There are two kinds of pitchers; these who do and those who don't. Also, roughly speaking, which is the way to speak to some pitchers, all hurlers may be divided into two classes, those who pitch with their right fins and those who use their left paws. Occasionally we find a pitcher who employs both his arms and his head for pitching purposes. These flingers are generally called "Stars." When there is a great deal of pitching in a game there is correspondingly little batting. And vice versa. Pitchers are known as either Great, Good, Ordinary, Bad or Awful. Left handers called South-paws, are believed to possess certain pecularities, as a class. Naturalists tell us, that in their native state, all left-handers are wild. They can be tamed however, and some lefthanders have become so domesticated as ballyard pets that bleacher denizens love them dearly and apply affectionate pet names to them, such as, Bonehead, Bumm, Cheese and Skull. Some pitchers are known as in-andouters. This means that they go into the box and then come right out again. Fans call them various other names. Speed is considered an essential of successful pitching. All pitchers have it—at dinner time. The generosity exhibited by batters toward unfortunate pitchers is frequently very touching. When an opposing club discovers that a pitcher "has nothing" they

Public Notice

I am directed by His Excellency the Governor in Council to issue the following notice under Authority of Minute in Council passed 28th February, 1918.

Augmentation of the Pay of Royal Naval Reservists Newfoundland.

The Government of Newfoundland have decided to augment the pay of Newfoundland Royal Naval Reservists so as to place them on the same footing as men of the Newfoundland Regiment.

Under the provision of the War Measure Act, authority is given to the Minister of Militia to deal with the matter of augmentation of pay of the Royal Naval Reservists, Nfld., in consultation with the Senior Naval Officer, St. John's.

It is ordered that a sum of 33c. per day be placed to the credit of each Naval Reservist from the time of commencement of the war, in cases where men were then serving, or otherwise, from the time when their services began up to the time of discharge, or of death, or to the 30th of September, 1917, inclusive.

As the rate of pay of Naval Reservists was increased from October 1st, 1917, and as the difference between the amount they receive and that allowed the members of The Royal Newfoundland Regiment is 17c. per day, this difference will also be credited them from that date.

The foregoing amounts will not in any case be made a payment from Admiralty sources. The Minister of Militia, St. John's, Nfld., is solely responsible for the issue of any sums due.

Newfoundland Royal Naval Reserve men serving in any of H. M. Ships, including all members of the Trawler Reserve and those in Defensively Armed Merchant Ships etc., are eligible for the pay as set forth, and should be informed of the following alternatives as regards the method of payment:—

(a) Payment will be made on personal application to the Minister of Militia, St. John's.

(b) Payment will be made to the nominee of any Reserve man, on written application duly witnessed, to the Minister of Militia, St. John's.

(c) Sums due will be placed to the credit of Resesrve men who do not desire to avail themselves of the foregoing and can be drawn by them at the expiration of their service.

The following form is to be compiled and forwarded direct to the Minister of Militia, St. John's, Newfoundland, at the earliest possible date:-

WHAT IS DESIRED DIS-POSAL OF AMOUNT DUE UNDER ORDER 1, 2, or 3. AUTHORISING DISPOSAL, (IN CASE OF 2, FULL NAME AND ADDRESS MUST BE

All communications of any description with regard to these payments are to be made to the Minister of Militia, St. John's, direct.

Payment will commence on 1st May, 1918.

In cases where members of the Royal Naval Reserve (Newfoundland) have been killed in action or died of wounds or sickness, or through any other cause, the amount due as Augmentation Pay will go to the Estate of the deceased. The authority to obtain the Estate of the deceased is, in case of a Will, Letters of Probate; and in case there is not a Will, Letters of Administration. Such letters are issued by the Supreme Court of Newfoundland on the Petition and Proofs of Executor of the Will, or the next of kin. If the Estate does not exceed \$500.00, after the proof of the facts has been obtained the petition can be applied for by the Minister of Justice.

