MISTOOK HIM FOR DEER

Editor Parton Shoots Friend, W. A. Clark of Toronto.

Fawn Overcoat Deceived an Experienced Hunter and His Fatal Bullet Ended Man's Life Instantly — The Newspaper Man Feels His Position Koenly, and Mrs. Clark is Prostrated Over Her Bereavement.

Dunthorn, Nov. 4.—W. A. Clark, manager of the Toronto Cream and Butter Co., was accidentally shot Thursday morning about 10 o'clock at Maple Island, a point near Drummond on the Pickering River, Parry Sound district. Mr. Clark was wearing a fawn overcoat and was mistaken for a deer by William Parton, editor of the Milton Champion, a close friend of the dead man.

Both men belonged to the Milton Hunt Club, and were members of a shooting party composed of themselves, C. B. Lewis, Geo. Hewston and J. Peddie of Milton, G. B. Sanders, John Pirie and J. M. Bussell of Trufalgar and C. P. R. Conductor Harshaw of Toronto. Mr. Clark left Toronto on Wednesday, and could hardly have fired a shot before the fatal bullet struck him.

Killed Instantly. He was shot at a distance of fifty yards the bullet passing through the lungs and killing him instantly. The corpse was taken on the first boat to Burke's Falls where it was prepared for burial and taken to Toronto on the midnight express.

Toronto, Nov. 4.—A telegram was received by the Toronto Cream and Butter Co., of which Mr. Clark was manager and the officials notified Mrs. Clark at the family residence, 99 Maitland street. Mrs. Clark is completely prostrated. Some of the members of the club accompanied the body to Toronto. Deceased leaves a wife and seven children, the oldest being 12 years of age and the youngest 7 months.

Mr. Parton, who fired the fatal shot, feels his position keenly. He is an experienced hunter and a good shot and his friends in Toronto are at a loss to understand how he could have mistaken his friend for a deer.

KILLED AT RAILWAY CROSSING. Three Boys Struck by Light Engine and Hurlled 25 Yards.

Montreal, Nov. 4.—A special from Sherbrooke says: A terrible crossing fatality occurred at the C. P. R. crossing in Lennoxville about noon yesterday. Three boys named H. Blain, C. Howse and Shores were driving across the track when they were struck by a light engine and were hurled twenty yards. Blain and Shores were killed almost instantly, and Shores was so badly injured that it is unlikely that he will recover.

Crushed Between Cars. Toronto, Nov. 4.—James Gallagher, a grocer, age 50, who carries on business at 463 East King street, was so badly injured yesterday that he died within twenty minutes after being taken to the General Hospital. Deceased attempted to cross the railroad tracks at the foot of Cherry street. He was caught between the buffers of two cars and fatally crushed. The deceased leaves a wife and family. An inquest will be held.

FALLS DOWN A SHAFT. John McMillan of Cornwall, Ont., Killed at Hurley, Wis.

Cornwall, Nov. 4.—John McMillan, son of the late Donald McMillan of the Island of Manitowish, was accidentally killed at Hurley, Wis., on Saturday. Mr. McMillan fell down the shaft of a mine, where he was employed, a distance of 100 feet, thence down another 80 foot shaft. Death was instantaneous. The remains were taken to the home of his brother, Alexander McMillan, on the old homestead, whence the funeral took place Thursday to the Roman Catholic Church and Cemetery, St. Andrew's. The deceased was 55 years of age, and unmarried. He had been in the west for a number of years.

Burns in Lonely Cabin. Keewatin, Nov. 4.—Harry Burton was burned to death in a lonely cabin on an island eight miles from here Thursday. His companion had come here for supplies, and on returning only the charred bones of Burton remained. The origin of the fire is a mystery.

Skull Crushed. Quebec, Nov. 4.—Napoleon Barbeau, working aboard the steamer Polino, discharging coal at the Basin, fell headfirst from the steamer and the wharf yesterday afternoon, crushing his skull and then dropping into the water. He died shortly after being rescued.

Mangled in Corn Husker. Chatham, Nov. 4.—Frank Black, a young farmer of the Township of Raleigh, while feeding a corn husker Thursday, had the misfortune to get his right hand caught in the machine. As a result all the fingers of his hand were lacerated and had to be afterwards amputated.

Takes Poison by Mistake. Hamilton, Nov. 4.—William Purdy, 187 North McNab street, who has been employed by the Board of Works as a laborer on cement walks, took carbolic acid by mistake last evening and died within ten minutes after. He got up from his supper and walked into the kitchen, which was unlighted, to get a cough mixture. In the dark he got hold of the carbolic acid bottle, but was not long in discovering his mistake. "I'm poisoned," he cried, and in a few minutes he was dead. He was 36 years of age and unmarried.

It makes most people hot to be greeted with an icy stare.

MAPLE CITY EDUCATIONIST TO REPRESENT PUBLIC SCHOOLS

Minister of Education Selects Principal Plewes on Board of Advisors to Ontario Cabinet—Names of Gentlemen Appointed

Toronto, Nov. 3.—The educational council for the ensuing year will be composed as follows: President London, University of Toronto.

Prof. Hutton, Principal of University College. Chancellor Burwash, Victoria University.

Rev. Provost Maclellan, of Trinity, University of Toronto.

J. E. Wetherell, Principal of St. Anthony Collegiate Institute.

Allan Embury, Inspector of Public Schools, Brampton.

Chancellor McKay, of McMaster College.

Prof. A. P. Knight, of Queen's University.

J. V. Plewes, Principal of Public and Model Schools, Chatham.

Rev. Dr. Taylor, of St. Michael's College, Toronto.

The first six are the nominees of the universities, and the last six of the Minister of Education.

Provost Maclellan, Chancellor McKay, Inspector Embury and Principal Plewes are the new members. President London has been chairman of the Council since 1896, and will, no doubt, be again chosen by his colleagues.

This appointment, of course, is simply a continuation of the old order of things. How the Council may be affected by the consulative body which the Government has in view as part of the educational system, no member of the Government can say, as the whole matter is yet under discussion and consideration.

Chatham Man with Knife Attempts Murder and Suicide

Terrible Tragedy at Flint Mich.—James Pritchard Cut Throat of Hazel Pettis and Then Gashed His Own

Flint, Mich., Nov. 3.—Driven to desperation by unrequited affection for pretty Hazel Pettis, the 17-year-old daughter of Mr. and Mrs. Charles E. Pettis, of West Sixth street, Jas. Pritchard this evening attempted to kill the girl by cutting her throat with a jackknife, and then slashed his own throat with the same weapon. The gash in his own throat extended clear across the throat and there are three wounds in the girl's neck, but in each instance the knife failed to reach a vital spot.

Pritchard called at the Pettis home about five o'clock to see the girl and attacked her immediately upon entering the house. Miss Pettis's mother came to her assistance and there was a desperate struggle, which ended in the girl escaping through the back door, followed by her would-be slayer.

Joseph Ellis and Guy Shank were at work in an adjoining yard when their attention was attracted by the screams of the girl and, hastening

to her assistance, they attacked and overpowered Pritchard, who fought desperately to complete his murder-work on his victim and himself before he succumbed.

At the jail he made a statement in which he said that the girl had jilted him and he wasn't so very sorry for what he had done.

Pritchard has been working at a second-hand store where Miss Pettis is employed as bookkeeper, and he became greatly attached to the girl, who persistently discouraged his attentions to her until, it is said, she finally gave him to understand that they must be discontinued.

Miss Pettis is an estimable young lady of a well known and highly respected family in this city.

It is said that Pritchard came here from Chatham, Ont., about six months ago.

The blade of the knife used by the murderous man was about three inches in length and had been sharpened to the keenness of a razor for the desperate deed.

