ANDERSON PLEADS GUILTY. CHATHAM, N. B., Sept. 20.—The steamer Morien, which arrived here this morning with coal, passed the four-master schooner J. P. Logan of Cape Tormentine. The Logan is bound from New York to Bathurst, and asks to be reported.

MAURETANIA AGAIN CLIPS THE RECORD

Watched Steamer Burn and Explode French Fleet Arrives—Cardinal's Cap for Falcon—Chance for Gov. Johnston to Recover.

QUEENSTOWN, Sept. 20.—The Mauretania touched at Queenstown at 23 minutes past six this morning. Although delayed by fog she succeeded in reducing her eastbound record three-quarters of an hour. Her time from New York was 13 days and 41 minutes, and her average speed for the trip was 25.69 knots an hour.

MANILA, Sept. 20.—The British steamer Harlow, Capt. Bristle, from Newport News for Port Natal and Manila, reports that on July 27, while 12 miles from Durban, she passed a steamer at sea. The vessel in question whose name it was impossible to make out, was shortly afterwards destroyed by an explosion. It is supposed that this steamer was the missing British steamer Waratah which, with 300 persons on board, has not been heard from since July 26.

NEW YORK, Sept. 20.—The Battleship composing the squadron which will represent France in the Hudson-Pulton naval ceremonies, arrived off Sandy Hook last night and two of them came up the harbor today. They are the Justice, Liberté, and Varité, sister ships, under command of Vice-Admiral Latorre Lo Piard.

ROME, Sept. 20.—It is stated that Monsignor Falconi, the apostolic delegate at Washington, will very probably be made a cardinal at the January consistory and that he will be succeeded by Monsignor Averas, the apostolic delegate to Cuba.

BERLIN, Sept. 20.—The rate of discount of the Imperial Bank of Germany was raised today from 3 1/2 to 4 per cent. This change is the first since Feb. 10 last, when the rate was reduced from 4 per cent.

ROCHESTER, Minn., Sept. 20.—At 5.30 today Dr. McNeill, house physician at St. Mary's Hospital, issued the following bulletin: "There is a slight change for the better in the governor's condition. His temperature is 99.2, pulse 108, and respiration 20. He has rested considerably and has about two hours and a quarter since midnight. After the wound was dressed at 5.30 this morning the governor fell into a deep and still sleep. The impression among the hospital attendants this morning is that the governor will pull through."

BOY ACCIDENTALLY HUNG HIMSELF ROCHESTER, N. Y., Sept. 20.—Albin Anderson, 13 years of age, is dead at Shortville, while performing gymnastic exercises in his father's barn on a rope tied to a ladder he accidentally hanged himself.

DEATHS DUNLAP—On Sept. 20th, at 119 King street, past, Donald Watson, son of W. C. Dunlap, aged two and a half years.

RETURNERS GREATLY PLEASED

WITH THE ASBESTOS PLANT

They both expressed themselves as highly pleased at what they had seen. When asked about the ore on the D'Irrell property, said not only was it rich in asbestos, but the visible supply was sufficient to last for generations.

They also found the branch line of the railroad from the Quebec Central to the quarry almost completed, and the manager informed them that he expects to be producing asbestos early in December.

Asked as to what they thought of the proposition as an investment, they declared that to their minds nothing better existed in Canada.

"Well, and how did you sleep last night? Did you follow my advice and begin counting?"

"Yes; I counted up to 15,000,000."

"And then you fell asleep?"

"No; then it was time to get up."

SIXTH INNING WAS FATAL TO GREEKS

Perkins Weakens After A1 Tossing

All St. Johns Win--Saturday Afternoon's Exhibition Game a Lively One.

Perkins pitched great ball in the early stages of Saturday's game, but weakened towards the end and allowed the all-St. John aggregation to bunch hits and capture a victory over the Marathons by a score of eight to three.

The champion on an error, a pass and a triple to centre by Captain Bradbury made the first tally in the opening inning. Dr. Gallagher, the fast full-way town man, scored in the second, and after Don. Malcolm had picked out a triple he walked the man on a pass ball, scoring the Greeks' third and last run in the match.

Craig worked the bases play in the sixth and tallied in the eighth brought the All-St. John's total to eight.

Tommy Howe executed a double play in the fourth innings, with the assistance of Donnelly on first base. The latter covered the initial sack in errorless fashion and Gallagher, the single off Perkins, Gallagher, for the Marathons knocked out a pretty double to left field. Titus watched third in good fashion.

SNAPPY FOOTBALL

THIS SEASON

Teams Everywhere Getting Into Shape

PROVINCIAL LEAGUE

Moncton, Fredericton and St. John Have Many Good Players for Their Teams

The Rugby teams of the province are beginning to shake themselves for the season's work and get right down to business.

The Moncton team has already been out to practice and the prospects for two, or perhaps, three senior XV's is bright.

Fredericton has again elected Roy King captain and William Stewart will be vice-captain.

It is doubtful what the intermediates will do, but it is probable that they will reach a decision this week.

Other towns in the province are also getting into line.

The Moncton team, which has had a pretty good record during the past few seasons is about to get into trim while in Fredericton, there is talk of reorganizing a city team and some of the U. N. B. players are already getting into shape.

W. E. Jardine, manager of the St. John team, is looking for a few more players to complete his line-up.

Fredericton is thinking of nothing but its exhibition game on Saturday.

It looks now as if the first football practice will be held the last of the week.

In Moncton the Rugby enthusiasts find that their team will be minus some players but nevertheless will have a strong line-up.

Spence and Frank Brown of the latter town are among the forwards will be out of the game, it is said.

Jack McBeath, Joe Croche and Jack Brown, the "Cork" Norman and Humphrey are available for the back field while the forward line, there is also talk of McFarlane, Rae, Baird, Mackessy, and others.

Capt. Archie Babbitt, of the U. N. B. team, informed a Sun man on Saturday that he expected the Fredericton club to have a pretty good team.

"Cow" Dolan having been indiscreet enough to play semi-professional baseball, is out of the game, and Rugby and Brown will be absent from the forward line.

There is also talk of Devo's retirement, but it is premature.

U. N. B. lost but lightly by graduation. It looks now as if they will be a pretty snappy football season.

HORSEMEN FORM

MARITIME ASSN

A meeting of the owners of horses and drivers was held here yesterday and there was a large attendance.

Many letters of regret from those not in the city were received, all expressing the heartfelt sympathy with the movement.

The purpose of the gathering was to form a Maritime Horsemen's Association and among the objects proposed are the question of freight rates, the exclusion of American horses from the provincial races, the bringing before the managers of the several tracks that all dates for circuits be fixed, so as not to clash, and the establishing of a regular Maritime circuit.

A committee composed of R. H. Edwards and James Adams of Halifax, Dr. Strickland and S. J. Cameron of P. E. Island, and A. B. Kitchen and J. D. Black of Fredericton, was appointed to make arrangements for holding another meeting at Halifax during exhibition week, and in the meantime draft a constitution to be submitted to the meeting. It is proposed to have a regular paid official to take the business in hand and devote part of his time to the work.

J. D. Black was elected secretary pro tem. Among those who attended the meeting yesterday was Dr. J. P. Perkins, aged eighty-one, the veteran horseman of P. E. Island. He took a most enthusiastic interest in the proceedings.

AMHERST, N. S., Sept. 19.—The farm house known as the Burton Embree house, at Amherst Point, occupied by Bruce Sears, was totally destroyed by fire last night, together with all the contents, including clothing. The family were awakened by the choking of the youngest child and found the house full of smoke and barely escaped with their lives. Mr. Sears' loss is a serious one, as he had no insurance.

SHOOTING SEASON IS NEARING ITS CLOSE

Spoon Matches Held Saturday

Weather Conditions Unfavorable

Unfavorable weather conditions kept down the scoring on the rifle range Saturday, when the end fustlers and the City Rifle Club shot regular spoon matches.

The wind was strong and shifted continually, veering from five minutes left to three minutes right. Saturday was the last spoon match of the season for the end. Next Saturday they will hold a cash match, which will wind up their season.

The Fustlers had pretty good attendance and had matches in classes A, B and C. The St. John City Club had a slim turn-out and there was competition in class A only.

The scoring was as follows: 2ND ST. JOHN FUSILLERS. Class A—

Scot S. Day . . . . . 88 Lt. Bentley . . . . . 82

Class B— Lt. Durand . . . . . 75 Major Mace . . . . . 75

Class C— Pte. H. A. Wetmore . . . . . 63 Col. Sgt. Vall . . . . . 59

ST. JOHN RIFLE CLUB. D. Conly, 1st . . . . . 28 28 29 83

N. J. Morrison, 2nd . . . . . 31 30 30 83

The club will hold its regular meeting next Saturday afternoon and after the match those present will put in their quick-drying practice at 29 yards. A good attendance is looked for.

MELVA P. WINNER IN THREE-MINUTE GLASS

Sports Disappointed, and a Lot of Money Changed Hands--Monday's Program.

FREDERICTON, Sept. 19.—The second day of the races at the Fredericton Driving Park drew an attendance of about one thousand. The weather was fine, but owing to the rain of the first day, the track was very muddy.

The program consisted of the 225 trot and the 3 minute-stake trot and pace. In the three minute-stake trot, Melva P. won by a margin of one and a half lengths.

Her defeat meant the loss of several hundred dollars to the sports. Fred Bob, who was second favorite, obtained fourth place, while Melva P. won gold but not under a contract of five heats. King Arion was the horse of the day, and his travelling in the first two heats of the 225 was a surprise.

