NEW HOSPITAL OPENED BY SIR JOHN GIBSON IS FINEST IN AMERICA

Impressive Addresses by Clergy, Philanthropists and Civic Dignitaries Mark Formal Opening of New \$3,500,000 Structure—Chairman Flavelle Eulogizes Donors Whose Generosity Made Its Construction Possible.

The great wide doors of the new general hospital, swinging back upon their hinges yesterday afternoon, flung out as it were to the sick and suffering ones of the city's multitude, two great arms of mercy and welcome. A call was there, beckoning those maimed or stricken by the stroke of accident or disease into the long clean corridors where science and sympathy working hand in hand, sought remedies for every ill. The ceremony of the formal opening was complete. At the conclusion of a series of addresses, the host assembled in long processions, and wandered thru the structure to gaze and marvel at conveniences and appointments infinite in variety, and yet simple and efficient in operation.

The sun had struggled feebly all afternoon against a misty atmosphere, but flashed forth bravely when the huge golden key in the hands of Lieutenant-Governor Sir John Gibson clicked. The interest of the crowd was then pitched to a keen appreciation of the significance of the great institution to Toronto, and applause followed the references made to the self-sacrifices of either of artisan or capitalist, which had made it possible.

A bird's eye view of the occasion showed a riot of color in the gowning of the women and the gaily colored parasols. Rimmed about like a forest of trees stood an array of silk hats, and crowded in the rear a host of small children and passing pedestrians listless with marked attention.

The platform was reserved largely for speakers and representative men, and a state of the faces would show that practically every one who mounted the steps was connected either by name or personally with movements of a humanitarian character.

Dr. Garman of the Methodist Church, Father Kidd, Bishop Revo and Moderator Murdoch Mackenzie united in adding a spiritual blessing to the ceremony.

Sir John Gibson, lieutenant-governor, in speaking to the occasion, greatly commended the absence of the governor-general, particularly because it was in just such institutions that the royal family had long been interested. Everything which in its nature was designed for the relief of mankind, and in mercy and benevolence had received the hearty support of royalty since the time of good Queen Victoria.

OPENING THE NEW GENERAL HOSPITAL

Sir James Whitney, prime minister of the Province of Ontario, making an important announcement from the platform at the new hospital.

COMMISSION TO INVESTIGATE ONTARIO MEDICAL EDUCATION

Sir James Whitney Made the Announcement That the Government Has Decided to Conduct an Investigation Covering the Preparation For and Practice of Medicine.

"The Ontario Government has decided to appoint a commission to investigate the whole subject of medical education and the practice of medicine in the province."

Such was the important announcement made by Sir James Whitney at the opening of the General Hospital yesterday afternoon. He said the commission would be endowed with comprehensive powers of investigation into all branches of medical work and its recommendations will be carefully weighed, approved and become incorporated in the statutes.

The announcement of this new move came in the nature of a surprise to the assembly. Some hint of it was forthcoming, however, earlier in the year when the optometrist interests waited upon the premier and his colleagues. Sir James referred to the numerous deputations coming yearly to the government and seeking support, either for continuance or founding various schools for medical thought.

The Best Solution. "It is always obviously difficult to deal with matters of this description," he said, "and the best solution was the appointment of a commission whose duty would be to acquire information under which every possible, imaginable education could be regulated, governed and controlled in the people's interest."

The powers of the new commission he announced as very significant. They include the rights and bylaws of the Medical Academy and of all universities, colleges and schools in Ontario and the teaching therein. Osteopathy, dentistry, nursing, optician, Christian Scientists and members of any other sect were also comprised.

"By the time the commissioners deal with these," said the premier, "they will be of so great and lasting a value that we shall not from year to year be bothered with points in the great question."

QUEEN OF SPAIN HAS ANOTHER SON

MADRID, June 19.—(Can. Press.)—Queen Victoria of Spain gave birth to a son tonight. This is the sixth child born to Queen Victoria, the fourth being stillborn. King Alfonso and Victoria Empress, Princess of Battenberg, were married May 31, 1906.

HE TOOK POISON WEDDING IS OFF

Fred Webster Sorry He Deceived Young Woman by Posing as a Millionaire.

Because he did not want to be married last Wednesday, Frederick Webster, aged 24, went to Riverdale Park on Monday and drank a large quantity of picture developing fluid. He did not intend to commit suicide. He counted on being so ill on Wednesday that the ceremony would have to be postponed. And he was right. Webster was so sick that last night he was removed to the General Hospital, and may die as a result of his rash act.

Webster had been keeping company with a young woman in Toronto for some months. It seems that he represented himself to be an heir, and a very rich man at that. The two became engaged and the date for the wedding was set as last Wednesday. As the time approached Webster realized the great injury he was doing the girl in allowing her to believe that he was a moneyed man. He sought some manner in which to delay the wedding until he had sufficient courage either to explain to her that he was poor or to quietly leave town.

ELEVEN KILLED IN A COLLISION

Electric Cars Crash Together Near Vallejo, Cal.—Many Persons Injured.

VALLEJO, Cal., June 19.—(Can. Press.)—Ten adults and one child met death in a collision of interurban trains on the San Francisco, Napa and Calistoga electric line, near here, today. The number of injured is still a matter of doubt, but probably will exceed 25. A mistaken order brought the cars head-on together.

JAPS BECOMING RESIGNED

TOKIO, June 19.—(Can. Press.)—An anti-American mass meeting held here tonight was attended by not more than 400 persons. These were chiefly workmen, idlers and agitators. The speeches were of a comparatively mild order.

HOUSE ACQUITS TWO MINISTERS ON CHARGE OF CORRUPT DEALINGS BUT REGRETS LATE EXPLANATIONS

Party Lines Drawn in Vote on Motion Which Gives Luke-warm Vindication, Thereby Closing Unpleasant Marconi Incident—Leaders on Both Sides Participate in Solemn Debate.

LONDON, June 19.—(Can. Press.)—That this house, after hearing statement of the attorney-general and the chancellor of the exchequer in reference to their purchases of shares in the Marconi Company of America, accepts their expressions of regret that such purchases were made, and that they were not mentioned in the debate of Oct. 11 last, and acquits them of acting otherwise than in good faith, and reproaches the charges of corruption against the ministers, which have been proved to be absolutely false.

The subdued light thru the stained windows descended upon solid rows of silk-hatted, black-coated, white-spatted gentlemen, evidently upon their best behavior, and determined to live up to the highest traditions of the house.

There were other speakers, and some skirmishes occurred, but none of the fireworks which Chancellor Lloyd-George and Lord Robert Cecil furnished yesterday. Even the members on the Irish benches, who usually can be depended upon to produce excitement, seemed strangely dispassionate. None of the old party skeletons were dragged from the closets as had been threatened. Both sides hesitated to begin mud-throwing, partly because the newspapers had warned them that the country did not want such a spectacle, partly because they were uncertain which side would emerge from the fray most spattered.

The speeches of the prime minister and the secretary for foreign affairs gave the impression that the advocates were not enthusiastic over their clients. Mr. Balfour and Mr. Asquith had the appearance of performing a disagreeable duty.

A Party Vote. The vote on Sir William Adkins' amendment was strictly on party lines, the Laborites and Nationalists supporting the government, although a few Liberals and Laborites abstained from voting. Afterward the house adopted it as a substitute for the resolution introduced yesterday by George Cave in behalf of the opposition without division.

Asquith Deprecates Attack. Mr. Asquith, who spoke with evident emotion, said he had never risen with greater reluctance to address the house of commons or under a stronger sense of personal responsibility. He agreed that the cabinet ministers would have been better advised so to have told the whole story in October, during the debate on the Marconi contracts. At the same time, however, he did not hesitate to say that the terms of the motion introduced by the opposition were not only inadequate but in the highest degree ungenerous.

The premier submitted that the two cabinet ministers had broken no rule of obligation, but had failed to observe a rule of prudence. He had, he said, never heard a fuller, franker or more manly explanation than theirs. He continued: "The ministers concerned have suffered for an error of judgment a penalty quite as heavy as ever visited such an error under similar circumstances."

HYDRO TROUBLES FROM FAULTY INSULATORS

Chief Engineer Gaby Refutes Statement That Second Power Interruption Was Result of Malicious Injury and Declares That Thorough Inspection Will Be Made.

