The Ladies' Aid Society of the Methodist church met last Thursday afternoon. Reports of the treasurer showed a total of \$165 had been raised by the society with a balance of about \$60.00 in the treasury. The officers of last year were requested to continue in office until after the United Church of Canada becomes a fact when reorganization will be effected as circumstances may demand.

Last Friday afternoon Principal Cameron of the Watford High School accompanied by some forty odd pupils who are registered in the Agricultural class journeyed across the park to the farm of W. G. Connolly and spent an hour going through the up-to-date stables and looking over the dairy herd. The class formed a large ring in the yard and several purebred dairy cows were brought out and the main characteristics of the dairy cow illustrated. Methods of feeding and care of dairy cows, as well as the care of milk, were discussed. The class was specially interested in the individual water bowls in the stable and in the somewhat fashionable earrings which were worn by all the cows—a proof of their standing in an accredited herd. Trips like this are part of the prescribed course in Agriculture and they give the pupils a practical insight into agriculture which could not be obtained from textbooks.

## Watford Council Favors 4th Line Highway

As Route For Sarnia-London Provincial Highway—Interests of Urban Municipalities Between Border and London Given Consideration by Government—Fourth Line, the Logical Route, Would Serve and Satisfy All Interests—Strong Resolution Endorsed.

Council met in Library Board room on Monday evening for regular May meeting.

Present—Reeve Connolly, Councillors Hollingsworth, Doar, Saunders and Hawk.

The following resolution was moved by J. Doar, seconded by N. Hawk, and unanimously carried:

WHEREAS, the construction of a connecting link of pavement between the Northern Provincial Highway at Sarnia and the Southern Provincial Highway at London is being considered by the Provincial Government to amplify the present Provincial Road System, and whereas, there are various routes for such a connecting link, viz:—

- (a) From Sarnia to London via the Egremont Road (Sarnia Gravel).
  - (b) From Sarnia along the Sarnia Gravel to Wyoming sideroad, thence southerly along the sideroad to the Fourth Line at Wyoming; thence easterly along the Fourth Line through Wanstead and Watford to Stratroy; thence southeast along the Mt. Brydges Road through Mt. Brydges to strike the Southern Highway south of Deleware.
  - (c) As Route (b) to Stratroy, thence easterly along the Townline between Adelaide and Canadoc to strike the Sarnia Gravel at Hickory Corners, thence through Poplar Hill and Lyde Park to London.
- And Whereas, the first route would not touch a single urban centre between Sarnia and London; requires several miles more of pavement to connect the two highways and two substantial bridges with additional expense;

New Therefore, Be It Resolved, that this Council does hereby declare itself in favor of Route (B) for the following, among other reasons:

1. It would give an efficient local service as well as give an efficient tourist service.

2. It would serve every urban centre between the two cities, thus placing efficient accommodation to tourist traffic as well as serving local needs.

3. It would entail considerably less expense to connect the two highways, with a corresponding saving to the Province and the County.

By leaving the Sarnia Gravel still available as a first-class gravel road, it would increase the road service of the district by adding a new thorough road, instead of replacing an excellent gravel road with pavement.

Hawn—Hollingsworth, that the petition re water mains on St. Clair street be entertained and that Mr. Doar be appointed engineer to measure the frontage of the lands and figure up the approximate cost and the amounts to be charged to the owners of the lands fronting and abutting said street and report to Council.—Carried.

Mrs. Chambers solicited the Council for a share of the cement purchased during the year. The several commissioners promised her consideration on all future work.

Hawn—Saunders, that Messrs. Doar and Hollingsworth, be a Commission to meet with the interested parties to arrange for cleaning the drain through the Buchner and Brown property.—Carried.

Communication from Stratroy Hospital asking permission to place two Watford patients on the county list. The clerk was instructed to advise them that Lambton Co. has its own hospital service in Petrolia and Sarnia.

