FRENCH GIRL MODEL IS A SUICIDE

Beautiful Peasant Maiden, litted by Lover, Blows Head Off With a Gun—Story a Sad One.

Mantes-sur-Seine, France, Oct. 9.—The villa of Daniel Ridgway Knight, the American painter at Rolleboise, overlooking the Seine, was the scene of a dramatic tragedy on Wednesday. Armande Patis, a 17-year-old girl, renowned throughout the countryside for her beauty, who served Mr. Knight in the double capacity of domestic and model, after being publicly jilted at a village ball by her lover, Gustave Fortune, returned to Mr. Knight's home, took the painter's shotgun and, placing the barrel under her chin, blew off her head. Mr. Knight found the body of the girl the following morning upon his return from Paris.

PLAN GREAT UNIVERSITY BY BAPTISTS

Several Colleges to Affiliate With McMaster—Canada's Navy Building Projects—Murder of Father Charged

Toronto, Oct. 9.—(Special)—Chancellor McKay of McMaster (Baptist) University announces that certain western colleges will affiliate with McMaster and form a great Baptist teaching university. Eastern colleges also likely will come in. The Globe's Ottawa special says:—"Representatives of a number of the most prominent shipbuilding firms of Great Britain are in communication with the government with the view to establishing plants in Canada both for construction of new Canadian war vessels and for building up a large shipbuilding industry that would meet the rapidly growing needs of the Canadian marine."

TO DIE FOR MURDER

Berlin Milliner Killed Opera Singer—Who Had Supplanted Her

Gustrow, Germany, Oct. 9.—A verdict of guilty was yesterday handed down in the case of Auguste Zobel, a Berlin milliner charged with the murder of Frieda Balthold, a young opera singer. The motive of the crime was jealousy. The accused woman was sentenced to death. In her testimony she stated that a Berlin commercial traveller had cast her off and become engaged to Frieda Balthold. Although she pleaded guilty, Zobel swore that she intended only to shoot the singer in the throat to ruin her voice, and that she had not intended the bullet penetrated her left eye and killed her.

ALCOHOL SELDOM A MARKED VALUE IN MEDICAL WORK

Washington, D. C., Oct. 9.—That alcohol in any form is but seldom of distinct value in the treatment of disease appeared to be the consensus of opinion of the international Congress on Alcoholism held in London in July last. According to a report of its proceedings just made public.

WRIGHT BREAKS THE SPEED RECORD

College Park, Maryland, Oct. 9.—With practically a dead calm settled over College Park, Wilbur Wright today broke the world's record for speed in aeroplanes over a 500 meter course, including a turn beyond the course, his time being 38.32 seconds, or 20 seconds less than that made by Delagrange over a similar course in France. Mr. Wright attained a speed of 20 miles an hour for the distance.

RUSSIAN BUDGET

St. Petersburg, Oct. 9.—The extraordinary budget of the ministry of railroads has been submitted to the duma. It calls for \$31,000,000 for new construction in 1910. All of this amount, with the exception of \$16,000,000 will be expended in Siberia and on the Amur Railroad. The sum of \$11,900,000 is allotted to the railroad line around Lake Baikal and \$12,000,000 to double track the trans-Siberian.

DISCOUNT RATE RAISED

Brussels, Oct. 9.—The National Bank has raised the discount rate on accepted bills of 3 1/2 per cent. and on non-accepted bills to 4 per cent. On purchases of foreign securities the discount rate is 3 1/2 per cent. On Belgian funds cash sales the rate is unchanged.

HAD TO DESCEND

Aldershot, Oct. 9.—Capt. F. S. Cody, the aeroplanist in the service of the British Army, started on a flight to London at 7.28 o'clock this morning but he had to abandon the attempt.

TWO ENGINEERS KILLED

Allentown, Pa., Oct. 9.—Two trains on the Central Railroad of New Jersey collided head-on at Siegfried, Pa., this morning in a heavy fog. Both engineers were killed.

GOMPERS RETURNS

New York, Oct. 9.—Samuel Gompers, president of the American Federation of Labor returned to the United States late last night. Labor men gave him a rousing welcome home.

BRITISH BATTLESHIPS SAIL FROM NEW YORK

The British cruisers Argyle, Drake and Duke of Edinburgh, left New York yesterday for Gibraltar. The big warship Inflexible will leave today giving the others 24 hours handicap and will try to make a record run. It is reported that about 200 sailors failed to report for duty before the ships sailed.

CUT DOWN OUTPUT OF SOUTHERN COTTON MILLS

Charlotte, N. C., Oct. 9.—That the present disparity between the price of cotton and cotton goods precludes the possibility of the successful operation of southern mills is the unanimous opinion of the board of governors of the American Cotton Manufacturers Association which was in session here nearly all yesterday. Resolutions were adopted by the board setting forth this fact and appointing a committee of five to formulate a curtailment agreement which every mill in the south will be urged to sign.

CONDUCTOR JOHNSTON OF I.C.R. ARRESTED

Thomas W. Johnston, a conductor on the Intercolonial Railway, was arrested this morning by Constable Thomas X. Gibson, on a capias issued by Judge McKeown at the instance of Daniel Mullin, K. C., on behalf of Ronald McAllister, who charges him with false arrest and imprisonment. Johnston was arrested while travelling to Rothesay on the train which he was in charge. The conductor claims that he was asked McAllister for his ticket, and in the absence of a ticket to pay his fare. In consequence of the unsatisfactory result of the controversy, McAllister was placed under arrest and handcuffed, while the train was taken on to Salisbury and on Monday a train bound to St. John, and on arrival was delivered to the police. Johnston was kept in jail over Sunday and on Monday appeared before Judge Ritchie, who dismissed the case. McAllister retained Daniel Mullin, K. C., to look after his interests, and Johnston was arrested on his arrival at the station this morning. Bail was furnished by Divisional Superintendent J. T. Halliday and Terminal Agent L. R. Ross, of the I. C. R. The bail amount is \$2,000. The trial will probably take place in St. John, will be defended by E. H. McAlpine, K. C., on behalf of the I. C. R.