For five hours yesterday the hydro-electric system was crippled. The cause was similar to that of a few days ago, when the power was off for six hours. Several broken insulators were discovered on the transmission line between Niagara Falls and Dundas. The first break occurred at 10.42, and three hours had passed before the defective insulators were found and repaired. The current was then switched on, but it died again at 2 o'clock, more broken insulators having been the cause. The second interruption lasted from 2 to 4 o'clock. Meanwhile, the manufacturing plants and lighting systems in a number of Ontario cities, towns and villages were out of commission. The friends of the hydro-electric system grumbled. The enemies of public ownership were overjoyed.

No Dirty Work. There is considerable mystery regarding the interruptions. The fact that there have been two breaks since Monday from the same cause, has been sufficient to arouse a certain amount of speculation. Some have suggested malicious injury or dirty work. However, Chief Engineer F. A. Gaby discounts this.

"Nobody has been tampering with the service," he told The World, "with respect to a statement in an evening paper. 'The whole thing is a series of unaccountable circumstances. We could not foresee these accidents. We never dreamt of them. We have found out something about the material in the insulators that the manufacturers never knew. The hydro-electric is the pioneer of using this type of insulators on high tension transmission lines. As a result of finding out the trouble, you may be sure that every insulator on the line will be remedied and atmospheric conditions of anything else will not then interfere with the service.'"

Inspect Whole Line. "No time was lost in patrolling the line for the seat of the trouble. 200 men were sent out from the different stations. Mr. Gaby left Toronto immediately after the power went off. There was some little difficulty in finding the defective insulators, but they did not take long to repair them. It was, however, very discouraging when the second interruption occurred."

"It simply means that we will have to go over the whole line and inspect it thoroughly," said Mr. Gaby. "There may be more insulators that may be gone, and then again there may be none, but we must make sure. True, we have been very fortunate since the system was inaugurated, but that does not mean that there is going to be any

Plans For Imperial Squadron Temporarily Laid Aside, He Intimates in House.

LONDON, June 19.—(C. A. P.)—The Malaya, the battleship which Hon. Winston Churchill proposed last March should, in conjunction with Canadian dreadnoughts, go towards the formation of an "imperial squadron," was the subject of a question in the commons today, when Sir John Hoes enquired of the first lord what he intended to do with it. Mr. Churchill made the significant reply that the plan which he foreshadowed in introducing the navy estimates involved the employment of the Malaya in conjunction with any ships which Canada might present.

The developments which have taken place as regards the latter make it undesirable at present to elaborate this suggestion, so the Malaya will not be completed until 1915. The matter can well remain in abeyance," he added.

WITH GOLDEN KEY, SIR J. GIBSON OPENS DOORS OF NEW HOSPITAL

Impressive Addresses Mark Formal Opening of New \$3,500,000 Structure, Which Is Best Equipped and Most Modern on Continent of America.

Continued From Page 1.

of splendid buildings devoted to the service of the afflicted.

"Nothing so unmergingly denotes the character of a community as the treatment which is given the suffering and the helpless.

"When material prosperity is not reflected in ample provision for the indigent sick, it becomes a reproach to a city, one, I am glad to say, from which our city is free.

"While we look on this noble pile as the embodiment of the civic spirit of Toronto, we do not overlook the obligation under which we rest to you, Mr. Chairman, and to your associates on the board of trustees. Only yourselves know the difficulties you have overcome, the anxieties you have suffered, and the weight of the burden you have carried during the years covered by this undertaking. Not the least of the things for which you are to be commended is the courage displayed in so greatly exceeding your original estimate, and thereby giving to the citizens an example of thoroughness that I trust will be followed in other large undertakings. Your task would have been much lighter had your vision been more restricted, but you have preferred to make your work more onerous in order to secure your object in a more comprehensive way.

Two Benefactors.
"It seems to me an appropriate thing at this time," the mayor continued, "which we are brought together for the purpose of celebrating the opening of this house of mercy to make a brief reference to the services rendered by two of our most prominent citizens in connection with sister institutions. Adjoining this magnificent group of buildings we have that most beautiful of all our civic charities, the Hospital for Sick Children. It stands as a monument to the kindness of heart and sympathy for suffering childhood, as well as for exceeding generosity, of Mr. J. Ross Robertson. His financial contributions have been such as to give the institution which he has established and so largely maintained an international reputation. It is a monumental appeal to the people of our city on behalf of the little ones, which could not have been created and extended but for the devoted exertions of a man whose heart responds to the needs of the suffering children, and I wish today to express on behalf of the citizens, their profound sense of gratitude to Mr. Robertson.

"I desire also to say how deeply grateful the people of the city are to Mr. W. J. Gage, who has at such cost of time and means established the National Sanitarium Association. The institutions which we opened at West-

on a few weeks ago, coupled with the other hospitals erected under the auspices of that organization, are among the most necessary and most valuable of all our institutions for the care of the sick and afflicted."

Cost Greatly Increased.
After stating briefly the history of the hospital since the first building was constructed in 1818, J. W. Flavelle, chairman of the board of trustees, spoke about the work of financing and constructing the present great building. The original plans of the board would have entailed an expenditure of about \$2,900,000, but owing to the enlarged capacity, the increased size of the site, the addition of an emergency hospital and the higher cost of all material and labor, as compared with 1904 when the first estimate was made, the total expenditure amounted to \$3,450,000.

This enterprise has been notable for the public spirit displayed by the citizens of Toronto in the character of the support given," he said. "Mr. Cavignac, M.L.C., early established a new standard of liberality in this city by his offer of \$100,000 for an out-patient building. The trustees of the Masses estate later gave a similar sum. Senator Cox and his family and two intimate personal friends have borne the cost of the nurses' home, and have presented it to the trustees as a memorial to Margaret Cox. Mr. J. C. Eaton established a fitting memorial to the memory of his father in bearing the cost (exceeding \$300,000) of the building containing the surgical wards of the hospital, as well as the complete equipment for the operating theatres, and more recently has subscribed a further sum of \$50,000 to help the trustees with the general building fund.

From a Friend.
"An anonymous giver has subscribed \$300,000 toward the general building fund. Two maiden ladies—Miss Agnes and Miss Jane Snelid—now deceased, thru the good offices of Dr. N. A. Powell, became interested in the hospital and after making minor gifts to other institutions left the entire balance of their estate (estimated to have a value of between \$100,000 and \$140,000) to the trustees of the hospital for the erection, equipment and maintenance of an emergency hospital as a memorial to their brother, John Shields. The equipment includes an automobile ambulance service. The trustees have received several subscriptions of \$25,000 and \$50,000 each. They acknowledge with equal appreciation the many subscriptions received for smaller sums.

"One of the early acts of the first administration of the honorable the premier, who is present today, was the

grant of \$300,000 on behalf of the University of Toronto to the new hospital establishment, and about the same time the city made its initial grant of \$200,000. These gifts made possible the development which has found its completion in the hospital buildings now opened.

"The trustees desire to acknowledge kind and patient treatment from all classes in the community. His excellency Earl Grey came from Ottawa to lay the corner stone, and his honor the lieutenant-governor has been pleased to declare the buildings formally opened. We are indebted to the press for friendly support; to successive mayors, controllers and members of the city council for uniformly favorable hearing, and to the government of the province for untiring appreciation of the work we have sought to perform.

Thanks Architects.
"This great group of buildings, simple and efficient, which you are about to inspect, will bear their own testimony to the judgment and skill of the architects, Messrs. Darling & Pearson. Our thanks are gratefully expressed to the men and women from many parts of the world, who have aided the architects and the trustees by experienced counsel gratuitously given. We are under obligation to the efficient body of contractors who have constructed and equipped the buildings, and to the foremen and work-people who directed and carried on the opera-

ENTERING THE NEW HOSPITAL FOR THE FIRST TIME

When Sir John Gibson opened the doors of the General Hospital with a golden key several thousand people entered the building to inspect it. The doors had to be closed at 8.30 last evening, as 10,000 people went in the buildings and no more could be accommodated. The buildings will be open for inspection again today and tomorrow.

tions. We have had no disputes with any one of them, and have been without a serious accident during the whole period of construction. The trustees who have been chiefly concerned, express grateful appreciation for the unusual services of George Richards, the clerk of works, and for the unceasing diligence of the capable men and women who, as officers of the hospital, have had the almost unbearable burden of double duty in the exacting attention necessary in the old hospital, and the insistent claim for advice, counsel and services in the new.