The multiple, in both of these heats King proved an easy winner and the remarkable time of 2:27 in the second heat. After this he tried very badly, and it was evident that had the horse kept the lead it would have won the race easily.

SUMMARY. Three Minute Trot, Purse \$300. Melva P., br. m., J. T. Presson, 5-2 1/2 (Raymond and Gerow) . . . . . 4 4 2 1 1 1

Bessie Pardoner, br. m., Baxter and Allen, Fredericton (Stewart) . . . . . 3 3 4

Arena Bell, bl. m., Dr. Strickland, Charlottetown . . . . . 5 5 2

Time—2:33, 2:32, 2:28. Monday the regular programme will be put on. It may be that the races that were to be held Saturday, according to the programme, may be declared off. If not they will not be held until Wednesday and the contest will be named races. Neither of the classes set down for Saturday filled.

LEXINGTON, Ky., Sept. 17.—The world's trotting record for yearlings was broken at the Colored Fair here today by Miss Stokes, who made the mile in 2:19.1-4. The former record of 2:22 was held by Adelp.

Miss Stokes is the property of the Great, and is owned by W. E. D. Stokes, of the Patches Wilkes farm.

LANYON'S CREW WON FOUR-ARED

Did Not Have It All Their Own Way

ROSS DEFEATED

By Hilton Belyea in an Exciting Race--Stackhouse's Motor Boat Lead

It looks as if St. John's old-time interest in rowing is on the verge of experiencing a revival, judging from the number of people who turned out to watch Saturday afternoon harbor races. It is estimated that upwards of five thousand people gathered on the water front to see the boat races, while craft of all kinds were on the waters of the harbor bearing numerous interested spectators.

The regatta was carried out without accident of any kind and furnished lots of excitement. The sculling races were close and showed that St. John has still some oarsmen who can be depended upon to give a good account of themselves when they get in a boat.

One regrettable feature of the regatta was that public interest has not yet been aroused sufficiently to produce support to the La Tour Rowing Association of such a kind that prizes of some kind could be given those who compete.

The races for the fours proved very close and interesting. The competing crews were as follows: McLaren, bow; McCollum, forward mid; Harrod, after-mid; Silliphant, stroke.

Ross, bow; H. Belyea, forward-mid; Bud Nic, after-mid; Lanyon, stroke. The crew stroked by Lanyon won in a close race, having a margin of only one length over their opponents, but however, were under the disadvantage of having two new men in their boat.

The beston crew promise of being a first-rate four in time.

The race for fishermen's motor boats was a source of great interest among those viewing the regatta, particularly the fishermen, and proved to be a good race. There was a large number of entries, boats owned by the following being in the race: Fishermen's motor boat race (of boats between fifteen and nineteen feet in length)—Owners: E. Woodworth, John Hamm, Murray Stackhouse, Geo. Wilson, John Silliphant, A. Colin and C. Murray.

Stackhouse's boat won by a good margin, while John Silliphant's boat was second, with a length to spare over George Wilson's, which finished in third place.

The single scull race between Jas. Ross and Hilton Belyea proved perhaps the most interesting of the regatta. Belyea maintained his reputation by winning, but Ross rowed a game race and made the other row every inch of the course and finished but a length and a half behind him.

Through the courtesy of L. M. Trask the motor boat owned by that gentleman was at the disposal of the La Tour Rowing Association during the afternoon.

SENSATIONAL TRUNK GRIME RECALLED

"Sir" Vere Good Dies in a French Court Settlement--Irish Knight's Brother.

LONDON, Sept. 20.—After having served two years of his sentence of penal servitude for life for the murder of Mrs. Emma Levin at Monte Carlo in August, 1907, Vere Thomas St. Ledger Good has died at the French convict settlement at Cayenne.

The news recalls a terrible and cold-blooded crime. Mrs. Good, who is a French-woman, was sentenced to death in with the crime, but her sentence was afterwards commuted by the Prince of Monaco to penal servitude for life, and she is now in a French prison.

A great sensation was caused by the discovery of the body of Mrs. Levin, the wealthy widow of a Swedish engineer, in a trunk at Marseilles Railway Station. It had been taken to the station by Good, who arranged with the goods clerk to have the trunk sent on to Charing Cross.

When the clerk, a man named Pons, came to move the trunk, he noticed red drops oozing from under the lid. The explanation offered by Good that the trunk contained poultry did not convince him. He communicated with the police, who opened the box and found the body of the dead woman.

The head and legs had been severed, and these were discovered in a kit-bag in Good's possession.

At the trial witnesses gave evidence that the Goods had borrowed from Mrs. Levin, who, after various fruitless attempts to recover it, sent a peremptory message demanding repayment. Thereupon Mr. and Mrs. Good lured her to the Villa Meneim at Monte Carlo, and she was seen no more alive.

Mrs. Good told the judge that her husband while drunk had killed the woman, but they were proved to be jointly guilty of the crime, although Good afterwards admitted that he alone cut up the body. The head and legs, he said, he intended to throw into the sea at Marseilles.

Although Good called himself "Sir" Vere, he had no right to the title. He came of a good Irish family, and was, in fact, the youngest brother of Sir James Good, who succeeded his uncle in the title in 1893. It is said that he once offered the real title, which lives in Australia, £150 if he would waive his right to the title. Good was well known as a lawn tennis player in Ireland.

The Goods led a varied life. They were married in Faddington eighteen years ago, and opened a high class dressing establishment in Baywater. This did not pay, so they went to Montreal and started a similar business. They next appeared in Waterloo, Liverpool, and lived for some time in style at a house in Adelaide-terrace. Their next business venture was the opening of a steam laundry at Seacombe. This they turned into a limited company, and retired on the profits to Monte Carlo, where they lived in apparent affluence, but lost their money in heavy gambling.

A party of recruits were taken to the shooting range for the first time. The men fired at a target 500 yards away, and not one hit it. They were next tried at a target 200 yards away, and still every one missed. They were next tried at just 100 yards away, but no one hit it. "Attention!" thundered the sergeant. "Fix bayonets! Charge! It's your only chance!"

MEMBER OF REICHSTAG INVOLVED IN SCANDAL

Arrested on Charge Made by Young Woman who Answered Advertisement for Travelling Companion.

BERLIN, Sept. 20.—What is alleged to be a case of white slave traffic will shortly occupy the Berlin courts, and is likely to prove a great sensation, owing to the fact that the defendant is a member of the Anti-Semite party in the Reichstag.

A few weeks ago there appeared in a Hamburg paper an advertisement for a young lady to act as travelling companion. Among the applicants for the post was a young girl of good family, with whom the advertiser made an appointment.

The meeting took place and the seeker after a companion turned out to be a gentleman of good appearance, who was accompanied by a lady. Later the gentleman again wrote to the girl, this time making certain proposals, which, he said, he feared had not been understood at the first meeting. Although clothed in dowdy and romantic language, there was no doubt as to the purpose of these proposals, and the girl handed the letter to her mother, who passed it on to the police.

An answer was sent addressed post-restante, and the man who called for the letter was arrested.

SEWING MACHINES

UPRIGHT PIANOS

\$4.00 A MONTH

A good way of buying a piano, if you do not feel like fully deciding now, is to rent one for six months and then buy it. You can come here and choose a new Piano, assuming no responsibility beyond giving the trifling sum agreed upon—\$4, \$5, or \$6. You can keep it as long as you wish, and should you decide to purchase after a few months, we will allow from the price all the rent paid.

THE BUDGET PROTEST.

The panic which swept over certain sections of the population of Great Britain when the terms of the annual budget were announced few weeks ago has found expression in the activities of the Budget Protest League. The cause of the excitement is found chiefly in the certain taxation proposals which will be heavily on the landlord and capitalist class while allowing the working man to escape with only a slight increase in the cost of his spirits and his tobacco. The annual expenditure of the British Government is steadily increasing, and as the source from which revenue is desired is not producing a proportionately larger income it has been found necessary to seek new forms of taxation. The British workman is already taxed to the limit of his ability to pay and when the government found this class could pay no more they turned in desperation to the class which did seem to have money to spare. This policy does not meet the approval of the wealthy taxpayers, however, and they seem to have become quite peevish about it. The idea of placing a heavier tax rate on the rich than on the poor evidently gives them actual pain. The budget has been condemned as a socialistic and this term is expected to scare the self-respecting Britisher into opposition to it. Unfortunately the present forms of government has left a large section of the English voters with so little to lose that they cannot be frightened by any picture, however well painted, of the horrors that must follow a departure from the British tradition of consideration of the upper classes. There are enough of the others however, to raise a large amount of excitement when their financial cars are trodden upon and the Protest League was organized with the object of giving them an organized outlet for their hopes of disapproval.

With a very short time after the budget was announced the league was started and under extremely able and energetic management has done an immense amount of work in pressing the side of the case to the public. Public meetings are the chief method of attack used and about three hundred gatherings are being held every week in various parts of the country under the direction of the league. Those interested in the movement now claim that as a result of their work so many converts have been secured that if the budget was given an opportunity to vote on the Budget it would be rejected. Whether or not this is correct will probably be shown by the effect of the measure on the next elections.

Quite apart from the merits of their case, or its lack of merit, the league is entitled to considerable praise for the able manner in which the campaign has been carried on. It is also a tribute to the intelligence of the British voter that such methods of propaganda are not unusual in our country in the party system of government more successfully operated than in Great Britain but the voters are credited with enough common sense to vote for a party on its merits rather than because it happened to be the party they voted for in the last election. Political parties are regarded as the servants of the voters, whose excuse for existence is their ability to represent and put into effect the public opinion of the country. The large majority of voters cannot be depended upon to follow either one great party or the other and the government of the day can retain its hold only as long as it is really satisfies the ideas of the majority of the voters. The present government has won immense popular support on some questions, but if the country at large decides that it does not want the new budget provisions it will go down in defeat, and this is what the Budget Protest League hopes to accomplish.

