The copy filmed here has been reproduced thanks to the generosity of:
The Nova Scotia
Legislative Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:
The Nova Scotia
Legislative Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The Canada has, in the past 23 years, paid \$700,000 for death claims, and has never Contested one.

In Life Assurance, why hesitate to provide against that which must occur, sooner or later?

25 CENTS A DAY

be better laid out than this?

At **30 years of age** an Endowment Policy of **\$3000**, payable at **60** or death, with profits, would be secured by an annual payment of **\$92.70**, or say

25 CENTS A DAY.

At **35 years of age** **\$93.40** per annum, or but a trifle more than

25 CENTS A DAY

for **10 years only**, will secure to your heirs **\$2000** and profits, at death or a payment of **\$102.80** per annum during life will secure a Policy of **\$4000**, payable, with additions from profits, whenever death take place.

When **40 years of age** a Policy of **\$2000** and accumulation from profits, may still be had for

25 CENTS A DAY.

Five years later and at **45** a premium of **\$103.80**, or a Dollar a month more than

25 CENTS A DAY,

Can you not spare 25 cents daily?

Will you?
