Acres of Furniture.

Almost nobody has any adequate idea of the vast amount of Furniture we own. Row after row, style after style—a superabundance of everything you're likely to want, and not an unworthy piece in the lot. The emphasis of Furniture selling in February makes prices very much lower. It would take the whole paper to illustrate all the special lines, and with so much that deserves mention the merest suggestion must answer.

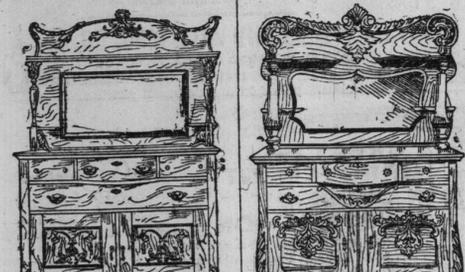

Monday begins the second week of the Furniture Sale, and shoppers can judge the stock by sideboards as well as anything. These items give the trend to values in Furniture of every sort. Keep the prices in mind:

This Sideboard is made of select oak and finished antique, it has two drawers and one large linen drawer, is 6 feet high, 22x48 inch top, with 18x24-inch bevel-plate mirror, and is nicely carved, regular price \$11; February sale price \$8.50.

Solid Oak Sideboard, strongly made, well finished, bottom 48 inches wide, with three drawers and cupboard, top with 18x24-inch bevel-plate mirror, nicely carved, regular price \$11.50; sale price \$10.00.

Quarter-cut Oak Sideboard, hand-carved and nicely finished, with well-shaped top 48 inches wide, has an 18x24-inch bevel-plate mirror, drawers and doors are all fitted with locks; this is extra good value at \$13; February sale price \$10.50.

Quarter-cut Oak Sideboard, hand-carved and nicely finished, with well-shaped top 48 inches wide, has an 18x24-inch bevel-plate mirror, drawers and doors are all fitted with locks; this is extra good value at \$13; February sale price \$10.50.

If you live out-of-town send for Furniture Catalogue. Easy enough to order by mail if you know how. If you want to know we'll show you.

PROPOSED MINING LEGISLATION.

What is said to have been the most representative gathering of mining men ever seen in Montreal was held at that city on Tuesday. It was the annual meeting of the Federated Canadian Mining Institute, and among those present were mining engineers and mine owners from all over the Dominion, as well as professors of mining and mining experts from the principal universities of the first day. The principal feature of the first day was an animated discussion on the promotion of wild-cat mining schemes. The meeting was in favor of legislation for the punishment of persons guilty of fraudulent practices in connection with the formation of mining companies, and a resolution was unanimously carried appointing a committee to confer with the Minister of Justice to have the Criminal Code amended so as to meet the requirements of the case. A second day was carried over to the afternoon, and the meeting was devoted to the consideration of the proposed legislation for the purpose of securing as much uniformity as may be practically obtainable for affording increased protection of the rights of shareholders and for promoting the general prosperity and safety of the mining industry. Dr. Selwyn's suggestion are exactly in line with suggestions recently made by the World for the protection of the public and the advancement of legitimate mining. Able committees have been appointed to confer with the Federal and Provincial Governments, and it is very likely that protective legislation will be enacted during the coming sessions of the House of Commons and the various Legislatures. The efforts of the Institute to keep the business of mining in this country on a respectable footing will be complimented by the whole community.

ANOTHER SUBJECT DISCUSSED AT THE MEETING OF THE INSTITUTE.

Another subject discussed at the meeting of the Institute was the system of land-grabbing that has developed on the Ontario mining laws. Mr. De Mores of Sudbury urged that the Ontario Mining Act should be amended so as to ensure the working of all mineral claims taken up. The present Act was defective in that it made no provision for the working of mineral properties when the minority proprietor or other interest would not be a party to or accept any reasonable proposition for the sale or working of such minority interest. Mr. White, Q. C., suggested that the Act should be amended so as to prevent any company or individuals holding mineral claims that they were prepared to work. He pointed out that in the Sudbury district large deposits of nickel were blanketed, held only to prevent competition. The Remy River country, Mr. White might have truly added, is much more extensively blanketed than the Sudbury district.

THE ESTABLISHMENT OF A NATIONAL MUSEUM WAS REPORTED FAVORABLY BY THE INSTITUTE.

The establishment of a National Museum was reported favorably by the Institute. A deputation has been appointed to interview the Dominion Government with a view to obtaining assistance for the project. The Quebec Government promises a grant of \$2500 towards the project, presumably on the understanding that the Museum will be located in Montreal. What is the matter with Toronto as a site for the proposed Museum? What does the Ontario Government propose to do to make Toronto the leading mining centre of the Dominion? The city has taken the lead so far. Why should not a genuine effort be made to retain its supremacy?

ECONOMY RECOMMENDED.

The York County auditors make some sensible recommendations for decreasing the cost of the administration of justice in this country. We learn from their last report that the annual cost of grand juries in York County ranges from \$2000 to \$3000. There are seven panels drawn during the year, and each of these panels religiously visits the various public institutions in the county and makes up a stereotyped report to the presiding judge. These inspections are also made by the auditors. The auditors know in advance the exact date that the jury intends visiting them and of course everything is done in apple-pie order when the delegation arrives. Aside from this, the Provincial business is to inspect these institutions. The county could save \$700 or \$1000 a year by abolishing this superfluous custom. The auditors go still further in regard to the grand jury, and suggest its abolition altogether. The grand jury could be safely left to police magistrates or other Crown officers. The per diem allowance to the grand jurors is not the only expense connected with the system. The fees to the Crown counsel and other officers probably amount to as much as the jurors' fees. As for the petit jury, the

THE TORONTO WORLD

expense of this service in 1894 amounted to \$31,856. The auditors recommend the County Council to interview the Government about the expediency of making more haste in the despatch of jury court business. While it might not be safe to dispense with the jury system, the time has certainly arrived when the panel could be reduced from 12 to 10 that number.

The county is charged \$196 a year for the work connected with the selection of jurors. The auditors contend that this work could easily be done in two days, whereas it is spread over nine or ten days during the sittings of the General Sessions. The Sheriff and Clerk of the Peace are drawing double fees while the selection is going on, and consequently it is in their interest to spread the work over as many days as possible. The work is almost wholly clerical and responsible men could be selected to do the work. The county has to pay eight times that amount for the service.

DR. SELWYN REBUTED.