INDOOR RANGES.

While other countries have been clamoring for Deadweight, submarines, coast fortifications, airplanes and other modern means of offence and defence, Canada has been putting her chief dependence for self protection on the development of a nation of citizen soldiers who are acquainted with the rudiments of drill and know how to handle the rifle. The latter requirement is coming to be regarded as the essential one, and all summer the rifle ranges have been thronged with young men, and some not so young, who are either learning the fascinating sport of rifle shooting or adding to the skill already gained by years of study and practice. That even more do not take advantage of the opportunities to use the rifle is partly accounted for by the fact that during the summer so many spend their spare time in the country out of reach of the ranges and that there are so many other forms of sport which can successfully compete with the rifle ranges. As the ranges close about the same time that the other attractions begin to lose their

GREAT NATURAL GAS WELL STRUCK IN ALBERTA; WILL LIGHT MONCTON.

The greatest strike of natural gas ever made in Eastern Canada was made on the property of the New Brunswick Petroleum Company in Albert County last week. From one well alone a volume of gas more than sufficient to light and heat the city of Moncton, including preparations are being rapidly made for sinking other wells in the confident expectation of increasing the quantity tenfold. The discovery of such a quantity of gas, important in itself, has even greater importance as a sure indication of large oil deposits in the vicinity. Arrangements for reaching these are going rapidly forward.

A few months ago a working option on the property of the New Brunswick Petroleum Company was purchased by an English syndicate, incorporated as the Maritime Oil Fields, Ltd. Under expert direction this company has been quietly but vigorously engaged in boring wells in various parts of Albert and Westmorland counties.

In several instances encouraging indications were found, one new well giving a couple of barrels of oil daily, but the big strike was not made until last week. This was at No. 5 well, the fifth started by the new company, located on the McCluskey farm, about 3 1/2 miles from Hillsboro and 12 miles from Moncton. At the depth of 1,000 feet, where the gas was deposited, a well was reached, tearing through the well shaft with explosive violence. Before the flow could be controlled several millions of cubic feet of gas escaped. This has, however, been stopped and a casing is being run to pipe the gas to Moncton for general use. For this purpose no very extensive plant is necessary, as the gas is ready for use without refining. All that will be needed are pipes and storage tanks to give the gas sufficient pressure to flow to the city mains.

From this well alone there is at present a flow of five million cubic feet a day. At once the company proposes to drill five or six more wells in the vicinity and already plans are being made to pipe the gas to Moncton for general use. For this purpose no very extensive plant is necessary, as the gas is ready for use without refining. All that will be needed are pipes and storage tanks to give the gas sufficient pressure to flow to the city mains.

Naturally those conducting and interested in the operations are elated over their success and confident that the near future will increase it many fold. If further investigations reveal one of the richest oil fields in America many will be disappointed.

A BRITISH BUDGET FIGHTER

Striking Sketch of the Career of Austen Chamberlain—Made a Name for Himself in Spite of His Father's Fame.

Mr. Austen Chamberlain, square of shoulder, sitting up throughout the night now countering the British Government's Budget, is a man with a vigor and effect which are making his second reputation. It is a reputation of having a keen business sense and a high standard of efficiency. From 1900 to 1902 he was Financial Secretary to the Treasury, from 1902 to 1903 he was Under Secretary, and from 1903 to 1904 he was Secretary to the Treasury. In 1904 he was appointed Chancellor of the Exchequer, a position of great responsibility and importance. He has shown a remarkable ability to handle the most difficult financial questions of the day, and his proposals for the Budget have been met with approval by the public. His career is a striking example of a man who has made a name for himself in spite of his father's fame.

THE ALL-NIGHT SITTINGS. In these long days and nights he sits on the Opposition front bench in his grey frock suit, with his eyes fixed on the speaker, ready to speak on finance, social reform, the price of land, the methods of building, or the management of farms. On one and the same day he has to discuss the question of the value of money, the value of the pound, the value of the shilling, and the value of the penny. He has to discuss the question of the value of the pound, the value of the shilling, and the value of the penny. He has to discuss the question of the value of the pound, the value of the shilling, and the value of the penny.

After Rugby and Trinity College, Cambridge, Mr. Austen Chamberlain completed his education in Germany and France, and came home again to become the private secretary of his father, soon to be at the zenith of his power. As a young man of twenty-nine he was elected Unionist member for East Worcestershire. It was in the following year that he made his maiden speech in the House of Commons, and among those who listened to it was Mr. Gladstone, Prime Minister of the day, between whom and Mr. Joseph Chamberlain there had now risen the keenest political antagonism. On the very subject that had separated the two statesmen, namely Home Rule, Mr. Austen Chamberlain made his maiden speech. Mr. Gladstone, with that fine courtesy which always distinguished him, promptly offered his congratulations. "It was a speech," he said, "that must have been dear and refreshing to a father's heart." Those who witnessed the scene say that Mr. Austen Chamberlain has never forgotten them.

RAPID PROMOTION. The young member for East Worcestershire soon proved himself a good parliamentary man, and in 1885 came

GLOOMY OUTLOOK FOR PHYSICIANS

Exhausting and Costly Preparation Necessary and Remuneration Steadily Decreasing.

LONDON, Sept. 20.—A pessimistic view of the medical career except for those with money to take by the British Medical Journal, which points out that the work of medical students is becoming more and more arduous and that the work is too laborious and takes too long. The average remuneration, it takes on the average, six to seven years to obtain the legal qualification, and the cost of obtaining it may be put at not less than £100. Nevertheless, the proportion of medical men to the population is increasing, while the amount of remunerative work is diminishing. Hence, says the British Medical Journal, medical men find it powerful remuneration, and that they make an adequate living. Much the same state of affairs now exists in all civilized countries, and there does not seem much prospect of things improving. Indeed, the vast changes likely to be brought about by recent legislation in this country seem likely to make the profession of medicine less remunerative. In view of these circumstances it does not seem right to advise young men to adopt medicine as a career if they are likely to be entirely dependent upon it for a livelihood. In other words, those who intend to devote themselves to medicine should have a good mental, physical, and a love of science.

ALL CRIPPLED UP FROM KIDNEY TROUBLE

Cured by GIN PILLS

Mrs. John Pettigrew of Central Economy N.B., was practically helpless from Kidney Trouble. She had been in bed for several months and her limbs were so stiff that she could not get up. She was advised to try GIN PILLS and after taking a few boxes she was cured. She writes: "I was all crippled up from kidney trouble. I had been in bed for several months and my limbs were so stiff that I could not get up. I was advised to try GIN PILLS and after taking a few boxes I was cured. I can now walk and do my usual work."

KENTUCKY'S BIGGEST CORNFIELD

(From the Louisville Courier-Journal) The biggest cornfield in the State of Kentucky is now being laid by. It is the field outlined by the gigantic horse shoe sweep of the Ohio River from Henderson round past Evansville to Green River. It is the biggest because it is corn continuously for 6,000 or 7,000 acres, unbroken by fence, untraced by any other crop—hay, no tobacco, oats or wheat—just corn, corn, and then more corn. It is estimated that over 200,000 bushels of corn will be raised in this monster tract this year, and this is in spite of the fact that the farmers were scared out of a year's growth by the high water and for a time were not quite sure whether the high water would let them raise any corn. It means something to plough one of these rows of corn a mile long in Horsehoe Bend, and by the time a team has made a few round trips it is time to rest a bit.

Cor. Union and Waterloo Streets. Phone 1009. Don't Have Your Sight tested in a hurry, unless you want the wrong glasses, the idea of refitting sight in a few minutes is ridiculous. BOYAR, the Optician, takes plenty of time and makes the Glasses right. Call at 38 Dock Street.

URGENT CREATION OF IMPERIAL COUNCIL

Chamber Commerce Wants Advisory Board TO HELP TRADE

Goes on Record for Cheaper Cable Tolls Between all Portions of Empire

STONEY, N.S.W., Sept. 18.—At a meeting of the congress of Chambers of Commerce of the Empire yesterday, H. B. Ames of Montreal moved the resolution of the Montreal Board of Trade urging on the home government and the governments of the colonies the appointment of an advisory imperial council to consider questions of Imperial interest, especially those tending to promote trade between the various parts of the Empire. Mr. Ames said the work of the resolution was to be undertaken by the consolidation of the Empire and the removal of trade barriers. Sir A. Spicer thought it would be an immense advantage to have a representative consultative council of commercial men of the whole Empire in different parts of the Empire. Under the present system the Imperial authorities are not in touch with the people of the Empire and it is necessary that there should be one mouthpiece to speak on behalf of the outlying portions of the Empire and the people of the Empire. The resolution was finally carried and Sir A. Spicer moved the following resolution: "Resolved, that the Imperial authorities be requested to consider the possibility of a permanent body to be appointed by the Imperial authorities to consider questions of Imperial interest, especially those tending to promote trade between the various parts of the Empire. The resolution was finally carried and Sir A. Spicer moved the following resolution: "Resolved, that the Imperial authorities be requested to consider the possibility of a permanent body to be appointed by the Imperial authorities to consider questions of Imperial interest, especially those tending to promote trade between the various parts of the Empire."