Promotion of a Popular Young Non-Com—Band Matters Before Officers' Meeting

A largely attended meeting of the officers of the 24th Regiment was held last evening, Col. J. B. Rankin presiding.

The appointment of "Pymaster," Sergeant was unanimously tendered to Sgt. S. A. Reid, of B Company, the officers all paying high and well-deserved tribute to the energy and efficiency of the popular young Non-Com.

The Band Committee report was submitted, discussed and adopted, and the officers anticipate shortly making an official announcement in the matter which, it is said, will be of a most pleasing character.

JUNIOR LEAGUE

The Junior League of Victoria Ave. Methodist Church held its initial meeting yesterday, with an attendance of sixty, Mrs. E. Wells, President, in the chair. Rev. F. E. Mallott took the topic, "Gideon," and illustrated it by a blackboard talk, which was much enjoyed, especially by the boys.

They have the honor of being the only society of Christian Endeavor in Chatham who won a certificate, with two gold stars attached, one for Christian Benevolence and the other for Evangelistic and Christian Endeavor, from the International Convention held in Baltimore in July last.

Poison Fed to Horses. Guelph, Nov. 4.—A case of poisoning horses occurred at the farm of John Grieves, fourth line, Bramosa, yesterday, and is being investigated by the authorities. It was the occasion of the annual Bramosa Township plowing match at Mr. Grieves' farm. Amongst them was a fine big team belonging to John Dickson. This team was placed in the stable until the match was called. When Mr. Dickson went to feed them he found both suffering from a malady suggesting poisoning. Upon investigation a quantity of Paris green was found in the grain boxes at the animals' heads, and a portion of it had been taken. It was apparently a deliberate attempt to render Mr. Dickson's horses unfit for the match, and the horses will die and the other has very little chance for recovery.

SENIX AS USUAL

Bannister Blamed for Detroit Blaze with Accompanying Nightgown Parade

A fire at 264 Orleans street Thursday morning, caused considerable excitement among the colored residents of a number of shacks adjacent. The district is known as the "Japanese village." The house was occupied by Ips Mason, "king of the colony," "Dug" Cooper and Senicks Bannister on the second floor, and Mr. and Mrs. Will Spencer and Mr. and Mrs. Joe Bloom on the ground floor.

Bannister is blamed for the fire, as the flames originated in his room. It is thought that he carelessly dropped a lighted match just before leaving the house this morning. A neighbor saw the flames and sent in an alarm. Mrs. Spencer, who was in bed at the time, hustled out in a night dress and was an object of much interest to persons attracted to the fire. Meyer Jacobson is the owner of the house and shacks. Damage was nominal.—Detroit Journal.

The Doctor Arrested.

Boston, Nov. 4.—Dr. Percy D. McLeod, a reputable physician of the Back Bay district, was arrested yesterday on the charge of performing an illegal operation on Susan Geary, the Cambridge chorus girl whose body was found in two suit cases in the waters of Boston harbor.

Nothing For Creditors. Ottawa, Nov. 4.—The assets of Andre Billard of Buckingham, who failed for \$425,000, were sold by the sheriff yesterday morning and realized \$823. Billard was in the lumber business, and tried also to establish a silk manufacturing industry.

British Printers as Strike-Breakers. Quebec, Nov. 4.—Forty-eight British compositors arrived from various parts of England yesterday morning in charge of Charles Brimer, to take the place of printers on strike at Winnipeg, Man.

Yotter's Body Recovered. Southampton, Nov. 4.—The body of John Yotter, sailor, off the lost steamer Kalliyuga, was picked up on the shore, six miles north of here, and brought to Southampton last Thursday night.

Love Tale Said to be the Origin of Local Writer's Charming Song

Associated Press Tells Story of the Solo and Asks if Author Was Justified

The following interesting despatch from Associated Press wires will be of interest to Chathamites who know the popular young author referred to:

Chatham, Nov. 1.—Burns sang of Highland Mary. Dante of his Beatrice, and Petrarch of his Laura, but in the eyes of Chathamites none of these have half the interest possessed by the girl whom Victor Lauriston, song writer and journalist, has veiled under the appellation of the "Fairer Rose in June."

Like Petrarch's Laura, she is a married woman. She was still however, Miss Ada Ripley when Lauriston, then an impressionable boy, first met her years ago. According to the story, which has been amply verified, the two first met when they were still in their teens, and Ada Ripley was only a school-girl. A love affair sprang up, at least as far as young Lauriston was concerned. Whether the girl reciprocated his affection is unknown. "He fairly worshipped her," is the way his own friends put it.

In course of time differences sprang up. It was at a ball some years ago that the two finally parted company. People who were present that night declare that the story of the parting is told in the song is true, even to the last least word. Lauriston had sent her pink roses, but the girl wore yellow ones; and when it was all over he picked up one of the flowers which she had dropped on the floor while dancing. What the difference was no one can say; it is sufficient that it was permanent.

The girl went her way, and in course of time married. She is now living in Michigan. Lauriston took up the study of law, and, soon wearying of it, drifted into journalism. He is now city editor of the Chatham Daily News. That his youthful passion had been cherished through all the intervening years no one dreamed, till the beautiful song published about a month ago, first made its appearance in Chatham. People who knew the story, and they were many, did not wait to ask a second time, "Who is she?"

"Ada Ripley," was the universal and instantaneous answer. Now Chathamites are wondering whether the Journalist was justified. There is much difference of opinion.

Any person desiring good house with all modern conveniences, heated by good furnace, would do well to call on W. E. Rispin, 115 King St., who has two houses to rent in Riverside Terrace. He also has good flat, consisting of four rooms and bath room, heated by steam, and separate rooms suitable for offices, to rent in his office building, at 115 King St.

Bend your mind for a moment toward the THREE great qualifications of footwear:—

STYLE—QUALITY—PRICE

STYLE is no more than tinsel without quality to perpetuate it.

QUALITY is essential, but at any but a fair price it is not economical.

PRICE is a splendid test but must have both style and quality to warrant it.

We have studied these problems for years—they're our daily business and we flatter ourselves that we have accomplished much in each of them. Our styles are new and correct—many of them exclusive with us. Our quality is kept rigidly to the highest standard. Our price is the lowest that can consistently be made.

TORTURING NEURALGIA

SUFFERED FOR TEN YEARS, CURED
BY DR. WILLIAMS' PINK PILLS

Neuralgia is the king of tortures. A
tingling of the tender skin, a
sharp, sudden stab from some angry
nerve, then searing paroxysms of
pain—that's neuralgia. The cause of
the trouble is disordered nerves due
to thin, watery blood. The cure is
Dr. Williams' Pink Pills, which make
new, rich, red blood, and thus soothe
and strengthen the disordered nerves
and cure neuralgia. Among the
thousands who have proven that Dr.
Williams' Pink Pills cure neuralgia is
Mrs. R. C. Johnson, of Simpson's
Corner, N. S. Mrs. Johnson says:
"For upwards of ten years I was a
sufferer from the awful pains of neu-
ralgia. Over-exertion or the least ex-
posure to a cold wave would set me
nearly wild with torture. I doctored
with two physicians, but they did not
cure me. I then tried several adver-
tised medicines, but found no benefit.
The trouble continued at intervals
that made life miserable, until six or
eight months ago, when a relation of
mine brought me a box of Dr. Wil-
liams' Pink Pills and urged me to
try them. I used this box and then
got a half-dozen more, and by the
time I used them all trace of the
trouble had disappeared, and as I
have not since had the slightest at-
tack I feel safe in saying that the
cure is permanent." Mrs. Johnson is
one of the best known ladies in the
section in which she resides, and is a
prominent worker in the Congrega-
tional Church. Naturally her family
and friends are rejoicing over her
cure, and Dr. Williams' Pink Pills
have made many warm friends in
that section as a result of their good
work.

