BRITISH ADVANCE ANOTHER NOTCH AND FRENCH HOLD GAINS ON SOMME AND AT VERDUN

Austrians Have Abandoned Positions on Isonzo and Carso Fronts

ITALIAN CAVALRY DRIVE THE AUSTRIANS FROM NEARLY ALL DEFENSIVE POSITIONS OF ISONZO

Only the Beginning of a New Campaign Which Will Have Important Results--Gorizia, Long Fought For, Almost in Italy's Hands

By Special Wire to the Courier. Bulletin, London, Aug. 9.—3.15 p.m.—The Austrians, pursued by Italian cavalry have abandoned nearly all their principal positions on the Isonzo and Carso fronts, following the taking of the Gorizia bridgehead by the Italians, according to a wireless despatch from Rome this afternoon.

Only the Beginning Rome, Aug. 9, via Paris.—The successes won by the Italians on the Isonzo front are regarded in Rome as marking merely the beginning of the campaign. Although the news is received with great satisfaction, it has been long expected and no surprise is expressed, nor have there been any unusual public demonstrations. The attack was to have been inaugurated earlier in the summer, but was delayed by the Austrian offensive.

At Mercy of Codorna London, Aug. 9.—(New York Times cable)—A despatch to the London Times from Italian headquarters says: "The Austrian prisoners whom I have seen, were made up of sallow youths and men over 40. There seemed to be none between. They were in the worst possible condition, with nothing resembling a uniform—a veritable beggar's brigade and they quite bore out the statements of an escaped Russian with whom I spoke on Sunday morning, about the extremely bad equipment and food of the Austrian troops on the Isonzo. "Very few of these men had more than 100 cartridges in their belts, which goes to show how unprepared the Austrians were for an attack upon them."

ed from all sides and impossible of defence. The bridgehead was the last defence of the Austrians, Vienna last night admits that it has been evacuated. At this powerful position the Austrians have held out for more than a year, against the most powerful blows the Italians could strike. Drive on Trieste The loss of Gorizia will mark the first step in an Italian march on Trieste, the great Austrian port which rests on the Adriatic, twenty-two miles to the south-east. The Isonzo was the most powerful line of defence possible for the Austrians. This line carried, the Italians will find the complete recapture of the Irredentist provinces a much easier task.

The speedy developments in the Italian situation have caused the greatest surprise in London. Little information had been allowed to trickle through from the front since the beginning of the greatest power which had been converted into fortifications, presented almost insuperable obstacles to General Cadorna's men. The Italian offensive was launched to coincide with the tremendous blows of the Russian on Austria's eastern front, which prevent her from withdrawing men for the defence of her southern borders.

Final Link in Great Push. The Italian offensive on the Isonzo launched on Aug. 4 in a tremendous thunder of guns, is the first link in the general offensive "push" on all fronts. It has resulted in the complete capture of Monte Sabotino and Monte San Michele, the lofty peaks which look down upon Gorizia. The city, which stands in a valley, among towering mountains, is now controlled

Zeppelins Again Raid England

By Special Wire to the Courier. London, Aug. 9.—German airships raided the east coast of England and the southeast coast of Scotland early to-day, according to an official statement issued by the war office. Three women and a child were killed and 14 persons injured. The text of the statement follows: "A hostile airship crossed the east coast of England at an early hour this morning. Another airship is reported to have visited the south-east coast of Scotland. The raiders did not penetrate far inland, but dropped a number of bombs in various localities near the coast. "At several places the airships were engaged by anti-air craft guns. Reports received up to the present show that three women and one child were killed and 14 persons injured. No damage of military importance is reported."

Russians Nearing Stanislaw

Petrograd, Aug. 9, via London, 3.50 p.m.—An announcement was made to-day by the war office that the Russians have occupied Tysmienitza in Galicia on the River Vorone.

On August 7, General Letchitzky's army took 7,400 prisoners, including 3,500 Germans and 63 machine guns. Tysmienitza is about eight miles east of the important town of Stanislaw, which is on the railroad between Lemberg and Kolomea. It is over this ground that the Russians achieved their recent important victory, announcement of which was made yesterday, breaking through the Austrian lines on a front of 15 miles.

BRITISH MAKE MORE GAINS

Advanced North of Pozieres and Bombed the Enemy's Trenches.

By Special Wire to the Courier. London, Aug. 9.—A further advance by the British on the Somme front north of Pozieres was announced to-day by the war office. The official statement follows: "In the vicinity of Guillemont there has been no change since yesterday. North of Pozieres we made a further advance by bombing along the enemy's trenches, capturing 25 prisoners. The Ypres salient, between Bellewaerde Lake and the Yser canal the enemy bombarded our trenches heavily last night from 10 p.m. to 12 midnight and discharged gas on a broad front. The gas had little effect. Some partial attacks were made by the enemy who was not able to enter our lines."

DRAMATIC DEATH OF ITALIAN LEADER

Led His Men in Attack and Cut a Passage with Hatchet Through Wire.

Paris, Aug. 9.—The dramatic death of the commander of the Italian troops that stormed the Austrian second line trenches on Monte San Michele is described in a despatch to the Petit Parisien from its correspondent on the Italian front. The despatch says: "The enemy offered their most intense resistance at the second line trenches on Monte San Michele. Our men dashed forward at a run to find one trench still protected by wire entanglements. The commander of the attacking battalion said: "Boys, we've got to pass. Taking a hatchet he cut a passage through the wire calmly and deliberately. Just as he completed his task he fell into the arms of the soldiers, shot through the heart. But the breach had been made and the Italians swarmed through into the Austrian lines."

NO FURTHER LOSSES.

By Special Wire to the Courier. North Bay, Ont., Aug. 9.—Commissioner Lee of the Temiskaming and Northern Ontario Railway, states that no further casualties from the forest fires have been reported to date. The list which appeared in the press at the end of last week. There are no doubt a few yet to be accounted for and Dr. Young's statement that the list would not exceed 200 is evidently about correct. Mrs. Ferguson and Miss Briggs, of Guelph, are the guests of Mr. and Mrs. Farr, Brighton Row.