SYDNEY FIRE; LOSS SAID TO BE VERY HEAVY

A report reached the city this morning that a serious fire had broken out at Sydney, N. S. W., involving a loss of many thousands. One of the firms affected, Kirk & Torrie, are said to have suffered a total loss. They had \$14,000 insurance of which \$2,000 was held here in the office of the Liverpool, London & Globe Co. A firm of McDonald's also suffered. A policy of \$1,500 on their property is held in the Richmond & Drummond Co., through the St. John agent.

TO OFFICIATE

Moncton, Oct. 9.—(Special)—In two weeks' time the corner stone of the new Roman Catholic church will be laid at Moncton. Bishop Casey is expected here to conduct the ceremony. The church is about completed.

WRESTLER AND MANAGER ARRESTED

Seattle, Wash., Oct. 9.—Jack Carroll, the wrestling promoter, for a long time Frank Gotch's manager, Bert Warner, of Minneapolis, a midweight wrestler, and Winn Sharritt, of Spokane, were arrested yesterday charged with being members of the Maytag gang of wrestling and foot race swindlers recently indicted at Omaha and Council Bluffs.

MRS. ZEBULON CONNOR OF WOODSTOCK DEAD

Woodstock, N. B., Oct. 9.—(Special)—Mrs. Connor, widow of Zebulon Connor, died at her home on Broadway on Thursday, aged 80 years and five months. Her maiden name was Mary Ann Warden, daughter of the late Gabriel Warden of Kars, Kings county. One daughter, Mrs. John Lee, of Woodstock, survives. The funeral, in charge of Rev. P. G. Kennedy, will take place this afternoon at the Woodstock cemetery.

HUNTSMAN KILLED

Napierville, Que., Oct. 9.—(Special)—Wm. Gasmon, aged 19, is supposed to be leaping over a fence the accident occurred.

MR. BRADY DENIES THAT I. C. R. OFFICIALS WANT NO INQUEST

That is a matter is for Coroner, Not for Railway Men to Decide—Straightening Out Baggage at Wreck Scene—"Right on the Dot" Engineer's Last Words

Moncton, Oct. 9.—(Special)—General superintendent, Brady, interviewed this morning, said there was no foundation for the report that the I. C. R. authorities were anxious that an inquest should not be held. He said the matter of holding an inquest was in the hands of the coroner and that the I. C. R. had nothing to do with it. A rough estimate of the financial loss caused by Wednesday's disaster at Naas-Creek, is \$30,000. Both locomotives were battered almost to scrap iron, but there still remains the foundation for repairs. The baggage and express cars were badly smashed and five freight cars practically demolished. In addition there was the loss of freight and damage to the road bed, and other incidentals. The baggage department has been kept

LOSS OF 2,000 TO 3,000 LIVES IN THE RECENT HURRICANE

New Orleans, Oct. 9.—The crew of the schooner Caldwell of Pensacola, arrived here last night from Progreso, Mexico, after extraordinary experiences. According to the crew the Caldwell sailed from Pensacola one month ago, on a fishing cruise. Several days later she was struck by the Gulf hurricane, and after four days the badly battered vessel was steered to a point off the Mexican coast near Progreso. According to the men the work of repair had hardly been started when the

Jury Brings Verdict Against Mrs. Turner in Toronto Case—Sensational Evidence—Robbery of Jewelry

Toronto, Oct. 9.—(Special)—"We find that this female infant came to her death between Saturday, September 11, and Thursday, September 16, by strangulation at the hands of Mrs. Mabel Turner; and that the aforesaid Mrs. Mabel Turner did kill and slay the aforesaid infant. And we, the jury, would further suggest that the authorities establish a home where foundling infants may be cared for."

GLORIOUS DAY FOR E. D. C. SPORTS

A more glorious day for the Every Day Club sports could not be desired. At 2 o'clock this afternoon J. Fraser Gregory left the head of King street with Chief Clark, Walter B. Campbell and K. J. MacRae. They will go to Rothesay and start the runners in the ten-mile road race. The competitors in the 25-mile bicycle race make the proper turn at Rothesay.

NEXT QUEEN SQUARE PASTOR

Rev. Willard Gatz, who, it has been announced, will be the next pastor of the Queen Square Methodist church, is one of the ablest of the younger clergymen in that denomination in the maritime provinces. He studied in the maritime and took a post graduate course in theology there in 1888. His first charge was at Hebron, N. S., and from there he went to Amherst, where he spent two years, and it was during his pastorate that the church there was built. It is one of the finest Methodist churches in the maritime provinces. From Amherst he went to Mulgrave, N. S., and it was only during the present year that he accepted his present charge at Liverpool, N. S.

ANOTHER GREAT CROWD OUT FOR TODAY'S CHAMPIONSHIP GAME

Detroit Error Makers of Yesterday Determined to Retrieve Themselves This Afternoon—The Line-up for Today's Struggle in Pittsburg

Pittsburg, Oct. 9.—Another large crowd turned out for the second game of the world's championship series between Detroit and Pittsburg at Forbes's Field today. Cheered on by the decisive victory of Pittsburg yesterday the local enthusiasts were out in force. The crowd started pouring into the immense amphitheatre long before the game was scheduled to start and it soon appeared as though the great crowd of yesterday would be equalled or even bettered.

FREIGHT RATES INCREASE NORMAL, SAY LIVERPOOL SHIPOWNERS

Liverpool, Oct. 9.—Liverpool shipowners are questioned today regarding the report that trans-Atlantic freight rates would increase. They declare that any present hardening in the normal rates was thing more than the normal one which ways occurs in the fall of the year when

THAT INQUEST

There can be no objection to an inquest into the recent fatal accident on the I. C. R. near Campbellton. The I. C. R. authorities have ordered a thorough enquiry into their own accounts, and that matter is in the hands of Mr. Brady, who may be depended on to do his duty to the railway and to the public.

CHILD LABOR

It is stated on what appears to be good authority that quite a number of children are employed in factories or other work in St. John, according to law, ought to be at school. Possibly they do not tell the truth about their age, and possibly employers do not make close enquiry. It would greatly assist the school authorities, and be of benefit to the community if employers would insist on having a certificate of age before giving a place to a boy or girl of apparently tender years.

A FORWARD STEP

Mr. F. B. Carvell, M. P., speaking at the Pugsley banquet, remarked that if he offered any criticism at all of government policy it would be to urge that the trade and commerce department make greater efforts to establish trade agencies in all countries with which Canada is able to do business.