Dr. Selwyn spoke very pessimistically in regard to the future of Canada's mining industry. The convention of mining men held in Montreal the other day. It is satisfactory to learn, however, that none of the many other experts who were present agreed with him. On the contrary, they spoke an optimistic word for the future. Dr. Selwyn pointed it in black colors. Dr. Selwyn is one among a hundred in his opinion of Canada's mineral resources. Who except himself can be found to make the statement that Canada is essentially an agricultural country? We hardly think the Doctor should be taken seriously in this matter. No sooner had he expressed himself in this way than he was challenged by the leading men in the convention. Mr. W. H. Merritt refuted Dr. Selwyn's views, and expressed his firm belief that Canada was destined to become one of the greatest mining countries of the world. Dr. Dawson, the head of the Geological Survey of Canada, also took occasion to differ with Dr. Selwyn in his opinion of the future of the mining industry in Canada. He said he had the greatest confidence in the country as a whole, though, of course, there were distinctions. Manitoba and the Northwest, for instance, could not be considered rich in minerals. He said that the greatest hope of the country. There was no reason to doubt that it was as rich in minerals as the great belt to the south, which was producing nine-tenths of all the mineral wealth of the United States. He possessed a poetic and sentimental imagination. The public clearly appreciate the popular idea of the concert, which was first advanced by the World. There is every indication that on Monday, at 22nd, Madame Albani will be the guest of the evening. The concert will be given in numbers and enthusiasm. The concert will be given in numbers and enthusiasm. The concert will be given in numbers and enthusiasm.

A RUSH TO REAR ALBANI.

There was quite a rush at Massey Hall when the advance list for the Albani concert opened yesterday morning. The public clearly appreciate the popular idea of the concert, which was first advanced by the World. There is every indication that on Monday, at 22nd, Madame Albani will be the guest of the evening. The concert will be given in numbers and enthusiasm. The concert will be given in numbers and enthusiasm.

SEWING.

Of all the great plannets who have visited these shores, Sewing is playing is said to be more like Paderewski than any other virtuoso. Sewing is playing is said to be more like Paderewski than any other virtuoso. Sewing is playing is said to be more like Paderewski than any other virtuoso.

THE BELLS OF SHANDON.

Mr. Reagan, the sweet singer, has been the star of the evening at the Toronto Opera House all week. A "baritone" after the fashion of the "Bell of Shandon" will close with the usual performance tonight.

TORONTO OPERA HOUSE.

"Kidnaped," a comedy-drama, which has not been seen here for several years, is the first production of the Toronto Opera House. It has many realistic and thrilling situations. The characters are seen in the comfortable elegance of a quiet home. The play is a very good one. The author of the piece, will be seen in the title role. The play is a very good one. The author of the piece, will be seen in the title role.

BILOU THEATRE.

One of the star attractions at the Bijou Theatre next week will be the celebrated child character artist and impersonator, Mr. A. J. Langille, who will introduce his new song, "My Doll's Hugenot Tor." This quaint little ditty has been a constant success wherever sung by this clever little girl.

"MY FRIEND FROM INDIA."

The two last performances of "My Friend from India" will be given at the Grand Theatre after the usual performance. The comedy is well worth seeing.

Wine and Spirit Vintals.

Parties desirous of rolling their wine cellars would do well to pay a visit to the underground wine and spirit vaults. They have a fine selection of fine old ports from Sandeman, Graham's, Huish's, Taylor and Flood, and comprehensive address, stated in this connection that the rack of wine and spirit vaults was 1,200, while that of fourteen of the leading companies doing business here is 2,000. The relatively large surplus fund now held by the company is a practical proof of the ability of the company to make satisfactory return to its members in the future. Under the present policy, while the large amount paid by the company on policy-holders has been a great success, it is a matter of a quarter of a million dollars. The company is a practical proof of the ability of the company to make satisfactory return to its members in the future. Under the present policy, while the large amount paid by the company on policy-holders has been a great success, it is a matter of a quarter of a million dollars.

A Nice Case of Abuse.

Editorial: The case was until last week a scholar in the Phoenix-street school, but his teacher, a Miss McCright, informed him that he had committed a misdemeanor and that he must receive eight stripes from a strap on the hand. Now, as the boy is very delicate, I had told him not to allow the teacher to punish him, but he was so afraid of the teacher that he did not do so. When the teacher was told this she sent the boy to the principal, and after hearing the facts, sent the boy back to the teacher with a note, under the impression that the boy was his first offense. The boy was sent to the school for a week, and the teacher refused to do so. The boy was sent to the school for a week, and the teacher refused to do so. The boy was sent to the school for a week, and the teacher refused to do so.

Seize Thieves Work Over-Time.

Seize thieves are still working overtime. A pair of fur gauntlets were stolen from a man's pocket by a thief who was caught by a watchman. The thief was caught by a watchman. The thief was caught by a watchman.

PUBLIC AMUSEMENTS.

SOUTHERN NEXT WEEK.

The engagement of E. H. Sothen at the Grand next Monday, Tuesday and Wednesday promises to be the most successful of the season. The play is a very interesting one, and the cast is large, which indicates crowded houses at every performance. "An Enquiry into the History of that Accursed Period, the History of the French Revolution, the aid of sharp, crisp dialogue, and from beginning to end the attention of the audience is held by a succession of striking incidents. There is plenty of action which makes the play a very interesting one. The play is a very interesting one, and the cast is large, which indicates crowded houses at every performance.

THE CALVINISTIC STERNNESS THAT USUALLY CHARACTERIZES Knox College was in no sense visible last night at the annual at home.

QUEBEC POSTMASTER WHO LIVED A DOUBLE LIFE.

STAUNCH CHURCH MEMBER

And Was Short in His Accounts by Several Thousands.

The Revelations Did Not Come, However, Until He Was Past All Chance of Earthly Punishment—Butter and Cheese Men Get Gratifying News From Hon. Sydney Fisher—Railways and Steamships Will Have Cold Storage Facilities for Next Summer's Business.

Montreal, Feb. 5.—(Special.)—Some months ago there was general regret felt in St. John's, Que., and throughout the Eastern Townships, over the death of Mr. James Macpherson, who had been postmaster of St. John's for many years past, yet had these same people known as much then as they do to-day they would have thanked Providence for permitting the veteran postmaster to die at that particular time. Had he, in fact, postponed his demise a few months, disgrace and dishonor would have come to an eminently respectable family, so the postmaster's death was exceedingly opportune. When the new postmaster took office an examination was made by the inspector, with the result that a shortage of between \$400 and \$500 was discovered. It is understood that the default was brought about by a skillful manipulation of the Postal Savings Department accounts. As Mr. Macpherson in his lifetime was a staunch church member, the discovery of his double life has been a great shock to the community.

