BRITISH MINE LEADER SEEKS CONFERENCE

COOK REQUESTS GOVERNMENT TO CALL PARLEY

Gathering of Miners on Monday Expected to Take Action

OWNERS' STAND

Believed They Are Out to Smash Federation—Many Obstacles to Peace

LONDON, Aug. 13.—An appeal for government action in the coal strike was made by A. J. Cooke, general secretary of the Miners' Federation, today in the course of an interview with press representatives.

WANT CONFIDENCE

The object of the vote of confidence is in order to give the leaders a chance to get the best settlement possible and although the miners themselves still believe the assurances of Mr. Cook that victory will ultimately rest with them they are growing doubtful of the issue.

Cook has been hitting hard during the last few days that he has some cards up his sleeve which he is prepared to play as a last resort but believes that he is now in a position to face stern facts, and that he is now prepared to move towards a definite settlement.

OWNERS STUBBORN

Unfortunately for the outlook of immediate peace, the owners are just as stubborn as the miners. They believe the miners are bent on getting them to adopt a reasonable attitude and that is why while in some quarters there is a disposition to think that the beginning of the end is near, others in possession of fuller facts are very cautious in their prophecies and do not fail to emphasize the great difficulties that still stand in the way of settlement.

M'Kenna Visions Great Progress For Canada Based Upon Natural Resources

BRITISH UNITED PRESS

"Immense development, utilization of the resources of the soil and the depth of the earth, as well as the growth of industry based largely on water power, seem to be no mushroom growths removable by the flick of a finger. The foundation appears to be sound and progress to have been achieved on the whole by conservative methods."

NO MOVE TO AID MARITIMES SAYS MCURDY

Despairs of Help From Rest of Canadian Provinces

Canadian Press  
HALIFAX, N. S., Aug. 12.—Hon. P. B. McCurdy, formerly Minister of Public Works in the Dominion Government, was examined this morning by Sir Andrew Rae Duncan, chairman of the Royal Commission investigating the claims of the Maritime Provinces, on his statement, previously presented, regarding the return to Nova Scotia of the control she exercised, previous to Confederation, over matters of trade, taxation and the fisheries. Mr. McCurdy agreed that he was chiefly concerned about results, and if remedies for the ills complained of could be found within Confederation, the situation would be met. At the same time he pointed out that no serious attempt had yet been made by the Central Provinces to assist the Maritimes in overcoming geographical handicaps well understood at the time of the union, and confessed to a certain amount of despair at their ever seriously attacking the problem.

EASIER TO RETAIN

The witness on the other hand contended that it was easier to retain than to regain markets, and stressed the prosperity of Nova Scotia at the time of Confederation. Mr. McCurdy emphasized the point that he had appeared before the commission by request, and suggested that the case of investigating conditions, was on the commission rather than on the general public.

Was In Auto Accident At Montreal Depot

Miss Lillian Mallin of Montreal is visiting her brother Sydney F. Mallin, the Rockaberry Apartments, Rockland Road. While awaiting the train at Westmount, Montreal, on Wednesday evening Miss Mallin was knocked down by an automobile in the depot driveway and narrowly escaped serious injury. Upon being struck by the fender of the big car she was dragged by the shoe-strap until the strap button gave way. Otherwise she would have undoubtedly been drawn under the hind wheels of the automobile. Miss Mallin was not even scratched, but suffered somewhat from nervous reaction on the journey to Saint John. The American tourists who ran the young lady down were very attentive and ascertained her name and address lest she suffer after effects of the accident.

TARIFF CONTROL FOR NOVA SCOTIA IS URGED

INDEPENDENCE IN ECONOMIC SPHERE ASKED

League Puts Views Before Royal Commission ASKS SEPARATION, FAILING AMENDMENTS Province Desires Right to Make Own Treaties and Pacts, Says Witness

HALIFAX, Aug. 12.—A recasting of the British North America Act to the end that Nova Scotia be permitted to make her own trade treaties, control her own tariff policies and exercise full control of her fisheries and, failing this, "an early separation from the Dominion of Canada and a dissolution of the present partnership, in order that Nova Scotia may become again a self-supporting, self-respecting, self-governing unit in the British Commonwealth," were two alternatives to the present situation held out today by Clifford L. Baker, on behalf of the League for the Economic Independence of Nova Scotia, before the Royal Commission investigating the claims of the Maritime Provinces with respect to Confederation.

THE TOURIST ASSOCIATION

The New Brunswick Tourist Association is about to organize a campaign to raise additional funds. There is no doubt that the association is a very satisfactory state of affairs.

It is estimated that already nearly 16,000 have entered New Brunswick via St. Stephen this year and it is considered that probably as many or more have come in by the Woodstock gateway.

This is no question of charity. It is investment of the safest and most profitable kind. Every soul in the province benefits by the tourists.

So far the energies of the Tourist Association have been directed chiefly towards the United States. That is right and natural because it is the nearest rich field to explore and has as yet been only sketched.

That is what it comes to. They must be told what we have and how to enjoy it. Would not one of the great tourist agencies in London find it worth while to co-operate in the matter?

It is surprising that the smock, which has been so slow in making its way in America, is still so unpopular.

Smocks and uniformity. Talking of smocks for workers, the New Orleans Times-Picayune says: "It is surprising that the smock, which has been so slow in making its way in America, is still so unpopular."

