RESOLUTIONS

OF

THE ANNIVERSARY MEETING,

HELD IN THE WESLEYAN CHAPEL, ST. ANNE STREET,

QUEBEC, OCTOBER 12TH, 1840.

*Resolution I.*—Moved by PETER LANGLOIS, Esquire, seconded by Mr. H. CARWELL :

That the Report now read be received with sincere gratitude to the Divine Head of the Church ; that it be printed for general circulation, and that it is the duty and privilege of all the servants of Christ to promote to the utmost of their power the extension of his Gospel among the benighted tribes of the human family.

*Resolution II.*—Moved by Mr. DAVID CAMPBELL, seconded by Mr. MARTIN RAY :

That fervent prayer for the blessing of the Holy Ghost should accompany every effort for the spiritual benefit of mankind.

*Resolution III.*—Moved by the Revd. ROBERT L. LUSHER, seconded by JOHN McLEOD, Esquire :

That the cordial thanks of this meeting be offered to the Committee and other Officers of the Quebec Wesleyan Methodist Missionary Branch Society, and especially to the Collectors of the Institution, for their truly valuable exertions during the past year, that they be requested to continue their aid to the Society's Funds, and that the following be the officers for the year ensuing :

TREASURER, Mr. DAVID LOGIE.

SECRETARIES, { Revd. J. B. SELLEY,  
Mr. JOSEPH FOX,  
Mr. JOHN SHAW,

COMMITTEE.

— D. WHITE.

*Resolution IV.*—Moved by the Rev. R. LUSHER, seconded by the Rev. J. B. SELLEY :

That the respectful thanks of this meeting be presented to the Revd. W. M. HARVARD, for the favour of his services in the chair this evening.

## REPORT.

THE Committee of the QUEBEC WESLEYAN METHODIST AUXILIARY MISSIONARY SOCIETY, in presenting their Annual Report, would most devoutly and gratefully thank Almighty God for the encouraging success with which He has been graciously pleased to crown the efforts made to advance the Redeemer's cause in heathen and other countries, during the past year.

Yet, whilst they are thankful for, and rejoice over, the good that has been effected, they cannot for a moment, lose sight of the mournful picture which still presents itself to their view. "At present how deplorable is the condition of mankind—and how is the God of Heaven dishonoured in this revolted world—Idolatry and superstition prevail over the greatest part of the human race. The fairest portions of the globe are covered with Egyptian darkness, filled with wretchedness, and polluted with crimes." They therefore, again invite the public mind to contemplate the immensity and vast importance of the object, which they, together with other kindred societies, still aim at accomplishing—the complete evangelization of this evil world. The means through which they expect eventually to effect this, the most desirable of all objects, are found in the Divine Ordinance of a living Ministry, who with an unction from the Holy One, shall faithfully "preach the Gospel to every creature," seconded by an effective system of Religious Education, employed as extensively as possible among the benighted and degraded children of Adam.

Those means have been long in active and *successful* operation, having never failed even for a single year, in proving themselves "mighty through God, to the pulling down of strongholds, casting down imaginations and every high thing that exalteth itself against the knowledge of God." And thus the friends of Missions are furnished with solid ground on which to build their most delightful and ardent hopes. To shew the true Missionary spirit which pervades the minds of the most devout and philanthropic portion of the British public, we need only mention that they generously placed at the disposal of our Parent Society, in the course of the last year, the unprecedented and noble sum of £92,697 18s. 8d., being a

net increase of £7,879 6s. 6d., above the receipts of the preceding year. And it will be gratifying to our Canadian friends to learn that £746 15s. 2d. of this large sum has been raised in our own Province.

But, large as appears the income of the last year, the expenditure has far exceeded it. We ascertain from the Report of the Parent Society, that the total sum which has been expended in the Mission field for the year 1839, is not less than £104,017 6s. 1d. This the various items which appear in the Balance Sheet, satisfactorily explain. To the deficiency of 1839, amounting to £11,319 7s. 5d., is added the deficiency of 1838, amounting to £9,552 12s. 4d., which discovers the present debt of the Society to be the serious sum of £20,871 19s. 9d.

This debt, in which the Society is at present involved, the Committee express themselves as regarding with serious anxiety, but not with any feeling of dismay, or of despondency. They are happily conscious that it has not been contracted rashly, or without due deliberation and reason. They can truly state that they have had the exquisite pain of refusing many more calls and openings than those which they have been able to meet.

