Edited by Miss L. E. McCULLY.

A Short Lesson in How tol Speak.

By "how to speak," oratory is not meant. Only a proressional speaker has a right to teach that, and only a genius can learn it. But there are little things that might be learned by all of us in the direction of correct speaking. The Voice.

You are not speaking right if you are not breathing right. Don't breathe into your chest. Don't breathe into your diaphragm; don't breathe into your abdomen-breathe into them all. I have read a number of books on singing, one by Lill Lehmann, another by Christopher North, and more than I can remember by other people. Each has its own method. One says: "Breathe into your chest," another, "Be sure to breathe into your diaphragm." They are all right. You must not only breathe into the upper part of the lungs, but into the lower part of the back, the front, and everywhere. If possible, your pores should breathe freely, too. They were intended for that purpose. Having taken a full, deep breath, do not screw up your throat, draw in your chin, or an easy position, erect and natural, and the breath go out again till not a bit is left in your lungs. Practice speaking, beginning with simple modifications of the breath, such as "Ha Ha!," and see to it that the tone is not shallow, but comes from the soles of your feet up. If you have difficulty in getting your jaw relaxed (the jaw is the trouble almost always) practise the following relaxing exercise: Let the head hang forward, slightly bending the body at the same time. Take all control out of the jaw. Shake your head vigorously, letting the jaw swing loose. If it shakes freely when another person grasps your hand and shakes it, then your jaw is relaxed. Try the exer-

cise before a mirror.

A head tone is a nervous tone, resulting from a set jaw. The effect is twangy and disagreeable. A chest tone is an affected tone, resulting from too great vibration of the chords in the larynx, which produce the note as the air rushes thru them like wind on a wind instrument. Avoid all distortions of muscles in the throat, which tighten or loosen the chords of the larynx.

If you want to speak correctly, see that the tone does not stop in the roof of your mouth, for if it does the effect will be that of the "head voice." Let it come right forward to the lips; feel the lips vibrate as it passes thru. Your tones will be thus modulated, yet intensely carrying.
Have you ever noticed how well a

group of people who are excited and having a good time will sing? Very much better than at any other time. The fact is, sensations of pleasure give a feeling of being more keenly alive. Af-fectations slip away, muscles retax, na-ture speaks, and the tones of the human voice become deeper and more re-

Sgt.-Major Chaweth has returned home to Parry Sound, after spending Sketched from Life.

It happened in an open car the other night. The car, full to overflowing, joited noisily along East King-street, and the occupants, with two exceptions tions, settled themselves to a state of progressive discomfort as best they might. The exceptions were an elderly woman and her younger compan-ion. They talked together in low tones, except when violently inter-rupted by the bell or the raucous tones of the conductor demanding fares, and in the three back seats, just behind the two women, sat that proportion of the population which habitually accepts the permission to smoke in the "reserved seats." They smoke in the "reserved seats." They did not smoke especially aggressively, however, and a back draught carried the bluish vapor away.

After a sudden stop, in the midst of a hurricane of dust, the hero of the prief romance mounted the steps

our brief romance mounted the steps
-- not without considerable spluttering and blowing on his own part, and con-sequent attraction of the attention of his fellow passengers on theirs. He was indeed a large man—so large that had justice been done he would have been assessed at three fares—so large, that his shoulders, as it were, overlapped the seat behind him and caused the two women before mentioned to lean forward at a painful angle. After heaving a sigh of satisfaction as the contiguous tide of humanity receded into the corners of the seat and left him free to expand, our extensive gentleman proceeded to draw a huge "seegar" from his pocket and heavy "seegar" from his pocket, and, hav-ing lit it, drew in wind enough for a blacksmith's bellows at one breath, and emitted it again in the form of blackest midnight smoke. It was a very cloud, the precursor of a com

one of the two women choked—the One of the two women choked—the other sneezed; the youth with a Turkish cigaret in his sickly lips turned green. Some of the men retired to the back platform. But the fat man had found a friend. A lean and wizened figure of a man on the opposite bench leaned forward sympathetically. He presented the appearance of a dried nerring, and naturally had no antipathy to smoke.

