Queen Helena has offered the immense first floor of the Quirinal Palace for the monarchs live when in Rome, for a hospital, and also will install hospitals in the royal palaces of Caserta and other places.

The Red Cross inspected the royal quarters indeed and found them admirably suited for hospitals, with the exception of some of the rooms in the Quirinal which are hung with tapestries.

Copenhagen, May 29.—A despatch from Berlin states that Archduke Eugene of Austria, has been appointed commander in chief of the Austrian forces operating against Italy.

The Italian Advance Brescia via Paris, May 29.—After crossing the frontier over the bridge at Cefera, Italian troops moved against the mountains on both sides of the Chiese River, aiming for those to the north, and Riva and Arco to the east.

A VISIT TO THE CHEERFUL FOLK OF AMHERST

Billings of Soldiers Has Made a Boom A MEMORABLE EVENING

Amherst is Musical—The German Prisoners and Their Life in Detention Camp—Building More Permanent Streets

Amherst is always a pleasant town to visit, for its people are of a cheerful sort, and disposed to make the best of everything. They have just begun a larger programme of permanent paving than that of last year, which gave them a fine addition to their mileage of good streets.

Concrete is the paving chosen, and for months past proved a great boon. The paving contractors, Page and Leahy, are doing this year's work under the inspection of Engineer J. E. Parker. The trees along the pleasure streets of the town seem to be in full leaf, and with the green lawns and pretty gardens will make the residential sections very attractive.

The billings of so many soldiers in the town for months past proved a great boon. The Times has quoted from the Amherst News many complimentary references to the French Canadian 22nd Battalion, but one wants to go to Amherst and hear the people talk to understand fully how the men from Quebec province won the regard of all.

Every officer and every man a gentleman, and a pleasure to meet. They are many men of wealth and standing in their own country, and their poor families in the town will never be forgotten. Not less popular are the officers and men who are presently in the 22nd Battalion, but one wants to go to Amherst and hear the people talk to understand fully how the men from Quebec province won the regard of all.

It is believed that no further trouble will occur. The population of Milan, in respect of classes or parties, condemns the outbreaks against the Austro-Germans and their property during the last few days. Further arrests of the disturbers of the peace were made today.

THIRTY-THREE DEATHS THIS WEEK IN CITY

A particularly large number of deaths was recorded this week at the board of health offices, thirty-three being registered. Of this number five resulted from pneumonia, four from heart trouble, three from scurvy, two each from meningitis, tuberculosis, and arteria sclerotic, and one each from gastritis, nephritis, asthma, inanition, laryngitis, gastro enteritis, cerebral hemorrhage, exanthema, purpura, convulsions, infantile convulsions, tubercular meningitis, pericarditis, abdominal cancer, malignant disease of colon, malignant disease of stomach.

Speaking this morning of the unusually lengthy list of deaths, Dr. J. E. Logan, chief medical officer for the city, said that none of them was of the type known to be preventable through proper sanitation. None of them was of a contagious nature. There had lately been a high death rate. Perhaps the weeks following for a time would show a lower rate, which would bring the total to the yearly average.

MRS. G. W. SLOCUM DEAD The death of Marjorie E. Slocum, wife of G. W. Slocum of the city market, occurred this morning at her home, 18 Exchange street. She passed away after an illness of seven months. Mrs. Slocum, who was only forty-three years of age, is survived by her husband, four daughters—Hazel, Annie, Muriel and Marjorie—and six sons—Stanley, Oty, Cecil, Ronald, Clinton and Norman—all at home. She was born in St. John, a daughter of the late William Williamson, and is survived by her mother, Mrs. George Moss of Mill Cove, Queens county, two sisters, Mrs. Charles Orchard, Mill Cove, and Mrs. George Lewis of Maine, and two half brothers, Harry Moss of Cole's Island and George Moss of Mill Cove. The funeral will be held on Sunday afternoon at 8:30 o'clock from her late residence, with service at the house at three o'clock.

FROM MONCTON SOLDIER. Mr. and Mrs. Christian E. Nielson (Moncton), have received a letter from their son, Gunnar Arnie E. Nielson, who writes that he has come unscathed through three recent battles in which the 8th Moncton Battalion has been engaged. He says in part:—

"This war is certainly a hell on earth. The Canadians lost 700 men killed, wounded and missing in this last battle; 15,000 Canadians lost best 84,000 Germans; our guns mowed them down like grain, I am told. Our battery has four men killed and seven wounded."

PERSONALS Miss Bertha Kettle of Britain street is visiting her grandparents, Mr. and Mrs. H. Osborne, Gagetown street.

Miss Minnie Osborne, who has been visiting her sister, Mrs. Kettle, Britain street, returned to her home in Gagetown this morning.

Mrs. P.H. Bobaker and two children, of Vancouver, who have been visiting relatives in Montreal, Brookline and Worcester, are the guests of Mrs. Bobaker's sister, Mrs. W. W. Carvell, Pitt street.

Mrs. Senior, who spent the winter months in the city, is at her home in Moncton, riding with poultry or meats, and tonalitis.

E. A. Belling left today to rejoin the 6th Mounted Rifles at Amherst. They are expected to be transferred to Valcartier.

Friends of Mrs. Warren A. Brown of Murray street will regret to learn that her condition is not improved today and that she is unable to receive visitors.

COUNTRY MARKET The country market was none too well stocked today with poultry or meats, though dairy products and vegetables were quite plentiful and slightly easier in price. Eggs ranged about twenty-three or twenty-four cents; butter from thirty to thirty-four cents; while chickens brought \$2 a pair; fowl thirty cents a pound; spring lamb \$1.50 to \$2.75 a quarter, and beef, veal and mutton about the same as last week.

FOUGHT 8,000 FEET IN AIR; GERMAN BEATEN

Relative of Prince Von Buelow Killed in Stirring Aeroplane Battle—Terrible Plunge to Earth

Paris, May 29.—Aviator Lieut. Von Buelow, believed to be a relative of Prince von Buelow, former German chancellor, was killed near Flines, according to the Matin, in an air duel with a French aeroplane. The French pilot describing the battle said:

"On Wednesday morning I saw an albatross machine coming from the German lines headed for Flines, and I gave chase. He was 8,000 feet up. I went up to 9,000 feet, rapidly overhauled him and the fight began. We were now less than thirty feet from the albatross but we were under such headway that we overtook him and I got a bullet in the shoulder but it did not prevent me from continuing the chase.

