MAY STRENGTHEN FISHERIES FLEET

Statement Made by Mr. Hazen in Commons

AMENDING THE ACT

Bill to Deal With Exclusion of Foreign Vessels From Privileges in Canadian Waters—The Question of the Trawlers

(Special to Times)

Ottawa, Ont., Feb. 15—A government bill to amend the Fisheries Protection Act, so as to make it clear that foreign fishing vessels could be excluded from and privileges accorded Newfoundland and American fishermen under the treaty of 1818 in Canadian waters, took up the greater part of yesterday's sitting of the commons.

The ulterior object of the bill in paying the way for the control, through joint international agreement, of the operations of French or other foreign steam trawlers, was the main subject of discussion.

Mr. Sinclair emphasized the importance of having British trawlers included in any prohibitive regulations. There was urgent need, he said, of acting against the growing menace of steam trawling. The depletion of the fisheries was threatened, and the net fishermen had been put out of business where the trawlers operated.

Mr. Chisholm (Antigonish) protested against the lax enforcement of the regulations against fishing by steam trawlers within the three mile limit. He believed the fisheries protection service should be augmented.

Mr. Hazen said that instructions had already been given for a more vigorous enforcement of the protective regulations in the maritime provinces. If the present fisheries protection fleet was not strong enough more vessels would be added to it.

D. D. McKenzie (Cape Breton) thought there was no complaint against the local fishermen. On the other hand they spent much money at maritime ports for supplies.

NEW C. P. R. LINE, MONTREAL TO TORONTO, READY BY DECEMBER

Distance Will Be 339 Miles by This Road—Fast Passenger Service

Montreal, Feb. 15—E. P. Ramsay, engineer in charge of the C. P. R.'s new Montreal and Toronto line, said yesterday that the road would be ready for a fast passenger service by December next. Seventy per cent of the grading work has been completed. There were 2,100 men and twenty-three steam shovels at work last month. Sixty-five per cent of the grading work was completed by the end of July and track laying will commence at five points after April 1. The rails are eighty-five pounds. The distance from Montreal to Toronto will be 339 miles.

SCHOONER LOST; CREW SAVED

Boston, Feb. 15—The schooner Mary A. Whalen, formerly a Boston fisherman, was lost at sea while on a passage from Grand Banks, Nfld., for Oporto, Spain, according to a telegram from London. The crew were picked up by the Italian steamer Ravenna.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

9 A. M. WEATHER REPORT. Max. Min. Dir. Vel. Toronto... 27 30 S.W. 8 Cloudy...

Forecast—Strong north and northeast winds; local snowfalls and much colder night and Sunday.

Local Weather Report at Noon. St. John, N. B., Feb. 15, 1913. High temperature during last 24 hrs 27; lowest temperature at noon, 21; wind, S.W. 10; direction, S.W.; rain, 0.0; snow, 0.0; fog, 0.0; visibility, 10 miles per hour. Clear.

Pioneer of Bessemer Steel Bethlehem, Pa., Feb. 15—John Fritz, 96, iron and steel master, is dead at his home here. Mr. Fritz was the last survivor of the group of men who introduced into the United States the Bessemer steel process, which was responsible for the tremendous development of the steel industry in this country.

ARTILLERY DUEL IN EARLY MORN

Cannonading in the Darkness in Mexico City—Diaz States His Terms—Madero's Home is Looted and Put to Torch

(Canadian Press) Mexico City, Feb. 15—For the first time since the remarkable battle began there was a heavy sustained cannonade lasting half an hour in the total darkness about three o'clock this morning.

The exodus of the population from the districts under fire was even greater than yesterday. There was a constant procession of people hurrying through the streets to the suburbs long before dawn, and this lasted until after daylight. The office of the Imperial was commandeered by the federal troops this morning for use in their operations.

The hostile forces this morning faced each other in virtually the same positions in the centre of the Mexican capital, as they have held all through the week of fierce street fighting.

A detachment of the twentieth infantry stationed between the palace and the arsenal revolted, shot its own officers and made a break to join Diaz. The mutineers were overpowered, and fifty men were taken as prisoners to the national palace.

Madero's House Looted and Burned Mexico City, Feb. 15—The rebels obtained their first personal revenge yesterday, when they burned the private house of President Madero, at the corner of Berlin and Liverpool streets. It was a handsome residence, and had become one of the show places of the capital.

The rebels had driven a detachment of federals in retreat along Barcelona street. They emerged in Liverpool street, and firing at their heels. Shouting and firing at the federal soldiers, the rebels crowded in to the aristocratic quarter, and the sight of Madero's house inspired the idea of its destruction. Only servants had occupied the house since the members of the president's family took refuge in the Japanese legation.

The rebels entered the building and carried off whatever caught their fancy. A moment later the building was in flames. As the fire mounted, the cracking of cartridges revealed the fact that the structure was heavily fortified. The rebels had a disposition of ammunition continued for such a time as to indicate that the family must have stored there many thousands of rounds.

The third secretary of the American embassy, Henry F. Tennant yesterday, one messenger, in an automobile last night, was stopped in the streets and robbed.

Puebla Captured Mexico City, Feb. 15—Rebels under General Delgado and Aguilar, it is reported, have captured the city of Puebla. Puebla is the capital of the State of Puebla and is one of the most attractive cities of the republic. Its population numbers nearly 100,000.

Francisco De La Barra, former provisional president, professed ignorance this morning as to President Madero's intentions. He admitted, however, that the question of his resignation had been submitted to President Madero and that the matter at present had gone no further.

De La Barra accompanied by General Felipe Angeles, a federal commander, conferred with President Madero this morning with the result that they were authorized by him to confer with Felix Diaz and General Manuel Mondragón on the question of arranging an armistice and the naming of a commission by each party to draw up a plan for a solution of the situation.

A visit to the rebel position was made by De La Barra, who pointed out to Diaz the difficulties of the situation and urged upon him the acceptance of the plan of a general armistice. The result of the foreign intervention.

Diaz's Terms Diaz replied to De La Barra that he could not make an armistice and that he would enter into no negotiations for peace except on a basis of the resignation of President Madero, the vice-president and the entire cabinet. This result of the conference with the rebels was then submitted to President Madero.

New York, Feb. 15—Special despatches received here from Mexico City early this morning reported that the federalists were making headway in the city. It was stated that President Madero had declared he would resign only in case the senate had passed a resolution of confidence in the cabinet. Confirmation impossible.

THE LORDS AND BISHOPS AND THE WELSH BILL

Action Shows Need of Parliament Act to Ensure Liberal Measures Being Carried

(Montreal Times Cable) London, Feb. 14—No better object lesson of the absolute necessity of the Parliament Act to ensure liberal measures being passed could be given than the action of the House of Lords last night when it rejected the Welsh disestablishment bill upon which the commons had labored long and seriously, and which the people who are primarily affected have demanded for many years.

There is much bitterness of feeling among the Liberal leaders today. Their expressed opinion is that the Lords are never happy unless they are thwarting the will of the people, and that the action of the bishops in this case will not only do harm to the church in Wales, but will weaken the church in England as well, through the identification of it with the political interests which are constantly flouting the expressed will of the people.

But, even though the lords rejected the bill by a vote of 223 to 81, they can do no more than delay its coming into force, any more than they can frustrate home rule for Ireland. The bill now has to pass the House of Commons. There is no doubt at all that this will be done, and thus the lords, by their action, are simply inviting the public humiliation of being flouted.

THREE LIVES LOST; ELK LAKE CITY IS REPORTED BURNED North Bay, Ont., Feb. 15—It is reported that Elk Lake City was wiped out by fire last night, and three lives lost.

SEEK TO CONNECT URANIUM COMPANY'S BUSINESS WITH THAT OF CANADIAN NORTHERN

New York, Feb. 15—An effort to show a connection between the Uranium Steamship Company, an independent line, and the Canadian Northern Railway Company was made by counsel for the defence yesterday at hearing in the government's Sherman law suit against the lines in the so-called steamship trust.

Pioneer of Bessemer Steel Bethlehem, Pa., Feb. 15—John Fritz, 96, iron and steel master, is dead at his home here. Mr. Fritz was the last survivor of the group of men who introduced into the United States the Bessemer steel process, which was responsible for the tremendous development of the steel industry in this country.

PLUNGE TO DEATH OVER NIAGARA

Two Men Commit Suicide, One at Horseshoe, Other at American Falls

(Canadian Press) Niagara Falls, Ont., Feb. 15—Two men suicided in Niagara Falls yesterday. One unidentified man, about twenty years old, who told Investigation Officer Knapp, that he was from New York, dove into the rapids above the Horseshoe Falls and was carried to death over the mangled.

Patrolman Charles Smith, of the city police force of Niagara Falls, New York, was on the side of the river sightseeing with a party of friends, and declares he and his friends plainly saw a man leap from Prospect Point to the ice-covered rocks below the American Falls.

Officers All Go Down With Ship; Crew Escape Hamburg, Germany, Feb. 15—The five officers of the steamer Christiana were drowned when their vessel sank after being cut down last evening by the German steamer Galatia, during a dense fog off Borkum.

The Christiana foundered three minutes after the collision. The sailors and stokers, nineteen in number, escaped in the ship's boats.

OFFICERS ALL GO DOWN WITH SHIP; CREW ESCAPE

London, Feb. 15—Commander Evans declares that it was humanly impossible for the base parties to save Scott and his comrades, according to a Christchurch despatch to the Daily Mail, which adds that Surgeon Atkinson examined the bodies and performed the last rights. The others were obliged to withdraw from the tent. Commander Evans is also quoted as denying the reports of dissension among the members of the expedition or that the supporting parties tampered with the fuel. He said that Captain Scott forbade searching parties to leave the base to seek him. Some of the members of the expedition expect that a searching party will result in the discovery of individual remains which is being carried on.

London, Feb. 15—A lengthy despatch from Christchurch, Commander Evans narrates the adventure of the northern and western parties of the Scott expedition, showing that they underwent many perils and hardships.

Commander Evans says that Lieutenant V. L. A. Campbell and party were always under the impression that the Terra Nova had picked up Captain Scott and his comrades.

