**TO LAY NEW CAR LINES**  
Manager Fleming Expects Work to  
Start in Two Weeks.

General Manager Fleming of the Toronto  
Railway Company, announces  
that the company will commence lay-  
ing down the new car lines as soon as  
the weather permits, and he does not  
think it will be more than a couple of  
weeks. While all their plans regard-  
ing new runs for cars are not yet com-  
pleted, he says that he does not think  
there is any possibility of any one to be  
built at the Wilton-ave. run.

thing further is offered, the houses  
must be licensed under the regular  
theatre licenses and must comply with  
the requirements for such houses. This  
was decided at the meeting of the po-  
lice commissioners yesterday after-  
noon.

**POP THEATRE CHANGES HANDS**  
Marks and Brook Acquire Shea's  
Yonge-Street Theatrum.

Messrs. Mark & Brook, vaudeville  
managers, have signed a long lease of  
Shea's Yonge-st. theatre, from the Ma-  
gee estate. Possession is to be given in  
June, and alterations to the present  
building will be at once begun. A  
strip of land has been purchased to the  
south to allow the installation of new  
exits there, and the front of the build-  
ing will be altered. The rental is said  
to be fixed at \$18,000 per year.

**Find Out If You**  
**Have Catarrh**  
Don't Wait Till Consumption De-

**CATARRHOZONE**

In the discovery of this wonderful  
curative medicine the entire race is  
given freedom from Catarrhal diseases,  
including Asthma, Bronchitis and  
Throat Weakness.

Is Catarrh in your nose?  
Does it affect your hearing?  
Is your throat husky?  
Are your eyes watery?  
Is your breath offensive?  
These are the indications of Catarrh  
and the cure is guaranteed with Cata-  
rrhozone. So sure is Catarrhozone that  
thousands recommend it—  
tell of its wonderful merit after being  
cured themselves. Read this:

**How Catarrhozone Cures**

Miss Worrel is a resident of Clark-  
son, Ont., and has been the means of  
pointing the way to health of many of  
her friends.

"I received such extraordinary bene-  
fits from the use of Catarrhozone that  
I have induced many of my  
friends to use it also. My catarrh was  
given a year ago that I despaired of  
ever getting cured. I am sure my lungs  
were somewhat affected also. The re-  
sult of Catarrhozone was re-  
markable. I improved under this treat-  
ment very quickly, and was cured so  
thoroughly the disease has never re-  
turned."

Get the large dollar size of Cata-  
rrhozone; it contains a beautiful hard  
rubber inhaler and medicine that lasts  
two months. Smaller sizes, 50c and 20c.  
Beware of imitations—accept  
only Catarrhozone, sold by all reli-  
able dealers or by mail from The Ca-  
tarrhozone Company, Kingston, Ont.

**REVISION COURT DEEMS**  
**ITS RIGHTS INVADED**

City Council Charged With Inter-  
ference in Apportioning Cost  
of Street Widening.

The city council has questioned the  
authority of the court of revision to  
readjust the apportionment of costs  
in street widening. At least this is  
what the members of the court believe  
thru the action of the council in ap-  
pealing against their decision in the  
levying of the 25 per cent. of the  
charges of widening Danforth-avenue,  
which the ratepayers are asked to  
contribute. There are only two par-  
ties appealing against the recent deci-  
sion of the board of the city is one  
of them. The other, who has asked  
the county judge to give a decision in  
the matter is John Lucas, who resides  
in what was formerly East Toronto.  
The court believe that if they have  
no power to apportion costs in a case  
of this kind, there is no use sending  
the appeals to them.

**DIED IN PENITENTIARY**  
Lizzie Lessard Was Serving Time for  
Repulsive Crime.

**KINGSTON, April 4.**—(Special.)—  
Lizzie Lessard, sentenced a year ago  
to three years in the penitentiary, is  
dead. The remains will be shipped to  
relatives in Hamilton. The crime for  
which she served time was a most  
repulsive one. She resided in Tor-  
onto to a term in Mimico Industrial  
School, she got into an altercation with  
an attendant. In a fit of passion she  
seized a pair of scissors and inflicted  
them with a loathsome malady from  
which she suffered, she stabbed the at-  
tendant in the breast, inoculating her  
with the disease.

**SPECIAL MATINEE AT GRAND**  
Extra Performance of "Mrs Wiggs"  
to Be Given Friday Afternoon.

Owing to the heavy demand for  
seats for both the Wednesday and  
Saturday matinees at the Grand this  
week, "Mrs. Wiggs of the Cab-  
bage Patch" is being presented, the  
management have found it necessary  
to give another afternoon perform-  
ance, and have decided on Friday for  
the special matinee. Seats are now on  
sale, and can be reserved in advance  
the same as at the regular matinees.

**"Bronchitis"**

This is an acute inflammation of the  
mucous membrane lining the air tubes in  
the lungs.

The disease begins with a tightness  
across the chest, difficulty of breathing,  
hoarseness, and there is a dry, harsh  
croupy cough.

After a few days mucous begins to be  
raised. This is at first white, but later  
of a greenish or yellowish color and is  
occasionally streaked with blood.

Cure the first symptoms of Bronchitis,  
by the use of Dr. Wood's Norway Pine  
Syrup and thus prevent it becoming  
chronic and perhaps turning to Consump-  
tion.

