SUNDAY SCHOOL WORKERS IN ANNUAL CONVENTION

St. John County Association
Meeting Today—Encouraging Reports Received for the Work of the Past Year.

The annual convention of the St. John County Sunday School Association opened at 2:30 this afternoon at Queen Square Methodist church. The programme for the afternoon included the usual routine work opened at 2:30 this afternoon at Queen Square Methodist church.

Mr. Harvey in beginning his address said that he believed that the work of which the convention formed a part was doing more for the advancement of the Kingdom of Christ than any other in the land. They realized that while much good had been done much was left to do. There were a number of weak schools in the county which he hoped would receive encouragement during the coming year.

During the year a new school was organized at Misepic with Mr. S. J. Thomas as superintendent. They are now endeavoring to arrange for the organization of a school at Cross Roads, near St. Martins.

Mr. Harvey told in an interesting way of his visits to the many different schools, and paid a tribute to the Bible School at the Boys' Industrial Home which he had visited in company with the Mayor.

It was encouraging to find that they have in the county a membership of about 11,000 which is about one-quarter of the Protestant population. He encouraged them to press forward, taking as their motto: "The whole church in the school and the whole school in the church."

During the year five meetings of the executive have been held. At most encouraging feature has been the organized Adult Bible Class work. Much interest has been manifested. Many men and women had been taking part who had before had no connection with any religious body.

Some of the churches have been. During the past year, devoting their evenings and part of the afternoons of an entire week to Sunday-school work, getting the different departments together with a good time of a social nature in view, in order that the workers may be better acquainted with each other and with the entire school.

Mr. Harvey, continuing, said he would recommend to the county president visit as many as possible of the schools during his term of office, especially the weaker ones, encouraging and assisting them.

Second, that the vice-presidents of the various parishes be requested to see in closer touch with the schools in their respective parishes and keep the county president informed as to their condition, so that the schools in question may receive assistance at the proper time.

Third, that superintendents and teachers' conferences be held from time to time during the year.

He would appeal to the schools to be more prompt in filling out their reports and handing them to their secretary.

In closing he wished to return sincere thanks to all who had assisted him. It was a pleasure to work for such a noble band of Christian men and women. He asked for his successor the same kindly cooperation.

SECRETARY'S REPORT.
The Secretary Miss Estey then submitted her report.

It showed that the Sunday Schools of the county had 1,069 officers and teachers and 9,447 scholars in good standing. There are five schools still to hear from, which will bring the total membership well above 11,000.

There are sixteen home departments with 67 members and nineteen cradle rolls with 752 members.

During the year just ended one hundred and nine members of the Sunday Schools had joined the churches. There are in the county four Teacher Training Schools with 88 pupils in attendance.

While the membership does not show any great increase the average attendance is much greater. With the five schools yet to hear from the average is 6,447.

TREASURER'S REPORT.
Mr. R. T. Hayes, the treasurer, then submitted his report. He had received a balance from the previous year of \$25.40. He had received \$27.50 from personal subscriptions and for Sunday School subscriptions \$22.50. This with the collection taken at St. Martins made the total receipts \$225.50.

DISBURSEMENTS:
Paid Prov. Treas. on per cent 05-06 pledge.....\$243.00
Stationery, etc.....12.60
Paid Prov. Treas. on per cent 06-07 pledge.....143.00
Total Disbursements \$498.60
This leaves a balance on hand at present of \$25.90.

COMMITTEES APPOINTED.
The following committees were appointed:
Nominating Committee: Robert Reid, Rev. W. Camp, H. White, W. J. Park, J. H. Thorne.

LABOR CANDIDATE TO CONTEST HYMAN'S SEAT

Nine Presbyterian Missionaries Being Sent Out This Year—Arrests Follow the Caledon Wreck.

LONDON, Sept. 19.—The Trades and Labor Congress have decided to nominate a candidate for the seat in the Commons vacated by the resignation of Hon. C. S. Hyman.

TORONTO, Sept. 19.—Nine new missionaries are being sent out this year by the Presbyterian foreign mission committee (western division). Four go to Misepic—Rev. and Mrs. T. A. Broadfoot, from Gladstone, Manitoba; Miss Rachael McLean of Toronto, and Miss Lillian Lemaire of Montreal, who is to become the wife of Dr. John McDonald, one of last year's party of fifteen.

Three are destined for Central Asia—Rev. J. A. Sheppard of Cambridge, Ontario, who sailed in June; Rev. Alex. Dunn of Calgary, Alta., and Miss Annie M. Nairs of Galt, Ont. Two sail for North Formosa—Rev. and Mrs. Duncan McLeod of Brandon, Man.

TORONTO, Sept. 19.—As a result of the verdict of the coroner's jury at the inquest on the death of the late Richard Bell, who came to his death in the recent railway accident at Caledon, stating that in the opinion of the jury "the said railway wreck was caused by the criminal negligence of the engineer, George Hedge, and Matthew Grimes, the conductor."

Messrs. Grimes and Hedge were arrested by Chief Elliott of the Toronto Junction, police last night at their homes on a coroner's warrant, charging them with criminal neglect. They were brought before magistrate Ellis, who remanded them until Saturday next.

SALVATION ARMY IS DOING DETECTIVE WORK

Search Has Been Instituted for a London Engineer Missing Since Last March.

NEW YORK, Sept. 19.—All the local branches of the Salvation Army have started a systematic search for Harry C. Dickson, the representative of a prominent London engineering firm, who disappeared from this city on March 22 last. Dickson's friends and employers in London appealed to the Salvation Army headquarters, stating that he was going to Wilmington, Del. He left his trunk at the hotel. Before he went he drew \$500 on his letter of credit from Cook's. Nothing was heard of him after he drew the money.

PRESENTATION TODAY TO MRS. DR. MANNING

Baptist Missionary Societies and Others Honor an Esteemed Associate Worker.

The members of the Baptist Women's Maritime Missionary Union are today tendering a farewell reception to Mrs. James W. Manning, honorary president of that body. The reception is being given in the Lennox street Baptist church and is attended by the members of the Union and also by members of the missionary societies of the other denominations. The reception is from three o'clock until six in the afternoon and during its progress Mrs. Manning was presented with a purse of gold as a mark of the appreciation and respect she enjoys in the estimation of the members of the Society.

The presentation was made by Mrs. David Hutchinson, president of the Union.

Mrs. Manning was for a number of years president of the Union and has been in this city for the past fifteen years. During her residence she has been most prominently connected with church work and the members have endeavored by their reception to show in some way the appreciation felt for her faithful work in all the societies with which she has been connected.

Mrs. Manning will leave next week for Wolfville, N. S., where her husband, Dr. Manning will be stationed. Her departure from the city will be a loss to the Baptist Church in the Province.

Credentialed Committee: R. R. Usher, Miss L. Carson, R. J. Cameron, A. E. Hamilton, M. R. Austin.

Committee on Resolutions: A. A. Wilson, R. T. Hayes, Rev. W. Camp.

After a short musical programme had been carried out, the session closed with prayer, to be resumed this evening at 7:45.

NO MORE CRIMINALS SHIPPED TO CANADA

Stratheona Blocks This Popular British Custom

Chinese Leave Vancouver—Canada's Position in Negotiations With France—New Varieties of Grain.

