at Mr. D. Jackson's, Liverpool street. Mr. W. R. Cook, Mrs. Nelson, and Miss B. Skinner have gone down the St. Lawrence on a pleasure trip. Dr. Kennedy left this morning for the old country. He will sail for the Vancouver, of the Dominion Line.
I. O. F.—A special meeting of Court Guelph, No. 37, Independent Order of Foresters, was held on Monday evening when there was a good turnout. The three initiations took place; five were accepted, and five propositions were on hand. The matter of arranging for the High Court meeting in this city was brought up and all the details finally arranged. Two streets will be placed across the street at the market and the other on Upper Wyndham street—being the words, "High Court of Ontario and the Order of Foresters." It is expected there will be a very large number of delegates here. One court in Ottawa will send eleven.
JAMAICA EXHIBITION.—The exhibition at Kingston, Jamaica, will open in January 1891. In view of the geographical relation of the Island of Jamaica with the sea routes of Canada, and the nature and extent of the imports of the Island, the Government of Canada accept an invitation of the Government of Jamaica to participate in such exhibition, with a view of obtaining an extension of markets for the products and manufactures of Canada. Mr. Adam Brown, M. P. of Hamilton, has been appointed Honorary Commissioner to represent the country, and the Dominion Government will undertake to pay freight on all approved exhibits. Entries must be made not later than September 30th next; and the latest date at which exhibits can be sent forward from Halifax, N. S., or St. John, N. B., is the middle of December.

CITY COUNCIL
Ald. Kelly Gives an Account of His Stewardship.
THE CITY ASSESSMENT.
The regular meeting of the city council was held on Monday evening. Present—Ald. Lamprey, Hartnett, Fischer, Scroggie, Kerr, Palmer, Kelly, Taylor, Howard, Dowler, Kiersten, Goldie, Reid, Daiguan, Kennedy, Barber.
On motion of Ald. Lamprey a 1 Taylor, Ald. Howard took the chair. The minutes of the last regular meeting were read by the clerk.
It was then moved by Ald. Goldie, seconded by Ald. Dowler, that the council go into committee of the whole to hear an explanation of his conduct, as chairman of the Board of Works, from Ald. Kelly.
Ald. Goldie in a short speech, held that this courtesy was due to Ald. Kelly.
The chairman ruled the motion out of order.
Ald. Kelly replied to know on what rule he did so.
The chairman repeated that it did not require a rule. The question before the council was, had the clerk recorded the minutes of the two former meetings correctly.
Ald. Kelly remarked if the chairman would show him the rule he would submit.
Acting-Mayor Howard said he had no feeling in the matter, but he was compelled to rule the motion out of order.
The minutes were then confirmed.
WANTS A CROSSING.
A communication was read from Mrs. M. Henderson, asking that a new crossing be made at the corner of Stewart street and the Eramosa road. Referred to Board of Works.
CELLAR FLOODED.
A communication was read from A. W. Gay, calling attention to the road in Woolwich street east of St. George's church. He claims that the drain is closed up and his cellar is flooded in consequence. Attention was also called to the bad state of the sidewalk in that locality. Referred to Board of Works.
WARD SCHOOL.
Noble and others, asking that the water mains be extended on King street in order that their new house might be supplied with water.
MARKETS.
Ald. Scroggie, chairman, presented the ninth report, recommending payment of the following accounts: Mrs. Johnston, \$1; D. McDonald, \$3.63; U. Ryde, \$3; Mrs. Laurence, \$1—\$10.63.
ADOPTED.
ALD. KELLY MAKES A STATEMENT.—The chairman stated that Ald. Kelly would now be allowed to make a statement if he desired to do so.
Ald. Kelly then rose and thanked the chairman for the privilege of making a statement. He said he had two reasons for not attending the special meeting of the council on Friday, July 25. In the first place he was not well and was compelled to go home on that account. Secondly, there was not sufficient notice given to meet the council on so important a matter. He claimed that the acting mayor had no authority to call a special meeting and quoted the statutes to show that the requisition should have been addressed to the city clerk. On that ground he claimed that the proceedings were illegal. He said he did not question the right of the council to remove him from a committee if the meeting had been properly called. Whether he would take legal proceedings or not was a question. The speaker said he wished to ask two questions from two different members of the council. In the first place he wished to ask Ald. Kerr to state the amount of plank in the yard.
Ald. Kerr said he was not on his feet, and asked the chairman if it was in order for him to answer.
Ald. Howard said that he might answer the question.
Ald. Kerr thought Ald. Kelly should make his statement and then he could reply if he felt disposed.
Ald. Kelly then asked Ald. Kloepper if there had ever been any dispute in the committee or if he (Ald. Kelly) had ever done any work contrary to the directions of the committee.
Ald. Kloepper said he would answer the question after Ald. Kerr had replied to the one put to him.
The chairman stated that he would give Ald. Kelly permission to make any statement he saw fit, but he would not allow a general discussion.
Ald. Kelly stated that he asked Ald. Kerr the question which he did because he had been told that the money was all spent.
Ald. Kerr said there were 38,000 feet of two-inch pine, besides some cut in 3 and 4 feet lengths. He considered there was altogether about 4000 feet. There were 961 pieces of cedar, sawing. According to the foreman's measurement there were 14 cord of cedar blocks. He had not as yet

