MINISTER OF WORKS ONE OF SPEAKERS

Hon. Messrs. Pugsley and King at Peace Dinner in New York

NOTABLE FUNCTION

Gathering in Hotel Astor Tomorrow Night to Celebrate Conclusion of 100 Years of Peace Between Great Britain and United States

New York, Nov. 14.—Plans to commemorate the conclusion of 100 years' peace with Great Britain will be facilitated tomorrow evening at the Hotel Astor at the big dinner to be given there under the auspices of the Canadian Club of this city with the co-operation of the Peace Society, of which Andrew Carnegie is president.

Owing to the pressure of official business at Washington, President Taft who is in hearty accord with the suggestion will not be able to attend the banquet, as he had hoped to some time ago. However, there will be other famous Americans present to voice the spirit and feelings of the nation, with respect to the proposed celebration.

Former Vice-President Charles W. Fairbanks, former Governor Curtis Guild, of Massachusetts, and General Stewart H. Woodford, former United States Ambassador to Spain; will be the principal speakers for the United States. Canada will be represented by some of her foremost orators, among them, Hon. W. L. Mackenzie King, minister of labor; Hon. William Pugsley, minister of public works; Hon. Adam Bell of New Glasgow, Nova Scotia; former member of the Dominion parliament and J. A. MacDonald, Editor of the Toronto Globe.

The dinner is to be served in the large banquet hall of the hotel, and from present indications, will be the most notable international function of its kind ever held in this city. Prominent men in all spheres of professional and commercial activity in the two countries, have signified their intention of being present. The delegation from the Dominion will be the largest and most representative that has ever visited here in a body. Dr. Neil Macphatter, president of the Canadian Club, will preside.

The dominating theme of the after-dinner speeches, will be the most effective and appropriate means of commemorating the ending of strife between the two nations with the signing of the treaty of Peace at Ghent, December 24, 1814. The suggestion that the century of peace be commemorated by an international exposition has been dismissed in favor of some permanent memorial which shall stand for generations to come, as a testimonial to the cementing of the entente cordiale between Great Britain and the United States. A great many of the members of the international committee having the matter in hand, think a bridge across the Niagara River from Yonkers to the falls, for an arched Niagara Falls would fittingly express the mutual feeling of amity between the two countries and best emphasize the spirit of co-operation which has been the basis of the treaty of Peace at Ghent. Others urge the erection of a great memorial shaft dedicated to the spirit of international peace, or on this would necessarily have to be a one-sided affair, it is regarded as most probable that the idea of a bridge which will typify the peace and be a perpetual invitation to friendly intercourse between the two peoples will be adopted as the most popular of the numerous plans submitted.

NOVA SCOTIA M. P. TO HELP IN DEFENCE OF HATTIE LEBLANC

Boston, Nov. 14.—(Special)—Geo. P. Kyrle M.P., for Richmond county, C. B., will come to Cambridge and assist in the defence in the trial of Hattie LeBlanc for the murder of Clarence Glover, of Waltham, which will open in two weeks. Mr. Kyrle, who is an attorney, is raising a fund to bring witnesses from West Ararat, the girl's home, to show that she lived a good life there. While Melvin M. Johnson, who was selected by the state to defend Hattie LeBlanc, was in Nova Scotia, seeking evidence, he found Mr. Kyrle making an investigation on his own account. He got in touch with her, and the two worked together over many places of the case. Mr. Johnson was given valuable assistance by the Canadian lawyer, while in West Ararat and other parts of Nova Scotia.

A Football Fatality

Wheeling, W. Va., Nov. 14.—The inquest into the death of Rudolph Munk, West Virginia football player, who died on Saturday night as the result of injuries in a game, will be completed today. Thomas McCoy, the Bethany College player charged with being responsible for Munk's injuries, is expected to arrive during the day to tell his side of the case.

THE WEATHER

Moderate, variable winds, cloudy with light local rain or sleet; Tuesday, winds increasing to gales.

BELVEA WANTS TO BE HEARD

Ex-Policeman Writes to Safety Board Asking That an Investigation in His Case be Made

At a special meeting of the safety board to be held this afternoon a communication from Wilmer S. Belyea, who was recently dismissed from the police force, will be considered. Mr. Belyea asks for an investigation into his case and says he can bring four witnesses to prove that he was not drunk on the occasion complained of, and on account of which he was dismissed. From remarks made by several of the members, it is gathered that no action will be taken as they look upon the matter as one of police department discipline, with which the chief of the department is capable of dealing.

MR. FIELDING TO RETURN FOR THE BUDGET SPEECH

Ottawa, Nov. 14.—(Special)—Hon. Mr. Fielding will take a short vacation in Florida or some other southern resort. He expects to be away until after Christmas. Soon after January 1, he will start north and, stopping at Washington, will complete the reciprocity negotiations there. He will then come on to Ottawa and deliver the budget speech.

MAN WHO WRECKED BOIESTOWN STATION HOUSE IS AT LARGE

A Wild Session For the Agent Who is Driven From Post and Everything Breakable Smashed

Clatham, N. B., Nov. 14.—(Special)—The station house at Boiestown was wrecked on Saturday evening by a lunatic, who, after driving the engine, threw his gun, which he had brought with him, into the engine room, including windows, lamps, and the telegraph. The man's name is Charles Palmer. He lives at Albury Postage, five miles from Boiestown.

IS LIQUOR MADE IN LOCAL SALOON?

Judge Ritchie Says, in Police Court, That He is So Informed

When the name of James Adams was called this morning in the police court, to answer to a charge of drunkenness, Judge Ritchie asked him if it was not about twenty years since he had begun to be a frequenter of the police court, and the reply was in the affirmative. "You were a bright, likely looking young man, then," Adams said his honor, "but look at the way you have gone down hill—all through rum. I should think you would keep away from a rum store as you would from a peach-house. It does not seem to be the quantity of rum that is being drunk now, but it is the quality, that is the trouble. I was told the other day that liquor was being made in a saloon-keeper's premises, actually manufactured in a rum shop."

FOR A FIVE TEAM PROFESSIONAL LEAGUE IN THE HOCKEY GAME

Moncton, N. B., Nov. 14.—(Special)—A movement has been on foot for the first time for the formation of an inter-provincial and professional hockey league. The idea was suggested by the late Mr. Norman of Moncton, who has been one of the prime movers. It is proposed that the league be a five team one with Halifax, Amherst, New Glasgow and North Sydney in it. It is assured that four of those are willing. Amherst seems to be the only town that demurs.