VANCOUVER, B. C., Sept. 18.—A large number of Chinese and their families are preparing to return to China on the steamship Montague. Many families have gone to New Westminster. This is a direct outcome of the recent riots.

WALKERTON, Sept. 18.—Three Lancaster brothers, found guilty of rioting and killing Philip Gilbert, on the same occasion, were sentenced to eight months in the central prison. Mrs. Thomas, charged with the rioting, was acquitted.

LONDON, Sept. 18.—The Standard says that by entrusting the negotiations of the Franco-Canadian treaty to Mr. Fielding, the government has taken a great step towards imperial unity. It rejoices to see a young nation proving its manhood by entering into the arena of nations, that being the real meaning of the Paris negotiations.

Lord Hugh Cecil writes to the press asking if it is true that Canada grants as little as Britain under the Australian tariff, pointing out that Canada "banged no doors on preference."

Cambridge scientists after eight years' tests claim to have created varieties of wheat and barley which will surpass in quality Manitoba hard grain, and increase the value of English grain by at least 10 per cent.

LONDON, Sept. 18.—Where indeed asks the Manchester Guardian, would Newfoundland stand in any negotiations with the United States while she conducts herself as an independent self supporting state instead of as a colony of the Empire. She would stand pretty much as Venezuela or Columbia stand, at the mercy of Washington. The difference between that and her present position is one that Sir Robert Bond should not forget, and is due to a very tangible imperial contribution made at no small cost and risk by the people of this island.

LONDON, Sept. 18.—Lord Strathcona some time ago drew the attention of the colonial office to magistrates deferring the passing of judgment on transgressors against the law on condition of their being sent to Canada.

The secretary of state replying said that if any such cases occurred again he would be ready to take steps to stop the practice.

THE SKIPPER HAD TAKEN HIS LITTLE DAUGHTER, TO BEAR HIM COMPANY

Fourteen Year Old Child of Capt. Mahoney of Parrboro Drowned on the North Shore.

MONCTON, N. B., Sept. 19.—A sad drowning accident took place last evening at the little north shore town of New Mills, fourteen year old Josephine Mahoney, daughter of Captain Mahoney, of Parrboro, N. S., being the victim. The little girl had accompanied her father on his trip on the schooner Lady Smith, which is being loaded with lumber at New Mills. They had gone ashore with a party, and in returning to the vessel last evening the little girl was steering. Just as she was reached she fell from the boat into the water. A sailor gallantly plunged in to her rescue, but failed, and the little girl sank into a watery grave.

HERBERT IRVING IS DEAD AT BUCTOUCHE

MONCTON, N. B., Sept. 19.—The death of Buctouche this morning of Herbert Irving removes one of the best known figures in Kent county, prominent Liberal, and well known all over the county. Deceased was aged eighty-five years and six months. He had been ailing for some time past, death being due to old age. He is survived by five sons and two daughters. The sons are James D. Irving of Buctouche; George D., of the I. C. R., Moncton; John A., of Buctouche; M. H. Irving of Buctouche, and R. A. Irving, barrister, of Buctouche. The daughters are Mrs. John Stephenson of Richibucto, and Mrs. Harry Hutchinson, Buctouche. Deceased was a native of Buctouche and had lived in Kent county all his life being a resident of Buctouche for a great many years. He was in his younger days a very successful farmer and carried on a general business. He was predeceased by his wife some eleven years.

WALTHY DOCTOR'S SON WAS A BEGGING CRIPPLE

Lost a Leg, and Having Quarrelled With His Father, Left Home—Were Reunited Today.

NEW YORK, Sept. 19.—Father and son, the former a wealthy physician, the latter a pauper, were reunited today on a charge of begging, having been reconciled as the result of the young man's examination by Magistrate Breen. The father is Charles A. Whitney. The son who has lost a leg and has been away from home for a year, owing to differences with his parent, is Lloyd Whitney, 22 years old. Magistrate Breen, who obtained the young man's story, remanded him to the prison connected with the court and thither the father drove early to obtain his son's release. When Dr. Whitney informed the magistrate that he was willing to take his son home, Magistrate Breen signed the discharge.

Then father and son met. They were closeted for nearly an hour and when they opened the door they were arm in arm. Father and son left the court room, got into a cab and went home together.

LITTLE BLAZE AT SACKVILLE

SACKVILLE, Sept. 19.—Fire was discovered this morning in the washroom of Amos Odgen's residence into which Prof. Miller, the new theological professor at Mount Allison, has lately moved. A liberal application of water extinguished the blaze before serious damage was done. The origin of the fire is a puzzle.

JAPAN IS KEPT BUSY IN PACIFYING KOREA

Annexation is Likely to be the Next Step—Fierce Fighting Has Been Going on for Some Time, and Losses Have Been Heavy.

TOKYO, Sept. 19.—The prospect of annexation by Japan seems again looming before the Korean people. Marquis Ito is quoted as saying that in view of the increasing gravity of the situation, it may be necessary to alter Japan's policy; that the present situation indicates that the entire people are unfriendly and if they persist in that attitude it will be "the last day for them."

WILL CARRY THE CASE TO THE PRIVY COUNCIL

Domion Coal Confident That Judge Longley's Decision Will be Reversed.

MONTREAL, Sept. 19.—H. A. Lovitt, senior counsel of the Dominion Coal Co., was seen at the Windsor today, but declined to make a formal statement. He is in conversation with James Reid Wilson and F. L. Wanklyn, and it is possible a statement may be issued this afternoon.

Mr. Lovitt when asked for an expression of opinion as to the next move of the Coal Company considering the judgment of Judge Longley, declared that an appeal would be first taken to the Supreme Court of Nova Scotia, and afterwards if it were found necessary, the case would be carried to the Privy Council in the event of the appeal to the local court failing. When questioned as to whether he was confident of the judgment of Judge Longley being reversed, Mr. Lovitt smilingly replied that if he were not confident it was hardly likely that an appeal would be taken.

Mr. Lovitt is accompanied by Mrs. Lovitt. It is expected that Mr. J. H. Plummer, President of the Dominion Iron and Steel Company, will arrive in Montreal in a few days.

MESSAGE WAS RECEIVED FROM GENERAL BOOTH

Hopes to Land at Rimouski Tomorrow—Toronto Band Will Come to the Provinces on Saturday.

A wireless message was received at the Army headquarters here today from General Booth's party stating that the steamer Virginia is now in the Gulf of St. Lawrence enclosed in fog but expects to land at Rimouski tomorrow morning. The party with the general, consisting of Commissioner Nichol, Col. Lawley, Col. Lamb and Brigadier Cox, will be augmented on the arrival of the steamer by Commissioner Coombes, Col. Lawson, recently appointed chief secretary for Canada, and Brigadier Howell, who will travel to St. John with the general's staff.

Col. Puzmiré, of Toronto, who has been in Chicago attending a convention of Prison Workers, will come direct to St. John to meet the party. He will arrive at noon tomorrow.

The staff band of Toronto, consisting of twenty-four pieces, and recognized as one of the finest bands in Canada, will arrive at noon on Saturday. The band will play here during the general's stay and will accompany him to Halifax and Moncton. It will also be present at sacred concerts in Sussex, Truro and Amherst, returning to Toronto by way of Montreal and Smith's Falls. This is the first trip of this band to the lower provinces.

