STREET CAR ROUTES BEFORE RAILWAY BOARD

Counsel for Company Questions Right to Compel Construction of Additional Lines.

Adjourment until Friday, 18th inst., at 11 a.m., was the result of the Ontario Railway Board's hearing of the application of the city for new street car routes yesterday.

J. S. Fullerton, K.C., city councillor, filed additional clauses to the application suggesting the northwest route.

He questioned whether the city could enforce the construction of any route, and whether the board had any jurisdiction to order any new routes.

He also submitted that the board must consider whether the lines suggested would meet the needed conditions.

"We are willing to accept the Jarvis-street line and the one from the church to York," he said.

Defence was filed by the company in the over-crowding case, Mr. Oslor put in letters from the mayor, the manager and Engineer Rust.

Mr. Oslor objected that the board was not evidence. Engineer Rust was called and Mr. Oslor asked him:

"Do you approve of the sections on Adelaide-street covered by the amendment—Jarvis to Bathurst?"

"I would approve of that provided the extension to the northwest portion of the city was carried out at the same time," Mr. Rust would not approve of the Wellington-street extension.

"Otherwise your opinion as an engineer and expert is the same as ours as to the expediency and advisability of constructing these lines?" asked Mr. Oslor.

"Yes," was the reply. "Mr. Rust stated that he had recommended lines similar to those recommended in the Arnold report.

Mr. Oslor stated that he had recommended lines similar to those recommended in the Arnold report.

THE CITY'S SPECIAL AUDIT.

In April of last year the board of control, acting on a reference from the city council, recommended that Messrs. Henry Barber and Harry Vigson, chartered accountants, be appointed to investigate the present system of book-keeping and accounting in the various civic departments...

The city council and board of control will no doubt give full consideration to the reports and recommendations. Taking them as a whole, what the special auditors have evidently in view is the introduction of a system of individual responsibility centering in the city treasurer's department...

IMPERIAL TRADE AND THE PRESERVE.

In a second letter to The World appearing elsewhere in this issue, Mr. Elliot Crawshaw-Williams treats of the question of imperial trade. It is an able and temperate presentation of the issue from the standpoint of the British Liberal and free trader...

Without entering upon the merits of the controversy now in progress between the upholders of the present order and the advocates of change, concerning which, indeed, the British public is its own best interpreter...

It is a scheme for inter-imperial preferential trade is feasible at all few will deny that its tendency would be helpful to the cause of union. Mr. Crawshaw-Williams admits without hesitation that "if there were in England to-day a tariff in existence upon which modifications could be made favorable to Canada, Australia and the

WE OUTFIT HUNTING PARTIES

PROVISIONS BLANKETS UTENSILS MAPS, ETC.

MICHIE & CO., Ltd. 7 KING STREET WEST

other British dominions, such modifications would be made in a moment and by general consent. Evidently, therefore, he deems preferential trade to be advantageous, presuming its possibility, and this is one of the arguments which can properly be laid before the British people without inviting a charge of undue interference...

U. S. FOREST WASTE.

Last week the United States Forest Service published a circular in which Treadwell Cleveland, Jr., dealt with the conservation of the forests, soil, water and all the other great natural resources of the country. Speaking of the forest situation and the alarming consumption of timber, he said that it was now being cut at the rate of 500 feet board measure a year for every man, woman and child. In Europe, he added, they use only 60 board feet. At this rate, the circular states, in less than thirty years all the remaining virgin lumber of the United States will be cut and meantime the forests which have been worked over are generally in a bad way for want of care...

On the matter of conservation it is pointed out that there are other ways of aiding this besides reducing by one-half the present waste of forest products. The forests can be made to produce three or four times as rapidly as they do at present and this, it is explained, is as true of the virgin forest as of the cut over lands. Virgin forests, the circular explains, are often fully stocked with first-class timber, but it has been laid in very slowly on account of the wasteful competition constantly carried on between the rival trees. These trees that have reached maturity occupy space which should be made available for younger trees to replenish the stock. And again in forests too severely cut over, reproduction is slow and imperfect. Unless these wasteful methods are rectified, Mr. Cleveland sees but little hope for the future. The question for Canada is whether it is to profit by the experience of the United States and begin to do now what is necessary to preserve one of its most valuable and important national assets.

Tram shipments Fall Off.

KINGSTON, Nov. 2.—During October 3,707,219 bushels of grain from the west were reported at the canal office here and transhipped to Montreal via the St. Lawrence. The total shipments this year will not equal those of last year, when fifteen million bushels of grain was transhipped. It is expected that this year's total will be two million bushels less.

Justice Latchford's Decision in Interesting Case—Construction of Sutton Will.

IN THE HIGH COURT. Osgoode Hall, Nov. 2. Chambers will be held on Nov. 3, at 11 a.m.

Peremptory list for divisional court for Tuesday, Nov. 3: 1. Grip v. Thompson; 2. re Coxworth (Hensall); 3. Smith v. Hill; 4. Allan v. Williams; 5. Higgins v. R.; 6. McNeill v. Plotke and McCully v. Plotke.

Master's Chambers. Before Cartwright, Master. King v. Toronto Railway Co.—This was a motion to correct an error in a taxing officer's certificate (Judgment) in view of the uncontractual affidavit of the plaintiff's solicitor and of the bill of costs and the defendant is entitled to relief. An amendment could be made, but if defendants prefer to have it done, the matter may be referred to the master for a certificate of same. No costs of this order. A. J. R. Gordon, for plaintiff; W. Lockhart, for defendant.

Carriage Mountings v. Skinner—G. M. Clark, for plaintiff, moved for further and better particulars. A. C. Heighington, for defendant, contra. Order made as asked. Costs in cause. Hawes v. Beatty—H. Foster (Arnold) and G. for plaintiff, moved for an order for rescission of commission. Costs made. Costs in cause.

Arcti v. Bullen—A. R. Clute, for defendant, moved for delivery of certificate of claim or for discharge of certificate of his pendens. A. J. Keeler, for plaintiff, contra. Order made for delivery of statement of claim not later than 12th inst. Costs in cause.

Re Distributing Co. (Oilphant's case). H. H. Fadden, K.C., for sheriff of County of Peel, moved for interpleader. J. A. Macintosh, for liquidator; D. O. Cameron, for liquidator, consent to withdraw. Sheriff and cancellation of bond given by client. Motion enlarged sine die.

Armstrong v. McDonald—F. Aylesworth, for plaintiff, moved to amend claim by discontinuing defendant. Defendant, R. C. H. Cassels, for defendant, contra. Reserved.

Senn v. Smith—G. Smith, for defendant, moved for order to dismiss action for want of prosecution and for costs. H. E. Rose, for plaintiff, contra. Reserved.

Auerbach v. Hamilton—R. C. Macpherson, for plaintiff, moved for judgment for \$2400. J. F. Hollis, for defendant, contra. Motion dismissed. Costs in cause.

Ellison v. Butler—W. Mulock, for plaintiff, moved to set aside praecipe order for costs. H. J. Macdonald, for defendant, contra. Order made. Costs in cause.