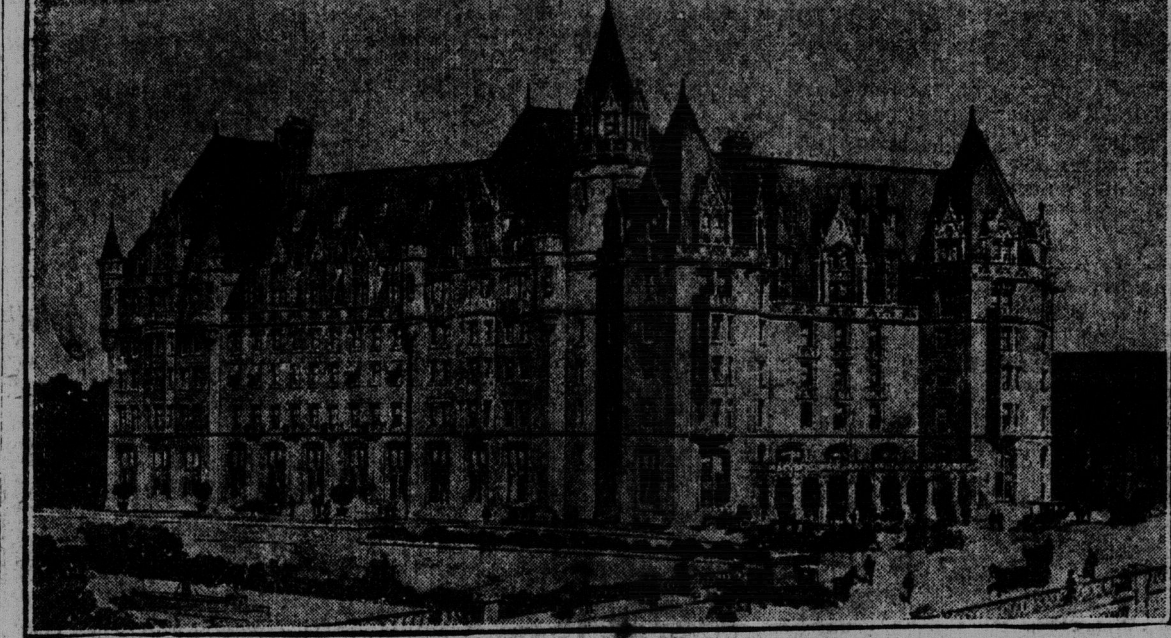

Not Badly Hurt

New Haven, Conn., Nov. 14.—W. H. Chadfield, the injured half back on the Harvard freshman football eleven, has recovered sufficiently to leave the hospital. His injuries were at first thought to be serious, but he appears to have received only a slight concussion of the brain and his physicians say he will be able to resume his studies in two or three days.

Will Have Race Meet

Los Angeles, Cal., Nov. 14.—John Brink, vice-president of the Los Angeles Racing Association, is authority for the statement that there will be a sixty day race meeting at Los Anita park this winter. J. L. Holland, president of the racing organization, is now on his way here from New York. On his arrival active work will begin in preparation for the meet.

THE CHATEAU LAURIER, THE NEW GRAND TRUNK HOTEL FOR OTTAWA

This picture shows the Chateau Laurier, the new hotel being built in Ottawa. It is not expected that it will be opened before September 1, 1911. The building is being erected by the Grand Trunk system, and the work of completion is being pushed rapidly.

HUGHES MOST LIKELY CHIEF JUSTICE CHOICE

Former New York Governor is Favored by President Taft

Ottawa, Nov. 14.—(Special)—The Sun prints a dispatch from Washington stating: Charles E. Hughes is President Taft's choice for chief justice of the supreme court. The president has been inclined toward Associate Justice Hughes from the first, and the longer he has considered the available judicial candidates, the more he has been convinced that Mr. Hughes is the man for the place. The president is still holding the appointment open, but there is no longer much doubt that Mr. Hughes will be named.

OPENING ROOMS FOR THE WORKING BOYS OF ST. PETER'S PARISH

New Bowling Alley, Reading Room, Basket Ball and Other Attractions for the Lads

Following the custom inaugurated several years ago in St. Peter's parish, North End, it is announced that the rooms in the old Alexandra building, Main street, will be opened on November 21, for the use of the working lads of the parish. It is realized by the rector and fathers of the parish that there are a great number of lads between the ages of fourteen and eighteen who can be made members of a working boys' association, and therefore these rooms which are excellent for the purpose will be available to them during the winter months.

MICHENER ALBERTA LEADER OF TORIES; BENNETT REFUSES

Edmonton, Nov. 13.—E. A. Michener, M.P., for Red River, has been chosen Conservative leader for Alberta. R. B. Bennett refused absolutely to accept the position.

THE TIMES' NEW REPORTER

THE NEW JOURNALISM. It is reported that a remarkable incident occurred on Prince William street this morning. It is stated that Premier Hazen was about to enter the Standard office to congratulate the editors on the wonderful interest they had succeeded in arousing in the Torrey meetings, and in the case of pure and unadulterated religion generally, in this city, when a man rushed up to the premier and loudly demanded that he be paid at once for votes delivered not over in Premier Hazen's office. The public will see, however, that this statement will not remove the very grave suspicion which attaches to the whole affair. Why this reference on the part of Mr. Hazen and his colleagues? What is there to conceal? The man in the case cannot be located.

GIRL OF NINE IS FIEND'S VICTIM

Missing Marie Smith Found in Death, Her Head Gashed With Axe, and Her Baby Disfigured—Thomas Williams, a Negro, Arrested as Suspect

Ashbury, Park, N. J., Nov. 14.—This city and neighborhood were in a ferment of excitement today over the murdering of a little girl of nine years of age, the daughter of one of the most brutal crimes in the history of the Jersey coast, revealed when the mutilated body of nine-year-old Marie Smith, who had been missing from home since Wednesday was discovered in the woods near her home.

The police were told that Williams had been chopping wood in the vicinity that morning. When they went to question him he had disappeared. Last night, however, he was located and arrested in his former home in the negro quarters of Ashbury Park and lodged in jail. A bloody towel was found on the premises, and was seized for evidence, as was an axe. Williams denied any knowledge of the crime, and gave a detailed account of his movements on the day of its occurrence which the police are investigating.

VOICE FROM DEAD URGES DON JAIME TO CLAIM THRONE

Vienna, Nov. 14.—Significance is attached to the publication of the text of the will of the late Don Carlos the Spanish pretender, in which he exhorts Don Jaime as a sacred duty to maintain his claims to the Spanish throne and uphold the legitimate principle.

REBELS IN URUGUAY SURRENDER

Montevideo, Uruguay, Nov. 14.—The rebellion came to an end today with the unconditional surrender of the rebels. They gave up their arms and trust to the magnanimity of the government in the matter of their punishment.

SHOT MAN FOR DEER; BLOOD HOUNDS NOW PUT ON HIS TRAIL

Mellon, Wis., Nov. 14.—Bloodhounds are leading a posse of armed woodsmen on the trail of an unidentified hunter who, on Saturday, shot and killed City Clerk Louis Olsson, of Abbotstown, apparently under the impression that he was a deer. Sheriff H. Fleminster, who is in charge of the posse, is determined to find the locality of careless hunters, and he obtained two trained bloodhounds a short time ago, after another hunter was killed by mistake, for use in just emergency.

Storm Spoiled Flight

Brussels, Nov. 14.—M. Legoux, who made a flight with a passenger from Paris to Brussels in three hours and sixteen minutes yesterday in competition for the \$30,000 prize for the fastest round trip through the air today, abandoned the return flight to Paris because of a storm.

Third Set of Triplets

Ogden, Ia., Nov. 14.—Mrs. William G. Clark last week became the mother of her third set of triplets. She has records in the family Bible to prove that she is the mother of four pairs of twins, a total of seventeen in all.

IN MEMORY OF EXPRESS DRIVERS WORKING

Four Thousand Report, Every Man With a Union Button

SOME OBJECTIONS

Said They Wanted to Be Distinguished from Strike Breakers—A Side Trouble Develops Over Refusal to Take Back Ten Men

New York, Nov. 14.—Four thousand striking express men went back to work today, wearing their union buttons conspicuously. For the first time in two weeks the 1,100 teams of the Adams, Wells Fargo, United States and American Express Companies were traveling unimpeded in all directions about Manhattan, Brooklyn, Jersey City and Hoboken. Slowly the great congestion of express packages was being relieved.

When the drivers, helpers and other employees of the express companies, who have been striking, reported for duty at the usual hour, the company officials objected at first to the wearing of the union buttons. The express men explained, however, that if they did not wear the buttons, they would be taken for strike-breakers by the teamsters belonging to other unions, and that would undoubtedly result. The officials appeared to be satisfied and the men were promptly employed.

The only morning dispute took place on the Communipaw Dock of the United States Express Co., when the company objected to ten former employees. About 150 men are employed about the place and the strikers announced that if these ten were not allowed to return to work no one formerly employed there would go back. As the ten men were re-engaged the others refused to work and everything was a standstill. It was believed that the trouble would be adjusted.