FORESTRY IN FRANCE

There can be no comparison between Canada and a country in Europe in regard to forestry, because in Europe they have not the enormous stretches of timber lands which make so large a part of the natural wealth of all of Canada except P. E. Island and the prairie regions.

CANADA GETS MANY AMERICAN SETTLERS

Bringing in Wealth to the Dominion—Average is \$1,000 Each. Winnipeg, Oct. 9.—"Fully one-third of the immigrants to Canada for the first three months of the fiscal year of 1909-10 have been Americans," said J. Bruce Walker, Dominion Commissioner of Immigration. "The actual figures for those three months of immigrants from the states is 32,924, which number shows an increase of 64 per cent. over the same months of last year. The vast wealth that these immigrants brought with them is not yet detailed in figures, but with regard to the actual cash, stock and implements, it is significant to note that from the four states sending the fewest numbers, viz., Michigan, Montana, Illinois and Massachusetts, the per capita in actual possessions reaches the satisfactory average of \$688."

Here and There Around the House

It is indeed a pleasure to eat at a table that has dainty touches in the appointments and a pretty floral decoration in the centre. Many housewives insist on the floral decorations, and the fern bowl is one of the most popular methods of introducing a touch of green. Parasols are also among the dower favorites for the table, and a novel way to arrange them is to mingle the blossoms with fancy moss in a flat dish of some kind.
The ice box is a necessity in the winter as well as in the summer, and a good way to keep this immaculate is to use borax. This is especially desirable in small refrigerators, where but little food is stored and where ice is kept more for the preserving of butter and milk.
Few women have a place to keep their ironing-board. The following plan was used by one woman. She had a carpenter remove a number of boards from the kitchen floor the exact length and width of the folding ironing-board; put one end of the floor boards on springs or hinges and then have the ironing-board let down in the kitchen basement. The boards closed up like a safe door and the ironing-board folded up as it went down. When the board was needed all that was necessary was to touch the catch or spring and the ironing-board stood ready for use, acting on the same plan as a drop-head machine.
Half a lemon will remove match marks from paint. The scratches can also be removed with a piece of very fine sandpaper. The housewife should never put water on gilt frames. They should be wiped with a dry cloth or chamois. This also applies to all metal and lacquered articles.
For lunch or dinner the finger-bowl is used at the close of the meal, though occasionally it is used earlier if grapefruit in their rinds is the first course.
Few housewives are aware that alcohol will remove grass stains, unless they are of too long standing.
Sour milk should never be thrown away, as it is good for hot cakes and waffles. It is also desirable for boiled salad dressing and many other dishes.
Vanilla extract should be kept in a very dark place, as it is apt to lose its strength when exposed to the light.
Over-salting of food is very often counteracted by using a teaspoonful of vinegar and one of sugar.

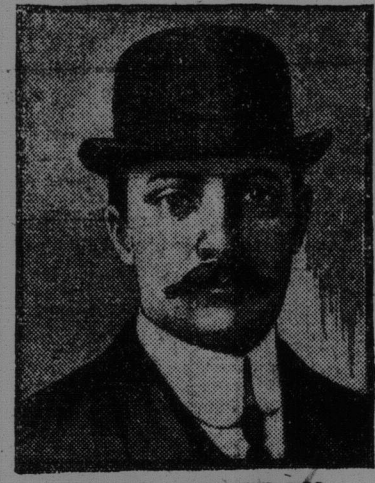

A SAD STORY IN A MONTREAL COURT

Leads Recorder Weir to Consideration of the Family and the Parents

(Montreal Witness) Recorder Weir, in passing heavy sentence on John O'Connell and his wife, convicted of inhuman neglect of their children, said that he deplored the fact that so many persons utterly unfit for the raising of children were marrying and bringing families into the world. His experience, on the bench, said the Recorder was leading him to seriously consider whether some restriction should not be placed upon the indiscriminate marriage of those who had absolutely no qualifications for the duties of parenthood. In the meanwhile so numerous were the neglect and cruelty cases coming before the court, that he proposed to address the attorney-general in order that an old law, which has been in the statute books for years, and which has lately fallen into disuse, which condemns a man guilty of neglect of his family to a very severe penalty, should be enforced and put into operation. O'Connell, who is described by the officers of the charity organization as a chronic drunkard incapable of getting work, until fifteen years ago lived with his wife and seven children in a filthy room on Pius IX Street. The most awful state of affairs existed in the miserable home, the children being without food for days at a stretch, while their parents were drinking away little money they could get. Mrs. O'Connell was helped for a long time by the charity organization, but the demon drink had a firm hold on her, and she repeatedly failed to go to the places she was sent to for work. Two weeks ago, being several weeks behind in the rent of their miserable rooms, and having no hope of being able to pay it, the family was put out on the street. O'Connell and his wife immediately started to drink, and the children were left to shift for themselves as best they could. Four of the youngest found refuge with kind-hearted neighbors, while the eldest, a girl of fifteen got work at four dollars a week. The other two children, James, aged 8, and John, aged 11, having no one in the world to take care of them, wandered all over the city, living on what they could find in garbage barrels and sleeping under bridges and in laneways. At last, weakened from the want of proper food and broken-hearted at being unable to find their parents, the two little fellows lay down in a doorway on Ontario street, where they were found by the police and taken to No. 4 station. The case was at once reported to the Recorder and a warrant was issued for the immediate arrest of the parents. On Tuesday they were captured in an intoxicated condition, and were held over until this morning for trial. In court the children showed an extraordinary degree of fidelity to their undeserving parents, and it was with evident reluctance that the fact of the case was reported to them. The little boys tried to defend their parents as much as possible, and cried bitterly, and called to their mother when she appeared in the dock. O'Connell got six months hard labor, and his wife four months.

FIFTEEN YEARS OF AGONY

"Fruit-a-lives" Promptly Cured Him After Doctors Had Failed to Give Relief.

