CHATHAM, - - - NOVEMBER 8, 1883.

Storing Cereals.

Yield says—Cereals that are to be mostly kept over for another season may be allowed to remain out as long as the weather will permit, and sometimes this is quite late. Last fall, our plants remained unharmed until the first of November...

Storing Cereals.

There is nothing more productive of disease in a neighborhood than bad drainage. Open the culverts and sluiceways and purify the locality. The obstructions in the human system may be remedied in a similar manner by Burdock Blood Bitters, which opens all the outlets of disease through the bowels, Liver and Kidneys.

Storing Cereals.

Artificial Milk is the next threatening competitor of the dairyman. And knowing what is known of the activities of the chemists, who are substituting for natural products the most odious and wonderful products of their inventive skill, it is not at all unreasonable to look for artificial milk. Already a substitute for milk is made in England for feeding young calves. It is sold under the name of lactina, and is said to be much cheaper and better than the milk of the cow. It has been introduced and used now for some years, and the demand for it has increased so much that a company has been formed with a large capital for its manufacture in Scotland. It is but a transition from feeding calves, to other purposes as an article of food, although it may not serve for the cheese-making. But as excellent cheese has been made from pasteurized and the cheese factoryman's occupation will not be gone although the cows may be "dairy."

Storing Cereals.

Every Spring.
HOW AN AFFLICTING ANNUAL VISITOR WAS DRIVEN FROM A WEARY WOMAN.
Plain and simple mechanics are not liable to get out of order. Complicated watches, intended not only to keep the time of day, but to mark the movements of the moon and stars, are certain to need frequent repairs. Husbands and fathers often fail to see that their wives and daughters are more delicately organized than themselves, requiring corresponding care when they are well and assistance when they are ill. Yet much better for a woman's life system is a trustworthy medicine, ready at hand for use than that of tinkering by semi-educated local practitioners.

Storing Cereals.

WOODEN BORGANES—The named Staff-cliff in N. J., some time ago constructed a small steamer, having an ale oak for a boiler. He made an experimental trip up and down the Passaic River at Paterson, and fastened the boiler to the deck, and after the fire, as he thought, but after he left, it started up, and in the evening, while no one was on board, the ale oak exploded, sending the men of the steamer a hundred feet skyward. The boat was demolished, but no one injured.

Storing Cereals.

Another Witness.
A. Chard, of Sterling, testifies to the efficacy of Hygar's Yellow Oil, which is used for a badly injured knee joint. It is the greatest household remedy for inflammation, pain, soreness, lameness etc., and is used both internally and externally with infallible success.

Storing Cereals.

A Wrong Opinion.
Many a dollar is paid for subscriptions for some disease that never troubled the patient, and when the sole difficulty was worms, which a few of Freeman's Worm Powders would remove. These powders are pleasant, safe, and sure, contain their own cathartic, and are adapted for children or adults.

General Business. Special Attention! LADIES' UNDER VESTS. BLACK CLOTHING, Black Costume Cloth, NEW HATLET CLOTH, B. H. FAIRBANKS.

BUSINESS NOTICE. The "Miramichi Advance" is published at Chatham, N. B., every Thursday morning in time for despatch by the earliest mails of that day.

Miramichi Advance. CHATHAM, NOVEMBER 8, 1883.

A New Volume. The Advance enters, this week, on a new volume, its ninth year having ended with the issue of last week.

The paper has been established on its present satisfactory basis at no small sacrifice to its founder—a fact not to be wondered at when the fate of the half dozen or more Chatham journals which brought only failure to those who established them, is remembered.

A LOGICAL PROPOSITION.—It has been hinted that the lumber would be compelled to ask the Government for a drawback. If cotton and one or two other articles are made much dearer this will have to be done.

The Pay of Teachers. The Telegraph says,—"Dr. Rand has left a legacy to the Education Department in the shape of a demand by the teachers for an increase of pay.

Characteristic Work. A correspondent writing from Rogersville shows that a little wholesome organization and discipline is required in that parish.