With reference to the foregoing, it is suggested that the next of kin of Reservists who are now serving should com-municate with them and request them to send their instructions to the Militia Department. No action can be taken until

such instructions are received. Next of kin of deceased Reservists will be communicated with in due course when their claims have been proved.

She will eat all sorts of candies be tween meals and perhaps, only once or twice a week, will she eat a really

hearty and wholesome meal. What is the result of such habits of eating? In her early twenties her eyes are dull, her teeth not white, her gums pale, her lips wan, her flesh unyielding. In fact, all the sap of her young womanhood is undeveloped or destroyed. Of course there can be no hard and fast rules on diet for "what is one man's meat is another's poi-

A FORMAL DENIAL.

United States Secretary of War Baker, to-day, added his formal denial to that of Lord Reading, regarding statements as to the disposition of American forces in France. He said the facts were directly opposed to the statements, and that American troops were being used actively in battle, and in such ways as to meet with the approval of Generals Foch and Pershing. The Secretary dictated the following statement made in the morning papers, purporting to come from Ottawa, "It semes that American forces in France will not be used actively for the present but will be conserved until they constitute a larger and independent American army." The facts, his statement continues, are exactly otherwise, and troops in France are being used actively in the battle and in the trenches, and while all of the plans of the War Department look to the development of the American Army, yet the various elements of it, now in France, are being used freely in the general cause, and in such ways as are deemed most effective. In accordance with General Pershing's action in placing all our forces at the distance tion of the Allied Commanders, and the supreme commander, Baker added, he had no information as to the source of the Ottawa despatch.

NEW SHIPPING CONTROL.

NEW YORK, To-day. To permit him more freedom of action in connection with shipping control, Sir Connop Guthrie, Director in this country for the British Ministry, of shipping, has been appointed spec ial representative of the Ministry, and Tashley Sparkes, Director in the United States of the Cunard Line, has been named to succeed Sir Connop as Director of Shipping. According to an announcement to-night by officers of the Cunard Line, the paramount interest of shipping in connection with the war is universally recognized, and as this country coning share in those burdens, the necessity for a closer and more harmonious working with the British and other Allied shipping interests, becomes of first rate importance. Says the statement, the British shipping controller therefore pays a signal compliment, both to American shipping and Sir Connop Guthrie, in selecting to undertake that work, a man who by reason of his successful handling of British interests in this country, has proved himself eminent-

Dr. Grenfell Speaks.

We learn from late American pa ers that Dr. Wilfred Grenfell was one of the principal speakers at a Patriotic mass meeting held in Boston on May 1st, under the auspices of the Swedish Liberty Loan Committee. The audience consisted almost entirely of scent. Among other speakers at the meeting were His Excellency the Governor of Massachusetts, and the Mayor of Worcester, Mass. At the close of the meeting American Liberty Bonds to the extent of over \$60,000 were subscribed. The Chairman made special reference to Dr. Grenfell as an Englishman whose presence was deeply appreciated and whose speech made a

A BIT OF POUND COTTON.

With housewifely vision and foresight you could see how these purchases would make up satisfactorily and economically. Even on the ordinary piece goods you could often see your way clear to save money in the making up, rather than buying readymade goods.

"But Them Happy Days is Past."

Now 'tis a strain on one's brain to know how to make ends meet, and on one's purse 'tis worse. For that reason we are going to let you in on a secret. Possibly some ladies know it already. However, the secret is,-

YOU CAN BUY

Ladies' Readymade Wear

far cheaper than it can be made up or purchased elsewhere.

There are various reasons for this. The most important is, that these goods were booked before the last great rise in prices, and the materials with which they are made, before the other big rise previously. The next important reason is our conscience. As you are aware, the White Shirting that we used to sell at about 12c. per yard has, on late purchases, to be retailed at about 35c. to 40c. yard, and we hate to mention the price.

But the Prices of Our Ladies' White Wear

we feel we can mention with pride to any customer. We have at the moment for the early purchaser a large stock of
