BOYS' UNDERWEAR  
BOYS' SWIMMING TRUNKS  
BOYS' BATHING SUITS  
BOYS' FINE WOOL JERSEYS (with V neck)

Also many other articles that the average boy requires.

**FERGUSON & WALLACE**

## STREET WORK PROGRESSING

Work on Aaron and Water Streets Begun—About 80 Men Employed.

The street work is now well under way. The laying of a permanent sidewalk on the north side of Water Street has started. The proximity of this street to the river bank necessitates the erection of a concrete substructure for the walk. Naturally this makes the job a longer one, but the work is progressing at a satisfactory pace. The sewer work on Aaron Street has also been started.

The disreputable old plank sidewalks on Rossberry and other streets have been removed and a new concrete preparation is being made for the laying of the permanent walks. This work is now giving employment to about eighty men.

## REST. CO. RICH IN WILD FLOWERS

Forty Different Varieties of Wild Flowers Gathered by Pupils at Grammar School.

That botany is an interesting subject is borne out by the accompanying list of wild flowers recently gathered by school children here. Although few of the flowers may be altogether new to readers, yet the list contains several which we did not know were indigenous to this part of the country. Below is a list of flowers gathered during the month of May by some of the pupils of Miss MacPherson's room at the Grammar School:—  
Dandelion, Purple Violet, Wild Currant, Elderberry, White Violet, Dog's Tooth Violet, Yellow Violet, Blood Root, Strawberry Blossom, Churchyard Ivy, Smilax, Bifida, Marsh Tails, Purple Trillium, Gold Throat, Clintonia, Staminate Catkins of Carolina Yew, White Trillium, Dutchman's Breeches, Staminate Catkins of Balm of Gilead, Staminate Catkins of White and Yellow Birch, Fragile Catkins of Fagopyr, Marsh Marigold, Bramble, Wild Pear, Twisted Stalk, Alkali Clover, Wild Cherry, Spring Squaw, Many Cleft, Yellow Bell, Vetch, Chives, Wild Primrose, Fly Honey-suckle, Daisy, Bunch Berry, Spewewort, Jack-in-the-pulpit, Buttercup, Wild Mustard and Star Flower.

## JAPS UNRULY IN HAWAII

Japanese Clergyman Accuses Them of Rapidly Re-paganizing the Country.

That the Japanese in Hawaii are rattling good bootleggers, promote Sunday resting bouts, conduct gambling dens and are otherwise "not too far from the mark," are statements contained in a lengthy report just received by the Federal Council of Churches from the Rev. Tada Okumura, a Japanese clergyman in Hawaii.

The Rev. Mr. Okumura, in one section of his report says, "America is a country of religious freedom. But can the American people sit quietly by and gaze at the rapidity with which their country is being re-paganized? Hawaii, a Christian country, is being thoroughly re-paganized. Idols are being imported. Temples are being erected in every nook and corner of the territory and pagan rites are being held. Traditional Sunday observances are giving way to noisy festivals and wrestling tournaments at the temples and shrines."

"Japanese children who should be taught and trained into good American citizens are being taught Japanese ideas and ideals. Some schools have changed their policy, but many cling to the old, out-of-date system. Since the prohibition law went into effect and offenders engaged in the illicit liquor traffic are Japanese. A majority of the offenders in gambling cases are also Japanese."

The chief cause of all difficulties in Hawaii, between the Japanese and Americans, says Okumura, is the difference in ideas. "Many Japanese," he says, "think that every movement of the Japanese, even if it is a bad one, should be backed by the Japanese; and any Japanese opposing a movement is a traitor. Once a Japanese is always a Japanese. Hawaii is a mere stepping stone to fortune. There are some of their mind."

The remedy—according to Okumura, lies in the educational campaign now being waged. "Our objective is first of all to encourage the Japanese to discard their mistaken ideas; secondly, to urge them to adapt themselves to American customs and manners; thirdly, to make them realize that the education or training of children born in these islands into a good and loyal element of Hawaii and America is not an act of dilatoriness to their country or their forefathers, and, fourthly, to encourage the Japanese in taking the initiative in bringing about a peaceful and harmonious relationship."

The season's first salmon catch of any consequence was made yesterday when a fisherman landed here with ninety, some of which were quite large.

## HOW EDMUNDSTON IS GROWING

Tourist Association and Members of Can. Weekly Newspaper Ass. Entertained.

