AN ENEMY IN DISGUISE. A new phase of corporate enterprise in Canada is its invasion of the newspaper field. Within the past six years the movement has grown to alarming proportions and to-day from coast to coast there is a chain of daily newspapers knowing no duty save devotion to their corporate masters.

Not so far from the Atlantic Ocean corporation journalism begins its way in the East. Two newspapers are largely sustained by the promoters of the Dominion Coal Company and the Dominion Iron and Steel Company.

A RACE FOR CANADA. The Rev. Mr. Barr's scheme for bringing British settlers to Canada has made such progress that he now wants forty additional townships for his people. At the same time, there is no sign of any decline in the American migration to Canada.

THE DEADLY COLD STREET CAR. Philadelphia doctors say that cold street cars are responsible for an epidemic of grip, severe colds and numerous cases of pneumonia. The passengers in 3000 ice boxes are described as shivering and suffering in silence, having lost the spirit of rebellion against their masters.

PREVENTING RAILWAY ACCIDENTS. Railway accidents furnish the Scientific American with a subject for a sermon, and the text is: "How much is a man better than a sheep?" The wholesale slaughter of passengers on American railways shows that human life is held too cheap in the United States and that the public is a long way behind some older countries in this respect.

AN EXTRAORDINARY CHARTER. There is something very extraordinary in the granting of a blanket charter to a junior member of a law firm and five clerks, to develop water powers and sell electrical energy, with a capital of six millions. Surely the people have a right to know who are the persons really concerned in an enterprise of this magnitude.

LOCAL TOPICS. A branch of the Ontario Bank has been opened at Waterloo. The Bruce Old Boys' and Girls' Association will hold their annual at home at McCook's on Thursday night.

TRANS-CANADA RAILWAY. Shortest—Oceana to Ocean. A Canadian Line. For Canadian People. Through Canadian Territory. To Canadian Ports.

Scientific American ought to be taken to heart in Canada.

A COMPETITOR'S ADVICE. It is natural that the Niagara Falls Gazette should belittle the effort of Ontario municipalities to obtain cheap power from Niagara Falls. The Gazette appeals to a constituency that is being built up by electrical energy at Niagara Falls, and it is anxious that the power should not be diffused.

It is in the interest of Niagara Falls, N. Y., that Niagara power should be transmitted to the industrial centres of Ontario. Niagara Falls prefers that its industries should be run at a less cost than is required to operate competing industries in this Province.

The American city wants to make Niagara Falls its own peculiar benefactor. Selfishness and jealousy are the guiding motives. The Americans do not want to share the advantages of Niagara power with their Canadian competitors.

The people must be on guard against corporate designs as operated thru the agency of newspapers. When a newspaper is found fighting the battles of corporations it is time to scrutinize the capital which controls it.

The Americans have been none too vigilant in protecting the public against the American developing companies at Niagara Falls. Because the corporation is the power behind the newspaper. In one case the corporation is working in its own interests and does not attempt to conceal the fact. The corporation newspaper, on the other hand, works in the interests of its corporate controllers, even while it affects to be working in the interests of the people.

It is time these papers who oppose the public interest, who fight the battles of the corporations, should nail up over their door the name of their owners.

Ontario municipalities are not considering the possibility of transmitting power several hundreds of miles. They know from actual experience how far electrical energy may be transmitted.

The Rochester Union and Democrat can hardly find words strong enough for the absurdity of the contention that President Roosevelt, in naming the American members of the Boundary Commission, should select men who had not taken sufficient interest in the question to express opinions upon it.

The Hon. John Dryden has intimated that he sympathized all along with the farmers who wanted to connect their telephone system with the C. P. R. station, but that he was irritated at being approached by The World on the subject.

Editor World.—A letter published in The World on September 29 last, and signed "Markham Farmer," was as follows:

"Editor World.—You are discussing the cattle trade and why beef is lower here than in Chicago. Now, what about the hog market? For years hogs have been lower in the Toronto market than in Chicago, ranging from 90 cents to \$2 lower. What about the hog trust? One buyer buys for all the packing houses in Ontario, and our milk and barley fed pork brings 3 cents per lb. more in England than Chicago pork. Is a substitution to be entered among the farmers, and give Armour or Swift a million dollar bonus to start packing houses in Toronto. I am sure it would pay them."

At that time prime hogs were quoted in Toronto \$0.87 per hundred; in Chicago \$7.00. In Buffalo \$7.00. As every farmer who reads the market reports knows at present time all hogs coming on the Toronto market last week were purchased at first hands at \$5.00 to \$5.40 per hundred. The World last Friday recorded a sale of hogs shipped by Messrs. Hisey of Creemore, Ont., to the Buffalo market, which were sold at \$7.25 per hundred. It is stated that the same quantity of pork carted to Buffalo by the Buffalo market, passing eight thru Toronto, the latest government returns from Washington show as follows: "In January this year exports were valued at \$2,575,294, against \$3,712,428 a year ago. In January this year \$2,121,404 worth of hams were exported, against \$1,742,422 during the same month last year. January's lard exports were \$3,536,966, against \$3,801,772 in January, 1902."