Curse buttons and belts as they are, the private soldier soon becomes proud of his uniform and girls the world over make it plain to him how vastly preferable he is to the man in muffs.

The dislike of uniforms is not normal. The neat uniforms worn by women shop assistants in large establishments are not regarded as badges of servitude and certainly enhance the businesslike appearance of the premises.

SOVIET AMBASSADOR'S WIFE TO BE SOCIAL ARBITER IN BERLIN

SITUATION IS AROUSING MUCH CONCERN THERE

Madame Krestinski To Assume Important Duties

CAPITAL AGOG

Russian Lady More Interested in Work in Slums Than in Society, Is Report

By FREDERICK KUH (United Press Staff Correspondent) BERLIN, Aug. 12.—Berlin society agog over the prospect that Madame Krestinski, wife of the Soviet ambassador, is to become the high arbiter of fashion and etiquette of the Berlin diplomatic corps.

Accustomed to her life as a practicing physician and to her shirt-sleeve work in the charity wards of Berlin hospitals, Madame Krestinski is now confronted with the duties of becoming mistress of ceremonies among the social luminaries of the German capital.

Her impending job is the most tantalizing to become the first lady of the land. The incumbent of this position until now, Lady d'Abernon, has conducted something resembling a royal court, or at least something as close to that majestic institution as is possible in this republic.

Her appointment as doyenette arises from the circumstance that the dean of the corps, the principal nuncio, Monsieur Pacelli, is, of course, a single man, that the next ranking diplomat, the Spanish ambassador, Pablo Soler y Guardiola, is likewise a bachelor, and that the husband of the present doyenette, Lord d'Abernon, the British ambassador, is to be replaced by the younger British representative.

MANIFOLD DUTIES Her new duties will be manifold. Whenever a new ambassador or minister plenipotentiary arrives, Madame Krestinski will be obliged to "do the honors" by way of introducing the new arrivals to all other members of the diplomatic corps.

INTERESTED IN CHILDREN As a woman whose primary interest is her activity in the medical profession, her work among children of Berlin's slums and her devotion to the revolutionary movement, Madame Krestinski is faced with a dilemma which might cause worry and perplexity to much sturdier women.

HAMPTON FAIR FOR MEMORIAL FUND ON AUG. 24

HAMPTON, Aug. 12.—The Hampton Great War Memorial Association has decided to hold their sixth annual fair on Tuesday, August 24, on the Canadian National Railway square, Hampton Station. Since the organization of this association there has been a steadily growing movement to create a standard athletic field where youth and courage, strength and clean sport will develop the spirit so wonderfully embodied in the fifteen sons of Hampton parish who fell in France.

PLANS FOR FIELD The plans of the proposed field call for a standard quarter-mile cinder track, and a field fully equipped for all field events. Outside the tracks, courts, and community tennis courts, and the intention of the association to finish the field as rapidly as possible.

Mothers, Stop Treating Your 17-Year-Old Daughters Like Children—Recognize the Fact Girls of Today are Going to Have Beaux Whether You Forbid It or Not—Open Your Doors to Boys and Keep Your Girl From Danger.

GET hundreds of letters from young girls that tell the same tale of woe and ask the same question. These correspondents, in effect, say this: "I am 16 or 17 years old and my mother won't let me go to parties with boys or permit any boys to come to the house. She treats me as if I was only 5 years old and had no right to any pleasure or liberty. I feel that this is very cruel and unjust. Under the circumstances do you think it is any harm for me to meet boys on the sly and go out with them without my mother knowing it?"

A PROPER moralist would, no doubt, lecture these little girls on the wickedness of deceiving their mothers and tell them that mother always knows best and should always be implicitly obeyed. As a matter of fact, a mother who takes this attitude toward her young daughter, and who tries to rule her with a rod of iron as if she were a child, is just as silly and knows just as little of life as the girl possibly can, so my words today are not to daughter but to mother.

The first thing that I want to say to mothers is that in their nearly grown daughters it is a condition and not a theory that confronts them. VERY likely it is better that a girl shouldn't have any beau or any thought of a beau until she is a grown and mature woman. Very likely she should devote her mind to study instead of having her attention distracted by boys. Very likely it is best for her to spend her time in the bosom of her family and never go out anywhere except with papa or mamma. We won't waste time disputing those issues.

The point is that daughter is going to have beau. Her mind is full of boys. She is going to indulge in the pleasures that other girls indulge in, and if you don't let her do it openly she is going to do it secretly. If you don't let her have boys come to the house she is going to meet them on the street corners.

Now, mother of Mary and Sally and Jennie, which do you prefer? Which do you consider the safer course? OF COURSE, you will say that you have brought up your children to obey and that you are going to enforce discipline in your home. Possibly, but you are not a secret service agent who can trail Mary or Sally or Jennie every minute of the time, and you may be very sure that the second your back is turned and your watch relaxed your outwardly obedient little daughter is doing exactly as she pleases and doing it with twice the vim and zest simply because it is a stolen pleasure.

Nine-tenths of the trouble between parents and children arises out of the fact that fathers and mothers simply cannot realize that their children grow up and arrive at man's or woman's estate. Therefore, they cannot bring themselves to accord to their adult sons and daughters the liberty of action that is their right.