Edmundston, N. B. Edmundston is certainly on the rise. A few years ago a sleepy country village, today a bustling town, with a population of about 4,000 and still growing.

When the writer last happened, accompanied by Mrs. Aspin, to meet the rest of the Press party enroute to Ottawa at the above town, and also to take in the first, second and third of the N. B. Tourist and Recreation Association, we looked forward to a very quiet little trip.

Upon our arrival we were driven to the Madawaska Inn, a hotel which for reputation and appearance has anything Campbellton has known a mile. We were the first of the party to arrive, and although we were experiencing our first real summer day, gave the town a casual look-over.

At six o'clock everyone, including the band was at the C. N. depot to welcome those who were coming up from St. John, and who had gathered there from various points of the Maritime provinces.

They C. N. R. special sleepers were a merry bunch. We were then promptly placed in the Hotel where we were to be the guests of the Edmundston Board of Trade. And such a dinner!

We had the pleasure last year of going to the Pacific coast with the very large press party, but not on this trip were we served. It was a full course of turkey dinner, cooked and served in a most delicious manner. As soon as we had partaken of this dinner, we were hurried to waiting autos for a drive about the town, and until long after dark we visited points of interest.

As can be expected the Mayor and Town Council have grave problems to solve. New streets and districts are opening up and demands for water and sewerage, sidewalks and lights are piling up so rapidly that it is impossible to keep pace. There are miles of good streets, with concrete sidewalks, but miles more are needed. The housing problem is an acute one. New houses are going up all the time, but still the demand exceeds the supply.

New schools must be provided and plans were made for one to cost \$125,000 but before this being erected, it is discovered that it is almost impossible to find a site for the school and another is being planned. The post office facilities are altogether inadequate and the live Board of Trade is right after the Dominion Government.

The new international highway bridge across the St. John river at Edmundston is nearly completed and will form an important link in communication between N. B. and Maine. In this respect Edmundston got ahead of Campbellton as this bridge has been erected during the year.

About 9:30 after our auto had covered every portion of the town, and taken several miles out the fine trunk road extending to the Quebec line, we were taken to "The Palace" and a very modest program, all by local talent, was rendered. The young people enjoyed a dance and refreshments were served. Although it was after midnight, the good advice of the young people enjoyed a picture which have proved such a good advertisement for New Brunswick.

Something after one o'clock we were able to tear ourselves away and proceed to our special car to get a little rest, while proceeding to Quebec, Montreal and Ottawa.

In the next issue we will tell of our visit to Ottawa and some of the entertainment provided there for the Press party.

## HOTEL DIEU UP TO STANDARD

Western Physician Expresses His Entire Satisfaction With System in Force Here.

The American College of Surgeons, Chicago, prescribes the following rules and regulations for hospital standardization:—

1. That physicians and surgeons privileged to practice in the hospital be organized as a definite group or staff. Such organization has nothing to do with the question as to whether the hospital is "open" or "closed," nor need it affect the various existing types of staff organization. The word staff is here defined as the group of doctors who practice in the hospital of all groups such as the "regular staff," the "visiting staff," and the "associate staff."

2. That membership upon the staff be restricted to physicians and surgeons who are (a) competent in their respective fields and (b) worthy in character and in matter of professional ethics; that in this latter connection the practice of the division of fees under any guise whatever, be prohibited.

3. That the staff initiate and, with the approval of the governing board of the hospital, adopt rules, regulations, and policies governing the professional work of the hospital; that these rules, regulations, and policies specifically provide:—  
(a) That staff meetings be held at least once each month. (In large hospitals the departments may choose to meet separately.)  
(b) That the staff review and analyze at regular intervals the clinical experience of the staff in the various departments of the hospital, such as medicine, surgery, and obstetrics; the clinical records of patients; free and pay, to be the basis for such review and analysis.

4. That accurate and complete case records be written for all patients in the hospital, a complete case record being one except in an emergency which includes personal history; the physical examination, with clinical, pathological, x-ray findings when indicated; the working diagnosis; the treatment, medical and surgical; the medical progress; the condition on discharge with final diagnosis; and, in case of death, the autopsy findings when available.

5. That clinical laboratory facilities be available for the study, diagnosis, and treatment of patients, these facilities to include at least chemical, bacteriological, serological, histological, radiographic and microscopic service in charge of trained technicians.