"Hot night," he said suggestively. The fat man responded with warmth, and the two presently fell into conversation, which was grateful to the passengers in as much as it partially punctuated that stream of acrid smoke. After several themes had smoke. After several themes had been exhausted, the fat one observed: "Great fuss they're making (puff) about the women in London (puff); want votes! (puff! puff! puff!)"

"Women," he went on, "are flighty. avenue, are visiting They are never contented. As I say Falls and Buffalo. to my wife, 'Why don't they calm?' I tell her to look at me, and be contented. But she don't. As for giving hem votes, why I'd as soon give a dog or a cat a vote. They have no sense. What do they know about politics, and what business have they to leave their homes and wander about? Who keeps them? Haven't they us? Isn't that enough?" Bessie Pearce, Parkdale. Irene Gray. Reuben Pearce. Maggie Paddon. Janet Harvey.

Frank Harvey. Muriel Slack. Rowland Neill. Tom J. Stanton. Edith Stanton.

We welcome these early arrivals to our just-formed league, and hope that one of them may be the winner of the prize offered in the competition closing July 6th. A silver pin, with the letters, "T. W. H. C.," will be given that child who sends us the best letter, not over two hundred words, on the subject, "Why We Should Love and Protect Our Birds."

Contributions are to be written on one side of the paper only, and must be plainly signed with the name and address of the writer. Only members of the League can compete. If you are not a member, fill out the blank beneath, and send it with your letter.

I wish to become a member of The Toronto World Humane League.

1947-Child's Guimpe. Paris Pattern No. 1917.

All Seams Allowed. So many of the summer frocks of little girls are made to wear with a guimpe that a great supply of these necessary little underwaists is indis-pensable for neatness. As a general rule for making them, the model forms the best basis possible, and a wide latitude in ornamentation will give the desirable variety.

The pattern is in four sizes-3 to 9 years. For a child 6 years the guimpe needs 2 yards of goods 20 inches wide,

Dominion Government Pays Over Extra Subsidy in Good Time.

Hon. A. J. Matheson, provincial treasurer, received a telegram from the Dominion government yesterday announcing the issue of the provincial subsidy cheque for the half year. He was not aware if it was the intention of the Ottawa authorities to nclude the extra subsidy now being authorized by the imperial govern-ment. This will amount to \$400,000 or so, making a total of \$1,064,000.

Last year the total amount of the subsidy received was \$1,339,287.28. In future years it is expected to amount

to \$2.128.772.08 From 19 estates \$50,217 in succession duties was received by the Ontario treasury department in June. The total for the half year is \$541,417, of which \$200,000 came in equal sums from the Fulford and Eaton estates, which are not yet closed. Last year the receipts ending June 30 were \$390,746. The estimate for the year made by the provincial treasurer was \$700,000, and it now looks as the this would be exceeded

### How Pure Water Helps Office-Workers' Brains

BECAUSE the brain works but badly if the body is clogged with the sys-

tem's waste products-And at least ten glasses of water a day are needed to help the body keep itself clean inside. Less won't dissolve and flush out the brainslowing wastes.

But it must be PURE water. Better none than water that is the least doubtful.

Of course there is water to drink in your office, but-is it PURE water? City water is almost never really pure. Sometimes it is actually dangerous.

York Springs Water solves the office-supply problem. For ten cents a gallon this limpid,

crystal-clear, health-giving, will be brought right into your office ready for use. That is the special price to

refreshing, natural water,

business houses for York Springs Water - a dime a gallon, delivered. And the York Springs people for a trifling extra cost, will provide a handsome, sanitary water-cooler as well.

Tencents for a gallon's worth of brain-helping-of body bettering-a gallon of ideally pure York Springs Water.

You, and everybody in the office, will do all the better work for it. It is not an expense-it's an investment.

### TORONTO WIN IN 10 INNINGS BEAT THE BISONS BY 2 TO

Pitchers Battle at Diamond Park Between Milligan and McGinley - Baseball Scores and Records.