Mrs. D. J. McCormack, Cleveland, N.S.,  
writes: "My little boy, two years old,  
caught a bad cold which developed into  
Bronchitis. He was so choked up he  
could hardly breathe. Reading about  
your wonderful medicine, Dr. Wood's  
Norway Pine Syrup, I decided to try a  
bottle, and with such good result I got  
another which completely cured him,  
without having a doctor. I cannot say  
too much in its praise and would not be  
without it in the house as I consider it a  
sure cure for Colds and Bronchitis.

Dr. Wood's Norway Pine Syrup is put  
up in a yellow wrapper, three pine trees  
the trade mark, price 25 cents.

**Two Watches That Give**  
**Genuine Satisfaction**

The "WALTHAM" 17-Jewel Movement  
And the "EATON" 17-Jewel Movement

Most people take it for granted that the "WALTHAM" just about represents the acme of perfec-  
tion in watch building. That's because of the reputation the "WALTHAM" has for giving unfail-  
ing satisfaction. And to have retained that undisputed leadership these many years the  
"WALTHAM" must have been built right, its working parts all of the most approved metals, and  
betterment constantly in view. It is an American made movement.

The "EATON" is just such another high-grade watch. It is Swiss built—and those who un-  
derstand watches will admit that Switzerland is the recognized home of the watch industry—there  
watch making is a science that is developed to an inimitable perfection. And the "EATON" is  
built by one of the best known Swiss makers. In design the "EATON" is an American move-  
ment—because that movement is considered the most up-to-date. In every way it was planned  
the best known way, to produce a peerless watch.

To-day we tell particularly of the 17-jewel movements (WALTHAM and EATON). They're  
built to give long and steady satisfaction—and they WILL give it. Here is a diagram that will make  
some points clearer, while brief descriptions give further details:

**The "WALTHAM" 17-Jewel Movement**  
at \$11.40

**Champion Woman Suffrage.**  
LONDON, April 4.—The Corporation  
of London has entered the lists as a  
champion of woman's suffrage. At a  
special meeting it passed by a vote  
of 22 to 9 a resolution which is to be  
sealed with the city's official seal, pe-  
titioning parliament to pass at the  
present session the woman's suffrage  
bill now before it, and that the lord  
mayor, together with the other civic  
officers, go to present the petition at  
the bar of the house.

**CAP ON END OF INTAKE**  
Workmen Can Now Clean Out Sand  
Without Danger to Life.

Prospects are now good for the con-  
duit leading to the intake being freed  
from sand in a short time. The di-  
vers have been able to get down and  
place a cap on the end of the pipe at  
the break, and the men can now  
work without fear of the waters  
from the lake rushing in on them  
and sweeping them into the tunnel.  
This danger has existed ever since  
the work was commenced, and the  
workmen who went down to stir up  
the sand for the centrifugal pumps to  
a great extent took their lives in  
their hands.

Work at the cut at Clondebye-  
avenue is proceeding satisfactorily,  
and the damming of the bay from  
Long Pond is also making good pro-  
gress. The engineering department  
is delighted with the prospects, and  
there is a possibility that the city will  
not only have its temporary sedimen-  
tation basin but its original source of  
water supply in operation in a short  
time.

Two more cases of typhoid fever  
were reported to the medical health

officer yesterday. One was from  
Garden-avenue and the other from  
Indian-road. This makes four so far  
this month.

**G.T.R. Agent Run Over.**  
MONTREAL, April 4.—Emile J.  
Caron, assisting soliciting agent of the  
Grand Trunk System, missed his foot-  
ing while trying to board a train at  
Waterville, Que., at 6 o'clock this morn-  
ing, and his right leg was so badly  
mutilated by the wheels that passed  
over it that surgeons at the Sherbrooke  
Hospital amputated the leg six inches  
below the knee.

**STANDARD OIL AND MEXICO:**  
NEW YORK, April 4.—The Stand-  
ard Oil Co. to-day issued a formal  
statement, denying reports that it has  
been financing the revolt in Mexico.  
The statement says:  
"All these and similar reports are  
absolutely untrue. The Standard Oil  
Co., in its character as a citizen of  
the United States, has strictly held  
itself apart from all interference in  
the affairs of the Mexican republic,  
with which it has no connection,  
moral or material."

Note and Comment

Mr. and Mrs. Tommy Burns, their eight-month-old baby and a nephew, arrived in the city last night from their en route to Calgary. They are staying at the King Edward Hotel, and leave tomorrow evening for the west. Tommy spent a most enjoyable vacation around his old home in Hanover, where he met most of his playmates and associates, including Henrik of the Hanover team, the boy that gave Tommy his first taste of his life. However, being only 13 years of age at the time, they have long since parted the ways.

Hugh McIntosh is trying to arrange a twenty-round bout in London between Johnny Conlon of Chicago, who claims the American bantam championship, and Biggie Stanley, the British title-holder.

Rain saved the enemy at Montgomery yesterday. However, 3 to 1 at the end of the fourth is different from the 10 to 0 the day before against the slugs. They had to show the president, who is on the job.

We boosters of the national game of lacrosse must watch out for no less person than Ed Barry, president of the Eastern League, who has noticed that round the lots in an interview with Barry says: "The kids are being trained to lose baseball just as the Americans do, says Barry, who are playing ball on the lots now instead of lacrosse. You know it's the kids who make baseball popular. They're the future fans. It is only a question of time when Montreal will have the attendance in our circuit. All we've got to do is wait for the youngsters to grow up."