## OBITUARY

Sunday afternoon the remains of Douglas Good, Anacortes pioneer, were laid to rest in Grand View cemetery, followed by many old timers and many members of the Odd Fellows and Rebekah lodges and the Masonic order, after services in Marine hall conducted by the officers of the local I. O. O. F. lodge. Rev. A. I. Ferch preached the sermon, and there were banks of flowers testifying to the esteem in which the dead pioneer was held by his fellow townsmen.

Douglas Good was born in Dalhousie, New Brunswick, 73 years ago, and learned the shoemaker's trade, following that calling in Boston, Brockton, Massachusetts, for many years, moving to California when about 35 years of age. Thirty-two years ago he came to Anacortes with his family, and was in business here for many years. He spent five years in Montana, returning here some years ago.

He leaves three children, two sons and one daughter, Mrs. Fred Warman of Ferguson Manor, N. B., Wm. Good of Abbotsford, B. C., and John D. Good of this city; two brothers and two sisters survive. Mrs. Hannah Thomas Good and Mrs. Sarah Beckingham of Dalhousie; William Good, of Seattle, and James Good, of Dalhousie.

Mr. Good was a member of the local Masonic lodge, the Oddfellows and Rebekahs, members of all three lodges attending the funeral. The Oddfellows sent a floral pillow, the Eagles a wreath and the Rebekahs a wreath. Mrs. C. L. Dwyer had charge of the music and two hymns, "Abide With Me" and "Rock of Ages," were sung by Misses Dorothy and Daphne McCallum and at the request of the dead pioneer, the "Star Spangled Banner" was played as the audience filed out. Pallbearers were: "H. H. Soule, Chas. Voltaire, W. V. Wells, Mike Gadbois, N. G. Mitchell and W. H. McCallum—Anacortes American."

OBITUARY.  
Mrs. Allan Miller, one of the oldest residents of Restigouche County, passed away after a prolonged illness, on Monday, June 5th at her residence (Aberdeen Street). The deceased was a daughter of the late James and Ellen Craig, and was born in Charlo May 25th, 1838. She leaves to mourn her four sons Wm. H. Allan, James and George and three daughters, Mrs. E. Henderson, Mrs. J. F. Andrew and Mrs. Wm. T. Cook all of this town.

The funeral service was conducted by the Rev. Mr. McLean, in the absence of Rev. Hugh Miller, the choir singing "There is a Green Hill" and "Shall We Gather at the River."

## DALHOUSIE BOY FATALLY SHOT

Seven-Year-Old Son of Mr. and Mrs. John Harquail Dies From Bullet Wounds.

Dalhousie, N. B. June 8.—Arthur the seven-year-old son of Mr. and Mrs. John Harquail, was shot in both legs while he and a brother were playing with a loaded 32 rifle on Saturday at their home. Both parents were away at the time and a considerable period had elapsed before the grandmother, who lived in the next house, was alerted. When the doctor arrived, he saw that the only chance of saving the child's life was to take him to the hospital in Campbellton, but the little fellow died shortly after his arrival. Much sympathy is expressed for the bereaved parents.

NOTICE.  
Mrs. Devereaux Doucet, of Jacques River wishes to announce to the public that every Saturday in June and July will be a "Cheap Sale" day of ladies and childrens hats.

PORT NEWS.  
Three more vessels arrived here during the week-end. Among them a large steamer the "Eldie Clausen" from New York, which is being loaded by the Chaleur Bay Mills at Champoux Wharf. The other two are large schooners from Nova Scotia, the "Hillcrest" and the "Richard B. Silver" and are being loaded here by the Silvers Lumber Co. The "Hillcrest" is being loaded with lumber and the "Richard B. Silver" with fish. They will be expected to leave for their respective ports on Monday morning.

## WOMAN UPON DRINK CHARGE

Pretty, Well-Dressed But in Rather Unnerved Condition After Bout.

It is not often that cases of drunkenness are heard in camera, but that questionable distinction was conferred upon one by Recorder Res Riviere today when he elected to hear in private a charge of drunkenness levelled against a fashionably dressed woman, said to be married and living to a highly respectable family. The accused was a very comely person but obviously suffering from extreme nervousness attributable either to the shame of her situation or the natural issue of her recent bout with King Alcohol.

