HON. MINISTER OF AGRICULTURE

PRAISES KENT'S GREAT FAIR

Splendid Address by Hon. Nelson Monteith at the Grounds This Afternoon—Hon. Dr. Reaume, H. S. Clements, M. P., and A. B. McCoig M. P. P., also Contribute to Occasion.

Splendid addresses by two of Ontario's cabinet ministers—both eloquent sons of the west— and West Kent's two esteemed parliamentary representatives, H. S. Clements, M. P., and A. B. McCoig, M. P. P., were the features of the memorable introductory to Children's Day at the big Peninsula Fair. That they were all much appreciated was evidenced by the enthusiasm of the people who crowded the stands and greeted each speaker most heartily.

President A. J. Dolsen, in opening the proceedings, briefly referred to the pleasure it gave the directorate to have at the Fair such prominent visitors. Herbert S. Clements, M. P., in a few well chosen words, introduced Hon. J. O. Reaume, Ontario's Minister of Public Works. "He is one of our worthy French-Canadians," and we are all proud of him—a man of exceptional quality, who is administering one of the greatest public departments in a most capable manner."

HON. DR. REAUME.

Hon. Dr. Reaume was received with great applause. He was proud to visit the neighboring county of Kent and to see for himself why it held such a proud position in the Province of Ontario. The west was the Garden of Canada. The counties of Essex and Kent were demanding much of his attention at the present time. He thought the questions of drainage and good roads were vital ones in this district. In drainage matters he asked the farmers to unite with their municipal and county councils and stated, amid applause, that the Government of Ontario was ready to lend them a helping hand. A million dollars had been laid aside for good roads work, and he felt sure the County of Kent was well entitled to a good portion of it. "We have in the west the best agricultural district, the finest garden and the most beautiful ladies in all Canada," concluded the gallant Doctor.

A. B. McCOIG, M. P. P.

A. B. McCoig, M. P. P., got an enthusiastic reception and delivered a splendid address in introducing the Minister of Agriculture. He was particularly proud and pleased, he said, to hear the loyal and eulogistic address of Hon. Dr. Reaume. Kent was all that the doctor had claimed for it—and more. It had done his heart good the previous day to see the Kent and Ohioan horses winning against a field of entries from all parts of the Province. Their owners were well deserving of congratulations. He was impressed with the vast possibilities of the future and the outlook for the young men. He was glad the Minister of the Crown was assisting so nobly in securing for them their rights, and he believed that both the Government of the Province of Ontario and the Government of the Dominion of Canada were to be congratulated on the progress made. He was pleased to introduce Hon. Mr. Monteith. He was a capable, practical farmer who had done honor to his high office. Applause.

ONLY A PLAIN FARMER.

Hon. Nelson Monteith, Minister of Agriculture, got a rousing reception. "After Mr. McCoig's most eloquent and all-too-flattering introduction," he said, "I'm afraid you may look for something from me and be disappointed. I'm just a plain every day farmer, whose fate or luck has called upon to interest himself in the great agricultural destinies of our Province. I'm glad to visit my brother farmers in the good old county of Kent, to associate with them to discuss questions of mutual interest and to be benefited by much of their advice and practical counsel."

Honor to whom honor is due, declared the speaker. Much of the great educational development in agriculture resulted from the agricultural exhibition. It set up ideals for the young man to strive for. It had done much to build up our agricultural success. "But," asked the speaker, "is the enthusiasm wearing off? I am among you as a humble farmer to find if we cannot obtain greater good from our fairs. Have we not too many shows? Would not somewhat of a consolidation of our efforts be advantageous? Let us consider over these things."

"Everywhere I go I am told it is the Garden of Canada. I like to hear it. It is the spirit that wins. We want to develop the whole of Ontario into one large garden, where each does its part. Ask you who are engaged in agricultural pursuits to lend us your sympathy and be our

advisers as to what lines of effort will do the most good. The department of which I have the honor to be the head is much interested in your work. Let us hear from you. It will be mutually beneficial, I believe."

In concluding, Hon. Mr. Monteith thanked the directorate for their kind invitation to him to be present.

SPLENDID FOOTBALL MATCH.

One of the main features of yesterday afternoon was a splendid football match between the M. Campbell Co. team and the C. B. C. team, in which the latter, after a hard struggle, pulled out winner by the close score of two goals to one. Much interest centred in the splendid game put up by the M. Campbell Co. team. This was their first match and the fine showing made put lots of enthusiasm in their supporters. Much of their success is due to the splendid efforts of their enterprising manager, P. Mooney, who takes such a keen interest in all healthful athletics and has done so much to put the team in the excellent condition it is to-day. Under Mr. Mooney's capable management the Campbell Co. team promises big things for the future and their players will be factors in many good contests.

GUNBOAT SUNK.

Manila Typhoon Destroys Malahi, a Military Post Near Manila.

Washington, Sept. 28.—The military secretary has received the following cablegram from Gen. Corbin, regarding the typhoon of Tuesday at Manila: Another despatch to the Navy Department from Commander John B. Milton, commandant of the naval station at Cavite, was received later in the day and stated that the hurricane did \$30,000 damage to the buildings, plant, yard and craft.

"Manila, Sept. 27.—The worst storm of years obtained here yesterday, passing during the night. Considerable damage was done by the unroofing of buildings. The port at Malahi is reported totally destroyed. Further reports when facts are known."

Admiral Reiter, commanding the Asiatic fleet, cables the Navy Department as follows:

"The Yeyte, which was out of commission, was sunk in the harbor and lost in the hurricane of September 26." The Yeyte was a gunboat of 150 tons. She was one of the vessels formerly belonging to Spain, and it is said that the Navy Department that she was practically worthless. The port at Malahi referred to by Gen. Corbin is 31 miles from Manila in Laguna Province. The garrison consisted of four companies, 16th infantry, according to the last reports received at the War Department. There is also a military prison at Malahi.

SENATOR DEPEW GOT \$100,000.

What the Insurance Investigation Brought Out Wednesday.

New York, Sept. 28.—Yesterday's morning session of the legislative insurance investigation developed a great mass of technical testimony as to the syndicate profits of the Equitable Life Assurance Society. The witness who was questioned on this subject was Henry Rogers Winthrop, assistant secretary and financial manager of the society.

Mr. Winthrop testified that in one of the Equitable's syndicate operations, Senator Depew was a participant to the amount of \$100,000.

Senator Depew and Senator Dryden of New Jersey have been requested to appear before the committee.

C. P. R. WILL SUE.

Seattle Paper Said Passengers Were Carried in Reeking Coach.

Winnipeg, Sept. 28.—It is likely action for criminal libel will be instituted by the Canadian Pacific Railway against the Seattle newspaper which stated that Mrs. Hausted and her child had been transported from Halifax to Winnipeg in a reeking coach, in which scales from victims of scarlet fever could still be found, and that on arrival at Winnipeg they were placed in a vile pest-house where they remained a month when the mother died.

TO ALSO OPEN SCHOOL FAIR

Hon. Minister of Education to Assist in Inaugural Ceremonies at Central

Will Present Planet Gold Medal to Winning Essayist—Date of Visit October 24

Principal Plewes, of the Central School is in receipt of a message from Hon. Dr. Pyne, Minister of Education, kindly consenting to open the Central School Fair and take part in the festivities there on Tuesday, Oct. 24th, when he visits Kent County to present the gold medal awarded in the Planet Junior essay competition. It is proposed that the Minister shall open the School Fair on Tuesday evening and it will remain open for the balance of the week. Teachers and pupils have spent a great deal of time and effort upon this inaugural school exhibition and it promises to be a magnificent affair. The presence of the Minister of Education will prove an interesting epoch in the history of the school.

It is very probable that the Hon. Dr. Pyne will be accompanied by Mrs. Pyne. They will be the guests of Mr. and Mrs. S. Stephenson, and the presentation of The Planet essay prizes by the Minister will be the occasion of a souvenir issue of The Junior, with some very interesting announcements and containing the prize-winning essays. P. H. Bowyer, M. P. P., A. B. McCoig, M. P. P., ex-Mayor McKeough, chairman of the Board of local judges, Chairman Morley, of the Public School Board, and others, will be invited to take part in the proceedings.

A FINE HOUSE

Mr. and Mrs. W. M. Drader Have Just Moved Into One of the Most Magnificent Homes in the City

It is generally conceded both by friends and rivals that Chatham is fast becoming one of the prettiest and most up-to-date cities in the Dominion. Besides the natural conditions that have assisted largely in the gaining of this reputation there are many other advantages which are plainly evident to the occasional visitor.

Among the most prominent of these are the large number of modern and beautiful residences. There is probably no other city of the same size in Canada where there are so many attractive or expensive homes as there are in Chatham.

W. M. Drader, the popular contractor and builder, has just completed for himself on Wellington street west a handsome new residence which is well worthy of a prominent place at the top of the list of the many beautiful ones in the Maple City. This new house has been in the course of construction for some time and is at last ready for occupancy. Mr. and Mrs. Drader moved in last week and are now receiving calls from their many friends who all express unbounded delight at the magnificence of the new home.