Both parties were engaged in scientific research. They found fossils tending to prove that South America and Australia were at one time connected through the Antarctic continent, and that during the early history of the world the Antarctic had a temperate climate.

The various parties made valuable scientific observations and collections of fossiliferous rocks and other specimens, and even the southern party, which lacked a geologist, made collections with excellent judgment.

London, Feb. 15—The slowness of the public in subscribing to the funds being raised for a memorial to Capt. R. F. Scott and his companions who died on the expedition to the South Pole, is causing much chagrin. Only about \$40,000 has thus far been collected, in spite of the urgent appeals of the entire press. The dilatoriness of the public response is attributed to the multiplicity of the sources of collection which in many cases overlap.

SALE OF PROPERTIES IN ST. JOHN AND VICINITY; CITY TO SELL IN LANCASTER

A sale which has been completed completes the transfer of all the properties in this city owned by Mrs. Anna M. Ferguson. The last sale was of two freehold properties, 133 to 137 Duke street. The lots are 28 by 100 and 32 by 100 feet, and each have a two-family frame building. The purchaser is a Frederick man, and the sale was made through Taylor & Sawyer.

The other Ferguson properties which have been disposed of within the last few months include the block of five lots with brick buildings in Dock street, sold to an English syndicate; the property in King street occupied by Waterbury & Rising and D. Magee's Sons, Ltd., sold to Waterbury & Rising, and Ten Eyck Hall on the corner of Union and Germain streets, sold to a syndicate headed by Thomas Nagle.

Arthur S. Smalley has sold two lots at Pandemonium, with a cottage on one of them, to a local man. The sale was made through Allison & Thomas. Pandemonium has shown rapid progress during the last two or three years, about seventy-five cottages and camps having been erected there during that period. The latest improvement was a plank sidewalk laid from the station to the river front.

Two properties were sold at auction at Chubb's corner at noon today by F. L. Potts. A tenement house, No. 482 Main street, owned by Percy J. Steel was purchased by S. T. Stevens for \$4,025. A farm of 100 acres at Loch Stell was purchased by Mr. Steel for \$635.

At Main and Mill Streets Notice to vacate has been given occupants several buildings near Main and Mill streets, and after May 1 they will be required to seek new quarters. Others have not as yet received notice.

W. A. Munro some time ago was served with notice that he would have to give up his occupancy of the building in Main street. Robert McAfee, who conducts a fish store in the building in Mill street adjoining the land on which the new C. P. R. warehouse is erected, has also received notice, and the tenant upstairs, it is understood has sold his lease. The tenants in the building on the corner, owned by Day & Crabb have not yet been given notice.

GRAIN GROWERS SAY NO THIRD PARTY AT PRESENT

Saskatoon, Sask., Feb. 15—A meeting of a section of the grain growers, called to discuss the question of forming a third party, decided against such a step at the present time. The press were denied admission, but a delegate gave out this information and said: "The farmers mean to know their ground before they launch any third party."

About 150 members attended the meeting.

IMPOSSIBLE FOR BASE PARTIES TO HAVE SAVED SCOTT AND COMRADES

London, Feb. 15—Commander Evans declares that it was humanly impossible for the base parties to save Scott and his comrades, according to a Christchurch despatch to the Daily Mail, which adds that Surgeon Atkinson examined the bodies and performed the last rights. The others were obliged to withdraw from the tent. Commander Evans is also quoted as denying the reports of dissension among the members of the expedition or that the supporting parties tampered with the fuel. He said that Captain Scott forbade searching parties to leave the base to seek him. Some of the members of the expedition expect that a searching party will result in the discovery of individual remains which is being carried on.

London, Feb. 15—A lengthy despatch from Christchurch, Commander Evans narrates the adventure of the northern and western parties of the Scott expedition, showing that they underwent many perils and hardships.

Commander Evans says that Lieutenant V. L. A. Campbell and party were always under the impression that the Terra Nova had picked up Captain Scott and his comrades.

Both parties were engaged in scientific research. They found fossils tending to prove that South America and Australia were at one time connected through the Antarctic continent, and that during the early history of the world the Antarctic had a temperate climate.

The various parties made valuable scientific observations and collections of fossiliferous rocks and other specimens, and even the southern party, which lacked a geologist, made collections with excellent judgment.

London, Feb. 15—The slowness of the public in subscribing to the funds being raised for a memorial to Capt. R. F. Scott and his companions who died on the expedition to the South Pole, is causing much chagrin. Only about \$40,000 has thus far been collected, in spite of the urgent appeals of the entire press. The dilatoriness of the public response is attributed to the multiplicity of the sources of collection which in many cases overlap.

BLACK FOX DIES ON P. E. ISLAND; NOW TALK OF INQUIRY

(Special to Times) Charlottetown, Feb. 15—A black fox, worth more than its weight in gold, died last Wednesday at the owner's ranch in New Haven. The fox was one of a pair bought recently for \$15,000. There is talk of revivations, and that a postmortem inquiry is to be made.

WOULD CUT OUT ST. JOHN FROM WEST INDIES SERVICE

Montreal exporters will ask that Montreal be made the summer terminus of the West India steamship service. They have asked Mr. Borden to receive a deputation. This scheme would cut out St. John and Halifax in summer.

BOSTON LOSES FEAR OF AN ICE FAMINE

Boston, Feb. 15—The danger of an ice famine is now passed, for unless there comes up or a warm rain comes the various ice companies about Greater Boston will get a fairly good crop. The ice will not be as thick as in some previous years, but is of good quality, being soft black ice and ranging in thickness, on Wednesday, from seven and a half inches to nine inches.

BURIED TODAY

The funeral of Mrs. Susan Christopher took place this afternoon from her late home in Winslow street, West End. Funeral services were conducted by Rev. W. H. Robinson, and interment was in Greenwood.

REPORTS ON CHILD LABOR

Commission Which Investigated New York Conditions

RABES AT THEIR TOIL

One Case of a Child of Three at Work—Women Employed 85 to More Than 100 Hours a Week at Average of Ten Cents

Albany, Feb. 15—How children of tender years alive for hours in canning sheds with their blistered fingers wrapped in rags, while others toil in tenebrous making toys, flowers and plumes; and how women toil miserably, sometimes for mere existence in industrial establishments in this state, is graphically described in the report of the New York State Factory Investigating Commission, submitted to the legislature.

The report says that canners operating in the rural districts have contended that their "sheds" in which the children snip beans and husk corn are not "factories," and that under certain conditions the employment of children was not resorted to.

Many of the canners, the report explains, are opposed to the employment of children, and half of them do not resort to it, but "as the canning industry is largely devoted to the exploitation of foreigners, the parents of the rural districts make them work." Paticent instances of this condition are given in the report.

One little follower of eleven had stopped work for a second and was throwing some bean snippings at another. His father hit him brutally across the face with a stick, and the child was carried to the hospital to snipping again. "Boss says work begins at four tomorrow," one of the "working inspectors" was told by a little Italian boy. The inspector left the shed at 9.30 that night. About a dozen children were still there and half of the floor was covered foot deep with beans which were held over night.

Of women workers the report says: "No woman can work from sixteen to 21 1/2 hours a day for weeks, in some cases even months, without permanent injury to her health. Yet women are doing just this thing in the upstate canneries, in binderies and other factories, and in the shops during the six weeks' Christmas rush."

In the large canneries the work keeps to pretty regularly during a season of four or five months. A work of 85 and 94 hours in one case 119 3/4 working hours—not followed by a week of comparative rest, but by another almost as bad. And the pay averages ten cents an hour.

Besides these subjects the report also considers fire problems, dangerous trades and ventilation and sanitation, and recommends as to the first that the numbers of workers in any factory building to be limited to the capacity of the stairways.

The commission which was created by the legislature in 1911, in answer to a popular demand for an investigation of the terrible "Triangle" fire of that year, consists, among others, of Senator Robert F. Wagner, president pro tem of the senate, chairman; Speaker Alfred E. Smith, of the assembly, vice-president, and President Combs of the American Federation of Labor.

It chiefly recommends that with a reorganization of the labor department there be created an industrial board and that this board be vested with power under broad statutes to make regulations which shall have the force of law, and make rules to fit each and every industry.

C.P.R. TO BUILD NEW MACHINE SHOP AT MCDAM JUNCTION

The C. P. R. is calling for tenders for the construction of a concrete machine shop at McAdam Junction. The new shop, which will replace the present plant, will be on a larger scale and of a more modern type. The change is made necessary by the increase in business and the prospect of still further growth. When the new shops are ready for operation the number of employees will be increased.

This action by the railway company seems to dispose of the rumors that they were planning to remove the shops from McAdam to St. John.

WOMEN ASK FOR VOTE IN BRITISH COLUMBIA

Victoria, B. C., Feb. 15—Fifty women representatives of all sections of British Columbia, gathered on McBride yesterday and presented a petition signed by 10,000 people, praying that the franchise be extended to women upon equal terms with men. The premier informed the ladies that the government had never made the question a factor in its policy, because, upon mature consideration, it had been impossible to agree that the end was not to be desired.

He promised consideration by the cabinet next week, and indicated ways in which the petition could be brought to the attention of the legislature in the event of the government deciding adversely.

SURPRISE PARTY

At the home of William Watson, in Pokisk Road, last evening, about fifty friends gathered and spent a pleasant time. During the evening on behalf of their present W. Ferris presented to him a very nice set of gold cuff links engraved with his monogram. Refreshments were served and games and music enjoyed.

Ladies!

WHICH appeals to you more? A truth backed by a bond of good faith, or a mere claim?

Judge this:

REGAL Flour yields the best quality and the utmost quantity of bread per barrel of any flour in the world. Costs a bit more but you save on the quantity it bakes. Lovely loaves, white and light. Fine flaky pastry too.

Essential point:

Try one barrel. If we have not here signed our name to the truth, your dealer will return your money. Then we must pay him. And worse still, we shall lose your good opinion forever. Remember—Regal—the flour that is used exclusively by many of the best bakers in the provinces.

