Speech From the Throne Will Outline Redistribution of Seats in Legislature

MINORITY SHOULD BE GIVEN REPRESENTATION AT OTTAWA UNDER REDISTRIBUTION PLANS

Issue Raised by South York Member During Discussion of Government Bill — Premier Believes Time Not Ripe for Proportional Representation—P. E. I.'s Fate Undecided.

OTTAWA, Feb. 17.—(Special.)—In the house today the prime minister moved the second reading of the redistribution bill, but after some discussion adjourned the debate until Thursday. This was due to the request of Sir Wilfrid Laurier that the membership of the select committee to which the bill is to be referred, be increased from seven to nine.

Sir Wilfrid also, discussed at some length the general principles which should govern the committee in making the new parliamentary map for Canada, agreeing in the main with the observations of Mr. Borden, delivered upon his first reading of the bill. He criticized the course of the government in referring to a committee the question of Prince Edward Island's representation. The constitution, he said, was mandatory and left no discretion to parliament.

Mr. Turgon, the Liberal member for Gloucester, N.B., thought all the maritime provinces should cheerfully comply with the provisions of the B. N. A. Act and ensure the premier for keeping alive a useless agitation.

Labor Not Represented.

W. F. Macdonald (South York) pleaded for representation of thought, adequate representation for minorities and the opportunity for the laboring men and other large classes to have their own representatives in parliament. He thought it was time for something to be done toward establishing the principle of proportional representation, and his views were supported to some extent by Hon. Geo. F. Graham and E. M. Macdonald.

Mr. Borden said, in reply, that proportional representation had many distinguished advocates, including Earl Grey. No doubt, in time it should be tried, but the government would not attempt to apply the principle to the present redistribution bill.

In Committee's Hands.

Mr. Borden spoke briefly in moving the second reading. Referring to the question that the representation of Prince Edward Island and other provinces must be determined in accordance with the census of 1911, if the government wished to give any relief to the Maritime Provinces, it would be necessary to have an address to the imperial parliament.

(Continued on Page 7, Column 7.)

China Great Flour Market

OTTAWA, Feb. 17.—Hon. George E. Foster today put thru a number of estimates for the trade and commerce department. He spoke of trade prospects in China and Japan. During the past year he said there had been a marked increase in Canada's export of flour to China. With the rapid development of the Chinese Empire, the demand for wheat flour would undoubtedly increase and he knew of no market so well worth watching.

PARTIAL RECOUNT CHANGES ONLY TWO VOTES

Temperance Party in Welland Gained Only Two Votes—Result at Bridgeburg Poll Apparently Vindicates D.R. O. Coulthurst — Technical Objections Overruled.

WELLAND, Feb. 17.—The recount of the ballots cast in the recent C. T. A. vote in the polling subdivision at Bridgeburg at which Mr. Coulthurst was deputy returning officer, has resulted in an apparent vindication of the official against whom charges were preferred, and who is now on bail, facing trial.

The only change made in the count at this polling place is that the vote against the Canada Temperance Act is now shown as sixty-two instead of sixty-three, and the number for the act becomes 13 instead of 12.

The other nine boxes counted today, failed to alter the majority one way or the other.

It is not yet known just what action will ensue at Coulthurst's trial, which takes place tomorrow, tho it is generally thought that a dismissal will be recorded, as the last figures are verified by the recount.

The scrutiny of the ballots opened before Judge Livingstone this morning. The opponents of the act were represented by Jas. Haverson, K.C., and J.B. McKenzie, of Toronto, and L.B. Spencer and G.H. Pettit, of Welland. Counsel for the temperance people were W. E. Raney, K.C., of Toronto, and J. K. Gross of Welland.

Mr. McKenzie, for the anti-act, argued that the application for the scrutiny was not accompanied by sufficient guarantee for costs in case the opponents of the act won out. He contended that the omission of several deputy returning officers to place their statements in their ballot boxes had the effect of making the official count no summing up, and consequently there could be no scrutiny.

The judge overruled him, and proceeded with the scrutiny.

Mr. Raney wanted a count made of unused ballots along with those used, and it is said one box has been doctored. If his ballot box is regular on the face of it, his argument will be that he must have secured the ballots from some other source and we can ascertain that by the process of exclusion," said Mr. Raney. His honor declined to count all the unused ballots.

SPEECH FROM THRONE WILL DEAL WITH REDISTRIBUTION OF SEATS NECESSITATED BY RECENT CENSUS

Third Session of Ontario's Thirteenth Legislative Assembly Opens Today—Hon. Dr. Pyne, as Senior Minister, Will Escort Sir John Gibson to the Speaker's Chair.

Four New Members Will Be Introduced, Representing North Grey, East York, Peel and East Middlesex—Hon. James Duff to Have a First Row Seat.

The Ontario Legislature sits today. With all the pomp and ceremony of custom and with the flavor of military splendor the lieutenant-governor and attendants will sweep up the driveway of Queen's Park, unwrap a long official scroll and proceed in formal style to declare the third session of the thirteenth assembly convened for legislative business.

Chief item on the program of the first day stands the speech from the throne which will be delivered by Sir John Gibson immediately following his escort to the speaker's chair by Hon. Dr. Pyne. In the absence of Hon. J. Foy, the minister of education will attend to this rite by reason of seniority. A few formal greetings will then occur and the chamber will be emptied until the following afternoon, when opposition orators will begin to whet their oratorical faculties in the debate on the address.

Foreshadowed Redistribution.

Some very important legislation will be outlined in the official address. The matter of redistribution among the Ontario seats will be made the subject of a bill dealing with altered representation in the house rendered necessary by the recent census. The workmen's compensation bill will come down in due course and will probably provide one of the chief sources of debate. The address will make mention of the other large government policy in connection with the road commission and perhaps hint at directions it may take.

Reference to Hydro-Electric.

The work of the Hydro-Electric Commission during the year will be dealt with and its progress given upon. An intimation will be given that the central prison at Toronto will be moved to the new prison farm at Guelph early in the coming autumn and that a large section of the hospital for the insane at Wylby will also be ready for occupation at that time.

The successful harvest of the year upon will be spoken of and also the part which the government has played in

(Continued on Page 14, Column 1.)

Provincial Election Rumored May Take Place in Early Fall

A provincial election in either September or October of this year—this was a persistent and apparently inspired rumor around the corridors of the parliament buildings yesterday.

It is intended, according to the report, to appeal to the electors with Sir James Whitney as leader, altho it is conceded that the premier will hardly be able to take an active part in the campaign even tho he makes most satisfactory progress toward recovery of health.

MONTREAL FLYER LEFT TRACK ENGINEER KILLED, MANY HURT

Train Struck Broken Rail Between Mountain and Inkerman and Coaches Crashed Into Overtuned Engine—Passengers and Trainmen Escaped Death by Narrow Margin.

SMITH'S FALLS, Feb. 17.—Engineer Robert Grant of Montreal was instantly killed, Fireman Ernest Anderson of Smith's Falls sustained a fracture of the leg, and nearly a dozen others were slightly injured in a wreck on the C. P. R. between Mountain and Inkerman, about 1:30 this afternoon. The Montreal-Toronto flyer, running at a speed of 40 miles an hour, struck a broken rail, the engine being derailed and the entire train leaving the track. Engineer Grant was buried beneath the locomotive, and his fireman was hurled some distance into the adjoining ditch.

The escape from death of many of the other passengers and trainmen is considered miraculous, as two of the coaches were badly smashed by coming in contact with the overturned engine. There were, however, not more than 50 passengers on the train and comparatively few in the cars which bore the brunt of the shock.

Engine Overtuned.

The train was a heavy one, consisting of the baggage, mail and express cars, six day coaches, two Pullmans and a diner. Had not the engine overturned, it is probable that no great damage would have occurred. Several of the cars ran past the engine safely, but two of the coaches fouled it and were wrecked. The other cars were not overturned.

The wreck is believed to have been due to the action of frost heaving and breaking a rail.

PROROGATION IS EXPECTED AT EARLY DATE

Parliament May Even End Its Labors Before Easter Unless Unforeseen Sources of Controversy Arise—Request by C. N. R. for Loan Would Lengthen Session.

OTTAWA, Feb. 17.—It would not be surprising if the end of the session came with the end of Lent. The Easter recess will be due to commence on April 8, and unless prorogation is reached by that date the house might sit for another month, or until the middle of May; hence the frank avowal by some members on both sides of the house of their intention to bring about prorogation before Easter.

A ninety-day session of parliament would be something without precedent in recent years, but many circumstances apparently contribute to the shortening of the present session. For one thing, there has been a good deal of illness among the leading men on both sides of the chamber. Hon. William Pugsley, who forced and led the fighting for the Liberals at the last session, was probably not here, and Hon. Frank Cochrane, minister of railways, will leave before the end of this month on a voyage to the Mediterranean. In view of their absence, the intercolonial estimates, which promised to be very contentious, may pass without a great deal of discussion.

Little Real Business.

The redistribution bill may go thru without a great deal of trouble, especially if senatorial increases are not insisted upon. There is little business of first-class importance upon the order paper, and no business not on the order paper has been definitely foreshadowed, except the bill for the relief of the depositors of the Farmers' Bank.

The National Transcontinental scandal may receive a great deal of attention from parliament. The local newspapers in touch with the government declare that no civil or criminal proceedings are to be instituted, and the opposition may be glad to let sleeping dogs lie.

C.N.R. Stumbling Block.

The factor of uncertainty in the whole situation finds expression in the persistent speculation on the subject of the Canadian Northern and the possibility of that corporation seeking some financial aid from the government. Any such legislation would be contentious and would cut a zig-zag line across both sides of the chamber. But, barring the unexpected, all indications point to an extremely short session. The government is not doing a great deal, but the opposition is doing less. The opposition is listless, and some of its members from the west are said to be looking for anything but trouble with the government.

Again, on both sides, there is a feeling that the next session will be the pre-election session, in which the effective work and effective fighting must be done.

NO MORE INSANE WILL BE SENT TO CITY JAIL

Hon. W. J. Hanna Agrees to Join With City in Fitting Burial Home for Detention—Hospital Accommodation in Province Not Half What is Required.

With a view to enlisting government co-operation in speedily ending the detention of insane persons in Toronto jail, Mayor Hooken, the city council and the boards and trustees of the Toronto hospitals waited as a deputation upon Hon. W. J. Hanna last evening. As a result the Burrasid Home section of the old General Hospital on Gerrard street will be fitted as a detention home for such patients.

The institution will be equipped and kept in repair by the city, but its maintenance will be taken charge of by the province. The buildings belong to the Toronto Hospital Trust and its use will be free until it is sold.

Hon. Mr. Hanna stated that the government would gladly co-operate and its patients would be treated as in any provincial institution.

Not Room for Half.

"Our accommodation, if we doubled it, would not be taken care of," he was asked.

"Yes, if we had ideal conditions," he answered.

Controller McCarthy stated that the expenses of certain cases which would go to the detention home, tho not qualified, would be borne by the city, and he urged the leaving of its management to experienced government officials.

J. W. Flavelle said that the use of the building would be only temporary, but it was intended always to maintain a detention home.

ROMA ACCIDENT POINTS TO NEED OF A BEACON

PROVIDENCE, R. I., Feb. 17.—The accident to the Roma will result in efforts being made by ship owners to have the government place a light on No Man's Island, in the opinion of pilots. The nearest light is on Gay-head, eight miles away. While this is a powerful beacon, mariners say that in a thick blizzard like last night's a ship would beach on No Man's Island before her navigator could make out the light.

FLYING DEBRIS STRUCK TRAIN

Dynamite Blast at St. Romuald, Que., Imperiled Passengers in G. T. R. Coaches.

QUEBEC, Feb. 17.—Thru what appears to have been a blunder, several passengers on the incoming G.T.R. express this morning were endangered by a dynamite explosion at St. Romuald. While no fatalities occurred, some of the passengers on the first class car were severely cut about the head and body and sustained nervous shock.

The G.T.R. express, due at Levis at 7 a.m., was two hours late. Construction work on I.C.R. double track is under way near St. Romuald, and a fuse for a dynamite blast was lighted just as the G.T.R. express was nearing St. Romuald. A line man was sent to flag the train, but was too late. The train was stopped and the blast went off. Every window in one side of the first-class car was shattered by flying debris, and passengers were knocked down and cut about the head and body.

CHIEF GATEMAN IS PARALYZED

Guardian of Union Station Passageway Stricken as He Was Reporting for Duty.

James Stibbart, one of the oldest gatemen in point of service in the employ of the Grand Trunk Railway, and chief gateman of the Toronto Union Station, is in a critical condition as the result of a paralytic stroke. The gateman had been seized with a stroke just as he was about to report for duty on Monday and suffered another stroke at his home yesterday. Stibbart has been in the employ of the G. T. P. for more than 40 years and served for years in the capacity of gateman at the old G.T.R. station used previous to the erection of the present union station more than 20 years ago.

MEXICAN BANDIT HELD BY AMERICAN TROOPS

EL PASO, Texas, Feb. 17.—Mabimino Castillo, the Mexican bandit, charged with responsibility for the Currier tunnel disaster in which 50 lost their lives, was captured by the south of Hatchita, New Mexico, today, by American troops.

The information was conveyed today to Gen. Hugh L. Scott, commandant at Fort Bliss, in an official telegram from Capt. White, 9th U. S. Cavalry.

Noted English Actor Coming.

Mr. Martin Harvey, the famous English romantic actor, and his own company of London players, will be here next week at the Princess Theatre, presenting "The Breed of the Treasons," "The Only Way" and "A Cigarette Maker's Romance." The advance sale of seats opens tomorrow morning at the Princess.

SETTLEMENT OF PANAMA ISSUE WILL BE HAS TENED IN SENATE

Feeling is Against Waiting for Action on Part of Congress and Hard Fight is Expected — O'Gorman to Lead Forces Favoring Exemption of American Vessels.

WASHINGTON, Feb. 17.—That the senate may not wait for initiative action in the house before taking under serious consideration the matter of repealing the tolls exemption of the Panama Canal Act became apparent today. It was stated by several senators who are anxious to have the matter settled to aid in clearing up foreign relations generally that some action toward a solution of the question was probable within a few days.

Thursday is set as the day for beginning discussion on the general arbitration treaties in executive session.

Winter Yet.

There are at Dineen's, among the many items, some remarkable bargains in men's coat coats. The company has on sale two lots of coat coats reduced for special selling today—one line, regular \$75 for \$55, and the other line, regular \$140 for \$95. The W. & D. Dineen Co., 140 Yonge street, corner Temperance street.

ABATEMENT OF NAVAL RIVALRY

Winston Churchill's Message to Radical Candidate in South Bucks—"Not Jingo or Scaremongers."