This new house is built on the Colonial design and from the street it looks a veritable triumph in architecture. It is graced by a large verandah extending over the whole front, while a large balcony of the same size is directly above. Entrance is gained through a large bevelled glass door which opens into a hallway which leads to a large spacious hall. On the right is the library and back of it is the dining room, while at the left of the hallway is the drawing room. All the woodwork finish down stairs is of quarter-cut oak panels, and no pains have been spared to make the finish of the very best quality. The stairway is one of the best features of this new home. It winds around to a spacious and airy hallway, off which are three large bright bedrooms and a bath. The bath is floored with coral marble, as is also the entrance down stairs.

The house is lit with both electric light and gas, and the appearance of the rooms downstairs is very greatly enhanced by the presence of three beautiful mantles.

It is indeed a magnificent residence, and no other testimonial of the excellence of Mr. Drader's work as a builder is needed other than the elaborate home he has erected for his own use.

OLD RESIDENT GONE

Mr. George Paulucci, of Dover, passed away last night at the General Hospital. He was in his 75th year, and has been a resident of this community for over sixty years. He was highly esteemed by all who knew him.

He leaves a wife and eight children to mourn his loss.—Mrs. E. A. Patterson, Mrs. Jacob Ryan, Mrs. Jas. Henderson, of this city; and Miss Marion of Fort Wayne, Indiana; William and John, of this city; Walter, of Toledo, and George, of Topeka, Kansas.

The funeral will take place on Saturday at 2 p. m.

WHERE FRESHNESS COUNTS.

Among the manifold advantages of newspaper advertising over other forms there is one which the promoters of competing mediums of publicity can never hope to overcome. The newspaper establishes a direct communication between producers and distributors on the one hand and consumers on the other. It is "Johnny on the spot." It carries business news to the people within twenty-four hours after the copy is written. It does away with the necessity of cold storage preparation. And freshness counts for as much in business announcements as it does in the dissemination of the news of the day.

SASKATCHEWAN.

Dundas Banner, Liberal.

F. W. G. Haultain held too prominent a position as premier of the Northwest Territories to be ignored by Lieutenant-Governor Forget on the formation of the new provinces. He had been the choice of the people for years, and had served them with conspicuous ability. He was a member of the executive council and premier of the Northwest Territories when the new provinces came into existence. To ignore him on the formation of the Provincial Government was simply to repudiate Representative Government. To appoint a man as premier who was not the choice of the people and not their representative in any sense was simply to ignore the people. It is true Mr. Haultain opposed the Autonomy bills, but as premier of the new province he would have been powerless to repudiate its constitution which embodies certain legal rights and privileges for Roman Catholics. Under Representative Government, and as the premier of the Territories, he was the proper person to organize one of the new Governments. In selecting Walter Scott, who had no seat in the old council, Lieutenant-Governor Forget became autocratic and simply told the people that Representative Government did not exist, and that they did not rule. The position we take on this matter is the position Reformers took under William Lyon Mackenzie, and afterwards under Alexander Mackenzie and Edward Blake, as late as Sanfield Macdonald's time. Alexander Mackenzie, the historian of George Brown, tells us, when Mr. Brown joined the ministry of John A. Macdonald in 1864, in order to carry Confederation, his intention was that as soon as the Confederation Act became law the two parties should resume their normal position, and that the general elections, which must be held, would determine which party should succeed to power for the first parliamentary term. Mr. Mackenzie states that "the existing administration of Canada (that is, Ontario and Quebec) would necessarily, so far as the provinces of Quebec and Ontario were concerned, have the organization of the Local Government in their hands, as well as the provisional arrangements for the Dominion, though nominally all this might be supposed to be done after the first day of July, 1867." On the same reasoning the existing administration in the Territories would have the organization of the local governments in its hands, as well as the provisional arrangements for the Dominion. But in all this Mr. Haultain, the premier of the Territories up to the moment of the formation of the province of Saskatchewan, has been as completely ignored as if he never existed, and as if representative government had not been secured to us through years of struggle and blood. At the same time it should be borne in mind that Mr. Forget was Lieutenant-Governor of the Northwest Territories at the time of the formation of the new provinces, and as such was entitled to the appointment of Lieutenant-Governor. But just for the same reason Mr. Haultain was entitled to the appointment of premier. The appointment of Mr. Forget is, therefore, no proof that there has been collusion between him and the Ottawa Cabinet, though suspicions are likely to exist, especially as no valid objection exists against Mr. Haultain and also because Mr. Forget's conduct is a transparent piece of trickery. But the two young giants that have arisen out in the West cannot long be hampered by such expedients. They will rise above the torrents of inaugural lubricity with which they have been baptized, and throw off the swaddling clothes already soiled with ignoble greed and demand, as a boon to themselves, that a just requital be given the long and eminent services of a man

For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper, and better to check a cold in the very beginning.

It is easier, too. Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. Once used, my customers will buy no other."—L. Easley, Nanawapung, Ont.

If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all your money. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

HARWICH PIONEER

One of Harwich's oldest residents in the person of James Lambie, passed away on the morning of Sept. 24th, his wife and the children living at home being at his bedside, witnessing him passing peacefully and calmly away without a struggle.

This highly respected gentleman lived to the good old age of 86 years, and when he retired the night previous to his death he had not an ailment only old age. He was born in Wexford County, Ireland, and came with his parents to Brockville, where he lived for some time. He came to Harwich, Kent County, about 64 years ago, and settled on his farm, where he lived until the time of his death.

About fifty-one years ago the deceased married Miss Ellen Hickey, of Raleigh, sister of Wm. Hickey, ex-Warden of Kent County. His wife and nine children are left to mourn his loss—the loss of an honest, kind and faithful husband and father.

The children are—James, of Raleigh; William, of Chatham Twp.; Mrs. John Dixon, Kansas City, Kan.; Sister Solanus, Mt. St. Clair Convent, Clinton, Iowa; Joseph, of Saratoga; John of the M. C. R. Co., Detroit; and Dennis, Albert and Minnie, at home.

The funeral took place the following Saturday after his death, his six sons being the pall-bearers. While the funeral bell tolled the large procession proceeded to St. Joseph's Church, Chatham, where High Mass was said by Rev. Father Herman, a frequent visitor of deceased. After mass there was a delay in the funeral owing to two telegrams being received from his daughters, who were on their way to see him. Honor was at once shown by Rev. Father James, P. P., by allowing the remains to be left in the church until the afternoon, when the daughters came, after which the funeral proceeded from the church to St. Anthony's Cemetery.

The deceased was an uncle of Jas. Taff, Mrs. Thos. Weldon, J. B. Kelly and James Kelley, all of Chatham.

ANNOUNCEMENTS

At The Grand—
 Down By The Sea—Sept. 27-28.
 Gismondia—Oct. 2.
 The Isle of Bong Bong—Oct. 5.

(Supplied to The Planet by Press Agent.)

The company that comes to the Grand on Monday, October 2nd, is that of Melbourne Macdonald and the management of Charles Preston Elliott. No other dramatic organization now on tour can boast such an array of great actors for all of the supporting parts to the star. Mr. Macdonald will play Gismondia and Macdonald and his company during his present trip, all of these plays by Victorian bard, the greatest dramatist of France in modern times. In Mr. Macdonald's company are 23 capable actors and actresses, who have been associated with him the past season and to whose credit stands the fact that they are able to present the famous Sardou plays better than is the case elsewhere in the world, Paris, France, not excepted.

"The Isle of Bong Bong," B. C. Whitney's sparkling musical surprise, will be the attraction at the Grand on Tuesday, October 3rd. This magnificent musical satire enjoyed a phenomenal run of two hundred and seven performances in Chicago. It is said to be replete with tuneful music, sprightly ensemble numbers, and a wealth of scenic investiture. The lyrics treat of an odd theme and the song hits are of the sort that will set the town awhistling. The cast is one of unusual excellence, and is headed by the eminent dialect comedian John W. Ransome, the man who made all London laugh. Others in the cast are Anna Boyd, John W. Hendricks, Walter Ware, Charles Parcor, Leonard B. Hoyt, Clement Johnstone, Edith Depew and a host of well known stage favorites.

THE INTERNATIONAL COLONIZATION OF THE WORLD.

(By James Victoria Stuart.)
 The present situation in Europe on account of the intelligence of the nations there, should be one from which we might make a satisfactory summary of the possibilities for some great international colonization scheme to effect the great nations of Europe and later every nation in the universe.

Germany is indeed very wholly German and the protests in the nation have been for some time loud and bitter against the military authorities. The Government drives hard because the people are one solid mass of one race and one blood and it feels how high the responsibility runs and how difficult it is to palliate this existence at home as well as abroad. The youth of the land has been protesting by means of endeavors to evade the rigorous military regulations by having recourse to self destruction and bodily disablement, and the Government has recognized the serious situation by entertaining the proposition to make new regulations by which women may be enlisted into the German Army.