YORK CONSERVATIVES SELECT CANDIDATES

Well Attended Convention Held This Morning—Confidence Expressed in Mr. Hazen.

FREDERICTON, N. B., Sept. 19.—The opposition to the local government in York met here at the county court house this morning. It was the largest gathering of its kind ever held here, there being some 200 delegates present. Every section of the county was represented. Mr. Hazen and Mr. Smith, M. P., were in attendance and delivered addresses. Each of the polling districts elected delegates to the nominating committee, and the latter afterwards met and nominated as candidates H. S. McLeod, J. K. Fincher, Thos. Robinson and John Young. The report of the nominating committee was made unanimously by the convention. The candidates delivered speeches, and a resolution was unanimously passed expressing confidence in Mr. Hazen's leadership and his policy. Mr. Hazen responded, and spoke in good form. The meeting adjourned shortly before one.

EIGHT WITNESSES IN THE COLLINS TRIAL

Were Heard Today But Nothing New Was Brought Out.

HOPEWELL CAPE, Sept. 19.—Eight witnesses were examined at the Collins trial up to noon today. The witnesses were: Aylesford Mitton, Mrs. Elizabeth Martin, Mrs. Ellen Moore, William Ferry, Joseph Joy, James Young, John W. Garland. The witnesses told of the movements of Collins on the day of the murder, August 20, 1906. They recalled the very conflicting stories Collins told those whom he met. No new evidence was elicited.

SHOULD KNOW WHAT THEY GIVE TO SICK PEOPLE

CHICAGO, Sept. 19.—By unanimous vote the National Association of Retail Druggists yesterday decided to warn all physicians against prescribing patent cures of whose ingredients they are ignorant.

A campaign of education is to be inaugurated to show doctors that they endanger their professional reputations as well as the health of the public when they recommend preparations of which the benefit is only hearsay.

Mr. W. Green, of 141 Duke street, who has been very ill with pneumonia is slowly improving.

POPE PIUS X. BANS MODERNISM

Tells Bishops to Tear Bad Books From the Faithful.

"Synthesis of all Heresies" in Movement He Condemns—Rigid Censorship His Remedy.

ROME, Sept. 16.—A special, enlarged edition of the Observator Romano, published tonight, gives the Latin text of the Papal encyclical. It occupies more than seventeen columns. No Papal utterance of Leo XIII. carried with it greater discouragement of advanced thought. Pius X. indeed contends that he is but following in the footsteps of Leo, whose public acts are liberally quoted in the encyclical. The clause enjoining the establishment of college censors in each diocese for the revision of the Catholic literature and newspapers of modernist tendency may be left in the hands of any pupil in the universities or seminaries. He adds: "Everything must be done to banish from your diocese every pernicious book. The Bishops are to be above all human fear, to trample all feebly imprudent under foot, and heedless of the outcry of the wicked, are to reiterate our prescription and to help with the progress of everything that can be called true science or erudition."

At the end of the encyclical the Pope says he foresees that the advocates of the church will represent it as the enemy of science and progress. "To this accusation," says the Pope, "we will reply by our actions."

"We have decided to act with all our power toward the foundation of a private institution which shall group together the most illustrious representatives of Catholic science. It will be its object to favor and help with the progress of everything that can be called true science or erudition."

There is much speculation as to whether the encyclical is aimed at one country more than another. Some regard it as specially directed against France, while others hold that it may be doubted whether the Pope was influenced by any national considerations. Modernism has great vitality in Italy itself, where many learned priests have been removed from professorial chairs in recent years for favoring it without any apparent effect in suppressing it. It is gravely questioned by sincere Catholics whether the present document has reached its mark. There are many who hold that if the encyclical is rigidly enforced it will lead to schism.

A summary giving the principal features of the document was issued earlier in the day. According to its terms, it is a most serious danger to the church and that the Pope must provide different aspects of modernism in philosophy, faith, theology, history, criticism and reforms, especially radicalism, as tending to destroy dogmas, callism, and doctrine. Hence modernism is a combination and synthesis of all heresies and must lead to heresy. It is unlimited curiosity, presumption, individualism, ignorance and disrespect of real Catholic science and discipline that have introduced modernism among the clergy and others.

The Pope recalls the work of his predecessor in stamping out these errors and finally orders that scholastic philosophy and theology be taught in all seminaries and universities in an eminently Catholic spirit. Bishops, he says, must also direct the clergy and believers from the modernist press and effect the establishment of a college of censors in every diocese to revise Catholic publications. Pope Leo XIII's prohibition of ecclesiastics from directing publications without a permit from their Bishop is confined and all collaborations are to be subject to censorship.

Secular congresses are prohibited, with rare exceptions, and when modernism, presbyterianism and hileism are excluded a council of vigilance is to

be established in every diocese against the diffusion of the errors in vogue and Bishops are to send reports to the Holy See. The encyclical condemns modernist aberration, not modern studies that are not in opposition to the church.

Pope Pius X. in this encyclical completes and puts into execution the work of defense and restoration his predecessor began. The encyclical also orders the dismissal from seminaries and Catholic universities of all teachers who profess moderate theories.

BAD SMASHUP LAST NIGHT NEAR MONTREAL

Brakeman Killed, Fireman Hurt, and Three Trains Mired up.

MONTREAL, Sept. 18.—One brakeman was killed and a fireman badly injured at a rear-on collision near Vaudeville station at 2.30 o'clock tonight in which three freight trains were mired up, six or seven cars damaged and one knocked into the river off the Vaudeville bridge. That the loss of life was not greater is due to the fact that the train which caused the rear-on collision was not going quickly and her engine did not leave the track. The dead man is Brakeman Robertson of freight train No. 883, which was moving east up to Vaudeville station, which derailed into the rear of No. 1243 which had stopped on the Vaudeville bridge and was just starting up again. At the same time No. 35, the Montreal freight, was stationed on the adjoining track, having stopped for a hot box. None of the cars attached to engine 883 left the track after collision with the freight train ahead, but four or five cars of the later train were derailed and knocked against No. 35 on the adjoining track causing one car attached to the later train to be knocked into the river. Robertson, the brakeman who succumbed to his injuries, had been severely and died before he could be brought to Montreal on a C. P. R. train. Fireman William Meier, of Montreal was caught between two cars, but is not thought to be fatally injured.

MISS ROSELLE, KNOTT WEDS.

Well Known Canadian Actress Marries Former Manager.

HAMILTON, Ont., Sept. 18.—The announcement has been made here this morning of the marriage of Miss Roselle D. Knott, the well known actress, to Ernest Shipman, her former manager. Both are former Hamiltonians, and are well known here. Mrs. Shipman has been married twice and her husband died, after which he married Edna Heat, from whom he obtained a divorce some time later. Mrs. Shipman has retired from the stage and is now in New York with her husband.

WELLMAN EXPLAINS.

Unusually Bad Weather Saved the Pole From Discovery by Balloon.

LONDON, Sept. 18.—A despatch to the Daily Mail from Tromsø says that Walter Wellman who has arrived there, says that when the north polar expedition of which he was the leader, was organized, he announced that it might continue for three years. He did not expect to achieve anything the first year beyond establishing a plant. He did hope to reach the pole the second year. He would have been able to do so except for the phenomenonally bad weather. It remains to be seen whether the third year will be favored by normal conditions.

