3 R. C. MEMBERS DECLINED TO VOTE

Took no Stand on Church Union Bill in Nova Scotia — 4 Amendments.

Halifax, May 6.—Four amendments have been made to the church union bill by the legislative council, before which body of the legislature the bill was considered yesterday. These amendments exempt the Presbyterian College at Halifax from the original bill and the effect of the union; permit adherents as well as members to vote upon the question of union; permit churches, which at present dissent from the union, to vote themselves into the union, instead of being legislated in and then vote out, as the original bill provides; and as a fourth amendment, which is a new one, provide for another vote to be taken by every congregation of the churches involved in the union.

Thus amended the bill will be returned to the House of Assembly which means there will be a conference between the two houses. It was suggested that the council would not stand determinedly upon any amendment of the bill, which it is contended, does not affect the principle of the bill. One of the striking features of the bill is the inclusion of the Roman Catholic members, who refrained from participating in the vote.

REPULSED, KILLS GIRL AND HIMSELF

High School Sophomore, 16, Resented Advances of Writer, 34.

New York, May 6.—The love of a man of 34 for a girl of 16 ended in murder and suicide on Sunday. The girl, Virginia, was shot and killed by her lover, Adam, who then took his own life. The man was Vladimir Idzikowski, a free lance writer for Polish newspapers and magazines. His victim was Virginia Plack, a sophomore in the Bay Ridge High School, Brooklyn. The shooting occurred in the home of Sigmund Dattner, an attaché of the Polish consulate, at 5003 Tenth avenue, Brooklyn. Mrs. Mary Plack, the dead girl's mother was Dattner's housekeeper. Dattner and Mrs. Plack were absent at the time of the shooting. Idzikowski and his victim were alone in the house. Adam Dattner, 15 years old, was only son of Sigmund Dattner, who was playing in the back yard, and told the authorities all they were able to learn last night about the double shooting. The boy said that the girl and her mother had lived in his father's home for about fifteen years, since the death of Virginia's father. Adam said that his mother and Mrs. Plack had been childhood friends in Poland. Mrs. Dattner, Adam's mother, died two years ago. Mrs. Plack then became Dattner's housekeeper, and with her daughter continued to live in the Dattner household. Girl Complained of Attention. Idzikowski was Mrs. Dattner's brother and after her death, he went to live with Dattner. According to Adam, Idzikowski began making love to Virginia, but she repulsed him. Adam said that Idzikowski became angry when the high school boys called upon Virginia. She frequently complained, Adam said, about Idzikowski's advances. On Sunday afternoon, Adam said, he and Virginia were left alone in the house. His father went to Newark to make an address. The girl's mother came to visit friends in the neighborhood. Virginia began to prepare her lessons for school's classes. She was busy with her schoolbooks and papers when Adam left the house to play in the yard. Adam said that he did not see Idzikowski enter the house. The first he knew of the tragedy, according to Adam, was when he heard screams coming from the house. Then he heard three shots. After an interval, he heard a fourth shot. Running into the house, Adam found Virginia and Idzikowski lying on the floor. There was a revolver close to Idzikowski. Adam ran down the street and notified Virginia's mother. Mrs. Plack, after hurrying to the house, notified the police. An ambulance surgeon from the Norwegian Hospital found both the man and the girl dead. Virginia had been shot in the arm, breast and abdomen. The man had shot himself in the right temple. The pistol found near his right temple. Idzikowski's wrists were covered with scratches, indicating that the girl had struggled to protect herself before the shots were fired.

WILL GO TO GRAND FALLS TOMORROW

H. G. Acres and Hon. Dr. Smith Will Confer Here First.

H. G. Acres, of Ontario, who has been engaged as consulting engineer of the New Brunswick Electric Power Commission, is expected in the city this afternoon to consult with the Grand Falls development. They will discuss the matter of preparation for the applications to the International Waterways Commission and the Quebec Government in regard to use of storage waters in Maine and Quebec. Hon. Dr. E. A. Smith, chairman of the Commission, will come to the city tomorrow evening they will leave for Grand Falls. In connection with the survey parties it was said this morning that many more applications were being received for places than would be available and that many of these were from men without experience in this work. It was the policy of the commission, it was said, to give the preference to U. N. S. R. Weston, acting chief engineer of the New Brunswick Electric Power Commission, returned this morning after an inspection of the west branch of the Musquash. He reports that he found all the dams in first class order and the water spilling over all of them. At Seven Mile Lake, he said, there was a foot and a half of water running over the spillway. The power generated last week at Musquash was reported 217,850; k.w.h., the peak load 2,750 kilowatts, and the average load 1,298 kilowatts, giving a load factor of 47 per cent. The financial report for March was made public this morning at the office of the commission. The amount of money received was \$22,747.88. There was expended for interest on capital \$14,643.20; for sinking fund, \$4,842.33; operating salaries and expenses, \$1,647.68; actual maintenance, \$418.92; administration, \$283.31, making a total of \$21,805.13. This makes the sum of \$94,275 to be placed in the depreciation fund. The Commission has adopted as a principle that the sum of two per cent of the receipts shall be placed into this depreciation fund, and this would require that \$4,655.21 be credited to the fund. Up to the present they have not been able to set aside this two per cent, the report says, but they had met all the charges and paid the actual maintenance out of the amount received and been able to place a small balance each month to the credit of the depreciation account.

Ray Cass Wins His Case in Boston

Boston, May 6.—Ray Cass, whom the Canadian Government sought to have extradited to Nova Scotia for trial on piracy charges, was discharged by U. S. Commissioner Wheeler today. Cass was arrested in connection with the raid on the British run-runner schooner J. Scot-Hankinson off Cape Ann last August. Cass, whose home is in Somerville, was formerly a boxing promoter, and was arrested in January by federal officers on a charge of piracy. In February he was discharged after U. S. Attorney Harris had informed the federal commissioner that it was impossible to prosecute the case because the presence of necessary witnesses who were in Nova Scotia could not be obtained. He was re-arrested on a warrant obtained by the British Consul-General for extradition to Nova Scotia for trial on a piracy indictment returned there. At the hearings last month on the extradition petition Captain Arthur Moore and Cook Harris Harms of the schooner J. Scot-Hankinson were the witnesses who testified in the vicinity of Cape Ann on the day of the attack.

MAYOR TALKS OF HYDRO COURSE

Will See What Position Is — Tag Days and Other Matters. The new City Council was in informal session this morning discussing several matters. After the session Mayor Potts to whom had been delegated the giving of a statement to the press, said that the first part of the meeting had been devoted to a discussion of a legal matter in which was involved an opinion of the city solicitor on which no announcement could be made at the present time. With regard to the second part of the session he said this was merely a round table talk among the commissioners to discuss matters in general as they affected civic affairs. He said the hydro question had not been under discussion. Questioned as to his stand on an investigation into the conduct of the Hydro Commission His Worship said that so far as he was concerned before he took over hydro he proposed to see just what the position was and what responsibility he would be assuming. In answer to a question as to whether he thought Mr. Harding would have resigned from the Hydro Commission His Worship said he saw no reason for that and presumed both himself and Mr. Harding would be members.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

"FIGHTING BLOOD" DATE POSTPONED. In previous announcements Imperial Theatre heralded the beginning of the new "Fighting Blood" series of boxing romances for this week, starting tomorrow. It now transpires that this is a misunderstanding. The feature has not yet been released for the martines, but will probably be free for the route down this way within a fortnight. Tomorrow, in place of this extra feature the regular picture "Nanook Of The North" will be supplemented by a screaming Larry Semon comedy entitled "Trouble Brewing."

CRERAR HEARD IN HOME BANK CASE

Commission Will Hear Sir Thos. White in Toronto or Ottawa. Ottawa, May 6.—(Canadian Press.)—The circumstances under which the United Grain Growers of Winnipeg sold approximately 1,000 shares of Home Bank stock to H. J. Daly, who was president of the institution when the crash came, were dealt with by Hon. T. A. Crerar before the McKewen commission this morning. Mr. Crerar said that the stock was sold in June, 1918, when he was Minister of Agriculture in the Union Government. Mr. Daly had asked for proxies on this stock because he thought M. J. Haney was trying to get control of the annual meeting. The stock was finally sold to Daly at a loss of approximately \$30,000. T. A. Reid, counsel for shareholders, drew the attention of Commissioner McKewen to an item in the morning papers referring to the payment of \$1,500 by the Home Bank to Sir Thos. White as a fee for acting as special advisor a short time before the bank's failure. Mr. Reid suggested that Sir Thos. be recalled to explain this to the commission. It was decided that Sir Thos. would be told that he could either come to Ottawa this week, or appear in Toronto later on. It was also determined that he would be given an opportunity to make his argument in answer to complaints by depositors at that time.

JAMAICAN TROUBLE IS AIRED IN HOUSE

British Commons Hears of Action to Cut Off Railway Official's Pay. London, May 6.—(Canadian Press Cable.)—The Secretary of State for the Colonies was asked in the House yesterday whether a report had been received from Governor Probyn of Jamaica, regarding the use of his power to invoke the "paramount importance" clause of the constitution in connection with the vote of the elected members of the Jamaica executive council to cut off the salary of the managing director of the government railway; what had been the secretary's reply and whether he would support the Governor in any action to protect the managing director from the attacks made on him. The Minister Rt. Hon. J. H. Thomas replied that he proposed to defer consideration of the matter until he had received a full report. Replying to supplementary questions Mr. Thomas remarked that in fairness to the officer concerned all the evidence tended to show that he was an efficient and capable man and that nothing ought to be done to prejudice his position until a full report on the situation had been received. Governor Sir Leslie Probyn on May 1 directed the official members of the Jamaica Legislative Council to vote against members of the House had voted to strike out the salary of the managing director, but the Governor put it through under the authority of the "paramount importance" clause. The elected members later gave out a statement declaring that they had no confidence in the administration.