THE GUELPH DAILY HERALD. H. GUMMER, Proprietor and Publisher. TUESDAY EVENING, AUGUST 5

MR. LAURIER AND THE FARMERS.

During the many years that Sir John A. Macdonald has been at the head of the Dominion affairs, he has studiously considered the position of the agricultural classes, and has always endeavored to frame legislation in such a manner that it would prove advantageous to them.

Mr. Laurier, the leader of the Liberal party, is pursuing a diametrically opposite course. Instead of consulting the interests of the farmers and doing all that which lies in his power to lighten their burdens, he favors inaugurating such a policy as would admittedly be disastrous to them.

"They (the Conservatives) began by imposing a duty of 50 cents upon every barrel of flour that you use, and last session the tax was increased to 75 cents per barrel. . . . This tax, however, was not imposed of public necessity, as it is alleged that there is a surplus of seven millions, but rather in the interest of the Ontario and Manitoba farmers, who raise wheat in great quantities. . . . The object of this tax is to bring about a scarcity of the article and augment in consequence the price of the same. In other words, it takes the money out of the pockets of those who buy the flour and puts it into the pockets of those who produce it.

It will be seen that Mr. Laurier admits that the farms of Ontario and Manitoba are benefitted by the present fiscal policy and it is that fact which is repulsive to him. If they were reduced to the verge of bankruptcy and starvation as are the farmers of Dakota, their position, then would be more acceptable to the enemy of everything Canadian.

working of a BRYANT school books that have been superseded by George Washington's new-fangled editions. Philanthropic spinsters who are troubled about negroes might easily get an immense consignment for gratuitous distribution in Maryland, where a great dearth of books exists. Take this for an example which is quoted from a contemporary. One teacher says that in his school of 56 children he had one small blackboard, one slate, two reading books, one geography, and no paper on which to write. In default of books he had been forced to cut up newspapers and use them for reading and spelling lessons.

The Jamaica Exhibition. GALT, Aug. 4.—Adam Brown, M.P., Canada, has been spending the day here interviewing millers and manufacturers respecting exhibits for the Jamaica exhibition to be held in January next. He was cordially received, and all the millers and manufacturers intimated their intention of sending exhibits. He left for Preston this afternoon to see the manufacturers of general furniture and office furniture. He has been invited to return here and address the board of trade upon the subject.

A Child Saved. My little boy was taken very bad with diarrhoea, he was very delicate and got so low we had no hope of his life, but a lady friend recommended Dr. Fowler's Extract of Wild Strawberry, and although he could only bear a few drops at a time he got well. It saved my child. Mrs. Wm. Stewart, Campbellville, Ont.

Joseph Leguac, an engineer fell from the tower of Notre Dame cathedral, Montreal, Monday, a distance of 100 feet, and was instantly killed. That distention of the stomach which many people feel after eating, may be due to improper mastication of the food; but, in most cases, it indicates a weakness of the digestive organs, the best remedy for which is one of Ayer's Pills, to be taken after dinner.

Valuable phosphate leads in the Wakefield district, about twenty miles from Ottawa, have just been discovered by a California miner named Dollar. It is a great misfortune for the young and middle aged to be gray. To overcome this and appear young, use Hall's Hair Renewer, a reliable panacea.

A DON JUAN'S FIVE WIVES.

Dozens of Women Victims of His Blandishments.

CHICAGO, Aug. 4.—Charles Loring, locked in the Court House jail here on a charge of bigamy, is accused of having five living wives, and the full list includes the names of a dozen women who have fallen victims to his blandishments. Thirty years of age, well educated, handsome and of excellent family, Loring has made a record scarcely second to that of Don Juan.

He met Esther E. Batasco, a beautiful, dark-eyed Jewish maiden; who lived in Brighton, England, and in 1884 he married her. She is in Chicago now, and is on his punishment list. How she met Loring and married him in opposition to her parents' wishes, he told her he was in the employ of the telephone supply company and possessed a fortune of \$150,000.