Is Educational.
"From its inception the Toronto General Hospital has been the centre of medical education in the province, and in its wards were trained the men who were to place medicine in Upper Canada in the position worthy of a great profession. Close and intimate relationship between a hospital and the medical faculty of a university of high standing is of great service alike to the patients in the hospital, the students in attendance, and the larger community outside who will later be served by the men who graduate from the university. The relationship between the Toronto General Hospital and the University of Toronto is of this character, and is of equal value to both institutions.

"The trustees up to the present time have refrained from making a popular appeal for support. They have realized that the aggregate sum required was so large that they must first establish private and public giving upon a scale commensurate with the scale of the enterprise, and they would fail in securing the necessary amount. We are now approaching a period when we will appeal to the citizen body at large for support. Higher the sum we secure, the more will be the benefit to the city, and by unanimous vote the council has approved of the request. This grant, added to the previous grants of \$400,000, provides the purchase price of the nine acres upon which the hospital buildings have been erected. It would seem eminently fair that if private citizens, assisted by the university, construct and equip hospital buildings costing, exclusive of the site, \$2,850,000, the citizen body in its corporate capacity, should provide the site upon which the buildings are erected.

Appeal for More.
"The trustees feel a good work will be worthily finished if the entire cost can be met by subscription for which we now appeal. We ask the co-operation of the public generally to secure this result.

"In passing from the old to the new hospital, the trustees remember the common obligation of several generations of trustees and of the citizen body for the unselfish and efficient attention given by the physicians and surgeons, who during the sixty years of the occupancy of the old buildings have rendered gratuitous services for the relief of the sick and suffering. We know of no parallel in any field of activity, for the work performed in the public wards of hospitals the world over, by the professional who by day and by night ungrudgingly serve suffering men and women without monetary return.

Praise for Workers.
"The trustees take advantage of this occasion to express their deep sense of appreciation for the unassuming, sincere and efficient daily attention to duty by the men of this noble profession, who minister to the need of the sick in the wards of the Toronto General Hospital. We also remember with sincere appreciation the honorable service of the housemen and nurses in the wards of the old General Hospital, many of whom are here today. We direct attention to the long service of Dr. Charles O'Reilly and of Miss Snively, who for a quarter of a century were in charge of the hospital and of the training school, respectively. We still benefit by the faithful work of Mr. A. F. Miller, who for 35 years has continued to fill the position of secretary-treasurer of the trust, and whose wisdom and foresight have so largely contributed in retaining for the trust the lands of the hospital reservation, from which we now secure so excellent an annual return.

Up to Citizens.
"How shall we maintain this new hospital, with its necessarily increased

expenditure? In this we shall ask for help from men and women who have prospered and who will take pleasure in being associated with the hospital. Besides the revenue received from or on behalf of patients, we are in receipt of ground and house rentals of \$45,000 per year from the portion of the old hospital reservation, which we still hold. In addition we have fifty gentlemen who, as honorary governors, give us \$100 each annually. We will ask that this fifty be increased by 300 new names (of men or women), which will add \$30,000 yearly to our revenue, and will, we hope, establish the additional sum required to enable the trustees to meet the annual charges," he concluded.

The hospital has a capacity of 670 beds (300 more beds than in the old hospital), an increased capacity daily for 400 in the out-patient's building and a completely equipped emergency hospital, for which there is no provision in the old buildings. There is greatly increased accommodation for nurses, servants and resident doctors.

Quick to Respond.
"Three weeks ago the trustees applied themselves to the task of securing the balance of \$800,000 unobscured by subscriptions, which would be standing after crediting the estimated proceeds from the sale of the old hospital property. They had already secured subscriptions from private citizens amounting to \$300,000, to be applied against this balance, and were hopeful of further subscriptions for the important sums being received within a few days. We have carried the judgment of the mayor, the board of control and the city council in our request that a further grant of \$210,000 be made by the city, and by unanimous vote the council has approved of the request. This grant, added to the previous grants of \$400,000, provides the purchase price of the nine acres upon which the hospital buildings have been erected. It would seem eminently fair that if private citizens, assisted by the university, construct and equip hospital buildings costing, exclusive of the site, \$2,850,000, the citizen body in its corporate capacity, should provide the site upon which the buildings are erected.

Appeal for More.
"The trustees feel a good work will be worthily finished if the entire cost can be met by subscription for which we now appeal. We ask the co-operation of the public generally to secure this result.

"In passing from the old to the new hospital, the trustees remember the common obligation of several generations of trustees and of the citizen body for the unselfish and efficient attention given by the physicians and surgeons, who during the sixty years of the occupancy of the old buildings have rendered gratuitous services for the relief of the sick and suffering. We know of no parallel in any field of activity, for the work performed in the public wards of hospitals the world over, by the professional who by day and by night ungrudgingly serve suffering men and women without monetary return.

Praise for Workers.
"The trustees take advantage of this occasion to express their deep sense of appreciation for the unassuming, sincere and efficient daily attention to duty by the men of this noble profession, who minister to the need of the sick in the wards of the Toronto General Hospital. We also remember with sincere appreciation the honorable service of the housemen and nurses in the wards of the old General Hospital, many of whom are here today. We direct attention to the long service of Dr. Charles O'Reilly and of Miss Snively, who for a quarter of a century were in charge of the hospital and of the training school, respectively. We still benefit by the faithful work of Mr. A. F. Miller, who for 35 years has continued to fill the position of secretary-treasurer of the trust, and whose wisdom and foresight have so largely contributed in retaining for the trust the lands of the hospital reservation, from which we now secure so excellent an annual return.

Up to Citizens.
"How shall we maintain this new hospital, with its necessarily increased

expenditure? In this we shall ask for help from men and women who have prospered and who will take pleasure in being associated with the hospital. Besides the revenue received from or on behalf of patients, we are in receipt of ground and house rentals of \$45,000 per year from the portion of the old hospital reservation, which we still hold. In addition we have fifty gentlemen who, as honorary governors, give us \$100 each annually. We will ask that this fifty be increased by 300 new names (of men or women), which will add \$30,000 yearly to our revenue, and will, we hope, establish the additional sum required to enable the trustees to meet the annual charges," he concluded.

The hospital has a capacity of 670 beds (300 more beds than in the old hospital), an increased capacity daily for 400 in the out-patient's building and a completely equipped emergency hospital, for which there is no provision in the old buildings. There is greatly increased accommodation for nurses, servants and resident doctors.

The accommodation in the wards and the equipment in every department is incomparably better than in the old hospital. The trustees are advised by men from leading centres in the United States, from Great Britain and from distant British possessions, whose expert opinion upon hospital buildings and equipment commands international respect, that this hospital is worthy in every way and is equal in general physical efficiency to the best establishments in any country in the world.

Thousands of citizens visited the institution last evening and came away satisfied that as far as hospitals are concerned the new General has placed Toronto in the forefront of the cities of the world.

STRIKING EFFECT ON VISITORS AT HOSPITAL.
The decorative effect of the interior caused unusual comment among the visitors. This effect was obtained with Paripan which was used on all plaster walls and woodwork. This is an English lacquer enamel with a forty year record on all the best hospitals in the British Empire. Paripan glossy is recommended for bath rooms, kitchens and verandah fronts, while the flat Paripan is the only really fine decorative for walls and woodwork of living rooms. It is also washable. Sturgeons Limited, next general postoffice, Toronto.

A FINE EFFECT.
In connection with the new General Hospital buildings there are a number of fine examples of architectural ironwork. The stairs, elevator enclosures, operating-room windows, balcony railings and the high iron fence which surrounds the property show the effective use which can be made of this material. The decorative possibilities are illustrated by the six cast-iron lanterns on stone pillars and the lighting standards at the main entrance, while the commemorative tablets on the surgical building are dignified as well as informing. These were all fabricated and installed by the Architectural Bronze and Iron Works of the Canadian General Electric Co. Ltd.

LETTER REVEALED SUICIDE PACT
THREE RIVERS, Que., June 19.—(Can. Press.)—The mystery surrounding the tragic death of the young Swede Olson and his sweetheart on Saturday night, in which there has been a suspicion of murder, was practically solved today when a letter from the dead girl to her father was found, pathetically saying that "if (meaning Olson) cannot be united in this world, we will be in the next."

HOUSE ACQUITS TWO MINISTERS

Continued From Page 1.

Is it wise or just for the house to persist in this motion. The ministers have admitted their error, but their honor is unstained. They had abused no public trust, they retain the complete confidence of their political associates, and I ask the house to say that it repudiates the infamous calumnies which have been disproved, and to put on record that the house of commons accepts their statements."