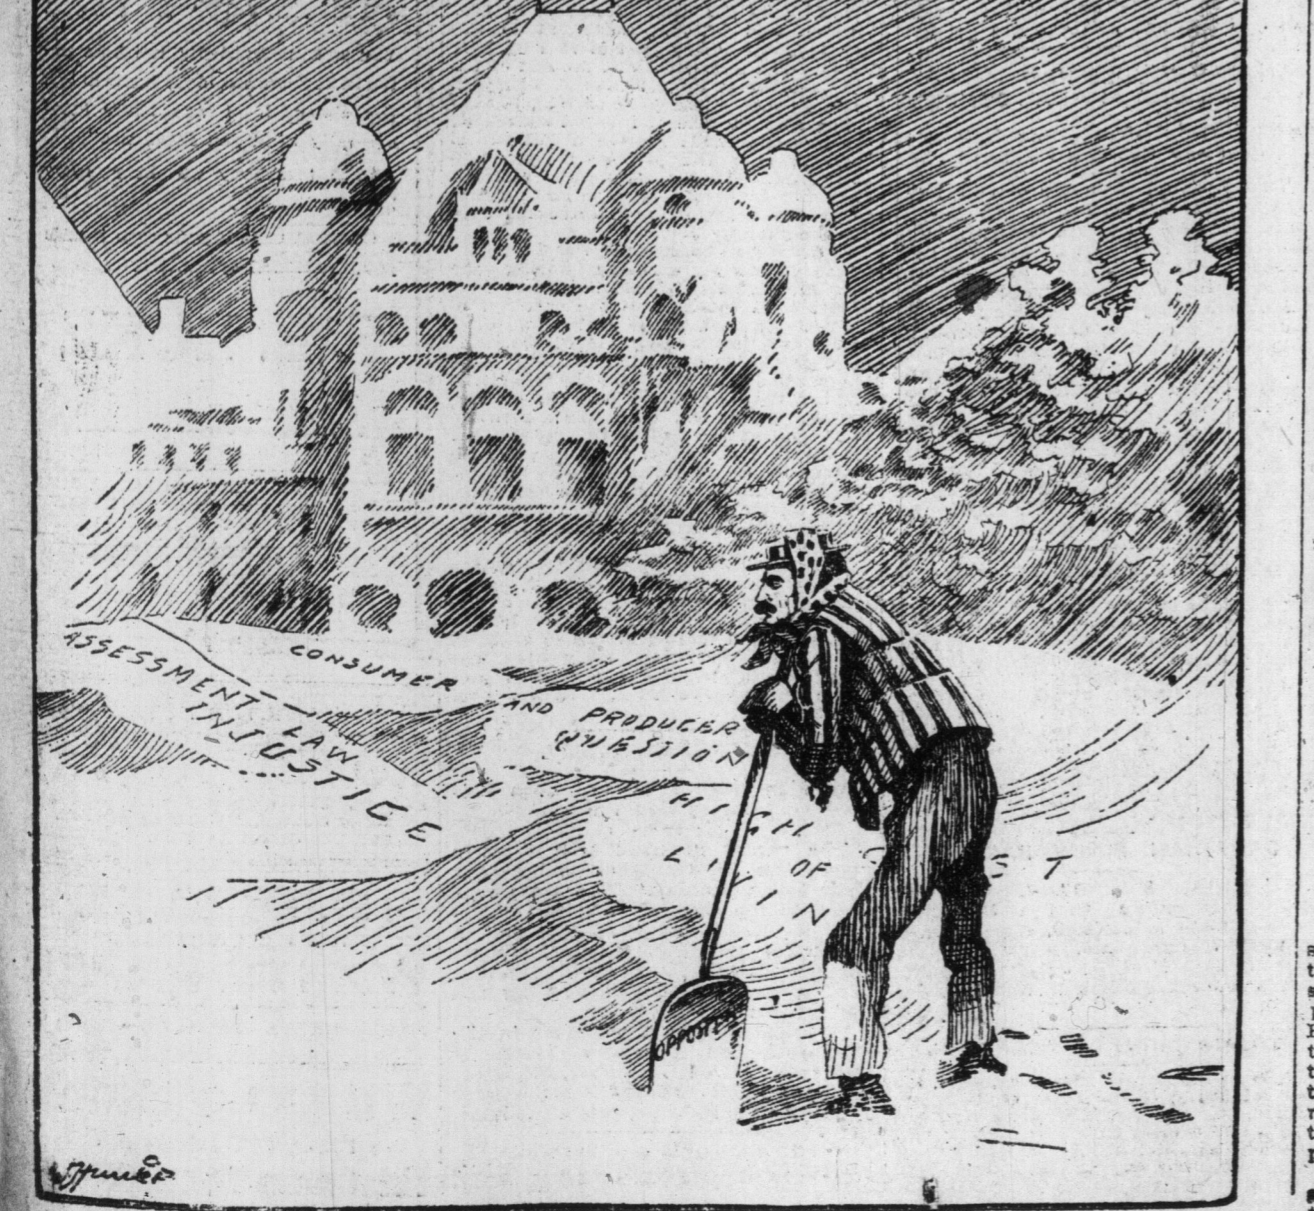

LONDON, Feb. 17.—Hon. Winston Churchill, first lord of the admiralty, has sent the following message to Tommaso Mosley, Radical candidate for South Bucks, where the poll takes place tomorrow:

"I am very glad to see the strong stand you are making for a sober and not jingo or scaremongers. We are working for the abatement of naval and military rivalries. Meanwhile, what is necessary to maintain the safety of our country and of our empire will have to be done, and will be done and done thoroughly. Hearty wishes for your success."

FIVE HOURS' DELAY.

The breaking down of the engine of the Grand Trunk Detroit train near Port Huron yesterday caused a delay of nearly five hours. Instead of reaching here on its schedule time at 7:10 p.m., the train did not pull into the Toronto Union Station until midnight.

—Main Floor, Yonge St.

Boys' Sweater Coats at 50c Tops the List of Extraordinary Values From This Section on Thursday

The coats are a manufacturer's overmakes, being made from odd pieces of knitted cloths that usually were used in men's coats. In this case, pieces were too small to cut to men's sizes. Made with high storm collars, and "V" shaped necks, two pockets and close-fitting cuffs. A fine range of plain colors and combination effects. Sizes 24 to 32. Special rush price, each 50

Men's Night Robes, in a good English flannellet; EATON made. Have attached soft turn-down collar, slip-through wrist bands, breast pocket and yoke across back. In combination colors of pink and white and blue and white. Sizes 15 to 19. Each 50

Men's Fleece-Lined Underwear, heavy winter weight, in a light fawn shade. Single-breasted, with closely fitting cuffs and ankles, pearl buttons, French neckbands and saaten facings. Sizes 34 to 46. Per garment 50

Men's Work Shirts of heavy drill shirting in black and white stripes. Have attached, soft turn-down collar; single band cuffs to button; breast pocket; yoke across back and generously cut bodies and sleeves. Sizes 14 to 18. Each 59

Men's Shirts, negligé style, mostly in light grounds with neat stripes of blue, mauve, black and tan. Attached, laundered cuffs and neckbands. Full-sized bodies and sleeves. Sizes 14 to 17. Each 50

Men's Knitted Neckwear, manufactured silks in neat designs of cross bars, diagonal stripes, plain shades and all-over effects. Some are "seconds." Colors include blue, green, brown, cardinal, gray, tan and heather mixtures. Some reversible. All have thin slip-easy neckbands. Thursday, each 12½

—Main Floor, Centre.

The Cyclo Punching Bag Platform

The Cyclo Platform has special features that make it especially suitable for home exercising. It may be taken down and used in many different exercises to develop all the muscles of the body.

Another big feature is that any vibration must pass through twenty-eight criss-cross steel rods and then through a light steel hub and arm before it reaches the wall, therefore very little vibration ever reaches the building. It is always ready for a five-minute exercise. Price, platforms only 4.50

Striking Bags and Boxing Gloves

Pear-Shaped Striking Bags, made of good quality Yucatan leather, a strong, durable, well shaped bag, with patent loop and triple sewn seam. Complete with bladder. Price 1.75

Boxing Gloves, City Championship style, made of finest green kid, padded wrist, laced safety grip; filled with superior quality curled hair, in 8-oz. weight. Per set 3.50

—Sporting Goods Section, Basement.

Limited Number of Grandfather Clocks Clearing Thursday at \$29.50

A modern clock with a touch of "Ye Old Time," in popular shades of solid oak that will match interior furnishings; others in rich mahogany finish; and all designed to reproduce an early English pattern with narrow centre and neatly moulded top and base. Complete clock stands about seven feet high and is capped with handsome pediment and rests upon carved feet. The movement is an eight-day American make and strikes each hour and half-hour upon a cathedral gong. Bevelled glass door shows polished brass weights, chains and pendulum, the clock winding in the old-fashioned way, by drawing chains up once a week. A separate glass door over embossed brass dial with engraved numerals in quaint style makes this an exceptionally graceful clock. Its usefulness as a timekeeper is fully guaranteed. This special pricing occasion provides one of the best buying opportunities we have ever offered in grandfather clocks. Don't miss it! Thursday 29.50

—Clock Department, Main Floor, Yonge St.

WANTS SITE BACK FROM GOVERNMENT

Board of Education Asks Release of Bloor Street Lot for High School.

An application has been made by a delegation from the board of education to the Ontario Government for a release to the board of the site on East Bloor street, bought by the board of education for a technical school site, and by the city of the Ontario Government for the site of the new government house. After it proved unsuitable for the technical school, the government said the site is considered just right for

STILL TO CONTINUE LOSS OFF SYSTEM

The Canadian Produce Association decided to continue the "loss-off" system of purchasing eggs this year, at its annual meeting. It was said that the system has been more successful than any other course. It was reported that throughout June and July of last year the average discards of inferior eggs in thirty dozen case lots ranged from one dozen to two and a half dozen. The produce merchants reserve the right to refuse any lot for rotten or inferior eggs. Some modification will probably be introduced in the system this year. Officers were elected as follows: President, John A. Gunn, Montreal; secretary, W. T. McConnell, Toronto; treasurer, W. T. McConnell, Toronto; directors, Joseph Emond, Quebec; J. Friedmann, Ottawa; J. J. Egan, Toronto; J. B. Jackson, Simcoe; John Porter, Toronto; J. W. Steinhoff, Toronto; J. Wilson, Montreal; R. A. McInnis, Owen Sound, and H. Gray, Montreal.

AVIATORS TO CARRY MESSAGE OF PEACE

Round the World Birdmen to Aid in International Movement.

NEW YORK, Feb. 17.—"Messengers of international peace," the contestants in the 1915 round the world aeroplane race from San Francisco, will be called, if the plans of the Aero Club of America, announced here today, are consummated. The club sent a telegram to C. C. Moore, president of the Panama-Pacific Exposition, urging that the air contest be made officially an expedition of peace. It was announced further that the club has written to the country's foremost peace advocates, including President Wilson and Secretary of State Bryan, inviting their co-operation in having the

NEED NO MARINES IN MEXICO CITY

Washington Frowns on Tentative Proposal Advanced by Foreign Governments.

WASHINGTON, Feb. 17.—The state department has not been moved by the enquiries of any foreign governments as to the sending of a marine force up to the Mexican capital. It is said that such a step is regarded as entirely unnecessary at this time. The statement was repeated today that the despatch of machine guns and ammunition by the British admiral at Vera Cruz to the British legation at Mexico City was quite within interna-

Canon Dixon Will Await His Bishops' Reproof

Invited "All Who Love the Lord" to Partake of the Communion.

A flutter has been caused in "high church" circles by an invitation given by Canon Dixon at Trinity Church to "all those who love the Lord" to take the communion. The invitation was accepted on Sunday night by some Non-conformists. Canon Dixon said yesterday, "I will do it until my bishop reprimands me for it."

R. S. LANG WAS DEFENDANT.

Inadvertently it was stated in yesterday's issue of The World that H. T. Beck had brought action against A. B. Armstrong for recovery of some \$2472. As a matter of fact it was R. S. Lang who was defendant. Mr. Armstrong merely acted as counsel for Mr. Lang.

NEW SPECIAL INTEREST TO WOMEN

BETTER HAVE CIVIL WEAR THAN BU FREEED OF SLAVES

Grace Colborne Thinks That Britain's Way of Freeing Slaves by Compensation Was Not as Good as United States' Way by Shedding of Seas of Blood.

A goodly gathering of women and a few men listened yesterday afternoon to an address by Grace Colborne of New York on "The New Morality" in the hall of the new Y. M. C. A. College street, under the auspices of the Toronto Women's Freedom League.

Good Things to Eat Made With Bread

TO FRESHEN STALE BREAD.

To freshen stale bread, dip it for a second in cold water and milk and then rebake it in rather a cool oven.

One of the best ways to make bread put them in a paper bag in the oven for a few minutes.

Stewed bread is palatable and affords variety. The section of a loaf or single slices or rolls are placed over rapidly boiling water and cooked until soft.

DELICIOUS CROUTONS.

Croutons are small cubical sections of bread dried to a golden brown in the oven or fried in deep fat. To prepare them, trim the crusts from the bread and cut into cubes.

FINALE.

After all, bread and milk give us all the types of material food that the human body in less expensive form than most other foods.

Therefore the more we can plan to economize in expensive foods by the addition of bread and milk to them the better.

As compared with most meats and vegetables, bread has practically no waste and is very completely digested.

It well deserves its title of "The Staff of Life."

BREAD CRUMBS.

Pieces of bread or crusts that have become very dry should be put into the bottom of the oven and left there until quite crisp.

They can then be rolled between sheets of paper and put in a rolling pin, or pounded in a basin, or put thru a food chopper.

Crusts which can be served with cream may be prepared by putting slices of stale bread into a cooling oven and leaving them there overnight to dry thoroughly.

Cinnamon Cake. One-half cup butter, 1 cup sugar, 1/2 cup sweet milk, 2 eggs, 3 tablespoons cinnamon, 2 teaspoons baking powder, 1 1/2 cups flour.

A Message To Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh

This nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food. The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food, instead of passing them out through the body as waste and high efficient.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines, so that the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. This person's body is like a dry sponge—eager and hungry for the fatty materials that will build it up.

One pint flour, 1 egg, 2 tablespoons sugar, 2 teaspoons baking powder, 1/2 cup milk, 1/2 cup butter, 1/2 cup flour. Mix flour, butter, salt, sugar and baking powder all together in a cup and fill with milk.

REMEMBERED FRANCES WILLARD.

CHICAGO, Feb. 17.—Memorial services were held here today for Frances E. Willard, temperance worker and for years the head of the Women's Christian Temperance Union.

Make The Teapot Test

Put "SALADA" TEA in a warm teapot—pour on freshly boiled water—let stand for five minutes—and you will have the most delicious cup of tea you ever tasted.

HAS THE FLAVOR! THE FRAGRANCE! THE DELICIOUSNESS that makes Ceylon Tea the beverage of delight. In sealed lead packages ONLY. BLACK, GREEN or MIXED.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Rusk, Biscuit and Gems

Rusk and rolls made with yeast. When the bread dough has risen for an inch thick that look like little loaves and appear to be cut in thin slices and then browned.

This is not rusk, but what the Germans call "zwei-bach" or twice baked. Cut Vienna bread into slices, butter each piece and sprinkle lightly with sugar.

Biscuits are raised with soda, with baking powder or by heating air into the mixture. This last process is too slow for readers of this column and the recipes for the other mixtures have been given frequently.

Gems are any sort of batter mixtures baked in gem pans. The easiest to make and the best liked are those made from Graham flour.

Beat the yolks of three eggs and to them add one cup of milk. Melt a fourth of a cup of shortening and mix all together with a slotted spoon.

Cornmeal Gems—These are delicious, but require thirty minutes to bake. One cup of flour sifted with two cups cornmeal, one level teaspoon of soda, one pinch of sugar and a teaspoon of salt.

Honey Gems—Use the recipe for wheat gems and add a fourth of a square cake of honey heated until the comb has melted.

CO-EDS DARE EDITORS TO A SWIMMING MATCH

Want to Prove Superiority Over Mere Man—Varsity Journalists Not Anxious.

Aroused by the editorial which appeared in The Varsity last week, a number of the ladies of University College, thru Prof. Corson, the swimming instructor, have sent a challenge to any member of the staff of that journal to engage in any form of a swimming race or contest that they may care to suggest.

Two eggs, 1 cup sugar, 1 teaspoon salt, 2 scant cups sweet milk, 1 cup chopped nuts, 4 heaping tablespoons baking powder, 1/2 cup flour.

ARE YOU OR THE CHILDREN A LITTLE "RUN DOWN"?

Don't wait until you're actually sick before you look after yourselves. The best preventive of sickness, as well as a tonic after it, is Sanguinol, the famous builder for blood, nerves and tissues.

After whooping cough, give Sanguinol to build up the shaken, debilitated system. After sickness of any kind, use Sanguinol, and see how strength and full abounding health quickly restored.

