Historical Sketch.

St. Francis Xavier's College was founded in 1853 by the Right Revd. Colin Francis McKinnon, Bishop of Arichat. The principal object which the venerable prelate had in view in establishing a College in Eastern Nova Scotia, was the education of students aspiring to the priesthood. Since then its scope has broadened, and, while the original object of its foundation has never been overlooked, its aim for many years past has been to furnish a liberal and thorough education, thus fitting its students for any of the learned professions. The College was transferred from Arichat to Antigonish in 1854. In 1866 it received University powers by the following Act of the Legislature of Nova Scotia:

AN ACT TO ENABLE THE COLLEGE OF ST. FRANCIS XAVIER,
AT ANTIGONISH, TO CONFER DEGREES.

(Passed the 7th day of May, A. D. 1866.)

Be it enacted by the Governor, Council and Assembly, as follows:

1. St. Francis Xavier's College, at Antigonish, shall be held and taken to be an University, with all and every the usual privileges of such an institution, and that the students in the said College shall have the liberty and the privilege of taking the degrees of Bachelor, Master and Doctor in the several Arts and Faculties, at the appointed times, and shall have power, within themselves, of performing all the scholastic exercises necessary for the conferring of such degrees as shall be directed by the statutes, rules and ordinances of the College.

In 1880, during the presidency of the Revd. Dr. Angus Cameron, the eastern wing of the present College buildings was erected. Of the funds required for its completion, His Lordship Bishop Cameron contributed over six thousand dollars; the rest of the clergy about two thousand seven hundred dollars.

In 1881, the Provincial grant, which varied from eight to fifteen hundred dollars a year, was withdrawn, and his Lordship Bishop Cameron appealed to the people of the Diocese to form an endowment fund. For this purpose the sum of over twenty thousand dollars was collected and invested.

In 1882 a Board of Governors was organized under the following Act:

AN ACT TO INCORPORATE THE GOVERNORS OF SAINT FRANCIS
XAVIER'S COLLEGE.

(Passed the 10th day of March, 1882.)

Be it enacted by the Governor, Council and Assembly, as follows:

1. The Right Reverend John Cameron, D. D., Bishop of Arichat, and his successors in office canonically appointed, together with the Rev. John Shaw, P. P., Rev. Neil McNeil, D. D., William Girrior, Esq., J. P., and Colin F. McIsaac, Esq., Barrister, shall be a body politic and corporate by the name of the "Governors of St. Francis Xavier's College, Antigonish."

2. The corporation hereby created shall have perpetual succession and a common seal, and shall have power to take by donation, deed, devise, bequest, purchase, or otherwise howsoever, real and personal property, and to sell and convey the same.

3. The four last named members of the said Board of Governors, under the first section of this Act, shall continue to hold office until death, resignation, or permanent removal from the province of Nova Scotia, but if any of them shall cease to be in communion with the Roman Catholic Church, he shall cease to be a member of the Corporation hereby created.

4. Any vacancy which may from time to time occur among the said Governors, shall be supplied by the election of a person in communion with the Roman Catholic Church, by the remaining members of the Corporation, subject, however, to the notification and approval of the said Bishop of Arichat and to his successors. The term of office of the persons so elected shall be the same as that mentioned in the third section of this Act.

5. The Corporation hereby created may from time to time make statutes, rules and ordinances, not inconsistent with the laws of this Province, for the management of the said College, and all matters appertaining thereto, and for the management of the funds and property entrusted to it, and may appoint the Professors and teachers in the said College, and remove them from time to time, and regulate the salaries to be paid to them. The exercise of any of the powers mentioned in this section shall, however, be subject to the approval of the said Bishop of Arichat for the time being, and his successors.

6. The said College of St. Francis Xavier shall continue to be a University, with all and every the usual privileges of such institutions.

7. The Corporation hereby created shall have power to appoint a Treasurer, Secretary, and such other officers and servants that they may from time to time deem necessary for the purposes of the Corporation, and may hold real estate not exceeding fifty thousand dollars.