TOLSTOI GOES VOLUNTARILY INTO EXILE

Family Will Not Try to Induce Him to Give up Idea—Takes Only \$17

Tula, Russia, Nov. 14.—No effort will be made by his family to induce Count Tolstoi to abandon his self-imposed exile and return to the peasant hut at Yasnyaya Polyana which he secretly deserted last Thursday with the avowed purpose of spending the remainder of his days in solitude with a sick sister.

Miss Donovan lived at No. 728 Amsterdam avenue, and was a milliner. She worked steadily until her sister Margaret took sick. Then she ceased work to nurse the invalid.

Her devotion was heroic," said her brother. "She stayed up night and day, and before she disappeared she was a physical wreck from exhaustion. Margaret was very low then, and Mary was at the point of collapse. Margaret seemed to be hopeless, and Mary brooded over her condition and became worse herself.

German Army Officer Was Caught Making Sketches of Portsmouth Fortification

London, Nov. 14.—Lieut. Siegfried Helm, the German army officer who was arrested charged with having made sketches of the fortifications of Portsmouth harbor, today pleaded guilty and was placed under bonds of \$1,200 not to repeat the offence.

TO SETTLE LARGE AREA IN AUSTRALIA

Melbourne, Aus., Nov. 14.—The state of South Australia which, up to the present, has borne the responsibility of the settlement and management of the northern territory has at last been relieved of this duty, for preparatory are being made by the government to take over and settle this vast area.

NEWFOUNDLAND "BANK" FISHERY HAS BEEN GOOD

St. John's, Nfld., Nov. 13.—The "banking voyage," by which is meant the bank codfishery, is almost over, as far as the local fishermen are concerned. It is satisfactory to note that the total catch will exceed all previous records. The average total of the "high lines" at the various ports will reach nearly 3,000 quintals, and their crews will share in some instances almost \$100. Other vessels will land large catches, and it is estimated that the average crew will not make less than \$20.

Every year we hold this big sale—it is a fixed event, each year it increases in size—each year with larger output, the values are better—the selection bigger. We began to plan for this sale months ago—we have been getting the best skins and the best workmanship at the lowest possible prices.

QUALITY AND VALUE FEATURED IN THIS ANNUAL FUR SALE Note this fact, that despite the rapid advance in Furs we quote Mink at last year's prices.

LADIES' MINK COATS Forty-eight long, mink, on the backs of the skins, giving the appearance of Mink. Sale price \$35.00

ALASKA SABLE The fur that has taken the most unparalleled advance in years. FIFTEEN ONLY—Ties, 60 inches long, double neck, stole fronts. \$15.00

BLACK PERSIAN PONY COATS Shawl Collars, Skinner Saddle. Sale price (48 inch length) \$30.00

EIGHTEEN ONLY—Ties, fur both sides, 72 inches long. \$16.25

DEER SEAL COATS Shawl Collars, Guaranteed satin lining. New Brilliant. Sale price (48 inch length) \$60.00

TEN ONLY—Ties, double neck, wide stole fronts, very superior skins, 72 inches long. \$26.75

LADIES' FUR LINED BAGGANS ONE ONLY—Black cloth, Sable collar and revers, Kaluga lined. \$25.00

A small lot of short Ties, \$7.00 and \$9.00

THREE ONLY—Imported black boxcloth, Muskrat lined, Mink trimmed. \$67.50

ONE ONLY—Imported black boxcloth, Hamper lined, Mink trimmed. \$72.50

These are extraordinary prices. This lot will probably sell out early Tuesday.

MINK STOLENS AND MUFFS Our prices in Mink are unapproachable. Mink Muffs, \$25.00 to \$75.00 Mink Ties and Stoles, \$12.00 to \$110.00

Even at these low prices we are offering during this sale 10 to 20 per cent discount.

This sale embraces all Furs now in stock. These sensational prices are for one week, and cash only.

ST. JOHN, N. B., NOVEMBER 14, 1910. The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE UNTRUTHFUL STANDARD

Having violated the established principle among reputable newspapers that damaging statements should not be made without some basis of fact to sustain them, the St. John Standard, in the matter of the Torrey meetings, brazenly asserts this morning that its sensational article had "the desired effect" of bringing out proof of the complete innocence of Rev. Dr. Torrey, Rev. R. P. McKim, Rev. J. C. B. Ayer, and all the other ministers and prominent business men who were accused of being fools or knaves.

The course pursued by the Tory (not Torrey) organ in this affair may be illustrated in this manner:— Published as it was that the Times today was believed in some quarters that the four or five editors of the Standard had come to blows over the policy of the paper, and that while one of them had bitten off the nose of another, the latter had breakfasted on the ear of a third, and the fourth had lost all his teeth in a fight with the fifth.

Not content with having made a gross attack upon the ministers and other leading citizens, who are responsible for the evangelistic campaign, the Standard today tells a falsehood about Dr. Torrey, quoting him as having said that "the Times had attempted to interview him on Saturday with the object, he thought, of getting him to severely condemn the action of the Standard." Dr. Torrey flatly denies that he made any such statement about the Times. He says further that the Times accurately reported him in that interview, except that in referring to the Standard story it omitted to say that he had qualified his reference by saying that he had never seen such a story in a "reputable newspaper."

A reputable newspaper, if it heard such rumors and thought it desirable to have them set at rest, so that the usefulness of the evangelistic campaign would not be affected, would go at once to Dr. Torrey and the executive committee and tell them about it. This the Standard failed to do. It has become so accustomed to a political organ to distort facts and make reckless charges and accusations, sometimes supported by affidavits, that it simply cannot be fair in its treatment of a series of religious meetings. Generally, "if you see it in the Standard, it isn't so."

CONCERNING INDUSTRIES

If St. John, in competition with other cities which offer great inducements, is to secure new industries, it must be in a position to offer certain advantages, such as tax exemption for a period of years, and perhaps in some cases free sites. It is even more desirable to encourage the enlargement of existing industries which have proved successful to the extent their present capital permits, and this may be done by offering some exemptions. Of course this relates to non-competitive industries, since it would be manifestly unfair to extend to a firm in one line of manufacturing privileges not available for another firm in the same line.

The advertising committee of the board of trade has found itself confronted by this problem, and has asked the city council to seek legislation giving it larger powers in this matter of exemptions and free sites. What it asks is set forth in the communication from Secretary Anderson in another part of this paper. The matter was before the city council last winter, and was favorably viewed by the aldermen, but no action was taken. It is desirable that such action be now taken, in order that the matter may go before the legislature at its next session. The committee has had great difficulty in getting accurate information concerning the actual

property owned by the city which might be available as factory sites. Apparently there are no complete maps or plans available, although one would expect a progressive city to have them, so that the fullest information could be promptly given to all-comers. The condition of affairs in this instance is another evidence of the need of reform in civic administration. In the meantime, however, that which may be done to encourage the enlargement of present industries and to secure new ones should be done without needless delay.

WORKING FOR ST. JOHN

One group of public spirited citizens has taken up the question of tree planting in St. John and is making substantial progress. Could not another group get together and study the question of town planning with special reference to the expansion of the city east and west, so that a general plan may be devised and adopted, providing for a symmetrical development that would provide for the needs of the future in the matter of streets, play centres and sanitary arrangements? This is a very important question, and if a group of citizens with a liking for that branch of study would get together, study the situation, gather information by correspondence and observation, and present their findings to the citizens at large it ought to be possible to gain acceptance of a general plan that would be of the greatest possible value. This is a time when every public spirited citizen should look about him and ask where he can best take a hand to good advantage in the work of planning and providing for a better, bigger and busier St. John.