COLD STORAGE IN SIGHT. There was an important meeting of the Butter and Cheese Association today. Hon. Mr. Fisher having expressed the desire to talk over the cold storage business with the members. The Minister of Agriculture made an important announcement respecting cold storage plants. A very large number of creameries had been completed by which the railways would themselves provide an ample service of refrigerator cars, a large number of which were now being built, and arrangements had been made with steamship companies by which four steamers fully equipped with cold storage would leave Montreal at regular intervals. This would afford a complete chain of cold storage from the producer to the consumer in Britain.

DARKNESS AND DESPAIR.

Knox College Alumni Say This is the Teaching of the Old Testament—They Cannot Preach It.

The Knox College Alumni Conference closed yesterday. The most interesting paper read was that by Rev. M. McGregor of Tilsonburg, on "The Christian Doctrine of Immortality." The discussion that followed, Rev. Mr. Haddow, a young man of big ideas, gave expression to some rather startling opinions. He could not reconcile the statements in the Bible with the commonly accepted beliefs of the church. He said the Bible taught that the dead were in some place, a kind of dark world, from which they must be raised. In accordance with this, we were taught the importance of the resurrection, and that, if Christ were not risen, then our teaching and belief were in vain. We spoke to friends of deceased Christians as if the latter were living in immortality, when both Christ and Paul pointed us to a necessary resurrection before that could take place. Rev. Mr. MacNair even went further than Mr. Haddow. He said the Old Testament spoke of the future state of souls whether good or bad as Sheol, a pit in the centre of the earth. The saints of the Old Testament feared both the grave and Sheol. Did the New Testament enlighten us on this point? He thought the Old Testament writers taught a doctrine of despair. He did not think there was much left in the Old Testament that was authoritative, right and true concerning the presentation of the future. He thought that the Old Testament bore the same relation to every other doctrine of the Christian religion. He did not see how he could preach sermons from the despairing words of the Old Testament, which presented human instead of divine ideals. Other speakers thought the Old Testament spoke of darkness, but not of despair.

ALL FROM A SNOWBALL.

A Boy Hit One Horse Which Ran Away and Started Three Others—The Boy's Father Shot Himself.

St. Paul, Minn., Feb. 5.—The 13-year-old son of Peter J. Dreis, the oldest druggist in St. Paul, and one of the leading politicians, yesterday threw a snowball at a man in a cutter, the ball striking the horse and causing it to run away. This runaway resulted in three other runaways, which caused damage to the property of the injured people called at the drug store of Mr. Dreis and demanded that he pay damages. Without making any answer, he walked into the office at the rear of the store, put a revolver behind his right ear and fired. Death was instantaneous.

S. O. E. Anniversary.

Lodge Hammersmith, Sons of England Benevolent Society, celebrated its anniversary at Dominion Hall by a handsome supper and entertainment. F. S. G. P. ex-Alt. Swait occupied the chair, and in the course of some remarks referred to the good work being done in upholding British influence by the S. O. E. in South Africa. A long toast list was done, including the names of the following: Dr. Norman Allen, Captain Vennell and Charles Dalby all referred in complimentary terms to the success of the lodge. A splendid musical program was rendered by Messrs. Theubald, Switzer, Lilley, Meach and others.

Young Girl Gets Damages.

Justice Robertson summed up the case of Call, the newborn, against the Street Railway Company yesterday. This charge was very strongly in favor of the company. The jury of whom Mr. J. W. Moore was foreman returned a verdict of \$800 for the child and \$400 for the father's expenses. A lengthy argument ensued on the motion for judgment, the company's counsel contending that judgment should be entered for the defendant.

Methodist Deaconess Board.

The regular monthly meeting of the Methodist Deaconess Board was held in Wesley Building yesterday. The matter of employing additional deaconesses and the consideration of the Massey bequest to the Methodist Deaconess Home occupied the attention of the meeting.

WAR EAGLE AN BARBER.

Mr. Volney D. Williamson Comes to Toronto to Talk Business With Messrs. Gooderham and Blackstock.

Volney D. Williamson, one of the most expert and best known mining men of British Columbia, is in town conferring with Messrs. George Gooderham and T. G. Blackstock. Mr. Williamson is superintendent of the Crown Point mine, and one of the objects of his visit is to discuss with the principals the operation of the properties of the now famous War Eagle Consolidated Company. Since the War Eagle mine has been taken by Messrs. Gooderham and Blackstock, Mr. Williamson says the cost of operation has been greatly reduced, and all the properties of the company to now being operated at the same cost as the War Eagle alone. Mr. Williamson shares with Mr. T. G. Blackstock an abiding faith in the Crown Point property, and he will be very glad to go steadily on, and the ore body are well defined and regular shipping can be made. Mr. Williamson says that Mr. J. H. Hastings, who is in charge of the mine, is a very capable man, and the general impression that the new company bought the property of the War Eagle mine is that the great advantage it will be to the district is that the new owners are men who are the new owners to become interested in the business of the mine. Mr. Williamson has quite a number of personal interests in the business of the mine and has a high belief in the future of the camp.

WORK ON RED EAGLE.

Coal Pay Ore Continuing Down From the Surface—What The Eastenders of Jan. 26 Sars.

On the Red Eagle work is being pushed vigorously by a double shift, both in the tunnel and in the shaft. This promising property is situated in the south belt, due south of Rossland, one and one-quarter miles. The track one and one-quarter miles. At present a shaft is being sunk on one of the levels, and within 50 feet of the shaft, a well-defined pay streak of ore has appeared, which has the same appearance and assays equally as high as the ore on the foot wall. It was on the surface of this ledge where the shaft was got. Across the creek, and about 40 feet from the shaft, a crosscut tunnel is being driven, and a roadway is being cut on the second ledge. This tunnel is about 40 feet, and is expected to be on the surface in 10 feet more. As soon as this is done a shaft will be started on the surface to the level of the ledge. The four distinct and parallel ledges cross this property, one of which is the Maxwell ledge. The Toronto Mining Agency, 69 Young-street, are handling Red Eagle stock.