## ROBERT JAMES SAWYER

There passed away his great reward on Saturday, April 25th, 1925, Robert James Sawyer, aged 22 years. He was the eldest son of Arthur and Jimmie Sawyer of Brooke township. He died in Petrolia Hospital after suffering a severe illness of seven weeks. He was a member of the Johnston L.O.L. No. 831. Deceased leaves to mourn his loss besides his parents, his only sister, Mattie, and two brothers, Joseph and George. The funeral was held on Tuesday afternoon from the family residence, lot 1, con 13, Brooke township. The service at the home was conducted by Rev. H. Hagelstein, pastor of St. Andrew's Presbyterian church, 10th line, where Mr. Sawyer attended. The large attendance and the many beautiful floral tributes testified to the esteem in which the young man was held. He was loved by all who knew him, and he bore his illness with great patience, and his early taking away has cast a gloom over the whole community.

E. Freer, A. Freer, E. Fisher, S. Lucas, E. Higgins and S. Lucas, Orange brethren were pallbearers, and also carried the floral tributes. The service at the grave was conducted by Johnston L.O.L. No. 831, and Higsons L.O.L. No. 1029. Worshipful Master Stewart Gardner being in charge. Interment took place in Wyoming cemetery.

## KNOX CHURCH, WARWICK, VOTES AGAINST UNION

Knox Presbyterian Church, London road, Warwick Township, the country appointment of the Watford church, completed its voting on the question of entering the United Church on Monday evening, and by a majority of six decided to remain with the continuing Presbyterian church. The result was announced at a special meeting of the congregation that evening, at which the minister, Rev. H. V. Workman of Watford, presided. John Minnelly, the official returning officer, announced the figures as follows: Number qualified to vote, 97; total number of votes cast, 68; for union, 30; against union 38; majority against union, 8.

Robert McKenzie and C. E. Jones acted as scrutineers for the unionists and Kenneth Ross and James Thompson as scrutineers for the nonconcurring members.

Watford Presbyterian Church has already voted, by a large majority, in favor of union, so the adverse vote in Knox Church means the breaking apart of two churches which have been together under pastoral care for 75 years.

## ARKONA HAS GOOD DRAMATIC TALENT

"Three Pegs" Presented in the Lyceum on Monday Evening

A small but appreciative audience greeted the play "Three Pegs" staged Monday evening in the Lyceum by members of the Arkona Women's Institute under the auspices of Brooke W. I. The play was excellent, well staged and admirably presented. To choose between the players, as to cleverness in acting the several parts would be difficult. Mrs. Ed. Dickison as Miss Emily Weston, was the gracious well-bred lady itself, while Mrs. W. T. Walker as the aunt, contrary, inquisitive, meddlesome and superstitious, made a decided hit with the audience. Miss Barrie gave a very clever impersonation of the Italian woman, Mrs. Conti; Miss Wilkinson as Marguerite, the slangy but most amusing niece of Aunt Euphemia, Mrs. Woods as the spirited, kind-hearted and happy Peggy; and Mrs. Rouliston as the sweet delicate Madge, were the trio of Pegs, around whom the plot of the play was laid. Mrs. Utter admirably played the part of Mrs. Barclay, Miss Weston's friend, who discovers in Madge a long lost daughter. Miss McIntosh and Miss Lampman as the two Irish maids were delightfully real. In all, the play was very much superior to the general run of plays presented by amateurs.

## MISS DOREEN MILLAR WINS ELOCUTIONARY MEDAL

A fair-sized crowd in the Lyceum on Tuesday evening thoroughly enjoyed the addresses given by five young ladies in competition for the silver medal.

The following interesting program was presented:—

1. Introductory remarks by chairman—Reeve Connolly.
2. Instrumental duet—Misses Harper and Stevenson.
3. Contestant No. 1—Miss Alberta Lovell, "What the Bobolink Said."
4. Contestant No. 2—Miss Doreen Millar, "Nothing and Something."
5. Vocal solo—Miss Powell.
6. Contestant No. 3—Miss Florence Lovell, "A Little Child Shall Lead Them."
7. Contestant No. 4—Miss Reginae Stapleford, "The Pilot of The Plains" by Pauline Johnston.
8. Instrumental duet—Miss Connolly and Miss Rogers.
9. Contestant No. 5—Miss Jean Rapson, "The Little Cup Bearer."
10. Selection by Orchestra.
11. The Wand Drill by young ladies of the High School.
12. Report collection.
13. Review of the judges and presentation of Medal by Mrs. S. J. Thompson.
14. National Anthem.
15. The Judges reported that Miss Doreen Millar had won the medal.