Arthur J. Balfour, the former Unionist prime minister, followed Premier Asquith, and suggested that if the government supporters would agree to combine the motion with an amendment, the house would be unanimous. He himself, he said, regarded all the charges of corruption as absurd, but he insisted that the conduct of the two cabinet ministers was of the most vital importance to the public life of the country.

Mr. Balfour said that neither of the ministers had expressed regret at the transactions. What they had regretted was the mess of facts. He declared that the mistakes made in this case were, he declared, those of honest men, and they should have expressed their regret about them.

He continued: "If the prime minister will find words in which to express the regret we all feel, and which will be put in the journals of the house, he will find no enemies among the opposition. I appeal to him for the honor of the house to accept the course which I suggest."

Henry Edward Duke, Unionist for Exeter, assailed the majority report, which, he said, "sought to give the go-by to the mess of facts." He declared that this was an affront to the intelligence of the members.

Andrew Bonar Law, the opposition leader, said that his party had no desire to drive the ministers out of public life. The opposition had not pushed the charges vindictively; the ministers alone were to blame for the situation which had arisen. When the country found, after their speeches in October, that the ministers had been dealing in Marconi shares, he was astonished and angry.

"The party opposite," said Mr. Law, "has always made the claim to special virtue; the attorney-general said yesterday that the government's standard was the higher. In no circumstances the claim was not altogether appropriate."

"The charge the opposition makes is that two ministers have done things which in their position they ought not to have done, and have shown a lack of moral courage in attempting to conceal from the public what they have done."

THE GOOPS THE NURSERY

SOCIETY

Quite a feature of the opening of the new General Hospital yesterday afternoon was the magnificent array of flowers presented to Lady Gibson and the other ladies present on the platform.

Mr. and Mrs. Jack Almer have returned from their wedding trip, and are the guests of Mrs. Palmer at Huntley Lodge.

Mr. and Mrs. Oscar McGaw, accompanied by Miss Louise Ford, have left for their summer home at Lakefield.

Miss Pauline Grant of Hamilton is the guest of Miss Mona Murray.

Mr. Norman Macrae has sent out invitations to a musicale at the Royal Canadian Yacht Club on Monday next.

Mr. and Mrs. Durr and Miss Sarah Lansing were in town from Niagara for a day this week.

Mrs. A. H. Walker and her family have left for their summer home at Le Grassy Point, Lake Simcoe.

Miss Drynan and Miss Carruthers are guests of The Hospice, Niagara Falls.

The marriage of Miss Mary Cowdry to Mr. Edge Hanning takes place on July 17 in Vancouver.

Miss Ada Jackson, 314 St. George street, is leaving for Europe on Saturday.

Mr. J. A. M. Alley and her little daughters are in Orangeville, staying with the former's parents, Mr. and Mrs. Fred Marshall.

The annual regatta of the Toronto Canoe Club takes place on Saturday.

Mr. David Symonds has left for England.

A dance will be given at the Queen's Royal, Niagara-on-the-Lake, this evening at 9 o'clock.

Sir Thomas and Lady Shaughnessy and the Misses Shaughnessy are leaving on Sunday night for their summer home, "Fort Rippon," at St. Catharines.

Miss Beatrice Dick of Chatham, N.E., is visiting Miss Jessie Webber.

Mrs. R. F. Reid (nee Moore) receives this afternoon and evening at 71 Wilson avenue, and Mrs. John Moore with her.

Mrs. E. Emery of Iroquois Falls, Ont., formerly of College street, Toronto, announces the engagement of her third daughter, Mary, to Mr. P. C. Richardson, Penetanguishene. The wedding will take place at Iroquois Falls on June 25.

At the residence of Mr. and Mrs. Robert Swanton in Badgerow avenue, a quiet but very pretty wedding was solemnized yesterday, in the presence of the immediate relatives, when their daughter, Mary Edna (Mamie), was married to Mr. James J. North. The rooms were decorated with pink and white roses, peonies and spring flowers.

The ceremony was performed by Rev. E. B. Scott of Simpson Avenue Methodist Church. Miss Norma Hermonist of Listowel played the wedding marches and sang "O Fair, O Sweet, O Holy" during the signing of the register. The bride entered the drawing-room with her father. She looked sweet in her wedding gown of ivory duchess satin with shadow lace and pearls. Her tulle veil was arranged in a cap effect with sprays of orange blossoms at each ear. She carried a shower bouquet of roses and lilies of the valley, and wore a gold watch bracelet and a diamond horseshoe. Miss Vera Swanton attended her sister as bridesmaid, and wore pink crepe de chene with shadow lace and large black picture hat with tulle bow and little pink roses, and carried pink roses, wearing a sash of pearls. The groom wore a tuxedo, and carried the gift of the groom. Mr. Charles North assisted his brother. After the ceremony Mrs. Swanton held a reception, wearing black and white. Rev. E. B. Scott proposed the health of the bride. After cutting the cake the bride changed her attire for a traveling suit of blue Bedford cord, a gold waist, white Milan hat with tulle bow and yellow roses. She left with her husband in a shower of confetti for the Muskoka Lakes, where their honeymoon will be spent. On their return they will reside on Roxiter avenue, North Riverdale.

The Kew Aquatic Association held their monthly dance in the new ballroom at Balm Beach on Wednesday evening.

IF THIS IS YOUR BIRTHDAY Your pathway will be crossed by light and shade, and you will meet good fortune, your health will suffer unless you are wisely careful. Cultivate new friendships, not allowing them to grow too quickly. Those born today will be restless and careless and will have to be taught the advantages of truth and consideration for others, in retaining their hold on the valuable friends whom their pleasing appearance will attract.

FOOD INDULGENCE

Children who have "stomach attacks" at intervals of a month or two have some error in their diet to account for.

The treatment of acute vomiting is simple. Immediately stop all food and drink. Castor oil is not so good in vomiting as colic, because it is less apt to be retained, and its effect operates. But if castor oil can be retained it acts more quickly.

One level teaspoonful of baking soda in one glassful of water to be sipped at intervals is helpful for older children.

If a child continues to vomit after twelve hours he needs a doctor's aid. Not until the vomiting has ceased entirely for a number of hours and water is retained, should food be given.

Give two or three tablespoonfuls of hot clear broth, free of fat, or bouillon to begin with. Later, other foods are gradually added to the diet.

Milk should be avoided for a few days. Immediately stop all food and drink. Castor oil is not so good in vomiting as colic, because it is less apt to be retained, and its effect operates. But if castor oil can be retained it acts more quickly.

NEW POSITION FOR HELEN MACMURCHY

Well-Known Lady Physician Appointed Inspector of Feeble-Minded.

The Ontario Government has announced the appointment of Dr. Helen MacMurphy of Toronto as inspector of feeble-minded and assistant inspector of hospitals and charities in the province.

This comes in response to the appeal of numerous humanitarian associations for an official to deal with this growing problem.

To bring into its solution a thorough knowledge of medical practice and to work towards a sympathetic and competent alleviation of many of the difficulties existing today constitute in part the duties of the new inspector.

The appointment of Dr. MacMurphy, which in some ways marks a distinct venture in the field of treating the mentally deficient, did not come altogether as a surprise.

For several years in preparing special reports for the provincial secretary in this branch of the social work she has become well-qualified. At meetings of a provincial nature interested in this question, her papers have always been accepted as authoritative.

Hon. W. J. Hanna, in discussing the appointment, stated that while acting in co-operation with Dr. Bruce Smith, Dr. MacMurphy's efforts would be directed more closely to the care of those whose mentality was weak. In that connection she would visit county and district houses of refuge and orphanages.

This step results partly from the movement set on foot in the last two years, said Mr. Hanna, "I refer particularly to the convention of last winter, urging upon municipalities co-operation in the care of the feeble-minded. Here the movement gained an impetus and it will receive all the support the government can give."

The institutions to come under the new inspectorate include all those in the province today, and while special consideration will be made of children, adults, men and women alike, will be subjected to new conditions of examination.

RECIPROCITY NOW FOR ALL DOCTORS

Medical Men Can Practice in Any Province in Canada.

FEEES OR EXAMINATIONS

Hundred Dollars For Old Practitioners — Diploma For Younger Men.

OTTAWA, June 19.—(Can. Press.)—The Dominion Medical Council, which has been in session here for the past three days, concluded this afternoon.