Single Court. Before Meredith, C. J. Re Sutton Estate—W. T. Evans (Hamilton), for the executors of Joseph Sutton, moved for the construction of his will with four codicils attached, and for three adult beneficiaries, G. G. Farmer (Hamilton), for the widow, Charlotte Sutton, W. E. Middleton, K. C., for executors of Georgina Sherwood and for her adult daughter, R. McKay, for the executors of Mary A. Murray, M. C. Cameron, for the infants.

The questions for decision were whether the widow was entitled to a specific bequest of \$1200, or to one of \$1000, or to dower, as well as to a share in the residuary estate, as to whether Mrs. Adelie Murray bequeathed a share of Mary Adelie Murray bequeathed to her death before testator's death, and if not, whether the executors or her children. The questions were principally conflicting claims in the various codicils.

Judgment declaring that bequests to Mrs. Murray and Mrs. Sherwood do not lapse, but take effect under section 36 of the Wills Act. No order made as to whether the children should pay Mrs. Murray's share to her executors or to the children, but if executors in court they may pay the money down to the children. The executors of Sutton is entitled to a legacy of \$1200 or \$1000, as well as share in residuary estate, reserved to enable the parties to order of reference. The executors of Mrs. Adelie Murray bequeathed a share of Mary Adelie Murray bequeathed to her death before testator's death, and if not, whether the executors or her children. The questions were principally conflicting claims in the various codicils.

Re Gowling Estate—M. B. Peacock (Gowling), for the executors of the will of William Gowling, moved for the construction of the will. M. Jeffrey (Gowling), for the widow, Elizabeth Ann Gowling, M. C. Cameron, for the infants and profits of all the testator's lands are given to the widow for life. Costs of all parties out of the estate.

Single Circuit Court. Before Metcalfe—Judgment (H.). Appeal on behalf of Bruce Mackinnon Metcalfe from the certificate of the local master at Cobourg of Sept. 23, 1905. By order of June 28, 1905, it was referred to the master to ascertain the persons who are entitled to the moneys in court in this matter and the amounts due to such persons. The master of Alva Newton bequeathed to do this. The judge who made the order was not informed that this would be necessary. The master found that by the terms of Alva Newton's bequest the one-third of the corpus of his real and personal estate was vested in his widow, the late Sophia Ann Tackaberry. Appeal dismissed with costs. Concurrence of my brother Riddell; the order of reference to the master at Cobourg will be reversed. Sums equal to the amount of costs which would have been properly incurred had posed of upon originating notice or upon motion to pay out of court, may be allowed to be parties out of the fund in respect of proceeds and of this appeal. To the extent to which the appeal is incurred on the reference and which the parties would have been

entitled for costs had the matter of construction been disposed of upon an originating notice or on motion for payment out of court, they must themselves bear such costs. If the executor of Sophia Tackaberry's will shall produce his letters probate to the clerk in chambers and shall give security to his satisfaction for the due distribution of the moneys in court, which form part of her estate, he may have an order for payment out of court to him of this fund. If the executor declines to give such security, the clerk in chambers will proceed to enquire in the usual manner for creditor's claims against the estate of the late Sophia Tackaberry, and will certify the amounts properly payable for costs of such enquiry (including the costs of issuing the order being mentioned) the balance distributable under the will to Mrs. Tackaberry, the persons entitled to such balance and the amounts to which they are so entitled. Thereupon an order may issue for distribution of the fund in court in accordance with the certificate of the clerk in chambers. W. H. Kingston, K.C., for appellant; J. H. Spence, for Mrs. Tackaberry's executor.

Before Teetzel, J. Horton v. Smith—Judgment: Action on alleged warranty of a horse. "Factioning." The judge found at the trial that the plaintiff's express warranty as alleged, nor on the authorities can there be a warranty implied. He also found as a fact that the horse was of no value owing to its unsoundness, and acquitted defendant of any knowledge of the unsoundness and of any fraud. Plaintiff gave a note for \$500 and a chattel mortgage as security, and is entitled to renew the note. Plaintiff seized the one stallion on ground that the plaintiff mortgage was overdue. The plaintiff should have given notice of the seizure upon the following terms: 1. That before Dec. 1, 1905, he assigns to the defendant, free from all encumbrances, including the \$500 charge mentioned at the trial, all his accounts for services of the stallion "Colward" during the year 1905. 2. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 3. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 4. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 5. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 6. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 7. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 8. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 9. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant. 10. That before that date he returns the stallion "Colward" to the County of Oxford or some other place, to be selected by the defendant.

Before Latchford, J. Royal Bank v. Maughan—Judgment (H.). Action upon certain promissory notes discounted by plaintiff and for a balance due upon an over-drawn current account. The question in dispute was whether H. Maughan was a partner in the business of J. Maughan & Son, and, if so, whether he could bind the firm, a non-mercantile one, by the acts he did. The conclusion upon the whole case is that although Harry Maughan was a partner in the firm of J. Maughan & Son, and was in fact a partner, there was no authority given to Harry Maughan, or to be imputed from the nature of the business carried on by the firm, enabling Harry Maughan to borrow money from the plaintiff or to pledge the credit of the firm therefor; and there was no adoption or ratification of the forged signature of Harry Maughan, and no adoption or ratification of the unauthorized signatures of J. Maughan & Son endorsed upon the two promissory notes, exhibits 3 and 5, and that the principle of estoppel has no application. The plaintiff's claim is dismissed, but under the circumstances, without costs.

Divisional Court. Before Falconbridge, C. J.; Anglin, J.; Rex v. Leach and Rex v. Fogarty—J. B. Mackenzie, for William Leach, the applicants in both cases, moved for release of prisoner from custody. J. R. Cartwright, for the magistrates, and informants. Motions adjourned until 3rd inst., when construction of the writ will be changed.

Grip v. Thompson—J. A. Paterson, K.C., for the defendant, appealed from the judgment of Anglin, J., dated May 19, 1905. The defendant's plea is, contra. Argument for the plaintiff adjourned until 3rd inst., as at present constituted cannot hear it.

Welch v. Espinosa—C. F. Aylesworth, for the plaintiff, moved for the purposes of this motion, representing the defendant, asked that the appeal of plaintiff from the judgment of Mulock, C.J., be enlarged four weeks. Enlarged accordingly.

Drewry v. Percival—C. Millar, for the defendant, appealed from the judgment of the district court of the River of July 3, 1905. G. R. Geary, K.C., for the plaintiff, contra. The plaintiff, a wine merchant of Kenora, sued the defendant, Henry C. Percival, an hotel keeper of Toronto, as the maker of certain promissory notes, amounting to \$1185.00, and George Percival, defendant, denying jurisdiction of court, setting up statute of limitations and other facts. Judgment was given for the plaintiff, contra. Plaintiff appealed and he now appealed to divisional court. Reserved.