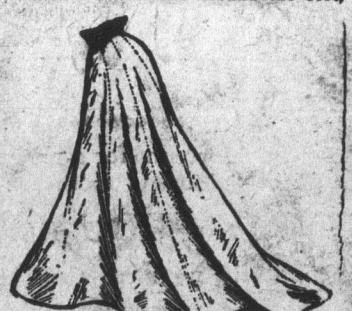

It is because Dr. Williams' Pink
Pills make new, pure, warm blood
that they have such great power to
cure disease. They positively cure
rheumatism, sciatica, neuralgia, St.
Vitus dance, partial paralysis, kidney
and liver troubles, anaemia, and the
ailments from which women alone
suffer. The purchaser must be care-
ful to see that the full name, "Dr.
Williams' Pink Pills for Pale Peo-
ple," is printed on the wrapper
around each box. Sold by all med-
icine dealers or sent by mail at 50
cents a box, or six boxes for \$2.50,
by writing the Dr. Williams Medicine
Co., Brockville, Ont.

High Priced "Copy."
Professor Garner is going back to
Africa to resume his studies in the
monkey languages. It is expensive to
study a monkey language. The cost
to the professor thus far has been
nearly \$1,000 a word, and to the cold,
calculating judgment of the unscien-
tific person the words he has picked up
do not seem to be worth it.

HERE, W. EDWARDS INJURED.

Herb W. Edwards, of Des Moines,
Iowa, got a fall on an icy walk last
winter, spraining his wrist and
knees. "The next day," he says,
they were so sore and stiff I was
afraid I would have to stay in bed,
but I rubbed them well with Cham-
berlain's Pain Balm and after a few
applications all soreness had dis-
appeared. I feel that this bottle of
Pain Balm saved me several days
time, to say nothing of the suffer-
ing. This liniment is for sale by all
druggists.

Hot Buttermilk.
Hot buttermilk will often give relief
to a person suffering from a cough. It
works wonders taken either hot or
cold by persons troubled with indiges-
tion. It will often cure stubborn cases
of constipation, says a person who
claims to have gained ten pounds in
as many weeks while taking a quart
of buttermilk daily.

city:

"Greeted by an overflowing house,
with upwards of two hundred people
turned away unable to gain admis-
sion, the Stoddard Stock Company
presented the 'Senator's Daughter,'
at the Grand last night. The play
was one of the most interesting that
has been given in the city for a long
time, and the interest evinced by the
audience and the appreciation evok-
ed by the interpretation of the vari-
ous characters on the cast bespoke
the satisfaction of those present alike
with the play and the performance.
The company is exceptionally well
balanced, and the various roles were
well sustained. Ed. C. Rowley as
Senator Clay from Kentucky, W. L.
Stewart as Lord Henry Berford of
the British Legation, Edward Fletch-
er as Marquis de la Roquette, a man
of the world, Adelaide Seord as Mrs.
Amelia Higgins, with an eye on the
Senator, and Leah Stoddard, as Lucie
Stetson, the Senator's daughter, how-

performance of The Stoddard Stock
Company is limited to 200, it would

take advantage of this sale to secure
tickets at once. Seats now on sale
at 50c.

CAN WALK AROUND AND DO HIS WORK

Dodd's Kidney Pills Cured W.
J. Dixon's Rheumatism

He was so Bad he had to use a Stick
to Walk and Could not Lace His
Shoe.

Barwick, Ont., Oct. 30.—(Special).—
These cold, wet fall days are full of
Rheumatism and nothing can be more
timely than news of an effectual cure
of that curse of the Canadian clima-
te. Such a cure William John Dixon,
of this place, is certain he has
discovered in Dodd's Kidney Pills.
"I had an attack of typhoid fever,"
says Mr. Dixon, "and after I got
over it Rheumatism set in. I had
pains in my back and in my right
hip so bad I had to use a stick to
walk and had no comfort in sleep-
ing. I could no more than dress or
undress myself for nearly two
months, and for three weeks I could
not lace my right shoe or put my
right leg on my left knee.
"Acting on my brother's advice, I
began to use Dodd's Kidney Pills,
and after taking three boxes I was
able to walk around and do my work.
Now I am well and I recommend
anyone who has Rheumatism to try
Dodd's Kidney Pills."

How do the hundreds read yours—well dressed, therefore careful, has good taste, and is prosperous? Or badly dressed—therefore careless and "not doing well"?

A PLACE FOR EVERYTHING.

And See That There is Something to Put in Every Place.

The convenience and time saving of having little things at hand can scarcely be overestimated. It works exactly on the same principle as the old saying of "a stitch in time."

It's not enough to have a place for everything, and everything—unless you happen to be out of it—in its place. It's the careful planning so that plentiful supplies of all the little things are always on hand that counts so greatly. So often you haven't the right buttons, or you run short of tape, or hooks and eyes, or the color of sewing silk you need, and you have to postpone the moment you'd seized for getting all such things out of the way. In the meantime, before you've remembered to get the little things, perhaps you have to wear the very thing that needed mending, and pins have torn it.

It's the same way with everything. If you have to stop and go out for stamps you probably don't bother to write that important letter until it's at least a little late.

Making things do is almost as bad as using too small a hook to bear the strain of a skirt fastening, or too large a one for the delicate blouse.

The best way to avoid it is to go over, at periodic times, all your supplies, making a note of everything you're almost out of and replenishing it at an early moment.

POTTERY AND PORCELAIN.

How You May Distinguish the One From the Other.

"How shall I know pottery from porcelain?" is a question often asked. They may be distinguished by the following very simple test: If you hold your piece up to the light and can see through it—that is, if it is translucent—it is porcelain. Pottery is opaque and is not so hard and white as porcelain.

The main difference in the manufacture of stoneware, earthenware and porcelain are due to the ingredients used, to the way they are mixed and to the degree of heat to which they are subjected in firing, says N. Hudson Moore in the delineator. Most of the old English wares found in this country are pottery or semiporcelain, although the term "china" is commonly applied to them all.

With reference to a particular ware people often say, "Is it marked?" You may set it down as a rule that all real Wedgwood—that is, "Old Wedgwood"—is marked with his name. It was trial pieces only and such as escaped the workman's notice that left the pottery unmarked. There are peculiarities about this marking, too, which must be noted. The name in small capitals is always clearly and carefully marked, whether impressed or printed in color.

THE HOME DOCTOR.

You can often help a nervous headache by combing the hair gently.

If there are dark circles around the eyes it means ill health and should be immediately looked after.

Flaxseed tea with plenty of lemon juice and loaf sugar is very soothing to sore lungs and will often cure a hard cough.

For tender eyes make an infusion of a handful of cornflowers in a pint of hot water. Let it stand an hour. Strain and use either tepid or cold.

When binding up cuts and wounds always use fine linen not cotton, as the fibers of cotton are flat and apt to irritate a sore place, while those of linen are perfectly rounded.

Cloths wet with alcohol and water or laudanum and water and laid on a hot water bottle will relieve neuralgia when the painful part is steamed over the bottle covered with the cloth.

Brain in the Bath.

If you don't use a bath bag in the daily self tubbing, toss a handful of wheat bran into the water before you take the little plunge. The bran will soften the water and act as an emollient for the skin. Never use alkali soap, because it is an efficacious enemy of grime. It isn't the thing for the bath, since it is an efficacious enemy of the cuticle. Use a soap that isn't harsh. A soap that makes the flesh smart is sure to dry the skin and make it turn unlovely. Use the best soap distinguished with vegetable oils.

