Chief of Police had stated that he could do with 25 men, he should be the best judge of the question; and that as the reduction would effect a saving of apwards of £1700, the Council should adopt the report. He agreed with Councillor Whitney, that the Chief of Police was the proper person to select the men. 50 was an uniorky number; it was neither one thing nor another. He would rather have 100 or 150, or make a reduction to a small force of 25 men.

Alderman Houres did not see why 25 men should not be sufficient for Montreal, when 5 were for Toronto. If the pay of 2s, 5d, per diem was not sufficient to procure good men, he would rather pay 3s, or 2a, 24

Oh, could the fate of those whom a hardened creditor, in the exercise of a hardened creditor, in the exercise of a second country in the exercise of a hardened creditor, in the exercise of a second country in the e tive genius discovers irresistible agents in a simple combination of certain mechanical powers, and at another cultivating the fine arts, inducing thereby a taste for the beautiful, the grand, and the sublime. Thus every age has its peculiar and distinct bent or tendency towards improvement in the more peculiar and distinct bent or tendency towards improvement in the moral, political, or physical, condition of man- and it would seem necessary, indeed, that the energy of a whole nation should first be called forth before any great improvement or discovery can be expected.

crumbled constitution, and seeks to lay the sure foundation of a better and more enduring state—discarding old prejudices, mistituting liberal and reformed principles in their place—and, with a discriminating eye, surveying the constitutional rights of every other State or Country, selects for adoption, from each whatever may have proved wise and beneficial in each.

Thus we find the condition of man to-day not what it may be to-morrow—that which was requisite, or beneficial, in a former state of man's progressive condition, is found in his present, usless or destructive. New relations, only the state of the

labor or services is, and always must be, contingent upon circumstances over which a Legislative Body can have no control. No remunerative rate can be fixed by Statute, for if a rate were established by Statute, it would necessarily be far too low for the laborer at one time, and far too high for the employer at another. In the latter case, the employer would be deprived of all his profits, and consequently he would not employ the labor of others at all, which would be a greater evil than to allow

Oh, could the fate of those whom a hardened creditor, in the exercise of a cruel and impolitic law, has driven from their Home, without a shelter from the wintry blast, without food for the present, without hope of it for the future, be unveiled, how many of us—nay we hope all—would unite in the furtherance of a measure which would prevent the recurrence of such scenes, the more so when it is known that, without doing an injustice to any one, it can be done: that such a measure can be framed which will benefit the mass of mankind, and work injustice to no one, protecting the work injustice to no one, protecting the fruits of this man's toil, and yet not destroying or affecting the rights of that, is certain; and not only so, but has been, and continues to be, successfully to negation on this Continent in the United States of America.

MOFFATS

Life Piffs and Phonix Bitters. These Medicines have now been before the pub-lic for a period of FIFTERN YEARS unduring that time have analytamed a high character in almost every-part of the globs for their extraordinary and immediate power of restoring profession, and immediate power of restoring profession to which the human frame in list is. IN MANY TECUSANDS

se certificated instances, they have even record sufficated instances, they have even record sufficate from the very verge of an untimely grave, after all the deceptive nostrums of the day had ut terly failed; and to many thousands they have permanently accured that uniform entryment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy mrariably and infallibly proved, that it has appeared scarcely less than miraculous to those who wen acquainted with the beautifully philosophical practiples upon which they are compounded, and upon which they are compounded, and upon which they consequently act. It was to ther manifest and sensible action in parifying the spring and channels of life, and enduing them with mewed tone and viger, that they were indebted for their name.

Unlike the host of pernicuous quackeries which beaut of vegetable ingredients, the LIFE MENT.