The Committee, therefore, with confidence leave themselves in the hands of God—to their friends, and to the benevolence of a generous public: and by His blessing, by their influence, activity and liberality, and by the stern exercise, for a while at least, of that more restricted course of proceeding which Christian prudence now renders indispensable, and to which Christian zeal itself must no longer refuse its acquiescence, they hope to be enabled gradually to liquidate the debt—to support their numerous existing Missions, and eventually to renew and amplify their efforts as humble instruments of the Society and of Divine Providence, to bless and save a perishing world. Animated with this hope, the Committee once more thank God, and take courage.

We shall now proceed to *name* (for, such is the extent of the Society's operations in the present day, that in the limits of an Auxiliary Report, we can do little more than name,) some of the principal Stations occupied by the Agents of the Society in different parts of the world.

#### MISSIONS IN IRELAND.

We cannot refrain from expressing our regret that the Missions in Ireland have been deprived of the invaluable services of that well known veteran in the cause of Irish Missions,

the Revd. GIDEON OUSELY;—that distinguished and devoted servant of Christ, departed this life in the full triumph of faith and hope, on the 14th of May, 1839, in the 78th year of his age.

Hundreds, if not thousands, who were the fruit of his faithful Ministry, will doubtless be the crown of his rejoicing in the day of Christ. He travelled and preached until within a few days of his lamented death, and generally to three or four Congregations in the course of each day. The Missionaries at present in Ireland are 23 in number, and 4 Scripture Readers—the Stations which they occupy are 17 in number, embracing a vast tract of country, extending from the extreme north to the south of the Island. The number of Day Schools has been increased to thirty-seven, each having a salaried Teacher; and there have been forwarded recently to the Committee, from various Circuits and Stations throughout Ireland, 115 applications for Protestant Schools. The appeals made in these are deeply affecting. Our limits will only admit an extract from one—"I do hope that your receiving this matter favorably, will be a blessing to generations yet unborn in this part of wretched Tipperary, where, within the bounds of this north division, during the last five months, *eleven* murders have been committed—the blood of two of which I saw almost reeking on the day after, and I do not think a single individual will be capitally convicted for all these murders. What an awful state of society! Do something for us if you can. Pity poor wretched Tipperary!"

#### MISSIONS ON THE CONTINENT OF EUROPE; AND IN THE MEDITERRANEAN.

SWEDEN.—Mr. Scott continues to prosecute his labours with encouraging success in the capital of Sweden—hundreds are frequently unable to gain admittance into the place of worship at the times of public service. The great object of Mr. Scott's exertions is to promote a revival of pure and experimental Christianity in the National Church of Sweden: his own words are, in reporting to the Committee—"I repeat now what I have often said before, that the *revival*, not the division of the Swedish Church, is the most desirable event that could take place here; and if we can by our unsectarian, disinterested, self-denying labours, contribute to such a result, we are doing a great work, and must not come down to the suggestions of the narrow-minded, for if we do, the work will undoubtedly cease. The moment we move a hair's-breadth from the purely catholic

position we occupy, we lose that extensive influence with which God has entrusted us in the land, and your Missionary shrivels into the despicable head of an insignificant party."

**GERMANY.**—The indefatigable exertions of the Society's Agent at Winnenden, in the kingdom of Wirtemberg, are still signally accompanied by the Divine blessing. Upwards of 250 persons have been added to the Society during the past year. 41 Preaching Stations—703 members.

In **FRANCE**, an unusual measure of success has been vouchsafed to the labours of the Missionaries, and the Societies have had a net increase of 215 members. We have in this country 8 principal stations, 19 Missionaries, 946 members in the Society, and 1055 children in the Schools.

**SPAIN.**—The hope which the Committee last year ventured to express with regard to Cadiz, has not been realized. The influence of the Popish Priesthood has prevailed upon the government to banish the Society's Missionaries from the place; but several of the Spaniards have furnished proof that they have not received the grace of God in vain, and the commencement of a work has been made which, it is fervently hoped, persecution may not be able to destroy.

At **GIBRALTAR**, both the English and Spanish departments of the work are in a prosperous state: one of the Missionaries writes—"The English Society has not been in so good a state as it now is, for the last eight years, at least, for so long I have known it. A spirit of love pervades it—the brethren dwell together in unity, and the unction of the Holy Spirit is manifest among them at all their meetings;" and of the Spanish Department, "The congregation never was so large, and the public feeling of all classes (Priests, &c.,) never so favorable." We have here 3 Missionaries, 93 members in the Society, and 214 children in the Schools.

In **MALTA** the Missionary has to contend with many difficulties, but he is encouraged by the tokens for good which are vouchsafed to his Ministry—1 Missionary and 75 members in the Society.