International intercolonization of the nations would mean much. It would mean world-wide tranquility and local disquiet. It would be a constant source of discomfort to all people in all lands. Locks on our doors, on our outhouses and cellars would then be much more necessary than now.

Great military reviews, on the land and the splendors of the naval reviews on the sea would be bartered in exchange for nothing better than a new condition of discomfort, and a more precarious existence. But prejudice might after a time change its front and then things would probably be improved.

For quality, workmanship and every detail, Sugar Beet Cigars lead, 5c.

Dry Cheese.
 Dry cheese shows a careless housekeeper. It is a source of waste, as the dry, hard pieces are usually thrown out. To keep cheese moist it should be wrapped in buttered or oiled paper and kept in an airtight pan or one with a lid that fits closely. Cheese that is cut and soon to be eaten will be moist and fresh enough if merely wrapped in a damp cloth.

Look Your Best.
 Always look your best, and after you have improved yourself as far as lies in your power, then make sure that your manners will do the rest. We all can't be beautiful, but we can try to be as beautiful as we can—and we all can certainly be courteous and win the love that even exceeding beauty will not gain for us without the charm that accentuates it.

String Beans and Lima Beans.
 Here is a rather uncommon dish of vegetables, but its excellence is vouchsafed for: Cook string beans and lima beans separately and when tender place them together in a saucepan with an ounce of butter, salt and pepper. Toss them together while cooking for a few minutes and serve with a little chopped parsley sprinkled over them.

The Guest and the Waitress.

A dainty stranger waited into the dining room of a hotel in Smith Centre the other day and as the chair was held back for him pulled out his handkerchief and dusted the seat carefully. Pulling up his trousers, he seated himself, wiped the knife, fork and spoon with a napkin, worried a few crumbs off the table and heaved a sigh of relief. Without hesitation the girl who had been drawn into a pucker of dissatisfaction at the imaginary untidiness abounding, and planted a kiss thereon that was plainly heard in all parts of the room. The dainty stranger when he recovered ordered meekly, ate hurriedly and left quickly.

PILES

CURED QUICKLY WITHOUT PAIN BY USING PYRAMID PILE CURE.

A Trial Package Mailed Free to All Who Send Name and Address.

We want every pile sufferer to try Pyramid Pile Cure at our expense. The trial package which we send will bring immediate relief from the awful torture of itching, bleeding, burning, festering piles.

We send the free treatment in a plain sealed package with nothing to indicate the contents. Pyramid Pile Cure is put up in the form of suppositories which are applied directly to the affected part. Their action is immediate and certain. They are sold at 50 cents a box by druggists everywhere and one box will frequently effect a permanent cure.

By the use of Pyramid Pile Cure you will avoid an unnecessary, trying and expensive examination by a physician and will rid yourself of your trouble in the privacy of your own home at trifling expense.

After using the free trial package, which we mail in a perfectly plain wrapper, you can secure regular full-size packages from druggists at 50 cents each, or we will mail direct in plain package upon receipt of price. Pyramid Drug Co., 2322 Pyramid

Demean.
 Says a writer in the London Chronicle: "A vulgarism—one which, like 'aggravate' for 'irritate,' has come into use by way of the kitchen stairs—is 'demean,' with a sense of derogation or abasement. It is to be seen in many a paper and even many a book and heard in many a speech. It is the second syllable that has misled the popular understanding, but the noun 'demeanor' should have saved the educated from their blunder with the verb. When the cook refuses to 'demean herself' she is excusable, because 'demeanor' is not in her vocabulary."

THE AVERAGE BOY.

How One Woman Sums Up His Attitude Toward His Mother.

In taking issue with a schoolmarm who said that when a boy thought much of a teacher it counted, while the girl pupil's professed friendship was only skin deep, a Howard mother who has both a son and daughter touches up boys in this fashion: "The average boy looks on his mother as a slave, a drudge, a person to work for him, to be grieved at, to be ashamed of and pushed aside when he gets old enough to look out for himself. The average girl, though she may be spoiled, selfish and at times ungrateful, turns to mother for comfort, for advice, and when needed is kind, considerate and helpful. Some time ago I worked hard to give my boy and girl a treat. They were away from home for a few days and I fixed up each one's room with new curtains, new carpets and a lot of new things for their shelves, tables and dressers. My little girl was so delighted that she could scarcely contain herself. My son never noticed the things and never expressed a word of thanks when his attention was finally called to them. I have talked with other mothers and almost without exception their experience is the same. The daughters are the kindest and most grateful, while the boys exact the most attention, help the least and cause us the most worry and heartaches.

DESERT HEAT.

It is intense, but it is dry and not uncomfortable.

It has been my fortune to visit some of the hottest places in America at the hottest period of the year and the reader may be incredulous when I say that I have been vastly more uncomfortable in Boston, New York, Philadelphia, Baltimore or Washington in summer than I have at Yuma or in the heart of the Mojave, California or Apache desert, or any of the great pseudo summer deserts that reach away from a general line from Yuma to San Antonio, Tex.

I recall entering a restaurant at Indio, on the edge of the Mojave, when the heat called to mind proximity to a furnace. I suggested to a citizen that it was hot. "No," he replied, "Yesterday was hot; it was 120 degrees in the shade; today it is only 115 degrees." Yet I have been more uncomfortable in Boston with the thermometer at 90 degrees. In Boston the heat was humid; one perspired. At Indio or on the desert the heat was absolutely dry and at night the chances were that a blanket might be required, nature giving one an opportunity to recuperate, which is not always the case in the great cities.

MILLIONS LOST IN REALTY.

Greater Shock Than Wall Street Deals Caused Expected By the Newest Revelations.

New York, Sept. 27.—When the legislative investigating committee passes on the stock transactions of the McCall regime in the New York Life Insurance Company to its real estate deals, revelations are expected of a more shocking character than thus far revealed about the operations of Wall Street syndicates.

An inquiry into the manner in which real property is purchased by the company may develop a reason why, despite the phenomenal rise in values in all the metropolitan centres in the past decade, the New York Life has lost enormously on every piece of property it owns.

Summed up, ten office buildings owned by the New York Life cost \$9,080,227, company's present valuation of same buildings, \$5,990,000, admitted loss on investment, about 33 per cent, or \$3,090,227.

Re-Convenes To-day.

New York, Sept. 27.—Syndicate operations in the Equitable Life Assurance Society will be taken up when the insurance investigating committee reconvenes to-day.

Policyholders Disfranchised.

Chicago, Sept. 27.—Investigation of the affairs of the Western Life Indemnity Co. yesterday brought out the fact that claims of perhaps thousands of policyholders in assessment companies have been practically wiped out through manipulation. Twenty-eight small insurance companies have terminated their existence by merging into the Western Life Indemnity Co.

OPPORTUNITIES FOR TRADE.

Mexico Wants Railway Ties and Canada Wants Sisal.

Ottawa, Sept. 27.—The Elder-Dempster Co. are now endeavoring to arrange for large sales of ties to Mexican railways. Spruce and tamarack railable for ties are to be found all through the Maritime Provinces and eastern Quebec, and the approaching winter will doubtless see an immense quantity of them go out for shipment to Mexico with the opening of navigation.

The annual consumption of railway ties in Mexico exceeds one million, and they are worth over 60 cents gold per tie at seaports in the Gulf of Mexico.

Another feature of Mexican trade pointed out to the steamship company by Sir William Mulock in England recently, was the opportunity afforded by the establishment of this steamship line to the Canadian people to obtain from Mexico the raw material from which the most of the binder twine and cordage of Canada is manufactured. At least one-half of the raw material of binder twine is sisal, a fibre obtained from the henequen plant, grown in Yucatan, on the Gulf of Mexico. Hereafter all this raw material was exported to New York by the Ward Line of steamers, and Canadian manufacturers of binder twine were obliged to purchase in that city.

The Government is urging the Elder-Dempster Co. and also the great Mexican growers of sisal, to ship the sisal fibre direct to Canada, and the company has about concluded arrangements for direct shipments to Canada hereafter of large quantities of sisal. It is expected that Montreal will be the emporium for this raw sisal.

COLLECTIVE NOTE TO PORTE.

Six Powers Will Assume Control of Macedonian Finances.

Constantinople, Sept. 27.—A collective note from the six powers has been handed to the Porte declaring that their decision to resume international control of the finances of Macedonia is unalterable. Controllers will arrive at Salonica on October 1.

There is increasing friction between the British embassy and the Porte in consequence of the delay in the payment of an indemnity to the owners of the British ships attacked by Arab pirates in the Red Sea. The embassy's latest note pointed out that unless the matter was satisfactorily settled soon the incident would assume a graver aspect.

EIGHT CENTS A DAY.

Small Difference Leads to Big Strike At Springhill Mines.