"I wish to express my sincere appreciation of the great benefit I received from taking 'Fruit-a-lives.' I suffered from Biliousness and Dyspepsia for fifteen years and I consulted physicians and took many kinds of ordinary medicine, but got no relief. I was in miserable health all the time and nothing did me any good. I read the testimonial of Archibald McKeechie, of Ottawa, and I decided to try 'Fruit-a-lives.' I have taken a number of boxes of 'Fruit-a-lives,' but before I had taken one box I felt better and now am entirely well. I am thankful to be well after fifteen years suffering, and I am willing to have this statement published for the sake of other sufferers, and to them I strongly recommend 'Fruit-a-lives.' CALLS ON BEHEAVED FAMILY; FALLS DEAD

St. Catharines, Oct. 9.—Mrs. John Daley of Thorold, died suddenly at the home of Mrs. John Holland, where she had gone to offer sympathy to the family in the death of Mr. Holland. Five minutes after reaching the house she fell from her chair dead. A husband and five sons survive.

WAS MARRIED SIX TIMES

Kansas Cit., Mo., Oct. 9.—Grace M. Chapman has pleaded guilty to a charge of bigamy, admitting that she had married six men without having obtained a divorce from any of them. "Yes, I'm guilty," she testified, "I've had six husbands and I'm sick of matrimony. Most of the men I married were farmers. I would live with them until I got tired of them and then I'd leave. They were so tiresome."

Odorless Onions

Wing Hop, a Chinese gardener, who owns a farm near Fresno, Cal., has produced an odorless onion. The Chinaman formerly worked for Luther Burbank, who is known as the "Plant Wizard," and while in the latter's employ learned several things about gardening. The onion tastes almost the same as the usual variety, without the odor. Burbank claims that within a short time he will make the sweet cactus bear fruit.

About Hair

There are about 30,000 hairs in the average human head, and a single hair will support a load of six ounces without breaking. The total tensile strength of a woman's long hair is about four and one-half tons, and it is a great deal stronger when twisted. In the old days the Romans made use of the hair of their slaves by making cords for the catapults. When the City of Carthage was besieged it is claimed that the women of the city offered their luxuriant tresses for the catapults in the aid of the defense.

Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established the confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has gained from it, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

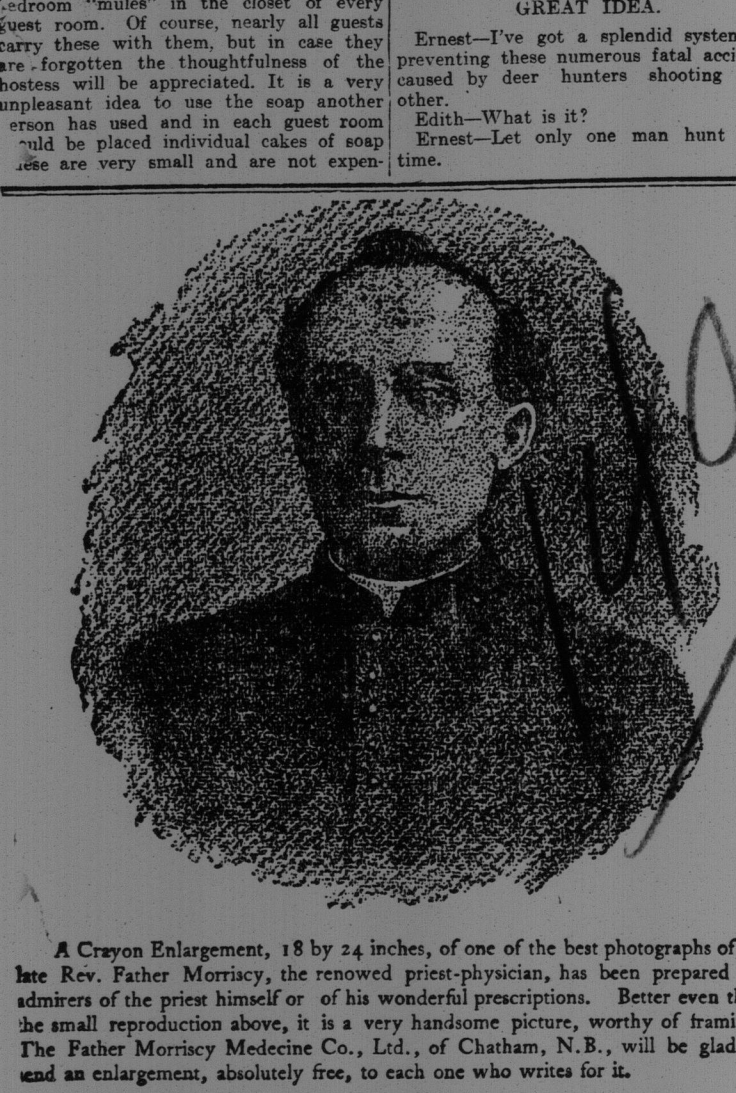

Providing for the Guest's Comfort

The first thing for the hostess to consider is the comfort of her guests. Where money is apparently no object this is very easy. But when a woman of even moderate circumstances attempts to provide a lavish display for the most exacting and fastidious, on the other hand, judgment in the furnishing of the guest's room will also be a very pretty result which will cost but little.

After the selection of the room to be set aside for the guest's chamber there should be placed at hand. The writing material—two of the essentials of this room, for guests are sure to appreciate good pens and writing paper. Besides these there should be a desk or table. A common wooden table, when given several coats of white enamel, will answer the purpose very well and will do away with the cost of the writing desk. A rack should be arranged with a large white blotter, with several small blotters in a rack. A great convenience is a small calendar. This equipment need not be expensive, as all the articles can be purchased at a very low price at any stationery store. Very nice-looking desks can be manufactured from common boxes and then covered with cretonnes or with wall paper to match the room. It is a very good idea to have the paper marked with the address of the hostess, and if she resides in the country the paper should contain the telegraph and telephone address, as well as the number of the rural free delivery route.

Otherwise have paper of a good quality purchased by the paper. The paper often proves a boon to the improvident guest who has forgotten her portfolio. Care should be taken to see that the supply does not run low. Stamp books are not necessary and can hardly be afforded by the average hostess.

Another good idea for the guest is to have a dainty silk kimono and a pair of "slippers" in the closet of every guest room. Of course, nearly all guests carry these with them, but in case they are forgotten the thoughtfulness of the hostess will be appreciated. It is a very unpleasant idea to use the soap another person has used and in each guest room should be placed individual cakes of soap, which are very small and are not expensive.