The Germans tried to escape by dropping but I flew over them again. Apparently one of them was wounded. Suddenly my lieutenant got in a volley at point blank range and the albatross tipped forward, shooting nosed downwards 6,000 feet to the earth. We followed them with our eyes. When the machine struck the earth it seemed to crumble into a ball and bounded along the hillside like a wounded rabbit running. We followed them down, descending in spirals. The pilot lay some yards away where he had been thrown out. In one of his pockets we found a paper bearing the name 'Lieut. Von Buelow, Imperial Guards.' We found in the wrecked aeroplane ten large bombs and forty grenades."

The pilot, given his choice of the Legion of Honor or the Military Medal, chose the latter.

SOLDIERS KEEP OFFICER FROM BLEEDING TO DEATH

Letter Came After News That He Had Given Up His Life

Roy Flaherty's Graphic Description of Terrific Fighting Which He Had Been Through

In a letter which must have been written only a day or two before he fell with the wounds which resulted in his death and which was received only a few hours after the announcement that he had died, Roy L. Flaherty gave a graphic description of the terrible fighting through which he had passed so far unscathed. His thoughtfulness for others is illustrated in the closing paragraph of his letter, in which he tries to reassure his sister-in-law, to whom the letter was addressed, that her husband, Fred Flaherty of the 6th C. M. R., would not be exposed to the same dangers.

In explaining why the men do not write more often he says: "We do not appear to be a sort of reserve flying squadron; that is, we are sent to any place where there is apt to be heavy fighting. I believe we walked, loaded as we are with heavy equipment, extra ammunition and grub, over two-thirds of northern France or Flanders, and part of Belgium. We have to carry even an extra shirt, so even a package of writing paper seems to add to the burden on our over-laden shoulders."

"The last scrap we were in, north of Ypres, was the worst yet. We got great grates for the work we did, but it was an awful test. I would hate to go through it again but, if we have to, we can do it. Truly, the next time, I hope to get half a chance at the Germans; they had us every way and there was no chance back. It was worse than slaughter; it was hell."

"I did not seem to mind much myself at the time, but I am surprised to find myself alive. One fellow described it as 'a hell of lead you could hang your clothes on.' What seemed hardest to me was to see some pal or chum alongside of me crumple up and fall. I tell you my impressions at the time could not stop to attend to him or get him into cover from the hail of steel. We did not know where we were going or what we were to do. Just run and drop, run and drop all the time to the accompaniment of that murderous whining and hissing shell and snipe that we were charged up that slope. We did not know where we were going or what we were to do. Just run and drop, run and drop all the time to the accompaniment of that murderous whining and hissing shell and snipe that we were charged up that slope."

Only when we reached the top of the ridge did we see, not only that we had lost our commanders, but how pitifully few were left. We fixed our bayonets and dug ourselves in. Then and only then did I have time or thought to bid good-bye to the world. Luckily we received reinforcements sufficient to hold out that night, but at what a sacrifice!

A hand to hand fight, or even if one can see the enemy, would not be so bad for then one knows he does not go down until he is killed. I do not think Fred will see any fighting. There is no mounted infantry and I think the war will be over before the third contingent gets over. It cannot last."

LET THE NEUTRALS HAVE FACTS OF WAR; NOT THE LIES GERMAN SEND OUT

London, May 29.—The appointment of a person of ministerial rank to supervise the dissemination of authentic news to neutral countries is urged by the Times, which says:—"The minister should be backed by sufficient funds and assisted by men who have direct knowledge of the newspaper press of the world. Such an organization should be controlled from London, but should have representatives in various countries. We should not be too proud to counteract the effect of German lies, and let neutral countries know the truth."

MONCTON OFFICER IS WOUNDED IN THREE PLACES

Moncton, May 29.—Lieut. Frank Tingley, who was with Major Anderson's Battalion in the great battle near Ypres, writes to his father, A. J. Tingley, Chief of the I. C. R. Special Service, giving a graphic account of the struggle. He was in an observing station when he was wounded in the left knee, left hand and right arm by German shrapnel. It was at this time that Comens, another Moncton man was wounded. Lieut. Tingley was an observing officer in front of St. Julien, staying for three days in a dug out, a short distance behind the Canadian infantry trenches. A German aeroplane was brought down near his station and both the pilot and observer were taken prisoners.

Lieut. Tingley at the time of writing on May 18th, was undergoing treatment in a hospital in London.

EVELYN NESBIT THAW AT IMPERIAL MONDAY

Whitney's Operatic Dolls Will Be the Vaudeville Novelty—A Splendid Bill

One of the most notable film attractions presented in this city will be the appearance of Evelyn Nesbit Thaw in the five reel Lubin production "Threads of Destiny," at the Imperial Theatre Monday. This picture classifies with such productions as "The Lion and the Mouse," "The Third Degree," "Daughters of Men," etc. (It is not only a splendid Russian photo-play, full of gripping situations and having the merit of unusual story-value, but it depicts a person (Evelyn Nesbit Thaw) who has been a central character in one of the most sensational cases ever brought before the American courts. Lieutenant Colonel John Russell Armstrong, Judge of probate for the city and county of St. John, has been appointed Judge of the St. John county court, succeeding Hon. J. G. Forbes, who retires. The appointment has already been forecasted in the Times and does not come as a surprise to Judge Armstrong's friends.

During his long period of service Judge Forbes has earned a reputation for honesty and fearlessness and also for his independence in dealing with cases in the manner which he considered would serve the best interests of the community, as well as those who came before him for judgment. In his case justice has been tempered with mercy, and many a man who has been unfortunate enough to stray from the straight and narrow path has been given an opportunity to return without the stigma of penitentiary service. Judge Forbes has been one of the most prominent of St. John's citizens, and has taken an active part in public affairs and given largely of his time and means for the advancement of the public welfare. He retires on account of having reached the age limit for active service on the bench, but this will leave him only freer to devote more of his time to the many public matters in which he takes so deep an interest.

The new county court judge is the son of the late Rev. William Armstrong, formerly minister with the British forces, and was born in 1848 at Valparaiso, where his father was stationed. He received his early education at Windsor, N. S., and studied law at Harvard. He was admitted to the bar in 1870 and

MUST HAVE MORE MEN.

In proportion to its population, making comparisons with what British cities are doing, St. John has thus far made but a small contribution to the ranks of the army.

The like is true of New Brunswick as a whole, although some sections have done much better than others.

What is the explanation? Do the people think the war will soon be over? They cannot continue to think so if they read diligently and carefully the news from the mother country and from the seat of war.

Lord Kitchener wants at once another 300,000 men. There is a suggestion that they may even adopt conscription in the United Kingdom. Delay is dangerous.

