BIG MATTERS IN SMUTS' SPEECH

Hopeful for Irish Settlement by Home Rule. Commanding Position of the British Empire in World Affairs—U. S. and Japan by Naval Rivalry Launching New Problems.

Cape Town, S. A., Sept. 1.—Speaking at a luncheon given in his honor yesterday, General Smuts, premier of the Union of South Africa, who attended the imperial conference and also was a factor in the Anglo-Irish peace negotiations, referred to the matters engaging him while in London. The premier manifested hopefulness for a conclusion of peace between Great Britain and Ireland. He pointed out the dangers of the Silesian difficulties, and made casual reference to the "naval rivalry of the U. S. and Japan, who are launching new problems on the world."

Gen. Smuts said the situation in Ireland when he arrived in London was indescribable. "Any idea of such a state of affairs, if it had existed before the great war would have been scouted," the premier declared. He said the situation was difficult, but not hopeless. The only solution of it was home rule. Gen. Smuts characterized world conditions as exceedingly sad to anyone coming in contact with these problems. Cheers greeted his declaration that the withdrawal of the United States from international affairs left the British empire as "the only stabilizing influence in world affairs."

AT CITY HALL

Hangers for Sand Point Shed Doors—The Marsh Bridge Work.

Routine matters were dealt with this morning at a meeting of the common council in committee. Commissioner Bullock spoke of the need of having heavier door hangers on the south side of No. 4 shed at Sand Point. Number 150 Richard-Wilcox door hangers had been recommended, and twenty-six of them would be required. It was a wonder that no accidents had occurred with the old ones. No provision had been made for these hangers in this year's estimates.

The doors were partly hung up for want of new hangers and not one was in good repair for this season's operations. He recommended that he be empowered to buy them. The hangers he wanted to buy were manufactured by a Canadian concern.

A recommendation was made, but the mayor meantime asked that the engineer be present to explain the hangers. Commissioner Jones said that in the absence of the city engineer the matter of linking up the east and west side water services could not be taken up. With reference to the work of filling in on the top of the Newman Brook sewer, which is of concrete, he recommended that he be authorized to make a supplementary contract with Messrs. Linton & Saab to do the filling in on top of the concrete arch, there being sufficient money left from the bond issue for the purpose.

Commissioner Frink said he thought this essential. The original contract had not provided for this. The resolution was carried. Commissioner Bullock said the council should have a report on the old Newman bridge looking to the safety of it for heavy burdens.

Commissioner Frink read applications from the Purify Ice Cream Co. and John Sime, Pond street, to erect electric signs, the ice cream sign to be erected on the premises of the Royal Pharmacy and the other in Pond street. He recommended that the applications be complied with under the supervision and with the approval of the city engineer and the city electrician and the commissioner of public works.

Commissioner Jones reported that there was a leak in the pipe at Marsh bridge and that on account of the soil there would have to be a foundation installed. The leak had affected the water supply of the residents of Mount Pleasant and would probably continue for about a week. During excavation work his department had broken into the twelve-inch main from Spruce Lake to West St. John and the residents of that section were now dependent on the twenty-four inch main. The former main had been laid in 1857.

SAVED FROM DROWNING. Sydney, N. S., Sept. 1.—John Nicholson, aged twenty, went for a swim yesterday off Government wharf, the deepest spot in the harbor. Three minutes later he was gripped by Stephen McDonald, just as he was going down for the last time and saved from impending death by drowning.

WHERE GREEK MET TURK

The black blocks show the position of the four Greek army corps as they closed in upon the Turkish line about July 15. Great credit is paid the Greeks for their skill and energy in a country where almost non-existent "and the railways, as seen by the map, are of little service to the greater part of Greece's 180,000 fighting men. Carrying on their advance, the Greeks would march over the site of Gordium, where Alexander the Great cut the famous knot, thereby fulfilling the oracle that whoever did so would conquer Asia.

MISSING C. G. M. M. STEAMSHIP IS SAFE

Canadian Importer Found Last Night. Whole Crew are Reported to be Safe—Ship was Located by Her Sister Vessel, the Canadian Observer.

Montreal, Sept. 1.—The Montreal office of the Canadian Government Merchant Marine received a wireless this morning that their ship, the Canadian Importer, thought to have foundered in the Pacific, had been found at ten-thirty last night by the Canadian Observer, latitude 38-20 north, longitude 137-25. The Observer will tow the Importer in to the nearest port. The message stated that there was a crew of 44 men on board the Importer, but made no mention of the loss of nine men which had left the steamer to seek help. The Importer had drifted sixty miles west and 28 miles south of the position given by the S. S. Cordova when she left here.

Ottawa, Sept. 1.—The department of marine has received a report that all the crew of the Canadian Importer are safe. The Canadian Importer sprang a leak on August 19 while on a trip from Vancouver to New Zealand and Australia, with lumber. A boat of nine men left the ship to try to row to shore, 50 miles away. The remaining members of the crew, 44 men, were taken off the steamer by the Cordova. Captain Bissett, of the Importer, decided to try to save his ship, when he found her cargo was keeping her afloat. After communicating with the C. G. M. M. office in Vancouver, which dispatched the Canadian Observer to his assistance, Captain Bissett and his crew returned to the Importer. The search of the Observer was rendered difficult because the Importer's wireless was out of commission, and she could not send out her position, and she could not send a message to the C. G. M. M. office.

The Importer was built at Vancouver in 1920. Her first officer is L. G. Hogg, of Vancouver, N. S. Montreal, Sept. 1.—Enquiry into the sinking of the Canadian Recruit, on August 18, was adjourned yesterday at the request of counsel for owners of the Mackinow, vessel which rammed the Recruit. The pilot of the former is ill at Quebec and his evidence is considered essential. The adjournment was sine die.

Soo, Mich., Sept. 1.—The steamer Saturnian, which ran ashore during a dense fog on Monday morning was released by a wrecking outfit.

EXCHANGE TODAY. New York, Sept. 1.—Sterling exchange strong. Demand 37 1/4; cables 37 1/4; Canadian dollars 9 18-16 per cent discount.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Horneburn, "you explain to me that branch loaded with big, beautiful apples, when all the other apples on the tree are so small and mean looking. That's a graft," said Hiram. "Them little apples is bitter an' not good to eat. I feel 'em to the pig. It's a native apple tree. I grafted on that there tree that's got the big red apples—an' I'm gone to graft on some more. That's a curious thing. I kin raise twenty different kind of apples on that one tree by graftin'. Whatever kind you graft on—that's the kind you get. You just saw off a limb an' split the end an' sharpen the little graft an' stick it in—an' then mix up resin an' beeswax an' smother it all over the splice all over till it's air-tight an' water-tight. Then when the sap goes up the tree the graft'll grow an' every one of 'em'll make their own kind of apples. Yes, sir, if you hev twenty limbs to graft on—an' twenty different kinds of apples—you kin pick 'em all off that tree in no time. An' what makes me mad is that this country's full o' trees that don't grow good apples an' folks is too blamed lazy to graft 'em an' git good fruit. Most of my trees don't need no graftin' fer I got the right kind, but whenever I see a wild apple comin' up I miss it along an' graft it. An' it pays every time—yes, sir."

DR. HEDDEN AWAY. Dr. Henry Hedden, who has been superintendent of the General Public Hospital for some time, left on Saturday for Memphis, Tenn., to take over his duties as superintendent of a hospital there. R. V. Gale, former assistant director of the Lancaster D. S. C. R. hospital, succeeds Dr. Hedden here.

ROCKWOOD CLUB. At a well attended meeting of the Rockwood Club last evening in Douglas Hall, Murray street, the following officers were elected: R. Segge, president; H. Torrey, vice-president; F. Gould, treasurer; A. Aberley, secretary. A bowling team was formed with F. MacMurray captain, and H. MacMurray manager.

OFFICE HERE CLOSED. The local office of Johnston & Ward, stock brokers, successors to F. B. McCurdy & Co., has been closed. The manager, George Harley, will assume the management of the branch of the firm in Moncton. D. B. Weldon, manager of the Moncton branch, will go to the Montreal office.

NOVELTY SHOWER. The home of Miss Eileen Dobson in East St. John was the scene of a happy gathering last evening when eighteen friends gathered to tender a novelty shower to Miss Ethel Pitt, who is to be a principal in a nuptial event to take place in the near future. The guest of honor was the recipient of beautiful presents. During the evening games and music were enjoyed and refreshments served.

THE LOCAL MURDER. Photographs of a man, who was arrested in Sydney on suspicion of possibly being the one sought in the Mable murder case, arrived at police headquarters this morning and will be shown to the three little girls this afternoon for identification. Aside from this nothing new developed today, although there is no let up on the part of the detectives, who are following up and investigating clues.

WILL HAVE CELEBRATION. Word has been received here from Hon. J. E. Michaud of Edmundston to the effect that he is making arrangements to carry out the request of Premier Foster with reference to the invitation of Premier Oliver of British Columbia regarding border celebrations of the anniversary of the signing of the Treaty of Gent and the opening of the peace port erected in commemoration of that event at Blaine, Washington.

DID GOOD WORK. Commissioner Thornton said this morning that the fire engine which went from here to Hampton Village yesterday was able to be of considerable assistance. Although nothing could be done to save the buildings already in flames the fire was prevented from spreading and streams of water were played on the ruins. The engine returned to the city about six o'clock. It was in use for about four hours.

MAY BE ACTION. William Kirkpatrick, driver of a van which was struck by an automobile last evening in the Robbsey road, was reported this morning to be resting comfortably. Mr. Kirkpatrick served as a lieutenant in the war and is considered a capable and efficient driver. He sustained painful injuries to his knee and leg and was removed to the General Public hospital, where he was given treatment, and later taken to his home. It is said that the car which struck him bore the license number B3,227. The van was drawn by two horses driven by Mr. Kirkpatrick and was returning to Robbsey from Benford. Fortunately there were no children in it at the time. The car approached the van from the rear and upset it, damaging a wheel. Constable Robert Crawford hastened to the scene as soon as heard of the accident. It is said that it was contended that something went wrong with the steering gear. It is understood that action will be taken against the driver of the car.

