### ST. JOHN BOY KILLED OUT WEST

Sudden Death of Albert Hamm, of Carlston. He Went Out Last Spring and Had Intend to Come Home Next Month.

The relative of Albert Hamm were shocked at the news last night by a telegram from Kamloops, B. C., announcing his death in a railway accident.

The telegram which was received by Mrs. Geo. Purdy, sister of the deceased, read as follows: "Your brother, Albert, was accidentally killed at 8.35 this morning. The train was en route to Kamloops hospital. Please say what you wish to do."

Telegrams were once sent asking for further particulars and instructing that the body should be taken home for burial. So far no further details have been received. From the fact that the conductor's name was signed to the telegram it is concluded the Mr. Hamm was killed in a railway accident.

Mr. Hamm, who was well known and popular on the West Side went out west last spring and has been engaged in railroading with the C. N. R. He was planning to return to St. John the first of October. The immediate relatives who mourn his sudden death are his father and step-mother, Mr. and Mrs. Andrew M. Hamm, of Carlston, two sisters, Mrs. George Purdy and Mrs. Gilbert Davidson of this city, and one brother, William Hamm. The body is expected to arrive about Saturday. The deceased was 24 years old.

**BAXTER SMITH.**

Despite the early hour, 6 o'clock this morning, a congregation of friends and relatives gathered in the Church of St. John the Baptist to witness the marriage of Miss Minnie E. Smyth, daughter of the late George W. Smyth, to Rev. W. F. Chapman's first marriage as pastor of the church.

The bride, who looked very pretty, was attired in a navy blue travelling costume with grey trimmings and a picture hat, trimmed with sequins. She carried a bouquet of white chrysanthemums. The groom, who looked very handsome, was attired in a suit of grey and a large black hat, trimmed with sequins. He carried a bouquet of white chrysanthemums.

The bride and groom were accompanied by the bride's mother, Duke street, where a sumptuous wedding feast was served. Chief among the wedding gifts received by the happy young couple were a pair of silver picture frames, a silver dish, and a pair of silver tureens; the groom's present to the bride was a substantial cheque. There were numerous other gifts to the bride and presents from the groom to the bride's maid and a host of presents to the bride too numerous to mention.

The bridal party left on the Eastern Cross S. S. at 10 o'clock this morning for a wedding trip to points in Massachusetts and New York.

Mr. and Mrs. Baxter will return in about two weeks, when they will take up their residence at 19 Elliott Row.

C. P. R. COLLISION.

**OTTAWA, Sept. 28.**—The Canadian Pacific fast train dashed into the Prescott freight yard a mile from the Central station early Sunday morning, with the result that both engines, several passenger cars and a number of freight cars were wrecked. The engine, a handsome silver passenger car, was wrecked. The passenger cars were unhurt. From appearance of the wreckage it is nothing short of a miracle that there was not a serious loss of life. The line was blocked all day by the debris.

**C. P. R. AFTER THREE BERTHS.**

Apply to City for Use of Three-Quarters of Sand Point's Capacity.

The C. P. R. have applied for the use of three berths at Sand Point during the coming winter. Last year the four berths there were used by the Allan, Manchester, Elder Dempster and Dominion lines. If the company's request is granted, it means that two of the other lines will have to be pushed out. At any rate this looks as though the C. P. R. were going into the export trade in earnest.

**HAIN AVER'S FOREST FIRES.**

**BANGOR, Me., Sept. 28.**—Threatened damage from forest fires in the north eastern section of the state has been averted by the heavy fall of rain last night. Fires had started and were spreading rapidly, owing to the exceeding dryness of the timber land after weeks of drought and a recurrence of the disastrous fires and conflagrations of last June was feared.

**CLEVELAND, Ohio, Sept. 28.**—C. K. C. Billings, owner of Lou Dillon, the trotting mare, has announced positively that she will not be allowed to go into a contest with another horse in a trial for supremacy. Mr. Billings stated as his reason for this decision that Lou Dillon is but five years old and comparatively inexperienced and untrained.

This morning the visiting congress delegates were driven around the city in branches, and expressed themselves as altogether pleased with the place.

