An Increase **Every Month**

Every month this year this business has shown a remarkable increase over the corresponding month of any year in our history. What is the explanation? Within the last few years we have doubled our store floor space, we have almost doubled our selling staff, and our rapidly expanding business is now demanding more space. Our purchasing power has increased to such an extent that we have joined one of the greatest syndicate of buyers in the world. This syndicate trades in all the markets of the world where it can do so to advantage; this syndicate gets the benefit of every price concession offered by manufacturers. Being now members of this syndicate we are in position to offer you every advantage of close buying and to give you better value than ever.

ISTHMIAN INDEPENDINCE

Proclaimed at Panama Amidst Great Enthusiasm.

Panama, Nov. 4.-The independence of the isthmus was proclaimed at 6 p. m. yesterday. A large and enthusiasti crowd of all political parties assembled and marched to the headquarters of the Government troops, where Generals Tovar and Amaya, who arrived this morning, were imprisoned in the name of the Republic of Panama. The enthusiasm was immense, and at least three thousand of the men in the crowd

TAMMANY WINS NEW YORK.

YESTERDAY'S ELECTIONS IN THE MIDDLE-STATES.

A Tremendous Change—Tom L. Johnson Beaten in Ohio-No Change in Towa-Nebraska Result in Doubt.

New York, Nov. 3 .- After a remarkable campaign in which there was unit ed against him nearly all of the news papers and practically every minister of religion in the city, George B. McClellan, son of the civil war General and who has been mentioned as a the Presidency, was yesterday elected third Mayor of Greater New York over Seth Low, Fusionist, the present Mayor, by the large plurality of about 70,000. Edward M. Grout was elected Comptroller, and Charles Fornes President of the Board of Aldermen. These two men were ori-ginally on the Fusion ticket and were endorsed by Tammany, whereupon the endorsed by Tammany, whereupon the Fusionists took their names from the Low ballots and nominated other candidates. It was the nomination of Grout and Fornes that caused Hugh McLaughlin, the veteran leader of the King's County Democracy, to bolt and declare that he would not support men who were not Democrats. In spite of his defection, however, McClellan Grout and Fornes carired King's coun-

ticket, which was given practically no support. It is estimated his total vot will be about 1,000.
Returns from New York State indicate the election of the Republican Mayors in Syracuse, Elmira, Plattsburg, Rochester, Albany, Binghamton, Watertown and Oneida, W. T. Coleman defeating Mayor Sheehan for relection in Elmira. In Oswego, Schenectady and Troy Democratic Mayors were elected. Returns from the Assembly districts up State indicate a few gains by the Republicans, the returns up to 11 p.m. showing four Republican Assemblymen in districts formerly represented by Democrats. From many of the up-State Assemblyman districts no reports had been received. In New York county the Republicans had gained one Assemblyman, seven districts being unreported. The Republicans gained a State Senator in the 23rd district.

"I am out of politics for good," was the statement of Wm. S. Devery tonight, after he had received the election returns.

Arrests for alleged illegal voting began early. Eight arrests in Manhattan and two in Long Island City were reported during the first hour. At the police courts the ordinary cases were disposed of early and the courts were held open for prompt action on election cases, attorneys representing the Fusionists and Democrats being present in each court.

During the morning arrests averaging 20 an hour for alleged illegal vot.

Fusionists and Democrats being prosent in each court.

During the morning arrests averaging 20 an hour for alleged illegal voting were reported. Of these about one in ten were held for examination, the magistrates discharging the others.

Senator John C. Fitzgerald, Timothy D. Sullivan's successor at Albany, was arrested in the polling place of the first election district of the sixth assembly district on complaint of Charles Brewster, a Republican watcher, charging him with disorderly conduct. The Senator was taken to Essex Market Police Court and arraigned. Brewster alleged that Fitzgerald interfered with him in the discharge of his duties and also persisted in electioneering within a hundred feet of the polls and resisting arrest, when a policeman finally took him in charge on a charge of violating the law.

Columbus, O., Nov. 3.—Chairman Dick has issued a statement that Herrick, Republican candidate for Governor, would have a plurality in excess of too,000 in the State over Tom L. Johnson, and that the Republicans would have at least sixty majority on joint ballot in the Legislature.

Deadenines. La. Nov. 2—Returns

from lowa will be late, as polls did not close until 7 p.m. Except in a few localities the vote was light, Governor Cummins and the entire Republican ticket are elected. The indications are the Democrats have made a slight gain in the Legislature.

Bostom, Nev. 3.—The Republicans to-day re-elected Governor John L. Bates and the Republican State ticket by practically the same plurality as last year. The Legislature is also strongly Republican. With returns complete from every town and city in the State, the total vote for Governor was:—Bates, Republican.

the State, the total vote for Governor was:—Bates, Republican, 190,393; Gaston, Democratic, 163,544.
Richmond, Va., Nov. 3.—1.e elections in Virginia, which were for members of the Assembly, have resulted in a Democratic gain.
Philadelphia, Nov. 3.—The polls closed in Pennsylvania at 7 p.m. Information received from various parts of the State indicates that the vote was unusually small. The Republican State ticket was elected by a majority exceeding 150,000.

was unusually small. The Republican State ticket was elected by a majority exceeding 150,000.

Louisville, Ky., Nov. 3.—Returns received from the State indicate the re-election of Governor Beckham, Democrat, by a majority conservatively estimated at 14,000.

Omaha, Neb., Nov. 3.—The result in Nebraska is in doubt, although rejturns received at that hour indicate a Liberal-Fusion gain.

San Francisco, Nov. 3.—Partial returns show that Schmitz, Labor Union candidate, leads for Mayor.