In a mother's eyes a daughter remains an infant until she gets married. To a man his son is a boy even after he grows a beard. They do not recognize that this age is a forcing house in which children come to an early maturity.

The girl of 17 today is more sophisticated than her mother was at 23. She is more hard-boiled than her grandmother is at 63. Hence it is absurd to treat her as if she were a baby, and mothers would save themselves many headaches if they would simply face the fact and deal with their daughters on a grown-up instead of a kindergarten plan.

THE universal wall of mothers is that their daughters don't confide in them; that they tell their secrets and go to strangers for advice. But it never seems to occur to the mother that the reason her daughter does not have heart-to-heart talks with her is because the girl knows that mother will treat her as if she were a little girl in pinafores, and will veto everything she wants to do.

There is small encouragement to tell your hopes and plans to a person who is going to knock every one of them and forbid you to do the thing you want to do and tell you how generally silly and foolish you are.

But all of that is by the way. The main point is that when a girl reaches the boy-crazy age you can't keep her from knowing boys and going out with them. You can't keep your daughters from doing the things that all the other girls are doing. She belongs to her generation.

IT DOESN'T matter whether you forbid her or not, nor how closely you watch her, she is going to meet boys and have her fling. Something stronger than all your power is urging her on. It is the call of youth. It is youth's insatiable demand for pleasure, and the question is whether you are going to meet the situation wisely or whether you are going to risk ruining your child's life trying to enforce your petty tyranny.

Don't deceive yourself for a minute into believing that you are more potent than the urge of nature. You are not. Sally is going to have her boy friends and go out with them whether you approve or not, and it is up to you to make her a decent little hypocrite or a frank, open-minded girl, who really does tell mother her secrets.

INASMUCH as the girl will have beau, don't you think she will be a million times safer if you give her the protection and the background of a home by inviting the boys to the house and getting acquainted with them than if she meets them on a street corner and goes off with them to God knows where and comes home to lie to you about it?

And how are you to help her choose a husband if you do not even know the boys she knows? How are you to keep her from marrying a drug-store clerk that she picked up at a soda-water counter because you wouldn't let her receive decent boys in a decent way in her own home?

Believe me, mothers, any girl who has to deceive her parents to get the enjoyment that belongs to her time of life stands on the very edge of the pit, and there is nothing more tragic on earth than that many and many a time it is her own father's and mother's hands that push her over the brink.

MANY a girl marries the first man who asks her to escape her mother's tyranny and to try to get a little freedom. Many a girl runs away from a dull home and goes to the bad in search of the pleasure that was always denied her by her parents.

See that these things do not happen to your daughter. Remember that 17 is a critical age and that if you don't want it to bolt you must drive with a light hand. DOROTHY DIX. Copyright by Public Ledger.

Black and White Tide of Color Has Reached Peak

By HENRI BENDEL

THE rising tide of color has reached its peak and the logical result is that if you want to be distinctive you will forsake the excited reds and emphatic greens and come back to black and white.

For evening white and black is the correct formula—the body of the frock in white and the black introduced as an accent. For day, black and white is the correct order, and I prophesy that one of your desires in the way of a fall costume will materialize in a black-satin or crepe, with collars and cuffs, or vest of bertha of white.

TREND IS REACTION By this, I do not mean color is mass certainly not. But an orgy of color, such as we have witnessed for the past year, invariably ushers in a decided feeling for black and white.

White evening clothes have always been popular with New York women—more so, I believe, than with European women, or women in the other cities of our own country. At any gathering of social importance in New York, white is usually the choice of the majority of the well-dressed women. But there is a sameness about the all-white frock, which makes many women avoid it.

But when you add black, with just the right subtlety, you achieve an individuality as well as an elegance that no other combination can give. Photographed today are three imports which I consider ideal for late summer evening gowns, all in the white and black combination.

Youthful and picturesque, indeed, is the model of white chiffon with the skirt and irregular bertha of chantilly lace as fine as a cobweb.

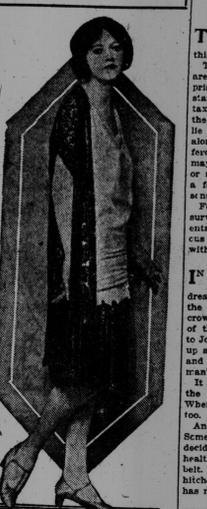

As a change from the sleeveless frock, an elbow sleeve is achieved by the lace cape—the effect of sheer lace over a satiny skin is too flattering to be overlooked.

White chiffon with skirt and bertha of fine chantilly lace.

Dance frock of silver fringe and lame fringe over black net.

Black and white dress with flat silk cut in, smart silhouette.

Another very attractive feature is the girdle which is very near to the normal waistline and is loosely tied with ends that extend below the hemline.

A heavier black lace is used on the white flat silk model with sleeveless frock, and that much discussed "ap-pel," but without the artificial adornments to which the American public has become accustomed.

The advance guard of fashion had seen Miss de Putti's work in Europe. What she gives the screen in "Variety" is a study from which is happily missing any note of the diabolical as injected in "Variety" now flashing its coat of the lace that sent the American agents scurrying to Germany with dot-ting lines to sign on.