A CASE THAT BROUGHT DEATH

Bulgarian Secrets Placed in Hands of Turks — A French Sergeant Humbled — Cold Blooded Work of Russian Woman Spy

(London Tit-Bits)
According to the special Sofia correspondent of the "Petit Parisien," a woman of high social position in that capital and the wife of a Bulgarian staff officer was found guilty of betraying the Bulgarian mobilization plans to the Turkish authorities, and was shot. A few years ago she fell in love with an officer attached to the Turkish legation at Sofia, but her parents objected to the marriage, and she finally wedded a Bulgarian officer. Some time later the Turkish officer renewed his friendship with his old sweetheart, and one day he said to her: "I have

been ordered by my superiors to obtain the Bulgarian mobilization plans. If I do not succeed I shall be relegated to some distant command in Asia Minor, and we shall have no chance of seeing one another." The woman handed him a day or two later a bundle of documents containing the Bulgarian war plans, which she had taken from her husband's desk, telling him to photograph them and return them to her. Just after the war broke out the Turkish officer was captured by the Bulgarians in one of the first engagements, and in his pockets were found papers revealing the whole affair. He was tried by court-martial and sentenced to death. The young Bulgarian woman was arrested at Sofia, tried by a special court, and, being found guilty, was shot.
Military spies of the fair sex are comparatively common, and only a short time ago a woman named Patzen was arrested at Kiel on suspicion of being a spy in the employ of France. It appears that she had entered into a love affair with a non-commissioned officer named Dietrich, of the German explosive department, solely for the purpose of obtaining from him some important naval secrets of which she believed he was possessed.
This reminds us that some years ago a young English lady attached to our secret service was told off to secure, if possible, certain army secrets of France. With the hope of being successful, she attracted the attention of a member of the French headquarters staff, who promptly fell in love with her. Her conscience, however, reproached her with the traitorous part she

Little Beauty Chats
By BLANCHE BEACON

When Blonde Hair Begins to Darken
LIGHT hair has a great tendency to darken as the years go by, which is why women with blonde tresses are intensely interested in all hair-lightening treatments. Every morning they wake up to find their sun-colored hair a shade darker and every day they grow more discouraged. Is there balm in Gilead for these unfortunate ones? I think so, but if you will give me time to look in my beauty budget I can speak more positively. Yes, here is information that will enable you to start a crusade against darkening hair and carry it on to a successful finish. Are you, perchance, using an oily soap, or tonic on your hair, maiden of the disappointing tresses? If the answer is yes, then fly to your room and throw the offending articles away, as, more likely than not, they are responsible for the darkening of your crown of glory.
Avoid using anything on your hair that your common sense tells you will darken it. This means you must forego on tar soap, sage tea hair washes, hair pomades, brilliantine and egg shampoo.
The damed with too-colored hair must reconcile herself to the fact that blonde tresses need to be washed often, with brown or black hair, at the slightest suggestion of dust will give light glistening locks a muddy tinge which is the reverse of beautiful.
A splendid wash for blonde hair is given below. Do not, however, use it often more than twice a month as it has a tendency to make the hair dry and brittle.
After giving one's hair its regular shampoo and rinsing, it should be washed with a soda solution, then rinsed and dried. This soda-water is made by adding an ounce of bicarbonate of soda to a quart

of boiling water. Do not attempt to use this wash until the water is stone cold.
The Prussian's camp and chat with their officers. When Hoff returned to the French lines he was taxed with being a spy, and when the lieutenant produced evidence that he was a traitor to his country and in the employ of the Prussians, an officer snatched Hoff's revolver from him and shot him dead there and then.
The Russian war office has spies all over Europe, a good number being of the fair sex. The most notorious and daring women spies, however, are attached to the Russian secret political police. Zinaide Joutchenko, nee Goussarova, a member of a well-to-do family at Vitebsk, was a famous Russian police spy. This woman made her first appearance as an agent provocateur in 1894, when she was twenty-two years of age. In the following year she betrayed the famous plot of Rasputin against Czar Nicholas I. at the time of the projected journey to Moscow. Rasputin and his friends were arrested, and to avert suspicion in the minds of the revolutionists from Joutchenko, the police, on her instructions, also arrested her, and she was kept in prison for eleven months. For years Zinaide-Joutchenko sent her comrades to prison, to the scaffold, and to Siberia, while showing them the utmost respect. In 1907 she elaborated the plan of Reinbot's execution in one of the theatres of Moscow, and handed it over to Francis Fruchin, a young revolutionary. At the time Reinbot was prefect of Moscow, but before Fruchin could shoot him at the theatre she was arrested. The unfortunate girl was sent to the gallows in ignorance of the fact that Joutchenko had betrayed her to the police.

Thus is this bug-a-boo of light-haired women vanquished.

Neave's Food
FOR INFANTS

Is The RIGHT Food For YOUR Baby
The strongest argument for your using NEAVE'S FOOD for your baby, is that to 6 years experience has proved its value for the youngest and most delicate infant.
NEAVE'S FOOD contains all the essentials for flesh and blood forming, in an exceptional degree — assists feeding — relieves constipation — and makes baby thrive.
Sold in 1 lb. air-tight tins by all Druggists in Canada.
You to Mothers — Write today for free trial tin of Neave's Food and book "Hints About Baby's" to the Canadian Agent — EDWIN UTLEY, 14 Front Street East, TORONTO.

You Always SAVE MONEY When You Buy FURNITURE FROM J. MARCUS, - 30 Dock St.

These Maidens' hair With tresses rare Use HERPICIDE Upon the hair. No other oil could 'ere impart Such Beauty that wins Every heart.

YOU CAN ENHANCE YOUR NATURAL CHARM AND ATTRACTIVENESS BY THE INTELLIGENT USE OF **Newbro's Herpicide**

Nice hair, well cared for imparts a sweet dignity and winsomeness, an air of naturalness which no matter how great the effort, never can be assumed.
Clean, thick, luxuriant hair is merely a question of care and cultivation. If your hair is dull, brittle, uneven and coming out with every combing, it is because its life is being destroyed by the presence of dandruff. Dandruff is due to a germ or microbe. HERPICIDE destroys this germ, keeps the scalp clean and sanitary, gives the hair life, lustre and luxuriance and checks the falling.
With its well-known hair-saving qualities and exquisite fragrance, HERPICIDE is the most delightful and efficient of all hair-dressings. It contains no grease and does not stain or dye. The itching of the scalp stops almost instantly.
TRY A SAMPLE BOTTLE AND READ THE BOOKLET.
If not already acquainted with the delights of using this most popular of all hair-dressings, send 10 cents in postage or silver (to pay mailing and packing) for a trial size bottle and booklet on the care of the hair.
SEE COUPON. Applications obtained at the best barber shops and hair-dressing parlors. Sold by drug and department stores. Money back guarantee on large size everywhere. Accept nothing but genuine Herpicide, the original dandruff germ destroyer.
THE BEST SHAMPOO SOAP AND MOST PERFECT COMB FOR LADIES USE.
Don't use a cheap soap for shampooing. Herpicide Aseptic Tar makes a rich, pure, creamy lather and is ideal for shampoo.
The Herpicide Comb No. 999 has large, strong, smooth, regular teeth, does not damage the hair and is one of the greatest comforts. Get one. Ask your dealer.
E. CLINTON BROWN, special agent.

The Herpicide Company, Dept. 71B, Windsor, Ont.

JACK-O-LANTERN
We boast we are above the men, When superstitions we disown, Who over bog and marsh and fen Pursue an ignis fatuus—
And, yet, when all the world is dark, When starless skies conceal the goal, Behold in Hope's suspended ear! The Jack-o-lantern of the soul! —Ralph M. Thomson.
During the hearing of a case at Prestatyn Police Court seven persons of the name of Jones appeared in one case, and two of the magistrates present were also named Jones.

THE BRIDE
The orange blossom crowns her
The bridal satin gowns her
The happy anthems ring;
Griphood's gay reign is over
She goes to meet her lover
While Eden's voices sing.
The marriage vow is spoken
The wedding bread is broken
With blessings and with tears;
These two set out together
Through storm and sunny weather
To journey through the years.
Fate send your choicest dower
Great joy and plenty shower
From blue and kindly skies;

Earth's music and its laughter
And gladness ever after
And love that never dies!
So life goes on forever
Hands join no more to sever
The roses crown the June!
And down the aisle swinging
We hear the angel singing
A joyous hymnal tune.
—Kate Masterman.

Young women in Russia are not at all averse to long engagements, and use all sorts of artifices to defer the wedding day as long as possible; while in Spain, where old maids are unknown, as all girls marry, the recognized length of an en-

One True Medicinal Whiskey

Beware of Imitations
While substitution is not a part of modern merchandising, it is still practiced to a greater or less degree by a few merchants who haven't the courage to compete with their fellows along legitimate, fair, lines, or who do not care for their customers' health, but their own profits only.

Substitutes Are Dangerous
And any merchant who practices substitution is unworthy of the public's confidence.
When a remedy has been before the public for more than half a century, has been prescribed and used by the best doctors and in prominent hospitals, when it has carried the blessings of health into as many thousands of homes of the sick as Duffy's Pure Malt Whiskey has, imitations are bound to arise. Be sure you get the genuine.

Duffy's Pure Malt Whiskey
Made for Medicinal Purposes Only
It is free from injurious substances usually found in beverage whiskeys. It has given remarkable results in the prevention and relief of all throat, lung and stomach troubles and all wasting and diseased conditions for over 50 years.
INSIST ON GETTING DUFFY'S
The genuine is sold in sealed bottles only. The "Old Chemist's Head" is on the label and over the cork is an engraved seal. Be certain seal is unbroken. Sold by druggists, dealers and hotels.

GREATLY IMPROVED. Our reputation has greatly improved in the minds of the people because we do what we promise. We promise to make old silver just like new and we do it, too; 20 per cent discount off regular prices for replating silverware until March 1.—J. Groundens, 24 Waterloo street.

THE BANK CHANGE. After a career of eighty-seven years the Bank of New Brunswick passes out of existence today, when the merger with the Bank of Nova Scotia goes into effect. Today the business of both banks was carried on as usual, but on Monday the Bank of Nova Scotia will be in charge and all business will be done in its name.