She was charged with being drunk and also with behaving in a disorderly manner in a house on O'Connell street, where she is said to rent a couple of rooms. On the occasion in question she got so drunk that the proprietor of the house had to put her out, and as this process was not consummated without considerable trouble, a crowd was attracted, with the result that the police arrived on the scene and took the woman into custody. She pleaded not guilty to the charge, but her plea proved vain before the avalanche of evidence against her. It was brought out in evidence that she was in the habit of entertaining a number of friends. It was also pointed out that this was not the first appearance of the accused in court. In these instances the Recorder passed sentence of \$25 and costs with the alternative of one month's imprisonment.

## FIRST IN TWELVE!

A food expert visiting the Maritime Provinces recently tested twelve loaves of bread from twelve different bakeries. His decision, communication to us later, was that Butter-Nut Bread was the best from the standpoint of

—Ingredients  
—Texture  
—Baking  
—Appearance

And this best of all bread comes to you in a parchment wrapper that keeps it clean from our kitchen to your table

**Denuncians Tight Corset.**

Proceeding on another line, Dr. Sargent, for the garment has done more fighting the corsets and medical men, saying that the things endangere health, and that it is a restricted child-birth. After the women have abandoned the old high rise corsets, and have taken to the new to accentuate their sex and are allowed freedom around the chest, which is a necessity to good health, people claim that they are immodest. We will do all in our power to prevent the ladies from returning for the garment has done more to ruin the health of the sex than any other mode of dress that was ever adopted.

"They don't want to see some women could put more clothes in and make themselves more comfortable. I think should be despised. I believe that knickerbockers are fine for women who go hiking on cross-country walks. They don't want to be hampered by a skirt."

**Against Girls Smoking.**

Dr. Sargent is "dead set" against girls smoking. He says that it is

new Hampshire, they would soon speak some means of getting rid of a mass of damp uncomfortable hair. It is interesting to see how attractive some girls can make themselves by curling their bobbed hair; personally I don't like short hair hanging down straight. "I have a great deal of sympathy for the young girl today," she continued. "The girl can't take the initiative and must follow the man in most cases. If she has been wronged and turned out of her own home, is she really to blame?"

[illegible]

THE Plate is the backbone of any Storage Battery, and a large percentage of battery troubles are due to poor Plates.

The Prest-O-Lite Plate represents the greatest advance in battery-making in recent years. Prest-O-Lite Plates, the backbone of the Prest-O-Lite Battery, have the strength and porosity essential to the ideal Battery Plate—strong, so that heat will not buckle it and jolts will not affect it—porous, so that it will provide the reserve power necessary for cold weather starting and emergencies at other times.

Every part of a Prest-O-Lite Battery is made with the same extreme care—the same precise insistence upon perfection in every way. Jars, separators, containers—every part is made and assembled with the same scrupulous insistence upon excellence—it represents the greatest value you can buy—yet Prest-O-Lite Batteries are sold today at less than pre-war prices.

### AGED EDUCATOR DEFENDS FLAPPERS

Like's Short Skirts, Bobbed Hair and Bloomers—Bans Smoking and Drinking.

Dr. Dudley A. Sargent, veteran educator of young women and head of the Sargent School for Physical Education, comes to the defense of the "flapper." He disagrees with the views expressed by Judge Thomas T. Bright of Lowell, who blames young women and their mode of dressing for corrupting men.

"I think that the judge has exaggerated the matter entirely," he said yesterday. "Who designs the styles that young women wear, and whom do they dress to please? Isn't it the men?"

Let Judges Design Dress.

"If these judges will get together and get up a regulation costume and put their names to it after approving it, why then we will see what can be done about getting it adopted," Dr. Sargent added with a smile.

The doctor attributes any immoral conditions that exist in the country to the after-effects of the World war. He says: "Like the material losses, the morals have gone as a result of this great disturbance, and things can't right themselves immediately. The skirt was adopted as a war measure even after the war is over. The short skirt was adopted as a war measure to effect an economy in women's clothing and never in the history of woman's dress have worn a garment so hygienic and conducive to general health as this same short skirt."

How Women Keep Warm.

Deviating from his theme a bit, Dr. Sargent explained a fact that has long puzzled the men of the country. Why a woman can go abroad on a cold day, wearing thin clothing (especially around the legs) and apparently not suffer.

The reason for this phenomenon, according to Dr. Sargent, is a layer of fat over the blood vessels, which the man does not have, his circulatory system being nearer the surface. It also makes the woman more immune from cold water than men.