A Crayon Enlargement, 18 by 24 inches, of one of the best photographs of the late Rev. Father Morrisey, the renowned priest-physician, has been prepared for admirers of the priest himself or of his wonderful prescriptions. Better even than the small reproduction above, it is a very handsome picture, worthy of framing. The Father Morrisey Medicine Co., Ltd., of Chatham, N.B., will be glad to send an enlargement, absolutely free, to each one who writes for it.

Glacé Bay a Town of Contradictions—Prosperous Race of Miner—Fishermen of Good Physique—The Coal Company

(Montreal Witness)

In the far east of Canada, where the last peninsula juts out into the open Atlantic, there is a town of strange contradictions. That town is Glacé Bay, a name that has become familiar to many thousands of people in all parts of the continent during the past month or so because of the strike of coal miners, employees of the Dominion Coal Company.

It is a common remark that one writes a Witness special correspondent, that you can always spot a Glacé Bay man by the fact that he walks in the middle of the road. Do not be misled, however, by what J. M. Barrie first went to London his mother, it will be remembered, urged him to walk in the middle of the street. That the dreadful characters with which the believed London to be peopled could not spring out on him at the street corners.

But it is not any fear of being pounced upon that causes the Glacé Bay man to forsake the sidewalks and to walk in the middle of the road, but because in Glacé Bay, extraordinary to relate, the roads are in better condition than the sidewalks.

Its Roads Excellent

It seems that years ago the town council of Glacé Bay became enamored of some sentimentalists for some special kind of road, and gave out contracts for the treatment of all its principal streets by the new process. The roads were accordingly constructed with what appears to be a mixture of asphalt and concrete, which, to everybody's surprise, turned out to be far better than the most expensive laid out. The result is that now, after years of wear the roads are just as level and just as good as ever, equal in fact to the very finest new laid asphalt, while at the same time presenting a rough surface that prevents horses from slipping. Dust and mud alike are gone away with, and today there is no town in the Dominion which possesses better streets than this far-away town in Cape Breton.

With that effort at civic improvement the ambitions of Glacé Bay seem to have ceased. It was intended at one time to construct wide sidewalks, because along the sides of the streets cars have been erected, and the usual space left for foot passengers. But the view seems to be fixed that with such excellent streets sidewalks are a superfluous, as the space that should be used for foot passengers is better played ground for Glacé Bay's numerous dogs and sparrows.

Another strange thing about Glacé Bay is that although it is a mining town, you never see men on the streets who look like miners—the black-faced, ragged men that are common in the mines of this Dominion. The explanation is that at the Dominion Coal Company's collieries wash-rooms with individual lockers are provided for each miner, so that a miner can go to work in his second best suit, change into his working clothes, have a good wash and shave, and send alike are gone away with, and today there is no town in the Dominion which possesses better streets than this far-away town in Cape Breton.

The Miners' Condition

There are no miners in Canada who work under happier conditions than those of the Glacé Bay miners. A great precaution is taken to ensure their safety and comfort. The only rescue station in connection with the mines in Canada is here, and it is kept in constant readiness to render first aid to a man who has cut or is bruised, or to rescue him from fire or from gas. Even if a man is apparently drowned, the most up-to-date apparatus in the world is kept ready to rescue him and restore him. There are, too, sets of appliances by which men can go through the worst atmosphere in rescue their comrades and be indifferent to it because they carry their own oxygenating instruments, by means of which they breathe the pure air.

The amount of money disbursed by the Coal Company is astonishing. The total for the season of 1908, this was \$1,909,919.55. This was the value of 130,624,430 pounds of cheese manufactured during the season of 1908. This was produced from 1,861,609,751 pounds of milk. The creameries of the province manufactured 9,985,100 pounds of butter with a cash value of \$2,355,170.34.

During the present season there are 1,177 cheese factories and 97 creameries in operation in the province.

"The provincial department of agriculture," says the report, "is spending a great deal of money in the interest of dairy education and instruction, and is encouraged in this work by the response on the part of the producers and farmers in keeping their premises in an up-to-date sanitary condition and in handling the milk in a cleanly, careful manner. Great efforts have ever been put forth by the producers to increase the average production of their dairy cows. A good deal of pure bred stock has been introduced throughout the province and a number of farmers are using the weight scales and Babcock test as a means to ascertain in breeding out unprofitable animals."

NO COMPROMISE IN-BUDGET SAYS WINSTON CHURCHILL

(London, Oct. 8.)—At least some members of the cabinet are opposing any compromise such as suggested by King Edward to prevent a constitutional crisis over the budget. Winston Churchill, president of the board of trade, speaking tonight at the National Liberal Club, declared that the government would make no overtures to the house of lords and would accept no compromise in the upper amendment to the finance bill by the upper house.

The quality of the cheese this year is higher than in any other year," said Mr. Putnam this morning. "Reports from Montreal and the observations of the chief inspector, G. G. Pulow, of Kingston, Ontario, regarding the quality of the milk in this province, bear this out. Mr. Pulow told me that only a few years ago he could tell me at a glance what section of the milk was being sold, and that a uniform quality was established. The number of rejections is even less than last year, which was a record up to date."

The house of lords is a constitutional crisis over the budget. Winston Churchill, president of the board of trade, speaking tonight at the National Liberal Club, declared that the government would make no overtures to the house of lords and would accept no compromise in the upper amendment to the finance bill by the upper house.

BEQUEATHED \$10,000 FOR A GOOD ROAD

(Lingdon, Ont., Oct. 9.)—Timothy Eaton before his death expressed his wish that the portion of Dundas street westerly from Lambton village to the Eaton farm, a distance of three miles, be properly constructed to the Dundas street for road under the supervision of A. W. Campbell, deputy minister of public works of Ontario.

The executors of the estate have now made a formal offer to the Elthoboke Township Council to expend an amount of \$10,000 to have Dundas street for road mentioned a model macadamized road, to be built under the superintendence of Mr. Campbell.

The Elthoboke council will, without doubt, give their consent to this improvement being carried out under the conditions named, so it is expected that the work will be commenced almost immediately.

WEEKLY SUMMARY OF TRADE CONDITIONS. New York, Oct. 8.—Bradstreet's state of trade tomorrow will be the rule in nearly all lines of trade and industry, with conservatism, bred by high prices of raw and manufactured products, and by the food manufacturers, the only apparent bars to the distribution of most wholesale lines. Wholesale trade in staple lines is good beyond question.