The removal from the Province of the Right Rev. Neil McNeil, D. D., now Bishop of Nilopolis, made vacant, under Section 3 of the above Act, the office of Governor held by him, and rendered necessary the election of a successor. In the autumn of 1895 the remaining Governors chose the Very Rev. James M. Quinan, D. D., V. G., to fill the vacant Governorship.

The following amendment was made necessary in 1887 by a change in the name of the Diocese.

AN ACT TO AMEND CHAPTER 77 OF THE ACTS OF 1882, ENTITLED "AN ACT TO INCORPORATE THE GOVERNORS OF ST. FRANCIS XAVIER'S COLLEGE."

(Passed the 3rd day of May, 1887.)

1. The word "Arichat," wherever it appears in the several sections of said chapter, is hereby struck out, and the word "Antigonish" substituted therefor.

In 1888 another amendment was made to enable the Board to borrow money needed to erect new buildings :

AN ACT TO AMEND CHAPTER 77 OF THE ACTS OF 1882, ENTITLED "AN ACT TO INCORPORATE, ETC."

(Passed the 16th day of April, 1888.)

Be it enacted by the Governor, Council and Assembly, as follows :

1. Section two of said Act is hereby amended by adding at the end thereof the following words :

"The said Corporation may borrow a sum of money, not exceeding sixteen thousand dollars, for repairing and enlarging the College building at Antigonish, and shall repay the same in four annual instalments, with interest at a rate not exceeding six per centum per annum, such interest to be paid annually. The loan may be obtained at once, or in portions from time to time, as the Governors may require the same, and they shall give the lenders debentures or coupons for the amount of the loan, the interest on which shall be paid annually. The loan shall be a charge upon the land and personal property of the Corporation, and not against the individual members thereof."

In 1888, during the presidency of Rev. Neil McNeil, D. D., now Bishop of Nilopolis, the sum mentioned in the above amendment was borrowed, and the new building completed. With the wing erected in 1880, the building consists of a central part, ninety by thirty-nine feet, with a tower, ninety feet high, projecting sixteen feet in front and two wings, each thirty-eight feet wide, one of them eighty and the other eighty-three feet in length, the latter having an extension twenty-two by twenty-seven. The material is brick, which has proved to be of excellent quality. The building is well plumbed and ventilated, and is heated throughout with hot water.

A further amendment was made in 1894 to legalize the election by the Alumni Association, recently established, of two additional Governors. It is the following:

AN ACT TO AMEND CHAPTER 77, OF THE ACTS OF 1882. ENTITLED
"AN ACT TO INCORPORATE," ETC.

Be it enacted by the Governor, Council and Assembly, as follows:

1. Section one of Chapter 77, of the Acts of 1882, is hereby amended by adding after the word "Barrister," in the fifth line, the words, "And two persons to be elected annually by the Alumni Association of St. Francis Xavier's College."

2. Section four of said Act is hereby amended by adding the words "Named in Section three of said Act," after the word "Governors" in the second line thereof.

In 1895 during the Presidency of the Rev. D. A. Chisholm, D. D., the college buildings were enlarged by an addition to the western wing. This new wing is sixty feet by forty, the third story serving as an infirmary, and the rest being devoted exclusively to domestic purposes.

In 1896, an amendment to the Act incorporating the Board of Governors was made, to enable the College to borrow money for the further enlargement of the buildings. This amendment was supplemented by another in 1897, legalizing the holding, by the Board of Governors, of property to the value of two hundred thousand dollars.

In 1897, the Convent for the Sisters of St Martha, who have charge of the domestic affairs of the College, was completed. It may here be remarked, that, since these devoted religious have been in control of this department, the greatest satisfaction has been given.