Tomato Rabbit.

Tomato rabbit is a change from the ordinary rabbit. If one is fond of the flavor of tomatoes, stew one of them for ten minutes and then add one cupful of finely chopped onion; let this cook for five minutes and then add one cupful of cheese that has been cut into coarse pieces. Let the mixture cook until the cheese softens, then pour over hot slices of buttered toast. This may be cooked in a chafing dish on the table.—New York Post.

Pecan Nuts.

The pecan nut, physicians say, contains more oil than almost any variety. As nourishing food it cannot be surpassed. As an insomnia cure it may be advocated. Often when wakeful and hungry a few of these nuts seem to have a soothing effect. When nibbled occasionally between meals these nuts seem to have a decided fattening tendency.

Ink on Carpets.

Ordinary writing ink may be removed from carpet or colored stuffs as follows: Soak up as much as possible with a blotter, then apply milk with a soft rag, allowing the milk to soak thoroughly into the stain. It will draw out the ink most successfully.

International Bible Lesson for Tomorrow.

Ether pleading for her People.—Esther 4, 10; 5, 3.

Golden Text—"The Lord preserveth all them that love Him."—Ps. 145, 20.

Read the Book of Esther

and you will not find the name of God in it, but the presence of God and His providence is seen all through it. Note the wretched pride, idolatry, lust, drunkenness, ungodliness and tyranny of this king and his court.

On such a dark background how bright and clear Esther and Mordechai stand out. She is his niece and he has brought her up as his own child. King Ahasuerus has selected her from hundreds of other beauties of his empire to succeed Vashti, his disgraced queen, one indecision having caused her dismissal—she could not come when called—and now Esther naturally hesitates to come uncalled. She is not sure of her own hold upon her sensual tyrant, whom she has not seen for the last thirty days. He might just like an excuse to put her away and take another, like Henry the 8th.

A wholesale slaughter of the captive Jews was planned by Haman, the King's favorite and prime minister, a descendant of Agag the Amalike, who heartily hated the Jews—as in Russia to-day—but God's loving care was over His people. God's providence had raised Esther to be Queen, that she might do this work of deliverance, and she proved equal to the occasion, for she took her life in her hands and went forward to conquer or die, that her people might be saved.

God calls us "to count not our lives dear unto us" in fulfilling His word, and work. Fasting and prayer was the proper preparation then, and is now, for saving a doomed people, and there never was a time when such preparation was more needed, especially by religious teachers, than at present; not only for the despised Jew, but for all under the doom of sin.

The golden sceptre is now extended by the grace of God through Jesus Christ to every sinner, that they may draw nigh to our Lord and King. Not only so, but we are invited to come boldly to a throne of Grace; yea, He commands men everywhere to repent; and He who invites and commands is the very one who has laid down His life to deliver us from the hand of our enemies.

Do you long for spiritual deliverance and freedom?

Many Persons Have Catarrh of Kidneys, Or Catarrh of Bladder and Don't Know It.

President Newhof and War Correspondent Richards Were Promptly Cured By Pe-ru-na.

Mr. C. B. Newhof, 10 Delamare street, Albany, N. Y., President Montefiore Club, writes:

"Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. I took Peru-na, hardly daring to believe that I would be helped, but I found to my relief that I soon began to mend. The irritation gradually subsided and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peru-na."—C. B. Newhof.

Suffered From Catarrh of Kidneys, Threatened With Nervous Collapse, Cured By Pe-ru-na.

Mr. F. B. Richards, 909 B Street, N. W., Washington, D. C., War Correspondent, writes: "Exactly six years ago I was ordered to Cuba as staff correspondent of the New York Sun. I was in charge of a Spanish Dispatch boat through the Spanish American War. The effect of the tropical climate and the nervous strain showed plainly on my return to the states. Languid, depression to the verge of melancholia, and incessant kidney trouble made me practically an invalid. This undesirable condition continued, despite the best treatment.

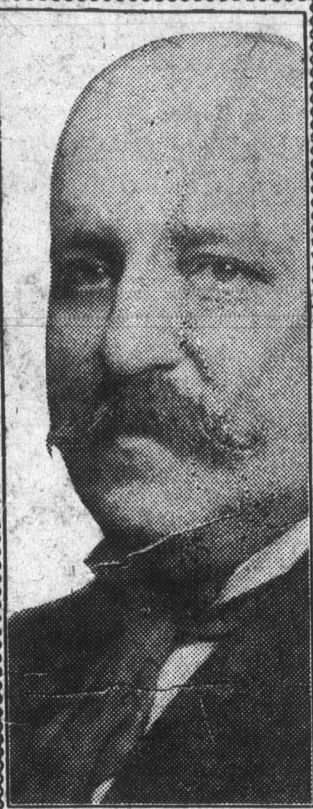

Finally a brother newspaper man, who like myself had served in the war, induced me to give a faithful trial to Peru-na. I did so. In a short time the lassitude left me, my kidneys resumed a healthy condition, and a complete cure was effected. I cannot too strongly recommend Peru-na to those suffering with kidney trouble. To-day I am able to work as hard as at any time in my life, and the examiner for a leading insurance company pronounced me an "A risk."

In Poor Health Over Four Years.

Pe-ru-na Only Remedy of Real Benefit.

Mr. John Nimmo, 215 Lippincott St., Toronto, Can., a prominent merchant of that city and also a member of the Masonic order, writes:

"I have been in poor health generally for over four years. When I caught a cold last winter it settled in the bladder and kidneys, causing serious trouble. I took two greatly advertised

PRES. C. B. NEWHOF, Suffered From Catarrh of Bladder.

kidney remedies without getting the desired results. Peru-na is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

Pe-ru-na Contains No Narcotics. One reason why Peru-na has found permanent use in so many homes is that it contains no narcotics of any kind. Peru-na is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peru-na does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peru-na has been used off and on for twenty years. Such a thing could not be possible if Peru-na contained any drugs of a narcotic nature.

THE FAST TRAINS.

To California are run over the Union Pacific, via Omaha, 16 hours quicker to San Francisco than any other line. No change of roads, no detours, "The Overland Route" all the way. Be sure your ticket reads over the Union Pacific. Inquire of E. F. Carter, T. P. A., 14 James Building, Toronto, Canada, or F. B. Choate, G. A., 126 Woodward avenue, Detroit.

Some years ago, a farmer led, grown restless and tired of tilling the soil and the small returns of farm life, left the comfortable home fireside to seek a quicker fortune in the gold diggings. The most independent man on earth, the farmer, for he makes the earth yield him almost everything needed for life. He knows that as he sows so will he reap. He usually keeps strong and healthy. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Doctor Pierce's Golden Medical Discovery. It is Nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of Nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. B. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago. Some medicines, tonics or compounds, enjoy a large sale for a few years, then disappear but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendation of those who have tried it, prove its lasting merit.

Took the Last Chance.

An old Scotch gravedigger was remonstrated with one day at a funeral for making a serious overcharge for digging a grave.

"Well, ye see, sir," said the old man, in explanation, making a motion with his thumb toward the grave, "him and me had a bit o' a tiff twa or three years syne owre a braw watch I sellt him, an' I've never been able to get the money out o' him yet. 'Now,' says I to myself, 'this is my last chance, an' I'd better tak' it.'"

Was It St. Mark or Lazarus?

As Jesus was being led captive from the garden back of Jerusalem one form followed the guard. It was white as the moonlight and looked like an apparition. When the guard noticed the figure they sought to lay hands upon it, when the figure cast off the cloth around its form and escaped. St. Mark is the only historian who mentions this, and some writers think St. Mark was the figure. Others think it was Lazarus.

Graphic.