MAN OF FORTUNE NOT KNOWN. Nothing seems to be known locally of one Watson, referred to in a Boston dispatch, for whom it is said a fortune of \$1,000,000 is on deposit in a bank in Cuba. The man is questioned as sometimes an Archibald and sometimes as Hugh Watson. It was said that one Hugh Watson formerly of this province had died in Montreal about two years ago.

GREAT RAILROAD STRIKE IS TEMPORARILY AVERTED

New York, Feb. 15.—A new possibility of peace between the fifty-four eastern railroads and their 84,000 firemen who have threatened to strike for higher wages and revised working conditions, appeared last night with a fresh arbitration proposal by the railroads, and the strike that seemed imminent during the day was averted, temporarily at least.

ON WAY HOME TO ENGLAND; TUR-LED BACK BY OFFICIAL

Brookville, Ont., Feb. 15.—Because they had only one month left, Mr. and Mrs. John N. Willey, English people, en route to New York to catch a ship for Southampton, were turned back by a United States immigration inspector yesterday. They had plenty of cash and had no intention of remaining in the United States.

 The sum of \$21,499,999 has been received by the C. P. R. as the first installment of subscriptions to the new capital stock, indicating that the whole issue has been taken up and a considerable number of new shares paid for in full.
 Walter Davidson, C. M. U., who has been governor of the Seychelles Islands, in the Indian ocean for the last eight years, assumed office yesterday as governor of Newfoundland, succeeding Sir Ralph Champneys Williams.
 REV. DR. PHILLIPS' WRITING
 Hartland Observer:—"A Maple Leaf and Other Sketches" by "Thaddeus" (Rev. C. T. Phillips, D.D.) is out. The book consists of about 150 pages, is prettily bound and contains a splendid portrait of the late Dr. Phillips.
ACTIVITY IN REAL ESTATE
 Ambrose News:—New Glasgow is having a decided boom in real estate at the present time. Properties that would have sold at almost a nominal figure a few years ago, have now almost fabulous prices put upon them. We know of two in instances of properties, which were offered in the market at from twelve to fifteen thousand dollars three years ago upon which options have been taken for thirty thousand dollars within the past few weeks. The same is true with regard to the properties in Halifax and St. John. It is quite evident that the east is marked for a boom.
THE WHITE PLAGUE
 Richibucto Review:—It has been our unpleasant duty to record in this issue no less than three deaths from tuberculosis in this county.

**THE LEGISLATURE;
 GOSSIP AS TO SOME
 CHANGES IN THE AIR**

Fredericton, Feb. 14.—The legislature sat for fifty-five minutes yesterday afternoon and then adjourned until Monday afternoon at three o'clock. During the session several petitions were introduced, the last of standing and general committees read, and the house went into committee to pass bills relating to the redemption of the public debt and the public utilities commission.

A caucus of the government members was held later in the afternoon, supposedly for the purpose of dealing with possible changes in the cabinet. If the permanent tariff commission appointed for the Dominion, Premier Fleming is expected to resign to accept a position on the board. In this case Attorney General Grimmer is regarded as his probable successor for a short time at least with the prospect of appointment to the supreme court.

The first vacancy on the supreme court bench will come with the retirement of the chief justice. In the meantime Judge MacLeod would like the chief justiceship for a year or two before retiring also. Judge Landry's friends, however, insist that he has the first call. While the attorney-general may fill the next vacancy on the bench, O. S. Crockett, M. P., thinks he is entitled to it, and M. G. Teed, K. C., of St. John is spoken of.

In the event of both Messrs. Fleming and Grimmer leaving the government the names of speaker Clark and J. B. M. Baxter are both mentioned for the office of premier, with the guess that Mr. Clark would be selected with Mr. Baxter as his attorney-general.

**SEATS WILL BE ON SALE FOR
 SUBSCRIBERS NEXT THURSDAY**

At ten o'clock next Thursday morning, the subscribers' sale for the Holmhead concert will begin at the Opera House box office. Miss Logrin will be pleased to hear from intending subscribers, by phone or otherwise.

Holmhead will be heard in four programmes solo numbers, including several of the biggest operatic arias, and a number of English songs. Two operatic duets with Madame Kennedy, and three solo numbers by the latter will complete a programme that cannot but be long remembered by those who attend.

WHEN BABY IS ILL.

When the baby is ill; when his little stomach is out of order and he is cross and refuses to smile, don't dose him with castor oil. There is no need to torture him—give Baby's Own Tablets—they do everything castor oil is supposed to do, only they do it better, and what is more the baby will like them. The Tablets are absolutely safe, being guaranteed by a government analyst to contain no opiates or other harmful drugs. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WHAT THE PLAYHOUSES OFFER

THE GEM.—A capably enacted, entitled "Thou Shalt Not Kill," was one of the main features of yesterday's show at the Gem Theatre and attracted a large and pleased audience to all who saw it. The story had to do with the accident which killed the hero's hand, and her innocence in the matter, although circumstances pointed to her as the slayer. A vein of love dominated the story and the manner in which her innocence was established after she had been doomed to life imprisonment was a pleasing feature of the drama. There was also a western romance, "The Kiss of Salvation," showing how the daughter of a minister redeemed a "typical western bad man." "The Hobo's Dream," or "Poisoned Ivy," presented by the Selig Company, was a comedy which furnished much hearty laughter. Miss Eva Carter had a pleasing new song and the orchestra furnished a fine programme. This bill will be repeated this evening.

THE LYRIC.
 A vaudeville act that has a reputation the world over as a creator of giggles and hearty laughter is now appearing at the Lyric Theatre. This is Earl and Bartlett who should be well remembered in St. John as this is their fourth visit here. One elderly gentleman upon leaving the theatre last evening asked if that was not John Bartlett and upon being informed that it was he gave the information that he had seen him and his wife some years ago in Philadelphia, and later on in St. John. He said that he was as funny as ever. Mr. Bartlett is a big, good natured Irishman, possessing no small degree of talent as a comedian while his partner adds much to the attraction by her charming personality and exquisite voice which is heard to advantage in "The Irish Melody," "Put Your Arms Around Me Kate," "Earl and Bartlett will appear for the last time this evening. Four pictures of the unusual high standard made up the balance of an enjoyable programme.

MANCHESTER ROBERTSON ALLISON, LTD.

Doctor Offers Serum Test
 St. Louis, Feb. 15.—Dr. George M. Heath of St. Louis called the German government that, should they care to test the tuberculosis serum, which his experiments have evolved, a quantity would be sent at once.
 Doctor Heath's action followed a satisfactory interview with Charles E. Finlay, a New York financier and real estate operator, who has offered a million dollars for a successful treatment of the disease. Mr. Finlay at this interview offered to bear the expense of a test to be made up on fifteen St. Louisians to be selected by him.
 The cases, so far as possible, will be typical of different stages of the disease, and will comprehend different conditions of environment. The tests will be conducted in secret.
 "Up again, eh, for erasing the law?"
 "But I didn't evade it, your Honor. Here I am."—Washington Herald.

MORNING LOCALS
 John Williams, a longshoreman, was painfully injured by falling on ice at Sand Point last night. He received a severe gash over one eye. Seven stitches were required.
 The West Side fire department was called out yesterday afternoon for a slight fire in the large wooden building at the corner of Winslow and Union streets, West End. The damage done was slight.
 Friends called at the home of Mr. and Mrs. Frederick Wright in Emerald street last night and presented to them a handsome chair. The presentation was made by Kenneth McDonald. A very pleasant evening was spent.
 Charles Kelly of Stettler, Alberta, arrived in the city yesterday afternoon with his bride, having been married in Glace Bay a few days ago. They will visit relatives here before returning west.
 F. W. Bender, who has been in the city for several weeks in connection with the board of trade membership committee, will leave for New York this evening.
 James Gilchrist, local immigration agent has received word from A. Bowden, Brunswick agent in London, that with every steamer coming to St. John for the balance of the season, there will be immigrants for New Brunswick. In the spring there will be a large increase in the number of immigrants.
 At a large meeting of the Fairville board of trade last evening in the court house, Fairville, the by-laws which have been prepared were adopted. William Linton presided and it was decided to immediately start a campaign to increase the membership.
 Word was received at the I. C. R. ticket office here yesterday that the steamer Minto crossed to Georgetown (P. E. I.) and the Earl Grey returned to Pictou yesterday.

RECENT DEATHS
 The death of Mrs. J. W. Rogers took place last night at the General Public Hospital after an illness lasting one week. There survive her husband and three children, two girls and a boy; and two sisters, Mrs. R. J. McPheerson, 93 Winter street, and Mrs. William Moore, of Montreal.
 C. E. Lohnes, of Matland, aged nineteen years, a school teacher at Hubbard's Cove, N. S., dropped dead yesterday afternoon. He had been in good health until the moment of his death.
 The death of John Ford of Sackville occurred at his home there yesterday. He was seventy years of age and is survived by his wife and four children.
 The death of Gilbert Hicks occurred at his home in Petticoat on Thursday last. His wife, four sons and four daughters survive.
 Robert B. Segee died in Roxbury, Mass. He was 63 years of age and was the son of Howard Segee, of Fredericton. He removed to Boston about twenty-five years ago.
 The death of John Ford of Sackville, occurred yesterday. Mr. Ford was about 70 years of age and is survived by his wife and four children.

LOCAL NEWS

TEN DEATHS. Ten burial permits were issued by the board of health during the last week. The causes of death were as follows: Peritonitis, appendicitis, endocarditis, gastric enteritis, gastric ulcer, heart disease, pulmonary hemorrhage, congestion of lungs, laryngeal diphtheria and epithelium of neck.

BLOOD POISONING. Friends of Kerr Higgins, of North End, who has been hospitalized at the Central hospital at Centreville for some time, will greatly regret to learn that he is confined to his boarding house there owing to blood-poisoning having set in his leg. His mother, Mrs. J. Higgins, of Harrison street, now with child. No word has been received as to how he contracted poisoning.

ROBICHEAU-HARRIS. A wedding of interest to many West Side residents, took place on February 11 at the parsonage of the Charlotte street Baptist church, the principals being Joseph Robicheau and Mrs. Mary Harris. The ceremony was conducted by Rev. A. J. Archibald, pastor of the church, in the presence of friends and relatives. The contracting parties, who warmly congratulated them and wished them much happiness in their future.