The Academic Year is divided into three terms. In 1899, 1900, these will end, respectively, on December 23, April 13th, and June 16. Examinations for degrees, class-distinction, and class-standing, are held at the beginning of the Lent (or second) Term, and towards the end of the Easter (or Third) Term. Upon the results of these examinations promotion at the beginning of the following year will depend. To secure a *PASS* into the next year an average of 50 points out of a possible 100 on the papers set at both examinations must be made; for *FIRST RANK*, in any class, 85 points or upwards; for *SECOND RANK*, 75 or upwards; for *THIRD RANK*, 65 or upwards. To secure a *PASS*, a student must, *besides making an average of 50*, make at least 50 on each of the following, namely: English, Latin, Philosophy, Christian Doctrine and one Mathematical Paper.

Degrees.

Azarias' *Philosophy of Literature*; Matthew Arnold's *Essays in Criticism* (First Series).

At the Final Honours Examination of the Academic year of 1900-1901, candidates who have passed in the prescribed works of Chaucer at the said January Examinations, or who have made 85 or upwards out of a possible 100 at the Preliminary Honours Examination, and who are taking Division (e), may omit from the latter, in their preparation, the works of Bacon, Sir Thomas Brown, Sir Thomas More, Addison, and Edmund Burke. Special stress will this year be laid upon the prescribed works of Newman.

From time to time other changes may be made in the Honours Syllabus above outlined, but notices of such changes will usually be given one year before they take effect.

It is intended to provide prizes for candidates obtaining English Honours. The First Prize for 1900 will be \$100; Second Prize, \$60.

Wherever there are options in the Honours Curriculum, a candidate shall, in his application or notice, state the subjects and works upon which he elects to be examined. To obtain an Honours Certificate and prize, a candidate must make 75 points out of a possible 100 at both Preliminary and Final. A candidate

who passes well on all but one paper, may, at the next similar Examination, take the work in which he has failed. The work of candidates for English Honours will be valued either wholly or in part by outside Professors, or other competent persons not connected with the College. The examiners will in all cases be instructed to allow something for excellence of style, and for scholarly use of the English language by the candidate.

As a thorough critical study is required of a few works only, candidates for Honours are requested to remember that they will be expected to be very familiar with these works in every particular, and that they ought to complete their first detailed study of these so early in the Academic year as to enable them to have ample time for a leisurely review of the whole ground immediately before the examinations.

The College reserves to itself the right to confer the degree of Bachelor of Literature or Master of Arts on such graduates as may distinguish themselves at the Honours Examinations.

Residence, Fees, etc.

ADMISSION.

Applicants for admission not personally known to some member of the Faculty, must bring a certificate of good moral character from a responsible person. Students are admitted at any time during the year, but those coming late are at a serious disadvantage, as no modification can be made in the time-table or the arrangement of classes for their accommodation. Parents are therefore urgently requested to have their sons in the College at the beginning of each term.

TERMS.

The following fees and charges are payable in advance :

The College will not undertake to provide for the current expenses of students, unless a sum sufficient for that purpose be deposited with the Bursar in advance. Should parents or guardians be guilty of neglect in this particular, the Rector will draw on them at sight, in advance, for such sum as he may deem sufficient. The College will not hold itself responsible for money not deposited with the Rector or Bursar.

Boarders must supply their own towels and napkins.

DISCIPLINE.

The discipline of the College is so tempered as to secure the development of a sense of personal responsibility, without permitting anyone to waste his own time or to be an obstacle to the well-being or progress of others. Flagrant or persistent violation of the College rules is punishable by expulsion. Any conduct unbecoming the character of a gentleman, will be regarded as a violation of the College rules.

The Library.

The Library consists of over 3,500 volumes. Over fifty years ago a student named John Ryan, of Halifax, died in the Propaganda College, Rome. In his will he bequeathed his property to the Church in Nova Scotia, and after the division into two dioceses, that of Arichat (now Antigonish) received its share of Mr. Ryan's bequest, part of which was a large library purchased in Rome. The present College Library is in great part made up of the Ryan collection; but both Bishop McKinnon and Bishop Cameron contributed from their own libraries many valuable works. The late Rev. Alexander McLeod, of Arisaig; Rev. John V. McDonnell, of St. Andrew's; Rev. John Quinan, of Main-a-Dieu, C. B.; Rev. John McDougall, of Red Islands, C.