Eby, Blain v. Montreal Packing Co.—M. H. Ludwig, for the defendants, appealed from the judgment of Teetzel, J., dated July 23, 1905. R. McKay, for the plaintiff, contra. The plaintiff, as assignee of book debts of one S. Atkinson, sued the defendants for the recovery of certain cheques amounting to \$23,000, or if cashed, the amount thereof, which it was alleged they had wrongfully obtained from Atkinson's bookkeeper through a witness, the defendant, who was one Fraser, a traveling salesman, and he now appealed to divisional court. Reserved.

House Burned. Fire at 2.30 yesterday morning destroyed the new house and contents of George Gray, 47 Ashdale-avenue, Riverside; loss \$1650, insurance \$1000. Gray was still occupying a shack in rear of his new place and ran barefoot some distance to turn in an alarm.

Two hundred dollars damage was done at Day nurseries, Wells-street, yesterday morning. A still alarm was sent in yesterday afternoon purporting to be from a residence on Madison-avenue, but the lady of the house was greatly astonished when the firemen arrived, and burning chimney on Yarmouth-road occasioned a still alarm. No damage.

EATON'S FOR BOOKS

The announcement that Annuals for 1908 are ready at Eaton's will interest everybody

For is there anything more appropriate as Gifts to Boys and Girls? Written specially for the young folks; contain a great number of interesting stories, beautiful illustrations, and loads of practical knowledge that young people should know; of how to do and make things.

The Ideal Winter Overcoat

Isaac Carr's celebrated melton cloth is idealized by all good tailors as THE overcoating. There are varied qualities in Carr's melton, but this "Ideal Winter Overcoat" is of the BEST—every yard of it pure all-wool, of 36-ounce weight—guaranteed fast color—black.

Only highest-skilled tailorwork enters into this coat at any stage of its construction; that includes buff edge lapels—hand-padded collar—hand-made buttonholes.

The style of the coat shows our close connection with authoritative fashion centres. Long Clesterfield model.

And if you could examine the inside workmanship you'd find a framework of linen stays, canvas fronts, and interlining, that will keep the coat in perfect shape to the last. Body lined with Beatrice twill; black satin sleeve lining. With everything about the coat of the very best—with dressy appearance unexcelled—we have good ground for representing this to you as being the Ideal Winter Overcoat. And we believe you'll be glad to pay the price when you've seen the garment—for no coat is better worth your money—nor offers quite so many 25.00 buying reasons. Price...

"The Harvard" College Ulster for Men

The young man's favorite for winter wear seems to be new single-breasted model, with fly front, and buttoning close up to the neck; note the smart Prussian collar. The material is a stylish brown chevot, with green and red overcheck. Sizes 34 to 44. And an easy price to pay 10.95

Bright Little Coats for Small Boys

We again call your attention to these two lines of Russian Overcoats because we believe they are invaluable at the prices and uncommonly desirable every way.

- One at \$3.50 is of navy blue beaver cloth, made double-breasted, buttoning close up at the neck; brass buttons; velvet collar; Italian cloth lining. Sizes 21 to 26. 3.50 Other at \$4.50, of navy blue or Oxford grey nap cloth or navy blue beaver; prettily trimmed with frogs and ornaments. Sizes 21 to 25. 4.50

A Stylish Long Reefer, knee length, is another very dressy coat; it is lined with wool, and the velvet collars button close up. In navy blue or grey nap cloth. Brass or pearl buttons. Sizes 21 to 26. Price 5.00

THE T. EATON CO. LIMITED

Orange Concert To-Night. Massey Hall will doubtless be crowded this evening when the County Orange Lodge concert takes place. The program is better than usual, and as reserved seats are only twenty-five cents, there should be a big sale. Rocketeer, Jr. on Jury. NEW YORK, Nov. 2.—John D. Rockefeller, Jr., was sworn in to-day as a member of one of the grand juries before Judge Mulqueen, in the court of general sessions. The jury will consider 428 complaints. BLENHEIM BOY DROWNS. CHATHAM, Ont., Nov. 2.—(Special.) Sidney Burke of Blenheim was drowned this afternoon while boating on Rondeau Bay, 18 miles south of here. His boat was upset by a gust of wind.

## MINING STOCKS MONOPOLIZE SPECULATIVE INTERESTS

### Cobalts Continue to Attract a Widespread Attention in Toronto and New York.

World Office, Monday Evening, Nov. 2. Mining issues are at the present time considering all other speculative interests in a way that has never before been experienced. Nipissing on the Toronto Exchange sold as high as 10 3/4 and 150 shares were dealt in. In New York Cobalts were active. Over 50,000 shares were registered and 10,000 were bid for at 40c. In Toronto, Gifford was bid for at 35c and offerings were scarce at that price, the people who have holdings preferring to retain their interests until a further advance is reached. Cobalt Central was popular both here and in New York. The two local markets showed a somewhat scarce and brokers admitted at the close that scarcely half their orders had been filled owing to named prices by clients. The features to-day were Temiskaming, which sold up to \$1.90 and Nova Scotia, which sold at 80c. Silver Leaf closed 10c higher, demand from outside points and was raised to 20. The market closed decidedly firm with every prospect of further advances.

### ABITIBI AND EMPRESS.

Editor: World.—As a shareholder, I should like to have some definite information on Abitibi and Cobalt and the Empress Cobalt, promotions of the Canada Mines Company, Limited. With growing representations, two years ago by Mr. H. C. Barber, and about which little or nothing has been heard for more than a year and a half, I think the public who seem to have been so egregiously deceived, have a just right to a plain statement of the present condition of these promotions. Shareholder.

Onondaga, Oct. 20.

New York Curb. R. R. Bongard (Charles Head & Co.) reports the following transactions in Cobalt stocks on the New York curb: Nipissing closed at 10 1/4, high 10 3/4, low 9 3/4; Buffalo, 3 to 3 1/4; Cobalt Central, 63 to 63 1/2, high 63 1/2, low 63; Foster, 64 to 67, high 67, low 64; Green-Meahan, 20 to 22, high 22, low 20; King Edward, 1 to 1 1/4, high 1 1/4, low 1; McKimley, 123 to 125, high 127, low 120; Silver Queen, 127 to 132, high 132, low 124; Silver Leaf, 19 1/2 to 20 1/2, high 21, low 19; Trethewey, 15 to 15 1/2, high 15 1/2, low 14 1/2; La Rose, 67 to 68, high 68, low 67; Gifford Cobalt, 40 to 41.

## The Victoria Mine in the Cobalt Lake Group

Cobalt is the greatest silver camp in the world. And the Cobalt Lake group of mines is the richest and greatest group of this phenomenally rich camp. When we speak of groups we mean first the well-defined cluster about Cobalt Lake (including the Nipissing, O'Brien, LaRose, etc.) second the Kerr Lake group (Kerr Lake, Crown Reserve, Lawson, etc.), and third the Temiskaming group, the last to arrive is accepted as the equal of the other two.