Some weeks have passed since the carnied finger-nails and alluring make-up drew groups of curious ones about the Paramount Astoria, where Griffith was making "The Sorrows of Satan." And despite the more than usual attention which she attracted, she was allowed, considering the nature of the story, the theme of "Variety" was extremely simple and as old as Solomon and Delilah.

More recently she has gone to the four tablespoons chopped green pepper, two tablespoons flour, one teaspoon salt, two cups milk, two tablespoons chopped pimento, one-half cup canned mushrooms, six slices buttered toast or patty shells. Melt butter, add green pepper and cook until pepper is soft, then add flour mixed with salt. Stir until blended, add milk, stir until smooth. Add chicken, pimento and mushrooms cut in pieces. Serve on toast or in patty shells and garnish with parsley. A can of tuna fish or any other cooked and flaked fish may be used in place of chicken.

Have enough ripe peaches to make a thick bottom layer and sprinkle it with half a cupful of sugar. Dredge the top lightly with flour and bake cobbler in a moderate oven until the crust is a good brown and the peaches soft. A small quantity of melted apple jelly may be poured over the peaches before baking if liked, and the cobbler may be served with fruit or pudding sauce or a hard sauce.

A PRACTICAL SUMMER COAT OF CRETONE AND FLANNEL

Isn't this an adorable coat for little daughter? And it's so practical for summer wear. It is of heavy cretone in a natural background with flowers of blue and green. The collar and little turn-back cuffs are of snowy white flannel. Big sister might also have a coat just like this one if she wishes.

STYLES in "vamps," which have undergone little change since Theda Bara did her face-out, may now be announced as officially altered.

Lya de Putti, who gave the sexual touch to several major German films, is now in the American picture, "Variety," that sent the American agents scurrying to Germany with dot-ting lines to sign on.

### RIVER OUTING OF ENGINEERS ENJOYED BY 30

Motor to Belyea's—Address  
by Official of Canadian Institute

Members of the Saint John Branch of the Engineering Institute of Canada and guests, to the number of thirty, enjoyed a delightful automobile trip and outing along the Saint John River Valley yesterday afternoon.

Supper was served at Belyea's Inn and was greatly enjoyed by all. After supper an open-air meeting was held on the beach with the Branch chairman, A. R. Crookshank, M.E.I.C., presiding. The speaker of the evening was R. V. Durley, M.E.I.C., general secretary of the Engineering Institute of Canada, Montreal, who is en route to the Maritime general professional meeting, Sydney, C.B.

Mr. Durley has lately returned from the Pacific Coast and spoke on Institute affairs and the issues facing the Institute. A short discussion followed. All joined in some sports and bathing before returning to the city.

Many members of the Saint John Branch are planning on motoring to Sydney, N.S., the end of the week to attend the Maritime general professional meeting to be held on August 17-18-19. This meeting promises to be of exceptional interest to the engineering profession.

**MARITIME MEET**  
The Maritime professional meeting of the Engineering Institute of Canada is a meeting held jointly by the four Maritime Province branches of Saint John, Moncton, Halifax and Sydney, and occurs at intervals of one and two years.

**THING OF BEAUTY**  
is a flawless skin. Take care of it by daily use of the right soap.

**Resinol**

Mask Bennett, whose eyes are as good as ever, has five of his young movie actresses demonstrate the latest styles in bathing suits. They are, left to right, the Misses Thelma Hill, Violet Byrd, Ruth Taylor, Margaret Hampton, and Muriel Monroe.

This is in line with the policy of the Institute, by which in addition to an annual meeting, held each year in Quebec or Ontario cities, professional meetings are also held in eastern and western Canada. The professional meeting in western Canada was held recently in Eastern Saskatchewan jointly with the Canadian Institute of Mining and Metallurgy and the American Institute of Electrical Engineers.

At the coming Maritime professional meeting at Sydney, Aug. 17-19, papers will be read on the coal resources of Nova Scotia and also on the Humber River power development in Newfoundland. In particular the coal situation in Nova Scotia will be thoroughly discussed by representative members of each of the Maritime branches.

Members of the Institute will attend from the Maritime Provinces and will include a number of engineers from Saint John.

Twenty of the ladies of the Westfield Country Club were guests of the ladies of the Riverside Country Club at a return golf match at Westfield yesterday which resulted in a victory for Riverside. Luncheon was served at 1 o'clock when the tables were artistically arranged with floral decorations of blue delphinium and cornflowers.

Covers were laid for 40. Tea was served in the afternoon and the same kind of flowers centred the tea table over which Mrs. Robert Cowan, and Mrs. J. Pope Barnes presided.

A delightfully informal bridge, for which Mrs. Lawrence Allen and Miss N. Shaw were the general conveners, was held at the Westfield Country Club on Wednesday evening for the pleasure of the members and their friends. At the close of the evening delicious refreshments were served. Prizes for scores were won by Mrs. Horace Black, Mrs. Keith, of Windsor, Ont., and Mr. David W. Edgingham. Among those present were Mr. and Mrs. Frederick T. Barbour, Mr. and Mrs. E. R. Machum, Mr. and Mrs. Francis Burpee, Mr. and Mrs. B. W. Ledingham, Mr. and Mrs. E. A. Thomas, Mr. and Mrs. A. C. Curry, Mr. and Mrs. T. T. Mullin, Mr. and Mrs. Allan Barbour, Mr. and Mrs. Lawrence Allen, Mr. and Mrs. Percy D. Howard, Mr. and Mrs. Cecil Mitchell, Mr. and Mrs. William Robson, Mr. and Mrs. Horace Black, Mr. and Mrs. George A. Shaw, Miss Eunice Macaulay, Mr. Percy Leonard and Mr. Roy Crawford.