THE TOMBS OF OMAR KHAYYAM

(From the London Globe) Major Sykes was shown the tomb near a shrine that stood in a garden of roses. "The bones of Omar Khayyam, who as a Sunni" (an adherent of a heterodox Mohammedan sect) "is held in disfavor by the fanatic Persians, do not," he says, "rest under the chamber, but turning to the east, wing an ungraceful plastered tomb was shown us, and here Omar Khayyam is buried. One advantage at least is preserved to the poet, which is that, as he foretold, the trees shed their blossoms on him twice a year; in other words, the blossoms of the fruit trees in the garden are carried to his grave."

CANADIAN NEWS

MONTREAL, Sept. 19.—John Dillon, the eccentric book collector, who shot and killed Constable Sims, on April 1, 1908, was found guilty of murder on Saturday afternoon and sentenced to death on November 19. The jury was out two hours.

TORONTO, Sept. 18.—The Provincial executive of the Citizens' League, who met last night in the St. Paul's Methodist church, and decided to make the abolition of race restrictions in hotels and clubs an issue at the next Provincial and Dominion elections. To this end the organization will proceed to ascertain how every member of every church in the Province stands on these questions.

MONTREAL, Sept. 19.—In an exciting and rather tough game of lacrosse Montreal on Saturday defeated the Shamrocks by a score of 6 goals to 2. The Shamrocks play the Tecumseh of Toronto next Saturday on their own grounds, and if they win will be tied with Montreal for first place for the championship event. The Shamrocks will likely win, in which case the tie will be played off on the following Saturday on the National grounds. Over 8,000 people saw Saturday's game, the largest attendance at a game in many years.

OTTAWA, Sept. 19.—The Department of Labor reports that sixteen trade disputes were in progress during August, one more than in July and eight more than in August, 1908. About 21 firms and 850 employees were involved. Loss of time to employees was 108,325 working days. Of sixteen disputes in August nine were terminated, leaving seven still unsettled at the end of the month.

OTTAWA, Sept. 18.—Rev. Wm. McIntosh, for 15 years pastor of the First Congregational church and active in temperance and moral reform work, died suddenly on Saturday night of heart disease. Mr. McIntosh, who came here from Yarmouth, N.S., had returned on Friday night from Nova Scotia.

OTTAWA, Sept. 19.—Deposits in Canada's banks continue to increase. At the end of August they totalled \$700,000,000, or \$17,000,000 more than at the same date last year. The demand deposits totalled \$238,000,000, a gain of \$2,000,000 over the same date last year. The savings deposits totalled \$462,000,000, a gain of \$5,000,000 over the same date last year.

WANTED—Dry inch and a half planer, or smooth shipper pine. Any quantity up to one hundred thousand.

HAMILTON & GAY, WOOD WORKERS 86 ERIN ST. ST. JOHN N. E.

CHILDREN OF CAPE BRETON STRIKERS BEGGING BREAD

GLACE BAY, N. S., Sept. 19.—The prospects for the strike at the collieries of the Dominion Coal Company ending shortly are brighter now than they have been for some time. The United Mine Workers now realize generally that they are thoroughly beaten. With their scant food allowance giving them only the bare necessities of life and forced to go into the woods and cut down trees to obtain fuel, the strikers are beginning to wonder what will be their circumstances when winter sets in in earnest. About one hundred families are now living in various quarters, some of them even in barns, and after the ten weeks' struggle they see the Coal Company in as strong a position as ever. While the coal supply at the different banking stations had been practically exhausted now the collieries are gradually producing greater tonnage, and the officials of the company anticipate that they will wind up the St. Lawrence season in very good shape. In four or five weeks now shipments up the gulf will practically cease and then the company's intention is to commence banking at once in preparation for next season. This means that there will be steady and continuous work for all the men in the pits this winter, and seventeen hundred men now walking the streets here are seriously reflecting on what their situation will be if they do not go back to work before the shipping season ends. What might possibly be the preliminary to the end of the strike took place on Saturday afternoon when Premier Murray and Messrs. Kendall and Gillis, local members met a committee of men and discussed the whole situation. At the close of the conference Premier Murray stated that nothing had been suggested towards ending the strike and that the whole thing had been simply to talk over the situation. No proposals of any kind had been submitted and he had not been asked to interfere in any way. Unless the strike comes to an end very soon the prospects for the men now on strike are about as bad as they can possibly be. The allowance given for food is just sufficient for their actual wants. Some of the people are getting along all right on this, but others are not, and tales of ill children coming to camps of the troops and asking for food are heard very frequently. The situation of these families who have been evicted from their homes is also very bad. Some of them have gone into other houses, but many have been forced to sleep in the open air of a shack. What will happen to these people if they are in the same situation in mid-winter is a problem that is looming up very formidably now. The fuel question is also one which is assuming much importance. Pence poles, boards, and in fact, anything that will burn are being used now and the main occupation of many of the men is going to the woods to cut down fire wood. There is not very much hardwood in Cape Breton and spruce is the main fuel used now. When the strike was called early in July, many of the men who went out thought they were in for a picnic. Nearly three months have passed away since then, and the prospects of their winning recognition are no better than on July 6th. The number of strikers has dwindled considerably since that date. A close computation places the number now out of work at 1,750. Many have left the country and others have gone back to work, while the prospects are that more will return every day.

NOT COMING BROKE. An illustration of the money which emigrants are conveying into Canada is given in a statement by Mr. N. B. Colecock, the representative in London of the Ontario Government's Immigration Department. While every settler must possess \$25 on arrival, Mr. Colecock has sent over within the last few weeks one emigrant with \$12,500, six with \$5,000 or more, one with \$1,000, three with \$250, and quite a crowd with sums ranging all the way between \$250 and \$500. The sum thus gained by Canada during the last three months or so, through that single office, would be little if anything less than \$100,000.

Our Fall Opening OF PATTERN HATS AND NOVELTIES

WILL BE ON TUESDAY and WEDNESDAY NEXT, SEPT. 21 AND 22.

All are cordially invited to be present on these days, when Miss Publicover, who has just returned from the principal openings in the West will exhibit Many of the most popular and attractive designs shown in New York for this season

700 Pairs Excellent Cashmere Hose--Ladies. Buy your winter hose now and save one third on the price. A special purchase from manufacturers' agent to clear balances over his orders. Black and tan, all 50c. values . . . . . \$35. pair.

Your Fall Costume From Us Has More Style for the Money--You Can't Find Better Than These--Try Elsewhere, Then Come to us. Handsome Suit at \$25.00

You can probably find lots of \$25.00 suits, but this is exceptional. A very fine cloth and beautifully made, and trimmed with Ottoman silk-lapels and pocket flaps, self covered buttons, new fall shades and black. Costume \$25.00. Very dressy, fine Venetian cloth costume plain, but beautifully made, large French pockets, trimmed self-covered buttons. Costume . . . . . \$20.00. This is the best suit in the market today, made of all wool French Venetian 38 inch coat, semi-fitting, trimmed with new large pockets and self covered buttons. Comes in smoke, brown, navy or black, all sizes. Costume . . . . . \$15.00.

Misses' Pretty Costumes \$13.50. Just as perfectly made as the best, but in Misses sizes. Fine Venetian Cloth, in blue, navy, brown--trimmed with silk Long coat style. Costume . . . . . \$13.50.

PREMIER CAUGHT BY SUFFRAGISTS

Extraordinary Incidents of His Visit to Lympne Castle

Women Scale Walls--Free Fights and Appeals to the Police by Mr. Gladstone.

Mr. Asquith, who spent the weekend with his family in the solitude of the castle of Lympne, eight miles from Folkestone, had an experience that can never have fallen to any previous premier. Three suffragists tracked him out and behaved in such a manner that suggested they meant to bear him off. The Prime Minister attended the morning service at the church adjacent to the castle, and as he left the church the women met him. One was dressed as a hospital nurse, another had a very pronounced Yorkshire accent, an other third carried a basket. One rushed at Mr. Asquith and struck him, knocking his hat off, and he dashed past them, and took refuge in the castle. The women then made off, and tobbing further was apprehended. In the afternoon Mr. Herbert Gladstone visited the Littlestone Golf Links, which are at the foot of Lympne Hill. When he had had a round and left the tent after changing his clothing, the trio of women appeared, and they made for him at once, one of them producing a quantity of rope from a basket. They struck him, but not very violently, and he made his escape, after a short parley, in which he asked what the rope was for, but they made no reply. The worst was to come. Mr. Gladstone returned to the castle, and were about to partake of coffee when they were started by a great crash, and two large pieces of granite were thrown into the room, breaking two panes of glass, but fortunately hurting no one. The butler, the chauffeur and other servants rushed out, but the assailants had disappeared in the gloom. THE WOMEN'S STORY. According to the suffragist organization, the three women were Miss J. Kenny, Miss Elsie Howie, and Miss Vera Westworth.

ACCIDENTALLY KILLED HIMSELF ON BOARD SHIP

MONTEAL, Sept. 19.—Just as the steamer Corinthian, from London and Havre, was docking here on Saturday evening, Thomas Evans, a first class passenger, was found shot in his cabin. Removed to a hospital he died this afternoon. Before his death Evans informed the doctors that the shooting was accidental, the weapon discharging as he was putting it in his pocket. Evans was an engineer and intended to tour the Dominion. He was accompanied by Mrs. Evans.