Now, I do not think the farmers of the United States packers are exporting hog products at a loss. It is a clear fact that there is a difference of \$1.80 per hundred between Toronto and Buffalo. The question is: Who suffers financially in the difference? I say the "Markham Farmer."

Editor World: This is an immigrant's view of the farm help question. I think the farmers of Ontario have had too much help—they want too many to come over, so that they may get help cheap. If a few immigrants would write to the press and give their experience in this country it would do no harm. Let them just tell the truth and no more. One thing I have to complain of is that too many farmers make great promises and then never think of carrying them out. The promise is to give the farm help, and a Yorkshire farm hand, gave me a very bad impression of the country. Let the farmer be honest. If it is only to the hired man, if married, like myself, I pity the poor fellow, for he will have to live in a house that the farmer would not stable his horse in. In fact, I do not know three houses in York and Vaughan Townships that were built for farm help that are fit to live in. Many of them are being pulled down and done away with now. Three years ago I saw enough of the farming as a farm help, and if a few others would write to your valuable paper, I would like to see my own experience of my three years as a farm help. Yorkshire Farm Boy.

REGINA STANDARD. The Standard, with all deference for the opinions of Messrs. Tabbot and Davis, still holds to government ownership of railways. We are glad to hear that on this question the farmers of Manitoba and the Ontario farmers and the Hon. A. G. Blair, Minister of Railways.

THE FARMERS' INSTITUTION. The Farmers' Institute has passed a resolution which is a very apt presentation of Western opinion. After reciting the difficulties of the present situation, they say: "Therefore, this Farmers' Institute of Bird's Hill, in the Province of Manitoba, respectfully urges the government of Canada, instead of granting aid to the Grand Trunk Pacific Railway or any other transcontinental railroad promoted by a private company, to proceed at once to develop our present system of government railroads, by extending the Intercolonial Railroad from Montreal to the West, and eventually to the Pacific Coast, as suggested by Hon. A. G. Blair, president of the Intercolonial Railway, and in conformity with the almost unanimous desire of the people of Western Canada."

WESTERN BORDERS OF TRADE AND FARMERS' ASSOCIATIONS. Western borders of trade and farmers' associations might well consider the advisability of passing resolutions similar to this one, rather than hasten to endorse every plausible promoter who tickles the public ear with stale platitudes and predictions.

Either let the government ownership or permission to adopt the shortest and most natural routes. Connection with American lines will give competition, but the Hudson Bay route is the shortest and best of all. Bonanza may be necessary for the construction of railways to carry our products out by the rock regions of Lake Superior and the St. Lawrence valley, and as Eastern Canadians deny us the use of natural routes, it does not become them to object to the construction of natural routes. The great essential of trade are the great essentials to the up-building of the Northwest.

A STORY OF MISERY. There all the cold and misery of the past few weeks a destitute family are sheltered themselves in the comfortable loft of a dilapidated tenement in the W. J. Limer's residence at 14 Carleton Street.

This story is a pitiful one, and not unusual. A father, rather than to seek food, spending for the satisfaction of their thirst what they might buy for their own care, and paying for the same purpose the clothing given to their little ones by kind-hearted people in pity for their condition as they begged from door to door for the food that they might eat.

The father's name is Brown. He formerly earned 27 cents a day. He got no work and not being able to find permanent employment was obliged to give up his home. Searching for a new living place he found this dilapidated tenement, in which he and his family are being taken to relieve the destitute condition of the parents.

The children have been placed in the care of the St. Vincent de Paul Society and will be taken to Sunnyside and cared for by the church while their parents are being taken to relieve the destitute condition of the parents.

Will Spend \$25,000. A very large meeting of the vestry of St. Paul's Church, Bloor Street, was held last night to consider the report of the Finance Committee on the proposed \$25,000 program, extensive alterations to the church in the rear of the building. The program is very built and the transcripts are to be deposited and widened. With the improvement to the building to be begun will be installed the cost of the entire remodeling being in the neighborhood of \$25,000.

Chow's Against Cigarettes. Rev. Dr. Chow last night last to attend on the Sunday School of the Premier Laurier in Ottawa to-day for the purpose of opposing the manufacture and sale of cigarettes in Canada. When seen by The World before starting, Dr. Chow said that he had been deputized by the Ottawa Cigarette Association to go to Ottawa to-day from here expressing himself.