The Rev. A. O. Hamilton Dicker, A. U. C. and Mrs. Dicker are spending the next four weeks in Toronto. They are staying at 169 Belsize Drive. The Rev. Mr. Dicker was for some years the rector of St. Luke's in Toronto and is now the vicar of Upchurch, Fittingbourne, Kent.

About 70 relatives and friends of Miss Audrey Stockford gathered at the home of her parents, Mr. and Mrs. S. J. Stockford, 176 Adelaide street, Wednesday evening and tendered her a novelty shower in honor of her approaching marriage. Many beautiful gifts were received, including silver, linen and aluminum, also a dinner and tea set. At the close of the evening the hostess served dainty refreshments.

Miss Jean Fenton, nurse-in-training at the Sherbrooke Hospital, arrived in the city on Wednesday to spend her holidays with her parents, Mr. and Mrs. W. I. Fenton, City Line. Miss Clement Fenton, who has spent several weeks in Fredericton, has returned home.

Mr. and Mrs. R. D. Chapman are visiting Mrs. Chapman's mother, Mrs. L. R. Norton, at Renforth, after a motor trip from their home in Tucson, Arizona. They visited friends en route and were week-end guests of their aunts, Mrs. Pheasant and Miss Christie, at Mascarene, Charlotte county, New Brunswick.

Mr. and Mrs. F. J. McNamara and daughter, Marie, accompanied by Mr. and Mrs. John Burns and Mrs. Harold Cronin, motored to Goshen, Albert county, Sunday and were the guests of Mr. and Mrs. Daniel Leyden. After six years of faithful and efficient service as matron, Mrs. Mary E. Leitch will finally sever her connection with the Children's Aid Society on the 15th inst. She is going to the States and will leave on that date for Boston.

At the meeting of the board of management last night Mrs. Leitch was called into the board room where Mrs. W. B. Tennant, in behalf of the members of the board, presented her a handsome leather hat box. In doing so Mrs. Tennant briefly referred to the long period which the matron had served. During all that time the relations between the members and herself had been of the most kindly nature. She had been a very faithful servant. In conclusion Mrs. Tennant said in behalf of all the members of the board she wished her God speed on her journey and prosperity wherever she went.

MANY DIE IN ARSENAL BLOWUP AT BUDAPEST

Blasts Rock Country Within Radius of 15 Miles

VIENNA, Aug. 12.—The official Hungarian telegraph agency of Budapest reports that the greater part of the Weiss Muniton Works, located on an island outside of Budapest, was destroyed by an explosion and fire at 7 o'clock tonight.

Flames from the burning plant, which was the biggest pre-war munition factory in the former nation of Austria-Hungary, were visible for 40 miles. It is stated that a radio station more than a mile away also was damaged by the force of the explosion.

Further reports from Budapest state that the entire countryside within a 16-mile radius of Budapest shook, as if it had been visited by a succession of earthquakes.

The munition plant was located at Csepel Island.

There were four great explosions, all occurring within fifteen minutes.

Details from the scene are still un-

BAASCH FREED ON ONE CHARGE, ANOTHER LAID

Liquor Case Taken Up Before Magistrates at St. George

ST. GEORGE, Au 12.—Chas. L. Baasch, of West Saint John, on trial here today before Magistrate MacGowan and Dewar, on the charge of smuggling hard liquor was dismissed. He was defended by E. J. Henneberry, W. Ross and J. F. Frauley, of Saint John. Messrs. Teed, of Saint John, and Cockburn of St. Stephen appeared for the prosecution. P. Elmer MacLaughlin, clerk of the peace for Charlotte county, sat with the Magistrate.

After his dismissal on this charge Baasch was immediately served with another warrant charging him with having smuggled goods in his possession, knowing them to be smuggled, to the value of more than \$200. The defence claimed the charge was again defective but the case will be continued on Tuesday morning, Aug. 17.

DEFENCE ARGUMENT

Mr. Henneberry, for the defence, claimed the information on which the arrest was made was defective in that two distinct charges were made; that the location of the seizure was not specified, and that the warrant of arrest, issued by Magistrate MacGowan, of St. George, should have been issued by a Magistrate in Saint John. He quoted many cases in support of his arguments and claimed the prosecution had no right to amend the charges. Baasch was captured on July 28

Captain Kenney, of Yarmouth, in charge of patrol boat G, preventive service, made the capture and towed the boat into Beaver Harbor where sub-collector McKinnon placed in charge. The boat was afterwards towed to Saint John.

Collector Lochhart and Messrs. Stanton and Wright, of the Customs Excise Service, Saint John, together with Captain Kenney and two officers from patrol boat G, were present for the prosecution. Miss G. Matthews, of Saint John, stenographer, in the absence of Miss Louise Chaffey, took the evidence.

Baasch, who has been out on \$2,000 bail, was again released on the same amount, Messrs. Fitzpatrick and Haley being the sureties.

