

### Burdock Blood Bitters

**CURES ALL Skin Diseases.**

All diseases of the skin are, more or less, directly occasioned by a bad state of the blood, and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape.

The following skin diseases are curable by Burdock Blood Bitters through its wonderful purifying power on the blood, and its restorative action on the system, viz: Salt Rheum, Tetter, Scabies, Eczema, Itching and Burning Rash, Lepra, Etc.

Miss Nellie Laidel, Maitland Forks, N.S., writes: "I have been bothered with salt rheum, on my hands, for three years, and I tried so I did not know what to do with it, but everything I tried seemed to be of no avail. I heard of Burdock Blood Bitters and bought two bottles of it, and now I am perfectly cured and have no salt rheum on my hands any more."

"I cannot speak too highly of Burdock Blood Bitters."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

### RECIPROCITY AND QUEBEC LEGISLATURE

**Bourassa Opens Subject by Question as to Pulp and Paper.**

Quebec, March 9.—The Quebec Legislature has been asked to declare its position with regard to pulp and paper provisions of the reciprocity pact with the United States.

The matter was brought up by Hon. Bourassa, who moved a resolution declaring that in view of the changed conditions which would result from the ratification of the reciprocity agreement, hon. the Government would maintain the regulations of the forest department in regard to the manufacture of pulp in Canada and the Province of Quebec.

His Excellency the Governor General, in his reply, stated that the Government would not have entered into the agreement without having conferred with the Government of Ontario and Quebec.

Senator Bourassa stated that the Government had not yet declared its intention with reference to the adjustment of the matter until tomorrow, when he would accept the resolution.

---

### AMERICA AND AFRICA ONE IN PAST AGES

**Indicated by Fossils Recently Discovered in East Africa.**

Berlin, March 9.—The discovery of fossil remains in the East African region, which appear to be more important as well as more extensive than any yet reported, Professor Brumner, director of the Museum of Anthropology at Berlin, is announcing today, after a study of the bones found in Africa and America, that these countries were connected in remote geological times.

Some of the American primates already reached Berlin, and have been set up in the museum. They show that the faunas of Africa and America were much larger than those of North America, but of such striking similarity as to indicate that they belong to the same species. Professor Brumner, the scientist, who headed the expedition to recover the fossils, a year ago, now reports that deposits exist in two other places. An appeal has been issued to the German public for money to secure the fossils for the Berlin museum, as otherwise they may fall into the hands of foreign collectors.

---

### WAS WITH BORDEN

Ottawa, March 9.—In the House today W. M. Borden, of Wolford, stated that he had been taken by surprise by last night's division, and did not arrive at the House in time to record his vote.

It had been reported, he said, he would have been present for Mr. Borden's amendment to delay further consideration of the reciprocity agreement until the people had been given an opportunity of expressing their views on the subject.

---

### Chronic Bronchitis—Nervous Debility

**The sincere words of praise of Miss Sarah G. Bates, who was cured after she had given up all hopes of recovery, are certainly encouraging to all sufferers.**

In her letter she says: "I had been sick several years with chronic bronchitis, being advised by a medical officer, yous debility, but could not get any relief until I commenced taking Duffy's Pure Malt Whiskey. Now I am much better and know your valuable medicine is what has cured me. I can recommend it to all sufferers from chronic diseases—Sarah G. Bates, Arctic, R. I."

"When you feel weak and run down and all out of sorts, you need a pure tonic that will build you up, enrich your blood, quicken your heart action and restore your strength in a healthy manner."

### Duffy's Pure Malt Whiskey

The world's greatest medicine has been doing all this for the past fifty years. It is an absolutely pure, gentle and invigorating stimulant and tonic. It overcomes all weakness, curing, wasting and run-down conditions of the body, brain and muscle, giving the system power to throw off and resist coughs, colds, grip, catarrh, bronchitis, asthma and lung troubles. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, malaria, low fevers and all weakening and wasting conditions if taken as directed.

All liquor dealers, or direct, \$1.25 per bottle. Refuse substitutes and imitations; they are impure and dangerous. Take the first and only genuine Duffy's Pure Malt Whiskey.

Wm. J. Harvey & Co., Rochester, N. Y.

### WHITNEY JOINS GLOOM BRIGADE

Speaks Against Reciprocity in the Legislature.

### ANNEXATION BUGABOO

Predicts Many Terrible Things if the Agreement With the United States Goes Through.

Toronto, March 9.—Sir James P. Whitney yesterday addressed the Legislature, denouncing the proposed reciprocity agreement with the United States.

The Premier prophesied all kinds of trouble and disaster if the pact was passed.

No time, Whitney declared, would be given to the passage of the agreement without a mandate from the people, which would lead to political and commercial union of Canada and the United States. He declared that that agreement would be to the annihilation of Canada by the United States.

He said on opening that he had no objection to the resolution, but that it would not be when it comes to the question of reciprocity, which he has to do with the will of the province.

Taft's Statement.

A most remarkable utterance, which was made to an individual of a nation, was the statement of President Taft in a public document that "it is a mistake to suppose that the United States would be willing to give up any of its territory." Whitney stated that he had heard of Taft's statement, but that he had never seen the document. He said that he had heard of Taft's statement, but that he had never seen the document.

Whitney declared that he had heard of Taft's statement, but that he had never seen the document.

Biliousness, Indigestion, Sick Headache, Sallow Skin, SMALL PILL, SMALL DOSE, SMALL PRICE

**GENUINE** must bear signature *W. Wood*

### THE OPPOSITION TALKS OF OBSTRUCTION

Conservatives Now Threaten to Keep Debate Going All Summer.

Ottawa, March 9.—The debate on the reciprocity agreement has been going on since last night, with its significance, however, somewhat diminished by the opposition and the fact that they are making time for developments. On the other hand, supporters of the Government are well pleased and encouraged. It is recognized that the final registration of approval will require the additional strength to the Government, and the fact that the case developed in debate there is assurance of constant augmentation of support.

