DISTRICT AND GENERAL

Strathroy is making preparations for an old boys' reunion in August. Francis Duffy, a life-long resident of Alvinston, died on Saturday, aged 80 years.

Mrs. W. S. Whiting, aged about 60 years, of Rodney died suddenly while mowing her lawn.

At St. Louis, Mo., for auction 230,000 skunk pelts sold for \$710,000, choice skins bringing \$9 each.

Collectors in the Y. M. C. A. campaign in Thamesville reached their objective of \$300 in two hours.

Mrs. Alex. Cameron of Watford accidentally set fire to her clothes in some unknown manner and was burned to death.

The Canadian Oil Company of Petrolia has reduced the hours of labor to nine hours and increased the pay to \$4.40 per day.

The flax company at Alvinston have completed an enlargement of their new mill and are expecting a big crop again this season.

Detroit capitalists are putting the summer resort known as Stag Island in the St. Clair River in shape for a big summer's business.

Alva Campbell, a pupil of the Komoka public school, had his eyeball lacerated by a pen shot from a popgun in the hands of a playmate.

Mr. Robinson of Melbourne has been appointed district deputy grand master for District No. 6 of the Independent Order of Oddfellows.

Detroit manufacturers are discharging foreign employees who exhibit a Bolshevik tendency and giving the positions to returned soldiers.

Official notice has been sent out by the Inland Revenue Department, Ottawa, that licenses must be taken out by cultivators or growers of tobacco.

Members of the Thamesville Township Memorial Society are going to improve the appearance of the boulder which marks the spot where Tecumseh fell.

Wm. Farfit of Westford, Mass., who refused a \$25,000 legacy on the ground that riches bring unhappiness, has changed his mind and decided to risk the unhappiness.

E. Sutherland, secretary of the Canadian Crow Motor Company, Ltd., Mt. Brydges, is calling for tenders for the purchase of the company's factory building and contents in that village.

Joy Holmes, station agent at Goodland, Kan., while searching in a desk accidentally discharged a revolver. The bullet struck the keys in his vest pocket. He escaped with a slight bruise.

Two West Lorne men were fined five dollars and costs each for beating a dog to death. The dog was bought the dog at an auction sale for 25 cents and then took it behind the barn and clubbed it to death.

The death occurred at West Lorne of Mrs. Edward McCallum, the result of a fall sustained several weeks ago. Mr. and Mrs. McCallum resided on the Dunwich-Aldborough township for a number of years before moving to the village.

Express trains between Montreal and Vancouver will make the journey in ninety-three hours and thirty minutes. This will be the fastest transcontinental train service, beating that between New York and the Pacific Coast by five hours.

Energetic protests against the large number of alien enemies in the west, and especially against the Government's policy of permitting the Australian and German agitators unrestrained liberty of action, were sounded at a largely attended mass meeting in Winnipeg.

The Oddfellows of District No. 6, which embraces Melbourne lodge, will purchase a sword to be presented to the lodge in the district having the largest number of initiations during a year, the sword to be won three times before becoming the permanent property of any lodge.

By the new assessment act, which comes into effect this year, farmers' daughters who are over 21 years of age are to be entered on the assessment roll and copied into the voters' lists with the letters F. D. after their names, giving them the right to vote at municipal elections the same as farmers' sons were over 40 years ago.

A number of boys entered a shanty in the woods near Guilds, where they found a stick of dynamite which was to be used in blowing out stumps. One of the boys, thinking it a sky-rocket, lit the fuse. Another boy, having an idea of the danger, seized the stick to throw it out of doors, and it exploded, taking with it his thumb and part of three fingers.

Rub it in for Lame Back—A brisk rubbing with Dr. Thomas' Electric Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is.

APPIN

The Appin Women's Institute will hold their regular monthly meeting in the town hall, Appin, on Thursday, May 29th, at 2.30 p. m. Miss Marion McTavish, Parkhill, a graduate of the normal course of domestic science of McDonald Institute, will give an address. A full attendance of all the ladies of the community is requested as this promises to be an interesting meeting. A good program of music is being provided.

GENERAL McRAE'S VISIT

Home Town Gives Rousing Reception to Her Distinguished Son.

Despite the fact that last Friday was one of the most disagreeable days in a disagreeable season from a weather point of view, Glencoe town hall in the evening was filled almost to capacity by citizens of the community to give welcome to and do honor to Major-General A. D. McRae, one of our boys distinguished for his part in the great war.

As the town's general of the Canadian overseas forces Mr. McRae gave such evidences of ability and keen sense of the situation of affairs that he was chosen by the Canadian Club to give a series of addresses throughout the Dominion on the after-war problems confronting the Empire. The Soldiers' Aid Commission of Glencoe were fortunate in arranging a date when he could speak here, where his mother and sisters reside and where he was born and brought up.

At the gathering on Friday evening there were on the platform many returned soldiers, the general's mother, Mrs. Mary McRae, and two sisters, Mrs. Oxy and Mrs. Hetley, besides the ministers of the town, J. C. Elliott, M. P. P., and others. A beautiful bouquet of American roses was presented to the general by little Miss Kathleen Thompson, whose father, E. R. Thompson, served four years overseas. A song was sung by Savil Simpson.

General McRae's address on "Canadian Citizenship of the Future" was listened to with a great deal of interest and pleasure, and especially of local interest were his introductory and concluding remarks, in which he said: "My dear old friends and neighbors, I have known you too long and I hold the memory too dear to address you in a formal manner tonight. I appreciate you and the honor you do me to be more than my words can tell. I am quite overcome. I would sooner have the privilege of giving this address here in the town hall than in the marbled theatres of the world's metropolises. My speech is indeed small when compared with the great accomplishments of others during the last few years. I only did my duty as I saw it. No man could do less. That my dear old neighbors are pleased to hear my address is a pleasure to me, and I honor it repays me for all my work many times over and helps me on to better things. The only neighbors we ever have are those we make in our youth. Friends good and true we after make, but neighbors in the true sense of the word never again. To me as I look back they were the friends of my father and mother, and what friends of too I fit some of them into every noble character I read in the books of fiction of the early days of hardship in what is now the garden of our great Dominion—Western Ontario. How well you fit the pioneer in you dear, wonderful, old pioneers, with your strong, honest, generous, self-sacrificing, God-fearing natures. What a birthplace for the present generation, and how should we guard it so that it may continue for all time to come an everlasting source of strength to the manhood and womanhood of the nation. I would be unworthy of the parents that gave me birth if I failed to pay homage and acknowledge the debt of my generation to the great British people who settled this province during the first half of the last century. They have left their impress on Canada for all time. They laid the foundation for the grand Canadian patriotism of which we are all so justly proud tonight. And what a heritage for those who during that time were called to enjoy the privilege of life. Greater than gold, greater than anything living man could possess, was the sound and wholesome mind and body passed down to us from our God-fearing, simple-living parents. I would not trade the strength of either body or mind given to me on an Ekfrid farm for all the riches of men. Money or wealth is but a convenience; sound health and minds are essential to happiness and success. Possess them, and a sufficiency of worldly goods is seldom denied you. What an inheritance to give to your children when sending them into the world; so unlike the usual fortunes which so often corrupt and so generally disappear. I never tire of paying tribute to my birthright and the older I get the more I look back with thankfulness to my early life among you. I owe you a great debt I can never hope to repay. In the enthusiasm and ambition of youth the boys on the farm are apt to look with longing eyes at glittering advantages of the city. Be not deceived; it is but the tinsel that fades into disfavor in the morning light. The disappointments of early life are of but the moment. It is these failures of later life which prove so fatal to our hopes, our ambitions and our happiness. My experience has taught me that in the sea of life my inheritance was the only kind worth while. The boy from the farm has only the temporary disadvantage of strange surroundings, but if he will tie fast to the sound principles of all life as he has learned them in his close contact with Mother Nature he can walk courageously ahead, with caution, perhaps, but quite without fear, and make good in all moves of life. What lessons

must he learn before success? If I were to describe myself, I was but a small, rough chunk of granite from the old block, suddenly thrown into the surf of the world, where my rough corners ill fitted with the smooth ones that moved backward and forward with the tides of time. Fortunately my corners began to wear down, otherwise I should have found myself thrown out stranded on the beach already strewn with the wrecks of many unable to find a place below the water's edge, all due to their accepting the new life on quickly-conceived notions of their own instead of following the teachings of Mother Nature, whose principles hold good in all the modes of life. I might be tempted to give you a lecture on success, but I have not yet reached the last years allotted to man. My effort must yet wait several years for judgment."

General McRae then proceeded with his subject, which has been fully reported in the daily press. In conclusion he said: "I cannot leave you tonight without again expressing my very deep feelings for your wonderful kindness. It brings back memories long gone by; recollections of faces we will see no more. As we grow older it seems that the thoughts of man like so much of nature returns to the place of his birth, and I assure you that this night will bring me in memory back to you until the end of my days. It has been a great pleasure to see again the friends of youth and to know that long separation, even a quarter of a century, has not been sufficient to make us forget. You hold many memories that are dear to me. Your success and good fortune will be my pleasure; your adversities will always be my concern. I wish you all, your children and your grandchildren, the full share of this world's happiness, with which our forefathers and forefathers have so richly endowed us. And to those of you who are nearing the end of life's day, as the lengthening shadows fall, may the stars of eternity bursting through the boughs of the trees lining the path all mortal men must tread, lead you on your way to the Great Beyond."

THE SEASON

Some of our weather prophets are now predicting that the heavy rains which have been soaking the ground almost every day for the past three weeks have run their course and that the heavy spring showers have now passed for the year. It is also prophesied that we are about due for an extra dry spell which will set in about the 25th of this month. Although spring work is not quite as far advanced as it was last year at this time, everything is growing at a rapid rate, and fields and gardens are furiously working their course and the heavy spring showers have now passed for the year. It is also prophesied that we are about due for an extra dry spell which will set in about the 25th of this month. Although spring work is not quite as far advanced as it was last year at this time, everything is growing at a rapid rate, and fields and gardens are furiously working their course and the heavy spring showers have now passed for the year. BRITISH MACHINE FIRST TO MAKE TRANS-ATLANTIC FLIGHT

Australian Aviator, Harry G. Hawker, in Sopwith Biplane, Left St. John's, Nfld., at 1.55 Sunday Afternoon and Made Trip in Twenty Hours.

Toronto, May 19.—Harry G. Hawker and Commander Mackenzie Grieve have successfully made the trans-Atlantic flight from Newfoundland to Ireland.

St. John's, Nfld., May 18.—Harry G. Hawker, Australian aviator and Commander Mackenzie Grieve, his navigator, were winging their way across the Atlantic to-night on the most perilous airplane flight in history.

They took the air at 5.55 to-day, Greenwich time (1.55 p.m. New York time), and expect to reach the Irish coast in twenty hours unless some accident forces them to plunge into the sea.

When the Sopwith biplane passed from view beyond the hills to the northeast, headed for the open sea, it left behind with shattered hopes, Hawker's English rival, Frederick P. Raynham, who had hoped to be first across in a Martinsyde plane to win glory and the \$50,000 prize of The London Daily Mail.

Raynham was tuning up the engine of his machine when Hawker flashed over the Englishman's air-drome, dropping as he went the under-carriage of his Sopwith to lighten the load he must carry. Raynham and his navigator, Chas. W. F. Morgan, realized then that the Australian was on his way. Instantly they determined to follow him, for all their preparations had been made weeks ago, but misfortune intervened.

As the Martinsyde "taxied" along the uneven surface of the runway, preparatory to the take-off, a rear axle broke under its heavy load, and the machine plunged into the ground. Pilot and navigator were jammed in the wreckage but apparently neither was seriously hurt.

While Raynham's machine was being treated Hawker was well on his way. Sunday sight-seers listlessly watching what they supposed was to be a trial flight of the Sopwith, were amazed when they saw the under-carriage drop like a plum near the Martinsyde air-drome. They knew it meant Hawker had determined to carry on no longer for it left him without landing equipment, but lightened his craft for its hazardous voyage.

If the daring Australian wins his gamble with death it will bring him first honors in the non-stop trans-Atlantic race, undying fame and a rich prize. He decided to risk everything when he heard of the arrival of the United States navy's seaplane NC-4 at Horta, and reiterated his statement that he would "beat the Yankees across," although the venture of the navy aircraft has no bearing on the Daily Mail contest, nor did they attempt a non-stop flight.

The intrepid youths who drove their planes out over the eastern horizon to-day in an attempt to win for Britain and for themselves the glory of the first transatlantic air flight left the ground with doubtful chances of survival should their venture meet with mishap in mid-ocean.

Harry G. Hawker and Lieutenant-Commander Mackenzie Grieve, his skipper, who were ensnared in full length, non-sinkable suits, had a degree of assurance in an ingeniously built boat, shaped so as to form the rear hood of their fuselage, and provided by experiment to possess considerable seaworthiness and outfitted with provisions and signalling devices.