TO BOX IN BOSTON. It is likely that St. John will be represented at the amateur boxing championship which are to be held in Boston during May. For the last year or so representatives have gone from this city but have not made extra good showings. This year, however, the city will be represented by Tom Barrett, a husky East St. John boy. Barrett has made quite a name for himself in local boxing circles, and only recently scored a win over Beth McLeod. If he goes to Boston he will probably enter in the 145 pound class.

PRESENTATION. A pleasing event took place on Thursday night at the home of Mr. and Mrs. James T. Hogan, 99 Sherill street, when friends of Mrs. Arthur Storey gathered. The evening was pleasantly spent with games and music, after which supper was served. Before the gathering broke up, Mrs. Amy Roberts, on behalf of the company, presented to Mrs. Storey a cut glass berry set. Mrs. Storey, who has been visiting her brother, Bruce Mackinnon, for the last two months, will leave on Sunday evening for her home in Young, Saskatchewan.

BECOMES CANADIAN CITIZEN. An Eastport letter says:—F. P. McColl, who was the manager of the Seacoast Canning Company in this city for several years, and took an active part in the politics of Washington county and who went to Chatham, N. B., two years ago to assume the management of the Canadian Sardine Company at that place, has not only given up business in this city, but this week took out naturalization papers to become a full fledged Canadian. While located in this city, Mr. McColl maintained his residence at St. Andrews, N. B. It is rumored that several other former residents of this city are to be naturalized in the footsteps of Mr. McColl and to renounce their allegiance to Uncle Sam.

PRESENTATION TO WIFE OF PASTOR. The members of the Senior Mission Band of Calvin Presbyterian church last evening spent a very enjoyable time at the home of Mrs. Frank Neason, 238 Waterloo street. During the evening there was made to Mrs. L. A. Lelean, president, a presentation of a handsome silver casket, presented on behalf of the band by Miss Alice McFried, president, who had an address expressing regret at her departure and speaking of the excellent manner in which she had co-operated with her husband, the pastor of the church, Rev. L. A. McLean, in the duties connected with his office. Full appreciation was voiced concerning her able services, and success, and God's blessing hoped for in her new field. Rev. Mr. McLean and Mrs. Lelean will leave about the latter end of the month for Quebec.

THE POLICE COURT. Two prisoners charged with drunkenness, were arraigned in the police court this morning and were each fined \$4 or ten days in jail. John Quinn, charged with vagrancy was remanded to jail, and will probably be sent to the Municipal Home. Hearing in the case of Joseph Stewart, charged with bigamy was to have continued this morning, but was further adjourned until Monday afternoon at two o'clock. George Duffy, arrested a few days ago on charge of using profane language, was further remanded. James McLeod, charged with assaulting an unknown man in view of the police on the North Side of King Square last night, pleaded not guilty. Francis Kerr appeared for the prisoner. Policeman O'Leary told of seeing McLeod striking a man twice. The prisoner said that he was only fooling with a friend and had not struck him. John McDermott said he was with McLeod at the time the latter was arrested. He had been fooling with McLeod and the latter made several swings at him. McLeod did not strike the witness. The matter was adjourned until Monday afternoon for other witnesses. McLeod was allowed out on a deposit.

WINTERPORT NOTES. The S. S. Empress of Ireland, which sailed from here last Friday, arrived in Liverpool this morning. The S. S. Empress of Britain, from Liverpool left Halifax this morning at eleven o'clock and is due here late tonight. The S. S. Granparian is due at Halifax tomorrow on her way here. The S. S. Saturnia left Glasgow this morning for St. John. The S. S. Whakanaui will sail tonight for Australian ports. The C. P. R. liner Montfort is due to arrive the first of next week. The Donaldson liner, Athena, which touched the foil ground yesterday sustained no damage whatever. She is now unloading cargo at West St. John.

Church vs. Theatre in Montreal. Montreal, Feb. 15—Hostility to the proposal that Mrs. Clara Butt, the English contralto, and her husband, Kenerley Rumford, should give a concert in St. James' Methodist church, has arisen in the ranks of theatre managers, who object to this competition from a church. The city has also notified the church authorities that if they desire to hold the concert they must become licensed like a theatre, at a cost of \$500 per annum.

HALIFAX MAN AND WIFE IN CENTRE OF MEXICAN TROUBLES

Anxiety For These and Other Canadians is Felt by Relatives

Toronto, Ont., Feb. 15—Great anxiety for the safety of the Canadians who are now in or near Mexico City, is being felt by their friends and relatives here. Some of them are known to have been near the centre of activity in the recent revolution, some on business or as representatives of Canadian business houses, and others as tourists. The list of those in Mexico is as follows: Mr. Crombie, Montreal; Mr. Weldon and Mr. Mowat, all of the Bank of Montreal; Mr. Sharp, Quebec City; Bank of Montreal; D. Muirhead, Toronto, assistant manager of Bank of Commerce; Wm. Hogg, Toronto, temporary manager Bank of Commerce; Dr. Archibald Lawson, medical director Confederation Life, Halifax; Mrs. Lawson; F. V. Green, Winnipeg, manager of Confederation Life, Toronto; Mrs. Green; Gerald Staunton, secretary, Confederation Life Assurance Co., Toronto; Mrs. Staunton; Mrs. Stewart, a sister of Mrs. Staunton. At Acapulco, a day's journey from Mexico City, three other Canadians are located—Wm. Harris, manager of the Bank of Ontario; Mrs. Burns and Miss Margaret Burns, all of Toronto.

LOOKS LIKE A MAINE AND NEW BRUNSWICK LEAGUE

Although spring is near at hand, the baseball situation in St. John and vicinity is not cleared away. The big leaguers in the states are lining themselves for their spring training quarters, and baseball is again the chief topic of conversation. Here no definite arrangements have as yet been made regarding the plans for the coming season, and the fans are anxiously waiting for some word from headquarters. The Northeastern League project, as far as St. John is concerned, seems to have died a natural death, although it is just possible that the local team may be entered in that organization if it is formed. The possibilities of the New Brunswick and Maine League being referred to for the season looks brighter, especially as the Woodstock, St. John and St. Stephen and Calais with one team. Doubtless this would prove as good a drawing card as last year's league did. A meeting of the executive of the league will likely be held at an early date, although the secretary, D. S. Donald is still confined to his hotel on account of sickness. It will be another meeting of the executive of the Northeastern League in the latter part of this month, or the first part of next, and then the local managers will have to decide whether or not they will enter their team. The warm weather is coming on, and it is as yet too early to say whether or not it is time that something was moving. Joe Pace, who managed the team for a while last year, and who represented the local owners at the meeting of the delegates when the Northeastern League was organized, arrived in the city yesterday. He said that as far as he knew there was nothing new regarding the local situation.

MR. TILTON LIKELY TO CONTINUE POSTMASTER

No Change in Fairville is Report on Good Authority

There have been some rumors of a change in the office of postmaster in Fairville when the new post office, which is now ready to be opened for business. The present postmaster, C. F. Tilton, has held the position while running a general store, and has had the office in his store. It was believed in some quarters that his business would prevent him taking charge of the new building, and several eminent Conservatives were discovered willing to sacrifice themselves for the good of the community by accepting the position. However, to be quite willing to continue as postmaster, and so far there has been no evidence of any desire on the part of those who control the patronage to displace him, and it is now generally believed there will be no change. There is good authority for believing this correct.

ROBERT R. BOYER DEAD

Born, Lived and Died in Exmouth Street House—A Respected Citizen

The death of a highly respected citizen, Robert R. Boyer, occurred this morning at his home 29 Exmouth street, after an illness dating back to about New Year. He was seventy-nine years of age, and an interesting feature concerning him was that he spent practically all his life in this city, where he was born. The house in which he was born seventy-nine years ago is the one in which he had since resided, and in which he died this morning. Two years ago he was a member of the old No. 2 hand engine company and was active in the early days of this department. For a time he kept a bicycle repair and skate sharpening shop in Sydney street. His wife and one son, A. F. Boyer survive, with one brother, John, in Sussex, and one sister, Mrs. Annie Lyman, of this city. The funeral will be held on Monday from his home in Exmouth street.

COLDER, SAYS THE WEATHER MAN TODAY

This has been almost like a day of spring with the mercury up to 37 and with 21 the lowest point touched. The probability is in for some snow and then colder again.

VITAL STATISTICS

Sixteen births were recorded during the week. The girls numbered ten and the boys six. Six marriages were also registered.

PLAYGROUNDS NEWS IS WELL RECEIVED

Now Let us Have "Victoria Square" Fixed

THERE IS NEED OF IT

Long Time Used as a Dump—
Boy Breaks Into Star Theatre and Tamper With Film—Personal and Other Notes

Much interest centred this week in the announcement made by the board of school trustees that permission was to be granted to the Playgrounds Association for the use of the yards surrounding the buildings of the board in Douglas avenue and Eastmount, Beatty street and Alexandra schools. The action is expected to give much satisfaction to children and parents alike, as it will afford for the first time the youngsters of North End an opportunity to enjoy the privileges of an organized playground with all that this means to the little ones.

Both locations are in desirable localities, though neither is exactly what might be called central, but each has a wide area from which the youthful patrons will be drawn, and when once started they are expected to be liberally patronized. The grounds in each case are well adapted for the purpose. They are particularly roomy and can be easily transformed into playgrounds similar to others which have been seen here in the last few years.

But there is one thing which should be attended to in connection with the proposed playgrounds to be located on the Alexandra yard, the removal of the public dump from its front of it. It has long been a source of wonder, not only to residents of North End living in the neighborhood, whose children attend the school, but to those who did little better than to look on from a distance, why this unsightly place was allowed to remain in the midst of a growing residential centre. It has been expressed that it might prove a menace to health, for frequently the refuse was used as a dumping ground for decayed fruits and vegetables, and here the little children attending the school and others living nearby were playing.

