RCHANDIZE FARM MACHINERY

AND CARRIAGES.

I have just received for the spring trade, 1 car load of Wilkin-

(No. 5, and one horse.) 1 car load of

GILLIE'S FLEXIBLE STEEL and IRON HARROWS. Wisner's Combined Drill and Broadcast SEEDER This Seeder is without doubt the best machine of its kind made in Canada at the

esent time. It will adapt itself to the wants of any farmer. It can be arranged to w grain in any quantity either broadcast or in drills. It has a separate attachment r sowing hay seed which can be used at the same time the farmer is using the sower r other grain. I have also a large lot of MANN'S BROADCAST SEEDERS, (complete) as ATTACHMENTS FOR HORSE HAY RAKES

iich have been extensively used on the North Shore and have given the best of satisfaction. A full stock of PLOW REPAIRS has just been received consisting of EL MOULDBOARDS, STEEL LANDSIDES, SHARES, SOLESHOES, CLEVISES, COLTERS AND BOLTS for "FARNER'S FRIEND," "LOUISE," "SOLID COMFORT," "BONA," "WILKINSON'S No. 5 and SHORE HORES, and FROST & WOOD'S No. 5 and S PLOWS.

A car load of CARRIAGES from the celebrated Gananoque Carriage Works daily expected. **READ WHAT THE FARMERS SAY**

who have used the above goods. DEAR SIR-I purchased from Messrs. Johnson & Co. through you one of Mann's Seeders, which I we used for four years, and I can safely say that I would not be without it for three times the cost, could never raise more than 50 or 6 bus. from one when sown by hand, but now I can use 8 to 9 om one when sown with the Seeder. A farmer who will sow 70 bushels of grain in one year will, we enough in that time to pay for his Seeder. I also bought one of your first prize steel plows, I all used two of Frost & Wood's Plows before getting one from you, and I could not get more than tree or four days in the week with them. My team is very heavy and my farm is very rocky and henever they would strike a rock they were sure to break, but the one I got from you proved most atisfactory and easy. I also purchased a heavy from Harrow from you and have been using it in a ey strong soil, and it has given entire satisfation from you got and have been using it in a ey strong soil, and it has given entire satisfation and stood the test most wonderfully.

I was almost getting discouraged with farm 'g before I purchased these im plements, as I was laily visitor to the Blacksmith's during the tarming season. Very respectfully,

Renous.

co. Hildebrand Esq.

DEAR SHE:—I have purchased through you of the late firm of Johnson & Co., one Iron Harrow and ne of Mann's Broadcast Sceders on wheels. The harrow has been used on my farm three seasons and an well satisfied with it. It will de twice the amount of work the old wood frame harrow will do nd does it much better, for by means of its narrow sections it adapts itself very nicely to uneven surces. I have thoroughly tested it on rough ground and it stood its work first class.

The seed-sower is just what is wanted for putting in grain. I have used it for two seasons, a nd an sow whatever quantity per acre I wish and do it evenly whether there is a wind or not. I am also