LEADING MARKETS

Breadstuffs.
Toronto, May 20.—Manitoba Wheat—No. 1 Northern, \$2.24 1/2; No. 2 Northern, \$2.21 1/2; No. 3 Northern, \$2.17 1/2; No. 4 wheat, \$2.11 1/2, in store Fort William.
Manitoba oats—No. 2 CW, 74 1/2; No. 3 CW, 71 1/2; extra No. 1 feed, 71 1/2; No. 1 feed, 68 1/2; No. 2 feed, 65 1/2.
Manitoba barley—No. 3 CW, \$1.15 1/2; No. 4 CW, \$1.08 1/2; rejected, 98 1/2; feed, 98 1/2.
American corn—Nominal.
Ontario oats—No. 3 white, 74 to 76, according to freight outside.
Ontario wheat—No. 1 winter, per car lot, \$2.14 to \$2.20; No. 2 do, \$2.11 to \$2.19; No. 3 do, \$2.07 to \$2.15, f.o.b. shipping points, according to freight.
Ontario wheat—No. 1 spring, \$2.09 to \$2.17; No. 2 do, \$2.06 to \$2.14; No. 3 do, \$2.02 to \$2.10, f.o.b. shipping points, according to freight.
Peas—No. 2, \$2.05, nominal, according to freight outside.
Barley—Malt, \$1.10 to \$1.15, nominal.
Buckwheat—No. 2, nominal.
Manitoba flour—Government standard, \$1.1, Toronto.
Ontario flour—Government standard, \$1.1, in jute bags, Toronto and Montreal, prompt shipment.
Milled—Car lots delivered, Montreal, freight, bags included. Bran, \$42 per ton; shorts \$44 per ton; good feed flour, \$23.50 to \$27.50 per bag.
Hay—No. 1, \$20 to \$23 per ton; mixed, \$20 to \$24 per ton, track to Toronto.
Straw—Car lots, \$10 to \$11 per ton.
Country Produce—Wholesale.
Butter—Dairy, tubs and rolls, 38 to 40c; prints, 40 to 42c. Creamery, fresh made solids, 50 to 51c; prints, 51 to 52c.
Eggs—New laid, 45 to 46c.
Dressed poultry—Chickens, 30 to 34c; roosters, 25c; fowl, 30 to 33c; ducks, 32c; turkeys, 40 to 45c; squabs, doz., 85c.
Live poultry—Roosters, 25c; fowl, 28 to 33c; ducks, 30c; turkeys, 40 to 45c. Wholesalers are selling to the retail trade at the following prices:
Cheese—New, large, 30 to 30 1/2c; twins, 30 1/2 to 31c; triplets 31 to 31 1/2c; Stilton, 31 to 31 1/2c.
Butter—Fresh dairy, choice, 48 to 50c; creamery, solids, 54 to 55c; prints, 55 to 56c.
Margarine—34 to 37c.
Eggs—New laid, 49 to 50c; new laid, in cartons, 51 to 52c.

Provisions—Wholesale.
Smoked meats—Hams, medium, 39 to 41c; do, heavy, 33 to 34c; corned, 34 to 36c; rolls, 33 to 34c; breakfast bacon, 44 to 46c; backs, plain, 47 to 48c; boneless, 52 to 55c.
Cured meats—Long clear ham, 29 to 30c; clear hams, 28 to 29c.

Montreal Markets.
Montreal, May 20.—Choice select hogs off cars \$21 to \$21.50 per cwt. Choice steers, \$14 to \$15.50; inferior quality, \$9. Choice butcher cattle, \$10 to \$12; poorer grades, \$8.50 to \$10. Milk-fed calves, \$6 to \$10.
Montreal, May 20.—Oats, extra No. 1 feed, 84c. Flour—New standard grade spring wheat, \$1.11 to \$1.11 1/2. Rolled oats, bag 90 lbs., \$3.90 to \$4. Bran—\$3.10 to \$4.10. Shorts—\$4.50 to \$4.60. Toronto, May 20.—Good heavy steers, \$14.50 to \$15; butchers' steers, \$13.50 to \$14; do, good, \$13 to \$13.50; do, medium, \$12 to \$12.50; do, com., \$10.25 to \$10.75; bulls, choice, \$11.75 to \$12.50; do, medium, \$10.50 to \$11; do, rough, \$8 to \$8.50; butchers' cows, \$12 to \$13; do, good, \$10.50 to \$11.50; do, medium, \$9.25 to \$10; do, com., \$8 to \$8.50; stockers, \$8.75 to \$12; feeders, \$12 to \$13.50; canners and cutters, \$5 to \$6.75; milkers, good to choice, \$90 to \$150; do, com. and med., \$65 to \$75; springers, \$90 to \$100; light ewes, \$13 to \$15; yearlings, \$12 to \$14; choice lambs, \$18.50 to \$20; spring lambs, \$12 to \$15; calves, good to choice, \$14 to \$16; hogs, fed and watered, \$21.25; do, weighed off cars, \$21.50; do, f.o.b., \$20.25.

THE COMMERCIAL CLUB.
Has our community a Commercial Club? How often does it meet? Once a year or EVERY DAY? What is our club doing to increase its membership? Has it BURED the last of the knockers? How many factories has it secured in the last ten years? The BEST towns have a Commercial Club meeting EVERY day in the year. New members are added every day. The membership takes in farmers as well as business men. There is something DOING all the time. The greatest energy is expended on boosting the HOME market. Everybody works at this, and the result is the Commercial Club puts the town on the MAP as a LIVE community. This is all true of the BEST towns. Is OUR town in this class? Are WE content to be anything less than the BEST? Let's get into THAT class, and work EACH day to STAY there.

CENTENARY OF QUEEN VICTORIA

BORN AT KENSINGTON PALACE, LONDON, MAY 24, 1819.

Some of the Characteristics Which Made Her One of Britain's Most Successful Monarchs.

In celebrating "The Queen's Birthday" on Saturday, "the 24th of May," Canadians will also be celebrating the centenary of the birth of the late Queen Victoria.

Born on the 24th of May, 1819—in England instead of Germany—because her parents purposely returned from their German sojourn in time to make her a native of the country which they foresaw she might one day play a leading part in, she lost her father, the Duke of Kent, before she was a year old, and was thenceforth under the care of her careful German mother, and her shrewd uncle, Prince Leopold, who, even after becoming King of the Belgians, continued to write her helpful letters, the answers to which are not the least interesting part of her voluminous published correspondence.

A Queen at Eighteen.

Her mother and the eccentric old monarch, William IV., quarreled continually, but the old man seems rather to have liked his youthful heiress apparent. At his death, only a short time after she had attained her majority, the 18-year-old girl became queen of the mightiest nation on the globe. The student of her life is struck by the quiet composure with which the child shouldered the burden, but he is more impressed still, as he reads on, by the tact and wisdom with which she carried it, from start to finish. Endowed with no apparent remarkable intellectual gifts, she nevertheless proved one of the most successful monarchs of history. Her record shows pretty conclusively that qualities of heart are as useful in high places as qualities of head.

Lord Melbourne, the Prime Minister of those early days, violent in temper and rough in speech, but discreet and tactful withal, deserves a great deal of the credit for his first successes. She was very much in love with her young husband, Prince Albert, of Saxe-Coburg, and insisted again and again that his title of Prince Consort be changed to King Consort, and that, as was the case with William and Mary, he be empowered to rule jointly with her.

ANNUAL INTEREST 23 BILLION MARKS

French Confidence in Enemy's Ability to Pay Appears Unfounded.

A despatch from London says: The correspondent of the Daily Telegraph in Paris wires his paper under date of Wednesday: "Those here whose apprehension of grave financial difficulties in France from the heavy war burthen has been quieted by assurance too confidently made in some quarters, perhaps, that Germany might and can pay, have been painfully awakened to realities by the financial conditions of the peace treaty, and by the statement of the new German Finance Minister, Herr Durnburg, just published in the Kolnische Zeitung."

"The German public debt, according to Herr Durnburg, totalled 161,000,000,000 marks on January 31, 1918, and had increased to 185,000,000,000 marks on April 30 last, consequent upon further issues of Treasury bills in the beginning of the year. The floating debt and issue of bank notes continues to grow with utter interruption."

"Herr Durnburg alleges that the annual burden laid on the shoulders of German taxpayers from this debt will amount to 17,500,000,000 marks. But this does not represent the total charges that the public debt will require from the taxpayers of the Empire. There must be added interest on the special debts of the several Federal states and townships which needs annually another sum of 6,000,000,000 marks to cover it. Therefore, the grand total that the Empire will have to pay in interest each year stands at over 23,000,000,000 marks."

U.S. Navy Dirigible Disappears.
And Is Believed to Be Lost.
A despatch from Tripassey, Nfld., says: The navy dirigible C-5, which was swept to sea yesterday, is now believed to have been lost. The destroyer Edwards, which went in pursuit, reported by wireless that she had been unable after a search to find her and was returning. A merchant steamer which reported that she was standing by the big balloon subsequently sent a message that she was unable to stand by longer and proceeded on her way, according to information from the Edwards.

Denikin Frustrates Plan To Bistect His Russian Army
A despatch from London says: General Denikin, commander of the anti-Bolshevik forces, has frustrated by a counter-offensive the Bolshevik plan to bistect his army by capturing Rostov-on-the-Don, at the head of the Sea of Azov. The Bolshevik have been compelled to move their positions to the northward.

GENERAL STRIKE IN WINNIPEG

City Without Bread—All Efforts at Settlement Have Failed.

A despatch from Winnipeg, Man., says: Winnipeg is in the throes of a general industrial upheaval. In spite of the energetic efforts made by Premier T. C. Norris and Mayor Charles F. Gray, in spite of numerous meetings at which workers and employers attempted to come to a basis of understanding, the threat of labor has been carried into effect. As a last resort Ottawa was appealed to by the Mayor, Senator Robertson, Minister of Labor, can do nothing. He wired in reply to the message sent last night by Mayor Gray stating that when conciliation and arbitration were declined, "and the workers refused to respect the governing powers of their organizations," the Government could do nothing. He added that it was regrettable that the metal trade employers would not meet their employees' chosen representatives for the purpose of discussion.

Winnipeg is now breadless. Bakers in most of the bake shops left work promptly at 11 o'clock a.m. on Thursday. Drivers also quit work.

The Webb pressmen have decided to remain at work, and this will mean that all the local newspapers will continue publication.

Free automobile rides for pedestrians is again the order in the city streets. The question of the city's granting the jitneys permits to operate is being considered.

A later despatch says: Winnipeg entered the second day of the general strike, called in sympathy with the building trades and metal workers, without disorder of any kind being reported, and with the addition to the ranks of the strikers of the telephone operators and telephone electrical workers.

At a meeting held on Friday the strikers and Webb pressmen decided to join the general strike, and as a result all three Winnipeg daily newspapers will undoubtedly be obliged to suspend publication.

ONE U.S. PLANE SUNK, SECOND MISSING

One of the Three Naval Seaplanes Attained First Objective in Trans-Atlantic Flight.

Ponta Delgada, May 18.—The American naval seaplane NC-4 under Lieutenant-Commander Albert C. Read, has attained its first objective in the trans-Atlantic flight, having landed safely at Horta, Island of Fayal, Azores, Saturday, after winging her way from Tripassey Bay, Nfld., in 15 hours and 13 minutes.

The steamer Ionia with the crew of the seaplane NC-1 aboard arrived at Horta Sunday. The NC-1 sank 120 miles off the Island of Flores.

The cruiser Columbia, at Horta, Fayal, reported shortly after noon to-day that she had intercepted messages passing between destroyers to the effect that the missing seaplane NC-3 had been forced to alight between stations 17 and 18, 100 miles from Horta, where the seaplane was last heard from at 9:15 o'clock, Greenwich time, Saturday morning. The Columbia reported that destroyers were searching for the flagship of the seaplane fleet.

The NC-4 reported to-day that the weather there was unfavorable for a continuation of the flight to Ponta Delgada.

FINALLY DROPPED INTO SEA 85 MILES OFF THE SHORE

A despatch from St. John's, Nfld., says: The United States navy dirigible C-5, which escaped from its moorings here on Thursday, dropped into the sea about 85 miles off shore, according to a radio message received by the cruiser Chicago from an unidentified British steamship. The steamship said it was standing by the dirigible. The destroyer Edwards, which went out in pursuit of the Blimp after it was blown to sea, was notified by wireless of its position and started at once to salvage the airship.

FROM OLD SCOTLAND

NOTES OF INTEREST FROM HER BANKS AND BRAES.

What Is Going On in the Highlands and Lowlands of Auld Scotia.

Military Medals have been awarded to two Hawick soldiers, Corporal John Montgomery and Signaller W. G. Smith.

The Military Cross has been awarded to Rev. Duncan Blair, minister of the Prestonkirk U.F. Church, for gallantry and devotion to duty.

A shrine of oakwood taken from H.M.S. Britannia has been placed beside the North Berwick Church in memory of soldiers and sailors who have fallen in the war.

The three German field guns, given to Linlithgow as war trophies, have been placed in position in front of the Sheriff Court Building.

The death took place recently at Dundrennan, of David Maitland, Deputy Lieutenant of Kirkcubrightshire since 1878.

The Victoria Cross has been awarded to Lieut.-Col. Clark-Kennedy, Knockgray, Carstairs.

The Military Cross has been awarded to Alex. W. Davidson, son of Rev. A. P. Davidson, late of Stirling U.F. Church.

Miss Ramsay Smith, daughter of J. Ramsay Smith, Kingsmuir Hall, Peebles, has been awarded the Croix de Guerre.

Borderers who are residents of Lawrance, Mss., have sent a £20 victory gift and money pairs of socks to the Galahiel's Soldiers' Comfort Fund.

The Galahiel's Town Council have decided to extend the Municipal Buildings, as a memorial to Galahiel's men who have fallen in the war.

The Meritorious Service Medal has been awarded to Lance-Corporal J. H. Henderson, Coldstream, Guards, Hawick.

The D.S.O. has been awarded to Lieut.-Col. Stuart McAlpin and Lieut.-Col. W. H. Forsyth, both of Hawick.

Mr. and Mrs. John Vetch, Somerset House, Chiswick, recently celebrated their golden wedding.

The death is announced at Kilmors, of ex-Proctor George Stirling, in his seventy-sixth year.

The Military Medal has been awarded to Sergeant W. Macrae, son of Mr. Macrae, Oldplace, Kilsyth.