This fact was expounded after the doctor discussed the success of women in aquatic sports. He says that the men are daily coming up to the rank of men as swimmers and fast making progress in other lines of athletics.

For One-Piece Bathing Suit.

The one-piece bathing suit is the appropriate swimming costume for women," he said. "I can remember when women were forced to wear skirts and stockings when they went swimming; such a swimmer's garment is positively insane and interferes with progress in the water."

"It's terrible to see what a hold conventions have upon people," he continued. "The boy, standing on a chair, so that when we first introduced goggles as the gymnasium costume for our students. Some years ago at a convention at Mechanics Hall some society women made an outcry when our girls appeared in bloomers. Other participants were dressed in short skirts. These young ladies performed on a teeter-balance and every time the ladder came down, their skirts went up and the boy in the audience set up a howl. They very soon adopted the bloomers."

"It's a matter of convention," he insisted, "if a girl wears bloomers, coming to her knees, nobody who amounts to anything thinks about her limbs. The bit if she sticks her leg out a few inches from beneath her skirt, she's immodest, or thought so."

"Very likely short running pants and socks, such as men wear, will be approved for girls taking part in track events. Many pool records have been lost because heavy bloomers have been knocked off the stick when a girl was doing a high jump. They also hinder a girl running. How would men like to wear them?"

Calling attention to the statement of Judge Bright about women wearing rolled down stockings, the interviewer asked Dr. Sargent's opinion.

"I wonder where the judge is living. I've never seen any," he replied. "No I can't approve of them. Rolled stockings call for girdling garters and these interfere with the circulation of the blood."

Denounces Tight Corset.

Proceeding on another line, Dr. Sargent, for the garment has done more fighting the corset and medical men were saying that the things endangered health and the small waist restricted child-birth. After the women have abandoned the old high-restricting corset that was worn to accentuate their sex and are allowed freedom around the chest, which is a necessity to good health, people claim that they are immodest. We will do all in our power to prevent the laced corset from returning for the health of the sex than any other mode of dress that was ever adopted.

Women could put more clothes on and make themselves more comfortable. Paunting and powdering to attract attention should be despised. I believe

men who go hiking on cross-country walks. They don't want to be hampered by a skirt."

Against Girls Smoking.

Dr. Sargent is "dead set" against girls smoking and drinking. He says

### WOMAN TOO WEAK TO WALK

New Works Nine Hours a Day—Lydia E. Pinkham's Vegetable Compound Restored Her Strength

Union Village, Vt.—"I was weak and nervous and all run-down. I could not walk across the floor without resting and I had been that way for weeks. Law your advertisement in the paper and after taking your bottle of Lydia E. Pinkham's Vegetable Compound I felt the good it was doing me and I took seven more before I felt better. I was able to work nine hours a day in a steam laundry. I cannot say too much in favor of your medicine. I trust all sick and suffering women will take it. I have been two years since I took it and I am strong and well."

Mrs. L. A. GUIMAN, Union Village, Vermont.

This is only one of such letters we are continually publishing showing what Lydia E. Pinkham has done for women, and whether you work or not Mrs. Pinkham's letter will interest you.

Many women get into a weak, nervous run-down condition because of ailments they often have. Such women should take Lydia E. Pinkham's Vegetable Compound at the first sign of trouble. Good health is necessary and this splendid medicine will help you to keep it.

that if girls of his school are caught indulging in these positions they are promptly "fired." Bobbed hair is a matter, it should be left to every "flapper" to decide for herself, he thinks, but he hates "Dutch clips."

"Why do people want to worry or fret about girls bobbing their hair?" he stated. "If some of these objectors went in swimming twice a day like the girls at the school camp in New Hampshire, they would soon seek some means of getting rid of a mass of damp uncomfortable hair hanging straight down their backs."

"I have a great deal of sympathy for the young girl today," he concluded. "The girl can't help herself, she must follow the man in most cases. If she has been wronged and turned out of her own home, she is likely to blame."

### CHILD PRODIGY GIVES LECTURE

Four-Year-Old Son of New York Doctor Entertains Convention at Atlantic City.

A brief lecture on anatomy was delivered before the eleventh annual convention of the Allied Medical Associations of America at Atlantic City, last week, by the four-year-old son of Dr. Alzamon Ira Lucas, New York City.

