

U. N. B. STUDENTS SAY FAREWELL

Record Graduating Class Receive Degrees on 50th Anniversary of Provincial Institution.

Twelve Salutes Fired at Midnight, the Tribute of the Senior Class--Educationalists Honored.

Special to The Standard. Fredericton, June 2.—Distinguished sons of the University of New Brunswick gathered in her classic halls today to observe the 50th anniversary of the institution under the present name...

Honorary Degrees. The feature of the Encocena proceedings this afternoon was the conferring of the honorary degree of LL. D. upon Mr. W. S. Carter, chief superintendent of education...

GERMAN EMPEROR HAS SALARY RAISED

Repairs To Castles And Generous Support Of Theatre Responsible For Kaiser's Want Of Spending Money.

Berlin, June 2.—The civil list of the emperor as king of Prussia is soon to be increased probably to about \$5,000,000. This was agreed upon today by the leaders of the Conservative, National, Liberal and Radical parties...

GENERAL FRENCH PLEASED WITH R.M.C.

Told Kingston Students He Had Met Graduates In Best Positions In The British Army—Inspects Artillery.

Special to The Standard. Kingston, Ont., June 2.—General French was greatly pleased with his visit to the Royal Military College, and in an address he said he had long known of Canada's military college...

DEATH OF A. McNUTT AT LIVERPOOL, N. S.

Liverpool, June 2.—The death took place this morning of Andrew McNutt, a well known merchant of Liverpool. Mr. McNutt was in earlier life associated in shipbuilding and the West India business with his brother, the late Captain David McNutt...

MODERATOR EXERCISES AUTHORITY

Frustrated What Might Have Proved Attempt To Introduce Politics Into Assembly—Judge Forbes Participates.

Special to The Standard. Halifax, June 2.—The first day of the general assembly began with passing such business as is cut and dried in the blue book. In starting off the moderator, whose originality keeps alive the interest, said we shall have plenty of work. And then he pointed to the great special reports attached together making a provisional blue book of 621 pages...

DR. MAGEE IS PRESIDENT

St. John Man Chosen Head Of The Dominion Dental Council At Toronto Convention—Registration a Success.

Special to The Standard. Toronto, Ont., June 2.—The Dominion Dental Council of Canada, which has been in session since Monday, concluded today. This is an entirely separate organization to the Canadian Dental Association...

FIGHT TO FINISH IN TORONTO STRIKE

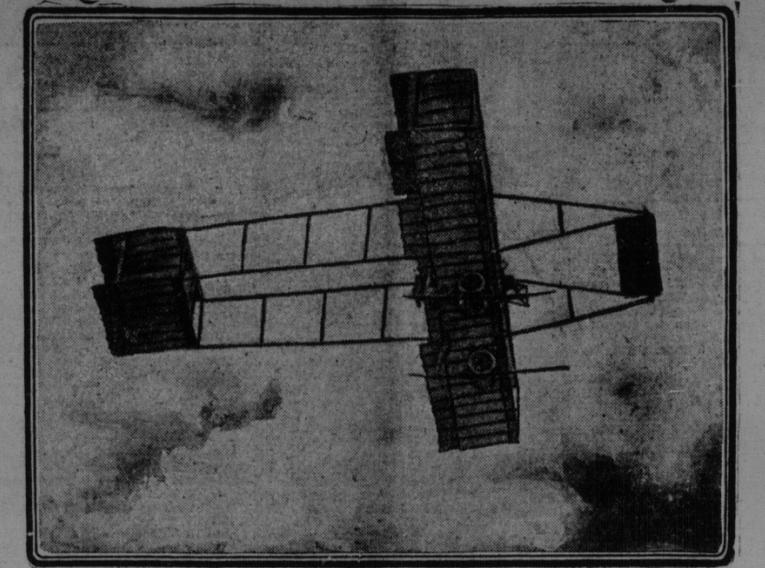

Little Hope Of Settlement Of Labor Trouble In Which Six Hundred Carpenters Left Their Work.

Toronto, Ont., June 2.—Prospects for an early settlement of the strike of the builders and laborers, nine hundred of whom went out yesterday, are still remote. Large contractors say they will fight the men's demands to a finish...

AUSTRIAN GOVERNMENT WON.

Budapest, June 2.—Eighty-five districts yet to hear from the government has a majority of 100 seats. In the general elections for the new parliament.

ENGLISHMAN MAKES RETURN JOURNEY ACROSS CHANNEL IN A WRIGHT BI-PLANE

How the Commercial Airship Will Appear From Below. Capt Rolls in His Record Flight Clearly Demonstrated the Practicability of Aviation.

Dover, Eng., June 2.—The Hon. Charles Stewart Rolls, captain in the London section of the Army Motor Reserve, driving a Wright biplane, vindicated Anglo-Saxon aeronautics by crossing the English channel twice this evening without alighting. He made the round trip between Dover and Calais in ninety minutes.

When finally the aviator became visible to the naked eye cheer after cheer arose from the enthusiastic spectators, and as he gracefully soared toward the landing place made famous by Bleriot, he was given an ovation. He alighted at 8 o'clock at almost the same spot as Bleriot, showing little signs of the strain of his magnificent flight.

Captain Charles S. Rolls, of the London section of the army motor reserve, has successfully followed the sports of bicycling, automobilism, ballooning and aeroplaning. At Cambridge University he was the captain of the bicycle team. Later he competed successfully in numerous automobile competitions and was awarded the gold medal for his performance in the 1,000 miles trial of 1900 in England.

TRANSCRIPT IN OPEN REVOLT

UNDERTAKER USES AXE IN FORCING WAY

Friction Between Superintendent of St. Stephen Cemetery And Rivals In Business Leads To Distressing Scene.

Special to The Standard. St. Stephen, June 2.—A very regrettable incident occurred here this afternoon at the entrance to the rural cemetery. Some five years ago the directors of the cemetery company, an incorporated body, appointed J. R. Sederquest, undertaker, their superintendent and naturally the appointment was not approved by the other undertakers in town, who then included S. O. Mehan, a former employe in Mr. Sederquest's establishment and Arthur Price who has since removed to Moncton.

Editor Hawke Makes No Reference to Testimonial to Leader of the Opposition.

Report That Effort Will be Made to Read Mr. Robinson Out of the Party.

Special to The Standard. Moncton, June 2.—There is much comment here over the fact that beyond quoting a paragraph from the Times, the local Liberal organ, the Transcript absolutely makes no reference to provincial opposition caucus here or to the presentation to Hon. C. W. Robinson. This is regarded as significant especially in view of the fact that the Transcript has recently been praising Premier Hazen and the provincial department of agriculture. It is stated that the editor of the Transcript has declared war upon Mr. Robinson and is determined to read him out of the party, though the testimonial of the opposition members does not indicate that he has so far achieved a great success.

NEAR LYNCHING IN WAINE TOWN

John Dickens Of Chelsea, Under Suspicion Of Assaulting Girl Has Narrow Escape From Angry Crowd.

Bangor, Me., June 2.—John Dickens, claiming Chelsea, Mass., as his home, had a narrow escape from violence at the hands of a mob in Hermon, six miles west of Bangor, Wednesday night. Irene Packard, aged 11, daughter of Mr. and Mrs. Samuel M. Packard, of Hermon, was assaulted with supposed criminal intent, in an outbuilding near a hall where her parents and many others were attending a dance.

EARL GREY TO VISIT ENGLAND

Governor General May Return To Canada On The Niobe—To Establish Second Peat Experimental Station.

Special to The Standard. Ottawa, June 2.—Earl Grey will leave for England next week. It is anticipated that he will return to Canada by the Canadian warship Niobe which will arrive at Halifax early in July. The occasion of the arrival of the Niobe will be somewhat of a national demonstration. Hon. L. F. Borden and Hon. Rodolphe Lemieux will be present as representing the Government. Earl Grey's visit to England will not interfere with his Hudson Bay trip.

INDUSTRIAL COMMISSION IS APPOINTED

Headed By Dr. James Robertson, Body Of Eight Will Report On Mechanical Training And Technical Education

Special to The Standard. Ottawa, Ont., June 2.—The following have been appointed members of the royal commission on industrial training and technical education: James W. Robertson, LL. D., of Montreal, chairman; Hon. John N. Armstrong of North Sydney, N. S.; Dr. George Bryce, of Winnipeg; M. Gaspard Deserres of Montreal; Gilbert M. Murray, of Toronto; David Forsyth, of Berlin, Ont.; James Simpson, of Toronto; secretary and reporter to the commission, Thomas Bengough, Toronto.

DROWNED WHILE WORKING ON DRIVE

Samuel Robar Of Liverpool, N. S., Caught Under Moving Logs—Jury Brought In Verdict Of Accidental Drowning.

Liverpool, June 2.—Samuel Robar, 21 years of age, of Greenfield, Queens county, was drowned this morning at the McLeod Pulp and Paper Company's boom. Robar was employed on the Harlow and Kempton drive of logs and accidentally fell into the water and disappeared under the lumber. The body was recovered after which Coroner F. K. Freeman empanelled a jury which brought in a verdict of accidental drowning.

ROOSEVELT IS AT PEACE WITH CROMER

London, June 2.—Theodore Roosevelt and Lord Cromer, British agent and consul general in Egypt from 1883 to 1907 were guests at a dinner given by John St. Lee Strachey, proprietor of the "Spectator" tonight in honor of Mr. Roosevelt. They sat on either hand of the host. Col. Roosevelt and Lord Cromer are believed to be perfectly agreed on Egyptian politics and that the complaints of sentimental tendencies which the former president voiced at Guild Hall have all arisen after Lord Cromer's administration.

HOT IN OKLAHOMA

Hobart, Okla., June 2.—The thermometer registered 109° today, marking the hottest day in the last seven years.

University of New Brunswick Observes 50th Anniversary at Brilliant Encoenia Yesterday

Degree of LL.D. Conferred on Chief Superintendent Carter and Principal Bridges--Norman E. Cook Reads Fine Valedictory--Premier Hazen Donates Special Prize.

Continued from page 1.
Chief Supt. of Education Carter presented and those present were Premier Hazen, Senator Ellis, Dr. Thomas Walker, Judge McLeod, School Inspector McLean and Dr. H. C. Bridges of St. John, Judge Barker, B. C. Postor and Acting Chancellor Raymond of the city; Hon. Geo. F. Hill of Saint Stephen, Wm. Park of Newcastle and Havelock Coy, registrar.

It was decided that hereafter members of the faculty will receive their salaries monthly instead of quarterly, commencing with the next year.
A petition was received from members of the faculty, asking that the academic year be changed so as to open about the middle of September, two weeks earlier than at present, or about the middle of May.
The senate dealt favorably with the petition, but the changes cannot go into effect this fall, as the university calendar has already been issued and names the old dates. A report was received from the chancellor recommending that a hot water heating apparatus be installed for the gymnasium, and also improvements in the reading room, and the matter was referred to a committee with power to act.