DRUNKENNESS CAN BE CURED—ALCURA WILL DO IT

Alcura, the widely-known treatment for alcoholism, can now be obtained at your store. It is guaranteed to cure or benefit, or money refunded. Remedy that has been tried by thousands and found to do just as it claims.

DRUNKENNESS CAN BE CURED—ALCURA WILL DO IT

Help your loved ones to restore themselves to lives of sobriety and usefulness and to regain the respect of the community in which you live.

Only \$1 per box. Ask for Free Booklet G. Tamblin, Limited, at all ten scores.

SUBDIVIDE TORONTO IN MARKET DISTRICTS

Housewives Suggest System of Co-Operation With Producers of Farm-Foods.

That the city be divided into market districts, each with a separate market, in place of the St. Lawrence Market, was the contention made before the Dominion Government-High Cost of Living Commission yesterday by officers of the Housewives' League.

A VALENTINE WEDDING. A very enjoyable event took place on St. Valentine's Day, Feb. 14, at St. James' Church, Port Colborne.

The bride looked lovely and pretty in a gown of ivory charmeuse, with a row of pearls. The bride veil was worn in "Juliet Cap" style, caught with orange blossoms.

Water Gardens (Continued). The water hyacinth is a very curious aquatic, not native here, growing in South America, but naturalized in many parts of the southern states.

WATER GARDENS (Continued). The leaves come up from the shallow depths, in thick clusters, being borne upwards upon queer inflated petioles (or stems), which enable these leaves to float lazily upon the sunny waters.

WATER GARDENS (Continued). The flowers come up on a loose spike, growing well above the level of the foliage, and are amazingly attractive.

WATER GARDENS (Continued). The roots must be bought at the aquatic man's store.

WATER GARDENS (Continued). The arrow arum grows thickly all over the swamps of the States from Florida to Maryland.

WATER GARDENS (Continued). It is a lovely thing, resembling the incomparable white calla lily, the creamy-white flowers standing well above the level of the pond.

WATER GARDENS (Continued). The roots must be bought at the aquatic man's store.

RIVERDALE CARNIVAL. St. Valentine Carnival at Big Risk. Huge Success. Miss Edith Herridge of Bristol, England, won the special prize for best dressed lady at St. Valentine's Carnival held at the Riverdale Roller Rink on Monday night.

Making More Dollars. Canada is "making" money. The Government has to print more dollars every year to meet the demands of business prosperity—but the dollar you make must have purchasing power if it adds to your health and comfort. For a Canadian dollar you can get one hundred SHREDDED WHEAT BISCUITS and that means a hundred wholesome, nourishing breakfasts. If you add coffee, milk and cream, a deliciously nourishing Shredded Wheat breakfast should not cost over five cents.

Secrets of Beauty

Finger Tap Tattoo for Twin Chins

By Maggie Teyte

THE double chin presents a problem which every woman finds herself called upon to solve sometime during her life. It is a problem which must be solved, too, if the semblance of youth, or perhaps, to be more exact, the appearance of a gracefulness which is the modern demand, is to be met.

Nothing gives so sure a vintage mark to the face as the double chin. It is not obliterated by the most brilliant coloring nor the brightest eyes. It tells with hateful eloquence the story of sagging muscles, which do not come into view until a woman has passed the 30-year mark, the end of age discretion, by modern reckoning.

The beauty specialists offer choice of several modes of reducing this excess of chin, and throw in the comforting information that constant and watchful attention is the price of keeping the drooping flesh at bay.

First there are comparatively few beauty parlors now where the old-fashioned massage is practiced. The tapping of the skin to restore circulation and exercise the muscles seems to have replaced it. In this way oils and creams and unguents are absorbed by the skin and starved tissues are fed.

There is another singular strap offered by another well known woman which is made of medicated rubber, excellent both as a reducer and tightener of muscles. While this is being worn pressure perspiration is induced, and the skin shrinks quite magically. The result is that the excess flesh is the "excess" of the work stops there the result will be anything but attractive. The remaining flesh must be made firm, and the evidence of the fat which once was there must be entirely obliterated.

The electric roller has been used with success for the work, and there is an apparatus on the market which works upon the roller principle, and is said to accomplish good results. One of the best ways to avoid the double chin is to sleep with the mouth closed, for the tipped back head and the sagging muscles all night will have their disastrous effect allowed to accumulate. The collarless gown has been the salvation of the contour of the face in many cases. For the high collar tends to stretch the skin, and is said to be a perfect ally of the double chin.

Some Easy Methods. For those of us who have neither the time nor money to spend with professional hands there are many helpful exercises that will not only assist much in ridding of the chin which has already accumulated, but will drive away any latent tendencies.

First stretch the chin forward as far as possible and then draw it back. Then stretch it up as far as possible and lower it till it rests against the throat. By these stretching movements with regularity and persistence. Cultivate the habit of holding the head up a bit if there is any chance of a double chin being on its way.

When you try massage be sure not to touch the tissues of the skin. That is one of the causes of flabbiness. Use a good cold cream, and with the back of the hands turn it over the face. Then tap the cold cream into the flesh with the ends of the fingers and a good bit of force. After using the cream go over the face with a lump of ice to tighten the skin, and use some good astringent. I have given recipes for several.

THE MODERN GULLIVER

By Michelson

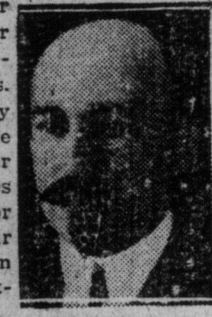

Hints on Health

Face Spasms Become Habit if Neglected

By Dr. L. K. Hirschberg

A. B. M. A., M. D. (Johns Hopkins). Copyright, 1914, by L. K. Hirschberg.

DOES your eyelid ever twitch? Beware if it does. Never allow any twitchings of the corners of your mouth, the muscles of your legs, or the edges of your lips more than once without looking to it.

Many of the DR. HIRSCHBERG causes of facial "spasms," lip quivers or other muscular twitchings may never be found out. If it is possible to discover the origin of a twitch, it must be removed at once. Otherwise the twitching will become permanent and cause you great distress.

There is a very close and contemptible familiarity between the facial and other muscles and the brain habits of individuals. A momentary vibration of the one brings about a corresponding spasm in the other. What seems a trivial twitch, unimportant or even amusing for a while, becomes quickly established as a habit, beyond all voluntary control.

Then the twitch or spasm settles down as a permanent and annoying spectacle. Now, doctors are almost powerless against it, and they dub it with a new name. It is a "tic."

A tic is nothing more nor less than a neglected twitch which has resolved itself into a pernicious habit. All habits are the result of loosening the strings of your knowledge of what is taking place. While a man learns a trade, he is conscious of each movement he makes. After he becomes expert, he is no longer aware of his ease and dexterity.

The doing away with "awareness" of what you are doing is a habit. After a baby has learned his steps, after you can play Beethoven's lively seventh symphony, after a tight-rope walker can juggle balls as he glides upon his unsteady string in midair, all sense of behavior and activity has been detached from consciousness.

Tics and permanent habit spasms are the same way. Whatever began their life has been cut off from them. The multiple tics which keep sparkling spontaneously. The habit has been permanently formed.

Bad teeth, adenoids, enlarged tonsils, tumors, obstructions in the nose, enlarged glands in the neck, scars in the skin, occupations such as watch-making, monocle wearing and the like have all been noted as sources of tics, twitches and facial habit spasms.

Answers to Health Questions. W. W. P.—What shall I do for a ruptured vein spot on my lower lip? The electric needle or an application of a stick of alum or some similar mild caustic will soon remove this.

YOU remember about Gulliver—how the Lilliputians got him and fastened him down tight with pegs and ropes until he couldn't move. Michelson has taken this Gulliver idea to show you the modern young man in captivity under the wiles and fascinations of the modern girl.

He studies the creatures who have caught him. O, there are so many kinds! Each with her own subtle way of fastening him down, and her own charming way of gloating afterward. Only one way for the captive to win out. Like Gulliver, he must first cajole, then use his strength to SERVE his captors. That's what he was born for. So long as he lets them strap him down he is useless. He must KEEP ON HIS FEET.

Words of Wise Men

Stander is the price of maturity. Present fears are less than horrible imaginings.—Shakespeare.

A mercantile democracy may govern long and widely; a mercantile aristocracy can not stand.—Landon.

By gambling we lose both our time and treasure, two things most precious to the life of a man.—Layard.

Penelon-dial exemplifying the mean he had always observed between prodigality and avarice, leaving neither debts nor money.—Ruskin.

Every blade of grass in the field is numbered; the green cups and the colored crowns of every flower are curiously counted; the stars of the firmament shine in calculated orbits; even the storms have their laws.—Blakely.

It is well for gamblers that they are so numerous as to make a society of themselves; for it would be a strange abuse of terms to rank these among society if large whose business it is to prey on all who compose it.—Cumberland.

We must distinguish between tenuity and prosperity; for prosperity leads often to ambition, and ambition to disappointment; the course is then over; the wheel turns round but once; while the reaction of goodness and happiness is perpetual.—Laport.

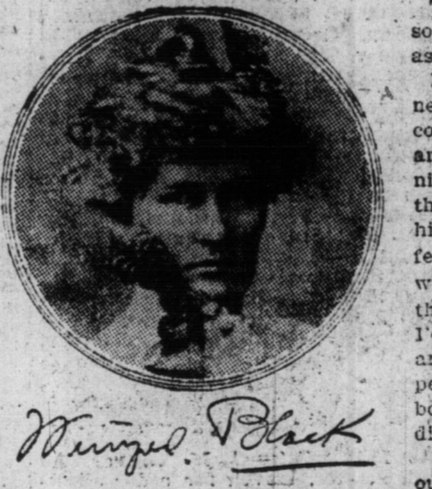

The secret of success in society is a certain heartiness and sympathy. A man who is not happy in company, can not and any word in his memory that will fit the occasion, all his information is a little impertinent. A man who is happy there, finds in every turn of conversation the occasion for the introduction of what he has to say. The favorites of society are able men, and of more spirit than most; they have no uncomfortable egotism, but who exactly all the hour and company, contented and contenting.—Emerson.

Too Good for a Girl's Work

By WINIFRED BLACK

Copyright, 1914, by Newspaper Feature Service.

SAM COHEN ran away from home the other day, and went and slept in a cellar for a week. He was very hungry and rather shivery when the police found him and took him to the children's court to find out what was the matter with him.

"I was very simple. I ran away," said Sam Cohen, aged 13, "because my aunt made me wash dishes." "Can't you wash dishes?" asked the justice.

"Sure," said Sam, "but I'm a boy." "Where upon the judge let Sam go and Sam's aunt promised by indignation that she would never incur Sam's manhood again by asking him to wash a dish.

I wonder why. I haven't a doubt that Sam's sister split kindling and carried up coal whenever she had to, and never once thought of saying that it was a boy's work and that she didn't have to do it.

If I had a boy in my house who wouldn't wash the dishes for me when he had nothing else to do and I needed those dishes washed, he wouldn't stay in my house very long.

I knew a boy once who kept his sisters and his mother on the jump from morning till night waiting on him. He threw his coat on the floor and his hat on the piano and his shoes on a chair. And if you had asked him to mend a hole in his own socks he would have dropped dead with heart failure.

I saw that boy the other day. He had just come from a long cruise in the navy, and you ought to see the way he can darn socks and sew on buttons and tidy up his room—now.

There's nothing in the wide world so offensively out of place to my mind as an effeminate man. If I had a boy who said "for goodness sake" and "dear me," and who could tell the difference between violet and mauve, I'd take him down to Finnigan's alley and turn him loose for the Finnigan boys to make a man of him.

But that didn't make any difference. That button had to get up and sew a button on a particular coat at a particular time.

The wife had been up all night with a sick baby and was trying to get a wink of sleep while the baby slept. I saw a man go into his wife's room and wake her up to get up and sew a button on a particular coat at a particular time.

Little Mr. Samuel Cohen, it's a good thing for you that I'm not your aunt, you ridiculous little rascal, you. I'd laugh you out of your absurd sense of your own room—now.

Chips with the Bark on

Hotter than a hornet—its sting.

All men are created equal, but some have better parents than others.

The man who pleads guilty is seldom accused of being untruthful. The world is willing to believe evil.

No man may be able to serve two masters, but some men make the masters think they can and do.

It isn't necessary to make a fuss to do work. The water turns the mill wheel without any exertion.

Cool at a dollar a ton would be a cold snap that anyone would appreciate.

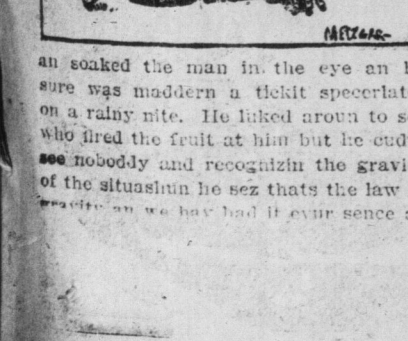

The man who is so skeptical that the truth deceives him should try to acquire a degree of credulity.

Women cannot throw things straight, but accuracy is not required when throwing fortunes at European noblemen.

Neatly everyone imagines that he knows how to live, but the number of suicides by the use of carbolic acid shows that many folks do not know how to die.

Willie Rites on Gravity

NOT upon a time they was a guy down under a nubble tree, and a wand of Nick Carraway, and a set when he got 2 where Nick was lullin down the hoghead of a pistol just as the pistol spoke hoarsely because it wuz a hoarse pistol a nubble fell off the tree.

that is why wot goes up must come down exceptin the price of eggs. Yew see the erth is awl filled up with Poles an magnets which attracts things few it without puttin an ad in the papers. If yew fall intew space yew just hope goin on an on until yew hit the erth with a dull an sickenin thud.

Eddie Nighter whose paw is a newspaper reporter and his paw fell into a lot of yew smoke the other day without being seen by the city editor an it never hurt him a bit beyond the swellin of his pocket book. An if his paw falls intew space mear space Eddie is goin to git a further up yew go the faster yew kunn down unless yew can grab hold of a limb of a tree or an airplane an brake yewer fall.

Salads That Revive the Appetite

By M. Jean Richroch

Chef of the Hotel Vanderbilt, New York.

and one part cream, with a few drops of mushroom catsup. When properly prepared, nothing is more delicious, more easily digested or more nutritious.

One of the most wonderful salads is Fildis salad, the recipe for which I got in Constantinople. It is made of endive leaves, which form a fringe about the entire inside of the bowl.

Very few Americans seem to understand the value of cabbage salad. When properly prepared, nothing is more delicious, more easily digested or more nutritious.

The orange is a delightful salad I learned to prepare in Algiers. It is made of sections of oranges, a julienne of celery, and cress sliced very thin, sprinkled over the surface and finished with a frings of remain leaves dressed with a light mayonnaise.

WILLIE ONES.

Daddy's Good Night Story

By GEORGE HENRY SMITH

TEACHER!" "Yes, Willie Squirrel, what do you want?" said Miss Roberta Rabbit.

"Please move my seat from behind Billy Bunny. I can see through his ears, but it hurts my eyes."

"You may change seats with Billy Bunny, Willie. Billy can see over those tiny ears of yours."

"I can't help having a beautiful tail," said Willie Squirrel. "You both must stay after school and we will settle this thing. Willie, you write an essay about Billy's ears and you, Billy, write an essay about Willie's tail."

The Toronto World

FOUNDED 1850. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

Telephone Calls: Main 5398—Private Exchange connecting all departments. \$3.00—will pay for The Daily World for one year, delivered in the City of Toronto, or by mail to any address in Canada, Great Britain or the United States.

Postage extra to United States and all other foreign countries.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of the World.

WEDNESDAY MORNING, FEB. 18.