Election in Three Months Predicted; Seven Leave Cabinet

Montreal Gazette's Ottawa Writer Says Meighen Expected to Make Announcement Tonight—Liberal Leader Draws Great Assemblage at Meeting.

Montreal, Sept. 1.—The Gazette today gives prominence to a despatch from its Ottawa correspondent which predicts that Premier Meighen will tonight announce a general election within three months. The despatch adds: "Premier Meighen, with the announcement of dissolution, will also announce his new cabinet. There will be at least seven new members, many of the old ministers retiring to the senate or other appointments. In all there are nine vacant seats, two lieutenant governorships, several judgeships, and one vacant seat on the railway board. It will be a bitter campaign, and with Government, Liberal, Farmer and Labor all fighting, attacks may be expected from every quarter. The premier is a wonderful campaigner and will not be on the defensive. He believes the stable forces of the country will rally to him and will enter the contest with vigor and confidence."

Searfirth, Ont., Sept. 1.—Addressing a large meeting here yesterday, Hon. W. L. MacKenzie King said it was a shocking circumstance that all of the warring nations, including the enemy, Canada stood alone, with the possible exception of Russia in that its people had been denied the right of an election since the termination of the war. Canadians apparently were singled out by their autocratic government as the only ones that dare not be treated as equals.

"The reason is plain," Mr. King declared. "Every province of the dominion has had its election and in every instance where a conservative party has been in power it has decisively thrown out and a democratic house replaced. Ottawa knows full well that it does not represent the will of its electors and if an appeal was made it would find itself out in the cold. Therefore, it hangs desperately on."

Taking up the important question of the national debt, the speaker termed it "appalling" and asserted that, ever should it be corrected, it was responsible for a big outlay, there was no excuse for the many millions that had been, as he said, squandered since. He said that the Laurier administration went out of power the public debt was but \$335,000,000 against more than 2,000,000,000 today. "Before the government could commence to carry on its own business at this moment, it was confronted by the startling figure of \$149,000,000 as interest alone on this national debt."

"This sum itself," he said, "is more than sufficient to operate the Laurier government at any time. There is no other obligation," he said, "that we must be prepared to meet in a real sense of the word. The Laurier government returned soldiers and the dependents of those who crossed the seas and failed to return. For pensions and soldiers club re-establishment we must vote \$135,000,000 this year alone."

Thos. Brassington Worried Over Home Objections to His Marriage and Fear of Detention at Ellis Island. New York, Sept. 1.—(Canadian Press).—Family troubles in England and the fear of being detained and sent to Ellis Island, were believed to be the cause of Thomas Brassington, of Newcastle-on-Tyne, Eng., jumping overboard from the second class deck of the White Star liner Olympic Tuesday night, when she was at anchor at quarantine here, leaving his fiancée, Miss Anne Louise Thompson, of Alameda, Calif., lying unconscious on the deck.

According to the ship's officers, Brassington was only 40. He was thirty-nine years of age and was on his way to Abbotsford, B. C., where he owned a bakery business. Miss Thompson had become engaged to Brassington on the Pacific coast and had gone to England six weeks ago to marry him. There was some trouble with the relatives and the two friends were separated. Just after getting married in California before proceeding to Abbotsford.

On Tuesday night the man displayed symptoms of despondency. Just after dark he went to his cabin, and left there his money and jewelry, with a note stating that he was afraid of detention at Ellis Island. He then went on deck where he bade farewell to Miss Thompson. The girl fainted and Brassington jumped overboard.

British Football. London, Sept. 1.—(Canadian Press).—In the Rugby Northern Union game yesterday, Balfour defeated Hunsley 12 to 2.

Garage Case in Police Court. Fred Glynn arrested by Detective Saunders on suspicion of breaking into and entering the garage of J. C. Lake, on the corner of Union and Wentworth streets, and stealing automobile parts from Mr. Lake's automobile and also from the car of Michael Connel, was before the court this morning. C. J. Melville appeared for Glynn.

Mr. Laikie said that the garage was broken into some time before six o'clock on Sunday morning. He said that a chain link, a pair of pliers, a screwdriver and all his wrenches were missing. Just inside the door the lock of which had been broken was found a short iron bar. The witness identified the tools in court and said he had found them in Glynn's garage in Dorchester street.

Michael Connel said that he kept his automobile in Mr. Lake's garage. He said that late on Sunday morning he went to the garage to take his car out and found the lock broken off the door. He notified Mr. Lake and they went to the garage. The witness said that he missed a battery, a new tire, three pair of pliers, a screwdriver, a repair kit, and three inner tubes and an auto jack. Mr. Connel identified the parts when produced in court this morning. The prisoner was remanded.

Premier Massey is in Canada. Quebec, Sept. 1.—The Empress of Britain docked here yesterday with one of the most distinguished passenger lists of the year. Among those noted in the list were Premier Massey of New Zealand, Sir John and Lady Findlay, and Col. W. E. House of Washington.

Better Output at Glace Bay Mines. Glace Bay, N. S., Sept. 1.—Fourteen thousand tons, the best day's output since 1918, was reached by the colliers of the Dominion Coal Company on Tuesday. Birch Grove mine set a new local record with 1,200 tons.

NEW PROFESSOR FOR DALHOUSIE UNIVERSITY. Halifax, N. S., Sept. 1.—It is expected that Prof. Henry Munroe, recently of the faculty of the Law School of Columbia University, New York, is to be appointed professor of political science and international law at Dalhousie.

KNOCKOUT TO WIN CHAMPIONSHIP

The Terms for the Wilson-Downey Bout. Move for Reduction of Penalties on Horsemen at Houlton, Me.—Big Leagues and Other Late Sport.

New York, Sept. 1.—The championship belt held by Johnny Wilson, middleweight, will not change hands in his bout on next Monday with Bryan Downey of Cleveland, unless Downey knocks him out. So promoter Richard announced today. The same ruling in the case of Johnny Buff, U. S. flyweight champion, who will meet Indian Russell, of Harrisburg, Pa.

Richard says that the belts have been won in fifteen round decision contests and said it followed that they could be lifted only in decision matches save in case of a knockout. The Jersey City fights will be twenty rounds, no decision affairs.

The Houlton Penalties. Houlton, Maine, Sept. 1.—It was said this morning that a meeting of the judges who officiated at the Caribou Fair races last week was arranged for today and that a recommendation will go forward to the National Trotting Association for a change in the penalties imposed upon drivers William Brickley, of St. John, and Fred Cameron, of Charlottetown, who were suspended for the season along with the pacers Lathes, 2:30 1/4, and Banni, owned by Dr. L. D. McIntosh, of Fairland, N. B., and Reed Bros. of Fort Harrison, Maine, respectively.

J. W. Gallagher of Woodstock, is the man who has been successful in getting the officials together, and if the drivers and horses are restored to good standing again it will be largely due to his efforts. Every racing association of the Maine and New Brunswick circuits has a telegram to W. H. Gecher, secretary of the National Trotting Association, favoring a reduction of the penalties and declaring the action of the judges at Caribou to have been more severe than the circumstances warranted. It was said that the recommendation to Hartford would probably call for removal of the suspensions after this week and the infliction of fines.

Houlton, Me., Sept. 1.—This afternoon Director J. 2:01 1/4, champion pacer of the Bay State circuit, and John R. Braden, 2:02 3/4, which set up a new track record on every course of the Maine and New Brunswick circuit on which he has appeared, will meet in a matched race here for a purse of \$2,000, winner take all.

The Major Leagues. New York, Sept. 1.—The September stretch of the major league pennant race will open with Pittsburgh one and a half games ahead of the New York Giants, and the Cleveland American a half game in front of the New York Yankees. The Pirates and the hard hitting St. Louis Cards were down for two batties today while the Giants were engaged with the Brooklyn.

The Indians were scheduled for a postponed game at Detroit, but a possibility for New York to take the lead of they could capture both games of a double-header with Washington.

The major league record of 28 assists for the infielders of both teams was equaled by the Reds and Braves. The Red infielders had 18 and the Braves 15. Only six hits were made in the St. Louis-Chicago second game. Bayne, of St. Louis, allowed two hits and Keer, of the White Sox, four.

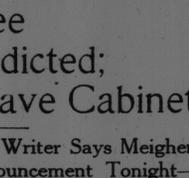

Babe Ruth was back in the Yankee line up yesterday, having recovered completely from the efforts of his slight misadventure.

Two recruits reported to the Red Sox when their team arrived today to open a home series with Philadelphia. They were Fred McGaffey, outfielder, and Lester Burke, shortstop, obtained from a Lynn semi-pro team.

IN WALL STREET. New York, Sept. 1.—(10:30)—The foreign oil group furnished the only noteworthy exception to the lower trend of prices at the opening of today's market. Mexican Petroleum and Pan-American, registered one point gains, presumably in connection with reports of an early compromise agreement between the Mexican government and American oil interest. Steels, equipments, rails, shipping and food shares were lower.

Noon Report. New York, Sept. 1.—Additions to early gains were made by Mexican and Pan-American Petroleum, American Locomotive, Famous Players, tobacco and express companies shares. Counter movements continued, however, in equipments, shippings, sugars and chemicals, those issues making extreme declines. One to five points, bulls, especially Northern Pacific and Great Northern, added to yesterday's reversal. Oil's cancelled part of their advance because when motors, notably Studelaker and Pierce Arrow, preferred, became heavy. Call money opened at 5 1/2 per cent, the highest initial rate of the week. Exchange on London and continental Europe was strong.

MONTREAL STOCK EXCHANGE. Montreal, Sept. 1.—The feature of the stock market at the opening was a new low for Brompton at 14 1/4. The sentiment was mixed and the tone decidedly quiet. Laurentide at 64 1/2. Power at 80 1/2 and Spanish River at 50, were unchanged, as was Spanish, preferred, at 53 1/4. Toronto Railway was a half better at 92, while Pennams was down a full point at 92, as compared with the last sale on Monday. A broken lot of Dominion Bridge brought 45 1/4, as compared with 62 for the last trade several days ago.

PREMIER T. C. NORRIS OF MANITOBA.

It is reported that he and his cabinet will support the Hon. T. A. Crerar in the next federal election.

