## Shakeup Made by G.T.R. In Runs of Conductors

Notwithstanding all reports to the contrary, the Grand Trunk has not dismissed any of the conductors on the middle division for alleged dishonest practices.

It is a fact that two conductors have been relieved of their runs, but it was stated at the office of the assistant superintendent this morning that it was not as a result of the work of the spotters who are said to have been working on the entire system for some time

One of the discharged employes is Conductor Burton, of Niagara Falls who for some years has been on the through run from Suspension Bridge and Sarnia Tunnel. Burton was discharged, it is alleged, for a violation of a stringent rule respecting the backing up of pas-

The other discharged trainman is Conductor Williams, who has been in charge of the passenger train which leaves Paris at 6 o'clock each morning for Toronto. Williams was taken out of the service for passing a station when the order board was against his train and running on to the next station. A collision almost resulted from the action of Williams' engineer.

The Grand Trunk has decided on a general change in the runs of conductors, and already a number have been notified to that effect. Conductor Higgins, it is alleged, has been taken off the Eastern Flyer and the International Limited, and placed on another run, and his place on the "dude" train of the system is to be taken by Conductor Fluke, of the Toronto branch. Conductor McKenzie goes from the London, Huron and Bruce branch to take Conductor Fluke's run out of Toronto, and Conductor Connell comes from one of the northern branches for service on the L., H. and B. Conductor Manley, of the morning accommodation from London to Suspension Bridge, has been transferred to a run out of Toronto, and Conductor Connolly comes from Toronto to take his place.

A number of other changes are expected to be announced in the course of a few days.

It was rumored today that several conductors on the division are to be discharged next week for alleged dishonest practices, but the assistant superintendent's office had heard nothing of the rumor. The feeling prevails among a large, number of the trainmen that the action of the company in discharging its conductors without giving them explicit reasons may lead up to a strike. Should this occur it may involve not only the conductors, but the members of the other orders with which they are affiliated.

Government of the city by a commission, with a board of aldermen for legislative purposes only, carried the day at the public debate held in the city hall last evening, under the auspices of the newly-organized Canadian Club of Lon-

The gathering was the first of the kind held by the club, and it proved to be one of exceptional interest, in view of the fact that the question of changing the city's form of government has come to the front of late. Considering the number of counter-at-tractions, the attendance was satisfactory, the audience including about 25 ladies. The chair was taken by Mr. Frank Lawson.

The question under debate was, "Resolved, that it would be in the best inseen by a Mr. Talbot before the elec- terests of the city to change its munition, who told him there would be cipal system of government by placing

Billousness, which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headaches from cold, from fever, and from other causes, but the most excruciating of all is the bilious headache, Parmelee's Vegetable Pills will cure it—cure it simost immediately. It will disappear as soon as the Pills operate. There is nothing surer in the treatment of bilious headache.

What stronger proof could be had than this, of the fact that the herbs of the field and the trees of the forest constitute nature's medicine chest for mankind? In Bileans for Biliousness, the great Australian household remedy, you have the finest known medicinal essences. From coating to kernel they are purely vegetable. They are an absolutely natural remedy for indigestion, headache, biliousness, constipation, piles, and all disorders arising from liver and stomach disorders.

It is now well known that liver medicines hitherto in use mostly contain bismuth, mercury and other harmful mineral products. These mineral constituents are very injurious, if taken for long, and produce such effects as that of loosening of the teeth, causing the hair to fall out, etc. by the by, is perior. ### Trifles Make Perfection Perfection Is No Trifle.

It is by the most careful attention to every trifing detail in the milling of "FIVE ROSES" FLOUR that we have been able to bring this brand up to its present state of perfection, and are able to maintain it.

Every single bushel of grain which enters our mills, every single bag and barrel of flour which leaves them is tested and retested at every stage of the milling in order to insure the absolute purity and uniformity for which "FIVE ROSES" FLOUR is noted the world over.

This attention to trifles is costly, but it enables us to maintain a reputation for perfection, which is no trifle, and users of "FIVE ROSES" can rely upon getting the "flour of perfect quality" for all household

#### THE HYPOCRITES.

Among the shameful revelations of the past few weeks, none is more disgusting than the hypocrisy of some of the opopnents of the Liberal party in this city.