The boy, standing on a chair, so that when we first introduced goggles as the gymnasium costume for our students. Some years ago at a convention at Mechanics Hall some society women made an outcry when our girls appeared in bloomers. Other participants were dressed in short skirts. These young ladies performed on a teeter-balance and every time the ladder came down, their skirts went up and the boy in the audience set up a howl. They very soon adopted the bloomers."

"It's a matter of convention," he insisted, "if a girl wears bloomers, coming to her knees, nobody who amounts to anything thinks about her limbs. The bit if she sticks her leg out a few inches from beneath her skirt, she's immodest, or thought so."

"Very likely short running pants and socks, such as men wear, will be approved for girls taking part in track events. Many pool records have been lost because heavy bloomers have been knocked off the stick when a girl was doing a high jump. They also hinder a girl running. How would men like to wear them?"

Calling attention to the statement of Judge Bright about women wearing rolled down stockings, the interviewer asked Dr. Sargent's opinion.

"I wonder where the judge is living. I've never seen any," he replied. "No I can't approve of them. Rolled stockings call for girdling garters and these interfere with the circulation of the blood."

Denounces Tight Corset.

Proceeding on another line, Dr. Sargent, for the garment has done more fighting the corset and medical men were saying that the things endangered health and the small waist restricted child-birth. After the women have abandoned the old high-restricting corset that was worn to accentuate their sex and are allowed freedom around the chest, which is a necessity to good health, people claim that they are immodest. We will do all in our power to prevent the laced corset from returning for the health of the sex than any other mode of dress that was ever adopted.

Women could put more clothes on and make themselves more comfortable. Paunting and powdering to attract attention should be despised. I believe

men who go hiking on cross-country walks. They don't want to be hampered by a skirt."

Against Girls Smoking.

Dr. Sargent is "dead set" against girls smoking and drinking. He says

### WAR AVIATOR SHOT BY WOMAN

Unsuccessful Love Tangle Again Results in Tragedy—Lady Does the Shooting.

Kansas City, Mo., June 5.—Frank W. Anderson, a war aviator, was found in a hotel room shot dead Saturday, and Miss Peggy Marie Beal, a nurse, who served near Anderson in Dayton, Ohio, during the war, was found unconscious from a bullet wound. This note was found in the room:

"My name is Peggy Beal. I am twenty-nine years of age. I live in Springfield, Ill. I came to Kansas City with the intention of marrying Frank Warren Anderson. When I arrived I met him and we went to the Midwest Hotel together."

"He told me he was married and that he was not divorced yet. Therefore he could not marry me."

"There is nothing more to tell. I shot him because he brought me here and could not marry me."

"PEGGY BEAL."

On the dresser in the room where the shooting occurred was a novel open with the corner of a page turned down at an illustration of a woman standing with a dagger over the breast of a man.

Miss Beal as taken to a hospital where it is said her condition is critical. A bullet penetrated her lung.

SHRINERS AND ROTARIANS FROM UNITED STATES VISIT CANADA

TORONTO, June 7th.—It was announced recently at headquarters of the Passenger Traffic Department of the Canadian National Railways, Toronto that two important bodies of Shriners and Rotarians from the United States would visit Canada travelling by the

**Hal's Catarrh Medicine**

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. Catarrh is a local disease, it is greatly increased by colds, and it is a splendid recognition of the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

Dr. J. Cheney & Co., Toledo, Ohio.

Hal's Catarrh Medicine is a local disease, it is greatly increased by colds, and it is a splendid recognition of the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

Canadian National during the month of June. The Steamer Temple Pilgrimage to the Holy Land will be taken June 22nd for the 800 mile sail through the famous inside passage of the North Pacific Coast visiting Victoria, Vancouver, and Prince Rupert en route. From Prince Rupert the trip will be continued East over the lines of the Canadian National Railways through the journey through the prairie provinces stops are made at Edmonton and Winnipeg.

East from Winnipeg the route is via Port Arthur to Ottawa and Montreal, stop over being made at the two latter places.

The Third District, New York Rotary Club at the conclusion of the International Association of Rotary Clubs being held in Los Angeles, Cal., June 24th to 28th will make their return trip by the same route through Canada by the Canadian National Railways, leaving Seattle for the Steamship for the trip up the coast on June 18th making stop over at all important points en route as far as Ottawa, reaching that city on Tuesday, June 27th.