CONSPIRACY AMONG SIKHS

Plot in India to Overthrow the Government. Assassination of Europeans Part of the Plan—Barricades Around a Mosque Where Rebels are Intrenched.

London, Sept. 1.—A despatch to the Daily Mail from Calcutta says the police in the Punjab have discovered a conspiracy among the Sikhs to overthrow the British government and assassinate Europeans. The despatch adds that the prosecution of the alleged conspirators will be undertaken.

Calcutt, India, Sept. 1.—In order to avoid the possibility of violation of the mosque at Mirzapur, where the rebels are entrenched, the authorities have decided to erect barricades around the building and starve out the rebels. Both Calcutt and Malabar are quiet.

NOT ENOUGH, SAYS FREDERICTON

Dissatisfied With the Census Figures.

Fredericton, N. B., Sept. 1.—The census return giving Fredericton a population of 8,081, are not accepted as accurate here. The voters lists, federal, provincial and civic and the school enrollment, all indicate a larger population than that. Local estimates are little short of ten thousand.

The Fredericton school board, facing over crowding in the high school departments, with the largest enrollment in the history of the school, on Wednesday determined to secure an additional high school teacher, making a total of six.

A total enrollment for the public schools of the city, which will exceed any previous enrollment at the first of a school year, is expected.

The Provincial Normal school opened this morning with an attendance of 229 students. Last year the students numbered 199 on September 1. Seventeen of this year's students have been in attendance in the French department, which opened on August 8th.

Included in this year's classes are forty-three young men, more than three times the number of last year's students. The students are classified as follows:—Class I, 106; Class II, 154; Class III, 52; French Class, 17.

Elizabeth, wife of John Perry of Ormoco, died on Wednesday night. Her husband and one daughter, Mrs. George Harper of St. Stephen, survive.

Lloyd Bailey of Chipman was brought to the Victoria Hospital on Wednesday suffering with a gunshot wound in one of his legs. The injury was inflicted by the discharge of a rifle in the hands of another. Neither knew the gun was loaded.

Exchange and Freights. Ottawa, Sept. 1.—The rate of exchange in connection with shipments of freight between points in Canada and the United States from September 1 to 15, inclusive, will be 107.8 per cent.

The surcharge on international freight shipments will be seven per cent. The rate of surcharge on international passenger business will be based on eleven per cent exchange.

IRISH REPLY ON WAY TO PREMIER

Sent by Courier from Dublin Last Night.

Believed to Have Been Revised Because of the Outbreak in Belfast—More Shooting There.

Dublin, Sept. 1.—The reply of the Irish Republican cabinet to the latest communication of Premier Lloyd George on the British government's peace proposals was dispatched last evening to Lloyd George, who is in Scotland.

The publicity department of the Sinn Fein will await announcement of its receipt before making its contents known or issuing a statement concerning it.

The reply is being taken to Lloyd George by Robert C. Barton, member of the Irish Republican parliament, who has acted as courier for Sinn Fein. Other communications to the premier. It is reported here that the cabinet's reply was redrafted since the outbreak of the rioting in Belfast.

In Belfast. Belfast, Sept. 1.—Soldiers were rushed to the Grove street section of Belfast this morning when several shots were fired in that district. When the troops arrived, however, the gunmen had vanished. This was the first recurrence of the street fighting since yesterday, when six persons were killed and thirty were injured, many seriously.

To date the death toll totals sixteen. Troops are patrolling Springfield Road in the area which causes the most concern, as it is a part of the Falls division, where the fiercest rioting of the last year occurred.

The origin of the trouble here was an attack on Mackie's foundry workers, the police driving off the assailants with rifle fire.

One of the most serious outbreaks of yesterday occurred in the neighborhood of Brown Square, which is close to Old Lodge road. A little before the curfew hour a dwelling in Nelson street with petrol, but the police extinguished the flames. With the arrival of the curfew hour the shooting ceased and the city became quiet.

The carters and motormen issued an ultimatum to the authorities today declaring they would withdraw entirely from the streets unless afforded protection. The tram car drivers also are affected by the decision.

Two members of the drivers' union were killed in the rioting of the last few days and seven were wounded.

MATHEW WOLL

Vice-president of the American Federation of Labor and International president of the Photo-Engravers' Union, who was re-elected by acclamation at the 22nd annual convention held in Toronto. This was the first I. P. E. U. convention to be held in Canada.

NOT SURE THAT ALL ARE SAFE

Later despatches say it is not certain that the nine men who left the Canadian Importer have been saved.

FOREST FIRES NEAR HERE DANGEROUS

There is no improvement in the forest fire situation today at Spruce Lake and in back of South Bay. At the former place the fire is burning quite briskly with heavy smoke and is fanned by a strong southwest wind.

The fire near South Bay is around Ferguson Lake, and is also burning vigorously. Indications are that 1,000 cars of apples will be shipped to the United States.

More apple buyers are in the apple districts of Nova Scotia than ever before. Indications are that 1,000 cars of apples will be shipped to the United States.

STENOGRAPHER SAYS SHE WAS HUGGED BY MAN

Boston, Aug. 31.—Leo Lavine, a member of the stock brokerage firm of Lavine & Smith, was given a private hearing before Judge Murray in the lobby of the Municipal Court yesterday on the charge of having attacked Miss Edith Cartwright, a stenographer, on the afternoon of Aug. 11.

Miss Cartwright testified that at 2.30 on the afternoon of the alleged attack while she was alone in the office with Lavine he attempted to hug and kiss her. She screamed and ran out of the office. The next day she returned the keys of the office.

Special officer John Bresnahan testified that Lavine admitted to him that he put his arm around the girl's waist, but in court Lavine denied making any such statement, and denied in his entirety the charges against him. Judge Murray continued the case.

IN VIRGINIA

Washington, Sept. 1.—Preparatory to possible intervention by the federal government in the West Virginia mine disorders thirteen airplanes were ordered today by Secretary Weeks to proceed from Langley Field to coal fields of that state.

Logan, W. Va., Sept. 1.—Approaches of noon today found thousands of men still gathered around the Logan county line at Crooked Creek firing which started yesterday morning continued but reports from other border sections were that quiet prevailed.

There was no indication, however, that any of the armed bands had dispersed and border patrols of deputy sheriffs, state police and volunteer peace officers kept close watch.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

HAVE YOU HEARD "THE BELGIAN ROSE"

If Not, Don't Fail to Enjoy His Solo Offerings at Opera House Today—Other Good Acts—New Programme Tomorrow.

There are five highly entertaining vaudeville acts at the Opera House today, which include "The Belgian Rose," a tramp comedian, whose solo "Oh Pal, Why Don't You Answer Me" is proving a big hit, as is also his several comedy numbers.

Other features on the bill include Elva Lloyd in a musical and impersonation offering. Sydney and Caldwell, who both sing well and have a good line of chatter; the Roma Duo in a whirlwind Russian dancing offering; John S. Blundy and Sister in a big surprise acrobatic act. There is also the usual serial story and a special two-reel comedy.

Commencing with the matinee tomorrow (Friday) at 2.30, there will be a complete change of programme. Cooper and Lane (colored) in a comedy singing, talking and dancing offering.

The Musical Albinos in a snappy musical offering that will surely please. Marion Kay, character comedian, songs and stories.

Wesley and Young in a comedy skit. Wise and Wiser will appear in a comedy novelty.

Included on the programme will be another chapter in the serial story, "Purple Riders," Mutt & Jeff comedy cartoon and a beautiful scenic reel.

EAST LYNNE TOMORROW AT THE IMPERIAL

Imperial Theatre announces for its week-end programme, tomorrow and Saturday a modernized version of the world famous classic love story, "East Lynne." This is the screen adaptation of Mrs. Henry Wood's story that is mostly seen on the American stage and which has now been elaborated into a sumptuous seven-reel photoplay.

Millions have read "East Lynne" which has been translated into all civilized languages and for emotional power and intense love interest it still heads the list of fiction old or new. The Imperial expects there will be a great rush of people to see "East Lynne" and during the two days engagement the hours for pre-arranged matinees will be as usual, and there will be no increase in the price of admission in spite of the fact that the picture is a notably high class and expensive one.

A RETURN ENGAGEMENT OF MICKEY TONIGHT

Theatre goes in this city will learn with pleasure that "Mickey," one of the most brilliant features ever released, has now been elaborated into a sumptuous seven-reel photoplay.

Millions have read "East Lynne" which has been translated into all civilized languages and for emotional power and intense love interest it still heads the list of fiction old or new. The Imperial expects there will be a great rush of people to see "East Lynne" and during the two days engagement the hours for pre-arranged matinees will be as usual, and there will be no increase in the price of admission in spite of the fact that the picture is a notably high class and expensive one.

GREAT PROSPERITY FOR APPLE BELT

(Canadian Press Despatch.) Halifax, Aug. 31.—Over 2,000,000 barrels of apples, probably the greatest yield in its history, will come from the Annapolis Valley this year, F. J. G. Comeau, freight traffic manager of the Dominion Atlantic Railway, said today.

The great yield, together with the backward prospects in many other sections of the continent, stated Mr. Comeau, have resulted in inquiries reaching the Valley every day from all parts of the Dominion and nearly every state of the United States.

More apple buyers are in the apple districts of Nova Scotia than ever before. Indications are that 1,000 cars of apples will be shipped to the United States.

STENOGRAPHER SAYS SHE WAS HUGGED BY MAN

Boston, Aug. 31.—Leo Lavine, a member of the stock brokerage firm of Lavine & Smith, was given a private hearing before Judge Murray in the lobby of the Municipal Court yesterday on the charge of having attacked Miss Edith Cartwright, a stenographer, on the afternoon of Aug. 11.

POWER CO. VS. 'BUS CO.

In the city court this morning proceedings were instituted by the N. B. Power Company against the Union Bus Company for damages alleged to have been done to one of their cars. Ten dollars is the amount mentioned in the suit. J. A. Barry represented the Union Bus Company, and C. J. Mellidy the Power Company. The case was postponed until next Thursday morning. A feature of the proceedings was an application of J. A. Barry for a jury, this being the first case of a jury being called in the city court for more than three years.