The end of a novel, compressed by the editor owing to lack of space: "O'to-tokar took a small trolley, then his hat, his departure, besides no notice of his pursuers, meantime a revolver out of his pocket, and, lastly, his own life."

TAKE MY CURE, WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment, or you may have been one of the unfortunate, who have been treated in vain by inexperienced physicians. Free treatment, free trial samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you, nor will these malades cure themselves. When I offer you a cure, and am willing to risk my professional reputation in curing you, you are such faith and confidence in my continued success in treating these diseases that not a dollar need be paid until you are cured, a firmer proposition cannot be offered to the sick and afflicted. This should convince the skeptical that I mean what I say, and do exactly as I advertise, as I am positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious, skillful and successful services, and my guarantee is simple and true. Not a dollar need be paid until cured. I have 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee of my standing and abilities. It makes no difference who has failed to cure you. It will be to your advantage to write to me for my opinion of your case, which I give you free of charge. I want to hear from patients who have been unable to get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I accept for treatment. I not only cure the condition itself, but likewise all the complications, such as rheumatism, kidney and bladder troubles, blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory to meet the requirements of each individual case. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. I will send a booklet on the subject which contains the 14 diplomas and certificates, entirely free. Address simply:

DEFALCATION \$130,000

But Brown Gives Back \$47,000 in Life Insurance.

\$3,000 Will Also Be Realized From Other Sources, So the Bank of Hamilton Is Secured For a Total of \$50,000—Three Formal Charges Registered—Downfall Due to Reckless Liberality and Speculation.

Hamilton, Nov. 4.—The case of T. Hillhouse Brown, manager of the King street east branch of the Bank of Hamilton, who was arrested Thursday afternoon for embezzlement, was called at the Police Court yesterday morning. He was not brought up from the jail, however. T. H. Crerar represented his interests. Crown Attorney Washington was present on behalf of the Crown and William Lees for the bank. A remand was granted till next Thursday, though Mr. Crerar wanted it for the usual eight days. It is understood that J. W. Nesbitt, K. C., will act for Mr. Brown when he comes up for a preliminary hearing. They consulted with him in jail yesterday morning.

The Formal Charges.

There are three charges against Brown: falsifying the bank book for \$5,100, stealing \$853, forging the inspector's initials on an account as though it had been passed by the inspector.

The defalcation was said yesterday to amount to about \$130,000. The bank is understood to be secured for \$50,000. The accused is said to have defrauded the bank out of this large sum by working it between the general ledger and the savings bank ledger, changing from one account to the other, and fixing it so that the inspector could not detect the wrong without a very searching examination of the books, which is never done unless suspicion rests on a bank man.

The prisoner has turned over his life insurance policies amounting to \$47,000, and some real estate in which he speculated with the bank's money. The bonds under which the ex-manager worked, the insurance and other securities it is estimated that about \$50,000 of the shortage will be covered.

Ill-Advised Liberality.

His friends claim that it was his liberality that was the principal cause of the trouble. He was principal cause of the trouble. He was principal cause of the trouble. He was principal cause of the trouble.

What He Speculated In.

Speculation in stocks, C. P. R. grain and pork is also blamed for the downfall.

O. Hooper, the bank's agent at Milton, has been transferred and has been appointed as manager of the east end branch.

OSGOODE HALL

O'Keefe vs. Smith—C. J. Holman, K. C., for plaintiff, appearing in order of local judge at Chatham, allowing defendant Sarah C. Smith to amend statement of defence. W. E. Middleton, for defendant, contra. Leave given to defendant to file affidavit, and motion enlarged before trial judge. Plaintiff to be at liberty to examine.

PRESENTATIONS

Bandmaster Watson H. Walker was made the happy recipient of a couple of presentations last evening in view of his removal to Kingston.

The Non-Coms. presented him with an address and a gold trimmed briar pipe. O. R. C. Mounter read the address and Col. Sergt. Clements made the presentation.

At a banquet in Jones' cafe the band boys gave him an engraved lock.

CANADIAN EXCELLENCE IN PRINT.

How old-time customs still linger in the face of modern life is indicated in a symposium on "Qua At Habits of Dress in Canada," in Canadian Good Housekeeping for November.

Another article of suggestive interest is "A Canadian Pure Milk Farm," describing an enterprise at Ottawa of which Earl Grey is a patron.

"His Clothes—As Seen by Her," is bright and to the point, and is also an article on Boy-training by Edwin Markham.

There are a number of other articles and stories, and the regular departments, always invaluable to home-makers, are seasonably practical. The number is freely illustrated. Canadian Good Housekeeping is justifying its claim as "The Useful Magazine."

THE VALUE OF CHARCOAL

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, the mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and are in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Quebec, Nov. 4.—Wm. Dodd, about 30 years of age, was injured perhaps fatally, aboard R. M. S. Virginian early yesterday morning. Dodd is a trimmer on the vessel and fell down the hold, a drop of 18 feet.

Beverly Farmer Suicides.

Hamilton, Nov. 4.—The body of Jared Marcy, a well-to-do farmer, was found hanging from a tree in his bush yesterday. He had been discharged from the asylum about three weeks ago and had been missing from his home since Monday.

Paris, Nov. 4.—The Council of Ministers yesterday approved the new treaty of commerce between Russia and France, and submitted it to the Chambers for ratification.

Madrid, Nov. 4.—Senor Leon Y Castillo, the Spanish Ambassador at Paris, has been authorized to negotiate a new treaty of commerce between France and Spain.

Mr. and Mrs. James Couzens, Colborne St., announce the engagement of their daughter, Alice Clift, to Mr. Peter Lund, of the Grow's Nest Pass Lumber Co., Wardner, B. C. The marriage will take place in December.

Miss McDonnell, Queen St., was the hostess at a very pleasant progressive euchre party Thursday afternoon. There were eleven tables, and the prizes were won by Mrs. D. S. Patterson and Miss Mabel Scott. The latter won the lone hand prize.

Miss Queenie Taylor gave a dance to a large number of her young friends last evening. Miss Taylor is leaving shortly for the South, where she will spend the winter. Her dance was a most enjoyable affair. She will be greatly missed in Chatham during the coming social season.

BABY'S AWAKENING

It ought to be a pleasure to look forward to baby's awakening. He should awaken bright, smiling and full of fun, refreshed by sleep and ready for a good time. How many parents dread their child's voice, because they know when he awakes he will cry and fret and keep everyone on the move until he falls asleep again from sheer exhaustion. These crying fits make the life of the inexperienced mother a torment. And yet baby is not crying for the fun of the thing—there is something wrong, though the mother may not see anything all the child. Try Baby's Own Tablets in cases of this kind, and we venture to say baby will wake up happy and smiling—an altogether different child. Here is proof from Mrs. John S. Sutherland, Blenheim, N. S., who says:—"My baby was terribly cross, and often kept me awake half the night before I got Baby's Own Tablets for her. Since I began giving her the Tablets, she is perfectly well, sleeps soundly all night, and wakes up bright and fresh in the morning." Baby's Own Tablets are a safe medicine for children of all ages. They cannot do anything but good. You can get them from your druggist, or by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

BID FAREWELL
Twelve of the young men of the town gathered in the dining room of Hotel Sanika last evening to bid farewell to their friends, Mr. Butler, of the Merchants' Bank staff, and W. Tackaberry, of the Sutherland-Innes Company, who are leaving the city. Both of the young gentlemen, who are popular young Chathamites, were presented with smoking sets. Mr. Butler goes to Chelsey, and Mr. Tackaberry leaves on Tuesday for Fort Wayne, Ind.

Those who composed the party were Messrs. Kingsley Holmes, R. V. Bray, Merkle, Bracken, Tackaberry, Butler, Laing, Melville, Kerr, Sutherland, Hopkirk, J. A. Smith, Kent and Johnson.