BRITAIN'S DEFENCE

The London correspondent of the Toronto Telegram states that the British government is decidedly stronger than it was on the question of naval defence. We quote: "It appears that the discovery of a new gun which is proposed to mount on the new British Dreadnoughts has given the government at all events, for the moment, a better position than it occupied at the time of the naval scare. On top of this comes Mr. Haldane's declaration that instead of talking of the small British army, people should talk of the colossal British army, for there was no other country which had an average army approaching ours in number, and all we wanted was a sufficient citizen force to compel an attacking army to come in such size as to be a target for our navy, and if any part of the enemy slipped through and landed, to overwhelm it by vastly superior numbers. These two facts have given much comfort to the country, and they serve also to show that it is not by raising scares, but by propounding really serious questions, that real progress is to be made. "The yellow press, of course, is not content, but would raise a new scare. Because shipbuilding can cross the Channel we are told, and we are asked to be 'up and doing' in aerial defence. All this sort of thing is feeble and futile."

The lunatic who wrecked the Boiestown railway station is evidently a reader of the Standard. He believes in smashing things first and letting the enquiry take place later.

Before the end of the present week, the winter port season of 1910-11 will have been opened. It is expected that the business of the season will be larger in volume than that of last year.

Granary of the World

A report was recently made to the Turkish government by the engineers who have for a year been planning an irrigation system for Mesopotamia. The engineers propose the building of a series of dams in the Euphrates and Tigris Rivers to control the floods and impound the water for the irrigation of what was once the granary of the ancient world. They estimate that an expenditure of \$100,000,000 would produce so great a result that it would earn an annual profit of nearly 20 per cent. When the country was thickly populated it was irrigated, but in the centuries since then engineering methods have improved so that water can be distributed much more successfully than was possible in ancient times.

Of forest protection in Ontario the Toronto Globe learns that it is the intention of the Provincial Department of Lands, Forests and Mines, on the advent of the new year to grapple once and for all with the perennial problem of adequate protection from fire for the forests and timbered crown lands of the province. While the official reports show that Ontario has escaped remarkably well from fires, the dangers incurred have resulted in a searching investigation of Ontario's ranging system, by Hon. Frank Cochrane. The minister has not yet made public his plans, but it is safe to assume some of the plans contemplated will be of an original character.

YOUR DAY WILL COME

Just because you've not attained An honored place as yet Because some other one has gained Life's summit, do you fret? And do you sit disconsolate Discouraged, sore and gloom? Take heart, if you will only wait Your day will surely come.

Just plod along, and do your best, Attention you will claim; Some one will choose you from the rest. The world will know your name, Although unnoticed you may be. At present, you will rise, Your courage some one's bound to see, No good work ever dies.

Don't think your labor's lost because Nobody sees it now, In time you'll win the world's applause, You know not when or how, But if unto your task you stick To you will fall the plum; It may be slow, it may be quick, But your day's bound to come.

IN THREE VIN NOT A COLLEGE MAN. "Your husband seems less content than formerly."

AN OLD MAID "Are you satisfied with your new maid?" "Very. She's too old to get married and too fat to wear my things. So I think I'll be able to keep her."—Detroit Free Press.

EXCUSE. "Shame on you! You came home last night actually tipsy." "So I did, my dear. I just couldn't resist the pleasure of seeing two of you at once."

WAITING FOR HIM. "Yes, mum," said Poetic Pete, as he twined an autumn leaf through his buttonhole. "I am a great lover of the romantic. I stopped at his gate because I saw a sign 'Followed.'" "You did?" approved the housewife. "Well, there is a lot of idle wood and the woodpile. Just take this axe and split up half a cord."

TOO SLOW. Doctor—"You need exercise." Patient—"Why, I'm working as a riveter."

BRAVE MAN! Silently the burglars proceeded from the pork pie to the Burgundy, from the Burgundy to the silver spoons.

QUEER, ISN'T IT? This life is inconsistent, for you find where'er you go That the ones who work the hardest have the least to show; While the scheming and the bluffing many follow day by day To stem the stream of fortune till the tide is turned their way. Queer, isn't it?

When things don't go to suit you and you feel there's some disgrace, With its odium or trouble that you're sure of, If you get to face, And you wonder how the stigma ever reached your honored name, You can always find some comfort if you place elsewhere the blame. Queer, isn't it?

When luck is plumb against you and you're run down at the heel, And 'twould be such consolation just a friendly clasp to feel, Why do all those who used to listen, heeding every word you'd say, Cross the street there ere they meet you, and pass down the other way? Queer, isn't it?

How plainly shows the mote there that's in your brother's eye, You'd think that he'd remove it; he could if he would try, And you watch so closely day by day to see if it has grown, That you fail to find the beam there that's filling up your own. Queer, isn't it?

Strange what lack of judgment some people always show, Why care they be consistent and ask of those who know? Now, you'd have told them frankly the very thing to do, Then how much better 'twould have been, or so it seems to you. Queer, isn't it?

THE KING DENTAL PARLORS. Making Bread in Sheets. Women of the Mohi Indians in the deserts of New Mexico made bread in sheets no thicker than a sheet of paper. The corn, of which the bread is made, is ground between two heavy stones until it becomes very fine. Then it is mixed with water and a very thin batter prepared. This batter is spread on a hot stone over the fire, where it is allowed to bake for considerable time. When one side is baked the other is turned. Sheets after sheet is baked in this manner. No salt is used in the batter, and the bread has a sweetish taste. It is usually blue, taking the color of the corn from which it is made.

The Evening Chit-Chat

By RUTH GAMERON

NOT long ago a woman wrote me a little story of a mother who had her little boy with her in a millinery shop. While she was looking at the new models, the boy went from hat to hat, examining them.

One of the clerks, catching sight of the destruction that was going on, bore down upon the youngster with a gentle "Oh, little boy, please, you mustn't."

Whereupon the mother, instead of reproving the boy and apologizing for his actions, turned upon the clerk haughtily and demanded: "He may play with all the hats he likes, and spoil every one in the shop if he wishes. His grandfather owns the store."

My correspondent winds up her tale by inquiring if I approve of the woman's conduct. Seems to me that's very analogous to inquiring if I have any common sense at all.

That mother had the pleasure of discomfiting the saleswoman and bringing about a very dramatic denouement to the little incident. I wonder if that repaid her for the harm which she had done to her boy.

Instead of self-restraint and respect for the rights of others, she was impressing upon him his right to absolute self gratification.

I have several times heard of servants who left good positions simply because they could not stand the freedom with which children were allowed to interfere with their work, and the insistence they were allowed to show toward them.

That shows bad mistress and worse mothers. I am sorry for the servants who are obliged to leave good positions for this reason, sorry for the mothers who are piling up trouble for themselves, but most sorry of all for the children whose characters these mothers are helping to spoil.

Daily Hints for the Cook

CHOCOLATE PIE WITHOUT EGGS. Bake a crust in a deep plate. One cup sugar, two large sasting spoons of flour, a little salt. Stir so there will be no lumps, then add one pint of boiling water.

SCALLOPED OYSTERS. Scald the oysters in their own liquor, take them out with a fork, lay in a deep dish, sprinkle over each one rolled cracker crumbs, pepper and salt and small pieces of butter. Stir a little butter and flour together and stir into the liquor, then fill up the dish with it and brown in the oven.

FIGURES THAT TELL STORIES

"OF MAKING MANY BOOKS." THE newsmen of Canada have a larger assortment by about 400, of Canadian publications to handle now than was the case twenty years ago.

IN 1892 there were 101 daily papers published in Canada; this year there are 135; in 1902, the number of weeklies was 691; to-day there are 1,015 weekly publications. Of monthly, semi-monthly, or less frequent publications, there were 254 in 1892; to-day these exceed 276. The number of daily papers is sufficient to provide one for every 50,000 of our population, and the weekly and other periodicals would average one in every 5,000 Canadians.