Pure Milk in Toronto.

The action taken by the Local Board of Health regarding the Hoarding of milk dealers, and a vote of thanks to Dr. Bryce, the Provincial Health Officer, who said yesterday that the world had been understood regulations, were now being made by Dr. Sheard, with whom he had had consultation as to making the Act, which had not been enforced, effective in practice. He said it had been arranged that a sample had been given to the milk vendors and the producers in the country to have their herds tested, during which time temporary permits will be granted. The Director is of opinion that progress in the country should be glad to avail themselves of the generous action of the City Board of Health in granting temporary permits, and should take such steps as required at once so as to relieve the board from taking proceedings against them.

The Ontario Gold Fields.

The Ontario Gold Fields Mining and Development Company (Limited) report large sales of the second issue of stock at 10c. The extraordinary success which the first issue received proves that the company have the confidence of the investing public. The Ontario Gold Fields Mining and Development Company (Limited) report their stock very much increased in value, because they have now the necessary capital to prosecute the work of acquiring and developing properties on the most favorable terms. The company intimate that they will have in a few days something to announce that will be very interesting.

Fire Rates to be Increased.

The fire insurance companies are about ready to increase their rates throughout the country. The ratings of all the towns throughout Ontario and Quebec are to be revised. In most places the classification is being decreased, which means that the rates will be increased. It is what we are doing in the majority of cases. In what an insurance man means by increasing the rates is that the reason given by the insurance companies for increasing the rates is that many of the towns are not provided with fire equipment up to the standard required by the underwriters.

Fifty Years Ago.

This is the way it was bound to look when grandfather had his "pictor took." These were the shadows cast before the coming of Conjuror Daguerre. And his art, like a girl in a pinafore, some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

Ayer's Sarsaparilla

began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record: 50 Years of Cures.

CHRISTLY WORK OF NURSING.

Annual Meeting of the Mission-Interested Particulars of Its Benevolent Operations.

The largest attendance of any Nursing Home Mission meeting ever held was present at its tenth annual meeting yesterday. Rev. T. C. DesBarres occupied the chair, and the president's report, submitted by Mrs. Brodie, was well received. The report showed that, notwithstanding the withdrawal of the dispensary grant of \$300, they have begun the year free from debt and with a small balance in the treasury.

ITS BENEVOLENT WORK.

Nursing in the home is the feature of this institution, for those who are not able to procure a nurse in times of sickness. The work is undenominational, patients of every creed being cared for. The average number of nurses on the staff is five, besides the superintendent, Mrs. Baillie. The services are voluntary in nature, and the course two years. Valuable assistance in the training of the nurses is acknowledged, lectures having been delivered by Dr. J. Beenhof, Dr. J. A. McDonald, and Dr. Silverthorne. The five nurses at present in the home have had their training in the hospital, becoming foreign missionaries. The Visiting Committee, presided over by Mrs. Baillie, Mrs. Stoyner, and Mrs. Stoyner, endeavor to visit all cases; the emergency cases being dealt with at once by the superintendent or in her absence the head nurse. Two hundred and sixty-one patients were attended during the year, 21 died, 10 consumptives and 4 with cancer, 1 sent to hospital.

THE DISPENSARY.

The dispensary, opened on new lines Jan. 27, 1896, with a nominal charge of five cents, was maintained for medicine prescribed, 1100 patients were treated. The dispensary is open every day between 2.30 and 5.30. Expenditures for the year \$1627.47; receipts less by \$4.34 than previous year, total commencing less by \$189.83, for the same time. OBJECTS ANSWERED. The superintendent's report was read and dealt with a question which has been often asked with regard to the mission, "Why not send the sick poor to the hospital?" In the first place, the report stated, it is a rule of the health officer that a patient who has been in a hospital on a city order cannot be again admitted during the same year as a city patient. That chronic cases and cases of advanced malignant disease are not as a rule admitted to the hospital. Then they are called to many patients who are too ill to be removed to the hospital, a most common case being that of a mother with a helpless infant and a family of little children who are unable to work. Should the patient be sent to the hospital it would mean the breaking up of the home, and it is the hope of the mission to prevent this. Consumptives also belong to the sphere of this mission. The death rate from consumption is three out of every 21. During the past year 100 patients in the Nursing Home Mission, 10 were from this white plague of the North.

IT WOULD SEEM THAT WE HAVE

three times the amount of consumption in our department of work," said Mrs. Baillie. A resolution of condolence was sent to Mrs. Hastings, mother of the late Dr. Hastings, and a vote of thanks to 15 societies who have helped in the work. Addresses of encouragement and approval were delivered by the chairman, Mr. O'Brien, and the Rev. Mr. DesBarres. THE OFFICERS. The following officers were re-elected: President, Mrs. J. L. Brodie; vice-president, Mrs. Duna Clark; secretary, Mrs. Sutherland Stoyner; treasurer, Mrs. P. Byrne, 41 Huron-street. Committees of Management: Lady Gzowski, Mrs. B. Merton, Mrs. Jarvis, Mrs. Patterson, Mrs. John Kerr, Mrs. Jopling, Mrs. Kilgour, Mrs. Wethey, Mrs. Lindsay. Visiting Committee: Mrs. Alderson, Miss Elliot, Mrs. Hunter Brown, Mrs. Cowan, Mrs. James Cowan, Miss Goldstein, Miss McFarlane, Mrs. It is supported by Mrs. Burns, Mrs. Edwards, Mrs. George Hagarly and Mrs. Henning. Diplomas were presented to the two graduating nurses, Miss Greene and Miss Whitehead.

ROBERT BUZZARD'S SUICIDE.

The Body of an Oakville Man Found in the Lake of Oakville.

Oakville, Feb. 5.—While walking along the lake shore on Wednesday afternoon some boys discovered the body of a man in the water. On being taken ashore it was found to be that of Robert Buzzard, a resident of Oakville, who it is supposed that while in a despondent mood he committed suicide by jumping in the lake. Deceased was a woodworker in a planing mill for some years. He leaves a widow and small family. The body was taken to the L.O.O.F. and had filled the chair in the local lodge.

Luxurious Cleansing Baths at Home.