FRENCH REPULSED ATTACKS OF ENEMY, NORTH OF HEM WOOD

French Made Gain in the Village of Fleury, but Lost Slightly at Thiaumont—Joffre's Pressure Steady and Relentless

By Special Wire to the Courier. Paris, Aug. 9.—Noon—The Germans made violent attacks last night on the positions taken by the French north of Hem Wood, on the Somme front, during the last two days. The official French statement of to-day says these attacks were frustrated. On the Verdun front heavy fighting continued during the night for possession of Thiaumont Wood. The Germans gained a further footing. The French hold the outskirts of the village of Fleury on the Somme. The French made some progress. In the region of Chaulnes the Germans penetrated the French lines between Libons and the Chaulnes railroad, but were expelled at the point of the bayonet. A French aviator set forth at 8.30 o'clock last night in a voyage in which he covered 350 kilometres (217 miles), returning at 11.55 o'clock. He crossed the Vosges mountains and the Black forest of Germany. General Joffre's methodical offensive continues relentlessly its slow pressure in both theatres of the Western front. On the right bank of the Meuse, General Neville has extended his offensive to the Vaux-Chapitre-le-Chenois region, where he has gained a local success. In the Fleury-Thiaumont zone he is more than holding his own. In the latter district the Germans are concentrating all their effort and exceptionally strenuous fighting continued throughout the night and day. The Germans succeeded in once more getting a footing in the Thiaumont works, but all their efforts to capture the French trenches on the north-west and south proved in vain. In consequence their position became untenable and a well directed counter-attack forced them back, leaving the French again in possession of the works. North of the Somme, from the river to where the French line joins the British, General Joffre, acting in close relation with General Haig has made systematic progress. In the last three days the French have won trench after trench along a line four miles in length, and have now pushed forward their whole line for a distance of half a mile.

Have Driven Turks Back Fifteen Miles East of Katia

By Special Wire to the Courier. London, July 9.—12.45 p.m.—Pressing the advantage won by the defeat of the Turks who attacked the British forces near the Suez Canal, the British have driven back the Turks to a line fifteen miles east of Katia. The following official statement with regard to these operations was issued here to-day: "Telegraphing at 8.45 o'clock last evening, the commander-in-chief in Egypt reports that our pursuit of the enemy in the Katia district continues. North and west the Turkish rear guard have been pressed back, while south the imperial camel corps, by a dashing attack, drove them from their entrenchments. We captured more prisoners, and the enemy rearguard has now retired to about a line running north and south through Birelob, fifteen miles east of Katia."

Drank Camels' Blood to Quench Their Thirst

Terrible Hardships Endured by Turkish Troops in Their Advance Across the Desert to Suez. By Special Wire to the Courier. London, Aug. 9.—The Turkish army which was routed by the British at Romani, east of the Suez Canal, suffered terrible hardships in their march across the desert, according to a Reuter's Cairo despatch quoting stories of Turkish prisoners. The despatch says that batches of prisoners continue to arrive in Cairo. Lack of water was one of the principal causes of the suffering of the Turkish troops. In some cases they suffered so frightfully from thirst that they killed their animals and drank the blood. The prisoners say the Turkish losses were exceedingly heavy as they attacked in mass formation in ignorance of the strong defences of the British. The devastating machine gun fire with which the assault was met was the first indication the privates had of the task that confronted them. According to one of the troopers, a Turkish detachment which surrendered first killed their German officers.

Four Steamers For Costa Rica

By Special Wire to the Courier. San Salvador, Aug. 9.—The organization in Costa Rica of the Central American steamship company has aroused much interest here. The new company it is understood will put four steamers of about 2,000 tons each in the service. They will ply between the Pacific coast, Panama, New Orleans and New York. The formation of this new service has been prompted by the delay caused recently in the transport of freight from the various central American ports. At many ports the piers are piled high with coffee, sugar and other products awaiting exportation.

FRENCH PREMIER LAUDS CANADIANS

"None of the Allied Soldiers Are More Welcome in France," He Says.

London, Aug. 9.—Mr. N. W. Rowell, leader of the Opposition in the Ontario Legislature, has returned to London profoundly impressed by three weeks' visit to France and Flanders. In addition to discussing with Cabinet Ministers and other representative men the problems of social and economic conditions in France after the war, and inspecting the munition factories and hospitals, he spent four days with the Canadian troops. "I have always had the greatest respect and admiration for our soldiers," said Mr. Rowell, "but these feelings were never so great as after spending four days going in and about among them, and seeing the conditions under which they are fighting. I found them all in excellent spirits, ready for any task that may be committed to them."

French and British commanders were unanimous in their appreciation of the achievements of the Canadians, and before leaving France Premier Briand sent Mr. Rowell a message expressing great admiration for the Canadian troops, and his assurance that "none of the allied soldiers are more welcome in France than these splendid men who have won imperishable glory for themselves in this war."

Marvel of Efficiency. Mr. Rowell said he never was one who believed that all was wrong with the old country, but that when the necessity arose Britain would rise to the occasion. Mr. Rowell said that the organization of the transport and feeding and arming the immense forces and hospital service was a marvel of efficiency, and a sight that inspired hope and confidence. He spent several days in Paris, and had conferences with Government officials and social reform leaders regarding the progress of the anti-alcohol movement in France, and the general opinion seems to be that the restrictive measures which the Government adopted soon after the outbreak of the war have proved so beneficial that there is little likelihood of their being entirely revoked, while the sale of alcohol will probably be prohibited altogether.

France is already facing industrial problems which will inevitably arise after the war, and Mr. Rowell predicts the position of labor will materially improve; that the relations of masters to men will be more harmonious, and that the same spirit which unites all classes to-day will be carried into the industrial field after the war.

Grand Circuit at Pittsburg

After Three Attempts, Opening Today, But Track is Heavy.

Pittsburg, Aug. 9.—A third effort was made here to-day to open the Grand Circuit race meeting which for two days has been postponed owing to heavy rain storms which broke over Brunots Island shortly before time for the first race to start. Rain, which continued to fall until late last night, made the track fairly heavy. The card originally arranged for yesterday was raced to-day, the feature event being the Grand Rapids Railway \$3,000 stake. Other events were the 2.18 and three year old trotting and the 2.05 pacing races. The announcement was made that the card schedule for last Monday will be raced next Saturday, the last day of the meeting.

Polo Player Killed on Somme

Major Cheape was one of the best known English polo players, and was a member of Lord Wimborne's polo team that won the international cup from the Americans at Westbury, L.I., in the spring of 1914.

Major Cheape was reported missing on the casualty list of May 1. He was said to have been wounded. In December, 1915, he was slightly wounded while fighting with the British Mediterranean forces.

THE CORN-FLOWER FAIRY

Roger awoke with a start. There in his window stood the fairy bird, moon-colored and beautiful, his moon-colored eyes shining like a pair of stars. More than ever his beautiful spreading tail seemed mad of moonbeams.

"Roger," he began, "I don't think much of you, and that's a fact. Twice now you've agreed to travel around invisible, on my back and whistle like a train for me while I deliver the fairies in the cornfield, and each night you've tumbled head-over-heels upon enchanted ground, even when I warned you that the minute you did you'd shoot like a rocket back to bed."