The fact that these important bodies of business men from the United States; are making these trips through Canada is a splendid recognition of the attractiveness of Canada to the tourist and the Canadian National route through Canada.

**Don't Guess about your BATTERY**

THE Plate is the backbone of any Storage Battery, and a large percentage of battery troubles are due to poor Plates.

The Prest-O-Lite Plate represents the greatest advance in battery-making in recent years. Prest-O-Lite Plates, the backbone of the Prest-O-Lite Battery, have the strength and porosity essential to the ideal Battery Plate—strong, so that heat will not buckle it and jolts will not affect it, porous, so that it will provide the reserve power necessary for cold weather starting and emergencies at other times.

Every part of a Prest-O-Lite Battery is made with the same extreme care—the same precise insistence upon perfection in every way. Jars, separators, containers—every part is made and assembled with the same scrupulous insistence upon excellence. It represents the greatest value you can buy—yet Prest-O-Lite Batteries are sold to-day at less than pre-war prices.

**MEDAL WINNERS**

At a recent Underwood speed typing test at the Campbellton Commercial College, Mrs. E. K. Du Guay, principal of the institution was awarded a diploma and silver medal by the Underwood people, her record being 70 net words per minute. Seventy words a minute is somewhat below the model record but the very strict rules which govern these Underwood tests make the winning of silver medal something of an achievement. This test was written in the presence of an Underwood representative, who came here especially to conduct the examination.

Miss Mrs. Currie also took a speed typing test at the Commercial College. She achieved 40 net words per minute and was awarded a bronze medal from the Underwood people.

## THOUGHTS ON THE EMPIRE.

(Held over from last week.)  
At times the British Empire seems almost too vast and shapeless to be real and the imagination is confused upon attempting to visualize a picture of its numerous dominions whose shores are washed by every sea. Then some event strums the cord of universal kinship, and our vague vision of the empire brightens into a vivid picture of a great kingdom inseparably united by the bonds of loyal devotion and responding to the pulse-beat of the Motherland with a patriotic singleness of heart. The occasion of King George's memorial speech at Terlinchian cemetery in France is an event of this significance. The following is an extract from His Majesty's remarkable address which he delivered after a few days pilgrimage through the great war-burying ground, where the ashes of patriots from every corner of the empire enrich the soil upon which they fought and died that liberty and right might be victorious.

"For the past few days I have been on a solemn pilgrimage in honor of a people who died for all free men. At the close of that pilgrimage, on which I followed ways already marked by many footsteps of love and pride and grief, I should like to send a message to all who have lost those dear to them in Great War, and in this the Queen joins me today amidst these surroundings so wonderfully typical of that single-hearted assembly of nations and of races which form our Empire. For here, in their last quarters, the sons of every portion of that Empire, across, as it were, the threshold of the Motherland which they guarded, that freedom might be saved in the uttermost ends of the earth."

Such words as these, prompted by the memory of those who made the supreme sacrifice and pregnant with deepest pride and gratitude cannot fail to create a feeling of unity and brotherhood in the hearts of all their hearers. Regardless of the vastness of the empire, the myriad crosses above the battlefields will ever be proof of the virtue of the empire's sons and a memorial to the great unselfishness of spirit with which they defended the great cause of freedom. As the graves of the empire's dead literally girdle the circuit of the earth, so will the bonds of patriotism and brotherhood strengthened by their sacrifice, ever girdle and bind our vast and scattered empire into a spiritually united whole and serve to keep fresh in our memories the lofty heights of true devotion to which they rose and the worthy principles for which they fought and died.

No man is stronger than his stomach. Tanlac will make your stomach strong.

## BARBOUR—LAUGHLAN.

Campbellton, June 9.—A very pretty wedding was solemnized at Black Point on Wednesday afternoon, June 7, when Ida Laughlan, eldest daughter of Mr. and Mrs. Charles Laughlan of that place, was united in marriage to Arthur W. Barbour, manager of the Bathurst mill. The ceremony took place at the home of the bride before a large number of friends, the Rev. Mr. Archibald of Bathurst officiating. No artificial decorating was necessary for the ceremony took place on the lawn and nature, fragrant with the fragrance of June blossoms, attended to that detail with all the delicacy for which she is famous. Mrs. Earl McDonald, sister of the bride, as matron of honor; Mr. McDonald supported the groom and little Thelma Bernard, niece of the

groom, acted as flower girl. The bride was charming in a gown of white satin and georgette with pearl trimmings and wore a veil held with orange blossoms. Mrs. H. J. Currie of Campbellton, aunt of the bride, played the wedding march, assisted by Miss Ima Currie as violinist. During the signing of the register, Mr. H. J. Currie of Campbellton rendered a pleasing solo of "O Perfect Love." The bride and groom were the recipients of many gifts such as furniture, glass and silverware and checks for substantial amounts, these all testifying to the popularity of the happy couple.