The London Free Press is an example of this ripe and seasoned Phariseeism. Its advice to voters to take bribe money and lie into the bargain was that of a hardened but candid sinner but it dons the more contemptible garb of the hypocrite when it protests that the hands of the Conservative party in this city are absolutely clean.

It lays great stress on the Carling-Walkr lection of 1874, in which most of the corruption was practiced by Conservatives who supported Mr. Walker for personal reasons. When Mr. Walker was unseated, the Liberals desired to press a counter-petition, and show that money ha been poured out like water by the other party, but Mr. Carling declined to offer for re-election, and remained out of the House until The debauching of the electorate in the interests of the Conservative party antedated the contest of 1874, and reached its climax in the Hyman-Beattle contest, more than twenty years afterwards. It is no defense to say that the courts confirmed the Conservative candidate in his seat on that occasion. A number of Conservative workers were constrained by perverted sentiments of party loyalty to swear away a mass of the blackest evidence. Mr. Hyman in 1891 had been unseated for a trifle compared with the orgie of

There is this difference between the latter case a cloud of witnesses implicated men high in the Conservathe Conservative headquarters, where scores of men were made drunk and held captive, constituted only one of Its disgraceful features. The contest was a carnival of bribery, debauchery and ballot-spoiling. There has not been an election since then in which money has not been spent in the interest of Conservative candidates. Evidences of it have come to light in the pres ent proceedings at Toronto, and more of it would be revealed if the prosecution was concerned in exposing more than one party.

The president of the London Liberal Association was perfectly truthful in his indictment of Conservative methods in London. For years Liberals have been smarting under a sense of heinous wrongs inflicted upon their party.

The Imperal Government, besides disallowing recent colonial legislation, has permitted the American fishermen to use purse seines, a practice which Newfoundlanders say will be destructive of their herring fisheries and We hope they feel as we feel which is forbidden to their own people. Mr. P. T. ### THE RISE OF SAM SHUBERT

cate Had Remarkable Career.

New York, Nov. 1.—The story of how What Sam Shubert touched turned to gold" was told in the United States circuit court here today by Lee Shubert, a brother, business partner of the dead theatrical manager.

Sam Shubert was killed in a wreck on Pennsylvania Railway at Harrisbury, May 10, 1905, and his father and others have brought suit against the railway company for \$250,000 damages.

It was at the opening of the trial of the suit that Lee Shubert told the story of his brother's success. At the age of 18, a bellboy in a hotel in Syracuse, Sam Shubert died at 28, the head of a partnership which controlled nearly half a hundred theaters in the United States and England, and a large, number of prosperous and sucessful theatrical companies on the road, his brother said.

Sam Shubert's annual income from his business was about \$90,000. Lee said that Sam made his first effort in the theatrical line when, at the age of 18, he secured from Charles Hoyt the road rights for "A Texas Steer." The venture was a success, and from that time until his death he was constantly adding to his line of plays and the-

Lee Shubert said his brother's particular genius was in his ability to take theaters and attractions which had been already stamped as failures under other management, and by his skill putting them on the high road

Practically everything his brother touched had turned to gold. In fact, Sam Shubert's luck had become proverbial in the theatrical profession, the brother to the family, and especially the care he gave his aged parents. The jury returned a verdict awarding

\$25,000 damages to Sam Shubert's father and mother.

Washington, Oct. 31.-The police candals which have filled the newspapers of Chicago recently and the requent disclosures concerning the inefficiency and corruption of the police in other cities of the United States emphasize the significance of a table of statistics which was published the other day concerning the delinquencies of the Metropolitan police of London during the last three years. The at the request of Sir Howard Vincent, M.P., to show the efficiency and the good judgment of the London con-

A table shows the total number of persons arrested by the police of London during each of the three years named, the number of cases in which legal proceedings were taken against the members of the force who made those arrests for unlawful interference with the rights of citizens, and the number of cases in which the police commissioners, after investigation, dewitness said. Thus it will be seen that the officers accused were vindicated in more than half of the twelve cases in which than half of the twelve cases in which than half of the twelve cases in which the practice has been common in complaints were brought against them by individuals.

Of the seventy-eight cases in which officers were disciplined for unwarranted arrests, five appear also in the econd column covering proceedings brought by private individuals. Of the seventy-eight officers convicted by Standing of Pupils at St. Peter's and court-martial before their superiors, seventeen were dismissed from the service, fifty-two were suspended and the remainder were reprimanded.