Roger was sorry and hung his head. "Now to-night," said the fairy-bird who always called himself "the corn-crake express," "to-night I need you badly. Very badly. We've a famous guest of honor in the cornfield—nobody else than the corn-flower fairy who saved Queen Louisa of Prussia!" Roger knew nothing at all about this, but he hated to say so. "I suppose," said the corn-crake severely, "you know your history?" Roger said he knew some of it, but not perhaps as much as he might. "I suppose," went on the moon-colored bird, who didn't always have the best of tempers, "I suppose at least you do know that Queen Louisa hid in a cornfield with her children when she was escaping from Napoleon's army?" Roger hung his head again.

COUNCIL MET AT PORT DOVER

Question of Opening a Street Through to the Water Front Was Advocated.

(From Our Own Correspondent.)

Port Dover, Aug. 7.—The old question of opening up the street along Orchard Beach to the lake front was up before the council again to-night. The matter was on the books as the outcome of a petition signed by some twelve or fifteen citizens. Some property holders are directly interested, and others claim that citizens should have a convenient means of access to the lake without going around by the docks, where the way is not at all times passable for pedestrians. It appears to be up to the council to go ahead and open the street.

A deputation of Brantford citizens with ex-Mayor Spence, were down this evening and were given audience before council. They asked for street improvements leading to and in the vicinity of Brant Hill in which they are more especially interested. The desired impression appears to have been made, and there will be some thing doing in the near future along the line suggested. In fact, several matters suggested had previously been under discussion.

Ex-Rieve F. H. Vyee was appointed collector and the usual batch of accounts was passed. No action was taken with respect to a "right of way" down Patrick St. for the J. E. and N. The idea of placing five successive blocks of the village with a railway at both front and rear, does not appear to the public, while the way is open by following in parallel with the G. T. R.

SPLENDID SUCCESS IN PICARDY Anglo-French Working in Unison, Make Notable Advance. ENEMY'S LINES DRIVEN IN. At Verdun, Also, French Press Forward for Fresh Gains at Fleury.

London, Aug. 9.—General Joffre and the troops of France yesterday demonstrated their unabated power on the two main fronts in the west. In Picardy they crushed a terrific German blow, and seizing the offensive out of the hands of the Teutons, swept forward for fresh gains. In a furious 48-hour battle extending from the Hem wood to the River Somme, the corps of General Foch have driven in the German lines on a front of three miles and three-quarters for a depth at some points of a third of a mile. An entire trench system has been captured, and the French have extended their positions around Hill 139 the dominating crest which looks down on Peronne. Before Verdun, beating back with grim resistance the most terrific attacks yet launched by the German Crown Prince in the siege of the fortress, General Nivelle's defending army has brought the German offensive to a dead halt, for the moment at least. And seizing the initiative the French polus have themselves taken up the attack, with the result that a section of the shell-battered Thiaumont work is again in their possession. They have retained completely the grip they held on Fleury, and have won back ground in the Vaux-Chapite and Chenois woods, where the Germans for several days have claimed gains. British Also Gain Striking in unison with their allies to the south, the British troops in Picardy yesterday registered a gain of a quarter of a mile south-west of Guilleumont. A furious hand-to-hand battle is progressing in the village for possession of the railway station. It has been in progress for more than 18 hours. The commander of the German armies defending Bapaume and Peronne, General von Elnin, yesterday continued to send his troops forward in desperate assaults against the British east of Pozieres. Four attacks were launched, a total of nine in the last two days. Three of the assaults, like those previous, failed, but the Germans

**THE SITUATION**

The victories of the allies still continue on various fronts.

The French have seized the offensive from the foe at Verdun, and on the Somme River have captured German trenches to a depth of nearly four miles on a front of five hundred and fifty yards.

The British troops, after a desperate struggle also hurled the Huns back for a quarter of a mile, and a fierce hand to hand struggle, at last accounts, was taking place for possession of the railway station in the village of Guillemont.

The Russians have resumed their enormous drive in Southeastern Galicia, and have crowded the enemy to within thirteen miles of Stanislaw. Sixty-one square miles of territory were captured, including seven towns. The German supply line is also said to have been cut.

Not to be behindhand, the Italians have captured a number of commanding eminences near Gorizia, and can soon make that place untenable. The list of Austrian prisoners recently taken now amounts to over ten thousand.

It will thus be seen that in all directions the Teuton war machine is receiving a pounding which is commencing to jolt it in every part.

**MR. GARDNER'S RESIGNATION**

The announcement that Mr. Gardiner has decided to retire from his position as principal of the Ontario School for the Blind, comes unexpectedly. He succeeded the late Mr. Dymond some thirteen years ago, and has since rendered faithful and painstaking service. One of the innovations introduced by him at the school has been the point print type, both for musical and literary work. This he turned out himself with the help of an assistant.

The post of principal is one which is exceedingly hard to successfully fill. It not only requires a man of scholastic attainments, but also one of administrative powers, and disciplinary faculties, reinforced with discernment. The fact that Mr. Gardiner has filled all the requirements for over a decade, is one which speaks for itself.

He announces that he will devote his future efforts to literary pursuits, for which he is well equipped. He became an M.A. as far back as 1869, and was for many years editor of the Hamilton Times, a position which he gave up in order to come here. Many friends will wish for him long years in which to enjoy relief from his present exacting duties.

The appointment is provincial and not local.

**DAYLIGHT SAVING**

After a good deal of talk and more or less fiddling about the matter, the City Council of Hamilton has finally decided to abandon the daylight saving scheme. By a vote of 5 to 6, standard time will once more go duty in that burgh, commencing with Sunday next.

This makes Brantford, as far as the Courier is aware, the only centre of importance in Ontario which is still observing the daylight saving plan.

There have been objections heard in this city, but not so much lately, and the employes of one large concern which petitioned to go back to standard time, afterwards requested that the shop be placed on the new schedule once more.

The difficulties have consisted of the fact that railways have remained "standard," thus holding their employes, mail clerks, expressmen and others to the same figures. Telegraph offices have likewise adhered to the old method, thus dividing many households with regard to meals and bed time. In addition, it is stated that difficulty has been experienced in getting children to bed while it is still light, while firms doing business with other places on "standard" have had some with regard to correspondence.

These are some of the disabilities.

Of the advantages there cannot be much question. An hour more of daylight in the evenings and a hour of work put in during the cooler conditions of the morning are con-

siderations which must appeal to a vast number who give the subject any thought. Those interested in electric and gas concerns of course do not like the plan, but the saving in monthly bills for artificial illumination must be considerable to the householder, not to mention municipalities.

In Great Britain the new method at first met with quite a lot of opposition for the reason that the average Old Country man has to be shown good reason for any radical change affecting his habits, but the latest advices from there are that everyone now is satisfied, and wouldn't go back to the old order of things.

If the scheme should be made Dominion wide, it is more than likely that a similar result would obtain in Canada.

**NOTES AND COMMENTS**

**Continued stormy weather on all fronts.**

The United States and Mexico are now stated to be in agreement. That is, Uncle Sam's army will be withdrawn.