Fires in Cape Breton. Sydney, N. S., Aug. 31.—Forest fires have again attained dangerous proportions throughout Cape Breton.

A monster demonstration in favor of the maintenance of the German Republic was carried out yesterday peacefully in Berlin.

Definite announcement as to curtailment of service will be made later.

**NEW CRIME DETECTORS.**  
French Scientist Uses Poroscopy and Graphometry to Catch Criminals.  
Paris, Sept. 1.—Poroscopy and graphometry are two new "sciences" intended to make the way of the transgressor harder than this. Poroscopy is the science of measuring the pores of the body. Graphometry is the science of form and relative proportion of letters in handwriting.

Dr. Edmond Locard, head of the Lyons police laboratory of identification, has elaborated these new methods of crime detection to a point where the results have been accepted in the Lyons court and are said to have been proved effective.

In poroscopy Dr. Locard holds the number, form and position of body pores remain the same throughout life. The impression of the pores, in Dr. Locard's system, is colored by chemical vapors or very fine powders so that they may be photographed under a microscope.

Dr. Locard tells of several successful prosecutions supported by his new sciences. In one case a burglar wore gloves, but left an impression of a small surface of forearm. That trace convicted him. Another burglar, perspiring freely, left the impression of pure surfaces through his gloves—and went to jail.

Graphometry, as termed by Dr. Locard, consists primarily in the locating that handwriting shows always a certain relation in size between letters and unmistakable characteristics in form, particularly of loops. In addition to these principles, Dr. Locard utilizes generally accepted methods of detecting forgeries.

MAY CLOSE MANY SMALL HOTELS IN BRITISH COLUMBIA

Proprietors Say They are Operating Without Profit. Vancouver, Sept. 1.—More than 1,000 petitions are being circulated throughout the province asking the government to permit the sale of beer by the glass in duly licensed hotels. Thousands of supporters of a moderately wet regime are said to have signed the documents in the first few days, and there is no doubt that an imposing array of signatures will be brought to the attention of the cabinet ministers when a descent in force is made on the authorities in Victoria.

The hotelmen say that there is an insistent demand for beer sales over the bar, and they propose crystallizing public sentiment in such a shape that it can hardly be ignored by the cabinet. To provide the machinery for this, the British Columbia Tourist Hotel Protective Association has just been incorporated under the aegis of the Vancouver Hotels' Association which is a strictly local organization.

Proprietors of country inns say they are in bad way financially, and that the only chance for their meaning in business is to have the privilege of selling beer openly over the bar. It is authoritatively stated that seventy-one country hotels will close their doors within six weeks unless the beer restriction is lifted.

Investment in British Columbia hotels is estimated at around \$15,000,000, and there is no question that this class of hotels is depressed sadly since prohibition was introduced, though moderation has made it look a little more tempting. The hotel men are convinced that the drought in this province is for ever past, and that it is only a question of time until the bar comes back, possibly in a more or less innocuous form. So confident are they that they are again losing their purse strings for propaganda purposes, after a long period during which the pockets of all directly interested in "the trade" were apparently lined with fish hooks. Preliminary

to leading a big delegation to Victoria it is proposed to interest the auto clubs, tourist associations, boards of trade, labor bodies and Rotarians, Kiwanis, Gyro and like organizations in the "beer by the glass" movement.

### TRADE COMPARISONS.

In attempting to ascertain the condition of trade there has been a tendency to use war prices as a measure of comparison. The New York Journal of Commerce points out that this is a wrong thing to do and that if the present standard is taken it will be found that the present state of business, both domestic and foreign, is large.

Both exports and imports, measured in quantities, are above their true pre-war level, and taking them together they are far above the old base. We speak of them today as having fallen off, simply because prices have fallen. But there is a demand for shipment to foreign buyers of as much food and materials as well as of about as many manufactured and semi-manufactured goods as before the war. It has always been a mistake to accept the war level as a basis of comparison, and this mistake is more obvious because it is plainer and plainer that we are not likely to get back to the war level or anything like it—indeed, ought not to do so.

It is probably true that complaints about trade conditions are due not so much to diminished turnovers as to losses caused by declining prices. As one reviewer says, "stocks of all commodities in hand a year ago have had to be written down in value, and in the report of manufacturers and wholesalers goods have been sold at a loss. The writing down of prices has been slower with retailers, but no class of traders has escaped loss on stocks held when the price recession began. The point is that the volume of business has not diminished to anything like the same extent as the value."

So far as the trade of Canada is concerned, it is pointed out that in July exports from the United States fell off \$200,000,000 from the figure for the corresponding month last year. This amounted to about fifty per cent. However, more than a dozen principal commodities the quantity shipped was actually greater than a year ago. United States statistics show that for the year ending June 30, 1921, the import of hides and skins fell off 72 per cent in value and 56 per cent in quantity; wool fell off 68 per cent in value and 35 per cent in quantity; coffee 43 per cent, and four per cent; raw rubber 58 per cent, and 38 per cent; crude rubber 58 per cent, and 44 per cent. In the case of foodstuffs the volume has kept up well, but the value has been much lower. "All depends," says one observer of business conditions, "on how trade is measured. If the measure is price then a heavy shrinkage has occurred and large losses have befallen both producers and distributors; while if the measure is quantity, the contraction has not been so serious."

Business losses, in other words, has been due more to falling prices than to diminished sales. "Quantity movement is still much in excess of any pre-war year, and when prices all round have been adjusted to the lower level several basic commodities have already reached, trade will again become profitable even though the volume is not enlarged."

Sheidar Sands (provided by the Iceland authorities). Mostly they contain biscuits, clothes, matches and cooking utensils.

During the last fifteen years much has been done to improve the living conditions of the men who go down to the sea in ships, and it is gratifying to learn that steps already have been taken along the lines suggested by the author of the article in the Chronicle. It is reasonable to suppose that, now that a start has been made, a great deal more will be accomplished in the same direction during the next few years.

A cabled summary of a speech delivered yesterday in Cape Town, South Africa, by General Smuts, commands attention today. Outstanding sentences are those in which he predicts settlement of the Irish trouble by home rule arrangement; sets forth the status of the British Empire as "the only stabilizing influence in world affairs"; and speaks of the part played by the Dominions in averting a disastrous conflict over the Silesian difficulty. Reference to the naval rivalry of the U. S. and Japan, "who are launching new problems on the world," shows the need of the forthcoming disarmament conference in Washington.

A general election in Canada in three months? That is the word of the Montreal Gazette's Ottawa correspondent, and Hon. Mr. Meighen is expected to make good the newspaper's prediction in his speech tonight. An interesting construction is a statement of cabinet members of the government to go to the senate or governorships or some such haven. The looks like a general move to get under cover ere the storm breaks.

### THE DAIL EIREANN; ORIGIN AND MEANING OF IRISH GATHERING

When Applied to Ireland the Correct Form of Name is "Eire" and Not "Erin."

Ireland in ancient times was known by several names: Banba, Fodhla (pronounced Fola), Eire and Inisfall. The name by which Ireland is most generally known is that of Eire.

The country was called Eire because one of the famous queens of the Tuathas-Danann bore the name. When applied to Ireland, Eire is the proper designation, although it is commonly called Erin. Erin, however is not the correct form because it is the genitive case of the noun Eire, so to be strictly correct the name should be always called Eire, according to Michael J. Jordan, of Boston, who is an authority on the subject.

Original Form of "Erin"

Usage, however, has for many centuries sanctioned the designation Erin (Eireann). It will be interesting to scholars of Irish literature to note that we find authority for this grammatical distinction in the Book of Ballymore. This is a large manuscript written about the year 1300. In it we find this reference: "Who was the first who discovered Erin?" "Erin who died in the genitive case, and is the original form of the word as we now pronounce it, Eire."

In ancient Ireland the principal assemblies were known as Enech, Tocmach and Dal. Enech is the word which designates the Fair. The three-fold purpose of the Fair was, first, the recitation of laws, etc.; second, the exhibition of sports; third, buying and selling. The ancient fairs were organized assemblies regulated by strict laws, a breach of some being punishable by death.

### IT'S AFTER A VACATION THAT THE REST IS NEEDED

Parson—Are you prepared for the hereafter?  
Optimistic One—Sure! If I go to heaven—fine! If I go to the other place—I'll have married five years.

**A New Record Set.**  
"Some time ago you called me the worst scoundrel you ever met. Will you take back those words now?"  
"Surely I'll do that. Since then I've found one who is much worse than you."

**Don't Call Me Names.**  
"A tall, strong man walked into a shop. 'I want a set of lady's fans,' he said. 'What kind?' asked the male assistant. 'That brown set in the window will do if it's not too dear,' replied the tall, strong man. 'Oh, you mean skunk!' said the assistant. The poor assistant is still in hospital."

**The Appearance of Evil.**  
"Sister Henderson," said the deacon, "you should avoid even the appearance of evil."  
"Why, deacon, what do you mean?"  
"On your sideboard you have several cut glass decanters, each half filled with what appears to be ardent spirits."

"Why, deacon," said the hostess, "it isn't anything of the kind. The bottles I just filled half way with some good stout and furniture polish just for appearance."

"That's why I'm cautioning you, sister," replied the deacon. "Feeling a trifle weak and faint, I helped myself to a dose from the big bottle in the middle."

**Optical Stunts.**  
"I noticed him throwing glances at her."  
"And I saw her when she caught his eye."

One of the stories told by a clergyman to him, just before he was going to the pulpit, that she must see him.

He promised to see her at the close of the sermon.

When he joined her, after the rest of the people had left the church, she confessed that she was worried over a matter of conscience.

"Vanity, I'm afraid, my child," he entreated, "is my besetting sin."

"Who was the first who discovered Erin?" "Erin who died in the genitive case, and is the original form of the word as we now pronounce it, Eire."

"Every morning, vicar," she continued, "I yield to the temptation of greatness in the mirror and thinking how pretty I am."

The clergyman gazed at her fully for a minute and then replied:

"If that is all, my daughter, go in peace. For to make a mistake is no sin."

**BEAUTY WHILE YOU WAIT.**  
(London Newspaper)

What kind of a face shall I have this season? This question suggests itself to many modern women, for the beauty culture craze is increasing. A woman who has the necessary fee of about fifty guineas and courage in proportion to undergo the operation can do so with a minimum of pain.