The organization under the Dominion Medical Act was completed, and by-laws and regulations were adopted for submission to the government, whose approval is necessary. Arrangements have been made for the first Dominion examinations. They will begin at Montreal on Oct. 7.

The Dominion register will open at Ottawa on July 1, which is not only Confederation Day, but also marks the confederation of the Canadian medical profession. The first annual meeting will be held here on June 18 of next year.

The council, which embraces thirty-two members, representing the provinces and universities, will be appointed by the government, selected a list of twenty examiners, all of whom are medical professors.

The final establishment of the council marks the completion of the scheme of medical reciprocity, which has long been advocated. The moving spirit in it was T. G. Roddick of Montreal, the president.

The provincial councils are not abolished, but a medical graduate who now passes the Dominion council may, without further examination, practice anywhere in Canada upon registering with the provincial body.

Physicians of good standing for ten years before October, 1915, may secure the diploma without examination upon payment of a fee of \$100. If a medical graduate locate in any province and intend to stay there the Dominion examination will not be necessary. He cannot, however, practice in any other province on the strength of the provincial license. This privilege is granted only to those who pass the federal council or register without examination after having practiced ten years.

Hon. Dr. Roche, minister of the interior, who convened the first council meeting in Ottawa last October, was elected an honorary member and Dr. R. W. Powell of Ottawa is the registrar. The first name on the Dominion register will be that of Dr. Roddick, the president, and father of the bill. The act was first passed by the Dominion parliament and afterwards ratified by the different legislatures.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

From the Bread Box.

A FEW weeks ago I promised my readers some suggestions for using dry bread and since then I have had a number of letters reminding me of this promise.

In the first place accustom your family to the English style of serving bread and butter at every meal. This is to have a bread platter, usually a flat, thick, round slab of hardwood about twelve inches in diameter, on the serving table at every meal.

The loaf of bread and breadknife is laid on this board and the bread is cut as needed. Britishers express their astonishment frequently at our extravagant and useless waste of bread at every meal. But it is an ill-wind that blows nobody good and this time good lies in the excellent uses to which stale bread may be put.

There is Spanish or French or nun's toast (or perhaps you call this dish "gold bricks") to be made by merely dipping the slices of bread in egg and milk and frying them in butter. Every nation seems to know this method and calls the golden toast by a different name. I have never met anyone who did not like it.

I modify this by cutting the bread in finger lengths and letting it get quite hard before I dip it. Then I fry it in deep fat and serve it with maple syrup.

Breaded chops, cutlets and similar dishes would be impossible were it not for a plentiful supply of crumbs. These may be made by drying bread in the oven until crisp, but not brown, and then rolling fine. After sifting the rolled crumbs put them in jars and set aside to use, but do not put a lid on the jars—at least not a tightly fitting one. Some of these crumbs may be seasoned with salt, pepper and a sprinkling of onion salt and will then be ready for chops and meat cakes.

Bread puddings have furnished food for the jokesmith from time immemorial. Make fun of them if you like, rightly made, they are no joke, but a tasty dish more wholesome than some more delicate combinations I might name.

I cannot say that a well-made bread pudding is economical for it requires eggs and milk and the best of butter, but this recipe is extremely good tasting.

Beat the yolks of four eggs light, add two cups of fine bread crumbs, one cup of sugar and two tablespoons of melted butter, the juice and grated rind of one lemon. Into this mix a quart of milk. Turn into a buttered baking dish and cook in a moderately hot oven. When firm to the touch spread with the whites of the four eggs beaten to a fine meringue. Eat when cold with cream.

Strawberries or cherries may be mixed into the egg frosting and add to the appearance of the dessert.

Chopped apple may be added to the crumbs and then the name changes to "Brown Betty." When apples are used in bread pudding cinnamon should be used for seasoning.

A very old-fashioned bread pudding is made with slices of stale bread from which the crust has been trimmed.

Spread slices of stale bread with butter on both sides. Line the buttered bread-dish with these slices and put small cubes of the bread in the center of the dish. Cherries or other fruit, even raisins, may be mixed with the bread cubes. Cover with a custard made with one cup of milk, yolks of four eggs, three tablespoons of sugar and flavoring.

Cover the bake-dish and cook in a pan of water in the oven forty minutes. When done remove cover and brown lightly.

LIBERAL CONVENTIONS

The Liberals of Haldimand and Monck will nominate a candidate for the Dominion House at Cayuga on Wednesday, June 25. Hon. Hugh Guthrie, M.P., will speak.

On Friday, June 27, the Liberals of South Essex will hold a convention at Kingsville to nominate a candidate for the house of commons. Mr. A. H. Clark, M.P., the sitting member, will not seek re-election. The Hon. Geo. P. Graham is expected to attend.

There will be a big rally of the South Huron Liberals at Grand Bend on Dominion Day, to be addressed by Mr. N. W. Rowell, Hon. Geo. P. Graham and Hon. W. L. Mackenzie King.

FRIDAY MORNING, JUNE 20

LET THIS WITNESS GIVE TESTIMONY.

The Montreal Witness steps into the box long enough to inform us that: At last the big trusts in the United States are beginning to understand that the people, thru their government, mean to be, and are becoming, their masters. There is no slightest sign of any such recognition of the rights of public opinion yet in Canada.

But if corporate aggressions are not checked by public opinion in Canada, who is to blame?

There are progressives in Canada as well as in the United States, and if they apparently make less headway in this country it is because so many newspapers are silent or openly hostile. The Witness has had a large and intelligent constituency for many years, but what has it done towards stimulating public opinion to the correction of corporate monopoly and abuse?

The progressives of Canada today are battling for certain great reforms in parliament, on the platform and in the press. What assistance are they getting from The Montreal Witness?

Where does The Witness stand on the supreme issue of the hour, namely, the equalization of railway rates thru-out Canada? Does The Witness say that parliament should deal with this question and put an end to extortionate and discriminatory freight charges? Does it favor the reduction and equalization of telegraph, telephone and express rates; effective competition thru government-owned telegraph and telephone lines and the establishment of a parcel post? Does it favor the immediate construction of a state-owned cable across the Atlantic? Does it favor an immediate enquiry into the recent stupendous and monopolistic merger of all the inland shipping interests of Canada, and will it urge the Gouin Government to begin suit to dissolve the merger? Is The Witness opposed to melon cuttings and high finance by the big railway companies and other corporations, or does it favor placing control over the capitalization of the Canadian Pacific exclusively in parliament? Does The Witness favor public ownership of public utilities by the national and provincial governments and by municipalities? Will it favor a hydro-electric system for the Province of Quebec, such as we have in Ontario, to give electric energy to the people of Montreal at cost? Does it favor such regulation of the Montreal street railway system and allied interests as will give the people the best possible service at the lowest fares, yielding a moderate return upon the money actually invested in the enterprise?

This cross-examination is made in no captious spirit. We will be glad to hear The Witness answer all these questions as they are being answered by the progressives of Canada. There is room for a progressive newspaper in Montreal. Will The Witness fill the vacant niche?

SMALL INVESTORS TO THE RESCUE.

On June 5 a loan issue of bonds, totalling \$6,500,000, made by the City of Baltimore, Maryland, failed of acceptance largely owing to the tightness of money. The city then offered the bonds at 90 but found few investors, and it then occurred to Mr. Charles H. Grassy, publisher of The Baltimore Sun newspaper, that it might be possible to sell the bonds to small investors over the counter. Starting with a \$10,000 block of \$100 bonds, no difficulty was found in disposing of them, most of the applicants being women—many carrying market baskets. At the close of the sale on June 16, The Sun had sold almost a million worth of the bonds instead of the \$10,000 first undertaken, and in consequence the city has withdrawn its offer to sell at 90, many other small investors having gone direct to the commissioner of finance.

BOTH NORTH AND SOUTH.

The Northland, published at Cochrane, urges the immediate extension of the T. and N. O. from Cochrane to James Bay, and on to the terminus of the Hudson Bay Railway. With this policy The World is in hearty accord, but we can scarcely agree with The Northland that parliament voted the subsidy of two million one hundred thousand dollars to enable the province to extend the line. On the contrary, the subsidy was earned by the construction of the road between North Bay and Cochrane, and further extensions will call for and receive additional subsidies.

Important as it is to reach Hudson Bay, it is no less important to speedily bring the line between Cochrane and North Bay up to the standard of the National Transcontinental, and pres-

Yes, the T. and N. O. should build north from Cochrane, but it should also build south from North Bay. Toronto is the natural and logical terminus of the provincial railway.