Those "ice cold haberdashers" are giving the German Emperor cold feet.

The Huns, like Napoleon, have been wont to sneer at the British as "a nation of shop keepers." Well, they are helping to put up the shutters for the Hohenzollern firm all right.

Certain Grit sheets claim that Premier Hearst is going to England on war matters, is seeking to dodge the Toronto bye-election. What about Opposition Leader Rowell? He refuses to set foot in North Perth before leaving for the Old Land, and is still stalling there regardless of the Toronto or any other fight.

**Resignation of Mr. Gardiner**

(Continued From Page one.)

ed by any one outside of my own family. I had contemplated giving up the position two years ago, feeling that after forty-five years of strenuous labour in newspaper and educational work I had fairly earned the right to a period of comparative ease; but the wish to complete some literary and musical undertakings in the point printing office, and the financial uncertainty underlying the outbreak of war, delayed the fulfilment of my intention. I have been blessed with better health and greater capacity for work than most men of my age are privileged to enjoy, and by constant study and close observation, I have managed to obtain information and to introduce improvements, which have been helpful to the blind in and out of the School; but I entertain no delusions about the difficulty of filling a vacant place, hence I go out with full confidence that the School will continue to improve in the future as it has done in the past.

To the pupils who have worked faithfully for their own benefit, and to the parents who have encouraged me by repeated expressions of appreciation and gratitude, my acknowledgments are due and are herewith presented. I also testify with pleasure to the uniform courtesy of the Minister of Education and his staff in our frequent consultations. Whether my remaining days be few or many, I shall always be glad to hear of the prosperity of the school and of the success and happiness of those whose welfare practically all my time and thought for years have been devoted. There have been some disappointments and annoyances during my term of office, but much good and useful work has been accomplished, and I have hope and faith that the lessons in industry and punctuality, in honesty and veracity, in perseverance and optimism, which I have tried to teach by daily example as well as by occasional exhortation, will have an influence on many lives long after I shall have passed away.

Good-bye, dear children and friends. God bless you all.

H. F. GARDNER.

Hon. Dr. Pyne sent the following letter to Principal Gardiner in reply to his resignation:

Toronto, Aug. 2, 1916.

Dear Principal Gardiner:—

I have your letter of the 27th ult., intimating your wish to resign, and have laid it before my colleagues of the Cabinet. In accepting it, I desire to acknowledge your friendly sentiments as to our official relations during the past ten years and to assure that they are reciprocated. For the reasons given by you your desire to retire seems a perfectly natural one, and I trust you have years of health and congenial work before you. The officials of the Department, as well as myself, unite in cordial wishes for your welfare. The arrangements for the coming school term can all be made without difficulty, so that your desire to be released at the end of August can be met. I am,

Yours sincerely,

R. A. Pyne,

Minister of Education.

Since, Aug. 7.—(From our own correspondent.)—Mr. A. Swartz, as the result of his sheep having been disturbed by dogs on his farm near town, has disposed of the entire flock. Norfolk has many farms well adapted for sheep farming, but the industry is not ventured into because of experience with dogs.

No. Shorwater of Water.

Some one is responsible for a silly rumor that water from the spring creek behind the power plant was drawn upon to supplement the town's source of water supply. There has been no necessity for such and no indication of any shortage whatever in the regular source.

A Special Council Session.

A special meeting of the council will be held on Wednesday evening. This evening only the Mayor and Ald. Misner, Cropp and Slater, put in an appearance.

The third reading of the Shoe Factory by-law has to be put through again, at the order of the Railway and Municipal Board, because 21 was considered a month, before and the matter was, it is ruled passed a day too soon. The work however is not held up, as the local board of health has endorsed the construction of certain branch sewers and the council will ask the engineer to prepare plans and profiles.

Painful Accident.

Mr. George Shaw, of Nixon, is lying at his home at Nixon, suffering from severe injuries about the head, including a scalp wound passing forward over the left ear and ending on the forehead. He was with a work gang on the G. T. R. at Cayuga when the night too hot to sleep in the bank car, so he lay down on the road bed and went to sleep. During the night the car was shunted and he luckily escaped death. Dr. Bowley states that his patient will come through all right.

Excursion to Brantford.

Bills for the excursion to Brantford on Thursday are displayed more prominently in shop windows about town than are the notices announcing next Monday as Civic Holiday.

The first rain since July 8th, is falling to-night—a quiet moderate shower. It will take hours of it to moisten a few inches of the dry soil.

Finger Crushed.

14 years old Amy Pratt, daughter of Pte. John Pratt, now at Borden Camp met with a painful accident yesterday when she had the end of a third finger crushed in an offset machine. Dr. Culver hopes to avoid amputation.

**Umpires to Come Under Criticism**

Boston, in Particular, Has Strenuous Kick to Make.

By Special Wire to the Courier.

New York, Aug. 9.—The members of the clubs in the National League are here to-day to attend a meeting called by President John K. Tener to ascertain how the presidents regard the abilities of some of the umpires whose rulings have been questioned. It was reported in advance of the meeting that Percy Haughton would be asked to explain why the Boston Braves do not conduct themselves with more decorum. On the other hand it was expected that Mr. Haughton would have some criticisms to make of the umpires who have displaced the Boston baseball enthusiasts.

It is intimated that a warning will be given to the umpires of the Chicago Cubs that the forfeiture of games is regarded with disfavor by the league.

**HANDLES SHELLS LIKE TOOTHPICKS**

One Big Scotchman in a Battery at the Front Tosses 35-lb. Missiles About.

**ENGLISH GUNNERS WORK LIKE CLOCKS.**

Letter from Pte. Sage Telling of Life with the Artillery on Firing Line.

The following letter, telling of his experiences at the front as an artilleryman, was received by Mrs. George H. Sage, 100 Erie Avenue, from her son Harold. Gunner Sage enlisted in the 32nd Battery and was transferred to the 125th battalion, but the lure of the big guns was too great and he got himself transferred to the 43rd battery at Guelph, and later went overseas.

Our battery is some miles behind the lines, but twelve of us were sent up to the firing line to get used to being under fire and gather up a few useful points before the whole battery is brought up. We are with an Imperial battery that has been out here since the war began.

I am writing this letter in a gun pit only a short distance from the German trenches. We have had a little excitement since we have been here. Every night German aeroplanes have been overhead and it looks quite interesting to see shrapnel bursting all around them from our anti-aircraft guns. They also fire on our planes and the shrapnel sometimes falls all around the gun pits. Fritz has been trying the last few nights to get some of the batteries around us, but hasn't succeeded yet.

Last night one of their planes dropped some bombs near us, and I am writing this letter at something near here now. These shells throw up large clouds of black smoke, that is why the Germans give them the name "coal boxes" and "Jack Johnsons."