After the ceremony, Mr. and Mrs. Barbour motored to Dalhousie Junction and there entertained for Montreal. After a trip to Boston and other American cities they will reside at New Mills.

## ADAMS—MOWAT.

Campbellton, June 9.—Their many friends will read with interest of the marriage of Miss Helen J. Mowat, eldest daughter of Mr. William A. Mowat, to Mr. Clifton H. Adams, of Campbellton. The ceremony took place on Wednesday, June 7, at 4:30 p.m. at the bride's home in Flatlands, with the immediate friends of each as guests.

The house and grounds were prettily decorated and the bridal party stood under a floral arch on the lawn. Rev. George King, of Matapedia, being the officiating clergyman.

The bride wore a suit of reindeer tricotine with georgette blouse and blue hat and carried a shower bouquet of sweetheart roses and lilies of the valley. She was attended by the groom's Miss Margaret J. Adams, a cousin of honor, in navy canton crepe with trimmings of coral pink and Miss Emma Miller of Nash's Creek, as bridesmaid, in a navy crepe de chene with head trimmings. Both young ladies wore modish black hats and carried bouquets of carnations and sweet peas. The groom was attended by Mr. Ivan Mowat, and Miss Gertrude L. Adams played the wedding march.

After a dainty lunch had been served the young couple, accompanied by most of the guests, motored to Matapedia where they took the Limited for a trip to Montreal. Mr. and Mrs. Adams will reside in Campbellton in their new bungalow on Lansdowne St.

Ice Cream at Wras's.

J. A. White, a well-known Kennebunk farmer, said he could beat his hand shaking spin after taking Tanlac.

**It's the Valleys in Paint That Make it Poor**

The Valleys are the thin streaks  
The Hills are the thick streaks

PAINT streaks are caused by the brush marks. No matter how much it is brushed, if the paint is cheap the brush marks are bound to show. Good paint levels up to a smooth surface. Cheap paint dries with hills and valleys that are alternately strong and weak.

Just as a chain is only as strong as its weakest link, so is a film of paint only as good as its thinnest places—the valleys.

Most paints are made of only three things. Lowe Brothers High Standard is made of six—three more ingredients that exhaustive laboratory and practical tests have shown to be necessary to make good paint.

Add to this the fact that these ingredients are more finely ground, and you can understand why High Standard will always smooth out to a uniformly thick surface. Which is also the reason it lasts longer, and looks better as long as it lasts.

Come in and see the sample panels and ask for literature.

## EIGHT MILLION FOR WELLAND CANAL

House carried Vote of \$8,000,000 for Welland Canal Project On Saturday.

Ottawa, June 12.—In the Commons, today, Government bills and resolutions on the order paper will be taken up. Afterwards, the House will go into supply in estimates of the Department of Militia to be followed by those of the Secretary of State, Department of Trade and Commerce, and remaining items of the Post Office.

The House, on Saturday, carried a vote of eight million dollars for construction of the Welland Canal after we turn Progressive members had made an unsuccessful fight to have the appropriation reduced by one-half. The motion for reduction of the estimate came from John Millar, Progressive member for Qu'Appelle.

Among other appropriations for canals, a vote of \$50,000 for surveys and investigations on the St. Lawrence ship canal, was carried.

RECEIVED BIG ORDER.

Mr. and Mrs. Geo. S. Kerr have just returned from Virginia, U. S., where Mrs. Kerr received an order for 10,000 curls of pigwood.

Go to Andrew's Clothing Store for a pair of white flannel trousers with black stripes.

A BOOK OF VERSE.

We have received from Mr. R. E. Leathall of Gaspé County, a small volume of verse for immediate publication. The volume will bear the title "Pastime Poems."

REPAIRING ROAD.

A gang of men are at work on the highway between Adam's hill and Miller's mill. It is hoped that good gravel will be applied to the new road bed.