Hallfax, Sept. 27.—Manager Cowans of Springhill Mines left for Parrsboro Monday and did not know anything of the strike until yesterday. Before leaving he had written a letter to the P. W. A. Lodge, conceding several demands they had made, excepting only the demand of an engine driver who asked main line rates for shunting. As the situation now stands about 1,000 men are idle because of a difference of eight cents per day, or forty-eight cents per week, in the pay of one man, the management conceding the other demands. The mines were closed down yesterday.

Keen Fight In Alberta.

Calgary, Sept. 27.—With only one exception there will be a keen contest in every Alberta riding south of the Red Deer line. The exception is Medicine Hat, where the Conservatives concede to Hon. Mr. Findlay. Candidates are in the field in all the twelve ridings and the Conservatives count on carrying Macleod, Calgary, Banff and Gleichen, with equal chances in High River, Innisfail, Pinches and Rosebud.

Died From Strychnine.

Hamilton, Sept. 27.—That William Wilson, the adopted child of James Wilson, Globe Hotel, Dundas road, died from strychnine poisoning was established at the inquiry last night conducted by Coroner McNichol. How the youngster got the poison is still a mystery.

Newfoundland Loan.

London, Sept. 27.—Sir Robert Bond, Premier of Newfoundland, has completed arrangements for the issue of a loan of \$2,000,000, to be paid to R. G. Reid for the Newfoundland telegraph lines. The interest will be at 3-1/2 per cent.

SIX MONTHS FOR MANSLAUGHTER.

Gave Small Boy Whiskey and His Death Resulted.

Cornwall, Sept. 27.—John Leisert of Hainesville was found guilty at the Assizes here yesterday of causing the death of Herman Farrell, the six-year-old son of James Farrell of Pleasant Valley, Dundas County, and was sentenced by Justice Street to six months' imprisonment in the County Jail.

Leisert when considerably intoxicated, gave two boys whiskey at their request. Leisert himself went post haste to South Mountain for a doctor when the children became ill. One died. At the June sessions he was found guilty of manslaughter with a recommendation to mercy. In the evidence it was shown that liquor was frequently used in the Farrell home by the children and mother, and that Leisert knew of this.

On Trial For Murder.

Montreal, Sept. 27.—The trial of Charles Kernick, accused of the murder of Doron Mitchell at Isle Ronde, commenced in the Court of King's Bench yesterday. Mrs. Kernick is also accused in the same connection, but it was decided to hold separate trials.

ACROSS COUNTRY.

The signs of the times point to an enormous increase of intelligent public interest in health: to a new generation with purer, stronger blood and therefore more active, braver brains and body. No physically robust, healthy person ever succumbed to grip, consumption, malaria, or any other germ disease. But with a weakened system, our blood is often in a fertile condition for the growth of bacteria—the germs of disease—because each is disordered or our liver is torpid—in either case our blood does not get the proper nourishment. A torpid liver means a stagnation of the blood and an accumulation of poisons which furnishes a weak spot for bacteria to enter.

To enrich the blood and increase the red blood corpuscles, Dr. Pierce's Golden Medical Discovery found a vegetable compound which he called Dr. Pierce's Golden Medical Discovery, that would quickly cure the bad symptoms by increasing the red blood corpuscles and thereby feeding the nerves on rich blood. This "Medical Discovery" also acts upon the digestion and assimilation of food, so that the blood gets its proper elements from the products of digestion. Feed the lungs, stomach and heart on rich red blood and you have surely a healthy body which will throw off the germs of disease which lurk everywhere. Get as near nature's way as you can. A medicine made entirely from botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains neither alcohol nor narcotics.

AND OPTICIAN
BIG CLOCK

CANADA'S PIONEERS.

Something of the Officers of the Geological Survey Who Discover the Resources of the Dominion.

The 1904 Summary Report of the Geological Survey, according to the statement of the Acting Director, Dr. Robert Bell, is almost wholly occupied with investigations of immediate economic interest. The Acting Director's repeated insistence upon this feature of the work of the Department is the most noticeable feature of the introduction, which represents his direct contribution to the work. Twenty-eight parties were sent out during the year, and they strung themselves across the country, from the Yukon to Annapolis Valley. Of these fully a dozen were employed on work which may be described as primarily economic, such as the study of coal and gold fields. Half a dozen were primarily exploration work, but even then an alert eye was kept on the economic possibilities of the wild regions traversed, and we find Mr. Low noting a possible deposit of placer gold on Baffin Island and Mr. McInnes remarking on regions which might be devoted to white pine when the day comes for reforestation.

The desire to be practical crops out in somewhat pathetic guise when Dr. Bell remarks that Prof. Macoun's enthusiastic studies of the botany and zoology of the National Park, "should render it much more interesting as a summer resort."

The Men and Their Work.

Much of the investigation was in the West. Two parties, those of Mr. R. G. McConnell and Mr. Joseph Keele, worked in the Yukon, following and studying the work of the gold-diggers. Three were employed in British Columbia, Dr. R. W. Ellis examining the Nicola coal fields, and Prof. R. W. Brock spending some time in the Lardeau mining region, while Dr. R. A. Daly continued his preparation of a geologic map of the ten-mile belt along the international boundary. Two parties were stationed in Western Alberta, Prof. John Macoun in the National Park, and Mr. D. B. Dowling in the coal fields of the Rocky Mountain region adjacent to the line of the Canadian Pacific. In the Cypress Hills in Western Saskatchewan, Mr. Laurence Lambie discovered the fossil remains of some large extinct animals.

The exploration work proper, apart from Mr. A. P. Low's Arctic expedition, was done in Central Canada, in the large and little known region east of Winnipeg and north of Lake Superior. Mr. Owen O'Sullivan mapped the west coast of James Bay. Mr. Wm. McInnes explored the nature of the almost unknown country at the sources of the Winisk and Attawapiskat Rivers, running into Hudson Bay and James Bay respectively. To the west of him, Mr. Charles Cammell examined the head waters of the Severn River, which flows northward into Hudson Bay. Both these explorations were directed to the west and north of Albany River.

Big Blank in 1902 Map.

Mr. McInnes' district is a blank on the big 1902 map of the Dominion, and Mr. Cammell's portion of the work lay through a region which is most imperfectly known. East of the Albany, Mr. W. J. Wilson made important discoveries relating to the tributaries of the great stream, exploring the headwaters and several hundred miles of the courses of the Kenogami, Pagwachuan and Drowning Rivers.

Proceeding eastward, we find more economic work. Mr. E. D. Ingall and Mr. Thos. Den worked the detailed geology of the Bruce Mines neighborhood. Dr. A. E. Barlow and Dr. G. A. Young worked in the Temagami region. Prof. W. A. Parks investigated the Cobalt district. Prof. Ernest Haycock and Mr. Frank Johnston mapped out the geology of the Temagami district, on the Quebec side of the lower Ottawa, and Dr. J. A. Dresser continued his work of defining the copper-bearing belts in the Eastern Townships. Mr. A. F. Hunter traced the high-level shore lines south of the Georgian Bay from Orangeville to Thornbury, and Dr. Robert Chalmers worked in the Gaspé peninsula. In New Brunswick Prof. L. W. Bailey investigated some economic minerals. Dr. R. W. Ellis spent some time mapping the geology of Charlotte County. In Nova Scotia, Dr. Henry S. Poole finished his examination of the Lake Annsie region in Cape Breton; Mr. Hugh Fletcher worked in the coal fields and iron ore districts of Cumberland, Kings and Annapolis Counties. Mr. E. R. Faribault continued his study of the gold fields, while Mr. L. N. Richard did topographical work. Dr. Bell took part in a joint committee of the Canadian and United States geological surveys, to settle certain disputed questions of nomenclature in the Lake Superior region.

The Tax-payers' Interest.

All this is rather long, and may seem tedious; but the reader is entreated to reflect that this mere catalogue of names and places represents a wonderful range and amount of effort. The Canadian tax-payer's real estate is being examined by his special experts. Away in the frozen north Low was crowding his steamer through the ice, collecting customs dues from surprised whalers for your benefit, Canadian tax-payer—scrutinizing the geology of your islands, noting for your future benefit the mica mining which actually is in progress to-day on the bleak shores of Baffin Island. South of him O'Sullivan was floundering along the muddy shores of James Bay, where there is from three to six miles' difference between high and low water—you have fishery interests there, and lease the monopoly of them to lobbyists at ten dollars a year. Away in the North-West McInnes and Keele were working up the results of prospectors' findings into a guide to the gold-hunter—and you get a royalty, Canadian tax-payer. Three of your coalfields last summer were given a critical examination, and one of the geologists to whom the job was entrusted by the patient study added fifteen hundred square miles of coal measures to your stock, just where they will do you most good. Half a dozen big rivers, which one day will have their population and their traffic, were mapped out for you. Yes, Canadian tax-payer, you are being well served.

Second Thoughts.