Cobb is a peculiar fellow; peculiar in everything. Most ball players like to bat when the bases are empty, when nothing depends on their own play. Cobb claims that when not working under a strain they can always do better. Cobb, of course, is the opposite. He likes to be stepped up to the plate when the bases are full. Contrary to general opinion, Cobb claims he can always do his best when something depends on his performance. "My logic is pretty good at that. I find it easier to hit the ball with the bases occupied," says Tytus. "The pitcher is working hard to get the bases empty, and when you do hit the ball the flying base runners start and disconcert the men who are trying to handle it."

With men on base I generally lay for the first ball the pitcher hands over. I'll do it to times if I can lay that first one straight over the pan he'll do it, and I look quite a few of them. The majority of batsmen will pass up the first ball, no matter if it is a topnotch. But you'll never get this boy overlooking one of that kind. Nine times out of ten I go for the first ball. I like to tickle the first ball if the pitcher lays it over.

LEAFS AHEAD WHEN BARRY STOPPED GAME IN FOURTH CENTRALS WIN 47-32 FROM WEST END TEAM

Torontos Were Out for Revenge, and Had It 3 to 1 on Montgomery—The Play.

MONTGOMERY, Ala., April 4.—(Special.)—There was a hurricane throughout the game today, closing with a deluge of rain. The first game, the board showed when Toronto led three to one. It was next to impossible to judge flies, and the Central fielder's error allowed three hits and two passes, and the enemy had five stolen bases on Montgomery. Montgomery's error, however, 3 to 1 at the end of the fourth is different from the 10 to 0 the day before against the slugs. They had to show the president, who is on the job.

Toronto Rowing Club Banquet Joe West In Right Royal Style

The complimentary banquet tendered to Joe West of London, Ont., winner of the Individual event at the Buffalo tourney, by the Toronto Rowing Club last night was just about as nice a little affair as has been pulled off in Toronto in some time.

Some thirty or more bowlers of Toronto sat down to a good spread, and a feeling of good fellowship prevailed throughout. The Rowing Club deserve credit for the manner in which the affair was handled, and as the infant club in the bowling game in the city they have indeed started right.

A letter of regret was read from Mayor Geary at not being able to attend. The night was concluded with a musical program of high order, and everybody wishing Joe many honors.

#### ALDERMANIC CRASSITUDE.

Private corporation influence always stands ready to destroy, if possible, the results of any effort made by the people to relieve themselves from the tyranny and oppression of commercial monopoly. The members of modern corporations may be, and generally are, most estimable and amiable people, but the bond that unites them is on the lowest plane of their common nature, and the corporation that captures that bond is the embodiment of the united greed and selfishness of them all. In the city the ties that bind the citizens together are much more numerous and varied. Consequently a little humanity enters into the relations of a city in its dealings with other parties. But the same elements which make the commercial corporation such a dreaded influence are apt to creep into such a representative body as the city council. In no other way can the action of the city council on Monday night be accounted for, than as the result of the operation of influences other than a consideration of the interests of the city alone. And the unfortunate part of the affair is that many citizens think it perfectly legitimate to consult such influences, political or personal, rather than the interests of the city as a whole.

We can understand Ald. Maguire following the reactionary suggestions of The Globe, objecting to the appointment of a man who would be absolutely removed from all influence, and with whom no amount of wire-pulling or back-door influence would avail. An incorruptible commission does not suit the methods of the ward politician at all, whose career depends on deals and bargains and trades, in which the public is understood to lose nothing but competent service and efficient management.

But we cannot understand why Controller Hocken and Controller Spence, who both voted to appoint Mr. Ellis to the city commission on the board of control, should turn round and oppose the confirmation in council. It is freely stated on the street that Mr. Hocken wants the appointment himself. We believe were this the case he would have taken the proper course, resigned his controllership, and made his application. And he would have done so before voting to appoint Mr. Ellis. Mr. Hocken owes the public an explanation for such a quick change of mind. It is such quick changes that make the appointment of an able and stable-minded commission all the more necessary. Should the Toronto Electric Light Company decide to sell out to the city, Toronto will look an investment of \$10,000,000 to have after, and will not be able to afford any experimental opinions.

Mr. Spence seems to have forgotten the principle he is fighting for in the harbor commission. He would have been quite satisfied to let the Ottawa government appoint a majority of the harbor board, but allowed himself to be overruled. He does not believe the federal authorities would have dreamed of appointing any but a competent harbor commission had it been left to them, any more than we doubt the bona fides of the hydro-electric commission with respect to Toronto.

Another suggestion has been made that the Commonwealth Edison Company, a \$100,000,000 merger operating all over Taffion, is getting afraid of the power of Adam Beck, and desires to spend about ten million dollars in administering a knock-out blow to public ownership, as it begins to be successful in Ontario. Smash Toronto City Electricity and Ontario and the Whitney government are hopelessly ruined. That is the calculation. It might be worth ten cents on the dollar to do it, as a measure of insurance protection. But we doubt the Edison company's willingness to put up \$10,000,000 even to smash Adam Beck. It would take all that to do it, and then Mr. Beck might still be fit.