PLEASANT SOCIAL

The young ladies of St. Joseph's Church held a very pleasant social in St. Joseph's Hall, Cross St., last evening.

Cards and several other interesting games were furnished, after which a short but well prepared program was rendered and refreshments served. The program was as follows: Inst. Solo—Miss M. Goodman. Inst. Solo—Miss Agnes O'Reilly. Inst. Solo—Miss F. Desjardis. Recitation—Miss G. Prudhomme. Inst. Duett—Misses A. McLean and Miss Nellie Rhody.

At the conclusion of the program Fr. James gave a short address.

Does Your FOOD Digest Well?

When the food is imperfectly digested the full benefit is not derived from it by the body and the purpose of eating is defeated; no matter how good the food or how carefully adapted to the wants of the body it may be. Thus the dyspeptic often becomes thin, weak and debilitated, energy is lacking, brightness, snap and vim are lost, and in their place come dullness, lost appetite, depression and languor. It takes no great knowledge to know when one has indigestion, some of the following symptoms generally exist, viz.: constipation, sour stomach, variable appetite, headache, heartburn, gas in the stomach, etc.

The great point is to cure it, to get back bounding health and vigor.

BURDOCK BLOOD BITTERS

is constantly effecting cures of dyspepsia because it acts in a natural yet effective way upon all the organs involved in the process of digestion, removing all clogging impurities and making easy the work of digestion and assimilation.

Mr. B. G. Harvey, Ameliasburg, Ont., writes:—"I have been troubled with dyspepsia for several years and after using three bottles of Burdock Blood Bitters I was completely cured. I cannot praise B.B.B. enough for what it has done for me. I have not had a sign of dyspepsia since."

Do not accept a substitute for B.B.B. There is nothing "just as good."

How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy.

That is why Ceylon tea is not a strong tea.

That is why I blend Indian and Ceylon teas together—that is how the strength and richness, fragrance and delicacy of Red Rose Tea are secured—that is why Red Rose Tea has that "rich fruity flavor."

THE T. H. TAYLOR CO'Y

LONG ago we realized that the baking and roasting qualities of the oven of a range are of greatest importance to the range user. We brought our knowledge, gained by years of experience, to bear on this one point. The result was the Imperial Oxford Diffusive Oven. With this exclusive feature, the Imperial Oxford stands to-day the most perfect baking and roasting range on the market.

After getting this most important feature of a range to such a point of perfection we naturally did not neglect any other improvement which could add to the working of the range. These improvements were incorporated in the

Imperial Oxford Range

because they added to the life of the range, simplified its operation or economized fuel.

Of these improvements the draw-out oven rack is one which will instantly appeal to the cook. The handle of this rack is outside the range—always cool enough to hold with the bare hand. By pulling this handle forward anything roasting in the oven may be drawn out onto the oven shelf to be basted, without touching the hot pan or reaching into the oven. The same applies to the testing of bread, cake or pies.

We would like you to see the Imperial Oxford Range. If your dealer doesn't handle it, write us for illustrated literature and the address of the nearest dealer who does.

NOW IS THE TIME TO ADVERTISE

CLAIMANTS TO DIVINITY.

Attempts to Impose Upon the Fanatic and Credulous.

There have been many attempts made in the history of the world by claimants to divinity to impose upon the fanatical and credulous. Perhaps the movement of this kind which attracted the greatest attention was that initiated by Joanna Southcott at the latter end of the eighteenth century. This extraordinary woman was a domestic servant in the early part of her career; but, becoming probably the victim of religious mania, she announced herself as a prophetess, and very soon, by dint of her extraordinary claims and writings, she obtained no fewer than 100,000 followers.

Joanna announced in all seriousness that she was about to become the mother of the divine Shiloh and named Oct. 19, 1814, as the date upon which the event would take place. As showing the perfect faith her followers had in her claims, it may be mentioned that they subscribed for and bought a silver cradle which cost \$1,000 and that \$500 was spent in paper spoons. As the date approached she shut herself up in a house specially bought for the interesting event, and the fever of excitement which reigned may be better imagined than described, for Joanna was over sixty years of age. Instead, however, of the divine child appearing the venerable prophetess herself died on the 25th of October, or ten days after the date she had herself fixed for the birth of the Messiah.

But Joanna is by no means the only example of a human being arrogating divine powers to himself or herself.

When George III. was king one Richard Brothers, a master's mate in the royal navy, suddenly announced that he was "prince of Hebrews and ruler of the world," and that therefore King George should give up the crown in his favor. His claim met with scant courtesy. He was promptly imprisoned as a criminal lunatic—though he could not have been made deranged than the poor old king—and kept in captivity eleven years.

The navy seems to have been a happy hunting ground for this class of impostor at this period, for the next to appear was "Zion" Ward, an ex-shoemaker, who had served in the navy. In 1828 he had the impudence to announce himself as the divine Shiloh, who had been expected by Joanna Southcott. People were credulous then, as they are now, and "Zion" got quite a respectable following and died a wealthy man some years after.—London Answers.

FAILURES IN CANADA.

Business Difficulties More Numerous, But Liabilities Smaller.

Insolvency returns in Canada for the first nine months of the current year as compiled by Dun & Co. show the smallest total liabilities of any recent years, with the single exception of 1903, although the number of failures is slightly larger than in either of the three years immediately preceding. Compared with last year there were 959 defaults for \$7,102,948, against 916 failures for \$8,988,140. Of these aggregates there were 208 manufacturing failures for \$2,269,992, against 225 for \$3,644,261; 739 trading failures with liabilities of \$4,781,320, compared with 665 last year, when the amount involved reached \$5,060,986; and 12 other commercial failures for \$54,183, against 20 for \$283,893. Four banking disasters occurred, with liabilities of \$420,000, but last year was also satisfactory in this respect; two suspensions involving only \$30,749. There is no evidence of unsound conditions in Canada, the various provinces reporting about the usual proportion of failures, and no more.

The Ideal Diet.

Do the real needs of the body demand such quantities of food each day as the ordinary dietary standards call for or a man from his acquired habits has become accustomed to? A slight excess of food beyond the true physiological requirement is no doubt desirable as tending to prevent any danger of undernutrition, but any great excess must of necessity be detrimental. The ideal diet is that which suffices to meet all the wants of the body—i. e., the maintenance of body weight, nitrogen equilibrium, health, strength, vigor and endurance—and in the period of adolescence to supply material for the growth and development of the tissues of the body. Anything beyond this quantity is just so much of an excess which must inevitably do harm if continued indefinitely and detract in some measure at least from that high degree of efficiency which every enlightened man desires to attain.

Curious Burial Whims.

The glass coffin in which Tamagno, the great singer, was buried the other day was not the first which has inclosed a curious character. There was a miserly Sir Thomas Bancroft, who in old London days heaped up great riches. Even when his time came to die he could not bring himself to give his property away, and so he left his estate to be improved until he should rise again, which he expected shortly to do. He had a window built in his coffin, movable from the interior, and windows and a glazed door to his tomb, and convenient intervals between these should be opened and himself inspected by the trustees. But the latter had had enough of the gentleman. They built almshouses with his estate.

SMALLPOX IN CHANDOS.

Smallpox has been reported in the Township of Chandos, where 30 cases of the disease have been discovered and are now under treatment. In two sections in the township there is a case of smallpox in every family.

A large quantity of cheese in one of the dairies in Chandos has been found to be infected, and will have to be destroyed. Quarantine officials, with rifles, have been placed on every traveled road. The situation is an alarming one and the energies of the Provincial Health authorities are being directed towards the elimination of the disease.