These English gunners are smooth. They work like clocks. In our gun pit there is a big Scotchman acting No. 4 on the gun, and he handles these 35 lb. shells like toothpicks. He is a D.C. man and was taken prisoner in the retreat from Mons. He was wounded at the time and when the British retook Mons. He was captured by our own men. It sure was interesting, the trip up here. We passed through villages that were literally blown to atoms.

HAROLD.

### COMPANY WILL LOCATE HERE IF CONDITIONS MET

### New Steel Concern Will Mean Commencement of City as a Steel Centre.

It is practically assured that the "Dominion Steel Products Company" will establish their plant in Brantford, providing they secure a fixed assessment, such as accorded to other concerns in the past, and the closing of Read street in the Holmedale from the rear of the lots running on Leaning and street to Morrell street, adjoining the waterworks. There are no houses on the thoroughfare.

The contemplated site will be between four and a half and five acres and will be adjacent to the Lake Erie and Northern Railway. The machine shop will be 400 feet by 90 feet and there will be other structures as well. It is said about 100 men will be employed and will start as soon as possible on a large war order secured by the company. This alone will be sufficient to run the plant twenty-four hours a day for a year.

The enterprise should see commencement of Brantford as a steel centre, a branch of enterprise for which the place is eminently suited. It is understood a special meeting of the City Council will be called in connection with the matter.

### PERONNE UNDER FRENCH FIRE

### And Germans Say It Is Likely to Burn as Result of the Bombardment.

German Great Headquarters, via Berlin, Aug. 8, and London, Aug. 8, 2:20 p.m.—Since yesterday the famous old French city of Peronne has been under French artillery fire, resulting in a great conflagration which threatens to wipe it out. Already the fine collection of paintings of Italian and Flemish masters had been destroyed by shells which landed squarely in the city hall, where the most valuable art objects from the museum had been housed for protection.

In addition to the paintings, which were torn to shreds, the shells destroyed unreplaceable collections of medieval Germanic silver and semi-precious stone work, celts, coins dating from the time of the German invasion and medallions. Houses in some streets have been reduced to ashes. It is considered doubtful whether Peronne's celebrated wood houses in the late Gothic style and the Cathedral of St. John can be saved from the flames.

### SPECULATORS IN COD STAND TO LOSE MUCH

### Market Conditions Different from a Year Ago, and Prices Lower.

By Special Wire to the Courier.  
St. Johns, Nfld., Aug. 9.—Newfoundland dealers in cod liver estimate that they must face a loss of about a million dollars as a result of changed conditions in the market this year. When Germany last year purchased the Norwegian output of this product, the price of Newfoundland oil ran up from 50 cents to \$2.50 a gallon. Expecting big profits this season a large number of persons entered the business in this colony.

Their hopes were dashed when the British and French Governments succeeded in obtaining this year's Norwegian output forcing a fifty per cent. cut in market prices. As the dealers bought the raw material at high cost they must stand a heavy loss.

Business interests of the colony also will suffer from the fact that the cod fisheries along the Labrador coast and the north seaboard of Newfoundland this year have yielded one of the smallest catches on record.

Lt.-Col. M. A. Colquhoun,  
O.C. 4th Overseas Battalion:  
Dear Col. Colquhoun.—On the eve of your return to the front, the Women's Patriotic League of Brantford would ask you to accept as a small token of our appreciation of your heroic officers and gallant men, this small cheque, to be used in buying comforts for them.

We feel that the "Mad 4th" will long live in the hearts and affections of the Brantford people, not only for their endurance of discomforts at Salisbury Plains, but also for their heroic stand on the field of battle. Festubert, Givenchy, St. Julien, Langemark and Ypres will long be associated with the gallant "Mad 4th."

We would specially remember Major Percy Jones and Captain Fred Miller, who have been with you from the beginning.

Words fail us to express our admiration for you, Col. Colquhoun, and your self-sacrifice in returning to the front when a great inducement was offered you to remain in Canada. By your conduct on the field you have won for yourself and for Brantford, new and fresh laurels and brought distinguished honor to your town.

TURKEY DELAYED  
ALL REMITTANCES  
TO MISSIONARIES

As a Result Britain Has Decided Not to Allow Them at All.

By Special Wire to the Courier.  
London, Aug. 9.—The British Government has decided to hold up any further remittances from Turkey emigrants in America to American missionaries in Turkey, to whom remittances have been sent hitherto for the purpose of distribution. Until recently these remittances were allowed to be sent through the mails without hindrance, but a letter came into the hands of the French Government from a Lebanon bank, explaining that the money was deposited in Imperial Ottoman bank in the name of the payee by order of the Turkish Government.

The bank thereafter received orders from the Turkish authorities to pay out the money in weekly instalments only after a lapse of one year. This, money received in August, 1915, would not be distributed until August, 1916. Even then payment will be made only in paper currency at the rate of eighty piastres for a pound sterling, instead of at the ordinary exchange of 136 piastres.

PHILADELPHIA PAPERS REDUCE THEIR SIZE

Shortage of White Paper Becoming Serious Problem for New Journals.

By Special Wire to the Courier.  
Philadelphia, Aug. 9.—As a result of a series of meetings of the newspaper publishers of Philadelphia, called to consider the serious situation confronting them caused by the shortage of white paper, an agreement was reached that the following agreement was unanimously reached: "All morning, evening and Sunday newspapers will immediately reduce the size of their issues to the extent of a total in excess of 80 pages weekly. That beginning September 1 next, the accepting from wholesale purchasers of unsold copies of all morning, evening and Sunday newspapers will be discontinued. Heretofore this privilege has been granted to newsboys, news agents, news stands, and carriers."  
At this morning meeting of the publishers, facts and figures were submitted showing that the mills have been unable to supply the enormous increased demand for white paper. So serious was the situation become that it was pointed out that unless drastic reduction of consumption was enforced, some newspapers throughout the country would be confronted with possible suspension of publication.