The sooner men are put in training the sooner they will be able to aid in the colossal task that must be performed.

The people of New Brunswick must rouse themselves to more vigorous action. The ranks of the 35th Battalion must be filled, and the work of recruiting must still go on after that has been accomplished.

Men and women must be made to realize the urgency of the need, and the plain duty of the hour. The safety and the honor of Canada are at stake.

THE WAR NEWS

The end of another week finds conditions practically unchanged on the western battle front, the Germans still hammering at the Russians in the east without gaining any important victories.

Italy's army and navy entering vigorously into the war, and the Allies continuing their slow forward movement at the Dardanelles.

There is some feeling in England that the German submarine warfare may become more troublesome and destructive, but trade is still going on practically without interruption.

Germany's answer to the United States is expected today. The speech has brought no news of importance regarding the attitude of Roumania, Bulgaria or Greece.

These three nations still remain neutral. But if the week has brought no news of important victories by the Allies it has certainly brought none to encourage Germany and Austria.

Their power is being worn steadily down. Now Italy will help to hasten the process.

Next Thursday will be Self Denial Day in St. John for the benefit of the starving Belgians.

The loss of fishermen's lives this week in the Bay of Fundy reminds us that war is not the only dangerous calling.

The removal of the 28th Battery from Fredericton to Sussex will give the latter town a still more military aspect.

Major Guthrie has proved himself a gallant officer, and all will hope that his wound is not serious.

The newly organized Field Comforts Association should be able to give pleasure to many of the men in the trenches. They especially crave a supply of tobacco.

Prince Edward Island will present a field kitchen to the 4th Mounted Rifles, and two ambulances to the hospitals.

What about the field kitchens for the 28th Battalion?

Yesterday's casualty lists brought the war closer to the people of St. John and other parts of this province. What effect it will have upon recruiting remains to be seen.

Apparently the Conservatives in Manitoba will not permit Premier Norris to do business till he has got a majority in a general election. Well, he will get it.

The more men and munitions Germany loses on the Russian front the less she will have to hurl against the British and French, and her recent losses in the east have been very heavy, without a compensating advantage.

ing the way to St. John and the province of New Brunswick.

The late Lieut. Col. Maitly of Newcastle had a wide circle of friends throughout the province, who regret his death. He was willing at the beginning of the war to go to the front and offered his services, and his death was caused by pneumonia contracted while out after recruits.

The announcement that Lieut. Col. J. R. Armstrong has been appointed to succeed Hon. J. G. Forbes as judge of the county court does not come as a surprise. Judge Armstrong is a citizen of high character who has held many offices of public trust.

He will prove an excellent county court judge. The citizens will wish Judge Forbes many years of pleasant leisure following his retirement from active labor.

ON OVERDOING IT

"The tendency of the age," says a modern philosopher, "is to overdo everything." The same thought has occurred to the writer many scores of times, when, after swallowing a very moderate allowance of some sauce, he has been left with a palate apparently given over to an endless stinging and burning sensation, calculated to make a man forswear the use of any sauce whatever.

Have you ever been served that way? Ever suffered that way? Ever vowed eternal abstinence from sauces? Forget that suffering, break the vow, and try H. P. Neither too thick nor too thin, too hot nor too cold, too sweet nor too sour.

This sauce, which has been christened "H. P." in honor of the House of Parliament, is so prepared of all grocers, and it is in every respect a revelation of what a perfect sauce should be.

We have it from the manufacturers, the Midland Vinegar Company of England, the largest malt vinegar brewers in the world, that this most truly welcome addition to our tables is compounded from the choicest Oriental fruits and spices blended with pure malt vinegar by a secret process.

We gladly accord the Midland Vinegar Company enthusiastic praise of their "process." H. P. is a sauce so deliciously blended that no flavor predominates aggressively over the others, and so skillfully combined that it never separates, there is no sediment, and therefore requires no shaking.

It is imperative, when buying, to look for the letters H. P. and a picture of the British House of Parliament on the label for a sauce as good as this will often be imitated, though never in the opinion of the writer, equalled.

An esteemed city resident was rambling through the country when he came across a farmer busily engaged with a hammer and saw and a can of paint.

"Another building boom, I see," jovially remarked the city man, halting "Is it a garage or a miniature bungalow?"

"Wrong on both counts, mister," answered Uncle John, continuing his work. "This here thing is a chicken coop."

"A chicken coop, eh?" returned the city man, with a closer look. "Why do you paint the inside of it?"

"Here ter do it, mister, solemnly declared Uncle John. "That's ter keep the hens from pickin' the grain out of the wood."

Seattle, Wash., May 28.—Dr. Wilhelm Mueller, German Consul here for the last three months, has been transferred to Atlanta, Ga. He will be succeeded at Seattle by Dr. E. Zopf, present German Consul at Atlanta.

Dr. Mueller was technically arrested on a state warrant, charging conspiracy to bribe an employee of a shipbuilding company to disclose the company's business secrets in an effort to learn whether the company was building submarines for Canada.

The consul protested that he was innocent from arrest under the treaty between the United States and Germany and made complaint to the State Department through the German ambassador at Washington. Subsequently the conspiracy charge was dismissed.

**NOTED LEADER OF SOCIETY DEAD**

Mrs. Stuyvesant Fish Passes Away at the Age of Sixty

New York, May 28.—Mrs. Stuyvesant Fish, a noted society leader, is dead at her home at Glenciff, Garrison, N. Y. Death is said to have resulted from a stroke of some kind.

The death of Mrs. Fish brings mourning to hundreds of friends who knew and admired her as one of the most hospitable and kindly social leaders in America. Her illness was sudden, so unlooked for, that she was stricken while planning to give a large garden party and luncheon within a few days at Glenciff, her splendid estate at Garrison-on-the-Hudson.

Miss Fish was suddenly seized with a stroke of what seemed to be paralysis, soon after luncheon. Dr. Richard Giles was called from Cold Spring. She did not rally and died at ten o'clock at night. Her husband was with her. The children arrived soon after her death.

Mrs. Fish was Miss Marton G. Anthon and was born in New York about sixty years ago. As the wife of a prominent banker, Mrs. Fish became a member of one of New York's oldest and most exclusive and aristocratic families. For years she had been the social leader of her set, and always delighted in doing things just a little different than her associates and equals.