Madge—Did Charley propose to you out in the auto?
Dolly—I thought he was going to but he didn't. When he got down on his knees it was only to crawl under the old machine.

Treasurer's Bondmen in Tilbury East Deny Township's Claim—Poor Auditing the Cause

At a meeting held last evening the bondmen of F. Robinson, the defaulting treasurer of Tilbury East, decided to contest the claim of the township for the recovery of the amount of the bonds.

The action is taken on the ground that the township appointed local auditors year after year and the presentation of their annual reports that everything was correct was approved by motion in Council.

Houston & Stone and O. L. Lewis are acting for the bondmen, while M. Wilson, K. C., represents the township.

AGAIN TO-NIGHT

The largest audience of the season was at the Grand last night, when the four act comedy-drama, "Down by the Sea," was presented by Mr. Phil. Hunt. Long before the curtains rose all the seats downstairs had been taken, and all the available space in the gallery was occupied.

The play well pleased the large audience. It has many dramatic situations and the intensity of feeling aroused by the story is relieved by the introduction of comic characters at appropriate intervals. Miss Arline Athens played the leading role as Blanch Preston very ably. Homer R. Barton, as Henry Melford, a young person, and Harry Driscoll, as his rival, Richard Dwight, capably presented the characters. Charles H. Sanders, as Joel Haynes, the good natured old fisherman, was perhaps the most popular character in the play, and he well portrayed the jolly man of his occupation. L. Taub Crispe, as Abe Elson, the Jew, and employee of Dwight, also took a comic part in an admirable way.

The mechanical effects were good, especially the scene of the rolling waves, which was, perhaps, the best of its kind this season.

Specialties, in the form of singing, were given by Mr. Chas. H. Sanders. His last song, with local applications, was repeatedly encored.

The play will be presented again to-night.

MINISTER HERE

Hon. Nelson Monteith Arrives in Chatham and Pays Tribute to Splendid District

Hon. Nelson Monteith, Minister of Agriculture, arrived this morning on the 10:25 P. M. Marquette train. The Minister was accompanied to Chatham by T. L. Parlo, ex-M. P. P.

The reception committee at the depot included President A. J. Dolson, Directors John Houston and William Clements, H. S. Clements, M. P., A. B. McGee, M. P., Mayor Cowan, Ald. King, chairman of the Market committee, Rev. Dr. Battisby, Dr. J. L. Bray, F. D. Laurie, Ward Stenworth, Ald. Marshall, S. B. Arnold, J. W. Plewes, John Davidson and many others.

The Minister was at once escorted to the Garner, where he registered, after which, with President Dolson, Messrs. Clements and McGee and the Mayor and Ald. King and Marshall he was driven around the city.

"You have a magnificent agricultural district all around you," commented the Minister, "and it is a great pleasure for me to have the privilege of visiting your fair."

SERIOUS ACCIDENT

Miss Pratt, of the Collegiate Institute Sustains Painful Injuries Through Working With Chemicals.

Miss Pratt, of Merila, a student at the Collegiate Institute, met with a very painful accident yesterday through which she had a very narrow escape from serious and permanent injury.

Miss Pratt was engaged in some experiments in the laboratory of the school when in some manner a bottle of nitric acid slipped from her hand. The cork came out of the bottle and some of the acid flew up and struck her eye, inflicting a severe burn.

Mr. Jewett, the science master, acted promptly to relieve the young lady's suffering and sent her immediately to a surgeon. It was thought at first that she might lose the sight of her eye, but under the skilful care of a Maple City eye specialist, her suffering has been greatly reduced and the sight of the eye will be saved.

The accident, while deeply regretted, has taught a lesson to the other members of the science classes that too much care cannot be exercised in the handling of chemicals. The incident itself was purely accidental, and while Miss Pratt may have been careful and cautious in the experiment, no blame can be attached to the instructors in the school.

ANTI-COALITION RIOT

Socialists in Buda-Pesth Provoke Bloodshed.

Force Postponement of Parade and Lead Attack on Independence Club—Half a Hundred Victims of Fray—Revolutionary Sentiment is Gaining Ground—General Situation Worse—Feeling in Hungary.

Buda-Pesth, Sept. 28.—Between 40 and 50 persons were injured in riots here last night when Socialists and adherents of the coalition parties, including students, clashed opposite the Royal Hotel and for two hours there were scenes of wild tremendous excitement. The Royal Hotel is the headquarters of the Independence Club, in which is the council-room of the coalition leaders.

The students and other supporters of the coalition had arranged for a gigantic torch light procession last night, but during the day Socialists issued inflammatory proclamations calling on all Socialists and others opposed to the coalition to gather and fight for their rights, which they said the coalition was trying to sidetrack under cover of an alleged affront by the King-Emperor to the whole nation. Owing to these proclamations the coalition leaders decided to postpone the torch-light procession, seeking thus to avoid bloodshed.

At 8 o'clock about 1,500 Socialists gathered outside the Independence Club and announced their intention of entering and tearing down the council-room. A large force of police was present and were assisted by 150 leading citizens. The mob made an effort to enter, but was vigorously opposed by the police.

Several persons stabbed. A fight ensued and amid the wildest clamor several persons were stabbed; but the Socialists were finally scattered. Fifteen minutes later, however, the Socialists again gathered. By this time many adherents of the coalition appeared and a free fight ensued. A dense mass of humanity surged in every direction, shouting and singing the Marseillaise and other songs. Knives, sticks and stones were used vigorously.

It is reported that over forty persons were wounded, eight of them seriously. Scattered aghast continued and Socialists marched to a building in which is published a coalition newspaper, where the doors have been attempted to gain an entrance. The mob was held back by the police, while the printers and editors threw furniture from the windows on the heads of the crowd. Here, too, several persons received wounds. Finally quiet was restored.

The general situation certainly has grown worse, while the feeling through Hungary against the dynasty is increasing. It is stated that the Emperor has issued orders that in the event of disturbances such measures must be avoided if possible. Revolutionary cries are frequently heard.

G. T. R. Takes Over C. A. R. Montreal, Sept. 28.—The management of the Grand Trunk Railway announce that the Canada Atlantic Railway has been taken over by them, and that the following board of directors has been elected: Charles M. Hays, F. H. Fitzhugh, Joseph Hobson, W. H. Biggar, J. W. Loud, Frank Scott. The following names were elected officers: Charles M. Hays, president; F. H. Fitzhugh, vice-president; H. W. Walker, secretary-treasurer; H. W. Walker, general auditor.

Conference Re. Tibet. Washington, Sept. 28.—A conference will be held in the near future in Calcutta, English India, at which it is hoped that the difference between China and England in regard to the treaty of the latter country with Tibet will be adjusted. China never recognized the treaty with Tibet and has protested against it as soon as the military expedition returned from Lhasa.

Y. M. C. A. For Railway Men. Barrie, Sept. 28.—Charles M. Hays, general manager of the Grand Trunk Railway, has signified his willingness to contribute from his company the sum of \$4,500 and a free site for the erection of a Y. M. C. A. building at Allandale, to be used principally by the men working in the Grand Trunk shops there. He also proposed to give \$50 per month for the maintenance of the building.

Fight in Express Car. Decatur, Ill., Sept. 28.—John E. Ryan of Chicago, Pacific Express messenger on a Washab passenger train, and Edward Green, also of Chicago, a former express messenger, fought with pistols in Ryan's car yesterday. Both were seriously wounded and may die. Jokes led to the quarrel.

Masonic Relief Association. Syracuse, N. Y., Sept. 28.—The Masonic Relief Association of the United States and Canada opened its sixth biennial session here yesterday. The delegates were welcomed by Mayor Forbes. Hugh Murray of Toronto was made a member of the president's address committee.

Lost At Sea. Adelaide, Australia, Sept. 28.—Wreckage washed ashore on Kangaroo Island points to the loss, with all hands, of the ship Loch Vennachar, which left the Clyde June 14, bound to Adelaide and Melbourne.

Columbia Honors Komura and Witte. New York, Sept. 28.—The honorary degree of doctor of laws was conferred by Columbia University yesterday on Baron Komura and Sergius Witte, the senior peace plenipotentiaries of Japan and Russia.

Game Commission Meet. Windsor, Sept. 28.—The Ontario Game Commission met yesterday afternoon and its labors were concluded at one sitting. Among those present was Hon. J. O. Reame, Commissioner of Public Works.

Suez Canal Closed. Suez, Sept. 28.—The canal has been closed here until further notice.

MANUFACTURERS

Part of the Report of the Proceedings of the Convention in Quebec Which Mr. and Mrs. Piggott Attended

As was previously stated in this journal, Mr. and Mrs. John Piggott, of this city, attended the Dominion Manufacturers convention in Quebec. The Toronto Globe, in the report of the proceedings of the convention, has the following to say:

"The Treasurer asked for the opinions of the members on the subject of increasing the fee of ten dollars for ordinary membership, and a discussion took place upon the matter. The present manufacturers who employ men up to the number of one hundred pay a subscription of ten dollars, and those employing a larger number twenty-five dollars."