STUDENT TEACHERS ENJOY FIELD DAY

Playground Event Very Successful—Miss Phyllis Wilson Leads in Points

Miss Phyllis Wilson, was the winner of the highest points when, as part of their training in the student teacher department of the city playgrounds work here, the student teachers took part in a field day on the Allison Park grounds yesterday. Spectators said that they acquitted themselves most creditably in the various events which included the running, broad jump, standing broad jump, hop, step and jump, high jump, 50-yard dash and basketball throw.

Miss Phyllis Wilson, the highest point winner, scored 28. Miss Katherine Hoyt, took second place and Miss Gladys Weekes came third.

The meet was carried out most successfully. Miss E. J. Heffer, supervisor, was present and assisted Miss Wilson and Miss McFadden.

The two play leaders, Miss McFadden and Miss Wilson, have had special training for their present responsible positions and are proving most successful in the work. Miss Wilson is a graduate of the Provincial Normal School, with two years experience as play leader on the city playgrounds. Miss McFadden is a graduate of the Margaret Eaton School, Toronto.

The student teacher department of the city supervised playgrounds work this season is proving of splendid advantage, it was reported here today.

It was established with a view to obtaining greater efficiency and proficiency and a student teacher has been placed on each of the grounds this year for the first time.

Special instruction is given these pupil teachers in order that they may direct the work in their own section on each ground in such a way that there will be uniformity throughout all the grounds.

For the instruction of these pupil teachers, Miss E. McFadden and Miss Geraldine Wilson have been co-workers and they will have the marking for all the field meets and practical playground sports, both for the girls of the playgrounds and the student teachers this season.

LABOR DAY FETE AT CAMPBELLTON

Strong Committees Are Formed For Big Celebration on the Holiday

CAMPBELLTON, Aug. 12.—If the proposal now under consideration here receives the wholehearted support of the citizens, Campbellton will have a big Labor Day celebration this year. During the past week the holding of a general sports day and celebration has been advocated by several local business men and the idea, it was stated today, is meeting with general approval.

In order to test out the matter and formulate definite plans of organization a meeting has been called for tomorrow evening at 8 o'clock in the Town Hall, open to all citizens to offer suggestions. Representatives of the Fire Department and the Rotary Club will be at the meeting and all other organizations have been asked to have representatives present. If the proposal is favorably considered the necessary committees will be appointed and preliminary arrangements begun at once.

The great success of Campbellton's last Labor Day celebration, in 1919, is referred to by those interested in the matter and the opinion expressed that there should be no difficulty in arranging for an even more successful event this year.

**Defeat of McNary-Haugen  
 Measure Stimulates  
 Demand**

WASHINGTON, D. C., Aug. 12.—One of the effects of the defeat of the McNary-Haugen bill on the agricultural states, especially in the mid-west, has been to increase the demand for the development of waterways. It begins to look as if the central west, backed by the north-west and some other sections of the country, including much of the south, would soon be organized in behalf of waterways in such a degree as to force legislation through Congress.

Undoubtedly there is increasing impatience among the farmers of the corn belt and other agricultural sections over high freight rates. Had the Interstate Commerce Commission recently permitted the increase of rates demanded by the railroads, there would have been an outcry of the most bitter sort.

Reports from the agricultural states agree that the farmers and their organizations are becoming more and more convinced there is little or nothing in the way of reduced freight rates on the railroads. The feeling is strong that the commission is pro-railroad in its sympathies.

The extent of the opposition to direct farm relief legislation, such as the McNary-Haugen bill, is also being recognized. With the administration against it and powerful industrial forces fighting it, thinking agriculturalists realize that it is uncertain when such legislation can be secured and whether, if secured, it will be effectively administered.

Such things serve to emphasize the importance of getting relief through increased use of water transportation. The development of large

It is bound to increase the pressure for comprehensive waterway legislation, for extensive improvement, and for the St. Lawrence Channel. The controversy over the diversion and the lakes-to-lake cities in order that this matter be not stand in the way of the broad proposition of expansion of interior water traffic.

**B. C. IS ABOLISHING  
 RURAL POLICEMEN**

**Provincial Officers Are Taking  
 Over Provincial Law  
 Enforcement**

VICTORIA, B.C., Aug. 12.—The old time rural policeman, the butt of countless jokes and the careless motorist, will soon vanish from British Columbia. The province has found him not only inefficient but expensive.

Gradually, the provincial police are taking over the enforcement of laws in the province. On Vancouver Island, outside Victoria, there will be practically no local police left within a month and the provincial police will be in control everywhere. On the mainland, too, several cities and districts have completed policing agreements with the government and others have the matter under consideration.

It is beginning to appear that, within a very short time British Columbia will have no local police left outside of the Capital and Vancouver.

It is expected that the new plan will make for efficiency. There have been too many police forces in the past, in the opinion of the authorities, and this will be eliminated. Through the use of the motor car the modern criminal, it is pointed out, has acquired great mobility. The limitations of the rural constabulary, it is explained, has prevented speedy investigations. Their methods have been crude and not effective.

LONDON, Aug. 12.—Increased sobriety, slimmer and common-sense dress and a general dietary improvement is making England healthier, according to Sir George Newman, Chief Medical Officer of the Ministry of Health.

"Good houses, good food and a sanitary environment in working conditions make for health," Sir George declared, "but these things cost money and are out of the reach of many people."