MONTREAL TO HAVE A TEMPERANCE DEMONSTRATION. Montreal, Oct. 9.—At a meeting of the Catholic Total Abstinence Union of Canada, the question of the grand temperance demonstration of Sunday, Oct. 17, was again taken up. Delegates from French temperance societies were present, and the reports presented by the sub-committees all went to show that a good turnout may be expected. The route of the procession was fixed. A committee was appointed to wait upon Rev. Father Ethelbert, of the Franciscan Order, and Rev. Abbe Truchon, of the same order, and to invite them to give the English and French sermons respectively, on this occasion. Circulars will be distributed at the door of the churches on Sunday inviting the friends of the temperance cause to take part in the demonstration.

ALBERT LIBERALS. Hopewell Hill, Oct. 9.—Special-Committee W. J. Carrawath, of Riverside, and C. Morley Fye, of Hopewell Cape, have been chosen by the Liberals as candidates at the coming municipal election on October 26. The choice, which is considered an excellent one, was made at a representative meeting here, held at the residence of Mr. Carrawath, on Saturday evening. Mr. Carrawath has been a member of the board for a number of years and was always considered one of the best qualified members. Fye is a prominent merchant on account of the death of his son, Lawrence, who was killed at Cardinal, Ont., in August. The young man went over the side on a slippery rope, without a ladder, in the discharge of his duty. He slipped down the rope, missed the deck, was caught between the steamer and dock and crushed to death. Mr. Belding's counsel holds that the company is liable because of negligence to have proper safeguards. The company refused even to pay the Cardinal undertaker's expenses.

SUIT FOR DAMAGES. A. M. Belding has entered suit in Osgoode Hall, Toronto, against the Inland Navigation Co., of Hamilton, for damages on account of the death of his son, Lawrence, who was killed at Cardinal, Ont., in August. The young man went over the side on a slippery rope, without a ladder, in the discharge of his duty. He slipped down the rope, missed the deck, was caught between the steamer and dock and crushed to death. Mr. Belding's counsel holds that the company is liable because of negligence to have proper safeguards. The company refused even to pay the Cardinal undertaker's expenses.

THREE MOOSE BROUGHT DOWN. The carcasses of three fine moose arrived on the steamer yesterday afternoon from the Washaduck. One of them belonged to E. Wiggins of Perry's Point, who secured the animal without much trouble. Mr. Wiggins early Thursday morning saw a moose standing not one hundred yards away from his house. He secured his gun and shot it. The other animals belonged to Herbert Perry of Cole's Island, and Barry Furlong of Cranberry Lake, and were both fine specimens.

"Yes," Cecil answered. "You know what this means," Forrest continued, speaking to Cecil, "I cannot remain in this house any longer. I could only accept hospitality from those who have learned to comport themselves as gentlemen."

PLAN TO REVIVE SHEEP INDUSTRY IN ONTARIO

The revival of the sheep industry in Ontario, which has been steadily declining, is being attempted by the department of agriculture, aided by the Sheep Growers' Association. The method chosen is the establishment of illustration stations in eight counties of the province. One has been already begun by Wm. Little, near Agincourt, York County, for early lambs, which will be sold in the open market in Toronto.

The need for some action is indicated by the fact that from 1901 to 1905 the number of sheep in the province decreased from 1,261,799 to 1,241,153, an average of 31,553 a year; and by last year had further fallen to 1,143,888. In the first period, number slaughtered and sold fell from 720,148 to 603,736, and by last year was only 545,520.

The sheep industry in Ontario is being developed under the special supervision of A. P. Westervelt, to show that there is a good profit in sheep raising on the ordinary farmer, and with the ordinary grades of sheep. The farmers being chosen are not experts. They supply their own stock-grades ewes and keep account of the cost, the time spent, the revenue, etc., and for this labor are allowed a slight remuneration.

The leather trade, in its various ramifications appears to be very prosperous and satisfactory. The demand for general leather goods keeps well up, and between now and Christmas time dealers are looking forward to a busy season. An authority in the trade speaking of the shoe business says:

"The factories are all busy completing their fall orders, which have fallen a little behind in some factories. The manufacturers are much pleased with the prospect for the leather trade. There seems to be no reason why the expectations of the trade should not be fully realized. The returning prosperity of the leather goods business in all lines, and the bumper crop, which is now pretty well garnered in, has boomed winter trade."

MORNING NEWS OVER THE WIRES

Hosea Benjamin Farjot, a lumberman residing at Johnston, Queens county, has filed papers for a divorce suit against his wife, Mrs. Mary Agnes Farjot, now residing in the United States. The divorce was granted on October 28.

THE U.S. FOOD SUPPLY

There are several factors concerning food production that call for grave consideration. One is a failure of the American farmer, as a class, to obtain from the acre what he is capable of producing. Education alone can remedy this. Another factor is the tendency of new farmers to crowd into the farming districts, but to colonize in overcrowded cities. An additional factor is the tendency of the market to be flooded with surplus crops, which are sold at a loss.

BRANDON LEAPS INTO PLACE AS ONE OF GREAT MARKETS OF WEST

Brandon, Manitoba, is to the Canadian west intellectually what Boston is to New England. It is the home of two colleges, a normal school, the agricultural college, two large business colleges with an aggregate attendance of 1200 and the Brandon College where the girls of the west are taught domestic science, literature, and how to manage their husbands.

Where Once Buffalo Roamed

In 1875 there was only the unbroken prairie where Brandon now stands. It was the feeding grounds for the countless herds of buffalo that pastured on the prairie. In 1879 an Indian settlement was established there and not until 1882 was there anything like an attempted white settlement in the vicinity.

I. C. R. COMMISSION NOT TO BLAME FOR WRECK, SAYS BRADY

Funeral of Engineer Whalen and Express Messenger Morrison Yesterday—Fireman Cook Will Recover From Injuries

Moncton, N. B., Oct. 8.—The investigation into the cause of the head-on collision at Nash's Creek early Wednesday morning, will be held in the office here of F. P. Brady, general superintendent of the I. C. R., on Monday morning, when it is expected that the real cause will be brought to light. The investigation proceedings will be of a private nature.