When people trade their troubles somebody is sure to get stuck.

A HELPLESS CHILD.

A weak and puny child is badly handicapped in the battle of life. It is isolated from the healthy enjoyments of its little fellow-beings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness. Any woman who expects to become a mother ought to know what Dr. Pierce's Favorite Prescription will do both for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

They now become sole occupants of their own immense building. When completed, it is believed, they will possess the largest piano warehouses in Canada, with a capacity for one thousand pianos constantly on exhibition.

KISHINEFF IN FLAMES

Plot to Massacre St. Petersburg Jews Discovered.

Death List Reaches a Thousand, and 10,000 in Fifty Leading Provincial Towns in Russia in the Last 24 Hours and is Still Mounting—Guerilla Warfare in the Caucasus—Terror in Odessa.

London, Nov. 4.—All reports received here go to confirm the continued seriousness of the situation throughout Russia, especially the anti-Jewish excesses. The Daily Mail's Odessa correspondent gives an unconfirmed report that Kishineff has been absolutely destroyed by fire, with its three suburbs, Persesky, Zastava and Moldavanka. The Kieff correspondent of the same paper says that the British Consulate has been riddled with bullets. The British Consul was stopped by soldiers with leveled rifles.

Given Over to Murder. The Kieff correspondent of Reuters Telegram Co., under the date of Nov. 3, says: The Jewish quarter has been given over to plunder, rapine and murder ever since the Emperor announced the granting of a constitution. Thousands of families have been ruined, and the theatre of anatomy is filled with corpses.

Many corporations have wired Count Witte begging for protection, and he ordered that vigorous measures be taken but without effect. Yesterday the town was quiet and it is hoped that the reign of terror has ended, but the Jews still fear to return to their homes. Relief committees are being formed.

Plot to Massacre Jews.

A despatch to The Daily Mail from St. Petersburg, timed 9 a. m. yesterday reports the discovery of a plot to massacre the Jews of that city. It is semi-officially calculated, says the correspondent, that at least 1,000 persons have been killed and 10,000 in the fifty leading provincial towns of Russia in the last 24 hours, and the death roll is still mounting.

Guerrilla warfare is going on in the Caucasus, says the correspondent, and trains are held up at the stations, attacked and rifled. It is impossible to move troops into the mountain fastnesses, and many passengers are suffering from \$5,000 to \$50,000 ransom to their captors.

Quiet at St. Petersburg. St. Petersburg, Nov. 4.—All is quiet here. There is no attempt at holding processions, and the Cossack patrols are everywhere. Shops have been barricaded and railway communication with the frontier has not yet been restored. The newspapers will appear today, and the electric light plant has again been put in operation.

Russ Warships Sail. Reval, Russia, Nov. 4.—Warships have sailed from here for Helmsingfors.

Mob Pillages Shops.

Odessa, Nov. 4.—On yesterday the four-day rioting in the city population is practically under a state of siege. Even the markets and restaurants are closed and it is impossible to get bread or meat. The mob yesterday pillaged a number of Jewish shops in the main street. The rioters also burned three factories and killed a physician and two assistants who were dressing wounds.

Last evening the rioters pillaged the biggest drygoods store in the city. The loss in this case is estimated at \$175,000. A hardware store was looted, involving a loss of \$100,000. In addition twelve fur stores were sacked.

Ten Students Killed.

Moscow, Nov. 4.—A procession of students, returning yesterday from some of their comrades who had been released from prison, was set upon by a mob of workmen at the Triumphal Arch. Ten of the students were killed.

Relieved of His Post.

St. Petersburg, Nov. 4.—The Grand Duke, Alexander Michaelovitch, brother-in-law of Emperor Nicholas, has been released of the post of head of the Department of Mercantile Marine. The Department of Mercantile Marine is to be merged with the new Ministry of Commerce, which probably accounts for the Grand Duke's retirement.

Governor Flees.

Kozloff, Russia, Nov. 4.—The Vice-Governor of Kozloff has fled from the city. The citizens are preserving order. Great manifestations occurred here Thursday, the crowds demanding the release of the political prisoners.

Fraternize With Soldiers.

Warsaw, Nov. 4.—A remarkable feature of the demonstrations here was the fraternizing of the people with the soldiers. The latter were carried about on the shoulders of the crowd and were furnished with champagne and cigarettes. All classes of the people participated in the demonstration. The greatest rage is felt against the Cossacks, in whose unprovoked attacks on the crowd before the City Hall many persons were killed or wounded.

The authorities have released 350 political offenders, who were imprisoned in the Citadel. A regiment of Dragoons has arrived here to reinforce the garrison.

Massacre Continues.

Kieff, Russia, Nov. 4.—The retirement of Gen. Kleigels, the Governor-General of Kieff, who was removed Wednesday, and has been succeeded by Gen. Soukhomlinoff, has not served to restore order. The whole city is in a ferment. A report that the Jews had destroyed a Christian monastery was circulated among the mob and served to provoke a renewal of the attacks on the Jews. The massacre continues. Gen. Kleigels, the military commander, called out the Cossacks, who were met with bombs, whereupon they fired into the crowd, killing twelve persons and wounding forty-four.

All the stores and Jewish market have been plundered and destroyed.

Scene of Desolation.

Rostoff-on-Don, Nov. 4.—This city presents a scene of desolation, but the rioters are exhausted by Thursday night's excesses and the rioting was not resumed yesterday. In the Jewish quarter only smoking ruins remain. In other sections stores are still burning. The Jews are seeking refuge where they can. The mob outrages continued all night. Shots were constantly heard.

DEATH OF GEN. PIPON.

Father of C. A. Pipon of Toronto Dies in Isle of Jersey.

Toronto, Nov. 4.—A cable message was received yesterday by C. A. Pipon of this city announcing the death at St. Heber's, Isle of Jersey, of his father, Gen. Philip Gosset Pipon, C. B. Col., commandant of the Royal Artillery.

Gen. Pipon was born in 1824, was educated at the R. M. A., Woolwich, and entered the R. A. as second lieutenant in 1842. He saw no active service until the Crimean war of 1854-56, when he was promoted to major. He was again in the Crimea, being chief commissary of the siege of Sebastopol. For his services, he received the English medal with three clasps, the Turkish and Sardinian medals, and the fifth class of the Order of the Medaille. He came to Canada in the autumn of 1863 and commanded the R. A. in Montreal from that time until the spring of 1888. During that period occurred here the Fenian troubles of 1866, when Gen. Pipon was again in the field. For that service the deceased received the Canadian General Service medal. Besides those services enumerated, Gen. Pipon served in Ceylon and India, being created C. B. in 1875.

What Sulphur Does

FOR THE HUMAN BODY IN HEALTH AND DISEASE.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall. It was the usual spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single modest, effective dose is all that is needed. It is the most effective of the sulphur preparations.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide). It is a powerful, effective, and the name of Stuart's Calcium Wafers. They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated, effective form. They are the best and most widely used of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the ordinary flowers of sulphur were often worse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafers are undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles, and especially in all forms of skin disease as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers" will find in Stuart's Calcium Wafers a far safer, more palatable and effective preparation.

Most of us have enough trouble without looking for more.

DR. MAY'S SUSPENSION.

Charge is That He Accepted Fees From Publishers.

Toronto, Nov. 4.—Accepting tolls for the promotion of the sales of certain books to the town libraries of Ontario is the charge which Dr. S. P. May, inspector of public libraries, is under suspension for by the Ontario Government. The suspension is only temporary, prior to a trial of the case by Hon. Dr. Frye, the Minister of Education, which will be held shortly.