True, from time to time a man was employed by the city to level off the ugly looking heaps of rubbish which were piled upon the dump, but other than removing for a few days the spectacle of refuse more or less scattered about the dump, what was wanted is not for a man to be employed now and again, or even all the year round for the matter, to keep lighted the piles of refuse, but other rubbish there, but for a crew of several men to be employed for the purpose of leveling the dump and replacing it with something more attractive to the neighborhood, a public square for instance. It is felt that this could be done without very heavy expenditure and that it would be appreciated not only by those directly benefited in the immediate precincts of the dump, but as well by hundreds of others through North End who would thus be provided with an attractive beauty spot.

When it is considered that this distasteful and menacing thing, the dumping ground for anything which is regarded as refuse, and the classification covers a wide range, bears the high-sounding, commemorative, and rather euphonious title of "Victoria Square," it seems wrong to allow it to remain as it has been for the last few years. It has been said that "every little snail can leave a fragrance all its own," and if this be true the air in the vicinity of "Victoria Square" is liberally scented, particularly on the approach to springtime.

Now that there are to be playgrounds bordering upon this so-called "square," it is the hope of North Enders that action will be taken as soon as the snow has disappeared for the final abandonment of the place as a dumping ground, not by the posting of signs bearing the warning, "no dump," and which are buried ruthlessly on the arrival of the cartloads of refuse, but by the public understanding that something is to be done in the way of improving the place so that it may be deserving the title "Victoria Square" and a beauty spot to which parents need have no fear of sending their children.

There will be but one change made in the staff of the Bank of Nova Scotia in the North End, resulting from the taking over of that institution by the Bank of Nova Scotia, and that is the transfer of H. W. Dickson, who has been in the North End branch for some little time, to Halifax. It is a merely an exchange, for his place in the North End branch in Main street is to be taken by H. E. Burns, who comes from Halifax after having had experience in the bank in that city. The North End branch will be continued under the management of C. H. Lee, and this will be pleasing news to the many patrons of that office who have found him very genial and amiable in the transaction of business. After Monday the bank will be known as the Bank of Nova Scotia.

Curiously was at the root of the action of one young fellow on Thursday last, which got him into trouble, for he was anxious to know whether or not he could operate a motion picture machine, and with this object in view, he picked the lock of the door of the Star Theatre and went inside. In trying to run a reel through the machine he damaged a film valued at about \$200, but this can be repaired. The manager, J. N. Golding, found that the place had been entered when he went to the theatre on Thursday evening, and he notified the police. The young fellow was not satisfied with running the film through the machine, but he turned his attention to other things about the place and tried to procure admission tickets by turning upside down the ticket box and shaking it until some fell out. The police managed to locate the boy yesterday and he was given a warning. As he had not stolen anything he was not arrested, but from the scare he received when he was told that his doings had been learned, he is hardly likely to repeat the offence, even to test his ability as an operator.

Miss Beattie Williamson of Main street today for Fredericton to spend the week-end with relatives.

QUITE A BARGAIN.

A man who was very miserly heaped up his stacks of hay year after year in the hope of making double the price he was offered for them. A well-known hay and straw buyer in the district one day asked the price of a stack. An enormous sum was asked, which the buyer accepted.

"How about the terms of settlement?" asked the old miser.

"Well, you see," said the buyer, "my terms are to settle when I fetch the last load away."

"That's a bargain," said the miser, slipping the other's hand.

The old chap watched every load go away except the last, and that the buyer has never fetched yet.

Complaints have been lodged with the police of North End during the last six or eight weeks concerning the doings of boys who were said to be organized in gangs or clubs, having quarters of their own in little alleys along the back streets. There were a few petty robberies and for a time it looked as though a band of youthful thieves was operating and might possibly be, if not checked, the founding of a gang whose operations would be more extensive. Of late however there has been nothing in the nature of a complaint board in this connection. The police succeeded in rounding up most of the lads, and their rendezvous were destroyed so that they were deprived of a meeting place except about the street corners.

"Remember, you have a man's life depending on how you do your work," is the motto on the wall of an aeroplane factory at Clapham Junction, Eng.

DIAZ HAS CONQUERED AND MADERO RESIGNS

Mexico City, Feb. 14.—The resignation of President Madero is announced on the authority of the British legation, where Delaharra took refuge yesterday after having urged Madero to compromise with the rebels.

Catarth Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarth is a blood or constitutional disease, and in order to cure it you must take internal remedies.

"Our Personal Advice To All Skin Sufferers"

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right. So when we tell you that we have found the effective eczema remedy, you can depend upon it that we give you advice, not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

An Object of Pity

That part of our nature which we call the emotional is much more highly developed in women than in men. They are more sensitive, more tender, more sympathetic, more pronounced in their feelings and desires, more susceptible to the extremes of pain and pleasure, more sensitive to the atmosphere of attractiveness and charm which always surrounds the existence of these winning, engaging womanly characteristics.

Dear Mrs. Currah.—I am very grateful to ORANGE LILLY. I have used it for some time and it has made a great difference in my life. I commenced its use eight months ago. I felt I would surely insure before the year was ended. The pain I suffered often made me wish for death, and besides I would have such fits of depression and nervous twitching that I would have to scream.

Free to all Sufferers. In order to enable every woman suffering from any form of female disorders to try the merits of ORANGE LILLY, I will send to everyone who sends me her name, address, or the address of any suffering friend enough of the remedy for ten days' treatment absolutely free, so that she will be able to judge for herself if it must give relief that I make this free trial offer.

BURGLAR PROVED A GOOD SAMARITAN

Went to Rob House and Found Baby Choking With Croup—Dropped Revolver, Worked Heroically, and Gave Infant Relief.

Los Angeles, Cal., Feb. 14.—A burglar who went to rob Mrs. Fred Morris remained to save her baby's life, according to a report she made today to the police. Mrs. Morris said her baby was stricken with croup. She started to run for a physician. Just as she went out her front door she met a masked man who ordered her to keep quiet at the risk of her life.

A MORNING IN THE KING'S ROOM

By him sits Lord Knollys. The papers are presently laid on the table, and the king looks at the little gold-framed carriage clock on his desk. The hands point to five minutes to eleven, and a servant enters the room with a card on a silver tray.

Enter the inventor. "He says he was commanded to come at eleven," he says in a kind voice. "Lord Knollys has turned to the pages of the king's engagement book, but the king says: 'I remember the name perfectly. He is an inventor and his name and his invention were mentioned in the paper by a rather poorly-dressed man, with a square box in his hand, is shown into the room.'

The king advances towards him and intercepts his bow by shaking him by the hand. "I have been looking forward very much to seeing the model of this invention of yours," he says in a kind voice. "When you sit down and tell me all about it? I take a great interest in all these sort of things, and so do the prince of Wales; I wish he were here, too."

The inventor looks rather overpowered, but, much reassured by the substantial manner and speech, he takes his seat at the table, opens his box, puts the model on the table and looks at the king, who, who presently takes a seat beside him. The inquiry stands near the king, who has an intelligent appreciation of the difficulties he has had to surmount in the working out of his invention, and he rapidly explains how he did so.

True Family Life. The king presently asks for a sheet of paper and pencil, scribbles something which he hands to the inventor, who puts the paper in an envelope, directs it to Lord Knollys, and gives it to a servant. In a few minutes the servant returns with another envelope, and then the king rises. The interview is over, and His Majesty, after shaking hands with his visitor, places the envelope in his hand, and later, when the inventor opens it, he will find that it contains something that will substantially aid him to defray the expenses of getting out the patents for his invention.

The queen enters, and the inventor, who is sitting on the floor, rises, smiles, and goes to open the door as the queen and Princess Mary enter, both in outdoor attire.

Their Majesties stand talking for a few minutes, the Princess Mary takes up a pen at her father's desk, makes a flourish with it in the air over some papers, and laughs at the equestrian she does so.

That Precious Hour. "I am taking Mary with me to see the hospital," the queen is saying to the king. Their Majesties remain talking for a few moments longer, and then a servant enters with a card. The equestrian advances quickly, takes it from the salver, and says to the king: "Sir Edward Grey, sir."

The queen says: "We must not be in the way. Lunch at two, and no visitors today." The king smiles, kisses the Princess Mary, and queen and princess depart. His Majesty gives a glance at the clock. It is eleven-thirty, and then looks at the engagement book. Six more appointments before lunch.

"I am ready to see Sir Edward," he says to the equestrian. "A little more than two hours later His Majesty is washing his hands in his washing room. His morning's work is over, and he has an hour of freedom, for, as the queen said, there are to be no visitors to lunch today."

THE CHECKERS. At the weekly meeting of the Checkers' Union last evening matters of a routine nature were discussed and delegates to represent the union in the Trades and Labor Council were appointed as follows: Ralph Dolman, Joseph Fitzgerald and James McCann. The committee, which was to interview the railway company in connection with some grievances which some of the members had against the company, is to report next Friday evening. J. E. Moore presided at the meeting.

GREAT EXODUS FROM WEST OF ENGLAND

One of the most interesting floral novelties shown at the exhibition of the Royal Horticultural Society in their hall at Westminster was a new rose. The flowers were of a fortnight previously in the United States, and had not been unpacked on the voyage. The rose was a rich rose, shaded with purple. The blooms were very full and delicately fragrant, in spite of their age.

WHY HESITATE? An Offer That Involves No Risk For Those Who Accept It

We are so positive our remedy will relieve constipation, that we offer to furnish it free of all cost if it fails. Constipation is caused by weakness of the nerves and muscles of the large intestine or descending colon. To expect relief you must therefore tone up and strengthen those organs and restore them to healthier activity.

AN AUDIENCE OF ONE. The College of France, founded in Paris by Francis I, offers at the present day not only strictly academic instruction, but opportunities for the higher education in general. The following anecdote shows how far the college carries its scrupulousness. Every scientific subject, even the most abstruse, will continue to be taught there as long as one solitary individual in Europe desires to pursue it.

He was perfectly satisfied that it should be so, but it occurred to him one day that he ought to congratulate his rare disciple, and he accordingly made an attempt. "Monseigneur does not recognize me," replied the pupil. "I am monseigneur's coachman, and I always wait here until monseigneur has finished his lecture."

Australia contains more unexplored land in proportion to its size than any other continent.