The salaries of Prof. Day and Prof. Stevens were each increased \$100, making Prof. Day's salary \$1,300 and that of Prof. Stevens \$1,200.
A recommendation from the alumni that the honorary degree of LL.D. be conferred upon Mr. W. S. Carter and Mr. H. V. B. Bridges was confirmed.
A communication regarding the establishment of a chemical and bacteriological laboratory at the university was not acted upon, owing to matters now before the provincial government for consideration.

Encoenia Proceedings.

The Encoenia ceremonies took place under unsettled weather conditions, but that did not interfere with the attendance, being the largest in recent years, the ceremonies having unusual interest owing to the 50th anniversary of the institution as the University of New Brunswick. Numbered among those present were many of the old-time professors, including Lt. Col. Marsh, police magistrate of Fredericton, who graduated in 1852 and Rev. T. W. Street, sub-dean at Christ Church Cathedral, who graduated in 1851.

The Encoenia was a brilliant affair, the program was carried out promptly and in a highly creditable manner.
During the morning many visitors inspected the grounds, and the class of 1910 planted their class in accordance with historic custom.
The ivy orator was Miss Margaret M. Belyea of Grand Falls, who counted, and she delivered an oration which took a place in the front rank among similar addresses of past years. This afternoon the academic procession formed in the lecture room and marched to the library, where the exercises took place.

The afternoon proceedings opened with the reading of the address in praise of the founder, by Dr. Philip Cox, professor of Natural History and Geology at the University.
The Douglas gold medal was then presented to Mr. George N. Belyea, of Woodstock by the Lieutenant Governor, and Mr. Belyea read a portion of his essay.
His Honor also announced that the subject of the essay to be written in competition for the medal next year would be "The economic, scientific and scientific way of surveying, classifying and registering the public lands of New Brunswick, and the best means to be adopted for their protection and preservation."
Dr. W. C. Crockett, the president-elect of the Alumni Society, made the presentation of the Brydone Jack scholarship to Mr. C. Percy Stevens, and Dr. Crockett also announced that the Alumni Society medal for next year would be offered for the best Latin translation of a portion of McAlay's essay on Warren Hastings.

Next Year's Subject.

His Worship Mayor Thomas presented the city of Fredericton's medal for the best essay on the lumbering industry on the St. John River, to Mr. G. S. Grimmer, of St. Andrews, and also announced that the medal next year would be awarded for work in connection with hydraulics as a part of municipal engineering.
The Lieutenant Governor's prize of \$50 in cash for proficiency in five subjects in the senior year was presented to Miss Margaret M. Belyea, by Chief Superintendent of Education Carter, who congratulated the winner upon the brilliant showing she had made.
Premier Hazen was called upon to present the Montgomery Canadian prize, and in doing so made a timely speech, in the course of which he congratulated the winner, Miss Frances L. Fish, who led the graduating class again on the prize for proficiency in classics.

In the absence of Hon. George E. Foster, who had been invited to present the Governor General's medal, his duty was performed by Hon. W. G. G. Grimmer, Surveyor General. The winner was Miss A. Y. L. Sharpe, the prize being awarded for mathematics and mathematical physics.
The Ketchikan silver medal was presented by Very Rev. Dean Schofield to G. H. Patterson, of the graduating class from the engineering school.
Then followed the conferring of degrees, candidates for ordinary degrees being presented by members of the faculty, while candidates for the

higher degrees were presented by Dr. H. S. Bridges, of St. John.
New Prizes.
A surprise was given during the afternoon by the lately formed alumnae society, of which about thirty women graduates of the University are members. The new society made their first presentation of a prize, having privately decided that \$30 in gold would be presented to the young lady of the sophomore class leading in general proficiency. The winner was Miss Anna C. Kelley, daughter of Mr. Ald. C. J. Kelley, of this city, and the presentation was made by Mrs. H. G. Chestnut, president of the Alumnae Society.
Mr. W. H. Hoyt was a close second in the opening of the Brydone Jack scholarship, and received a special prize of \$20, donated by Premier Hazen.

THE VALEDICTORY.

Mr. Norman E. Cook, the Valedictorian of the class, made a lengthy address, in which he said:
Your Honor, Mr. President and Members of the Senate, Mr. Chancellor and Gentlemen of the Faculty, Mr. President and Members of the Associated Alumni, Fellow Students, Ladies and Gentlemen—Years of unfolded time have wrought changes throughout this universe that must be traced to some origin. At first, the molten mass, flung from the regions of space, was a chaotic, unshaped and unbalanced by forces of opposing action, since then—this principle of change has marked not only progress and advancement, but also ruin and destruction. The apostrophe of Greece and Rome has passed from predominance, until today these nations are but decadent powers that mark the change. Throughout Nature, this principle has ruled supreme—the passing away of the flora and the fauna of the past, making way for those of the present; the gutting of mountains by streams; the upheaval of hills, our world is the departure of Adam, from the Divine command, the resulting sin and despair and everywhere, throughout our material universe, the changes of Nature and humanity. It is due to evolution, grown out of the past, strengthened or weakened by surrounding influences and conditions and where the result survives, it is marked and seen. But evolution alone is not all there; there must be some foundation, outside of the mere object to warrant a change; there must be some aid, linked with condition to cause alteration. On a fine summer's day, the sun throws its life on this sphere, the world is in sunshine; the birds sing their sweet songs of praise and thanksgiving; on all sides, the influences of the sun is seen and felt. And if suddenly, a raging tempest should roll onward and sweep the face of the heavens, cast gloom upon the land, threatening clouds shatter the rays of the sun and in an instant the fury of pent-up thunder burst forth, we would wonder how all this could happen when but a few moments before the sun shone brightly, in all its glory but now darkness reigns. Such a commotion had been gaining strength for hours, clouds had been gathering higher and thicker, different gases had been generating—in preparation for this change. The day could not have been transformed from brightness into gloom, unless there had been a cause and that cause is the preparation for such a change.

The Natural Instinct.
Gifted with an instinct from God, the birds build their nests. They work with untiring effort, gathering a string here, a straw there, to add to their future home. The texture of their nests is complex and varied, the best materials are sought and added to their work—instinct teaches them to prepare for the future. And so, everywhere—this principle of chance and development must be governed and controlled, to a great extent, by preparation and forethought.
Today, when we as a class must change, we look back upon four years of preparation; years, when we have been training our lives, for that which we knew must follow; years, when preparation has been indirectly, for the future, and directly, for the world is before us. The wisest material should have been sought, its texture strong and well chosen. The result should be an evolution from the old.

Here each professor of learning has worked hard for our progress, suffering, at many times, in our folly, with patience and loyal fidelity and grasping at all times, the secrets of preparation, has sought to train us in the way that we should go. These opportunities have been many, but where—this principle of chance and development must be governed and controlled, to a great extent, by preparation and forethought.
Today, when we as a class must change, we look back upon four years of preparation; years, when we have been training our lives, for that which we knew must follow; years, when preparation has been indirectly, for the future, and directly, for the world is before us. The wisest material should have been sought, its texture strong and well chosen. The result should be an evolution from the old.

Co-Education.
After chronicling the class history, Mr. Cook spoke of the advantages of co-education. Pertaining to student life, it is a most redeeming influence; on merits—it is the best we have. The ladies of our college have been emblematic of ideals and inspiration, loyalty and sincere support and acting as a balance to the student body, they have counteracted and atoned for the unruly acts that we have committed. Their efforts for the advancement of college spirit, have succeeded and it is the honor of our university, the upholding of its principles and the harmony of our student life must be largely credited to the efforts and influences of our fair young ladies.
It has been noted in the past, that our Alma Mater has been receiving insufficient financial support from the government of this province, and that the annual grant made to it, has been less than that of other universities. University are scholarly and efficient men but they are certainly underpaid and are required to teach so many subjects that it is impossible to produce the honor of our university, the specialists, in any department. In order that our standards of the past may rise, with an increased student body, there must be an increased grant. We accuse the government of neglect, but for the advancement of our cause, the success of our Alma Mater and the upholding of its standards, it is necessary, from the student standpoint, that the revenue be augmented. A government that has been emblematic of economy, purity and wisdom, should also consider the needs of the rising generation. The Chancellor, who best knows our needs, has striven hard for its cause, improving where it was wise, adding to deficiency, until eventually, he has graced this fair University with a name more worthy than that of the past. Is there no reward for honest efforts? Should there be no encouragement for zeal and ambition? We sincerely trust, that when we are scattered over this broad Dominion, we shall learn with pleasure and in the sequence of Nature, of our Alma Mater, strengthened, expanded and placed as justice demands, upon the same basis, with similar government colleges.

The Valedictorian then addressed a few appropriate words of farewell to the Chancellor, Dean and Professors, to the people of Fredericton and to fellow students.
RAW COTTON BROUGHT BACK FROM ENGLAND
New York, June 2.—Five thousand bales of southern cotton are on their way back to Southern spinners after a journey from the south to Liverpool and from Liverpool to this port.
The cotton left today on the steamer City of Montreal, which is making her maiden trip to the city for which she was named.
It is explained that southern cotton factors were so eager to take advantage of high prices here and abroad that they stripped the local market bare.

Moderator Exercises His Authority In Moral And Social Reform Matter—Reports On Home Missions.

Continued From Page One.
The moderator—I think it ought to go first to the committee on bills and cures. It is an extraordinary document to put into my hands.
Principal Patrick—Because of the moral issues involved, a most careful study of the subject should be given as a preliminary treatment.
Dr. R. Campbell, Montreal—I hope the moderator will be sustained. The whole tendency of the times is to do things irregularly.
The assembly then proceeded with augmentation, this subject refers to the weak church trying to enjoy the services of a minister. Rev. W. H. Spencer, in a most timely and pertinent manner, introduced the subject of "The Value of the Home Mission." Last year \$10,738.00 was received to aid the cause. Forty-five congregations had been assisted. There have been four raised to self-support during the year. The fund has had an honorable career, in nursing sixty-one congregations to the self-sustaining stage. These weak churches give an average \$1.07 more per member than that of the self-sustaining church.

