing of hairy growth from the face, and according to a heavy specialist, the most effective treatment yet devised consists of applying a delicate paste to the hairy surface for two or three minutes.

LORD JELlicoe'S RECOMMENDATIONS ON CANADIAN NAVY

Four Programmes Entailing Annual Costs of From Five to Twenty-Five Millions—Favors Largest Programme—Cruisers, Destroyers, Submarines and Aircraft Included.

Ottawa, March 11—Lord Jellicoe's recommendations for Canada's naval policy were tabled yesterday in the House of Commons by Hon. C. C. Ballantyne, minister of marine.

Four alternate building suggestions are submitted, as follows: First, \$35,000,000 feet—Two battle cruisers, seven light cruisers, one flotilla leader, twelve destroyers, one destroyer parent ship, sixteen submarines, one submarine parent ship, two aircraft carriers, four fleet mine sweepers, four local defence destroyers, eight "P" boats and four trawler mine sweepers.

Second, \$12,000,000 feet—One battle cruiser, five light cruisers, one flotilla leader, six destroyers, one destroyer parent ship, one aircraft carrier, eight submarines, one submarine parent ship, two fleet mine-sweepers, four local defence destroyers, eight "P" boats, four trawler mine sweepers.

Third, \$10,000,000 feet—Three light cruisers, one flotilla leader, eight submarines, one submarine parent ship, four local defence destroyers, eight "P" boats, four trawler mine sweepers.

Fourth, \$5,000,000 feet—Eight submarines, four local defence destroyers, eight "P" boats, four trawler mine sweepers.

In each of the programmes allowance is made for the cost of administration, training ships, dockyards, local defence, fuel resources and stores, wireless and naval air squadrons consisting of twelve flying machines.

Lord Jellicoe thinks that the largest programme should be adopted, and if that were accepted immediately, Canada would have in eight years in addition to those ships another battle cruiser, two additional light cruisers, six more destroyers, eight more submarines, another aircraft carrier and two additional floating mine sweepers.

Summarized, the conclusions are that (A)—it is very desirable that there should be a minister for the navy responsible only for that service.

(B)—In this event, it is suggested that all other seafaring affairs should be conducted by another minister with perhaps the title of "the minister of marine and fisheries."

(C)—It is proposed that a shipping committee comprising representatives of ship owners, fishery firms, the marine department and the naval staff, should meet periodically to consider questions of general development of marine resources. Their functions would be purely advisory in peace, but in war they would take control of shipping, their chairman acting as shipping controller.

(D)—A member or branch of the naval staff should be concerned with trade and fishery questions and the war training and the constructional work involved.

(E)—On the outbreak of war, in addition to the shipping committee possession the same powers and functions as the ministry of shipping in England, during the late war the naval staff branch referred to in (D) should carry out the duties of the mercantile movements division.

In this way organizations already existing would be in a position to take up their war-time duties without difficulty or loss of time.

(F)—Arrangements concerning the strengthening of the hulls to take defensive armament in merchant ships and fishing vessels would be dealt with by this shipping committee, requisitions being made to the director of naval ordnance for the armament for which approval was obtained.

(G)—It is desirable that a knowledge of naval warfare should form part of the qualifications of the merchant service officers for a certificate.

(H)—Designs of fishing craft should be encouraged along lines tending to efficient auxiliary vessels for naval use in war time, so far as is consistent with their ordinary work.

He advocated a policy of local administration and control based on a plan of co-operation with the British government in building, operations, training and personnel.

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist (or if you prefer write to the Marmola Co., 864 Woodward Ave., Detroit, Mich.) for a large case of Marmola Prescription Tablets. \$1. is the price the world over. By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.

Atlantic City, N. J., March 11—Emory Tutman used to be fat. Once when he got into difficulty with the law there was no cell big enough to accommodate him. At that time he weighed 608. Now he carries 440 pounds. He attained his present proportion by means of a few months' work in a Turkish bath. He says he will be down to 400 by July 1. Physicians say that the loss of 228 pounds since last fall has not affected Tutman's health.

Stock Out Ruth Twice.
Jacksonville, Fla., March 11.—Miller Huggins, manager of the Yankees, after seeing his colts whip his regulars two days in succession, announced last night that he would back his second team against the second team of any club in either the American or National Leagues for \$1,000 a game. His optimism seemed to be justified by the fact that the colts beat the regulars yesterday five to nothing, although it must be admitted that George Mogridge and Emile Shore did the pitching for the colts. The major struck the great Ruth out twice.

The Young Giants.
San Antonio, Texas, March 11.—The darts' rookies are getting the habit of victory. One more yesterday they topped the regulars, 6 to 5. Arthur White, a young infielder from Framingham, Mass., who played shortstop for the Cubs, helped a lot towards winning the game. He added a home run to a record of flawless fielding. He looks like a big leaguer.