The beauty specialist has come to London from Paris and New York and is waiting to do her face operations.

Old faces can be exchanged for new by plastic surgery. Sometimes, paraffin is injected into a hollow cheek, or used to build a nose, so that a middle-aged face takes the roundness of seventeen, but this method is not permanent and needs constant and expensive renewal.

Many women who want reconstructed faces visit an aesthetic surgeon, who undertakes certain structural alterations within an hour. Women of fifty and sixty years are promised that they will look twenty-five years younger after the operation, with the guarantee that the alteration will be permanent.

"I first tell a client to look in a mirror and pull her skin lightly down, which will show how she ought to look," said an aesthetic surgeon. "Then I raise her hair and inject a local anesthetic that is absolutely harmless. I remove the pain during the operation. I remove the necessary amount of skin by special instruments, and stretch up the place where I have cut, so that the join is not visible."

"The majority of my clients are between the ages of forty and thirty. I can alter noses, eyebrows and cheeks, but I never undertake an alteration that I do not think would become a woman's face."

"Plastic facial operations were performed on women two thousand years ago, and later, Aulus Cornelius Celsus, a Roman physician, describes an attempt to change features into more pleasing ones."

**MARRIED YESTERDAY.**  
In Centenary Methodist church, yesterday afternoon, Miss Ella Tait, daughter of Mrs. S. Tait, 252 Princess Street, was united in marriage to Harry Douglas Booth of Springfield, Kings county, by Rev. R. G. Fulton. They left last evening on a honeymoon trip to Prince Edward Island, and on their return will reside in Springfield.

### DOCTORS' SECRETS NOT TO BE TOLD

English Medical Men Protest Against Being Compelled to Answer.

London, Aug. 13.—(By mail)—"Should a doctor tell?" was the important subject debated at the conference of the British Medical Association a few days ago.

The question was discussed with considerable warmth, and the opinion was overwhelmingly that the doctors should not disclose, without the patient's consent, information obtained in the exercise of professional duties.

Montreal, Sept. 1.—Fuel problems, as applied to Canada, made up the greater part of the concluding session of the technical meetings of the Society of chemical industry at McGill University yesterday.

From papers and discussions it was made apparent that, through a combination of chemistry and industry, it might possibly occur in the future that both briquetted lignite, as found in western Canada, and peat, as found in Canada near Ottawa and in the province of Quebec, might prove of value in replacing the United States coal commercial fuel.

**A STORY OF CARUSO.**  
Caruso's vocal range was so great that he used to assume himself and his auditors by singing bits of music written for baritone and even for basses. His singing of a bass solo in "La Boheme" when the basso suddenly lost his voice, was widely chronicled, but on some occasions he indulged in similar diversions so successfully that critics failed to notice the departures from the score. When he sang with a baritone who possessed an unusually high voice Caruso sometimes traded parts in ensemble numbers and these who were applauding the fine high notes of "Caruso" were really cheering the other artist.

### GIRL SWIMMER TOWS A CANOE ACROSS SOUND

Marion Goebel Pulls Craft Containing Three Persons on Round Trip.

(New York Times)

Miss Marion Goebel, fifteen-year-old Washington Irving High School student, added to her aquatic exploits yesterday when she swam across Long Island Sound and returned, towing a canoe containing three occupants and weighing in the neighborhood of 620 pounds.

The little mermaid dove into the water at Higge's Beach, opposite College Point, L. I., at 3.15 and completed her swim to Point View, College Point, and return, in 1 hour, 38 minutes. The girl swimmer was accompanied on her journey by a number of water craft, including a boat in which her father, L. Goebel, coach of the Morningside A. C. girl swimmers, guided her.

Miss Goebel wore a suspender-like harness over her back and around her waist, to which was tied the canoe. The swimmer used the crawl and, at short intervals, used the breast stroke, a style, swam backstroke. Except for a short space, when she halted to swallow a drink of coffee, Miss Goebel did not interrupt her swim until her journey was completed.

Last year Miss Goebel swam three miles with her hands and feet shackled, and walked for a distance of eighteen feet in shallow water under the same handicap. A short time ago the Washington Irving student swam a distance of six miles in the Sound with her hands tied behind her back.

The association will meet next year at New London, Conn.

An interesting discussion upon the topic "Training Shorthand Reporters," opened by Clyde H. Marshall, New York, directed attention to the acute shortage of competent reporters. The association appointed a committee to act in co-operation with the Shorthand Association of New York State and the American Association in appealing to the Rockefeller Foundation to endow a chair of shorthand in the university for training shorthand reporters.

The necessity of defining a clear line of demarcation between office stenography and the profession of verbatim reporting was emphasized.

### MAKING MONEY WITH CHINESE

English Magistrate Says a Capitalist Boss is Handling Imports.

London, Sept. 1.—(Canadian Press)—That a capitalist boss was behind the importation of Chinese into Canada and the United Kingdom was the opinion expressed by a magistrate at Pontypridd, Wales, yesterday, when three Chinese, charged with landing without permits from the immigration office at Liverpool, were ordered to be detained with a view to arranging for their deportation.

The magistrate declared that a great amount of money was being given to secure the services of these Chinese on the Pacific coast and along the coast of England. The court, he said, wanted to get at this boss. A huge business was being done in this way in British Columbia and certain Chinese were making fortunes very rapidly by getting young Chinese into England.

It is the aim of the college to send its students into the world as well as not liabilities.—Manila Times.

PAINFUL DIARRHOEA

CRAMPS IN STOMACH

Mr. Fred Funston, Craik, Sask., writes: "A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work."

Several of my neighbors were taken the same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use "Dr. Fowler's," when they soon experienced a great change.

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 76 years and many cheap imitations are being offered to the public.

EASY TO BUY DRUGS IN LONDON

Methods Disclosed by Ex-Detective Who Resigned as a Protest Against Inadequacy of Law.

London, July 12—(By Mail)—The use of drugs in London is reaching appalling dimensions, according to The London Daily Express. "Do the authorities realize how tight is the hold of the 'dope fiends' on the city?" it asks.

An ex-detective of the Criminal Investigation Department, whose resignation from that body was largely due to the existing state of affairs do not come anywhere near the root of the evil. They merely have the effect of temporarily removing from active operations a few agents who can only too easily be replaced.

"Supplies of the insidious drug are obtained mostly from abroad, generally being stolen by agents of the central organization. I recollect one case in which I was concerned, in association with the French authorities, when we prevented in the nick of time, an extraordinarily well planned attempt to steal 125,000 worth of cocaine.

"The astuteness of the criminals is shown particularly in the way in which they smuggle the drug from the Continent into London. Once here the retailing is carried on in a way which, to the mind of a detective versed in the traditions of American or Continental police work, must appear absolutely brazen.

"There are cafes in the West End where you can be perfectly certain of obtaining cocaine, at a price, with little fear of detection, when we prevented in the nick of time, an extraordinarily well planned attempt to steal 125,000 worth of cocaine.

"I have never in all my experience as a C. I. D. man seen anything, especially in the cases of young girls, to compare with the appalling state of affairs now existing in London."

LOCAL NEWS

Captain C. Bisset, who was in command of the steamer Canadian Importer, which was lost in the Pacific Ocean recently, was well known in this port, having taken over the command of the ill-fated vessel here last winter.

William Kirkpatrick, driver of one of the vans of the Rothery Consolidated school, suffered a severe cut on the knee yesterday when another motor came up behind his van and in some way turned it over on its side on the roadway. Mr. Kirkpatrick was taken to the General Public Hospital.

William Scaplin, aged 11 years, son of George Scaplin, 43 Carmarthen street, while playing with two companions in a barn at Pleasant Point yesterday fell from a ladder on which he was swinging and suffered a fracture of the skull. The boy was taken by his brother-in-law, Charles Flewelling, to a city physician who had him taken to the hospital.

At a meeting of the congregation of Charlotte street Baptist church last evening, the resignation of the pastor, Rev. J. H. Jenner, was reluctantly accepted. Deacon D. C. Clark was in the chair. A resolution was unanimously passed deeply regretting the action of Jenner in resigning. A committee was appointed to consider the matter of a successor. The resignation of Mr. Jenner will become effective on Oct. 1.

NEW FORM OF BANDITRY; JUST FINE A MOTORIST

London, Ont., Sept. 1.—Secretary C. E. Bernard of the London Motor Club was notified yesterday by A. Feldman of New York City that while he was motoring on the Sarnia road, near that place, he was stopped by two men, who produced what Mr. Feldman thought to be constables' badges, and told him that he had broken the speed laws. The men fined him \$15, and Mr. Feldman, who is not versed in the law on this side of the line, paid over the money. The police have been notified of this new species of banditry, and every attempt is to be made to run down the guilty parties.

CROWN CLOSES CASE IN MURDER TRIAL

Preliminary Hearing of Millett S. Stewart, Charged With Killing James Ross, Will be Continued Next Tuesday.

The preliminary hearing in the case of Millett S. Stewart, charged with the murder of James Ross, was continued in the police court at Newcastle yesterday. Matthew Le Tulippe, cross-examined, said that he did not see a rifle in Stewart's hands. Joseph Savoy said that Stewart told him that Ross burned his shanty, but that Stewart had made no threats against Ross at that time. Peter Coughlin, chief of police of Chatham, said that Coroner Benson's evidence as to the position and condition of the body was correct. The witness went to Stewart's house and obtained the guns from his son. The witness identified the rifle and the writing on two envelopes, which contained six and four shells. This closed the evidence for the crown and court adjourned until 10 o'clock on Tuesday morning.

MEET FOR REUNION ARRANGED ON EVE OF SOMME BATTLE

Four Young Soldiers Gather This Afternoon in Winnipeg Hotel.

Belleville, Ont., Sept. 1.—Five years ago, as four young soldiers were advancing to enter battle on the Somme, they made a pact that if alive they would meet at four o'clock on the afternoon of September 1, 1921, in the Alexandra Hotel, in Winnipeg. One of them was "Ted" Yeomans of this city, and he has gone to keep the appointment. Another is on the way from Edmonton, and another from British Columbia, and the fourth from California. Lieut. Yeomans lost track of his friends for a time while a prisoner in Germany, but all got into touch with each other by correspondence after the close of the war.