"Mr. John Piggott, Chatham, thought that the great point was to keep up the membership, as there was strength in numbers. Labor, he said, was more thoroughly organized than manufacture. Other members considered the present subscription too low, and Mr. E. L. Drewry, Winnipeg, suggested that the subscriptions might be still further graduated."

"The question was referred to the Finance committee to report to the Executive Council."

"Mr. A. W. Thomas, Toronto, moved for the formation of a reserve fund or alternatively a contingent fund."

"Mr. John Piggott opposed this, as he could not see the necessity of such a fund, as the association was not like a concern handling a large and dangerous manufacturing plant. The motion was defeated, and the financial statement was adopted."

CURED OF LAME BACK AFTER 15 YEARS

"I had been troubled with lame back for fifteen years and I found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Bishop, of Gillingham, Ind. This liniment is also without equal for sprains and bruises. It is for sale by all druggists.

Shorthand Inventor Dead. Detroit, Sept. 28.—Mrs. H. M. Pernin, inventor of the Pernin system of shorthand, which is used all over the world, and who resided in Detroit for many years, is dead in Los Angeles. She was about 55 years of age and a Canadian by birth.

Labor Candidate in Calgary. Calgary, Sept. 28.—R. C. Edwards, editor of The Eye-Opener, is the probable candidate of the Labor party here in the forthcoming election.

Courage is the quality the world admires most, for it is the one of which it has the most need and has the least of.

Men soon forget the pretty compliments but being truly good, and partaking of God's holiness.

PACKAGES...

SO many breakfast foods are put up in packages, that it is getting to be a perplexing matter to know what to choose. Then there is the fact that packages increase the price of the foods. The cost of packages, the price of boxes, and the labor in packing these does increase the costs of breakfast foods to the user.

The old way of getting Oatmeal in barrels is just as clean and just as convenient for the user, as getting it in packages. Of course it must be carefully handled, and kept covered, and you can be assured that when you buy BULK OATMEAL HERE, you are getting the best possible.

PAN DRIED ROLLED OATS, 25c.

STEVEN'S BREAKFAST FOOD, 6 lbs. for 25c.

TAYLOR'S BREAKFAST FOOD, 6 pounds for 25c.

GOLD DUST CORN MEAL, 10 pounds for 25c.

FINEST ROLLED WHEAT, 6c a pound.

GRAHAM FLOUR, 8 pounds for 25c.

WHOLE WHEAT FLOUR, 8 pounds for 25c.

EGG...

...PRESERVED

Approved by Guelph Agricultural College

This is a glass having the property of dissolving in water. The shell which covers and protects an egg is neither air nor water tight and through its pores enter germs and microbes which soon render the egg unpalatable. Glass is precipitated almost as soon as eggs are immersed in its solution and thereby the eggs are bacterially sealed and will keep fresh for many months.

J. P. Taylor, Park street, is adding another building to his place of business for the care of his pork packing industry that has rapidly increased during the past few years.

For the past two years he has been shipping his hams and bacon to London and other eastern points, as well as selling a large quantity locally.

The Steam Heating Co. has closed contracts for the heating of the Catholic Church and parsonage, and the Separate school, Garner House, Bank of Commerce, Standard Bank, G. T. R. ticket office and several other buildings. Steam will be turned on in part about the middle of next month, and it is expected there will be a full supply ready for distribution up to William St. on King by the first of November.

I WILL CURE YOU FIRST THEN YOU PAY ME

Dr. S. GOLDBERG,
The possessor of 11 Diplomas and certificates,
who wants no money that he
can not earn.

The physician who has not sufficient confidence in his ability to cure his patients first, and receive his pay afterwards, is not the man to inspire confidence in those who are in search of honest treatment.

My acceptance of a case for treatment is equivalent to a cure, because I never accept incurable cases. I am satisfied to receive the money for the value I have given the patient, but I expect to prove my worth and show positive and satisfactory results before I ask for the fee. So, should I fail to cure the case, the patient loses nothing, while when I cure him I have given what is worth much more than money—I have given him his health again. I am the very first specialist in the United States who has had sufficient confidence in his ability to cure the afflicted.

NOT ONE DOLLAR NEED BE PAID UNTIL CURED

There is no guess work, no experiment, but my method is a known expert in my chosen specialties, and offer you the best and only the best treatment. When your life or your health is at stake inferior treatment which leaves after-effects worse than the disease itself, is dear at any price.

I have 14 Diplomas and certificates from the various colleges and state boards of medicine and dentistry, which should be sufficient guarantee of my understanding and abilities. It makes no difference who has failed to cure you, it will be my advantage to get your case free of charge.

PHYSICAL DEBILITY

The Latest Method Treatment is a heaven-sent boon to nervous sufferers. There are scores and hundreds of persons suffering from nervous disorders resulting from overwork, hurry, worry, business and domestic cares, bereavements, dissipation, etc. To the afflicted is one continual round of misery, while peace, comfort and happiness are impossible. They suffer from headache, loss of memory, mental depression, strange sensations, dizziness, faintness, restlessness, irritability, constant indescribable fear, forebodings, sleeplessness, weakness, trembling, heart palpitation, cold limbs, utter fatigue and exhaustion. In this class of cases almost immediate relief is afforded by my treatment. The use of narcotics and poisonous stupefying drugs is done away with, and permanent cures accomplished.

I Cure Nervous Debility, Varicocele, Stricture, Early Decay and Waste of Power, All Nervous, Chronic, Blood and Skin Diseases.

X RAY EXAMINATION, ADVICE AND CONSULTATION FREE

HOME TREATMENT

If you are in or near the city you should apply for treatment in person, but if you live too far away, write me a full and interesting history of your case. You will receive a careful, conscientious and painstaking attention as if you were in my office daily. As men in different parts of Canada and Mexico, as well as those in the United States, are being cured by my system of home treatment, I feel confident that it is the most perfect and successful system ever devised. All physicians coming to me for consultation in over obstinate cases while they are occasionally called upon to treat will receive the usual courtesies of the profession. Medicines for Canadian patients shipped from Windsor, Ont., all duty and transportation charges prepaid.

THE GRAVE OF ELIA.

Hutton's Effort to Find the Tomb of Charles Lamb.

Hutton's "Literary Landmarks of London" was largely a labor of love and was the result of years of hard work. Mr. Hutton gives this example of the difficulties that stood in his way: "Another Sunday afternoon I devoted to a pious pilgrimage to the grave of Charles Lamb at Edmonton. As usual, nobody at Edmonton knew anything. The churchyard is not a small one, and it is entirely filled. The sexton and the gravedigger and a few persons wandering about could give me no information. Most of them had never heard of Mr. Lamb, and I could not find the sacred spot. Naturally I applied to the rector, and as he left the vestry door after service leaning on the arm of a pretty young woman I approached him, raised my hat and asked politely if he could tell me where Charles and Mary Lamb were resting. Really he could not say! And I, forgetting the day, the place and his sacred office, cursed that rector for his criminal ignorance.

"Great heavens," I said, "you ought to be ashamed of yourself! In your care have been placed the ashes of one of the foremost men in the whole history of English letters. And you don't know where they are! They have made your churchyard and your parish distinguished all the world over. I have come 3,000 miles to visit Charles Lamb's grave, and you, the rector of the church, don't know where it is! You ought to be heartily ashamed of yourself." And I turned upon my heel and left him standing there speechless and confounded.

Half an hour after the above incident occurred and while Hutton was groping around the graveyard in the twilight the rector came to him, hat in hand, apologized most humbly for his ignorance, which he had corrected in the meantime, and conducted him to the grave of the immortal Elia.

A VOCABULARY TEST.

Some Words Strange to You That Are in the Dictionary.

The number of obsolete words that are to be found in Webster's Dictionary is considerably larger than people have any idea of. The following letter, written by an alleged poet to an editor who had treated his poetry with derision, furnishes some idea of them:

"Sir—You have behaved like an impetuous scrogle! Like those who, envious of any moral celsitude, carry their ungility to the height of creating symposiumally the fecund words which my polygraphic genius uses with umberity to abrogate the tongue of the vestless! Sir, you have crassly parodied my own pet word, as though they were trigrams. I will once a veil over the atramentary ingratitude which has chambered even my indiscreetible heart. I am silent on the fecillation which my coadjuvancy must have given you when I offered to become your fanlor and admalecle. I will not speak of the lippitude, the oblespy, you have shown in exacerbating me, one whose genius you should have approached with mental disalcation. So I tell you, without supercaneuous words, nothing will render ignoscible your conduct to me. I warn you that I could vellicate your nose if I thought that any moral diarrhosis thereby could be performed—if I thought I should not impugnate my reputation. Go, tachygraphic scrogle, bend with your crass liguinate fanlor; draw objections from the thought, if you can, of having synchronically lost the extimation of the greatest poet since Milton."