Mr. Brady returned this afternoon from Halifax and, when speaking of several statements regarding the despatching system and its connection with the train wreck, said in connection with an article which says that the accident was due to faulty train despatching, "I might state that the system used on the I. C. R. has been adopted by the majority of railways in Canada and the United States. The order given says that the Maritime express was not to pass Jacques River until 2:30, and that gave Conductor Thompson's train the right to come to Jacques river at 2:30 and, according to the rules, he should have been in the siding clear at 2:30; if he could not get there at that time then he should not have started. If Conductor Thompson was trying to get to Nash's Creek station he should have been there at 2:35; as it is, the two trains met west of Nash's Creek station at 2:45.

The same article attacks the I. C. R. management for the absence of a night operator at New Mills. There has not been a night operator at New Mills since Oct. 6, 1905, and this goes to show that the present board are in no way responsible. In that connection, however, if there had been one, it would have made no difference as there was no reason for making a stop at that station if the train crew had sufficient time, under their orders, to have made Nash's Creek.

"In connection with what is said about the time orders," continued Mr. Brady, "these are of the most modern kind and are used throughout Canada and the United States on nearly all the railroads.

FREE KINDERGARTEN

The annual meeting of the Free Kindergarten Association will be held Thursday, October 14, at 8 p. m. in the board of trade rooms, Prince William street. It is expected that all who are interested in the work will be present.

The reports for the month of September show a full attendance at Portland street Kindergarten, while the other two have not yet their full number of children. This is owing to sickness in the vicinity of Brussels street and Waterloo street.

The thought for September has centred around the home of man and animals—the seed homes in fruit and vegetables—the storing for winter's use, leading up to Thanksgiving thought. All the songs, games and stories about family life are interesting and instructive.

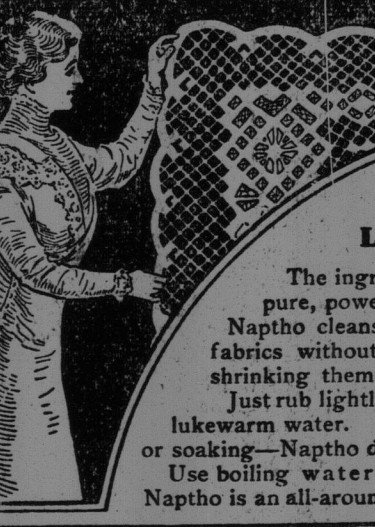

The following donations have been received by the association: Table, blackboard and Kindergarten material from Mrs. Harper, and clothing from Mrs. J. H. Pullen.

Tag-day is to be held Saturday nearest St. Valentine's day.

Comfort for the Woman who Motors

During the past few years many women have taken up the sport of motorizing. For them, it is not only a question of looking neat in automobile tops, but of how to be comfortable as well, regardless of the speed, wind and sun. Discrimination must be exercised in selecting the motorizing garb, more especially with women who desire to look their best while en route.

All women who motor need one coat at least, and, if it is not too great a strain on the purse, two are a very comfortable possession. In this case one of the coats should be of rubber for bad weather, and the other should be very light as a protection against the dust during the very warm days. There is probably no better selection than a serviceable coat of tussor, as this material, although tightly woven so the dust will not go through, is not too heavy for summer wear. Many of these coats are worn double-breasted and have tightening cuffs and large pockets. With the coats the hat is often a Panama, with an automobile veil drawn tightly over it and then fastened beneath the chin. A veil most often selected and very pretty for the occasion is of brown chiffon.

The coat is without a doubt the main thing to be selected by the woman who motors, and when this selection is made she should be very careful in choosing the proper one. Many women wear coats of linen cloth, in the dolman style, and this has no sleeves, but nevertheless keeps the wearer well protected from the dust. This style has three jet buttons down the front, somewhat relieving the linen effect. Another pretty coat is of rubberized cloth, having gone through a process by which it is made waterproof, and for the woman who can afford only one coat this is probably the best to select. The coat does not have the rain-coat appearance, and it is single-breasted from the waist to the feet, the upper part fastening to the left. This coat protects the gown more than any other.

For women who make tours in the automobile it is best to carry always a small medicine chest or box. This chest can contain everything necessary in case of a minor accident, yet be so small that it can be easily placed in a hand-bag. The smelling salts, camphor, arnica, absorbent cotton and lint should not be forgotten, as accidents are very frequent in touring, and the attention of a physician might be a matter of hours.

The tea basket resting on the step is one of the handy things for women who motor and this we have borrowed from the English, inasmuch as they started the custom. A basket can contain a small chafing dish or spirit lamp besides one of the latest contrivances for keeping cold and hot fluids. The trunk taken on a motor tour, should be of the steamer variety, very flat and small in order that it will be as light as possible and also easy to handle. The trunk can contain almost all of the articles necessary for a railroad or steamer trip, although it is very hard to take hats in this manner.

Probably the latest fad for women who motor is the new bonnet hat, very similar to the old-fashioned poke bonnets. It almost completely covers the hair, and fastens with a ribbon under the chin. The style was first started in Paris, and it is becoming quite popular with American women who love to motor. One of these bonnets is of woven raffia and it is very suitable for older women. It is lined with chiffon and is very pretty when the proper color is selected.

IRISH PAPER AGAINST EMIGRATION TO CANADA

Montreal, Oct. 8.—A Canadian Associated Press cable from London says: "In the course of a remarkable editorial article, the object of which is to restrain Irish people from emigrating to Canada, the Freeman's Journal says: 'The reason Canada requires immigrants is that it must get inhabitants at any cost in suffering to the new comers. When the wolves howl round the cow barns there is need of foreign thousands, if only to act as a sort of vermin killers. Many of the new comers will go mad with the desperation of the loneliness, and bitter hardships of the life; many will fall in utter misery by the wayside, but some will live through it all. The vermin killing will one day all be done and the dreary, empty spaces begin to be really habitable for a normal human being. This is Canada's need; first, bands of victims, romantically called pioneers; then, afterwards, on the ruins of these,

happier throngs who will reap in joy where others sowed in sorrow.'

The Freeman's Journal also remarks that 'the free farms are situated in a dreary neighborhood of nature's wildest freaks.'