She spent money lavishly to entertain her friends and to maintain her leadership in New York and Newport social circles. For many years the Fish summer home in Newport was the centre of society. She thought nothing of engaging an entire theatrical company and chartering a special train from New York or Boston to transport them to Newport and send them back, after their performance at her home for her guests. She was opposed to suffrage for women, declaring it to be ridiculous, and on more than one occasion denounced modern high society as frivolous and narrow. Although a recognised member of the Four Hundred by the public, she never took much stock in the effort to limit society in this country to such a small circle.

Mrs. Fish was a patron of art, literature and painting. She was ever ready to encourage talent in every avenue of American activity, and went so far as to declare that American dressmakers excelled those of Paris, declaring that if American women would encourage them, Parisians would soon be wearing American gowns instead of American running to Paris for their costumes.

For the militant English suffragette she had a horror, and declared in an interview not long ago that the increasing demand of women for equality in politics and business and the professions was creating a social antagonism and was eliminating sentiment and romance in every day life.

She was a strong opinions about divorce, saying one time that she preferred the old maid to the divorcee. The latter declaration hit right home among her set, and caused a considerable social rebellion.

She was a great traveler, and her husband provided a train of the finest cars that the Pullman people ever turned out for the use of the well-to-do and friends who accompanied her on her trips about the country. She was well known at Hot Springs, Idaho, and Tuxedo, where she was easily the social leader during her stay in those places. Her dinners and balls and parties were always the grandest affairs of the kind in her localities.

Her gowns were always elaborate and becoming. As a conversationalist she had few superiors in her set. She was one of the best horsewomen in the country and always kept up her interest in outdoor life. The marriage of her only daughter some years ago was one of the most brilliant social events.

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism untrained for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain waiting for the child, and a distinct change in the mother's habits.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no source of health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once children there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes a woman a normal healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**UNITED STATES WILL ATTEMPT TO "FLY" MEXICO**

President Decides to Serve Notice on Warring Factions That Mexicans Will Be Taken to Enforce Peace.

Washington, May 28.—President Wilson has decided to serve notice on all the warring factions in Mexico that conditions in that country have become intolerable, and that unless they, themselves, compose the situation soon, some other means may have to be employed to accomplish the result.

The first intimation of the president's determination to take this step came today in his appeal issued as head of the American Red Cross Society, setting forth that "due to several years of internal disturbances, the unfortunate people of many parts of Mexico have been reduced to the verge of starvation," and urging contributions to relief funds.

Later the White House gave out the following:

"When the president's appeal for aid for the Mexicans was issued it was also stated at the executive offices that a statement from the president on the present situation in Mexico might be expected within the next few days."

This statement has been prepared and will be issued after the cabinet meeting next Tuesday, and then communicated to the leaders of all the Mexican factions.

**ALIENS PLEAD GUILTY TO FRAUD IN U. S. COURT**

New York, May 28.—Plea of guilty were entered in the Federal Court late today by Franz Rosenberg, of Hanover, Germany; Sigmond Karman and Albert B. Newman, of Hungary, to indictments charging them with having defrauded the United States by filing false manifests at the Custom House in connection with an alleged effort to get contraband of war to belligerents by concealing rubber within bales of cotton waste and barrels of rosin shipped on the steamers Carpathia and Celtic. The first two were fined \$500 each, and Newman \$200.

The three men admitted that their purpose was to circumvent the Allies, and by so doing they believed they were performing a patriotic duty.

Before sentence was passed, Roger B. Wood, assistant United States district attorney, asked for severe punishment for the men "who engage in a scheme whereby in case of suspicion on the shipments of every honest merchant in the United States," and which, he added, "might result in the loss of the lives of all shipments from this country."

Harry Salomon and Albert Salomon, jointly indicted with the three others, pleaded not guilty and their case was postponed.

NON RUSTABLE

Did you contribute to the \$700,000.00 sent from Canada in 1913 to corset makers in the United States, and to the \$245,000.00 paid in customs on them?

Keen Canadian Shoppers have for years bought the "D & A" and the "La Diva" Corsets in preference to the imported, because they are better value.

Justify our statement by comparing "D & A" and "La Diva" against foreign makes. Its only a few old style or progressive firms who do not sell these Made-in-Canada Corsets.

HOW LIEUTENANT STAIRS WAS KILLED

Captain P. R. Hanson Writes of the Battle

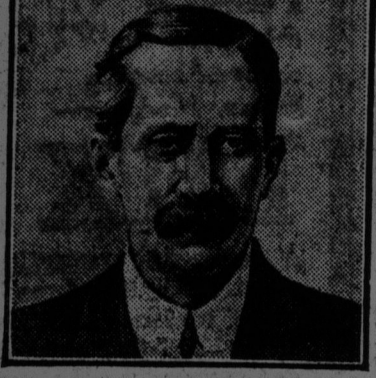

LETTERS FROM SOLDIERS

German Shrapnel Kills Eight in One Family From Baby to Grandfather—Truro Soldier Partially Loses Sight—Tribute to Major Guhrne

The part played in the battle of Langemark by the company of the Fourteenth Battalion, of which Lieut. George Stairs of Halifax, who was killed, was a member, is told in an interesting manner by Captain P. R. Hanson, an officer of the same regiment who was wounded and is now in hospital in England. Captain Hanson was in command of the company to which Lieutenant Stairs belonged. His narrative is as follows: "We had come out of the trenches the night before (meaning April 21) our regiment (Royal Montreal) had gone back to St. Jean. Next afternoon my company left as a reserve for the firing line. This we saw about 4.30 p. m.; there were dense clouds of green smoke rolling up from the line. There had been heavy shrapnel all the afternoon and we realized there was going to be an attack when we saw the gas. I was instructed to take the company to some cross-roads above St. Julien and hold them. We got nicely entrenched in a stream with about 200 ft. frontage, and the enemy had no idea we were there. They came down to the cross-roads and got to within thirty yards of us before we opened up. Right behind the stream was a big hedge, and on seeing that there was a big wedge of Germans, I decided to back up about 100 yards. Holes were cut in the hedge and the men began to get through in single file. Lieut. Knibley, at whom the enemy fired, got through as the shots missed him; then I followed and was about two yards on the way through when a bullet caught me in my right thigh. I went clean through. I told the company to go forward and take up their new position, and in the meantime a little bugler (whom I did not recognize) escorted me to a shell hole, where I lay for two or three hours. The Germans were for the moment non-plussed, and Private Matthews came back and helped me to get back to St. Julien. When I was taken off the field, Lieut. Beekhouse was in command. He, too, was hit later on. In fact, as you know, every officer of our company fell a victim. Lieut. Stairs had just come over from Shorecliffe to replace Lieut. English."