B. ; Rev. Finlay Chisholm, of Glace Bay, C. B., also bequeathed their Libraries to the College.

With the formation of the Association of Alumni, a new era has opened for this department of the College. Each alumnus is expected to contribute yearly, and, if possible, to induce somebody else to contribute to the Library or to the museum, or towards the maintenance of the outdoor and indoor sports. Alumni and other friends of the College are respectfully reminded that the Library is by no means complete, and that further contributions of books, old and new, will be gratefully received. Recent additions have rendered it necessary to re-classify the books, and to prepare a new catalogue.

During the past year the following works have been added :

From William Egan, Esq., Victoria Mines, C. B.

The Works of Robert Louis Stevenson, 14 vols.

Sources of Revenue.

The revenue of the College is derived from an Endowment Fund, from tuition fees, and from occasional donations. The Academic Department draws the usual grant according to the average attendance.

Were it not for the self-sacrifice of the Reverend Professors, who are content with a comparatively trifling salary, the revenue from the above sources would be insufficient to meet expenses. For the past few years the College has been engaged in extensive building operations rendered necessary by the growth of the institution, and by want of sufficient domestic and infirmary accommodations. All these additions are now completed, and have cost in the vicinity of \$25,000. The generous co-operation of friends of the College everywhere will be needed to liquidate the debt incurred in making these necessary and valuable improvements. Where so much has been undertaken and successfully accomplished in a few years, more funds are, of course, urgently required.

In 1886 the late Very Rev. Neil McLeod, P. P., East Bay, C. B., gave to the Governors of the College \$4,000.00, the interest thereon to be used in perpetuum in educating young ecclesiastics for the Diocese of Antigonish. This was the first Bursary established in the College. The first priest educated on the proceeds of this Bursary was ordained two years ago. In December, 1892, A. G. Hamilton, Esq., Collector of Customs, North Sydney, placed at the disposal of the Governors of the College \$2,000 for a Bursary in memory of his son, Charles F. Hamilton, the proceeds being intended to educate deserving young men for the Priesthood. This Bursary will be known as the C. F. Hamilton Memorial Bursary Fund.

A partial Bursary was established during the course of the year 1896 by Miss Catherine Fitzgerald, Linwood, Antigonish, County, to assist in the education of young persons.

During the past years the number of Bursaries has been further increased, through the generosity of the late Austin Chisholm, of Lismore, Pictou Co., who bequeathed \$2000.00, the interest on which goes to educate for the priesthood young men to whom the Faculty may wish to apply the benefits of this Bursary.

A second addition during the past year was made by bequest of the late Rev. Finlay Chisholm of Glace Bay, whose executors handed over to the College Treasurer on March 24th, 1899, \$240.00, the interest on which is to be devoted to assisting needy students, preferably those aspiring to the priesthood.

The movement in aid of the Endowment Fund, initiated by the Alumni last year at their annual meeting promises most gratifying results. The friends of the College will be pleased to learn that the step taken is but the beginning of a forward movement which will place the institution on a sound financial basis, and thus enable it to fulfil the very important educational mission for which it seems to be destined. The first instalment of the Alumni subscription was paid over to the College Treasurer on June 16th of the present year, through a cheque for \$851.63 from Mr. Jos. A. Wall, Secretary Treasurer of the Alumni Association.

MATHEMATICS.

Freshman and Sophomore Years.

As in the Arts Course, Students in the Sophomore Year will be expected to devote more attention to Mathematics than to those subjects a knowledge of which is not imperative for a course in any one of the various divisions of Engineering. A higher standard than that required for a pass into the Junior Year of the Arts Course will, therefore, be determined by the several teachers in Mathematics as essential for admittance to the Junior Mathematics of the school of Engineering.

The Laboratory.