It is to such foreign influences that some are inclined to attribute the vote of Monday night. We have a more familiar and reasonable explanation which previous experience fully warrants. It is simply the aldermanic chucktheadedness.

Mayor Geary and Controllers Ward and Church must maintain their position with respect to Mr. Ellis. After Monday night's act of folly and a little consideration those thirteen may see their way to indulge in a little wisdom.

#### EXPRESS COMPANIES AND PARCEL POST.

Drastic action has been taken by the Dominion Railway Board in the case of the express companies. Their delivery limits arbitrarily fixed for years have been extended to all municipal areas and the rates for carrying cream have been cut from 25 cents to 15 cents

for a minimum distance of 50 miles on a minimum of five gallons, and other charges proportionately. The decision shows to what an extent the public have suffered in the past from the action of these companies, really the railway companies, of which they were adjuncts. Their reform is only beginning, but there will never be a real parcel service throughout the Dominion until one is established in connection with the postoffice. Canada is far behind in this respect, and the situation, as it now exists, is directly adverse to the interests of Dominion farmers, manufacturers and traders and the general body of consumers.

Lady Rodney, who has been for many years an active worker among the poor of London and the country districts, recently gave a summary of the information she has collected regarding the operation of the British parcel post. She reports many good results from it in helping to increase trade by facilitating the distribution of goods. Horticultural industry has benefited greatly and farmers and dairymen have largely increased their business. Cottage industries throughout England, Wales, Scotland and Ireland have all profited and their products are conveyed cheaply and speedily all over the kingdom. Complaint has only come from certain small shopkeepers in country towns of lesser importance, but the great mass, even of these, admit that the parcel post was the right thing and bound to come. Its rapid development in the United Kingdom is shown by the increase from 14,000,000 parcels in the first year of its adoption in 1883, to 118,190,000 in 1910. Outside the small trading community, public opinion is entirely in favor of the parcel post.

#### BACKWOODSMEN AND THE VETO.

One thousand amendments are said to have been offered to the bill restricting the veto power of the house of lords. In other words a direct campaign of obstruction has been begun in the hope that its submission to the peers may be delayed till after the coronation. The bill in principle is simple and the tactics apparently to be employed will not mislead the country. For the real question is whether the representative or the hereditary chamber is to determine ultimately the policy to be pursued. To that there can be but one answer if the majority of the people is to prevail.

Theoretically much can be said in favor of an impartial and competent revising chamber—practically and historically little or nothing can be said for an hereditary house of lords, at least since 1832. The franchise Reform Act of that year began the ever widening cleavage between peers and people—the classes and masses. During these eighty years, the house of lords has fought consistently for the retention of aristocratic and landed privileges, or if forced to yield at the point of the bayonet, has made its own terms of surrender. In this way the peers began to fill the cup of popular resentment, which, after being many times declared full, at last suddenly overflowed, with the rejection of Mr. Lloyd-George's first budget. Now they are on the horns of a dilemma and it would not be at all surprising if the backwoodsmen, doomed by their leaders to exclusion from the gilded chamber, preferred to retain their seats, even at the expense of having their house shorn of its veto power. It would only be human nature after all.

#### KNOCKING THEIR BEST ASSET.

The one live asset the Conservatives as a party have in all Canada to-day is the public power policy in Ontario. If Conservatives continue to help their enemies to smash it, it will soon be the end of Whitney rule in this province. Conservatives in the city council who are afraid of the hydro-electric commission's influence in the city's power policy, are afraid of Whitney and Beck. It is all right for The Globe and The Star to knock it, but why Conservatives?

#### FOR A FIFTH TERM.

CHICAGO, April 4.—Carter H. Harrison, Democrat, was elected mayor of Chicago to-day. It was the fifth time he had been given the office and his plurality was in the neighborhood of 18,000. Charles E. Merriam, his Republican opponent, conceded the election two and one-half hours after the polls closed.

Annexation propositions failed to get majorities in Oak Park and the Town of Cicero, but the Village of Morgan Park decided to join the city. The socialists polled nearly 24,000, a gain of 11,000 over four years ago, while the prohibition vote fell from 6570 to about 3000.

#### Want New Agreement.

WINNIPEG, April 4.—The Canadian Northern carmen, from Port Arthur to Edmonton, have given notice to the management that they wish to obtain a new agreement this year. The men are working in conjunction with the Canadian Pacific carmen. A meeting with the management will probably be arranged next month.

Re Wadsworth—G. F. Henderson, K.C., for executor. H. Ayleen, K.C., for widow. T. Lewis, K.C., for official guardian. A motion under C.R. 923 by the T. G. T. Corporation, executors of the last will and testament of J. A. J. Wadsworth, for the opinion, advice or direction of the court as to whether or not the said executors should allow to Rose Wadsworth, widow in the hands of deceased in addition to the provision made for her in his last will.  
Judgment: This case appears to me to be governed by the principles laid down by V. C. Kenderley in Gibson v. Gibson (1822), 1 Drew 42. The doctrine of election is precisely the same and founded on the same reasons, and governed by the same rules, when applied to dower, as when applied to any other case. The rule is that it must appear from the will that the testator intended to dispose of his property in a manner inconsistent with his wife's right to dower, a blending of the real and personal estate not for the purpose of its equal division, but in order to obtain an income out of which payments are to be made annually to his wife and other objects of his bounty is not enough. And the fact that in this case the share of the income to be paid to the wife is to be paid her for the maintenance of herself and the children makes against the contention. If the testator intended to purchase the dower, the widow would be given the price free from the obligation to maintain. All the provisions of the will can be carried into effect by regarding the will as operating upon that which was his own property. The widow, by asserting her claim, will not doct reduce the income, and it is two-thirds of the reduced income that is to be paid to her. Costs of all parties out of the estate. The executors, as between solicitor and client.