Trenton, N.J., Nov. 3.—The Republicans in New Jersey to-day elected four of the six State Senators, and enough of the Assembly to control both Houses. Mayor Fagan, Republican, was re-elected.

Jackson, Miss., Nov. 3.—The vote in the State on to-day's elections was light. The Democratic ticket, headed by J. K. Vardaman for Governor, was elected, there being no opposition.

Baltimore, Md., Nov. 4.—At 1 a.m this morning indications point to the election of David Warfield, Democrat, as Governor, over Steveson, and that the Legislature. Which will elect a Unitas Governor, over Steveson, and that the Legislature, which will elect a United States Senator, will also be Demo-cratic. Returns are coming in slowly,

THE FISCAL CAMPAIGN.

Resolutions Favor an Inquiry-Morley at Nottingham. London, Nov. 4.—The Leeds Cham ber of Commerce yesterday pa sed a resolution that the time has arrived when it is wise for this country to modify its fiscal policy, owing to the change which has taken place in the

change which has taken place in the relative manufacturing powers of the different countries of the world.

The Home Secretary, speaking last might at the abund dinner of the member Agricultural Association, said that, though he was always desirous of tightening the bonds of mion with the columns, he believed that in a country situated mon an ideal grand markle to exon

ening the bonds of mion with the colcomics, he believed that in a country situaled uppn an island, unable to grow
the whole food of the people, the cost
of living of the working class should
not be increased.

The Berks and Oxon Chamber of
Agriculture passed resolutions yesterday in favor of a reconsideration of
the fiscal policy, to bind the colonies
closer and to fight foreign hostile tariffs.

Lord Armstrong, speaking before
the Newcastle Primrose League, deplored the present fiscal system.

Cambridge University Union decided in favor of an inquiry into the
fiscal policy by 255 votes to 105.

Mr. John Morley, speaking at Nottingham yesterday, said the A B C of
the colonial system were local independence, freedom from Downing
street and payment of their own expenses unless necessary to defend
themselves from aggression, and then
Britain would spend the last shot in
the locker. Protection would mean
the subverting of these principles to
retaliation in which there was no finality.

Constantinople, Nov. 3.-The Turkish Government's reply to the Austro-Russian reform scheme was commu nicated to the Ambassadors of the two powers this evening. In brief, the Ports receives unfavorably some of the points in the project, and reiterates the sincerity of the Government's ap-plication of the former measures of reform, and the success of its efforts in applying them.

MUST ATTEND DRILLS.

A Member of the King's Colonials Undergoes Costly Experience.

London, Nov. 4.—Dr. Anderson, a house physician at Charing Cross Hospital, was yesterday fined £5 for being absent from the training of the King's Colonials. The adjutant said the regiment lost £27 of Government grant by the defendant not being efficient in drills. Dr. Anderson had applied twice to be discharged from the regiment on the ground of overwork at the hospital. He was arrested and marched by the police through the streets.

Got Five Years Each.

Toronto, Nov. 4. — "It was a clear case of highway robbery," remarked Colonel Denison yesterday, as he sentenced the two young men Joseph Ross and William Rand each to five years in Kingston Penitemiary. Rand and Ross held up a King street car on the morning of Thanksgiving Day and beat the conductor, William Howard, almost to death.

LOSSES NOT SO LARGE.

AN EMPHATIC DENIAL FROM MR. A. E. AMES.

Atlas Loan Affairs-Alleged Sales Made in Twin City Stock-Some Stock Deals Described.

Toronto, Nov. 4. - Ffigures presented by the counsel for the iquidation of the Atlas Loan Company, purporting to show the losses sustained by that company through its transactions with A. E. Ames & Co., were emphatically denied by Mr. Ames in a statement made by him while unin a statement made by him while un-der examination by Mr. W. H. Hun-ter yesterday. Incidentally, Mr. Ames-criticized the liquidator for permitting such an estimate to be presented. Mr. Hunter, who is acting for the liquidat-or, the National Trust Company, in some remarks to the court took the entire responsibility for the figures pre-sented, stating that the liquidator was not in any way at fault.

entire responsibility for the figures presented, stating that the liquidator was not in any way at fault.

The examination of Mr. Ames was not concluded when the court adjourned. Some statements of alleged sales of Twin City were shown by Mr. Hunter to Mr. Ames, by means of which a considerable sum of money was transferred to the savings account of the Atlas Loan in Ames & Co.'s office, and Mr. Ames stated that these were not real sales, and that the entries by which they were recorded as real sales must have been made under instructions from Mr. A. E. Wallace.

The quarterly statement of the Atlas Loan for the quarter ending Sept. 1902, prepared by Ames & Company, was shown a sale of 1,100 shares of Twin City on August 20.

By these three transfers there was put to the credit of the Atlas Loan savings deposit the sum of \$203,832,35.

"How many shares of Twin City were involved in these transfers?"

There were, none. Mr. Willace seems to have given instructions to have the accounts made out as if there were transactions."

were involved in these transfers?"

"There were none. Mr. Wallace seems to have given instructions to have the accounts made out as if there were transactions."

Mr. Hunter asked Mr. Ames to read paragraph 9 of the partnership articles of A. E. Ames & Company. In this it was agreed that in all matters of policy, in purchasing and in realizing the partners should consult, but that the decision of Mr. Ames should be final and was to be carried out.

"And at this time Mr. Wallace was your partner?"

"Yes."

Mr. Hunter asked how many shares of Twin City was Mr. Fraser carrying, but Mr. Thomson objected to this, and Mr. Hunter changed his quastion to how many shares were Ames & Co. carrying. Mr. Fhomson again objected, but was overruled by the Master. Mr. Ames replied that he had not the information there, but could procure it.