OFFICIAL REPORT ON CANADIAN CROPS

Census Office Figures From Reports up to End of October

Ottawa, Nov. 12.—The Census office yesterday issued a bulletin on the crops of Canada as prepared from reports made up to the end of October.

The closing months of the year give good reports for nearly all the field crops of the Dominion. Potatoes alone indicate partial failure, and in all the provinces there are complaints of rot in the fields and in the heaps for winter storage.

Hay and clover are computed for 8,515,400 acres and a yield of 1,820 tons an acre. The quality is 90.6 per cent., and the total yield 15,497,000 tons.

Turnips and other field roots show a quality of 88.7, a yield of 492 bushels an acre, and a total yield of 85,397,000 bushels for a crop of 236,622 acres.

Fodder corn has an estimated yield of 9,200 tons, which, upon an area of 271,900 acres, gives a product of 2,531,000 tons.

Computed at the average local prices the market value of potatoes this year is \$35,440,000; of turnips and other roots, \$21,444,000; of hay and clover, \$149,716,000; of fodder corn, \$11,867,000; and of sugar beets \$887,000.

The report on fall wheat sown this year shows an area of 790,300 acres, whereof 682,500 acres are in Ontario and 107,800 acres in Alberta. The production of the crop is reported at 98.40 per cent. as compared with 83.00 last year.

The per cent. of fall ploughing completed this year compared with the area planned for is less than last year, but the report is made for a period only one month ago. The per cent. of summer fallowing compared in the same way, is somewhat lower, but increases are shown for Saskatchewan and Alberta.

DUTCH BULB INDUSTRY

Almost \$4,000,000 Worth Are Exported Annually

The Dutch bulb growers are organized into a general federation which now numbers nearly 3,000 members, and is divided into thirty-seven local groups. A paper is published twice a week, weekly exchanges are held during the trade season, and all novelties are examined and reported upon by a committee of judges and a trade committee enquires into and decides all trade difficulties.

Since 1790 the cultivation and export of bulbs have been regularly carried on in Holland, and the Journal of the Dutch Department of Agriculture. The trade reached its present enormous proportions during the last decades of the nineteenth century.

The bulb growing industry was first confined to Haarlem and its vicinity, but has gradually extended wherever a suitable piece of ground was available. In order to grow bulb gardens have been leveled, the preparation of land for this purpose is often very costly, and the value of the best plots varies from \$220 to \$300 (81,357 to \$2,433) an acre.

The export statistics of the industry, which have been carefully kept since 1897, show that the total export has very largely increased in the last ten years. The value of this export cannot now be less than \$800,000 (\$8,893,200). England is still Holland's best customer for bulbs, taking nearly 40 per cent. of the total export.

The number of bulb exporting firms in Holland is about 200; there are also over 2,500 growers who do not export directly but send their produce through the larger firms. The number of persons employed in the bulb industry is estimated at 4,000.

CONSISTENT. "You really must let me have that tenor you owe me."

"You shall have it this week, certain, dear boy."

"You said that the last time I asked you for it."

"Ah—yes—well, I'm not the sort of chap who says one thing one day, and something else the next, you know!"

The man who doesn't drink is apt to have some other expensive habit.

Terrible Suffering

Five Years of Severe Rheumatism. "I suffered terribly for about five years from rheumatism. Doctors gave me up. Friends thought me incurable, and I abandoned all medical aid."

SCALLOPED OYSTERS. Scald the oysters in their own liquor, take them out with a fork, lay in a deep dish, sprinkle over each one rolled cracker crumbs, pepper and salt and small pieces of butter. Stir a little butter and flour together and stir into the liquor, then fill up the dish with it and brown in the oven.

Record Request for Missionary Work—Nearly a Million Pounds

(London Mail). At noon today a small party of men assembled in a room at the headquarters of the London Missionary Society, in New Bridge street, E.C., will distribute nearly a million of money, part of the proceeds of the estate of Robert Arrington, of Leeds, who died ten years ago at the age of 77.

These sums constitute a record in respect of legacies for missionary work. The money must all be spent within the next twenty years; and as part of the principal only will be expended each year, and interest will accrue on the balance, it follows that the amounts actually devoted to the missionary objects will far exceed those already mentioned.

Mr. Arrington the testator, amassed his fortune, which has realized £1,119,848 15s 2d, by shrewd dealings in real estate and various commercial undertakings. For many years before his death he lived practically as a recluse. The simplicity of his life in no way proceeded from any want of appreciation of the luxuries and enjoyments which his wealth would have enabled him to provide, but was due entirely to his own self-denial which he imposed upon himself for the purpose of making substantial gifts for missionary work.

He was an undergraduate of Cambridge and a man of high culture. Geography was an absorbing study with him, in order to enable him to discriminate in his missionary gifts; and his knowledge of the physical and social features of his foreign countries and peoples was very remarkable.

Originally, he was a member of the Society of Friends, but in the latter part of his life he became closely associated with the Baptists, although he did not actually join that body.

It has taken ten years to settle all the questions arising out of the will. Mr. Arrington was a bachelor and had no near relations, but in his final will he left one-tenth of his estate to his first cousins and their descendants. A great many claims to this portion of the money had to be investigated.

No existing operations of the society may be assisted by the legacies, but entirely new fields of work must be opened up. None of the money will be spent in the United Kingdom, and districts where the Mohammedan faith prevails are not to be visited. Already both societies have anticipated their legacies by securing advances, and new missions have been opened in China, India, Madagascar, Africa, Papua and the Congo.

THE FOOLISH VIRGIN. "It should always be prepared," said Mr. K. Adair, the San Francisco detective, in an interview in New York, "and then we will miss nothing."

"You've heard, perhaps, of the young lady who said, as she stepped her taxi:— 'I've just had such a dreadful experience.'"

"A dreadful experience?" asked another young lady.

"Yes," was the reply. "I saw a splendid bargain in shoes downtown, and I've got a hole in my stocking."

TUNING A BELL

The Notes Must Blend in Order to Produce Perfect Harmony.

"What a beautiful tone that bell has!" is often heard. There are few, however, who know how a bell receives its joyful or solemn tones.

All bells after they are cast and finished must go through a process of tuning the same as any other musical instrument before they respond with a clear, true tone. Every bell sounds five notes, which must blend together in order to produce perfect harmony.

The tuning of a bell is done by means of shaving thin bits from various parts of the metal. It is as easy for an expert bell tuner to put a bell in tune as it is for a piano tuner to adjust his instrument to perfect chords.

At first thought it would seem that a bell would be ruined should the tuner shave off too much at the last tuning, or the fifth sound, but such is not the case. He would, however, be obliged to begin over, starting again with the first tone and shaving the bell until it gave forth its harmonious sound at the fifth tone—Scientific American.

THE SPICE OF CHANGE. He had been boasting to a pretty blonde about his conquests, and how changeable he was, and all that, and how changeable she was, and how you're changeable. "I love you because you're changeable," said the blonde, and she threw her soft white arms about his neck—of course they were engaged, and so everything was right and proper.

"Why do you love me for being changeable?" said the young man, as he looked into her deep, clear eyes with a puzzled frown.

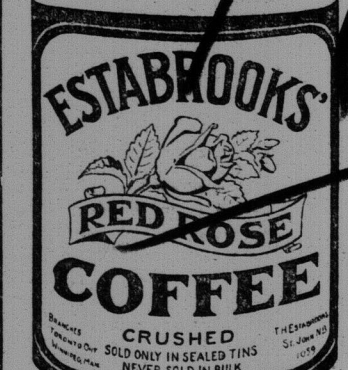

"The girl laughed archly and patted his brown cheek.

"Because, dear," she said, "every time I kiss you it's like kissing another man!"

By going at full speed a man loses more time than he gains.

Blending coffee

is a fine operation requiring highly developed skill. The secret of that unusual richness and briskness in Estabrooks' Coffee is in the perfect blending of strength and flavor. It is a coffee for particular folk.