TOUCHED ON THE RAW

The Globe "doth protect too much." Only a prince of prevaricators with face of triple brass could make the assertion contained in "The World of Monday last." The paragraph in question referred to the fact that the landowners in the city, not outside the city, objected to the annexation of any more territory to the city. Does anyone deny this? We also stated that The Globe and The Telegram were the organs of these landowners in the city. Does anyone deny this? The Globe, as we stated, "howls with rage" at any suggestion of the kind, and declares that a farmer miles outside the city limits, who could not get inside the city limits if he tried, is "a prince of prevaricators with a face of triple brass" for stating the fact.

Will The Globe kindly point out any way in which land outside Toronto is to be made available to those who need it except by rendering it accessible and habitable? Should such land not be farmed, or what would The Globe suggest should be done with it until such time as it is in demand for residence purposes?

The Globe quite unfairly misrepresents The World, which is far ahead of The Globe in demanding taxation and assessment reform. But The World in wanting reform wants equitable reform. There is no reason from any point of view except greed why the farmer on Bathurst street or Dundas street, or Kingston road, or Don Mills road, or any other suburban thoroughfare should be taxed for unearned increment while the landholder on Queen street or Bay street, or Melinda street, or anywhere else inside the city limits is allowed to get away with his unearned increment untouched. The Globe knows very well that it can't go to an agricultural legislature and ask for measures taxing the extra-urban landholder and allowing the intra-urban landholder to escape free. Such rank unfairness has stopped all progress in the direction of land value taxation reforms. The monopolists in the city are just as bad as the monopolists outside the city, and as The Globe knows, in many cases worse. The World has been agitating all along for a reform in taxation, but it must be a reform which will affect all alike.

The Globe, which talks about "the principle of prevaricators" goes on to declare "the extension of the city boundaries will not make land cheap." When The Globe is on the other side of this question it will point to the land boom and annexations in 1889 and thereabouts to prove that it makes land too cheap. If annexation did not make land cheap in the city there would be no such bitter opposition from the landlord newspaper organs like The Globe and The Telegram. Farmers live under farm conditions, but city workers and city dwellers must have city conditions to live in; city conditions cannot be had without annexation; if annexation is restricted, land available for building under city conditions becomes dear, and patrons of The Globe and The Telegram rejoice.

Says The Globe: "The people of Toronto have not long submitted ungrudgingly to the operations of land monopolists." We thoroughly agree. But the land monopolists who buy lots on Queen street, or Bay street, or Melinda street and hold them for a rise, are equally culpable with land monopolists anywhere else. If The Globe is willing to face the facts and agree upon an equitable measure of taxation of unearned increment on land wherever situated, it will find The World always a little ahead in that line of reform. "Prince of prevaricators!" "Face of triple brass!" This is indeed the language of The Globe when touched on a tender spot.

TORONTO'S CONGESTED POPULATION

The Telegram spent a page last night swallowing itself in its usual way. Three years ago when Mayor Hocken presented the case for tubes in Toronto, The Telegram could not find terms contemptible enough to apply to the project, the arguments advanced for it, or the man supporting it. Now, however, all this is changed. There was no chance of purchase at that time, so The Telegram advocated purchase. The people voted against purchase. Mayor Hocken has been able to negotiate terms of purchase; and consequently The Telegram in its denunciations of the project, advocates

All the figures which it then declared irrelevant or inaccurate are now being set forth as original discoveries. Most of these figures are applicable to the purchase contention, but have been ruled out of court by The Telegram for purchase purposes. If you are rooting for tubes the figures are all right. If you are rooting for purchase, the figures are all wrong. This is the funny thing about Telegram figures.

We are now informed by The Telegram special commissioner that "the population per mile of transportation line in Chicago, surface and elevated, is 1,800 under the population of surface line in Toronto."

It is a pity The Telegram is always so far behind the times. Had it made this discovery three years ago the city would have been benefited. Three years hence The Telegram will be once more wailing up to the extraordinary advantages of purchase.

Under the unusual and most regrettable circumstances of the absence of the prime minister, the legislative assembly of Ontario will resume business this afternoon. It is scarcely to be expected that without Sir James Whitney there will be so many marked features as usual in the measures to be dealt with. On the other hand the business of the government was well considered and far advanced when Sir James went south on the trip which came to such an unlooked for end. One solid item of performance is the completion of the statute revision. The compensation bill will occupy many hours, no doubt, of the session, and there should be a good deal more material in the cabinet workshop to justify the existence of the government. We do not think that the absence of Sir James, much as he will be missed, should discover any deadly weaknesses in the government front, but the opportunity for the opposition is an exceptional one and Mr. Rowell may take advantage of this to force the fighting.

DOMINION SUPREMACY

In striking contrast to the ferment occasioned by the declaration of martial law by the Government of South Africa and the deportation of ten of the strike leaders is the apathy with which very similar acts have been viewed in the United States. The constitution of the neighboring republic recognizes the sovereign powers of its component states, and in three of these there have been strikes and contests between mine owners and workers which have involved identical questions with those raised in South Africa. Constitutional rights, it is asserted, have been proclaimed upon martial law has been proclaimed and enforced, and even the power of deportation exercised without exciting a fraction of the general protest that the action of Premier Botha and his government has provoked.

Perhaps too much has been made in Britain of the deportation of the strike leaders, particularly when it is presented as a reason for interference on the part of the imperial government with the exercise of the powers possessed by a self-governing British state. Deportation of British citizens from Canada is common enough, just as is refusal to admit the entry of undesirable even though they are of British origin. The point in dispute really turns not on the power, but on the cause of deportation, and this at once raises the far more serious question of the supremacy of a self-governing dominion over the conduct of its internal affairs. Any attempt to limit authority in that regard is fraught with menace to the future of the empire.

PUBLIC OWNERSHIP AND TAXATION

Agencies as there are, established and sustained for the purpose of creating suspicion regarding the success of public ownership, argue that one instance of failure is sufficient to condemn the principle as unworkable and unprofitable. Possibly they catch here, and there an unwary victim who does not take time to apply the same test to private ownership and operation of public services. But why this discrimination in different standards of judgment? Simply because these agencies find it helps their interested efforts to create the impression that failure in the one example is due to the principle and in the other to the fault of the individuals placed in control.

Very slight consideration would show the fallacy underlying all this argument. If argument it can be called, in North America scores of public services under private ownership have been wrecked and ruined, although possessing in themselves every requirement for a valuable and remunerative public service. Forced by their force of experience, from the position that private ownership and operation always means efficiency at lower rates than can be secured in the case of a public proposition, the agencies attempt to create and encourage the belief that public ownership and operation, however apparently remunerative and satisfactory, speak ultimate disaster.

In Europe publicly-owned and conducted services have been tried and proved. No municipality in the United Kingdom of any consequence, once adopting the principle of public ownership, and operation of its services and utilities, has ever receded from that position. No capitalist, however rich a millionaire could buy out the

franchises of a British city, and the reason is aptly illustrated in the case of Liverpool, the great Lancashire seaport in England. Last year its street railway undertaking reached high water mark, with the result that no less than \$100,000 was allocated from its net profits in relief of rates. This represents one-third more than was allocated last year, and will probably enable the finance committee of the city council to avoid increasing the city rates, since it is equivalent to no less than 7d in the pound, according to the British system of municipal taxation.

DANGER SIGNALS

The Montreal Daily Mail says editorially: "A few days ago The Daily Mail urged the necessity of eternal vigilance against the danger of a contemplated assault on the interests of the City of Montreal. It now reiterates that warning. The signs of danger are not difficult to discern. They must be self evident to the man on the street. There has been within the past year in the City of Montreal a development unparalleled in the history of Canadian journalism. There have been purchases, amalgamations and eliminations. The same man and the same interest, the expenditure of over a million dollars, two million dollars could not be an exaggeration. And for what purpose? Clearly not to solve or simplify a legitimate newspaper problem. The real motive was to deprive the English-speaking readers of evening newspapers of reliable sources of information and honest counsel. It was to sever the lines of communication between the public and the truth, to create a newspaper monopoly in the evening field, and to divert the public mind into harmless and mistaken channels. Such a situation the public cannot fail to regard with deep anxiety. There are to be secured, the English evening newspapers in Montreal. In reality, there is only one. The situation is dominated by one man, supported by one interest, the English-speaking people of Montreal cannot pick up an afternoon newspaper which is not controlled and inspired by the same man and the same interest. They are, in short, at the mercy of a monopoly which sooner or later will demolish the way and wherefore of its existence. This much the public may accept as a fact and a warning that there is a deadly purpose in the acquisition of a legitimate purpose, because legitimate enterprises are not afraid of publicity. They are not preceded by a buying up of newspapers and the restriction of public information to the narrow and distorted channels which interested parties are so anxious to maintain. It may be safely taken for granted that a move of some kind is being planned against the city's interests. The public must be on its guard, by paying the way for it. And that is the best evidence of the seriousness of the menace and the necessity of public vigilance to forestall it."

FINE MAPLE SYRUP

In the days of crude sugar bush methods there was little opportunity of learning the difference between the quality of the product. Now consumers are learning to appreciate the excellence of superior goods and to accept only the best. This appreciation is leading to better returns for those who produce the light color, fine flavored maple syrup. The up-to-date maple sugar maker recognizes that sap, like milk, is a perishable product, being an excellent medium for the growth of bacteria and fermentative organisms. To make a fine sugar or syrup it is necessary therefore for the maker to have an equipment of machinery and other paraphernalia for the purpose of preventing possible contamination of the product in all stages of manufacture. Not only must the product be kept clean, but its transformation of the sap to the finished product must be direct and speedy.

Bulletin No. 28 "Maple Sugar" issued a few months ago by the department of agriculture at Ottawa, deals fully with this subject, and is freely available to the consumer in making clear what constitutes fine products, and to the producer in showing how such goods are made.

A REAL PIANO BARGAIN

An opportunity comes today to secure from Ye Oldie Piano of Heinemann and Co., Limited, 143-145-147 Front street, Toronto, a magnificent Upright Piano, only slightly used, at a big reduction from manufacturer's price. This piano is in walnut case, nationally renowned, with full length swing music desk—an extra fine instrument taken in exchange on the purchase of a new Heine Piano. It will be sold on the firm's easy payment plan.

LACTEAL COMPANY'S FINISH

By order of Justice Middleton, the Lacteal Company has been wound up, on the application of J. J. Mason, shareholder. J. P. Langley is appointed interim liquidator.

During Recent Months

If your savings have been deposited with this old established, time-tried institution, which since 1855 has been the safe depository for the savings of many thousands of our citizens, or if they have been invested in its Debentures, you have been free from the anxiety which has been experienced by those who have used their money in the purchase of bonds and stocks, which are subject to the fluctuations of the market. The events of the past year have demonstrated that many so-called investments have been only speculations, and have resulted in a disastrous nature. Savings are deposited with this Corporation are available, with the accumulated interest thereon, whenever needed for while those who have invested in our Debentures know that they will receive the full amount of their investment, and that it becomes due, and the half-yearly interest regularly in the meantime. Do not fail to call or write for further information.

Canada Permanent Mortgage Corporation

ESTABLISHED 1855. Paid-up Capital and Reserve Fund exceeded TEN MILLION DOLLARS. Toronto Street, Toronto.

AT OSGOODE HALL

Feb. 17, 1914. ANNOUNCEMENTS.

Motions set down for single court for Wednesday, 18th inst. at 11 a.m.: 1. Re Palmer Estate. 2. Re Louzon and Richardson.

Peremptory list for appellate division for Wednesday, 18th inst. at 11 a.m.: 1. Dick v. Standard Undergarment Cable Co. (to be continued). 2. Pedlar v. Toronto Power. 3. Vaughan-Rhys v. Clarry. 4. Bennett v. Wentworth. 5. Hill v. Aman. 6. Dancy v. Brown.

Master's Chambers. Before J. A. C. Cameron, Master. The Solicitors—J. M. Langstaff, for client, and J. G. Smith, for defendant, and taxation of bill of costs. J. T. Small for solicitors. Motion dismissed and principle order set aside, with costs to solicitor fixed at \$26.

Galt Art Metal Co. v. Whitlaw—J. Laizon, for defendants, moved to change venue from Berlin to Toronto. G. Smith for plaintiff. Dismissed to March 16. No stay of proceedings.

Miller v. Hoffman—H. H. Shaver, for defendants, moved to take evidence for commission to take evidence of witness in Great Britain. M. Wilkins for defendant Hoffman. M. Grant for plaintiff. Order made. Costs in cause. Costs of execution of commission reserved to trial judge. Stay of proceedings until return of commission.

Essery v. Tube and Pipe Bending Co.—J. F. Edgar, for defendant, moved for order for security for costs. J. G. Smith for plaintiff. Dismissed. Costs to plaintiff in any event.

Re Estate of Annie Paterson—H. F. Parkinson, for executor, obtained order for payment into court of credit of W. J. Meek of moneys belonging to heirs, and discharging the executor of estate in respect thereof. Costs of application fixed at \$10.

Kramer v. Krebin Brothers—W. J. McLarty, for plaintiffs, obtained order for plaintiffs to bring action without costs and vacating its pendency.

Murphy v. Lamphier—J. W. Bain, K. C., for defendants, moved for commission to examine Fred Lamphier at Chicago. J. G. O'Donoghue for plaintiffs. Order made. Costs in cause.

Re William Baptist—G. F. McFarland, for the society, moved for leave to pay \$2000 into court, amount of endowment certificate with the Knights of Macabees of the World. Order made for payment in, less costs, fixed at \$16.

Williams v. Medland—A. MacGregor, for plaintiff, obtained order on consent dismissing action, without costs and vacating its pendency.

Sharp v. Jackson—A. MacGregor, for plaintiff, obtained order vacating registration for land in part of land in question in action.

Judge's Chambers. Before Middleton, J. Re Currie, Watson, Truag—Gilmour (Blake & Co.) for T. G. T. Corporation, for motion for allowance to trustee for care of estate of H. H. Sedgewick for Sarah Keith Currie. At request of trustees, enlarged until May 29 next.

Re Wenny and Excelsior Life Insurance Co.—J. W. Harcourt, K.C., for Wenny, moved for order appointing trustees to receive insurance moneys. F. W. Harcourt, K.C., for Excelsior, moved for order for insurance company. Order made.

Davis v. City of Toronto—E. S. Fairley, for defendant, moved for order striking out of claim in writ of mandamus showing no cause of action. D. O. Cameron for plaintiff. Leave given for the plaintiff to amend. All rights of defendant reserved. Costs to defendant in any event.

Re Teifer—F. W. Harcourt, K.C., for infant, obtained order for payment of \$50 out of infant's fund for payment of infant to take physical culture course. Melville v. Melville—F. W. Harcourt, K.C., for infant, moved for order for payment of money of court of moneys of infant. Re Harrison—F. W. Harcourt, K.C., for administrator, moved for order allowing payment of moneys into court for infant. Order made.

warehouse in Brantford. Judgment: The wording of the statute has been changed to some extent since the decision in Markham v. Aurora, but serves to indicate that the legislation intended to prevent any municipality from granting any aid to an industry, which is in fact, established elsewhere. There is no exception made to the wide words of the prohibiting clause. In this view I do not need to consider any of the other formidable objections to the bylaw. It must be quashed with costs.

Lannarelli v. Dominion Construction Co.—A. G. Ross, for plaintiff, moved for judgment in terms of settlement. J. M. Adams for defendant. E. C. Cattnach for official guardian. Judgment for plaintiff for \$1,650. Of this \$300 to be paid to plaintiff's solicitors before claim of balance to be paid into court to credit of action. \$100 per year to be paid to Frank Lannarelli for five years for maintenance of children in Italy.