Adam Scott, of Solihull, has received the O.B.E. in recognition of work done for the Y.M.C.A. in France.

A concert organized by Mrs. Hadley, of Kelso, on behalf of repatriated prisoners, realized £70.

The trustees of the Carnegie Hero Fund have awarded a silver watch and ten pounds to Margaret G. Williamson for saving a man from drowning at Dunblane.

Major James Pender has been elected chairman of Dumfriesshire and Galloway Combination Hospital Board.

The death is announced at Cornamore, Oban, of John Voss, marine engineer, a native of the Isles of Mull.

A rare specimen of a white, thirty-nine feet long, and with a creamy white skin, has come ashore at Machrihanish, Argyllshire.

J. C. Sharpe, who has been chairman of the Dumfriesshire Parish Council for the past twenty-eight years, has been unanimously re-elected.

Major James McLennan, son of Mrs. McLennan, Orcharthorpe, Colvend, has been awarded the D.S.O.

The Victoria Cross has been awarded to the late Sergeant Louis McGuffie, son of Mrs. E. McGuffie, Wigtown.

The Hon. Her Highness has been appointed receiver and sur. Herbert Maxwell vice-conveyer for the County of Wigtown.

The Rothsay Town Council have agreed to divide the Marquis of Galt's wedding dowry between two old women of the town.

Three of the four captured German gun allocated to Aird for exhibition purposes have arrived and been placed in Meadow Place.

The Distinguished Service Medal has been awarded to Sergeant Higgins, Dumfriesshire, Hawick.

His Complaint.
He was fond of playing jokes on his wife, and he thought he had found a winner.

"My dear," he said as they sat at supper, "I heard such a sad story to-day about a young girl. They thought she was going blind, and so a surgeon operated on her and found—"

"Yes," gasped his wife expectantly. "That she'd got a young man in her eye," finished the husband with a chuckle.

For a moment there was silence. Then the lady remarked slowly: "Well, it would all depend on what sort of young man it was. Some of them she could have seen through easily enough."

The Higher Hope.
The son of the family was home on his first vacation since he had attained to the dignity of college perfect. He had his father were discussing affairs of the day and finally the boy remarked:

"Say, Gov., I hope when I am as old as you are I'll know more than you do."

"I'll go you one better, my boy," the father replied. "I hope that when you are that old you will know as much as you think you do now."

LAST LETTER OF MARTYRED NURSE

EDITH CAVELL'S FAREWELL TO
HER BRUSSELS PUPILS.

Urges Devotion to Duty, Warns Again
at Uncharitable Speech and
Reviews Past Work.

The body of Edith Cavell, the martyred English nurse, was recently conveyed from Belgium to its last resting place in her native land. In this connection it is interesting to read the remarkable letter written by the doomed nurse on the eve of her execution, October 12, 1915, to her nurses at the Ecole Belge d'Infirmiers Diplomes in Brussels, Belgium. In it Miss Cavell mentions the eight years in which she was directress of the school, and in words suffused with pathos, she utters her farewell as an eloquent testimony to the nobility of a victim to German ruthlessness. It will rank in history as one of the most remarkable documents left by the great war.

The letter, which was originally written in French, is translated as follows, dated October 11, 1915:

"Prison of St. Gilles, Brussels.

"My dear Nurses: I am writing to you in this sad hour to bid you farewell. You will remember that September 17 brought to an end the eight years of my direction of the school. I was so happy to be called to help in the organization of the work that our committee had just founded, on October 1, 1907. There were but a few pupils. Now you are already quite numerous—fifty or sixty, I think.

Eight Years of Service.

"I have told you on different occasions the story of those early days, and the difficulties that we encountered, even to the choice of words for your 'hours on duty' and 'off duty.' In Belgium all was new in the profession. Little by little one service after another was established, graduate nurses for private nursing, pupil nurses, the hospital of St. Gilles. We supplied the institute of Dr. Depaere, the sanatorium of Bussines, the clinic of Dr. Mayer, and how many are called upon, as you may be, perhaps, later, to nurse the brave wounded of the war. If this past year our work has decreased, it is due to the sad days through which we are passing. In happier days our work will renew its growth and its power for good.

"I speak to you of the past because it is wise occasionally to stop and look behind over the road that we have travelled, and to note our errors and our progress. In your beautiful building you will have more patients, and all that is needed for their comfort and for yours. To my regret I was not always able to speak to you individually. You know I had much to occupy my time, but I hope you will not forget our evening talks. I told you that devotion to duty would bring you true happiness, and that the thought that you had done your duty, earnestly and cheerfully, before God and your own conscience, would be your greatest support in the trying moments of life and in the face of death.

Be Charitable and Loyal.

"Two or three of you will remember the little talks we had. Do not forget them. Having already travelled so far through life I could perhaps see more clearly than you and show you the straight path.

"One word more. Beware of uncharitable speech. In these eight years I have seen so much unhappiness which could have been avoided or lessened if a few words had not been whispered here and there, perhaps without evil intention, but which ruined the reputation, the happiness, the life even of someone. My nurses should cultivate among themselves loyalty and esprit de corps.

"If anyone of you has a grievance against me I pray you to forgive me. I may sometimes have been too severe but I was never willingly unjust, and I have loved you all far more than you realize.

"My good wishes for the happiness of all my young girls, both those who have graduated and those who are still in the school, and I thank you for the courteous consideration you have always shown me.

"Your devoted directress,
"Edith Cavell."

Wait!

"Phwat's that noise, Mrs. Mullaly?"
"Mary Ann's practicin' th' scales."
"Begorra! she must weigh a ton!"

The word meander is derived from Malandros, a winding river in Asia Minor.

Spanish paper money bears the portraits of great literary men, painters, musicians, generals and other notables of the nation.

Every time a man stops work he throws that much extra burden on others; he creates that much more poverty for the world.

Canada must increase exports of manufactured goods to help to pay the war debt, the Can. Trade Com. thinks. Exports of agricultural products cannot well be increased.

The inspection of millions of dollars' worth of Roumanian goods bought under Canadian credits is being feverishly carried on under the C. T. C. The first shipment goes May 20th.

OPINIONS ON WORLD PROBLEMS

BY CHAS. M. RICE, B.A., LL.B., DENVER, COLORADO.

BREAKING THE PACT.

Italy, in 1914, was a member of the "Triple Alliance," composed of Germany, Austria-Hungary and Italy—but she did not join with the other two in the war against France and Russia. Her King and cabinet took the position that the war was one of aggression on the part of the Central Powers, and the Alliance referred only to wars of defence. The Alliance was formed a generation ago, the aim at the time being to keep the larger Continental powers from getting mixed in the Balkan imbroglios.

Three months after the Great War began Italy joined the Entente on a quarrel with Vienna over the future disposition of territory, and in the belief that the success of the Teuton forces would interfere with the temporal authority of the Quirinal. Before joining the Allies as against her former associates, Italy made certain, as she thought, of her future.

A secret agreement was required restoring to Italy after the war what was known as Italia Irredenta, including the Adriatic coast. We are not informed of what took place at London before Italy announced her determination to oppose the Teuton. It may be that Britain and France were willing to give consent, or it may have been a question of necessity, of self-preservation. Italian aid was required in the war, it was almost life and death with the other powers fighting Germany at that time, and Italian demands could be stiff and there would be no way out; besides it was enemy territory that was involved. The Italian treaty was not the only one. France and Britain at the time had to play the game as it had been played since Europe was in the making, and make morally doubtful alliances to prevent practically the whole of Europe going with Germany.

When the United States went to war against Germany it was not an ally of the Allies. Diplomatic correspondence places this nation as "associate in the war" with the other nations. In other words, Washington retained a free hand; she was not a party to the secret pacts and understandings between the Allies.

Mr. Wilson, as we know from his addresses, had his own view without the aid of the U. S., the settlement would have been along the old lines. Europe would have been carved in accord with the exigencies of the war. Italy would have received her share according to the London pact; France would have made the Rhine the new boundary with a twelfth zone, perhaps, on the eastern side of it, as added guarantee against another attack. Poland would have received Danzig and other concessions. Jugo-Slavia would have been compensated for the loss of Fiume from another quarter. Instead of the League of Nations there would have been a balance of power.

Naturally the Italian representatives at Paris are calling for the fulfilment of the secret treaty that brought Italy to the side of the Allies, and Clemenceau and George feel as if the little talks we had. Do not forget them. Having already travelled so far through life I could perhaps see more clearly than you and show you the straight path.

But if the newly-created Southern Slav nation is to live it must have an economic outlet. She asks that Fiume be given to her as her "window by the sea," hence the hitch in the peace conference. We expect to see Italy give in and abandon her claims as soon as she realizes what it means to perish in her obstinacy.

MORE GERMAN BLUFF.

Germany is talking defiantly as to what she will and will not accept from the peace conference, and some observers in the European watch-towers seem inclined to take seriously the threatening talk and attitude of German leaders.

One after another of those who profess to speak for the new Germany declare the peace terms will not be signed if they fail to conform to the Hun idea of what is right or just. Ebert says Germany will not yield Danzig; Dernberg says Germany must be admitted at once to the League of Nations on an equality with the other nations or she will decline the peace proposals. Schiffer, Minister of Finance, makes oath that not an inch of territory east or west will be surrendered by Germany.

Bluff it may all be. Bluff we have been inclined to regard it, but a bluff so defiant, so outspoken and plain as to make recession difficult on the part of the German leaders if they fail to frighten the Allies into modifying the peace terms. They are arousing popular feeling to a point where they may have to stand by their defiance. Why are these leaders so bold? One obvious reason is the encouragement they have been given by a section of the Allied press, and by events and conditions in Allied countries.

The Paris cable conveyed in guarded language that a deadlock had been created at the Conference because of the insistence of France for boundary protection and guarantees against another German attack, together with the refusal of Pres. Wilson to go beyond a certain point outlined by him in his fourteen points' address of Jan. 8, 1918, and his correspondence with German officials previous to the signing of the armistice.

It is claimed for Mr. Wilson that he gave his word to the enemy nation that would be exacted in territory, and in what manner the territorial concessions would be made, and he cannot recede from that position. Once again it is intimated that the German armies quit fighting under assurances of kindly treatment.

From all of which we beg to dissent. Germany was whipped to a standstill, and her armies would have had to surrender in a few weeks at most if peace terms had not been asked to save them. Germany was beaten internally and externally, on land and sea. The countries she had dragged on in fighting her battles were deserting her; she had nothing to look forward to but defeat and a nation-wide revolution.

The Wilson terms were too vague when published to be closely scrutinized at this time, and conditions have undergone a mighty change since they were uttered. Germany did not of her free will accept them until certain defeat stared her in the face.

If sentimentalism and idealism are permitted at the peace table there will be another outbreak in less than half the time usually separating continental wars. The whole issue rests on Russia.

If terms are to be made with the Bolshevik regime, it will be only a few years until Germany is the "mandatory" in fact of Greater Russia. Germany will not have to send armies to accomplish her purpose; she will be appealed to to cross over and save the empire from anarchy.

The Peace Congress has nothing to do with the old lines in Europe. A new Europe has been created from the convulsion. Just as it stands, without any intervention of peace cartographers, it is all in favor of the enemy nation. Cannot the idealists see this in time to avert disaster? Before the war Russia was the buttress that saved France. Germany, until a short time ago, feared Russia. The aim of Berlin was to break the Franco-Russian Alliance, and the moment it was broken the German armies would be flocking over the border.

OTHER IF WE WOULD KEEP IN TOUCH WITH THE PEACE TABLE.

The London cable dealt with a so-called American mission to the Russian Bolsheviks. The missionaries were Lincoln Steffens and William Bullitt. The former is pretty well known through his muckraking and "butinsky" propensities. The latter is local to his Southern State. Where Mr. Steffens is there is bound to be mischief afoot.

The Paris cable conveyed in guarded language that a deadlock had been created at the Conference because of the insistence of France for boundary protection and guarantees against another German attack, together with the refusal of Pres. Wilson to go beyond a certain point outlined by him in his fourteen points' address of Jan. 8, 1918, and his correspondence with German officials previous to the signing of the armistice.

It is claimed for Mr. Wilson that he gave his word to the enemy nation that would be exacted in territory, and in what manner the territorial concessions would be made, and he cannot recede from that position. Once again it is intimated that the German armies quit fighting under assurances of kindly treatment.

From all of which we beg to dissent. Germany was whipped to a standstill, and her armies would have had to surrender in a few weeks at most if peace terms had not been asked to save them. Germany was beaten internally and externally, on land and sea. The countries she had dragged on in fighting her battles were deserting her; she had nothing to look forward to but defeat and a nation-wide revolution.

The Wilson terms were too vague when published to be closely scrutinized at this time, and conditions have undergone a mighty change since they were uttered. Germany did not of her free will accept them until certain defeat stared her in the face.

If sentimentalism and idealism are permitted at the peace table there will be another outbreak in less than half the time usually separating continental wars. The whole issue rests on Russia.

If terms are to be made with the Bolshevik regime, it will be only a few years until Germany is the "mandatory" in fact of Greater Russia. Germany will not have to send armies to accomplish her purpose; she will be appealed to to cross over and save the empire from anarchy.

The Peace Congress has nothing to do with the old lines in Europe. A new Europe has been created from the convulsion. Just as it stands, without any intervention of peace cartographers, it is all in favor of the enemy nation. Cannot the idealists see this in time to avert disaster? Before the war Russia was the buttress that saved France. Germany, until a short time ago, feared Russia. The aim of Berlin was to break the Franco-Russian Alliance, and the moment it was broken the German armies would be flocking over the border.