**To Keep Silver Bright**  
 All household silver needs careful attention, and to keep it in good condition housewife must sacrifice considerable time. When teaching an inexperienced maid her duties in the household, mistress should especially stipulate that the silver should be cleaned at least once a week, and that a list of all the pieces should be kept on a book in the pantry. After the thorough cleaning of all the pieces they should be counted and checked off with the list on the book. Under no conditions should any silver be allowed to remain out in the pantry at night, unless there is a special place for it. Each housewife usually has a method of her own in cleaning the silver. A good polish, free from all sorts of grit and dirt, is the best thing that can be used. This can be rubbed on with a soft cloth and the polishing done later with a chamois. Where the small pieces are cleaned great care is necessary to get all the polish from the cases and crevices where it is most likely to lodge. Due solution to the problem of taking care of silverware when it is not in use has been effected. A cupboard is built under the pantry shelves and fitted with special lock and compartments made for the separate pieces. A shelf the length of the cupboard is placed a little higher than the center, thus leaving the lower portion for larger pieces. Both shelf and bottom are covered with thick red flannel and, and thoroughly brushed. The upper shelf is divided into box-like sections in which the small pieces fit easily. It requires less than five minutes to put away everything and no longer to take them out in the morning. Chamois is a good lining for drawers where silver is kept.

SPORT NEWS OF A DAY; HOME AND ABROAD

Auto Records Co.

Savannah, Ga., Nov. 12.—The New York boy who four years ago ran away from home to become a driver of racing automobiles, today won the grand prize race, the blue ribbon event of auto contests. Speeding faster and farther than man ever went before in an auto race, this young man, David Bruce Brown, won by barely more than a second at the end of 412.2 miles. He flashed across the electric timing wire 1.42 seconds ahead of Victor Henry, the Frenchman. His time was 5:53.67, and he made a new American record of 70.55 miles an hour.

**Football**  
 Fredericton Won on Penalty Kick.  
 In a very evenly contested football match, the Fredericton team defeated the Argonauts on the Every Day Club grounds Saturday afternoon by the score of 4 to 0. Neither team was able to score a touch, the Fredericton team scoring their four points by a pretty fifty-yard penalty kick by Deedes of the N. B. The kick was as pretty as any that has been made on the local grounds.

**High School Boys Won.**  
 After the Fredericton-Argonaut game Saturday afternoon, the St. John High School team and the Carleton Intermediates engaged in conflict, the former team winning by a score of 14 to 0. In spite of the big score the game was very snappy. The High School boys were too fast for the Carleton players, and play was very much in Carleton territory. The latter team, however, played with two men short and to this they attribute their defeat.

**American College Games.**  
 New York, Nov. 13.—The following were the results of the college football games yesterday:

**Upper Canadian Games.**  
 Toronto, Nov. 13.—(Special)—Saturday's Rugby games resulted as follows:  
 Interprovincial senior—At Rosedale: Argonauts, 7; Tigers of Hamilton, 6.  
 Intermediate—Argonauts, second, 10; Hamilton, 7.  
 At Montreal—Ottawa, 14; Montreal, 9.  
 Intercollegiate, senior—At Kingston: Varsity, 9; Queens, 5.  
 At Toronto—Varsity, second, 2; R. M. C. Cadets, 10.  
 Ontario Rugby Union—At Dundas: Dundas, 7; T. A. A. C., 11.

**Moncton Beats Sussex.**  
 Moncton, N. B., Nov. 13.—(Special)—The Sussex football team played Moncton High School here Saturday afternoon and was defeated by 9 to 0. The field was very soft and goal playing was impossible.

**The Ring**  
 Sam Langford Won.  
 Sam Langford won over Jeff Clark of Joplin, in the second round what was to have been a ten-round bout in Joplin on Thursday night. The fight was stopped when Clark was all but out.  
 From the top of the going Langford rubbed Clark, shoving short jabs to the body. The force of his onslaught rendered Clark powerless and he was sent to the floor for the count of eight three times in the first round.  
 He came back gamely, but after two minutes of the second round, in which he had gone down twice, the referee stopped the fight, giving Langford the decision.

**NERVOUS DYSPEPSIA**  
 A CURE FOR ALL  
 Not a Patent Cure-All, Nor a Modern Miracle, But Simply a Rational Care for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicine will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this, and any man or woman suffering from indigestion, chronic or nervous dyspepsia, or any of the ailments which result from stomach troubles, is entitled to claim that the tablets will not fully sustain a man's digestive system.

It is a most interesting and commendable fact that the medicinal properties are such that it will digest whatever is taken into the stomach, whether it be a solid, a liquid, or a gas, and it is in good working order or not. It rests the overworked organ and replenishes the blood, the nerves, creating a healthy appetite, giving refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no special diet is required. They are a wholesome food, and take these Tablets at each meal, thus assisting and resting the stomach, which rapidly regains its proper digestive power, when the Tablets will be no longer required.

Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion invigorates the nervous system and every organ in the body. Stuart's Dyspepsia Tablets are sold by all druggists at 50 cts. per package.

MILADY'S NEW MOTOR TOGGERY

It has gotten so that the automobile is as much a pleasure in late fall and winter as in summer. The family man who can afford a thousand dollars for a car is very likely to discover with the acquisition of this new possession that the cost of his car is only half the initial expense. After the car comes the motoring raiment for himself, his wife and his daughters. Then the fur rug, electric foot warmers and other devices for outwitting the nippy weather. Besides, the family man is lucky indeed if he does not mortgage his office furniture as well as the house to sufficiently equip the family for correct and modish motoring.

A woman may keep quite warm in a wool coat, of course, but there is something in the very appearance of a fur coat that is attractive and almost irresistible to a woman. The feminine fancy tends to the line of a great, shaggy fur coat, and most women prefer a fur coat of an inferior grade to a beautiful, tailor-made coat of the fur of the motor coat is always attractive on the outside, and the fur-lined coat is always bulky and hard to handle, although it may be quite warm.

There seems to be no reason why any woman who can afford to ride in an automobile should not afford a fur coat, because many of the inexpensive furs are now being made up in quite attractive patterns. NEW KING OF SIAM

London, though king in name, was not fully recognized, but on August 4, he "ate the drum," i. e., he beat a sacred drum on which a python is coiled and wined through various ceremonies appertaining to taking over the kingdom. Mounted on a

historical stood outside the gate of his court, he was dressed in a white tunic and two dark trousers, a calf skin, and a leopard skin, and shield, spears, bow and arrows were presented to remind him of his fathers dressed and with what they fought and conquered. He was told he must follow in their footsteps in bravery and courage for his country. He was then wearied back in state to his house on the shoulders of a chief, according to custom.

**THE NEW YORK SKRAPPERS**  
 (Christian Herald)  
 More skrapers are in the process of construction in the lower part of the city. Where they stand there stood a row of small brick houses, with their gables to the street. In the days "when old New York was young" the workmen could at most throw a stone to the spot where Fort Amsterdam used to raise its frowning battlements that citizens of New York might sound o' nights without fear of being pulled out of their beds by Spanish pirates or French sailors.

From the topmost girders one can look for twenty miles over the second city in the world; the first so far as its stupendous structures are concerned. All of them can be seen from the top of the new structure near Battery Park. There is the American Surety Company's building, three hundred and six feet high, with twenty-three stories; the American Tract Society building, of the same height; the Hotel Insurance, four hundred and ten feet high, with thirty stories; the Metropolitan Life building, seven hundred feet high, divided into fifty stories; the Park Avenue building, whose towers rise three hundred and eighty-two feet above street level; the Singer building, over six hundred and twelve feet high, divided into forty-one stories; the St. Paul building, three hundred and eight feet high; the Times building, four hundred and ninety feet high; and the Pulitzer building, over three hundred and seventy-five feet high.