against defendant Pritchard. An action for the recovery of certain shares alleged by plaintiff to have been procured from defendant by fraud, deceit and misrepresentation of defendant. At the trial judgment was given against defendant Masters, for \$300 and costs on county court scale without set off, and dismissing action as against defendant Pritchard without costs. Appeal argued and allowed to the extent of reducing the damages to \$200. In other respects appeal dismissed. No costs of appeal.

Fraut v. Waddington—M. Macdonald, for defendant Grundy. R. G. Hunter, for plaintiff. An appeal by defendant Grundy from the judgment of the county court of York of March 17, 1911. An action to recover \$150, value of plaintiff's horse hired to defendant, alleged to have been overworked and unduly used by defendant, causing its death, and for \$50 for damage to plaintiff's wagon and harness and loss of stable requisites. At the trial judgment was given plaintiff against defendant Grundy for \$100, with costs and dismissing action against defendant Waddington without costs. On appeal to divisional court, this judgment was sustained and parties proceeded to tax costs. The taxing officer held plaintiff entitled to division court costs and on appeal to the county court judge, this ruling was reversed and plaintiff declared entitled to county court costs. This appeal is from that order of the county court judge. Appeal dismissed with costs.

An appeal by Catharine McCormick from the judgment of Britton, J., of Nov. 12, 1910, and Jan. 14, 1911. Judgment complained of was made upon and issue directed to determine whether Michael Fraser was at the time of the enquiry of unsound mind and incapable of managing his affairs as

was sought to be established by plaintiff in the issue. At the trial the judge found that Michael Fraser at the time of the enquiry upon the issue stated was not of unsound mind and was not incapable of managing himself or his affairs. Appeal partially argued, but not concluded.

### WEAK MEN, GIVE THIS BELT A TRIAL

AND YOU NEED NOT PAY UNTIL YOU ARE CURED.

Take my Electric Belt for what it will do for you. Wear it while you sleep at night or while you are resting after your work. You will find it a vitalizer, a tonic to your nerves, and you will never cease praising it.

I claim that I can cure weak men, that I can pump new life into worn-out bodies, that I can cure your pains and aches, lumber up your joints and make you feel as frisky and vigorous as you ever did in your life. That's claiming a good deal, but I have got a good remedy and know it well enough to take all the risk if you will pay me when you are cured. You can lose on this. If the cure is worth the price you don't have to pay for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood, that you haven't got an ache or pain in your whole body, and that you feel better than you ever did in your life, I get paid. If you can't say it after using my Belt for three months, then give me back my old Belt, and I won't ask a cent. All I ask is security while you use it.

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I had treated him honestly and wanted to pay me the cost of the Belt, because it couldn't be had any more. I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar more.

Dear Sir.—I wore one of your Belts for indigestion, and am pleased to say that I have had no trouble from this disease for some years, and have recommended your Belt to many of my friends.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no stinging or burning as in other belts), and you feel the morning feeling like a two-year-old.

Wherever you are, I think I can give you the name of a man in your town that I have cured. Just send me your address and let me try. This is my humanity, and I've got things in nearly every town on the map. If you come and see me, I will explain it to you. If you can't call, let me send you my book full of the things I can find inspiring to strength and courage. Free of charge. You send this ad.

Sir Edward Elgar and the
Sheffield Choir.
There can be no question of the success
of the Sheffield Choir performance
in Massey Hall last night. In spite
of the disastrous weather the hall was
well filled, close to three thousand
people being present, and they were
enthusiastic in their appreciation. Dr.
Harris and Sir Edward Elgar both
received hearty greetings on appear-
ing, and at the close of the cantata the
applause rose to an ovation, the
audience cheering and Sir Edward
being twice recalled. The choir was
even more enthusiastic than the
audience and applauded lustily. The
Toronto Symphony Orchestra distinguished
itself by perhaps the finest
performance it has given, and the
training of Frank Weisman and the
bassos of Sir Edward secured a most
notable result, which evidently pleased
H. C. Cox, the guardian angel of the
organization.

The Sheffield Choir is quite a new
combination, and very much superior
to that which appeared here two years
ago. Perhaps a little better balance
between the male and female parts would
be an improvement, or perhaps the
sopranos and contraltos had a little
the better of the scoring last night.
The choristers sang with confidence,
and the sopranos especially displayed
the full-bodied tone on which English
choral work is grounded. In the for-
tissimo passages there is a tendency
to shrillness, but much of this was
also evident in the softer sections.

"The Dream of Gerontius" is a setting

Newman's poem of the same title. It

abased, and asks to be borne to the
lowest deep until his expiration is over.
The 19th Psalm is quoted and applied
to this peculiarly fitting verse:
"Thou turnest man to dust, and sayest,
Return, ye children of men."