SPEND LESS ON THIS CAMPAIGN

Estimate of \$10,000 to \$15,000 for Prohibition Plebiscite Expenses.

Fredericton, N. B., Sept. 1.—It was estimated today that the New Brunswick Temperance Alliance campaign to place this province in the "dry" territory by means of the plebiscite on October will cost between \$10,000 and \$15,000. The amount is less than campaigns on behalf of the prohibition cause have cost in the past, but it is explained that, in line with the trend of general business, there will be a curtailment.

OLDEST POILU DEAD

Paris, Sept. 1.—"The oldest poilu" of the great war, Monsieur Suragne, Mayor of Auxerre, in Burgundy, has just died.

He was 75 years old when the mobilization call came early in August of 1914. Far beyond the military age, the rugged old mayor signed up as a volunteer, and by dint of bluffing, cajoling and threatening the army doctors, finally got himself accepted for the service.

And he didn't have any rear-sinecure, either. From 1914 until early 1919 he did the work of a private, then of a corporal and sergeant, in a fighting unit, and went over the top with all the rest of the bright young men. He had a great civic reception in 1919 at Auxerre, when covered with mud and glory, he marched into his neglected town hall, displaying his Croix de Guerre, Medaille Militaire, and Legion of Honor. Lettishly the old "dean of the poilus," as the French refer to him, removed to a more comfortable home, but the war was more detrimental to his robust old frame than the snow of Douaumont or the marshes of St. Gond, and at the super-Clemenceauian age of 82 the grand old man has finally been gathered to his lost comrades of the war.

N. H. S. LADIES' PROGRAMME.

The executive of the Ladies' Association of the Natural History Society met yesterday afternoon in the society's rooms in Union street to make the final arrangements for the annual meeting and for the fall programme of special lectures. FIELD MARSHAL VON BUELOW DEAD

(Canadian Press Despatch.) Berlin, Aug. 31.—Field Marshal General von Buelow, who was commander-in-chief of the German second army during the war, died here today. He was considered one of the ablest of German military directors.

F. W. Wallace, Sussex, editor of the Canadian Funeral Director, was in the city yesterday conferring with P. J. Fitzpatrick, president, regarding the annual convention of the N. B. Funeral Directors Association, to be held in St. John in September in the Seaman's Institute. A large number of funeral directors from all over the province are expected to attend. Supply houses of the maritime provinces will have an exhibit at the convention.

The Little Girl who stands on one foot

WATCH your child carefully for signs of coming foot trouble. Notice if she stands on one foot to ease the other one or complains that her little legs are "tired."

HURLBUT CUSHION-SOLE SHOES for Children. Young feet need room to develop if they are to grow into graceful perfect feet. They must not be forced into narrow shoes that cramp and crowd the toes and press upon the tender joints. There must be room to grow for every toe. HURLBUT cushion-sole SHOES are made on sound orthopedic lines to allow the foot to conform to natural shape. They are soft and flexible yet strong enough to be economical in wear. Most foot deformities of adult age are started through incorrect shoes worn in childhood. Save your child pain now and in after life by fitting HURLBUT cushion-sole SHOES. Write for booklet on Hurlbut "Re-buil" service and we will tell you the name of Hurlbut dealer nearest to you. MADE IN CANADA BY THE HURLBUT CO. LIMITED, PRESTON, ONT.

TENDERS TENDERS addressed to the under-signed at Ottawa, and marked on the outside of the envelope "Tender for Coal Barge No. 2" will be received by the undersigned up to noon of the SEPTEMBER-FOURTH DAY OF SEPTEMBER, 1921, for coal barge No. 2 now laid up at Halifax, N. S. The following is a short description of the barge referred to, viz: A wooden hull 125 ft. long over all, 25 ft. breadth, 11 ft. depth of hold. Built in 1900, and has a carrying capacity of 400 tons. The barge will be sold as it now stands. Arrangements can be made for examining the barge by applying to the Officer in Charge of the Halifax Dock-yard. All offers must be for immediate payment in cash on acceptance of the offer. Each tender must be accompanied by an accepted deposit cheque equal to ten per cent (10 p.c.) of the amount of the offer as a guarantee that the successful tenderer will pay over the tender price immediately on the acceptance of the offer. The highest or any offer not necessarily accepted. ALEX. JOHNSTON, Deputy Minister of Marine and Fisheries, Department of Marine and Fisheries, Ottawa, Canada, 24th August, 1921.

**RED SNOW APPEARS.**

Attracts Attention in Sections of National Park.

Red Snow, which has made its appearance in many sections of the Rocky Mountain National Park this summer, has attracted wide attention from the thousands of tourists who have visited this national playground. The red snow is seen to the best advantage during the motor drive over the new Fall River Road which crosses the Continental Divide reaching an elevation of more than 11,700 feet above sea level. Many are the explanations offered by tourists, and those who have seen the snow at about twilight stoutly maintain its pinkish color is due merely to the reflection of the setting sun.

Knowledge of the real cause adds interest to this curious phenomenon. The great masses of color which appear in the large snow fields in the higher elevations result from countless millions of tiny organisms, which have the power of movement, growth and reproduction—microscopic plants, Protococcus nivalis. Like many other low forms of life, this one has characteristics of both the animal and vegetable kingdoms, and belongs, strictly speaking, to neither. A close inspection discloses that the color is concentrated in the hollows of the furrowed surface of the snow, and reaches its maximum density about one-quarter inch below the surface. A slight scraping will produce in some places streaks of almost blood red. On the tongue its flavor suggests watermelon. A handful of the snow, taken up and allowed to melt away, will leave a powdery red stain.

Essentially an Arctic species, Protococcus nivalis has introduced itself into the United States within the last decade. It is now found in Glacier and Mount Rainer National Parks. So far as

known, it has not been reported in other sections of Colorado. It is somewhat of a mystery how the spore is carried over such great distances. Possibly it is borne on the Chinook winds.

**REDUCTION TO A MINIMUM.**

It Takes 250 Tons of Carnotite to Yield One Gram of Radium.

In Paradox Valley, California, there are the Undark carnotite mines. Here is dug from the earth the ore from which radium is extracted. It is loaded on wagons drawn by six horse teams and carted fifty-eight miles to the nearest railway. This takes three and a half days, and it is then heaped into freight cars and shipped to Orange, N. J. It takes eight cars to transport 250 tons, and it takes the entire 250 tons of radium, and that's only a thimbleful. Hundreds of reduction processes are necessary before the radium is finally produced. And then this gram of radium, painfully separated from its native neighbors, is combined with 20,000 grams of phosphoric zinc sulfide by a process, and it is not until then that the radium luminous material is ready for the market.

The value of a gram of radium at the current price is about \$120,000. It takes twenty-eight grams to make an ounce, and only about one ounce is produced in the world every year. The total supply of pure radium in the world today has been estimated at only five ounces—in cash, about \$46,800,000.

"Wall," said the London club optimist, "I admit things are pretty bad at the moment, but I feel sure we shall pull through in time, and we have vast resources in reserve, for the British Empire is one on which the sun never sets."

"Gratias," replied the club pessimist, "but you must add that it is also one in which the tax collector never goes to bed."

TO DISCUSS BONUS**

Convention in Montreal — Entertainment at Frontenac Brewery One Feature.

Montreal, Sept. 1.—The reduction of the war time bonus by the government will be most important matter up for discussion at the annual convention of the Federated Association of Letter Carriers which opened here today and will continue for three days. Two years ago married men received a bonus of \$42, while single men received \$150. Then last year the bonus was reduced to \$315 and \$112.50.

Mayor Martin welcomed the delegates. President C. M. McDonald replied. On Friday afternoon the delegates will be entertained at the Frontenac Brewery, when Senator Beaubien will welcome them and they will be shown around the buildings.

The fourth session will be on Saturday morning, while the afternoon will be a field day, when a programme of sports will bring the convention to a close.

**AT ANNAPOLIS**

Big Evening Meeting Followed Unveiling of Tablets Yesterday.

At Annapolis Royal yesterday at the centenary celebration Hon. Justice William Chisholm read letters of congratulation from the Lord Chancellor of Great Britain and Chief Justice William Howard Taft of the United States. Hon. F. B. McCurdy, minister of public works, was present to receive the tablets on behalf of the federal government.

Justice William Chisholm, president of the Historical Society on Nova Scotia,

presided and Mayor Hardwick of Annapolis Royal welcomed the visitors. Chief Justice Harris spoke on behalf of the bench of Nova Scotia and W. J. O'Hearn, president of the Bar Association of Nova Scotia spoke briefly before the tablet was unveiled by Lieutenant-Governor McCallum Grant. F. C. Whitman on behalf of the Annapolis Historical Society also spoke briefly. On receiving the tablets on behalf of the federal government Hon. F. B. McCurdy dwelt on the historical prominence of the province and on its wealth of traditions. Premier Murray and Sir James Aikens delivered eloquent addresses.

The romantic tale of Nova Scotia, from the times of redskin domination to the present, occupied the attention of an audience that filled the Bijou Theatre last evening.

A paper on the "Royal Charter of Sir William Alexander," written by Col. Alexander Fraser and read in his absence by Douglas MacGillivray of Halifax, a paper on "The Relations of the British Dominion of Virginia with the Dominion of Canada" written by Dr. Murray Clark, N. C. of Toronto, and read by Angus MacMurphy of Toronto, and a paper on the "Courts and the Commonwealth" read by Dr. Charles Morse of Ottawa, were followed with interest.

The purpose of the paper read by Dr. Morse was to point out, he said, that there is a complete relation between the English system of judicature as established in the early days of English constitutional history and the juricature of the British colonies. There is no effectual break in the chain of constitutional ideas. Rather than finding a purely antiquarian interest in the establishment of a British court of common law at Fort Anne in 1721, he chose to discover in the event proof of the persistence of racial mentality. There were two things he wished to place before his audience. First, that a system of government inherited from the nation builders of the past shall not be made the sport of faddists and joy riders to Utopia, and second, that Canada must not be backward in taking up the duty of deepening the sense of kinship between the nations which share the new world heritage of English order and liberty.