BOY PLAYING WITH MATCHES CAUSED LOSS OF BARN AND HORSE.

WOODSTOCK, N. B., Sept. 18.—This afternoon Adolphus Grant met with quite a heavy loss by fire which caught in the barn and so rapid was the spread of flames that a valuable mare could not be gotten out and perished. The barn and contents were destroyed. The fire caught from matches in the hands of a small boy, insurance \$500.

LONDON TIMES MAN HAS GOOD WORDS FOR CANADA

MONTREAL, Sept. 18.—A Canadian A. P. cable from London says:—The Times publishes the first article of its representative who has returned to England after a tour through the Dominion of Canada with the journalists' party who traveled under the auspices of the Canadian Pacific Railway. The article deals with immigration. Commenting editorially, the Times refers to the ignorance of Canada still prevalent here, and adds that there is probably no country in the world wherein conditions for prosperity are so completely within the reach of any man or woman who will grasp them. The Times also refers to the labor question and says in new as well as old countries, men who work with their hands seen sometimes in need of being reminded of their citizenship and their duties. Also who also work with their brains. After dwelling on this point, the paper concludes: "If the Canadian ship of state is to make a prosperous voyage officers are fully as essential as the crew. If they were not forthcoming the good would be foregone. It is not difficult of attainment. Canada is fortunate, at least in having among her leaders on both sides of politics and representing both sides, statesmen tried in experience and of approved patriotism and sane importances."

To Builders--Contractors.

For Sale, good condition, Terra Cotta Partition Bricks, 4 and 6 inch; also Planks and Boards.

A BROTHER'S DYING WISH.

His Last Thoughts Were Concerning His Sister's Wedding Day.

LONDON, Sept. 18.—A pathetic human story is hidden beneath the following marriage announcement:—HEASMAN-COATES—On Saturday, Aug. 31, by her brother's special request, at St. Andrew's Church, Epsom, by the Rev. Edward Forbes, Harold Montague Heasman, only son of William Heasman of "Sunnydale," Keston, Kent, to Edith Winifred Coates, daughter of Walter S. Coates of "Westside," Wellington Road, Bush-hill Park. It is the story of a brother's fondness for his sister and his desire that nothing should interfere in any way with her happiness. Mr. Coates, the bride's young brother, aged twenty-four, was seriously ill with consumption. Though an invalid, he took great interest in the wedding and delighted in doing his part in making the arrangements. But gradually he grew worse, and one day he knew that his end was near his constant request was, "Don't let anything be altered because of me. The very day before he died, a little more than a week before the wedding day, he said to his nurse, "I do hope they will not alter the day." It was in fulfillment of her dead brother's wish that the bride consented to the ceremony being solemnized on the date fixed. All the original invitations were cancelled, and only the immediate relatives of both parties were at the church.

WEST SIDE WORK.

Some three years ago the attention of the common council was drawn to the fact that the Sand Point berth was not of a sufficient depth for the accommodation of large steamers. This, although backed by the strongest proof, was absolutely denied by the aldermen. The Star and others insisted that cleaning up was necessary, and soundings were taken by a city official. His report was presented in the summer of 1903, and the aldermen then in office, the majority of whom are still at the board, persisted in declaring that the berth was in every way satisfactory, yet that report, which was never given to the public, shows that only two soundings, out of the hundreds made in the sixty-foot strip along the face of the wharf, gave a depth of twenty-nine feet. The average depth was twenty-four feet, and there were large sections over which only twenty feet at low water could be obtained. Remonstrances on the part of the board of trade and steamship companies were at first of no effect, but a year ago the council admitted the deception which had been practiced, and after much urging had the corporation dredge and another put at work. These continued for some few months and took up a considerable quantity of mud. The work was not properly done at Nos. 2 and 3 berths, and No. 4 was not touched at all. The dredging was to have been resumed last spring. This was not done, but the city dredge was loaned to do some work all summer. Had it been kept in St. John all summer the three berths would now be perfect.

Last winter by the merest chance, the C. P. R. Empresses were booked to sail on the most favorable dates. Had the alternate weeks been selected, the steamers would not have sailed on time, because of the fact that low tides would have prevailed and the vessels would have been fast in the mud. The C. P. R. hesitated about sending these large steamers here at all, but finally arranged to do so, this being explained by the statement made later that the company did not fully realize just how bad conditions were. The captain of one of the steamers wrote to the board of trade that if he had known the true state of affairs his steamer would never have entered the harbor.

Such being the case it might be hoped that the council would take steps to improve the berth, but until now absolutely nothing has been done. Nos. 2 and 3 berths are in need of a lot of cleaning up. There are areas on which a depth of thirty-one feet is obtainable, but there are other portions where only twenty-four feet can be found at low water. If the berth had an even bottom things would be better, but at present one portion of a steamer may be in the mud and the rest of it in deep water, this involving serious straining. No. 4 berth is in a very bad state, and will require a great deal of work.

All the dredging to be done is at low water; much of it can be accomplished during only an hour or two each day. It will be far more costly work than that which is now being done at low water in Sand Point basin. The engineers of the public works department having made accurate soundings, estimated the quantity of earth to be removed and value the work at \$1.25 per cubic yard. The minister, accepting of course the reports of his own officials, promises to reimburse the city to the extent of \$23,440, which should cover all the mud digging. It is a straight gift to the city, but some of the aldermen are inclined to reject it. Mayor Sears and Ald. Kelley are the two who have opposed the contract.

The assertion has been made by Engineer Peters that rock is known to exist at these berths. Borings were made by the city some years ago, but this is the first time any public statement has been made regarding the existence of rock. And it is very doubtful whether rock will be found or not. The city dredge did not run across any and it is certain that there is no ledge at either No. 2 or No. 3 berths because the latest dredging was done in all corners and any outcropping would surely have been noted. There is a bare possibility that rock may be found at No. 4 berth, but if so the quantity cannot be very great and the city can well afford to pay for whatever may be found.

The approved price of \$1.25 per yard is not excessive. For a job such as this it is reasonable, and as regards rock at such a depth, fifteen or twenty dollars per yard would not be out of the way.

When it is considered that this work is important, when it is remembered that the St. John aldermen are sworn to conduct the city's business to the best of their ability, it is difficult to understand why Ald. Kelley left the meeting yesterday and by so doing prevented the completion of business. He holds office and is paid for forwarding the affairs of the city not for

playing the part of obstructionist. It was his duty to remain in his seat until the council adjourned. That he did not do so is evidence that he failed to realize his position. Perhaps he will do better next time. However, the contract has been awarded, and the work will be carried on as rapidly as possible.

THE LONELY ROOM.

Love, how I miss you in this little room! Day were not darker by the sun unbest. The bird has flown and left an empty nest. Where all is silence and unbroken gloom. It is a garden whence the light of bloom. Is faded out; a bower, the loneliest. Bereft of beauty and the happy guest? Whose voice was music, and whose breath, perfume. Delay not, Sweet; absence already long. Burdens my heart with such a grievous pain. Hourly it seems that it must yield or break. Beloved, hasten back and bring the song. The sunlight, blossoms, and the old refrain. Of ecstasy—heart-ease to end heart-ache! —Julian Durand in December Smart Set.

OVER THE RIVER.