Norman E. Cook, U. N. B. Valedictorian.
The world and the future are before us, where we can carve our fortune or efface our possibilities—where the true fruit of our preparation, developed from morality, character and learning, shall be the influence, that we exert around us. It must be an evolution, not a revolution, that we must have. The competitive world will offer no ties toward unity and strength—each must go forth and shoulder his responsibility alone, hindered by contrary reactions and retarded by opposing influences. What if we fail—we may, but we have tried and rejoicing in that, can say, with renewed effort and vigor:
"Not failure, but low aim is crime."
If we follow the ideals and standards, set up in our preparation, our aims will be high and lofty, we can—must. Danger and threatening clouds will beset our paths, but the determination for success, if strong, will rise like Phoenix of old and wait them to regions of oblivion and neglect and guide us anew, upon the upward journey to success.
Classmates, let me remember at all times that we have prepared for the world and let us seek to apply that preparation, when opportunity shall avail. Remember always—our preparation was sufficient. If we strive and win, ours will be the glory, but if we aspire and fall, it is not disgrace, let us consider it renewed strength to continue our efforts.
The programme includes four addresses. The first, in praise of the Founders, was given by Prof. Philip Cox, professor of Natural History and Geology. Hon. John V. Ellis gave an address to the graduating class. The Alumni Grant was presented by Dr. W. Dyde, of Queen's University, Kingston, formerly a member of the Faculty of the U. N. B. and the Valedictory by Mr. Norman E. Cook.
Mr. Cook's address was in part as follows:

Augmentation Report.
Rev. Dr. Lyle delivered an augmentation report. He summed up as follows: I hope to see the day when our congregation would be giving one cent more per cent. of their income to the rank of self support and progress. We now see it possible for last year 40 were so advanced. We owe a debt of thanks to Dr. M. Hamsey, Ottawa, for his studies in the comparative rates of living. He has proven that in the last ten years expenses have increased 35 per cent, and stipends only 13 per cent. Hence ministers are at a net cost, 22 per cent, before. Now as Matthew Henry said, a scandalous maintenance makes a scandalous ministry. We have a host of men and women on the ground, who are not doing their duty. There is no reason under heaven why every minister should not get \$1,000 and a manse.
Rev. G. A. Woodslee of Owen Sound is a sort of one of the augmented ministers in Quebec. He is a brother of Rev. J. W. Woodslee of Vancouver. He said: "I stood in a young minister's library the other day. He held a five times for books, but I cannot afford them. I think the people just listen to me purely by grace not by right. I have not the tools to use, but God will hold the church responsible to rectify this condition. It is a standing shame he declared with a white pall on his cheek, to see white-hearted servants of God on the verge of beggary. I know a case where a minister's daughter who had saved enough money by teaching music to buy herself a spring coat and give it all to the little treasury of the church to save her father from the blush of a deficit.
The report was then carried.

The Colleges.
The theological colleges are an effective adjunct to home missions, augmentation and the whole subject of home-work. The moderator said: "Let us begin with Vancouver, this year and come this way. It is going against the sun but it is all right."
Principal John McKay, of Vancouver, the young, little and golden tongued orator, looks well and seems to have had enough encouragement this year to make him ride the optimistic wave of the west. Westminster Hall is only three years of age, but like many things out there is "grown up in a day."
He said—We have attracted to our city such assistance as Prof. George Adam and Prof. Dancy, of Edinburgh. There are now 118 theological students. As to the finances I have much to say. Last year we asked the church for \$7000, only got \$2700, outside of the city of Montreal. We held a banquet in the city at which about 1000 were present. It was decided to raise an endowment. We formed a committee of 50 men and opened an office downtown. The amount has already reached the \$125,000 limit and since I left I hear it will be \$250,000 before they quit. We have a gift from A. C. Henderson, of Chilliwack, B. C., he is an oldtimer, and has been the main sup-

SESSONS OF Mt. Allison Will Lose President and Historic Old Building

One decision made at the meeting of the board of regents, of importance to a sentimental connection with Mt. Allison is that old Lingley Hall, that has stood for 55 years on the same site as the present building, is to be disposed of. The terms of the resolution, however, demands that the historic building shall be used in a manner not derogatory to its ancient and noble character, and that it will be demolished.
The coming swift end of the ancient building recalls its interesting history. Its dedication on January 30, 1855 was an elaborate and imposing ceremony. The building recently finished had been handsomely decorated by the students with flags and evergreens. The founder of the institution, the late C. F. Allison, was in the chair and Principal Humphrey Pickard, of the academy, made the formal dedication.
After the ceremony the visitors were divided in sexes and according to the usual custom, a public spirited student, invited respectively to the ladies' college (Female academy) and the male academy.
Lingley Hall was named after an enterprising and public spirited lumber dealer in St. John, Mr. Bartlett Lingley, who had subscribed \$1,000 toward the erection of the building, but owing to business vicissitudes he was not able to meet over a quarter of this obligation. For a short time therefore the old hall was in debt.
A mere enumeration of the various anniversaries of the convocations, literary, scientific and political, which have taken place in Lingley Hall from the day of its dedica-

tion to the present would outline the leading current events of the province during the last half century. All classes of speaking from the modest attempt of the unfledged Freshmen to the highest flights of the brilliant orator have fallen upon the ears of appreciative audiences. It is well to recall the dandy earnestness with which they passed notes to admire young maidens across the forbidden aisles.
A two-manual pipe organ installed in 1855 at a cost of \$235 stood in the hall.
The Board of Regents also adopted the recommendation of the alumni to inaugurate a forward movement for the purpose of raising the endowment fund of \$200,000. The resignation of Dr. David Allison as president of the institution was accepted.
David Allison, M. A., LL. D., the president and professor of Mental Philosophy, was born at Newport, N. S. He received his education at the Mount Allison Academy, and at Wesleyan University, Middletown, Connecticut. At the latter institution he made an especial study of Philosophy

under Dr. Charles Kittridge True, one of Harvard's most brilliant graduates, and author of "True's Elements of Logic." Graduating at the head of a brilliant class in 1859 he one year later took the position of classical instructor at the Sackville Academy, and on the establishment of the college was made professor of Classics. Succeeding Dr. Pickard as president in 1869, he held this office until 1878, being honored during this term by the degree of LL. D. from Victoria College. In 1878 Dr. Allison became Superintendent of Education for Nova Scotia. Speaking of him in this office "Calkin's History of Canada says: "Of scholarly attainments and energetic manner Dr. Allison gave new vigor to the academies and he again took the presidency of Mount Allison, where his exceptional ability as an instructor, and to reflect honor upon the university which might be fortunate enough to have him grace the presidential chair.
His class-room is always attractive, his broadness of mind, keenness of intellect, abundance of knowledge, makes his classes in Logic, Psychology, Mediaeval History and International Law, interesting to all. He is remarkable for the power of rendering abstruse matters clear, and for his fairness in discussing opposing doctrines.

port of ordinances in his town for many years. His contribution is so handsome that we recommend that a chair be named after him. We also ask the assembly to appoint Rev. W. R. Taylor, Ph. D., of Toronto, as professor of Old Testament literature.
The evening was devoted to the subject of home missions.
The President, in his address in Canada is a missionary church and the character of this meeting was indicative of an enthusiasm worthy of its splendid traditions.
"Fathers and brethren," said the moderator, "we will hear the mission committee, eastern section."
The report was then presented by Rev. J. S. Sutherland.
It concluded with the one great disappointment has been the lack of catechists.
The number said the report has fallen from 58 to 50; the number of preaching stations supplied was 125; families, 1,956; of communicants, 1,813.
The amount paid by fields for the services of the Catechists \$8,955.86; that contributed to the schemes of the church \$1,092.45, a slight advance over the previous year.
Seventy laborers are being sent forth this year, of whom but five are ordained men. He read a resolution, which he said, he would have moved by Dr. Ross, superintendent of Home Missions for the Synod of the Maritime Provinces, supporting the recommendations of the committee in respect to the increasing remuneration of the workers, expressing gratification at the state of the finances.
The report was received with applause.
Dr. Ross Makes Impression.
Dr. Ross, moving the adoption of the report in a speech full of sound fact had however, something significant to say about the churches position as regards an educated ministry and money. He carried the Synod and the galleries all the way with him as he showed how many young men are powerless to secure the training demanded by the church because they can't pay for it.
"You say," he cried, "let them fight their own battles."
"How can they fight their own battles without a gun. There is as much self denial to the square inch as there ever was. If the Lord's battles are to be fought, we must be found."
(Prolonged applause.)
Dr. Thomas Stewart seconded the resolution.
The report was adopted, after which Dr. McLaren presented the report of the home mission committee, eastern section, the most gratifying in all its history.
The contributions showed the splendid increase of \$57,000 largely the result of a special canvass.
One hundred and seven mission fields have been added to the list making 509 in all. The adoption of the report was moved by Edward Brown, of Winnipeg, whose contribution of \$2500 to the cause of home missions had been referred to by Dr. McLaren, as having given, together with a noble speech before the synod at Winnipeg, a great stimulus to the work in the west.
This year there will be a surplus of \$5000 after the 107 new mission fields have been looked after.
In referring to the problems of the west, he referred to the sending of over 1000 men of the criminal class from England to people the west as disgraceful.
But, he said, in a voice like a clarion—"We've got them. We must look after them."
The church's methods, he designated as not up to date. They must be improved.
He foresaw no trouble about money.
He hoped to see the day when no man would be serving the church for less than \$1200 a year.

Fredericton Makes Change in Racing Card

Fredericton, June 2.—The directors of the Park Association have made a change in the program for the race meeting on June 30 and July 1. The events for the first day will be free for all, 2.21 pace and 2.18 trot and 2.30 pace and for the second day 2.15 trot, 2.35 pace and 2.32 trot and 2.30 trot. The entries will close on June 20.

Many Attend Funeral of Rev. Dr. Teasdale

Special to The Standard.
London, Ont., June 2.—The funeral of Rev. J. Teasdale, D. D., ex-president of the New Brunswick and Prince Edward Island Methodist conference, was held this afternoon from the residence of his daughter, Mrs. Fred Lett, to Mount Pleasant cemetery, and was largely attended. Revs. Thomas Manning, D. D., pastor of the Dundas Centre Methodist church; E. B. Laney, pastor of the first Methodist church, Hamilton; G. N. Anderson, pastor of the Kensington church, Kennebec, and Wickert conducted the funeral services which were most impressive. During his residence in this city Rev. Dr. Teasdale had taken the keenest interest in church matters and was generally beloved throughout the city. The pallbearers were all members of the executive body of the Dundas Centre church. The church which Mr. Teasdale was connected during his residence in this city.