"The simpler things such as more tooth brushes, more windows and a more general appreciation of sunshine and fresh air, are easily within the reach of every one, however, and are making for a healthier people in England."

**TEST OF REINDEER

**Experiment Fails So Far,  
 But Hudson's Bay Company  
 Persists**

VANCOUVER, B. C., Aug. 12.—The Hudson's Bay Company experiment, made at the suggestion of Vilhjalmur Stefansson, the explorer, to introduce reindeer in the northern barren lands of Canada with the idea of building up an important meat industry, has failed.

This admission is made officially by the Hudson's Bay Company in a report made public by Charles V. Sale, governor of the company.

The experiment has been a failure, but it will be continued, according to Mr. Sale, who has hopes of ultimate success. "With the close of the war," he stated, "we realized that progress demanded a closer investigation of our opportunities and we decided to institute a development board. Just about the same time we were approached by Stefansson with a project for introduction of reindeer to Baffin land along the lines which had been so successful in Alaska. The project was one which had the active support of the Canadian government, and which we felt sure should be undertaken by our department in the interests of Canada."

**TO KEEP UP TEST.**

"I regret to say that so far the venture has been a failure, but in this as in other things, failure taken in the right way is but a stepping stone to success, and we do not intend to abandon the experiment until we have proved to our own satisfaction and, if possible, to the satisfaction of the Canadian government, that success is not attainable."

In addition to its purely commercial endeavors in the barren lands, apart from the reindeer project and the quest for furs, the Hudson's Bay Company is carrying on humanitarian work expected to be of enormous value to the native population of that region. A qualified medical practitioner is taken into the northland by every vessel carrying the company's flag, and these are instructed to give free treatment to natives at each place where the steamer calls.

"The information we have gained in this way regarding the health of the natives is being followed up by a study of their diet, and we have come to certain conclusions which we believe will enable us to provide from local sources a plentiful supply of food containing the nutritive elements which have been missing since they took largely to flour and tea as substitutes for their natural diet," added Mr. Sale.

Damages Sought for Losses in Food Raids of Last Winter

GLACE BAY, N. S., Aug. 12.—Frank Lang, shopkeeper of New Aberdeen and the Globe-Rutgers Insurance Company, have entered suit against the town of Glace Bay for \$31,140.12 on account of damage and loss sustained during the food raids last winter.

There are two separate actions. Lang's claim being for \$15,000 and the insurance company's \$16,140.12 on account of four claims paid as follows: Ben Siegel, \$6,000; L. H. Cherning, \$4,488; Mason and Dean, \$2,471.12; and Michael Mendelsson, \$3,201.

The town is charged with not having provided adequate protection against rioting and looting. Lang's store was looted and burned. The town council has instructed Town Solicitor McArthur to defend the case in the courts. Madden and McIntyre, Sydney law firm, are acting for the plaintiff.

**SUNLIGHT SOAP**

**You earn more than Savings Bank interest  
 When you use Sunlight Soap**

WHEN you put a dollar in the bank it may earn as much as four cents in a year's time. When you use Sunlight Soap for doing the family wash you save many dollars a year because of the protection this pure soap gives to the family linens.

Sheets, pillow cases, towels, shirts, dresses and napery—these are all expensive. It costs a lot of money to replace them.

Harsh, impure soaps break down and wear out fabrics at a ruinous rate. Sunlight Soap, made by the makers of Lux, and backed by a \$5,000 Guarantee of Purity, keeps the bloom of newness on fabrics and greatly prolongs their life.

**The Choice of Millions**

Because Sunlight is so efficient and so safe, it is the largest selling laundry soap in the world.

It costs no more than ordinary soaps.

**REGISTRATION FOR ELECTIONS ENDS TOMORROW**

Not Many Names Yet Submitted in Some of Wards

**LIST GOES TO JUDGE OF COUNTY COURT**

Political Battle in City May Be More Active Next Week

Registration in the city and county of Saint John for those whose names are not yet on the voters' list will end on Saturday. Sheriff Wilson said this morning that those who are not on the list should see the registrars at once so that their names may be added. The sheriff also stated that some of the local registrars were kept quite busy placing names on the list while others have not been experiencing any great rush. At the close of registration the names will be handed to Judge John A. Barry, the returning officer for this district. He in turn will have the lists printed and posted.

**MUST BE GOOD MANY**

It was said this morning that there must be quite a number of citizens who have not yet placed their names on the voters' list since the last election there must be a good many who have reached the age of 21 years, which would qualify them to vote provided they have been a resident of the district in which they are now located since May 26 last.

With the date of the election just about a month away and nomination day set for September 7 there is as yet very little activity reported in the constituency of Saint John-Albert. Both parties are said to have been organizing their forces in a quiet way but it is not expected that there will be real active campaigning until some time next week. No definite dates have been set yet by either the Conservatives or Liberals for meetings in the interests of their candidates.

It was announced this morning that confirmation had been received from Ottawa of the report that Hon. W. L. McKenzie King, leader of the Liberal party, would open his campaign in New Brunswick the week of August 28. It is not yet known where he will start his speaking tour or in what places he will address meetings.

Hon. R. J. Munton, postmaster general, is at present in Nova Scotia in the interests of the Conservative party.

