## TWENTY-FIVE THOUSAND GERMANS RF SURROUNDED BY ALLIES' TROOPS

(Canadian Press.)

London, Aug. 25 .- 3:15 a.m. - A dispatch to the Express from Ostend says: "A great battle has been in progress in the province of Hainault ,on the southern frontier of Belgium, since Friday evening. French and British troops have been engaged in desperate conflicts north of Charleroi and Fleurus, with Germans who crossed the Meuse at

"Saturday French troops, which had spread from Lille, met the German right in East Flanders

"Desperate fighting between outposts took place at Oudenarde and Renaix, The losses were heavy on both sides Monday. Tweenty-five thousand Germans have been surrounded between Courtrai and Anseghem, a town six miles west of Oudenarde. Fighting was progressing Sunday at Peronnes, between Mona and Binche, and between Wateghem and

## Allies in North Check

(Canadian Press.)

Paris, Aug. 25 .- 3:05 p.m. - The following official announcement was made here today: "The German offensive movement in the north, which was stopped yesterday, appears today to have been resumed.

The enemy is, however, being held back by a French army, acting in conjunction with an English army and a Belgian army. "The armies of the allies surprised the enemy and drove back their advance detach-

ments. The allies have gone beyond Malines.

"The Belgian army came from Antwerp... "In Lorraine, after the counter attacks of yesterday, the right of the French forces withdrew to the River Mortagne, which is a continuation of the Meurthe, from Luneville

#### Germans Tell Story of Breaking Up of General Joffre's Great Army.

(Canadian Press.)

Washington, August 25 .- According to a wireless dispatch to the German embassy from its foreign office, received today, via Sayville, Long Island, the German troops facing the French troops defeated them in battle from August 17 to 21. Numerous ensigns, more than 150 guns and 10,000 prisoners have been captured.

Luneville has been taken, and the army of General Joffre, broken up, is no more capable of action. The German Crown Prince's army has chased the French west of Langwy. The army of the Duke of Wuertemberg, marching through Belgium, has grossed the River Semois, completely crushing the advancing French army. Numerous guns, ensigns, prisoners and several generals were captured.

The German troops advancing west of the River Meuse towards Maubeuge defeated an English cavalry brigade. The River Semois, Longwy and the greater part of the Belgo-French frontier are in German hands. A concentric advance of all the German army toward Paris is probable.

## BELGIAN LOSS ESTIMATED AT FORTY THOUSAND KILLED

Appalling Property Loss in Little Kingdom-Economic Situation Disastrous in the Extreme, and Dire Distress and Want Universal.

[Canadian Press.] LONDON, Aug. 25.—3:59 a.m.—The Ostend correspondent the west for active service in the of the Chronicle says that Belgium's losses so far are estimated at 40,000 killed. No estimate of the appalling property loss has been hazarded by the officials.

The economic situation throughout Belgium is disastrous. says the correspondent. Industry everywhere is at a standstill. Not a single factory or coal pit in the country has been operated in three weeks and not a single penny in wages has been received by the men engaged in the staple activities of the nation since Aug. 1.

There is nothing but dire poverty, distress and stagnation even in the areas untouched by the fighting. Provision for the feeding, housing and other care of refugees is being pushed feverishly. More than 4,000 refugees are herded in bathing cabins along the beach and in various small public buildings at Ostend.

Victorious.

[Canadian Press.] Aug. 25 .- 4:30 a.m. -- A dispatch to the Daily Mail from St. Petersburg says: "The German defence in East Prussia is based on four parallel and strongly fortified lines, running north and south. Each is supported by natural obstacles. The foremost three lines are distinct groups of numerous akes. The fourth and strongest defence line is the Vistula River, extending from the Russian frontier to the

"Outside these defence lines, the Germans have on the northeast the very strong fortress of Konigsberg, with for-tified advance positions at Libau and Tapiau. This is situated on the flank of the Russian line and must be invested, necessitating the detachment of a considerable force

"The foremost three defence lines are extensively fortified. There are important and permanent fortifications at Allenstein and Boyen, and the whole is filled with lakes, leaving only comparatively narrow defiles for the advancing troops. The country is fu'l of fortifications, partly provisional and partly field works, most of which are armed with heavy guns. A frontal attack would be a very difficult task.