Miss Reid, Rev. Workman and Principal Doolittle were the Judges and their decision was unanimous. All of the fair young contestants acquitted themselves with great credit. The musical members were much appreciated, receiving hearty applause.

**SHORT LESSONS IN  
LAWN TENNIS**  
by  
Captain R. Innes-Taylor  
(Copyrighted 1925)

(Continued from last week)

**5. Two Fundamentals.**  
The two most cardinal points to start with in lawn tennis are: (1) Keep your eye on the ball. (2) Keep away from the ball. You cannot play tennis well unless you do these two things. Seventy-five percent of the faulty strokes are due to the eye leaving the ball before the moment of impact. You should make up your mind some considerable time before the ball is struck where you intend to put it. If you look up to see where your opponent is just before you strike the ball or during the second or two of this action you will probably make a poor return.

It is obvious also that if you allow the ball to get too close to you that your stroke is bound to be cramped. It is imperative that you give your playing arm lots of room and hold it well away from your side. It is better to step forward to make your shot as you then get the full force not only of your arm, but also your body swing. If you have to step back it is much harder to rely too much on your wrist. Plan your position so that you will have to bend forward and step forward to meet the ball instead of having to run back to overtake it.

**6. The Backhand Grip.**  
There had always been a certain amount of controversy regarding change of grip for the forehand and backhand strokes. The great majority of players, however, favor a slight shift of the grip, including Tilden and Johnston. It is advisable to shift the grip about one quarter of the circumference of the racket handle and allow the thumb to run partly or straight up the employment of the same grip for forehand and backhand, although several very fine players have used it including Norman Brookes, and in former days, the Baddeley brothers and J. C. Parke.

The grip should always be firm at the moment of impact. This is imperative. Some experts recommend a loose grip between strokes. This I consider inadvisable as the racket has a tendency to turn slightly in the hand and one does not always get it in the proper position for making the next stroke. Slack the grip but don't loosen it. The only slack in which the racket should be loosened is the stop volley—the racket being held loosely in position for the ball to hit so that it will bound over the net from it.

**7. Accuracy.**  
Before I take up the different strokes of lawn tennis, let me warn not only the players who are starting to learn, but those who wish to improve their game, to bear in mind that speed without accuracy is useless. Accuracy in returns is the basic foundation of all great players' games.

A satisfactory way to become accurate in your placing is to practice hitting the ball into certain spots on the court. The greatest woman player of today, Suzanne Lenglen, mastered her game in this fashion. Her father used to divide the court into squares and make his daughter play for certain squares from all parts of the court. Thus she learned to place the ball in any desired position and her wonderful game is founded more on this accuracy of her returns than on their speed.

Do not try to skim the net too close. A good forehand drive may go 18 inches above the net yet be a satisfactory length return. A slow full length ball is harder to handle than a faster one of poor length.

If you cannot mark out a court of your own, like Suzanne Lenglen, you may at least have a young brother or sister, who will knock up with you, and give you easy shots to practice on. Much may thus be gained by playing with a weaker player than your-

self, provided you do not slacken in your own efforts as a result of not being pressed to win points.

**8. Don't Fress.**  
The service may be considered the most important stroke of all in tennis in that every point is started with it. In gold the word pressing is used when a player is trying to put too much force into a shot, transferring a controllably safe shot into a wild one. The same can be applied to a tennis player, who endeavors to send his first service over, giving it every ounce of energy he possesses, and with so much extra speed that he cannot control it so that only a small percentage goes into court.

This is the most noticeable error of 90 out of 100 players. The result is disastrous. You tire yourself out unnecessarily—and your opponent who knows your first service will hardly ever be good, sets himself comfortably for your second service, which nine times out of ten if a "sitter" as the man who serves fast faults on his first delivery, generally has a weak second service.

Therefore, the first, and most important thing in service, is to develop a consistent one, which can be relied on to go over the net and fall into the service court. Try to even up the pace of your two services and don't press. Remember weak second service has been the downfall of many an otherwise good player.