BRITISH ARTILLERY ON SOMME  
DOMINATES THAT OF ENEMY

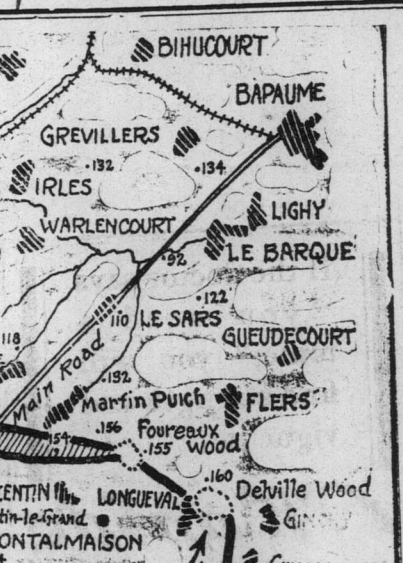

Germans Use Gas Shells, but in Spite of Them British Soldiers Advance—Small Man From Kent Takes as Prisoner a Large Man From Prussia

(By Philip Gibbs.)  
With British Army in the Field, Aug. 8.—All Sunday night there was a great hammering of guns, and Monday morning when I went out in the direction of Thiepval the artillery on both sides was hard at work. The enemy was dropping heavy stuff in the neighborhood of Pozieres, with occasional shots at long range into the fields. The enemy's batteries are, I believe, drawing back as far from the reach of our own heavies as possible, because in the midst of a tumult of guns and below the long, resonant journeying of great shells on their way to enemy's territory that I sat with some officers who had just chased the Germans out of their trenches to the north of Pozieres. They were all men of Kent. The Captain is a merry soul, who laughs most heartily over hairbreadth escapes and still more loudly when he describes little exploits which would make most men shudder at the mere remembrance. The Colonel of his battalion who sat opposite is of a different type, quiet and thoughtful, but with a sense of humor also that lights his eyes. There were other officers who had done the job, all wanting to say how splendid they were and it was good to be among them.

British Guns Hold Sway.  
From all I see and hear it seems certain that our artillery has the mastery along our line of attack. The Colonel of his battalion who sat opposite is of a different type, quiet and thoughtful, but with a sense of humor also that lights his eyes. There were other officers who had done the job, all wanting to say how splendid they were and it was good to be among them.

Germans Use Gas Shells  
Late one evening last week the patrol was sent out to examine the situation. On the following day our artillery began a long and steady bombardment of the enemy's line, and a number of German ran out of a portion of trench and took shelter in shell-holes in No Man's Land. There was retaliation from the enemy's artillery and they used a number of gas shells so that the men of Kent had to put on gas masks before the time of their attack. The enemy was sending up distress signals to his guns, and in anticipation of the attack was flinging colored lights over to our lines so as to illuminate any British infantry who might be advancing.

At the same time the enemy's machine guns played upon any figures so revealed, so that it was almost certain death to be in these glare-lights. At great risk several men sprang forward into the illumination and kicked out the burning canisters.

ALLIED SUCCESSES IN SOMME REGION  
Shaded areas represent latest allied gains in the Somme district. The British recently gained ground between Foreux or High Wood and a point west of Pozieres. Also at Guillemont. The French advanced to Hill 139.

ters, then in the momentary darkness the leading companies advanced in waves towards the German trenches south of Mequet, or as soldiers call it, "Mococo Farm."  
The Colonel of the battalion went very gallantly with his men, and as he drew near to the enemy's lines two figures were silhouetted against the enemy's lights. He called out to them, thinking they might be his own men working forward on his right, but he saw there were Germans. When one man threw up his hands as a sign of surrender, and the other dropped on one knee to fire a rifle shot, the Colonel sprang forward covering them with his revolver, and took both of them prisoners. Without many casualties in spite of machine gun fire our men reached the German trenches.  
Great heroism was shown by a young lieutenant and a party of bombers, who went first over No Man's Land so quickly behind our own shells, and came against the first defence. It was their quick advance which scared the enemy and helped to demoralize him. The men who followed ran along the enemy's parapets bombing down the trenches while others leaped in and fought their way down.

Battle in Dugouts  
Large numbers of Germans were down in the usual deep dugouts, and sentries were posted at the entrance of each of these underground places. Many refused to surrender or come out, then a bomb was thrown into the entrance way, and after the explosion there was heard a great scrambling and scurrying and squealing, as when a ferret goes down a rabbit hole.