Mr. Reid, of Grenville, so far discussed the announcement of the Opposition as to make public, prior to the conclusion of the debate, the opposition's position on the reciprocity pact.

### DOWN IN THE POWER PLANT OF THE HOTEL ST. REGIS

**A Model Mechanical Equipment and a Staff of Highly Trained Experts.**

Many of the comforts of modern civilization depend upon machinery, and this machinery must be efficient in these comforts are to be secured. The "human element" enters largely into the calculation, for all mechanisms are prone to disarrangement unless skill and intelligence are exercised in their manipulation and control. Aiming at the "perfect hotel," the Hotel St. Regis, at Fifth Avenue and Fifty-fifth Street, New York, first installed the most perfect mechanical appliances possible to obtain, and then proceeded to organize an efficient engineering staff. So successful has been the latter enterprise, and so admirable a system has been built up by the plan of individual instruction and promotion for efficiency, that the mechanical force of the St. Regis is already recognized as a model of its kind. Its chief is a well-known engineering expert, and the St. Regis restaurant has been highly commended by engineering journals and by engineering experts.

The St. Regis restaurant has been highly commended by engineering journals and by engineering experts.

## Saturday at Smallman & Ingram's

All through the week immense shipments of Spring purchases have been arriving and will be seen on display tomorrow. If you have been waiting for that time, when the stocks are nearly complete before making your spring selections; we say, "Now is that time." So let Saturday be your starting day for Spring buying, as much of the novelty goods is soon snapped up after being exhibited.

In the Restaurant Saturday—Dinner 11:30 a.m. to 2:30 p.m.—Lunches and Afternoon Teas Served Continuously—Cortese Orchestra, 3:30 to 5:30.

### In the Men's Store Saturday Demonstration of "W.B." Corsets

Are You Bilious?

MI-O-NA Will Cure You—Black specks floating before your eyes—dizziness and sick spells, prove that your liver is out of order, your digestion bad, and your internal machinery generally out of order. MI-O-NA cures by strengthening and invigorating the stomach, it is guaranteed by Cassars & Lang, who will refund your money, if you do not get relief. A large box costs you only 25c.

**Bad BLOOD**

"Before I began using Cascares I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascares are just as advertised; I have taken only two boxes of them."

Clarence R. Griffin, Sheridan, Ind.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Shakes, Weathers or Grips. No. 10, 25c. Never sold in bulk. The genuine tablet stamped C.C.C. Guaranteed.

**BAD FIRE DOWN SOUTH.**

Rutherfordton, N. C., March 10.—Fire of unknown origin late last night, in the Carpenter Block, in the heart of the business district, destroyed a dozen mercantile establishments, the loss being estimated at \$100,000.

The fire broke out in the second story of the Carpenter Block, and the flames quickly reached the roof, and spread to the other buildings.

London, Friday, March 10, 1911.

HAULTAIN REVOLTS.

At least one Conservative leader has risen above partisanship to confront the leading and raging propaganda into which his party has been launched by selfish interests.

Mr. Haultain, the leader of the Saskatchewan Opposition, gives a stinging blow to the pocket-patriots who are fomenting the present agitation. "It is not prepared to sit at the feet of any of these eastern Gamaliels and study loyalty," he declared.

Among the Gamaliels are the leaders of Mr. Haultain's party at Ottawa. They will need all the comfort they can draw from Toronto and Montreal to compensate them for the rebellion of the western wing of the party.

DR. CHISHOLM'S "INDEPENDENCE"

A speech delivered in November by Dr. Chisholm, the Conservative member for East Huron, is now returning to reproach him. In the debate on the address, he said:

"Personally, I would favor reciprocity if I thought we could get a fair deal. The very word reciprocity implies fair dealing, even-handed justice, with no selfish or ill-honored advantage taken by either party. In fact, reciprocity has been defined as a condition of things in which equal rights and mutual benefits are given and received."

Dr. Chisholm concluded by saying that if the Liberals brought in a proper reciprocity bill, he might vote with them as he was "a kind of an independent man." It would be interesting to hear the member for East Huron try to square his opposition to reciprocity in March with his advocacy of it in November.

NEW ZEALAND'S RADICAL PROPOSAL.

At the Imperial Conference to be held in May it appears that New Zealand will propose some constitutional changes tending towards a political unification of the Empire. The most striking of these proposals is that for an Imperial Council of State, with representatives for all the constituent parts of the Empire, whether self-governing or not, in theory, and in fact, advisory to the Imperial Government on all questions affecting the interests of his Majesty's dominions overseas.

The establishment of such a council, with the related proposal that the high commissioners for the several dominions should act as ambassadors, enjoying the right to attend meetings of the committee of defense, is consistent with foreign ministers, and to communicate with their governments on matters affecting the Empire with a view to these governments expressing their opinions, would, in effect, involve the dominions in a closer responsibility for our imperial and foreign policy than such countries as the United States or South Africa seem likely to contemplate. It may, we think, be taken for granted that neither Canada nor South Africa will promote the establishment of an imperial council of state, or any similar machinery, which may draw their countries into a measure of formal responsibility for the foreign policy of this country.

The result of this would be that the dominions would find themselves drawn into closer and more extensive responsibilities for imperial defence,

without obtaining any real control over imperial policy.

It is quite obvious the overseas dominions will, as the Nation observes, by participation in such a council, be drawn into a formal and extensive responsibility for Great Britain's foreign policy as well as imperial policy. For example, Australia or India might be asked to contribute to the cost of the council approved or not. On the other hand there is some impertinence in overseas Britons asking any considerable voice in the disposition of Egyptian or Indian affairs, even though the deciding power still rested with the mother country. Canada will need to go very slowly and with great circumspection in dealing with New Zealand's proposal. It is a good thing that our destinies are in keeping of a settlement of such matters as Sir Wilfrid Laurier, one now formed throughout the length and breadth of the Empire for life, and judgment, patriotism and sound sense, easily the greatest and most respected of public men in the Empire outside of Great Britain.