A SMART SCHEME FOR GETTING CHEAP MONEY

DETROIT, Mich., Sept. 18.—In the suit of Fred G. Austin, receiver of the defunct brokerage firm of Cameron, Currie and Company, against Hayden, Stone and Company, of Boston, F. H. McPherson, expert accountant, testified today that frequently when Cameron, Currie and Company ordered stock sent on by Hayden, Stone and Company, they would draw upon the eastern firm at the same time. This draft would be cashed at a local bank and forwarded to Boston, where it would be dishonored until security had been forwarded and then the identical stock would be sent back to Hayden, Stone and Company. According to McPherson, Cameron, Currie and Company obtained by this means the use of more than \$2,000,000 for short periods.

ESCAPE IN A BOAT.

In the evening the suffragists rowed back on the canal to Lympne, and, leaving their boat concealed under the

THE WOMEN'S STORY.

"He (the Premier) was slipping through a side door," said Miss Kenny, when we caught him. He was wedged in the door, and a little struggle ensued, in which Mr. Asquith lost his hat. It rolled off the back of his head. We got hold of his arm and tried to pull him back into the churchyard, but he escaped through the door, and it was barged in our faces. Not a word was said. Mr. Asquith was so quick, and it all occurred so hurriedly. Explaining the subsequent incident at the Links, she said: "We stationed ourselves near the entrance to the clubhouse on the golf course, and waited until the golfers began to leave. Almost the last to go were Mr. Asquith and Mr. Gladstone and some other men. The place was almost deserted, and everything was quiet. The sun was setting; it was the time when people were just beginning to think of dinner. The Prime Minister's party approached the clubhouse, and we saw Mr. Asquith's motor-car drive round to the entrance. "Undetected, we stood close to the clubhouse and as the Prime Minister was descending the steps one of us sprang forward and caught hold of his arm. He turned and simply ran up the steps, and we ran after him. It was quite a chase, and as he reached the top step one of my companions caught him in the doorway. He tried to push her away, but she was too quick for him, and caught hold of his collar. Then a real fight ensued. Mr. Asquith called Mr. Gladstone, who came rushing out. "It was a real old joke. There they were, trying to push us out, and we were endeavoring to get in. Blows were struck, and Mr. Gladstone fought like a pugilist. I got more serious; Mr. Gladstone lunged out and we lunged out, for we were determined not to be pushed down the steps by them. "I don't think the Prime Minister received any bruises, but Miss Howie's arm was scratched. We all came down the steps somehow, and by this time the women were out of breath. A man held us, and Mr. Asquith and Mr. Gladstone entered the car and drove away. Before they went I shouted out to Mr. Asquith. 'Worse will happen to you unless you stop heaping these indignities on women.'"

A \$3,500,000 PAPER MERGER

The Boidan Paper Mills, Limited, of Montreal, lowering timber limits in Quebec and pulp and paper mills at Hawkesbury, Ont., and Merritt, Ont., and G. H. Perley & Co. of Ottawa, opening limits and sawmills in Quebec, have combined their properties. The capital will be about \$3,500,000, and the new company will own about 1,200 square miles of pulpwood country on the Rouge River in Quebec. The new firm will be called the Boidan Paper Co., Limited, and will produce newspaper and building paper, sulphite pulp, spruce and hardwood lumber and clapboards.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound. Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and I thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and I never felt so well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. Will Yorston, 6 Columbia Avenue, Rockland, Me. Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women. Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

ERIE'S FIRST WINTER TRIP

MONTEAL, Sept. 19.—The C. P. R. made an official announcement on Saturday that the sailing of the steamship Lake Erie, from Liverpool on Nov. 10th, for St. John, had been withdrawn as well as the sailing from St. John of the same vessel on Nov. 4th.

# SUNLIGHT SOAP

### DO YOU KNOW THE DIFFERENCE

between working and having the work done for you?  
Sunlight Soap actually makes the dirt drop out—saves you time and money—but injures neither hands nor clothes. That is just the difference between using other soap and Sunlight Soap. Use it the Sunlight way.

## PEARY'S OWN MAN REVEALS A NEW SIDE OF COOK'S SUCCESS

**BATTLE HARBOR, Labrador, Sept. 19.**—One of the men on the steamer Roosevelt at least knew long ago that Dr. Frederick A. Cook, claimant to have reached the Pole, was a man of high caliber. He is William Pritchard, cabin boy and assistant cook on the Roosevelt, who remained at Anaktuok with Boatwain Murphy to guard the stores. Pritchard had not spoken to anyone on board of Cook's achievement, but when confronted yesterday just prior to the sailing of the Roosevelt from Battle Harbor, with a wireless message from mid-ocean that Dr. Cook said Pritchard knew the whole story of his dash for the Pole, the youth admitted that he had learned from Dr. Cook the details of the final march and that Dr. Cook had explained to him the route followed. Whether Boatwain Murphy also was informed of Dr. Cook's success Pritchard did not know, but unquestionably Harry Whitney, who was at the storehouse when Dr. Cook returned from his dash with the two Eskimos, is conversant with all the facts. Whitney did not disclose this interesting piece of news to Commander Peary and Pritchard kept it from Peary during the entire voyage of the Roosevelt to Battle Harbor. Pritchard said that he was at the house at Anaktuok with Whitney and Cook, while Murphy was at Etah. He heard Dr. Cook describe to the New Haven sportsman how he went to the Pole and remained there two days. He could not remember whether Dr. Cook said he remained there April 21 and April 23 or whether it was April 22 and 24. Dr. Cook used a map to illustrate the route followed. Asked why he had not repeated this

## LORD STRATHCONA WAS IN ST. JOHN LAST NIGHT

### Passed Through on His Way to Halifax Where He Will Stay a Few Hours

Lord Strathcona, Canadian High Commissioner at London, was in St. John for a quarter of an hour last night, but spent the time in a sleeping berth on board his private car, Earnside. The High Commissioner's stay in the Maritime Provinces will be brief, as he will reach St. John again on his way back to Montreal at 10.30 this evening. At Halifax, the terminus of his trip, he will spend only four hours. His flying trip is in response to an invitation to be present at the opening of the Halifax exhibition. Sir Charles Bessford has also been invited to be present at the opening of the Nova Scotia fair, and for Commander Peary, too, an invitation is waiting at Sydney. Lord Strathcona is waiting at a baggage car besides the private coach, left Montreal on Sunday morning and reached here at eleven o'clock last night. The stop here continued only until the morning train was being changed, and while a light passenger car was being put on in which the High Commissioner will go down over the branch line to Oxford, which leaves the track at Oxford Junction. At Etah, Lord Strathcona will visit the fine farm which he purchased there some years ago, but which he has seldom seen. On the place is a splendid old house, but his lordship has hardly been inside of it. Halifax will see but little of the nobleman. He is scheduled to reach there at eleven o'clock this morning and to leave again at three o'clock this afternoon.

## DR. FISHER DECLARES THE DISEASE IS TYPHOID

### He Does Not Agree With Dr. Peake—Fifty Cases Now at Andover

The epidemic which is causing consternation in Andover, and which is also prevalent throughout the northwestern portion of the province, continues to make alarming headway. One death due to the disease took place in Andover on Sunday, and fifty cases are now present among a population of less than four hundred. Dr. Fisher, of Marsville, chief health officer of the province, who visited Andover on Saturday, diagnosed the disease as typhoid fever, disagreeing with Dr. Peake, the local officer, who considers the disease a combination of its symptoms and effects, of a grippé and bilious fever. Dr. Peake found that in the case of patients he is treating the fever came on very quickly. Often on retiring, the victims of the disease were in normal health, and in the morning were in the grip of the disease and very dangerously ill.

## COOK AND HIS PARTY IN THEIR WINTER QUARTERS

### Storing Food for the Dash for the North Pole—Graphic Description of Hunting by Land and Sea.

#### Synopsis of Second Installment

In the second installment Dr. Cook describes the voyage to Etah and then on to Anaktuok, the place of plenty, which he selected as the base for his dash to the Pole.

With a hasty farewell to Mr. Bradley and the officers and crew, and with a cheer from all on board we left the motherly yacht for our new home and mission. The yacht stood off to avoid drifting ice and await the return of the motor boat. When we were ashore we sat down and watched with saddened eyes the departure of our friends and the severing of the bond which had held to the known world of life and happiness. Ingfield's population changes much from year to year according to the known luck of the chase or the ambition of men to obtain new bear skin trousers. Scattered about it were twelve seal-skin tents, that served as a summer shelter for an equal number of vigorous families. In odd places seaward the sea were seven stone igloos. Upon these the work of reconstruction for winter shelter was being done. In the immediate vicinity there was some turf and moss, but everywhere else within a few hundred feet of the sea the land rose abruptly in steep slopes of barren rock. To the westward, across Smith Sound in blue haze, was Cape Sabine, Bache Peninsula and some of the land beyond which we hoped to cross in our prospective dash to the construction of a winter house and workshop called for immediate attention after the wind subsided. Men, women and children offered strong hands to gather the stores thrown along the shore. When a suitable place had been prepared the welding of a structure was a very simple process. All our things were packed in boxes of tin and packed in substantial boxes of about two cubic feet each. This had been done to forestall possible contingencies of shipwreck, for in the Arctic a crushed vessel is always a possibility. When the cargo is packed in our prospective dash to the pole, the boxes are packed in uniform size as building material, to erect efficient shelter when the call of Arctic disaster can be avoided. This precaution against ultimate mishap now seems of a very useful purpose. Enclosing a space thirteen by sixteen feet the cases were quickly piled in. The walls were held together by strips of wood or the points sealed with pasted paper, with the addition of a few blocks of ice.