This afternoon the party went up river in the steamer Crystal Stream. Tonight a banquet will be given at the Union Club.

### CHARGES AGAINST CLAN NA GAEL

Col. Blake of the Irish Brigade Says \$10,000 Was Misappropriated By Officers.

**CHARGES AGAINST CLAN NA GAEL.**

OMAHA, Neb., Sept. 28.—Col. J. F. Blake, who commanded the Irish brigade, which fought with the Boers, during the South African war, in an address at the Emmett memorial meeting made charges against the national officers of the Clan-Na-Gael. He did not produce the documentary evidence, but asserted that he was able to do so. He said that the organization secured \$10,000 for the Irish Brigade and announced that it had been forwarded to that organization. On his return, he says, he learned that the money was never sent to South Africa, and that officers of the Clan-Na-Gael informed him it had been retained by that order for the benefit of returning veterans. He says that the amount has never been distributed.

**A SCARE AT WINTER STREET SCHOOL.**

An alarm was rung in this morning about eleven o'clock from Box 231 for what was supposed to be a fire in the Winter street school. When the firemen arrived on the scene, however, it was discovered that only a pipe connected with the heating apparatus of the building had burst and caused a cloud of steam. For a while great confusion reigned among the pupils and the classes were dismissed for the morning.

Littlejohn and McLeod are both at work preparing for the event. McLeod's quarters are at Newcombe's out the road, while Littlejohn is hard at work, doing daily stunts on the road and boxing at the corner of St. Andrew and Carleton streets. The men are fast and a good contest is looked for.

**JEW BAITING.**

Unprovoked Assault on an Hebrew Resident of Chapel Street.

Israel Goldberg, a Jewish merchant, has laid information against one Herbert Lobb for an assault committed on him while returning from the synagogue last Friday night.

Mr. Goldberg resides on Chapel street and, with his baby in his arms, was proceeding peacefully to home about seven o'clock in the evening.

At the corner of Acadia street, the Lobb man, so Mr. Goldberg says, called him some vile names and without any provocation whatsoever drew off and smashed him with a billet of wood on the head. Goldberg says this is not the first time that he has been insulted by the same person and a crowd of ruffians at the same place. They have called him "Shoney, they, 'any rags, and bones, any bottles today," and other things that would look bad in cold type.

The Jewish citizen says that he does not need the opprobrious epithets applied to him. But he thinks the climax has been reached when on coming home from synagogue he has been assaulted. As a last resource he has invoked the aid of the law to prevent further molestation of his person.

### BRAVE WOMAN RUNS A CITY.

Fills Places of Five Officials Dead With Fever.

Yellow Fever in Charge—12,000 People Dead or Fled—Mayor's Daughter Holds the Fort.

**CHICAGO, Sept. 28.**—A despatch to the Record-Herald from Linares, Mexico, says: Miss Manuela Flores is mayor, treasurer and secretary, city attorney, city clerk and stenographer of this city; all the officials having fallen victims to yellow fever. Mayor Flores was the mayor and was the first person to be attacked. Miss Flores acted as her father's secretary. When he was stricken the governor appointed her acting mayor. So well has she filled the position that she has been commissioned to remain until the expiration of her father's term. The city had a population of 18,000 but now there are less than 8,000 residents, the others either having fled or died. Free Diaz has commended the work of Miss Flores highly and it is stated that congress will vote her a medal for bravery during the epidemic.

### CHAMBERLAIN FOR THE COLONIES

Britain's Best Friend in Every Way, He Declares—American and British Lawyers Compared.

(Canadian Ass. Press.)

**LONDON, Sept. 28.**—Hon. Joseph Chamberlain writing to a Nottingham manufacturer recently, said that the colonies were the best friends of Britain, and that the best customers for British manufactured goods were the colonies. He declared that they were ready to make profitable arrangements while foreign trade languished. The legal fraternity had been offered, during the past two weeks, an opportunity to compare their forensic methods with those of America. Mr. Chamberlain's style is cultured, dignified and dignified. Watson's style is vigorous, but lacks dignity. It is rather of the free and easy style. He has a habit of pausing as if waiting to see if the commissioner had caught on to the point he was attempting to make.

### LIPTON WILL TRY AGAIN.

the Cup.