The amount involved in the case is considerable, some stating that it reaches over \$10,000. The salary connected with the position which he occupied for thirty years is \$1,700 per annum. He has acted in several other capacities for Canada at different exhibitions, among them the World's Fair at Chicago in 1893. While he was acting as secretary for the Dominion of Canada at the Paris Exposition in 1878 he was decorated with the order of the Legion of Honor and that of the Palm Leaves, constituting him an officer of the French Academy.

The charges made are the outcome of an investigation made by T. W. H. Leavitt, who is mentioned as the likely successor. Mr. Leavitt refused to state the result of his efforts, but in reply to a question acknowledged that \$700 a year for a number of years past would be a fair estimate of the amount secured by Dr. May through his connection with the publishing business.

The Government of Ontario, in return for the Provincial grant to the library boards of towns, has the right to direct to a certain degree what books will be purchased by the boards. The lists of these books were sent out by Dr. May as the inspector of public libraries. It is stated that the lists sent out contained the names of books which should not have been there and that Dr. May was given money for placing them on the list. The Government, however, could not direct the boards to purchase them at any particular publishing house. Yet the benefit to a publishing house, which had the sole agency for a certain book was obvious. This was recognized and the Inspector approached on different occasions to place books on the list to the profit of the publishing house. In return for this he received different sums, according to the sale the book was likely to receive.

LAST TRIBUTES.

All Classes Pay Respect to the Late Christopher Robinson, K.C.

Toronto, Nov. 4.—All classes and professions paid final tribute of respect to Christopher Robinson, K.C., yesterday afternoon, from the home on Richmond street to the vault in St. James' Cemetery. At Beverley House, in the morning, members of the bench and the bar, and citizens in all grades of life called to take a last fond look of the dead counselor, who had so often fought the people's battles and had earned their respect.

The remains lay in state from 10 to 1 o'clock. The mahogany casket rested on a bier of purple velvet. Two large lighted candles stood on either side and a silver cross at the head was almost hidden in a bank of white flowers, which included a beautiful wreath of white roses from the Chatham Gun Club.

The cortege moved from the house shortly before 3 o'clock, the remains being in a mahogany casket. Following the hearse were members of the bar and many students of Trinity College, walking.

At St. James Cathedral, Bishop DuMoulin of Hamilton, Canon Welch and Canon Cayley conducted the services which was a most impressive one, to probably the most distinguished gathering that ever assembled in a Toronto church at a funeral.

The funeral procession on leaving the cathedral wended its way to St. James' Cemetery, where the casket was placed in the mortuary.

The city council passed a suitable memorial resolution to the city's dead counsel since 1868.

Mr. Aylesworth's Second Speech.

Aylesworth, Nov. 4.—Hon. A. B. Aylesworth, in his second speech to the electors of North York, dealt with the autonomy bill. He characterized the criticism of Toronto newspapers as most unfair and misrepresenting, and declared that the Northwest got only what they had already made for themselves, and what was given Canada in 1867 for the protection of the Protestant minority in Quebec. Likewise, Sir Wilfrid had upheld Provincial Rights in 1896, when he protected Manitoba in her right to make her own educational laws.

Hendrie Contract Withdrawn. Toronto, Nov. 4.—The desire of the Hon. J. S. Hendrie that the Hamilton Bridge Co., of which he is president, be permitted to withdraw its tenders for certain public works in Northern Ontario, has been granted by Hon. Dr. Reaume. It appeared that the tender was made without Mr. Hendrie's knowledge, and was made in contravention to the statute enacting that no member of the Legislature may be interested in a monetary way with any public work.

Dan. Gallery's Expenses. Montreal, Nov. 4.—Seven thousand dollars was given by Ald. Gallery yesterday as the amount spent by him in his election. Of this he said \$5,000 was raised by various subscriptions, and \$1,000 put up by himself. He expended \$5,700, and his agent, M. J. Walsh, \$300, but he could not account for the spending of the \$1,000 which he personally subscribed.

Raised Two to Tens.

Kingston, Nov. 4.—Alfonso Garland, a bearded Italian, aged about 35, was arrested last night at the Allan Line mail steamer Bavarian, which left port at 7 o'clock last evening for Liverpool, ran ashore at Wyerock, just off Grosse Ile quarantine. It is said that she has received some damage. Assistance will be sent immediately.

Quebec, Nov. 4.—Word was received at a late hour last night that the Allan Line mail steamer Bavarian, which left port at 7 o'clock last evening for Liverpool, ran ashore at Wyerock, just off Grosse Ile quarantine. THE LLOYD CASE.

It Is Not British Justice to Deny Prisoner Trial.

Belleville, Nov. 4.—The grand jury at the present Assizes, before whom the Crown Prosecutor refused to lay the following reference to the matter when they brought in their presentment yesterday:

"We were instructed by your lordship that the Crown would bring before us for consideration an indictment against one Adam Lloyd, charged with the murder of his wife. No such bill has been offered before us, although we found the prisoner in jail ready for his trial, and from your lordship's charge to us we inferred that the Crown was ready to proceed. We cannot, therefore, understand why the case was not presented to us, and it does not appear to us to be in accordance with British principles of fairness that the prisoner should be denied his trial and kept in jail, whether guilty or not, and that the public interests should be left unsatisfied in such an important matter. We do not know where the blame lies, but we feel it our duty to bring the matter to the attention of the court."

Chief Justice Meredith made no reference to this grand jury's remarks about the Lloyd case.

HONORS FOR KENT'S YOUNG ESSAYISTS

MINISTER PRAISES PLANET JUNIORS
County Competition Awards to Talented Young Writers
—Admirable Addresses by Chairman McKeough,
Mr. Bowyer and Hon. Dr. Pyne

It may be said that the Planet Junior School essays—and I had the privilege of reading and examining a number of them—that I was delighted, in fact amazed, at their excellence. I was proud of the young essayists and congratulate The Planet on the excellence and success of its project.

So spoke Hon. Dr. Pyne, Ontario Minister of Education, in awarding the gold medal to Jean McKeough, of S. S. No. 4, Harwich, on the occasion of his memorable and delightful visit to Chatham.

Mr. Chairman, Ladies and Gentlemen, Girls and Boys: I am under the impression that The Planet Junior is the first newspaper in Canada to have won a gold medal to the school who could write the best essay on "Our School." I think The Planet Junior showed considerable originality and great enterprise in offering the medal, and much wisdom in selecting the subject. Every one of our young writers has shown a keen interest in the subject and a keen desire to write for the prize on account of the value of being able to express our thoughts intelligently in writing, and no one knows this better than the newsboys who have been the most successful in the public in the quickest, most concise and pleasing manner possible.

Our great Home Journal, The Planet—whose editors are noted for their skill in pen pictures and for possessing gifts of clear and graceful expression—has been the most successful in stimulating the desire in the boys and girls of Kent to improve their talents in composition. The teachers of Kent are to be commended for encouraging their pupils to enter the competition, for the best essay on "Our School," and the boys and girls who secured the prize—while their teachers secured the gold medal—deserve commendation for their success in entering the race to secure the medal. The Hon. Minister of Education shows by his presence here to-day that he is in entire accord with this essay competition, and he has expressed the efforts and the success of the boys and girls of Kent in the most fitting and encouraging manner.

I am sure the parents of Kent are very grateful to The Planet Junior and to the teachers of Kent for the great interest they exhibit in the education of our children. I never felt that I was missing the planet.

HON. ROBERT ALLEN PYNE, M. D., L. L. D., M. P. P.
Minister of Education who Presented The Planet Junior Gold Medal to Jean McKeough of Harwich.

All honor then to the whole army of teachers who have been so successful in educating our boys and girls. We must also very kindly recognize the difficult and noble task of parents who have been so successful in educating our boys and girls.