"In that case," remarked Mr. Hunter, "I would ask for an adjournment of the examination until Thursday, when I hope to have the information. I would like before adjournment, however, to make a statement as to the attack made by Mr. Ames this morning upon the liquidator of the Atlas Loan. I directed an accountant in the employ of the National Trust to prepare the statement whick Mr. Ames objects to. I take the responsibility for this. The liquidator is not at all at fault if there is a fault. I still think that when the two statements are examined they will be found not so far apart."

"In that case," retorted Mr. Ames, "I transfer my remarks to Mr. Hunter, and Lam surprised at the National Trust countenancing it."

The examination was then adjourned till Thursday morning at 11 o'clock.

A REIGN OF TERROR.

Turks Practice Cruelties in Razlog District.

> Sofia, Nov. 4.-The reign of terror continues at Razlog, district of Mace donia, the defenceless population being exposed to the vengeance of the authorities and the Bashi Bazooks. Searches for arms continue to be made on the slightest pretext, and the grossest exactions are made upon inhabit ants of each village who are unable or unwilling to surrender rifles or to pay a ransom. They are subjected to torture often of the most barbarous character, and many purchase rifles from their Mussulman neighbors in order to satisfy the demands of the authorities In some cases the rifles find their way back to their former owners and are sold again and again. exposed to the vengeance of the au-

NIAGARA FALLS STRIKE.

Men May Return to Work-Another Small Riot.

Niagara Falls, Ont., Nov. 3 .- Eight hundred foreign laborers on strike are to-night considering whether to accept a reduced wage and go back to work to-morrow morning, or to en-deavor by forcible means to prevent the continuance of operations by the power development companies. The men are without leaders. There are thirteen prisoners, charged with rioting, in the cells, and among them are those who controlled their fellows and forced a cessation of work all along the river. Two of the most

prominent in yesterday's rioting have escaped to Buffalo. To-morrow the final test will come. The contractors, to whom the strike means a loss of from \$500 to \$1,000 a day in this weather, intend to stand out. The Ontario Power Company plant, which employs the greatest number of men, and the other companies are preparing to-night for a resumption of work. To-morrow all of the strikers will be offered employment under military protection. If some new leader comes forward to keep them together they will probably refuse, and \$1\$ use any violence to prevent others from taking their places. The ground for belief that she strikers will refuse to go to work is that they are convinced that they have a real grievance.

The contractors, while repudiating the suggestion that they have made an agreement, believe that the market price of rough labor is \$1.50 per day, and all of the several firms interested will refuse to pay more. They are willing to pay the extra twenty-five cents to the men who are compelled to work with rubber clothing, but this the laborers appear not to understand. The fear of the fate which befell four men last Tuesday is still on them. Most of them are willing to accept the regular pay, but the men whose wages have been reduced have so far been successful by means of an argument of rocks in preventing the others from returning to work. The laborers are quartered in dilapidated houses adjacent to the works. They form no part of the Italian colony which is a recognized part of this district. A special constable, who made the most important arrest to-day among the strikers, was a naturalized Italian. The strikers are practically unknown to the community except as employees on the power development works. Few of them know to-night that their leaders are either under lock and key at the police station or have run away.

Several hundred strikers gathered at Fallsview, overlooking the works where the trouble began. There were a number of men still at work, and the nen still at work over to their side. With

GET READY FOR THE FIGHT.

There has been an exodus of ministers from Othawa. They have been scattered about the country, and during the next few weeks they will endeavor to size up the political situation. They will then return to the capital and hold a council of war, and if the reports received are favorable to a general election, the writs will be issued at once. If the chances of the Liberal party are considered slim, the evil day may be postponed. That is exactly how things stand at present.

Before the last general election Sir Wilfrid Laurier took no such precaution. He and his colleagues were so sure of success that they did not reconnoitire the country. But a change has come over, Canada, and nobody knows it better than the Prime Minister. The reckless policy of the Government, fits gigantic blunders and its broken pledges have estranged many who formerly supported the Liberal party. The cabinet will endeavor, to stem the adverse tide, but in their weakened condition they can hardly hope to do so. It is, therefore, highly probable that the elections will be held at an early date in order to escape the deluge. The Conservative party will be taken unawares if possible and should put forth every effort to organize their forces with an irresistible thoroughness. With a good leader, a good cause, and a magnificent country to fight for, there is lots to inspire workers to united and prompt efforti

ANNEXATION DEAD. Stratford Beacon.

Some United States journals are gloating over the prospect of Canadiac dissatisfaction with the Alaska boundary award leading to annexation. They need not take such flattering unction to their souls. A man does not fall into the arms of another mon who wins a suit from him by sharp practice, and Canada has just under gone that experience. Dissatisfied though Canadians may be with one Englishman who has gone wrong, they are not in love with a nation which refused to accept a fair tribunal with an umpire and which loaded the onssided tribunal with three active partisans instead of "jurists of repute," as the treaty called for. No, no! Annexation is more distant now than it ever was, and it never was very close

A recent notable event in the annals of the Ancient and Honorah's Artillery Company of Boston water the visit of the Honorable Artillery Company of London, the world's oldest military organization, which came in response to an invitation extended by the Massachusetts company when it crossed the ocean in 1896 and was the guest of the famous London military body.