The Vistula, from 500 to 1,000 yards wide, is guarded by six fortresses. The largest are at Thorn in the south, and at Danzig in the north. Between them are Fordon, Kulm, Graudenz and Ma-

Soukhomlinoff, the Russian Kitchener, who is now reorganzing the Russian armies. Through him the armies have been irreproachably equipped, and the spirit of the men is he same as the spirit of the nation. "The defeat of three German army corps in Northeastern Prussia was converted into a rout by the timely arrival of another army corps coming from Warsaw, in the rear of the enemy's position. The Warsaw army, which was very powerful, completely turned the German position at Mazur Lake, and while extending its operations over a wide front westward, headed towards The German Twentieth Allenstein. #### TWO THINGS THAT COME HOME

To the Editor of The Advertiser: It was a great sendoff the people of our city gave the Volunteers on Saturday last. I stood on the platform at the G. T. R. station and saw mothers, wives, sisters, children and sweethearts bid their loved ones good-bye and God-speed. I could not help but think what had been the cause of this war. It was the selfish ambition of one man-the Kaiser William. My thoughts went out further. What is going to become of the families of our departed ones if the prices of food are allowed to advance, as some have done already during the last few days? We must admit that there is a class of men who are willing to deprive some of those left of the real necessities of life to satisfy their greed for gold. These men are even worse than the Kaiser himself, as they would enjoy freedom of the free on the one hand, but would cause the poor to suffer on the other. If we could get all this class together and have them put in the front firing line it would be good for the country. But as this cannot be done, surely the Government could do something to prevent the rise in prices. We don't object to the duty put on by

them, but to the great imposition put on by the dealers.

Yours, WILLIAM BALL

Other cities have these funds well under way and the necessity for early action in London is apparent.

As to the charge that dealers are raising prices, it should be distinctly understood that the merchants of London as a whole are not thinking of advancing foodstuffs except where it is absolutely necessary. In fact we believe many are accepting smaller profits than usual because they are patriotic to the extent of doing a great service to their fellow citizens. the city will have to look sharp for the few unscrupulous dealers who place dollars before everything else.

A N editorial recently in the Weekly Sun, an independent journal for the farm, published in Toronto, says:

The Previncial University has gone behind \$128,000, which it asks the Government to make up. Its managers also ask a million and a half of capital for building and equipment. The Toronto press naturally champions the cause of the city's most profitable industry.

There seems to have been mismanagement since the adjustment in 1906. The resources of the university have been unduly diverted to professional, and especially to medical education, and there have been unjustifiable diversions like that to the city hospital to a museum and to the Massey gymnasium. Taking account of the expenditures of the affiliated universities, the cost seems to be greater than that of any similar institution in America.

Further, capital expenditures ought not to be made without considering the future. It may become necessary to leave the present equipment to Toronto and to put up an institution to serve the or Ithaca. Errors Right Off the Reel.

Right in the first frame, the Reisling gang began prying loose a lot of bad play, and every error put the game farther and farther beyond the reach of the local pennant aspirants. It was a sorry spectacle for London fans, who came out in force to see the Shagmen downed. However, the crowd seemed to take it in an optimistic way, and before the game was over the fans

were reminding Shag that there were three more games in the series yet to play, and he could not win them all.

Een Beebe started on the mound for the local team, but was taken out in the second inning in order to let the second inning in order the second inning in order to let Thoma pinch-hit for him. It wasn't Beebe's fault that the Senators got away to such a big start. Ray Whitcraft's error of Rogers' grounder gave "Lefty" a life in the first inning, and Shaughnessy's single, and a wild throw by Snyder, who tried to catch Shag stealing second, allowed score. Snyder threw the baseball out to centre field, and Eddy Lamy might have been beaned had he not been on the alert.

In the third inning, Rogers muffed Bierbauer's drive after two were out, and Louis was left again. London got

have been beaned had he not been on the alert.

Where the Senators Won It.