Unsettled Cuba. A cable special to the New York Herald, dated Paris, Nov. 3, says the Spanish Government has received a report of grave importance from Cuba.

Count Kenton Notes. Sch. Morning Star, 30 tons, of Miramichi, has been sold to Anthony Arnesen and Thomas Arnesen of Richibucto for \$450.

Notice to Mill Owners. THE Subscriber is prepared to furnish his PATENT LOW CARBIDE SHIPING MACHINE, to any parties requiring.

As a whole, were to turn the tables on the ultra-French committee from Rogersville and tell that the parish should not receive any consideration until it had sent men of the same national stripe as that of the large majority of the board, to represent them.

Business Notices.
The ADVANCE is open for business every week day, and every week-day.
It is open for delivery of papers in the morning, and local country subscribers will, therefore, please call for their papers at the delivery window before 9 p. m.

Advertisements.
The insertion of advertisements can only be assured each week by their reaching the office before 10 a. m. on Tuesday.

Miramichi and the North Shore, etc.
LETTERS are high-priced this fall.
GODS SORTING has not been satisfactory during the past fortnight. The weather has been too fine.

THE SQUARE.—List of additions to the trees planted in the Public Square did not reach us in time for this week's paper.

A CORKING CLUB. with K. F. Burns, Sec. M. P., as Patron; R. L. Johnson, President; J. E. Baldwin, Secretary; Treasurer, has been formed at Bathurst.

DRIVING PARK.—A Driving Park Association was formed at Chatham. The first meeting with Dr. Duncan as President. The capital stock, \$2,000, was nearly all subscribed.

BATHURST.—The Bathurst school complaints must be more clearly explained before the ADVANCE can notice them. Correspondents ought to write in a reasonably calm tone when addressing the papers.

SUDDEN DEATH.—Hugh Dempsey, belonging to Salmon Falls, was killed by a falling piece of wood on Monday evening, while engaged in the supper at W. Ryan's; cause said to be heart disease.

TO DAY.—is proclaimed a Public Thanksgiving Holiday by the Lieutenant Governor of New Brunswick. All the leading stores in Chatham are understood to be closed for the day.

BATHURST VILLAGE SCHOOL CHANGERS.—Mr. Donald McInnagh, late of Chatham is in charge of the High School, Bathurst Village, succeeding Mr. Barshaw. Miss McKenna of Richibucto, but late of Newcastle succeeds Miss Burns, who has been obliged to retire on account of ill health.

NEW MILL.—Mr. John F. Carter, of Bathurst, has recently built a new saw mill, 80 by 38 feet. The machinery, which is the same as was in use in the old mill, has been re-erected and repaired. Mr. Carter is adding a box and shingle machine and planer, and expects soon to commence operations for the winter.

THE PHTHISICAL SECTION.—The Motion Times of Saturday says—Mrs. McCann is improving very fast, and her ultimate recovery is now fully assured. We are sorry to receive the sad tidings of the death of a young man, whose untimely death is still shrouded in mystery; but the determination is expressed by officers having charge of the search to ferret out the perpetrator of the dastardly act if possible.

A MUSICAL PRODIGY in the person of Miss Helena G. Orlow, from Kingston, Kent Co., N. B., paid a visit to the American Exposition during the past week. She is but ten years old, and plays on the piano with the ease of one of twice her age and experience, and reads some of the most difficult music at sight. She is also thoroughly conversant with the French language. Her visit to Boston is for the purpose of attending to the music of her father's estate under the supervision of our leading teachers. *Bathurst Herald.*

DEATH OF MR. GEO. ROBERTSON.—Mr. Geo. Robertson, son of the late deceased Collector of Customs at Moncton, died yesterday morning. About a week ago his father died but it was only a few days ago that he received the sad intelligence. The patient expressed a belief that he would not long survive his father. Deceased was 25 years of age, and was very popular both in Moncton and this city. He held a foremost position in athletic exercises, and is credited with having been the best skater in Moncton or Newcastle. *Globe of 8th.*