Russia is out of the game now, permanently, many fear, for a long time, the most optimistic concede. What is to take the place of Russia? A number of "self-determination" States newly hatched, unstable of necessity, and liable to fly asunder.

If it be contended that the loss of Alsace-Lorraine and parts of Polish Germany will cripple that empire, the answer will be that through the disintegration of Austria-Hungary, Germany will gain in territory and population more than will be taken from her by France and Poland. Germany will be sufficient of herself, and will draw her raw material from Russia.

A "soft" peace means an early resumption of war, and France knows it. But a League of Nations is to be founded. Yes, but if Germany gets control of Russia and Austria she can establish a league of her own.

Ask for Minard's and take no other.

What Has Britain Done?

What Has England Done?

Kept the faith and fought the fight. For the everlasting right; Chivalrously couched her lance In defence of Belgium, France.

This Has Britain Done.

What Has Britain Done?

Given every seventh son, Met the challenge of the Hun; Placed her men on every field, Proud to die, too proud to yield. This Has Britain Done.

What Has Britain Done?

Answers every far-flung breeze Blown across the seven seas: "Watch and ward secure we keep, Vigilance that never sleeps." This Has Britain Done.

What Has Britain Done?

On every front, her flag unfurled, Fought a world-war round the world; Then, when all is said and done, Ask her allies, ask the Hun, "What Has Britain Done?"

What Has Britain Done?

For her slain Britannia weeps— She might boast who silence keeps. But when all is done and said, Call the roll and count her dead. And know what she has done.

—Rev. Frederic B. Hodgins, B.A.

"We learn our grandest lessons from the unlikeliest masters.—Agnes Laut.

MOTHER.

When home from school us children Came scamp'ring down the street, We'd never mind the apple tree That begged us stop and eat. We'd never mind the ball bat That lay beside the gate, Nor stop to see why Jimmy Was a whistling us to wait.

We never thought we'd home, then 'Till we'd seen mother's smile Of welcome at the window. It seemed the longest mile 'Till we reached the corner, That turned into our lane. But soon we saw her smiling We'd feel we'd home again.

Our mother at the window Just smiling at us there, Was 'bout the sweetest picture You'd find most anywhere. And if as seldom happened She wasn't there, well, then, We'd have to hunt and find her 'Fore we'd feel we'd home again.

Off times I get a thinking—Of boyhood days of yore, Of scenes and home-town faces, And yearn for them once more. The village streets so shady, The kindly people, too, Who always took an interest, In the things I used to do.

So I travel to the village I loved when I'm a kid, And I look the old town over But it don't seem like it did. 'Till at last I turn the corner, And get started up the lane. See mother at the window, Then I feel I'm home again.

ATE WHALE FOR CENTURIES.

Japan Has Today the Largest Whaling Company in the World.

For hundreds of years whale meat has been used for food in Japan, says "Asia." In the earliest books of Japanese history, there are accounts of the capture of whales with nets and the ceremonies and feasting which followed a successful hunt.

But whale meat did not become a really important factor in Japanese daily life until about twenty years ago, when modern shore whaling was introduced into the empire. The Japanese had watched closely the development in Europe of the harpoon gun and the swift little steam vessels with which whales could be taken in great numbers, and the Togo Hogel Kabuto, a Japanese whaling company, (Limited) was eventually formed to carry on operations in Japan.

Today it is the largest and most progressive whaling company in the world. When once fairly launched upon the new venture, the Japanese proceeded in a characteristically thorough way. They secured from Norway the finest equipment obtainable, and hired the most expert whalers to teach them the modern methods of killing and preparing whales.

Moreover, their efforts did not cease here, for they took not only the best from Norwegian methods, but introduced improvements adapted to their own special needs.

Would Get a Good One.

The teacher had been explaining fractions to her class. When she had discussed the subject at length, wishing to see how much light had been shed, she inquired:

"Now, Bobbie, which would you rather have, an apple or two halves?"

The little chap promptly replied:

"Two halves," exclaimed the young woman, a little disappointedly, "why would you prefer two halves?"

"Because then I could see if it was wormy."

MINARD'S LINIMENT KUMBERMAN'S FRIEND.

Water Lane.

When the world turns over and things come right again, I mean to go a-walking, all along the Water Lane—

If I pass the gate and whistle, just like I used to do, Will anybody come to me—and oh! will it be you?

Up Water Lane I'm going now—my pack upon my back, And if I sing or whistle, old Fritz is on my track—

But it leads to Dead Man's Corner and not to Governor Side, And I couldn't stop to talk to you, however much I tried.

It leads to Dead Man's Corner—and when I'm there, I know, There'll come a sudden call to me, and over I shall go

To pay old Fritz's little bill—and then come home, to you, Maybe you won't be scornful if I wear a bit of blue.

When we've turned the old world over and put things right again, I'll come a-walking slowly—all down the Water Lane—

I may not have to whistle, just like I used to do, For some one will be waiting—and surely 'twill be you.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE.

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whiteners and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

City Pets.

Tom, the country six-year-old, presenting himself one day in even more than his usual state of dust and disorder, was asked by his mother if he would not like to be a little city boy, and always be nice and clean, in white suits and shoes and stockings.

"They're not children; they're pets," he answered scornfully.

Keep Minard's Liniment in the house.

An Irish Proposal.

Paddy slipped his arm around Biddy's waist and asked, "Am I progressin'?"

"Sure," replied Biddy, "you're houldin' in your own."

How Thin He Was.

Two Irishmen were discussing the illness of a third.

"Poor Flannigan," said one. "Faith, I'm sore afraid he's going to die."

"Why should he die?" inquired the other.

"Oh, he's got so thin. You're thin, and I'm thin, goodness knows, but poor Flannigan, shure he's thinner than both of us put together."

She Knew.

Lord Reading talked at a dinner party about the cockney accent. "A cockney cook," he said, "came over and settled in Canada. Her mistress, who was a widow, told her one day how she came to lose her husband. I lost my husband on the western prairies," the woman said. "He was killed by a bison. I suppose you know what a bison is?" "Lawks, yes," said the cockney cook, "I'd like to 'ave a quid for every one I've made a puddin' in."

Too Smart!

"How many pears have I on my plate, father?" asked a smart boy.

"Two, my boy," answered his father.

"No, sir; I have four, and I can prove it."

"How do you make that out?"

"Well, sir, haven't I two pears, and don't two pairs make four?" grinned the urchin.

"All right, my son. You have two too many," said his father, getting up and reaching over "Here, mother, you take one and I'll take one, and John may have the two that are left."

Army Life.

A soldier just released from the service was the guest of friends at a dinner in celebration of his return home.

The maid had placed an elaborate array of knives and forks and spoons beside the guest's plate.

The soldier looked at the showy array, carefully selected one knife, one fork, and one spoon.

Shoving the rest of the silver from him, to the surprise of his host, he remarked:

"Too much equipment to keep clean."

WANTED.

SUBSCRIPTION AGENTS TO WORK direct for publishers, highest commission. Apply Circulation Manager, Canadian Home Journal, Toronto.

LIVE POULTRY WANTED.

50c. PAIR OF PIGEONS AND UP. Any fancy poultry to sell. Write for Prices. I. Weinrauch & Son, 16-18 St. Jean Baptiste Market, Montreal, Que.

NURSES.

NURSES EARN \$16 TO \$25 A WEEK. Learn without leaving home. Send for free booklet, Royal College of Science, Dept. 46, Toronto, Canada.

FOR SALE.

WELL EQUIPPED NEWSPAPER and job printing plant in Eastern Ontario. Insurance carried \$1,000. Will go for \$1,200 on quick sale. Box 62, Wilson Publishing Co., Ltd., Toronto.

MISCELLANEOUS.

CANCER, TUMORS, LUMPS, ETC. Internal and external, cured without pain by our home treatment. Write for free booklet, Dr. Bullman Medical Co., Limited, Collingwood, Ont.

FREE.

Do you have a headache, toothache, or any other pain? If so, you will find relief in the use of our "FREE" medicine. It is a powerful remedy for all kinds of pains, and is sold everywhere. Write for free booklet, Dr. Bullman Medical Co., Limited, Collingwood, Ont.

The Dog Came Back.

A bird dog belonging to a man in Mulvane disappeared, and the owner suspected it had been stolen. So he put this ad in the paper and insisted that it be printed exactly as he had written it:

"Lost or run away. One liver-colored bird dog called Jim. Will show signs of hydrophobia in about three days."

The dog came home the following day.

MONEY ORDERS.

A Dominion Express Money Order for five dollars costs three cents.

The poet sings of God! and the sweet earth. With night's soft teardrops wet upon her face. Opens her sleep-closed eyes and wond'ring finds God in a sun-filled place.

—Isabel Ecclestone Mackay.

Minard's Liniment used by Physicians.

The Siamese strive to have in their houses an even number of windows, doors, rooms and cupboards; for they have a superstition regarding odd numbers.

It has been discovered that in the later stages of the war the enemy was reduced to the use of thistle-fibre, which is only approximately half the strength of linen, for his aeroplane coverings.

Hurrah! How's This?

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezeone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezeone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

Rheumatic Pains.

Are relieved in a few days by taking 30 drops of Mether Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup is also known as "Extract of Roots," contains no dangerous or other strong drugs to hurt or mask the pain of rheumatism or lumbago, it removes the cause. 50c. a bottle at druggists.

Miss Flora Boyko Tells How Cuticura Healed Her Pimples.

"My face was very itchy at first, and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were small, and they were scattered all over my face and were so itchy I had to scratch and I could not sleep."

"These bothered me nearly a year before I used Cuticura Soap and Ointment and when I had used five cakes of Cuticura Soap and five boxes of Cuticura Ointment I was healed." (Signed) Miss Flora M. Boyko, Gardenton, Man., Dec. 26, 1918.

Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes, assisted by touches of Ointment as needed. Do not fail to include the exquisitely scented Cuticura Talcum in your toilet preparations. Splendid after bathing.

For free sample each of Cuticura Soap, Ointment and Talcum address post-office "Cuticura," Dept. A, Boston, U. S. A. Sold everywhere.

The Store Where Service Wins

SERVICE is the basis for modern business.

SERVICE is the foundation upon which This Store depends.

Good buying, ample stocks, worthy merchandise, all counts in winning trade and increasing sales.

Make the Closest Comparison of Real Value

Look into "quality," compare the "style," and this store will be satisfied with your decision.

"Foresight in Buying" Places This Store in a Position

to sell many lines of merchandise at less than today's "wholesale prices."

Our Clothing Room is a Busy Spot

because we have the right Stocks, the right Styles, all "under value." Suits with New Waist Seams, properly tailored to fit. Suits for Young Chaps first long trousers, youthful in appearance. Smart styles for Boys' Suits.

Buy King Hats

if you want "style" coupled with "quality." In all the new Spring shades—\$3.50, \$4 and \$4.50. Other good lines at \$2.50 and \$3.

Smart Footwear

Reasonably priced for quick selling. Ladies' Oxfords in Vici Kid and Patent Colt. Military or French heel—\$3.75 to \$5. "Empress Shoes" for real satisfaction. Prices, \$5 to \$8.50.

Special Offer

For short time only.
55¢ instead of \$1.00
12 copies of Women's Magazine, reg. \$1.80
1 copy Quarterly, including coupon good for 15¢ in purchase of pattern. 20
Total \$2.00
Buy now at 55¢ and save \$1.45

A-La-Grace Corsets

In all the newest models for 1919. The greatest "value-giver" corset made. You pay for real "quality." Have our salesladies show the different models.

REVIVING ARBOR DAY

Tree-planting is something of a lost art in Canada. For many years the health-giving and wholesome custom of having children spend one day in the year in planting trees and flowers has been neglected, but fortunately there is now a widespread movement to revive the practice. It is being urged that tree-planting is a fitting manner in which to commemorate the service of Canadians who have died in battle. The idea has much to commend it and will doubtless receive hearty support in many quarters. But if, in addition to the establishment of memorial tree plantations, interest could be renewed in the old-time Arbor day, the benefits would be more than doubled. What schoolboy of a generation or more ago who shared in the annual celebration of Arbor day but has an especial interest even now in a tree or a group of trees which he helped to plant and care for near the old school building. Both children and grown-ups are the better for associating with trees and flowers. Arbor day is an annual that merits transformation into a hardy perennial.

EKFRID MEMORIAL TABLET

Following is a corrected list, including information obtained for the "Memorial Tablet" and "Honor Roll" being prepared by the township of Ekfrid. If any of the details included are incorrect the committee desires that these shall be corrected, as it is much to be desired that information shall be correct and complete.

WHERE TO SPEND YOUR VACATION

Visit the Many Attractive Resorts in the "Highlands of Ontario"

Are you planning a vacation this year in the beautiful "Highlands of Ontario?" You could choose no better region in which to spend a holiday. Fishing, boating, bathing and golfing can be enjoyed under ideal conditions. There is the widest range of accommodation from comfortable hotels, large and small, to modest farm houses.

The whole of the wonderful "Highlands of Ontario" region has been opened up to travellers by the Grand Trunk Railway System, and there is excellent train service. Any agent of the railway will gladly assist you to map out your tour and will supply you with list of hotels, rates, etc. and illustrated booklets descriptive of the districts.

Of the resorts in the "Highlands of Ontario" the best known are probably the Muskoka Lakes. This famous district is reached through Muskoka Wharf Station (122 miles north of Toronto), and to this point run the through Muskoka trains. Connecting with these trains are the steamboats which serve all the resorts on the three lovely lakes, Muskoka, Rosseau and Joseph, which are known as "The Three Graces." Just north of the Muskoka Lakes is lovely Lake of Bays. Huntsville, 146 miles north of Toronto, is the gateway to the region. This territory is surpassingly beautiful, comprising some of the loveliest water stretches in this country of lakes. The Grand Trunk trains connect with a fleet of lake steamboats serving all the territory.