J. W. Hammond, 218 Scotland, Ont., Aug. 29th, 1914. "Fruit-a-tives" are the only pills manufactured, to my way of thinking. They work completely, no gripping whatever, and one is plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until we happened on "Fruit-a-tives." I cannot say too much in their favor. We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-tives."

Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices. 50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

How to Feed Baby

If it is impossible to give baby his natural food—the milk of a healthy mother—the more nearly the substitute resembles the natural food, the better will baby thrive. Mothers and nurses are agreed that non-modified or unadulterated cow's milk is not suitable. They say it is "too strong" and forms lumpy curd which the baby cannot digest.

PLAYERS WHO ARE KNOWN IN ST. JOHN

Edward Mawson, Mary Ryan, Florence Webber and Others

FRANCES McHENRY OWNS STOCK

General News of Interest: Jessie Bonstelle May Have New York Season; Joe Lang Dead; Other Items of Stage

Edward Mawson, well known in St. John some years ago, is in the cast of a new play "Under Fire," with William Courtenay, which had its premiere this week in Atlantic City.

Florence Webber, who created so favorable an impression in St. John in "The Climax," being a very talented singer and actress, is at the head of the Manhattan Opera Co., playing a season of summer stock. The opening bill was an old favorite with her, "Naughty Marietta," and scored a hit. Edward Beck, favorably recalled here from the days of the Robinson Opera Co., is with the company.

Mr. Cohan has put away "The Miracle Man" for good and all because the cities set down in which it has been tried for three months past were even more indifferent to it than was New York. In some respects it was his best, as it was his quietest work; but the public that seeks his pieces would have none of one in which he forsook his smartness and bustle.

In the newly published play book of the Comedie-Francaise, it appears that the receipts on the two days of the outbreak of war last summer were \$16,144 for July 31, and \$49,870 for August 1. But the announced performance proceeded, and so was the tradition of the house maintained.

The stock season inaugurated by the Frances McHenry Players at the Dominion Theatre, Ottawa, promises to put up a record. Miss McHenry, who played in St. John some years ago with Sidney Foler, has rented the house, engaged the company to suit her ideas, and personally superintends every detail, business and artistic, besides playing leads herself. Despite the adverse opinion of many she opened in "An Englishman's Home," and proved her managerial aptitude by giving the Ottawa players what appeared to them. Miss McHenry also presented a Scotch comedy and that was rewarded by excellent business and the approbation of the entire city. She is the first stock manager to supply the audience with tea and coffee between the acts on the lines inaugurated by Winthrop Ames, and a special military night is given each week with extra features in the way of music, vocal and instrumental.

"The Last Laugh" is the title of the latest farce by Messrs. Dickey and Goddard, who made those excellent entertainments, "The Misleading Lady" and "The Ghost Breaker." The new play has just been launched for the spring season, with Edward Abeles playing the chief role. The story concerns a great surgeon who has created a monster in the form of a man. It lacks only the breath of life, which he proposes to put into it. His friends fear for his reason if the experiment should fail, so they look for a man to take the place of the monster. To learn what happens then we shall have to wait until "The Last Laugh" finishes its run in Boston. The credit critics of that city show again their faculty for discussing a play of great length without tiring what use is made of the basic idea.

Mary Ryan, a former favorite in St. John, is still popular in New York in "On Trial," supporting Frederick Perry. Miss Jessie Bonstelle, now in Buffalo, announces that she has a list of 6,000 subscribers for a season of stock in New York city. She is therefore looking for a theatre centrally located, where she can carry out the plans begun at the spring engagement at the West End.

Mack's Musical Revue has been greatly improved since its last visit, and with some changes among the members of the cast, is brighter than it has ever been. The new comedian, Al Dashington, has scored a hit. He made his introductory bow to St. John audiences this week, and they seem to have taken a strong liking to him.

Joseph Lang, one of the last old-time minstrels, is dead at his home in Chicago, after an illness lasting more than three years. "Joe" Lang, as he was known to theatre goers throughout the country, had been identified with the management of theatres in Chicago since 1884.

An interesting report is going the rounds of the Riello, in New York, to the effect that F. Ziegfeld, Jr., will next season become the manager of his wife,

A VISIT TO THE CHEERFUL FOLK OF AMHERST

(Continued from page 1.)

Amherst is Musical. They are music lovers in Amherst, and one Sunday evening in each month the Baptist church has a song service only. With the exception of Scripture reading and prayer the whole service is musical. Here is last Sunday evening's programme, which was heard by an audience that almost completely filled the

large church, though the evening was very fine, and it was the eve of a holiday—Organ prelude, anthem, by the choir, with solo parts by Mrs. G. E. McClary and E. A. Belding; duet, Mrs. Estey Chapman and E. A. Belding; solo, Mrs. C. C. Black; anthem; solo, James Thomson; duet, Mrs. G. E. McClary and G. R. Shiers; soprano solo, Mrs. G. E. McClary; quartette, Mrs. C. C. Black, Miss Ethel Simpson, H. R. Keith and J. Thomson; solo, G. R. Shiers. In addition there were three hymns in which the congregation joined, and there was Scripture reading and prayer.

Two Newspapers. There are now two newspapers in Amherst, the Daily News, Conservative, and the Semi-Weekly Guardian, newly started, and Liberal in politics. F. H. S. Paisley, well known to St. John newspaper men and readers, says the Guardian is meeting with much favor, and Editor Ross of the News wears his old

cheery smile. When a political campaign is on, Amherst is one of the hottest corners in Nova Scotia; but when it is over the fierce foemen forget their feud and continue to "boost" Amherst." The German Prisoners.

There are several hundreds of German prisoners interned at the plant of the Malleable Iron Works on the outskirts of Amherst, and if we may trust the opinion of a colored gentleman and a gentleman who talked with a French accent, they are having too good a time. They have comfortable quarters, a very large open space for exercise, good food and regular medical attendance. They have constructed a sort of grand stand upon which perhaps forty or fifty may sit in the sun and look over the fence at passers-by, or survey the landscape. When the Times man saw them on Sunday some were on this elevated place, some were sitting or standing in groups, and some walking vigorously in pairs about the very large yard. Some were singing a patriotic German air. They were variously dressed, some in the white of the tropics, some in sailor uniform, but most in the ordinary clothing of civilians. They have hired a piano, and one who heard it said that the concert they gave last Sunday evening, with about fifty fine voices blending in the music of the great German composers was a revelation. One singer, who was detained when he sought to go home from Mexico to fight for Germany, was the finest tenor the Times informant had ever heard. But there are some faces in the outfit one would not care to encounter in a trench if one were not prepared for the occasion. At each corner of the fence is an elevated sentry box, and an armed guard is always within call of the sentries.