#### MISSIONS IN CEYLON AND CONTINENTAL INDIA.

In the **SINGHALESE DISTRICT** there has been an increase of 72 to the number of members, chiefly from the native population,

making the total number in Christian communion with the Missionaries, 741. There are 5 English Missionaries, 9 Assistant Missionaries, (all natives of the Island, and the fruit of Missionary teaching;) 15 local Assistants, whose labours are directed by the Missionaries, 71 Schools, 3,434 children, and 84 Teachers, all supported by the Society. Kandy, the capital of the interior of the Island, has recently been occupied as a Missionary Station, which it is hoped will result in some important consequences to the welfare of the Island in general.

In the TAMUL DISTRICT, there are 4 principal Stations, 3 Missionaries, 5 native Assistants, 134 members in the Society, 47 salaried School Teachers, and about 2,000 scholars in the Schools.

On the CONTINENT OF INDIA, the Missionaries are pursuing their arduous task among the various tribes and classes of the Inhabitants among whom they are placed, with unabated zeal—resting on the Scriptural assurance that the Son of God shall have these Heathen nations for his inheritance, and the uttermost parts of the earth for his possession. Two very promising young men have been added during the year to the number of Assistant Missionaries. The Committee rejoice in this increase of the native Ministry, as affording a pledge of future prosperity—an indication of the approach of the set time to favor the land in which these Evangelists are to labor. *Mr. Bachelor writes*—“In one village, about a mile and a half from the Mission House, the people through hearing the Gospel, have entirely given up the worship of idols, and will shortly, it is expected, make an open profession of Christianity. One morning, after preaching to them, Mr. Jenkins, Mr. Arthur and myself, went to the temple where they had been accustomed to pay their daily devotions, which presented evident signs that it had been forsaken, and left as a habitation for ‘bats.’ On entering the inner apartment of the temple, we beheld a stone about 3 feet in height, with the figure of a monkey carved upon it. The place was most offensive, doubtless it had been uncleaned for several months. On returning home, we met some of the villagers and told them that we had been to see the god which they had formerly worshipped, and that we found it a *piece of stone*, which could do them no good. They laughed, and said they did not now worship idols. In several of the other villages which we visited, the deeply-rooted prejudices of the people are evidently giving way before the force of truth and the power of the Gospel. We felt thankful and praised God.”

From NEGAPATAM, *Mr. Griffith writes*: “The field which is before us seems to be very disproportionately greater than

the amount of labour put forth in it. I cannot forget the one hundred millions of souls, and the three hundred and thirty millions of gods of India. But vast as the field is, it ought to be made known for your encouragement, that Missionary exertions are not without effect—that our planting is not without produce. There is enough already visible to lead us to calculate confidently on reaping a large and rich harvest.” In Continental India we have 9 principal Stations, 16 Missionaries, 5 native Assistants, 24 salaried School Teachers, about 400 members in the Society, and about 1,400 children, chiefly native Hindoos, in the Schools.

#### AUSTRALASIAN AND POLYNESIAN MISSIONS.

Through the liberality of the General Centenary Committee, a vessel has been purchased and equipped for the purpose of keeping up regular intercourse among the Missionaries in New Zealand, and in Polynesia, respectively, and between those stations and the colonies. The “Triton,” having on board eleven Missionaries, eight of whom were married, and a large supply of Mission Stores, sailed from Bristol in October last, and reached the Cape of Good Hope in safety, in the month of January.

IN NEW SOUTH WALES, the progress of our Mission has latterly been very considerable; new Chapels are rising up, new Societies and Congregations are in the course of formation, and loud calls are made for additional Missionaries. We have now in this colony 6 principal Stations, 6 Missionaries, 308 members in the Society, and 589 children in the Schools.

IN AUSTRALIA FELIX, SOUTH AUSTRALIA and WESTERN AUSTRALIA, Missions of the Society are in successful operation.

VAN DIEMEN'S LAND has 6 principal Stations, 12 Missionaries, 570 members in the Society, and 922 children in the Schools.

NEW ZEALAND has 10 Stations, 16 Missionaries, 1,263 members in the Society, besides 590 candidates for admission.

THE FRIENDLY ISLANDS—3 principal Stations, 9 Missionaries, 8,366 members in the Society, and 8,217 children in the Schools.

FEGEE—4 Stations, 7 Missionaries, 273 members, and 77 Schools, containing 720 Scholars.

## MISSIONS IN SOUTHERN AFRICA.

CAPE TOWN DISTRICT—4 Stations, 7 Missionaries, 276 members, and upwards of 1,000 children in the Schools.