Kinder-Sinfonie. A musical novelty called "Kinder-Sinfonie" was given by the pupils of the school of the sisters of the church under the direction of H. Weigand in Grace Church, Elm Street, last night. The program was long, but the numbers were so well performed, the audience was interested all the time.

Old Argonaut Boys' Smoke. The Old Argonaut Boys' Club held a smoke in St. George's Hall on March 12. All past and present members are requested to get into line.

Had Over 500 Boils.

This may seem an exaggeration to you, BUT IT IS TRUE. All sufferers from Bad Blood should read about this miraculous cure by BURDOCK BLOOD BITTERS.

CURED IN 1885. Mr. David F. Mott writes us from Spring Valley, Ont., in 1885. He said: "I suffered from impure blood and had over 500 boils, but since taking BURDOCK BLOOD BITTERS I am entirely cured, and can recommend it to any person troubled with bad blood."

CONFIRMED IN 1901. Mr. Mott writes us from 62 Broad St., Utica, N.Y., under date of Dec. 31st, 1901. He says: "Some time ago I received a letter from your firm, saying that some years ago you received a testimonial from me, stating that I had over 500 boils. Yes, sir, I had, and I must say that I have never had the reappearance of one since I took the cure of your BURDOCK BLOOD BITTERS. I thank God that I have had good health ever since, for I was a great sufferer. I wish B.B.B. a world of success, which it surely deserves."

EAST & CO., 300 Yonge Street, Cor. Agnes.

Cold Weather

Cannies now require very careful attention. Cold winter blasts often cause drafts in birds' corners, and no attention is given until too late. Follow directions on each packet and feed only COT-TAM SEED, and spring will find your bird happy and well. [129]

Romaine's Trial Commenced. Isaac Romaine appeared before Magistrate Denison yesterday morning in answer to the charge of murdering Louis Goldstein on the night of Feb. 6. Mrs. Mary Goldstein, the widow of Mr. Jackson, Dr. Powell and John Jackson gave evidence similar to that given by the doctor. The doctor brought out at the inquest. The case was adjourned. The defence will endeavor to prove that the death was self-inflicted during the scuffling.

DR. A. W. CHASE'S 25c CATARRH CURE

Carnegie's Offer Accepted City Owns Suitable Sites

Council Decides Not to Ask the Ratepayers to Express an Opinion on the Proposition—Old Central Library Site Praised—Wrangle Over Locations.

The offer of \$500,000 from Andrew Carnegie for libraries was yesterday afternoon accepted by the City Council, only three aldermen opposing it. There was, however, a division of opinion as to how the sites should be provided, and it was decided that the city own enough sites of its own to accommodate the central library and three branch libraries.

Mr. Carnegie will be formally thanked for the offer, also half a dozen aldermen considered that unnecessary. Board's Recommendation. The matter was brought in the Board of Control report which recommended the acceptance of the gift, subject to a by-law to raise the money required for the purchase of sites by the issue of debentures being submitted to and receiving the assent of the ratepayers only qualified to vote upon money by-laws.

The City Solicitor, however, in a conference with Mr. Fullerton, reported that the city could not raise any money for the Public Library by a rate to exceed a quarter of a mill on the assessed value of property for any sum on which the interest and sinking fund being added to the ordinary annual expenditure will make the annual rate exceed a quarter and on the other hand, without submitting the matter to the ratepayers, it would be to use an unwise device.

Mr. Noble said the city had got to put up with a new library soon anyway, and that the city should not be put to the test of a referendum. He argued that the city should not be put to the test of a referendum. He argued that the city should not be put to the test of a referendum.

TURNED WIFE AND CHILDREN OUT A PASSIONATE DRUNKARD.

Wife Writes a Grateful Letter to the Samaritan Remedy Company, Whose Tasteless Samaritan Prescription Enabled Her to Reform Her Drunken Husband.

"How could I express my gratitude for the good you have done for me. My husband was a passionate drunkard and he was before he has been drunk only twice since I have taken your medicine. He has broken all the furniture in the house, and he has broken all the furniture in the house, and he has broken all the furniture in the house.

PROTEST OF CITY COUNCIL PERIODS OF PAIN.

Miss Gertrude Williams, Chaplain of Woman's Christian Association of Detroit, and Two Other Women, Tell How Lydia E. Pinkham's Vegetable Compound Cures Periodic Suffering.

Will no woman is entirely free from periodical suffering, it does not seem to have been the plan of nature that woman should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors.

CASE MADE AGAINST CAVEN Judge McCrimmon Overrules Defence and Hears Deputy Returning Officer's Own Statement.

Students Who Acted as Sentinels Tell of Irregularities They Saw.

Before Judge McCrimmon yesterday morning, the trials of the referendum of the case before the court yesterday was that of Thomas Caven, who was appointed returning officer at polling booth No. 25, South Toronto, when the vote was taken last December. He is charged with neglecting to administer the oath to certain persons when they tendered their votes under names not their own, and with neglecting to properly examine and count the ballots.