For those who are not living in or near the great waters, public Turkish baths are to be found, the Quaker Home Hot Air Bath Cabinet is a great boon, especially at this season of the year, when the average bathroom is not warm enough to be comfortable. Many do not bathe in winter as often as they would like, because it is not convenient. Hence

QUAKER FOLDING HOT AIR AND VAPOR BATH CABINET.

blines luxury, effectiveness, and in degree to the famous Turkish Baths, in the privacy of your own bedroom, without water supply or bath fixtures, at small cost. Bathers perfect cleanliness. Cures colds, rheumatism, etc., and obesity. A delightful substitute for bathing machines. Healthy skin and beautiful complexion assured. Send stamp for descriptive circular and testimonials to: 7725, General Agent, 15 Wellington Row, St. John's, N. B. Price \$7.25 Delivered. Local Agents Wanted.

DR. PHILLIPS

Late of New York City

Treats all chronic and acute diseases of both sexes; not only cures, but also prevents the return of the same. Dr. Phillips, 246 1/2 King-st. W., Toronto

olds and rheumatism are so prevalent. No wonder then that the Home Bath Cabinet is so popular, when it takes the place of the ordinary water bath, and the luxury of it can be enjoyed in one's own bedroom at a cost of less than 50c per bath. See ad in this paper.

CHANGES IN COMMISSION.

Owing to his continued ill-health, aggravated by his recent serious railway accident, Mr. William Bell of Guelph has, on advice of his physicians, relinquished all his offices and engagements, among them the office of president of The Globe Savings and Loan Co. of Toronto. The office of president of the Traders' Bank, consequent upon the illness of Mr. Bell, the vice-president, Mr. John Field, was promoted to the presidency, E. F. Johnston, G.C., being named as president, and the manager, Mr. R. W. Day, was made managing director.

Enormous Selling

..\$18.00 Suits for \$9.99

If there is a man in Canada who is likely to want a suit within the next four months, he will order now. Don't wait to be reminded of this special offer. Just imagine a Fine Tweed Suit, made to your measure, for 9.99

The cloths are absolutely first-class—all pure-wool, finely-woven imported tweeds, new spring shades, fast colors, trimmed in standard quality linings, genuine buffalo-horn buttons, and the workmanship fully up to Jamieson's high standard.

—You cannot appreciate the values by the wording of this "ad"—better call and see the goods for yourself. If you cannot call, ask us to mail you samples and self-measurement chart, which we will do free of charge.

Philip Jamieson THE ROUNDED CORNER, QUEEN AND YONGE STS.

IT'S A CHALLENGE TO RUSSIA

And France May Make a Note of It, Too.

BRITAIN WILL NOT RECEDE.

Egyptian Troops Will Move Forward Towards Khartoum.

Mr. Michael Hicks-Beach Goes to Grant the Money to Pay the Cost of the Expedition, and Says Britain Will Not be Worried Out of Her Policy—The Motion Passed—Mr. Blake and the London Tablet on the School Question—Christians Slaughtered in Crete—General News by Cable.

London, Feb. 5.—In the House of Commons today Sir Michael E. Hicks-Beach, Chancellor of the Exchequer, announced that a further advance of Egyptian troops would be made to Khartoum next season.

As regarded the action of the Egyptian tribunals, Sir Michael Hicks-Beach continued, Great Britain would not be worried out of her policy when their mind was made up. He then proceeded to move a resolution granting the sum of £278,000 to meet the cost of the Anglo-Egyptian expedition to Dongola, including the maintenance of the garrisons in the Soudan.

The action of the Egyptian Court of Appeal in upsetting the judgment of the Egyptian Public Debt Commission in regard to setting aside the Egyptian funds toward the expense of the Dongola expedition, he said, was calculated to provoke British occupation of Egypt. Great Britain had advanced the money to pay Egypt's share of the expenses, leaving Great Britain and Egypt to mutually decide when the sum should be repaid.

DEVELOPMENT.

In the course of his remarks, Sir Michael said that the occupation of Egypt by Great Britain had been proclaimed because France had not allowed the British to have a free hand in the Soudan. He said that it was necessary to reconsider the powers and authority of the Egyptian mixed tribunals, and to decide whether it was possible to allow to interfere in such affairs as the case of the recent Anglo-Egyptian case.

Right Hon. John Morley (Liberal) said that the remarks of the Chancellor of the Exchequer amounted to a challenge to France and Russia to take issue with Great Britain in the late Egyptian policy. In view of the sensitive condition of Europe at the present time, he said, nothing more rash could be uttered.

Sir Charles Dilke (Liberal) denounced the Egyptian policy of the Government.

Sir William Harcourt, the leader of the Opposition, said that the unwelcome language and gratuitous provocation of the powers which characterized the remarks of the Chancellor of the Exchequer, was a serious matter.

George N. Curzon, Under Foreign Secretary, sought to minimize the effect of Sir Michael's language, and denied that it was in any way intended as a challenge to France and Russia.

Henry M. Stanley, the African explorer, Unionist, said that he was only doing in Egypt what Russia was doing in the Soudan, and that the line of demarcation between the Soudan and the Niger Rivers in Africa.

SOUTH AFRICA ENQUIRY.

The committee of the House of Commons re-appointed to enquire into the troubles in South Africa met today and selected Sir William Jackson, M. P. for North Leeds, as chairman. It was decided to begin the taking of evidence on Feb. 9, for Cecil Rhodes, formerly Premier of the Cape Colony, will be called to the witness stand.

MR. FITZPATRICK'S MISSION.

Mr. Blake's Opinion Taken—Privy Council's Decision Misunderstood.

London, Feb. 5.—Mr. Charles Fitzpatrick, Solicitor-General of Canada, who has just returned from a trip to the Continent, and will sail for home on Feb. 13, has a long and interesting interview with the Hon. Edward Blake, M. P., in regard to the appeals of the Manitoba Government from the decision of the Privy Council in the matter of the Manitoba school dispute.

It is now clear that the Privy Council ordered the discontinuance of the Catholic schools, and is further of the opinion that the Federal Government has no power to divert the money of Manitoba or to allocate any money to Catholic or separate schools.

On the lines of the proposal of the Manitoba Government, he thinks, that the Government has no advantage from every point of view to the Catholic minority than any remedial bill could possibly be.

Mr. J. Walton, Q. C., the legal adviser of the leading Catholic bodies in England, concurs in the opinion given by Mr. Blake.

WHAT THE TABLET SAYS.

The Tablet, the chief Catholic organ of Great Britain, owned and managed by Cardinal Vaughan, publishes an article to-day upon the Manitoba school question, in which it says: "Hon. Edward Blake's opinion is a sad disappointment. It is now clear that the Premier Laurier is trying to support negotiations with Manitoba to a successful conclusion."