**PICNIC PARTY WILL TRAVEL IN 30 AUTOS**

Tomorrow, City's Clerical Employees Will Have Outing at Tucker Park

The plans for the civic clerical employees picnic, to be held tomorrow afternoon at Tucker Park under the patronage of the Mayor and commissioners, have been completed and should the weather man be kind it is expected this will be an excellent outing. This is the first time the civic employees have undertaken a picnic, and it is hoped to make it an annual event in the future. Thirty automobiles will carry the picnic party to the grounds where an elaborate program of sports will be carried out, with prizes for the winners in the various events, donated by city merchants.

**CHEESE BOARD SALE**

At a meeting of the cheese board here this week about 1,500 boxes were boarded and sold at 16 cents for twins and 16 1/2 cents for triplets, practically the same prices as those previously obtained. With the exception of about 900 boxes, which go to Halifax, the cheese was all sold to Fredericton and too, Saint John merchants.

**SEE THE FALLS**

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River. The force of the water is through the gorge of the Falls, creating a "fall" running about 1/2 mile.

At low tide the water in the Bay of Fundy is lower than the water in the river, that the fall of water is the Bay. At this time the level in the Bay and River are about equal, the falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all times. The best time to view this phenomenon is:

**As Hiram Sees It**

**THE SETTLEMENT**—Me an' Gov' Todd was at the Grand Falls celebration. We was both motorin' an' we got there the same day. He didn't see me but I had my eye on him. He was exceedingly called on to speak—except edly I wasn't. Mebbe they thought enough was as good as a feast. Well, sir—when I went down to see the falls, who was there but Judge Hazen an' George McAvity. 'Joose they was speakin' on how a salmon felt the first time he made a jump to try an' get up the falls. Like as not they was wonderin', too, whether Saint John river salmon kin jump as high as one from Bonnyventer. I had a great talk with the Mayor of Grand Falls. He said he'd been mayor for fourteen years—I said I'd been hog-reeve in The Settlement longer'n that. Well, sir—it was a great day for the big fellers—an' the little fellers, for the same cause.

**TRACK PLAN FOR NEW TRAIN SHED COMES TO MAYOR**

C. N. R. Asks Conference With City to Discuss Matter

**PART OF LOMBARD STREET IS NEEDED**

His Worship Speaks of Mill Street Level Crossing

Mayor White this morning received from the general manager of the Atlantic region of the Canadian National Railways a blue print of the proposed track layout for the new train shed here, and a request that a conference be arranged between representatives of the C. N. R. and the City Council to discuss the matter, as it was proposed to place additional track across Mill street and to encroach on Lombard street.

The plan shows that at one part of Lombard street the railway will require nearly one-half of the street. The proposed train shed is to be about 500 feet long and about 200 feet wide. Four teamways are shown on the plan, running between the tracks.

**REGRETS LEVEL CROSSING**

His Worship, in discussing the matter, said it seemed too bad that the level crossing in Mill street could not be abolished, but the cost of a viaduct, with the resultant consequential damages to property in Main street, seemed to make the project one that could not be undertaken at the present time.

He said that it was a question for engineers to decide whether or not a viaduct over the railway tracks should not be continued by a tunnel through under Rockland road and the highway carried around to connect with Adelaide street. This would open up the territory north of the hills and do away with consequential damages in Main street.

**BRIDGE WAS PROPOSED**

Some years ago it was proposed that a bridge be built across the valley from Carleton street to Rockland road at the Mill street level crossing. The bridge was to be built through the congestion at the railway crossing. No date has yet been set for the construction of the bridge.

**SAD NEWS COMES TO MRS. A. E. MACAULAY**

Nephew, Alvin George English, Aged 18, is Drowned in Alaskan Water

Word has been received by Mrs. A. E. Macaulay, of Charlotte and Princess streets, of the drowning of her nephew, Alvin George English, near Baker Island, Alaska. He was 18 years of age and had accepted a position with the Nakat Packing Corporation for the holidays and was to enter college in the fall to study medicine.

The accident happened on July 28 while he and another employee were in a boat watching the traps of the company. A heavy squall struck the boat and it was overturned. Both started to swim to shore but young English sank before reaching the shore. The body had not been recovered at the time the word was sent to Mrs. Macaulay.

**Two More Sales Held For Orphans' Benefit**

A very successful sale was held on last Saturday by some children of Renforth, assisted by Miss Zola Morton and Mrs. O. A. Burnham, Mrs. S. Foley, Miss Frances Job, Miss Audrey Leck and Miss Muriel Tapley. Lemonade, home-made candy and ice cream were sold, mostly donations from the residents. The little girl workers were Misses Ruth Kitchen, Elizabeth Hoy, Elizabeth Burnham and May Tapley. The sum of \$29.41 was realized for the Protestant Orphanage. Much credit is due William C. Clark for a large sign which he painted to attract the passerby, and thanks to Mrs. McCready for the use of her garage, where the sale took place. The money made at the sale has been received, with thanks, by H. Usher Miller, secretary of the N. B. Protestant Orphans' Home Board, for the benefit of the little ones under care.

Catherine McLaggan, Ellen, Marian and Annie Brewer, of North Devon, recently made and had a sale of home-made candy, at which they realized \$4.15, which they sent to Mr. Miller for the same cause.