### SENATOR ROBINSON.

The appointment of Hon. C. W. Robinson, New Brunswick's Minister of Lands and Mines, to the Senate, removes one of our foremost public men from one sphere of usefulness to another. The appointment is merited by long public service of an uncommonly useful character, and the new Senator, by reason of his ability, experience, and wide knowledge of affairs, is fitted to rank high in the Upper Chamber. His presence there should be of no little value to his native province, and in safeguarding and promoting Maritime interests in general.

Hon. Mr. Robinson has long played a leading part in New Brunswick. He has been Premier, Provincial Secretary and, since 1917, head of the Crown Lands department, and has served with marked success and high regard for the public interest. It is no secret that he might have been Lieutenant Governor not long ago and that loyalty to his political associates here prevented him from accepting promotion at that time.

It would be difficult to remember a man who went from provincial life to the Senate with more friends and fewer enemies than Hon. Mr. Robinson. He has, perhaps, a few political enemies but none of the other kind. His political opponents, while they have fought him, have held him in high esteem for his fairness, his ability, the reasonable quality of his stand on public questions, and his fine personal character. He is in every sense a man for whom New Brunswickers will wish continued good fortune. And they know he will deserve it.

Hon. Mr. Robinson's acceptance of the senatorship is no slight loss to the Provincial Government, but fortunately Premier Veniot does not lack supporters well fitted for cabinet rank.

### AT CITY HALL.

The new regime "took over" at City Hall yesterday, and among the notes sounded by Mayor Potts was one concerning economy and reduced taxation, which appears all the more timely in view of the announcement of this year's tax-rate—\$3.04—a figure likely to make the citizens thoughtful and to elicit support for carefully considered measures to lighten the burden. In fact the rate itself, the very great percentage of citizens disfranchised for non-payment, and recent City Hall discussion of income and real estate taxation, indicate that the time is ripe for a re-examination of the whole taxation system to ascertain if wholesome amendment is not both possible and advisable.

From His Worship's remarks it may be inferred that he proposes to move toward some changes in the Commission Act, notably to have the double-election system—the primary and the final—reduced to a single contest. There is room for debate here, and after the new civic government has been in office a few weeks it may be that this and other features of Commission will come under review. The question of private sessions is another debatable one. The Commission idea favors the fullest publicity, but, in practice, the Mayor and Commission should be able, and are, to discuss in confidence matters where the city's legal interests are involved, or in which financial loss to the city—as in the matter of proposed property purchases—might result from premature publication. The newspapers have ever been willing to guard the city's interests in such exceptional cases. The general and safe rule, barring such exceptions, is that public business should be done publicly, and it is not to be anticipated that any departure from this practice is contemplated.

The citizens will gladly respond to the Mayor's request for support in any sound measures that may be proposed to secure new industries or to expand existing ones. This is one of the most important questions before the Council, and developments of a new policy will command keen interest. Indeed the most interesting parts of the new Mayor's inaugural are those in which he goes beyond the ordinary civic routine and discloses his intention to strive for the working out of plans to make St. John a greater and a busier city.

Both Commissioner Frink and Commissioner Billock, in the course of yesterday's proceedings, spoke of the harbor and the immense importance of securing more port business. Here is an outstanding question upon the right solution small measure depends. Now, at the close of the winter port season, is the very time to consider this matter on comprehensive lines with the idea of effecting something practical before the St. Lawrence route is closed again. The Council, if it can develop a robust harbor policy, will be doing a service of great magnitude. In this matter every citizen has the most direct interest. Obviously we need a much better working agree-

ment with the C. N. R. regarding traffic, and in addition to working with the railroads there is the promising enterprise of presenting St. John's advantages and claims directly to those shippers who control or influence the routing of import or export traffic. Cordial co-operation by the Common Council and the Board of Trade may be counted upon in relation to this subject, and there are other organizations ready to help.

It is time to break new ground in the matter of expanding the port, and the public will hope that the Council will give early thought to this problem as one of the biggest before it. This is a case in which the final sum of the Council bids fair to be a busy one. Its new members enter upon their duties enjoying a very great measure of public confidence—as the elections showed—and their responsibilities and opportunities are alike great. May success and good fortune attend them.

### IN 1896 AND NOW.

The first Laurier ministry was called "the cabinet of all the talents." The death of Sir Louis Davies leaves alive only three members of the famous government formed on July 13, 1896, Hon. W. S. Fielding, Sir William Mulock, and Sir Clifford Sifton. A list of the original members, so many of whom have answered the final summons, is suggested by the passing of Canada's late Chief Justice. It is a list recalling much stirring political history. That first ministry contained the following:

Prime Minister and President of the Privy Council—The Hon. Wilfrid Laurier, Q. C.  
Minister of Trade and Commerce—The Hon. Sir Richard John Cartwright, K. C. M. G.  
Secretary of State—The Hon. Richard William Scott, Q. C.  
Minister of Justice—The Hon. Sir Oliver Mowat, K. C. M. G.  
Minister of Marine and Fisheries—The Hon. Sir Louis Henry Davies, Q. C.  
Minister of Militia and Defence—The Hon. Frederick William Borden.  
Postmaster-General—The Hon. William Mulock, Q. C.  
Minister of Agriculture—The Hon. Sydney Arthur Fisher.  
Minister of Public Works—The Hon. Joseph Israel Tarte.  
Without portfolio—The Hon. R. R. Doherty.  
Minister of Finance—The Hon. William Stevens Fielding.  
Minister of Railways and Canals—The Hon. Andrew George Blair, Q. C.  
Minister of the Interior—The Hon. Clifford Sifton, Q. C.  
Without portfolio—The Hon. C. A. Geoffrion, Q. C.

Also there were these members of the ministry not of the Privy Council: Solicitor General of Canada—The Hon. Charles Fitzpatrick, Q. C.  
Controller of Customs—The Hon. William Paterson.  
Controller of Inland Revenue—The Hon. Sir Henri G. Joly de Lotbiniere, K. C. M. G.

It is worth noting how the West has grown in representation since that date and how the Maritimes have lost. In 1897 there were but fifteen members from all the West and the Maritime Provinces had thirty-nine. Today the Maritimes have not much more than half as many members as the four western provinces, and the proportion in favor of the West will be even greater in the future. Besides, in 1897 there was a House of only 215 members as compared with the much larger one of today.

Eloquent references to the late Senator Thorne, the late Rev. Dr. W. O. Raymond, and other deceased members of the Church of England, in one of the striking features of the address of His Lordship the Bishop of Fredericton to the Synod today.

The plan to pension everybody who has worked twenty-five years, and to do it by taxing wages as well as business, has produced something like a revolution in the Argentine. Universal happiness by state fiat is a dream once more dissipated.

Mr. Herbert Marler, M. P. for the St. Lawrence-St. George division, observes that "We in Ontario and Quebec have no right to ignore the difficulties of the Maritime Provinces and the West." True. We trust he will stoutly pursue in Parliament this doctrine

which he has been preaching in Montreal. To ignore Maritime difficulties and to fall to assist in seeking a reasonable remedy for them is exceedingly bad business for all Canada.

The late figures from Germany indicate that the Moderates, who profess a desire to promote a reasonable settlement with the Allies, have no great majority over the reactionaries who advocate default and continued resistance.

#### MOTOR CAMPS FOR TOURISTS.

(Montreal Gazette.)  
In advocating the provision by the city of Montreal for motor tourists, the representatives of the Province of Quebec Tourist Association are but endorsing a course which has been successfully adopted by hundreds of communities in the western half of the continent and which is gradually extending to the east. Motor touring is no longer a prerogative of the well-to-do who can afford to patronize high-class hotels and expensive garages. From early spring to late fall, tens of thousands of the lower-priced cars, equipped with sleeping and cooking paraphernalia, take the road in the United States and Canada, oftentimes carrying whole families, for trips extending over weeks and sometimes months. They spend the night where darkness overtakes them, but prefer to reach centres of population where they can be assured of elementary conveniences, a measure of security, and the opportunity of replenishing their supplies. The knowledge that there is a motor camp within easy running distance will generally determine their place of halting and may lead them to prolong their stay.

These motor campers are beginning to represent a constantly-increasing proportion of the summer tourist traffic, and they will come to Montreal whether there is a camp for them or not. Its non-existence will not send them to patronize the city's hotels, boarding houses or garages for the night, but will simply scatter them through the suburbs and along the country roads leading into and out of the city, where in many cases, and without intending to do so, they constitute somewhat of a nuisance, by reason of trespassing on private property and having to depend upon the nearby residents for a water supply and similar favors. It is most preferable from every standpoint that they should be centralized in some convenient spot, provided with such necessities as water, light and sanitary facilities, and given police protection. The community which is far-sighted enough to adopt this policy is more than repaid by the amounts which these picturesque nomads of civilization expend for food, gasoline and other requirements, and by their goodwill and subsequent advertising of the city by word of mouth.

#### EXAMINING MUSEUMS.

The latest word received from William McIntosh, curator of the Natural History Museum, came from Boston where he was making a short stay on his homeward journey after visiting a large number of the museums between St. John and Washington. Mr. McIntosh will be back in St. John this week and is gleefully informing with a view to giving practical suggestions when the enlargement of the St. John museum is undertaken.