Over the river they beckon to me, Loved ones who've crossed to the farther side; The gleam of their snowy robes I see, But their voices are lost in the dashing tide. There's one with ringlets of sunny gold, And eyes the reflection of heaven's own blue; He crossed in the twilight gray and cold, And the pale mist hid him from mortal view. We saw not the angels who met him there, The gates of the city we could not see. Over the river, over the river, My brother stands waiting to welcome me.

Over the river the boatman pale

Carried another, the household pet; Her brown curls waved in the gentle gale;— Darling Maud! I see her yet. She crossed on her bosom her dimpled hands, And fearlessly entered the phantom bark; We felt it glide from the silver sands, And all our sunshine grew strangely dark. We know she is safe on the farther side, Where all the ransomed and angels be; Over the river, the myrtle river, My childhood's idol is waiting for me. For none return from those quiet shores, Who cross with the boatman cold and pale; We hear the dip of the golden oars, And catch a gleam of the snowy sail, And lo! they have passed from our yearning hearts, They cross the stream and are gone for aye. We may not sunder the veil apart, That hides from our vision the gates of day; We only know that their bark no more May sail with us o'er life's stormy sea; Yet somewhere, I know, on the unseen shore, They watch, and beckon, and wait for me. And I sit and think, when the sunset's gold Is flushing river and hill and shore, I shall one day stand by the water cold, And list for the sound of the boatman's oar; I shall watch for the gleam of the flapping sail, I shall hear the boat as it gains the strand, I shall pass from sight with the boatman pale, To the better shore of the spirit land; I shall know the loved ones who have gone before, And joyfully sweet will the meeting be. When over the river, the peaceful river, The angel of death shall come to me. —Nancy Woodbury Priest.

Rudyard Kipling undoubtedly got his wit from his maternal grandfather, the Rev. George B. Macdonald, a Wesleyan clergyman. In the days when young Macdonald was courting the lady whom he afterwards married, the father-in-law to be—an aged Methodist with extremely strict notions in regard to the proprieties—was injudicious enough on one occasion to enter the parlor without giving any warning of his approach. The consequence was that he found the sweethearts occupying a single chair. Deeply shocked by this spectacle, the old man solemnly said: "Mr. Macdonald, when I courted Mrs. Brown she sat on one side of the room and I on the other." Macdonald's reply was:—"That's what I should have done if I had been courting Mrs. Brown."

A Philadelphia physician, according to Harper's Weekly, says that not long ago he was called in to see an Irishman, and among other directions told him to take an ounce of whiskey three times a day. A day or so later he made another visit and found the man, white not so sick, undeniably drunk. "How did this happen?" the physician demanded of Pat's wife, who was hovering about solicitously. "Sure, doctor, an' 'tis just what you ordered, and no more, that he had," she protested. "I said one ounce of whiskey three times a day; that could not make him drunk," the physician said. "He has had much more than that."

"Devil a drop more, doctor, dear," she declared. "Sure an' Oi didn't know just how much an ounce was, so Oi went to the drug store and asked, and the lad—he's a broth of a boy, too—told me that an ounce was eight drams, and Pat has had him regular an' no more."

THE FUTURE OF THE NEGRO ON THE DARK CONTINENT.

The Negro Destined to Play an Important Part in the World's History, Says Sir Harry Johnston—White Man Should Deal Fairly With His Black Brother.

Sir Harry Johnston has an interesting article in the Fortnightly Review on "The Disposal of Africa." "The Negro has got a great deal of Jewry to make up; he has had during the last three centuries to pay money for the ages which he spent as an idle apprentice. His own talent having been laid up in a man's hand, he has, so far as tropical Africa is concerned, the Negro has the climatic conditions on his side against the European. He exists also in numbers, and does not therefore face the white man in that condition of hopeless numerical inferiority which has made it so difficult for the Mongolian races of America or the Neanderthaloid races of Australia and Tasmania to claim a just share of their respective continents. The Negro may have remained undeveloped in mind, but he has for the most part developed a splendid body and one admirably adapted to the land in which he lives.

"The Negro is going to play a great part in the world's history yet, and we shall be well advised in dealing fairly with him. His domain in Africa is marked on the north by the southern limits of the Sahara Desert, on the east by the Red Sea to the Atlantic, and on the south by the southern limits of the Zambesi basin and by the coast of German South-West and Portuguese South-East Africa. North Africa is emphatically a white man's country in its existing inhabitants. Inhabited by a people in course of time to be considerably reinforced from other Mediterranean regions. The Sahara Desert as it becomes receded little by little from its present aridity by man's skill, will be the home of hybrid races, brown and yellow. There will be a considerable white population on the East Coast of Africa. There will be small patches of white men's hill colonies in Eastern Equatorial Africa between the Zambesi and the White Nile.

"South of the Zambesi basin," says the writer, "the ultimate future of the present day races of the continent, eventually must be prepared for in the most gradual and gentle manner by a right respect for the rights of the various races between the Zambesi and the Sahara Desert. In all this vast region of tropical Africa there are equal possessions in that healthy part of the continent which is suited to the white race. But although the black man and the yellow man may and do fight, the ideal one no doubt would be for white, black, and yellow to grow up together with equal rights and equal respect for the rights of all. The rough justice of this little planet will probably accord him that share without the permanent stain of wrong-doing if he guard scrupulously the almost exclusive right of the soil and the greater share of the profits in Tropical Africa."

EVERY BONE IN HER BODY WAS BROKEN. LOWELL, Mass., Sept. 18.—A young woman supposed to be Mrs. Herbert Johnson was struck by a Haverhill-bound Boston & Northern Electric in First street tonight and instantly killed. There was a thick fog which prevented the driver from seeing her. The car was thrown from the track and the woman was dragged under the wheels, breaking every bone in her body. She was partially identified by a card in her pocket.

SHIP DOCTOR ON SEASICKNESS. Think it is Caused by Disturbances in the Ear—Voyage Bad for Invalids. LONDON, Sept. 18.—H. N. Barnett, a prominent Belfast surgeon who was formerly surgeon for the Peninsular and Oriental Line, has revived an old theory as to the cause of seasickness. According to this the seat of the trouble is not the stomach, but the internal ear.

Within the latter are three canals containing a fluid called endolymph. These canals perform the function of a spirit level. The motion of the ship causes a violent and unaccustomed movement in the endolymph which irritates the delicate nerves terminating in the canals and communicating with the stomach. The irritation leads to dizziness and then to nausea and other symptoms. Dr. Barnett's method of treatment is not novel, namely the free use of bromides under the direction of a physician. He protests against the indiscriminate manner in which valerian and other sedatives are given to sea voyagers and says that sea voyages are particularly dangerous to sufferers from pithiasis.

JUST HAD TO LET HIM DO IT. Editor—I hated to refuse Scribner's poem. It was a good one. Subeditor—Then why did you refuse it? Editor—Why, he said if I didn't let it he would kill himself—Judge.

GORKY AND HIS AFFINITY WEDDED. Russian Socialist and Actress He Brought to America are Now Legally Married. (New York Herald)

Those who recall the unpleasant experiences of Maxim Gorky in New York, on account of Mme. Andrieva, whom he sought to have recognized as his wife, may be interested to know that Gorky and the living woman are now married and are living happily in a literary colony on the island of Capri. This information was given yesterday by Harold Mc-Grath, an author, who returned from the Mediterranean on the Finland, of the Red Star line. "The woman who accompanied Gorky on his visit to New York," said Mr. Mc-Grath, "is now his wife, and she has been very much admired in the literary colony where Gorky spent the summer on the island of Capri. She is devoted to her husband and is regarded as a woman of high attainments."