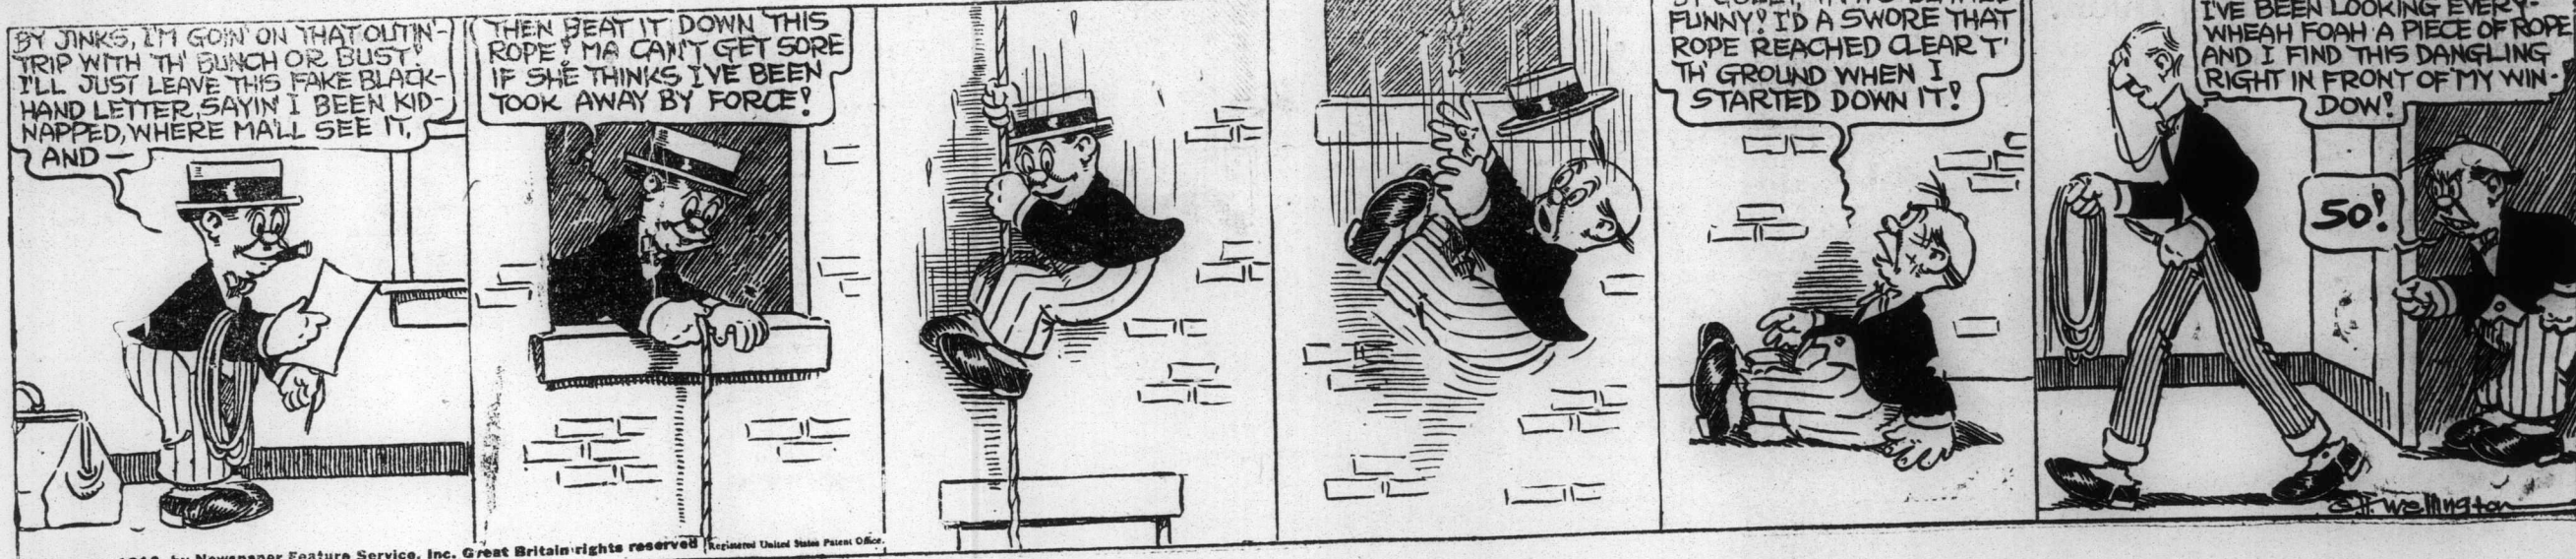

See Kent Takes Giant Prussian  
"It was the funniest thing you ever saw," said a jovial Captain. "Out the other entrances the beggars tumbled up just for all the world like rabbits. The men of Kent were pleased and excited at taking so many prisoners, about 80 of them in one batch, and the escort party fixed bayonets with a snap as though on parade, and then marched off with great pride, leaving the places to follow on. One of the prisoners taken later was a forward observing officer, a Prussian giant well over six feet high and enormously stout, and he was put in charge of a little Kentish man standing five feet one inch in his socks. The German giant was very frightened at the machine gun fire of his own people, and he was crouching in a beak-like turn, from behind by the wee man in khaki. This sight was illuminated by flames seen by the men left behind in our own trenches, and they stood on the parapets laughing and cheering wildly."

They have funny fellows among this British battalion, and the amount of comedy they extract from all this grim business is astounding. There is one of their number who was once a member of the Fred Kneave troupe, and has not lost his old instincts for a knockabout turn. When he took a prisoner he caught him by the hand and danced pas de quatre with him. These things are worth telling because they are true, and because they show how British character keeps its individuality, its humor, its extraordinary refusal to surrender to the gloom and tragedy of war, even in hours like this, which is truly frightful and when death is at the elbow of every man. These Kentish lads laughed and shouted in the glare of red and green lights, in the midst of machine gun fire, in the tumult of guns, and when they came back from the farthest trench. Sixty men were wearing sixty German helmets and grinning beneath them.

General Staff during the first Balkan

## CRIMEAN VETERAN HAS PASSED AWAY

Mr. Robert White of Paris,  
Served the Empire in Eng-  
land and in India.

FAREWELL TO  
THE 215TH.

Stiff Sentence Handed Out  
to Man Who Committed  
Perjury.

(From Our Own Correspondent.)  
Paris, Aug. 8.—The remains of the  
late Mr. Robert White, who passed  
away on Friday at the residence of  
his son, James White, West River St.,  
yesterday morning, and interment  
took place at the Mennonite ceme-  
tery, Bright.

Born in Scotland  
Mr. White was born at Glasgow  
Scotland, 35 years ago, and came out  
to Canada with his parents when a  
little boy, settling at Sebringville.  
At the time of the Crimean War and  
the Indian Mutiny, he joined the  
100th Prince of Wales Royal Regi-  
ment of Canada. He went over to  
England, and was later sent to In-  
dia, but when arriving there the  
trouble was over. About 30 years ago  
he came back to Canada and made  
his home in Bright, until a year ago  
when he and Mrs. White came to  
Paris, where he lived with their son,  
James, where he passed away. Much  
sympathy is extended to the bereav-  
ed widow and family.

Many friends of Mr. Geo. Atkin  
will regret to hear that he is living  
seriously ill at the home of his  
daughter, Mrs. E. Crombie, "Glas-  
ton."

Laid at Rest  
The funeral took place on Sunday  
afternoon of Mrs. Mary Jane Taylor  
of Canning. The deceased, who lived  
with her daughter, Mrs. James Hut-  
chinson, had been sick for the past  
6 months and death came as a happy  
release. Her husband pre-deceased  
her some 20 years ago. In their early  
days they worked for Mr. Lemuel  
Kitchin of South Dumfries, near  
Paris, and were well known to many  
in town. Eight children, all grown  
up, are left to mourn her loss. The  
remains were laid quietly to rest in  
the Paris cemetery, the service being  
conducted by the Rev. R. J. Seton-  
Adamson.

Good-Bye to the 215th  
Yesterday morning the boys of the  
215th Batt. left for Niagara Camp.  
Shortly after 5 o'clock the bugles  
could be heard, and all Paris was  
astir to bid good-bye for a while to  
the boys in khaki. Short speeches  
were given by the Mayor and others.  
The usual \$10 was given each sol-  
dier, and 2 pair of socks by the Wo-  
men's Patriotic League. They then  
paraded to the Grand Valley station,  
under orders from Captain Pearce,  
and took the 6.30 car for Brantford,  
where they met the rest of the bat-  
talion.

Customs Receipts  
The customs receipts for the month  
of July was \$8,708.54, while those for  
last July were \$13,244.72, showing  
a decrease of \$4,536.18.  
Right Rev. T. J. Dowling, D.D.,  
Bishop of the R. C. diocese of Hamil-  
ton, who celebrated his fifty-second  
anniversary in the priesthood, yes-  
terday received many congratula-  
tions from his friends in Paris. This  
was his first parish, and where he  
remained for 22 years, being greatly  
beloved by all his parishioners, who  
still have a warm spot in their heart  
for him, although it is 30 years since  
the Bishop left here. He has always  
taken a deep interest in Paris, and  
especially in educational matters of  
this parish.  
Crimean Veteran Take Two  
Much sympathy is extended to Mr.  
and Mrs. Thomas Henry Flagg, Oak-  
Avenue, in the death of their infant  
daughter Kathlyn Winnifred, who  
passed away yesterday. The funeral  
took place this afternoon, the service  
being conducted by Rev. R. J. Seton-  
Adamson.

## Turks Tell of Suez Fight

An Encounter Between Ad-  
vanced Detachments, They  
Say—Omit the Result.