### AID FROM THE ESKIMOS.

There was a complex activity suddenly stimulated along the Greenland coast which did not require special supervision. The Eskimos knew what was required without a word from us, and the things we did not know were done. An outline of the polar campaign was sent from village to village, and the Eskimos were made to fill an important duty and bring to us the necessary supplies. Each Eskimo village has its own store of goods, and the Eskimos must not only gather the greatest number possible, but must also be prepared to give us the material required for our house and sled equipment. Each Eskimo village has its own store of goods, and the Eskimos must not only gather the greatest number possible, but must also be prepared to give us the material required for our house and sled equipment. Each Eskimo village has its own store of goods, and the Eskimos must not only gather the greatest number possible, but must also be prepared to give us the material required for our house and sled equipment.

### SEASONS IN THE ARCTIC.

But for more convenient division of the yearly periods it is best to retain the usual cycle of four seasons. Eskimos call the winter "Ooklah," which also means year ward, the summer, "Oonah," days are "sleeps." The months are "moons," and the periods are named in accordance with the movements of various creatures, of the chase. In early September at Anaktuok the sun dips considerably under the northern horizon. There is no eight at sunset and at sunrise storm clouds hide the bursts of color which are the glory of twilight and the electric afterglow is generally lost in the dull gray which begins the ornament of the storm of the setting sun. The gloom of the coming winter night now thickens. The splendor of the summer day has gone. A day of six months and a night of six months is often ascribed to the polar regions as a whole, but this is only true of a very small area about the Pole. As we come south the sun slips under the horizon for an ever increasing part of each twenty-four hours. Preceding and following the night as we come from the Pole there is a

In one way or another every man, woman and most of the children of this tribe of two hundred and fifty people were kept busy in the service of the expedition. The work was well done and with much better knowledge of the fitness of things than could be done by any possible gathering of white men.

### USE OF THE NARWHAL.

The quest of the walrus and narwhal came in our own immediate plan of adventure. The unicorn or narwhal does not often come into the view of the white man, though one of the first animals to leave the shores. It gave for a brief spell good results in meat and useful material. The blubber is the pride of every housekeeper, for it gives a long hot flame to the lamp with no smoke to spoil the light. The skin is regarded as quite a delicacy. Cut into squares it cooks and tastes like scallops with only a slight aroma of train oil. The meat dries easily and is thus prized as an appetizer or as a lunch to be eaten en route in sled or kayak. In this shape it was an extremely useful thing for us, for it took the place of "sankum" for our less urgent journeys. The narwhal, which apart from its usefulness in most interesting to dentists of the Arctic deep, played in schools far offshore, usually along the edge of large ice. Its long ivory tusks rose under spouts of breath and spray. When this glad sight was noted every Eskimo about camp was manned and the flitter of skin canoes went like birds over the water. Some of the Eskimos rose to the ice fields and delivered harpoons from secure footing; others hid behind floating fragments of heavy ice and made a sudden rush as the animals passed. Still others came up in the rear for the narwhal cannot easily see backward and does not often turn to watch its enemies, its speed being so fast that it can easily keep ahead of other troublesome creatures.

### HUNTING THE NARWHAL.

The harpoon is always delivered at close range. When the dragging float marked the end of the line in tow of the Eskimos, the Eskimos were lined up by nature. Peering to rise for the harpoon, the Eskimos were straggled. When it did come up there were several Eskimos near with drawn lances whistled deep gasps. Again the narwhal plunged deep down with but one heath and hurried along as best it could. But its speed slackened and a line of crimson marked its hidden path. A Kay of blood and foam of air did not give it a chance to fight. Again it came up with a spout, the Eskimos were lined up and harpoons continued for several hours, with many exciting adventures, but in the end the narwhal always succumbed to the Eskimos. Several thousands of pounds of meat and blubber. The victory as a rule was not gained until the hunters were far from home, also far from shore. But the Eskimo is a courageous hunter and an intelligent hunter.

### PEARY DEPENDS SOLELY ON THE TWO ESQUIMEAUX

Has Little Other Evidence Against Cook—Got Them to Deny the Story They First Told—Prof. MacMillan Finds Relics of Former Expeditions.

### THE OREELY EXPEDITION.

The Oreeley expedition, which was in the Arctic from 1881 to 1883, was a full military expedition under command of General Greely, U. S. A. It met one of the most tragic fates in the history of Arctic exploration. The expedition proceeded to Fort Conger, on Lady Franklin Bay, in 1881, with instructions to remain there for two years and then to proceed southward if no supplies had come in that time. The rescue them, was crowded in the ice, and accordingly the expedition started their retreat southward. After terrific experiences the expedition got to Cape Sabine, where seventeen out of twenty-five members perished. The survivors were rescued by Commodore A. S. Peary, U. S. N., in 1893.

## Makes the Glassware Fairly Sparkle

Mirrors and glassware are hard to clean with ordinary soap. The oily matter often leaves streaks and spots. But with Taylor's Borax Soap the result is wonderful. The surface is left without a single streak—it glitters and sparkles as though it were diamond. And your work is only half as hard. For this soap reduces rubbing to a minimum—it works almost like magic.

## Taylor's Soap

Borax is the most powerful cleanser in the world. It does wonders that are almost unbelievable. It cleans once you see the results for yourself. When you spend an extra more than 12,000 miles to the side of Ceylon, just to get this oil to be used in the East, then we hold it doubly long and run thousands of gallons of pure water through it to remove every impurity. It is the cleanest and purest of soaps. It requires twenty-one days to make a single cake. The labor of more than 200 persons is needed. Yet this soap costs no more than the ordinary. We make millions and millions of cakes every year and are thus able to buy at the lowest of prices.

Maritime Branch: Royal Bank Building, St. John, N. B. Telephone 2148. J. W. ARNOLD Representative

It was at first thought that this would bring the Roosevelt into Sydney some time on Tuesday afternoon, but there is a very strong possibility of blowing today, and by clipping some papers on the Roosevelt she will be able to get here sooner than that. Mrs. Peary had made arrangements for her party to go right through to New York.

The party of correspondents who accompanied the Roosevelt on the present steamer Trian arrived back here at three o'clock this morning, after an untiring experience. They were compelled to sleep in all sorts of places as there was absolutely no accommodation for the number who went on board, and the man who was to secure a shelf in the steward's pantry or a section of the cabin table considered himself extremely fortunate.

Traces of the British expedition of 1875-6 under Admiral Sir George Narves were also found. At Cape Sheridan, where this expedition camped, Prof. MacMillan found many evidences of their stay there.

Very interesting relic which Prof. MacMillan found was a plate of Norwegian steamer Gjoa, in which Lord Amundsen found the northwest passage. At an Eskimo igloo to which he went for shelter, MacMillan was offered some blubber on a plate. On this plate was the name "Gjoa." Inquiry showed that this world-famous steamer had drifted past the point where he then was, and MacMillan got the plate as a souvenir.

### FINANCIAL AND COMMERCIAL

\$70,000,000 WILL BE SPENT IN NEW YORK CELEBRATION WEEK

A New York despatch says that it is conservative to say that during the Hudson-Fulton celebration week New York will have 7,000,000 visitors who will spend \$70,000,000 as follows: Hotels and rooming houses, \$30,000,000; Restaurants, 12,000,000; Department and miscellaneous stores, 10,000,000; Theatres, etc., 5,000,000; Programmes and souvenirs, 1,000,000; Miscellaneous, 1,000,000.

Total, \$70,000,000.

The number of lights that will be used in addition to the regular lighting of the city, will range between 1,000,000 and 1,500,000 incandescents, 7,000 arc lights, 2,000 flare arcs, one battery of four searchlights of 100,000 candle-power, giving a total of 25,000,000 candle-covers. This is taking no consideration of lights along the Jersey shore. The electrical companies have made a special rate of 3 cents per kilowatt hour, and it is estimated that it will cost approximately \$500,000.

### FINANCIAL BRIEFS.

The Bank of Montreal is now using a fine automobile which conveys its messengers with money and documents between the head office and the various branches throughout the city.

The messengers' headgear is not unlike the German army cap, and when three or four of them get in the car it looks as if the Kaiser's body-guard had arrived in town to see the sights.

A high official of the Lake of the Woods Milling Company has stated that notwithstanding the gossip on the "street" and the big advance in the price of the company's stock, there is no foundation for the report that there is a possibility of the company passing into the hands of other interests.

The world's available supply of wheat on September 1 was 94,000,000 bushels, the smallest in a decade, suggesting that replenishment will have to be acute between now and January 1st, the period when the maximum amount of wheat is usually reached, said a local exporter today.

The following are increases in previous years from September 1 to January 1: In 1925, 54,000,000 bushels; 1926, 53,000,000 bushels; 1927, 49,000,000 bushels; 1928, 46,000,000 bushels; 1929, 45,000,000 bushels; 1930, 44,000,000 bushels; 1931, 43,000,000 bushels; 1932, 42,000,000 bushels; 1933, 41,000,000 bushels.

The Bank of British North America has appropriated the sum of \$2,000,000 to meet the depreciation in Dominion of Canada bonds, which now stand in the books at 92.

### POLANDER ARRESTED; 'STEALING CHEQUES'

Got the Cash at Andover Bank

Caught by Constable Within a Few Yards of the Boundary—Remanded Until Tomorrow

ANDOVER, N. B., Sept. 12.—Once again the unruly foreign element in this county is thrown in the limelight of criminality. This time it is a young Polisher, who has stolen five cheques amounting to fifty-five dollars of someone else's cash.