#### YOU MAY!

(M. L. Upton in N. Y. Times.)  
Oh, you may come in with smiles, Like a maid who moves to meet. Woven swiftly, woven well, To hold us in a shimmering veil; Wisely wrought of smiling skies, Or at a pinch some extra dry Ice. Over isles where tall palms grow; Singing birds that love the sun, And care till the day is done; Fragrant flowers that spring to bloom So lavishly they scarce find room— Making all our old earth gay— Yes, you may! But you may come in with frown, The corners of your mouth turned down, Like a maid who moves to meet. A sailor she is loath to greet; Chilling airs which wake regret That you so trustingly did let The furnace fire go wholly out One mid morn when there seemed no doubt That balmy days were really here To stay, without a break—no fear! Ah, yes! You may, with sunless chill, Make flowers stay shut, and birds stay still!

#### Mothers! Apply Common Sense

THIS is the era of the prevention of disease and sensible people do not wait until sickness has actually come before remedying the trouble. The crowded hospitals everywhere are sad examples of the results of neglect. Be especially watchful of children. Restlessness, lack of normal appetite and feverishness usually indicate constipation. Stop it that instant with a spoonful of Dr. Caldwell's Laxative Syrup Pepsin and you will have prevented real sickness. Mrs. C. S. Bungey, 19 Chatham Av., Halifax, N. S., and Mrs. W. P. Hunter, Biggar, Sask., seldom have illness in the family because of their prompt use of Laxative Syrup Pepsin.

A Great Family Laxative  
It may be difficult to decide just what medicine to use out of the many that are offered, but it would not be if you knew the facts. There are laxatives, cathartics, purgatives and physics, and they vary in their reaction on the system. Naturally, the stronger the medicine the more it shocks the system, so wise parents never give anything but a laxative to children. Dr. Caldwell's Laxative Syrup Pepsin is a mild laxative, a vegetable

### CAN'T ESCAPE INCOME TAXES

Washington, May 5—United States citizens residing abroad were held by the United States Supreme Court today to be subject to Federal income taxes upon incomes entirely derived from sources within another country. The question reached the court in a case brought from Maryland by George W. Cook, who for many years has resided in Mexico. He contended that this Government could not compel him to pay taxes on incomes from property located outside the United States, but the Federal District Court for Maryland took a contrary view.

## One Hundred Dollars Guaranteed Every Month of Her Life By The Confederation Life Association

FOUR years ago, an Ontario business man, being well, strong and insurable, took out a Monthly Income Policy in the Confederation Life Association. Two and a half years afterwards, he died. For the past eighteen months his widow has been receiving, regularly each month a cheque for \$100.00.

This income is guaranteed to her for life. If she should die before she has received 240 monthly instalments, that is, before 20 years are up, the remainder of the 240 instalments will be paid to her heirs. This monthly income is not an isolated example. Many others are receiving monthly cheques—some for more—some for less.

If you would like to provide an income such as this for your wife, mother, or other beneficiary, or if you would provide such an income FOR YOURSELF for life after a term of years, write for particulars and find out for how small a yearly deposit you can receive this and many other benefits.

SHOWS HELEN OF TROY WAS REAL

Manuscript in Tut's Tomb Proves There was Trojan War.

Chicago, May 6—Helen of Troy was a real girl. That's the discovery just announced that has been made from recent excavations in Egypt.

Dr. Breasted has just returned after a four months' stay in Egypt, where he has been deciphering manuscripts found in the tomb of Tut-ankh-amen.

An Apostle of Liberty.

For example, there have been found documents in the tomb to show the seriousness of Tut-ankh-amen's revolutionary belief in freedom of thought and individuality had on the politics of his time.

It is in this ancient correspondence that Dr. Breasted has discovered documents supplementing recent discoveries in Asia Minor, showing that there was a Trojan war, and that Helen, the lady for whose sake ships were sunk and battles waged, was a real woman and not the figment of the imagination of a roving Greek minstrel.

"The tomb of Tut-ankh-amen," Dr. Breasted said, "is a treasure house of ancient art. It survived from a revolution which was the first period of spiritual emancipation in human history."

This revolution, he explains, was caused by Tut-ankh-amen and his father-in-law. They declared in favor of one God, caused their artist to draw pictures of the King in intimate and realistic pose and allowed freedom of thought.

Shocked Old Families.

All of this was for the first time in Egyptian history and shocked and horrified all the old first families of Egypt.

The result, history shows, was that the throne was wrested from Tut-ankh-amen widow, and the old stand-pat regime resumed.

Dr. Breasted served as an informal mediator in the misunderstanding between Howard Carter, excavator, and the Egyptian government.

In the capacity of head of the Oriental Institute, supported by John D. Rockefeller, Jr., he worked to make possible the uninterrupted progress of the study of the contents of the tomb.

"Saad Pasha Zaghlul, the Prime

Minister of the new and independent Egypt, expressed to me without reservation his purpose that the new Egyptian government should accord the fullest consideration to the claims of science in the administration of the priceless heritage of monumental remains for which he and his colleagues are now responsible, both to the people of Egypt and the world." Professor Breasted said.

TOOK FUR; WARNED; LET GO. A girl, 19 years old, visited a dance hall on Friday night, last. She took quite a fancy to a neck fur owned by a local young lady that was hanging on a hook with another garment, and when she left the hall she presented a much more attractive appearance than before she entered by reason of the added neckpiece.

The theft was reported to the detective department and yesterday afternoon the girl was placed under arrest. She was taken before Magistrate Henderson, pleaded guilty, and was allowed to go with the understanding that she would leave the city. The stolen fur has been returned to the owner.

Fleet-Jones.

The announcement of the marriage of a former New Brunswick boy, Walter R. Fleet, B.A., son of Mr. and Mrs. Charles Fleet, of Fredericton, will be heard with interest by his many friends in the province and especially by those associated with Mr. Fleet at the U. N. B., where he graduated in 1920.

DEATHS

Mrs. J. Percy Pettigill.

The death of Elsie Maria, wife of J. Percy Pettigill, occurred on Monday afternoon at a lingering illness at her home, 120 St. James street. Mrs. Pettigill was a daughter of Susan and the late John R. Coleman. She leaves her husband, two sons, two daughters and seven brothers.

Miss Matilda Marr.

The death of Miss Matilda Marr occurred on Thursday, May 1, at the residence of her sister, Mrs. William Hooper, St. Martins. She was the daughter of the late Sarah and Alexander Marr, of Jordan Mountain. Miss Marr was 72 years of age. She leaves two sisters, Mrs. William Hooper and Mrs. Julia Smith, of St. John; also one brother, William Marr, of Woodstock, besides several nieces and nephews.

Miss Mary A. Booker.

The funeral of the late Miss Mary A. Booker, who died at Fairville on Friday, took place from the home of her brother, James H. Booker, North Devon, Sunday afternoon. The service was conducted by Rev. I. A. Corbett, and interment was at Pickard Bural Ground. Besides the brother already mentioned, another brother, George M. Booker of Kingsley, and two sisters, Mrs. Fraser Currie of Kingsley and Mrs. Seth Howes of Dennis, Mass., also survive.

BURIED IN FREDERICTON.

The body of the late Thomas Roberts, who died in St. John, was taken to Fredericton last night. Mr. Roberts carried on the business of a carpenter in Fredericton and a couple of years ago moved to St. John with his daughter.

The funeral took place this morning, but on account of the forty hours' devotion at St. Dunstan's church, service was conducted at the house by Very Rev. F. L. Carney.

YOUNG METHODISTS CONDUCT A RALLY

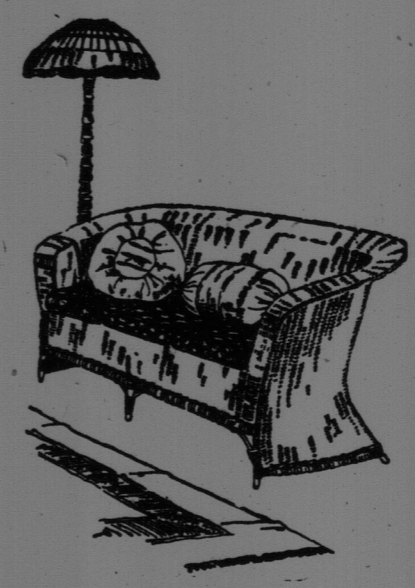

The annual rally of the Young Peoples' Associations of the Methodist Church of the city, was held last in Contemporary church, when the trophy awarded for the highest attendance at the quarterly rallies was presented to the Carleton association. Carmarthen street was a close second in attendance record. Charles E. Styles, president, was in the chair and following the opening devotions there was a pleasing programme which included a solo by Miss Helen Henderson; piano duet by Mrs. Beville and Miss Sandall; vocal solo by Miss Frances Withers; reading by Mrs. Waters; solo by William MacGowan; Piano solo by Miss E. Hanson; violin solo by Miss M. Rice with Miss Edna Shaw as accompanist. The new executive is composed of representatives from each association. The president and other officers will be elected next week. Refreshments were served.

SISTER MARYS KITCHEN A Daily Menu For The Stout and Thin EAT AND-- Lose Weight--Gain Weight

One raw apple, 1 shredded biscuit with skimmed milk and no sugar, 6 ounces boiled haddock, 1 cup stewed kale with lemon juice, 1 cup lamb stew with vegetables, 4 tablespoons sliced cucumber, 2 slices gluten bread, 2 tablespoons rhubarb pudding, 1 pint skimmed milk, 2 ounces lettuce.