The London police never use thet clubs except in the greatest emergencies, and their patience seems to be inexhaustible.

When an accident occurs they whistle to their next neighbor, who produces a stretcher of canvas on two poles, and the wounded or fainting person is carried to the nearest drug store or doctor's office. There are no emergency ambulances in London. Elongated baby carriages are used instead, with black hoods over them, so that the patient can be concealed. These are pushed long the street to the nearest hospital or police station by single patrolmen in a very quiet manner, without any clanging bells or ex-

## SPONGE IN TENTH Here's More Proof That "Young's Overcoats" Are Best

On Saturday last eleven of our many Overcoat sales were made to men who said they had been looking around in different stores. Some had been in one or two places. Same had been in three or four. Many more of our sales were probably made to men who had been comparing, but these eleven mentioned it to us. Each day this week we've had from two to five men tell us the same story. In every case we made the sale and in every case it was an easy sale. The coats themselves did all the selling. Better or more exclusive evidence of the pre-eminence of our overcoat values and styles would be pretty hard to procure.

The smart style, the perfect fit, the unusual value of these garments is certainly convincing to the man who wants the right kind of clothes and who wants them at the right price. There'll be full ranges of sizes again for Saturday. Let's prove our claim to you then.

The "FRENCH BACK"—the newest of this season's Overcoat models, the cut with form-fitting back and deep center vent with seams either creased or pleated to hip and with decided flare to skirt. We show the most perfect fitting coats in town, in plain black and grays, and the smartest new fancy overcoatings. Unmatchable values at \$20, \$18, \$12.50 and.....

The "VARSITY"—a deservedly popular coat style, cut 50 to 52 inches long, with broad athletic shoulders and perfect hanging, full back, with deep center vent and with or without creased side seams. Shown in a big range of fancy coatings in neat patterns and in splendid plain blacks and grays, in imported cheviots, kerseys, etc. Very special values at \$18, \$12.50 \$16, \$10, \$6.95 and.....

The "CHAMBERLAIN"—a smart coat style that never fails to appeal to the man who wants dressiness and doesn't want anything extreme. It's cut 44 to 46 inches long, with splendid square shoulders, perfect fitting collar and full hanging box back with center vent. We show it in neat patterns and in plain blacks and grays in meltons; beavers, cheviots, kerseys, etc. \$18, \$12.50, \$10, \$7.50 and.....

In the course of a few days, it is expected that the Grand Trunk will have a temporary footbridge over South London. Since the old overhead bridge was torn down it has been necessary for persons living north of the track who desired to reach the south section of the suburb to go around by the Wortley road, but the erection of the temporary bridge will do away with this inconvenience. The railway company are hurrying along the work of track elevation with all possible speed, and will shortly be using the two temporary tracks which have been laid on the north embankment, many feet above the old track level. One of the tracks will be used for regular traffic and the other by work trains. Then the work of filling in the old track allowance will be com-

A RARE MUSICAL TREAT

Most Enjoyable Organ Recital at the Adelaide Street Church.

Those who attended the organ recital given last evening in Adelaide Street Church by W. H. Hewlett, Mus. Bach., organist and choir master of Centenary Methodist Church, Hamilton, en Joyed a rich treat. As music-lovers throughout the country well know Mr. Hewlett occupies an advanced position in the front rank of organists -a fact that was strongly accentuated on this occasion, though he was at a disadvantage in occupying a somewhat cramped position and using a smaller instrument than those he is accustomed to play. The programme, was well chosen, both for quality and for the fine contrasts, as shown in the sweet, "Sunset Melody" and "Pastorale," and in the overture to "Stradella." and the "Imperial March." which was the professor's closing

Mrs. Calder-Leonard, who needs no introduction to a London audience. contributed largely to the enjoyment of the recital. Her three numbers were given with admirable taste and in splendid voice, eliciting warm praise from well-pleased listeners.

The choir, too, merit commendation for the efficient way in which they carried out their part of the programme. Miss Minnie Raymond, the church or- LONDUN ganist, had a large share in making the recital a success, as shown by the good training of the choir, while her able work as accompanist for Mrs. Methodist Church, Dorchester, will be Calder-Leonard was all that could be held on Sunday.