GIDDY OLD MOTHER.

Now that we know the world to have been born at least 100,000 years ago, it is more than ever surprising how the giddy old thing keeps up its perennial giddy whirl.

A WRONG IMPRESSION.

Mr. W. T. White and other alleged Liberals who spoke at the Masses Hall meeting in Toronto, listened to a ruffianly attack upon the Liberal leaders by George Tate Blackstock. How do they like their new found confidence?

KENT FARMERS WILL ANNEK.

As Clifford Stott says, the farmers in Kent have been prosperous, but what they possess is a larger market and better terms for their labor, and they are not inclined to be misled by the promises of an American farmer. A statement is now being made that the Kent farmers have for fourteen years averaged 40 per cent. some years going to 60 and 70 per cent. The Kent farmers may well be getting a chance. But reciprocity will hardly put the "poor lambs" on the altar.

SURE CURE.

"How can you who's sold this morning's paper a better cure for the flu than this?" "Mind better, thank you. There's a chance tomorrow evening that she wants to go to."

THE SUBMARINE.

She slipped through the green sea-light, and ran, and ran, without light, in the ocean gloom, and she was done. She craves to comfort of the sun.

NO MORMON.

"You have deceived me," she complained. "You gave me to understand that you were a Mormon, and I was glad to get you."

DISILLUSION.

"You have deceived me," she complained. "You gave me to understand that you were a Mormon, and I was glad to get you."

UNUSUAL HEROISM.

A Philadelphia man a man of no high social standing, was one of the first to rush to the aid of a woman who had been thrown from a car.

SIR WILFRID'S NOBLE PERORATION.

If my poor voice could be heard throughout the length and breadth of this country, and if, without any presumption, it could be heard also beyond the frontier, I would say to our American neighbors that, flattering as it may be to their pride, the idea that the territory of the Republic should extend over the Gulf of Mexico to the waters of the Arctic Ocean is an impractical dream. Remember that if you have founded a nation upon a separation from the motherland, we Canadians have set our hearts upon building up a nation without separation; that in this task we are already far advanced, with our institutions, with our national unity as a people and with everything that constitutes a nation, to whom we are just as devoted as you are to yours. Remember that the blood which flows in our veins is as good, just as good as your own, and that if you are a proud people, though we have not your proud name, we are just as proud as you are, and that rather than part with our national existence we would part with our lives. If my voice could be heard that far, I would presume to say to our American friends, first, there may be a spectacle perhaps nobler yet than the spectacle of a united continent, a spectacle which would astonish the world by its novelty and grandeur: the spectacle of two peoples living side by side for a distance of 4,000 miles, a line which is hardly visible in many quarters, with not a cannon, with not a gun trained across it, with not a fortress on either side, with no armament against another, but living in harmony, in mutual confidence, and with no other rivalry than a generous emulation in commerce and the arts of peace. To the Canadian people I would say that if it is possible in the United States to conquer all disputes of those two young and growing nations, Canada would have rendered to old England, the mother of nations, nay, to the whole British Empire, a service unequalled in its present effect, and still more in its far-reaching consequences. (Cheers.)

CHAPMAN'S MAIL ORDERS ARE CAREFULLY FILLED

## GREATEST SEASON IN HISTORY OF O.H.A.

Some Idea of Immense Work Association and Players Have Just Finished.

## SHORT RESUME OF YEAR

Nine Weeks of Play Engaged Teams for Nearly Full Month of Twenty-Four Hours a Day.

Kingston, March 10.—"We're from Kingston, every one of us," says the old city's pride in its "home boys" who have just finished the greatest season in the history of the Ontario Hockey Association.

It should be noted that with 282 games played, the season was the longest in the history of the O.H.A. It counts that the Ontario public spent 25 days and more of its leisure time watching the hockey contests.

Senior Series.—There were upwards in the senior series all along the line. The twelve champions, St. Michaels, won the title in the district which Parkdale annexed, with St. Michaels and St. John's.

Junior Rounds.—Any team that wins the Ontario cup has to be a great one. Three teams delayed their play-off, but the Ontario Hockey Association was not deterred.

## The World's Tenpin Record for Them

Standing: Buonomo, Zimmerman (manager), Rutz (franchise owner), McNeil. Sitting: Tyser, Hufeland, Kallisch.

Player	First	Second	Third	Total	Average
Buonomo	224	229	229	682	227.33
Zimmerman	227	224	224	675	225.00
Rutz	187	224	224	635	211.67
McNeil	245	229	229	703	234.33
Hufeland	225	247	224	706	235.33
Kallisch	224	224	224	672	224.00
<b>Totals</b>	<b>1076</b>	<b>1121</b>	<b>1174</b>	<b>3371</b>	

Rochester, March 9.—The Rochester team of the New York State Tenpin League rolled what is believed to be a world's record at Syracuse the night of Feb. 21 by piling up 3,371 pins in three games.

The highest score previous to that made by Rochester was 2,364 pins, made by the Koenig-Kaisers at St. Louis in 1908.

The work of the team was wonderful. But one man, Tyser, gathered less than 600 pins, while Hufeland hit 'em for 725 with an average of 246.

The Syracuse team rolled well enough to win nine times out of ten, getting 3,002 pins, but this did not seem extraordinary in the face of the work of the victors.

In the afternoon Larry Sutton, of Syracuse five, picked up 299 pins, No. 7 standing up after working in the last frame.

ROCHESTER. First. Second. Third. Total. Average. Buonomo 224 229 229 682 227.33. Zimmerman 227 224 224 675 225.00. Rutz 187 224 224 635 211.67. McNeil 245 229 229 703 234.33. Hufeland 225 247 224 706 235.33. Kallisch 224 224 224 672 224.00. Totals 1076 1121 1174 3371.