And yet all these words are to be found in the dictionary.

Multiple Screws.

Multiple screws were used as early as the American civil war on certain vessels known as "tin clads" on the Mississippi, their adoption being necessitated by the shallow draft. The great advantage they possess in securing a vessel against total disablement and for maneuvering soon made them the rule in the navy. They were much longer in coming into use in the merchant service. But since the era of the very large transatlantic steamers, beginning with the Paris and New York and the Teutonic and Majestic, all very large vessels have been built with twin screws.

The Wig.

The wig is older than civilization, for the savage used one to make him more formidable on the field of battle. The French revolution killed the article as a piece of headgear. Before the guillotine fell in France the wigs which adorned the heads of its victims cost \$150 to \$200. The costly decoration lingered a long time on official heads in England. So recently as 1858 Archbishop Sumner found it necessary to wear one at the marriage of the princess royal.

A Consistent Career.

"I can remember when the wealthy Mr. Hildem didn't have a dollar of his own," said the man who disparages. "Well," answered the misanthrope, "it is said that he is still doing business entirely with other people's dollars."

The Ant's Ancestry.

"What makes Judge Ant so stuck up? Is he any better than the rest of us?" "Is he! Why, say, the judge is a direct descendant of the ant that the sluggard was sent to."

Never hold any one by the button or the hand in order to be heard out, for if people are unwilling to hear you you had better hold your tongue than them.—Chesterfield.

Now, why not have a Pandora?

Now we have shown you that the Pandora is a good range,

—that it is easily managed,

—that its grates are easily taken out and replaced without expense,

—that you can cook on the top and bake in the oven equally well at the same time,

—that it is the only range with a single-piece enamelled steel reservoir,

—that it has the best broiling door,

—that it has an absolutely reliable thermometer,

—that it is most economical, because it does its work with least coal.

Now, why don't you have a "Pandora" and be certain you have the best range?

Who Have Found Relief From Their
 Indigestion and Dyspepsia in Dodd's
 Dyspepsia Tablets.

"I suffered for several years with
 Dyspepsia. Nothing I ate would digest
 without giving me great pain. I could not
 get any thing to relieve me till a friend of
 mine advised me to use Dodd's Dyspepsia
 Tablets. One box cured me and I have had no
 return of the trouble since."

Such is the experience of Miss Lizzie
 Watling, 177 King William Street,
 Hamilton, Ont. It should come as a
 message of hope to thousands of Canadians.
 It is only one of thousands of similar
 statements that prove conclusively that
 Dodd's Dyspepsia Tablets never fail to cure
 Indigestion and Dyspepsia of all stages.

Dodd's Dyspepsia Tablets digest the
 food then enters. They take the stomach's
 work and give it a chance to rest and
 recuperate. They are thus a natural cure.

Help your stomach and it will help

 beyond, treat an attack of the "nerves" with
 indifference. Others consider it will soon pass
 away. But in every case nervousness is a
 calamity. Only one remedy will cure—
 Ferrozone—a nerve strengthener that acts
 through the blood. First it gives you appetite—
 you eat plenty. This fills the blood with
 nourishment for the inner nerve cells. Energy
 and strength is instilled into every part of
 the system. You get well—keep well—
 nervousness forever departs, because you've
 used Ferrozone. Price 50c. per box of fifty
 tablets at all dealers.

BE DONE WITH CATARRH!

Why allow this filthy disease to
 poison your system? It drains your
 strength, ruins digestion, pollutes the
 breath, makes you repulsive. The
 one certain cure is "Catarrhazone." It
 cures because it destroys the cause of the
 disease, cures thoroughly because it goes
 wherever the catarrh is, cures every case
 because it vaporizes, destroys the germs
 instantly. To get well and stay free from
 catarrh get Catarrhazone and use it; satisfaction
 guaranteed.

ELEPHANTS.

In Olden Times These Big Animals
 Were Used in War.

The circus elephant is almost as old
 as the world, for the ancient Romans
 had an eye to business as well as our
 own circus men. Trained elephants
 performed during the Roman gladiatorial
 fights, just as the clowns do in our
 circuses during the intermission.

But the elephant is also spoken of in
 the history of the Bible. King Lysias
 of Syria in 163 B. C. led 120,000 men
 and thirty-two war trained elephants
 against Judas of Maccabee and won
 the battle. Eleazar, the brother of Judas,
 killed one of these elephants, but

was himself buried and crushed to
 death underneath the colossal body of
 the animal as it fell.

Elephants were also found in the
 army of Hannibal when he made war
 upon the Romans in 219 B. C. The
 trunk, head and neck of this animal
 are most easily hurt, and therefore
 Hannibal had iron mail coats made for
 them which covered these parts. Alexander
 the Great was known to have used
 elephants as bridge supports during
 his wars, and, as you can see from the
 picture, crossed his soldiers over them.

There is a case on record where an
 elephant was taught to walk over a
 tight rope in a Roman circus, which is
 something that our modern circus
 trainers have not yet been able to do
 with their animals.

YOUR PLAYMATES.

Some "Don'ts" That Every Boy
 Should Always Bear in Mind.

Don't snub a boy because he wears
 shabby clothes. When Edison, the
 inventor, first entered Boston, he wore
 a pair of yellow linen breeches in the
 depth of winter.

Don't snub a boy because of the ig-
 norance of his parents. Shakespeare,
 the world's poet, was the son of a man
 who was unable to write his own name.

Don't snub a boy because his home
 is plain and unpretending. Abraham
 Lincoln's early home was a plain and
 unpretending log cabin.

Don't snub a boy because he chooses
 a humble trade. The author of "Pilgrim's
 Progress" was a tinker.

Don't snub a boy because of his
 physical disability. Milton was blind.

Don't snub a boy because of dull-
 ness in his lesson. Hogarth, the cele-
 brated painter and engraver, was a
 stupid boy at his books.

Don't snub a boy because he stutters.
 Demosthenes, the great orator of
 Greece, overcame a harsh and stam-
 mering voice.

Don't snub him for any reason, not
 only because he may some day out-
 strip you in the race of life, but be-
 cause it is neither kind nor right.

Rules For Children.

Be prompt at every meal.

Never shout, run or jump in the
 house.

Shut every door after you without
 slamming it.

Let your first, last and best friend
 be your mother.

Carefully clean the snow or mud off
 your boots before entering the house.

Never interrupt any conversation,
 but wait patiently your turn to speak.

Never sit down at the table or in the
 parlor with dirty hands or tumbled
 hair.

Always speak kindly and politely to
 servants if you would have them do so
 to you.

When you are told to do or not to do
 a thing by either parent, never ask
 "why."

Tell of your own faults and misdo-
 ings, not of those of your brothers or
 sisters.

Conundrums.

What is the board of education? The
 schoolmaster's shingle.

What gives more milk than a cow?
 A milk cart.

What insect frequents district
 schools? The spelling bee.

Why should a doctor never be sear-
 ched? Because he is accustomed to sea
 (see) sickness.

What is the difference between an
 old dime and a new cent? Nine cents.

Why is a girl or boy adding six and
 seven like a lame dog? Because he
 puts down three and carries one.

His Color.

"Now, what is your favorite color?"
 Asked Dorothy of Ned.

"Sometimes I think mine's purple;
 Sometimes I think it's red.
 The grass and trees and bushes—
 Why, all those things are green!"

That Dorothy was puzzled.
 Was plainly to be seen.

But Ned had no such trouble.
 After a thoughtful frown
 That lasted half a minute
 He said: "My favorite's brown—
 The brown like grandma's cookies
 And tops of biscuits—oh,
 There's not another color
 As nice as brown, I know!"

The Feast of Nature.

"The Feast of Nature" was a grand
 French revolutionary holiday, held
 Aug. 10, 1793. A plaster image of na-
 ture was erected in the Place de la
 Bastille, and the chief members of the
 convention, the public committees and
 all public functionaries knelt in adora-
 tion, after which came the firing of
 salutes, dancing and general public re-
 joicings. The holiday celebrated the
 finished constitution of the republic.

The worries of a weak and sick

 MINARD'S LINIMENT is also a good
 article to keep off the mosquitoes.

MURDERED HIS MOTHER

Jury Finds Doyle Guilty—Judge Defers the Penalty.

Deliberated an Hour and Did Not Recommend Mercy—Prisoner Received the Verdict in His Usual Nervous Manner, and Seemed Relieved When Removed From the Court—Joe Bennett's Trial For Murder On.

Frankford, Sept. 28.—After being in deliberation for about an hour the jury returned a verdict of guilty in the Doyle murder case. There was no recommendation for mercy.

The prisoner took the verdict in his usual nervous manner. When the jury entered the room he glanced at the jury, then at the judge and finally at his eyes dropped. In this attitude he remained while the fatal words were uttered.

Occasionally a nervous twitch would come over his face, but the verdict was received without any outward display of emotion. He seemed relieved when taken from the box.

Justice Anglin reserved sentence.