Robert B. Watson, a dental student, who acted as sentinels for the temperance people, was sworn for the Crown. By his evidence it appears that three men entered the booth and wanted to vote, giving their names as George McCarthy, Thomas McHenry and John Cassidy. When requested to swear them Caven held up the Bible to one of them, and said: "You swear you are the man you say your name." He refused to swear the other two on the ground that there was no sense in swearing everybody. When asked to read the oath to them he replied: "This is no Methodist prayer meeting." The men were allowed to deposit their ballots, and later, when three priests came in and gave the same names, they were sworn to vote for the prohibition.

John Cumming, and Arthur and Albert Smith, accused of relieving Morris Killmer of \$100, who was unable to take care of himself, will appear again tomorrow. William Moulton, charged with the assault on Jack McLaughlin, will appear on Saturday, and will spend a year at the Central Prison. William Nolan, for making remarks on the streets, was engaged in making an arrest, was fined \$1 and costs or ten days. Leo McClintock, charged with the assault on a woman, was committed for trial. The Beauty brothers, said to have robbed the Queen's Hotel, were charged with the robbery of the Queen's Hotel. George T. Murphy, for entering Gordale's pawnshop and taking therefrom some jewelry, was sent to jail for 30 days.

Intentional Club. The Unitarian Club was addressed last evening by John A. Ewen, on the question of "Municipal Ownership." The subject evoked a spirited discussion by those present, among whom were: Ex-Ald. Lawrence, Mr. Sunderland, Philip Thompson and Albert Horton. The consensus of opinion was strongly in favor of the ownership of public undertakings in their nature monopolies, and involving the grant of public franchises.

Forestry School for Toronto. As a result of a visit of Dr. McLennan to Oxford County on Saturday and Sunday, a forestry school will be formed there. Rev. Dr. McKay was elected president, and V. A. Sinclair secretary-treasurer. The question of the establishment of a school of forestry was discussed, and a resolution passed urging the government to locate one at Toronto. The Convocation Hall scheme was actively endorsed, and the erection of a large residence was favored.

Series of German Fires. Berlin, Feb. 23.—Several gales swept over Germany Saturday and Sunday, and a series of destructive fires, spread by the wind, occurred. In the village of Huerthen, near the Rhine, 100 houses were burned, and at Kleinen-Rhenish Prussia, 44 buildings were destroyed. At other places, reported elsewhere, with some casualties. At Dolina, Galicia, more than a hundred houses were destroyed.

Harness, Hunt, Saddle Horse Society. Matters of general interest to the horse industry of Canada will be discussed at a meeting of the executive of the Harness, Hunt and Saddle Horse Society, to be held at 4:30 on Thursday afternoon. Aims, objects and things to be desired will be embodied in a platform to be presented to a general meeting of the society, to be held a short time before the Canadian Horse Show.

A 60-Pound Masking. There is no on display in the window of the Grand Trunk City Ticket Office, northwest corner King and York-streets, a very fine specimen of maskings, weighing 60 pounds. This is one of the many large fish caught in waters reached by the Grand Trunk Railway.

Teachers Appointed. The sub-committee of the school board met yesterday afternoon and decided upon the following transfers: Miss C. West, from Bloor and Spadina to the new school to be built at the intersection of Bloor and Spadina. Miss N. Baring to Yorkville school and Miss N. Baring to Yorkville school.

Fire Killed Three. Guthrie, Okla., Feb. 23.—By the burning of the residence of William Adams of Hillsdale, L.T., during Saturday night, three of his children were killed. Two were burned to death in the house, while the mother rescued two others, one of whom afterwards died as a result of burns.

Must Not Interfere With Services. New York, Feb. 23.—Magistrate Zeller today decided that it was not against the law for billiard and pool rooms to remain open on Sunday when they do not interfere with religious services.

FALSTAFF'S RAGGED ARMY. The Prototype of the Revolutionary Force in Venezuela. Caracas, Venezuela, Feb. 23.—The last army of the revolutionists under Gen. Ronaldo recently advanced to within four hours' march of Caracas. They were met by the forces of the government, and a battle was fought. The revolutionists were defeated, and the city was retaken.

Pale, Nervous School Girls. Overtaxing the Mind at the Expense of Bodily Health and Strength—The Benefit Derived From DR. CHASE'S NERVE FOOD. It is during the last years of school life that many a girl undermines her health, and prepares for herself years of suffering and weakness. Just at the time when important physical changes are taking place, there comes the school examinations, consequent confinement indoors, and excessive mental strain and anxiety. Instead of there being a sufficiency of rich food to meet the requirements of physical change, the blood consumed in the brain, and the demands of a diseased system can meet.