MAKING GOOD CITIZENS.

Every country that maintains an open door for foreign immigration has to face the problem of absorption and assimilation. The former is easier than the latter, which, to be successful, requires that the incomer shall learn as quickly as possible the unfamiliar conditions of his new environment. This process is comparatively easy for those whose previous experience has lain along substantially similar lines—it becomes much more difficult when that experience has only slight relationship to their new surroundings. In this case it becomes an imperative duty to assist the prospective citizen to acquire at least a general idea of his duties and responsibilities to the country of his adoption.

New York City does this in some degree by means of summer courses of instruction, given in selected public schools located in sections of the city where they are most likely to be of service. The course includes much more than an attempt to teach the foreigner a knowledge of the English language and impart some of the rudiments of an ordinary education. It aims at acquainting the immigrant with the general principles of government, whether federal, state or city, and instructing him with regard to the primary duties of good citizenship and the way in which he can best utilize the facilities which the government provides for his benefit.

For example, the immigrant is taught how to prevent loss by fire, how he can aid in carrying out local laws and regulations, and the reason for his observing the restrictions imposed for the public benefit, such as those against the carrying of concealed weapons and for the regulation of traffic. Other branches deal with the school system, the health regulations, the use of the postoffice, in all its departments, and the imparting of knowledge concerning the city, state and nation. The foreigner is also advised about labor chances and given a glimpse into American history and the lives of its great men. In the second year course these matters are further elaborated and attention is called to the evening trade schools, public libraries and the conduct of courts. It is easy to see of what value these courses of instruction must be to the ignorant incomer.

POWER OFF.

To what extent prosperity and progress depends on hydro-electric power has probably been more fully realized in the last few days than ever before. The interruptions of Monday and yesterday were so serious a character that many thought only malicious injury could explain the failure of the system. For over two years the transmission lines have been practically faultless. It appears, however, that a weak point has been discovered in the insulators of the German type that were used in some parts of the line. From whatever cause the porcelain in these is evidently not of so good quality as the American insulators, which were chiefly installed. Now that the defect is known it will be remedied as speedily as unremitting effort on the part of the Hydro-Electric Commission can replace the weak material.

The World has been careful at all times to refrain from criticism of electric breaks. Accidents are liable to occur at any time, and from quite unexpected and uncalculated causes. But we have boasted of the hydro-electric service, and the two years and four months of uninterrupted service justifies us. The present interruptions are the result of causes outside the extraordinary precautions taken to have an impregnable transmission line. When this weakness is overcome it is possible some other may develop, but as far as human skill can assure it, the

ORDER A CASE FROM YOUR DEALER.

Inviolability of the insulation will be established. The effect on public opinion will probably develop the feeling in favor of the acquisition by the Hydro-Electric Commission of the Electrical Development Company. It will certainly lead to some arrangement for exchange of power. It is to the mutual interest of the two systems to be able to assure their customers of uninterrupted service.

THE TOMMY CAMPAIGN.

Lovers of good government in the city will be pleased to see the stand Controller Foster took in opposition to the proposed purchase of the street railway. Controller Church and Controller Foster are competing for the leadership of that noble little band which includes A.M. Burgess, Hubbard, Maybee and McBrien. These gentlemen all want negotiations for the purchase of the railway to be abandoned. There should be no doubt about this; and the widest publicity should be given their views. The strapholders will look after them next election, and good government will benefit.

A correspondent calls attention to the disorderly surroundings of the Bloor Street Library, while Gladstone boulevard is blocked with a pile of broken concrete.

The Star announces that Dr. Helen MacMurchy "becomes inspector of feeble-minded in the provincial secretary's department." Perhaps Uncle Hanna will extend jurisdiction to the board of control if there is not enough feebleness in his department to keep a doctor busy.

CONSERVATIVES AND PROGRESSIVES.

Editor World: In your brief editorial of Wednesday upon my letter concerning the Progressives, railway subsidies, etc., you refer to what would appear to be an inconsistency on my part in that you allege that my vote does not appear in connection therewith. That is quite true. There were some 15 subsidies on the order paper. When these subsidies were announced by the Speaker in the regular way, I arose and made my protest, saying that I took that way of placing myself on record. No one else in the house took advantage of that moment or of any other moment, to fight the bounties. The proceedings subsequent to my few remarks were entirely taken up in voting on the opposition's amendments, to which I was just as much opposed as to the motion. In order to bring on the rule of the house, which, as you know, require that a member shall vote upon every question, or, if paired, say so, I left the house. I did not wish to vote on any of the amendments, and resumed my seat. As you know, an amendment must not contradict that which it seeks to "amend." I had no other recourse, and when it was all over I came back and resumed my seat. It is quite possible that what the "original motion," which nearly always goes thru without a division after amendments have been voted down, came up, I could have voted on that, but here, but I think you will agree with me that that is a matter of small moment, since such a vote would have no effect on the question at all in the face of the united support of the principle of railway bounties by both sides of the house. Without giving undue importance to my remarks in this matter, I think I may say that the lone protest which I made against the rule of the house, and several others which have definite ideas on these and kindred matters which have from time to time been laid before the house by them for the benefit of the country. But the specific point that I am arguing at the present time is that of bounties, induced by your item in The Sunday World, and I do not think it necessary to branch off into every other subject worthy of consideration in discussing it. Let me say in conclusion that I do not suppose for a moment that my action will bear geometrical scrutiny for the very simple reason that I do not think it is always quite necessary for a dissentient to bring matters to a crisis even if he has "ideas" on any subject.

A SUMMER PARADISE.

The unique series of log cabins with main lodge that has been erected during the past year by the Grand Trunk System on Smoke Lake, in the Algonquin National Park, and Ontario, has been completed and will be open to guests on June 25. Mr. H. B. Charlton, general advertising agent of the Grand Trunk System, has just returned from the district, and is enthusiastic over this new feature inaugurated in the Canadian summer resort district for the first time.

The camp is built entirely of cedar logs; has accommodations in the several cabins and the main lodge for seventy people; is plainly but most comfortably furnished with hot and cold water, with a bathroom in each cabin, with the centre of one of the finest fishing districts in America.

ANNOUNCEMENTS.

June 19, 1913.
Judges' chambers will be held on Friday, 20th inst.

Master's Chambers.
Before J. S. Cartwright, K.C., Master. Mitchell v. Stevenson.—S. S. Mills, for plaintiff, obtained order amending writ as to name of defendant.
Gordon Mackay v. Tedwell.—O. H. King, for plaintiff, obtained order for issue of writ for service on defendant in Saskatchewan. Time for appearance fourteen days.
Marotta v. Reynolds.—R. Wherry, for defendant, moved for order dismissing action for default of plaintiff in attending for examination for discovery. Tombe (McBrady & Co.) for plaintiff. Order that plaintiff may re-attend for examination on two days' notice and file affidavit on production in two days on terms his pendens being vacated and his registration of the agreement. Costs to defendant in any event.

Judges' Chambers.
Before Riddell, J.
Charlebois v. Davidson.—H. Ferguson, for plaintiff, moved for judgment under C. R. 803. J. E. Snow, K.C., for defendant. At plaintiff's request motion enlarged for two weeks or till first chamber day in vacation.
City of Toronto v. De La Plante.—I. S. Paity, for plaintiffs, moved for order striking out paragraphs four, five and six of statement of defence. K. F. Mackenzie for defendant. Motion referred to trial judge.

Judges' Chambers.
Before Riddell, J.
Rex ex rel Fitzgerald v. Stapleford.—W. D. McPherson, K.C., for relator, moved for order declaring that respondent has not been duly elected and has unjustly usurped and still does usurp the office of reeve of the Village of Watford, in the County of Lambton, under pretence of an election held on January 6, 1913, at Watford, and for an order setting aside and declaring invalid and void the said election. Judgment: There are four grounds of attack two for paying scrutineers one for an alleged corrupt payment and one under section 80 of the Municipal Act of 1903. While I may be permitted to say that I regret the result of the legislation, 5 Edward VII, c. 22, s. 8, s. 4, I think it clear that the implication that it is a corrupt practice. The second ground is covered by what I have said on the first. In neither case is there any evidence of any payment by reason of the scrutineer having voted. In regard to the charge of paying Mrs. Chapman, while the case is full of suspicion, there is nothing to conclusively prove the improper object. The verdict then on this charge will be "not guilty, but don't do it again." As to the remaining charge, there is no pretence that respondent was seeking private gain, and all he did seems to me, just what a public-spirited citizen and municipal councillor should do if the law permits. Motion dismissed, but under the circumstances of suspicion, without costs.