The ordinary "bed" of lettuce weighs about one and one-half or two ounces, so if you must use leaf lettuce cut in ribbons instead of hearts of head lettuce, you can figure your ounces accordingly. The average head of lettuce weighs around nine ounces.

Needless to remind you that the fish is served with parsley and lemon, no melted butters or egg sauces. As an apple is supposed to contain 50 calories you may eat one at bedtime if you are not very stout and are very hungry.

The lamb stew contains dried carrots, turnips and peas with a bit of onion for flavor. The broth should be unthickened for the reducing "tray."

One raw apple, 1 cup boiled rice with raisins, 6 ounces boiled haddock with 1/2 cup egg sauce, 1 cup stewed kale with lemon and butter, 1 cup lamb stew with vegetables, 1 large baked potato, 4 tablespoons sliced cucumbers, 2 tablespoons French dressing, 2 ounces lettuce, 4 tablespoons rhubarb pudding with 2 tablespoons whipped cream, 4 tablespoons steamed graham pudding with 2 tablespoons hard sauce, 2 brown muffins, 2 slices rye bread, 2 Parker House rolls, 4 tablespoons butter, 4 tablespoons maple sirup, 1 pint whole milk.

Total calories, 2559. Protein, 488; fat, 1529; carbohydrate, 1642. Iron, .0162 gram.

Some active, vigorous persons will consider this menu as no more than an ordinary day's fare. But if you are an inactive woman you will do well to think twice before you eat the rice with raisins for breakfast unless you want to gain in weight.

When the too thin girl plans her meals she should keep in mind the foods that will help her most. Rice, potatoes, cream, milk, nuts and egg, especially the yolks, will show the quickest results.

Plenty of vegetables and coarse breads are necessary. (Copyright, 1923, NEA Service, Inc.)

Yes, you take chances in buying a mattress—because so much of the value of any mattress is hidden under its plain or fancy cover. Most of us buy by eye and judge a mattress by its ticking, since that's the only thing that we can see.

Too many think they are buying a Simmons mattress when they are actually getting something that is certain to prove entirely different and disappointing in use.

Value never masquerades

For makers of honest, competitive mattresses, Simmons has only the warmest friendship and kindest wishes. But there is another kind of mattress you should know about—the substitutes frequently mistaken for genuine Simmons products. Against these, the public needs to be always on its guard.

There is only one sure way to avoid such doubtful bedding and get Simmons quality, economy and years of lasting sleep service

125 IN ATTENDANCE AT NURSES' BRIDGE

Mrs. James Foley, of Loch Lomond Road, opened her home last evening for a bridge, arranged by the nurses of the St. John Health Centre, to supply a floor covering for the lecture room. The hostesses for the evening were Mrs. M. Armstrong, R.N., Miss Ada Foley, R.N., Miss Mary Murdoch, R.N., Miss Martina Wallace, R.N. and Mrs. Foley, all of whom received the guests who numbered about 125.

WILLING WORKERS MEET. The Willing Workers of the Germain street Baptist church held their closing meeting of the season yesterday with Mrs. H. Sparre, first vice-president, in the chair. Good reports were presented. The members had completed 60 garments and made a quilt and had paid \$800 towards the expenses of the alterations in the church when the new organ was installed. The meeting ordered \$100 paid for the support of a Bible woman in India and made a donation to the jubilee fund of the W. M. S. It was decided that the members should give sunshine money and make talent money during the summer months and work for the winter sale.

**James Peacock Injured in Union St.—Two Other Accidents.**

While James Peacock, aged 19 years, was riding on a bicycle from his work to his home in Little River, yesterday at 5 o'clock, he was in collision on the corner of Prince Edward and Union streets with auto truck X-1085 driven by E. S. Cosman with the result that he was knocked down and received a painful fracture of the left leg near the hip. Dr. J. A. McCourt happened along about the time of the accident and conveyed the injured to the hospital where the broken limb was set. Mr. Peacock suffered considerable pain and at first it was thought he was more badly injured.

Robert Anderson received severe injuries to his head while employed in the cotton mill yesterday afternoon and was conveyed to the hospital for treatment. He was reported as resting comfortably last night. His condition is not looked on as serious.

**RESIGNS OFFICE AFTER 14 YEARS**

The resignation of Mrs. C. F. Sanford, who has been president of the Centenary Women's Missionary Society Auxiliary for 14 years, was regretfully accepted yesterday afternoon at the annual meeting in Centenary hall. There was a large attendance. Mrs. Sanford is provincial president of the society and a member of the Dominion executive.

Her duties had accumulated until the local position had become too much with the more onerous duties, she said. Mrs. Robert G. Fulton, wife of the pastor of the church, consented to accept the presidency if a good proportion of the experienced officers were re-elected to assist her. Mrs. Leigh Lanstruth, recording secretary; Mrs. W. G. Smith, treasurer; Mrs. Rothery; Mrs. McLaughlin, corresponding secretary; Miss Annie Hoe, systematic giving convenor, retained their positions. The new officers, besides Mrs. Fulton, were: Stranger's secretary, Mrs. J. F. Estey, taking the place of Mrs. John Lecheur; Miss Box, secretary, Mrs. Albrighton Clark, taking the place of Mrs. C. H. Leonard. The vice-presidents were re-elected as follows: Mrs. R. A. Sinclair, Mrs. W. B. Tennant and Miss Edna Austen.

Mrs. J. M. Lawrence led the devotional exercises. Reports by the various secretaries were encouraging. There was need for more giving in some departments, the treasurer announced.

Mrs. Sanford was deeply moved by the expressions of appreciation of the W. M. S. members. Her regret in resigning was only lessened by the consent of Mrs. Fulton to assume the position, she said.

**NORTH END C. W. L. INSTALS OFFICERS**

The newly elected officers were installed at last night's meeting of the St. John North sub-division of the Catholic Women's League. Miss Sarah Lynch, president, was in the chair. The treasurer's report showed that the recent bridge had been a financial success and congratulations were extended to Mrs. Frank Fitzgerald, the convenor.

The membership committee reported a decided increase in members. Plans were made for holding a rummage sale this month. Mrs. A. C. D. Wilson had kindly consented to give a lecture for the branch in the near future.

Delegates appointed for the Women's Council were as follows: Mrs. Joseph Kennedy, Mrs. J. P. Quinn, Mrs. Alice Phillips, Mrs. Fred Roderick and Miss M. H. McCloskey. The delegates to the diocesan C. W. L. were chosen as follows: Mrs. Margaret McCloskey, Mrs. William O'Connor, Mrs. George McCloskey and Mrs. M. Quinlan.

**ISLAND LIGHT BRIGHTER.**

Pilots and captains of steamers or schooners leaving or approaching the harbor of St. John have remarked during the last few days on the exceptional brilliance of the light in Partridge Island light-house. It is much brighter than ever, though before it has always proved a wonderful guide to navigators. Only a few days ago an electric system was installed on the island. The Partridge Island light is one of the very best on the coasts of New Brunswick and Nova Scotia and, therefore, this recent change is quite noticeable. The flashes are brighter than ever, and during his quick flashes it is quite possible for residents in the higher parts of the city while in a dark room where the windows face the island to read portions of a newspaper in the rays of the island light.

**COLLECT FOR MISSION.**

The first collection of garments for the Grenfell Mission, Labrador, was held yesterday at Mrs. James F. Robertson's garage, Peel street. The response was hardly as great as had been hoped for in view of the fact that the need for garments, household and hospital supplies is greater this year than last year. The final collection will be made in June. Mrs. H. DeV. Partridge, Mrs. Walter A. Harrison and Mrs. James F. Robertson have been appointed a committee to receive further contributions of new or second-hand garments.

**IT OUGHT TO BE A GREAT RECEPTION**

Looks like a war council. But it isn't. It is a peace meeting. These Indians form the reception committee for the Alpha Phi fraternity's convention in Glacier National Park this June. And they are only discussing plans for receiving the delegates who are going from all parts of the United States.

**GUILD HOLDS LAST MEETING**

The Guild of St. John's (Stone) church held its final meeting of the season last night at the residence of Mrs. Frederick A. Estey, 10 Elliott Row. Miss Edith Skinner, president, was in the chair. Special guests of the evening were Mrs. George F. Smith, diocesan president of the W. A.; Mrs. James F. Robertson and Mrs. A. L. Fleming, each of whom gave a short address on the missionary work which the Guild undertakes, being a branch of the W. A. Music was enjoyed and Miss Grace Estey and Miss May Ward gave a missionary dialogue. Delicious refreshments were served, the hostess, Miss Grace Estey, being assisted by Miss May Ward, Miss Anderson, Miss Selding and Miss Margaret Bolton. Mrs. Penwick Fraser presided at the table, which was centred with lovely spring flowers, iris and pansies.

**Women's Institute Holds Quality in Canada Inferior to Overseas**

A resolution condemning oleomargarine and expressing endorsement of legislation prohibiting its sale, manufacture and importation in Canada, was passed by the St. John Women's Institute at its meeting yesterday. The members considered the quality of oleomargarine sold in Canada as much inferior to the article sold overseas. Mrs. Frank Rowse presided in the absence of Mrs. T. N. Vincent, the president.

Many suggestions for the provincial annual meeting in Fredericton in June were discussed.

The chief feature of the meeting was an excellent paper on pre-natal care and general public health given by Miss H. Meiklejohn, director of public health nursing services. Mrs. R. A. Jamieson was to have addressed his meeting but illness in her family prevented her.