The second inning was a heartbreaker. Four of the five runs scored in that frame by Ottawa were shoved across before any of the visiting gents were expunged. With the kind of fielding the London team was doing, President Stevely or the bat-boy might just as well have been out there pitching in Beebe's place. Mike Mullin managed to get in his error at the very beginning of the second spasm. Mike tried to get under Dolan's little pop fly, but dropped it. Smykal hit a grounder to shortstop, but Whitcraft had run over to cover second base, and the ball went to left field. Powers then dropped a little fly safely in right field, and Dolan scored. Roberts bunted, but the ball 'fell outside the foul line by two feet, and rolled down toward first base. It struck a pebble and bounded inside the line before the London players attempted to field it. Smykal rode home on that hit, while Roberts was safe at first.

Jack Mitchell, the \$1,000 beauty, who

at first.

Jack Mitchell, the \$1,000 beauty, who looked like a million dollars in this Shag demonstrated just why Shag brought "Lefty" Rogers, the terrible Stewart, rf wirler into action at the plate, and 'Lefty" pelted one into Oskee Neale's Smykal, 2b counting Powers. George hrow Georges out at first, and Roberts counted on the play. It was the first out of the inning. Frank Shaughnessy's to left field looked as though it would I foul if Oskee Neale did not get unbut he did not get on to it. The base-ball dropped out of his hands, and Mit-chell raced home. "Dad" Stewart tried to make Oskee repeat, by sending out another fly to left, but this time the Virginian not only caught the ball neathy, but made a perfect throw to the plate, and Snyder was waiting with the ball in his hand, when "Lefty" Rogers tried to score

A Nice Double-Play.
"Cuz" Hammond started in where
Beebe left off in the third, and gave he crowd something to cheer about by striking out Dolan and Smykal with By in ease, while Whiteraft made a beautiful Ottawa stop and peg of Powers' hit through the London stop and peg of Powers' hit through the box, nailing Petie at first, In the fourth, though, with one gent out, Mitchell beat out a bunt again, and Rogers was safe on Whitcraft's second boot. Nill drew a pass, filling the bases. Shag hit in on the plate, while Snyder threw out Shaughnessy. Two-baggers — Nill. Lamy. Hits—Off Beebe 6 in 2 innings. First on balls—Off Roberts 1, cff Hammond 4. Struck out—By Roberts 7, by Hammond 5. Left on bases—Ottawa 4, London 7. Double plays—Smykal to Dolan, Smykall to Mitchell to Dolan, Neale to fair for the visitors. Powers was safe on a hit to Linneborn. Linny stopped the ball deep, but threw badly to Bierbauer, who managed to knock the ball down after it hit the dirt. Powers was given a hit on the play. Roberts bunted, but Linneborn muffed Bierbauer's throw at

## SCOUTS COMB BUSHES FOR TALENT AND FIND IT; GOOD LONDON GLUB PINS ITS FAITH ON YEAR FOR YOUNG STARS

BY HUGH S. FULLERTON.

The scouts are beginning to come

figure out, but they are bringing in promising ones already and declare that the bushes are alive with talent Part of this may be due to the fact that the minor league owners are in bad financial shape, and anxious to market their good players early, and get cash to carry through the twilight of the season.

Only a few of the teams; those hopelessly out of it, are starting to try out men and the prospects look good. Cleveland seems to have raked in a couple of corkers in Wambsganss and Pezold. Wambsganss looks good enough for a regular berth right now, but Pezold appears to need bench experience in the big circuit. The Chicago White Sox, seeking hitters, have landed Happy Felch, of Milwaukee, a corker and a comer who can swat. He hits right and meets them solidly. Four clubs were angling for this one and the Sox landed him. They also grabbed Cecil Coombs, the Bay City boy, but sent him back. He doubtless will get a chance to take a big league training trip next year,

Detroit has grabbed Benn Karr of Memphis, said to be one of the best pitchers the Southern has turned out Detroit seems to have been the most active in all fields. They beat

## Ask Any Physician What He Considers The Most Important Article of Food

He will tell you it is BREAD. Is it not important then that the bread you eat should be made of the very best ingredients and in the most sanitary way possible?

Made Clean

We are so particular about every loaf of PARNELL'S Delivered Clean

BREAD= That we even test every drop of water that is used in the mixers. Just think of the reputation London's water has for purity and then remember that even its known purity is not enough for Parnell's Bread. We see that every drop is up to the proper

test before it is allowed to mix the flour and other ingredients. PHONE US TODAY FOR A SAMPLE LOAF.