SYRACUSE. First. Second. Third. Total. Average. Maurer 192 236 234 662 220.67. Sutton 172 181 225 578 192.67. O'Brien 166 166 166 498 166.00. Rautenberg 205 212 202 619 206.33. Emerick 213 191 202 606 202.00. Totals 1019 886 897 3002. Team Averages: Rochester 1123%. Syracuse 1000%.

LONDONERS WILL SEND FOUR TEAMS TO TORONTO. The London Bowling and Athletic Association management will probably send four teams to the Canadian Association tournament which is being held in Toronto during the first week of April.

JOE WEST BACK IN CITY REPLIES TO CHATHAM MAN. Joe West, who has returned to this city from Buffalo, where he won a number of match games from some of the most prominent alley bowlers attending the National Association tourney, makes the following reply to Gerber, of Chatham:

"B" SQUADRON REPEAT IN WEEKLY CAVALRY SHOOT. The second round of the indoor shooting match between A and B Squadrons, prominent alley bowlers attending the National Association tourney, makes the following reply to Gerber, of Chatham:

LONDON LAWN BOWLERS IN SESSION TONIGHT. Officers Will Be Elected For Coming Year—Reports Are Satisfactory, It Is Said.

LONDONERS WILL SEND FOUR TEAMS TO TORONTO. The London Bowling and Athletic Association management will probably send four teams to the Canadian Association tournament which is being held in Toronto during the first week of April.

## THAT CUB MACHINE REQUIRES REPAIRS

Frank Chance May Put Heine Zimmerman in Place of Steinfeldt.

## THE OLD TIMERS GOING

Many of Original Crew Under "P. H." Have Slid Away on the Skids.

Chicago, March 10.—The passing of Harry Steinfeldt, which according to reports from the Cubs' training camp at New Orleans is more than probable, means the breaking of another cog in the main wheel of Manager Chance's otherwise perfect machine.

"Zim" Choice For Job. Heine appears to be the man for the job, and Doyle probably will be used as an infield utility man to take the place of any of the veterans who is injured or who "falls down" on the job.

The possible loss of Steinfeldt and overall will make five in all of the men who originally started with the Cubs under Manager Chance who have played nearly every position on the team with the exception of pitcher and catcher, took the midge's place in the field.

Carl Lundgren, who was sent to the Eastern League by Manager Chance early in 1909, but who became stubborn and failed to report, was discarded by the Cubs because—his CANADIANS—was "all in."

THAN THE "YANKS" YET on the hockey map, as was shown last night when the seven from St. Michael's College, of Toronto, defeated the New York A. C. team in the St. Nicholas rink by a score of 7 to 4.

CHICAGO TEAM WINS AGAIN. Chicago, March 10.—The Illinois Athletic Club hockey team defeated the All-Niagara, of Canada, 5 to 4 last night in its second game of the series.

Massey "Silver Ribbon" Bicycles. Always at Your Service.

SUNDAY BASEBALL FOR MOBILE. Montgomery, Ala., March 9.—Late today the Mobile, Ala. team was held for the first time in its history by the Birmingham team.

GOSSIP OF THE HARNESS HORSES. THE VETERAN, Chain Shot, 2:06 1/2, now 17, is on the snow path in Boston.

AL PENNOCK will prepare Willy, for an attack on the half-mile track station record of 2:08 held by Crecelius.

THE TWO-YEAR-OLD son of Peter the Great, 2:07 1/2, and Tenny Scott, 2:14 1/2, bred by Jack Christie, brought \$975 at

## THE EAST END LEAGUE WILL ORGANIZE TONIGHT

Rambler, St. Marys, St. Johns, McClary and Others After Berths.

The organization meeting of the East End Baseball League will be held tonight at the Rambler Club rooms, over the Bank of Toronto, on the corner of Dundas and Adelaide streets.

AMERICAN BOWLING CONGRESS DIDN'T LOSE. Secretary Abe Lantry, of the American Bowling Congress, in a letter to the sporting editor, from Milwaukee, contradicts the statement made by Joe West to the effect that the winners of the bowlers at the tourney at St. Louis were cut owing to a deficit.

West did not receive his prize money for three weeks, but, according to Mr. Lantry, this was paid over to Floss, of Buffalo, manager of the team with which the Londoner bowled, within 24 hours.

Mr. Lantry explains that never in the history of the congress has the original prize list been altered, as the method of receiving entries and distributing the same does not allow the handling of one cent of the money, and furthermore, they did not lose anything in the promotion of the tourney.

AUTOMOBILE LAW STANDS. Hon. Mr. Hanna Thinks It is Better As It Is.

On the ground that the present regulations were better than those proposed by Mr. Valentine Stock, the municipal committee of the Legislature refused to adopt his bill to amend the motor vehicles act with regard to automobiles on highways.

National Bowling Alleys Grand Prize Week. Get in on it. Special prizes and match games. Spectating cheer all the time.

CANADA'S POPULATION CLOSE TO 8,000,000

Census Is Expected to Show a Substantial Increase.

[Canadian Press.] Ottawa, March 9.—We hope and feel that the census of Canada to be taken this summer will show an increase in the population of the country over that of the last official census in 1901 of at least 50 per cent.

The work would be commenced on June 1, and it would consume more time than the last one, owing to the large increase in population and the additional ground to be covered.

ILLINOIS MAY BAR THE HAREM SKIRT

Bill Introduced in Legislature to Prohibit "Newest Thing."

Springfield, March 9.—Harem and harem skirts were the subject of a bill introduced in the House today by Representative Murphy of Chicago.

U. S. AND MEXICO

European Governments Inquire as to Protection of Their Citizens.

[Canadian Press.] Washington, March 9.—The question of the safety of foreign interests in Mexico in view of the disturbed conditions of affairs, has been the subject of a formal discussion by foreign nations with the Government of the United States.