**LIPTON WILL TRY** (By copy) **CHICAGO, Sept. 28.**—"I could not design to win a certain cup," said Herbert Hooper, I would build Shamrock IV, and challenge for the cup tomorrow. I am retaining Shamrock III, so you see I am in hopes of finding such a designer. I intend to keep after the cup until I get it."

These are the statements made by Sir Thomas Lipton in his apartments in the Auditorium annex last night in the first interview he had given since coming to Chicago two weeks ago.

"I want to repeat," he said, "that I have no fault to find with anyone for my defeat. I have seen a suggestion that the only way to revive British art in cup racing would be to dangle the cup in front of our eyes by waiving the rules and letting the challenging American yacht race in British waters. I want to say that, while I personally appreciate the kindness of the suggestion, we want to win the cup and win it fairly according to the present rules."

Sir Thomas was able to receive visitors last night. He showed no effects of his recent illness.

### GREAT MUSIC.

Coldstream Band Thursday and Friday—What They Will Play for Encore.

The encores which the Coldstream Guards' Band play in addition to the regular programme are very attractive and popular, and have aroused great enthusiasm with the audiences. Mr. Rogan pauses the plan of giving an encore without any break between it and the preceding number, and has greatly pleased the audience by doing so. One encore which has created much interest and amusement is the Irish patrol, in which the patrol is heard approaching faintly in the distance and marching past, and a comic effect is the exclamation of the by-standers, "I want to repeat." This is followed by the Turkish Patrol, written on the same lines. Whistling Ruffians, produced by the band in a manner never heard before, with wonderful whistling effects, is another encore. St. Britannia and other popular national airs are also given, and these usually bring the audience to their feet singing the words and cheering. A Tarantello, producing the effects of a breeze with the reed instruments is a work peculiar to this band. A Dervish Chorus in the Soudan stimulates the strange song of the Dervishes. Mr. Rogan plays the Sousa marches better than Mr. Sousa's own band. Each programme begins with God Save the King, the Maple Leaf Forever, and the regimental march. Seats reserved and unreserved now on sale at Gray's bookstore.

### SLAUGHTER CONFIRMED.

Wholesale Extinction in Macedonia Proved—Three Villages Seized and Destroyed.

**LONDON, Sept. 28.**—A despatch from Sofia to the Times says that a document purloined from Hilmil Pasha's archives and which had fallen into the hands of one of the consuls, gives confirmation of the wholesale extermination carried out in Macedonia. It records that 24 villages have been destroyed in the vilayet of Monastir alone and that the total number destroyed reach 111. Reports from other reliable quarters represent that a much larger number of villages have been destroyed. The correspondent continues that the attention of the humane and charitable should be directed to the starving population. The American missionaries who have addressed appeals to the United States and England for the despatch of a contingent of the "Red Cross" are prepared to assist in the distribution of relief.

Father Chapman Will Enumerate People in His Parish.

The pastor of the church of St. John the Baptist, Broad street, announced at masses in his church yesterday that during the present week he would start to become acquainted with his congregation, that he would pay them a house to house visit and that it was his intention to take a Catholic census of the parish of St. John the Baptist.

The rev. gentleman said that one set of figures had given the Catholic parish population as 230 families and that another figure had placed it at 400 families. Father Chapman said it was his intention, if possible, to arrive at the exact number. In this he expected the hearty co-operation of the members of the congregation and he supposed that in his calls he would be given on all the necessary information from the members of his flock.

THE TURF.

Lou Dillon Will Go Against World's Trotting Record.

CLEVELAND, O., Sept. 27.—J. K. G. Billings, owner of Lou Dillon, the trotting mare, has announced that positively she will not be allowed to go into a contest with another horse in a trial for supremacy. Mr. Billings states as his reason for this decision that Lou Dillon is but five years old and comparatively inexperienced and untrained.

The mare will be shipped with the others of the Billings string to Lexington Wednesday, where she has two engagements. After the Lexington meeting Lou Dillon will be shipped to Memphis, where she is scheduled to go against the world's trotting record, a trial against time, which will probably be her last for this season. Two starts against the watch will be made at Memphis.