Loring then became entangled with a young woman in St. Paul and left his wife. He came to Chicago and secured a position with the Lake View Electric Light Company and established his home in that suburb. Just around the corner lived Aurelia Anderson, a accomplished blonde, with whom he was married on Aug. 31, 1889. About the same time the Light Company was in the hands of Mrs. Loring's husband's creditors.

For a time Loring lived in a comfortable position where he made a comfortable living. One day he returned without warning from Brighton, England, where he married Miss Batasco.

Here he met Miss Florento E. Winfield, a promising young lady. He fascinated her and her parents with his captivating manner and tales of great wealth, and finally on the day Loring and his latest love, after acting as best man and maid of honor, were themselves married.

She prepared to accompany him to America, but at the last moment it was discovered that the expected draft from Loring's American partner had not arrived. The new father-in-law pawned his jewelry for \$150 and loaned the amount to Loring, who, with his bride and a ten-year-old girl, sailed for New York.

For a time they stopped at the best hotels and revelled in luxury, but finally Loring struck a streak of bad luck. His wife No. 3 pawned her wedding ring at a charity organization supported by him. He subsequently left her destitute and fled to Denver. Meanwhile Mrs. Loring No. 1 got on her feet.

DESTRUCTIVE HAILSTORM.

It is Estimated 100,000 Acres of Manitoba Wheat Are Ruined.

WINNIPEG, Aug. 4.—Fuller accounts of the damage done by the storm on Friday night have been received, and show the loss to the wheat crops to be greater than at first reported. At Deloraine, 200 miles south of Winnipeg, the hail belt is said to have been four townships wide, narrowing down to a mile and a half as it proceeded east, leaving destruction in its wake. Mr. Ogilvie's manager here says that 100,000 acres of wheat have been totally ruined. So far reports have only been received from the principal towns along the Canadian Pacific Southwestern Railway, and it is impossible to say yet just how extensive the damage is, but certainly it is very serious.

A Boissevain despatch says: Yesterday about 10 o'clock the sky darkened like a total eclipse. Half an hour later a severe lightning storm began. There was a deluge of water which continued to 22 o'clock. In town glass was once more badly wrecked and the Ryan House was unroofed. Crops are badly damaged south of the track. Very little is destroyed north.

MR. SHAGHNESSY'S ESTIMATE. MONTREAL, Aug. 4.—Mr. T. G. Shagnessy, assistant president of the Canadian Pacific Railway, estimates on the basis of recent telegrams that the North-west grain crop will amount to 17,000,000 bushels, of which 12,000,000 will be for export.

An Infant Killed. BRANTFORD, Aug. 4.—A sad fatality occurred in town yesterday whereby the infant child of Mr. and Mrs. T. L. Wood lost its life. The youngster was sitting on the window-sill, the mother, who was playing with it, supposing the shutters to be locked. They were not though, and the child, giving a spring fell through them to the pavement below, being instantly killed.

Thomas Quinn, an 18-year-old boy, was feeding a planer in Mr. Vanleet's mill this morning, when his left hand was drawn in. The top of the middle finger was taken off and three others were nearly severed.

The canal has been allowed to run dry for the purpose of being dredged.

OUR WAYS OF BUSINESS

Have been told many times, but they need to be told again, and may have to be told many times more.

We buy and make various sorts of merchandise just as cheap as possible. We tell the truth about it all. We sell everything at the very least prices, and every time we are as low as the market, or lower. The business is simple as can be. The price is named distinctly for each article. And anything you make or save thereby is yours, not ours.

You are perhaps so accustomed to read the reckless talk of thoughtless or unscrupulous advertisers that you discount the statements of careful merchants. You know our ways, but we need to remind you again that nothing is printed about OUR goods and prices that will not bear examination. Every word is important.

We have just completed another series of reductions throughout our different departments, and the most economical buyer will be pleased and surprised at our prices. To give an instance, we are offering our All Wool French Delaines at 25c., 30c. and 40c. per yard.

Prints, Sateens, Remnants, Dress Goods, etc., at correspondingly low figures. A glance at these goods will convince you of their value and cheapness. Other goods at proportionate reductions.

measured the cedar planks, because he was not using it.

Ald. Lamprey asked what quantity of this was unpaid for.

Ald. Kerr said as far as he could find out there was \$237 owing on the scantling.

Ald. Klepfer then answered the question addressed to him.

Ald. Kelly said he was obliged to the two gentlemen for answering the questions.

There never was any wrangling, nor was there any dispute. He did not know of one single thing which he had recommended.

Ald. Kelly said he was obliged to the two gentlemen for answering the questions. There never was any wrangling, nor was there any dispute.