Mrs. Ferraday was welcomed as a new member. Mrs. John E. Owens, district director on the provincial advisory board, gave a review of the last meeting of the board in Fredericton last month.

The matter of conducting the tea room at the St. John Exhibition was under discussion but no definite action was taken.

**CONCERT UNHEARD HERE.**

**MANY ASK PERMITS TO KEEP POULTRY**

A great stir has been created among the poultry fanciers of the city. Their profitable hobby has come within the list of callings that must be licensed and henceforth in the form of an Inspector of the sub-district Board of Health holds judgment on their birds, appraises the premises in which they are housed and views the surrounding territory with a calculating eye making mental reckoning of the effects of adjacent poultry upon nearby humans.

A poultry census will be the next alarming statistics. The poultry fanciers have become fearful of losing their pets through neglect in securing a license, a not impossible feat, and they have been bombarding the sub-district Board of Health with requests for the magic document.

So urgent have become the demands for these prized slips of paper that on Monday while the board was in session two applicants for permits to keep hens arrived at the door and each hat in hand, presented an earnest plea. The two visitors had hardly been informed that they must have an inspector pass judgment on the premises in which the fowl were located when the even progress of the board meeting was again disturbed and a telephone inquiry floated in from another poultry owner become

fearful for his treasured breakfast food producers.

Up to Monday night only six licenses to keep hens had been issued, but authority had been given for the issuing of about 90 in all. It will take some time for the inspectors to examine all of the premises where hens are being kept. The business of issuing permits is further complicated by the fact that there are those among the citizens who never having known the joy of clasping a fresh laid egg warm from the nest, have been inspired to emulate the other poultry fanciers and install new equipment, bringing new poultry yards into existence and raise still more hens within the city limits. The end is not yet, it appears.

**FISH INDUSTRY THRIVES DOWN BAY**

John Calder, provincial inspector of fisheries, arrived in the city yesterday afternoon on the steamer Grand Manan from Campbellton. He gave some encouraging news regarding the fishing

industry down the bay. Inspector Calder stated that at Dark Harbor Pond, Grand Manan, which is under lease to the Dark Harbor Co., Ltd., there had been a splendid catch of sardine herring within the last three weeks, nearly 2,000 hogheads of these fish were taken and the fishermen were getting \$12 a hoghead. There was a ready sale for their catch.

The Connors Brothers' cannery at Black's Harbor was at present working at full capacity, he said. There has been a good catch of sardine herring

at Moose Island and near Beaver Harbor as well as in the weirs near St. Andrews. There was also quite a catch at Deer Island.

As for the line fish all the stock of dried fish have been cleared out and everything pointed to a real good season for the fishermen, he said. Nearly three-quarters of the Maine canning plants at Eastport and Lubec were reported to be operating and the fishermen were doing quite well at the present time.

**British Plane on Round-the-World Flight to Call at Fredericton**

That St. John citizens will not have the pleasure of witnessing the Napier plane with Major Stuart McLaren, in command, land and take off from St. John next month on the famous round the world trip, was learned yesterday.

Instead of St. John, the landing places will be at Fredericton and Campbellton. This is in accordance with the air route laid down by the Canadian Air Board.

The oil that has been in St. John for some time will be shipped this morning to Fredericton and Campbellton. One young returned officer, who had a great record in the flying corps during the great war, stated to The Telegraph-Journal representative last night, when told that the McLaren machine would not land in St. John, that he would try hard to be at the place of landing no matter whether at Fredericton or Campbellton.

The British machine is expected to arrive in New Brunswick some time next month. It is a Napier plane with a Vickers engine. From Riviere du Loup, Que., the plane will come to Fredericton, then go to Campbellton, then to Sydney, C. B., and then to St. John's, Nfld., and there hop off for Ireland.

**'LONGSHOREMEN ELECT OFFICERS**

**Robert Carlin, Jr., is New President—Session Resumes Today.**

The semi-annual meeting of the International Longshoremen's Association local No. 273, was held in their rooms, Water street, last night. The election of officers and committees was conducted. More than 200 members were present.

Addresses were delivered by newly elected officers as well as those retiring. It was after 11 o'clock when the meeting adjourned until this afternoon at 2:30 o'clock to finish up the business, as there was too much on hand to conclude last night.

The election of officers resulted as follows:—Robert Carlin, Jr., was elected president in place of J. J. Donovan; senior vice-president, John Cooney; junior vice-president, William McGrath; secretary-treasurer, Joseph Monteth, (re-elected); business agent, John McKinnon; marshal, John Kinard; janitor, Thomas Sullivan.

This afternoon the association will resume business when the executive board and delegates to the Waterfront Council and perhaps special committees will be chosen.

**LECTURES ON LONDON.**

The B. Y. P. U. of the Main street Baptist church held its closing meeting of the season last night in the vestry and greatly enjoyed an illustrated address by Rev. Dr. David Hutchinson entitled, "In and Around London." George C. Estey, president, was in the chair. Gratifying reports were given by Miss Edith Estey, secretary, and Miss Saldie Chapman, treasurer. The sum of \$50 which is an annual gift to the Glendenning mission in India it was expected would be on hand by June when the money is forwarded. Miss R. Munroe was the pianist and Gordon Erb had charge of the lantern. Hearty thanks were extended Dr. Hutchinson.

**TELLS CONDITIONS OF SCHOLARSHIP**

Full information with regard to the conditions under which the St. John High School Alumnae memorial scholarship is awarded was given to two of the High School classes yesterday afternoon by Miss Jessie Lawson, who explained that the scholarship, which amounts to between \$120 and \$180 and is for one year, is awarded not entirely on a basis of scholastic attainments.

The scholarship is to assist the pupil to follow advanced study at any college selected and is awarded to a student who, without it, could not obtain this advanced study and who also has good records with regard to character, sports and good fellowship.

The pupils that have won the scholarship since it was first awarded have been as follows: 1920, Kenneth Sullivan, McGill University; 1921, John Bond, U. N. B.; 1922, Miss Harriet Roberts, Dalhousie; 1923, Miss Bernice Sommerville, U. N. B.

**WANT TO MAKE GROUNDS PRETTY**

The grounds of the St. John Health Centre are now being dressed up for spring time and summer. It is the hope of Miss Meiklejohn, the director, to have the grounds made attractive with flowering perennials and shrubs. The Health Centre is an imposing building prominently situated at the corner of Mecklenburg and Sydney streets and with the grounds made specially attractive it will have even greater claims to being a "show place" of the city to which the attention of visitors may be drawn with certain pride.

Miss Meiklejohn has already received some gifts of plants and is hoping that the owners of gardens may contribute more plants from their well grown borders.

For the back borders a scheme of blue, yellow and white has been decided on and for the more conspicuous front borders of peonies, dahlias, pansies and other profusely flowering plants are being planned for.

**CITY TAX RATE IS \$3.04 THIS YEAR**

**Up Four Cents from Last Year—Will be Filed Earlier.**

Mayor Frank L. Potts announced yesterday afternoon that the 1924 assessment would be filed before June 1

this year, and voiced his appreciation of the efforts put forth by the chairman of the Board of Assessors and his staff to bring about this desirable result. Last year it was July 20 before the assessment was filed, and the early filing this year will mean that the city will not have to pay interest on their overdraft for so long a period as they did in 1923.

The tax rate for this year had been struck at \$3.04 on the \$100, which is four cents higher than last year when it was \$3 on the \$100 of valuation.

The total valuation has increased by \$884,000. There has been a reduction of 265 in the number of rate payers. The assessment shows an increase of \$3,070 in the county assessment and \$28,791.42 in the city assessment, a de-

crease of \$3,168.77 in the special taxes; \$1,123.70 in the super tax and an increase of \$141.43 from the banks, as compared with 1923.

The figures are as follows: 1924 levy, \$1,788,178.74, made up of county portion, \$426,868.45, city portion, \$1,195,231.52; super-tax, \$17,185.05; banks, \$23,262.27; super-tax, \$17,681.50.

The total valuation in 1923 was \$52,974,550, and this year it is \$53,358,550; last year the number of ratepayers was 17,966 and this year it is 17,731.

The trustees of St. David's church held a business meeting last night to deal with matters of routine. James W. Brittain, the chairman, presided.

**BOY RETURNS LOST RAILWAY TICKET**

A lost ticket to Boston caused great anxiety to a young woman bound from Sydney to the Hub yesterday. When she arrived at the Union Depot in the afternoon she was very much excited and it was only after displaying considerable patience that the officials managed to extract from her the information that somewhere in the labyrinthine streets of St. John she had dropped a perfectly good ticket to Boston.

She despaired of finding it, but her despair was needless, for shortly be-

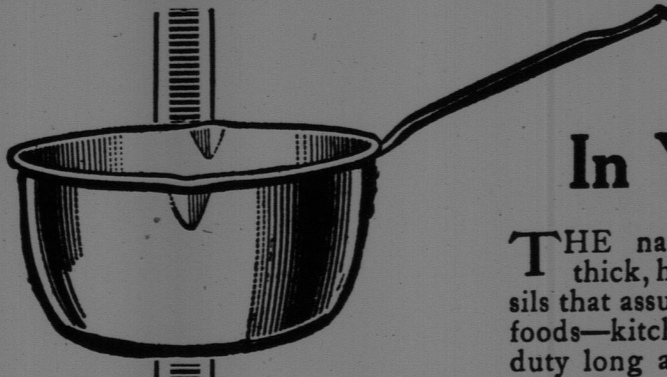

fore the train left last evening she was located in the train by Miss Florence Hoyt, of the Travelers' Aid, who informed her that her ticket had been found. At the ticket office she received the lost ticket and had the money refunded which she had paid for a second.