The Tablet advocates the appointment of a special commission to Canada, who might be able to focus Catholic opinion to formulate a Catholic demand, and get a move on the final settlement of the difficulty.

CABINET CRISIS IN PORTUGAL.

Premier Roberto and His Colleagues Cannot Stand the Pressure.

Lisbon, Feb. 5.—Premier Hintze Roberto has delivered a long speech on the resignations of the entire Ministry, informing His Majesty that the Cabinet had found themselves unable to grapple with the present economic and financial situation, and had, therefore, resolved to retire from office. The King accepted the resignation and summoned the Progressionist leader, Senhor Leal, to form a new Ministry. He appointed Minister of Foreign Affairs, in which Senhor Barros Gomez, a member of the Council of Ministers, was appointed Minister of Finance. F. R. Hintze Roberto, Minister of Foreign Affairs, is the only member of the Cabinet who is not a Progressionist.

MR. HICKS-BEACH IS IN THE RIGHT

When He Re-Imposes Postage on Newspapers.

DEADHEADING PLAYED OUT.

Country Editors Think the Libel Law Just the Thing.

Publishers of Weekly Newspapers With a Section of the Canadian Press Association to Consider Their Own Special Interests—Jealous of the Daily—An Expect a Joy Outing "B. E." This Year to Compensate Them for Last Summer's Disappointment.

At the meeting of the Canadian Press Association yesterday morning Mr. Cameron, on behalf of the committee appointed to interview Mr. Mulock, Postmaster-General, reported that the Minister seemed to have his mind made up to re-impose postage, and it was therefore simply a matter of adjusting the rate. During the discussion that report evoked, the majority seemed to favor a charge of 1-4c per pound, with the first 1000 of each issue exempt. A resolution was introduced by Mr. P. D. Ross, with a lengthy preamble, referring to the postage question and customs duties on printed matter, and the committee's action on the subject.

The association decided, by the adoption of Mr. Ross' resolution, as a body to take no action regarding the Postmaster-General's proposition to re-impose postal rates, except to send a copy of the resolution to the publisher in Canada, suggesting that he should take the necessary steps to have each parliamentary representative asked to insist upon reduction or abolition of the customs duties on publishers' materials, as a necessary corollary to the imposition of postage.

THE LAW OF LIBEL.

Mr. P. D. Ross presented the report of the Committee on Libel, as follows: "That the Ontario law in the opinion of the association, equitable in the main to both the press and the people, and giving no protection on the one hand to malicious and reckless journalism, nor, on the other hand, facilities for the perpetration of libels, and that the committee think there are some minor points which might be considered with advantage to press and public, and suggest that a memorandum be drawn up by the committee, and presented to Hon. Mr. Hardy for his consideration, the committee to report again at next annual meeting." The resolution was adopted.

MANY SUBJECTS DISCUSSED.

During the forenoon session papers on the following subjects were read: "Illustrated Editions for Weeklies," by Mr. W. Ireland of the North Star; "Country Editor's Association," by Mr. J. A. R. Foxworth of the London Advertiser; "The Ontario Journalist," by Mr. A. P. Pattullo of the Sentinel-Star; "Woodstock," by Messrs. P. D. Ross and J. H. W. Laird of the Sentinel-Star; "Cobourg," by Mr. J. H. W. Laird of the Sentinel-Star.

THE EXECUTIVE ELECTED.

The ballot for members of the Executive Committee resulted in the election of the following: Messrs. W. Ireland, North Star; J. H. W. Laird, Sentinel-Star; J. A. R. Foxworth, London Advertiser; J. H. W. Laird, Sentinel-Star; J. H. W. Laird, Sentinel-Star; J. H. W. Laird, Sentinel-Star.

THE TURK MUST COME DOWN.

Paris, Feb. 5.—The Temps, in an article, believed to be inspired, says that the Turkish Government at Constantinople, acting in complete accord with the German Government, has agreed upon tentative co-ercive measures, the ratification of which by the German Government is expected to be completed in a few days.

DETAILS OF THE OULTRAGE ON THE GERMAN MINISTER AT BANGKOK.

New York, Feb. 5.—A special to the Herald from Bangkok, Siam, says: He details the details of the attack on the German Minister. While driving his pony shied and injured a Chinese man. The Minister stopped to inquire into the extent of the man's hurt, and was promptly surrounded by the police, who seized and struck him. He was hustled to the police station, despite his protests and his declaration of his rank.

The Investigating Committee Enquire Into the Richmond-Street Pavement Matter—The Carriage Was Paid for Waiting Time and the Property Owners Will Suffer—Knox Fleming Justifies His Action—Will the Property Owners be Satisfied?

The Investigation Committee of the Board of Works met yesterday afternoon, Ald. Gowanlock in the chair. The other members present were Messrs. Standers, Ald. Crane, Russell and Beale, Mr. Watson, Inspector on the construction of the macadam pavement on Richmond-street, was called and related the circumstances under which the trouble occurred. When the work first started, finding that the supply of stone ran out, he made an arrangement with the contractor to use a local supply of stone by the day. The men took their pay on this basis for some weeks and did not say anything until the last week, when Hirst, Brennan and Hill, who had recently been taken on, objected. He refused to return them for full time, and they were dismissed. The contractor, Mr. Watson, Inspector on the construction of the macadam pavement on Richmond-street, was called and related the circumstances under which the trouble occurred.

GOLD IS KING IN CANADA.

Continued From Page 7.

part, and with bigger mills. Nova Scotia has been the only province in the Dominion producing any quantity of iron, for making which she has both the coke and the iron near each other.

The iron and steel producing capabilities of Canada are, however, never to be properly developed until we make our own steel plants, which are at present supplied by England and the United States.

Nova Scotia and New Brunswick are blessed with immense deposits of exceptional gypsum, which supplies most of Canada, a large portion of the eastern part of the United States, whether it is exported in the raw state.

IN QUEBEC. In the Province of Quebec the copper and sulphate operations are, perhaps, the most important at the present moment, though asbestos mining, also in the Eastern townships, is still remunerative.

The production of charcoal-iron ore in the same district, promises to be important. Aspartic or phosphate mining, once so flourishing, has been smothered out for the time being by Florida.