Mr. Mc-Grath said that during the last year Gorky had given more than \$100,000—at least two-thirds of his income—to the Russian liberal cause and was working on several new books. When Gorky arrived in New York in the spring of 1906 his success here as a socialist leader was greatly hindered because of the refusal to accept Mme. Andrieva as his wife. Gorky had been living with her as his wife in Europe for four years, having left his former wife for her. Many of his admirers in New York repudiated Gorky's liberal views. He and the woman were first obliged to leave the Hotel Belleville, and afterward were put out of the Hotel Lafayette-Brevort because of indignant protests of other persons living there. At the time Gorky declared that, inasmuch as he accepted the woman as his wife, he could not understand why others should question that which concerned only himself and the

KINGSTON LOSERS LOSE. Must Prove Cause of Fire That Followed January Earthquake. KINGSTON, Jamaica, Sept. 18.—The Supreme Court rendered a decision today in which it held that the holders of fire insurance policies must prove the origin of the fire which destroyed their property on January 14. The decision is a victory for the insurance companies.

D. King Hazen left Tuesday afternoon on a few weeks' trip through Western Canada.

HONGKONG, Sept. 18.—Imperial troops and insurgents have had a stubborn engagement which lasted twelve hours at the City of Ling Shuan in the prefecture of Yun Chow, on the southern border of the province of Shansi and about 350 miles southwest of Peking. The insurgents who were armed with modern weapons severed the telegraph communications. The imperial reinforcements had to make a march of sixty-nine miles, but finally reached and relieved the city. Gunboats are patrolling the coast to prevent arms from being smuggled in for the insurgents, a business that had flourished for some time before the government took any preventive measures.

COMMERCIAL

G. T. EARNINGS. The traffic earnings of the G. T. P. system from September 8th to 14th, in 1907, were \$341,088 and in 1906 were \$364,706, an increase of \$23,618.

TURBINE STEAMSHIPS HARVARD AND YALE

Metropolitan Steamship Company's New Vessels Inaugurate Direct All-Water Route Passenger Service Between New York and Boston.

Rivalling the newest ocean greyhound in speed and elegant and luxurious appointments, the new express Steel Turbine Steamships of the Metropolitan Line, plying between New York and Boston, made their inaugural trip on Wednesday evening.

With the magnificent vessels the Metropolitan Line has placed in its fleet, a direct all-water route, the distance is 312 miles. Both the Yale and Harvard, on their inaugural trips, proved that they would have no difficulty in maintaining their schedule of fifteen hours for the trip.

The establishment of an all water route passenger service between New York and Boston by the Metropolitan Line is a notable event in transportation history.

There has been a demand for this service, the large patronage accorded the service has amply demonstrated.

For nearly fifty years the Metropolitan Line has maintained a direct water route freight service between New York and Boston, and the company's venture into the passenger service has attained notable success.

The design of the Yale and Harvard vessels were built at Rosch's shipyard, at Chester, Pa., by Mr. Charles M. Englis, of Brooklyn, designed and built the wood trim. The dimensions of the Harvard as well as of her sister ship, the Yale, are as follows:

Length over all ... 467 feet. Breadth over guards ... 62 feet. Draft of water, loaded ... 62 feet.

Accommodations for passengers ... 500. Express freight capacity ... 1,500 tons. Motive Power triple-expansion Parsons steam turbine 1,600 h. p.

The route followed by the vessels is by way of Long Island Sound and thence upon the Atlantic Ocean through Vineyard Sound, near the southern extremity of Cape Cod, then through Nantuxet Sound out to the Atlantic Ocean, around Cape Cod and on to Boston.

Passengers who made the journey between New York and Boston by the Metropolitan Line will appreciate the service as afforded such comforts and conveniences as no railroad line can offer.

It is possible for the New York and Boston business man to leave his office at 8:00 p. m. He can enjoy a refreshing night's sleep and arrive at his destination at 8 o'clock on Saturday morning ready for the day's business.

The New York or Bostonian may enjoy on board the Harvard or Yale a restaurant service equal to that of the best Metropolitan hotels and clubs.

Appetites sharpened by the salt water breeze will be keenly appreciated by the menu, which includes all the delicacies of the season. After dinner he can join his friends in the comfortable and airy refreshment parlor.

From the windows of the handsomely appointed dining room the passenger enjoys a beautiful view of the coast.

There is abundance of evidence of discriminating taste in the decoration of the interior. The color of the upholstery which names the vessels bear have been adopted in the decorative scheme.

The Yale and Harvard are of double hull steel construction, with numerous water-tight bulkheads, making them as staunch and safe as it is possible to build a vessel today.

Steel has been utilized wherever possible, thus establishing a great factor of safety. Furnishings are clustered together in the vicinity of the boiler, doing repairs to some machinery.

Of the twelve injured three are probably mortally hurt. An investigation was made soon after the explosion by the authorities, and it was decided that it was due to neglect of an employee in allowing surplus steam to escape.

The explosion of a boiler in the Ferrer factory at Astoria, in the Anguague district of the state of Michigan, the explosion occurred just before the noon hour and the two proprietors and a number of employees were killed.

Speeches are expected from the following, among other gentlemen: Hon. Dr. Fugley, Minister of Public Works.

Hon. Senator Peter McSweney. Hon. H. R. Emmerson, M. P. Hon. C. W. Robinson, M. P. and Provincial Premier.

Hon. C. H. LeBlais, Chief Commissioner of Public Works. Hon. F. J. Sweeney, Surveyor General.

BLOODSHED IN ITALY IN AGRARIAN STRIKE

CANONSA, Italy, Sept. 19.—The agrarian strike is growing in this vicinity and the whole country side is in a state of terror.

The strikers have posted pickets armed with shot guns and have been going out to the fields. Yesterday a land-owner under provocation shot a striker dead.

A mob at once formed and attempted to lynch the land-owner.

Troops were called in and had the means of dispersing the crowd. Many persons were wounded, including the land-owner, who sustained mortal injuries.

There has been a demand for this service, the large patronage accorded the service has amply demonstrated.

For nearly fifty years the Metropolitan Line has maintained a direct water route freight service between New York and Boston, and the company's venture into the passenger service has attained notable success.

MURDER CHARGE FOLLOWS A CRIMINAL OPERATION

DOVER, N. H., Doctor Indicted for Causing the Death of a Young Woman.

DOVER, N. H., Sept. 18.—The grand jury in the Supreme Court today returned 25 indictments, among which was one against Dr. Harry H. Stackpole, of this city, on account of the death of Miss Katherine Ryan, Lowell, Mass., in Dover on August 22, following an alleged criminal operation.

Dr. Stackpole in the indictment is charged with "killing and murdering Miss Ryan with malice aforethought."

Another indictment was found against Elmer E. Ryan, of Lowell, who is charged with being an accessory before the fact in the death of Miss Ryan. Ryan is in the Stafford county jail, while Dr. Stackpole is under bonds. Both men will probably be arraigned next Monday.