**9. The Service (Continued)**  
The best place to put your service is as near the service line or as far back from the net as possible. Such a service sent over gives you more time to get into position for your opponent's return and also prevents the troublesome cross court return.

The Japanese star, Shimizu, has a seemingly slow service for a first class player, but he places it well and sends it into different spots of the court and well back; consequently even such a wonderful player as Tilden is unable to kill it. I mention this to emphasize that a service to be effective does not need to have tremendous speed.

Morris McLaughlin, the American comet, built up his game on a terrific twist service, and neglected his ground strokes. The tremendous effort employed to deliver this service eventually told on his arm and now he is not even considered a first rank player. When Wilding solved the problem of returning McLaughlin's service in one world's championship at Wimbledon, McLaughlin had nothing to fall back on, as his ground strokes were weak. Still the very fact that McLaughlin had won the American championship largely on his service, illustrates the vital importance of the stroke.

**10. The Service (Continued)**  
The best and easiest service to learn is the straight twist service. Hold the racket with the grip advocated in previous article. Throw the ball up fairly high so that if you let it drop it will pass within a few inches of your left cheek. Strike the ball at the top of the swing when the racket is doing its maximum work, and also strike it at the highest possible point. Keep your eye on the ball until it is struck. As you throw the ball into the air swing your racket up and backward and be sure to follow through with it.

Bend your body to the left and slightly back, weight more on the right leg to start with transferring it gradually to the left during the follow through. At moment of impact hold the racket quite firmly. Mark the spot you wish to serve into before you throw up the ball. You must keep your eye on the ball until after it has been hit.

The knee should be bent, the right shoulder coming down during the follow through. Remember the follow through must be part of the stroke and carried right to the end. The head of the racket will be past the left knee at the finish of the stroke.

### International Council of Women

In connection with the Quinquennial Conference in Washington, May 4th to 14th, sixty-five delegates from Great Britain and Europe of the above organization sailed on the Canadian Pacific S.S. Montclair from Liverpool this month. Delegates from South Africa, New Zealand and Australia are also included. Among those from Great Britain are Lady Trustram Eve, Lady Salvesen, Lady Nott Bower, Lady Adam Smith, Lady Egerton and Mrs. George Cadbury.

The French delegates sailed about the same time on the Canadian Pacific S.S. Marburn from Cherbourg and are shown in the photograph from left to right, standing: Mme Heimann Founder of the French Association for

Blinded Soldiers; Mme Odette Arnaud, the well known painter and Mme Annette Fougeirol of the transmigration service of emigration. From left to right, sitting: Mme Emilie Fougeirol, Mme Lucienne Bernheim, Mme Pichon-Landry; Mme Avril de Sainte Croix, President of the French Association, Member of the Legion of Honour, and delegate to the League of Nations; Mme Legrand, widow of the well-known French general; and Mme Evard, Chevalier of the Legion of Honour and General Inspector of Public Instruction.

These ladies will be given official reception in Canada and will visit Quebec, Montreal, Ottawa, Toronto, Hamilton and Niagara Falls as guests of the Local Councils prior to attending the conference in Washington.

### Cleans Like China

When you use SMP Enamelled Ware Utensils, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

County Roads—The report of advisory committee compiled after a trip over the county road system was received and the estimated expenditures and the designation of the roads on which the outlays were to be made this year was the business before the Lambton county council at a special session here on Thursday and Friday. The estimated outlay for the year totals \$156,000 of which \$80,000 will be raised by the levy of rates and \$76,000 is made up from subsidies for last year's work. War-

Requisite on the Farm—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

### "As indispensable as the Telephone"

"As indispensable as the Telephone" is now a favourite slogan used by many large manufacturers in their advertising, when describing their goods.

A frank recognition that speed of communication is the most vital factor in expanding business and social life.

Indeed, a firm's position in the business world may be fairly judged by the extent to which it uses the telephone—and especially Long Distance.