Tuesday's game at Diamond Park was a hummer and looks like a lucky win for Toronto. The Bisons had seven hits, Montreal including Murray's two triples, and no errors, while the Kelleyites grabbed ix singles and are charged with two errors. Militgan and McGinley fought gamely for pitching honors, and there was little to choose between them. Each passed two men. They kept the hits perfect. tered, except in an ining apiece. The Bisons proceed a thipse and single in the fourth for their only run, and the Maple Leafs bunched a couple in the tenth, each time a run being scored.

sixth was nothing short of phenomenal. Snafley and Phyle nailed hard-hit balls from the bats of McConnell and Murray in the fourth and ninth. Toronto was unlucky right at the start. After Thoney walked, Mitchell bunted a fly to the pitcher and the runner was doubled at first. Carrigan helped Mc-ing the runner off second. Murray's batting was clean, the both triples somewhat lucky. His first Woods 2b. Vandergrift three-bagger was in the fourth and resuited in Buffalo's only tally. Wit two out, he hit a short, low fly to right that Hoey ran in on, but had no chance to get. Instead, the ball bounded past, letting the runner to third. McAllister 10!lowed with a clean hit. Murray's second long one bounded over the right foul line behind an automobile and he was out later at the plate on Thoney's throw.

A base on balls, Carrigan's single, Mc-Ginley's sacrifice and Thoney's long fly scored Toronto's run in the third. Hoey opened the tenth with a Texas league.

DISORDER IN GUATEMALA. Prominent Citizens Arrested on Pre-

sident's Trumped-Up Charges. MEXICO CITY, July 2.-Word has been received in Mexico City that President Cabrera in Guatemala has caused the arrest of 160 citizens of that republic on the charge of alleged complicity in the recent attempt to assassinat him. All were thrown into prison, and later herded into squads of twenty, and tried in groups. Two bands have been tried, and many

of the accused sentenced to death. Among the men imprisoned are some of the most wealthy and prominent men in the country. These men have long been on Cabrera's black-list, and the charges against them were tru for political reasons, A note of protest will be forwarded to the powers by the diplomatic corps.
Absolute chaos reigns in Guatemala. Farm hands are pressed for military service, and crops are rotting in the fields. Troops are hurriedly rushing to

Rev. William McKay Chosen as Moderator New Reid Avenue Church.

Rev. Wm. McKay of Milton was yesterday elected moderator of the Toronto Presbytery, to hold office for six months.

The Presbytery granted permission c Reid-avenue mission to be organized as a congregation, and Rev. Dr. Wallace and the session of Bloorstreet church were authorized to carry this out. Leave was given to arrange for a mortgage of \$2000. It is expected the new congregation will call a minister at the next meeting of the Presbytery in September. The church extension committee will consider the idea of beginning permanent work near Gerrard and Jones-avenue, and at some point near Armstrong-avenue and Dovercourt-road. W. L. Findlay was licensed to preach, and Rev. H. F Thomas from Oliver Congregational Church and Rev. W. Stevens Smith, a member of the United Free Church of Scotland, will be received as ministers of the church in Canada.
Henry A. Berlis of Knox College was allowed the standing of a second year theological student, and H. W Johnston will be exempt from lectures n theology for the first year, but can appear for examination in September Congratulations were extended to Sir Mortimer Clark on attaining

TO GIVE DECISION?

The fire and light committee yesterday passed on several permits of a minor character. Incidentally there was some discussion as to the powers of the city architect to use his discretion in deciding whether certain constructions were fireproof or otherwise. The architect gave the personal opinion that he had the right to determine whether a structure came within the meaning of the bylaw regarding fireproof construc-tion, but Ald. McBride thought Fire Chief Thompson was invested with certain powers of discrimination also.

Building Permits.

Building permits for June, as compared with those for the same month a year ago, are as follows:

Number of new buildings. 587 571 Value of permits.....\$1,445,225 \$1,250,142 Careful ratepayers would do well to pay their taxes at the city hall rather. than trust to the mails, the city solicitor having advised that the city has no power to remit the penalty charge of 5 per cent. in cases where cheques, the mailed in time, are not received within the required period.
Smoke Consumers.

The conclusion that the smoke nuisance was chiefly due to lack of plant capacity and careless handling was reached at the convention of the International Association for the Prevention of Smoke, says Property Commissioner Harris, who is secretary-treasurer of the association, and has just returned from the Milwaukee meeting. It was considered that progress was being made, altho the general public might not have noticed any improvement.

Mr. Harris coincided with the views of Delegate Shubert of Chicago, held that prosecution should follow every case of neglect to comply with the regulations.