The Honorable Artillery Company of London was chartered by Henry VIII. in 1537, more than a century before any existing British regiment

During the last hundred years, however, the company has been not-ed for its peaceful proclivities and has won more fame for its prowess with the knile, fork and bottle than on the strenuous field of battle. Their recent visit to Boston closed with a hanguer which cost \$60.000 and they banquet which cost \$60,000, and they kept up their reputation as gour-

The Boston organization has a right to its claim of lineal descent from its London, prototype, for Captain Robert Keayne, who probably suggested its formation and was its first commander, was in the old country a member of the Honorable Artillery Company, as were several of his associates. "I could hardly work; it felt like a big weight hasping on me and got so bad that I had to take medicine. I used Shomach Bitters for a lime, but it did no good so I wrote to Dr. R. V. Pierce for advice, which he gave me immediately. I followed his directions; used two bottles of his medicine and was cured. I had a torpid liver which was troubling me instead of cramps (as I thought), so Dr. Pierce told me. I have pleasure in living now; have gained in weight 15 pounds since then."

Purest of Emclients acc Greatest of Skin Cures.

The Most Wonderful Curative of All Time

For Torturing, Disfiguring Skin Humours

And Purest and Sweetest of Toilet Emollients.

Cuticura Ointment is beyond question the most successful curative for torturing, disfiguring humours of the skin and scalp, including loss of hair, ever scalp, including loss of hair, ever compounded, in proof of which a single anointing preceded by a hot bath with Cuticura Soap, and followed in the severer cases, by a dose of Cuticura Resolvent, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humours, permit rest and sleep, and point to a speedy cure when all other remedies fail. It is especially so in the treatment of infants and children, cleansing, soothing and healing the most distressing of infantile humours, and preserving, purifying and beautifying the skin, scald and hair. Cuticura Ointment possesses, at the same time, the charm of satisfying the simple wants of the toilet, in caring for the skin, scalp, hair, hands and feet, from infancy to age, far more effectually, agreeably and economically than the most expensive of toilet emollients. Its "Instant relief for skin-tortured babies," or "Sanative, antiseptic cleansing," or "One-night treatment of the hands or feet," or "Single treatment of the hair," or "Use after athletics," cycling, golf, tennis, riding, sparring, or any sport, each in connection with the use of Cuticura Soap, is sufficient evidence of this.

For two nights the dances are kept up, after which the novice shows signs that he has become nearly pacified. The last night of the ceremony ends in a general festival, at which all the men, women and children of the tribe are invited. The candidate now appears dressed for the first time in a button blanket and a new headdress and neck ring. He then pays the men for the bites he has inflicted during initiation, the price being a canoe for each bite.

INDIAN SECRET SOCIETY.

Among certain Indians of British Columbia cannibal rites attend the initiation of new members into the influential society Ha-matsa, which rules the affairs of the tribe. The novice is first required to live alone in the woods for three or four months, where he is supposed to be in communication with the cannibal spirit which rules the society. Finally the others begin to lure him back to the village. Songs are sung by all the people as they walk to and fro in the village and up and down the beach.

down the beach.

During this interval the candidate has appeared several times at various points. One of the assembly, half clad, is then sent ahead to act as a decoy or bait for the novice. As soon as the Ha-matsa sees him he rushes up and bites mouthfuls of flesh from his arm. He is then surrounded by the assembly and marched toward the dancing house, the people singing on their way. At this point a female dancer appears and begins to sing Ha-matsa songs, during which she moves toward the dancing house, stepping backward and facing the novice whom she desires to coax inside. Her hands and arms are extended as though she were carrying a body for the candidate to eat, The palms of both hands are turned upward in front of him, and he keeps watching the

teeth.

This performance is repeated four times, the novice selecting a different man on each occasion. He is thought to be out of his senses. In the first dance of the candidate he represents one looking for human flesh. His movements are executed in a squatting position, making wild and violent gestures as he proceeds. He wear a crown of red cedar bark and is he z by a large ring around his neck so that he will not attack and bite more of the people. The female dancer again appears in front of him, dancing as before described. The candidate then returns to his secret quarters, and the people take off their cedar ornaments and throw them into the fire. This is called smoking the wildness out of the new

Tips to the Wrong Persons, Some one in canvassing the tip sub-ject has discovered that we tip the wrong people all the time. Particu-larizing, the discoverer declares that it is the cook, not the waiter, who should receive this material expression of our favor and that it is the en-gineer, not the conductor, who should have the extras for getting us about on time when we travel in haste. Of course this discovery will not result in the searching out of the man behind the man who reaches out his hand for the tip. We shall continue to send our gratuities along on the same old lines, getting a smug contentment over feel ing that we have done our duty-or is it the satisfaction of making the petty display of our cash resources?—and that we can't be expected to chase up the real benefactor, but it adds another complication to the tip question for those who aiready find it too per-

plexing.

Of the many dangers which beset navigators of the tropical rivers of South America perhaps the natives fear the sting ray most. It is poisonous and is to be found in very large numbers when the river is low. That is the time when boatmen have to get in the water to push their canoes over the shallows. They are often stung by the tail of the ray and usually die unless medical assistance is promptly giv-en. The ray cannot be seen, as it is of the same color as the sand on which it eoils itself. The stab of its sharp knife-like tail is the unwary navigator's first intimation of its presence

An Ice Poultice.
In many cases of inflammation an ice poultice is a very useful application. It is made in this way: Spread a layer of linseed meal three-quarters of an inch thick on a piece of cloth and upon the meal, put at intervals lumps of ice about the size of a marble. Sprinkle meal over the ice and cover all with the cloth, turning the edges over. In this way the ice will last much longer than it otherwise would and the poultice will be quite comfortable.

Marvellous Run for Seats for Coming Central School Concert

Plan Sold in One Hour and a Half-All Past Records were Broken-Forced to Repeat

The plant for the Central school oncert on Friday night opened with a repord-breaking rush this morning and the Brisco store was beseiged with patrons anxious to secure seats. In an hour and a half after the plan was opened every seat was sold. This remarkabily quick sale has established a new rebord. The Football Minstirel show, plan, was sold out b fore it went up to the Opera House, fout this is the first time in the history for the House that the plan had been sold out within an hour and a half of the time it was opened. It took three days to sell out the Minstrel

Show, plan.