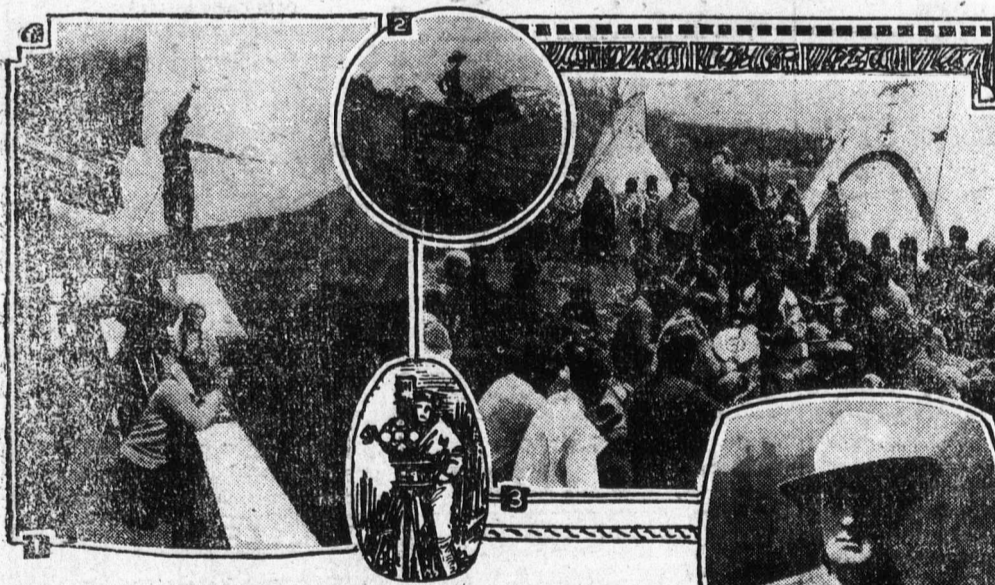

We now handle an average of over 41,000 Long Distance calls a day.

Costs a family less than 2% of its annual outlay.

den Hackett presided at the special session.

### Movie-Making in Canadian Rockies

1—Directing an Alaskan drama in Alberta. 2—A Northern villain hiding in the Rockies. 3—A scene from "The Alaskan" featuring Thomas Meighan and screened near Banff. 4—Thomas Meighan.

While it may be true that in the making of moving pictures Canada lags a trifle behind the United States, there is at least one particular in which American producers are becoming more and more dependant upon the Dominion for the proper production of their super-films. And that particular is—scenery.

They may have their stars, their mechanical contrivances, their experience and their wealth, but during the past few years they have learned that for sheer beauty of scenery and splendor of "settings", the Canadian Pacific Rocky Mountains are unsurpassable. That this discovery was made at all is due mainly to one, Mr. Ernest Shipman.

Two or three years ago it occurred to Mr. Shipman (who has produced some notable pictures in his time) that there were certain spots in the Rocky Mountains, such as Banff, Lake Louise, Emerald Lake and their environs, which were, on account of their singular beauty, admirably adapted to the production of Northern dramas.

So he marshalled his forces, placed his beloved megaphone securely under his arms and embarked, via the Canadian Pacific Railway, for the Rocky Mountains.

Here, with Henry MacRae directing, he proceeded to film "The Foreigner" near the shores of Lake Louise, with the magnificent mountains for a background, and, for a stage, one of the most exquisite spots on earth. The result was that not only did he produce a splendid picture but that the Rockies sprang into instant popularity as a setting for northern dramas.

Since then scores of other "super-films" have been produced and many villains have paid the penalty of their foul deeds, many modest maidens have yielded to the wooing of strong, silent men; many dauntless heroes have faced the homeless terrors of the Alaskan wilds, on the peaceful shores of Emerald Lake and the innocent highway between Banff and Windermere.

Among the most notable pictures screened entirely or in part, with the Rockies for a background, are "Back to God's Country", "The River's End", "The Alaskan", "Empty Hands", "The Sky Pilot", "Glen-garry School-days", "The Man From Glen-garry", "The Valley of Silent Men", "Frivolous Sal", "Strongheart" and "The Foreigner".