Granites Won.
Toronto, March 10.—Granites defeated Kitchener by 2 to 1 here tonight, thus joining out as the winners of group 2. H. A. They will next meet the Hamilton Tigers in the final games for the championship of the association.

race. The leading team had covered 1,287 miles and seven laps. The record is 1,449 miles and six laps, made by Lawson and Halstead in 1914. The eight teams which were one lap back were Goulet and Mafin, Egg and Madden, Coburn and Kopsky, Buys and Speiser, Lank and Chapman, Kaiser and Hill, Godiver and Van Nek and Druvy and Hanley. Spencer and Drosch had gone 1,287 miles and five laps; and the teams of Bello and Madona, Bowker and Bowker, and Byron and Markey, 1,287 miles and three laps.

TRAP SHOOTING.
Will Come to St. John.
Halifax Echo: Good Friday will come too soon to release the fishermen this season, but it will give the "bloodless Niurds" a chance to show their skill at trap shooting. They will send a team from the Dartmouth Rod and Gun Club to St. John on that date. The invitation has already been extended by the general president of the New Brunswick organization, G. J. Killam. In addition to being genial, Mr. Killam has an uncanny knack of breaking eighteen yards with rather startling regularity. The team which will compete at St. John is still to be picked; the events being a five-team inter-club match; a two-man challenge shield match, and a two-man match for the St. John cup.

CARPENTIER'S TOUR TO START MAY 3
Famous French Boxer Expected in America in Less Than Two Months.

(Montreal Herald.)
Georges Carpentier's American trip will start on May 3, according to definite announcement made by George Kennedy who with Jack Curley of New York is handling the tour on this continent of the famous French heavyweight.

Curley and Kennedy, who previously announced that they had Carpentier signed up for an American tour of ten weeks, state that following the tour they have an option on the services of the French boxer for five additional weeks.

In announcing the signing of Carpentier the following statement is issued by Jack Curley on behalf of himself and George Kennedy:
"For some time I have negotiated for Georges Carpentier's services for an American tour. I now have his signature as well as that of his manager, Deschamps. The French champion will begin appearing under my management on May 3, and the tour will last for ten weeks. In addition, I have an option on his services for five more weeks. During that time will have him appear in all the principal cities in the United States and Canada.

"Carpentier cannot appear for any other manager before the expiration of my contract nor engage in any future contract before he finishes with me. I have his acceptance to fight Jack Dempsey for me and we have agreed upon a price and terms. I will make no effort,

however, to obtain Dempsey until his case with the Government is settled. Neither will stop in any way Carpentier from accepting terms from any other promoter if he feels so inclined.

"Besides the business connections with Carpentier, I hope to make matters pleasant for him and see that he gets a fair and accurate view of America. Carpentier made such a wonderful reputation for himself in the great war that I am satisfied the citizens of this country will be delighted to show their kindly feelings toward the real genuine hero.

The date for Carpentier's Montreal appearance is not yet definitely fixed.

Carpentier's Wedding.

(Canadian Press.)
Hamilton, Ont., March 11.—The feature of the Board of Commerce investigation of the alleged grocers' combine yesterday here was a threat on the part of Chairman O'Connor to have A. H. Jolley of this city, sales manager for the Kellogg Cereal Company, Toronto, arrested on charges of attempted blackmail of the board and for contempt of court. Mr. Jolley attempted to placate the chairman, but succeeded only in bringing upon himself a stinging censure from Mr. O'Connor. Later Mr. Jolley announced that he had resigned his position with the Kellogg Cereal Company and wished to part friends with Mr. O'Connor.

Robert Dowson, president of the York Trading Company, which he said had eighty shareholders, a capitalization of \$100,000, with \$8,000 paid up and a monthly turnover of about \$10,000, said he thought if his organization, which was really a wholesale firm, could buy goods from several concerns which he named, the consumer would benefit. Asked to specify the benefit that might come to the consumer, Mr. Dowson mentioned toasted corn flakes and prunes. Asked by Commissioner Murdoch how \$18,000 or \$20,000 could be paid by the company on a paid up capital of \$8,000, the witness replied: "That is where the ingenuity comes in."

Chairman O'Connor said he did not wish to prevent any evidence being taken, but the board had previously ruled that the York Trading Company was a "sham" and not a real wholesale house.

MORE ST. JOHN DOGS WIN HONORS

St. John bred dogs seem to be reflecting much credit upon their home town in the United States these days. Mention was made recently of the successes won by local dogs at the New York Kennel Club show. News has now been received of the winning of two other former St. John puppies, bred by L. McRitchie, which have won prime honors at the Philadelphia Kennel Club show held last week. These puppies, it will be remembered by many friends, were poisoned while at Millidgeville, where Mr. Ritchie was spending last summer. He recovered several weeks later, sold in the States. Only with the greatest care did they recover from the poisoning and Sgt. Thomas McCullough had a large share in restoring them to health.