Principal J. W. Plewes and his clever assistants must indeed feel gradfised at the marked exhibition the public have igiven of their desire to see the splendid concert which thely have been all such arduous labor the reserve.

they nave been at such a ratious labor to prepare.

"The people began coming in about stight o'clock," remarked Roy Brisco, who had charge of the plan, "and they kept coming in. By nine o'clock I had a list of names covering five pages of foolscap and I didn't get a chance to stop even then. It was a new experience for me I can lassure you, but I (think everybody was well pleased."

This is the third school concert given by Principal Plewes in this city and the people have testified as to what they think of Mr. Plewes' ability to give a good concert. They are expecting on eaf the best and they know they won't be disappointied.

The concert will be repeated Monday night owing to scores being unable to scores being unable to scours scales for Friday, and almoudy \$60 worths of tickets have been sold. The House will be filled again. Of that there is little doubt. Manager Fred. Brisco, of the Opera House, is heating the charges at the House, is having the stairway at the mounts, is having the startway at the repar of the Opera Effouse entirely rebuild to-day. The old stainway, while not dangerous, was out of repair and Manager Brisso thought at best to have a new one buildt.

Jennie Mc Kenna, a girl about 16 or 17 years o Renna a girl about he or it years of age, who was employed in the bon-bot department, went to the elevator shaft the fourth fiber and was (it is supposed) tooking down for the elevator, when the hoist descended from the floor above and struck her on the head. As there was no one on the elevator it is supposed that she must herself have started it moving. There is a wooden bar a few inches thick across the opening to the shaft about three and a half feet from the floor. The bar goes up natomatically as the elevator reaches the floor, and the girl was caught with the bar, under the neck, as the elevator came down on her head and shoulders. Some one on the upper floor noticed the working of the elevator and went to the shaft, where he saw the girl held fast, the elevator having been stopped. When extricated from her perilous position Miss McKenna was unconscious. Dr. James Wilson was called and the girl was removed to Victoria Hospital. age, who was employed in the bon-bo

**** DELIGHTFUL DANCE.

A very charming event was given by Miss Helen Atkinson at her splendid home, Wellington St., iast even ing. A large number of her friends were present and everyone spent a most enjoyable and delightful evening. Among the guests were a namber of this season's debutantes, including Misses Gemmill, Edith Holmes, Mary McKeough and Aggie Phillimore. Miss Steele, of Brockville, who s visiting in the city, was also among he many guests.

The dancing commenced about half-past nine and it was thoroughly cu-

FINE CURB

The curb and guitter for Lacroin street is completed as far as the C. P. R. track, as far as the pavement will extend. Geo. W. Martin has charge of the putting down of the ourb and gutter and is an artist at the work. Numbers of those who should know who have seen part of the curb which was not in the right the curb which was not in the right place and had to be from up, say they never before saw anything like it. The stone and the cement seem woven right together and make a splendid curb. Mr. Martin has made a business of making curbs for the lipast 25 years and has some very expensive tools which be uses in the work.

APATHY IN BRITAIN.

Fiscal Fight Wages Unabated, and Many New Speeches Are Made-Cutting Down Wages.

(Canadian Associated Press.) London, Nov. 3.—The apathy of British public men in regard to the Canadian preference to South Africa s astonishing. Several officials of the Colonial Office, when asked by a representative of the Canadian Associated Press to-day for an opinion, replied languidly that they supposed it was a good thing for Canada. When the great significance to the empire of commercial union was suggested the reply would be, "Oh, yes, but we are too busy with the fiscal fight to think of such things." Hon. Mr. Lyt-tleton's private secretary refused to al-low him to be disturbed to express an

opinion.

Sir Charles Dilke, speaking yesterday at Normanton, said in Canada the effect of a preference upon wheat would weaken the Imperial tie by interesting the already rapid rate. which weaken the Imperial the by in-creasing the already rapid rate at which the northwest was being flooded by capital and labor from the United States. The proposal meant the subor-dination of home interests to the indination of home interests to the immediate materials interests of Canada and New Zealand alone, and the supposed, but not real, interest of Anstralia. The interest of the coal and iron trades was not specially concerned by the rapid development of the Canadian coal, and iron fields, which would continue to be protected against Britain. It was not his wish to hinder their development, but British food should not be taxed in order to hasten the already rapid development of the Domigion.

hasten the already rapid development of the Dominion.

A leading emigration and shipping agent in the Midlands, writing to Mr. Chamberlain, said he was inundated with inquiries from agriculturists as to the prospects held out in the colonies in regard to grain farming. The letters are inspired by the fiscal policy. The writer said he had been pressing upon his correspondents the superior claims of Canada.

The failing shipbuilding trade has caused employers on the Tyne, the Wear and the Tees to give notice of a reduction of 5 per cent. in piece rates and a reduction in week time wages. Some 14,000 men are affected.

The Chronicle calls the cry of the Canadian mill owners for more protection against Britain a vivid commentary.

tion against Britain a vivid commentare upon Mr. Chamberlain's ideal tariff. The Dominion manufacturer only asks such a tariff as will protect him against Yorkshire, then he will be sat-isfied.

Mr. Walter Chamberlain, a brother the former Colonial Secretary, of the former Colonial Secretary, speaking at a meeting at Birmingham yesterday to the shareholders of a company of which he is a director, spoke of the terribly unfair competition his brother and other manufacturers were subject to by the dumping of foreign goods in Britain, especially motor goods. tor goods.
The commercial travellers repudiate

Saturday's Holborn meeting in favor of free trade. The Treasurer writes that the vote then only totalled 89, and did not represent the opinion of 6,000 commercial travellers in London.