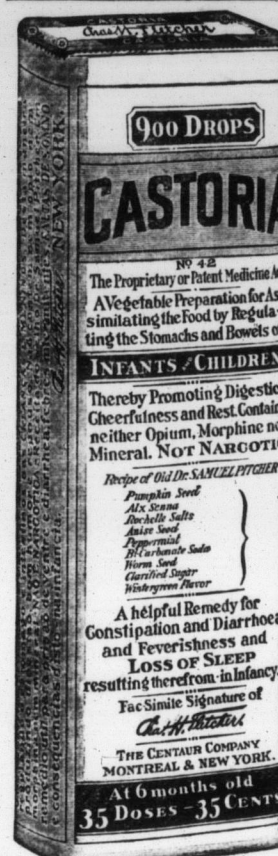

The Algonquin Park of Ontario is a great reserve of 1,700,000 acres. It is on the very ridge of the "Highlands." Its altitude above sea level averages 1,700 feet while some of the lakes in the park are 2,000 feet above the sea. The park makes an especially strong appeal to the fisherman and canoeist. There are more than 1,500 lakes in the park and the excellence of the sport draws anglers from every part of the continent. In the Algonquin Park the Grand Trunk owns and operates the Highland Inn and also log cabin camp hotels. The Algonquin Park is about 200 miles north of Toronto, and is also easily reached through Ottawa, being 169 miles west of the capital city.

The Timagami region is reached through Timagami Station, 300 miles north of Toronto. It is one of the great Canadian reserves that have been set aside for all time as playgrounds for the people. In the centre of this territory is wonderful Lake Timagami, with its shore line of 1,132 miles while there are hundreds of other lakes to invite the angler and canoeist.

KILMARTIN

Mrs. Alex. D. McAlpine announces the engagement of her daughter, Mary E., to Thomas Moore of Walkerville, the marriage to take place early in June.
Rev. Mr. Robertson preached to the Oldfellows at Melbourne on Sunday last and Rev. Mr. Martin of London occupied the pulpit here.
Miss Wills of Michigan is spending some time at William Munroe's.
Mrs. Robertson of the manse, who has been in ill health, is taking treatment at St. Joseph's Hospital, London.
Mr. and Mrs. Alex. McAlpine and daughter of Alvinston visited friends here on Sunday.
Miss Mitchell of Wallaceburg and Mrs. Bain of Detroit are visitors at A. L. Munroe's.
Mrs. Parks of Glenora visited with friends here over the week-end.
Miss Grace Woods of London is visiting at D. N. Munroe's.

Wedding invitations printed in the latest style and with neatness and despatch at The Transcript office.

TOWNS JUDGED BY APPEARANCE

We are fast becoming a nation of travelers, largely by reason of the innovation of the automobile. We travel with ease and comfort along roads never dreamt of, leading us through cities, towns and villages that we hardly knew existed, and how often we find ourselves, as we pass through a town or village, judging as to the character and standing of its people.

When you find the homes well painted, in color harmony with their environments, you will find an intelligent and prosperous people, the children "well fed and well clothed," a feeling of substantial solidity permeating the entire community and impressing itself upon the traveler, who journeys on, feeling the better by coming in contact with that which leaves a pleasing memory. These conditions create a civic as well as a personal asset of value.

How different your feelings when approaching and passing through a town or village where the homes show the lack and need of painting, the inevitable result being decay and disintegration of that which might have been a substantial asset against the day of necessity. The impression formed is that of pity, if not disgust, that any individual or community should show such criminal disregard of the value of preserving and beautifying that which they have permitted to advertise them as "shiftless" and lacking in all principles of economy. There is no better index of the character and solidity of an individual or community than the condition of his or their properties. It shows thrift or lack of it, and where thrift abides and is practiced, there you will find intelligence and prosperity.

Hon. William Martin, premier of Saskatchewan, is likely to be chosen leader of the Liberal party in the Dominion to succeed the late Sir Wilfrid Laurier. Premier Martin is a son of Rev. W. M. Martin, retired Presbyterian minister, of London.

An English manufacturing concern announces that it will place a car on the market to sell at \$250. Scarcely any wood will be used in the construction, the principal material being a new substance described as "a kind of concrete," light, but strong and durable, produced from waste material such as slag, clinkers and saw dust, covered with a metal solution.

FOUR Shingles In One Brantford ASPHALT Slab Slate

THE newest idea in roofing. Just think of the time and cost of labor saved in laying the roof of a big barn, freight shed or other large building with this new Brantford Asphalt Slab Slate which is four shingles in one. Fewer nails are also required. Brantford Asphalt Slab Slates are so cleverly designed that a roof laid with them has the appearance of being covered with individual size shingles.

One size only: 32 inch x 12 inch, with cut outs five inches. They are laid five inches to the weather. Red or green color.

Brantford Asphalt Slab Slates are made of the same materials as our famous Brantford Asphalt Slates which have given such satisfaction for artistic homes.

The same roofing in roll is called Brantford Crystal Roofing and weighs 80 to 85 lbs. per square.

Particulars about these roofings furnished on request.

TORTURED BY RHEUMATISM

"FRUIT-A-TIVES" Brought Quick
and Permanent Relief

MR. P. H. MCHUGH

108 Church Street, Montreal.

December 10th, 1917.

"I was a great sufferer from Rheu-
matism for over 10 years. I consulted
specialists, took medicines, used
lotions; but nothing did me good.

Then, I began to use "Fruit-a-
tives"; and in 15 days, the pain was
easier and the Rheumatism was
better. Gradually, "Fruit-a-tives"
overcame my Rheumatism; and now,
for five years, I have had no return
of the trouble. Also, I had severe
Eczema and Constipation, and
"Fruit-a-tives" relieved me of these
complaints; and gave me a good
appetite; and in every way restored
me to health." P. H. MCHUGH.

50c. a box, 6 for \$2.50, trial size 25c.
At dealers or sent post paid on
receipt of price by Fruit-a-tives
Limited, Ottawa, Ont.

Rev. John Elder will be inducted as
pastor of Melbourne and Riverside
Presbyterian churches on Thursday,
May 22, at 2.30 o'clock.

Owing to the unavoidable absence
of Sir Adam Beck, who was called to
Hamilton on account of the illness of
Mrs. P. D. Crenar, Lady Beck's moth-
er, the deputation which went to
London from Glencoe on Friday was
unable to secure all the information
desired regarding hydro. Glencoe's
needs, however, were fully stated to
Chairman Pocock of the Public Utili-
ties Commission, and Engineer Bu-
chanan, who promised to bring the
matter before Sir Adam Beck and ar-
range an engagement very shortly.
Chairman Pocock very kindly met the
members of the deputation at the
Utilities building and exhibited the
new quarters to them.

PERSONAL AND SOCIAL

—M. L. Farrell was in Chatham on
Saturday.

—Mrs. Lamont is visiting in Strath-
roy for a few days.

—Mrs. Farrell and her sister, Mrs.
Taylor, spent Friday in Bothwell.

—Miss Adeline Poole of London
spent the week-end at her home at
Tait's Corners.

—Mr. and Mrs. John O. McKibbin
left on Monday for their new home at
Jenner, Alberta.

—C. W. Davidson of Woodstock was
in Glencoe on Tuesday attending the
funeral of Mr. Roome.

—Craig Hyndman of Windsor
recently spent a few days with his
grandmother, Mrs. W. G. Craig.

—Mrs. D. G. McPherson of Rodney
has returned home after visiting rel-
atives and friends in Glencoe and vic-
inity.

—Miss Winnifred Poole spent the
week-end with her aunt, Mrs. A. D.
Davidson of Duluth, at the Hotel
Plaza, Detroit.

—Mr. and Mrs. Lewis Suttler are at
Milverson attending the funeral of Mr.
Suttler's sister, Mrs. Ed. Campbell,
who died suddenly on Saturday evening.

—Mrs. James A. Taylor of La Quina,
Pa., was here for several days on a
visit to her sister, Mrs. M. L. Farrell,
and left on Tuesday to visit her daugh-
ter, Mrs. Werner, at Cayuga Falls.

—Mr. and Mrs. Arch. Johnson, Miss
Sadie E. and Master John A. Johnson,
Mr. and Mrs. Donald Johnson, Miss
Annie M. and M. J. D. Johnson of Mel-
bourne attended the graduating exer-
cises at Victoria Hospital, London,
last week, one of the graduates being
Miss Annie M. S. Johnson, daughter
of Mr. and Mrs. Arch. Johnson.

corn, all house dried, also a good Dur-
ham steer calf one month old.—Walter
Hallstone, Route 1, Glencoe.

Most good things come to those who
bustle while they wait. A man never
knows how much furniture he has until
he tumbles over it in the dark during house-cleaning
time.

WHEAT FIELD DRAINAGE

Surface Drainage of Value in
Growing Winter Wheat.

Black Knot Responsible for Great
Losses Among Plum and Cherry
Growers—How it Can be Con-
trolled With Least Expense.

(Contributed by Ontario Department of
Agriculture, Toronto.)

SURFACE drains are used to re-
move excess water of soils due
to violent showers or the rapid
melting of snow and are con-
sequently often almost as important
on tile-drained land as on that which
has no artificial drainage. These
drains often prevent the gullying out
or the washing away of soil and soil
fertility.

Good surface drains will lessen
considerably the amount of winter
wheat "drowned out" or "winter
killed." These injurious effects are
largely caused through water stand-
ing on frozen wheels of ground in the
spring. Were this water removed by
surface drains, the reason for heav-
ing so often seen in wheat fields in
the early spring would be largely
removed. These drains are a benefit,
too, in that the removal of surface
water enables the land to warm up
more quickly, and the plants to start
growth earlier in the spring.

Surface drains should follow the
natural low levels in the wheat field
and be made before the season closes
in the fall. They are easily run out
with the ordinary long or the swivel
plough, and generally do not require
to be more than one furrow wide
and one furrow deep. Intersections
should be well made to avoid stop-
pages in drainage system. Heavy
clay soils are usually more benefited
by the use of surface drains than are
lighter soils.—Prof. W. J. Squirrell,
Ontario Agricultural College, Guelph.

To Cure Black Knot Disease.

No other cause, not even winter-
killing, has destroyed and is destroy-
ing so many cherry and plum trees
in this province as the Black Knot
disease. This statement, while true
of the province as a whole, is not
true of the Niagara District nor of
any other district where plum and
cherry trees are carefully pruned and
sprayed each year.

The disease is not caused by grubs,
although these are often found in
the knots, but it is caused by a fun-
gus which attacks the branches and
causes the knots in the trees and
causes black, knot-like swellings,
usually about three inches long and
about half an inch in thickness,
though often the swellings are much
larger. The knots are often very mu-
ch longer, the longest ones usually be-
ing found on the larger branches.
New knots at first are brownish in
color, but later they become black.

The disease will in some orchards
confine itself to cherry trees and not
attack the plums. In other cases it
will attack plums and not the cher-
ries, but more commonly both are
attacked.

Control Measures.—In order to
control Black Knot thoroughly it is
helpful to know that it is spread by
means of tiny spores which act as
seeds, and are blown by the wind
from tree to tree. These spores are
formed on the knots themselves.

There are two main crops of them
each year, the first during early
spring, usually in March and April,
and the second in late spring, usually
the latter part of May and all of
June. Therefore, to control the dis-
ease the first step to take is to cut
down all dead and dying trees and
remove all knots on other trees, cut-
ting in each case about four inches
below the knot so as to be sure the
infected area is removed. If knots
occur on the very large branches or
on the trunk, they may be removed
by means of a chisel or a very stout
knife and chisel. In each case at least
of the bark on each side of the knot,
if possible, be taken with the knots. All
prunings, whether of dead or living
wood, should be burned at once,
and the pruned areas will form on
them and spread from them. It is
very important to do this cutting out
and pruning before Christmas time.

Warm days after the leaves are off
are excellent for the purpose. Under
no conditions must the knots be left
on the trees until as late as February.
In cutting do not overlook wild
cherries that may be infested around
or near the orchard.

The next step is to spray the trees
with either lime-sulphur wash or
Bordeaux mixture, so that the spores
that come from a distance in early
or late spring may not get a chance
to germinate. Three sprayings should
be given, the first a few days before
the buds burst, the second about a
week after blossoms fall and the third
about two weeks later or just before
the earliest cherries begin to ripen.
Arsenate of lead should be added to
each of the last two applications to
kill the Plum Curculio and to keep
the cherries free from maggot. The
lime-sulphur for the first spray
should be in strength about one gal-
lon to fifteen or twenty gallons of
water, and for the second and third,
one gallon to about forty gallons of
water. Bordeaux for any application
should be composed of four pounds
of bluestone and four pounds of fresh
lime in six or six gallons of hydrated
time to forty gallons of water. The
arsenate of lead should be at the
strength of two and a half pounds
per gallon to forty gallons of water.
It requires several years to free
one time or six years to free a
—L. Caesar, B.S.A., Provincial
Entomologist.

Overland

Their Pride Is a Deeper Thing

The fact that an Overland Model 90 stock car recently broke
the world's non-stop high gear record in Oklahoma, U. S. A.,
does not add to the pride of Model 90 owners.

Their pride is a deeper thing. It has developed through
weeks and months and years of wonderful personal expe-
rience with Model 90 cars, under the trying conditions of
every day's demands.

To really know how well a car can be built for so econ-
omical a price you must know Model 90.

CHAPTER VII.—(Cont'd.)