MINERS MAY STRIKE

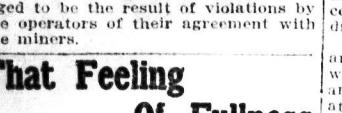

Canton, Ohio, March 9.—The national board of the United Mine Workers of America, in session here today, in conjunction with the convention of Eastern Ohio miners, is expected to set a date when 14,000 miners in the Tuscarawas, Ohio, field, and a portion of the Pennsylvania field, shall start a strike.

That Feeling Of Fullness

Disappears in Five Minutes After Taking a Stuart's Dyspepsia Tablet.

A Trial Package Sent Free On Request.

All of the unpleasant sensations attendant upon eating too heartily are instantly relieved by a Stuart's Dyspepsia Tablet, like sticking a pin into a rubber cushion. The reason is simple and easy to understand.

Inflation Of The Stomach From Undigested Food Quickly Relieved By A Stuart's Dyspepsia Tablet.

When you take food into a stomach that is tired and over-taxed, the gastric juices do not form fast enough to digest it properly.

Now all this condition is changed almost instantly by a Stuart's Dyspepsia Tablet. This little digester gets busy at once—dissolves all the digestive juices that were lacking—digests the food in a jiffy and opens up the clogged stomach and bowels.

If you will give Stuart's Dyspepsia Tablets a chance, they will not only sweeten your stomach, but also soothe your bowels and you will never have another stomach ailment.

One grain of a single ingredient in Stuart's Dyspepsia Tablets will digest 2,000 grains of food. This saves your stomach and gives it the rest it needs. All muscles require oxygen and rest. If they are over-worked, the stomach is no exception.

Try a box of Stuart's Dyspepsia Tablets and you will wonder how you ever got along without them. They are sold in 5-cent packages by all druggists everywhere.

Each package will be sent free on request to Dr. Stuart Company, 50 Stuart Building, Marshall, Mich.

CONSPIRACY AT LONDON TO RESTORE MANUEL

Plot Unearthed to Assassinate the Present Portuguese Minister.

London, March 9.—The Pall Mall Gazette says it understands that a strong movement is on foot to restore King Manuel to the throne of Portugal. The supporters of the movement hope to effect the restoration peacefully, but in any event are determined to make the attempt when they consider the moment ripe to begin.

It is asserted also that King Manuel has a personal following, not only among the Portuguese families, but among the peasantry, which is largely under the influence of the Roman Catholic Church.

It has been supposed in some quarters, says the newspaper, that the monarchial party is hampered by lack of sufficient funds for so great a movement, but if funds are lacking, there are those in Brazil who are ready and willing to come to the aid of the adherents of King Manuel.

In reference to the foregoing, a dispatch from Lisbon today reports the arrest of Dr. Arthur Vieira Faria on his way to the consulate of King Manuel, from Brazil, he is alleged, the representative of the plotters at Lisbon, and was going to Vigo to meet other conspirators in the affair.

The chief centres of the conspiracy are said to be at London and Vigo. It is alleged that it is the intention of the conspirators to assassinate the present ministers and re-establish the monarchy.

BIG BATTLESHIPS CHANGING CHARTS

Great Draught Causing Additions Along the Coasts.

London, March 9.—The great draught of the modern battleship necessitates very extensive additions to the naval charts of the world, especially along the rocky coasts. Last week the British battleship, the Colingwood, a ship of the Dreadnought type of close upon 2,000 tons, ran on a shoal in the harbor of Freetown, Sierra Leone, on 26 feet of water.

A investigation shows that the commanders of the warships were in no way to blame, because the rocks on which the vessels struck are not indicated on existing charts. They are 20 and 22 feet respectively below low water mark. The rocks are to be destroyed by dynamite, but meanwhile naval experts point out that large modern battleships may very easily come to grief unless fresh charts are drawn up.

SIX GERMAN BOATS FOR CANADA'S TRADE

Development Due to Increasing Business of Montreal.

Montreal, March 9.—Six passenger and freight steamers, forming a direct weekly service between Germany and Canada, is the latest feature announced for the approaching shipping season.

This development of service is explained as a result of the increasing business of Montreal up to the present, and the prospects of an even greater influx of passengers will be provided for by ample third-class accommodation on the six steamers.

SHOE MACHINE RYPROBE

Minister of Labor Appoints Mr. W. J. White, K. C., to Act for the Company.

Ottawa, March 9.—Hon. W. L. Mackenzie King, minister of labor, has appointed William J. White, K. C., of Montreal, a member of the board of investigation established under the combines investigation act, to inquire into the existence of a alleged conspiracy with regard to machinery for manufacturing boots and shoes.

The appointment in question has been made upon the recommendation of H. W. Knowlton, manager of the United Shoe Machinery Company of Canada, acting on behalf of the persons concerned in the alleged combine.