Before Trial. Baldwin v. Canada Foundry Co.—McG. Young, K.C., and H. Lennox, K.C., for plaintiff; J. A. Paterson, K.C., for defendant. Action by G. S. Baldwin, an Aurora manufacturer, to recover moneys paid defendants for a gas engine and producer plant, which he alleged to perform the work as guaranteed, and for damages under the guarantee. Defendants counter-claimed for balance alleged to be due on conveyance of property. Plaintiff is entitled to receive the \$2200 paid with interest from the respective dates upon which the instalments were paid. The evidence as to breach of warranty regarding fuel consumption is too vague to enable me to arrive at a conclusion as to amount of plaintiff's loss on that account. A detailed statement is, however, in evidence as to the losses owing to the repeated failures of defendants to fulfil their contract. These are put at \$11,644.03.

I think, however, that the damages may be fairly assessed at no more than \$6000. There will, therefore, be judgment for plaintiff for \$2200, with interest on \$1100 from Jan. 1, 1908, and on costs. The counter claim is dismissed with costs. Thirty days stay.

Before Lennox, J. Hedge v. Morrow—S. S. Stiles (Cornwall) for plaintiff; D. B. MacLennan, K.C., for defendant. Action to recover possession of west half of lot lettered "A" in 6th concession Roxborough, and a declaration that plaintiff is the owner thereof, for \$1500 damages for unlawful cutting and removal of wood and timber, and for \$1000 rents and profits. Judgment: Isabella Gilchrist, the owner of this land, was lawfully married to Silvanus Johnston, at Nome, Alaska, on June 15, 1905. Defendant obtained what purported to be a conveyance of this land, and paid \$2700 in cash for it on Dec. 31, 1906. He should not be disturbed until plaintiff has clearly established her title. Defendant's action is dismissed with costs. Plaintiff is to be paid the value of the property at the time he bought. Plaintiff alleges that power of attorney under which Leo H. Johnston purported to convey was a forgery in so far as it referred to land in Canada, and that in any case it was revoked by death of Isabella Gilchrist Johnston before execution of the deed for her sister under which executed Deeds 1887, and she commenced her action on March 14, 1912. The will was revoked by the marriage of testatrix on June 15, 1905, and the plaintiff fails. Plaintiff is not in a position to maintain this action. To dismiss the action and to refer to the defendant the costs of the proceedings. Both parties should get together and come to a settlement. In the interest of all parties a reference and judicial sale should be avoided. If the outstanding shares can be got in, the defendant's title confirmed and he pays the plaintiff and the other parties defendant's amount. All rights of defendant reserved. Costs to defendant in any event.

Re Teifer—F. W. Harcourt, K.C., for infant, obtained order for payment of \$50 out of infant's fund for payment of infant to take physical culture course. Melville v. Melville—F. W. Harcourt, K.C., for infant, moved for order for payment of money of court of moneys of infant. Re Harrison—F. W. Harcourt, K.C., for administrator, moved for order allowing payment of moneys into court for infant. Order made.

Petkovich—C. M. Garvey, for administrator, moved for order allowing payment of moneys into court for infant. Order made.

Winnett v. Winnett—A. R. Hassard, for plaintiff, moved for order allowing mortgagee to purchase, with wife joining in. F. W. Harcourt, K.C., for infant. Order made.

Re Canadian Lacteal Co.—H. S. White, for J. J. Mason, petitioner, moved for winding up order. No order. Order made. J. P. Langley for liquidator. Reference to master in ordinary. Reference to master in ordinary. Reference to master in ordinary.

Cassidy v. Robert Simpson Co.—F. J. Hughes, for plaintiff, moved for order setting aside judgment at trial and ordering new trial. Vernet & Co., for defendant. Order made. No costs.

Re John Ross and Childrens Aid Society—A. R. Hassard, for Margaret Ross, mother of infant, moved for writ of habeas corpus. Order made. Re Childrens Aid Society—G. B. Miller, moved for writ of habeas corpus for production of child out of the jurisdiction. Leave given to serve notice of motion.

Columbia Graphophones v. Real Estates—R. G. Agnew, for plaintiff, on motion for attachment of the assets of J. G. Smith for defendants. Enlarged until 20th inst.

Peck v. Lemaire—R. W. Hart, for Amelco, appellant, moved for order appointing arbitrator. H. H. C. Miller, K. C., for plaintiff. Enlarged until 20th inst. No stay meant.

Tilbury Town Gas Co. v. Maple City Oil and Gas Co.—J. W. Bain, K. C., for defendants, appeared from order appointing John Harley to inspect meters and record results. W. M. Douglas, K. C., for plaintiff. Motion dismissed. Time to appeal extended. Costs to plaintiff in any event.

Re Samuel Nordheim Estate—E. C. Cattnach, for trustees, moved for order fixing trustees' remuneration. H. G. Galt, K. C., for son of deceased, and son. G. Oeler for other daughters. E. T. Malone, K. C., for T. G. T. Corporation. Reserved.

Single Court. Before Middleton, J. Re Wolfson and Gransby—F. Arey Martin, K. C., for Wolfson and G. L. Staunton, K. C., for Gransby. Motion to quash bylaw No. 296 of Vinery, being a bylaw to aid in bettering the water supply, is dismissed with costs. The bylaw is valid.

Winged Wheel! Watch Cases are such a much part of a jeweler's stock as Waltham, Elgin and Howard Watches. Will you tell you that a Winged Wheel is the mark of the logical selection for a fine watch. Made and Warranted by THE AMERICAN WATCH CASE CO. OF TORONTO, LIMITED.

GRASBETT AND SAFETY. R. B. Morley, secretary-treasurer of the Ontario Safety League, has received the following communication from Police Chief Grapssett: "I am in full sympathy with you in your work, and am glad that you are taking such a large measure of safety to the public generally."

DEAN HAMMOND OF CORNELL LIKES VICTORIA RESIDENCE. Nothing on the Continent to Beat Dean Hammond's Victoria Residence. Dean Hammond of Cornell University and his son, Donald Hammond, paid an unofficial visit to Toronto University recently. Dean Hammond, after his visit to the university grounds, remarked to President Falconer that he was impressed by the residence at Victoria College.

DODD'S KIDNEY PILLS. TRADE MARK. "Winged Wheel" Watch Cases are such a much part of a jeweler's stock as Waltham, Elgin and Howard Watches. Will you tell you that a Winged Wheel is the mark of the logical selection for a fine watch.

OLD-TIME SHIP-BUILDER DEAD. Capt. Wm. Richards Was in His 96th Year. MONTREAL, Feb. 17.—Captain William Richards, one of the best known ship-builders in eastern Canada, died yesterday, aged 95. Mr. Richards, who was born in Swansea, Wales, founded a ship-building yard at Biddeford, P. E. I., in 1846 and launched no fewer than 100 sailing ships of from 500 to 1,400 tons. Mr. Richards entered the P. E. I. legislature in 1879 as a Conservative and sat for several years.

The marriage of Miss Petica Gamble Geddes to Mr. George E. Watson will take place the middle of April.
 Lieut.-Col. and Mrs. A. E. Gooderham are giving a musicale in Columbus Hall, tonight at 7 o'clock.
 A surprise party was given to Mr. Clarence Bogart last night.
 Mrs. Boone, Crescent road, was the hostess yesterday afternoon of an extremely well arranged bridge party, when the prizes were very pretty cups and saucers. A few friends came to tea after the play was ended and much enjoyed the singing of Miss Danna. The beautiful house was redolent of flowers, crimson and pink roses, violets and tulips of every shade. The inlaid mahogany table in the mahogany paneled dining room was centered with Brussels point lace and seven silver vases of the most exquisite pink Killarney roses. Mrs. Boone wore a very handsome black gown and a string of black chiffon and white lace and a string of magnificent pearls. She was assisted by her daughter-in-law, Mrs. Charles Boone, Miss Irene Doolittle and Miss Willow Gage.

Receiving Today.
 Mrs. T. H. Andison, formerly Miss Evelyn Foley, for the first time since her marriage at 143 Farnham avenue.
 Mrs. George Aykroyd, formerly Miss Mabel Page, for the first time since her marriage, at her house, 40 Concord avenue.
 Mrs. Brodeur, Montreal, is giving a dance on Monday for her daughter, Miss Pauline Laurier.

RAISING WILLOW SHOOTS BECOMING BIG INDUSTRY
 Both in the United States and in Europe the cultivation of willow shoots to be used in the manufacture of basket goods is an important industry. According to a writer in Harper's Weekly, it is said that at least ninety different varieties of willow are cultivated on the continent, many of which show superiority to the shoots raised in America. There has been reported a decided increase in the industry in the United States. One farmer in the middle west is said to have cleared \$16,000 on a sixty-acre crop, and there are willow planters in the east who are conducting patient tests of various species and have already succeeded in growing shoots of such excellence that they compare favorably with the product obtained by the highly specialized cultivation of Europe.

 "Rose Classification," illustrated with lantern slides, will form the subject of a lecture on Friday next, 8 p.m., Margaret Eaton Hall, North Street, by Mr. Leonard Barron of New York.
 Sandwith, were epinites found in the Nubian Desert. In one place a graveyard was found, and here were remains of bodies with fractured limbs that had been set with bark splints. One was a right thigh bone that had been broken, and was still held in position by a workmanlike splint and bandages.
 All the knots were true reef knots, and the wrappings showed how the strips of palm fibre cloth were set just as a good surgeon would set them nowadays, so as to use the full strength of the fabric.
 In other cases, bodies were found with compound fractures, where the broken ends of the bones had broken thru the skin. Death seemed to have come very quickly after an accident of this kind, for no trace of healing of the bones was to be found.

Want to learn the correct way to dance the Tango, the Turkey Trot, the Hesitation Waltz and other intricacies of the art of Terpsichore?
 Here's your chance.
 Be the guest of The Toronto World at the Alexandra Theatre after every matinee next week, when Miss Alice Lloyd and her congress of more than forty expert dancers will act as instructors. All you have to do is to clip the dance coupon from The Toronto World on matinee days, Tuesday, Thursday and Saturday, and this coupon will admit you upon the stage; or remain in the audience and watch, just as you prefer.
 Miss Lloyd's entertainers will give instructions after each matinee, illustrating the steps that made "Dance Mad" famous. By special arrangement by The World, Miss Lloyd's dancers will remain after each matinee to give The World readers the benefit of their art.

SURGERY PRACTICED IN TIMES OF THE PHARAOHS
 At a lecture delivered in London recently Dr. F. M. Sandwith, consulting surgeon to the Khedive of Egypt, is reported as saying that the first surgeon of whom he could find any record lived at the time of the fifth Egyptian dynasty, and must have been court doctor to the Pharaoh some 4000 years before the Christian era.
 The first surgical instruments of which anything was known, said Dr.

THE F. W. MATTHEWS CO. FUNERAL DIRECTORS
 235 Spadina Avenue
 Telephone 791 and 792
 MOTOR AMBULANCE SERVICE 138
 inclined to endorse the argument presented by the member for South York (Mr. Maclean). Minorities were not adequately represented in this country, and even as between the two political parties there was not true representation upon the basis of population.
 Referring to Postmaster-General Peibler's statement a few days ago to the effect that the Liberals had a large majority of the parliamentary delegation from Quebec, he said they had a very slender popular majority in that province. The government, he said, had a majority of 48 in the house, altho its popular majority at the general elections of 1911 was only 14,491. There were at present 72 Conservative members from Ontario and only 11 Liberals, altho at the last election the Conservatives polled 289,000 votes and the Liberals 24,000.
 Mr. Borden, replying to Mr. Graham, said that in 1908 the Conservatives had a popular majority, but the Liberals did not hesitate to retain possession of the government, having elected 48 more members of the house. It would be difficult to carry on the government under our party system if the representation in the house was accurately based on the popular vote. He feared the present inequalities could not be corrected unless the government was prepared to adopt the principle of proportional representation. That principle had received the endorsement of Earl Grey and many eminent statesmen, and might well engage the attention of the government, but so far as the present redistribution bill was concerned, no effort would be made to carry the principle into effect.

PIANOS AT 50c A WEEK.
 The Old Firm of Heintzman and Co., Limited, 192-195-197 Yonge Street, Toronto, are making a big clearing of Square Pianos on payment of fifty cents a week. In price the pianos range from \$65 to \$150 each— all guaranteed in good condition.

---AND THE WORST IS YET TO COME

MEAGHAM AND SMITH GET SIXTY DAYS EACH ON RAILWAY PROPERTY

High Court Action to Collect Betting Debts Aroused Morality Department.

Convicted of having conducted a common betting house at the Cameron Hotel, Meaghan and Smith, both well known in sporting circles, were yesterday sentenced to sixty days in jail by Magistrate Denison. It came out in the evidence that John Greenwood and H. B. Leasher had brought a high court action against young Meaghan and his father for recovery of \$4800, said to be owing by them for bets.

RECOMMEND PUBLICITY AS CURE FOR INEQUALITY IN ASSESSMENTS AND ATTENTION TO INCOME TAX

City Surveyors Issue First Instalment of Report on Assessment Department—Say Rolls Should Be Published, Annual Land Value Maps Issued, Taxes Cut on Improvements to Remedy House Conditions

The first instalment of the report of the city surveyors upon the assessment department urges more attention to the collection of income tax and more publicity of assessed values of land. They suggest the annual publication of a map showing the assessed values of land in all parts of the city. The report states: "Publicity, and publicity alone, will ensure equity and fair play in making assessments. The assessment act provides adequate and sufficient means for handling complaints and adjusting errors in the assessment roll, but the court of revision can do nothing on cases not brought to its attention. To do this, property-owners and the general public must be informed."

"Under the present procedure, the only requirement of the assessment act in the matter of publishing the assessment roll is that the roll must be on file for public inspection in the office of the city clerk. This provision is meagre, and wholly incompetent to bring to the attention of the great mass of property-owners and tenants the true situation in the assessment of property."

"If land value maps were to be prepared annually for the entire city, it would be a wise provision if such maps were given the widest publicity."

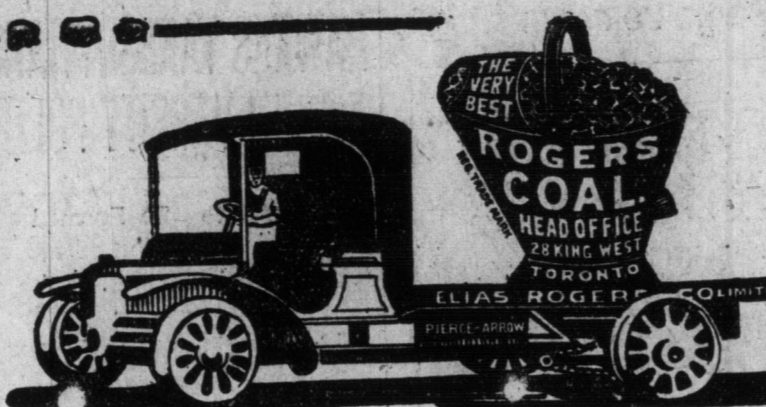

Cut Taxes on Improvements.

"It has also been recognized as a fact that housing conditions are poor, but full discussion of the effect of reducing the rate of taxation on improvements has never been given its proper place in the consideration of these problems. If, twenty years ago, Toronto had recognized that the way to stimulate building was to subsidize improvements, thru a reduction in the rate of taxation upon improvements, it might not be facing to-day a condition where the city has been forced to furnish the capital for providing decent housing conditions."

"The important point for consideration at this time is that something must be done to improve living conditions, and the city, and consideration should be given to this fact in deciding what principle should be adopted for distributing the cost of government thru assessment of real estate."

Effect of Business Tax.

"According to the provisions of the act the assessed valuation of the land occupied by the person carrying on any business is used in determining the amount of business tax to be paid. Thus an office building, which is assessed at \$800,000, may have 100 tenants. While the real estate tax is a lien on the property, the amount of the valuation is apportioned among the tenants according to the assessed value of the space occupied by each. The assessed value of such space is then used as a basis for determining the business tax, so that the tax bill to the tenant will be made to show the real estate tax (proportionate to his space) and the business tax computed on the basis of the value of this space. On the same bill is also stated the amount of his income tax."