Large Attendance at Railway Man's Funeral

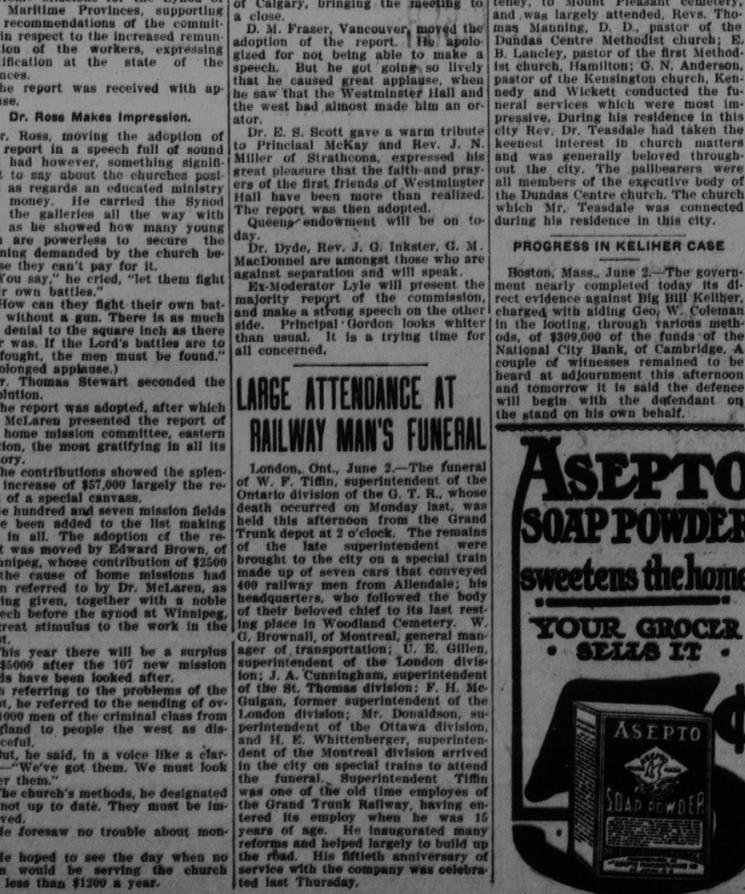

London, Ont., June 2.—The funeral of W. F. Tiffin, superintendent of the Ontario division of the G. T. R., whose death occurred on Monday last, was held this afternoon from the Grand Trunk depot at 2 o'clock. The remains of the late superintendent were brought to the city on a special train made up of seven cars that conveyed 400 railway men from Allendale, his headquarters, who followed the body of their beloved chief to its last resting place in Woodland Cemetery. W. G. Brownall, of Montreal, general manager of transportation; U. E. Gillen, superintendent of the London division; J. A. Cunningham, superintendent of the St. Thomas division; F. H. McGuigan, former superintendent of the London division; Mr. Donaldson, superintendent of the Ottawa division, and H. E. Whittenberger, superintendent of the Montreal division arrived in the city on special trains to attend the funeral. Superintendent Tiffin was one of the old railway men, having entered its employ when he was 15 years of age. He inaugurated many reforms and helped largely to build up the road. His fifteenth anniversary of service with the company was celebrated last Thursday.

Progress in Keliher Case

Boston, Mass., June 2.—The government nearly completed today its direct evidence against Big Bill Keliher, charged with aiding Geo. W. Coleman in the looting through various methods, of \$309,000 of the funds of the National City Bank, of Cambridge. A couple of witnesses remained to be heard at adjournment this afternoon and tomorrow it is said the defence will begin with the defendant on the stand on his own behalf.

HALEY'S COMET.
 Deacon Pybus says: "Twa'n't no great of a sight."
 Sally Saxter says next time she won't sit up all night.
 Lawyer Lys declares much disappointment in the show.
 Colonel Ripps—say, you just ought to hear his language flow!
 And disappointed women and disappointed men
 Say they don't care if Haley's comet never comes again.

But Jack Delois delighted, says the comet's simply great!
 Each night with Dolly Dimples he's sat up very late.
 A-watching for the marvel expected in the skies,
 And taking solemn glimpses into Dolly's witching eyes.
 They didn't see the marvel, but their grief is much assuaged.
 For, watching for the comet, you see they got engaged!

OSCAR'S NOW IN PARIS

Notes of the Grand Opera Singer—Serves Entangled in Another Divorce Suit—Kousnietzoff's Tights.

Paris, June 2.—Oscar Hammerstein is still in Paris. The fate of the Manhattan Opera House will be settled next week, when his son Arthur returns. He had been cited as a correspondent with Herr Andreas Dippe. The adoption of the slouch hat has apparently given Oscar a taste for the simple life. He has taken to vegetarianism. His friends are chaffing him about this and saying that since his opera experiences he cannot afford to take part in real dinners.

Caruso's sketching and ventriloquism with which he was entertaining a supper party at a fashionable restaurant, came to a sudden end one night of this week when American newspapers were shown to him containing a story that he had been cited as a correspondent in the complicated Giachetti divorce suit. It would take a Philadelphia lawyer to explain this case. Gino Botti, the first husband of the woman, brings the suit. Although he is still living at the home of Mme. Giachetti, he wants Caruso to settle for his domestic troubles.

The respondent is the woman with whom Caruso lived for a long time and who went to New York a couple of years ago and made him pay over a large sum of money. Incidentally she left Caruso and eloped with a chauffeur. Botti alleges that she was never legally married to Caruso, as she had never obtained a divorce from him. When Caruso read the story he muttered something in Neapolitan Italian which luckily nobody understood. He added:

"I am surprised that such a story should be printed. I have nothing to do with Mme. Giachetti's affairs now. Her husband can only claim a legal separation, as divorce does not exist in Italy. If he does I shall be called as a witness, not as a correspondent. The case seems to be one of slander brought by Botti against his wife. Botti recently refused to give Mme. Giachetti, who was a singer and a sister of the more famous singer of the same name, authorization as his wife to raise money on securities, without which she would be unable to act under the Italian law. She thereupon spread a story that Botti had habitually accepted Caruso's money for years past. Caruso is almost certain to be subpoenaed as a witness. Herr Dippe's visit to Paris has not resulted in the writing of contracts with Remond and Mary Garden. Remond demanded the same number of appearances as he had with Hammerstein, namely forty. Mary Garden's pretensions are reported to be so extravagant that Herr Dippe was unable even to discuss them. She will probably remain in Paris for a year.

Mme. Rappold, the American soprano and the court singer of Bulgaria, arrived from Bucharest today. She will replace Emmy Destinn in "Aida." The operatic sensation of the week has been Mlle. Kousnietzoff's tights. They so shocked a subscriber that he was unable to sit out a performance of "Chais." He wrote a letter of protest to the Figaro.

Mlle. Kousnietzoff, who, it is reported, is to sing in Chicago and Philadelphia next year, says she used the same costume that she wore in St. Petersburg and Brussels without objection. She is ready to break her contract if M. Messenger, one of the managers of the Opera, insists on a change in the costume. Mary Garden called upon the Russian singer and expressed her approbation of the former's work. She also encouraged her to continue it.

DISGRACE OF ENGLAND

English Teacher Speaking at Leeds Makes Remarkable Indictment of Womanhood—Education Salutory.

London, June 2.—"In no other country can one find so many unkempt, dirty, miserably drunk, and degraded women as in some of our large cities," said Mr. E. S. Mortimer of London, at Leeds in his presidential address to the annual conference of the National Association of Headteachers. Still he thought education was having its effect, and that taking a period of thirty years, there was a vast improvement in the conduct of the working classes; there was far less quarrelling, drunkenness and rowdiness. No doubt there was a period between the age of 14 and 20 when many young people displayed hooliganism, but it was not so long since the "young blood" about town thought it no disgrace to behave in a somewhat similar manner. The chief problem of the day was physical deterioration, and he considered the redemption of the nation physically, educationally, economically and morally, would speedily be achieved when the people accepted a system of compulsory national service. During the period of training the schoolmaster—the trade of technical specialist—should be considered just as important as the drill sergeant, and in that way be the whole truth of the nation would be taught and trained.

THE GLORIOUS FOURTH IN NEW YORK
 New York, June 2.—The "old fashioned fourth of July" that New York is to have this year will be new fangled in one particular at least—Mayor Gaynor announced today that the city will not pay the bills.
 "This celebration will be by the people or not at all," he said at a meeting of the committee appointed by him to formulate plans.

Canadian Girl Was Victim of Traffic

ADRIENNE GINGREAS.

Chicago, June 2.—A beautiful girl has become a formidable figure in the war against the "white slave" traffic in Chicago, where for four months she was held in its blighting power; threatened, coaxed and abused.

In Municipal Judge Walker's court beautiful Adrienne Gingreas, nineteen, of French-Canadian birth, who speaks and understands English but imperfectly, told the harrowing story of being lured to Chicago's underworld. Through the help of friends, made after her escape Adrienne brought charges against Mrs. Sophronia Lebeau, 2022 Wabash Avenue.

After nine years of innocent life in the school of Notre Dame in Montreal, Adrienne went to live with an uncle in the same city. She was unacquainted with the underworld, but her wholesome cheerfulness of healthy, beautiful and unstained young womanhood.

Now the cheerfulness has faded, and in her eyes there is terror and fear. Mrs. Lebeau, it is charged, represented herself as a rich woman who desired a companion and asked Adrienne to go with her to Chicago and live a life of luxury as her friend and companion. Her uncle protested, but Adrienne decided to accept the offer, and Sept. 23 followed Mrs. Lebeau to the strange city, accompanied by a cousin.

She was taken to a home on Michigan avenue where she was treated with every kindness until her cousin went back to Montreal. Then she was transferred to a resort on Wabash avenue and left to accustom herself to a life of ignominy.

But although she was threatened with violence, and forced to do the most menial labor about the place, her spirit did not weaken, and held her honor unsullied.

At last, about the middle of February, she found means to escape from the place, but all her pretty clothes had been taken from her, and she ventured out up the street with but a single \$5 bill that had been sent to her from Montreal. She wandered about in the strange city until she saw a sign "Rooms for Rent" at 3558 Prairie avenue where she engaged a room at the home of Mrs. S. E. Miller.

But she had no means of support, no clothes in which to make a presentable appearance, little money and could hardly understand English. At last all her money gave out and she gave herself up to starvation. Then Mrs. Miller managed to draw from her the sad story. Mrs. Miller, her mother, who is now in Chicago, is a very energetic girl, promised to help. She sought the services of one of the city's best lawyers, J. E. Miller, who is now vigorous. He has a son, Mr. R. E. Miller, who is now in Chicago, and who is now vigorous. He has a son, Mr. R. E. Miller, who is now in Chicago, and who is now vigorous.

BUDGET FOR BOSTON GIRL

Ladies Who Dearly Love Art Often Encountered in Street Cars—Some Thoughts on Thrift Teaching.

Boston, June 2.—Ladies who just love art are sometimes encountered in Boston street cars, but only too rarely are they Bostonians. One such evidently a delegate to some convention, was encountered on a car out of Park street. "The new Museum of Fine Arts—how does one get there? I am so anxious to see the Greek originals that have been added since I

was in the museum nearly ten years ago. How do you like the new scheme of dividing the collection into study series and exhibition? How proud Boston people must be of this great institution! Three blocks beyond Massachusetts Avenue, you say. Thank you so much. I will go to the front on Huntington Avenue. Last year about as many people passed the turnstiles of the Boston Museum as make up a fortnight's attendance at the New York Aquarium. Yet Boston "culchah" is still the subject of comment. It is rather expected, however, that the home coming of MacMonnies' Bacchante will prove somewhat to have swelled the figures of attendance this year.