On Friday when the men were absent from Moore & Sons' camp on the Tobique, this young chap, name unknown, went in and found two cheques amounting to fifty-five dollars. He took them and passed out to the settlement at Perth on the Saturday morning he boarded the Tobique Valley train for Perth. On the way down he was stopped by Constable Moore, who spoke his language. On their arrival at Perth they were immediately taken to the station and remanded until tomorrow.

An hour later Mr. Moore telephoned the bank of the robbery. Constable McCuskey, the teller started in not pursuing the road reading to Port Jervis. The Russian said he knew nothing of the matter and was a Pole. The search was determined to be a Polisher a thrashing for his conduct.

The Polisher was handcuffed and searched. He was brought to Andover and lodged in jail to await his hearing before Justice McQuarrie on this morning. The Russian is held as a witness. New Brunswick has done as much as a county that with Constable McCrea and his assistants, exciting incidents as the wild and woolly west could ever aspire to.

A dispatch to The Star from Andover this morning states that the prisoner was brought into court this morning. The charge was read over to him by Magistrate McQuarrie. At the prosecution's request a number of witnesses the prisoner was remanded to the jail to be adjourned until Tuesday morning.

### LOWELL vs. GRAY

Jury Sworn in This Morning and Case Commences This Afternoon.

The case of Lowell vs. Gray, which was heard before His Honor Mr. Justice White was postponed until this afternoon. The action is an affidavit of some of those summoned as jurors. His Honor, in adjourning the court, spoke in strong terms about the manner in which some citizens avoided jury service. He instructed the sheriff to notify the panel to appear at the court at half-past two and said that if there were any absent he would impose a fine and, moreover, have the fine collected.

The plaintiff is James Lowell, M. P. P., and the defendant Dr. J. H. Gray, of Fairville. The action is an affidavit of some of those summoned as jurors. His Honor, in adjourning the court, spoke in strong terms about the manner in which some citizens avoided jury service. He instructed the sheriff to notify the panel to appear at the court at half-past two and said that if there were any absent he would impose a fine and, moreover, have the fine collected.

### ST. JOHN MAN WILL SUE FOR DIVORCE

Adolf Pinett Tells 'Sad' Story of His Married Career—Wife Now in Chatham.

Another unhappy case will occupy the attention of the divorce court in the near future. Adolf Pinett, has decided to seek a divorce from his wife, Lizzi, a native of Chatham, at which place she is now. Pinett tells a sad story of his unhappy married career. His wife, he says, has given him more trouble than he feels a respectable man should be called upon to bear, and he claims to have sufficient proof of her wrong doing to rid him of his alleged, unfaithful better half.

One man upon whom Pinett says, according to the unhappy husband, there were many others. Mrs. Pinett has departed from the city now, and her husband has consulted a prominent lawyer and expects to have the case come before the court at the earliest possible time. The couple have been married seven years.

CONVICTS EXPECTED TO MAKE GOOD THEIR ESCAPE

Know the Country Thoroughly—Baptist Church Calls New Pastor—Horse and Carriage Missing.

SACKVILLE, N. B., Sept. 20.—Rumor here had it this morning that Kennedy and Larson, the two convicts who escaped from Dorchester Penitentiary on Friday, had been seen, one in the vicinity of Port Elgin, and the other in the vicinity of Havelock. There does not seem, however, to have been any justification for the report. It is thought both men have a fairly good chance of escape as they are familiar with the country. Kennedy's wife is a Sackville woman and she knows the woods in this vicinity well. Larson knows the other end of the county.

Rev. A. East, now of Havelock, has been invited to the pastorate of the Baptist church at Middle Sackville and Midgie. East is by birth an Englishman. For some time he labored in the mission fields but later he has been living in New Brunswick.

Magistrate Fred Magee, of Port Elgin, will be one of the competitors in the Canadian Trap Shooting Tournament in connection with the "Back to Montreal" celebration at Montreal this week.

In an earnest recently the marriage took place of Miss Laura Estabrook, the daughter of Mr. and Mrs. Walter Estabrook, of Middle Sackville, and Rev. Dr. D. A. Steele. Miss Estabrook will make their home at Dorchester village.

A local livery stable man is worried these days owing to the fact that a couple of strangers yesterday afternoon, have not yet been back to his stable, although they were supposed to be hired merely for a trip to Amherst. The young man who obtained the horse in the afternoon and it was understood that they would be back about nine o'clock in the evening. Nine o'clock came and the horse and carriage still missing. It is thought that the young men are two who have been boarding here for some time, though they were strangers to the livery man.

NEW FIRE STATION

Today the city is calling for tenders for the erection of a new fire station on the corner of Victoria and Ludlow streets, West End. A station in this vicinity has long been needed. It takes the apparatus considerable time to respond to an alarm in the vicinity of Blue Rock owing to the hills and the distance from No. 6 station on King street. The new station will also be near the Sand Point wharves.

### CITY PULPITS WILL BE FILLED BY WOMEN

Many Well Known Lady Speakers Will Be Here Next Month for Dominion Convention of the W.C.T.U.

The conveners of the committees in charge of the entertainment of the Dominion Union from October 29 to Nov. 2 met for conference on Saturday afternoon in the parlor of the local union. Satisfactory progress was reported and the white ribbon asterhead are looking forward to a large and representative convention. All the sessions will be held in Centenary church. Friday evening, October 29, will be devoted to Mrs. Gray, President of the Provincial W. C. T. U., Mayor Fulton and others representing influential bodies. These will be replied to by Mrs. Wright, Dom. President.

Two services will be held in Centenary on Sunday. In the afternoon a great mass meeting of children is being arranged by Mrs. T. H. Bullock. Addresses will be given by specialists in Sunday School work and special music will be provided.

In the evening the convention sermon will be preached by Mrs. Ann Gordon, of Ottawa, whose evangelistic addresses and bible readings are of more than ordinary interest.

As many of the women who attend this convention possess the evangelistic gift, a large number of our city pulpits will on Convention Sunday be filled by women.

FAILS TO FIND AS MUCH VICE AS WAS EXPECTED

English Clergymen Says Chicago is a Much Maligned City.

CHICAGO, Sept. 20.—Chicago is a much maligned city, according to Rev. John Thomas, B. A. of Liverpool, England, who came to Chicago a week ago full of misgivings because he had been reading the writings of W. T. Stead and had come to the conclusion that Chicago was a "hell on earth," to use his own expression.

After a week's search for surface indications of the existence of wholesale vice among the people of Chicago says that he is compelled to confess that he found none. He says that his investigations have led him to believe that Mr. Stead was greatly mistaken and conditions are not as bad in Chicago as they are in the larger cities of Great Britain.

ALDERMEN TO INSPECT LANGACROFT PROPERTY

Some of the Houses Owned by the City Will Likely be Condemned, and Others Will be Sold.

Ald. Vanwart, chairman of the Safety Board, informs the Star that the inspection of the city property in Lancaster will probably take place on Wednesday afternoon. The city is owner of about seventy-five buildings along Lancaster Heights and in Fairville. Most of the buildings are tenement houses. It is proposed to condemn some of the property to desirable purchasers and some of the houses made for the city.

A report will be drafted and presented to the committee which will make a tour of the tenants are: Ald. Potts, Vanwart, Kelly and Director Wisely. A report will be drafted and presented at the next meeting of the board.

VICTORIA ROLLER RINK OPENS ON WEDNESDAY

On Wednesday evening, the Victoria Roller Rink will be reopened for the season and a large attendance is expected. The Victoria Roller Rink will be reopened for the season and a large attendance is expected. The Victoria Roller Rink will be reopened for the season and a large attendance is expected.

PROVINCIAL NEWS

DORCHESTER, N. B., Sept. 19.—Prison guards are still searching for Larson and Kennedy, the convicts who escaped from the penitentiary on Friday. No trace of the prisoners has been found so far.

MONCTON, N. B., Sept. 19.—In the circuit court at Dorchester on Saturday night, the case of alleged malpractice against Dr. A. R. Myers, of Moncton, was concluded. The verdict of the jury was that there was no cause of action. The expert witnesses for the defense were Dr. Thos. Walker and Dr. W. W. White, of St. John; W. F. Fowler and W. B. Chandler for the defense.

Estate of Mary A. Brickley, widow of James Brickley, boatman, of St. John, was a year ago appointed executor, and having since died without fully administering the estate a citation for the appointment of a new administrator being now returnable on the application of the widow of James G. Sullivan, those interested present consulting, Neal D. Bonnie, of Nauwigewauk, farmer, is appointed administrator de bono non. Messrs. Morrison and Sheppard arrived at Leopoldville August 5th with witnesses who will testify in their behalf.

All departments throughout the store will participate in this exhibition of new goods. The cloak department, having many exclusive designs in costumes and fall coats. All are invited to be present on these special display days.

### GONGO MISSIONARIES

#### FACE LABEL SUIT

Belgian Government is Really the Prosecutor—Missionaries Have Charges Who Support Their Verdicts.

LEOPOLDVILLE, Belgian Congo, Sept. 20.—After several postponements the trial of the two American missionaries, the Rev. Wm. Morrison and the Rev. W. H. Sheppard, on charges of libel began here today.

This suit against the missionaries mentioned in the above despatch is brought by one of the Congo Concession Company's which has a monopoly of rubber gathering in the Kasai Region. It claims \$20,000 damages from each of the men for "calumnious denunciations." The circumstances are such that the suit is considered practically against the missionaries.

Messrs. Morrison and Sheppard arrived at Leopoldville August 5th with witnesses who will testify in their behalf.