MILLIONS WORTH OF OLD PAINTINGS HELD UP

New York, Oct. 8.—Old paintings worth about a million dollars, have been held up recently by the customs officials here, it was learned yesterday, notwithstanding the new tariff law provides for the free entry of works of art more than twenty years old.

Fifth avenue art dealers say that although these paintings and another million dollars worth now on the way to this country are well over the age limit, they have been upheld for this reason to answer completely the customs officers' searching question regarding their exact origin and date.

The Prudential

The Pioneer of Industrial Insurance in America.

The Prudential introduced this form of insurance into this country, and practiced it for four years earlier than the oldest of its competitors.

This system of insurance makes it possible for every healthy person—man, woman or child—between the ages of one and seventy, to obtain a policy of life insurance.

The premiums are collected by the Agents of the Company at the homes of the policyholders, and the payments being small and collected frequently, do not become a burden.

Death claims are paid immediately after due proof of death has been received.

The Prudential has a larger number of policyholders than has any other company of the same age in the world.

It issues the most liberal Industrial policy in this country.

The Prudential, in its Ordinary Department, issues policies in amounts of \$500 to \$100,000, premiums upon which are payable annually, semi-annually, or quarterly.

In this department it issues various forms of Life and Endowment policies, embodying advantages that appeal to the different requirements of the numerous classes of applicants.

What was characterized by Acting Magistrate Henderson as a novel report was that made to him in the police court this morning by a British street resident. He handed in the names of James and Harry Shaw for frightening his children by peering in the windows at night with "false faces" on and causing his children much alarm. He was told that the police would investigate the matter.

"Guilty!" said Lavina Bantry in the police court this morning before Acting Magistrate Henderson had an opportunity to read the charge which was that of drunkenness. She was fined \$8 or thirty days. Thomas Ferris also charged with being drunk, pleaded hard for a chance as it was his first appearance in the police court and also the first time he ever had been arrested. He was let off with a \$2 fine.

Registrar John B. Jones has received a letter asking for information about John Evans, who lived in New Brunswick in 1838. His wife's name is given as Ann, and their are said to have been born to these parents four or five children. A letter has also been received from Mount Pelier, Bristol, Eng., inquiring if George Jones is living or dead. The man sought is said to have been a school-master or to have kept a school of his own. The writer says Geo. Jones is his mother's brother, and her name is Sarah Nees.

Any persons having knowledge of these people will confer a favor by communicating with Registrar Jones.

Converted to the belief that New Brunswick is one of the greatest big game countries have ever visited, Dr. W. M. Seagars, of St. Augustine, Florida, and J. P. Greaves, of Miami, Florida, left for their southern homes last evening, each bearing as a trophy of their hunt, a handsome moose head.

Dr. Seagars and Mr. Greaves arrived in St. John on Sept. 20, and, with J. J. McGaffigan, of this city, went to Bathurst, reaching there on the 21st. They drove from Bathurst over a corduroy road from the public highway to the headwaters of the Tracadie river. In addition to the three hunters the party included Frank Connors, Oliver Henry, Thadeu Duguay and Germaine Duguay, guides, as well as a driver and assistant. Four tents were carried for housing the party, and it was fortunate that waterproof material was selected, for it rained continuously for six days. The downpour, however, apparently did not dampen the ardor of the sportsmen; for Mr. Greaves, in speaking of the conditions, said they did not mind in the least.

"Our good friend, Mr. McGaffigan," he said, "had arranged everything for our hunt, so that we did not mind it in the least. We were able to go out occasionally, and the tents were as dry as if we had been in a hotel in the city."

During the time that the wet weather continued several moose came within fifty yards of the camp in response to calls from the guides. It had been intended to drive about to other sections, but the wet weather prevented this plan being carried out.

"We saw a dozen or more moose while we were there," said Mr. Greaves, "and were able to select good ones. We got two fine heads, one with an antler spread of 56 inches, and another measuring about 50 inches, we also saw plenty of deer and caribou tracks all the way."

"It is our first visit to New Brunswick," continued Mr. Greaves, "we have always gone to Quebec before, but last year, when Mr. McGaffigan was down south he sounded the praises of New Brunswick so loudly that we decided to come here, and I am glad we did."

"One thing I would like to say is that everywhere we have been we have been treated with the utmost hospitality and kindness. Everyone we have met has been most kind." Asked if they were likely to come here again, both replied that they certainly would if they lived.

Dr. Seagars has quite a reputation as a hunter, and Mr. Greaves, as well as being a hunter, is a writer of ability. He has contributed a number of articles on big game hunting in Quebec and tarpon fishing, to several of the well-known magazines.

The party returned from the woods yesterday and the visitors left for home last evening.

TODAY'S SPORTS; A-HALIFAX VIEW

With G. Footes, the fastest bicycle rider in New Brunswick, who broke the 11 mile bicycle road record from Waverly to Dartmouth, in today's bicycle road race at the Every Day Club sports, there should be some records set skyward, as the man from the bluenose province will have some of the fastest in the lower provinces against him, including Frowse, the maritime champion, from Charlottetown. The Halifax Recorder says:—

The 20 mile bicycle road race to be held at St. John on Saturday under the auspices of the Every Day Club for the Dunlop Tire Cup will have a strong entry from Dartmouth, including Frowse, the Dartmouth citizens look for Footes to win. He has won every road race in Halifax and Dartmouth for the past two years. His time for eleven miles being 23 min. 2 seconds. Footes also captured two seconds in the maritime championships in the short drives.

PORT DOCTOR GETS NEW GASOLINE LAUNCH

Dr. R. C. Ruddick, port physician, has purchased from Frank Elliott, of Brer Island, a fine gasoline launch for use in his visitations to incoming vessels, and for carrying him to and from the city.

The launch is now in Lower Cove slip, where the steering gear is being fixed and the craft being otherwise made hip-shape. The boat is thirty-five feet over all, and a nineteen foot cabin, a ten horse-power engine and is very nicely fitted up.

Dr. Ruddick, in talking with a Times man, said the present week had been the business in shipping since last spring. He has boarded during the last few days, six steamers and four schooners, and in every case gave a clean bill of health.

SUPERIOR PAINLESS DENTISTRY!

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and, with nerves strung to a hurtful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations."

NOTE—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia.

The famous Hale Method of painless dentistry, for which we are sole agents for Canada is the best Method on earth.
