MOVEMENT TO ASK TAFT TO WITHDRAW

Nation-Wide Agitation Backed by Republican Office Holders

Roosevelt May Also Be Requested to Step Aside in Favor of Some Man Agreeable to Both Factions—The Scheme in General.

Washington, July 9.—A nation-wide movement to petition President Taft to withdraw as the Republican presidential candidate is being backed by a large number of Republican office holders who feel that they face defeat in November unless the breach in the party can be healed. These men include members of congress, members of state legislatures which will elect senators, state and county office holders and party candidates.

If the movement to petition Mr. Taft to withdraw succeeds in gaining any volume, it is said these same men in the interest of party harmony may ask Col. Roosevelt also to withdraw as a prospective candidate for an independent nomination and permit a compromise selection of some man agreeable to both factions of the party.

It is the desire of the promoters of the scheme that a decision should be reached before Aug. 5, when the Roosevelt faction plans to hold a convention in Chicago. The circulation of petitions, it was declared today, would start within a week. It was said the movement would begin especially in every state. The organizers are now circulating blank forms of petitions and appointing supervisors who will in turn visit the various counties to solicit the signatures of Republican voters. The authors of the plan expect to offer to practically every Republican voter in the United States a chance to express his opinion of Mr. Taft's candidacy, either by signing the petition or rejecting it.

The movement is in the hands of several well known members of congress. They are being aided by many of the extreme Roosevelt Republicans. The enrollment of the national progressive organization in the movement has been sought and it was said today that Senator Dixon's organization was willing to co-operate. Information that the petitions were to be put before the voters leaked out today.

No particular name is authorized for the statement and members of congress concerned were unwilling to stand sponsors for it until the movement was under way. It is the desire of the organizers to have the movement a success. The organizers are not in a hurry to get the petitions signed, as it is believed that to confine the petitions to any considerable number of regular Republicans who believe he should step aside in the interest of harmony.

Women and Children Face Death in City of London

THE EIGHTH WEEK

Strike Leaders Declare That 80,000 Men Are Still Out, and Union Relief Funds Were Exhausted Long Ago—Death Rate Increasing Rapidly.

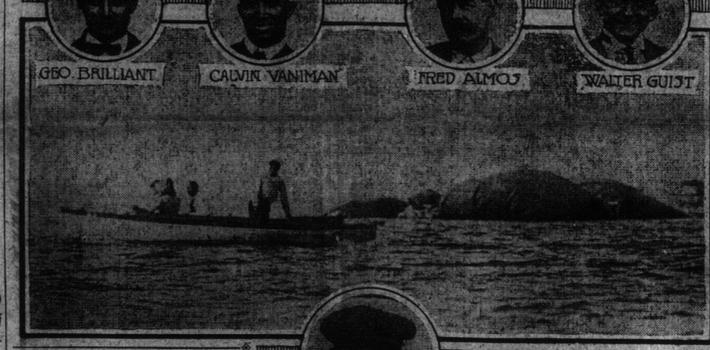

London, July 8.—Many women and children today were facing starvation as the result of the transport strike which today entered its eighth week. The strike leaders claim that 80,000 men are still out. The union relief funds were exhausted long ago.

Today all organized charities are unable to care for the applicants, and the death rate especially among the children of tender years who are unable to secure nourishment has increased at an alarming rate.

The circulation of petitions, it was declared today, would start within a week. It was said the movement would begin especially in every state. THE WORST AIRSHIP WRECK EVER KNOWN

OFFICIALS ON WATCH FOR SMALL-POX

431 Steerage Passengers Taken Off Steamer Haverford and Placed Under Observation as Result of Complaint.

Philadelphia, July 8.—When the American Line steamer Haverford arrived at the Delaware breakwater today from Liverpool via Queenstown for Philadelphia, 431 steerage passengers were taken off the vessel by United States quarantine officials and landed at the government hospital at Lewis (Del.), where they will be kept under observation for a possible outbreak of contagious diseases, especially smallpox. The passengers may be detained for a week.

The action of the government is due to the complaint of the Philadelphia health board that on the last voyage of the Haverford she brought smallpox to the port.

The physicians say no report of contagious disease or even a suspicion of such diseases was made to them on the last trip of the steamer to this port and they decided to take drastic measures when the Haverford arrived today.

Richibucto, July 8.—A great heat wave has struck this section of the county. Yesterday in town the thermometers registered 96 in the shade. Today they registered from 100 to 104. Both days there have been heavy electrical storms. Yesterday two telephone posts in Pagan street were struck and a number of electric light fuses were burned out so that some sections of the town last night were in darkness.

Today the lightning struck near the railway station and William Curwen, baggage master, received a slight shock which scared him for a time.

Moncton, July 8.—(Special)—The thermometer today went up to 96 in Moncton, being the hottest of three summers by four degrees. Men in the I. O. R. machine shops sweated in 96 degrees, and in the boiler room and power house men worked in 106 degrees.

Halifax, July 8.—(Special)—The thermometer in Halifax today as recorded officially, registered 95.9, the hottest in eight years. So far as known there were no observations for Halifax, the great heat wave was constantly a westerly breeze at midnight the mercury at the Citadel showed 88, and down town it was 76.

St. John yesterday the temperature was just about right. While in other cities people were sweating in the heat, the people of this city were enjoying the cool, refreshing breezes from the bay. The thermometer went to 74 and then stopped. Terrible in New York.