MANITOBA "COLD WATER" MEN GIVEN COOL RECEPTION

Premier Roblin Declines to Abolish the Bar or Reform Existing Liquor Laws.

Winnipeg, Feb. 14.—Between 300 and 400 members of the Moral and Reform Society of Manitoba waited on the government today and urged amendments to the present local option law. Their spokesman contended that favorable votes under the act were often defeated, under a technicality, and they also asked that non-resident voters be barred, as his system tended to corruption and peroration.

HERE'S SOMETHING TO TRY. Just to test your memory and your ability to calculate, try these two simple mind-developers.

First make a mark on the wall at the height above the floor at which the crown of a silk hat, in your estimation, should reach. Then get a silk hat and see—well, you'll be surprised.

NA-DRU-CO LAXATIVES

are entirely different from others both in their composition and their effect—complete evacuation without purging or discomfort.

THEY WRITE FROM THE HEART BECAUSE GRATEFUL TO "FRUIT-A-TIVES"

Honest, Straight Forward People tell of Prompt and Wonderful Cures by Greatest Fruit Medicine in the World.

Grateful Acknowledgements Come From Sufferers, Thousands of Miles Apart, Showing the Value of "Fruit-a-tives"

When well-known people, respected in the districts where they have lived for years, write about the great good that "Fruit-a-tives" has done them, you can't help having confidence in their word.

When you have undergone the tortures of Indigestion, Headaches, Sick Stomach, Pain in the Back, Chronic Constipation, Rheumatism or similar ailments, and have at last found a wonderful cure in Fruit-a-tives you naturally feel as though you must talk about this great remedy—write about it. You would like others to know the truth of how you obtained relief. This is just the position the grateful users of 'Fruit-a-tives' are in. They have been cured when their diseases were sometimes given up as hopeless. Their thanks are the "Fruit-a-tives testimonials" you see in the newspapers. They are freely and voluntarily offered. They are genuine and never in one single instance given for any monetary consideration.

BICKMORE LECTURE. The third lecture in the Bickmore course was given in Centennial school hall last evening under the auspices of the Women's Canadian Club. The hall was crowded and all present greatly enjoyed the lecture as read by Dr. G. U. Hay. The subject treated was the river and Gulf of St. Lawrence and it was finely illustrated by lantern slides. Scenes from Halifax and Montreal were shown. The audience was chiefly made up of school children and their parents. Mrs. Rubing presided and at the close of the lecture many of those present expressed their thanks to Dr. Hay for a very pleasant evening. These lectures are being conducted free by the Women's Canadian Club.

I CAN GIVE YOU STRENGTH Even Unto Old Age, With Light Heart, Elastic Step, Courage and Tireless Energy. You May Be Free From Pains and Defy Your Years

Twenty years of close association with men and appliances devoted to the cure of human ills with electricity is the foundation from which Dr. McLaughlin's improved methods have sprung. Twenty years of practical experience in the treatment of the diseases most susceptible to electricity, have brought forth all the virtues and exposed all the faults that have existed in the methods that have been used, and have given an experience which should qualify such a student, such an enthusiastic advocate of the modern methods of electro-medical treatment as Dr. McLaughlin has been, to develop a practical system of self-treatment which must produce results pleasing to its inventor and enormously successful as a cure for bodily ills.

When we consider that our nervous system, which is the fountain of life to the kidney, liver, stomach, brain and the various organic functions of the body, depends for its sustenance upon the vitalizing element of electricity, and that without this life it is impossible to keep up a normal condition of health in the body, it is easy to understand that a waste of this life principle will be followed by weakness and disease, and it is also easy to understand why the natural restoration of this electric force in the nervous system will saturate the various vital organs, which have become weakened, with a new energy which will place every vital part of the body in a state of nature.

You read the papers every day of prominent people dying suddenly, and the physicians decide that the cause was "heart failure." Does anybody know what that means? What made the heart fail? The heart never fails without a reason. Find that reason and you will find the actual cause of death. I say it is, nine times out of ten, exhaustion of vitality. The heart stops beating because the power which runs it is shut off. The power is vital energy, which is nerve force.

I believe in finding the cause of all such troubles and removing it. If it is in the stomach, I restore the power there; if in the nerve system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause Nature will cure the disease.

Too many physicians make the mistake of treating the condition and overlooking the cause. If a heart is weak they stimulate it with drugs, when they ought to devote the treatment to building up the stomach, which is the real cause of the heart failure. Every time the heart is stimulated by a drug, its vitality is strained, and one day it will simply stop short.

Dear Sir:—I received the Belt O. K. on the 11th, and I feel all right. I had to fire a locomotive twelve hours at that time. If I should have had to do that six weeks ago, I would have been played out. Yours truly, G. M. Douglas, ex-Cavochi & Pagano, Camp No. 4, Baker Lake, N. B.

SEND FOR THIS BOOK TODAY. Do you want to feel big, husky and powerful, with your veins full of youthful fire, your eye clear, and your muscles strong and active? If you do, fill out this coupon and send it to me and I will send you a book which will inspire you with the courage to help yourself. It is full of things that make people feel like being strong and healthy, and tells of others like yourself who were just as weak once, but are now among the greatest specimens of strong and healthy human beings. Cut out the coupon and send it in today and get this book free, sealed, by return mail. Office hours: 9 a. m. to 6 p. m.; Wednesday and Saturday till 9 p. m.

My Goodness! But Jeff Hates Himself

By "Bud" Fisher

SPORT NEWS OF A DAY; HOME AND ABROAD

BOWLING

On Black's Alley. In the City Bowling League game on Black's last night the Sweeps took four points from the Insurance team. The total pinfall was 1310 to 1245. Fogarty led for the winners with an average of 247, and Bestroy for the losers with 223. In the Commercial League game the Brock & Paterson team took four points from the Waterbury & Rising team. The total pinfall was 1339 to 1295. Masters led for the winners with 97 and Labbe for the losers with 88.

CURLING

Jones Cup Series. In the Jones Cup series in St. Andrew's rink last evening, the rink captained by Fred. McNeill defeated that skippered by A. H. Merrill, 15 to 6. Burpee Trophy Series. Col. J. L. McAvilly's rink defeated that of Fred Shaw in the Burpee trophy series at the Thistle curling rink last evening. The final score was 12 to 6.

BASKETBALL

Before about 400 people in the Y. M. C. A. gymnasium last night, the basketball team of the University of New Brunswick was defeated by the Y. M. C. A. team by the score of 30 to 23. The game was fast from start to finish and both teams showed that they were familiar with the finer points of the game. During the first half the Y. M. C. A. players showed themselves superior to the college boys, but in the second period conditions were reversed, although the U. N. B. players seemed to have hard luck with their throwing. The teams lined up as follows: U. N. B. Forwards. Y. M. C. A. Melrose. Centres. Willet. Guards. Jago. Lathams. H. Murray. M. Latham. Guards. Burton. Bender. Boone. Murray replaced Jago in the second half. The scoring was done as follows: Field baskets, Melrose (2), Jago (2), H. Murray (2), Bender (4), Willet (3), Thorne (2), Boone. Penalties—Melrose (3), Willet (4), Thorne (2). The officials were: Referee, A. W. Thorne; umpire, G. Barker; timer, W. Latham; scorer, W. Kirk.

THE TURF

On Millidgeville Ice. The members of the St. John Matinee Driving Club are making extensive preparations for the matinee meet on the ice at Millidgeville on next Wednesday. A fine track is being prepared and some good fast racing is expected. Horses from Fredericton and St. Croix will compete in the races.

HOCKEY

Acadia Beats U. N. B. The Acadia Hockey team defeated the U. N. B. team 5 to 3 in Wellville last night. Vics are Winners. The Moncton Vics defeated the Halifax Cascades 4 to 2 in Halifax last night. DeWitt played with the Halifax team and Scott with the Vics. Sydney Wins. The Sydney team defeated the New Glasgow team 7 to 3 in Sydney last night. Chatham Defeats Amherst. The Chatham hockey team scored a win over the Amherst team by defeating them 5 to 3.

THE RING

A Presentation. Thomas Barrett, the local boxer, was last night presented with a handsome net ring by several of his friends. The presentation was made by Eddie Mooney, and took place in Fred Driscoll's store in King square, where a large number of sporting people had gathered. Barrett is doing well in the amateur ring. Bout Off: Another one. Chicago, Feb. 14.—The Packer McFarland-Jack Britton bout, which has been hanging fire for some time, was declared off finally by McFarland here today. McFarland gave as his reason a \$10,000 offer to fight Freddie Welch before the National Sporting Club in London, which he said he expected to accept. McFarland also said he had received an offer to box Willie Hitchie on the Pacific coast on July 4. The weight was named at 133 pounds, which Packer said meant that the bout would not be held. Fighters and Wrestlers. The latest addition to the tribe of husky humans who would fight their way to fame and dollars in the ranks of the pugilistic heavy brigade is Jess Westerguard, the big wrestler. The mat does not afford a wide enough field for his ambitions, and he has expressed himself as anxious to join the ranks of the white giants of the ring, but a precedent is yet to be established showing that a wrestler can develop enough pugilistic ability to place him as a legitimate star. There have been many cases of wrestlers becoming victims of the milling bug, but with the exception of Philadelphia's Jack McCormick and John Willis, a Chicago

Cyclone Johnny and Wildcat Bob Are Liable to Clash Soon

By TOM ANDREWS

Present plans do not miscarry there will be a real battle, the first of the kind in years, for the purpose of bringing out some of the best of the light heavyweights. It is supposed to match Cyclone Johnny Thompson of Sycamore, Ill., and Wild Bob Moha, the Milwaukee chunky boy, before one of the Milwaukee clubs some time in February, the weight to be placed at 175 pounds. A year ago Moha was touted as one of the best middleweights in the country, especially after he had beaten Billy Papke in Boston, but he simply lost himself and refused to train for a fight for several months with the result that when he stepped on the scales he was surprised to find that he had jumped from 160 to 190. That put Bob out of the middleweight class, but he now announces that he can fight at the light heavyweight limit of 175 pounds and stop as fast as ever. Moha stands only 5 feet 4 inches in height, and he appears as broad as the famous George LaBianche, the Marine, before he fought the late Jack Dempsey. Johnny Thompson is the same height and weighs at the present time 185, although he says he can make 175 pounds easily. It seems remarkable that these two chubby fighters should take so much weight in such a short space of time. Two years ago Thompson was boxing as a lightweight at 133 and 135 pounds; in fact he weighed 133 just before he went to Australia. After crossing the Pacific ocean and landing in Australia, Johnny began to pick up in weight and the night he fought Hughie Mehegan he scaled 162 pounds. A week before the fight he weighed 140, but was advised by Charlie Holway, the American sprinter who was there to stop training and forfeit his weight money, or he would be ill. Johnny took his advice and stopped training, with the result that when he stepped on the scales he was dumfounded himself to learn that he scaled so heavily.