The Victoria Mine is in the Cobalt Lake group, and the New York control of the company promises that it will be a shipper in two months. A rich strike has recently been made on the Victoria mine at Cobalt. One showing native silver and assaying from 1100 to 2000 ounces to the ton, was taken from the vein, within two feet of the surface. Eight veins were found, running toward a common centre, which indicates a large deposit of ore at depth. Latest telegraphic reports show great improvement in the vein. Work is being pushed

day and night on this discovery. Mr. A. A. Hasen, the eminent geologist, who was on the Victoria mine at the time, says: "I consider this discovery as one of the most important in Cobalt district, as here are all probabilities of the development of a large ore chute." The position of Victoria Mine is right in this Cobalt Lake group. It lies as the map shows between the Nipissing and the King Edward, the former the greatest mine in the camp. Nipissing has begun to recover from the setback of a year or more ago, and yesterday it was above \$10 for its 35 shares. These shares will soon be \$15 and probably \$20 before spring. The O'Brien is near and it pays/its three shareholders big returns as well as \$20,000 a month royalty to the government. Then there is LaRose, now paying 12 per cent. dividends on over six million of stock and soon to increase its dividends. Its net earnings are over \$100,000 a month. Victoria is only capitalized at \$1,000,000, and its dollar shares are now offered to the public at 65 cents a share. They stand to command a much higher price in a few days.

COBALT, Nov. 1.—(From the Man on the Spot.)—How long is this great Cobalt silver camp and the entire north country to be held up by reason of the present unsatisfactory mail regulations and conditions? Now that the Laurier government has been restored and this ruling is represented by a Liberal, some immediate relief is expected. The absurdity of trains coming and going on Sunday that do not carry a mail should be remedied. The revenue of Cobalt Postoffice alone is equal to 20 Old Ontario towns that have much superior accommodations. Mr. C. A. McCool lives in Ottawa and has a reputation of giving immediate and personal attention to the requests of his constituents, no matter what their political allegiance is, if they take the trouble to write to him. It is urged in Cobalt by his friends that his residence in Ottawa is really a benefit to his constituents. Here is an opportunity for him to get busy. Frank Burr Messure.

### TEMISKAMING ATTRACTS ATTENTION OF PUBLIC

This Company Now Owns Entire Gans Property, Which Looks Promising

COBALT, Nov. 1.—(From the Man on the Spot.)—The great Temiskaming veins with their sensational widths and enormously rich ore, continue to be the lodestone of attraction in that end of the camp. Deep mining may have to be done in this section of Coleman Township, but the wonderful richness of the ore will make it very profitable to the lucky owners of properties. "Five dollars a share for mine." This is what a heavy holder of Temiskaming stock said to the "Man on the Spot" this afternoon out on the property. The Temiskaming formerly owned a half interest in the Gans Lot, but now owns the entire lot, and the ore shipped from this property in the near future will pay the dividends that the Temiskaming is now paying. It was formerly owned by the Pennsylvania Mining Co. having a capitalization of \$1,000,000. The entire holdings of this company have been transferred to the Temiskaming. President Burr Cartwright predicts much larger dividends for his company in the near future. Mr. Cartwright's loyalty to his home city of Buffalo, N.Y., has prompted him to re-name the old Coleman Development Company. It will henceforward be known as the Pan-Silver Mining Company. Pan-American was what gave him this idea. Pan-American all American. Burr's logic cannot be disputed. The holdings of the Coleman Development Company, now known as the Pan-Silver, consist of 120 acres in the immediate vicinity of the great Temiskaming and were acquired by Mr. Cartwright for his new company several months ago. Active development has been taking place and a visit to the property well repays its inspection. Six 20 acre lots, bunched together here, constituted a very valuable holding. Directly west of the Gans are eighty acres marked on the map as Coleman Development, Calumet and Coleman Development respectively; and directly south of the first forty acres lie two lots marked Wright, Columbus and Patterson. These constitute the 120 acres of the new Pan-Silver Company, on all of which genuine development work has been and is being done. The main shaft has been sunk on the Calumet to a depth of 140 ft., and was sunk on a vein having a surface width from 4 to 8 inches. This is a calcite vein with silver values and shows up strong the entire distance. At the bottom of the shaft it has a width of 8 inches and fair silver values. The vein has been traced on the surface for a distance of 250 ft. down the little lake on the property known as Brady Lake. At the 100 ft. level the south drift has been carried for a distance of 68 ft. Yesterday the vein widened to 13 inches and considerable spittle made

its appearance. The drift will be continued and run under the swamp. Two cross-veins were encountered during this drifting. They were small calcite veins, upon which no work has yet been done. Cross-cutting has also been done in a westerly direction at this level from the shaft. This has been done to pick up a new vein some 200 ft. distant. This new vein cuts No. 1 vein at right angles and is known as No. 4. A shaft had been sunk on No. 4 for 82 ft., and when the vein is reached by cross-cutting from main shaft a raise will be made on this to No. 4 shaft which will give air.

Vein No. 4 has an average width of 4 inches, and is a calcite vein, heavily mineralized, which runs directly into Brady Lake and on the shore of the lake a junction is formed between it and a vein humorously styled the "Stone-Pile Vein," because it has been traced on the surface for a distance of 600 ft., at the end of which a huge stone-pile is found. At a depth of 60 ft. it had widened to 14 inches and at this point dipped away. A cross-cut is being driven from the shaft at the 100 ft. level to reach the vein, which is now about 15 ft. distant.

The big No. 1 Temiskaming vein runs into the Gans Lot at the 500 ft. level, and at that point has a width of eight inches, 4000 oz. of silver to the ton. It has been traced on the surface across the lot into the east 20 acres of the Coleman Development, lying between the Gans and the Calumet.

A shaft was sunk on this lot to a depth of 80 ft. on another vein. This lot, however, is under option to another party, who may any day take up his option. If he does, the treasury of the Pan-Silver Co. will be immediately enriched by a cash payment of \$80,000. The formation is Keewatin and Diabase, and there are two contacts on the property. Good camp buildings have been erected, and a small plant has been in operation for some months. It consists of an 85 horse-power boiler and a 3-drill compressor. A larger plant will, however, be installed shortly. Capt. B. C. Wolfrum has forty men working double shift. Burr Cartwright will be the company's president, N. B. Fisher, M.E., will be the general manager, and the property will be developed under his direction. This means good mining. Frank Burr Messure.

### LEAF IN DEMAND.

Many U. S. Orders for the Stock are being filled. Silver Leaf claimed considerably more attention in the market yesterday than it has done for some time. Several brokers received orders for the stock from American cities, but few of these orders were filled owing to the advance in price. Silver Leaf is expected by many to become a second Crown Reserve and much higher prices for the stock are talked of by those who know the property and its possibilities.

### OTISSE ON THE LIST.

First Mine of Montreal River is Well Received by Public. Otisse mining stock was listed on the Toronto Stock Exchange yesterday and proved a signal for an outburst of activity and higher prices. The Otisse will always be known as the first mine, native of the Montreal River district, to be listed on any exchange. The dealings were very large yesterday, over 90,000 shares changing hands between 56 and 58 1/2, while 5000 sold at 65, "90 days" delivery, and 12,000 at 67, "90 days" delivery. "It is claimed by well-known mining men that the surface showings of Otisse are the richest of any mine either in the Cobalt or Montreal River districts. A coterie of Toronto capitalists are now visiting the property and are expected to return on Tuesday with samples of ore that will further prove the wealth of Otisse. The stock was in demand last evening. Several sales being made at 56 1/2 and 57.