Single Court.

Before Middleton, J.
Bank of Montreal v. Bell—M. J. Folinski, for plaintiff, R. McKay, K.C., for defendant Bell, W. J. McWhinney, K.C., for defendant Bell, moved for plaintiff for an order continuing the third inst. Injunction continued meantime.

Re Smith Estate—A. E. Knox, for trustee, on motion for advice under C.R. 938. R. McKay, K.C., for J. C. Smith. T. A. Silverthorn for two daughters. F. W. Harcourt, K.C., for infants. Enlarged until Sept. 15 next, and income to be paid to mother for maintenance meanwhile.

Re Nordheimer Estate—W. B. Kingsford, for trustee, on motion for order constraining will of late Samuel Nordheimer, G. B. Strathy, for Mrs. Houston. C. C. Robinson, for Misses Nordheimer and Mrs. Kirk. S. S. Mills for Mrs. Cambie. F. W. Harcourt, K.C., for infants. It appearing that all parties have not been served with motion, enlarged sine die and order made appointing the official guardian to represent unborn issue.

Re Felix Corr Estate—J. P. Crawford, for administrator, moved for judgment on further directions as to costs reserved. G. S. Hodgson, for claimant. J. G. Smith, for Patrick Rogers, the crown.

Judgment. The attorney-general should have his costs of the commission and of the appeal to Mr. Justice Kelly, fixed at \$240, out of the \$400 paid to the court, and the balance of the \$400 is to be paid to Mrs. Donnelly. The costs not already dealt with of the applicants and the attorney-general may go to the crown.

Morris v. Harrison—A. D. Crooks, for plaintiff. V. J. Callan, for defendant. Motion by plaintiff for order continuing injunction. Injunction continued to trial. Trial to be expedited and parties to go down to trial next week without pleadings.

TRIAL.

Before Lennox, J.
The Ontario Asphalt Block Co. v. Mantreuil—D. L. McCarthy, K.C., and J. H. Ridd (Windsor) for plaintiffs. M. K. Cowan, K.C., for defendant. Account of plaintiffs for specific performance of defendants' contract to convey to them certain lands and land covered by water described in the pleadings, and for damages.

Judgment. Ordinary judgment for specific performance of contract in fee simple of such part as was granted by the crown, and conveyance of defendant's life interest in residue with an abatement of the purchase money in the proportion in which a fee simple exceeded this life interest, in value at the end of the 10 years herein with a reference to the master at Sandwith, to take an account on that basis, to enquire as to the damages as hereinafter provided for, and to settle the conveyance in case the parties cannot agree. I direct that all proceedings be stayed for one month to enable defendant to get in the title and convey the property to plaintiffs, if the defendant determines to do so, and gives notice of his intention within 15 days from June 19 inst., and in this event there will be judgment against defendant for specific performance of the contract, according to its terms, the plaintiffs paying interest on the \$22,000 as being about equal to the rental, with costs, and a reference to compute and to settle the conveyance. If this suggestion is not or cannot be acted upon by the defendant, then in the reference hereby provided for the master to ascertain and fix the abatement in price will be included a direction to the master to ascertain and report what amount the plaintiffs are entitled to as damages in addition to abatement in price, for breach of contract, calculated on the basis of plaintiffs' loss. Costs to plaintiff down to and including trial. Further directions and costs at reference reserved.

Pennants are distributed from The World office, 40 West Richmond Street, Toronto, or at 15 East Main Street, Hamilton.

Owners of motor boats and proprietors wishing to open their summer homes for the season will be interested to learn that a joint excursion will be run all around the Muskoka and the Muskoka Lakes Navigation Company on Saturday, June 21.

First-class return fares from Toronto will be \$3.10 to "all around the Muskoka Lakes" and \$2.10 to Bala Park; children half fare. This is probably the only opportunity of reaching any point in the Muskoka Lakes from Toronto at such moderate rates this season.

Regular train No. 3 will leave the Union Station at 10 a.m., connecting with steamers at Bala Park or Lake Joseph for all points on the lakes. The steamer connecting at the latter point will run thru to Roseau.

Returning, for Sunday only, a special week-end train will connect at Lake Joseph 6.59 p.m., also at Bala Park with steamer from all points at 7.35 p.m. Other trains are the Lake Shore Express, leaving Lake Joseph at 12.55 a.m. and arriving Toronto 5 p.m., and those leaving Lake Joseph at 5.47 a.m. and 4.45 p.m., respectively, all daily except Sunday.

LEPROSY GAINING IN U. S.

Warning Note Sounded at Medical Convention.

MINNEAPOLIS, Minn., June 19.—(Canadian Press.)—Leprosy is steadily increasing in the United States, according to Dr. Rupert Blue, surgeon-general of the United States public health service. Dr. Blue's address at the American Medical Association's convention today told of the continued propagation and spread of the disease. The doctor discussed the present state and federal laws relative to the disease and urged the advisability of government supervision. Measures for the control of the disease and the care of those afflicted are absolutely necessary, he declared.

ZEPPELIN TRUE TO FATHERLAND

FRIEDRICHSHAFEN, Germany, June 19.—(Can. Press.)—Count Zeppelin today declared that he was pledged not to accept any foreign orders for dirigible airships. His company, he said, would construct dirigibles only for the German Government or for use in Germany. He denied the report published in Vienna that he had contracted to build six airships for the Austrian army.

Mathewson Lasts Long Enough to Beat Reds

CINCINNATI, June 19.—New York won an exciting game from Cincinnati here today by a score of 8 to 7 and thereby made a clean sweep of the series of four games. New York managed to punch hits with the opposing pitchers' wildness and errors by Cincinnati in two innings and tallied four runs in each. Snodgrass triple with three men on bases in the second inning was easily the batting feature of the contest. Mathewson appeared to be at his best up to the eighth inning when he weakened, but had enough left to stave off defeat. Score:

AMATEUR BASEBALL

The Trusts and Guarantee Company, Limited, baseball team representing the clearing house for the Standard Stock Exchange and the members of the Standard Stock Exchange, today played a game of ball at the Exhibition Park for a "near championship." The Clearing House being retained the winners by a score of 12 to 9, when the game was called. The umpire was undecided as to whether the game should be called on account of darkness or the fact that the balls were all in the light.

The game was quite interesting, owing to the fact that such noted men as Harry Smith, Keith Balfour, Bill Chambers and Stuart Goodenham tried to do the "Jeffries at Reno" stunt and did fairly well. Harry Smith went on the mound for the first three innings, but soon tired, after which he retired in favor of Keith Balfour, who also tired quickly; however, he lasted for the balance of the game. The Clearing House played a nice game and deserved to win.

The features of the game were the great one-handed catch by Pat Cashman on first base and the rebound work of Stan Chambers on second. Batteries were: Clearing House—Anderson and Waggoner. Exchange—Smith, Balfour and Lambert.

The West Toronto Senior League will hold a meeting Friday, June 20, at 8.30 p.m., at 323 Bayview Ave. There is an opening here for a good fast team.

SOCCER NOTES

On Saturday the local professional soccer clubs will play at the Island stadium. Queen City and Toronto are scheduled to line up at 8.30 p.m., following upon the lacrosse game between Tecumsehs and Nationals.

The Olympic F.C. are endeavoring to make Saturday's game with Simpsens a huge success. The committee have got the players to work cutting the grass with lawn mowers and by present appearances the ground will be in splendid condition and the way the players are working the Simpsens will have to go some to win. We are looking forward with anticipation for a good crowd of spectators and the ball afterwards should not miss this game as neither team has lost a game for the past five weeks. Kick-off at 8.30.

St. Albans at Mimico. Win in Two Innings

St. Albans beat Mimico Asylum by 75 runs in a two innings game at Mimico. In the first innings Hancock was top scorer for St. Albans with 27, F. Colborne, H. Ledger and F. Saxton also made doubles. Bennett did great bowling, taking 6 wickets for 14 runs, including 8 hat trick wickets for the Salutes' bowling. The Asylum found the Salutes' bowling and fielding too good for them. Marsden took 13 not out being top score. Colborne took 6 wickets for 24 and Saxton 2 for 23. In the second innings St. Albans did not do so well. Hancock was again top scorer with 15, and H. Ledger was the only other batsman to make doubles. Marsden took 5 wickets for 27, and Bennett 4 for 27. Mimico's second innings was a repetition of the first, only one man made doubles. Harnesley with 11, Colborne took 3 wickets for 22 and Saxton 4 for 16.