Sixteen years ago I knew no language but German. Now I know enough of twenty-two to make myself well understood.

"We have crossed North and South America, Africa, Australia, China, and on Wednesday we leave London for Dover, and crossing the Channel, make our way back to Vienna, having completed a tour of 30,000 miles."

"When in Arizona the party was four days without water, and nearly succumbed. Once they were attacked by wolves, which were driven back by men using a gun and the woman firing a revolver."

In Tennessee the pembulator broke down when Hanshan had only half a dollar to his name. Six dollars were wanted for repairs, and it took him three days to see enough pictures posted to get the money. Then the party had to start on their journey without breakfast. Of all the peoples of the world with whom they came in contact, the Red Indians, Hanshan says, treated them the kindest of all. Night after night the travellers slept in their wigwams free of cost, and were generally treated with the greatest hospitality.

The best roads encountered were in England, and the worst in South and West America. Although Hanshan has worn out over 100 pairs of boots in his wanderings.

PERMANENT COURT OF ARBITRATION A FAILURE Hague Delegates Could Not Agree on the Plan to be Adopted

THE HAGUE, Sept. 18.—The plan for the organization of a permanent court of arbitration which, for some days past has been under the consideration of a special committee, failed to pass. A final strenuous effort was made today to reach an agreement in the matter of the selection of judges, but it proved futile. Joseph H. Choate, of the American delegation brought forward yet another American suggestion for the election of the fifteen judges by direct vote of the governments, but this was defeated by withdrawal of the Brazilian proposition, but in so doing, the American delegation only possible solution of this question was for all states to partake equally in the court, which would insure to each the nomination of a judge, and the right of the parties in dispute to choose the judges to deal with each case.

Sir Edward Fry, Great Britain, then succeeded in carrying a proposal that the conference should pass the scheme for the organization and procedure of the court and remit the completion of the various governments, leaving blank the article providing for the election of judges, but recommending that the governments consider among themselves how best to overcome the difficulty which had baffled the conference. This measure was carried by a vote of eight to five, there being one absentee.

A SMUGGLER'S RETREAT. An old smuggler who has recently been discovered on a moor near St. Austell, Cornwall. This cave is about twelve feet long, six feet high and five feet wide. There is a seat inside, roughly cut out of granite.

BY AUCTION! The steamer MICMAC and cargo will be sold at Public Auction at St. John, Newfoundland, on SEPTEMBER 24TH. Has bronze propeller. For further information apply

BOWRING BROS., Lloyd's Agents, St. John, Newfoundland, 19-2-1.

NEGLECT OF DUTY CAUSED ELEVEN DEATHS

Employe in a Western Factory Failed to do His Work and an Explosion Followed.

SAN ANTONIO, Texas, Sept. 18.—A special to the Express from Toluca, Mexico, says that an explosion of a boiler in the Ferrer factory at Astoria, in the Anguague district of the state of Michigan, the explosion occurred just before the noon hour and the two proprietors and a number of employees were killed.

Of the twelve injured three are probably mortally hurt. An investigation was made soon after the explosion by the authorities, and it was decided that it was due to neglect of an employee in allowing surplus steam to escape.

PEACE CONFERENCE OF THE SOUTH AMERICAN STATES

MEXICO, City, Sept. 18.—The peace conference of the States of Central America, the object of which is to settle the existing disputes and bring about a condition of permanent harmony, will be held in Washington during the first days of November. This is the conference that was arranged by President Roosevelt and President Diaz. All the Central American republics have signed the protocol.

The Yale and Harvard each afford accommodation for about 500 passengers. There are forty beautifully furnished parlor staterooms, each with a double brass bed; thirty of these have the bathroom attached.

It was the idea of Mr. C. W. Morse and his associates in designing these magnificent steamships to afford New York and Boston business men the same luxuries and conveniences that they enjoy in their clubs and homes.

The parlor staterooms are luxurious apartments; magnificent furniture upholstered in silk and rich gold framed mirrors adorn each apartment. On the upper deck is the men's cafe and smoking room. This is trimmed in Flemish oak, the walls being decorated with Dutch friezes. A bar adjoins the smoking room.

The passenger who has never travelled on the turbine type of steamship will marvel greatly at the smooth running, steadiness and entire lack of vibration on the Yale and Harvard. As proof of the remarkably smooth running of these steamships it may be noted that photographs were taken while the Yale was moving at the rate of twenty-four miles an hour.

The designs of the Yale and Harvard were made by Mr. Andrew Fletcher, president of the W. & A. Fletcher Co., contracting builders. The hulls of the vessels were built at Rosch's shipyard, at Chester, Pa., by Mr. Charles M. Englis, of Brooklyn, designed and built the wood trim. The dimensions of the Harvard as well as of her sister ship, the Yale, are as follows:

Length over all ... 467 feet. Breadth over guards ... 62 feet. Draft of water, loaded ... 62 feet.

Accommodations for passengers ... 500. Express freight capacity ... 1,500 tons. Motive Power triple-expansion Parsons steam turbine 1,600 h. p.

The route followed by the vessels is by way of Long Island Sound and thence upon the Atlantic Ocean through Vineyard Sound, near the southern extremity of Cape Cod, then through Nantuxet Sound out to the Atlantic Ocean, around Cape Cod and on to Boston.

LOCAL NEWS.

During this evening's session of the Alexandra Temple of Honor, Dr. W. P. Roberts, who was a delegate to the recent convention at Sarnoga will deliver his report.

The funeral of the late Wm. McHarg was held from his late residence Station street, Fairville, this afternoon at 2.30. Rev. Dr. Hill and Rev. T. J. Dienstadt officiated. Members of the family acted as pall-bearers. Interment was made at Cedar Hill cemetery.

In the Circuit Court this morning before Judge Landry, the case of Turner vs. the Tracadie Lumber Co., was continued. The cross examination and re-examination of Joseph H. Wing, took up this morning's session. Court adjourned at 2.15 o'clock.

The trim sloop "Ruby," owned and run by Captain Cook, in connection with the fishing plant of L. D. Clark & Sons, ran ashore on Sandy Point, near Deer Island, N. B., during the foggy weather of last week, and was quite badly injured.—Sentinel.

A new Orange lodge has been instituted at Oak Bay with twenty-two charter members. The officers installed were: Harry Wilson, W. M.; Robert Smith, D. M.; William J. Robb, Chap.; W. B. Simpson, Treas.; Albert Hill, Sec.; Albert McCoubrey, D. J. C.; Ernest Hill, Sent.—Beacon.

Fletcher, the veteran mill-maker of Wilson's Beach, was in St. Andrews on Saturday, taking an order for a suit of sails for one of the yachts here. He is an oldtime St. John freeman, having been a member of No. 3 company for eighteen years. He left the service eighteen years ago and has lived on Campobello for the greater part of the time since then. He has a very pretty house on the island. With the Beacon he recounted the incidents of the memorable fire of 1877.—Beacon.

Mr. George Byron, of Campobello, was in St. Andrews on Saturday. Regarding the future of the island he was very optimistic. He stated that there was good reason to believe that the new hotel company would get control of the summer hotels on the island. When they did they were prepared to spend \$20,000 this season in putting things in shape for next season's business. Several other local causes which might operate against the success of the scheme. Mr. Byron says that the fishermen have been doing a lot of pollock fishing at night, and having seemed to have changed their habits.—Beacon.