Fire at Honeydale.

The store of the George F. Bech estate at Honeydale, N. B., was destroyed by fire yesterday with a loss of \$10,000, with insurance of about \$5,000.

The winners in last night's amateur contest at the Opera House were John Thompson, contortionist; Frank Garneth, soloist; G. H. Lotner, step-dancer, and Miss Bilsland, singer. The contortionist act of young Thompson was particularly clever and well merited first prize, while another feature which was especially well received was a singing and dancing duet, "Alabama," by Floide Lapee and Annie Bilsland, who were heartily encored.

**TWENTY-THREE RECRUITS ADDED**

**Inspection of 55th Battalion Yesterday — Red Cross Assembly — Now 71 New Brunswick Beds in Cliveden Hospital**

At the recruiting office in Mill street yesterday twenty-three names were handed in, for volunteers for the 55th Battalion.

The 55th Battalion was inspected yesterday at Sussex by Major General Leppard and Rutherford. They were well pleased with the showing made. They also inspected the 25th Field Artillery at Fredericton, which, it is understood, will proceed to Sussex soon to complete their training.

In the rooms of the Knights of Columbus, Coburg street, last night the members of the Lancaster Red Cross Society, to whom they had been loaned, conducted an enjoyable assembly in aid of the society's work, and with the added object of giving an entertainment to members of the Construction Corps and 55th Battalion. Mrs. J. V. Anglin, president of the Lancaster Red Cross Society, was convener of the arrangements. Jones' orchestra provided music. Sapper Chapman was floor director. The event was well attended and afforded much pleasure.

It was announced yesterday that there are now seventy-one New Brunswick beds in the Cliveden hospital. Lady Tilley today acknowledges receipt of sufficient funds to purchase twelve more beds, bringing the total to the number named.

Mrs. Fraser, 294 Prince street, West, received a letter from her son, Corporal Frank W. Fraser, 14th Battalion, saying he had come through the battle of Ypres successfully. Mrs. Fraser has another son in the army, Frederick A., at Vancouver, with an overseas unit.

**RECENT DEATHS**

The death of Lieutenant-Colonel Richard L. Maltby, recruiting officer for Gloucester and police magistrate for Newcastle, occurred on Thursday night at his home in Newcastle, as the result of an attack of pneumonia. He is survived by one daughter, Mrs. Mary Orr, a Red Cross nurse in France, and one son, H. W. K. Maltby, who was associated with his father's business. Colonel Maltby, who was fifty-nine years of age, was commanding officer of the twelfth battery of militia, has been police magistrate for the last nine years, an ex-almshouse, member of the executive of the Maritime Funeral Directors' Association, vice-president of the patriotic fund, prominent Free Mason and a member and officer of St. Andrew's Episcopal church. The funeral will be held with full military honors on Sunday.

L. D. Jones died suddenly on Thursday at his home in Norton. He is survived by his wife and two daughters. Dr. C. C. Jones, chancellor of the University of New Brunswick is a brother.

The death of Mary Hackett, wife of George Wilbury aged ninety-three years, occurred on Wednesday at her home in Bath, N. B. She is survived by her husband, two daughters, one son and a brother. She was the eldest daughter of the late Gideon Estabrook.

Early this morning the death of Mrs. Mary Ann McIntyre occurred at her home, 30 Simonds street. She had been ill for a long time. Besides her husband, John McIntyre, foreman in No. 5 E. H. and L. Co., there are left to mourn two sons, George and William, three daughters, Mrs. Joseph Hensberry, and the Misses Mary and Kathleen at home, and one sister, Miss Bridget Murphy, at home.

**LECTURE ON MOORE AND DELIGHTFUL PROGRAMME**

Before a very large audience in the rooms of the A. O. H., Union street, last evening, Rev. Miles F. Howland delivered an inspiring and instructive lecture on "Thomas Moore, Irish National Poet." He told of Moore's younger days, his birth, schooling, and other factors in his early career, and then went more deeply into the later life of the famous poet, besides dwelling at some length upon his beautiful works. Father Howland also recited some of the better known of Moore's poems, which were keenly admired for their elegance of diction, and their depth of sentiment and thought.

The chair was occupied by J. H. McHugh, while others on the platform were Rev. Martin Maloney, C. S. R., and Rev. M. O'Brien. Soloes were given by Mrs. Simmons, Mrs. M. Carroll, Louis Doherty and Fred Joyce, readings by Miss Jean Walsh, and piano selections by M. P. Kelly. At the close a hearty vote of thanks moved by J. P. Martin and seconded by F. J. McInerney was tendered the speaker.

**MORNING NOTES OF THE WAR**

An Austrian submarine was sunk by Italian torpedo boats yesterday.

It is feared that the Turks are about to begin a submarine warfare against tonnage from the Suez canal.

The Russian admiralty officially denies the loss of the battleship Panzermoon, reported sunk by an enemy submarine.

The Italians are reported to have landed on the island of Rhodes, an important gain against the Turks.

**ANGLICAN ORDINATIONS**

On Trinity Sunday there will probably be ten men ordained to take up work in the Church of England ministry in this diocese. Rev. J. Robinson Belys, B. A., of Orancton; J. L. Cotton, B. A., of St. Luke's, St. John; J. H. A. Holmes, B. A., of Hammond River; Thomas Parker, B. A., of Cambridge, and F. J. Wilson of Tobique, will be advanced to the priesthood, and M. P. Maxwell, B. A., of King's College, will be ordained deacon at the Cathedral. Rev. R. F. McKim, B. A., will be advanced to the priesthood and G. W. Fisher ordained deacon in Toronto for work in this diocese. And it is understood that at the same time the Archbishop of Canterbury will ordain two men in England to serve in the diocese of Fredericton.

In a recent issue of McLean's magazine appear appreciative sketches of Dr. Margaret Parks and Dr. Mabel Hamilton, by Miss Madge McBeth.

Call upon us and we will gladly help you to make your "house of dreams" a splendid reality in the coming residential suburb of St. John.

We honestly and sincerely believe that the houses which we are building for customers at Glen Falls are more practical, economical, artistic and satisfactory than any which have been built around St. John so far.

**THE** happiest man alive is the man who works for a living and owns his own home. Nothing else gives a man half the courage that comes from owning a bit of the earth and building a house on it for wife and family.

