DISGUSTED AND TERRIFIED THE GERMAN PRINCES DISTRUST

but the new religion has not yet found its apostle.

The prospect of a number of Socialist candidates in London constituencies has seriously disturbed the managers of the Liberal party in the metropolis. Every vote given to the Socialists may be regarded as a vote lost to the Liberals, and in some constituencies the Socialists will command an appreciable fraction of the electors. If the Socialists system the firm's affairs says the deficit caused by Hilger's irregularities at Philadelphia will run from \$100,000 to \$600,000. Additional eyidences of Hilger's wrongdoings are constantly being discovered. The books have been falsified and Hilger made drafts on the New York house under the false pretence that they represented business conducted by him for the Philadelphia customers.

THE LIVE STOCK MARKETS.

Tuesday Evening, April 8.

Live stock markets are practically u nchanged since last week. With continued heavy receipts of Canadian cattle a weaker feeling prevails, although prices show no decline. There is little doing in Montreal, the supply being limited with few buyers present. Prices are firm at last week's rate. There was a light run on the Torouto Western cattle markets last week, the total aggregating but 540 head of cattle, 180 head of sheep and 538 hogs. There were 35 carloads brought in today, and, quality considered, prices were equal to last week. Had it not been for the frightful condition of the weather a large business would have been done. Cattle—There were a few extra beves offered to-day, for which as high as 44c per lb. was paid for selected, four or five realizing 44c. These were odd ones picked out of a load. In fact the absence of several well-known buyers retarded extensive business and except in five or six instances all the loads were split up. Good butchers stock were quoted at 34c to 3% with 4c paid for extra animals weighing 1050. There was a good demand for springers and milk cows, which have been low for some weeks. Two head of springers brought \$50 each, and two others \$40 each. Transactions were: Two averaging 1140 at \$32.50 each, 8 averaging 900 at 39c, 21 averaging 1050 at \$36.0 each, 13 averaging 1025 at \$36.0 each, 13 averaging 1025 at \$36.0 each, 20 averaging 9100 at 4c, 13 averaging 800 at 39c, 20 averaging 1000 at 4c, 13 averaging 800 at 39c, 20 averaging 9100 at 4c, 13 averaging 800 at 38c, 25 averaging 800 at 63c, 20 averaging 9100 at 4c, 13 averaging 1025 at 85c. A YEARLY AVERAGE INCREASE of 50,000 to our population for the next 10 years would give us half a million more than at present, beyond which it would not be safe to count. This increase is already more than provided for in lots in the outskirts of the city. We are unquestionably 10 years ahead of practical requirements in this class of property. In every possible direction for 6 or 7 miles land is being blocked out and boomed to death, until the buyer is left without forthcoming profit and declines to sink money for so many years in dead stock.