The Standard asks that Mr. Chamberlain, in his speech to be delivered at Birmingham on Wednesday, endeavor to meet the arguments of his oppon-ents, and not to dispose of them in a

ents, and not to dispose of them in a rhetorical appeal to the emotions of his audience. It says there was nothing in the economic crisis to necessitate his resignation from office, and he should have remained. It fails to see proofs of the empire's peril, unless the preferential system is introduced.

H. Forster, M.P., the second Government whip, said he would be a free trader it possible, but the whole policy of other countries made it absolutely impossible.

His belief is that his machine in rising would have to imitate the start of a large and heavy bird—that is, glide along the surface for some distance with constantly increasing speed until if rose of its own momentum. It may be said that Dr. Bell has been successful, and that he has developed a form of gigantic kite, or flying machine, which has this faculty of starting unaided.

Sketch of Young Leader of Macedonia

Possessed by an hereditary hatred of the Turks, which has been inflamed by the arrest, imprisonment and banishment of his father and grand-father for alleged revolutionary actions, Boris Sarafoff, the young leader of the Macedonian revolutionary movement is a personality of leader of the Macedonian revolutionary movement, is a personality of interest at this time, when the eruption of volcanic matter from the crater of the Balkans is a little more menacing than usual. He was born in the Turkish village of Ljubjechovo, the home of his ancestors for more than 200 years. He succeeded in entering the military academy at Sofia at the age of eighteen, and, passing his examinations with honor, he received a commiswith honor, he received a commis-sion as Licutenant of the 1st Buision as Licutenant of the 1st Bujarian Infantry Regiment at the age of twenty. For three years, until 1895, when the Macedonian question began to attract the attention of the world, he retained his commission. Then he became restless, and resigned, to take part in the Macedonian movement. Gathering about donian movement. Gathering about him a hundred men of his own age, he began to drill them. On July i he crossed the frontier with eighty men on his way to Melnik. He and his followers slaughtered half of the garrison of one hundred men. Making a fiery speech to the inhabitants assembled in the market place, he announced a new movement against Turkey. The entire Christian population accompanied him to the local Greek church to give thanks for his success. Sarafoff and his following were obliged to retreat soon from success. Saraion and his clowing were obliged to retreat soon from Melnik, for a large body of Turkish troops was on its way toward the place. His knowledge of the country enabled him to escape. Saraion try enabled him to escape. Sarafoff continued his raids over the frontier, capturing garrisons, stirring up the people, and escaping before an effective pursuit could be organized. The Turkish Government set a price of 100,000 francs on his head. He organized the Macedonian committee, which is se well known, with many local committees, and an executive headquarters at Sofia. At the age of thirty Sarafoff's ambition is to organize a great rebellion, seize Constantinople, and, after dethroning the Sultan, establish a new Macedonian State, with himself at its head

A Story of President Diaz.

A stery of President Diaz.

An army man who has been in Mexico tells a story of how President Diaz got rid of an objectionable gang and sayed his zon-in-law, who was a member of it. This gang had a regular meeting place, which became so unsavory that Diaz determined to break it up. One afternoon when the crowd was to meet Diaz sent word to the young man by an aid inviting him to dine at the President's country villa, a few miles out of the city. More than this, the President refused to accept any excuses, and, as a matter of fact, an invitation from Diaz is a command not to be lightly disobeyed. The son-in-law attended the dinner, and afterward Diaz asked him to play billiards. Finally the telephone bell rang, and the President was called up. He remained in conversation for some time, and as he hung up the receiver he turned smiling to his son-in-law and said:

"You may return to the city now.

he turned smiling to his son-in-law and said:

"You may return to the city now. I have just been conversing with the chief of police, who informs me that he has made a most successful raid upon that questionable resort which you so often frequent. All your companions have been arrested, and they will start at daybreak for the southern frontier, where they will enter the army and probably die of disease. If you had not been my guest to-night you would have been among them. Good-night. them. Good-night.

Willcocks' Next Great Work.

Willeacks' Next Great Work.

Sir William Willcocks, the wellknown British expert and late director-general of the irrigation works in

Bigypt, now proposes to restore Chaldea to its ancient productiveness and
glory by means of irrigation. The
Tigris River bears much the same relation to Chaldea that the Nile does
to Egypt, and might be made now,
as it undoubtedly was in ancient
times, the great resource of the country. Bagdad lies about 500 miles up. try. Bagdad lies about 500 miles up the Tigris, and from it to the Per-sian Gulf spreads a desolate barren ry, which was one of the mos country, which was one of the most fertile districts in the east. At Opis, on the banks of the Tigris, are the ruins of the great Nahrwan which fertilized an area of 4,600 square miles. The Tigris was gradually diverted from its old bed, the mouth of the canal silted up and the country became a desert. It would require an outlaw of \$40,000,000 to require an outlay of \$40,000,000 to reclaim about 1,250,000 acres of the best of this land, which would, ac-cording to Sir William Willcocks, produce a rental of \$19,200,000.

MRS. W. D. MURPHY.

Her Painting of President McKinley Hangs In the White House, The official portrait of President Me-Kinley which hangs in the White

House is the work of an American woman. Among the portraits of all the presidents thus displayed it is the first to have been executed by a woman, nor is it by any means the least inter-esting or meritorious. The appropria-tion of \$2,500 by congress for a portrait of the late president naturally excited unusual interest among artists. Many well known artistic names were numbered among the contestants. The portrait finally chosen among many after careful artistic consideration was that by Mrs. W. D. Murphy of New York city.