Next week will be marked by much activity in Sunday School circles at the Portland street Methodist church. Receptions to the different departments will be held extending over four evenings. The Bible Study Union, the Home Department and the Young Men's Bible Class and the Young Ladies' Bible Class will entertain on different evenings. The receptions will be of a musical and social nature. On Saturday afternoon the 28th inst., the Primary Department will be treated to an outing at the home of Mr. R. T. Hayes, Mount Pleasant. Sunday, the 29th inst., will be rally day and an installation service will be held on behalf of the Sunday School officers.

BASEBALL MATTERS

At a meeting in the Y. M. C. A. rooms last evening between representatives of the Marathons and St. Peter's base ball club, the proposed game between these two teams was declared off.

The Marathon manager wanted two-thirds of the gate receipts for his club, win or lose. This amount was to be taken after all expenses had been paid.

As the Marathons have the Victoria grounds leased, the St. Peter's delegates did not think this was a fair adjustment, and were willing that a division should be made so that the winning team take all the receipts, or 80 per cent. to the winner, or 60 per cent. to the winner, or 50 per cent. to each team.

The Marathons will play a picked team of Dan Britts on Saturday. A number of St. Joseph's players are said to be on the team.

The manager of the St. Joseph's team to decide the championship of the Inter-Society League would be played on Saturday next. The cup is now in the possession of the St. Joseph's team, and they will make a strong bid to retain it from the St. Peter's aggression.

Four or five St. Joseph's players are scheduled to turn out with Dan Britts' team, but the management of the St. Joseph's say a strong team will be put in the game against St. Peter's.

Regarding the game forfeited by St. Joseph's to St. Rose's on Tuesday evening, five of the St. Joseph players were not sufficient there to make up the team, the management decided to forfeit the game.

PERSONALS

Mrs. L. H. Carr and Miss L. Gaskin, of the North End, are spending a couple of days in Fredericton.

Mr. and Mrs. Leonard and Mr. and Mrs. Pettigall arrived from St. John this morning in their motor boat. After spending the afternoon at exhibition and races, they will leave this evening for Oromocto.—Fredericton Gleamer.

Miss Pink, Miss Adams, Miss Keen and Mrs. Pugsley, of Keowah, are guests at the Royal.

Charles E. DeWitt, of Bridgetown, N. S., owner of the fast jockey mare Terrace Queen, came down from Fredericton last night, and is registered at the Dufferin.

R. S. Starr, of Port Williams, N. S., is a guest at the Royal.

Misses Kate and Elen Robertson of Sinoon, left last evening on the Calvin Austin to visit relatives and friends in Boston and vicinity.

Prof. T. H. Boggs, Ph. D., of Yale, came in on the Boston train today.

Mr. James Cosman, of Millland, is visiting his brother, Mr. William P. Cosman, of New York.

JOHN D. ROCKEFELLER, JR.
GIVES UP HIS BIBLE CLASS

NEW YORK, Sept. 18.—John D. Rockefeller Jr., will cease to be leader of the Young Men's Bible Class of the Fifth Avenue Baptist Church on Oct. 1. He has resigned and his resignation has been accepted. Increasing demands of business and fear of a recurrence of ill health are the reasons given for his resignation. His resignation was noted upon by the executive committee of the class.

UNION OF CHURCHES IS BOUND TO COME

Only a Matter of Time Says Rev. Geo. Steel.

Returning From the Union Committee Meeting He is Stratified With Progress That Has Been Made.

Rev. Geo. Steel, of Bedouque, P. E. I., was in the city last evening on his way from Toronto where he has been attending the meet of the Church Union Committee of which he is a member.

The object of this committee's labors now is to consider and decide questions which have a bearing on the proposed union of the Methodist, Presbyterian and Congregational churches in Canada and Newfoundland.

There were about one hundred members of the committee present at the session which was just closed, from all parts of the Dominion and one from Newfoundland.

The meeting lasted for five days and there were three sessions each day. Each morning there was a united committee meeting; in the afternoon the division-committee held meetings and the evenings were devoted to denominational rallies.

Mr. Steel said that it had been a great pleasure to him to be present at the meeting. Apart from the fact that he is an enthusiastic worker in favor of the movement, he felt that a great deal had been accomplished. It was a valued privilege to be one of such a large and representative gathering of his fellow workers. He said the proceedings at all the meetings had been marked by the most gratifying frankness and cordiality. Every subject of importance in connection with the union of the churches had been discussed with the greatest freedom and affability.

The union of the churches is a great undertaking and one which must be carefully considered from every possible standpoint. The possibilities are far-reaching and of vital importance to the religious world. Mr. Steel's opinion is that the union is practicable and that it is quite probable that it is only a matter of time when it will take place.

Mr. Steel's ideas are shared by his brothers of the committee as shown by the fact that at last session a resolution was passed by a standing vote, that the union was deemed practicable by the committee. This is considered a great step toward the consummation of the union as it is an indication that the members will go back to their fields of labor throughout the Dominion with the union principle in their hearts.

Ultimately the question of union will be decided by the congregations of the different denominations. Within a year quite probably in a few months, the matter will go before the congregations for suggestion and discussion, so that the committee meets again it will have more definite ideas as to the desires and impressions of the church-members and workers. After the next session the question will again be before the people, this time by vote which will no doubt be final.

Mr. Steel left for his home today at noon.

MODUS VIVENDI

Silver Falls Couple Arrange a Temporary Settlement—Other Police Court Matters

In the police court this morning William Farnum of Silver Falls appeared before the magistrate. He had been arrested on a warrant issued by his wife, charging him with assault. She carried a black eye in mute testimony of the assault.

Mr. Farnum said his wife was very hard to get along with, that she threw everything in the bed room at him, and he asked her if she had not brandished an axe over his head. He said he had been forced to leave her three times. The case was settled, the parties arranging a truce.

Hugh Calloway was fined \$4 for drunkenness.

A man who said his name was Heber Keith, arrested on King street, charged with profane language, forfeited a deposit of eight dollars.

A number of cases on the civil court docket were then taken up.

TWO BIG QUARTER DOLLAR LINES

Fall Weights in Genuine English Half Hose, Only 25 Cents per Pair.

Good Comfortable and Durable Braces--We Guarantee Them, 25c. Pair.

SUMMER SOCKS ARE OUT OF THE QUESTION NOW. Cooler weather demands warmer clothing for the feet. And yet it is not cold enough for real heavy textures. However, for the man who intends buying his fall and winter socks at the same time, we are quite prepared. A more complete supply we never had, a more gradually-priced supply. Just now we call attention to the famous "Sovereign" Half Hose in Fine English Black Cashmere, Pure Linen Splittings that remain soft after washing, and general value. Only a Quarter Dollar per pair.

ARE YOUR BRACES SATISFACTORY? That is a question that might be asked any man with the expectation of a negative answer. So many cheap suspenders are on the market, so many inferior qualities to sell at a snap price that a man often has to suffer from experience before hitting upon the right kind. When buying Braces see to it that the shoulder straps are of good easy yet durable web, that the ends and buttoners are either well secured cords or untearable leather. Some of the patented Braces are veritable cushions for comfort. **Twenty-five Cents.**