While the Laboratory is sufficient for the practical illustration required in a general scientific course, it does not satisfy the requirements of the special and advanced scientific work which the College has undertaken. It will be necessary to commence without delay the construction of a large workshop, and to equip it with all the apparatus necessary for the complete and practical illustration of the various parts of Mechanical and Electrical Engineering. Well wishers of the College should bear in mind that no more practical proof of friendship for the institution can be given at the present moment than by contributing and using their influence in inducing others to contribute towards the erection and equipment of a Laboratory and Workshop.

Department of Law.

The College is indebted to the Barristers of Antigonish for the establishment of courses of lectures in the Department of Law. At a meeting of the said Barristers, held at the College, Aug. 10, 1898, the following gentlemen were elected as professors of their respective subjects in this department: Hon. A Macgillivray, Constitutional History; C. E. Gregory, LL. B., International Law; J. A. Wall, M. A., Contracts. The series of Lectures given by these gentlemen during the last scholastic year will be continued by them during the coming session.

Any student of the Senior Year of the Arts Course who attends the lectures on Law and passes the prescribed examinations at the end of the scholastic year, and who at the commencement of the year has been duly articulated with a barrister, will be recognized by the Barristers' Society of Nova Scotia as having completed his first year as a student at law.

D. D., V. G.

Second Vice-President. Hon. A. Macgillivray.

Secretary and Treasurer. J. A. Wall.

Additional Members of Executive.—Revs. Donald Chisholm, P. P., D. A. Chisholm, D. D., D. V. Phalen, P. P., J. C. MacKinnon, M. D., W. Huntly Macdonald, M. D., A. J. G. MacEchen, and Professor Horrigan.

Representatives on the Board of Governors.—A. G. Hamilton and Prof. A. G. Macdonald.

Auditors.—E. Lavin Girrior and Thomas Somers.

The Committee on College Funds reported that the proposed subscription, which has thus far been purposely confined to the members of the Association, aggregated \$3,180, of which \$849 had been paid to the Treasurer.

The list of objects recommended to the bounty of the members, as set forth in the "Notanda" to the Bye-Laws of the

Association, was enlarged by the addition thereto, by unanimous resolution, of the College Prize Fund.

In view of the pecuniary circumstances of most of the graduates of the College, who prosecute their professional studies after leaving its halls, the regulations regarding the payment of dues were amended to permit graduates to become members on the payment of the initiation fee of \$1.00, and to retain their membership for the first four years after graduation without further payment. The Executive Committee was given discretion to extend the period beyond four years in special cases. The regulation was made retroactive to the extent of including the graduates of 1896 and succeeding years.

Seven new members were elected or otherwise received.

A committee, consisting of Rev. Dr. Thompson, Rector, Rev. J. Fraser, P. P., St. Peter's, and Hon. A. Macgillivray, was appointed to request the Governors to bring the needs of the College to the notice of Mr. Alex. McDonald of Dawson City, a native of Antigonish County, and to make such recommendations to the Governors in that behalf as should seem well to them.

The following resolution was adopted by a unanimous vote:

Whereas, the College of St. Francis Xavier's draws its students largely from the High Schools and Academies of Nova Scotia, and is therefore deeply interested in all that concerns the efficiency of those schools;

And Whereas, this Association is convinced that the over-pressure resulting from the excessive number of imperative subjects on the High School Course seriously cripples the efficiency of these schools and is an unnecessary abridgment of the liberty of parents, pupils and teachers;

Therefore Resolved, that this Association record its conviction that the Council of Public Instruction should give this matter their earliest possible attention, with a view to reducing the number of imperative subjects on the High School Course and thus redressing the very serious grievance complained of.

NOTANDA.

It was resolved by the Association that each member should endeavour to contribute annually some specimen or object of interest to the College Museum, some work to the College Library, or something to the Laboratory, the Gymnasium, or College Athletic Association. A list of such contributions will be published annually in the Calendar.

To accentuate the social aspect of the meeting of old students, it was resolved to make an annual Alumni Dinner a feature of each yearly gathering.

The expenses of this dinner are to be defrayed out of the general funds of the Association.