Helen watched him with widening eyes. The look of indolent satisfaction was gone from her face. She was not yawning now.

"Why, Burke, what is the matter?" she cathechized. "Wasn't I nice to you? Didn't I talk to him, and just lay myself out to entertain him? Didn't I ask him to dinner, and—"

"Dinner!" Burke fairly snarled the word out as he wheeled sharply. "Holy smoke, Helen! I wonder if you think I'd have that man come here to dinner, or come here ever again to hear you? Oh, hang it all, what am I saying?" he broke off, jerking himself about with a despairing gesture.

Helen came now to her feet. Her eyes blazed.

"I know. You was ashamed of me," she panted.

"Then what was the matter?"

"Nothing; nothing, Helen."

"There was, too. Don't you suppose I know? But I tried to do all right. I tried to make you proud of me," she choked. "I know I didn't talk much at first. I was scared and stupid. He was so fine and grand. And I didn't know a thing about all that Egyptian stuff you was talking about. Then I thought how 'shamed you'd be of me, and I just made up my mind I would talk and show him it wasn't a—little fool that you'd married; and I s'posed I was doing what you wanted me to. But I see now I wasn't. I wasn't fine enough for your grand friend. I ain't never fine enough for 'em. But I don't care. I hate 'em all—every one of 'em. I'd rather hate Mrs. Jones twice over. She isn't ashamed of me. I thought I was p-pleasing you; and now—now—" Her words were lost in a storm of sobs.

There was but one thing to be done, of course; and Burke did it. He took her in his arms and soothed and petted and praised her. What he said he did not know—nor care, for that matter, so long as it served her. They were miles away at the start—miles apart in tastes, traditions, and environment. In one respect only were they alike: undisciplined self-indulgence—a likeness that meant only added differences when it came to the crossing; and that made it all the more nearly impossible to merge those two diverging roads into one way leading straight to wedded happiness.

All his life Burke had consulted no one's will but his own. It was not easy to walk when he wanted to sit still, nor to talk when he wanted to read; especially as the one who wanted him to walk and to talk happened to be a willful young person who all her life had been in the habit of walking and talking when she wanted to.

Burke, accustomed from babyhood to leaving his belongings wherever he happened to drop them, was first surprised and then angry that he did not find them magically restored to their proper places, as in the days of his boyhood and youth. Burke abhorred disorder. Helen, accustomed from her babyhood to being picked-up after, easily drifted into the way of letting all things, both hers and his, lie as they were. It saved a great deal of work.

(To be continued.)

PEACE BELLS OF LONDON.

Octogenarian Ringer of St. Paul's Cathedral Still Carrying On.

The joy bells of old London will soon be ringing for peace. From a hundred towers we shall hear their melody.

The twinging and the ringing of the bells, bells, bells—in a pagan of joy.

But could all the belfries of London ring in unison? Are there enough ringers to keep all the peals going at once? Mr. E. Horrex, the octogenarian ringer of St. Paul's Cathedral, doubts it, and thinks that bands of ringers will have to go from belfry to belfry if all the peals are to ring.

"Sunday by Sunday for forty-one years I have rung the bells of St. Paul's," said Mr. Horrex. He has been a ringer since he was 18 years old, and though now in his 82nd year, he is still full and upright, keen and active. On Armistice Day he was ringing for 4 hours, and 5 min.

Over 20 years ago he rang 11,111 changes in 7 hours and 35 minutes. He looks forward to taking his place in the belfry on Peace Day.

Fruit stains on linen should be smeared with glycerine and left for about an hour, then wash the stains in warm soapy water; repeat the process if necessary.

Your Son Can Make a Good Refrigerator.

One of the ways in which large quantities of perishable products are rendered unfit for human consumption is through improper methods of home-storing. Dairy products, meat, fruit, and others of the more perishable types of foods must be kept within a certain range of temperature which will insure that the molds, bacteria, yeasts and other organisms which cause fermentation and spoilage are not allowed to grow and multiply. For it is the ready multiplication and growth that ordinary spoilage is thus brought about.

This range of temperature is considerably lower than the normal average summer temperature of the ordinary home. To bring about the cooling condition necessary for these products to keep, we are in the habit of using some cooling substance, such as ice or some form of ammonia system. In sections of the country where flowing wells and springs abound, a convenient form of cold water refrigerator is arranged. It is not always possible to have this, however. Neither is it always possible to have ice.

A simple form of iceless refrigerator is now available to all and is being used extensively in some sections where ice is not readily procurable. This "Iceless Refrigerator," as it is called, depends for its efficiency upon the old well-known principle that water in evaporating requires heat. It is well known that sprinkling the lawn and porches on a hot day will lower the temperature of the house and grounds. This is due, of course, to the fact that the water, to be evaporated, requires heat and heat thus used must come from the surrounding atmosphere and objects.

A simple cupboard with four uprights or corner posts, and containing four or five shelves, can be constructed of a size so that the ordinary dripping pans available from all hardware stores will set conveniently in the top of the posts. The bottom of these posts can be set into the next larger size dripping pan. The sides of this cupboard are then covered with cotton flannel, as is also the door. A flap or wick of flannel is extended up into the drip pan from the sides and door. Water is then poured into the top drip pan and the iceless refrigerator is all ready for use.

The flannel acts as a wick and the sides of the refrigerator are soon covered with a film of water. Should any of the water drip off the bottom it is caught by the lower pan. As the water is evaporated into the surrounding atmosphere, heat is drawn from the interior of the cupboard. This, of course, renders the inside of the cupboard much cooler, while the constant evaporation of the water keeps the temperature at this lower level.

The range of cooling will depend largely upon the circulation of air around the cupboard, since this is the determining factor in the rate of evaporation.

This simple iceless cupboard can be made easily and costs but very little. There is no excuse for allowing milk, meats and other perishable food stuffs to spoil when such a refrigerator will assist in keeping them.

Let Birthmarks Alone.

"Old wives' tales" sometimes have a lot of real wisdom in them. For instance, there is grandmother's advice about not disturbing birthmarks. Science now knows why the advice is good—why moles and the like, which do not feel sore or tender, and are reposing peacefully in the skin of the face or the neck, should be left carefully alone.

The fact is that there is danger of cancer in unskillful attempts to remove such natural growths. We must understand that most cancers are the result of a "precancerous condition," plus the factor of local irritation—for example, the rubbing of badly fitting eyeglasses or one of those boned collars. Such irritation may be either severe or acute, all at one time, or constant and chronic, enduring through years. And I am here warning especially against cancers that may result from injudicious operations and by inept persons who are likely to be ignorant of the danger. Such manipulations may have the effect of irritating the tissues in and under the skin and thus incite those parts to cancer development.

The novice may remove most but not all of a birthmark. He may take away as much of the growth as was visible to the naked eye, but leaves a microscopic remainder which becomes a source of irritation predisposing to cancer.

Hair moles are the most dangerous to irritate or to operate on, either by the use of the electric needle, carbon-dioxide snow, or the X-Ray. The electric needle would leave an unsightly scar; the "snow" an area of parchment skin, and exposure to the X-ray has, in unskilled hands, been the forerunner of many a cancer.

Of course, any sore that will not heal within reasonable time after the application of the usual remedies, or any wart or mole that suddenly begins to grow rapidly, or any growth that shows swelling, inflammation, and redness, and is painful, must be attended to—but only by responsible doctors.

Kitchen Lore.

The kitchen scale is more important now than ever before. Potatoes rank next to the cereals as a source of carbohydrate. Men's trousers can easily be cut down for boys' knickerbockers. Growing children should have a great deal of milk in their diet. The floor mop should be boiled in lye and thoroughly rinsed and dried once a week.

One way to lower the doctor's bill is to raise the fruit ration. An oiled dustcloth is good to wipe a stove with; also wet newspapers. Sliced apples, baked slowly in a casserole with butter and brown sugar, are served with cream. The secret of brown sauce is having butter and flour well browned before adding the milk or stock. For an insipid pudding like cottage pudding use a highly-flavored sauce; for the highly-flavored pudding an insipid sauce is better. A prepared milk food taken before bedtime will often make an old person or an invalid sleep better. Badly soiled clothes, if soaked in borax overnight, will wash more easily. Flaxseed tea is useful when the children have a cold. Wash two tablespoonsful of the seed, add four cups of water, cook slowly for an hour, add lemon juice and sugar, and strain.

To preserve health, clean food is most important. Insist upon the grocer and provisioner keeping food from the three dangerous "F's," namely: Fingers, filth and flies. Do not handle food more than is necessary. Always wash your hands with plenty of hot water and soap before you start to prepare the meal and before you eat. Do not allow persons who are sick to be in the kitchen, to handle or come near the food.

A Revelation.

"Hiram, what do you think. Our son in the city has a telephone right beside his bed."

"I always knew he was lazy, but I never imagined he'd go so far as to lie down to talk."

A total dead of 74,583 and casualties of all classes of 282,348 represent the United States' losses in the war.

SOUP AND THE SAILOR.

A Humorous Story of St. Dunstan's Hostel For the Blind.

Sir Arthur Pearson, the blind British nobleman, author of "Victory over Blindness," told a humorous story while he was lecturing in this country about one of the few sailors who have been blinded in the war.

This sailor arrived late one night at St. Dunstan's Hostel, the School for the Blind which Sir Arthur has established in London. The nursing sister had supper prepared for him and set a plate of soup before him, salting it carefully and thoughtfully. Then she went away.

Another sister came along. Ah! He

will want his soup salted, was her thought, followed by action. Before the blind sailor attacked the soup a third nurse with similar inspiration salted it. The man took a spoonful and then in wonderment asked what it was.

"Soup," was the response.

"Oh, Soup? Funny thing! I've been sailing on that for the last ten years."

"There are glimpses of Heaven granted us by every act or thought or word which raises us above ourselves—which makes us think less of ourselves and more of others—which has taught us something higher and truer than we have in our own hearts."—Dean Stanley.

From Erin's Green Isle

NEWS BY MAIL FROM IRELAND'S SHIPPER.

Happenings in the Emerald Isle of Interest to Irishmen.

A children's fancy dress Victory Ball was held in Aberdeen Hall, Dublin, in aid of "Our Day Fund."

A small farm of six Irish acres, situated near Gorey, was recently sold by auction for over \$500 per acre.

James M. Walton, M.C., has been unanimously elected secretary of the Londonderry War Pensions Committee.

A substantial sum of money was realized at a Free Gift Sale held at Avoca in aid of the Red Cross Society. The Military Cross has been awarded to Lieut. J. C. Donaldson, M.C., son of the late John Donaldson, K.C., Dublin.

The late Joseph Y. F. Cooke bequeathed £100 to the Londonderry Infirmary Board for the use of the Infirmary.

Sergeant Robert Young, Royal Inniskilling Fusiliers, was presented at Elvington Barracks with the Military Medal by Brig-Gen. Erskine.

The Lord Chief Justice presided at a joint meeting of the Voluntary Services Corps and the Soldiers' Central Club held in the Shelburne Hotel, Dublin.

The Bishop of Tuam dedicated a handsome window in St. Nicholas Church, Galway, given by Canon Berry, in memory of his son, Capt. F. Berry, M.C.

The Master of the Rolls has been appointed by the Lord Lieutenant to be a member of the corporation of the Royal Hibernian Military School.

Ireland's representation in the British Parliament is now one hundred and five members. The National and Belfast Universities being given one each.

Mrs. Coulter, who was released from Turing by the advance of the British army, has been appointed French teacher at the Newry Technical School.

A mail and passenger aeroplane, with a crew of seven, and half a ton of baggage, flew from Belfast to the east coast of England.

The colors of the Dublin Fusiliers were handed over to a color party at Tottenham, prior to their departure for Cologne.

J. F. Flumner, postmaster at Mullingar for the past ten years, has been promoted to the postmastership at Portadown.

A Farmers' Red Cross Sale was held recently in the Mullingar Court House at which the sum of £120 was realized.

During the year 1918 the North of Ireland Shipbuilding Company, Derry, launched eleven vessels with a total tonnage of 18,459 tons.

The mystery ship Hyerabad arrived at Belfast from Manchester, and was on exhibition for several days.

Capt. Wilson, M.C., formerly chairman of the Irish Football Association, has been elected secretary of the Derry War Pensions Committee.

The Derry County Insurance Committee has unanimously elected Rev. P. Kerlin, Magilligan, as chairman.

The death is announced of George Cummings, J.P., managing director of the Harland & Wolff Company, Belfast.

A Tusk merchant, named Thompson, was fined £11 at the Tusk Petty Sessions for selling tea and flour at more than control prices.

Major Gerald Henry Pomeroy, Cobe, has been appointed by the Lord Chief Justice as Resident Magistrate for the County of Tipperary.

Interpreting the Omens.

In his youth Mark Twain edited a weekly journal in a small Western town. A subscriber wrote to him one day to remark that he had discovered a spider concealed in the folds of a recently delivered paper. The writer wanted to know whether such an occurrence was a sign of good or bad luck.

The young editor replied in the next issue as follows:

"Constant Reader.—The appearance of a spider in a copy of last week's paper was a sign of neither good nor bad luck; that intelligent insect was merely studying our columns in order to ascertain whether any store in the neighborhood had failed to advertise in our paper, in order that he might make for that establishment and there weave a web across the doorway, where he might dwell in undisturbed peace."

Needless Alarm.

Junior had not been in the best of health, and when he seemed well on the way to recovery, his mother took extra precautions to guard him against possibilities of an influenza attack.

One evening the anxious mother was startled when she entered Junior's room, to find the little chap in bed, sniffling, with eyes red and watery.

"Goodness gracious!" she cried, "do you feel sick, dearie?"

"No, mamma," Junior replied.

"But you seem to have caught a dreadful cold."