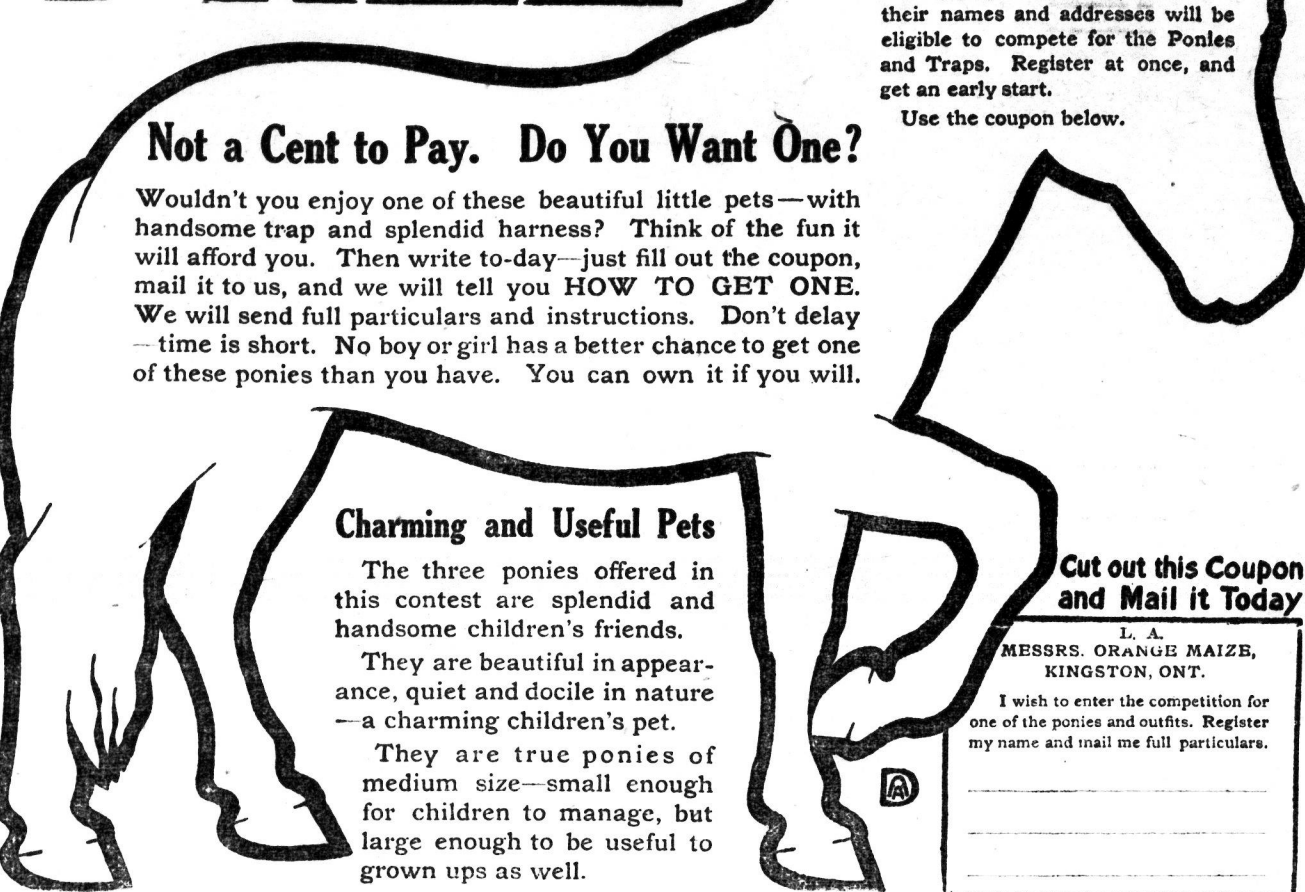

CORONATION NOVELTIES

Fashionable Jewellers Busy With Special Tiaras and Coronets.

London, March 9.—Bond street jewellers are working overtime in producing all manner of coronation novelties. Imitation coronets for those who are not entitled to wear the real article are among them. Strange to say, real coronets are cheaper than the imitation.

The special tiaras and coronets, which the fashionable jewellers are turning out for the coming social festivities, range in price from \$10 to \$10,000 or more. They are set with pearls and diamonds in elaborate designs, and when not worn as a hair

THREE BEAUTIFUL PONIES AND TRAPS To be GIVEN AWAY FREE

Not a Cent to Pay. Do You Want One?

Wouldn't you enjoy one of these beautiful little pets—with handsome trap and splendid harness? Think of the fun it will afford you. Then write to-day—just fill out the coupon, mail it to us, and we will tell you HOW TO GET ONE.

Charming and Useful Pets

The three ponies offered in this contest are splendid and handsome children's friends.

They are beautiful in appearance, quiet and docile in nature—a charming children's pet.

They are true ponies of medium size—small enough for children to manage, but large enough to be useful to grown ups as well.

IMPORTANT—READ THIS

Only Boys and Girls who send in their names and addresses will be eligible to compete for the Ponies and Traps. Register at once, and get an early start.

Use the coupon below.

Coupon form for requesting information about ponies and traps, including fields for name, address, and a return address.

POWDER EXPLOSION MAKES CHICAGO REEL

Pleasant Prairie, Sixty Miles From Windy City, Wiped Out by Catastrophe.

Chicago, March 9.—An explosion that wrecked the plant of the Ludington Powder Company in Pleasant Prairie, Wis., tonight, caused the loss of at least one life, destroyed the main building in which it was situated, and created a vibration that was felt for a radius of 50 miles.

Chicago was shaken from its most western suburbs to the shores of Lake Michigan, and from the north end to the south end. It is believed that an earthquake had been experienced, was almost universal at the time. Windows were shattered, and houses shaken throughout the thirty miles of Chicago's length.

Almost simultaneously a building of the John M. Suggs Company, at West Madison and Union streets, was almost destroyed by an explosion. The cause of the explosion had not been determined.

Although Pleasant Prairie is about six miles west of Kenosha, which is 50 miles due north from Chicago, the explosion was heard and the vibrations felt not only in all parts of this city, but at Indian Harbor and other points on the coast extending in this direction.

It was reported from Kenosha that only 17 men were at work in the plant at the time of the explosion, and that 12 of them had been accounted for.

THE AGE OF MAN

English Expert Finds Skeleton 170,000 Years Old.

London, March 9.—At the Royal College of Surgeons on Monday last Professor Arthur Keith gave an interesting description of the human remains found in the upper gravel terrace of the Thames Valley at Galley Hill, near Northfleet. These remains were found by the late Robert Elliott toward the end of 1888.

At first a considerable number of geologists refused to regard them as equal to the 100-foot terrace in point of time, but a fuller consideration of the evidence produced by E. T. Newton, F.R.S., has recently convinced experts both in England and abroad that they were embedded when the level of the Thames was from 90 feet to 100 feet higher than it is today.

The antiquity of the Galley Hill man, said Professor Keith, must be measured by the work done by the Thames since that time. The river has not only worn its estuarine valley down 90 feet to 100 feet, but an elevation of the land, but in the opinion of experts has also eroded fifty feet below its present level. Measured at its lowest estimate, the Thames bed has been lowered and raised at least 170 feet since the upper terrace of gravel was laid down in the post-glacial times.