The chances are, then, that when you sit in your favorite movie house and gaze in silent admiration on the forbidding beauty of Alaska, the hills of Shasta or the still Sierras, you are, in reality, gazing at something far nearer home, not nearly so forbidding and infinitely more beautiful—the Rocky Mountains themselves.

So, America may have her Hollywood and her monopoly of the industry, but now that the value of the Rockies as a place where people may shoot the rapids, kill each other, make love, win fortunes and indulge in the other pleasant pastimes peculiar to moviedom, has been realized, it is to be hoped that Canada's position in the realm of the silent drama will shortly become more prominent than it has been in the past.

The Rockies are now easily accessible, there are Canadian Pacific hotels at some of the most attractive points, the light, atmosphere and other conditions are good, and there is no reason in the world why they should not eventually become a veritable "Hollywood of the Hills."

### AUTO ACCIDENT ON LONDON HIGHWAY PROVES FATAL

John Berdan, of Warwick, is Dead; James Gavigan Has Two Broken Ribs.

Both Men Were Pinned Under Wreckage Eight Miles From Sarnia

John Berdan, 47, of Warwick village is dead and James Gavigan also of Warwick, is in the Sarnia general hospital with two broken ribs as the result of an automobile accident on the Sarnia-London highway, eight miles east of Sarnia on Saturday evening. The car, which was driven by Berdan turned over twice on the road, the two men being pinned beneath it. Dr. T. P. Bradley has decided that no inquest is necessary.

The two men were returning to Warwick from the city early in the evening. They were proceeding at from 25 to 35 miles an hour and sought to turn out of a gravel rut. Apparently the car could not hold its momentum with the turn of the wheel and turned over twice.

Skull Fractured  
Berdan was rendered unconscious and two men were brought to the Sarnia general hospital, being admitted about 8 o'clock. Berdan died on Sunday morning from fracture of the skull and Gavigan is reported to be resting comfortably.

Berdan was a married man and his widow survives. The funeral was held from his late residence, London road, Tuesday, and was largely attended. The services were conducted by Rev. A. Roy Johnston, of the Methodist church, Warwick village. The two brothers of the deceased, Colin, of Blackwell, and Gibb, of Petrolia, attended the funeral, as did also two of the sisters, Mrs. Mercea Mars, of Southwold, and Mrs. Robt. Capes of Brooke township. The other sisters

### Warwick Court of Revision

The Court of Revision for the Township of Warwick will be held in the Town Hall, Warwick Village, on Friday, May 29th, 1925, at ten o'clock a.m., to hear and decide any complaints against the assessment of the township. Interested parties please take notice.

### Breed to Walter 2nd, 2.05 1/4

The best bred pacing stallion in Canada sired by Walter Direct 2.05 1/4. The leading sire of the world of 2.05 pacers and stands second to Peter the Great for 2.10 production.

Sire of Napoleon Direct 1.59 1/4 Grace Direct 2.00 1/2 La Paloma 2.01 1/4 and 10 others in the 2.05 list.

Grace Direct being the world's champion pacing mare over half mile track in 2.02. Walter 2nd 2.05 1/4, is the only horse in Canada that is bred from blood lines of production, that has produced better than two minutes speed on both his sire and dam's side in the first generation. As his sire, Walter Direct 2.05 1/4 produced Napoleon Direct 1.59 1/4; his dam Erma Hall being by Brown Hall 2.12 1/4 who produced Star Pointer 1.59 1/4. The Direct-Hall cross is today the greatest strain of pacing bred in the world.

Walter 2nd, 2.05 1/4 was bred by The W. M. Tully Stock Farm, Columbia, Tenn., foaled 1913, stands 16 hands and weighs 1175 lbs., dark brown in color and a perfect disposition. Has a race record of 2.05 1/4, trial of 2.03, half in 53 1/2 seconds. A free legged pacer, wears nothing but his harness, and a horse that Mr. E. T. Gurs gave his record and regarded him as being perfect in gait, had a world of speed, and was game, what more could a great man say about a horse. And as Walter 2nd 2.05 1/4 has already demonstrated himself as a sire with three year olds in the 2.10 list, only make it more certain that you cannot afford to let the opportunity go by of breeding to Walter 2nd at the very reasonable service fee of \$25.00 payable by cash or note at time of service to insure a standing foal, with return privileges with same or other mare until standing foal is obtained.