THE KITCHENER ARRIVES.

A despatch was received here Saturday announcing the arrival at Quebec of the St. John tug Lord Kitchener, Capt. Stevens, there with the Connolly dredge International. The job was accomplished in one day short of three weeks, a most creditable performance.

FURNACE IS THE HEAD.

Has Already Put Three Millions in the Sault Ste. Marie.

SAULT STE. MARIE, Sept. 27.—The British capitalist back of the proposition for the reorganization of the Consolidated Lumber Superior Co., is none other than Sir Christopher Furness, the great English iron master and ship owner.

Sir Christopher already has put three million dollars in the cash and in conjunction with Canadian capitalists his representatives will be on hand to bid for the assets of the company. It is said on good authority that the Vickers Sons and Maxim, Ltd., are not directly interested in the proposed organization.

It says further that it is authoritatively stated that the United States Steel Co. will not bid for the works.

Mayor Plummer in addressing a mass meeting of woodmen strongly advised the men to leave their time checker and lawyers or other parties in the Sault to be washed and to accept the employment that is now being offered them so freely, in behalf of the town by offering to provide lodging and breakfast for any men who might require it. Some 150 men availed themselves of the offer.

The several employment agencies are getting in their work and nearly all the miners who came in last week are being employed out yesterday morning. Some three hundred woodmen were brought down last night from up the Algoma Central and within three or four days the men will be fifteen hundred or so in the woods who will have been brought out. Employment will be found for all it is believed as there is strong competition between the outside companies for labor.

James Bicknell, barrister of Toronto, representing the receiver, B. F. Rackenbahl, Jr., of New York, arrived here last night.

FIRE AT HAMPTON.

HAMPTON, Sept. 27.—The residence of Joseph Cliff in Sault Ste. Marie was gutted by fire at an early hour this morning, and his furniture greatly damaged by its hasty removal.

He had made a fire in the basement furnace about nine o'clock, and before retiring at eleven had turned off the draft by a connection in the kitchen. The fire was of soft wood and had not been replenished from the start. Mr. Cliff is a light sleeper, and about half past twelve was awakened by a crackling sound in the smoke pipe leading from the cellar to the upper story through the halls. Jumping out of bed, he hastily descended and found the woodwork in the cellar in flames and a dense smoke filling the hall and rooms on the ground floor. Entrance to the cellar could not be made from within the house by reason of smoke and flames, but the starting of the fire was readily disclosed by going round the house to the rear, where the cellar doors were kept open.

The family was at once aroused and got out doors, an alarm given, and thenceforth for a couple of hours the village fire company, with their simple, but effective apparatus, and assisted by many willing helpers, fought the flames through the smoke and darkness, while others were busy in getting out and saving the household effects.

An inspection of the premises this afternoon shows how wisely and well the fire was fought, for although the interior is a mass of blackened and charred flooring, joists and studding, the flames never penetrated the outer walls, and a greater catastrophe was thereby averted, for the wind was strong and blowing directly toward the Church of England rectory close by. Water was hauled from the river and pumped through the fire hose at close quarters through holes cut in the floors and partitions. The origin of the fire is unknown, although its first appearance near the pipe leads to the suspicion of some defect, still the open cellar left room for any vandal act of an evil disposed person. The house was insured for \$1,500 in the Liverpool, London and Globe, and \$600 in the Commercial Union. The furniture was insured for \$2,000 in the Queen. It should be the duty of the underwriters to contribute toward the fire fund by which the apparatus was procured which prevented a total loss and saved adjoining properties.

Mr. Cliff is the yard foreman for G. and G. Fiewelling Manufacturing Co., and his house was a fine three story structure in tastefully laid out grounds.

Sch. Kipling, Capt. Richards, from Barbados, arrived at S. J. on Sept. 27. She was 32 days coming up, 8 of which were spent between Georges and St. John. Her cargo consists of 375 cases of molasses and 25 barrels. The vessel which is a handsome craft, is in the stream.

MARRIED SATURDAY.

Saturday afternoon at 3 o'clock, in Trinity church, N. Louis Brennan, son of N. W. Brennan, north end, led to the altar Miss Margaret Louise Rowe, youngest daughter of Richard Rowe, Rockland Road, and a very popular young person in many circles.