**SLASHES THROAT  
OF POLICE CHIEF**

Indian Under Arrest at London Narrowly Misses Jugular Vein.

London, Ont., Sept. 1.—While assisting in the arrest of a couple of Indians who had grown belligerent at Springhill, Ont. last night, Chas. McConnell, Chief of the Military Police at Byron Sanatorium, was attacked by one of the men, Thomas Keschev, and narrowly escaped death when the redskin slashed at his throat with a razor, the weapon missing his windpipe by a fraction of an inch. Keschev and another Indian named Herbert Cady were acting in a disorderly manner when Park Constable Dawson attempted to place them under arrest. McConnell went to his assistance, and when the Indians were being placed in an auto which was to convey them to London, Keschev suddenly drew the razor, and almost scored a murder. As it was, McConnell's neck and collar were cut clean through, and he suffered a wound in the neck, very close to the jugular vein. At Byron Sanatorium, where he was rushed, it required eight stitches to close the gash, but it is stated that he will recover. Both Indians are now in London jail.

**INDIAN POLICY IS  
TO REMAIN OPEN**

(Canadian Press Despatch.)

London, Aug. 31.—Reuter's has been officially informed that there is no foundation for the report that the secretary of state for the colonies has made important decisions affecting the enfranchisement and other questions connected with the policy regarding the natives of India who are now inhabitants of the Kenya colony of Eastern Africa. It is now understood that the general question of Indian policy will remain open till Major-General Sir Edward Northey, the governor-general of the Kenya colony, has returned from Kenya.

The status of the Indians in Kenya colony, as well as that of their fellow-countrymen in British Columbia and other parts of the British dominions, was one of the thorniest problems discussed at the recent conference of premiers of the empire.

It has now reached a stage which seriously affects imperial politics.

**VACUUM SYSTEM  
FOR AIRCRAFT**

New Principle Revolutionized in Aerial Transport Discovers.

Paris, Sept. 1.—An absolutely new principle in aircraft construction, designed to revolutionize the whole matter of aerial transportation and making possible a trans-Atlantic flight in fourteen hours at a tenth of the present cost of steamship travel, has been discovered at Naples, Italy.

Practical construction has already begun there.

The principle of the new airliner has been invented by Alexandre Vaegean, an engineer. It consists of abolishing the use of helium gas and of substituting a partial vacuum based on rarified air, leaving enough within the balloon to assure a counter-pressure.

First experiments showed that a complete vacuum is impracticable owing to the enormous pressure of the outer atmosphere, against which it is impossible to build a sufficiently strong envelope.

Under a variable vacuum system the difficulty was overcome, according to the inventor.

What is considered the most important in the new discovery is that it will guarantee for the first time an absolutely fireproof ship of steel construction. This is due to the complete absence of inflammable hydrogen gases. There is also no need of a hangar, as the construction of the ship supplies its own protection wherever moored. The new ship will also take-off and land itself with no other aid than that of its own crew, thus doing away with the requirements of an expensive personnel.

There is practically no limit to its possible altitude, and a normal speed of 215 miles per hour is assured. A single motor of 739 horse-power is all that is required. The ship when completed will not resemble an ordinary dirigible. It will look more like a trans-Atlantic liner, surmounted by a cigar-shaped dome of steel.

The possibilities in time of war are keenly realized by European governments, who have commissions at Naples studying every detail of construction. The first trial flights will be made next year.

**PARAGUAY MECCA  
FOR MENNONITES**

Bill to Grant Many Concessions Before the Chamber of Deputies.

Asuncion, July 11.—(By mail.)—Paraguay will become the Mecca and home of Mennonites from the United States and other parts of the world, if a bill sent to the Chamber of Deputies by President Gondra becomes a law.

Delegates of the sect who arrived here some time ago from the United States have negotiated for the purchase of about 6,000 square miles of land in the great Paraguayan "Chaco" for purposes of colonization, conditional upon the Paraguayan government granting privileges which will permit them to conduct the colony in conformity with the tenets of their religion and their system of common administration of their properties, called "Waisenhurst."

The president says that the establishment of the colony would be a beginning of the solution of the problem of populating the republic and augmenting its productive capacity, there being vast stretches of uninhabited territory of great productive value. He accompanied his recommendations with a history of the Mennonites, reciting their qualities of industry, self-discipline and "collective virtue."

The delegates have notified the government that upon the approval of the measure more than 4,000 Mennonites in

**THEATRE MANAGERS AND THE STAGE HANDS**  
Ottawa, Sept. 1.—A temporary understanding has been reached between the theatre managers of the city and the stage employees. It had been announced that open shop would be declared after the expiration of the present agreement, which was ended yesterday. Steps had already been taken to operate under non-union conditions in some theatres but so far as the stage employees are concerned it has been agreed that they continue work pending a further discussion.

It was reported that the moving picture operators had also reached a similar understanding but representatives of the managers say that this is not so.

**GRAVITY** is simply a measure of weight. High gravity is not an indication of high quality. That's why the gravity test is not considered by those large buyers of gasoline who have given the subject the most careful thought and study.

Imperial Premier Gasoline is a straight-distilled, all-refinery product. Its high quality is uniform. Its chain of boiling points is complete and unbroken. It all goes into power and mileage.

Imperial Premier Gasoline is the universal choice of motorists because it gives "More Miles Per Gallon." If better gasoline could be made, Imperial Oil Limited would make it.

In Montreal. Montreal, Sept. 1.—Frank Barreau earned the popular decision on points over Phil Bloom of New York here last night in a ten round bout. Barreau weighed in at 151 pounds and Bloom at 160. Green and Christian, local colored lightweights, were chased from the ring by the referee when they made a burlesque of their encounter.

A FIASCO AT PHILADELPHIA. Philadelphia, Aug. 31.—Refusal of Willie Jackson's manager to accept a check as part payment for his \$5,000 guarantee to meet Johnny Dundee, of New York, in an eight-round bout here tonight resulted in the match being called off. The promoter offered Jackson's manager \$2,500 in cash and a check for the remainder. When the offer was declined the spectators, who had witnessed three preliminary bouts, were informed that money paid for tickets would be refunded in full. Benny Valgar, of New York, had the better of his bout with Charley White, Chicago. The fight was slow and uninteresting. Valgar weighed 135 1/2 and White 135 1/2 pounds. Billy Defoe, St. Paul, lightweight, defeated Gene Delmont, Memphis. Defoe had the better of the fight all the way and in the last round gave Delmont a severe beating. The bout between Jimmy Sullivan, New York, and Joe Jackson, Philadelphia, was stopped in the fifth round, the referee declaring the New Yorker was not trying to fight.

CANADIAN SOPRANO IN CHICAGO OPERA. Jeanne Dussault Has Been Engaged by Mary Garden. Chicago, Sept. 1.—Jeanne Dussault, a French-Canadian soprano, is among the new stars who have been engaged by Mary Garden for the forthcoming season of the Chicago Opera Company. Mlle. Dussault, as representative of the Dominion among Chicago's new songbirds, will find herself in company with representatives of almost every other nation on earth. George M. Spangler, assistant manager for Miss Garden, has just returned from Europe, where he and Mary combed six countries for talent. An announcement from the company's office here states that twenty-one new stars have been engaged and thirty-four of the former members of the company are to be retained. Among the other new stars will be Tino Pattera, the Dalmatian tenor, who Spangler predicts will be the reigning matinee idol, and Clara Dix, the sensation of Berlin and Vienna. The Metropolitan Company made an effort to get her, but she preferred to sing with Miss Garden's company. Others are: Cincinnati, Russian baritone; Nine Koschetz, Russian dramatic soprano; Edouard Langue, a Polish basso; Lydia Lipkowska, Russian coloratura soprano; Mary McCormick, a United States singer; Graziella Paret, Italian coloratura soprano; Jeanne Schneider, French soprano, and Joseph Schwartz, German baritone.

FOUR CHAMPIONS IN RING ON LABOR DAY

Wilson, Buff, Gans and McTigue on Programme Arranged by Tex Rickard. Four boxing champions will exhibit their assortment of books, jobs and crosses at Tex Rickard's arena in Jersey City Labor Day afternoon. The collection of pugilistic bric-a-brac which will be on display includes Johnny Wilson, world's middleweight champion; Johnny Buff, American flyweight titleholder; Mike McTigue, who holds the Irish and Canadian middleweight titles, and Panama Joe Gans, holder of the Rickard belt emblematic of the middleweight championship of the colored race. Wilson will engage in a return bout against Bryan Downey, Columbus mid-dieweight, who is claiming the Boston boxer's title on the strength of their recent bout in Cleveland. The contest will be for twelve rounds without an official decision. Promoter Rickard is confident, however, that the length of the bout will prove ample for one of the other of the principals to demagogue his superiority.

A FIASCO AT PHILADELPHIA

Philadelphia, Aug. 31.—Refusal of Willie Jackson's manager to accept a check as part payment for his \$5,000 guarantee to meet Johnny Dundee, of New York, in an eight-round bout here tonight resulted in the match being called off. The promoter offered Jackson's manager \$2,500 in cash and a check for the remainder. When the offer was declined the spectators, who had witnessed three preliminary bouts, were informed that money paid for tickets would be refunded in full. Benny Valgar, of New York, had the better of his bout with Charley White, Chicago. The fight was slow and uninteresting. Valgar weighed 135 1/2 and White 135 1/2 pounds. Billy Defoe, St. Paul, lightweight, defeated Gene Delmont, Memphis. Defoe had the better of the fight all the way and in the last round gave Delmont a severe beating. The bout between Jimmy Sullivan, New York, and Joe Jackson, Philadelphia, was stopped in the fifth round, the referee declaring the New Yorker was not trying to fight.