He did not know of one single thing which he had recommended. The committee which was not adopted by the council.

Everything worked well till a little caucus was gotten up by, he believed, Ald. Lamprey.

He went on with the work on the street and he believed it was satisfactory to the committee. Not one of them had spoken to him about the work on the street.

On one occasion he called the committee out to examine the gravel pit. They also called to see whether the cedar block or plank crossing should be put down at the City hotel.

They also drove to the London road. There he suggested having the sidewalk moved out, but Mr. Williamson objected.

They could not agree to anything. He went on with the work there and made a good job of it.

Ald. Reid did speak to him about it afterwards, and said he did not do the work as he had agreed to do.

Reid that they did not agree to anything. In referring to the special meeting of the City council, he said the charges made against him were unfounded.

It was true that he and the foreman had some dispute at first as to how the work should be done. He told the foreman the work had to be done his way, and since that time they had got on well together.

The speaker then gave a detailed account of the expenditure on the different streets. On Waterloo avenue the appropriation was \$300, and there had been expended \$193.63.

Eramosa road, appropriation \$50, spent, \$38.12; Norfolk street, appropriation \$300, spent, \$204.55; Woolwich street, appropriation \$303, spent, \$309.19; Wyndham street, appropriation \$230, spent, \$198.46; Paisley st., appropriation \$80, spent, \$64.74; Cardigan street, appropriation \$100, spent, \$124.19; Delhi street, appropriation \$24, spent \$12; Glasgow street, appropriation \$100, spent \$70.14; Nevee street, appropriation \$80, spent \$62.50; Suffolk street, appropriation \$140, spent 109.75; Market square, appropriation \$100, spent \$74.84; Perth street, appropriation \$25, spent \$10.47; Cork street, east, appropriations \$90, spent \$45.50; Hunkleson street, appropriations \$30, spent \$14.60; Gough street, appropriation \$100, spent \$74.84.

On the 1st of July \$1,518.85 was on hand, and there was some \$900 or \$700 worth of lumber on hand. He pointed out that he had to pay some \$344.56 which there was no provision made for at the time the appropriation was made.

Taken altogether, he claimed that he left about a balance of \$300 of the appropriation unexpended. As regards ward appropriations there had been \$470 already spent, as follows: St. Andrew's, \$35.24; St. Patrick's, \$11.45; St. John's, \$146.17; St. George's, \$114.01; St. James, \$22.07; St. David's, \$14.70, leaving about \$1,300 to spend in the wards.

He said that on the 21st day of April the petition of Mr. McCookin to move the sidewalk out was granted, with instructions to extend the sidewalk to the London road. That report was signed by all the committee, and endorsed by the mayor. He said he kept a private book and he intended to make up a report showing where every cent was spent and to whom it was paid. He had no desire when he came to the council to do anything but what was fair and right. He then proposed authorizing him to lay a bill before the council to read the clause of the sidewalk.

Ald. Klepfer said that that was never read in the council. Ald. Reid said it was written in afterwards. The chairman suggested that Ald. Kelly be allowed to finish his explanation.

Ald. Klepfer said the laying of that sidewalk had never come up in the committee. Ald. Kelly said he would give his word and his oath that the clause was never when it was signed. He concluded by saying that he would make up a statement on the morrow, and then leave the report book with the city clerk.

CITY ASSESSMENT. Moved by Ald. Scroggie, seconded by Ald. Dowler, that the assessor, F. J. Chadwick, be instructed to assess the city of Guelph in the usual way and to his best judgment, and that the papers distributed amongst the merchants to be filled up by them asking them to give a general statement of their affairs be withdrawn.

The chairman said that the motion was out of order, as the duties of the assessor are defined by statute. Ald. Scroggie argued that it was not fair to compel the merchants to fill in those circulars. Other municipalities did not do so.

Ald. Dowler thought that if merchants were compelled to fill in the circulars it would drive business men away from the city. They would be compelled to borrow money to carry on their capital in, and would invest their capital in something else.

Ald. Goldie thought the council had nothing to do in this matter. No doubt the assessor was compelled to take this step on account of the false statements which had been made in former years. He thought with the good sense of the assessor, the moral lesson of the Finance committee

would be sufficient to induce him to withdraw the circulars. Ald. Howard said he ruled the motion out of order because it was too arbitrary, and instructed the assessor to do a certain thing.

Ald. Kelly stated that the statute instructed the assessor how to proceed. He held that no one was obliged to answer the questions contained in the circular sent out by the assessor.

Ald. Howard said that whether the circular was proper or not he was not going to say. He believed that it was reported that the Finance committee to deny this report. The assessor was doing his own business in his own way.