One of the dogs, Queensbury Revival, now owned by James Kendrick of Wynnewood, Penn., won the following prizes: 1st puppy, second novice, 1st limit, 1st open and also reserve winners. To Wilmore Sourmug, Miss White-wake, the other puppy now owned by Capt. F. A. Leser of Baltimore, won 2nd puppy and 3rd novice. Both puppies were bred by the international champion, Allire Alive. Among the dogs competing against them were winners in the trial of Queensbury Revival was Norros Thunder, the great son of Champion Haymow, Finesse, who was won first puppy at New York last year. Mr. Ritchie is being complimented upon the success his dogs have won.

After visiting different European centres they will return home via England about next July. Many friends will wish them a most enjoyable trip.

POLICE COURT

In the police court this morning Frank Crozier, who said he was a school teacher at Hoyt Station, was charged with collecting money under false pretences. Detective Saunders arrested him last evening in the Prince Albert Hotel, finding some \$85 on him, also a book with the names of donors and the amount of their subscriptions. He was dressed in a Salvation Army uniform and it was said had been going from house to house collecting money for that organization. According to representatives of the Salvation Army he had been dismissed from the army. He pleaded guilty to the charge and the magistrate remanded him to jail for sentence.

Robert and Harold Bushfan, colored, were charged with being drunk and creating a disturbance in Turner's oyster saloon, Charlotte street, last night. Detective Saunders made the arrest. They were remanded. It is alleged that they went to the kitchen, where they finally fell down into the basement, upsetting several cans of milk and some chowder.

WOMEN CONFESS TO SHOPLIFTING

Mother and Daughter Held for Sentence

Recovery of a Large Quantity of Goods in Their House Reported by Detectives — Not the Only Ones Who Have Been at It.

Mrs. Ida MacColgan and her daughter, Mrs. Myrtle Cappen of Clifton street, charged in the police court today with shoplifting, pleaded guilty and were remanded for sentence. A few days ago the accused were suspected and the matter was put into the hands of the detective department and last night Sergeant Dwyer and Detective Biddiscombe and Donahue visited the house of the accused and there found some of the goods. They placed the women under arrest and this morning representatives of Manchester Robertson Allison Limited and F. W. Daniel and Company laid charges against them, these stores having lost in the last few weeks about \$100 and \$125 worth, respectively.

The detectives recovered one trunk full of wearing apparel and other goods such as muffs, furs and pieces of lace and silk, the value of which in all is estimated at about \$400 or more, and it was said that there was possibly more goods to be recovered. Besides the stores named Scovil Bros. Limited, from which ladies' suits, neckties and other articles were taken; O. H. Warwick and Company, who have lost considerable cut glass and valuable dishes; W. Tremaine Gard and Son, who have lost some jewelry; F. A. Dykeman's, ladies' wearing apparel; Donaldson Hunt, other articles, and other retail stores have suffered by reason of such methods. It is understood, however, the accused are not the only ones who have been at it.

It was said this morning that the women used a large cretonne bag in which stolen goods would be deposited. This bag when found contained a muff, a fur scarf and a fur stole, valued at \$150, a lady's suit valued at \$75 and several small articles, and yet its capacity was not over taxed. A grip which is also said to be stolen property, contained several pairs of gloves, neckties, pieces of silks and other articles, while a trunk was filled with silk dresses, ladies' suits, handkerchiefs and pieces of lace.

In speaking about the case Sergeant Power said that the matter has been going on for some time but only recently detected. He said that it would be advisable for ladies who are now in the habit of carrying cretonne bags and fancy baskets while shopping to dispense with them so that those who are not well known would be under suspicion. He said the detectives were going to pay particular attention to shoplifting.

W. R. Robinson, commenting on the case, said that in nearly every case where shoplifting was done, hand bags and baskets were used for concealment.

It was also learned this morning that two diamond rings, valued at \$700 and \$800, which were stolen about Christmas from a jeweller's store in the city, were recovered, but it is not likely any action will be taken in this matter.

P. O. ASSOCIATES PAY TRIBUTE TO JAMES MALCOLM

In honor of his long years of service and in testimony to the esteem in which he is held by his associates upon the several streets, James Malcolm was made the recipient of a fine library cabinet and a self-filling fountain pen on Tuesday afternoon by his fellow employees in the post office. The presentation had been deferred pending the return of Postmaster Edward Sears, who had been on a lengthy leave of absence. In making the presentation, Mr. Sears complimented Mr. Malcolm upon his thirty-seven years of faithful service and spoke of his popularity with all his associates.

Mr. Malcolm was granted superannuation by the department on December 1 last owing to his health failing. Mr. Sears said that he had always been efficient in his duties, and helpful and attentive in his relations with fellow-members of the staff and the public, and had enjoyed the respect of all those with whom he had served. Mr. Malcolm replied, thanking his former fellow workers for their kindly remembrance.