### SCARCITY OF OFFERINGS.

Silver Queen Being Taken by Investors and Many Orders Unfilled. The shares of Silver Queen have been comparatively inactive in the market of late, owing to a scarcity of offerings. Cable orders from Paris and London for the shares are being received frequently, but it is impossible to fill most of these orders because of the difficulty of getting stock at the prices named. Every share of Silver Queen offered recently has been bought by actual investors, who are taking the shares for the dividend return rather than for market speculation.

### POOL IS FORMED.

Little Nipissing Following the Operations of Crown Reserve. A strong buying pool on the lines of the Crown Reserve is being formed for Little Nipissing. A batch of the directors left for Cobalt last night to visit the property. Mr. J. Curry went with the party. Smelter Doing Well. NORTH BAY, Nov. 2.—(Special.)—The plant of the Northern Ontario Smelting and Refining Co. at Sturgeon Falls is in active operation and getting excellent results from copper ore taken from mines adjacent to Sturgeon Falls.

### COBALTERS COMPLAIN.

Look For Relief and Better Accommodations. COBALT, Nov. 1.—(From the Man on the Spot.)—How long is this great Cobalt silver camp and the entire north country to be held up by reason of the present unsatisfactory mail regulations and conditions? Now that the Laurier government has been restored and this ruling is represented by a Liberal, some immediate relief is expected. The absurdity of trains coming and going on Sunday that do not carry a mail should be remedied. The revenue of Cobalt Postoffice alone is equal to 20 Old Ontario towns that have much superior accommodations. Mr. C. A. McCool lives in Ottawa and has a reputation of giving immediate and personal attention to the requests of his constituents, no matter what their political allegiance is, if they take the trouble to write to him. It is urged in Cobalt by his friends that his residence in Ottawa is really a benefit to his constituents. Here is an opportunity for him to get busy. Frank Burr Messure.

### BADGER INCORPORATED.

Valuable Property in Temiskaming about to Be Offered for Subscription. It was learned yesterday that the Badger property, which consists of 30 acres close to the Temiskaming, had been incorporated into a company with a capitalization of \$2,500,000, with \$750,000 in the treasury. The property is largely in the hands of Chicago people, but local capitalists have taken a good holding in the property, and a small part of the treasury stock will be offered by the newly formed company during the present week. Development on this property was started three years ago and it was only owing to the strike in the camp that the development ceased, the company having to get its compressed air from Beaver, not having its own machinery. A full equipment of the latest machinery is now on order, and will be immediately put on the claim, and the development work continued. Considerable ore has already been bagged and it is presumed by engineers that the Badger will participate in the rich bodies of ore which have been uncovered by the Temiskaming at the greatest depth yet reached in this section of Cobalt. A big market for the stock is promised in Chicago, where the largest owners of the company's stock are. It is understood that the first offering of a small block of the treasury stock will be made at 25c a share, and that with this subscribed working further will be given to the public except a large advance. The Badger is held in high esteem at Cobalt and big things are expected from the property.

### Degree For Lord Milner.

MONTREAL, Nov. 2.—At a special convocation McGill University in the Royal Victoria College, Lord Milner was given the honorary degree of LL.D.

### New Bishop Appointed.

OTTAWA, Nov. 2.—Rev. Father Laurence Hallybury has been appointed vicar apostolic of Temiskaming and titular bishop of Catania.

## THE VICTORIA MINE IN COBALT

A block of shares for development work will be offered to Canadian investors to-day thru the Canadian brokers at 65c a share.

### ORE BY CARLOADS.

Special Trains Leave From Cobalt for Denver Smelter. COBALT, Nov. 2.—(Special.)—Cobalt mines are shipping ore by trainloads. Last week a special train of thirteen cars left Cobalt for the Denver smelter. LaRose sent four cars. To-night another special train of at least sixteen cars will start for same smelter. LaRose will send 120 cars and would have shipped four had cars been available. American Smelting and Refining Co. at Denver treats the second grade ore of Cobalt camp, carrying from fifty to one thousand ounces of silver to the ton, but will not accept ore having any higher values than one thousand ounces of silver. LaRose ships a car of high grade goes to Copper Cliff to-morrow. The cars in the special freight trains are each labeled with name of mine in big placards fastened to the cars.

### Russian Admiral Resigns.

ST. PETERSBURG, Nov. 2.—It is understood in well-informed naval circles that Admiral Wierenski, president of the technical commission of the admiralty, will shortly retire from his post. The commission has been under heavy fire of late for tardiness in the designing of warships. It is stated also that several other admirals are soon to be placed on the retired list. This is the first important step in the reform of the ministry demanded by the duma as a condition of passing adequate appropriations for naval purposes.

### International Jury Awards Diploma.

The exhibit of the Canadian Northern Railway, shown in the company's own pavilion at the Franco-British Exhibition, London, has been awarded the diploma for grand prize by the international jury. The Canadian Northern Building faced the pavilion of the Canadian Government.

# COBALT--- "Otisse" the First Montreal River Property Listed ---COBALT

## THE CROWN JEWEL MINES, LIMITED

### Capital \$350,000 - - Shares Par Value \$1

### ARE YOU AWARE THAT THE MONTREAL RIVER MINES WILL SURPASS THOSE OF COBALT?

Many mining men experienced in Cobalt mines believe that the Montreal River silver district will surpass the Cobalt mines. The mineralization in the Crown Jewel Mines indicates it, according to the reports of an engineer, one of the most reliable in Canada.

The Crown Jewel Mines consist of one hundred and fifty acres in the Montreal River and Nett Lake districts, about eight miles from Latchford. This property adjoins the well-known Prince Rupert Mine and is surrounded by the Edison, Legree and Silver Bell Mines, which contain values just as good as the best Cobalt mines.

We have the report of one of the most competent and reliable engineers in the Cobalt camp, who has given his report, not from a selling point, but only with the idea of acting in behalf of the investors. He states the formation is massive diabase, the only formation that is worth investing a dollar in, and it has a running of slate and diabase contact fourteen inches to six feet wide. The balance of the rock exposed on the claim is diabase, with calcite veins, showing a profusion of cobalt bloom.

Our J. S. 61 property, consisting of 39 acres, is on the

Montreal River and has been pronounced by several mining engineers who have seen it to be one of the best properties in the district. We have uncovered one vein in diabase contact fourteen inches wide on the top of the hill, and over four feet wide where vein strikes into Trout Lake. This vein has been pronounced by several of the best mining engineers and experts to be one of the most promising veins in the Cobalt camp. Our properties known as T. R. 240, 241 and 248, comprise about 111 acres, and one situated in the well-known Nett Lake district of the Temagami Reserve, located about one mile from T.N.O. Railway, and one reached by good, accessible roads in winter or summer. We have a large showing of surface ore, from which we should realize good profits.

We ask you to remember that our capitalization of \$350,000 is extremely low, and that most of the mining companies in the camp are capitalized at many times the amount of this company, with a great deal less valuable property, and can show poorer values.