Free medical advice. Men and women suffering from chronic diseases are invited to consult Dr. Pierce, Buffalo, N. Y., by letter, absolutely without fee or charge. For more than thirty years as chief consulting physician to the Invalids' Hotel and Surgical Institute of Entfalo, N. Y., Doctor Pierce has devoted himself to the treatment and cure of chronic forms of disease. Assisted by his staif of nearly a score of physicians, each man a specialist, his success has been phenomenal, ninety-eight persons in every hundred treated being absolutely and altogether cured. Women have especially availed themselves of Dr. Pierce's offer of free consultation by letter, thereby avoiding the unpleasant questionings, the obnoxious examinations, and odious local treatments considered necessary by some Her artistic training and experience were had in New York. In addition to attending the schools she had the advantage of private instructors, among them Professor Lawrence of Munich. She has never returned to Europe since leaving England. The art galleries and exhibitions in New York, she says, have been her chief sources of instruc tion and inspiration. She attends them all regularly, sitting for hours before the canvases to study their secrets. It is of course particularly remarkable that, thus handicapped, Mrs. Murphy's portrait of President McKinley should have been chosen from among the con tributions of many of wider opportu-nity. The portrait was painted from photographs. Not only had Mrs. Murphy no sitting, but she had never seen examinations, and odious local treatments considered necessary by some practitioners. Over half a million women have been treated by Dr. Pierce and his staff for diseases peculiar to women, with unvarying success. Write without fear as without fee. Every letter is treated as strictly private and confidential, and all answers are sent in plain envelopes, bearing no printing upon them. Address Dr. R. V. When \$2,500 was appropriated by congress for the purchase of a portrait of the late president Mrs. Murphy, among others, submitted her work. The judges were selected as the most competent men in the country to judge of the merits of the portraits. The competitors were somewhat taken aback when the announcement was made that the work of a woman had won in spite of the ancient tradition that a woman must always stay in the background of art when in competition with men. When they saw the accepted portrait their doubts were silenced, and they expressed the utmost satisfaction In the selection.-New York Herald.

Bables Have Nerves.

When the tired mother finds her nerves strained by excitement or pain the only relief is rest. "Just let me have quiet and peace," she says, "and when I have had a good rest I shall be perfectly well." She is quite right in her treatment of herself, but why does the not accord the same treatment to her treatment or herself, but why does she not accord the same treatment to her little one, who, when worn out by the pain of its aching gums or from some other cause, it walls over its little sorrows? In the nursery it is considered rank heresy to say, "Let beby cry a little; it will do him good." And so the poor little scrap of humanity is shaken and jogged, shouted at and sung to, made to look at the bright fire or lamplight, and treated in a manner to drive a nerve racked adult to distraction. Of course there is a difference between a grown person and a baby, but nerves are common to both and those of an infant surely demand the greater gentleness. Instead of try-ing to amuse the hapless infant, let him enjoy the luxury of wailing a little. Probably a good cry is as much a relief to him as it is to his overwrought

relief to him as it is to his overwrought mother. To be sure, crying always means something amiss and it is the duty of the mother to discover the cause. If it is the fretful cry of weariness, then the kindest and best course is to let the little tot rest in a quiet place with a subdued light, where it has a chance of getting sleep, that sovereign remedy for so many of the troubles of suffering, nerve racked hutroubles of suffering, nerve racked hu-Revent Changes In Table Manners.

So, too, are croquettes, puddings not too soft, ice cream and the numerous made dishes. A steel knife should never touch fish. The latter should be eaten with a fork, assisted by a bit of bread held in the left hand, unless a silver knife has been provided. Little silver "pushers," to take the place of the bread fork, are now sold for the use of children. It is now well understood in this country that English people eat a boiled egg out of the shell and consider it barbarous to take it out into a cup. If one pre-fers the latter process one must perform it with an egg or tea spoon, never with a knife. Neither should the lat-ter be dipped in the salt and tapped with a fork in such a way as to scatter the condiment over the food. This is thought to be bad form, as is all wholesale preparation of the food on one's plate, such as cutting up all one's meat at once or mixing butter and salt through the entire potato. Salt should be taken on the side of one's plate, and each mouthful should be flavored sepa cately.-Household.

The Healthful Twin Bedstead The increasing popularity of the Enropean twin bedstead in this country is quoted with interest by progressive persons. Doctors point out that a big step in sanitary advance will have been taken when all humanity is sleeping in single beds. The American re turning from traveling abroad misses first of all the individual bed and usually contrives in his special household to replace as fast as possible the double bed with single ones. It is in this way undoubtedly that the practice has spread, together with the example set by good hotels everywhere. The dressing of the bed, too, is much more regarded than heretofore. The fact is widely recognized now that bed covers should be light and airy, yet warm—fleecy blankets rather than quilts and comforters-and, most of all, of a character that permits of frequent cleansing with soap, water and air.

A Casserole.
"Have you a casserole of old French ware?" asks Laura A. Hill in What to Eat. "No? Then hie to a shop where kitchen things are sold and get one, for you do not know half life's joys until those cunning dishes of brown sit on your kitchen shelves. Given a casserole or baking dish of this ware, a chafing dish and a coffeepot in which coffee may be made at table, and the Sunday night supper, the cozy luncheon and even the family dinner with an unex-pected guest become a delight to the housewife even if the cook is away. No one knows just what the secret is, but the old French cooks knew the delights of game, chicken, soups and other tidbits cooked in the old French clay ware, unglazed and porous,"

Soft White Hands. There is just one way to keep your hands soft and white and lovely, and

it is a very simple way. Use only the purest, best soap, like the imported white castile. When bathing the hands rinse them well and dry completely, afterward applying a cosmetic jelly made of thirty grains of gum traga-canth, seven ounces rosewater, an ounce each of alcohol and glycerin. Soak tragacanth in rosewater for three days, strain forcibly through muslin and add the other ingredients. A few drops of oil of rose will give a pleasant aroma. The advantage in using this preparation is that it dries immediately.-Chicago Record-Herald.