Mr. Brennan also enjoys the best wishes of hundreds. Mrs. J. A. Richardson presented a box of candy, and there were not many guests. Miss Ella G. Rowe of New York, sister of the bride, was bridesmaid, and Harrington E. Brown supported the groom. Miss Rowe was attired in a dark blue travelling suit, and Little Miss Toronto, Steeves of Hillboro, her niece, was maid of honor. The happy couple left on the steamer Calvin Austin for Boston and New York, and upon their return will reside on Rockland Road.

LANSDOWNE MAN HURT.

William Wheeler, one of the crew of the government steamer Lansdowne, was rather seriously injured Saturday at the lower government pier. Several of the men were engaged in moving some of the heavy stones used in connection with buoys down the wharf. A derrick was in use and Wheeler was on the top of it. Suddenly the derrick fell and Wheeler was caught in moving some of the heavy stones used in connection with buoys down the wharf. A derrick was in use and Wheeler was on the top of it. THE SUSSEX RACES.

The Sussex races promise to attract big crowds of people. The best horses in the maritime provinces will compete there, and Mains will contribute a lot of good ones. Kenney, another of the crew, was slightly hurt.

THE EASTERN LINE.

Str. Calvin Austin, Capt. Pike, which left here Saturday evening on the last trip from St. John, for a time at least, was crowded with passengers.

Str. St. Croix, Capt. Thompson, reached St. John about 7 o'clock Saturday night with a large number of passengers and a big cargo.

FIRE AT BACKVILLE.

SACKVILLE, Sept. 27.—About noon today fire was discovered in the attic of the fine two story house at Upper Backville, owned and occupied by Wesley Farwell and his son, Elias M. Farwell. A high wind was blowing at the time, and in spite of the determined efforts of neighbors the building with most of its contents was destroyed.

The barn and outbuilding were saved. No insurance. The loss is about \$4,000. Dr. Allison will represent Mt. Allison at the inauguration of Dr. Gordon as president of Queen's Toronto. Prof. W. G. Watson, the recently appointed theological professor, at Mt. Allison will deliver the inaugural address in the Black memorial chapel next Friday night.

TARTE'S HOT SHOT.

MONTRÉAL, Sept. 27.—Before a large and enthusiastic audience Mr. Tarte at Joliette yesterday poured hot shot into his former members of the cabinet. Laurier escaped, except that Tarte stated he was not the same man he was a few years ago, or he would not now consent to be led around by the men who were leading him. Sifton was asserted to be a friend of James Hill and his railway aspirations were against the development of transportation in Canadian lines. As for transportation, Tarte said he knew more about it than Laurier and all his cabinet combined, and he was in a position also to more fully serve the interests of the province of Quebec more completely than Bernier or Prefontaine.

STRUCK BY LIGHTNING.

WORCESTER, Mass., Sept. 27.—A special to the Telegram says: Two wheel, one press, one corning mill of the American Powder Co. were blown up tonight at South Acton, when one of the mills was struck by the lightning. Thirty-five hundred pounds of powder was blown up. The agent of the mill says the loss amounts to between \$7,000 and \$8,000. The night force was thrown out of work when the power gave out, electricity being used, and no one was hurt.

### BURGLARY ON CHURCH STREET

Chas. Damery's Beer Shop Broken Into - No Money for the Thieves.

Burglars' operations are again in evidence. This time the attempted break was made on Charles Damery's beer, Church street. The burglar or burglars must have got in their fine work between Saturday and Sunday nights.  
Nothing was known of the matter until this morning when Mr. Damery's clerk going to open the door, found that the lock—one of the Yale kind—had been broken from its staple. A "jimmy" or some strong instrument must have been used in the work as the woodwork around the door was cut and indented.  
There was no money in the register. However there was a plentiful supply of liquids on the shelves. Mr. Damery or his clerk cannot tell as yet as to whether any of the stock is missing. But burglars do not generally let a chance slip by of making themselves acquainted with different brands of liquors when they have a free chance.  
The cash register was empty so far as the money end of it goes. The burglar or burglars must have felt sore.

