This is of very great importance to the people of Sackville and a full ance of tax-payers is very desirable.

It is but very poor satisfaction to us to have every statement and every prediction we made with reference to his Railway, ver fied by events. In Almore having made the people discontented and despairing, and ready to welcome anything that promised relief, when at this juncture Sir John appeared with his Protectionian nost trums, they hailed him as their saviour. In politice as in nature, people rate too highly what appeals directly to their senses—to the present and the seen, and too hittle to distant and unseen movements. It is the shallowest reasoning to suppass that Sir John is a cunning twized, who by the waving of his wand called the N.P. out of nothing reason and fastened it upon the people.

I believe it to be the best flour mill on the Island of Cape Breton, and I feel that I can recommend it to any one in want of a first class flour mill, as it is sumple, efficient, and easily managed by a novice.