Joe Bennett's Trial On.

Immediately at the conclusion of the Doyle case, the court proceeded with the trial of Joe Bennett, charged with the brutal murder of Betsy Jacobs.

Bennett entered a plea of "not guilty." Crown Prosecutor Brewster in outlining the case, said that while the evidence was entirely circumstantial, he thought that a sufficient and conclusive amount could be brought forward to lay the guilt on Bennett.

The defence will make every effort to prove an alibi. Many witnesses from the reserve will be brought forward to substantiate this claim.

Much evidence was heard yesterday. Bennett's movements being clearly traced up till one o'clock on the morning of the tragedy. One witness, Mary Elliott, testified that she saw the prisoner at three o'clock in the morning, but her cross-examination was not begun at the hour of adjournment.

No new evidence of a startling nature was given yesterday.

Taverini Held For Marlow's Death.

Toronto, Sept. 28.—Four of the Italian prisoners whose fight ended in the death of Curly Marlow at Mimico on Friday last, told the coroner's jury that the hotel last night that it was Dominic Taverini who stabbed Marlow. Bruno had also been fighting with Marlow. As a result of the evidence the jury decided that Taverini had done the deed, that Bruno was an accessory, and that the Windsor Hotel at Mimico was not a proper place for the sale of liquor.

KILLED AT A CHARIVARI

Fatal Accident After a Wedding Near New Hamburg.

Victim of Chance Revolver or Rifle Bullet Is John Hauch — Missile Entered His Heart, and He Instantly Dropped Dead—Shooting Followed Harbottle-Wagester Wedding—Bullet's Genesis a Mystery.

Stratford, Sept. 28.—John Hauch, a young man 21 or 22 years of age, met death Tuesday night at a charivari on the 17th line of East Zorra.

In the afternoon Miss Lavina Wagester was married to Charles Harbottle of Bay City, Mich., at her mother's house on that concession. In the evening, about 9 o'clock, a number of young men congregated to charivari the newly-married couple, who, it appears, remained at the place of the marriage over night.

Shortly after the gathering, Hauch fell dead as the result of being struck by a revolver or rifle bullet. Dr. Steele of Tavistock was sent for and found that the bullet had entered the young man's body near the heart. As there was a wound on the arm it was the doctor's opinion that the bullet had first struck Hauch's arm and glanced therefrom, entering the body and causing death.

Bullet's Genesis a Mystery.

Whence the bullet came is a mystery, though it will probably be explained at a coroner's inquest, which is likely to be held, Coroner Hoson of Innerkip and County Crown Attorney Ball of Woodstock having been notified. All the young men who were present at the charivari deny that they discharged any firearms, though two or three shots were heard, and it was thought that Hauch might have fired off an old-fashioned revolver, which he carried, and accidentally shot himself.

This theory, however, is disproven by the fact that the revolver was found in his pocket with all the barrels loaded; one report says with blank cartridges.

Hauch was a farm hand employed at Mrs. Chris Bender's, close to the scene of the tragedy. His parents live near Petersburg, in Waterloo County, some distance east of where he met his death.

He is spoken of as an inoffensive young man and generally held in high respect. The place where the tragedy took place is four or five miles southeast of Tavistock and some ten or twelve miles from Stratford.

Thrown From Rig and Killed.

Montreal, Sept. 28.—Yesterday morning, while returning to St. Isidore from a wedding party at St. Constant, in Laprairie County, with her husband, Mrs. Anabel Demers, a lady over 60 years of age, was pitched out of her carriage and broke her neck.

Free Press Man Hurt.

Sarnia, Sept. 28.—W. H. Rennie, representative of The London Free Press, had his hip and shin injured yesterday at the fair grounds. He was jumping over a wagon-tongue when his heel caught and he was thrown on his back. He is at the General Hospital in a serious condition. Rennie has a cousin in Toronto.

Girl Sleeps on Revolver.

Ottawa, Sept. 28.—Miss Dorothy O'Connor is in St. Luke's Hospital suffering from a severe revolver shot in the left arm, above the elbow. Miss O'Connor, on retiring, was in the act of placing the weapon under the pillow, when it went off with the above result.

Got Bullet Through Neck.

Bollesville, Man., Sept. 28.—While duck shooting here, R. Grimmert was seriously injured by a companion. A bullet from a 22-rifle struck him in the neck and passed out above the ear. He fell in the water but was rescued. He may recover.

Five Burned to Death.

Fort Dodge, Iowa, Sept. 28.—Five children were burned to death while asleep by a fire which destroyed the Anderson home early yesterday. The fire was caused by a gasoline explosion.

EARTHQUAKE IN SWEDEN.

Figures Opened, the Ground Sank, and Houses Rocked Violently.

Gothenburg, Sweden, Sept. 28.—A severe earthquake was felt at 1:30 p.m. Tuesday at Lundby, Hisingen Island. It cracked the walls of houses and fissured the surface of the ground. Subterranean rumblings were quickly followed by the violent rocking of houses and the splitting of inner and outer walls, driving the inmates to seek safety in the open air.

In many places fissures a foot wide were opened up, while the level of the ground in the eastern part of the island sank appreciably. The disturbance lasted a minute.

Canadian Suicides In India.

London, Sept. 28.—(C. A. P.)—A Bombay newspaper of September 8 says: John A. Booth, a Canadian, sensationally ended his life in Calcutta police station by taking a dose of poison he had secreted on his person. Booth had been arrested for collecting subscriptions purporting to be for the Japanese Red Cross Society. Letters written by Booth, addressed to the commissioner of police, contained a confession of murder committed in Manila.

Aged Farmer Suicides.

Brookville, Sept. 28.—Dr. Jackson, coroner of this town, was called to the vicinity of Irish Creek, to investigate the suicide of John Stratford, an aged and respected farmer of the Township of Welford. Stratford had been in poor health and on the afternoon of Friday last his dead body was found lying in the barnyard with a No. 12 bore breach loader shot gun lying by his side. He had emptied the contents of one barrel, which entered the heart causing instant death.

Gigantic Land Frauds.

Portland, Ore., Sept. 28.—As a result of the vigorous prosecutions of land fraud cases in this state, about 20,000 acres of school land, situated in the Blue Mountain forest reserve in Eastern Oregon, has been abandoned by locators who forfeited in the neighborhood of \$10,000. It is assumed that in most of these instances the land had been located by "dummies."

SEPARATION OF JUDICIARY.

From Other Branches Advocated By the Zemstvos Congress.

Moscow, Sept. 28.—The congress of zemstvos and municipalities, at its session Tuesday, in addition to the program already adopted, adopted a special resolution on the subject of the judiciary.

It declared itself in favor of the complete separation of the Department of Justice from the other branches of the administration, the irremovability of judges, the re-institution of the system proving for the election of judges, the trial of every case before a jury the abolition of the capital penalty and punishment by administrative process and the abrogation of the laws legalizing the proclamation of a modified form of martial law.

Troops Winter in Manchuria.

Godzyadani, Manchuria, Sept. 28.—A recent order of Gen. Linesvitch to the army leads to the conclusion that the troops will spend the winter in Manchuria. Drills and target practice will continue and games will be organized to keep the men occupied.

NORWAY'S FUTURE.

Proposal In Storting to Leave Things Until After Election.

Christiania, Norway, Sept. 28.—A resolution signed by ten deputies was introduced in the Storting yesterday, proposing the summoning of a constituent Storting before the middle of November to decide on the future form of the Norwegian Government, and that a final decision of the matter be postponed until after the elections of 1906.

Take Early Steps.

Paris, Sept. 28.—M. Levaland, Minister of Foreign Affairs of Norway, yesterday gave The Temps' Christiania correspondent an authorized statement. He said Norway would take steps to secure an early recognition by the powers.

This recognition would cover Norway's independent sovereignty without reference to the question of the Government's status as a monarchy or a republic, which would be subsequently determined.

CHAMBERLAIN'S COUGH REMEDY

AIDS NATURE.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It attacks the cough, relieves the lungs, and aids nature in restoring the system to a healthy condition. It is famous for its cures over a large part of the civilized world. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. For sale by all druggists.

THAMESVILLE

Sept. 27.—Little Miss Edith Stewart gave a birthday party yesterday from four to seven for her little friends. The decorations were gladsome, which, by their beautiful color and dainty arrangement made a pleasing sight. A dainty luncheon was served by Mrs. Stewart, assisted by Miss Howden, of London, Miss McCulloch and Miss Kate Stewart.

Miss Beulah Howden goes to London to-day after spending the past week with friends in town. The funeral of Mrs. Nichol was largely attended yesterday. Services were conducted in the Presbyterian church by Rev. Mr. McInnis.

Civil Engineer Code spent a few days in town. He comes from Alvinston.

Kenneth Duncan goes to Chatham for the day.

Mrs. Harmer is spending the week with friends in Detroit and Windsor. Rev. Mr. Barland returned to Toronto yesterday after visiting friends in town.