We solicit your consideration of our offer, and firmly believe that the money you invest with this company will make you money quickly. We confidently believe that an

investment in the Crown Jewel Mines is reasonably sure to yield you a quick return. We have valuable assets besides our ore on these properties. We are building a saw mill; this will supply all the camps in the district with timber and we have on J.S. 61 property over \$8000.00 worth of A1 timber, so you see by our proof that any investment you make with us is safeguarded by valuable assets.

After the way the Crown Reserve stock sold we anticipate a similar sale of Crown Jewel, and advise our clients to subscribe as early as possible.

We are offering only 50,000 shares of treasury stock at the list price of 50c per share, and as the next issue of the treasury stock will be sold at an advanced price, we advise early subscription.

If you wish to increase your bank account, we know of no way that it can be done with better chances of success than by buying just as much Crown Jewel stock as you can get. Remember, the price now is 50c per share. Watch it go up, and quickly, too. Come in and see us. Let us show you the best values of the Cobalt mines, and carrying good silver values on the surface.

### FOR IMMEDIATE PURCHASE BUY CROWN JEWEL MINES, LIMITED

50 CENTS PER SHARE, PAR VALUE \$1.00

This will be a second Crown Reserve. We advised our clients to buy Crown Reserve when it was selling at 20c. Now it is selling at \$2.60, and will go much higher.

THE CROWN JEWEL MINES, LIMITED, have a group of properties situated in the Montreal River and Nett Lake district, comprising, in all, 150 acres. The Montreal River silver district is to-day what Cobalt was three years ago, and, from indications, bids well to prove more valuable.

There is only a small block of this stock for sale at 50c. This should all be sold this week, and I advise my clients and friends to wire or phone their orders without delay. Orders will be filled as received.

### The Moosehorn Mine Up the Montreal River

The new marvel in the Temiskaming country is up the Montreal River. James and Smyth Townships are the silvered localities, and in these townships are Elk Lake and on the lake is Elk City, a newer and in all probability a greater camp than Cobalt. Scores of investors are going to Elk Lake daily. Hundreds of eager prospectors have gone over these townships for all this season and the results when made known will startle the world. The ore is even more visible at Elk Lake than at Cobalt. You see the silver on the surface in scores and scores of places in these townships. These mines include the Moosehorn, the Otisse, the First Discovery, etc. More will be heard of these mines every day from now on and of others in the district. One English firm has bought within the past six weeks over thirty of the Elk Lake claims.

Here is some idea of what has been established in regard to the Moosehorn. Native silver veins have been uncovered right at the surface in diabase rock, from which the following assays have been made: one assayed by James Park, Elk Lake, showed 13,250 ozs. of silver; another 10,000 ozs. silver to the ton. The following quantitative analyses made by the Utah Smelting and Refining Co., of samples taken from

two veins, show the high values: No. 1 silver, 5778 ozs. 3 1-2 per cent. cobalt, 4-10 nickel.  
No. 2 silver 11,021 ozs., 17.6 per cent. cobalt, 7.3 per cent. nickel, \$1.32 gold.  
This is some of the finest ore ever shown anywhere.  
We give below two expert reports on the property, the first by Capt. John Harris of Cobalt, Capt. Harris had charge of the great La Rose Mine for more than two years, and is fully qualified to speak as an expert on Cobalt ores and properties. The second report is by Mr. Charles H. Gage, chief engineer of the Salt Lake Smelting and Refining Company, a high authority on ore.  
Cobalt, Ont., July 6, 1908.  
The Board of Directors of the Moosehorn Mines, Limited, Toronto, Canada.  
Gentlemen,—I beg to hand you herewith a short report of what I saw on the property of the Moosehorn Mines.  
This property consists of four mining claims, of forty (40) acres each, a total of one hundred and sixty (160) acres, being known as 1, 2, 3 and 4, and being the north half of lot 4, concession 5, in the Township of James.

On claims one and two a considerable amount of prospecting has been done, and some eight or nine very strong fissure veins have been discovered by means of trenching and stripping the covering from the rocks. In

a number of places these veins have been blasted, and pits sunk to a depth of from three to six feet. In nearly every case where seams are exposed, they show rich silver, cobalt and calcite, with all the varieties of silver which are found in the Cobalt camp.  
Most of the veins blasted into are small, as is the rule in these very high grade ores. On one of the veins uncovered, a shaft has been sunk to a depth of forty (40) feet, and a drift run from the bottom of the shaft southwest forty (40) feet. At the starting of this shaft, and to a depth of twenty-five (25) feet, there can be seen nothing but a mere crack in the rock, with a little silver showing. At about twenty-five (25) feet down the shaft, the vein widens to one inch of calcite, in some places showing almost solid silver. The vein holds good to the bottom of the shaft and the full length of the drift.  
I have been in the Cobalt camp almost from its beginning and would say that there are as good showings of silver values on the Moosehorn property as in any of the Cobalt mines at their commencement, and for the same amount of work having been done.  
I believe the Moosehorn Mine can be made a paying property from the start, and while there will have to be a great deal of development work done before the output of ore will be larger, I feel

satisfied, from the showings on surface, that more than enough ore will be taken out in development work to pay all expenses and to pay for the plant which will be required to work the property.  
There is plenty of wood, fuel and timber for the mine for some time.  
I would advise sinking a new shaft to a depth of seventy-five (75) feet, and doing considerable drifting from it. The present shaft is sunk near a swamp and the water comes in very fast.  
I might say in conclusion that only about two acres of claims 1 and 2 have been prospected, and I am thoroughly convinced that further surface work will develop equally as good showings on these claims as well as on claims 3 and 4, which have not as yet been prospected.  
Believing the Moosehorn property to be rich, and wishing the company every success with it, I am,  
Yours very truly,  
John Harris.  
To Whom It May Concern:  
I have personally examined Mr. Gif-

ford's property, on the Montreal River in James Township, known as the Moosehorn mining property, and positively state it is equal to and even superior to most of the Cobalt mines when they had the same amount of development work done.  
This property is beyond the speculative stage, and it is a positive investment, without any trimmings.  
Very respectfully,  
Chas. H. Gage,  
Chief Engineer Salt Lake Smelting and Refining Company.  
With 160 acres of land within three-quarters of a mile of Elk City, with a large number of veins showing silver values at the surface running from 250 to 13,000 ozs., with the Charlton branch of the T. & N. O. railway surveyed across the property, with a shaft 66 feet deep, having a vein showing high values in native silver and calcite, the Moosehorn Mine compares favorably with any mine on the Montreal River, and will demonstrate the fact that in that locality Cobalt proper has no mean rival.

West Toronto  
North Toronto  
East Toronto

#### WEST TORONTO SELLS DEBENTURES AT PAR

Credit of Young City Stands High  
—Fire on Ashdale Avenue—  
Norway Registers Protest.