Seeing how little the level and aspect of the valley have altered since the Roman period, and that there is no reason to presume that changes in level or in climate occurred at a faster rate in past times than in the present, one may safely allow, he said, 1,000 years for every foot which the river had worn away or laid down. On this basis of computation the antiquity of the Galley Hill remains may be estimated at 170,000 years—probably an under-estimate.

The Galley Hill man, although differing in several features from the type of today, is essentially modern in type, and is the only representative known of the thousands of generations of Englishmen which span the vast period of human life in this country from glacial to neolithic times.

NEW WIRING OFFER

We are now closing contracts with new consumers to wire premises not previously equipped for electric service—at rates which are below all competitors.

Give us an opportunity to quote on your requirements.

Our charge for lighting current of 4 1/2 cents per K. W. net is guaranteed for one year.

Phone 958 and we will gladly send our representative.

Reliable service and fair treatment.

AMERICAN MARKET BOON TO FARMERS

The Prices There Range Higher Than in Canada.

SOME COMPARISONS

Farmers' Weekly Sun Gives Illustrations—Canadian Farmer Will Get More for Nearly Everything Under Reciprocity.

Toronto, March 10. — The Farmers' Weekly Sun, in an article strongly advocating the reciprocity treaty, says:

Last week hogs in Buffalo were 10 cents higher than they were in Montreal, and for the greater part he Ontario, Buffalo is very much more convenient market place than Montreal, and one that can be reached at very much less cost than Montreal.

The Ontario farmer receives for hogs more nearly on a level than they were during the greater part of last year. At times in 1910 the Buffalo price was 50 cents higher than the Toronto price, and hogs from all Western Ontario can reach Buffalo at as low a cost as incurred in reaching Toronto; in many cases the rates to Buffalo are lower than they are to Toronto.

Mr. Sirton continues in the line of error when he says the whole tendency of the arrangement (that made between the two governments for reciprocity in agricultural products) is to reduce the farmer's profit on raw produce to the United States market.

Mr. Sirton continues in the line of error when he says the whole tendency of the arrangement (that made between the two governments for reciprocity in agricultural products) is to reduce the farmer's profit on raw produce to the United States market.

Grain Prices Compared. Early in going in Toronto again now, more in any market, the opening of the American market, at a point a year and a half ago, while American corn and oats are at a cent a pound in Buffalo, and satisfactory for growing stock and corn for finishing on them is barely in this respect, and in other respects, as well, the arrangement will be a stimulus to good farming.

With the American market open, sugar beets, potatoes and other crops that market will reach high among the money crops of the province, and the wider the area in base crops the more successful will be the fight against weeds.

# FINANCIAL AND COMMERCIAL

## LOCAL MARKET TODAY WAS VERY SMALL ONE

### Bad Weather and Low Prices Kept the Farmers Away.

There was practically no market for any of the principal staples. The weather was the cause of this, as it was too hot to do any work in the fields. The prices were very low, and the farmers were not willing to sell at such a loss. The market was very quiet, and there was very little business done.

# PROPOSED CHANGES TO COURT HOUSE

### City Architect's Plans Call for Expenditure of \$20,000.

A joint meeting of No. 2 committee of the city council and a special committee of the county council appointed to deal with the proposed alterations to the court house, is being held this afternoon at the county buildings. The plans as prepared by City Architect Nutter are being inspected carefully, as the work to be done will be of considerable importance.

The plans call for an addition to the south end, which will provide sufficient room for the law library, and also for a new waiting room, while the present waiting rooms on the north end of the court room will be converted into quarters for the justices.

The plans also call for general alterations in the offices on the ground floor, the sheriff's office being included. A steam and hot water system is to be installed in the upper floors in the usual manner. It is also proposed to install granite floors in the court room, and the ground floor will be finished with marble. The estimated cost of the work will be \$20,000.

The plans also call for general alterations in the offices on the ground floor, the sheriff's office being included. A steam and hot water system is to be installed in the upper floors in the usual manner. # EAST LONDON NEWS

### Reports Road Showed Association Work To Be Active.

The East End Progressive Association met last evening in Society Hall, and transacted considerable routine business, which had been left over from a previous meeting. The attendance was large, and a strong interest was shown. The investment fund committee reported that the product of purchasing safety stock with a special fund for that purpose was meeting with favor throughout the city.

The plans call for an addition to the south end, which will provide sufficient room for the law library, and also for a new waiting room, while the present waiting rooms on the north end of the court room will be converted into quarters for the justices.

# INTERESTING CASE OVER RENTED HOUSE

### Tenant Claims His Family Contracted Contagious Disease in the Place.

Deputy Magistrate Graydon will appear before the board of health in an interesting case that will be heard in the high court here shortly as a result of a rent suit brought by Mrs. J. M. Brown, acting for Frank Schmuck, against Mrs. Barbara Hartman.

The plaintiff claims for \$2,000 damages, and in the statement of claim alleges that she rented the house at 141 Wilson avenue, belonging to Mrs. C. H. Hartman, on March 1, 1910.

The defendant claims that she had been infected with diphtheria, and that her family was infected by the defendant. The plaintiff claims that the defendant was negligent in not keeping the house clean and in not allowing the health officer to inspect the premises.

The board of health has ordered the house to be vacated until it has been disinfected. The defendant has offered to pay the damages claimed, but the plaintiff has refused to accept the offer.

The case will be heard in the high court on March 15. The plaintiff has a strong case, and it is likely that she will succeed in her claim.

The case will be heard in the high court on March 15. The plaintiff has a strong case, and it is likely that she will succeed in her claim.