Iron mining is still in its infancy. Iron is smelted by charcoal from bog iron ore in one medium and one small furnace. And gold exploration is said to be going on in the once productive alluvial workings of the Eastern townships. The last-mentioned district is an example of conditions which have produced a certain amount of rich placer gold, but where the country is of Cambrian age, and where the quartz veins which were high grade enough to work.

ONTARIO'S WEALTH. In Ontario, a quiet production of salt, petroleum, gypsum, and an intermittent output of iron in the eastern and of silver in the western part of the province, has been going on for years. The last-mentioned of a well-equipped blast furnace at the same place, and the excellent prospect being opened up in the Lake of the Woods, Ontario, Michigan and Minnesota districts, all point to the fact that Ontario is likely to be an important gold-producing province.

Salisbury district is not turning out so much nickel and copper as it did some years ago. The Canada Copper Company was the only active producer of nickel, but the appointment has been experienced that steel manufacturing is not so profitable as it was, therefore, its use is still limited, but the high price of nickel, owing to the expense of production, has not been a reason of the tardiness of the steel maker. There is an interesting similarity between the Salisbury nickel ore and the Rossland gold ore in physical character. If they are separated, it would seem that they could not possibly be separated. Their occurrence is, however, somewhat different, though the country rock in both cases belongs to the green stone type.

COAL IN THE TERRITORIES. Passing west we find important beds of coal in the Territories, which attain the qualities of a very high grade lignite at the Galt mines, and of a better quality at Bow River mines, a semi-anthracite at Cannonville, and a good anthracite at the north end of that mine near Banff. To the north there are great areas of petroleum and salt.

In British Columbia of recent years, the coal output of Vancouver Island has exceeded in value that of any other mineral. The coal of the west coast of Vancouver Island, there at Nanaimo, Wellington and Comox, inland, the Crow's Nest and Nicola, and by areas both produce excellent bituminous coal.

IN B. C. GOLD IS KING. In the early sixties gold was once before "the king." In 1863 about four millions of dollars worth was produced in Cariboo, that district having yielded some \$90,000,000 up to the present, with plenty more left there. During the past season the Cariboo hydraulic mine has yielded \$120,000 in bullion, and several other large placer schemes, on a modern basis of working, will ere long be producing an output. Gold is very widely distributed in the province, from the coast to the interior, and Fairview, along the International boundary line, and all about the Cariboo, clearly to Cassiar and the Yukon.

The former place is at present the largest producer from its mining area, but profitable free milling operations are carried on in the West Kootenay at the "Poorman," near Nelson, and at the "Carlson" mine at Camp McKinley.

The development is not confined to the main shore, but Vancouver Island is producing gold, and the Victorians are very hopeful.

Dredging the river beds for concentrated gold is a very attractive proposition, but owing to large boulders and rapid currents it has not been successful on the Fraser or the Okanagan. Large schemes in this direction are still being undertaken, and the lessons to be derived from the successful New Zealand operations may be profitably applied to the dredging work in British Columbia.

SILVER AND COPPER. Silver mining has been very profitable in some instances, especially in the Kootenay. A permanent industry in this direction may be confidently expected, both from silver-lead ore and from silver-copper ores. Suppliers have already been built, one of which has been running on the former class of ores at Pilot Bay, and another on the latter class at Nelson. There is a third smelter operating in the province at Trail on the copper-gold ores of the Rossland district.

Copper seems to be as abundant in British Columbia as in the adjoining state to the south (Montana). This state produces nearly half the copper output of the United States, which for 1896 was \$38,882,347—more than the whole combined metal and mineral production of the Dominion of Canada. The only mercury mine under the British flag is being operated at Shuswap Lakes.

Lead is too abundant to be considered, and more or less of almost every mineral is found in the immense stretch of mountain ranges traversing British Columbia from the American boundary to the Arctic.

THE FUTURE. Regarding the possibilities of the future, the United States produced metallic and non-metallic substances to the value of \$622,230,723. Amongst these pig iron, steel, the product of the east was \$102,188,200, the ore coming from ranges that run in some instances into Ontario. The chief output of silver, \$77,001,000; gold, \$46,010,000; mercury, \$2,351,000; and about two-thirds the production of copper, above mentioned, would also come from the continuation of these ranges, which continue directly through British Columbia, and where somewhat similar results may be expected as the result of exploration and judgment in the past.

A large proportion of the \$10,035,040 yield in lead is also from the mountain ranges that run through British Columbia, produce, in the United States, in about an equal extent of country, about \$150,000,000 per annum from silver, gold, copper, zinc and lead.

The last available report of the mineral output of Canada (for 1895) gives the total production of metallic and non-metallic substances at \$22,000,000.

It does not require any statement to carry conviction to any ordinary minded person that a disparity exists which is by no means of means insupportable, and that the most latent possibilities for mineral development from the Atlantic to the Pacific of which advantage has not been taken.

NEGLECT IN THE PAST. Whether from a lack of patriotic policy on the part of the government, or a lack of interest and faith in the possibilities of their country on the part of other speculating and money-lending people, the mining of the Dominion of Canada has been neglected by Canadians. Up to the present the foreign investor has not been deceived or disappointed by taking undeveloped prospects for mines. He should take a little of the risk, corrects, the prospects, spend some money on them to see if they will justify their development into mines, and when they are proved to such an extent that their worth is undoubted, and that it is only a question of capital to open up a mine and erect a plant, he will be justified, and disappointment and "black eyes" to the mineral prospects will not be so numerous as in the past.

Therefore, Canadian development companies, acting under the most conservative and experienced advice, can do good work for the future of the mineral production of Canada.

GOULD IN THIS. The Multi-Millionaire in a Canadian Mining Company. Sir Adolphe Caron is forming a mining and development company with a capital of \$5,000,000. He reached Toronto yesterday from New York. He has succeeded in interesting some of the prominent capitalists of New York in the company in his enterprise. Among those who have consented to take shares in the company and to act as directors are the following: Sir Adolphe Caron (President); Hon. Peter White, Pez-

CROMWELL MINING COMPANY

Owning and Operating Claims in the Trail Camp and Salmon River District.

The Toronto Mining Agency, 69 Yonge-street, are handling the stock of the above company. The "Trail Hunter" and "Cromwell" mineral claims situated in the Trail camp and Salmon River District, respectively, are owned and being developed by the company. In addition to these valuable claims, it is the purpose of the company to acquire other meritorious properties as they may be presented.