Vital Statistics. The vital statistics for June, as compared with the previous month, and with June, 1906, are as follows:

## **Cut Crystal Wedding Gifts** In a Great Variety

One of the most pleasing presents a bride can receive is a dainty piece of cut crystal. Nor can she receve too many of these sparkling presents, for every comes in very useful after she starts housekeeping. Our assortment is at its height, and you can choose some particularly fine pieces from our large and varied stock. We have both the American and the English-cut Crystal, both high-class and very finely cut. Our American goods are from the famous house of James Hoare & Co., Corning, and our English Crystal from the well-known factories of Thomas Webb & Son, Stowbridge. Each piece of Crystal bears the makers' stamp, which should be sufficient guarantee of the quality. Be sure and see our Crystal room before making your final decision.

WHERE'S ROCKEFELLER? Positively Seen in Four Different States on Sunday.

NEW YORK, July 2.-United States Marshal Henkel is wild-eyed and haggard. Any one who says "Rocke-feller" to him will get into trouble. For a week the sole business transacted by the marshal's office may be

summed up in the ward "Rockefell-Out in Chicago they want President John D. Rockefeller to tell the United States Circuit Court something about Standard Oil. Judge Landis has directed United States marshals in half a dozen states to get busy and serve subpoenas upon John D. and William Rockefeller, as well as upon Charles M. Pratt, I. Q. ## MEN, HERE'S AN OFFER

You can talk with the men and women who have been cured by my treatment, and that's worth considering. I might preach for years in my efforts to gather converts to my way of curing disease, and nobody would pay any attention to my arguments; but when I tell you I have cured your neighbor, Mr. Walker, or your old friend, Mr. Williams, and you can go and ask them about me and they tell you I have cured them, then I have given you proof, and you know that I can do all I claim. And I want you to give me

credit for what I prove.

There's nothing surer than the word of an honest man and when such men as these admit that I cured them, you know that I can cure you. Most of the Belts that I am selling now are to men who have been sent here by their friends whom I have cured. I think that is

the best evidence that business is a success from the standpoint of cures, as well as on the dollar side. Never mind waiting until you use the last dose out of that bottle from the drug store. Begin now. Call and talk your case over with me or send for my book. It costs you nothing. For over 24 years I have taught the great truth that "ELECTRICITY IS LIFE," and have proved the soundness of my doctrine by making cures when others have failed time and again. Others have aspired to do the work I am doing with my ELECTRIC BELT. They offer you electricity in some other form, or an "electric belt" that possesses no curative power whatever. They are like "boys on bladders" floundering in a sea of uncertainty—while to-day the DR. M'LAUGHLIN ELEC-TRIC BELT stands the world over as the most correct—the most perfect method of applying Galvanic Electricity to the body that has

PROOF FROM ALL PARTS OF THE DOMINION WILL BE FURNISHED ON REQUEST. WRITE ME AT ONCE AND

GET BONA FIDE PROOF OF MY CLAIMS. To those who are tired of paying without results, and to those who doubt if anything will help them, I make this offer: If you will secure me my pay when you are cured, I will let you have my Belt without paying me one cent in advance.

FREE BOK—Call and test my Belt free, or if you can't do that, send for my book about it, also free. No charge for consultation. OALL TO-DAY. DE SEND THIS AD.

Monday Buoyancy is Not Continued at New York--Local Securities Irregular But Firmer.

World Office. Tuesday Evening, July 2. The betterment in outside stock exchanges had an influence on local securities to-day, but the effect was slight and more in the way of small price advances than in increased business. The only activity in the market was in Rio Common and Dominion Bank shares. The former is still kept to the front by the pool in the clear hope that some outside buying will develop, but it is believed that the manipulation has proved a distinct failure on this occasion. Charles Head & Co. to R. R. Bongard:

A lower range of values this morning marked the opening transactions. London prices were off from ½ to 1 point, the latter for Union Pacific and Canadian Pacific. Sales to realize profits, and a further extension of the short interest, carried prices down about another point, at which level the market became dull and steady, later advancing until the early losses had been wiped out. ### DIVIDEND NOTICE

Notice is hereby given that a half-yearly dividend for the six months ending June 30th, 1907, at the rate of six per cent. per annum, has this day been declared upon the paid-up capital stock of the Company, and the same will be payable at the offices of the Company, on and after July 2, 1907. The Transfer Books will be closed from June 20th to June 30th, both days inclusive. Toronto, June 17 1907 JAMES J. that the market may be flexible. Nothing at present points to weakness. Ennis & Stoppani to J. L. Mitchell:

The market to-day has held rather stubbornly, in face of London sales and local offerings for both accounts. Improved general investment demand for stocks and bonds is reported. Comptroller Metz says he could have disposed of three times the issue of \$29,000,000 city bonds since Friday had the law permitted him to sell them without new advertisements. The Steel common is earning 4 per cent. to sell them without new advertisations. The Steel common is earning 4 per cent. more than in 1906, and, with the export and import trade in copper metal 81,000,000 pounds less favorable than last year, the tremendous increase in home consumption has stripped the market of surging supplies. Traders Take Advantage of News. But Are Unable to Break Prices to Any Extent.

World Office,
Tuesday Evening, July 2.
Cobalt securities were irregularly
dull in to-day's markets. The chief rading came from professional floor traders, who are still of the opinion that the markets offer two sides. The frequent in and out transactions of this fraternity give the markets a greater semblance of activity than they really sess. It was announced early to ay that a strike of the men on the Nipissing property had occurred, and this afforded an opening for putting out short contracts. Nipissing declined a small fraction at New but when it was observed that the influence was not as great as anticipated, stocks previously sold were taken back. Among the local mine men the Nipissing strike is not regarded as at all serious and it is thought that the men will very shortly return to their duties. The shipments from the camp for the week were not as large as expected and this had a slightly depress-ing influence on prices. The only real weak feature of the market was Cobalt Lake, which was sold in fair sized after the 2nd July. quantities at a respectable decline. The market as a whole remains largely in the hands of traders, who are at present practically able to make the going

New Mining Company. Hamilton Cassels, K.C., was at the parliament buildings yesterday in con-nection with the incorporation of \$7,500,000 mining concern. It will un dertake the development of mineral properties in the neighborhood of Port Arthur, the chief of which contain iron

A similarity in the name of the proposed company to that of an existing one caused a postponement until a sat-isfactory name could be selected.

FIND ON BIG BEN.

The latest report to shareholders of the Big Ben Cobalt mines says: It is with great pleasure we advise you that F. L. Cole, our mine superintendent, reports that he has uncovered a fine vein just northwest of our office building, which carries nickel and co-balt bloom at the surface. He advises sinking a shaft on this vein, and we will have some assays taken to find out its value and report the results in our next letter. Work is being con-tinued at the No. 2 shaft, which is now 70 feet deep. We are now putting in a substantial cribbing all the way We expect to drift from this shaft, and feel sure that we will find native silver when we intersect the calcite vein which angles to the west No. 5 shaft continues to improve and the prospects for making this one of ng shalls on the property

Dr. KOHR'S RESTORINE

New Century,—the most wonderful Medicine ever discovered. It is astoulating the Medicai world 10.00 cases cured in one inouth in Paris. The National Medical Board has recommended this Remedy for use in the Iusane Asylums where, as 13 well known, a majority of the male inmates are victims of lost Vitality in its most terrible form. In Europe the remedy is endorsed by all governments and is now used as a Specific in the great standing armies of both France and Germany. Stops losses in from seven to ten days so that they never refurn. Drains entirely cease after a few day's treatment. The skin becomes clean, the eyes bright. Confidence returns, step elastic, bowels regular. Headaches disappear. No more weak memory, the mind becomes bright and active. A Food for Brain and Blood. A permanent cure no matter how chronic the case. Just send us to-day your name and address plainly written and a 5 days treatment of Restorine will be sent FREE in plain scaled packs age. Do not hesitate a moment. We will treat not with success and with bonest confidence.

so many flies in the woods and mining camps that the men are quitting the mines and woods in gangs may possibly cause great surprise. Such is the case, however. Prospectors arriving here from Larder Lake and the new gold camp report the prevalence of large flies and myriads of fleas make life almost unbearable, especially if one is residing any distance back from It is also reported that the heat is ntense and sultry. However, there are always two sides to a story and it just possible that these tales of distress have been somewhat magnified. The discoveries that have been made late have caused great entthusiasm Developments have been diligently prosecuted, especially on some of the older properties, such as the Dr. Red-dick, Harris-Maxwell, Blue Bell and Lucky Boys.