RUSH PREPARATIONS TO OPEN NEW BRANCH LINE

Canadian Northern Officials Busy on Saskatoon-Calgary Section—To Replace Bridges.

SASKATOON, Feb. 17.—Officials of the Canadian Northern are anxious to open the Goose Lake branch from Saskatoon clear thru to Calgary. The only barrier to such a move is the ruling of the Dominion railway commission that the line cannot be completely operated with the temporary bridges spanning the river just east of Calgary.

R. J. Mackenzie, vice-president of the C.N.R., and J. R. Cameron, assistant general manager, were traveling west when they learned of the railroad commission's decision. Quickly arranging for a special train, they gave orders to clear the tracks so that they might reach Calgary at the earliest possible moment.

Superintendent B. T. Chappelle, with headquarters at Saskatoon, who joined Vice-President Mackenzie and Assistant General Manager Cameron on the trip, was with them in Calgary, and it is said they looked over the situation very thoroughly. It is assumed that efforts will be made at once to comply with the ruling of the railway commission in respect to the removal of the temporary bridges.

Meanwhile, it is stated, the C.N.R. will endeavor to have the entire line ready to open at about the same time the Grand Trunk Pacific plans to enter Calgary with its branch from To-

WILL INSIST ON TEST OF LITERACY

Members of Senate Committee Amazed at Attitude of President.

WASHINGTON, Feb. 17.—Information that President Wilson would veto the immigration bill if it is sent to him from congress with the literacy test amazed members of the senate immigration committee. Many of them confessed tonight that they were bewildered, inasmuch as they had determined to retain the literacy test in their draft of the immigration measure as it passed the house, under the impression that the president would accept the bill if it passed the senate. An interesting session of the committee is looked for tomorrow.

Two weeks ago the committee directed Senator Smith of South Carolina, the chairman, to consult with the President Wilson on immigration legislation. It was said today that the members especially desired to learn whether the veto might be directed at the literacy provision of the Burnett bill. Some of the senators were inclined to the belief that it would be a waste of time to take up immigration reform at all if the restrictive literacy test would again fail.

At the last session of congress the literacy bill was passed in the senate over President Taft's veto, but it failed in the house.

OFFICIALS PREVENT STRIKE OUTBREAKS

Crothers' Policy Appears to Have Reduced Industrial Unrest Materially.

OTTAWA, Feb. 17.—(Special)—Labor conditions thruout Canada generally were never in such a quiet condition as they are at present. There are fewer labor troubles than there ever were, and, including those out of work at Nanaimo, B.C., there are today in all Canada fewer than one thousand men out of work on account of labor troubles. This is the statement of the labor department.

The condition of things has been largely brought about by the policy pursued by Hon. T. W. Crothers, minister of labor in appointing fair wage officers in different parts of the country. When Mr. Crothers became minister there were only two fair wage officers, and they were both stationed at Ottawa. He found that when labor troubles broke out at distant parts of the country, the parties concerned had locked horns somewhere in appointing fair wage officers who could reach the scene. He therefore stationed one officer at Vancouver (J. D. Niven), another at Winnipeg (H. S. Good), two in Ontario (W. D. Killins and E. N. Compton), one in Quebec (Victor Dubreuil), and still another one is to be appointed for the maritime provinces. At present, Mr. Dubreuil attends to the maritime provinces, but the district has been found too wide, and so one more fair wage officer will be appointed shortly to attend to the interests of the labor men in these provinces entirely.

The policy of the minister has not been to await the breaking out of labor troubles, but to have the fair wage officers inquiring constantly into labor conditions in their various parts of the country, and endeavor to settle grievances and avert the trouble rather than settle it after it has broken out. In this he has been eminently successful, as the present calm situation in labor circles proves.

ROSE CULTURE GAINS GROUND IN ONTARIO

At the annual meeting of the Rose Society of Ontario at the Margaret Eaton School it was announced that rose culture was making great strides forward in Ontario, and that three shows for the display of roses on a large scale would be held in the province in the coming year. E. T. Cook, vice-president, occupied the chair and said that the membership had greatly increased, that the members were enthusiastic in promoting the growth of this flower, which the society is anxious to make the flower of Ontario and the garden flower of Toronto. J. T. Moore, Moore Park had greatly helped the society by his influence and active support.

NINETY-FIVE YEARS OLD YET WIELDED AN AX

Despite her great age of 95 years, Mrs. Mary Lamireaux was able to wield her son-in-law, George Vaughan, with an ax when he attempted to build a house on an Alberta avenue lot, of which the aged lady tried to regain the title before Justice Britton yesterday. Mrs. Lamireaux sued her daughter, Mrs. Vaughan, for a declaration that the lots is hers.

She says she bought it years ago from a Mrs. DuVernet, who has since left the city, and that her daughter had the lot transferred to her own name at a time when she loaned the money to keep up the payments. One of the neighbors swore that Mrs. Lamireaux lives by herself and is still able to go out and do a day's washing.

Judgment was reserved.

AKED STILL PRESIDENT

Church Federation Refuses to Accept His Resignation.

SAN FRANCISCO, Feb. 17.—By a vote of 74 to 19, the church federation refused last night to accept the resignation of Rev. Charles F. Aked, pastor of the First Congregational Church, as president of the organization.

Dr. Aked had been criticized for saying in a sermon he did not adhere to the orthodox belief regarding the virgin birth of Christ.

TWO FROZEN TO DEATH

Were Within Sight of Lumber Camp When Overcome.

WILKESBARRE, Pa., Feb. 17.—Two lumbermen, Jerry Sheehan and Joseph Kelly, were found frozen to death in a snowdrift on South Mountain yesterday. They were within sight of the camp when they were overcome. Sheehan was found with his head under a tree stump, his last effort to gain shelter. The thermometer registered about two degrees below zero.

MOTOR BUS AS SOLUTION

Oliver Hezlewood, past president of the Ontario Motor League, and president of the Canadian Automobile Federation, will address a luncheon at McConkey's at 1 o'clock today. His topic will be: "The Motor Bus as a Solution of Toronto's Transportation Problems."

The luncheon is under the auspices of the Ontario Motor League, but all interested in automobiles will be made welcome.

POWER PLANT EXPLODED

One Workman Killed and Another Mortally Wounded.

BLAIRSVILLE, Pa., Feb. 17.—With a roar that was heard 26 miles away the mixing house of the West Penn. Powder Company, located at Tunnelton, six miles from here, was blown to pieces by an explosion today. Robert Caugherty was killed and another workman mortally injured.

CONTRACT AWARDED FOR ONE HUNDRED THOUSAND

(Special to The Toronto World) CORNWALL, Feb. 17.—A scheme is on foot locally whereby the Dominion Government may be asked to rearrange the boundaries of East and West Kent in the redistribution bill now before parliament. There is a population of 25,000 in East Kent, according to the census, and 31,000 in West Kent. It is proposed to make the River Thames the dividing line between North and South Kent, with the City of Cornwall, which is now in West Kent, to be placed in East Kent. The plan would distribute the population more evenly, with about 29,000 in West Kent and 27,000 in East Kent. It is understood that the rearrangement would meet with approval from both parties in Kent.

STRIKING TEACHERS WERE SUCCESSFUL

Minimum Salary to Be Provided—Quit Work Two Weeks Ago.

LONDON, Feb. 17.—The striking teachers of the elementary schools in the County of Hereford have won their fight for a minimum salary and the strike, which started on Feb. 2, was declared over today.

The National Union of Teachers, which had guaranteed its members full salary for a period of five years, succeeded in forcing the education department of the county to grant substantial increases in the teachers' salaries. They had demanded a minimum salary of \$500 per annum, instead of the \$450 they had hitherto received. When they struck on Feb. 2, 80 of the 120 schools under the jurisdiction of the council were closed, and the educational work of the county was stopped, except in a few cases where headmasters, assisted by their families, made an effort to continue it.

James Corner, vice-chairman of the Herefordshire County Council, today resigned his office owing to his utter opposition to what he terms the "surrender" to the teachers.

BELGIAN KING INJURED BY A FALL FROM HORSE

BRUSSELS, Feb. 17.—Albert I, King of the Belgians, broke his left arm today when he was thrown from his horse while riding in the forest of Zingst, not far from the battlefield of Waterloo. His majesty's escape from even more serious injury was a narrow one, and the report of the accident caused much public concern in the Belgian capital. The king's physician, however, allayed anxiety by declaring that no graver consequences were likely to ensue from the accident, as the king's general health is good, and he is a young man, not yet thirty-nine years of age.

ATTITUDE OF HUGHES TERMED GROTESQUE

LONDON, Feb. 17.—The Army and Navy Gazette describes as grotesque to a degree Hon. Colonel Hughes' statement that the war office wants to force Canada to use Lee-Enfield rifles. The same journal reminds Col. Hughes that a new rifle having an aperture sight is now under consideration for use in this country. The Gazette says: "It may certainly be argued that the war office might have permitted Canadians, who in this respect are ahead of the rest of the empire, to use aperture sights, but according to most people this would have given them a distinct advantage over other competitors, so we doubt whether many Canadians would appreciate such concession."

AUTOMATIC GEAR SHIFT ON VIEW AT MOTOR SHOW

It is the Most Important New Feature and Draws Abundant Interest.

CANADIAN CARS ARE CLASS

European Models No More Luxurious Than the Products of Home Factories.

"There are more people here who are really interested in automobiles than on any day last year," said one of the big auto men to 'The World' last night at the motor show.

This fact was clearly indicated by the way in which the visitors examined the details and features of each car and asked questions which kept the salesman busy to answer.

Most of the men could be seen around the big touring cars or proabably looking over a heavy motor truck while the women ran to the finer and more elegant types of cars, limousines and electric.

Probably the most important feature shown is the automatic gear shift. With this appliance, which is electrically operated, the changes in gears are made by the pressing of a button. This improvement is illustrated in several cars and caused considerable interest.

With the one man top, another new feature, one person can easily throw up the hood, as it does away entirely with fastenings.

Canadian Cars Good.
That Canadian automobiles are on a par with foreign built models is illustrated in the McLaughlin six. A large grey-colored touring car of this type attracted considerable attention. With its stream line body, its spacious tonneau and convex mud guards it is easily one of the finest cars of its type exhibited at the show. The McLaughlin Co. are also showing a roadster and several other cars of good appearance.

Fords of All Kinds.
To illustrate the advance that has taken place in the manufacture of Ford cars since 1904, the Ford Motor Car Co. has miniatures of the different makes of Fords from that date to the latest 1914 model. Since the show opened last Saturday, the Ford Co. has sold nine cars, which is good evidence of the demand for lower priced autos.

Another Canadian manufactured car has a good exhibit, of moderate priced cars. In the Keegan car, which is made in Brantford, some of the latest improvements in auto manufacture are embodied, such as wire wheels, the Northway motor, the Salisbury axle and the Delta starting and lighting equipment.

New Packard Top.
Packard cars have, with other improvements, what is called the "one man top." All that is necessary to put up the hood is easily accomplished by one man, as no fastenings are to be secured as with the ordinary hood. A fine model is the 648. This car is roomy, built along good lines and has attracted considerable interest. The Ontario Motor Car Co. is agent in Canada.

The Hudson Popular.
Hudson cars, which are manufactured in Detroit, have apparently taken

OUR PATENTED TIRE

MADE TO FIT ANY DETACHABLE RIM

A serious defect common to many tires, but not found in Dunlop tires, is loosening of the tread. Dunlop treads are built into the tire, not stuck on; the deep resilient rubber absorbs all shock between the tread and tire fabric. From this feature alone, motorists save at least 30 per cent. of tire life.

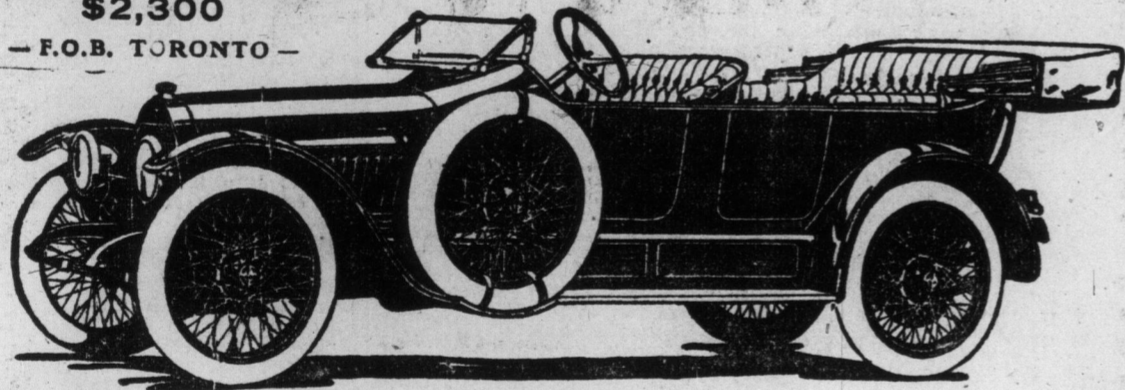

The easiest tire to fit and the least expensive to use because it has most rubber and largest air chamber.

By all means Buy Dunlop Tires—Traction Treads keep you safe, and, as thousands of motorists are proving, more than double your mileage.

The Dunlop line consists of Tires for Automobile, Motor Truck, Motorcycle, Bicycle and Carriage, Rubber Belting, Packing, Hose, Heels, Mats, Tiling, and General Rubber Specialties.

HUDSON SIX-40 \$2,300

— F.O.B. TORONTO —

20 Sixes—Only One Four At the Automobile Show

What more can you ask as proof that the Six is the only type of car you can wisely buy?

There are 20 makes of cars on exhibition at the Toronto Automobile Show, selling at \$2,000 and over.

According to the manufacturers' own statements as to the total number of cars that will be made of each type for the season of 1914, there will be 26,000 Fours selling at \$2,000 and over, and 40,500 Sixes.

Above \$2,000 the Six has been supreme for a long time. Now the Six has supplanted the Four above \$2,000.

Now, Which Six Did It?

The HUDSON Six-40, with phaeton six-passenger body, sells at \$2,300, and that is \$375 less than the nearest Four of similar size and quality.

The HUDSON Six-40 goes up to 18 1-2 miles to the gallon of gasoline—15 miles per gallon would not be a high average—and the Four with which it would be most naturally compared, averages less than 14 miles to the gallon.

The HUDSON Company has built Sixes so long that the type is not an experiment with them. That isn't true, we think, of all Sixes.

See the Triangle on the Radiator

SEE THE HUDSONS AT THE SHOW

DOMINION AUTOMOBILE CO., LIMITED
Corner Bay and Temperance Sts., Toronto.

Mark well this statement, you who are about to buy a car at above that price. Since the Six has eliminated the Four in every price field it has entered, what must you think of the used car value twelve months hence of any Four you might buy now in the \$2,000 to \$2,500 class?

Think twice before you pay \$2,000 or more for a Four.

You undoubtedly will buy a Six—then be sure you get the right Six—the HUDSON Six-40.

Electric self-starting and lighting. The easiest riding car without doubt you have ever ridden in, and we think the most attractive streamline body yet designed.

Just see this car. Also, if you are interested in a more impressive car, examine the HUDSON Six-54—price \$2,950—the equal in every detail of performance, quality, appearance and finish of any car at any price.

the fancy of Toronto auto buyers, as already we saw sales have been made. There are five Hudson models shown, including limousines and touring cars. The Hudson Sedan is one of the finest types of limousines ever shown in Toronto. The body has a beautiful effect, acquired from many improvements, that they intend an interesting appointment. The Dominion Auto Co. are also showing a Stevens Duryea six and a five-ton Peerless dumping truck.