THE BALL to be given by Mr. John C. Brown in the Masonic Hall, Richibucto, on Wednesday evening, 7th inst., the occasion being the opening of the Kent Northern Railway for public traffic—promise to be a grand affair. The hall to be used has been fitted up and decorated in the most elaborate and artistic manner reflecting the highest credit on Mr. E. E. Flandy, under whose personal supervision the work has been performed. The evening event promises to surpass anything of a like nature previously known on the North Shore. The entire affair is at the expense of Mr. Brown, the contractor for building the road. *Globe.*

SHOOTING ACCIDENT.—On Thursday evening last Mr. Dan'l Desmond, of Chatham, was driving at a brisk rate down the street below the Miramichi Foundry and Mr. Michael Rosayne of Nelson was driving out of town, on his way home, the two wagons collided. Mr. Rosayne was not seriously hurt, but as Mr. Desmond's male broke clear of the wagon and he retained his hold of the reins, he fell over the dashboard and fell victim to the horse's head. Mr. McDonald, who was driving just ahead of him, hastened to his assistance and found him stunned and bleeding. On examination Mr. Desmond's forehead was found to be almost stripped of flesh, which was torn from the cheek-bone upward, then across and downward to the opposite brow. The doctor laid the flesh back in its place as nearly as possible and bound a handkerchief about the injured man's head, after which he was driven home where necessary medical attention was bestowed upon the case. We are glad to learn that the wound is healing and that Mr. Desmond is quite recovered from the shock.

THE SPANISH STUDENTS appeared in Masonic Hall, Chatham, on Thursday evening last and had a large audience. Their music was listened to at first with attention by all, and was appreciated, but as the entertainment lacked sufficient noise and ability to commend it to the "back benches," the more respectable portion of the society was prevented from enjoying the latter part of the programme, by the rudeness of those who did not wish, themselves to hear and were too uneducated to permit others to do so. After one of the young men engaged in distributing the audience was removed by a policeman, better order was observed. Mr. Steadman's singing was very acceptable, but the soprano soloist was not so good. If the distribution of the notices under the door had been expressed over this lady's performance it might have been pardoned, but the keeping up of general conversation by a dozen or two persons while the students' really excellent music

was being executed was not creditable. On Friday evening no few attended that the entrance-money was refunded and there was no performance. The hoodlums did not go and other people remained away securing a reputation of the Friday night's excitement with the gentlemen of the back seats.

A Town Band.
The want of a band—regularly organized on a permanent basis and under the control of a competent committee of citizens—is often felt in Chatham and, to encourage those who will take hold of the matter, the Chatham Club, at a meeting held on Monday night, voted the sum of \$30 to be given towards the purchase of instruments, etc., as soon as the enterprise is taken hold of in a practical manner. Chatham has very good players and a competent band-master. There are also a number of instruments that might be made available, while contributions to an extent necessary to meet the expense of new pieces needed are, no doubt, obtainable. Let the enterprise be taken hold of at once and put through!

Mr. James A. Hay was driving from Nelson on Monday night last and had reached the bridge over the creek at the head of Morrison's boom one of his mare's hind feet went through the planking of the bridge. As it did so the animal sprang forward and fell over, breaking one of the wagon-shafts. At the same time Mr. Hay was thrown upon the railing of the bridge and barely escaped being precipitated into the creek below—a distance of nearly twenty-five feet.

Mr. Hay, who was driving just ahead of him and sent word to his uncle, Mr. Geo. Hay, at Chatham, that his team was disabled. When the latter gentleman reached the bridge he examined the leg and found the hoof so tightly jammed in it that it had to be pried out. The poor beastly rear by with the stump from which the foot was torn, bleeding profusely. Mr. Hay, who was driving just ahead of him and sent word to his uncle, Mr. Geo. Hay, at Chatham, that his team was disabled. When the latter gentleman reached the bridge he examined the leg and found the hoof so tightly jammed in it that it had to be pried out. The poor beastly rear by with the stump from which the foot was torn, bleeding profusely. Mr. Hay, who was driving just ahead of him and sent word to his uncle, Mr. Geo. Hay, at Chatham, that his team was disabled. When the latter gentleman reached the bridge he examined the leg and found the hoof so tightly jammed in it that it had to be pried out. The poor beastly rear by with the stump from which the foot was torn, bleeding profusely.