Just how is "thrill" to be taught in school? That's a question that is agitating many a superintendent and teacher of the Bay State since the legislature amended the law to include economy and foresight among the goals toward which the young idea may be expected to shoot. The public schools committee of the women's branch of the Massachusetts Savings Insurance League, of which Miss Alice H. Grady of Boston is secretary, has notions on this subject which it is drafting into a letter to be transmitted to the educational committee of each woman's club of Massachusetts. Thereafter it may be expected a vigorous propaganda will be carried on to make sure that the teaching of this important branch is made as effective as possible.

Will Captain Bob beat it southward, after all? Newspaper writers who had the pleasure of Robert A. Bartlett's acquaintance last winter when the intrepid Newfoundland navigator made Boston his headquarters were greatly disappointed when events so shaped themselves that he could not command the Roosevelt again this summer. It is a pleasure, however, to learn that in train of his northward voyage with Harry Whitney they may come an opportunity for a try-out of the South Pole. The subject who interviewed him on this occasion asked if he thought he could reach ninety degrees south and expedition and will come pretty well getting there or never returning to tell the tale.

Big, bad Boston has received something of a clean bill of health from so good an authority as Commander Eva Booth who on the occasion of her latest visit said that no other large city can compare with the Hub in spiritual results. The work of the Salvation Army in the quarter of the city, to learn that trained observers like these do not regard the old Puritan capital taken as a whole as hopeless or depraved. Washington has also confirmed this good omen, figures just issued from the national capital proving that Boston leads all the larger cities in church attendance.

Boston university seems determined to take no back seat among educational institutions of eastern Massachusetts. The class day exercises this year were marked by two notable announcements which gave much pleasure to the alumni and students. One of these was to the effect that Guy Potter Benton, now president of Miami college at Oxford, O., is to be Dr. Huntington's successor as president of Boston university. This announcement gave universal satisfaction, as Mr. Benton's remarkable record as an educator insures the university a worthy head. The second announcement was that of a gift of \$500,000 by Mrs. Robert D. Evans, of Beverly, to the Massachusetts homeopathic hospital as an aid to the university medical school. The gift is a memorial to her late husband, who up to the time of his death was owner of the cottage occupied by President Taft during his summers on the north shore.

No fewer lecture courses, but more refined dances is another project of the social reformers. An agitation is under way among the leading women philanthropists of the hub to furnish some method of recreation and healthful enjoyment for the shop and factory girls and their families who cannot afford the ordinary amusements of city life. Boston is not enough intellectually, say some of these public spirited women. There are concerts and lectures and settlement house study courses innumerable. What is needed is something on the order of Chicago's park house, where poor but respectable people may enjoy musical dances and other amusements under proper regulations. Another suggestion is to strengthen the settlement house like those in New York, where a girl working for low wages may rent a bedroom, living room and cabinet kitchen for \$1.50 a week, and where a competent matron is permanently retained. It is hoped that some of the schemes now working in the heads of such women as Mary Boyle O'Reilly, Mrs. Mary Morton Khew, Mrs. Glendover Evans and others, may bear fruit in the near future, and that means may be found whereby the working girl may enjoy the pleasures of life without tumbling into the pitfalls.

ALDERMEN TO CONTRIBUTE TO KING SQUARE BAND CONCERTS

Committee Appointed Last Evening by Treasury Board to Canvass for Funds--Increase in Winter Port Rates to be Considered--Constable Sherwood's Dismissal Recommended.

At the meeting of the Treasury Board last evening \$200 was voted for a dog catcher. H. P. Good's taxes were reduced from \$41.30 to \$20. Ald. Baxter, Potts and Vanwart were appointed a committee to raise money for band concerts on King Square. The dismissal of Constable A. G. Sherwood was recommended. The harbor board will take up the matter of increasing the winter port rates. Ald. Baxter presided, and Ald. Likely, Potts, Hayes, Sprout, Vanwart and McGoldrick were present, with the common clerk, the chamberlain and the comptroller.

had come up which involved a trifling amount of money, but was important from the point of view of principle. Mansford Day complained that Constable A. G. Sherwood had made an overcharge in collecting fees from him, in connection with a suit brought by Elizabeth Baine; that instead of \$4.49 he had collected \$4.99. Mr. Day, who was heard in the matter, said that the constable had tried to make him take a receipt for \$4.49. Constable Sherwood had been notified to appear before the board, but did not appear. A motion was adopted recommending that the constable be dismissed. A communication was read stating that the Dominion government would assume the responsibility of paying the wharf of the rent for the immigration shed at Sand Point. The matter of providing band music on King Square was then taken up. Ald. McGoldrick said the city should have music on the square, and that the band stand should be painted. The square would be the prettiest spot in St. John in a few weeks. He thought they should find the money for band concerts, even if the aldermen had to dig down in their own jeans. It would pay the city to have concerts twice a week, if only to impress visitors and liven things up a bit. "When I was in Boston," he added, "I found three bands in one park." Ald. Vanwart—"Were there only three bands out for you? You remember when you and I were there, six bands were in the parade." Ald. Likely suggested that the aldermen should give \$25 for the purpose. The meeting then adjourned.

HASSAM COMPANY SECURES CONTRACT FOR STREET PAVING

Tenders Opened at Meeting of Board of Works Yesterday--Germain Street to be Paved With Asphalt--Bond Issue to Cover Cost of Other Improvements.

At the meeting of the Board of Works yesterday the Hassam Paving Company was awarded the contract for paving Main, Smythe, Nelson, Pond and Water or St. John street, with the understanding that Main, Smythe and Pond are to be done this year. The total cost will be \$85,772.15 against the city engineer's estimate of \$86,000. It was decided to secure a report on the cost of making a number of city roads available for traffic of Co. 4175. J. S. McGivern \$4.50. Tenders for 40 tons of Scotch granite were also received as follows: R. P. & W. F. Starr Ltd., \$6.60; J. S. Gibbon & Co., \$6.35; George Dick \$6.78; James McGivern \$6.11. J. S. McGivern's tenders were accepted.

A motion was passed instructing the engineer of lay block paving in front of the premises of Josiah Fowler Co., Ltd. on City Road. E. H. McGaw was heard in connection with a petition to erect a V shaped sign over his store 126 Charlotte street. He said the sign would project over the sidewalk, but he intended to take it down in the fall. Ald. Vanwart moved that the petition be recommended to the council and that in the meantime the engineer prepare a report. This was passed. Ald. Hayes said the residents of Marsh street needed a sidewalk. At present the sidewalk was in the middle of the street. The engineer recommended the construction of the retaining wall on Rockland road, opposite the house of Daniel Mahoney. This was adopted. Regading Harris Street. The engineer recommended regrading Harris street at a cost not to exceed \$500. Ald. Willet said the work should not be charged to the street appropriation for Dufferin ward, but to the fund for street purposes generally. Ald. Baxter said it was unfair to ask all the wards to make a special contribution for the benefit of one. If the board felt that Harris street should be repaved, he would vote for a bond issue.

The following tenders for street improvements were then read:-- Smythe Street--Mooney & Sons, granite pavement \$3.95 per sq. yd.; old curbstone 75c; catch basin 75c; bridge stone \$1.75; catch basin \$75. Smythe Street--McDonald & McLeod, granite pavement \$4.70; new curbstone \$1.75; old curbstone 75c; catch basin \$75; new bridge stone \$2.25. Smythe Street--Hassam Paving Company, granite pavement, \$3.86 per sq. yd.; new curbstone \$1.00; old curbstone 65c; catch basin \$75; bridge stones \$1.75. Water Street--E. R. Reid, granite pavement \$4.80; new curb stones, \$1.75; old curbstones 95c; catch basin \$75; bridge stones \$2.35. Water Street--McDonald & McLeod, granite pavement \$4.80; new curbstones \$1.35; old curbstones, 75c; catch basin \$75; bridge stones \$2.35; corner stones \$9. Water Street--Hassam Co., granite paving \$3.85; new curb \$1.00; old curb 65c; catch basin \$75; bridge stones \$1.75. Water Street--B. Mooney & Sons, granite pavement \$3.97; new curbstone 95c; old curbstone 75c; catch basin \$75; bridge stones \$1.75. Pond Street--McDonald & McLeod, granite pavement \$4.80; new curbstone \$1.35; old curbstone \$1.85; catch basin \$75; bridge stones \$2.35. Pond Street--B. Mooney & Sons, granite pavement \$4.10; new curbstone 95c; old curbstone, 57c; corner stones \$9. Pond Street--Hassam Co., granite pavement, \$3.98; new curb stone, \$1.00; old curb stone, 65 cents; catch basin, \$75; bridge stone, \$1.75. Nelson Street--E. R. Reid, granite pavement \$4.80; new curb stones, \$1.75; old curb stones, 75 cents; catch basin, \$105; bridge stone, \$2.25. Nelson Street--B. Mooney & Sons, granite pavement \$3.95; new curb stone, 95 cents; old curb stone, 57 cents; catch basin, \$75; bridge stone, \$1.75. Nelson Street--Hassam Paving Co., granite pavement \$3.85; new curb stone \$1.00; old curb stones, 75 cents; catch basin \$78; bridge stone, \$1.75. Main Street--McDonald & McLeod, granite pavement \$4.60; new curb stones, \$1.25; old curb stones, \$2.30; dry stone retaining wall, \$12 per yard; new composition sidewalk, 60 cents; repairing catch basins, \$35 each. Main Street--Hassam Co., granite pavement, \$3.85; new curb stones, \$1.00; old curb stones, 65 cents; catch basin, \$75; repairing catch basins, \$26; bridge stones \$1.75; dry stone retaining wall, \$5.60.

The board then sent the tenders into the chamberlain's office, and the clerks computed the cost of the work on the figures submitted. A Complaint From Germain Street. A letter was read from Col. Sturdee complaining that the board had taken no action on the petition of the residents of Germain street, asking that permanent paving be laid to the street, and offering to pay half the cost. The chairman stated that he thought something had been done about the matter. Ald. Vanwart said he was under the same impression. He thought they should call for tenders to pave the street. Ald. Hayes thought the council had ordered tenders called for. They should find out where they stood. The common clerk then looked up the minutes, and found that the council had ordered that Germain street be paved from Queen to Princess streets, with such material as the board of works thought suitable. Ald. Vanwart moved that the engineer be instructed to call for tenders to pave the street with asphalt. Ald. Baxter wanted to know the condition of the water and sewer pipes in the street. The engineer said it was proposed to renew a section of the water pipe. Ald. White favored asphalt paving for Germain street. Ald. Vanwart's motion was then adopted. Navy Island Bar. The superintendent of the ferry service asked the board to see the minister of public works with a view to having the Navy Island bar dredged. The work, he said, would benefit the ferry, and the shipping of the harbor. Ex-Ald. Belyea had told him it would also help the fisheries. On motion of Ald. Baxter it was decided to bring the matter to the attention of the minister.