The ALBANY and KAFFRARIA DISTRICT—15 Stations, 18 Missionaries, 12 salaried Schoolmasters, 936 members, and 2,229 children in the Schools.

The BECHUANA DISTRICT—10 Stations, 8 Missionaries, 10 salaried Schoolmasters, 380 members, besides 109 persons who are candidates for admission, and 491 children in the Schools.

## WESTERN AFRICA.

SIERRA LEONE—3 Stations, 4 Missionaries, 22 salaried Schoolmasters, 1,940 members, and 1,035 children in the Schools.

The GAMBIA—3 Stations, 4 Missionaries, 4 Assistant Missionaries, 634 members, and 235 children in the Schools.

GOLD COAST—3 Stations, 3 Missionaries, 630 members, and 250 Scholars.

WEST INDIA MISSIONS—There are six Missionary Districts in the West Indies—Antigua, St. Vincents, Demarara, Jamaica, the Bahamas and Hayti. In these six Districts there are 50 principal Stations, occupied by 87 Missionaries. The total number of members in the Society is 48,035, being a net increase during the past year, of upwards of 5,000; about 50 salaried Schoolmasters, and 19,529 children in the week-day and Sunday Schools.

The contrast between the present state and the past history of the Society's Missions in the West Indies, exhibits a striking accomplishment of the prophetic promise, "They that sow in tears shall reap in joy." Long before the wrongs of the West India negro had called forth in his behalf, that manifestation of the national philanthropy which has since cheered and sustained the advocates of his civil rights, the Missionaries of the Society were silently toiling for his spiritual benefit. To administer to the victims of oppression, the consolations of religion, they generously submitted to the severest privations and hardships, in a climate unfriendly to European life, and braved those storms of persecutions which originated in the conviction of some slave-holders, that the teaching of the Missionaries would undermine and ultimately destroy the system of slavery. But the

dark night of the West India Missions has passed away, and the Missionaries who fell in the strife have had their reward. In that world where the voice of the oppressor is not heard, they have met multitudes who were saved by their instrumentality from the bondage of Satan and sin; and those of the Missionaries of a former day, who yet survive, are rejoicing that "The word of the Lord has now free course and is glorified."

### INDIAN AND OTHER MISSIONS IN BRITISH NORTH AMERICA.

The Society's important Missions in British America, are still conducted with unabated perseverance, and through the blessing of God, with undiminished success in the conversion of the ungodly to the faith and holiness of the Gospel; and it is to be hoped they are an instrumentality which will yet be rendered a more considerable source of blessing to those valuable Provinces of our United Empire.

In our own Province of Canada, our labourers are enabled to preach very extensively among the destitute settlers, and are often hailed by the people of this new country with grateful affection, as they from time to time carry among them the unsearchable riches of Christ: and the beloved members of their several Missionary flocks evince their attachment to the glorious Gospel of the blessed God, by a very encouraging advance in the amount of their generous contributions both towards the support of their own ministry and in aid of the objects of the Society among the purely pagan countries of the world.

The truly Christian department of those interesting fruits of Missionary zeal, which God has given us among the Aboriginal Indians of this Province, continues to gladden the hearts of those who are employed in promoting among them the kindred interests of Christianity and civilization.

A brief review of the different Indian Missions under our care, would afford our numerous friends additional encouragement and motives to maintain and increase their interest in this cause of truth and charity. But we can only find place for noticing one of them, which, however, may be taken as a fair specimen of the other remaining Stations among the Red Men. The following is extracted from the last printed Report of the Revd. Joseph Stinson, the Superintendent of the Indian Missions: "The Indians at Aldersville have, during the past year, been, when at home, very attentive to all the means of grace, regular in their family devotions, industrious in their habits, and have evinced a growing desire to give themselves up to the influence of that godliness which they more than ever feel and prove to be pro-

fitable for all things, having the promise of the life that now is, as well as of that which is to come.

“ At ALDERSVILLE, we have a *Day* and a Sabbath School, of about 30 children, the former being taught by an Indian youth. On this Mission we have tried, on a small scale, the system of manual labour education. We have 14 acres of land cleared, fenced and under cultivation—13 cows, a number of hogs, and other stock. The number of young people whom we have thus instructed is, fifteen girls and six boys—the former spend six hours in the School, and the same time each day in knitting, sewing, plating bonnets, and in the duties of the dairy; the boys spend the same time at school, and six hours in the fields and in other useful employments. It is impossible for any person to see the neat and clean apparel, healthy countenances and orderly conduct of these young people, without being convinced that the manual labour system, is that which, above all others, is calculated to promote Indian improvement, and without regretting that our funds will not admit of our carrying out this system upon a more enlarged plan.”