One of the popular models shown is the Paige, another American-made car. The roadster is of exceptionally good design.

Automatic Gear-Shift.

The Haines car, with the automatic gear-shift, was an interesting exhibit. With the automatic gear-shift, which is electrically operated, all that is necessary to change the speed is to press a button on the steering wheel.

The Jackson, the Sultana and the Olympic form an interesting exhibit. All these cars are built along modern lines. The Olympic has a large roomy tonneau, and in other ways evidences high-class auto manufacture.

The Henderson six is one of the high-class cars of the show, while the four-roadster was the subject of considerable discussion.

The Detroit Lozier.

In the Lozier, which is made in Detroit, several good features are dominant above the general beauty of the car. Besides the new one-man top improvement, this car is fitted with what is called the special Lozier mountain-climbing engine, which is claimed to not only combine the smoothness in operation of the usual six-cylinder engine, but also the economy of some of the smaller and less powerful types.

In the Reo car a fine illustration is given of the effect of the stream body and a shown to advantage. These cars, which is made in St. Catharines, combine several other good features as the Reo starter. The heavy Reo commercial vehicles were the object of admiration of several prominent manufacturers who visited the show.

Big Cadillac Exhibit.

One of the largest exhibits is that of the Cadillac, which is being handled by Hyslop Brothers. They are featuring a two-speed rear axle which gives four speeds forwards and the dropping steering gear, which allows easy access to either seat from both sides of the car. Three sales for Cadillacs were closed yesterday. There are altogether seven models shown, including a limousine, roadster, touring car, sedan and a coupe.

The Pullman Co. has an exhibit in the annex, their first representation at the local show. In their cars are embodied such good features as the one-

man top and the electric gear-shift, which add to the general appearance of the model.

An illustration of English auto manufacturing is given in the Sunbeam car, which, while of different design to the American and Canadian product, is along pleasing lines.

SILENCE IS GOLDEN IN AUTOMOBILES.

Silence in the operation of any piece of mechanism is in itself convincing proof of mechanical excellence, correct design and good workmanship.

We sometimes reach a desired end by a round-about way. Columbus gave the world a great continent while he was searching for a pathway to the harbors of the East Indies. And in the same incidental way the demand of the motor buying public for quiet cars gave them better design. The one follows the other as naturally as night follows day.

To secure quietness of operation, the efforts of automobile engineers were directed to the refinement and improvement of the entire mechanism. It was a gradual process of smoothing away the crudeness of early design.

The point is very aptly illustrated by Mr. A. E. Wilson, manager for the Jackson Car Company of Ontario, Limited, who said:

"Silence in motor car operation is a development that has come with the gradual mechanical improvement of the automobile itself."

"I can very distinctly recall the early days of the automobile, when one could hear the approach of a horseless carriage when it was still some distance away."

"But what a wonderful change a few years have wrought. Now, no sound announces the approach of an up-to-date motor car. Take the Jackson cars as an illustration. Eleven years of improvements and refinements have brought them to their present state of practical silence in operation."

"If I were asked what it is in Jackson cars, which contributes most to their silence, after correct design, I would say it is the expert, painstaking workmanship plus the constant, careful inspections during the process of putting the car together."

"Given a car whose parts are well made and well fitted together, and there will be little noise when these parts are in operation."

SPANISH VILLAGE WAS WIPE OUT BY FIRE

MADRID, Spain, Feb. 17.—Fire destroyed the Village of Espinosa De Les Caballeros, in the Province of Avila, last night, and despatches received here refer to the village as being dead and injured. The flames broke out in the dead of night, and were fanned into violence by a strong wind until every house in the place was on fire.

Espinosa De Les Caballeros is a small agricultural centre with about 250 inhabitants.

DIocese Includes North Pole.

LONDON, Feb. 17.—A pleasant interview with Bishop Lucas of Mackenzie.

AUTO OWNERS

For Sale—A limited number of Non-skid tires, well-known Canadian make, all firsts, fully guaranteed, at less than wholesale price. BOX 34, WORLD

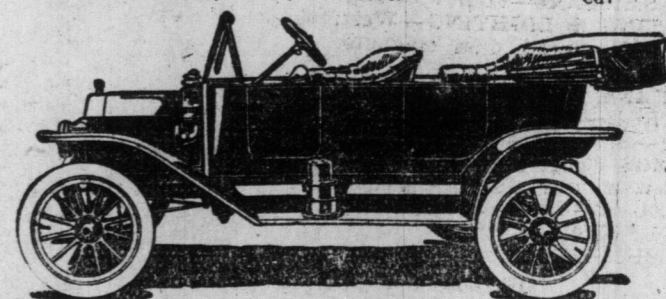

River, Canada, whose diocese covers six hundred thousand miles, appears in The Evening News tonight. "The diocese includes the North Pole. I don't think we shall put a mission station there just yet," remarks the bishop. He sails for Canada tomorrow, and will straightway start on a thousand-mile journey among the Blonde Eskimo.

Jackson No Hill Too Steep
No Sand Too Deep
At the Zenith of Automobile Accomplishment
Is the **JACKSON "SULTANIC" SIX**

Unsurpassed in Comfort, Riding Ease and Silence.
SEE THIS CAR AT THE MOTOR SHOW.

Early in the science of building good motor cars, we arrived at the decision that the six cylinder car was bound to eventually become the King of the Road, and Jackson engineers constructed and tested out to the most minute degree a six cylinder engine which would take its place among the finest cars of the world. Today we have in the Jackson "Sultanic" Six what we sincerely believe is the finest motor in the world. It has been proved out in the hardest sort of service, and in the severest road and track racing.

Absolute silence, void of all apparent vibration, has been developed, and the perfect comfort, riding ease and spring axle embodied in this luxurious model places the "Sultanic" Six foremost among the best cars. In power and durability it cannot be excelled, and presents a picture of majestic superiority. This is the year of six cylinders—It will be a year crowned with success for the Jackson Sultanic.

We will be pleased to demonstrate the Sultanic in competition with any car manufactured. Have you seen the "Majestic" and "Olympic" models? They, too, are on exhibition at the show.

PUBLIC WARNED AGAINST RADIUM

Medical Society Deprecates Blind Faith in Power to Cure Cancer.

PITTSBURGH, Feb. 17.—A warning against blind faith in the cure of cancer by radium was addressed to the public tonight by representatives of the American Society for the Control of Cancer. It is planned to hold similar meetings in various parts of the country.

The speakers tonight pointed out that the radium treatment of cancer is as yet a matter of experiment, and the successful results have been obtained chiefly in the treatment of external cancers, particularly of the skin. A sufficient quantity of radium and the required experience in its use will not be available for some years, and in the meantime it is practically certain that large numbers of people are likely to be deluded by false hopes. The first principle in cancer treatment is the extreme danger of delay, and thus far a thoroughly qualified operation seems to hold out the only hope for a cure.

Of the thousands of cancer cures brought forward practically none of them yield satisfactory results, and the warning cannot be made too strong against public faith in the frequent announcement of cancer cures by other than surgical methods.

According to the speakers, radium has probably been shown to exert a definitely curative effect on certain of the moderately malignant and superficial cancers of the skin, mouth and other readily accessible mucous membranes, provided it is applied while the cancer is still local, and in the early stages.

Slow Speed is Best Test Of Modern Automobile

No longer does the automobile demonstrating driver "hit her up" to show prospects how fine a car he sells. Speed has been banished into the limbo of the "has been" and the "once was." The modern motor car salesman has learned that the best possible test of the efficiency of a motor car is the slow speed. Not how fast, but how slow is the cry. The tremendous growth of the modern American city, and the need for a car that will operate under difficult traffic conditions has made necessary a motor that will pull the car steadily, smoothly, without jerk or vibration at speeds as low as two and three miles an hour on high gear. Only this can best results be had, and only thus can the pleasure of driving a car in the city be retained.

This change in demonstrating methods has been brought about by car buyers themselves. They have learned that when the law limits speeds to a maximum of hardly more than 25 miles per hour in almost every part of the country, it avails little that their car is capable of high speeds of 60 or 70 miles per hour. They have learned that the real test of the "good car" is the slow speed. Yet tricky drivers of a car that fails in a slow speed test are able to "put it over" on the prospect unless watchfulness is exercised. An expert driver can so manipulate his clutch pedal, cutout and throttle that the car will travel at a speed much lower than it really would if the clutch were fully engaged and the cutout silent. Of course, says Mr. M. Thompson, the local Hudson distributor, who explains the real idea, this slipping of the clutch and clever scheming of the driver is only needed where a car is incapable of meeting the test of slow speed. In cars like the Hudson Six-40 or Six-54 where the six-cylinder motor will pull the car steadily at as low a speed as 15 to 20 per cent of water, is deposited as a continuous blanket four and one-half feet wide and a quarter of an inch thick. Even fine particles are removed, and the solid product may contain as much as ninety-nine and five-tenths per cent of china clay.

NEW RULER OF ALBANIA TO VISIT KING GEORGE

BERLIN, Feb. 17.—Prince William of Wied left today on the way to London and Paris to pay his respects to King George of England and President Poincaré of France before assuming the sovereignty of Albania.

SLAYER OF SON DEAD BIG FORTUNE LEFT

PARIS, Feb. 17.—Victor Pott, who shot and killed his son, Harry Fragon, comedian, last December, after a trivial dispute, died in prison today. He was to have been tried on the charge of homicide. Pott was 84 years of age, and, as there are no relatives living, so far as known, and Pott left no will, a large part of Fragon's fortune, which is estimated at \$400,000, will go to the French Treasury.

PROFESSORS WON.

The faculty team of the University of Toronto Chess Club were successful in defeating the student team in a close match, which was played at Principal Hutton's residence last evening. The faculty players were in the lead throughout, winning by a score of 5½ to 4½.

McCONKEY CASE TODAY.

Forty-nine witnesses have been summoned by the police to appear at the McConkey trial today, when Ernest G. E. McConkey will be charged with allowing riots and disorderly conduct in his tavern on New Year's Eve. The case adjourned a week ago.

PASSENGER TRAINS COLLIDE.

Eight Seriously Injured and Nearly Fifty Others Slightly Hurt.

SPRINGFIELD, Mo., Feb. 17.—Eight persons were seriously injured and nearly 50 slightly hurt in the collision which occurred at midnight at Nichols Junction, four miles west of here, between two passenger trains on the St. Louis and San Francisco Railroad.

BORDEN CLUB TO MEET.

Hon. George E. Foster and Hon. W. H. Hearst will be the chief speakers at a meeting of the Borden Club in the Odellville Temple, College street, on Wednesday evening, Feb. 24. Ladies are invited to be present. There will be music.

LEAVES ESTATE TO WIDOW.

Robert McBride, for many years doorkeeper at the parliament buildings, left an estate valued at \$480,000, made up almost entirely of real estate. A nephew, John H. McBride, commission merchant, has been appointed executor of the will, which leaves everything to his widow.

Saves 15 Per Cent of Its Cost Every Year

THIS new lightweight Lozier Six is a \$5,000 or \$6,000 car—in everything but the price; the price is only \$4,250.

We reduced price—not quality. And we reduced weight—not strength.

You save \$1,000, no less, in first cost.

You save around \$600 a year in upkeep.

The Lozier "Light Six" is a 15 per cent investment; it returns 15 per cent of the price every year in money saved. Around \$600 a year it saves you in "gas," oil, tires and repairs. Several hundreds of pounds scientific reduction in the weight saves you several hundreds of dollars yearly.

\$4,250, with a yearly dividend of \$600, is a fine investment—very, very fine, indeed, when you consider the fact that you saved \$1,000 when you bought your car.

We brought out a much lighter car, which the public wanted; production arose, "overhead" decreased, and down came the price.

This car among other cars is what the trained athlete is among other men, or the conditioned race horse is among other horses. It carries no superfluous weight. It is light on its feet, gets away wonderfully fast, shows great snap, flexibility, power and speed on the roadway.

Light Six \$4,250
Light Four \$2,800

REGRET EXPRESSED BY LORD MURRAY

Flyer in Marconis Indiscreet, He Admitted—Investigation Not Checked.

LONDON, Feb. 17.—The recent pacifist scandal in connection with the purchase of Marconi shares by members of the British Cabinet was revived today in the house of lords, together with the whole question of the secrecy of party funds and the purchase of titles of nobility.

Lord Murray of Elibank, who a short time ago returned from South America where he had acted as the agent for the projects of Lord Cowdray, made his first appearance in the upper house, where he gave a statement of his dealings in American Marconi shares before he was enrolled, and while he was the chief Liberal whip in the house of commons. He said that when he had purchased the American Marconi shares he was convinced that the American company had nothing to do with the British Government contracts, and was distinct from the English Marconi company. Looking back now, he said, he thought it might have occurred to him that his action would be open to criticism. He concluded: "I deeply regret that I did not give the matter more consideration, and view it from all possible aspects. It was an error of judgment, and not of intention." Will Consider Further.

MOTOR MANIAC AN AMERICAN.

LONDON, Feb. 17.—Lee Bond, the demented automobilist of Lyndhurst, Hampshire, who tried to commit suicide in London yesterday after his arrest on Sunday, is understood to be an American citizen. The United States consul at Southampton has taken charge of his effects and searched his papers, among which he found a letter of identification, No. 2744, issued on Oct. 9, 1911, by the Shanghai branch of the International Banking Corporation of 75 Wall street, New York.

LAND SURVEYORS HOLD CONVENTION

Members of the Association of Ontario Land Surveyors are gathered in Toronto for their 22nd annual meeting, which opens yesterday and continues until tomorrow. Yesterday afternoon papers were read by H. T. Routly on "Contour Survey on Abitibi River," by H. Dempster on "Survey in British Columbia" and by E. W. Neelds. In the evening L. B. Stewart spoke on "The Ontario and Manitoba Boundary" and later J. P. Whitson, roads commissioner, northern development branch of lands, forests and mines, Ontario, gave an illustrated talk on "Colonization in Northern Ontario." He described the agricultural products of different districts and told how settlers were taking up much land.

TORONTO LEPELERS' AUXILIARY ADDRESSED BY MRS. McCLURE.

Gates of China Open for the Gospel, She Says.

The regular monthly meeting of Toronto Auxiliary of the Mission to Lepers was held yesterday afternoon in Toronto Bible College, Mrs. Willmot presiding in the absence of Mrs. Tress.

DRIFT ICE BAFLED STEAMERS.

VINEYARD HAVEN, Mass., Feb. 17.—Shilling craft which had safely weathered the storms of the past few days encountered a new danger today when they ventured from their anchorage to find Vineyard Sound full of drift ice. Steamers were able to plow their way through the heavy fields, but vessels bound for the shoals upon said found navigation extremely hazardous.

C.P.R. EARNINGS.

MONTREAL, Feb. 17.—C.P.R. earnings for week ended Feb. 14, \$1,733,000; same week last year, \$2,200,000; decrease, \$467,000.

My Free Book Contains Good News for You

IF YOU LACK THE HEALTH AND STRENGTH OF THE BODY THAT YOU SHOULD HAVE. My book explains why it is probably your own fault that you remain weak, and why you are becoming weaker each day. It tells you how I have cured cases which have been given up as hopeless, and where-in you may gain wonderful benefits from the very outset. It is a book for men and women of any age. It shows you how Nature is patiently waiting for you to give her a chance to help you. This book is worth its weight in gold to you, yet it will cost you nothing but a post-card or stamp in writing for it. Now do not pass this by and say: "It is like the rest of them; I am disappointed and discouraged," but get this book now and be surprised, joyous, at the prospect of a

Sure, Permanent, Home Cure.

To those who are run down, and who have lost the force of vitality, who feel gloomy, despondent and unable to battle with the affairs of life, who have Rheumatism, Back Pains, Weak Stomach and Kidneys, and feel generally as if they needed to be made over. If that means you, come to me now.