WEST TORONTO, Nov. 2.—The police are looking for some person or persons unknown who gained entrance to George W. Gibbard's drug store, the corner of High Park and Dundas-street, on Sunday night, and secured \$16 in silver from the till, as well as four razors and two eight ounce bottles of perfume. Entrance was gained by breaking the cellar window and opening the catch. The dreams of Hugh Yarnold, the manager of the store, who resides upstairs, were not disturbed by the burglars, and the money was never missed till the store was opened this morning. Custom receipts at the port of West Toronto for October amounted to \$15,522.02, as compared with \$22,536.62 during the same month of last year.

Vital statistics for October are 31 births, 6 marriages and 15 deaths. Vocal and instrumental musical sections and a plentiful supply of refreshments were the features of the program at St. John's Episcopal Church to-night, where the Women's Guild of the church were holding their annual harvest festival.

The Carlton brick yards have all shut down for the season. While prices have been lower than last year, the manufacturers are gratified over the fact that in nearly every case the entire stock has been sold. The average decrease in price is 75 cents per thousand. A rough estimate would show that over twenty-five million bricks were manufactured here this season.

At the council meeting to-night Mayor Baird announced that the \$300,000 five per cent. debentures for the new Elizabeth-street school will be sold at par. The debentures are payable in five years. On a motion by Ald. Maher, the council unanimously agreed to accept the sale of the debentures at the figure named.

On Thursday evening, Nov. 12, the unveiling of ex-Mayor Dr. Clendenen's monument will take place in the council chamber. Some years ago E. R. Rogers built the grand stand at the lacrosse grounds on his own responsibility and for the benefit of the lacrosse clubs. The stand had never paid for itself, and to Mr. Rogers the speculation was a total loss. The city has had the use of it every season, and Mr. Rogers asked for \$400 as a recompense for the outlay incurred. The council decided to pay for the lumber contained in the stand, at current rates, and Works Supt. Matthews will proceed to measure the structure.

Don't Approve Music. Mayor Baird proposed that the municipality give a donation to the Salvation Army band in return for their Saturday evening concerts at the corner of Keele and Dundas-streets during the summer months. Ald. Sheppard objected and on being put to a vote the motion to make a donation was lost.

A bylaw for the purchase of lands to open up Gilmore-avenue right thru from Annette to Louisa-street was passed, the cost of the purchase to be assessed against the property benefited.

Will Go Carefully. A motion was proposed to have the works superintendent commence paving Keele-street between Dundas and Annette-street with brick, the cost not to exceed \$150. In view, however, of the heavy expenditures lately the council decided not to undertake this new outlay at present anyhow.

The members of the Toronto Council who are appointed as a committee to rename city streets have communicated with the West Toronto authorities asking for a conference at 2 p.m. The notice was too short, but the meeting will be arranged later.

It is understood that James Brown has effected a compromise with the city for \$200.

**NORWAY.**  
Big Meeting in Unanimous in Opposing Special Concessions.  
NORWAY, Nov. 2.—(Special.)—Whereas a petition has been presented to the Ontario and Municipal Board for the annexation of the southeastern section of York Township to the City of Toronto, and whereas, upon consideration of said petition, by said board, application was made by the Toronto Golf Association for special privileges in the event of such annexation taking place.

of the meeting in the opposition to the granting of exclusive privileges to the Golf Club. "The contest will be a close one," said Mr. Maclean, "and the majority of annexation as shown by the petitions will be narrow in any event."

Councillor Jackson stated that the council were taking a neutral stand.

**EAST TORONTO.**  
Ten Mile Race Brought Out Many Runners.  
EAST TORONTO, Nov. 2.—The second annual road race under the auspices of the East Toronto Y.M.C.A. attracted a good field, and was keenly contested. The course was from the Y.M.C.A. hall down Main-street, along the Kingston-road to the Half-Way House, and return. Morrison, the winner, covered the distance in 59.53, with Rummy, who covered the course in 1 hour and 3 secs, a good second. Davison was third and the fourth. Secretary C. J. Bell was starter, and Frank Taylor judge at turn.

**FARMERS RESENT ORDER.**  
Don't Like New Bylaw and Will Give Market the Go-By.  
Property Commissioner Harris has caused notices to be posted up in the Lawrence Market, in which attention is drawn to the new order forbidding farmers to sell farm produce in quantities than a bushel. Contention of the bylaw subjects the farmers to a fine of \$50 for each offence.

This notice posted up on Saturday morning for the first time has excited a great deal of adverse comment, and the climate effect assuaged by leading farmers, and business men in the vicinity of St. Lawrence Market will be to ruin the market entirely. "The city is simply doing all it can to drive farmers away," said C. P. Godden, a King-street merchant. Others spoke in similar strain.

Among the farmers themselves on Saturday and today was frank criticism of Property Commissioner Harris and his handling of the market question. The plan generally favored is to sell from door to door and sell to householders direct, for which no license is necessary.

**NORTH TORONTO.**  
The board of works committee met to-night. Councillor Parks was instructed to see Mr. Palmer of Sherwood-avenue, relative to the claim made by the latter that Mrs. Palmer was injured through defective plank crossing.

**YORK TOWNSHIP COUNCIL.**  
Summer People Object to Closing of Windermere Avenue.  
COUNCIL CHAMBER, Nov. 2.—Important petitions were received and dealt with by the York Township council at their meeting this afternoon.

Thirty-six property owners attached their signatures to a petition protesting against the closing and the disposing by sale of that part of Windermere-avenue, Swansea, lying south of Queen-street and running to the Lake Shore-road. The reasons given were: "That the whole property on Windermere-avenue would be seriously depreciated by reason of lack of access to the Lake Shore-road; that it would be a serious inconvenience to the public generally."

"Because Windermere-avenue is a main thoroughfare and the only school is situated in the neighborhood." "The petitioners have vested rights to easy access to the Lake Shore-road." "Because the petitioners have by way of taxation contributed towards the making of the roadway between Queen-street and the Lake Shore-road, and the only stores on the Lake Shore-road between the Humboldt and High Park are in the neighborhood of Windermere-avenue."

"Many of the petitioners are employed in the factories, workshops and stores on the Lake Shore-road." "Other good and valid reasons were given." "The other petition received was from some eighteen ratepayers asking to have a sewer constructed as a local improvement in Doncaster as follows: "The whole length of Sarah-street from Dartford-road southerly to Danforth-avenue, thence easterly along the corner of the city at the intersection of Broadview and Danforth-avenue." The petition, however, was not a legally declaration of ownership attached, nor declarations of witnesses.

**Will Close Oak Street.**  
The Metropolitan Railway Co., thru their solicitors, made application to close up Oak-street, running south from St. Clair-avenue to St. Michael's Cemetery, in Deer Park. Consent was given.

L. Baldwin had his plan of lands and received the consent of the council. Mrs. Doley was given a cheque for \$25 in care of a sick woman, the latter a stranger in the township.

Don Mills ratepayers want a tile drain in their street, a sewer laid on Don Mills-road, Reeve Henry course, and delay pending suggested annexation proceedings.

**Summits Road Plan.**  
P. S. Gibson submitted the plan for a roadway thru Mount Pleasant Cemetery, and the council favored one connecting with Alberta Crescent in North Toronto. A joint meeting between the township council and the cemetery trustees will be arranged. North Toronto council will attend.