On motion the council then adjourned until Tuesday, August 12, at the usual hour.

Board of Trade.

An adjourned meeting of the Board of Trade was held in the city hall building Monday evening. Present—Mr. J. Hallett, president, in the chair, Col. Higginbotham, Chas. Davidson, T. J. Day, John M. Bond, A. W. Alexander, John Smith, Jas. Goldie, John Griffiths, D. E. Rudd, Jas. Keleher, A. Scott, A. B. Petrie, R. Mitchell, J. A. Selles, J. J. Kelso, J. E. Williamson and G. A. Richardson.

In the absence of the secretary, Mr. A. Scott was appointed secretary pro tem.

To allow those present an opportunity to learn what the council of the Board had done at its last meeting, the chairman asked the secretary to read the minutes of the last meeting of the council.

Mr. Day, who had been appointed to see the assessor, stated that he waited on Mr. Chadwick and that he had promised to make a report as to whether 7 1/2 per cent. on the rental would bring in as much or more as the present personal tax. But as he had neglected to hand in his report nothing could be done at present.

It was then moved by Messrs. Bond and Alexander, and carried, that the Board of Trade should take up the matter on the 12th inst.

Advice to Mothers. Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels and wind-colic by giving health to the child and raising the mother. Price 50c a bottle.

ONE MORE DAY.

Kemmler's Electroconvulsion Probably Fixed for Wednesday Morning.

AUBURN, N. Y., Aug. 4.—This afternoon the Associated Press representative asked Warden Durston if it would be safe for a correspondent to absent himself from the vicinity of the prison two or three hours. "Why, certainly," was the response, "and I will say to you frankly that there will be nothing of importance within the next 24 hours." This was said at 4 o'clock this afternoon, hence the warden is authority for the statement that the death bolt will not be loosed at least until 4 o'clock to-morrow.

The execution will probably occur Wednesday morning.

A DELICATE POINT OF LAW. A delicate point of law was to-day suggested here by a gentleman deep in legal lore. This suggestion was not the outgrowth of any personal interest, but is the outcome of careful perusal of the statute under which Kemmler has been sentenced, and of the form of the sentence that directs Kemmler shall be killed in the week beginning Monday, Aug. 4. Here is the point raised: That the week beginning Aug. 4 ends with Sunday. The warden has arbitrary power to defer the execution until Sunday, Aug. 11. On Sunday it is held that the general law would intervene to prevent the killing on that day upon the ground that any execution of legal processes upon Sunday is not legal.

Directly at this point the case is touched by that general principle of law that, if the sentence under which Kemmler is executed is to be killed in void in part, it must be wholly void. Brought to a close application the assumption is that it is illegal to kill Kemmler on the seventh day of the week designated, then it would be illegal to kill him on any other day of the week designated. The situation, it is held, would be different if Sunday intervened as part of the seven days, because if it would intervene with the week it would be a part of the seven days.

SHOES

Poor Shoes are dear at any price. We know that the people of Guelph and vicinity want good Shoes and are willing to pay a fair price.

Quality invariably pays both buyer and seller.

The most expensive economy is to buy cheap Shoes.

We need hardly remind you that there should be something behind cheapness to insure real merit. Shoes to be cheap should in the first place be good, otherwise they are dear. What is apparent cheapness if the quality is lacking?

Is there anything cheap about Shoes which cost less than they ought and are worthless in a few weeks.

For the next two weeks we will sell all Colored, Canvas and other lines at cost.

HAMILTON'S MARBLE WORKS.

HAMILTON'S Block (formerly Hatch's Block), the corner of Woolwich and Dublin Streets, Guelph, Ont., John H. Hamilton, proprietor. The local marble dealers having failed in their combined attempt to business me out of business, I have determined to carry the war into Africa by so doing business and selling Monuments, and other articles, at such prices as will virtually shut out competition.

With this end in view I have visited the celebrated granite quarries on the Bay of Fundy, where I purchased the whole of the manufactured stock of Messrs. Epps, Doddie & Co. very low price, together with the newest designs of other manufacturers. The whole of this immense stock I have placed in my new premises as above indicated, and I now invite all lovers of art and all intending purchasers to visit the works.

Being the only practical manufacturer, having longer and larger experience, having sufficient capital to buy for cash, I am in a position to give better satisfaction and lower prices than any firm in the west.

Then go to John H. Hamilton because he is a practical man who understands every detail of his business, and because you are sure to get satisfaction in workmanship at lower prices than anywhere else. And now years have shown such confidence in me, and soliciting future orders.

I am your obedient servant, JOHN H. HAMILTON, Guelph, Ont.