The young lad who had picked up the ticket in Pond street was rewarded to the extent of a half dollar. The price of a ticket to Boston is more than \$16.

**TO BE OVERHAULED.**

The steamer Grand Manan, which plies regularly between this port, Wilson's Beach, Welshpool, Campbell Island, Eastport, Me., St. Andrews, St. Stephen and Grand Manan, arrived in port yesterday afternoon with mails, passengers and freight. She will be hauled out next week for her annual overhauling and repairs which will take up almost three weeks. During that time the steamer La Tour will take her place. The La Tour has been thoroughly overhauled and has received a new boiler.

**The Acute Fuel Area**

**FIVE** of Canada's nine provinces contain vast resources in coal, actually 17 per cent of the world's total supply.

The two most populous provinces, Ontario and Quebec, contain no coal. These two provinces contain 60 per cent of the population and 80 per cent of the industries of Canada.

All the provinces except two, use Canadian coal almost exclusively.

Only one whole province, Ontario, and part of Quebec, do not use Canadian coal. Only Ontario depends wholly upon alien coal producers for her supply.

From the western boundary of Ontario to the Ottawa river is what Dr. Camsell, Deputy Minister of Mines, describes as the "Acute fuel area of Canada" because Ontario depends almost entirely upon the United States, and that source of supply may give out at any time. Montreal district and about 100 mile east in Quebec, while not wholly dependent upon United States coal, still use a considerable quantity.

Central Ontario in 1923 consumed 14,859,000 tons of coal, all imported. Quebec imported in 1923 a total of 6,517,000 tons.

Nova Scotia coal areas alone contain enough mineable coal to

supply Ontario and Quebec at present rate of consumption, for more than half a century.

Nova Scotia coal is used as far west as Montreal. In Montreal it competes successfully with American coal.

Why, then, should Ontario and Quebec send out of the country over a hundred and nineteen million dollars a year to build up alien business instead of keeping that money in Canada?

If these two provinces used only Nova Scotia coal they would add not less than a quarter of a million to the population of Nova Scotia—250,000 new consumers of food, clothing, shoes, furniture and other life necessities to be supplied by the manufacturers of Ontario and Quebec.

That is how Ontario and Quebec can help to build Canada—by burning Nova Scotia coal in our homes and factories.

HON. C. W. ROBINSON IS NAMED SENATOR

Former New Brunswick Premier Has Had Fine Record.

Ottawa, May 5.—The appointment to the Senate of Hon. C. W. Robinson, of Moncton, N. B., was officially announced tonight.

Hon. Clifford William Robinson is one of the outstanding men in the public life of New Brunswick.

He was born at Moncton on September 1, 1866, the son of William J. Robinson and his wife, Margaret Trenholm.

He took an active part in the affairs of the Liberal party, he was elected to the New Brunswick Legislature for Westmorland in 1897, and secured re-election for that constituency in 1899, 1903, 1908.

He was leader of the Provincial Opposition until 1911, when he resigned.

In 1917, Mr. Robinson was elected member for Moncton City and, upon the formation of the cabinet of the Hon. W. E. Foster, on April 4 of that year, was taken into the Government as a minister without portfolio.

He became Minister of Lands and Mines, continuing in office under Premier P. J. Veniot, who succeeded Mr. Foster. He was re-elected for Moncton City in 1920.

**MILK PRODUCERS DENIED PERMITS**

**Nine Permits Suspended—Improvements in Pasteurization Plants.**

Two Kings county milk producers, a city milk vendor, and two residents of West St. John appeared in separate delegations before the meeting of the sub-district Board of Health yesterday afternoon and presented different pleas. The milk producers were refused licenses, the milk vendor was granted a license on condition that he fulfilled the requirements of the board and further investigation was promised in the case of the residents of West St. John who asked to be relieved of the necessity of installing toilets in their premises.

John Kelly, chairman, presided at the meeting and as the business was not completed at a late hour, adjournment was made until next Monday.

Action was ordered taken against a city storekeeper who had excluded Mrs. Edmond Flewelling, food inspector, on two occasions. A summons has already been issued in this connection and the proprietor will appear in the city police court.

A house in the North End and one flat of a house in the East End were ordered closed and the tenants were to vacate within 15 days. The district medical health officer was empowered to have three persons suffering from tuberculosis removed to the St. John County Hospital. The board refused permission to establish a dump in Kennedy street.

**Refused Permits.**  
Dr. H. L. Abramson's report on the city's water supply told of four satisfactory examinations having been made.

The report of Dr. T. Fred Johnston, dairy and food inspector, told of examinations of the two slaughter houses. Only 240 animals were killed during the month. Dr. Johnston had visited the Kings county milk producers, inspecting the premises of 170 milk and 28 cream producers.

Nine of these producers failed to comply with the requirements and were refused permits, four being shut off at once. It was two of those four that made the special plea at yesterday's meeting.

Permits were refused because of improper methods of handling the milk in one case and because of unsatisfactory premises in the other case. Of the other five, three had been given permits on re-examination and two had still to make further improvements.

The report of child welfare work showed 891 babies had been under supervision and the nurses had made 512 visits, besides conducting 15 clinics at which 142 babies were in attendance.

The report of the anti-tuberculosis

work showed 26 new cases were registered and 18 old ones re-admitted. The total number was 308. During the month 27 were discharged as non-tubercular and two of the registered cases died. Seventy-six adults and 25 children attended the various clinics. There were 12 patients receiving milk and 12 patients were discharged as non-tubercular.

**City Milk Tests**

The vital statistics report for the

month showed that of 89 deaths nine were from tuberculosis.

The report of J. F. Tilley, milk inspector, told of improvements made in the local pasteurization plants. The average tests of the city milk were from 3.7 to 3.8 per cent of butter fat, a very high grade for the season of the year. About 80 pounds of dairy butter brought to a local plant to be worked over was condemned unfit for food. Mr. Tilley said: "There is a great deal of butter in the city that

is not fit for consumption and I believe the board should take proper steps to see that it is destroyed."

He reported that there was a large increase in the consumption of milk in the city and that there seemed to be a general feeling of satisfaction as to the quality and safety of the city supply which was constantly watched from producer and consumer.

**WRECKED DREAM BACK IN SERVICE**

**Former Yacht That Figured in River Disaster, Carrying Lumber**

Many people in the city have reason to remember the steam yacht Dream, once owned by the late Senator W. H. Thorne. She was a jaunty craft when she ran on pleasure cruises up and down the St. John River, as well as a few cruises down the bay along the coast. After her sale as a pleasure craft, she was converted into a freight and passenger steamer on the St. John River and did fairly well until, one day a couple of years ago, she met with disaster on the St. John River when she upset and some lives were lost.

Several months ago she was purchased by a Mr. Butland, of West St. John. The boiler and engines were removed and gasoline engines installed which made considerable more room on the craft.

Yesterday the Dream was cleared at the Customs House for Waterside, N. S., where her new owner will have her loaded with lumber to bring to St. John. It is understood that this is a trial trip and if successful the once pleasure yacht Dream, now a freighter, may be kept in this line of business for some time to come.

If not successful she may be placed in the line of towing or as a freight carrier on the St. John River.

**CITY BOY SECOND IN ORATORY HONORS**

Arthur L. Donovan, of St. John, took second place and Patrick O'Neill, of Moncton, third place, while John O'Keefe, of Glace Bay, carried off the premier honors in the annual declamation contest of the University of St. Francis Xavier's College, in Antigonish on Saturday night.

The large auditorium of Mount St. Bernard was crowded to capacity with an attentive audience which during the long programme showed their appreciation of the student's efforts by their close application to the every word falling from the lips of the numerous orators. A musical programme, which included selections by the college orchestra, solos and choruses in parts, interspersed the flow of oratory.

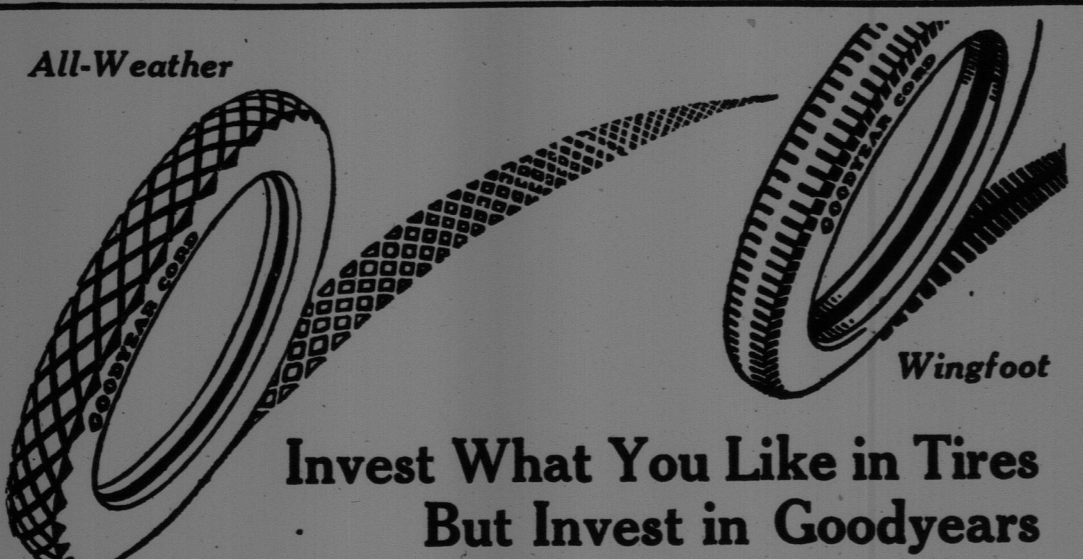

Donovan's selection was "Thanotopsis" and his rendition of this exceptionally difficult masterpiece, was one of the sensations of the evening. Art has been taking a prominent part in the various entertainments at St. F. X. during the last year, having played the leading feminine role in the college play, and covered himself with glory as a member of the senior debating team.