### FOOTBALL

Carlton and Y. M. C. A. Teams Play a Tie Game.

The game between the Carlton and Y. M. C. A. football teams on the Victoria grounds Saturday afternoon resulted in a tie. While both teams show the need of further practice the play at times was exceptionally good, and shows that St. John's will put up good fights against the outside teams.  
The line-up was as follows:

|               |           |                   |
|---------------|-----------|-------------------|
| Carlton.      | Full      | Y. M. C. A.       |
| Wright        | Full      | Dowden            |
| Mosher        | Half      | Stockton          |
| Tait          | Half      | Malcolm           |
| Burpee        | Backs     | Malcolm           |
| Jordan        | Backs     | Stockton          |
| O'Reilly      | Quarters. | Sandall           |
| Ring          | Quarters. | Ledingham         |
| Scott (capt.) | Quarters. | Robb              |
| Watters       | Quarters. | Whittaker (capt.) |
| Norris        | Forwards  | Malcolm           |
| Pike          | Forwards  | Simms             |
| McCaffery     | Forwards  | Ellis             |
| Pitman        | Forwards  | Malcolm           |
| Faherty       | Forwards  | Gilmore           |
| Coran         | Forwards  | Gilmore           |

Carlton had the kick-off and rushed the ball to the Y. M. C. A.'s twenty-five yard line, and after about ten minutes' play Mosher by a thirty yard run and pass enabled Carlton to score. Owing to a change of hands on the ball behind the goal line no try to the goal was allowed. The first half ended with the score 3-0.  
In the second half the Y. M. C. A.'s play a better game than the Carlton. The ball was kicked, and the game ended 3-3.

### WHARF OWNERS KICK

The Renting of the I. C. R. Wharf to Wm. Thomson & Co. Generally Condemned.  
The proposal to rent the face of the new I. C. R. wharf for the use of the South Shore steamer Samias is very generally condemned by private wharf owners of this city. The chief objection is on the ground of unjust competition with private properties. Private wharf owners have to pay for the right to extend their wharf properties out to the harbor line. They are also compelled to pay to the city taxes on their properties, and the revenue derived from them. The I. C. R. as a government institution does not pay any such amounts, and the leasing of the wharf to the Thomson & Co. would be an interference with the rights of private property. It would tend to reduce the value of private wharves and would be a distinct departure from the policy followed hitherto by the dominion government.

The harbor master, Charles S. Taylor, also strongly condemned the proposal and said that if the Samias has a right to go to the face of the I. C. R. pier at the head of the harbor, the same right must be granted to all other vessels, and it would of a necessity have to become a public wharf.

Synopsis.—A shallow depression is spreading eastward across the Gulf and is likely that the barometer will soon rise in advance of a high area. Weather is fine and cool in Ontario and Quebec. To Banks, strong southwest and west winds today and Tuesday, and to America's port, strong west and northwest winds.

### CATHEDRAL SPIRE REPAIRED.

The work on the Cathedral spire is nearing an end. Yesterday the large gilded cross surmounting the spire was put into position by the contractors, Slinney & Mitchell. The cross, together with its ornament, measures 13 1/2 feet high and is 6 feet across. It is made of the heaviest sheet copper obtainable and weighs over 500 lbs. The top is exactly 240 feet from the ground. The task of lifting this heavy weight was no easy one and it speaks well for those who are in charge of the work that everything was done without a hitch. In conversation with the Star today, Mr. Mitchell, of the firm of Slinney & Mitchell, remarked that the Cathedral possessed the best proportioned spire in Canada, and the cross which has now been put on is the largest in the maritime provinces. Within three weeks the spire will all be done and the repairs completed. The spire has been entirely re-sheathed with copper and when the spire is down it will have a fine appearance.  
Today the workmen started removing the staging at the top and will gradually work their way down, putting the finishing touches on as they come.  
Slinney & Mitchell have already signed a contract for the copper work on the new post office and custom house at Rielbucto and will soon commence work there.