By Special Wire to the Courier.  
London, Aug. 9.—The operations  
with which the Turkish forces ad-  
vanced towards the Suez Canal be-  
gan their attack on the British at  
Roman last week are described in  
an official statement by the Turkish  
war office under date of Aug. 5, re-  
ceived here as follows:  
"Egyptian front: On Aug. 3 our  
advanced troops occupied the line of  
El Rahib-Katia-Abutelle and pushed  
forward their reconnaissances to Ro-  
mani eight kilometres north of Katia.  
East of the town of Suez an encoun-  
ter took place between one of our  
advanced detachments and an enemy  
detachment. El Rahib is situated  
one kilometre north of Katia and  
Abutelle, 5 1-2 kilometres southwest  
of Katia.  
"It is stated that the number of  
prisoners taken at Kut-El-Amara was  
12,597, including 615 officers."  
The British force at Kut-El-Amara,  
under General Townshend, surren-  
dered to the Turkish Mesopotamian  
armies on April 29, last. The Tur-  
kish announcement at that time gave  
the number of prisoners captured as  
13,300. The British admitted the  
surrender of 8,970.

Modification of Regulations for En-  
listment in Home Service  
Ottawa, Aug. 9.—A man with one  
eye, who otherwise is physically fit,  
may now be enlisted, but only for  
service in Canada, not overseas.  
A modification of the regulations  
prescribes that anyone who has lost  
the sight of one eye but whose vision  
in the remaining one is normal,  
providing it is the shooting eye, may  
be accepted. It is also provided that  
loss of one foot or leg by invalided  
soldiers who can wear or use an arti-  
ficial limb will not constitute unfit-  
ness for home service in special work,  
nor will the loss of any toe of toes,  
except the great toe, prevent a man  
from being accepted. The latter class will  
be used for clerical positions. Like-  
wise the loss of one or two fingers,  
except thumb or forefinger, is not to  
act as a barrier. A man with a squint  
eye will be given glasses free.  
The modification of the rules will  
permit many of the ten or eleven  
thousand men doing guard duty on  
public works at home to go overseas.  
They would be replaced by those with  
the disabilities above mentioned.

## WHO PAYS FOR SHELL INQUIRY

Little Bill of \$50,000 Which  
Has to be Met by  
Some One.

Ottawa, Aug. 9.—Who is going to  
pay the fifty thousand odd dollars  
which represents the cost of the  
Meredith-Duff Royal Commission of  
Investigation into fuse contracts?  
That is the question now to the fore  
for the reason that the bills are com-  
ing in.  
Of more immediate interest is the  
question against whom the cost of the  
investigation of the Shell Commis-  
sion is to be charged. It was  
learned yesterday that the commit-  
tee are disinclined to assess it  
against the Imperial authorities. Al-  
though it was an Imperial body, the  
investigation was not requested by  
the War Office and therefore it is  
held that they should not be asked  
to pay for it. If the investigation  
had been conducted in an ordinary  
court the costs would be assessed  
against Messrs. G. W. Kite and F.  
B. Carvell as unsuccessful prosecu-  
tors, and members of the committee  
would not be at all disinclined to  
take this course. However, a Royal  
Commission has no power to assess  
costs.  
It is understood the cost of the  
commission will be well over \$50,000.  
One of the first bills to come in has  
been that of Mr. E. F. B. Johnston.  
It is said to amount to \$7,000.

WATCHING THE HYPHENATES.  
By Special Wire to the Courier.  
London, Aug. 8.—Asked by Sir  
Edwin Andrew Cornwall in the House  
of Commons to-day what safeguards  
this country has against "hyphenated"  
Germans who come to this country  
as American citizens and with Am-  
erican passports, Herbert L. Samuel,  
the Home Secretary, replied that  
they were dealt with by the authori-  
ties under the Alien Restriction and  
Defence of the Realm Acts. It would  
be contrary to the public interest,  
added the Secretary, to state the de-  
tails of the action which had been  
taken.

WATERLOO HOSTLER KILLED.  
Waterloo, Ont., Aug. 9.—Reinhardt  
Bowman, hostler at the Commercial  
Hotel, fell off a step-ladder at 2.30  
yesterday afternoon, breaking his  
neck, and expired a few minutes  
later. He was adjusting an awning  
on one of the windows when a heavy  
gust of wind tore it from his hands  
and caused him to fall to the side-  
walk on his head. Deceased was  
about 50 years of age.

## Free of Father's Houses were vacant.

And had been vacant for some

peevish about it because he had put  
up those houses for an investment,  
not for pleasure. And he was  
getting hotter every day when  
I happened to think that a

the next week there was a moving

# O. Henry Stories

## XI.—A Technical Error.

By O. HENRY

(Copyright by Frank A. Munsey Co.)

His mathematics carried with it a momentary qualm and a lesson. The thought had not occurred to him that

He Pumped Six Bullets into the Body That the Brown Dress Covered.

The thought could possibly occur to me to ride at his side on that red road to revenge and justice. It was the higher calculus. I was looking for the trail. I began to eat more beans. In an hour we set forth at a steady gallop eastward. Our horses were Kentucky bred, strengthened by the mesquite grass of the west. I knew that Ben Tatum's card to play was flight—flight until he came within the safer territory of his own benches and supporters. He knew that the man pursuing him would follow the trail to any end where it might lead. During the ride Sam talked of the prospect for rain, of the price of beef, and of the musical glasses. You would have thought he had never had a brother or a sweetheart or an enemy on earth. There are some subjects too big even for the words in the "Unbridled." Knowing this phase of the fent code, but not having practiced it sufficiently I overdid the thing by telling some slightly funny anecdotes. Sam laughed at exactly the right places, and I laughed with his mouth. When I caught sight of his mouth I wished I had been blessed with enough sense of humor to have suppressed those anecdotes. Our first sight of them we had in Guthrie. Hungry and thirsty, we stumbled, unshowered, into a little yellow pine hotel and sat at a table. In the opposite corner we saw the fugitives. They were bent upon their meal, but looked around at times uneasily. The girl was dressed in brown—one of those smooth, half shiny, silky looking affairs with lace collar and cuffs and what I believe they call an accordion plaited skirt. She wore a thick brown hat with a brimmed straw hat with some kind of feathers adorning it. The man wore plain, dark clothes, and his hair was trimmed very short. He was such a man as you might see anywhere.

## WATER WORKS NOTICE.

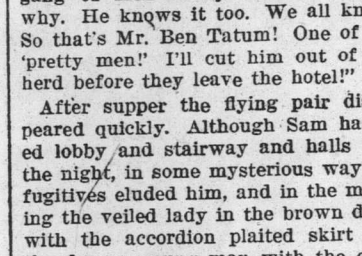

The attention of the Water Commission has been called to a number of malicious and outrageous stories circulated about contamination and pollution of the public water supply. These stories are without foundation and the board are taking vigorous steps to punish any person found circulating same. The tests of the city water made by the Provincial Board of Health where samples are sent regularly show the same to be absolutely free from any contamination. The notice given to boil the water was done on account of the excessive consumption and was an extra precaution.

F. W. FRANK, Secretary.