The Scrubbing Brush. One college girl I know goes down on her knees every Saturday during her vacations and wields the scrub brush, ostensibly to make the floor clean, but really to give herself the benefit of what she calls "a good sweat bath," writes Ethelwyn Wetherald in Good Housekeeping. For increasing circula-tion, clearing the complexion and giving a robust appetite it is superior to tennis and basket ball. No work can be drudgery unless it is drudged at.

Hash and Morse Radish. Hash is made more appetizing if served with horse radish sauce. The same is true of cold meats and of that humble dish, boiled beef. A thin cream sauce is the foundation, and the horse radish added is the freshly grated kind and not that which has been mix-ed with vinegar. Allow it to cook for about three minutes and serve hot.

Girls and Ball Throwing "Ball throwing I do not advise to any great extent for girls," says Dr. Luther Gulick, physical director of the public schools of New York. "It makes the clavicle prominent and destroys the symmetry of the neck, a fact every girl is likely to regret when she is older and begins to wear evening gowns."

Pillow Covers. If outside covers are an inch smaller each way than the pillows the result will be nice, plump looking pillows, where if the covers and pillows are the same size the effect would be flat and

Mrs. I. W. Warner, Riverdale, N.S., is glad there is such a remedy as

Burdock Blood Bitters.

IT CURED HER AND WILL CURB YOU.

She says: "I wish to add my testimony to the many others who have spoken so highly as to the unfailing virtues of Burdock Blood bitters. I was all run down, had no appetite, lost all ambition, could not sleep much and had terrible headache and backache, and my food did not digest properly. I saw B.B.B. advertised, so concluded to give it a trial, thinking if it did no good it could do no harm. But after using one bottle I began to feel better, and by the time I had used three bottles I was feeling like a new person. I am so glad there is such a remedy provided for suffering humanity, and cannot praise it enough for I think there is as medicine like it on the market." She says: "I wish to add my testi-

The extent to which the letting of moors and forests has become recog-nized as a regular source of income aized as a regular source of income to lord and taird alike in the High-lands, may be judged from the in-rease in the number of deer forests now annually let. Twenty years ago there were 90 recognized forests. A there were 90 recognized forests. A recent report from the Crofter Commission showed 109 of these forests. To-day there are 150. Shootings and forests which let for upwards of £400 or £500 a year may be counted by hundreds. In the two Counties of Argyll and Inverness alone there are a dozen forests whose rentals average £2,500. Here the cost per day will work out at over £40 exclusive will work out at over £40, exclusive of wages of attendants. The ten-dency of price is constantly upward. Captain Heywood Lonsdale will be interested to know that Colgmafearn, the 40,000 acres of which he rented last year for £2,000, was originally let by the Mackintosh of the thirties for £30, with £5 returned as "luckpenny.

penny."
The foregoing is typical of the rise in rents which has resulted from the eager competition for forests and moors. Inversite, when it was good enough te afford a bag of 75 brace to one man and a dog, fetched £50 now it is a four-figure shooting. Mr. Geo. A. Cooper is paying £5,500 for his forest, £4,700 te Sir G. Mucpherson-Grant for his share of Glenieshie, and £800 to The Mackintosh for his portion. M. Achilles Fould has Invermark at £3,850; Mr. William Weir, Achnacarry for £2,000; liam Weir, Achnacarry for £2,000; Lord Burton, Glenquoich for £2,022; Mr. Frank Bibby, Mamore for £2,500. For Invercauld, £5,000 for the 500. For Invercauld, £5,000 for the season is asked. For £3,000 less, Runscht is let. At about £2,000 many moors and forests are now being used. Then, to this must be added cost of traveling, £1 a week for sach of the gillies, £1 a week for ponies; beaters and drivers, of whom there may be 30 or 40, at 4s. a day. Dogs cost from £5 to 20 times that figure; guns from £7 to £70. The game shet may, with luck, be sold for half its cost per head. The deer which has cost £50 to kill, may be sold to a dealer for its earcass for £8. Its head, if a fine one, may realize anything up to £25.—St. James Gazette.

Dr. McKeough alluded to the item in the report which drew attention to a moragage for \$800 which had been solid for \$700. This was the lot at present owned by Glenn Bros. on Queen street. It was originally solid elsewhere for \$800 and a mortgage taken. The interest was paid on the mortgage for some years and then dropped and the Board was gilad to dispose of it to Glienn Bros. for \$700. At first they were only offered \$300 and it was the universal opinion they had made a good sale in obtaining \$700. The Use of Gas Coke for Fuel

A great many people do not know the advantage of using gas coke as fuel in furnaces, ranges, coal stoves, or, in fact, in any apparatus that will use coal as fuel. The following letter will give the experience of one of Chatham's prominent business men, who has made a test of the value of Coke as compared with Coal. This letter will explain itself and will be followed by others of a similar nacure 'from other customers. Coke will be delivered by the Gas Company in any quantity, promptly. Let us have your order for a trial load.

Chatham, Oct., 31, 1800.

The Chatham Gas Company, Limited, City:

Gentlemen,—I have much pleasure in testifying to the advantages of using Gas Coke as a heating fuel. I have used it for the past two seasons in my hot water furnace at the house, and find it very economical, and at the same time easy to regulate.

I may say that last winter I made a test of one ton of coal at \$7.00 per ton and the same money's worth of coke, and found that the \$7 worth of coke lasted fully one-third longer May say that the weather condition were fully as severe, if not more so during the time I used the coke.