**GOING TO STAY PUT.**

A rumor current yesterday to the effect that the Western Union Tele-

graph were about to move their large office here to Truro, following the action of the company in removing the plant department to that town, was

exploded last night by Charles W. Mc Kee, district superintendent of the company, who said there was no truth in the report.

**Invest What You Like in Tires But Invest in Goodyears**

**H**OW much you keep invested in your car you must decide. As far as tires are concerned, Goodyear provides you with your choice. For those who demand the world's greatest mileage, the strongest road-grip, there is the All-Weather Cord. An actual survey of tire repairmen and automobile dealers shows that a large majority of these experts acknowledge the All-Weather Cord to excel the next best tire by over 25%. For those satisfied with a lesser road-grip, for those who want to make a smaller investment in tires, there is the Wingfoot Cord—heaping Goodyear value, exceeded in mileage and road-grip only by the All-Weather.

Goodyear resources and volume production make it possible to build more into a tire of any price class. Goodyear Selected Dealer method of distribution reduces selling cost. 10,000 tire dealers in Canada is far too many—too many profits, too much handling. Goodyear has cut the number of its dealers to 2,500—selecting in each place those best fitted to render you real service and to give you heaping value.

Let the Goodyear Selected Dealer serve you as he is so well able to do. His stock is fresh, good and fairly priced. His service is really and truly worthwhile.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

NEW BRUNSWICK CHAMPIONS PRESENT STRONG LINEUP FOR COMING SEASON

St. Rose's Held Their First Workout Last Night; Several New Men.

With a strengthened line-up, St. Rose's, New Brunswick amateur baseball champions, take the field this year with just one end in view—the championship of the Maritime Provinces. Last year, through the leadership of Manager "Joe" Fitzgerald and the iron pitching of "Bunker" Murphy, now attending St. Francis Xavier University, this Fairville team copped honors in the local City League after hard battle, and then easily won the championship series with Chatham, 4 games to 0, and the handsome Chesley Cup. This was the first time in many years the provincial title was played for and the interest aroused by that series spread throughout New Brunswick with the result that leagues are being organized at the border, Moncton, and on the North Shore. The accredited winners will meet this summer in a play-off for the provincial crown and when this is settled, it is possible a series with the Maritime title can be arranged with the Nova Scotia winners.

Same as Last Year.

The St. Rose's line-up this year will be practically the same as last year. Fitzgerald, a promising young catcher, again will be behind the plate, while Murphy and Conroy again will be on the mound duty. Manager Fitzgerald says he has Wiley, former second baseman of the St. George's, tied up as well as Art Doherty, who played last year with the Trojans. Joyce will be back at first and Wiley at second, O'Toole at shortstop, and Frank Campbell at third. Manager Fitzgerald believes he has a field that will take something to beat it. In the outfield, he will have Doherty, Conlon, MacMorris, and the champions' squad is Leo Gallagher, formerly with the Clippers of East St. John. The team had its first workout last night.

Team work largely accounted for St. Rose's success last year. They played consistent ball all the way through and deserved the honors they won. With the Trojans, Garrison and St. George's out of it this year, St. Rose's face an easier task than last year to win out. They have a loyal band of rooters in Fairville pulling hard for them and it would occasion no great surprise to see them repeat.

SARAZEN BEATEN ON JAMAICA TRACK Favorite for Kentucky Derby Meets First Defeat of Career.

Sarazen, for many months the winter-book favorite for the Kentucky Derby and on which thousands of dollars have already been wagered in the Kentucky classic, was decisively defeated at Jamaica last Saturday by the Rancocas stable's three-year-old colt Bracadea. Sarazen was beaten a length and a quarter. The result was a stunning blow to race followers of the track, as Mrs. William K. Vanderbilt's litterate undaunted went to the post as favorite at 1 to 3, the best price offered against him having been 2 to 5. The race was the Lynbrook Handicap at six furlongs in which eight went to the post.

The immediate effect of the defeat of Sarazen, which won all of his prize starts as a two-year-old, undoubtedly will be a great lengthening of his price for the Kentucky Derby, which will be run at Churchill Downs on Saturday, May 17. Sarazen all winter reigned as the undisputed favorite for the \$50,000 stake, one of the big events for three-year-olds to which he is eligible. He was displaced only recently by J. S. Ward's Wise Counselor, the western star, on the latter's great showing in his works and the doubt raised in the minds of horsemen as to whether Sarazen, a small gelding, will be able to carry his weight over the mile and a quarter of the Derby distance.

Max Hirsch, Sarazen's trainer, said before the race that if Sarazen was beaten he would have no excuses to offer. After the running of the race Hirsch said he probably would give Sarazen another race here before deciding whether he would be shipped to Kentucky.

FATE TAKES HAND IN BASEBALL DRAMA

Jack Hendricks and Johnny Evers are Handed Good Cards.

(By Henry L. Farrell.) New York, May 6.—(United Press.)—Luck, as it is represented in the breaks of the game, has always been a big factor in baseball, and fate once decided a pennant race in 1920, but it is seldom that fate ever took two twists as strange and unusual as it did early this season.

Jack Hendricks and Johnny Evers are back at the wheel of two major league ball clubs, because fate took its deal and gave them a hand after the cards had been running bad for years. Hendricks once managed the St. Louis Cardinals for a season and the angels would have to help of the team in one season. He failed, and was sent to the minor leagues. He made good in the minors, but after a long career with the owners of the Indianapolis club he was forced to resign because the policies of a youth did not agree with those of a manager who had been through every mill in the game.

Hendricks tried to land many jobs, and failed. When it seemed that he was out of baseball, his friend, Pat Moran, offered him a job as coach and assistant manager of the Reds. Perhaps Pat Moran remembered the time when he had been canned from the management of the Philadelphia National after he had won a pennant for them. He was out of a job when a good friend, John McGraw, offered him a place as coach with the Giants. It might have been that Pat knew he wasn't long for the world and he wanted Jack Hendricks to be in a position to get a good break. Perhaps he remembered that McGraw had released him from a contract so that he could take the management of the Cincinnati Reds and thereby take a pennant right out from under the nose of his benefactor.

Regardless of the reasons, Hendricks was given a job with the Reds and when Moran died, suddenly, Hendricks was appointed to his place. If Moran had willed his job to anyone when he passed away, Hendricks would have been the beneficiary. The tough breaks that Hendricks had before fate tossed him a hand were not to compare with the trials that Johnny Evers had all through his career.

Evers had his career cut short as a star player when he was stricken with a managerial end of the game. He was released from the management of the Chicago Cubs, but he had been anything but a failure, and he was out of a job. He had a prosperous business in Troy, N. Y., but he had been stricken with a managerial end of the game. When Moran was winning the 1919 pennant and Evers was out of a job, he found a place for Johnny as a coach to follow the White Sox. Johnny trailed them around the circuit for a month and when the world's series came he sat in council with Moran all during the series.

Kid Gleason later offered Evers a job as coach with the White Sox. He served in that capacity for some time until he was approached with an offer to accept an appointment as a deputy boxing commissioner in New York. Evers resigned his job with the Sox and the appointment to the boxing commission never came. He was again out of a job.

When Frank Chance was appointed manager of the White Sox, after he had been released from the management of the Boston Red Sox, he offered a job to the pivot man of that time, Johnny Evers. Chance, tinkered to the position as his assistant. Chance suddenly was stricken ill. He was unable to take the White Sox squad to the southern training camp, and Evers was asked by the club owners to take the team to camp and bring it back in shape.

It was expected that Chance would have been recovered sufficiently to take over the club for the opening of the season, but he suffered a relapse and he was ordered back to California. Evers was then named as manager to succeed his old friend and former manager, and Chance is not to make the 1924 pennant race as the leader of the Sox.

The White Sox were the surprise of the early season. Perhaps by mid-season they will be trailing in the dust. Perhaps they will be "up there" all the way, and it wouldn't be the strangest thing in history if they should win the pennant.

Striking view of crowd and track at Franklin Field, Philadelphia, showing the Columbia relay quartet taking the field with E. J. Swarkey leading. In this event the Columbia runners sprung a surprise by taking a fairly easy victory.

WARMING UP FOR SOUTH END RACE

Trojans and Royals Out Last Evening in First Practice.

The two teams that will open up the festivities in the South End League on Monday night will be warming up on Friday evening on the grounds limbering up for what promises to be one of the hottest races seen here in amateur circles in years. The Trojans, numbering some of the best "swiftness" in the city, had a fine turnout, while the Royals had quite a bunch of youngsters on hand. Both teams were well represented. Both teams contented themselves with tossing the ball around and getting their eye on some high ones.

BOWLING

ORGANIZE CHURCH BASEBALL LEAGUE

Seven Teams Represented—Rev. G. B. MacDonald Elected President.

A church junior baseball league was organized at a meeting held last night in the Y. M. C. A. when seven churches were represented, Portland Methodist, St. Luke's, Central Baptist, St. David's, St. Jude's, St. James' and Victoria Street Baptist. It was decided to fix the age limit for members of teams as under 18 years.