Goods on view the day previous to sale. T. T. LANTALUM, Auctioneer, Office 126 Prince William St. Phone 769

Regular Habits An Absolute Necessity For Good Health You might as well expect to find a man or woman healthy with constipated bowels as to find a city healthy when its sewers are blocked with refuse. Nature demands that the indigestible food and waste matter which collects in the lower bowels shall be got rid of at least once in twenty-four hours. If this is not done it decomposes, filling the bowels with poison, which is taken up into the blood and carried all through the body. Naturally, this poison affects the work of every organ. The liver is deranged, digestion is upset, and biliousness, headaches, lassitude and dizzy spells follow. Literally millions of people suffer these results of constipation without realizing the cause, or doing anything to remove it. Yet it can be removed, easily and with certainty, by using Dr. Morse's Indian Root Pills. Take, for example, the case of Mr. George Andrews, Halifax, N.S., as he himself describes it: "For many years I have been troubled with chronic constipation. This ailment never comes single handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. At last I read about these Indian Root Pills. That was indeed a lucky day for me, for I was so impressed by the statements contained therein that I determined to give them a fair trial. They have regulated my stomach and bowels. I am cured of constipation and claim they have no equal as a medicine." Dr. Morse's Indian Root Pills were first taken to cure constipation nearly a hundred years ago, and during the last half century they have been very extensively and very successfully used throughout the world. They are entirely vegetable in composition and do not sicken, weaken or gripe like mineral purgatives. DR. MORSE'S INDIAN ROOT PILLS For Constipation For Sale Everywhere at 25c. per Box. 21

THE COURTS.

EXCHEQUER COURT. The King vs. Jones. The case of the King vs. William G. Jones and others was resumed yesterday in the Exchequer Court at eleven o'clock. His Lordship Mr. Justice Cassels presided and Mr. James Friel appeared for the crown and Mr. W. B. Chandler and Mr. M. G. Teed, K. C., for the respondents. John M. Magee, City Clerk of Montreal, was on the stand in the morning. Numerous plans and documents were put in evidence. The defendant was then recalled after which the defence closed their case. The crown case was commenced in the afternoon and engineers R. H. Cushing, L. H. Wheaton and C. O. Foss gave evidence as to the present value of the land. Mr. Cushing valued the thirty-three lots in dispute at \$100 per lot. I. Jones gave evidence of similar nature. Argument of counsel then followed. Mr. Justice Cassels reserved judgment. The King vs. Pickard. The case of the King vs. Pickard will be taken up when the court meets this morning. The facts of this case were published in Wednesday's issue of The Standard.

WEDDINGS.

Gorman-Girvan A very pretty wedding was solemnized yesterday morning in St. Peter's church at 5 o'clock, when Miss Mary Girvan and Mr. Harry Gorman were united in marriage at a nuptial mass sung by Father O'Regan. The bride was dressed in a blue travelling suit with hat to match and carried a bouquet of carnations. Miss Ella Conely acted as bridesmaid and Mr. James Mullin supported the groom. They are recipients of many beautiful presents including a handsome all-oyer set given by the staff of the Royal Hotel, where the groom is employed. The happy couple left on the steamer Prince Rupert for Nova Scotia. McCarthy-Kelly. A wedding of much interest to many in St. John took place on Wednesday morning in the Church of the Guardian Angel, Boston, when Rev. Father Johnston united in marriage Miss Etta Kelly to Mr. Edward V. McCarthy. The bride is a former resident of this city and the groom is the youngest son of Mrs. John McCarthy, St. Andrews street. Miss Annie Tighe of this city was bridesmaid and Mr. James Kelly supported the groom. Among those present at the ceremony were Mrs. McCarthy and Miss Nellie, mother and sister of the groom. After a brief honeymoon trip to the American cities, the happy couple will take up housekeeping at the corner of Britain and Sydney streets.

OBITUARY. Miss Helen E. Betts. The death of Helen E. Betts, daughter of the late Azor W. T. Betts occurred yesterday at her residence 188 Queen street, this city, after an illness of about five months. Miss Betts was a member of the Carmarthen street Methodist church, and took a deep interest in church work. She was for some time president of the Women's Missionary Society of the city, and will be greatly missed by a large circle of friends. She leaves five sisters, Miss Josephine Betts, Mrs. G. B. Thomas, Mrs. J. Frank Parsons of St. John, Miss Matilda Betts of Boston and Mrs. J. H. Purdy of Bear River, N. S.

MISS HELENE WETMORE New Brunswick's Brilliant Soprano, Assisted by local talent, will give a RECITAL in Centenary Schoolroom, on Monday, June 6th at 8.15 p. m. Tickets 50 cts.

Gritz SPECIAL NOTICE Please remember that "Gritz" can only be sold in 5-lb. bags. It is never sold in bulk out of barrels or half-barrels. We control the words "Gritz" or "Grits" as a cereal food for the whole of Canada, and it is not genuine unless it is put up in 5-lb. bags stamped with two arrows and marked "Gritz" or "Grits."

DEATHS.

Cunningham--Suddenly at Crouchville, on 1st inst., John P. Cunningham, leaving a wife and two children to mourn. Notice of funeral hereafter. Betts--Entered into rest on 2nd inst., Helen E., daughter of the late Azor W. T. and Mary Betts. Funeral on Saturday, 4th inst., from her late residence, 188 Queen street. Service begins at 2.30 p. m., at the house. Navy Island Bar. The superintendent of the ferry service asked the board to see the minister of public works with a view to having the Navy Island bar dredged. The work, he said, would benefit the ferry, and the shipping of the harbor. Ex-Ald. Belyea had told him it would also help the fisheries. On motion of Ald. Baxter it was decided to bring the matter to the attention of the minister.

WOMEN'S MISSIONARY SOCIETY IN SESSION Meetings of N. B. and P. E. I. Branch Continued Yesterday--Interesting Addresses on Features of the Work.

The meetings of the New Brunswick and Prince Edward Island branch of the Dominion Missionary Society of the Methodist Church were continued yesterday morning in the school room of Centenary church. Mrs. Kingston in her paper on the "Woman who does not belong and how to win her," suggested the hand to hand, and heart to heart method, and recommended individual work in securing new members. A general and lively discussion followed, which tended to press home the facts emphasized by the speaker.

Mrs. W. C. Matthews next read a paper entitled, "The Member who is not interested, and how to interest her," in which she suggested that the members should talk the work of the society over amongst themselves and by their own work and efforts try and create an interest. She suggested inviting ladies to become members and thus increasing the membership. Mrs. Couillard then referred to the mistakes which had been made in reports, and advised greater care be taken by treasurers and corresponding secretaries in this matter.

Mrs. C. F. Sanford, on behalf of Centenary church, invited the delegates, their hosts and hostesses to the Methodist pastors and their wives to a reception to be held in the church in the evening. The meeting then adjourned. Afternoon Session. At the afternoon session Mrs. P. S. Imman, circle and band secretary, gave an instructive address on "Some points for leaders." Interesting addresses were also delivered as follows: Canadian Wood Pictures--French Protestant Home, Montreal. Mrs. Corbett; Italian Mission, Toronto, Miss Anna O. McLeod; All People's Mission, Winnipeg, Mrs. Gronlund; Gallian Home, Edmonton, Mrs. Dawson; Wahstao and Kokokreka, Alberta, Mrs. Sanford; Oriental Home and School, Victoria, Mrs. Roper.

The feature of the evening session was an address by Miss Aileen, a returned missionary from Japan, on the work of the society among the Japanese. She gave a graphic word description of missionary work in that country.

try and showed the good work being accomplished by the society there and its vitalizing influence upon the people. After the service the ladies of Centenary church entertained the members of the branch in the church parlors from 9 until 10 o'clock, when refreshments were served.

Ferguson-Livingston. A quiet wedding took place at the home of C. Ward, 132 Bridge street, last evening, when Rev. D. Hutchinson united in marriage Robert Ferguson of Musquash to Miss Mary Livingstone of Glasgow, Scotland. Only a few invited friends were present. Frederick Cranston supported the groom, while Mrs. Cranston was bridesmaid. Mr. and Mrs. Ferguson will leave today for Musquash where they will make their future home.

Ex-Champion in Nickel's Star Feature. The weekend programme at the Nickel contains much merit. In the first place Richard Harding Davis' famous story "Gallagher" will be produced by the Edison Company in living photographs--a newspaper tale of thrilling parts and with a sustained interest throughout. The hero of the story is a ragged heavyset who lands a great newspaper "scoop" or bit of exclusive news, and in the boxing bout closes no less an athlete than James J. Corbett will be seen. The film is in nowise objectionable and is authorized by the national board of censorship. "The Outlaw's Sacrifice" is a pretty tale of the western wilds and replete in exciting situations. There will be another of those screaming "Foolishhead" films in "Foolishhead Recycles" a society skit. Miss Donn made an impression again last evening in two Scotch favorites "Bonnie Sweet Bessie" and "Comin' Thro' the Rye."

Mr. Clifford will terminate his engagement this week with the sea song favorite "Three For Jack" by request. Special Saturday matinee and on Monday DeWitt Cairns will be heard again in the picture love song "Only You."

A. O. H. Excursion. Division No. 1, A. O. H., intend holding an excursion on the St. John river on Dominion Day. The Sincennes has been secured and it is expected that a large number of visiting members of the order from outside points will take in the trip. Committees have been appointed to make final arrangements for the excursion.

The engagement is announced of Miss Ada Winifred Robinson, daughter of Mr. and Mrs. T. Robinson, of Harvey Station, to John Harold Patterson of Ebbot, B. C., formerly of Sackville, N. B. The wedding will take place the latter part of June from Knox Presbyterian Church, Grand Forks. B. C. Miss Robinson has resided in Grand Forks for some time.

TO HOLDERS OF Western Canada Flour Mills Bonds We will exchange this issue for the CANADIAN CEREAL & MILLING CO. 6 P. C. BONDS. Terms on application. W. F. Mahon & Co., Investment Bankers, St. John, N. B. Phone 2058.

Listed Stocks Our Circular No. 489 gives valuable information regarding eighty-one issues of railroad and industrial stocks listed on the New York Stock Exchange. The data includes the amount of stock outstanding, annual dividend rate, percentage earned for the last year, high and low prices for 1908, etc. We classify the different issues as follows: Investments, Semi-Investments and Speculative.