59 CHARLOTTE ST.

### STYLISH FALL CLOTHING

At Prices within the Reach of All

Buying a Suit of Clothes is not an every-day affair—a fact that makes the man of small income use considerable discretion and judgment. When buying a suit, you want one that not only wears well, but one that will fit and look well, for an indefinite period; a suit that you can depend on to keep its shape. Our Clothing is guaranteed to do this because the materials are good, thoroughly sponged and shrunk and tailored by hand. You will readily see that you can save money by purchasing here, inasmuch as the same suit, custom-made would cost much more and in most cases not as well made. Not only are the materials of the most favored patterns, but the workmanship is difficult to equal.

Suits and Overcoats from \$10 to \$27.

### Gilmour's, 68 King St.

Rev. Gordon Dickie occupied the pulpit of the Presbyterian Church at Hampton yesterday morning and at Salina in the afternoon.

Important to sportsmen—60 Hudson Bay Sample Sporting Goods lost prices. C. B. Pidgeon, Cor Main and Bridge streets.

A number of North End young ladies are planning to hold a rummage sale in the Every Day Club rooms on October 21st and 22nd. The proceeds will go towards the fund for maintaining the Riverside Memorial Park.

Between Saturday night and Sunday noon Frank Rafferty's house on Marsh Head was entered. A ring valued at \$12 and \$20 in cash were taken from the premises. The stolen articles were in their places Saturday night and after dinner yesterday were missed by one of the occupants. The police were notified and suspicion rests on a hired man around the place who was absent from his accustomed place yesterday afternoon. As yet no arrests have been made.

After spending four weeks in Western Canada and the Pacific Coast, E. J. Purdy returned home Saturday evening much improved in health. He saw many former St. John people during his trip and visited the Pacific fair at Seattle. Mr. Purdy considered Vancouver the most prosperous city visited during his whole trip. He was also impressed with the lumber and fish industries of Canada's Pacific province and saw \$5,000 salmon being taken at a single catch.

W. T. James, a passenger from Bermuda to his old home at Paradise, N. S., reached the city yesterday morning on the S.S. Sobos. He states that trade conditions between the island and Canada were in a better condition than ever before. Everything is booming on the island itself and indications point to good crops in onions and other commodities. Lord Kitchener is expected to visit the island during the winter, as the guest of General Walker Kitchener.

Mr. Maxwell K. Moorehead, U. S. consul at this port, has received official intimation of the appointment of Mr. Lawrence H. Hood, of West Virginia, to the position of vice-consul here, made vacant by the removal of Mr. Fletcher to Toledo, Ohio. Mr. Hood was formerly connected with the consular service at Parrboro, N. S., and lately was stationed at Halifax, N. S., under Mr. C. He will arrive here in a day or two.

While standing on the wharf at Reed's Point on Saturday afternoon watching the boat races in the harbor, Mrs. Grant of this city, who was seated on an enthusiastic spectator, had the misfortune to drop her hand satchel containing a sum of money, gold watch, gold bracelet and diamond ring, into the harbor. Nothing could be done at the time to recover the lost articles, but Mrs. Grant has secured the services of Diver Edward Leahy, who will go down today in an attempt to recover the satchel.

While dispersing a crowd of boys on Union street last night, Policeman Rankins was struck in the leg with a stone thrown by one of the boys. The injury forced him to leave his beat and seek his home. The officer was chasing the crowd when he was struck by a stone thrown from behind. He sought aid at a nearby drug store, but was suffering such intense pain that he was forced to take a car for his home. This is the second case in a short time when the police have been interfered with by unruly boys and as several of last night's crowd are known, arrests will probably be made.

### GRANT TO FACE CHARGE OF ILLEGAL SHOOTING

His Moose Was Under Age—Caught With the Goods—Warden Dean Reports Lots of Big Game in Sight.

W. J. Dean, game warden for Saint John, Charlotte and part of Kings, Sunbury, York and Queens counties, returned on Saturday evening from St. Croix, where he has been investigating a case of game law violation. As a result of his trip, a man named Grant will on Tuesday face the first charge of illegal shooting which has developed in the season of 1909.

As Samuel Orr, game warden of St. Croix parish, was driving to his home on Thursday last, the second of the shooting season, he came upon Grant in the woods with a moose, the head of which he considered to be beneath the minimum size at which a moose carrying the head can be legally shot.

Mr. Orr reported to his superior, and Warden Dean went to the district to see the head before laying the charge. His opinion concurred with that of Mr. Orr, and the charge against Grant has been laid.

A moose head is not legal spoil for the hunter unless it bears upon each horn three lines four inches in length. A moose of three years of age is supposed to be developed to that extent.

Speaking to The Sun yesterday, Warden Dean said that he had recently traveled over practically the whole of the territory under his jurisdiction, and had found moose and deer extremely present in great numbers. In the course of a drive from McGiverny Junction to Napadogan, a divisional centre on the Transcontinental, he saw no less than six fine moose. On the right-of-way, in the morning, he observed the tracks of coon or deer which had crossed in the night.

### THE FIRST WOMAN TO GET A MOOSE THIS YEAR

Mrs. S. Mason, of Canterbury Station, Shot a Fine Animal at Kiburra Lake on Saturday.

Mrs. Sherman Mason of Canterbury Station has the distinction of being the first lady to shoot a moose since the opening of the 1909 season. At Kiburra Lake on Saturday, Mrs. Mason had the good fortune to land a large moose. The animal was a large one. It had a spread of fifty-one inches and was in company with four others, when shot. Hansmann, who frequents the woods are well acquainted with Mr. Mason, who is a licensed guide. Reports that his game is very plentiful in that section, which though easy to reach and one of the best moose hunting grounds in the province is not much visited by sportsmen.

The demand for licenses continues steadily and large numbers are being issued. Numerous sportsmen expect to leave for the woods during the week.

### A HOME FOR HOBOES AT MACADAM JUNCTION

Tramps are Proliferous and the Camp is Constantly Occupied—Train Crews Terrorized.

A hoboes' camp, which is constantly occupied, now one of the sights to be seen at MacAdam Junction, but it is one which is no feast to the eyes of the C. P. R. officials who are doing their best to erase this picturesque feature from the landscape.

One of the gang which infests the C. P. R.'s was captured on Saturday in rather dramatic style. "Caught with the goods on him" was no idle expression as the man was found with a large quantity of stolen goods, including a trunk, a suitcase, a hat, a coat, a pair of shoes, and a pair of trousers. He was taken to the station and held in custody.

Between Vanceboro and Macadam, one of the trains used the tramp in a box car which had been opened for inspection by the United States Immigration officials. He has opened a packing box containing shoes, and sat by the side of the box with his feet in a nobbly cut pair, which consisted badly with the remainder of his costume. When the train reached MacAdam the hobo was divested of his money and was placed under lock and key.

He caused both the railroad and the consignees of the goods some trouble, for the car had to be taken from the train and held at MacAdam pending investigation.

Tramps have been causing the C. P. R. trouble on this and the northern division to an unusual degree. Hundreds of them have been getting into the railway for trips to the Aroostook potato fields. The company has some consolation in the thought that they will be paying passengers bailed when the potato digging is through. For some time past the railroad has been at a great deal of trouble and expense in attempting to stamp the hoboes out, and it is now thought that their efforts are meeting with some success.

It is said that the train crews have become terrorized by the numbers in which the tramps travel, and they dare do little to prevent them riding the roads.

It may be a surprise to some to learn that when Detective Killen looked into the hobos camp a few days ago when at MacAdam on the Pass case, he found that out of fifteen men in the gang twelve were from St. John.

### PERSONAL

Mrs. Beatrice Black of North End is spending a few days with friends at MacAdam.

Mrs. H. D. Sullivan, nee Foster, will receive her friends on Wednesday afternoon and evening and Thursday afternoon, Sept. 22 and 23, at her home, 139 Elliott Row.

C. E. Dobow, of City Road, left for Boston Saturday evening to visit his daughter.

### Our Premier Fall Millinery

Opening Tomorrow Reveals the Style Tendency in Autumn Hats

Authoritative Features that Will Appeal to Every Feminine Devotee of Fashion.

A style not in accord with Fashion's dictates is not right and what is not right is not style. Every hat we offer is right—hence stylish. In fact our style supremacy in Millinery is generally recognized by the best dressed women of this vicinity—and this reputation will be enhanced by the high-class hats we offer this season.

Paris advices prove that the large hat will have a great vogue—the brims have a tendency to a high roll at the left. Crowns are large but of medium height. Turbans and Toques of larger than usual shape are also in high favor.

Visit this Two Days Exhibit and Sale of Pattern Hats for Ladies' Misses' and Children.

Customers can rely implicitly on the correctness of our Millinery. Its diversity also is worthy of commendation. Never so many good styles—never such splendid values. A visit to our Millinery section will prove very interesting at this time.

Style questions can be settled quickly at this Grand Opening Display of the New Fall Millinery. Welcome!

A style not in accord with Fashion's dictates is not right and what is not right is not style. Every hat we offer is right—hence stylish. In fact our style supremacy in Millinery is generally recognized by the best dressed women of this vicinity—and this reputation will be enhanced by the high-class hats we offer this season.

Paris advices prove that the large hat will have a great vogue—the brims have a tendency to a high roll at the left. Crowns are large but of medium height. Turbans and Toques of larger than usual shape are also in high favor.

Visit this Two Days Exhibit and Sale of Pattern Hats for Ladies' Misses' and Children.

Customers can rely implicitly on the correctness of our Millinery. Its diversity also is worthy of commendation. Never so many good styles—never such splendid values. A visit to our Millinery section will prove very interesting at this time.

Style questions can be settled quickly at this Grand Opening Display of the New Fall Millinery. Welcome!