FRENCHMEN COMING WITH A STRONG TEAM

Indians and Nationals Meet For the Second Time at the Island.

The Nationals are going to make their second visit of the season here Saturday and they have already one black mark to show, which they are determined to wipe out, especially as they are inwardly sore over their reverse of last Saturday. They will extend themselves to the limit to break into the win column once more, and what would be best of all at the expense of their greatest rivals, the Indians. CORNBROOM WINS STAKE AT OTTAWA

Connaught Park Favorites Have Fair Day, Tho Long Shots Land a Couple.

OTTAWA, June 19.—Favorites had another fair day at Connaught Park, but the usual surprises were forthcoming, when two 12 to 1 shots came home with the money. Fortunately for the bookies they went to the post with very little money on them.
The feature of the day, the Lumbermen's Stake, resulted in an easy victory for Collin Campbell's Corn Broom. Byron de Kalb, at 12 to 1, beat out a shifty bunch in the fifth this being the first start of the winner. Gerrard won his race in an easy fashion. Havrock and Fat Rutledge made shows of their fields in the first and second respectively. Bat Masterson, another favorite, rewarded his followers in the fourth. Prince Chap, which closed as favorite, was an also ran in the seventh. Marsand winning with Tommie Thompson second and Tom Savers third.
Summary:
FIRST RACE—Three-year-olds and up, foaled in Canada, one and one sixteenth mile:
1. Havrock, 114 (G. Burns), 2 to 5 and out.
2. Great Plate, 99 (H. Denner), 6 to 1 and 4 to 5 and 1 to 2.
3. Calumny, 110 (F. Adams), 10 to 1 and 5 to 1.
Time 1:51. Oakland Lad and Volvoide also ran.
SECOND RACE—Two-year-olds, five furlongs:
1. Fat Rutledge, 104 (H. Denner), 3 to 1, even and 1 to 2.

"Ahead in 1909---Still Ahead in 1913"
Knight Engine vs. Poppet Valve Engine

Four years ago, before the Royal Automobile Club of Great Britain, a 38 h. p. Knight Engine of Daimler manufacture made a world's record for durability and efficiency.

That record stood unchallenged until May of this year, when, before a Committee of Judges of the Automobile Club of America, an acknowledged leader among manufacturers of Poppet Valve engines put up his best 38 h.p. six-cylinder engine to beat or to equal the record held for four years by the Knight Engine.

The Judges' report on the two tests settles the question of all-round supremacy in automobile engines.

In a series of advertisements we shall show how thoroughly the Knight engine's supremacy has been upheld, and prove that even four years ago it was superior to the Poppet Valve engine of 1913, in the following particulars:

1. That for the size of motor the Knight Engine develops greater horse power than the Poppet Valve.
2. That it generates its horse power with less consumption of gasoline.
3. That it requires less adjusting, and its condition after use is more perfect.
4. That the test to which the Knight Motor was subjected was much more exacting than that of the Poppet Valve.
5. That where a Poppet Valve motor loses in power with use, the Knight Motor increases.

We want every owner or prospective owner of an automobile to watch for and read these advertisements, because for four years we have made many claims for the Knight Engine. The comparative figures of the two tests will prove how fully our claims have been justified.

MARY MURPHY WINS STAKE AT CHATHAM

Adrian Pointer Takes the Nineteen Pace and Dichatto the Eighteen Trot.

CHATHAM, June 19.—Today's racing was the best of the Chatham meet so far. Every race was closely contested. Mary Murphy's performance in the 2:24 trot, a thousand dollar stake, was the feature of the day. Ramey Macey would have won three straight heats with her only for a break in the last stretch in the third heat, caused by a sore shoulder. The day was fine, the track in the best condition, and the crowd very large.
The results:
2:24 trot, stake \$1000—
Mary Murphy, b.m., by Barrow, W. H. Easterbrook, Denver, Col. (Macoy), 1 5 1 1
Antron, b.m., by Capt. Aubrey, J. E. Earle, Malone, N.Y. (Cherries), 2 1 2 2

Filling Up Rapidly

HAVE you noticed the way new subdivisions in every city keep filling up? Have you seen these tracts of vacant land transformed into fine residence districts? And did it ever occur to you that these new subdivisions offer the greatest opportunities for you? For land in these subdivisions is now at its lowest price, and every new home that is built adds just so much to the value of all the land in that subdivision. That is why most subdivision land soon becomes worth many times the price that is asked for it at the opening. Now if you want to take advantage of this opportunity to make money, or if you want to have a home of your own in a nice residence district, turn to the Real Estate Ads of this paper, and look for the advertisements of all new properties that are being offered here. Find out where these new subdivisions are and go out and look them over. Every man in this city should make it his business to follow these Real Estate Ads, because real estate is the safest, surest investment on earth. It is the one thing that can't burn up, blow up, or run away. Begin reading and answering these Ads now. When you see the values that are offered you will soon find a way to take advantage of them. And every time you answer an Ad, please mention this paper.

SPECULATION IS AT A LOW LEVEL

Acute Dulness the Leading Characteristic of Toronto Stock Exchange.

BANK STOCKS HIGHER Investors Looking For Bargains—Russell Motor Offered Down Again.

While the speculative movement was broader in the Toronto stock exchange yesterday than it had been on Wednesday, trading was by no means active.

The list, in fact, was still hounded by dulness, and many of the usual favorites were dealt under, meanwhile, was a slight decrease in the latter being all most negligible. Circulation increased with April, follow:

MAY REPORT OF CHARTERED BANKS

Decrease in Call Loans Outside Canada the Feature—Other Items Unchanged.

The May bank statement issued yesterday at Ottawa was chiefly interesting in point of call loans outside Canada, a decrease of seven millions in this item evidencing the recent reducing of money out in Wall street.

Call loans in the Dominion remained comparatively steady, as did also current loans, and deposits, a slight decrease in the latter being all most negligible. Circulation increased four millions, the figures, compared with April, follow:

BULL MOVEMENT IN NEW YORK STOCKS WEAKENED SLIGHTLY, BUT PRESSURE NOT GREAT.

What was probably the quietest session of the year occurred in the mining exchanges yesterday. Trading was at a very low ebb, and consequently price changes were few and far between.

Meanwhile the undertone was heavy, but not materially so. Half a dozen issues made lower prices, but the declines were small and not indicative.

In the Porcupine stocks as Hollinger, Pearl Lake, McIntyre, Porcupine Gold and Dome Lake were down. Of these five the movement in McIntyre was easily the most interesting, the shares selling at a low of 20 points for the day.

The high point of \$5.00 was reached last March. Pearl Lake scored an advance to 3 1/2, during the session, but was back to 3 1/2 at the close. Jupiter at 3 1/2 was the only strong spot on the list.

The Cobalt market was very real features, being dull in the extreme throughout. City of Cobalt duplicated its recent record at 50 1/2, and both Crown Reserve and La Rose were not changed to any extent.

The market has seemingly reached a point where no activity can be expected until a greater degree of confidence in the financial situation is aroused. When conditions return to normal, however, the mining issues should give a better account of themselves.

CHICAGO, June 19.—Bountiful returns from harvest in Kansas where farmers thought the weather had been more ruined a fortnight ago, sent the market today decidedly down grade. The close was weak at a loss of 1 1/2 to 1 3/4 net.

Corn finished 1/2 to 3/4 off, and oats at a decline of a shade to 1/4. In addition the bears took notice of statements that the Missouri crop would be of record size, largely offsetting any loss in Kansas.

Official reports of continued drought in the corn harvest in Illinois and later private advices of fair rains in sections in Illinois and the southwest caused a break.

Selling from the large elevator companies overcame an excited buying flurry in oats. Unfavorable crop reports from important producing states were what stimulated the desire to purchase.

Provision were mainly affected by an advance in the price of live offerings remained scanty until a fair improvement had been reached.

A Great Business is a Public Trust

Stores such as Simpson's set the prices for many of the staple articles of living. Their sales being large and profits small, they are able to furnish at low cost thousands of the necessities of life at prices which otherwise must be much higher.

We recognize this public service feature of our business, and our remarkable growth with each successive year has been ample proof of your appreciation.

Tomorrow's list, drawn from every department of the store, furnishes some excellent examples of our ability to meet our part of the bargain.