Railroad Bonds Our Circular No. 488 gives valuable information regarding fifty-four issues of well-known Railroad Bonds listed on the New York Stock Exchange. The data includes the amount of bonds outstanding, the denominations, whether in coupon or interest form, interest dates and the dates, and high and low prices for 1908. U. S. PLANS AIR TREATY WITH CANADA

Washington, D. C., June 2.—Following the announcement that the United States and Mexico were negotiating an airship treaty to govern the regulations concerning aerial navigation across the border, officials of the state department commented on how the question had been brought up and what advantages might be derived from the agreement. There is now some talk of a similar treaty with Canada, so that the North American continent may be covered by practically the same convention. The state department has not yet received the text of the proposed agreement from the Mexican government, but expects it will be along the general lines outlined by Senor Don Francisco De La Barra, the Mexican ambassador to the state department. This outline covers regulations affecting the fiscal, sanitary and immigration questions which might be involved in airship navigation from one country to the other, and provides for registration of airships crossing the border.

GREAT MINERAL WEALTH IN CHINA

San Francisco, Cal., June 2.—Sir Robert A. Hadfield, once president of the Iron and Steel Institute of Great Britain, inventor of manganese steel and one of the most prominent manufacturers of iron and steel in the world, has arrived in the United States, accompanied by Lady Hadfield, who is a sister of United States Attorney General Wickersham. The distinguished couple are making a leisurely tour of the world. Sir Robert for thirty years has been the head and owner of the Hadfield Steel Foundry Ltd., of Sheffield, England, where most of the projectiles for the British government are made. In Tokyo they were presented to the Emperor and Empress of Japan. Discussing the Oriental question Sir Robert said he had plenty of opportunity to correctly gauge the situation. "England, America and Japan," he said, "will be the future of the world. It will be guided by the older counsels of England and America she will have a mighty future. Remarkable progress is observable everywhere in Japan. Japan is only too anxious to preserve good feelings with America, to cement her alliance with England and to have a peaceful future in which to expand educationally and commercially. "Japan admires England, and she sagely and firmly says: 'England, you must keep up your end. You must not let any nation beat you with the fleet.' Japan is anxious for England to maintain the supremacy of the seas. One very extraordinary feature of our visit to Japan was that we never saw any poverty and not a single beggar came to us for a penny. "There will be a greater awakening in the Orient than the world has ever dreamed of. The Japanese have a surplus population, and as they are becoming so highly trained and will accomplish almost everything the Japanese should be encouraged to make the world advance, for a general commercial advance all round would accrue. "I am firmly convinced that some day China will be the world's metallurgical centre, for she possesses enormous resources of untold magnitude. Iron, coal, copper and lead are there in immense quantities. Curiously enough, my voyage across the Pacific Ocean to San Francisco marked a Chinese epoch, for we carried the first cargo of Chinese made pig iron."

Ottawa, June 2.—Notwithstanding the new discoveries of petroleum in Canada, the official returns show that the annual yield is steadily decreasing. As the government pays a bounty of 1.12 cents per gallon, the net output is readily arrived at. In the year 1909-10 bounty was paid amounting to \$203,588, which would account for a production of 13,572,587 gallons. In the year 1908-9 the bounty paid was \$260,698.

ALBERT COUNTY LUMBER DEAL COMPLETED

The Eastern Canadian Lumber and Construction Company, Limited, a new corporation composed of men from New York State, has bought the Prescott property in Albert County, for \$200,000. The property includes 20,000 acres of timber lands, a large sawmill, dwellings, five tenement houses for employees and a general store. The company has also bought three and one-half miles of branch railway connecting the sawmill with Harvey wharf. There the lumber will be loaded into vessels for direct shipment.

PRODUCE PRICES SPECULATORS IN AMERICAN CENTRES STOP PANIC TO CONSIDER

New York, June 2.—The speculation in securities today showed a disposition to pause and take stock of the situation created by the injunction against advancing western trunk line freight rates. There seemed to be a consciousness developed that the heading rate at which the damage feared from this action was being discounted might have in it a quality of heedlessness. The question arose in the mind of eager sellers of stocks whether the rate which they were sacrificing their own holdings and, at the same time, playing into the hands of other speculators over whom they were seeking to obtain advantages. The new measure inaugurated by the department of the treasury, which has been the central topic of discussion, but that discussion showed a groping lack of clear conception of the proper significance to attach to the matter. On confining the check market operations and to some extent of railroad officials, there is heard some criticism of the methods they pursued in seeking the rate advance which have been adopted. The fact that one agent was used by all the railroads in filing notices of the advance is cited as almost a challenge to the government authorities to test the prohibition of rate agreements in the anti-trust law. Meantime, the rejection in congress of the proposed authorization of railroad agreements on rates left practically mandatory on the law officers to take up the challenge. There is a conviction amongst railroad men that the law requiring the filing of rates, in the nature of the case, and the law against agreement, in the nature of the case, are irreconcilable. If the present action shall result in resolving the anomaly it will be welcomed by railroads. "There is the further criticism of the action of the committee that its action was precipitate and designed to forestall the provisions of the pending railroad bill for the reference of rate changes to the commerce court. The purpose to prevent an evasion of the result of the new law is suggested as a motive for the attorney general's action, as much as to contest the advance in rates as such. Of the consequences which are feared there is evidence in the apprehension expressed by iron and steel trade organs of a check to demand from the railroads for equipment and material. A report was in circulation that the New York Central had asked for the cancellation of an order for new freight cars, said to amount to between five and six millions of dollars. There were rumors also of proposed heavy reduction of working forces by the railroads. The acute weakness of St. Paul was attributed to fears for the integrity of the dividend, without higher charges for transportation. "The stock market was distinctly easier, the liquidation in the stock market and the reduction in the official discount rate of the Bank of England both conducing to that result. "The stock market closed but little changed from yesterday's closing prices, the early losses having been practically made up. "Bonds were irregular. Total sales, per value \$1,830,000. United States bonds were unchanged on call.

New York, June 2.—The opening of today's stock market witnessed a continuance of liquidation and of aggressive selling as a result of the recent federal injunction against the railroads. Under this combined pressure the active list declined from one to two points as compared with last night's closing. As a matter of fact the market became so weak and demoralized at times as to virtually compel substantial banking support and this was forthcoming in liquid volume. The appearance of this support was the signal for rather precipitate short covering on which prices quickly rallied. The rally was assisted in some degree no doubt by certain considerations which had been observed by the general demoralization following the recent action of the government against the railroads. These were the tenor of trade advice report on condition on cotton, which was published at noon, which was quite an agreeable surprise. The indicated condition of the plant is 82 as compared with 81 at this time last year, while the increase in acreage approximated 1,000,000 acres. All things considered this was quite a satisfactory showing. It was reported, afterwards denied, that some of the large railroads had been constrained to cancel orders recently placed for large amounts of new equipment. The afternoon market displayed considerable strength under the support of banking interests but sentiment in the best quarters is nevertheless far from cheerful and it is doubtful if this support will be sustained except in crucial moments like those experienced today. The prospects seem to favor a further decline in prices.

LAWYER FOR I. C. R. MANAGING BOARD French Canadian Member of the Legal Profession Likely to be Added--Will Supervise Litigation. Ottawa, June 2.—It is stated in official circles that when, very shortly, a French member is added to the board of management of the Intercolonial railway, it will be a lawyer rather than a railway man. The law was changed last session to permit of the board in place of the Crown being used for amounts under \$200. There is now no law department in the management, and it is proposed that the new member should have general supervision of the litigation against or affecting it. Ottawa, June 2.—The Canadian Northern Railway is going ahead this summer with its line from Hawkesbury to Montreal. Tenders for the construction work are now being called. The line will cross the river at Hawkesbury and run easterly through Carleton, St. Andrews and St. Eustache to Hochelaga and Montreal. Both the route and location maps have been approved by the railway commission.

Kerr Will Compete With Sheridan

MARTIN SHERIDAN.
World's Champion All-Around Athlete, Shown Completing the Discus Throw.

Some of the greatest field and track athletes in the world will participate in the field day events at Pittsburg June 13, and the Smoky City will be just about the most prominent place on the world's sport map that day. Among the men who will compete are Melvin W. Shephard, Geo. Bonnar, John Flanagan, Porter, Kerr, Robinson and Martin Sheridan. Sheridan's performance will be watched closely, as he is the greatest all-around athlete the world has ever produced, according to Keene Fitzpatrick, the famous trainer of track and field athletes. Sheridan holds all records for the discus throw, but his greatest feat was staged July 5, 1909,

when, at the games of the Amateur Athletic Union at Celtic Park, New York, he made a new record, scoring a total of 7385 points, far and away the best mark made by any other athlete competing against him. Sheridan is not a specialist, but is an all-around man, a star in every event. It is confidently expected that he will beat his best records at the Pittsburg meet, and other records are also expected to go, as the best men in the east and central west will be competing.

SPORTS OF ALL SORTS

Toronto Looks Good for Eastern League Pennant—Jeff Knocked Out Choyanski—Lou Scholes in Practice.

The Toronto Leafs are going strong just at present. The pitchers are beginning to show their form, while Delahanty and O'Hara are clouting the ball. Delahanty showed the best form with the bat on the spring training trip, but has been slow rounding in the league games. He is a lot better than he has shown and has apparently struck his stride in the last couple of days.

Lou Scholes, the Toronto sculler, will know by the middle of next week as to his chances of going to England to compete in the Diamond Sculls this year. At present he is working like a horse to get in shape should he make up his mind about going. Lou gave his new Sims shell its first taste of Canadian water the other day, and he was so tickled with the boat that Eddie Durman, who sculls with him, had to leave Lou out all alone to get his fill of the new boat. Tuesday night Lou will make known his intentions of going to England, and not until then, as he wants the last minute to prepare himself.

News has leaked out that on Tuesday Jim Jeffries knocked out Joe Choyanski so cold that it took some time to bring the former heavyweight back to where he could see the sun and hear the little birds twittering in the tree tops.

The Jeffries handlers kept the story quiet for they did not want it bruited about that the big fellow was beating up his own training partners. It was a nip and tuck for four rounds, hitting pretty hard. Suddenly Choyanski swung a vicious left to Jeffries' jaw and twisted the big fellow's head with the force of the blow. In an instant things happened. Jeffries waded in. Choyanski's ears were mashed into cauliflower shape, his nose crushed, a tooth knocked out and his lips split. Another swing and Choyanski went to dreamland.