The list of buildings which range in height from two hundred to three hundred feet is a long one and is constantly growing. The new municipal building, when completed, will be over four hundred feet high. It seems but yesterday when a ten story building was regarded with astonishment. At the close of the civil war a building four stories in height was regarded as a fair-sized business structure, but that was before the city had spread over a good part of the four corners.

A little scrip can whip a lot of spectators into line.

AMUSEMENTS FOR OURSELVES AND OTHERS

**THE OPERA HOUSE.**  
 The Edith Warren Stock Company have kindly consented not to present the drama, The Pearl of Siam, during their present engagement at the Opera House, as this play is to be presented during the latter part of the month by St. John amateurs. The Warren company will play Caste tonight, and tomorrow night will go to Sussex, the City Cornet Band being on the boards at the Opera House. The company will return on Wednesday and play high class productions for the remainder of the week.

**THE UNIQUE.**  
 It seems as though thoughts for novel plots and situations for moving pictures are never exhausted as will be exemplified by the odd and startling Kalem, "The Tyranny of the Dark," which takes leading place on the programme at the Unique today and tomorrow. The theme of this playlet is one hard to describe, but it is always made an exciting picture, during the course of which thrilling climaxes are reached, one especially, the chemical explosion in a medical laboratory. A Vitaphone is also on the bill, "Jean the Forger," a half of summer, how two young people tried to live in the open, their adventures and narrow escape from starvation, through the intelligence and love of their dog, Jean. "Do It Now" and "Our Own Little Flat," are two comedies well worthy of the name, and F. Louise Tufts singing "My Irish Maid," will make up a programme hard to excel. The photographs taken on Saturday afternoon were a grand success. Everybody attending the matinee performance next Saturday will receive one free.

**THE LYRIC.**  
 The management of the Lyric has made a happy selection for the vaudeville at the opening of the week in "The Babberts," a lady and gentleman, who are noted throughout the states for their clever acrobatic feats and gymnastic wonders. Among their extraordinary accomplishments is their flip flop descent on their heads, a feat which they have performed for a long time. They are the only performers in their stage who have succeeded in this. Their stage fixtures are said to be very pleasing and is expected that this act will please greatly, as it has been a long time since one erect himself in the air as seen in the city.

The picture bill consists of four fine subjects, the most interesting of which will be "The Life of Moliere," a production, which is claimed to be a sumptuous production. Indians and Cow Boys gallop take part in the fine western picture "The Girl Hunt," and a study in flowers, educational; and "The World-Is-Benedict," make up the balance of the Lyric's fine programme for today and tomorrow.

**THE GRM.**  
 A breezy drama of the western prairies in the days when there was a very strict line between the Red and the white man, is to be presented today and tomorrow at the Gen Theatre. It is entitled "The Strongest Tie," and is produced by the Kalem company, who have attained a high standard in their presentation of western films. The scenes are true to nature, the story vivid and realistic, and founded on a cleverly concocted plot.

"Clothes Make the Man," given at the Gen tonight, adds greatly to the reputation of the Vitaphone company. This is a roaring comedy, capably acted, and it will be a fine educational subject, while "The Way to Happiness" is a very interesting drama with colored scenes.

**THE STAR.**  
 Tonight at the Star Theatre in Union Hall, North End, another first-class programme of motion pictures and music will be tendered patrons. The great Edison health lesson on the milk question "The Man Who Learned," will be shown, as well as two new Biograph comedies, "The Proposal," and "The Passing of a Grough." The fine Thales story "In the Golden Harvest Time," will be an additional feature. Corinne Nevens will be heard in a new song.

**NOT ANY QUICKER.**  
 The man about to pay his fare on a penny-as-you-enter car dropped a quarter, which fell to the platform and rolled off across the pavement into an opening, where it disappeared.  
 The looper watched its course.  
 "It wouldn't have gone half as far if I'd spent it," he said.—(Buffalo Express).

SUNDAY A GREAT DAY FOR SUCCESS IN TORREY MEETINGS

More than 7,000 people attended the two services in the Queen's rink yesterday, to listen to addresses by Rev. Dr. Torrey. In the afternoon Dr. Torrey emphasized the importance of personal work in winning souls for Christ, and in the evening he spoke on the subject, "What it means to be a Christian."

At the evening meeting many were unable to gain admission to the rink. Every available seat was occupied and a large number stood throughout the service. In view of the experience last evening, arrangements will be made with Queen Square Methodist church, across the street, so as to have that building in readiness in the future in the event of an overflow meeting being necessary.

It has been suggested that a meeting for the pupils of the Protestant schools be held on some week day afternoon and the matter is to be laid before the board of school trustees. Arrangements can be made to close the schools at 1 o'clock.

That the work of the evangelists in bearing good fruit was evidenced by the announcement last evening by Dr. Torrey that 192 persons had confessed Christ at meetings held yesterday in Portland Methodist church, addressed by Dr. Jacoby; that thirty-eight had come forward in the meeting addressed by Miss Parker, in Lowell street church, and there were seven or more at the meetings in the rink. The annual collection for St. Vincent de Paul Society was taken in the Cathedral yesterday and amounted to \$72.

Rev. K. F. Nance, who expects to leave soon for his home in Texas, occupied the pulpit of the Coburg street church yesterday in the morning and in the Douglas avenue church in the evening.

**CURED OF CONSTIPATION**  
 Mr. Andrews praises Dr. Morse's Indian Root Pills.  
 Mr. George Andrews of Halifax, N. S., writes:  
 "For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that used so much trouble yet I had not asked for about these Indian Root Pills.  
 That was indeed a happy day for me, for I was so impatient that I determined to give them a trial.  
 They have regulated my stomach and bowels. I am cured of constipation, and I claim they are no equal as a medicine.  
 For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c. a box."

**IN THE CHURCHES**  
 Bishop Richardson preached to a large congregation in St. Mary's church last evening.  
 Judge Wedderburn, of Hampton, has removed to St. John for the winter. He has taken rooms at the Victoria.

**Burdock Blood Bitters**  
 CURES ALL Skin Diseases.  
 All diseases of the skin are, more or less, directly occasioned by a bad state of the blood, and it is absolutely impossible to eradicate them from the system unless you purify your blood into good shape.  
 The following skin diseases are curable by Burdock Blood Bitters, through its wonderful cleansing, purifying power on the blood, and its renovating action on the system, viz: Salt Rheum, Ringworm, Shingles, Scur, Erysipelas, Ring and Burning Rash, Ulcers, etc., etc.  
 Miss Stella Smith, Matland Forks, N. S., writes: "I have been bothered with salt rheum, on my hands, for three years, and it tebed so I did not know what to do. I tried everything, but nothing seemed to be any good. I heard of Burdock Blood Bitters and bought two bottles of it, and now I am perfectly cured and have no salt rheum on my hands any more.  
 "I cannot speak too highly of Burdock Blood Bitters."

**LOCAL NEWS**

**LOSS ADJUSTED.**  
The loss in the recent laundry fire has been adjusted at the total amount of the insurance carried by Vali Bros., \$8,000. Edgar Fairweather was acting as adjuster.

**TO INSTALL OFFICERS.**  
In the rooms of the Y. M. C. S., of St. Joseph this evening the officers of the society, who were elected last week, will be installed. A good attendance is expected.

**W. C. T. U. MEETING.**  
Tomorrow afternoon at 3 o'clock a meeting of the W. C. T. U. is to be held in the union rooms. Mrs. Hipwell will read a paper on "Tobacco, in its various forms." A large attendance is looked for.

**ROBBERY IN CATHEDRAL.**  
A small box, used for collections in aid of the poor, was taken from the cathedral yesterday afternoon, and the contents stolen. The amount would not be large, as the box had only recently been emptied. It was opened by prying the lock.