**J. W. EEDY**  
 PHONE 1286, 279 WATERLOO ST.

**"The City" Tonight.**  
 "The City," Clyde Fitch's stirring drama, which plays an engagement at the Grand tonight, has had phenomenal success since being sent on tour. Nowdays it is not every play that has a big New York run to its credit that meets with the critical approval of the theatregoers of the smaller centres, but "The City" has been received everywhere with the same acclaim that marked its all-conquering engagement at the Lyric Theatre in the metropolis last year. One reason that the play appeals alike to dwellers in the big parts, and to those who live far from the madding crowd, is that it deals with persons and conditions familiar to both classes.

**MARY NASH.**  
 With "The City," the Striving Drama To Be Played at the Grand Tonight.

**"His Last Dollar."**  
 "His Last Dollar" will be presented at the Grand tomorrow, and will be given at special prices. This enterprising and pleasing romance is by David Higgin's and Dr. Baldwin G. Cooke, the former appearing in the leading role. A corner in stocks and Wall street, and an exciting horse race, which is run on the stage, go to make the life and action so necessary, and so interesting, to a play of this kind, and to a drama still appeals to the sentiment of the most fastidious.

**Vesta Victoria.**  
 Miss Vesta Victoria, who will make her first appearance in this city at the Grand on Monday and Tuesday nights next, surrounded by a superior organization of artistic excellence, is one of the amusement delights of the season.

**"A Stubborn Cinderella."**  
 "A Stubborn Cinderella" will be presented at the Grand Opera House on Wednesday, March 15. The reasons for "A Stubborn Cinderella's" popularity are easily explained. In the first place it differs widely from the usual musical comedy, in that there is not

**It is generally acknowledged that our coffee is the best blend sold in London**

1. We buy the highest priced Coffee imported to Canada.

 Miss Vesta Victoria, who will make her first appearance in this city at the Grand on Monday and Tuesday nights next, surrounded by a superior organization of artistic excellence, is one of the amusement delights of the season.

**"A Stubborn Cinderella."**  
 "A Stubborn Cinderella" will be presented at the Grand Opera House on Wednesday, March 15. The reasons for "A Stubborn Cinderella's" popularity are easily explained. In the first place it differs widely from the usual musical comedy, in that there is not

**BURIED UNDER MANY TONS**  
**An Eight-Story Building Collapses While Under Construction.**  
 New York, March 10.—An all-night search of the wreckage of an eight-story building under construction on East Eighty-seventh street, the upper part of which collapsed last yesterday, resulted in the recovery of four bodies of workmen who were buried beneath a mass of concrete, steel and timber that crashed into the cellar. With the removal of the fourth body shortly after daylight work was suspended, as it is believed this completes the list of victims.

The accident was due to the falling from some unknown cause of a section of concrete flooring on the eighth floor. The mason, weighing many tons, went through to the cellar, carrying with it everything in its way and burying the four men who were working on the second floor. All the bodies have been identified.

**GERMANY AND MEXICO**  
**Kaiser's Government Has No Intention of Intervening.**  
 Berlin, March 10.—In reply to current reports that the German Government asked for American intervention in Mexico or that it proposes to take independent measures to protect German interests and German subjects in that country, Baron Von Kiderlen-Waechter, secretary of state for foreign affairs, today stated that Germany, which made no representations whatever to Washington on the subject, does not contemplate taking any steps in the matter.

It is officially and explicitly affirmed that this Government has received no communications from its legation or consuls in Mexico since the present question of intervention or independence was raised in 1906, and that it has no intention of taking any steps to protect Germany's interests there could be founded. No question involving a violation of the Monroe doctrine has been raised.

The official attitude toward the situation is reflected in an editorial leader in the Vossische Zeitung yesterday.

The artificial silk industry is now assuming large proportions, the world's output being even at about 1,000,000 kilos per annum at the present rate of production against 1,200,000 in 1906, and 600,000 in 1904.

**Horse Fell on Street and Died Shortly Afterward.**  
 A horse owned by a local horse-dealer slipped on the King street pavement in front of the market-house yesterday, and after falling twice was found unable to rise. It was dragged to a near-by hotel stables, where it shortly afterwards died.

**LONDON'S LIBRARIAN DOES GOOD WORK**  
 Commentary Notice of Mr. Carson's Efforts by a Winnipeg Writer.

"London" writes in the Winnipeg Telegram: "Every year the modern public library is giving greater service to the public. It is the efficient head of a city library a man must constantly be reaching out more and more to stir up the intellectual hunger of the plain-going citizen. In the old days a librarian sat at a desk, looked up and grudgingly handed out old books to the thin stream of visitors who presumed to enter his domain. He regarded a person who asked to read a rare book as a suspicious individual, and while the visitor sat at a table reading the volume in question, the librarian kept him under strict surveillance. It was impossible for the ordinary reader to gain credit in the shelves, and he considered it a great favor to be allowed to carry home a dime's worth of travel or a novel in diminal binding from the circulating department of the house of wisdom. But the modern librarian is no forbidding scepter, keeping watch and ward over his trust. He has taken the padlock from the gates, which lead into the stack room; he is a man of cheerful visage whose services are cheerfully given to his patrons. He is so anxious for the visiting citizen to take books home with him as a complimentary traveler is to sell his wares. Now, he does a little afterwards, and in playing the game of pond host he is constantly sending forth copies of books to schools, missions, lonely solitary, numerous depots in different parts of his community. W. O. Carson, the enterprising head of the public library in London, Ontario, has even gone so far as to go out and urge the people to come in and drink

**NEW SPEED RECORD.**  
 Mourmelon, France, March 10.—In a flight in a monoplane yesterday with two passengers, Sievert established a new record for speed. He covered 1104 kilometers (680 miles), at a speed of 102 kilometers (64 miles) an hour.

**BOOTH MAY GO BLIND.**  
 London, March 10.—Gen. William Booth, commander-in-chief of the Salvation Army, will be operated upon for cataract of the left eye on his return from Rome. He lost the sight of the right eye some months ago in an automobile collision, and it is feared that he will become wholly blind.

The British mint recently turned out its first square cent, nickel bronze pieces for use in Canada. At least \$20,000,000 worth of British property is always on the sea.