It is a great battle that Larry Lajoie and Ty Cobb are having in the American League for the batting honors. Lajoie started out at a 500 clip at the beginning of the season, but has dropped somewhat recently, while Cobb has come fast in the last few days. Saturday Cobb hit .600, while Lajoie was there with a .500 mark. Sunday Cobb fell to .200 while Lajoie had .333. Yesterday Cobb hit safely three times in seven, while Lajoie was up only four times, connecting for three hits. In 35 games Lajoie has hit for an average of .406, having been at bat 128 times, scoring 18 runs and making 52 safe hits. Cobb has played in 38 games, has hit safely 55 times in 147 times at bat, and has scored 33 runs. In addition, he leads Lajoie in extra base hitting. Cobb's average is .383, while at the same time last year it was .377. Only 23 points separate the pair, and Cobb is rapidly overhauling the leader.

GOOD BALL PROMISED IN NEXT GAME

After Wednesday evening's trappy exhibition between the St. Johns and Clippers, it is expected that some real classy ball will be put up by the same teams when they clash again this evening on the Every Day Club grounds. Manager McBride's artists have been practicing faithfully and will go on the field determined to wipe out the defeat on Wednesday, while on the other hand the Phillytes are confident of again coming out with the long end of the score. Manager Tilley will put Case in the box with Nesbit on the bench, otherwise there will be no changes. The Clipper personnel will practically be the same unless McBride decides to have Seely pitch and save Boone for Saturday's contest. It had been almost decided upon to pull off a double header on Saturday afternoon. Manager McBride called into the Standard office last evening, however, and stated that he thought it would be impossible for his team to play more than one game. He expected to be here in time for Saturday's game. He received a telegram last evening, stating that the expected twirler could not arrive before Monday. This he said, changed the situation somewhat, and he would be unable to play his team in but one game. The teams will line up in tonight's game as follows:

St. Johns		Clippers	
Rootes	Catcher	Sproul	Pitcher
Casey	Seely or Boone	First Base
Crosby	Taylor	Second Base
E. Ramsey	Finnemore	Third Base
A. Ramsey	McNutt	Shortstop
Copeland	T. Howe	Left Field
Lynch	Lauchner	Centre Field
Carson	Cooper	Right Field
Totten	Chase

JOCKEY KILLED ON GRAVESEND RACE COURSE

Gravesend, N. Y., June 2.—Jockey Fred Langan, mounted on Stalwart Lad, was instantly killed today when his mount fell on the home stretch turn, in the closing race. The race was for two year olds, at 5 1/4 furlongs, and 13 horses faced the starter. The field went off in good shape in a close bunch to the stretch turn, when Warwick well up, stumbled, and fell. Muff stumbled over Warwick. Immediately following was Langan on Stalwart Lad. He turned a complete somersault over the prostrate forms of the two horses. His mount fell on top of him, killing him instantly.

LAST NIGHT'S GAME A FARCE

St. John the Baptist Give Another Poor Exhibition, Losing to A. O. H., 11-8 --- Tie in Commercial League.

A. O. H. 11; St. John Baptist 8. Over 500 enthusiasts sat in the grandstand and almost perished last evening while the A. O. H. and St. John the Baptists amused themselves in a four inning game that was replete with plays that exceed the vocabulary of baseball. As error succeeded error, one by one the fans got up and stealthily left the place, while the silence of the few who remained all through the agony, was as of the grave. A cheer would have been almost sepulchral so great was the gloom, as run succeeded run, and errors were piled up. McQuigan was in the box and seemingly could not locate the plate, while Quinn issued passes with the regularity that Rockefeller endows colleges. The fielders played a loose, listless game, and apparently were indifferent to the result which finally ended 11 to 8. Many complaints were heard from well known baseball followers, against the management permitting scrub players taking part in league games, and it is suggested that in the interest of the league, the St.

JOE MCGINNITY, THE ONE-TIME INVINCIBLE.

There have been any number of so-called "iron men" in base ball, but Joe McGinnity is the best known of them all. McGinnity had a habit of pitching double-headers and winning them in a manner that made it look easy.

INJURED ARM ENDS IRON MAN'S CAREER

Joe McGinnity is the best known of the "iron men" in base ball, but Joe McGinnity is the best known of them all. McGinnity had a habit of pitching double-headers and winning them in a manner that made it look easy. It now appears that McGinnity's day as an effective pitcher is over. The old-time star is part owner of the Newark Irons and then toyed with the going hasn't been easy for him for some time, but an accident to his pitching arm several days ago probably has put him out of the pitching end of the game for good. Of course, the Newark fans are worried, because McGinnity was one of the club's mainstays in the box. McGinnity made his greatest record as a member of the New York Giants in 1905, when they won the pennant in the National league and then toyed with the Athletics, coping the title of world's champions. In this season McGinnity pitched 46 games, and his percentage of victories was .583. In

INJURED ARM ENDS IRON MAN'S CAREER

JOE MCGINNITY, THE ONE-TIME INVINCIBLE.

the games for the world's championship he pitched in two and won one of them, Ames relieving him in the second contest which he started. McGinnity released the "Iron Man" in the spring of 1909, and McGinnity purchased an interest in the Newark team. Last year McGinnity landed his team in second place and he pitched some good ball during the season. This year he had a hard time getting started, and then met with the serious accident to his pitching arm.

CUBS MAKE IT RUNAWAY RACE

Win Another from Boston by Bunching Hits Yesterday—Pirates Drop One to Brooklyn—Red Sox Victors.

Boston, June 2.—Bunched hits in the seventh inning and an error by Swenson in the 9th were the main factors in Chicago's 2 to 1 victory over Boston today. Frock weakened in the 7th and was replaced by Mattern. There were four double plays made. The score: Boston..... 100000000—1 7 2 Chicago..... 000000101—2 6 2 Batteries—Frock, Mattern and Graham; McIntyre and Kling. Time 1:54. Umpires, Johnston and Moran. At Brooklyn: Pittsburgh..... 001000000—1 8 0 Brooklyn..... 001001013—3 8 0 Batteries—Camitz and Gibson; Rucker and Bergen. Time 1:30. Umpires, Rickler and Emshie. At Philadelphia: Philadelphia..... 001010010—3 8 1 Batteries—Saltee, Lush and Phelps; Moore, Foxen, Shettler and Moran. Time 2 hours. Umpires, O'Day and Brennan. At New York: Cincinnati..... 101000200—3 6 3 New York..... 110004013—7 13 2 Batteries—Suges and McLean; Crandall, Dickson and Myres. Time 2 hours. Umpires, Klem and Kane.

AMERICAN LEAGUE.

St. Louis, Mo., June 2.—Boston today defeated St. Louis 10 to 9 in the 11th inning on Bradley's double and Wagner's single for the winning run. The score: Boston..... 00005030101—10 14 2 St. Louis..... 20001150000—9 19 5 Batteries—Lake, Bailey, Waddell, Graham and Stephens; Karger, Smith, Arlanes, Wood, Hall and Carrigan. Time—2:50. Umpires—Dineen and Connolly. Other games postponed.

EASTERN LEAGUE.

At Rochester—Montreal, 1; Rochester, 8. At Providence—Jersey City, 4; Providence, 3. At Newark—Baltimore, 1; Newark, 2. At Buffalo—Toronto, 6; Buffalo, 0.

BY PAT (By Pat.)

In Massachusetts they have a state examining board before which every would-be chauffeur must appear and be examined before he or she is permitted to drive an automobile in the state. Massachusetts is not unique in this respect as several states have automobile examining boards, but Massachusetts is unique in having for members of this board a group of men who are determined to do the work such a board is appointed to do. If other state boards will wake up and follow the example of Massachusetts there will be a noted decrease in the number of automobile accidents caused by careless or incompetent or both kinds of chauffeurs. For the simple reason the applicant for a permit will have to satisfy men for whom the business, that he is a proper person to be trusted with a permit to drive a gasoline wagon over the roads of the state and the streets of the city.

THE WEATHER.

Maritime—Moderate to fresh south-westerly to westerly winds generally fair but a few scattered showers, not much change in temperature.

AROUND THE CITY

Meeting of Commercial Travellers. All commercial travellers are requested to meet at the board of trade rooms, Prince Wm. street, on Saturday, June 4th, at 7.30 p. m.

Arrested For Fighting. James Ramsey was arrested between 6 and 7 o'clock last evening by Police-man Geo. Nelson, for fighting on Brussels street.

Bananas Should Be Cheap. That the people of this city are bananas eaters is instanced by the fact that a C. P. R. train yesterday brought 12 carloads of bananas from Boston.

New Telephone Directory. A new telephone directory will be issued about the end of next week, and will be welcomed by subscribers in view of the numerous changes which always occurs at this time of the year.

Committed For Trial. In the police court yesterday afternoon Charles McCracken and Walter Livingston, charged with stealing a horse and wagon from Ernest Williams on April 2nd, were committed for trial by Magistrate Ritchie.

Customs House Closed Today. The Collector of Customs received word yesterday that today will be observed as a holiday by the department in honor of King George's birthday.

Dr. J. Boyle Travers Critically Ill. The many friends of Dr. J. Boyle Travers of the provincial hospital will regret to learn that he is seriously ill and that his condition last night was regarded as critical.

The Damaged Wharf. With the present state of the tide, D. C. Clark of the West Side has about completed all the work he can do in the way of rebuilding the wharf damaged by the Manchester Port.

The Sunken Tug Pejeboot. W. W. Nering, treasurer of the Sagadahoc and Pejeboot Pulp Co., arrived in the city yesterday, as did President Cowles, of the same corporation.

Tea In Temple Building. In the Temple building, Main street, from 5 to 8 o'clock last evening tea was served by the ladies' auxiliary under direction of Mrs. W. F. Roberts.

MYSTIC SHRINERS CELEBRATE TODAY

Fred A. Hines, Imperial Potentate, Arrived Last Evening--Great Doings at Evandale--Specially Selected Victims.

The merry Mystic Shriners will have a warm time of it today. There is ample reason for their celebration for the high jinks of the order in all the known world.

Mr. Hines comes from California and considering the fact that he is the high and mighty of the warmest body known to fraternalism, he looks quite like other men.

C.P.R. ENGINEERS WILL MAKE FAVORABLE REPORT ON D.A.R.

J. G. Sullivan and J. C. Motley in City Yesterday After Inspection Trip Over Nova Scotia Road--Easy Grades but Roadbed May Need Strengthening--Train Ferry Idea Nonsense.

J. G. Sullivan, assistant chief engineer of the C. P. R., and J. C. Motley, assistant bridge engineer of the company, arrived in the city last evening from Digby, having completed an inspection of the D. A. R. A report of which will cover the condition of the road from an engineering standpoint, will be submitted to the president, Sir Thomas Shaughnessy.

Light Grades. "It is a standard gauge road and the grades are very light. I am very much pleased with it," was the answer.

Messenger Boys and Paper Carriers to be Licensed. A reform which is expected to work to the great benefit of the boys of this city and in a line with the most advanced methods in dealing with the evil of truancy is now being promoted by J. Boyd McMann, the truant officer.

NOVA SCOTIA IN FAVOR OF INDUSTRIAL SCHOOL