As a devout churchman, Sir Edward
Elgar finds in this theme abundant op-
portunity for suitable and beautiful
music, and his inspiration does not err
in the least. The music is in some ways
more pleasurable from the orchestra than
from the declamatory recitatives of the
solo parts almost wholly
conducted by the orchestra. The
effect was electric, and the sustained
high note in the last word of the tune,
"Prise," was most wonderful. It dis-
played the soprano in their most bril-
liant and effective effort.

The overture is of some length, com-
posed of three themes which form the
groundwork of the composition. The
score is Wagnerian in manner and
in the manner of the orchestra. In the
prelude the orchestra appears in
subsequent dominant thought appears to
be the text: "It is a fearful thing to
fall into the hands of the living God."

Nothing more exquisite has ever been
heard in the world of music. The
orchestra sang with confidence,

FIELDING CLAIMS BIG
SURPLUS FOR 1909-10

Continued From Page 1.

for the Dominion," said Mr. Fielding,
amid Liberal applause.

Analyzing the expenditures for 1909-
10, the minister of finance said that
\$35,971,914 had been spent upon capital
or special accounts, nearly two-
thirds of which was provided out of
the revenue for the year, the balance
added to the national debt was \$12,
385,271.16. Out of that income was
also paid the ordinary expenses of what
is called consolidated fund, all the
charges for railways and canals, for
public works on capital account, rail-
way subsidies, charges on Dominion
lands, charges for militia on capital
account, all bounties and \$7,000,000 to-
wards the cost of the national trans-
continental. In that year \$19,968,000
was spent on the national transcon-
tinental.

A Prosperous Year.
Summing up the fiscal operations of
the year 1909-10, Mr. Fielding said:
"That year was a very prosperous one.
First, it was prosperous in the matter
of liberal revenue; second, that the
expenditure chargeable to consolidated
fund showed a substantial reduction,
and, third, in the fact that, although
the national debt had increased, we
were able to provide for nearly
the whole of it out of our revenue,
making an addition to the public debt
of only \$12,385,271.16. This was a moderate one
of the year, was a moderate one.

Turning to the statement of the year
1910-11, which has just closed, the
minister of finance said that he would
be able to estimate even more closely
than in previous years, although it would
be difficult to say exactly how much
more. "We estimate," he said, "that when
the accounts are closed, the revenue
for the year 1910-11 will be \$117,500,000,
and the expenditure chargeable to
consolidated fund to March 31, is \$75,
590,185.74. With regard to the latter
sum, he estimated that the total ex-
penditure chargeable to that fund, when
the books are finally closed, would be
about \$7,000,000. This would be an
increase over the previous year of \$1,
500,000.

Explanation of Increase.
Referring to the apparent increase,
Mr. Fielding pointed out that during
the year the government had made a
change, and that such items as militia,
Dominion lands, and the amounts for
the naval service which had been
chargeable against capital account,
would be transferred to income. Of
these items, the amounts for militia,
\$1,289,444; Dominion lands \$398,171; naval
\$1,369,211. Taking these amounts into
consideration, it would appear that the
total estimated revenue for the year
ended March 31, 1911," declared Mr.
Fielding, "is placed at \$117,500,000. The
estimated expenditure chargeable to
consolidated fund will be \$7,000,000, and
this will give us a surplus of revenue
over the ordinary expenditures of the
government of \$9,500,000." (Liberal
cheers.)

There were circumstances, explained
the minister, which characterized a large
surplus of such a character would be
open to criticism. It was the result
of increased or burdensome taxation, it
would be open to criticism. But in
this instance the rates of taxation were
lower than before, but owing to the
favorable conditions of the country,
the amount collected was larger. The

rates of customs taxation were, he de-
clared, lower than in previous years.
Paying Off Capital Charges.
"When this surplus comes to us from
a system of taxation which is not open
to the charge of being generally bur-
densome, I think we do well to take
the surplus obtained in this way and
use it in paying for the ordinary ex-
penditure of the government, and other
of our capital and special charges, which
otherwise would have to be replaced
by additions to the public debt," he said
amid Liberal applause.

Dealing with the various expendi-
tures, which are chargeable to capital
or special account, Mr. Fielding stated
that for the year just closed, the es-
timated expenditure on the national
transcontinental was \$27,000,000. The
total expenditure, he thought, would be
\$24,000,000. As closely as he could es-
timate the expenditure on public
works, railways and canals, the railway
subsidies, bounties and other minor
charges of a special character would
be \$11,000,000.

These two amounts combined would
make an expenditure on capital and
special account of \$38,000,000. Setting
against that the sinking fund of \$11,000,
000, the net amount added to the public
debt will be only \$27,000,000.

Mr. Fielding said that, applying the
public debt to population, the per capita
debt of Canada in 1910 was \$49, in
1910 it was \$44, and in 1911 it was es-
timated that it would be \$43. These lat-
ter figures were based upon the esti-
mated population, but the actual figures
of population furnished by the
census office at 7,489,781 in 1910 and
7,785,000 in 1911.

Another interesting calculation he
made was that 20 years ago it would
have taken six years of net revenue
to pay off the national debt, ten years
ago it would have taken five years, and
the net revenue, whereas at the present
time it would only take three
years.