CANADIAN SOPRANO IN CHICAGO OPERA

Jeanne Dussault Has Been Engaged by Mary Garden. Chicago, Sept. 1.—Jeanne Dussault, a French-Canadian soprano, is among the new stars who have been engaged by Mary Garden for the forthcoming season of the Chicago Opera Company. Mlle. Dussault, as representative of the Dominion among Chicago's new songbirds, will find herself in company with representatives of almost every other nation on earth. George M. Spangler, assistant manager for Miss Garden, has just returned from Europe, where he and Mary combed six countries for talent. An announcement from the company's office here states that twenty-one new stars have been engaged and thirty-four of the former members of the company are to be retained. Among the other new stars will be Tino Pattera, the Dalmatian tenor, who Spangler predicts will be the reigning matinee idol, and Clara Dix, the sensation of Berlin and Vienna. The Metropolitan Company made an effort to get her, but she preferred to sing with Miss Garden's company. Others are: Cincinnati, Russian baritone; Nine Koschetz, Russian dramatic soprano; Edouard Langue, a Polish basso; Lydia Lipkowska, Russian coloratura soprano; Mary McCormick, a United States singer; Graziella Paret, Italian coloratura soprano; Jeanne Schneider, French soprano, and Joseph Schwartz, German baritone.

LIPTON IS WAITING FOR ANOTHER TRIAL

Likely to Build a New and a Faster Shamrock. New York, Sept. 1.—It will be several years before Sir Thomas Lipton gets another chance for America's Cup. Recent activities of the titled tea king in England indicate that he has not given up the ambition of his life to own the fastest yacht in the world, and that he may challenge the New York Yacht Club for another race next summer. It is a period when money is not just the looziest thing on the market, a million dollar yacht race is not the best thing to get back to normalcy, and for logical reasons the New York Yacht Club probably will discourage any attempt for another race next year, according to opinion prevalent here. Sir Thomas is said to be considering plans now for another addition to the Shamrock family of challengers. When he failed in his million-dollar venture to buy the fastest last summer and the cup, it was thought that he would be discouraged. But he is persistent. Two of his Shamrocks are now high and dry at Jacob's shipyard, City Island. They will remain there, however, it is believed, and a new Shamrock will be built and sailed over to compete in the next race. For the same reason that America's Cup race is not probable in 1922, it is logical to believe that King Albert's Cup race across the Atlantic will not be on the 1922 programme. Attempts to stage the race this summer from Sandy Hook to Ostend, received a polite and courteous frown from American yachtsmen, who took the stand that the race would cost too much money and the investment of such big sums in a pure sporting event would not tend to bring the country back to its feet.

CHARLIE CHAPLIN GOING TO ENGLAND

Moving Picture Star Eager to See His Native Land. Charlie Chaplin, motion-picture star, was recognized only by his friends who were awaiting his arrival in the Grand Central Station, New York the other morning. His mustache was missing, and he entered as an ordinary traveler. With him were Tom Harrington, his secretary, and Carl Robinson, his press agent. The party went to the Ritz-Carlton, where Douglas Fairbanks and Mary Pickford are staying. England will leave on the Olympic for England. Chaplin was born in that country, and is eager to get back after an absence of nine years. He expects to remain away several months, and will not resume his motion-picture work in California until he is thoroughly rested. Charlie's greatest worry seems to be that his hair is turning gray, and he gives photographers who swarmed about him to "touch up" the pictures in order to blot out the silver hairs.

KEEN INTEREST IN THIS GAME

Auburn vs. South Boston to Start as Soon After 6 p. m. as Possible to Ensure Nine Innings. The baseball game between the snappy team from South Boston and the Auburns of Cambridge, Mass., which is to take place tomorrow evening on St. Peter's diamond is conceded by local fans to be one of the banner attractions of the season. Much interest is centered in this event as many fans are anxious to determine which is the stronger team and also due to the fact that both have met St. Peter's, champions of the city, and have divided honors. Both teams will have their star pitchers in action and as the losing nine will have to pay their own expenses. The game will be started as soon after 6 o'clock as possible in order that nine innings may be played. Both teams are expected to reach the city tomorrow in time to rest for the big event. It is worthy of note that yesterday the South Boston boys won their game in Moncton, while the Auburn nine took a double header from the Wanderers in Halifax.

P. E. I. TO SEND 17 ATHLETES

Names of Some More Entered for the Maritime Championships Here. A. W. Covey, president of the Maritime Branch of the Amateur Athletic Association of Canada, received a letter yesterday from Dr. I. J. ALBINO REPTILE AT THE ZOO REFUSES TO EAT IN PUBLIC

(New York Times). The albino rattlesnake at the New York Zoological Gardens, captured by Curator Raymond L. Ditmars in June on Mt. Everett in the Berkshires near Sheffield, Mass., is proving one of the most temperamental of any of the occupants of the Reptile House. Several weeks ago when the white rattler was placed on exhibition in a glass case it refused to eat. After a fast of several days during which the attendants tried everything but forcible feeding to induce the snake to eat, Mr. Ditmars decided to try seclusion and semi-darkness. The snake was placed on a shelf in the darkest corner of the office away from curious eyes and noise. At once it began to take an interest in life and now is as healthy as any snake has a right to be. Mr. Ditmars says that the albino snake is like all other rattlers save in color. The color pigment is entirely absent from the specimen and when held up before a powerful electric light its internal organs can be seen plainly. Another interesting feature is its eyes, which are bright red. It is the only white rattlesnake the curator has ever been able to obtain.

**TO BE NURSES.**  
Miss Elsie Nichols and Miss Winnifred Ward, two popular young ladies from West St. John, left last evening for Boston, where they will enter the McRoe Training Hospital for Nurses. A large number of friends gathered at the Union depot to wish them success in their new career. Miss Nichols was the recipient of a beautiful cameo ring from the choir of St. Jude's church, of which she was a valuable member.

**Z. TOOLE 'BUS COMPANY MANAGER.**  
At a meeting of the Union 'Bus Company, last evening, Zachariah Toole was elected general manager. It was decided to purchase three more cars for the service. Owing to changes in design, the building of the permanent bodies for the buses has been delayed, but it was said they will be ready to be placed in position in about two weeks. A few extra cars will be placed on the various lines of the service during exhibition week.

**AT THE HOSPITAL.**  
Willie Scaplin, who suffered a fracture of the skull yesterday, was reported from the hospital this afternoon as resting comfortably.

There is no change in the condition of Charles Swanton, who is seriously ill in the hospital.

A business man who was injured by the suburban train yesterday afternoon is still in the hospital, although his injuries are not so serious as was at first thought. He is badly bruised about the head and feet.

**HAMPTON INSURANCE.**

**THE HARBOR.**  
The harbor is almost bare of shipping at present, the only vessels in port being the Chaleur at the refinery, the schooner Charles C. Lister on the blocks, and a few small vessels at South Wharf. However, a large number are now on passage to this port, among them being the Manchester Exchange, which sailed from Manchester yesterday. The C. G. M. M., Ltd., expect another Canadian steamship soon, and there are nearly a dozen schooners with coal now on passage from New York to this port.

Nagle & Wigmore have the schooners Frederick H. Waegwoltz, Barbara W. Cape, Blomfield, Neva and Marjorie Austin on the way, and there are several other consigned to the various shipping houses. The first sailing of the C. P. R. S. winter service is the steamer Tunisian from Glasgow for St. John on November 19.

**PLAN BIG FAIR**

Large Undertaking in October for Protestant Orphanage Institutions.

A meeting was held in the Orange Hall last evening to consider the advisability of holding a mammoth fair some time during October in aid of all the Protestant orphanage institutions.

A notice of this meeting had been mailed out during the week asking the masters of the various lodges connected with the Protestant fraternal societies to arrange for representation at this meeting. The result was a good representative gathering, at which nearly all the societies were represented. It was the unanimous opinion of all present that steps should be taken to hold such a fair.

J. E. Arthur, Wm. M. Campbell and W. W. Donohue were appointed to make preliminary arrangements; meantime those present will report back to their lodges asking for their endorsement as to the using of the name of that organization and permitting them to serve on a general committee in charge of the fair, reporting back to a meeting to complete organization. There is an invitation to every lodge or body of men connected with any of the Protestant fraternal or social organizations of the city feeling disposed to assist in this worthy and much needed work to name three delegates to meet with this committee.

**SHOOTING MATCHES**

Competitions Arranged for Labor Day and the Day Following.

Shooting seems to have come into its own again as a sport, and the activities of the rifle associations have borne good fruit this season. New Brunswick has always been much interested in this sport, and there are first-class shots in the city, both in the military rifle clubs and the St. John Rifle Club. Several competitions have already taken place, and a big meet is planned for Labor Day, under the auspices of the St. John County Rifle Association. In the morning there will be a competition for the Corporation Cup, open to any club in the county of St. John. This cup has not been shot for since before the war. In the afternoon the St. John Rifle Club match for the "Thorne Cup" presented by Senator Thorne, will take place. This match is open to members of the club only. Full particulars are available from the secretary, Major W. C. Magee, or military headquarters, Sydney street.

On September 6, the M. D. No. 7, Permanent Force Rifle Association will hold an all-day shoot, including inter-team events and all-comers' matches. To make the latter events more interesting and keenly competitive a good prize list is being prepared, and several St. John merchants have already contributed money prizes; others have donated additional prizes, consisting of coal, cups, cutlery, etc. From the reception given the plans of the M. D. No. 7, Permanent Force Rifle Association by the merchants, September 6 should prove a red-letter day in the annals of rifle shooting here.

This will be an opportunity for returned men, and members of the active militia in St. John, also members of the St. John Rifle Club, to show their skill, as the all-comers' match will be open to them all. Anyone interested should communicate with the secretary of M. D. No. 7, Permanent Force Rifle Association, military headquarters here.

**AN ATTACK ON PROHIBITIONISTS**

Sydney, N. S., Aug. 31.—"The only people who want the temperance laws enforced are crazy preachers and ranting old maids," declared delegate Daniel S. McDonald, of Sydney, when a resolution demanding more stringent enforcement of the dry laws was introduced at the annual convention of the Cape Breton County Independent Labor Party.

"I believe the working man wants to get a drink whenever he can," declared J. D. McLeod, of Glace Bay, and this statement was vociferously cheered. The resolution was voted down by two to one.

On discussion of alliance with the farmers, marked hostility developed. Delegate D. D. McDonald, of Sydney, Mines, declared that labor had borne the brunt of the last campaign here, in July 1920, and that all the farmers contributed was "wind."