Wallace Maclean and Mr. Willough-

### No. 2

We shall tell about a school—unlike any you have ever known: about a school which educates for the greatest profession of this age—the profession of business. It is a school of mark.

by presented the views of the 'Norway Ratepayers' Association. The latter claim that the Golf Club should not get any concession that individual ratepayers cannot yet, inasmuch as the Golf Club property is owned, up to fifty per cent, by real estate dealers.

**REID AVENUE.**  
District Had Another Brick Fire, Entailing Severe Loss.

**REID AVENUE, Nov. 2.—(Special.)—**A two and a half story dwelling belonging to George Gray of Ashdale-avenue, a short distance north of the city limits, in York Township, was burned to the ground about 9 o'clock this morning, entailing a loss of probably \$1500, exclusive of the furniture worth \$400 more. The building was unfinished, and the furniture burned had only been placed there. The fire broke first in the kitchen, and spread to the rest of the building, which was experienced in reaching it, rendered splendid help.

Mr. Gray and his family were living in a small shanty in the rear. The loss is said to be fairly heavy, as the Hartford Insurance Company.

**MILLIKEN'S CORNERS.**  
Everything Looks Promising for Wednesday's Match.

**MILLIKEN'S CORNERS, Nov. 2.—**The number of entries, present and prospective, assured for the East York Plowmen's Association leave little doubt as to the success of the match on Wednesday. In any event the number of contestants will be large, but reasonable weather will do much to make the occasion a pleasurable one.

Mr. Donaldson's race at the foot of the 5th concession, where the match will be held, is admirably adapted for the purpose, the soil for the most part sandy loam, lending itself readily to fine work in soil.

Meals and refreshments will be served on the grounds by the ladies of the East York Women's Institute in a large tent supplied for the purpose. Last year this plan was a great success, and there is no reason why the present will not be equally so.

**TODMORDEN.**  
Number of Local Residents Lost by Burglars.

**TODMORDEN, Nov. 2.—**Two entries were made to houses by burglars recently in this locality. George Inward, Leslie-road, lost about \$200 worth of articles of value, and William Andrews, Sammon-avenue, also lost money and household effects. Bee-street culverts were torn up at a very late hour on Halloween.

The funeral of the late Mrs. McCullough took place today from the home of her son-in-law, Robert Keys, Greenwood-avenue, to Saint Barnabas Church, thence to Mount Pleasant Cemetery. Frank V. V. Vipond, rector of the parish, officiated at the services.

**DONCASTER.**  
DONCASTER, Nov. 2.—His Lordship Bishop Reeve conferred today with candidates for that holy office, who presented themselves at Saint Barnabas' church last night.

Torrey Loyd Orange Lodge attended divine services yesterday morning at the Presbyterian chapel. The Rev. A. L. McFadyen officiated.

E. T. Sandell, wine and spirit merchant, 525-25 Yonge-street, is selling ale, porter and lager at \$1.25 per dozen quarts. Special delivery to North Toronto on Monday, Tuesday and Friday. Special attention given to mail orders. Write or phone North 192 for price list.

**Lady a Good Conversationist.**  
Mrs. Isabella Heatfield was commended for her conversation yesterday morning. She was charged with obtaining money from H. E. Brasier, Alexander Millard and Adam Taylor, by representing herself to be a collector for the Y.W.C.A. She was a very convincing talker and secured amounts of from \$1 to \$5 from a large number of citizens and firms. One man refuses to prosecute because, he says, her talk did him good. Others admit she did them good, too—but not so good. Among the victims was Detective Briggs, who made the arrest two weeks later.

**Vital Statistics.**  
The city's vital statistics for October show a decrease in births of 178 as compared with the same month of 1907, but this is attributed to the fact that a year ago the city clerk sent out a number of notices advising neglectful parents to register. Apparently there is need of further warning. The deaths show an increase of 24 and marriages a decrease of 80.

**Would Abolish Treating.**  
Rev. Mr. Skey, pastor of the St. Ann's Anglican Church, will endeavor to curtail the treating habit thru the efforts of an anti-treating society he has just organized. Aldermen of Wards meeting Friday evening, at which he will solicit their encouragement in the matter.

**Cabinet Ministers in Town.**  
Hon. George P. Graham and Hon. William Pugsley are in the city.

#### CONFESSES TO MURDER.

Had Been Hounded Since Crime—Victim's Wife Helped Him.

DETROIT, Nov. 2.—John Kurka, a teamster, to-day made a dramatic confession of how he killed his half-brother, Anthony Schultze, a week ago and then hauled the body in his dump wagon across the city to the spot in the western outskirts where it was found.

The police had dressed Kurka in the clothes he wore on the morning of the murder, mounted him on his wagon and had him drive across the city from the Schultze home to the woods, to permit several persons to identify him, if possible, as the teamster they had seen in the neighborhood last Sunday. After he had been identified by several people Kurka admitted the crime. He said that Schultze and his wife were quarreling, and when he interfered Schultze attacked him.

"Then I let him have it with the hatchet," said Kurka. "His wife and I loved each other and we wanted him out of the way. Mrs. Schultze helped me put the body in the dump wagon, and I drove it away. I feel better now. I was hounded by Schultze's face ever since I killed him."

**NO LICENSE WAS ISSUED AND NONE IS CANCELLED.**  
"There never was any license issued," was the statement made yesterday to 'The World' at the parliament buildings in connection with the renewal and cancellation of a license to the case, Howell-Hotel.

Hon. W. J. Hanna, Edo Saunders, chief license inspector, and Inspector Johnson were all out of the city yesterday afternoon.

It is stated that the chairman and the other two license commissioners were divided on the question of a renewal. The decline to discuss the matter, and it was kept from the press after the Thursday meeting.

The estate of the late John Burgess of "The Rising Sun" Hotel is valued at \$58,132.60.

#### "Ye Olde Ale Conner"

In "Ye Olde Days" the ale "Conner," or ale taster, was an important officer in England.

He was sworn to examine all ale in his particular district, to see that it was good and wholesome and free from adulteration. And we are told that the officer was eagerly sought after—that it never went begging.

If there was such an officer as an ale "Conner" to-day, he would find his position very much of a sinecure if all brewers brewed their ale as the Holliday family of Guelph brew "East Kent" ale.

In "East Kent" ale you will find that the art of brewing has reached as near perfection as is possible. And not only is "East Kent" brewed right, but the ingredients used are of the very finest. The choicest of hops and malt, the purest spring water, together with many years of experience, result in the production of an ale that is rich and creamy—that has the "hoppy" taste—that is absolutely pure and free from all adulterations.

A glass of "East Kent" ale is a glass of "foaming deliciousness." It is a stranger to the larder of but few householders in Toronto, and where it has once been used no other ale will replace it.

You will endorse everything said in favor of "East Kent" if you once try it. It is bottled by T. H. George, wholesale and retail wine and spirit merchant, 709 Yonge Street.

**E. T. SANDELL**  
WINES AND LIQUORS