With regard to the sinking fund,
Mr. Fielding explained that in the early
history of the Dominion it had been
paid for by the sale of land, but since
then it has been paid for by the sale
of all loans. After 1885 that policy had
been discontinued, sinking funds were
abolished, and for many years from
that year it was one hundred and one
million, and next year it was es-
timated at one hundred and seventeen
million. He disclaimed altogether from
the statement that the burden and the
rate of taxation had not been raised by
the present government. Taxation per
capita, he declared, was higher than
in 1896.

As to the surplus, Mr. Foster said
that it was a considerable degree
of surplus, for instance, a reduction of
dollars which during the past
two or three years had been realized
in the past a ministerial tariff commis-
sion had toured the country, getting
information of which they had only a
very faint recollection when they undertook
to revise the schedules. The result
was that tariffs were made by rule of
thumb, and it would continue to be
so until a scientific commission was
appointed.

None of Our Business?
During the preliminary proceedings
of the preliminary proceedings,
Mr. Fielding, East Lambton, asked
whether the government had any
regarding a statement reported to have
been made in the British house by Sir
Edward Grey to the effect that the
British government had made a com-
mand on the United States govern-
ment that the tariff concession grant-
ed to Canada would have to be granted
also to Great Britain and all the
British colonies.

Mr. Fielding replied that that was
a matter between Sir Edward Grey
and the British ambassador. He
was not aware of such a message, and
any message of that nature would have
no right to negotiate in such a matter.

Fisheries Overseas.
A prolonged debate occurred in sup-
ply after the budget had been dis-
posed of, with reference to a vote of
\$227,500 for the payment of salaries of
fishery inspectors and overseers ap-
pointed by the Dominion government.
The members objected to the
appointment of officers to enforce laws
that were already administered by the
provinces.

Mr. Clark (South Essex) claimed
that the Dominion officers were neces-
sary in Ontario because the law was
so poorly administered by the provin-
cial government.

Messrs. Blain (Peel), Middleboro
(North Grey), Taylor (Leeds), Dr.
Bellefleur (East Grey) and Col. Talbot
(Bellefleur) estimated that the govern-
ment that they were inaugurating a
dual authority that was unneces-
sary, and which was a sore and a
cause in the Province of Quebec.

Hon. Mr. Brodeur said it was im-
possible to bring about a settlement
of the difficulty.

A. C. Boyce (West Algoma) did not
agree with the minister. There was at
present, he said, a conflict of jurisdic-
tion, and fishermen would be forced
to pay two license fees and submit to
two sets of regulations. Both parties to
the dispute should be willing to get
together. Dominion officers instead
of performing their proper
duties.

Glen Campbell (Dauphin) moved
that the item be struck out of the
estimate, and a vote for the moment
seconded.

Dr. Edwards (Frontenac) remarked
that while the Ross government was
in power in Ontario the Laurier gov-

ernment took no pains to protect the
fisheries. He asked that the item be
allowed to stand. The minister assented
to this and a wordy war was
averted.

Mr. Foster also strongly urged upon
the government the necessity of the
appointment of a tariff commission.
He said when the Canadian ministers
went to Washington the American
ministers were supplied with elaborate
statistics, while the Canadian minist-
ers had practically nothing. A pro-
fessionally qualified commission should
first make a study of the situation, and
then make recommendations. The result
of the commission should be a list of
all requests for tariff reductions to the
factories, the transportation compa-
nies or at the door of some one else. In
the past a ministerial tariff commis-
sion had toured the country, getting
information of which they had only a
very faint recollection when they undertook
to revise the schedules. The result
was that tariffs were made by rule of
thumb, and it would continue to be

appointment of officers to enforce laws
that were already administered by the
provinces.

Mr. Clark (South Essex) claimed
that the Dominion officers were neces-
sary in Ontario because the law was
so poorly administered by the provin-
cial government.

Messrs. Blain (Peel), Middleboro
(North Grey), Taylor (Leeds), Dr.
Bellefleur (East Grey) and Col. Talbot
(Bellefleur) estimated that the govern-
ment that they were inaugurating a
dual authority that was unneces-
sary, and which was a sore and a
cause in the Province of Quebec.

Hon. Mr. Brodeur said it was im-
possible to bring about a settlement
of the difficulty.

A. C. Boyce (West Algoma) did not
agree with the minister. There was at
present, he said, a conflict of jurisdic-
tion, and fishermen would be forced
to pay two license fees and submit to
two sets of regulations. Both parties to
the dispute should be willing to get
together. Dominion officers instead
of performing their proper
duties.

Glen Campbell (Dauphin) moved
that the item be struck out of the
estimate, and a vote for the moment
seconded.

Dr. Edwards (Frontenac) remarked

The Presbyterian Churches of Toron-

upon an active crusade in behalf
of temperance and morality. At
yesterday's meeting of the presby-
tery he asked that the item be
allowed to stand. The minister assented
to this and a wordy war was
averted.

Mr. Foster also strongly urged upon
the government the necessity of the
appointment of a tariff commission.
He said when the Canadian ministers
went to Washington the American
ministers were supplied with elaborate
statistics, while the Canadian minist-
ers had practically nothing. A pro-
fessionally qualified commission should
first make a study of the situation, and
then make recommendations. The result
of the commission should be a list of
all requests for tariff reductions to the
factories, the transportation compa-
nies or at the door of some one else. In
the past a ministerial tariff commis-
sion had toured the country, getting
information of which they had only a
very faint recollection when they undertook
to revise the schedules. The result
was that tariffs were made by rule of
thumb, and it would continue to be
so until a scientific commission was
appointed.