OTHER investments may turn out bad. Gold mines have developed into gold bricks, oil wells into bubbles, railroads into grand larceny. Investing in a house and home is betting on a sure thing.

**SHAMROCKS TOOK GAME FROM BANGOR**

All The Hits Made by Jim Lane and Dan Connolly

**DEFEAT FOR NATIONALS**

Game With the Maine State College Team — Frank White's Home Run—Harry Vail's Shell Smashed—Beats in the Victoria Rink

On Wednesday, September 21, 1887, the Shamrocks defeated the fast Bangor nine by a score of 7 to 6. The home team secured only three hits, Jim Lane, the first baseman, getting two and Dan Connolly, the local star pitcher, the other one. The Callahans played a stellar game. Lane was ready at first for everything that went his way, and in addition brought in three runs. Costigan covered second in his best form, making seven put-outs and three assists. Kelly was a tower of strength at short-stop. Kelly, Gorman and Costigan also figured in a double play.

**Maine State Team**  
On Saturday, September 25, 1887, the Maine State College team defeated the Nationals of this city by 9 to 6. The weather was very cold and lessened the ardor of the many fans present. A blinding breeze swept over the grounds and the pitchers were unable to control the ball and the fielders were running around in rings trying to get under the flies. In the first inning the Nationals scored one run when Frank White came up to bat after two men had been retired and drove the ball over the fence for a home run. In the third inning Captain Tom Bell of the Nationals made a beautiful one hand stab. George Whitbeck and Bell also figured in a double play in the same inning. In the fifth inning "Manny" Robinson was hit hard and the visitors brought in five runs. They scored two more in the seventh and three in the ninth. During the game Bird, centre fielder for the visitors was at bat four times and walked every time.

**Notes**—In those days the rules of the league were that a man who got a base on balls was credited with a hit. In the big leagues during the same period the rule was a walk counted as an error for the pitcher.

**Harry Vail**  
On October 11, 1887, Harry Vail, one of St. John's best oarsmen, who was to have raced Ten Eyck in Worcester, Mass. had to pay his forfeit as the shell in which he was practicing was broken when he collided with a ship while in training. The race was for a large purse, and created considerable interest among aquatic sports.

**Boxing Matches**  
On Tuesday, October 11, a sparring exhibition in the Victoria rink between J. McGee and R. Kiernin of Philadelphia, attracted a large gathering of sports. Thus Boak acted as timer and referee and Wm. McDermott as master of ceremonies. The exhibition was opened by a lively set-to between Mills and Campbell, both pupils of Tom Bates. They sparred three rounds in good style and kept the spectators pleased. O'Brien and Donovan then banged each other around in good style and were warmly applauded by the gathering.

Tom Bates and his pupil, Cornwall of Carleton, then gave a fine exhibition. At the close Mr. Bates said he would match his pupil against any man in New Brunswick for \$100 a side.

The final between McGee and Kiernin was one of the best exhibitions of the manly art seen in St. John in years. The first three rounds were under the Harqui of Queensbury rules, and the

remaining two under those of the London prize ring. Both men opened in a lively manner McGee getting his left to work on Kiernin's body. Both exchanged blows to the head and the round ended with honors even. In the third round Kiernin got in some work on McGee's face. McGee responded with a good left hander which sent his opponent to the ropes. The men then clinched and pounded each other while the referee called break. As they refused to do this their seconds rushed out and hauled them apart, amid the shouts of the excited spectators.

Before you buy a car, the chances are that you'll look over quite a few of them. And when you have seen them all you'll find in that this Studebaker FOUR at \$1250 gives you all that you can get in any FOUR—all, in fact, that you want in a FOUR—at LESS expense for upkeep.

And the reason is simply that while Studebaker has built into this FOUR all that the ideal FOUR should have—power, ease of control, riding comfort, long life and stamina, beauty of design and elegance of finish—LOW upkeep has always been the BIG consideration.

So, too, you'll find little refinements in the motor. In the design of the exhaust manifold, in the oiling system—all thro' the car wherever such perfection of engineering could make it "a more delightful car to drive—a less expensive car to run." But see it—ride in it—drive it. We'll submit the car to any tests, however drastic, simply

**The Man In The Street**

This week's snowstorm was hardly an inspiration to spring poets. Nor an incentive to wear straw hats either.

**Marathoners**

Some of the spectators at the Scribner-Torpiants ball game yesterday had a run for their money—they saw two of the fair ones of the chorus passing the hat for a patriotic collection. Up to that point they had enjoyed the game fairly well, but suddenly thought of having an engagement elsewhere.

**They Close at Eight Now**

A branch of the Soldiers' Comfort Association was formed in Carleton this week, but, probably inspired by the example of the King, the Standard changed the name to Soldiers' Temperance Association.

German sailor in demented mood, interned in Hoboken, thinks he is the Kaiser, but that shouldn't be held against the poor chap—he's crazy.

There are still some streets where Chain-Up Day might help.

**In Our Letter Box**

To the Man in the Street—  
Dear Sir—You need say no more for the present with regard to the project to have a flower garden in the water front in Indiantown, just as the fund to provide pansy seeds was about to close, the water in the trough was turned out, but as yet the little sanitary drinking spout has refused to spout. We hope to see it bubbling soon.  
Thirstily yours,  
D. R. IVER.

That May 24 snowstorm of long ago has been outlasted but old timers still have the cold Friday and the Saxy Gale to reckon by.

German statements say they will be in London by Christmas. Probably they intend to beat the Allies on their way back.

Some young ladies' idea of a real good time is for six or eight of them to get together, and all talk at once.

**Is the Walking Good?**

Most of the people who had to transfer from the street cars during disagreeable weather in Prince's street this week, probably wondered why that matter of grooved rails could not have been settled before the season was torn up.

Of course tearing up part of the road and then leaving it unattended for two or three days may have been for strategical purposes, for the idea is to have a permanent rut.

And war correspondents could easily have extended their vocabulary by listening to the remarks of passengers as they transferred.

The deadlock between the city and the railway company may give the jitters an excuse for invading St. John. No doubt an auto ride for five cents would prove a strong attraction to many citizens who have not yet invested in a car of their own.

German now pause to inquire just what kind of a vessel it was sunk when the Lusitania was torpedoed, did not occur to them to find out before hundreds of innocent lives were sacrificed.

Mrs. Downing was a thoughtful wife; she even planned her husband's coffin and grave before he died. Her husband may have been inspired by the local cemetery company which recently advertised bargain prices in family lots.

Colleges are closing and it is still pretty much the same old story of who reform and uplift awaits the composers of the graduation essays.