ATHLETES ORGANIZE

The organization meeting of the Y. M. C. A. track and field team for the season of 1924 was held last night at the association building. Last year's team captured the New Brunswick outdoor championships, the Pedlar Cup for the Sussex meet, and the Maritime indoor championship and it is out to win more laurels this year. Arnold Keen was appointed manager for the team and Eddie Yeomans was elected captain.

Ball Problems By Billy Evans

QUESTIONS. 1. When a runner is declared out for interference or running out of line, who is credited with the putout? 2. Ground rule gives batsman two bases on a hit to a certain part of the field. The ball bounces out, is recovered, and batter is thrown out trying to go to third. What is the ruling? 3. Runner on first starts to steal second, field umpire is hit by a ball thrown by the catcher. It goes to right field, the runner takes third but is thrown out. What about the answers?

CITY AMATEUR LEAGUE MEETS

Final Arrangements for the Opening Will be Made Next Monday.

The schedule for the City Baseball League, in which the St. Rose's, Portland, East End Clippers and a fourth team will be entered, will be drawn up at next Monday's meeting of the league. It was decided last night when representatives of three of the teams met in the office of A. W. Covey, president of the M. P. B. A. A. U. of Canada. The opening date of the league will also be determined on Monday evening next.

AUSTRALIA HAS BOYS SWIMMER FOR OLYMPIC EVENTS

Antipodeans Expect Big Things From Charlton, 16 Years Old. Sydney, New South Wales, May 6.—Australia has not produced a greater swimmer than A. M. Charlton who is going forth with the hope of the Commonwealth Games to meet great swimmers from other countries at the Olympic Games at Paris. The meeting of Charlton, Arne Borg, Sweden, and John Weissmuller of the United States will be one of the outstanding features of the games, and there is not a sportsman anywhere who would not give great deal to be present at what should be the most memorable swimming contest in history.

GETS DECISION OVER DELANEY Bryan Downey Had Conqueror of Berlenbach on Verge of Knockout.

Columbus, Ohio, May 6.—Bryan Downey, Columbus middleweight last night won the Judge's decision in a 12 round contest over Jack Delaney of Bridgeport, Conn., conqueror of Paul Berlenbach. The Columbus boy outscored his opponent in every round. In the tenth blows weakened Delaney who appeared on the verge of a knockout.

GIANT RECRUITS STOOD THE TEST

McGraw Took Chances on Youngsters and They Came Through.

(By HENRY L. FARRELL.) New York, May 6.—(United Press.)—John McGraw, manager of the New York Giants, who has made his theories on the selection of a manager to bring youngsters along by adherence to a nursing programme in which the hard spots are reached by gradual degrees.

Commenting about it later, McGraw said that he had to find out what they could do and the only way he could do it was by shoving them in and letting them learn the hard way. In the second game of the season, McGraw started Weyland Dean, a youngster who had never seen a big line-up before. He got smacked by Paul, who was with the team last year, but he didn't lose heart and won his game. McGraw then turned to Virgil Barnes, who had gone through a bench duty for two seasons and he turned in his game. Walter Huntinger, a boy just a year away from the University of Pennsylvania, then got his call, and he delivered.

INTERNATIONAL SKATING UNION TO TAKE UP MANY IMPORTANT MATTERS.

Several matters of importance to the speed skating game in the Maritime International Championships in 1924. Arrangements for the skating of the world championships in 1924. The establishment of a sub-senior class for skaters between 16 and 19 years of age. The formation of additional state and district associations. The control and management of roller skating. The establishment of a sub-senior class for skaters between 16 and 19 years of age.

SMITH PROTEST WILL BE DECIDED

The Frederick club has been organized, as an associate, and Moncton is reported preparing. The result of course, were highly successful, not only in the games won and lost, but in the confidence that was instilled in the youngsters by getting the first time in the manager and by making good. The results also had a psychological effect upon the whole team, who played with hearts out to encourage the youngsters.

SMITH PROTEST WILL BE DECIDED

McGraw is the greatest gambler in the business. He took a long chance when he sent Dave Bancroft away to the Boston Braves, and told young Travis Jackson that he was good enough to play shortstop on a champion team. Jackson had the test put to him last summer in the heat of a close pennant race, and he made good. McGraw, in that case, however, had no option. He had to call on Jackson when Bancroft got pneumonia, because he had no other substitute available. Baseball has numerous examples of long chances taken by managers in finding out just what their youngsters are made of. The risks taken in throwing an untried youngster into battle are not as hazardous as they are in boxing. If a youngster falls the first time he is called to go to the bat in a pinch or a purely mental and he can be brought out of it, but a young boxer under such circumstances may be ruined permanently.

SMITH PROTEST WILL BE DECIDED

Another young fighter in the smother might have been heart-braker or at least discouraged, but Berlenbach was smart enough to know that it was not his fault and game enough to figure that it was a piece of valuable experience for him and that he was all the better for it. Berlenbach had ten professional fights in which he had shown class that marked him as one of the finest prospects brought out since Jack Dempsey started to club his way in the heavyweights. Without grant him the right to learn the "racket" the public forced him into a match with Jack Delaney, a fighter the first class middleweights had been regarded as poison, and it was only nature that Berlenbach should lose. Another young fighter in the smother might have been heart-braker or at least discouraged, but Berlenbach was smart enough to know that it was not his fault and game enough to figure that it was a piece of valuable experience for him and that he was all the better for it.

Paterson, W. E. Golding, J. L. McAvity, W. S. Fisher, Richard Sullivan and F. M. Ross, of St. John, and L. C. Gerry, of New York. Reports of the year's operation were presented.

THE PRESSMEN

International Vice-President Here Tells of Work and Institutions.

George R. Brunet, vice-president of the International Printing Pressmen and Assistants' Union of North America, is in the city. His office is in Montreal, and he is visiting the local unions under the jurisdiction of the main organization.

Mr. Brunet, in conversation with The Times, gave some interesting features of the international union's work, which includes the maintenance of a group of institutions at Pressmen's Home, Tennessee. Here are successfully carried on a fine home for superannuated members of the union, a sanitarium for members suffering from tuberculosis, and a technical school "dedicated to the proposition of eliminating inefficiency, and for the promotion of craftsmanship and competency in the printing industry of America."

The school and the home and sanitarium have been most successfully administered and have proved a great boon to students of the craft and to old or disabled members who go there from all over the continent.

A magnificent example of printing, illustration and press work, all done by students in this technical school, is the Thirty-third Year Book of the Union containing articles by men of national reputation on various subjects relating to printing and the work and progress of organized labor. It is "presented as an example of the progress made in trade education by a progressive labor union co-operating with other units of a great industry," and Mr. Brunet and his associates are justly proud of it.

BANKER IS HEARD IN CHECK CASE

Says Anne Chisholm Had No Account in Royal, Truro.

The prosecution closed their case this morning in connection with the preliminary hearing against Anne Chisholm, who is being held on allegation of obtaining money and goods by false pretenses. The only witness summoned was Simon G. Merriam, accountant of the Royal Bank of Canada in Truro, who was brought here to testify. He said that the defendant had no account in that bank in Truro. He said he had been in the employ of the bank since 1911 and had been in Truro for more than a year. He did not know the accused.

REPORTS ON ST. JOHN BUSINESS

Babson's Lists This City in the Best of.

Babson's Report for April places St. John among the list of cities in the most favorable position and cites the increase in manufacturing as the brightest feature in general business conditions. Speaking of New Brunswick the report says: "There is considerable activity in the hardwood industry, particularly in the mills at Juniper and Forester where they are working with both day and night shifts. Several American concerns are establishing Canadian branches in the province. The outlook for a large tourist trade in New Brunswick is favorable. The outlook for general business conditions is fair."

The provincial government is considering the development of Grand Falls on the St. John river as a public ownership proposition. There are several summer hotels in process of construction preparing for promotion of New Brunswick as a summer resort. Of the city of St. John the report says:

"General business conditions are more favorable than they have been for several months. Shipping is showing unusual activity. Lumber and mining industries are particularly active, also cotton mills and sugar refineries. Conditions are only fair for fisheries and metal industries. Wholesale and retail trade is showing some improvement, but collections are very slow. A surplus of unskilled labor is reported, while skilled labor is fully employed."

Babson's Report is published by the "Babson's Statistical Organization" and is edited by Roger Babson, regarded as a high authority on these matters.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to The Times reporter, "You got your noo Mayor an' the Council started off all right. Now I s'pose you'll begin to tear 'em limb from limb." "Why do you make that assumption?" queried the reporter. "Aint it g'nally the way?" demanded Hiram. "An' them that didn't vote'll stay home—an' then spend the next three hundred an' sixty four days grubbin' about the town goin' to the dogs. An' ninety-nine out of a hundred that did vote'll set around an' find fault instid o' goin' down to City Hall an' talkin' it out with the fellers there. If they hev an axe to grind or want to be let off fer their taxes they'll go fast enough. Mayor Potts says he wants to see folks. I'm goin' in myself the first chance I git to tell him what I think about the way things is goin' in Rooshie—Yes, sir, I be so."

Barnet Household Refrigerator

Saves Time, Work, Food, and Makes for Health and Thrift

We sell the Barnet because it is the best refrigerator we have yet seen. It commends itself on account of its superior qualities of refrigeration and the fact that it has no dirt-gathering drain pipe. Contaminating food odors are constantly ventilated out.

You owe it to yourself and family to see this efficient and absolutely sanitary refrigerator. Inspect it thoroughly. You will then see why the Barnet is in a class by itself.