None of Our Business?
During the preliminary proceedings
of the preliminary proceedings,
Mr. Fielding, East Lambton, asked
whether the government had any
regarding a statement reported to have
been made in the British house by Sir
Edward Grey to the effect that the
British government had made a com-
mand on the United States govern-
ment that the tariff concession grant-
ed to Canada would have to be granted
also to Great Britain and all the
British colonies.

Mr. Fielding replied that that was
a matter between Sir Edward Grey
and the British ambassador. He
was not aware of such a message, and
any message of that nature would have
no right to negotiate in such a matter.

Fisheries Overseas.
A prolonged debate occurred in sup-
ply after the budget had been dis-
posed of, with reference to a vote of
\$227,500 for the payment of salaries of
fishery inspectors and overseers ap-
pointed by the Dominion government.
The members objected to the
appointment of officers to enforce laws
that were already administered by the
provinces.

ZAM-BUK AND A MIRACLE
OF HEALING

Over and over again Zam-Buk has per-
formed a miracle of healing when applied
to sores and skin injuries which refused
to heal under any other form of treatment.
Why not let it heal your trouble? Immedi-
ately Zam-Buk is applied to a sore or wound
or diseased portion of the skin, its
powerful and penetrating action
works in two directions. It sooths the
torment, and its antiseptic properties prevent
any germs and bacilli from creating trouble.
Then the healing process penetrates the
purified and concentrated, penetrate the
subject's layers and stimulate the weakened
or diseased cells to active, healthy operation.
These cells then put forth the building
products and replace the diseased outer
layer with fresh and healthy tissue.
By agreeing the whole diseased surface is thus
replaced by new healthy skin.

In this way Zam-Buk cures cuts, burns,
bruises, ulcers, abscesses, itchy eczema,
eruptions, pustules, scurf, scabs, rashes,
bleeds, and other forms of skin trouble.
Zam-Buk also cures piles, hemorrhoids,
etc. All druggists and stores sell at 50c per
box, or from Zam-Buk Co., Toronto, for
price, 6 boxes \$2.50.

York County and Suburbs

TORONTO GAINS BIG POINT IN NEW ROAD

Town Pays \$15,000 For Fine New Outlet—Cemetery Will Not Stand in Way of Progress—Agreement Gives General Satisfaction—Town Will Endorse It.

The long standing and apparently interminable struggle resulting from the efforts of the York Township and the North Toronto Council, aided by the private committee of the legislature, to force a roadway thru Mount Pleasant Cemetery has at last been crowned with success, and yesterday afternoon in the Toronto Burying Grounds Trust Company a deal mutually satisfactory to each was put through.

The meeting yesterday, together with the council of York Township last night, among the members of the North Toronto Council, and similarly the resolve and council of York Township last night the town was hailed with the greatest satisfaction, and it is safe to say that not for many years has any wholly municipal event given greater delight.

The action of the Cemetery Trust, too, in agreeing to a settlement of the whole complex question without recourse to legal proceedings, and especially in view of the fact that substantial and commercial objections might have been urged, was most favorably commended upon by the representatives of the two municipalities.

The meeting yesterday, attended by D. E. Thomson, K.C., and William Davidson, representing the Toronto Burying Grounds Trust, and R. L. MacKinnon, K.C., representing York Township, and J. A. Gibson acting in the interests of the Town of North Toronto, together with these gentlemen was E. H. Keating, C.E., who is acting in an advisory capacity, along with the representatives of the Burying Grounds Trust.

The cemetery authorities agree to turn the cemetery over to the town, and the town agrees to pay the cost of the necessary way, and the erection of the necessary roadways, and in keeping with the agreement, the town will also pay the cost of the necessary way, and the erection of the necessary roadways, and in keeping with the agreement, the town will also pay the cost of the necessary way, and the erection of the necessary roadways.

GRIPPE FROM RHEUMATISM

NOW IN PERFECT HEALTH THANKS TO 'FRUIT-A-TIVES'

Vancouver, B.C., Feb. 1st, 1910. "I am well acquainted with a man, known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from Rheumatism. He was so troubled by the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly walk up stairs.

"Last June, he received a sample of 'Fruit-a-tives'. He used them and dates his recovery from that time. To-day, there is no man in Vancouver enjoying better health.

"He was building a house this fall and shingled a good part of the roof in a driving rain, without suffering any bad effects." JOHN B. LAURY, Mr. E. E. Mills (assistant postmaster at Vancouver, Que.), also writes: "I honestly believe that 'Fruit-a-tives' is the greatest Rheumatism cure in the world." Try it yourself. Send a box, 6 for \$2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

and well-grounded plea last night for the conserving of two or three fine shade trees on Montgomery-avenue, between the intersection of the street and the railway, and the removal of the improvements on that thoroughfare, it will be necessary to remove. He made much of the claim that before another meeting of council the frost would in all probability be out of the ground, and it might then be too late. Council must also be strongly in favor of the removal of the shade trees in town. "Do not wantonly destroy a single tree which can be preserved," said Mr. Murray, and a night of the coming year. In the improvements, such as electric lights and sidewalks, a great deal of which will be made imperative, as to the order of maple and all other shade trees. It ought to be the first object to wantonly destroy any tree.