**The Easiest Riding Car is a Ford H & D Equipped**

"A Necessity with Balloons"

There is no accessory for the Ford Car that compares with H & D's. They give delightful riding—no bumps, jolts or sideway. They save the springs, the tires and the engine.

H & D's are a necessity with balloon tires. "Balloons" are not a substitute for shock absorbers—they are too "bouncy" on rough roads. But balloons and H & D's are the last word in easy riding.

The Vibragraph (a machine for registering vibrations) has demonstrated that a Ford equipped with H & D's is the easiest riding car on the market.

**NEW STRENGTH FOR WEAK GIRLS**

Can be Had Through the Rich, Red Blood Made by Dr. Williams' Pink Pills.

There comes a time in the life of almost every girl when weakness attacks her. The strain upon her blood supply is too great, and there comes headaches and backaches, loss of appetite, attacks of dizziness, heart palpitation, a constant weariness and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And the very best treatment is through the blood-making tonic qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

Here is a bit of strong proof:—Miss Matilda Breen, King Highway, Newcastle, N.B., says:—"I was in an extremely run-down and nervous condition. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact my condition can best be described as miserable. I had tried several treatments but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a hearty appetite. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"How do you always manage to have such delicious meats?" asked one housekeeper of another.

"Well, I select a good honest butcher, and then stand by him."

**ALVINSTON**

The regular meeting of the Y.P.S. was held in the parish hall on Monday evening with a large number present. The meeting opened with devotional exercises and at the conclusion of business part of the meeting a very enjoyable program was given under the direction of the president, Mary Livingston. Robert McLean favored the audience with a saxophone solo, after which Robert Morrison gave a vocal selection which was very much enjoyed. Mrs. Secord played an instrumental and Rev. W. A. Monteth gave a short talk on the importance of young peoples work in the church, which was very interesting and helpful. A contest was held, after which lunch was served and a social hour spent.

The Y.P.S. of the continuing Presbyterian church was held in the church basement on Monday evening. A program consisting of papers on "Fame" by Jeremiah Oke and on "Bishop Stringer's work in Alaska" by Rev. W. A. Whelan, piano selections by Mrs. B. Miller, solos by Misses Clark and Porman. A contest was then held after which lunch was served.

At a regular meeting of the Alvinston Athletic Society in the council chambers on Monday night, it was decided to hold a Victoria Day celebration. It is also the opening game of the O.E.A. when Sarnia meets Alvinston in the latter place. An addition to the ball games there will be a calithumpian parade, caledonian games, races and horse races. The election of officers then took place as follows: hon. pres., D. C. McEachern; president, Dr. E. C. Axford; vice presidents, S. Williams and Jos. Grooms; secretary, Dr. A. M. Bayne; treasurer, Ross McRoberts.

The death occurred in Oregon, Wis., of a former resident of this place in the person of Mrs. Elizabeth Pellow, in her 88th year. Deceased lived here practically all her life on a farm eight miles south of this place, later moving to Oregon to make her home with her brother, the late James Wallis. She is survived by two sisters, Jennie of California, Mrs. Byron Brookefield, of Niagara Falls, and one brother, Ed. of Niagara Falls.

**FACTS ABOUT TEA SERIES—No. 6**

**Appearance of Tea No Guide**

The only way to test tea is to taste it. Many people have the idea that a finely rolled and tippy tea is superior in flavour to a large rough leaf. In reality this is not of necessity the case. The altitude at which the tea plant grows determines the amount of essential oil and alkaloid theine in the leaf. The essential oil gives tea its flavour; the theine contributes the stimulating value. The only way to insure always receiving a uniform quality is to insist upon a skillfully blended and scientifically sealed tea like "SALADA" whose reliability, goodness and delicious flavour have become a household word.