After that the Cyclone fought as a middleweight instead of a lightweight. Jim Flynn is another short man who has taken on weight rapidly. A year ago Jim was fighting around 170 pounds, but when he was matched with Johnson at Las Vegas he began to get heavy and the day before he boxed the big colored man, I weighed him myself and found that he scaled just 192 pounds. Many people could hardly believe that he had taken on so much weight. It is doubtful now whether Flynn will be able to get down to the 175 pound mark to compete with Moha and Thompson for the "commission" title.

3 to 5 in Chatham last night. Overtime was played. McGill Defeats Queens. Kingston, Ont., Feb. 14.—McGill University took the senior inter-collegiate game here tonight, defeating Queen's University by the score of 10 to 3, and finishing second in the series. Three Rivers Beaten in Boston. Boston, Feb. 14.—The Boston A. A. hockey team defeated the seven representing Three Rivers, Quebec, tonight, four to three.

AQUATIC

Girl to Try English Channel Swim. New York, Feb. 14.—Miss Hazel Bea Lanbourn, twenty-one years old, a graduate of the University of California, who is here from San Francisco. She is to sail for England, where she will make an attempt to swim the English Channel. The confidence the young woman displays regarding her swim is the result of a series of successes she has gained on the Pacific coast. There she holds the record for being the first woman to swim to the Golden Gate, a distance far less than the channel swim, but one full of danger and hardship. Miss Lanbourn was five years old when she learned to swim, and is an ardent advocate of the form of diversion.

WOODSTOCK MAY HAVE A BALL TEAM

The Gleason says that Woodstock is likely to have a baseball team next season after all, and if the Carlston county team does get back into line the circuit of the New Brunswick and Maine League for 1913 is as good as settled. While in the city this week attending the horse races, "Jimmie" Gallagher, of Woodstock, had a conference with J. J. McCaffrey, local magistrate, and Mr. Gallagher did not hesitate in making the assertion that chances for Woodstock having baseball this year are bright. "There is a considerable portion of our \$250 deficit on last season's operations still unpaid," said Mr. Gallagher, "but we have been meeting with such success in liquidating this debt that I now feel that provided the rest of last year's deficit is wiped out, I will be ready to take a chance with the rest of the fellows in running another ball team just to show the baseball fans what Woodstock can do." "Fredrickson, St. John, St. Stephen, Calais and Woodstock would make a fine circuit for the New Brunswick and Maine League this year," was Mr. McCaffrey's comment.

BASEBALL

Chance's Plans. Frank Chance announced some changes in his plans for the training of the New York Americans. He will sail for Bermuda today accompanied by Hal Chase, Roy Harrell, Business Manager Arthur Irwin and the club's staff. Chance has ordered all his pitchers and catchers to report in New York in time to sail on Saturday, February 22. The residue—the outfielders, both veteran and recruit—will leave on March 1, the date originally set for a general departure. "What's the use of hanging around here?" said Chance. "I couldn't be the least bit of use to myself or my team. All the preliminaries have been satisfactorily arranged. It's up to me to see what I find out the better. I'm worrying over my own playing condition more than about the material I will have at my command. Had he requested to go along. He is as anxious as myself to get into action. "It is the first time in several years," continued Chance "that I have had a

RECENT WEDDINGS

At the home of the officiating clergyman, Rev. H. H. Boyer, yesterday afternoon, Ernest B. McKee, formerly of West St. John, but now of Regina, was united in marriage to Miss Lena Barle, daughter of Mr. and Mrs. William Barle, of Lunenburg. Mr. McKee has done well in the west. He left for Regina on last evening with his bride. The wedding of Miss Myrtle Christine McAlpine, daughter of Mr. and Mrs. A. E. McAlpine of Lower Cambridge, and Kenneth Blake McAlpine, son of Mrs. Rosalie McAlpine of Lower Cambridge, took place at Lower Cambridge on February 12. The ceremony was performed by Rev. C. C. Pascombe. The wedding of Miss Edith B. Mason, daughter of Harvey Mason, of Waasie, N. B., and Norman D. Steeves of Albert

This Skin Peeler All the Rage in Society

(From Society World). There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of macerated wax has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so magnificently beautiful, artificial complexion are no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax peels the skin so gradually, in such fine particles as to cause no discomfort. The freer, younger skin beneath, wholly in evidence within a week or two, is lily white, satiny soft and smooth. It's not a patched-over complexion, but a brand new one. That's why macerated wax has become such a rage among society folk. The wax is put on nights like cold cream and washed off in morning. All druggists have it; one ounce will do.

Another hygienic treatment now much in favor is one to remove wrinkles, made by dissolving 1 oz. powdered azoicite in 10 pint witch hazel. Used as a wash to the face like magic.

LIGHT HEARTS We have our share of sorrows, But rather more of fun. Some dark days, but more tomorrow All golden with the sun. We are the friends of laughter, The enemies of tears, Our hopes are ever A'er The gladness of the years. Hate never comes to harm us; Love is our constant guest To comfort, cheer and charm us, And make each moment best. Our dreams are always rosy And come true many times; Our hearts are never jowy Because they beat with rimes. We care not when December May come—June tarries yet! 'Tis joy that we remember, And grieve that we forget! —Frank Dempster Sherman, in Youth's Companion.

DAUGHTER OF WOODROW WILSON WORKS FOR MOTHERS' PENSION She Says It Pays to Hire Poor Mothers to Take Care of Their Own Children

JESSIE WOODROW WILSON (Times Special Correspondent). Princeton, N. J., Feb. 13.—Mother's pension has a new champion in Miss Jessie Wilson, daughter of the president-elect, and her father himself shares her enthusiasm for the reform. The idea of paying poor mothers out of the public treasury, enough to enable them to take care of their children at home, instead of sending them to charitable institutions, is not a new one to Miss Wilson. Her own experience, she explained, had driven her to accept the same remedy for broken and ruined families that Mr. Neil has been preaching throughout the length and breadth of the land. For three years Miss Wilson has been a social worker in a settlement home in the Kensington mill district of Philadelphia, and she has made a thorough study of the homes of the weavers and other workers. It is a common thing in this district for mothers to leave their children to be cared for at free day nurseries, while they themselves are working to earn a living for the children. Miss Wilson, after investigating the cost of these day nurseries, discovered the astonishing fact that if the money given by charitable people to support the nurseries had been given to the mothers, they need not have had to go out to work and leave their children alone all day—they could have stayed at home and taken care of their children. In other words, Miss Wilson found that it costs less to hire mothers to stay at home and take care of their children than it does to hire other women to care for those children while the mothers are out at work. Miss Wilson is not only interesting herself actively in the effort to obtain mothers' pension laws in the various states, but expects to continue her efforts after she enters white house. Along with this activity, she is studying juvenile court conditions, particularly in New York, where 25,000 children are brought every year. She is satisfied that a general adoption of mothers' pension would greatly lessen the number of "delinquency" cases and make the work of the juvenile courts much easier. "I can see no reason," Miss Wilson told Mr. Neil, "why children should be neglected by society because their fathers have neglected or deserted them, or because their fathers are in prison. I can see no reason why society should be called upon to give proper care, and why every good mother should be allowed to retain the love, companionship and care of her own children."

Doctors Endorse Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you.

If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you. Sold for 70 years. Ask Your Doctor.

HE FILLED THE BILL. A stranger when dining at a foreign hotel was accosted by a detective, who said to him: "Beg your pardon; we are in search of an escaped convict and as a matter of form will you oblige us by showing your passport?" "Do I look like a convict?" "Possibly not. In any case I shall require to see your passport." The stranger, feeling annoyed, presented the bill of fare and the latter commenced to read: "Sleep's head, neck of mutton, pig's feet." "Very good," he observed, "the description tallies. You will please come along with us." —From the Boston Traveller.

RUBBER. First Man—(in Washington street car, squirming under continued gaze of man seated opposite)—"What are yer staring at?" Second Man—"I dunno; I didn't hold a natural history." —Montreal Herald.

When the Cold Tightens in the Chest

Whatever chances you may take with cold in the head and sore throat, you cannot but feel alarmed when the cold grips the chest, enters the bronchial tubes and threatens the lungs. At this critical time you want a medicine you can depend upon to cure the cold and protect the lungs. Dr. Chase's Syrup of Linseed and Turpentine has proven its value by many years of unqualified success. When you use it you do not feel that you are experimenting, but rather that you are doing all that can be done to cure the disease and prevent serious results. This medicine is particularly well known as an effective treatment for chest colds and bronchitis. It not merely clears the choked-up air passages, but also allays the inflammation, and has a far-reaching effect on the whole respiratory system. By its soothing influence on the nerves, which are always excited in the case of bronchitis and asthma, it lessens the coughing and allows the irritated mucous lining to heal up. In this way the greatest relief is obtained promptly, and cure just as surely comes with continued use. In the great majority of homes Dr. Chase's Syrup of Linseed and Turpentine is kept constantly at hand for the treatment of coughs, colds, bronchitis, whooping-cough, asthma and sore throat. With this great medicine at hand you can control any ordinary cold, and bring prompt relief, even in severe cases of bronchitis and asthma.

Imitators go so far as to use the name Linseed and Turpentine. The medicines are alike in name only. You can be sure of getting the genuine by seeing the portrait and signature of A. W. Chase, M.D., on the bottle you buy. 25 cents a bottle, family size 60 cents, all dealers, or Edmondson, Bates & Co., Limited, Toronto.