Dr. McLaughlin—Dear Sir—I have worn your Belt for nearly three months for indigestion, and will say that I am well satisfied with the results, as I have not felt it since the first month. I can eat better, and I feel better in every way. I do not think I will have any further trouble with it, and I feel very grateful for what your Belt has done for me. Wishing you every success, I remain, Yours truly, W. H. HEALDLEY.

It not only restores vigor and increases nerve power, but it cures rheumatism, pains in the back and kidneys, indigestion and constipation, and all troubles which result from weakness of any vital organs. You cannot get fresh strength and vigor out of drugs. Quit drugging and use Electricity, which is Nature's true invigorator. My Electric Belt gives a continuous current of electric force. My Electric Belt will cure: Nervousness, General Debility, Weakness of any kind, Stomach, Heart, Liver and Kidney Troubles, Rheumatism, pains in the back and shoulders, Sciatica, Lumbago, Indigestion, Neuralgia, Constipation, Dyspepsia, and all evidences of physical breakdown.

FREE BOOK—Cut out this coupon now and mail it. I'll send this book without delay, absolutely free. Call if you can. Consultation free.

VICE-REGAL SPEECH TO ANNOUNCE BILLS

Redistribution of Seats in Legislature Made Necessary by Census.

FOUR NEW MEMBERS

Will Make Their Bow to the House - Central Prison to Move.

(Continued From Page 1).

assisting the farmer by the increase of district representatives and the raising of attendance at the college at Guelph.

The N. O. Railway Progress.

The notable business accomplished by the Timiskaming and Northern Ontario Railway during the fiscal year and the receipt of the federal subsidy will constitute a paragraph and in the same connection the growth of the mineral industry of the north will be remarked.

Regulars' Guard of Honor.

The guard of honor in connection with the opening will be drawn from the Royal Canadian regiment under the command of Captain Eaton, and the traveling escort will be of Royal Canadian Dragoons commanded by Lieut. Hetherington.

Four New Members.

Four new members will make their bow to the House for the first time. These are Colin Cameron, of North Grey; Geo. S. Henry, of East York; J. B. Falls, of Peel, and John McFarlane, of East Middlesex.

New Faces in Front Row.

The seating arrangement of the house has been subject to considerable revision and the front row shows some new faces. Hon. James Duff for the first time in his life will have an unobscured view of the leader of the opposition.

Opposition Seat Changes.

The opposition undergoes a similar process. The long vacant seat of Hon. A. G. Mackay was claimed by Sam Clarke of Northumberland. Then follows Win. Proudfoot and J. C. Elliott. With the exception of C. M. Bowman, the Liberal attack will be directed at Sturgeon Falls, the opposition sits in the little left-hand division, cut off from the rest of the house by an alleyway.

FREEZING QUICKSAND TO KEEP IT FROM SLIPPING

While making excavations recently to the foundations of a building in Berlin the workmen discovered that it was necessary to go ten feet below the foundation of the adjoining buildings.

BALL-BEARINGS BEING USED ON RAILWAY TRAINS

Some account of the tests of ball-bearings on railway cars that are being made in Sweden has been given in a consular report. For eighteen months such bearings have been kept in regular service by the Karlstad-Munkfors railway on a bogie-truck passenger car pulled by a benzine-electric motor and it is estimated that the operating cost has been reduced seven per cent. There has been also a saving in lubrication and other costs.

TRANSMITTING MOVING PICTURES BY TELEGRAPH

Photographs are now regularly transmitted by telegraph, and theoretically it is quite possible to send a cinematographic series of a happening in Paris so that it can be

1889 GOT WORK.

The heavy fall of snow on Sunday night provided work for 1889 married men who have been in the ranks of the unemployed for some time. Most of them were taken on by the works department, while the parks commission and the street cleaning department took on several hundred more.

RESTING PERIOD IN LOCAL MARKET

Speculative Side of Market Has a Tinge of Pessimism.

FRACTIONAL DECLINE

Brazils and Barcelona Are Among the Heaviest Market Issues.

The action of the Toronto stock market yesterday gave evidence of the presence of a resting period among many of the speculative issues.

The public demand for these stocks has for the time being been stilled and the sagging process should continue until cut short by a new demand caused either by a short interest, a new public following, or renewed inside operations for a rally.

Bread and Maple Leaf, recently so active and strong, subsided slightly on profit-taking, but the demand for the shares is still keen.

LONDON MARKET CLOSED STEADY

Weakness in Early Hours of Session, But Covering Strengthened List.

LONDON, Feb. 17.—Money and discount rates were firm today and the market absorbed the \$2,750,000 new gold offered in the open market, and the price was advanced 3/4 to 7 1/2 s 9-8 net.

The stock market opened weak on dearer money and further realizing, but advanced in the afternoon on local and Paris re-purchases and talk of an early reduction in the French bank rate.

American securities opened lower. Covering strengthened the list during the forenoon, and later New York buying helped the advance, and made the closing steady.

Glazebrook & Cronyn, exchange and bond brokers, report exchange rates as follows at the close: Sellers. Counter.

Bank of England rate, 3 per cent. Open market discount rate in London for short bills, 2 1/2 per cent.

BROOMHALL'S CABLES

LIVERPOOL, Feb. 17.—Wheat opened firm on strength in Winnipeg yesterday, firmness of Manitoba offers, better demand for Australian cargoes, strength in spot here, and buying by local millers.

Continental demand shows a renewal of activity, and firmness with which good wheat is being held is leading to apprehension.

Corn—Firm, with shorts covering on firmness in Buenos Ayres and Rosario, strength in spot here, and decreasing stocks.

Argentine visible shows an increase of 1,255,000 bushels, and a decrease of 1,000,000 bushels.

Foreign bids are higher, and unfavorable reports are being received from late planted, which already shows a partial failure.

Advice on Investment

Of the various functions of a trust company the making of investments is of first importance.

Our experience is at your disposal regarding the safe investment of your funds and the negotiation of mortgages and other securities.

Trusts and Guarantee COMPANY, LIMITED, 43-45 King Street West, TORONTO, ONT.

NEW FLOTATIONS QUITE NUMEROUS

Announcement made of Forthcoming Capital Issues on Large Scale.

STOCKS WERE STEADY

No Definite Trend to Prices at New York Yesterday.

NEW YORK, Feb. 17.—Altho London sent over a lower range of prices today and then offered stocks here, the market presented a fairly firm front. It failed, however, to make up any of the ground lost in yesterday's decline, scarcely deviating from the preceding close.

Trading was light and speculative conditions were virtually unchanged. The market turned heavy toward the close, but fluctuations of the speculative favorites were limited to fractions.

The significant development of the day was the series of announcements of forthcoming capital issues. New York Central applied for permission to issue \$70,000,000 bonds. Great Northern made known its proposed sale of \$19,000,000 stock, and Insular Rapid Transit sold \$19,000,000 bonds.

With the recently announced issue of \$55,000,000 Southern Pacific convertibles, the amount of new securities arranged for in the last few days amounts to over \$150,000,000. It had been expected for some time that the improved conditions in the investment market would result in a large amount of new financing, and the rate at which new capital is now being sought indicates that in the judgment of many of the principal financial interests, the time to enter the market had arrived.

Great Northern preferred stock dropped over two points on the announcement of the new stock issue. Great Northern "rights" sold in the outside market at 2 to 2 1/2.

Traders felt today that the importance as a market factor of the interstate commerce commission's further suspension of the 5 per cent. freight rate had been over-emphasized yesterday. Washington advices explained that, altho suspension until Sept. 15 had been ordered, it did not mean that the decision would be delayed until that time, and that, in fact, the ruling might be made in May or June.

This better understanding of the commission's action helped to steady railroad stocks today, but attempts to retrieve yesterday's losses, which followed due principally to the suspension, were defeated. Bonds were unchanged.

LAURENTIDE DID SOME CLIMBING

Vague Rumors Associated With Advance—Gains Well Distributed.

MONTREAL, Feb. 17.—Smart recoveries were scored by a number of the leaders which were affected by the reaction of Monday, and despite some irregularity in the general market, the more active stocks displayed strength.

Heavy buying of Laurentide, which carried that stock up 8 3/4 points to 191 3/4 in the morning session, was the outstanding feature of the market. No satisfying explanation for the aggressive and sustained demand for the stock was forthcoming. Rumors of deals in connection with the sale of the 100,000 horsepower which the company is now developing were current, but were not supported by information in inside circles. Profit-taking in the afternoon brought about a sharper reaction, the price going off to 189 3/4 at one time, but it recovered later to 189 3/4, leaving a seven point gain on the day.

Concurrently with Laurentide's strength Power rose 2 1/2 to 223 1/2, sold at its best price in the final transaction. Shawinigan went 1 1/4 higher to 142 and closed one up on the day. Among industrials, Textile, which rose three points to 86 5/8, a new high for the movement, and closed 1/2 off the best, was the chief feature.

An improved tone in C.P.R. was about the only influence from outside of direct bearing on the market here. The C.P.R. rally, however, was slight in view of the recent decline, the stock showing a gain of 1-2 on the day. Brazilian was weaker, easing off 3-4 to 83 3/4 and recovering only 1-4 of the loss. Richelieu was another stock on the heavy side, falling 1-2 to 109 3/4.

Total business—10,203 shares. 500 mining shares. \$2000 bonds and \$20 unlisted shares.

MINING MARKET BROADENING OUT

Several of the Lower Priced Issues Dealt in Yesterday.

PETERSON WAS STEADY

Rumor of a Deal With British Interests Again Appears on the Street.

Based on the rumor that the deal had been closed for the sale of the Teck-Hughes mine at Kirkland Lake to a British syndicate, Great Northern was quite active on the street late yesterday afternoon.

Peterston Lake was also quite active after the market closing, and a rumor was circulated yesterday that a deal for the sale of the company's assets was being put thru which would make Peterston worth at least 10c a share.

Another rumor was affoot to the effect that the deal for the sale of Porcupine Gold would be consummated within the next few days. It is said that under the terms of the agreement the sale would net the shareholders at least 22c.

The mining market is over it, however. Yesterday's mining market showed a broadening tendency, and several of the lesser lights came in for considerable attention.

Peterston Lake continued strong, despite the fact that there is a rush on the part of many holders to get out and take their profits. After touching 40 on several occasions during the morning session, the price became decidedly stronger and closed around 44.

The mining market is over it, however. Yesterday's mining market showed a broadening tendency, and several of the lesser lights came in for considerable attention.

Dividend Notice

Kolinger Gold Mines, Limited (No Personal Liability). The regular four-weekly dividend on the stock has been declared payable on Feb. 15, 1914.

Owing to the practice of cleaning up in the month of December in order to make as good a showing as possible for the fiscal year, which ends Dec. 31, the profits for January are below the average of the last few months.

The surplus on Jan. 31 amounted to \$1,564,331, made up as follows: Cash \$1,411,852; Outstanding shipments and ore on hand, \$152,479.

Total January income, \$82,461. Less marketing, concentration and operating expenses, \$53,135. Net profit for Jan., 1914, \$29,326.

Production for January, 1914: 140,357 lbs. of silver, at a gross value of \$79,338.

Total January income, \$82,461. Less marketing, concentration and operating expenses, \$53,135. Net profit for Jan., 1914, \$29,326.

STRONG TONE IN GRAIN MARKETS

Wheat Touched Highest Point of Year at Chicago Yesterday.

Chicago, Feb. 17.—Wheat for May delivery touched today the highest price of the year. Active demand from Europe was responsible. Closing figures were steady at virtually the top level of the day, an advance of 5-8 to 7-8c net.

Other grain, too, showed an upward trend. Corn 5-8 to 5-9c and oats 4-10 to 4-11c. In provisions, the outcome was 2 1/2 to 5c decline. Trading in wheat broadened out much more than has recently been the case and especially gained in volume after the fact became apparent that export call had been heard at Philadelphia, St. Louis and Kansas City as well as here.

Local grain dealers' quotations are as follows: Ontario oats—New, No. 2 white, 85c to 86c; outside, 83c to 84c, track, Toronto.

Manitoba flour—Quotations at Toronto are: First patents, \$5.80, in cotton 10c more; second patents, \$4.80, in cotton 10c more; strong bakers, \$4.60, in jute.

ST. LAWRENCE MARKET. Receipts of farm produce were 500 bushels of grain, 35 loads of hay, and three loads of straw.

Wheat, fall, bushel, \$0.95 to \$1.00. Barley, bushel, \$0.62 to \$0.64. Oats, bushel, \$0.40 to \$0.42.

Vegetables—Potatoes, per bag, \$0.90 to \$1.00. Beets, per bag, \$1.00 to \$1.25. Carrots, per bag, \$1.00 to \$1.25.

CATTLE MARKET BARELY STEADY

Receipts of live stock at the Union Stock Yard were 63 cars—349 calves, 1313 hogs, 242 sheep and lambs and 144 calves. The cattle trade was not as active as on Monday, and prices were easy. Dealers were slower in making purchases, and hesitated before selling the same prices, although \$8.50 was paid for 12 choice steers to the Swift Canadian Company by Dunn & Levack. On the whole the market was much slower than on Monday, and should there be a heavy delivery prices undoubtedly would go lower. Stockers and feeders were in demand at firm prices, while milkers and springers reached a higher level, one choice Holstein springer being bought by Fred Rowntree at \$115.

Sheep, Lambs and Calves Firm—Hogs Easier.

Twelve choice steers sold at \$8.50; good steers and heifers, \$7.75 to \$8; medium, \$7.25 to \$7.50; common, \$6.50 to \$7.25; canners, \$7 to \$7.25; good cows, \$6.50 to \$6.75; medium, \$5.75 to \$6; culls, \$5 to \$5.50; canners and cutters, \$3.75 to \$4.75; choice bulks, \$7.50 to \$8; good bulks, \$6.75 to \$7.25; medium bulks, \$5 to \$5.50; culls, \$4.25 to \$5.75.

Showing a "creped" effect, a special finishing process, now adapted by the "Fashion," with many exclusive novelties in black—on display Wednesday, Second Floor.

Black and Navy Serge Suitings

The popularity of the serge suit increases season after season. Never before has there been such a demand for these tailoring fabrics, and we have never had such a fine collection in every known weave and finish.

Best of English serges, in fine, medium and heavy twills. Mill finish West of England serges, in semi-chenille finish. Cheviots in fine and medium twills. English College serges, splendid wearing qualities.

Men's Cloth-finished serges, the best tailoring serges made, always retain their shape.

Wide Wale and Diagonal Suitings, for dressy suits and separate coats.

NEW WHIPCORD SUITINGS.

New Gabardine Suitings, in fine twill effects. New Bedford Cord Suitings, in light and dark navys and blacks. We are offering three special values of above at \$1.50, \$2.00 and \$2.50 per yard. 54 to 58 inches wide. Guaranteed pure wool, fast blues and blacks, London shrunk and unspottable.

Women's Tailored Suit for Spring

Modish Suits, with bolero coats, have deep collars of Chinese patterned silk crepe; some have kimono, others in robes. The color of the collars are repeated in the Oriental buttons, flaring tiered skirts give the fashionable width to the hips; materials include velvets, pebbles, diagonals, checks in fancy weaves and serges. Among the colors are mahogany, wine, bottle and sapphire green, Copenhagen, navy, black tango. Prices \$18.50, \$22.50, \$25.00 to \$45.00. Pretty Taffeta Suits, from \$35.00 to \$75.00.

DRESSES FOR PARTY WEAR.

A showing of new spring styles in crepe de chine, messaline, charmeuse silk and taffeta. Something new arrives every day. Inexpensive models showing the new Quaker collar, cuffs and vest of white chiffon, broad sash girdles, large bows at the back, and other models showing trimmings of marabou or rosettes. Colors yellow, pink, mauve, blue and white. Prices \$12.75, \$15.00, \$17.50 to \$25.00.