**DEBATE POSTPONED.**  
The debate to have been held this evening in the rooms of the Father Mathew Association, St. Malachi's hall, has been postponed until next Monday evening, as some of those to take part have found it impossible to be present at tonight's meeting.

**THE C. P. R. OPTIONS**  
It is understood that the options on the buildings located on the property secured by the C. P. R. from the Hazen estate, in Mill and Main streets, will expire tomorrow, and that they will be taken up by the C. P. R. Those in a position to know what would be done declined to discuss the matter.

**LIFE DESPAIRED OF.**  
Oscar Johnston, sailor whose spine was broken and lower limbs paralyzed in a fall from the schooner Arthur J. Lord, on Saturday, is resting in the cathedral under the circumstances, in the General Public hospital, but there is little hope of recovery. The accident occurred about 4:30 o'clock at Star's wharf, where the schooner was lying. Johnston lost his balance and fell overboard, and became wedged between the schooner and the wharf.

**UNVEIL STATUE**  
The new statue for St. Peter's church arrived Saturday from Montreal and was taken this morning to the rectory. It is beautifully designed, representing a guardian angel, with arms outstretched. Stands six feet high, and is of stone, except the figure. The blessing and unveiling will be performed next Sunday after high mass, in the presence of the Sunday school children, the teachers and congregation. It is likely that Bishop Casey will be present during the ceremony.

**GOES TO BOSTON**  
Presentation, on Sunday Evening, to Miss Teresa McManus

Miss Teresa McManus, who for several years has been acting as confidential clerk in the office of L. P. D. Tiley, will leave on Wednesday for Boston, where she will make her home. On Saturday evening, a number of the friends of Miss McManus including the members of the Cecilia orchestra, called on her at the residence of the Misses Reid, 174 Carmarthen street, where she has been residing and presented to her a handsome set of sterling silver toilet articles, bearing her monogram and a bouquet of chrysanthemums, the presentation was made by Miss Alice Moran. The evening was very pleasantly spent.

Much regret is expressed at the departure of Miss McManus from St. John, as she has a host of friends here. She has been a member of the Cecilia orchestra and a prominent worker in the St. Vincent's Alumnae.

**NEW KINDERGARTEN IS OPENED TODAY**

The opening of the Haymarket Square Kindergarten under the auspices of the ladies of Centenary church, took place this morning. The rooms were tastefully decorated in the national colors while around the walls are beautiful pictures. Miss Baizeley, who has had a practical course in the work, is the teacher, and will be assisted by young ladies of the congregation. About twenty-five children ranging from four to six years presented themselves this morning and more are expected when the work is under way.

A. S. Filmore, Burned Out at Athol, N. S. Asks For Lease of Land in Lancaster—Other Property Matters

The attention of the safety board will be occupied this afternoon with several matters that are of considerable importance to the city from an industrial standpoint.

A. S. Filmore, who conducted an extensive carriage manufacturing business in Athol, N. S., and whose plant there was recently destroyed, is applying for a lease of two lots alongside the old Burns Park Packing Co's property, in Lancaster. Mr. Filmore is said to have done in Athol a business of about \$100,000 a year. He has been looking around for a suitable site in other places, but is desirous of locating in St. John, if he can secure a suitable site here. This morning Alderman Vair-wart, chairman of the safety board, Alderman Jones and President F. H. Estabrook, thought of getting him to severely condemn the action of The Standard. He had declined to make any statement of that nature, as he was quite sure the matter would be cleared up.

The Times on Saturday stated:—"Mr. Filmore when asked about the matter, said he had nothing to say about it. "It is for the committee to reply," he said. "My reputation is made, and a statement, except that this is the first time that I have ever seen such a statement about my work in a newspaper. I think the character of the men at the head of the movement here should be different in answer to such a statement."

When asked this morning if he was correctly reported in the Standard, Dr. Torrey said he was not. He said he had told the Standard reporter that a Times man had attempted to interview him but he had said no for the committee to reply. "Did you gather from anything that was said by the Times man that it was sought to get you to condemn the action of the Standard?" he was asked. "I certainly did not," he replied. "The statement in Saturday's Times was then read to Dr. Torrey, and he was asked if that was not the substance of the reply he had made when approached in the matter. "The statement is absolutely correct. I said all that, and more. There was just one difference, that where you quote me as saying:—"this is the first time that I have ever seen such a statement about my work in a newspaper," I said, in a "reputable" newspaper."

**THE STANDARD NOW MISQUOTES REV. DR. TORREY**

Make Him Father Attack on Times, But Evangelist Repudiates Statement Attributed to Him

Under the caption, "The Unfair Times" the Standard this morning publishes the following:—"Referring to the publication of the rumors in circulation, Dr. Torrey said the Times had attempted to interview him on Saturday morning with the object, he thought, of getting him to severely condemn the action of The Standard. He had declined to make any statement of that nature, as he was quite sure the matter would be cleared up."

**CASE POSTPONED**

Reckless Driving Declared Responsible for Collision in Which Traveller Was Hurt

The case against Robert S. Evans, of Ball's Lake, aged 19, who was arrested on Saturday on a charge of wilful misconduct by reckless driving resulting in injury to W. F. Washburn, traveller for Brock & Paterson, and also on a charge of drunkenness, was postponed this morning in the police court until Monday next at 11 o'clock. Mr. Washburn does not wish to prosecute, but the charges of drunkenness and reckless driving will be investigated. It is said that Evans did not realize he was driving furiously. G. E. Logan is acting for Mr. Washburn.

The occurrence took place on Saturday about 5:30 p. m. in Union street and the collision between the team driven by young Evans and that driven by Mr. Washburn and a friend, George Stephenson, was the cause of Mr. Washburn having his collar bone broken, and receiving other injuries. Mr. Stephenson was also thrown from the carriage, but was only slightly shaken up. Evans is out now on a \$50 deposit.

**SERIES OF NOON DAY SERVICES IS OPENED**

The first of a series of noon-day evangelistic meetings was opened in the Unique theatre today by Rev. Dr. Jacoby, who spoke on the value of personal work and the good results which follow efforts among men by their fellow men endeavoring to lead them to God. For the accomplishment of this end, he said, four requisites were practically necessary:—Push, pluck, patience and perseverance, and he dealt with these in turn, speaking on a different way by which a man might be brought to confess Christ.

The meeting opened at 12:05 and closed at 12:20. The attendance was not large, but it is hoped that it will increase from now on.

**Have You Ever Tried The Glenwood Ranges--They Give Satisfaction**

We have in our Glenwood Ranges a stove that can't be beat for cooking and its make-up is all that can be wanted. The slide out grate that can be renewed without removing the linings or disconnecting your water front is of itself a feature you don't want to overlook in buying a stove. The fastened nickel that comes off by simply pressing a spring is another strong point in our Glenwood Ranges. Then we have the direct damper, the sliding oven shelf, the removable oven bottom, the large clean-out door, quality workmanship etc., that all go to make the Glenwood Ranges first-class in every way. If you want a range buy a Glenwood.

**A Rare Opportunity to Secure HEARTH RUGS**  
At Great Price Reductions

Here is a Rug opportunity which you will want to take advantage of once you see these remarkable values and the specially low figures placed upon them to close out quickly.

This is the time of year when housekeepers feel the need of extra Rugs and it is also just the season when we desire to clear our stock of odd designs. We have sorted up a large lot of these Rugs and have marked them at prices to ensure a ready sale. You will be able to select shades to blend with any color scheme.

**Sale prices, each \$1, \$1.50, \$2, \$2.50, \$3 to \$8**

Included in this sale is a very select lot of Rugs just purchased from an English traveller. They have been used as samples and we were able to secure them at a bargain, and you will be given the benefit of very low prices. These Rugs are nearly all in Eastern effects and exactly suitable for hard wood floors.