In the TERRITORY OF THE HONOURABLE HUDSON'S BAY COMPANY, in the far distant North West country, the Parent Committee in London, have been encouraged to commence their Evangelical operations, and 4 Missionaries have entered on their arduous toil during the past year. From the Honourable Company itself, the most encouraging sanction has been received,\* and the Governor has given us the kindest assurances of his willingness to afford us all the assistance in his power, in the prosecution of our work.

In CANADA the Society has 27 principal Stations, occupied by 36 Missionaries.

In NOVA SCOTIA—13 principal Stations; 16 Missionaries.

In NEW BRUNSWICK—17 Stations; 25 Missionaries.

In NEWFOUNDLAND—11 Stations; 12 Missionaries.

In the TERRITORIES OF THE HUDSON'S BAY COMPANY—4 Stations; 4 Missionaries—making in all, 94 Missionaries, including 4 Supernumeraries, in the immense regions of British North America.

\* Such is the desire felt by this distinguished Body for the propagation of Scriptural Truth amongst their Agents and Servants, as well as the Indian tribes within their Territories, that they have agreed to provide for the Missionaries which the Committee have sent, or may hereafter appoint, whether married or single, board and lodgings, interpreters, servants and the means of conveyance from place to place, free of all expense to the Society. In addition to this, the Governor and Committee have spontaneously contributed £100 towards the amount of passage money, paid for the three Missionaries who sailed from Liverpool, on their way to their Territories, in March last.

Our brethren too, in the UNITED STATES OF AMERICA, are putting forth all their energies to increase the stability and extend the influence of vital Christianity, not only throughout their own national Union, but they are sending their agents to Africa, to Texas, to South America, and to the shores of the Pacific; and are thus nobly carrying out the diffusive principle of our beloved and honoured system.

Thus may we still proceed  
In Jesu's work below,  
And following our triumphant Head,  
To farther conquests go!  
The vineyard of their Lord  
Before his labourers lies,  
And, lo! we see the vast reward  
Which waits us in the skies.

QUEBEC, 12th October, 1840.

### SUMMARY.

The Society has sent out since the last anniversary, forty-six ordained Missionaries; thirty of them are married, and some of them have been accompanied by their children. One additional Schoolmaster has been sent to Western Africa.

Four Missionaries have died during the year; to which mournful loss of valuable Missionary life must be added that of seven excellent females, the wives of Missionaries, some of whom were useful labourers in the cause of Christ among their own sex, and in the Mission Schools.

The *Principal* or *Central* Mission-Stations occupied by the Society, in the various parts of the world now enumerated, are about *two hundred and forty-five*. The Missionaries are *three hundred and seventy-one*, besides Catechists, Local Preachers, Assistants, Superintendents of Schools, Schoolmasters and Mistresses, Artizans, &c., of whom upwards of *three hundred* are employed at a moderate salary, and about *four thousand* afford their services gratuitously.

The number of Communicants on the Mission Stations, according to the latest return, is *seventy-eight thousand, five hundred and four*, being an increase of *five thousand, seven hundred and seven*, on the number reported last year. This total does not include the number under the care of the Missionaries in Ireland.

The number of the Scholars in the Mission Schools is *fifty-five thousand and seventy-eight*.

The *Contributions to the Funds of the Society*, during the year, were:—

1.—Total regular income from Receipts in Great Britain and Ireland.....	£68,602	13	6
2.—Do., Receipts from Foreign Auxiliary Missionary Societies....	12,945	10	9
3.—Legacies.....	2,672	19	10
4.—Crown and Parliamentary grants in the West Indies, Canada, and Australia.....	3,382	2	6
5.—Sundries.....	5,094	3	1

Making in all.....	£92,697	18	8
Income of the previous year.....	84,818	12	2

Net increase the last year.....	£7,879	6	6
---------------------------------	--------	---	---

The total Expenditure of the Society has been £104,017 6s. 1d., which was very greatly augmented by the sending out an extraordinary number of additional Missionaries to various parts of the World; and which, together with the deficiency of the previous year, had left an alarming debt of £20,871 19s. 9d.

The Parent Committee, however, trust by the blessing of God, and the liberality of a Christian Public, that even this difficulty, large as it is, will meet with a timely removal, so that they may be enabled still further to extend and promote the kingdom of Christ in the earth.