Unlike the host of perulcious quackeries which beast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable, and contain neither Recourty, nor Antimony, no Antimony, nor Antimony no Antimony, nor Antimony not any other mineral, in any form whatever. They are entirely composed of extracts from my and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some emissest pharmaceutical chemists, are also gether unknown to the ignorant pretenders is medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stourach and boweds the various impurities and

the stomach and bown is the various impurious and crudities constantly letting round them; and is remove the hardened faces which collect in its convolutions of the small intestines. Other inch. convolutions of the small intestmen. Other medicines only purtially cleanuse these, and leave such collisted masses behind to produce habitual Costraness, with all its train of evils, or sudden Darrhes with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and lience the predice of these well informed men against the quach medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kulneys and the bladder; and, by the means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the means, the liver and lauga, the healthful action of which entirely depends upon the regularity of the unuary organs. The blood, which takes its red color from the agency of the liver and lungs, before I passes into the heart, being thus purified by them, and mourished by food coming from a clean stomach, nourisis freely through the veins, renew every part the system, and triumphantly mounts the banner of health in the blooming cheek.

The officiency are a name to be discovered.

The following are among the distressing variety of human discusses in which the VEGETABLE LIFE MEDICINES are well known to be intal-

DYSPEPSIA, by thoroughly cleansing the first and second stemaches, and creating a flow of purs healthy hile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headownia, Restleasness Ill-temper, Anxiety, Languer, and Melanchuly, which are the general symptoms of Dyspepuia, will vanish, as a natural consequence of its cure.

Costiveness, by cleaning the whole length of the intestiner with a solvent process, and without violence: all violent purges leave the bowels convenith in two days.

within two days. Diar cas and Cholera, by removing the sarp acrd fluids by which these complaints are possioned, and by promoting the lubricative secre-

occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds by restoring the blood to a
regular circulation, through the process of personal circulation of the process of personal circulation of the process of the proce neron in such cases, and the thorough solution of all intestinal obstruction in others.

The Lier Menicises have been known is cure RHEUMATISM permanently in three weeks, and GORT in half that time, by removing ocal juffammation from the muscles and ligament

of the joints.

Dropaies of all kinds, by freeing and strengthening the kidneys and bladder: they operate need delightfully on these important organs, and hence have ever been found a certain ramedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the howels the shiny matter to which these

Asthma and Consumption, by relieving its air requests of the lungs from the nuncus which ever slight, colds will occasion, and which, if not removed, becomes hardened, and produces these decadful diseases.

Souryy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDI-CIRES give to the blood, and all the humors.

Sourbutic Eruptions and Bad Completions, by their alterative effect upon the finus that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a

always be cured by one dose, or by two even a the worst case: #P FILES As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE TIME. As a remedy for this most discressory and obstinate malady, the VEGETABLE LIFE INDICES deserve a distant and emphasize recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afficted with the compilaint for upwards of TSIATY TWY TRAES; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medical His however at length tried the Medicine which is now offered to the public, and he was cured a twenty of the manufacture of the medicine which is now offered to the public, and he was cured a twenty of the medicine which is now offered to the public, and he was cured a promised post only improbable, but absolutely are possible, by any human means.

PEVER AND AGUE

For this scourge of the western country these Medicines will be found a safe, speedy, and certain Testicines will be found a safe, speedy, and certain compely. Other medicines leave the system subject to a return of the discance—a cure by their medicines is permanent—TRY THEM, BE SATISPIED, AND BE CURED.

TISPIED, AND BE CURED.

Billous Fevers and Liver Complaints.

General Debility, Loss or Afverte, an Desicasts or Fanalasis—whose medicines have been maded with the amost beneficial results in case of the description. — KING'S EVIL, and SCADULA, in its work former, yields to the mild yet powerful action of these remarkable. Medicines. Nature Swam, Managem Desicatry, Neavous Container of alkings, Paletration of this Heart, Paintes Coase, are speedily cured.

MEROURIAL DISEASES.

Through These constitutions have become in-

PERGURIAL DISEASES.

Tereme whose constitutions have become inmained by the injudicious are of Maxoury, will find
these Medicines a perfect cure, on they never fit
to cradicate from the system all the effects of