CHARIE McLAGG.—The Pupils of Miss Hickey's school presented her with an address and elegant album, on the occasion of her departure from affected and addressed them briefly, thanking them sincerely for their kindness. The address was read by Miss George Elliott, Master Chas. McLaughlin presented the album.

PRESENTATION.

SEVERE ACCIDENT.—A Horse's Foot Torn Off.
As Mr. James A. Hay was driving from Nelson on Monday night last and had reached the bridge over the creek at the head of Morrison's boom one of his mare's hind feet went through the planking of the bridge. As it did so the animal sprang forward and fell over, breaking one of the wagon-shafts. At the same time Mr. Hay was thrown upon the railing of the bridge and barely escaped being precipitated into the creek below—a distance of nearly twenty-five feet.

and Michael Bradford. The vote stood as follows:—
Williston, 66.
Sullivan, 89.
Fowling, 82.
Bradford, 20.
It appears that Mr. Fowling expected, by promises made to him, that he would get a large vote with Sullivan, but Sullivan's friends voted for him and his name is regretted as now expressed that Mr. Fowling was defeated, as he was a very good councillor. Mr. Bradford was an unknown man to the greater part of the voters, who had never seen him on election day, but by gentlemanly behavior on that day he made a decidedly good impression. Mr. Williston has reason to feel proud of the large vote he polled showing that his popularity in Hardwick is not to be questioned.

Ring," essay by Miss M. Tillich, "Gunsier;" essay by Miss M. O'Keefe, "Gunsier;" "Midnight Ecstasy," by Miss M. Bardeen. After grade VII. and grade VIII. were examined in Natural History and Botany Miss Jeanette Overton read an essay on "Sensit." Grade V. answered readily questions in Canadian History and geography. Recitation by Miss Besie O'Keefe. Grade VIII. answered correctly the geographical questions of Europe, read by Ida Hickey.

Five graduates who go to the Normal School this week, came before the examiners, when Miss Nellie Walsh read, in a very affecting voice, a Valedictory. The song "The Old Home" was sung, and closed the examination. Father Bannon addressed the pupils at length, congratulating teachers and pupils on the work that had been done during the session. Mr. F. P. Connor spoke briefly on the success of the examination. Miss Quinlan needs no eulogium, as her pupils speak for her at every examination and at training school. The promptness and correctness of the answers to the questions, and the essay of the young ladies were highly praised by the visitors. The examination was a success in every way, the music, instrumental and vocal, being well rendered.

will take the matter in hand and have a paper record made of events that have occurred in the past.
A holiday of nine hours was carried out by many portions and spots in the ennobling woods about you; never will I forget the many happy hours I have passed there; it seemed a new world, with its beauties all around; and when, having occasion to look over specimens that I have collected now and again, I shall, in particular, think of the place, and of the people who have shared such good success.
On the base of the clock there is a silver plate bearing the inscription,—
"Presented to Frederick MacKenzie, Esq.,
Manager of Bank of Montreal,
by the
Citizens of Newcastle, N. B.,
in token of their appreciation of the interest shown by him in all objects pertaining to the welfare of the Town."
Nov. 1, 1883.

Signs of Winter's Approach.
Blue-noses.
Cold sores.
Fell overhooves.
Snow in the streets.
Fog once a week.
Fishing excursions wane.
Potatoes are being laid in.
Apples appeal to the appetite.
Elliots, and the essays of the young ladies were highly praised by the visitors. The examination was a success in every way, the music, instrumental and vocal, being well rendered.