"I haven't any cold."

"But your nose and eyes!"

From under the covers Junior produced a book.

"It is 'Uncle Tom's Cabin,' mamma," he said, and I have just been reading about poor little Eva."

Soils and Crops

This Department is for the use of our farm readers who want the advice of an expert on any question regarding soil, seed, crops, etc. If your question is of sufficient general interest, it will be answered through this column. If stamped and addressed envelope is enclosed with your letter, a complete answer will be mailed to you. Address: Agronomist, care of Wilson Publishing Co., Ltd., 73 Adelaide St. W., Toronto.

Making Fur Count for the Most.

Some farmers own a farm and work on it. Others own a farm and manage it. The latter works just as much as the former, but in a different way. He works his head along with his hands. He doesn't get up at four o'clock in the morning just because that is the time all farmers are supposed to crawl out. He gets up because he knows that to keep things running smoothly he must be on the job. To get the most efficient labor from the men he employs he must not only direct them, telling them what to do and how to do it, but he also finds it necessary to work with them and take the lead in doing the work. This might not be feasible on large ranches or plantations where the help runs into the hundreds, but on farms like you and I know about it is a mighty good plan.

Plan your work ahead and then keep ahead of the work. If you can plan your work and direct your labor so as to get more done than the average, then you are the man who can afford to pay more than the average wages to your help. Good farm labor, of any kind, for that matter, is hard to get; but if you can pay a little more than the other fellow, you get the best help.

Try and make everything handy about the farm so as to make it easier to do the work. A broken or hard-operating gate that is much used will waste a lot of time in the course of a day. An empty water tank when the teams come in at night, hot and tired, means that one or more of the men must spend considerable time on the pump handle, and all because someone forgot to put the windmill in gear. It's not the big things that are forgotten, but the little ones that help the big ones along.

Always have in mind some "rainy-day" jobs. If you can't remember them, put them down in a book. An hour spent in tightening up or repairing a machine may save a ten-hour day if it breaks down in the field. An inside job of grinding or sharpening a tool on a rainy day, even though the feeder isn't quite empty, might be the means of keeping everything going full blast in the field when the sun is shining. Making hay when the sun shines is only possible by seeing that old jobs are done when it rains.

As far as possible, the man-power you employ should be cut down by machinery. A gang plow and six horses and one driver will do just as much in a day as two sulks with three horses and a driver each. You could just as well save the cost of that one man. Two-row cultivators will efficiently cover as much ground as four one-row machines, and by using them you have saved two men and two horses. Your overhead is reduced in proportion to the size of machine one man can handle.

Many farmers saved labor last fall

Horse Sense

Most farmers would say offhand that a foal grows a little faster if the mare and the foal run in the pasture all summer. In practice, however, it is found that the foals of work mares often outgrow those of the idle mares. The work mare's foal is given better care, and that is probably the secret, as the foal that runs out all the time is apt to be neglected. It usually gets no grain until about weaning time or afterward, and it is exposed to the daily torment of blood-sucking flies.

On the other hand, the work mare's foal is generally shut up in a partially darkened box stall by day, so as to be handy for suckling the mare at noon, and for the further reason of keeping it from trying to break through barbed-wire fences in trying to reach the mare.

The dark stall keeps the foal away. At night the mare and foal are turned together in the pasture, where the youngster runs and plays, and thus gets the necessary exercise. The work mare's foal is also handy at the barn three times a day when the other horses are fed, and it naturally comes in for its share of oats.

Doubtless the idle mare supplies her foal with the greater flow of milk, but the practical outcome is that her foal frequently does not grow so fast as the theoretically less favored work mare's foal.

Let us work the mares and feed the foals. It is not nature's way, but we are not doing things according to the undisturbed natural procedure when we farm high-priced land to the

CREAM WANTED

We are in the market for Cream all through the year. We pay the highest market price. In business since 1906. Drop us a line for particulars. Mutual Dairy & Creamery Co. 143-746 King St. West - Toronto

by harvesting corn with hogs. In this way they needed no help to pick the corn. And the method isn't wasteful, either. I have tried it, and I defy anyone to find an ear of corn left in the field after hogging down.

Headwork is just as necessary to the man who operates a farm as it is to the man who sits at a desk and manages a railroad. You must map out your line of work, and then gather about you help that will efficiently carry out your plans.

Control Tomato Diseases.

A knowledge of precautionary measures to avoid crop diseases is highly important to tomato growers. Tomatoes are subject to many diseases any one of which may be sufficiently serious to ruin the entire crop, or at least to preclude the possibility of making a profit on the season's work.

Use the best seed obtainable; free from disease, if possible.

Choose a seedbed soil not previously used for growing tomatoes or related crops; or, better still, a soil sterilized with steam or formalin. Spray plants in the seedbed and in the field with a good fungicide, such as Bordeaux mixture. Apply thoroughly about every ten days. For spraying in the seedbed use the 3-4-50 Bordeaux formula, increasing the strength to 4-4-30 or 5-5-50 for field spraying. The stronger field concentration is preferable only in controlling early blight or rust. Spraying in the field may not be necessary during periods of drought.

Keep in check the various insects at work on the plants. This may be done by adding to every fifty gallons of Bordeaux mixture a half pint of Black Leaf 40 and one pound of zinc arsenite or lead arsenate. If spraying is not practiced, dust the plants with a mixture of tobacco dust, zinc arsenite or lead arsenate, and flowers of sulphur.

Where plants are likely to suffer by drought some means for irrigating should be provided. If this is impracticable, plant and cultivate in the best way to conserve soil moisture. Nitrate of soda is preferable to other forms of nitrogen (ammonia) for fertilizing tomatoes. Avoid a heavy application of stable manure. Do not use potassium chloride, nor manure or compost containing old tomato vines.

Keep the field in a sanitary condition. Examine it regularly and remove all rotted fruit and sickly plants and destroy them by burning or burying. If buried, they should be covered with a disinfectant, such as lime.

Practice crop rotation. The less often tomatoes follow tomatoes or related crops, the less likely is the crop to become diseased.

While the observance of these precautions will not guarantee a crop free from disease, it will go far in that direction.

limit of production. We keep horses for the work they do. We know the horses that do the farm work can also reproduce, and thus replace themselves and supply a surplus of horse-power for sale. If one farmer manages it successfully, so can another.

We will eventually weed out the mares and the families of mares that prove to be shy breeders when subjected to the constant and strenuous exercise which farm work imposes. We will discard one by one the mares which habitually lose their foals because of hard work during pregnancy.

Farmers will gradually learn of the limitations of safety in working in-foal mares. But the absolute economy in working brood mares, and the profit from breeding work mares, will certainly bring the horse-breeding business in Canada to this practical and satisfactory basis, and selection will eliminate the mares that do not fit the system.

Do not let ewes and lambs run on old pastures so full of parasites which will prove destructive to young lambs.

THE CHEERFUL CHERUB

My real self must be an ageless imp - When I looked in the glass and saw youth fled It laughed from my eyes maliciously: "I'd hate to be old like you," it said.

Sheep Notes

Five Rules for Shearing Sheep.

Use hand-driven clippers. The old-style shears are slow and it is hard to learn to use them properly. Driven clippers are cheap, and any one owning sheep can well afford to buy such a machine. Often several farmers combine to buy a machine.

Choose a warm, sunny day for the shearing. Drive the sheep into a small enclosure adjoining the shearing floor where they can be caught easily. Have the shearing floor clean; remove each animal to it as soon as caught.

Commence shearing at the head and shear back. Hold the clipper bar close to the body so that there will be no double cuts in the wool. Sheep should be held firmly, for they will tear the fleece apart if they are allowed to struggle when partly shorn.

After each fleece has been removed, take off all manure, tags, and wet wool, and sack these separately. Tie the fleece into a neat bundle with the flesh or inner side out. Use paper twine for tying. Binder twine should never be used, for strands of it will get into the wool and can not be removed. They will not take dye and will therefore cause a severe cut in the price of wool.

The tied fleece should be tramped firmly into regulation wool sacks. These are large and hard to handle, but buyers prefer wool packed in them.

Hoos

For pig feeding nothing combines with corn to give more satisfactory results than skim-milk. This combination makes a palatable ration, resulting in a heavier consumption of feed and more rapid gains than from any other ration. All of the cereal grains such as wheat, rye, barley, and particularly corn, are low in protein and give better results when fed with some nitrogenous feed such as skim-milk.

When used as a supplement to corn and other cereal grains nine pounds of skim-milk is equivalent to one pound of tankage; 3.7 pounds is equivalent to one pound of middlings; 9.3 pounds equals one pound of oil-meal; 10.7 pounds equals one pound of soy-bean-meal.

When tankage is worth \$2 a hundred, skim-milk is worth twenty-two cents a hundred; when tankage is worth \$4 a hundred, skim-milk is worth forty-four cents a hundred. When middlings are worth \$1 a hundred, skim-milk is worth twenty-seven cents a hundred; when oil-meal is worth \$2 a hundred, skim-milk is worth twenty-one cents a hundred; when soybean-meal is worth \$2 a hundred, skim-milk is worth nineteen cents a hundred.

When cereal grains are worth \$1 a hundred pounds, skim-milk is worth twenty-eight cents a hundred pounds.

How Weeds Are Spread.

In his struggle against weeds a farmer is more likely to be successful in his efforts if he understands clearly how weeds gain an entrance on to the farm in the first instance and how those already there spread from one part of the farm to another. Weeds may gain entrance to the farm or be dispersed over a wider area in one of the following ways:

As impurities in the seed sown. Most samples of agricultural seeds contain weed seeds in greater or less amount, which are sown with the useful seeds and thus the weeds may, quite unknown to the farmer, gain an entrance on to his land. The seed sown should be absolutely free from weeds of all kinds—a condition of things which is seldom realized.

By the agency of threshing machines. The threshing machine should be thoroughly cleaned before it is allowed to begin operations on the farm.

In stable manure and feeding stuffs. Hay and feeding stuffs often contain weed seeds, some of which are liable to find their way into the manure heap and eventually on to the land. Some seeds can pass through the bodies of animals and afterwards germinate.

By the action of the wind. Many seeds, such as those of dandelion and thistle, are furnished with a tuft of hairs which enables them to float in the air for long distances. In other cases the seeds or even the whole plant may be blown over the frozen surface of the snow.

By the agency of animals. The seeds, or those parts of plants which contain the seeds, as in the case of Blue Burr and Burdock, are provided with hooks by means of which they become attached to the wool of sheep or the clothing of workers on the farm and in this way may be carried into fields where formerly they did not exist.

By cultivation. In some plants, especially those with creeping underground stems, such as quack grass, the broken pieces may be carried all over the field by farm implements and thus dispersed over a much wider area than the parent plants originally occupied.

Boars should be kept thrifty during the summer, but should not be allowed to fatten.

What would you think of a man who refused to join the local co-operative association because it would make it impossible for him to sell his poor cows to his neighbors?

Health Talks

By John B. Huber, AMMD

Dr. Huber will answer all signed letters pertaining to Health. If your question is of general interest it will be answered through these columns; if not, it will be answered personally if stamped, addressed envelope is enclosed. Dr. Huber will not prescribe for individual cases or make diagnosis. Address: Dr. John B. Huber, M.D., care of Wilson Publishing Co., 73 Adelaide St. West, Toronto.

Eczema.

I am asked to write about eczema or salt rheum or scald or tetter. This is a skin inflammation, in which there is redness, discharge or matter, "weeping" or scaling, crusting, thickening and swelling of the skin; and always itching, perhaps slight, but generally intense. A skin trouble that does not itch is not eczema. Eczema is not catching and when completely healed it leaves no scar, except when the scratching has been so severe—with dirty nails, perhaps—as to cause a break or ulcer in the true skin. All kinds of eruptions appear in eczema—just redness and heat, burning, tingling and irritation or blisters, papules (pinhead sized) or pustules (pus blisters). Or large areas of inflamed skin. The trouble may appear in any part of the body, but more especially in the skin folds, the armpits or the bend of the elbow (in front), or of the back of the knee, or the creases in the neck. The papular form appears mostly on the trunk; the pustular mostly on the head, face and neck of the poorly or improperly nourished infants. Adults and elderly people are more prone to "red eczema" where there is extensive crusting (generally in the legs), which crust, when it comes off, exposes a most painful, raw, oozing red surface. Then there is fissured eczema, cracks resulting at the knuckle points, the mouth corners and the finger tips; this is frequent among those whose business requires them to be in intense artificial heat or to have their hands constantly in water, and from using strong soaps and lye.

"I'll swat the fly of bulging eye. From early morn till late at night; I'll boldly bat the robber rat. And hold the work a great delight. The Hunnish mouse and chicken louse Shall know the force of angered might."

The tater-bug and melon thug I'll rush to kingdom-come on sight. The cabbage pest and all the rest I'll kill with club or poison blight. And now I trow this solemn vow Will busy me from morn till night."

If you ever give your boy or girl a pig or calf you should see that they get the money for it when it is sold. If not, this sense of justice is liable to be greatly stirred and what might have been an inducement to hold them to the farm becomes a club to drive them from it.

In most cases there is a predisposition, which makes the skin very susceptible to the action of external irritants, such as heat or cold, excessive use of water, strong soaps, dyes or chemicals. Or there is a favoring condition of the constitution, such as poor or injudicious nutrition, digestive or nervous disturbances, exhaustion, or a tendency to gout or rheumatism. We cannot say that eczema is hereditary; but the children of eczematous parents certainly come easily by attacks of this disease. There are hundreds of skin diseases of which the two most frequent are eczema and syphilis. Eczema invariably itches; syphilis almost never does. Other skin troubles that may be mistaken for eczema are erysipelas, the shingles, the hives, psoriasis, ringworm, barber's itch, scabies and favus (a scalp trouble that shows powdery, canary-colored, cup-shaped crusts and a mouse-like smell). Further information on this subject will be mailed on request accompanied with a stamped and self-directed envelope.