### POLICE COURT.

Escaped G. P. Recaptured—Ticket of Leave Man Sentenced.  
Between ten and eleven o'clock officers Finley and Wain gathered in James Dacey on North Market street. Jimmy had enough supplies on him to last for a good sized hunting trip. The paraphernalia was: \$2.32 in cash, pipe, two knives, pocket book, a pint flask of liquor and a good jag. James handed over \$3 and went.  
One of the "G. P.'s," Frank King, has again returned to the fold. He took a vacation from that body of toilers on July 16th, but had a yearning for the old home, so he returned, like the prodigal. Officer Silas Perry acted as his guardian to headquarters. Remanded was his portion.  
Michael Donovan got drunk on Pond street Saturday night. Officers White and Bowen took him to the station and tried to imbibe so freely, so did the magistrates. Result eight dollars or two months with the G. P. squad.

### SHARP THUNDER STORM.

The storm which worked havoc in Boston for two hours Sunday evening, struck St. John with diminished force about half past one this morning. The storm was not severe and outside of one or two long thunder claps the storm here was comparatively light. The rainfall for a time at least was very heavy, and between 2.10 and 2.15 a. m. it came down at the rate of 3 inches an hour. A second shower occurred about half past seven. The total rainfall was not over one half an inch.  
In Boston the storm was one of the severest of the year.  
Michael J. Tully was killed by a lightning bolt which entered his home. A Revere man had the hair completely burned off his head. Damage was done to the Hancock Temple in East Boston, and fifty feet of Union street was torn up and a gas main opened up.

### NEW YORK THEATRE OPENING.

The stage is to be enlarged by widening it 15 feet and extending it forward 12 feet. The seats throughout will be new and the seating capacity will be 1,500.  
The theatre will be formally opened with a two weeks' engagement of the Brindmann Opera Company, commencing Oct. 15th. Fifteen operas will be presented during the engagement.

### THE ASYLUM INQUIRY.

The Telegraph accuses the Star of an unfair attempt to make political capital out of the asylum inquiry. The Star simply published the statements of men who had grave charges to make against the asylum management, and who declared that though the charges had been laid before the provincial government they had neither been asked nor allowed to give sworn evidence before the commission appointed to investigate the matter. All the witnesses heard before Commissioner Tweedie were employees of the asylum and it is not unnatural to suppose that this is not the surest way to obtain evidence damaging to the conduct of that institution. A commission which only hears one side of a question is of doubtful utility. It is true that Mr. Tweedie stated his desire for a full investigation and it is possible that at some future sitting of the commission he will hear the evidence of these complainants. The fact remains that at least two men, Joseph Northrup, son of the man who died at the asylum, and Isaac Worden, of Carleton, declare that they went to the government rooms where the investigation was being held on Friday and were informed that they would not be allowed to give evidence. The publication of these statements may reflect discredit on the local government, but the Star cannot agree to have itself in like discredit by suppressing them.  
It is a simple matter for Commissioner Tweedie to clear himself of all suspicion of unfairness by throwing his witness box wide open at the next session.

### LEWIS MORRISON TONIGHT.

Tonight Lewis Morrison and his powerful dramatic company will produce his elaborate scenic and dramatic version of "Faust." The piece will be mounted with magnificent scenic embellishments. Startling scenes that make the poor miserable mortal feel his weakness, when he compares his power to that of the immortal, come in quick succession. For this reason Mr. Morrison's "Faust" is a worthy moral lesson as well as a gorgeous production of dramatic and scenic art. In obtaining fine scenic effects the power of electricity is taken advantage of. There are many electric surprises and mechanical novelties, making it as a whole one of the most elaborate and brilliant productions ever witnessed. Mr. Morrison's physique is perfectly fitted to Meplisto; his face is handsome or fiendish, as he depicts Meplisto. His Meplisto may be said to be a revelation; it certainly is wonderful. The production here will be complete in every detail and the original New York company will be seen at the Opera House with Lewis Morrison himself as Meplisto for the last time here.

### THE STEAM BARGE RICHARD IS IN PORT

The steam barge Richard is in port with a cargo of Sydney coal consigned to the Cushing Sulphite Co. While it is not the first time that this craft has been here, still she attracts considerable attention owing to her difference in build from the majority of coal carriers arriving here. The Richard was at one time a grain boat on the great lakes, but is now owned in Sydney. She furnishes her own motive power.