HAVING entered our herd in the "Accredited Herd Plan" we are now in a position to give you milk free from tuberculosis or disease of any kind. Our first Government test being free from re-actors, we were not obliged to stamp out tuberculosis by disinfecting, etc. We have the only herd supplying milk in Watford in the "Accredited Herd Plan" that had no re-actors. We were the first to revive the sanitary system, install a Lister milk cooler, and also the first to start twice a day service in 1925, and reduce the price to 8c. We have waterworks installed in both barn and pasture fields. Why take a chance on taking tubercular milk when we can supply you with tubercular free milk for the same price.—M. E. BUCHNER, phone 83-r3.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble for in the majority of cases these mixtures simply drug the child into unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. Toussaint, Ste. Sophie, Que., writes:—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

C. N. R. TO RE-BALLAST 200 MILES OF TRACK

Double Track From Here to Niagara Falls to Get Attention

Rail ballast will be laid out over 200 miles of track on the London division of the Canadian National Railways this summer, requiring 150 extra men who will be taken on at different points in the division. The double track main line of the C.N.R. from Sarnia to Niagara Falls and the single track connecting link between Windsor and Sarnia lines from Glencoe and Komoka are to be completely re-ballasted. The work will require extra gangs, totalling 150 men for the greater part of the summer and a part of this extra force will be employed until the end of September.

Extra Workmen Extra working trains and crews will be required for three or four weeks to bring the supplies of gravel from the divisional gravel pit at Paris Junction. Three crews have been shipping out gravel from the Paris Junction pit since April 1st for this work. Ballasting will be kept up over the other lines of the division in order to keep the track in first-class shape but there will be no wholesale ballasting program such as will be carried out on the Sarnia to Niagara Falls double track line.

JAMES BURNS' TRIAL IN PETROLIA ON TUESDAY

Charged with Furious Driving of Motor on Petrolia Main st. and Fatally Injuring 9-year-old Lad

Magistrate Woodrow Fixes Bail at \$10,000.

An adjournment to May 12th at Petrolia was made and the accused was released on \$10,000 bail when James Burns, 18, of Detroit, was arraigned before Magistrate Woodrow in county police court in Sarnia on Monday afternoon on a charge of criminal negligence in connection with the death at Petrolia of John Henry Bunyan, 9 year old son of Mr. and Mrs. Harry Bunyan of that town. The boy died on Sunday of injuries received on Saturday night when he was struck and run over by an automobile said to have been driven by Burns.

Burns was represented by W. S. Haney, M.L.A., when he appeared in court. No plea or election was made but the court was asked to accept bail. The sum of \$10,000 was fixed as the requisite amount and three sureties were offered; Stanley Sisson, Enniskillen, in the sum of \$4,000; Archibald A. Fisher, of Brooke, in the sum of \$4,000 and William Burns of Sarnia in the sum of \$2,000. The date for the hearing was settled as May 12th with a change of venue to Petrolia.

Defence counsel asked about the disposition of the automobile in the meantime and the court directed that it be retained in the custody of the court. The defendant was also advised that he would be required to attend the inquest at Petrolia on Thursday.

The charge preferred against Burns yesterday set out specifically that "at the town of Petrolia being in charge of an automobile by wanton or furious driving, or wilful misconduct and neglect he did bodily harm to Henry Bunyan."

The car which struck the lad failed to stop. Spectators said it went through the street at a speed of about 35 miles an hour and immediately after striking the boy, who was crossing the street, the driver turned off the lights of his car and sped away.

He was arrested by high county constable R. J. Whiting of this city at the farm of his grandparents, Mr. and Mrs. Angus Fisher, Brooke township, on Sunday afternoon about 1.30 p.m.

High County Constable Whiting of this city had, following information received from Constable Landon of Petrolia traced the Burns car, a Studebaker touring as entering the Sarnia ferry dock on Saturday afternoon. The two officers proceeded to the Fisher farm. Young Burns was away but they awaited his return and arrested him.

Leonard Willoughby, 20, of Enniskillen township who is said to have been in the car with Burns when the accident occurred, was held, but was allowed to return last night, Eugene Watt of Enniskillen was also in the car. Constable Whiting states. The officer alleges that the car, after the accident, proceeded west to the town-line of Enniskillen, then north and east to the Brooke town-line, over the 10th line and back into Petrolia where Watt's car was parked.