Questions and Answers.

Question—How long can an operation be avoided after the discovery of appendicitis?

Answer—It is best not to avoid operation. In some cases that has got to be done during the acute attack. Where, in the judgment of the family physician, operation is postponed, it had better be done between attacks. A diseased appendix is just like so much dynamite—ready to explode on the slightest provocation, and sometimes with fatal results.

Fence-jumping cows are often the result of poor pasture. Look after the pasture instead of the cows.

ROOFING

DOMINION RUBBER

There was an embarrassed silence on the veranda. Somehow Rose Days and bracelet watches did not compare. Then Mrs. Winslow called out:

"Mary Haven, come in here a minute."

Mary Haven stepped shyly through the long window and stood before Mrs. Winslow.

"I want you to take something to your mother, Mary Haven," she said.

"I want you to tell her that I think her daughter is the richest little girl I know. Do you think you can remember?"

"Yes," replied Mary. "I'll remember."

Device for Drenching Stock.

We have frequently had occasion to drench cattle, horses and pigs with medicine under the direction of the veterinary. The greatest obstacle we have yet encountered was the danger of the animal breaking off the neck of the bottle. To overcome this danger, we have wrapped our drenching bottle tightly about the neck with old rags, thus giving the animal opportunity to bite all it pleases, but without damage to the bottle. The rags keep the teeth from the neck of the bottle, and the danger is greatly lessened, if not totally removed. W. E.

When outworn are had in the cornfield, make person halt by mixing fifty pounds of bran or cornmeal, two pounds of Paris green and two quarts of cheap molasses to make a stiff dough. Add a little water if needed to moisten. Scatter this along the corn rows. This poison will kill birds, too; so be careful about using it.

An easy way to keep rats: Instead of pouring on one-half inch of lime-oil, pour on about three inches of cold water. Before using, pour the water off gently, set in the sunshine to absorb any drops of moisture, then add oil if needed to thin it. In this way you will not be annoyed with the broken skin of the point which the oil always forms. It can be kept for ten years.

Fifteen cents a load would soon pay for hay-fork equipment in your barn. In most cases it takes at least a half-hour to pitch off a load by hand. With a hay-fork equipment the load can be removed in ten minutes. Twenty minutes are thus saved. Assuming an hour's time is worth forty-five cents, there is a saving of fifteen cents a load. Besides, a boy can operate the fork and the man can work in the mow.

Every farmer ought to have a workshop, a library and a pair of rubber boots. The library is a handy place to spend the evening with the farm paper or a good book. It is almost equal to the workshop for a rainy day session. Of course you know what to do with the boots. It would not hurt to have a pair for each one of the family, with rain coat to match. Probably they will enable you to spend more days in the library and the workshop.

"Protection" For Your Home—No "Free Trade" With Decay

Everything with a surface needs surface protection. Not only the outside of your home, but every part of the inside—the floors, walls, furniture, woodwork and metal parts.

To paint, means protection and preservation and money saved on repairs, for wear and decay always start at the surface.

To leave a surface unprotected by paint or varnish, means "free trade" with decay and waste.

"Save the surface and you save all" Paint & Varnish

With

MARTIN-SENOUR PAINTS AND VARNISHES

They are the greatest material protectors you can use—and the cheapest—because they spread easier, cover more surface and last longer.

E. A. MAYHEW & CO.

You Can Start With 25 Cents and be An Investor

And you can invest it in securities as safe and profitable as any held by capitalists.

Twenty-five cents saved each week can be made to earn 4½% interest by a very simple plan.

Thrift Stamps cost twenty-five cents each. Sixteen of these when exchanged for a War Savings Stamp become a 4½% interest-bearing security for which the Government will pay you \$5.00 in 1924.

In other words, if you lend the Government the \$4.00 odd you have saved by this easy means, the Government will pay it back to you WITH AN ADDITIONAL DOLLAR five years from now.

And you become an investor in the safest of all securities—a Government Bond.

Canada needs the small savings of her people to finance the work of reconstruction.

In May
W-S-S.
Cost \$4.04

In June
W-S-S.
Cost \$4.05

War Savings Stamps can be bought wherever this sign is displayed.

Make Your Savings Serve You and Serve Your Country—Invest Them in War Savings Stamps.

"FLORENCE AUTOMATIC" OIL COOK STOVES

Sold by Jas. Wright & Son

OIL is a cheap fuel for cooking—No ashes to clean up. No fires to build. What could be less trouble?

A Florence Automatic with a McClary's Success oven will give you the best bakings you ever produced. No odor. No wicks to bother with. Save fuel, have a cool kitchen. Call and see the Florence in actual operation.

The Transcript.

THURSDAY, MAY 22, 1919

NEWBURY

Tomorrow (Friday) evening the dramatic club are putting on the play, "Joe, the Wolf." It promises to be good. No doubt there will be a big crowd out to hear it.

The first baseball game of the season was played on the Old Boys' park Wednesday evening between Wardsville and Newbury. Wardsville won. Score, 11-8.

R. J. Petch has just had a fine large chopper installed in the grist mill. It works finely and things are humming at the mill these days.

The Women's Guild of the Church of England held their annual meeting last week. The report showed a splendid lot of work having been done and a good start on this year's. Mrs. Frank Robinson was re-elected president and Mrs. Wm. J. Armstrong secretary. Mrs. Thomas Burr was elected treasurer instead of Mrs. Matt. Armstrong, who declined to stand for re-election. On Saturday the Guild had a sale of pies in the Arthur McDonald house, making nearly \$10.

Mrs. Mary Robinson has returned after spending the winter with her daughter in Ottawa.

Fred. Connelly left last week to take a position in the Royal Bank in a town near Ottawa.

The village flag floated gaily in the breeze on Saturday in honor of the safe return of Albert Grant from overseas. He looks fine and well and enjoyed the trip home to the Scotian.

He motored from London with his brother Ed. After returning from Germany he had a leave in England which he spent very pleasantly with his father's brother, Joseph Grant, at Torquay.

Miss Scott returned home to London on Friday after being four weeks nursing Miss Tucker's aunt, Mrs. Harris.

Born—on 17th inst., to Mr. and Mrs. Richard Reycraft, a daughter (stillborn).

Miss Lillian Owens returned to Hamilton on Sunday.

A. J. Walker and family motored from London Friday, spending the week-end at Bruce Fletcher's.

Will Stokes of Calgary was in town last week. He purposes putting some test oil wells on his brother-in-law's farm (known as the Stalker farm). Success to you, Will.

Little Garth Dobbyn, met with a nasty accident a few days ago while playing in his father's hardware. He fell, striking his forehead on a can, making a bad gash which required five stitches.

No better protection against worms can be got than Miller's Worm Powder. They consume worms and render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and their operation is altogether health-giving.

WARDSVILLE

Ford Murphy, son of Rev. Mr. Murphy, who has been overseas since the beginning of the war, has returned.

Rev. M. Hunt and wife spent last week at W. Waterworth's.

Wellington Wain, who has been undergoing treatment at St. Joseph's Hospital, London, has returned home.

Ronald McRae called on his brother, D. McRae, last week.

Richard Stinson passed away at the home of his son, William, last week. He leaves four children—William of Wardsville, Edwin of Glencoe, and Misses Mary Esther and Lydia of Chicago.

Misses Ila and Waitie Quigley of the Essex teaching staff spent the week-end with their mother here.

Will Minna, who has been in Ottawa for some time, has returned.

Mrs. Salome and baby, who have been visiting in London, returned home last week.

Rev. Mr. Jefferson has been appointed by the Methodist church as delegate to the great temperance conference being held in Toronto this week.

A Standard Medicine.—Parnelle's Vegetable Pills, compounded of entirely vegetable substances known to have a revivifying and purgative effect upon the digestive organs, have through years of use attained so eminent a position that they rank as a standard medicine. The pills should be remembered this. Simple in their composition, they can be assimilated by the weakest stomach and are certain to have a healthful and agreeable effect on the sluggish digestive organs.

CASHMERE

Charles Burries of Bothwell spent Sunday with his aunt, Mrs. Thomas Darke.

Owing to the wet weather a great many haven't their beets sown yet.

We are glad to welcome Allan Willick and wife home to our midst. Allan went overseas with the 135th Battalion. He was wounded at Passchendaele in November, 1917, and has been in hospital ever since. At one time he lost the use of his voice completely.

The reception which was to be held on Friday evening for Allan Willick and Stanley Allen has been postponed till Monday night.

Lieut. J. E. S. Taylor arrived home on Saturday evening. He enlisted in the West, where he married Miss Elva Patterson, a Cashmere girl. He has been overseas for over two years. Though Lieut. Taylor is a stranger to us we heartily welcome him.

Finlay Patterson and Basil Sitter motored to Glencoe on Tuesday.

League was held on Tuesday night in the church. Mr. Storey of South America gave a fine address on his experiences in South America as a missionary. There was a large attendance.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

MELBOURNE

The 16th anniversary of Melbourne lodge No. 344, I. O. O. F., and 100th anniversary of Oddfellowship was observed on Sunday last, 18th inst., in Guthrie Presbyterian church. Rev. Mr. Robertson of Kilmartin occupied the pulpit. The church was well filled. Special music was given by the choir and was very much appreciated by all present.

Owing to anniversary services being held at the Sutherland appointment there will be no services in the Methodist church on Sunday next.

On Thursday afternoon at 2.30 induction services will be held in the Presbyterian church here when Rev. Mr. Elder of London will be inducted.

Fred. Brown, our hardware merchant here, has sold his business and residence to Mr. Pettit of near Appin. Mr. Brown will move about the 15th of June.

Orville Richards, who is on his way home from Siberia, is in the hospital at Toronto with the mumps. He is expected home as soon as he recovers from his illness.

CAIRO

Mrs. Mabel Helm of Detroit, whose husband died recently in that city, has returned to her former home here, accompanied by her father, T. C. Clifford, who had been called there previous to his son-in-law's death.

On May 12th a large number of the members of this field, including the choir, attended the ordination and induction of Rev. A. E. Waghorne, one of the recent graduates of Knox College, Toronto. Rev. A. S. Orton of Chatham conducted public worship and preached an eloquent sermon on "Vicarious Faith."

T. J. Jewett of Turin put the usual ordination questions and concluded the ceremony by addressing the congregation, giving the members timely advice. Rev. M. C. Tait of Wallaceburg addressed the minister, speaking of the pleasure it gave him, owing to having known the candidate for so many years.

The church was well filled and the service was unusually impressive. The moderator called upon J. J. Vincent of Bothwell and D. M. Smith of Cairo, elders, to conduct Mr. Waghorne to the entrance, so an opportunity would be given the newly-appointed pastor to have a handshake with some members of his flock at the close of the meeting.

At the close a general invitation was given to partake of refreshments in the manse, which was responded to heartily by all present. Mrs. Waghorne provided the refreshments and was assisted in preparing and serving by the lady members of the congregation.

Mr. and Mrs. A. D. McGugan attended the graduation ceremony at Detroit, where their daughter, Miss Mary Ila, passed her examination successfully as a nurse.

Garnet Randles, son of Mr. and Mrs. John Randles, while at school on Friday night with a painful accident by having his ankle sprained.

We are pleased to learn that T. E. Penby is slowly recovering from his illness.

Will Tanner is leaving for Cass City, Mich., today, having received word that his father is ill.

Rev. J. J. Brown of Ayr, a former pastor of this church, is expected to preach in Cairo on Sunday, May 25.

STRATHBURN

Two aeroplanes passed over here Monday, going west.

James Raeburn, driller for Carman, moved his drilling rig to the river on the Baptist church road and will drill for oil.

Messrs. Tait, Allan, McAlpine and Newbigging have leased their land to a Port Arthur driller.

Webster Bros. are leasing land here with the intention of drilling for oil.

Mrs. Nathaniel Currie left last week for London hospital to undergo an operation.

SHIELDS SIDING

Mrs. Archie McVicar and daughter Nelenia are visiting Thamesville friends.

CRINAN

A largely attended and enthusiastic U. F. O. meeting was held in Markham's Hall, at the close of which Mr. Markham made a proposal to sell his store and building to the U. F. O. members and run the business for them for six months. At the end of that time, should this co-operative store not prove a success, he would again assume control, without any loss to the shareholders. A committee was appointed to look into the matter and report at the next meeting.

Then followed an excellent program, consisting of musical selections by Mrs. McPherson and daughter Eva of Campbellton, Mr. Shaw of Largie, readings by Shaw and Miss Edna Markham, and an address by Peter Stalker. Lunch was served by the ladies.

Charles Burries of Bothwell spent Sunday with his aunt, Mrs. Thomas Darke.

Owing to the wet weather a great many haven't their beets sown yet.

We are glad to welcome Allan Willick and wife home to our midst. Allan went overseas with the 135th Battalion. He was wounded at Passchendaele in November, 1917, and has been in hospital ever since. At one time he lost the use of his voice completely.

NEWBURY BRANCH, G. T. MURDOCH, Manager.

Silverwood's ice cream

"SMOOTHER THAN VELVET"

Ice Cream like mother used to make?

No indeed! Ice cream far superior to that.

Nothing but pasteurized pure cream, cane sugar and pure flavor extracts go into Silverwood's Ice Cream. That creamy, velvety taste that mother never could have given to her home-made ice cream is the result of homogenizing and scientific freezing.

SILVERWOOD'S LIMITED, LONDON, ONT.