Dominion survey officials continue to be suspected as German spies. First thing we know the local signaling school will be arrested on suspicion that they are wig-wagging messages to the Kaiser.

**FIRST LETTERS FROM NURSES WHO WENT TO ENGLAND ON HESPERIAN**

Were Only 50 to 100 Miles Away When Lusitania Was Sunk—Some London Experiences

Letters which reached the city yesterday from St. John nurses who went to England on the S. S. Hesperian some weeks ago, tell of their being nearly all still in London awaiting assignment to their posts of duty—or were so waiting at time of writing two weeks ago. In all, there were ninety-five on the Hesperian, including thirteen from the maritime provinces. So far as the letters relate, only four had received orders for service abroad. One of these, as the Times noted yesterday, is Miss Alice Powers of St. John. Ere this, no doubt, she is busy in France.

While they have had considerable to attend to, all have had opportunity to see some of the sights of the empire metropolis and naturally have many experiences of interest to relate. For instance, three of the New Brunswick nurses were stopped several times in the Strand by eager people who have relatives in Canada and who sought information about their loved ones over sea. On all sides they hear much of the "brave Canadians" and say the English people are realizing how generously Canada has responded to the call. "Many ladies and gentlemen have stopped us," says one letter, "to say how grateful they are to us and to wish us good fortune. The nurses are very much interested in us. Some of the girls have been stopped by women and asked the direction to certain places. They think we are 'lady policemen.' A little boy asked me if there were any cowboys where I came from, as he had seen them in the movies."

Officers who have been at the front lately think they can have no conception of the horrors along the firing line. Still, it seems that many people do not grasp the gravity of the situation even yet. They say "England has always won"—and there you are.

The nurses, while awaiting their orders are living in hotels near the British Museum. In three hotels near to each other there are now some 200 nurses eager for the word to take their places in caring for the wounded.

The news of the disaster to the Lusitania did not reach those on board the Hesperian until the pilot came on board of Liverpool. They learned that their vessel was only fifty to one hundred miles away from the Lusitania when the latter was the needles to say, there were many heartfelt thanksgivings for their safe arrival.

**SIGNALLER IRVING D. APPELBY WRITES TO WIFE FROM HOSPITAL**

First Intimation, But it is Not Stated Whether He is Wounded or Ill

Word was received by Mrs. Appelby, wife of Signaller Irving D. Appelby, of 208 Metcalf street, yesterday from the country intimation that her husband was in hospital but giving no intimation as to whether he was ill, wounded, or suffering from the effects of the German gases. One letter was dated from the base hospital at Boulogne, while a Red Cross card dated the following week, was postmarked Cambridge, so that it is thought he is now in England, recuperating from his wounds.

Signaller Appelby left St. John with the detachment under Major T. E. Powers, and was with that unit when they left for the front. He was later attached to the 1st Brigade Headquarters staff, and since then has been through some spirited action in Belgium and France. He sent home recently to his wife a handsome souvenir of the ruins of Belgium, a beautiful ivory prayer book, finished with gold edges, and having a silver clasp showing the crown of thorns and the Sacred Heart pierced with an arrow.

The presumption is that it was picked from out of the ruins of a convent, although one would never think it had come through the smoke of battle, for it is in excellent condition. On the fly leaf in French, in a neat feminine hand, was written "I have abandoned the world and all its vanities, on account of my love for my Saviour, Jesus Christ; September, 1888, (signed) Marie Caroline de St. Thomas."

Another souvenir which Signaller Appelby sent home was a piece of lead from the shot which had wounded Lou LeLacheur, part of which Mrs. Appelby has given his mother.

The following is part of his letter:—"Dearest wife: I have been waiting anxiously until I can give you definite news of anything, but can say nothing regarding my condition as yet. I am extremely happy and being used like a prize, by the splendid staff of nurses, and the many visitors who are here, (Boulogne). Do not be down-hearted over my case; you must always endeavor to see God's hand in these matters—the very misfortune which resulted in my removal from the field may have been instrumental in saving me for my future home. I hope to have brighter news for you soon. Kiss my dear babies for me, and teach them to feel that Daddy will be home again before long."

**Geological Survey Field Operations This Summer**

The Geological Survey is placing several parties in the field to carry on geological investigations in the maritime provinces during the summer of 1915. The economic possibilities of several districts will receive attention.

E. R. Faribault, who has made a special study of the gold-bearing series of Nova Scotia, will continue the geological mapping of this series in Queens and Shelburne counties.

The geological mapping of the vicinity of St. John will be completed by Dr. A. O. Hayes. He will make an examination also of the productive coal measures of New Glasgow, N. S., and vicinity and will commence the detailed mapping of this area on a scale of 500 feet to one inch.

W. J. Wright will complete the work for the geological map of the Moncton area and will continue his studies of the oil-bearing shales of the railway belt between Moncton and St. John.

Under the supervision of Dr. L. Reinecke an investigation of materials suitable for road metal will be made in southern New Brunswick and the locations of these will be indicated on maps.

C. L. Cumming will continue his examination of the igneous rocks of the vicinity of St. John; W. A. Bell will carry on paleontological studies near New Glasgow, N. S., and some localities in Nova Scotia will be visited by Dr. E. M. Kindle, the invertebrate paleontologist.

**GOES TO SUSSEX.**

Waterbury & Rising, Ltd., are contributing another member of their staff to the men in khaki. Charles Lobbo, who for some years has acted as collector for the firm, having successfully passed the necessary examination, will report for duty at Sussex on Tuesday morning. Charlie, as he is familiarly known all over the city, will be greatly missed. Possessing a bright, happy disposition, always cheerful and happy, he had the knack of making and retaining friends, all of whom will wish him good luck and a safe return.

**ST. JOHN LADIES TO SPEAK**

The annual meeting of the N. B. and P. E. Island Branch of the Woman's Missionary Society, of the Methodist church, will be held this year in Chatham, N. B., June 1st, 2nd and 3rd.

Addresses will be given by the President, Mrs. C. F. Sanford, St. John; Miss Crombie, returned missionary from Japan, and an illustrated address by Mrs. Barracough, St. John, and Miss H. S. Stewart, M. A., Sackville.

This branch, although one of the smallest branches of the Methodist Church of Canada, has a membership of 172, and raised last year \$18.00 for missions.

**FRED SHEAR WAS IN IT**

A letter from Bombardier Fred H. Shear, written on May 9, says:—"I came through our last big battle unscratched and well. We are now enjoying a much needed rest, for it was needed by all of the division in the worst way. We as Canadians have only done what we enlisted for."