Promising mining locations are frequently offered by impetuous prospectors for small amounts, which, by judicious management and expenditure may be developed into valuable mines. The company's directorate is made up of experienced mining and business men of British Columbia and Tacoma. The Toronto Mining Agency are selling the first issue of stock at three and one-half cents per share.

GOLD

Have for sale in Selkoe River District a most promising mining property, with a whole series of old gold-bearing veins, containing pay ore on the very surface, situated on the line of contact between the granite of the Holy tract and the Kootenay schists, a most likely place to look for gold, say the experts, and here we have found it. Have assays, samples and reports of mining engineers. With the necessary capital this property can be made a dividend-paying at once.

R. CLARKE, 63 Yonge-street, Toronto.

The Investors' Mining and Development Company

Applying for Charter to operate in the Gold and Silver Districts: Ontario, Slocan, Boundary.

Write for particulars, Address R. McCREGOR, McKinnon Building.

Gold and Silver

You can make money in mining, but you must go about it in the right way. In other investments you exercise caution. You must do likewise in this. You cannot get something for nothing—not even in a mine, unless you find it, which you never do, as mines are made, and not found. Shares will not produce profits unless the assets and capital which they represent are prudently, intelligently and economically managed.

Who are managing the companies you already own shares in?

If you cannot go out to prospect in the gold fields yourself, and cannot buy an already proved and going mine, you should buy shares in a Development and Exploration Company which was early in the field and which is now the owner of properties of ascertained value.

You will thus get an interest in the business already created by the company, as well as in that to be developed with the capital now being raised.

The Gold and Silver Mines Development Company offers this opportunity to investors. Its organizers are not asking the investing public to furnish all the capital to enable them to engage in mining, but have themselves taken a substantial risk, upwards of \$30,000 having been expended by them before contributions were invited from the public. Recent proposals for the purchase of a part of the Company's holdings justify the belief that the fair present market value of its mines is not less than \$150,000.

The shares represent present actual value, and their price is more than justified by the present condition of the Company!

The Trilby and Prince of Wales are in process of development, which has been carried on by the Company for several months. The character of the ores disclosed in the Trilby, and their continuity and constantly improving quality as depth is attained, taken with the true fissure formation believed to have been established, leave slight room to doubt that the Trilby will rapidly develop into a valuable and highly profitable mine. With the vigorous prosecution of work upon the Trilby which will be possible after the installation of the new machinery plant, speedy returns should be realized for the Company's shareholders.

But the Company will not confine its chances of success to its present holdings. Proceeding upon the lines marked out for it by its Board of Directors, it will keep constantly adding to its resources, and thus to the value of its shares, acquiring and developing new mines as eligible locations are discovered. Thus it is believed that its operations will result in very large gain to the shareholders, both in dividends earned and in the large enhancement in the value of its shares which its earning capacity will justify and determine. In no other way can the quotations of mining shares be supported or their advances sustained.

The Company's Board is constituted as follows:

President—Sir William P. Howland, C.B., K.C., M.G., ex-Lieutenant-Governor Ontario, President of the Confederation Life Association. Vice-President—Robert Jaffray, Esq., President of the Land Security Co. Treasurer—Edward Trout, Esq., President of The Monetary Times Co. Secretary—G. G. S. Lindsey Esq., Barrister. The Directors are the foregoing, with Robert John Fleming, Esq. (Mayor of Toronto); Hon. T. Mayne Daly, Q.C. (former Minister of the Interior); John McMartin, Esq. (Railway Contractor); Rossland, B.C.; A. W. McDougall, Esq., Chicago, and W. A. Henry, Esq., Halifax, N.S.

The first issue of Treasury Shares is nearly exhausted. Subscriptions will be received for blocks of not less than 100 shares at 20c per share, and certificates will be issued by The Toronto General Trusts Co., Registrars, upon allotment. Upon the face of the certificates the shares are expressed to be fully paid and non-assessable. Send for Prospectus. Agents wanted.

SEND FOR PROSPECTUS.

BIG THREE

Gold Mining Company.

PROPERTIES: Mascot, Southern Belle and Snowshoe

Copy Portion Rossland Correspondence, Signed by P. A. O'Farrell, Toronto Globe, Feb. 5, 1897.

"The Big Three Company are working all their properties—the Mascot, Southern Belle and Snowshoe—and more or less ore has been found on each of them. The ore found on both the Southern Belle and Snowshoe is of shipping grade, though as yet it has not been found in solid mass. The indications, however, are that the veins now being developed will lead to good ore bodies. An abundance of ore has been found on the Mascot, but it is not of high enough grade to be profitably shipped, though it is improving in quality. A higher grade vein has been found, which will be developed in the spring."

The Directors of above Company have decided to advance the price of its stock from 12 1/2c to 15c per share after the 15th inst. Send your orders before the advance to

FOR ALL THE BODE WHEELS

Deadheads Worked the Show in Chicago, MANY BICYCLES WERE SOLD

Buffalo Will Make a Big Effort to Get the Show Next Year.

Many New Features of Interest to Cyclists

Registration of Every Man Who Goes on the Racing Track is Now Being Advanced—An Allowance Schedule for Exchanging Old Wheels for Up-to-Date Models—Zimmerman's Prizes to Go on Exhibition—Features.

Chicago, Feb. 5.—Paid admission to the Cycle Show did not exceed 40,000. People who were crowded in and in almost every step of the four miles of aisles regarded this statement with a small degree of credulity, until a solution came from the management.

"We were wowed to death by the exhibitors' passes," Manager A. B. Patterson said to The Record. "There was no let-up to their persistency in getting their friends into the show."

It is claimed the exhibitors never before had such a supply of wives, uncles, cousins and aunts, and that the doorkeepers would have broken all records if they had been able to recall all the faces in the family album.

As the average daily attendance exceeded that of last year, and the average daily receipts were larger, it is not surprising that the exhibitors were so prompt in paying for it, and there are few more who would have left exhibitors than there were on their departure last year.

Manufacturers are satisfied, too. Their sales during the last two days of the show indicated that cycling had long passed the age of extreme youth and was almost in its prime.

Illinois delegates to the national assembly of the League of American Bicyclists will leave for Albany Saturday and Sunday.

Mr. Gerlach, who is in the East, has been there for some time, and he is expected to return to Chicago on the afternoon of the 6th.

Mr. Gerlach receives the appointment of the chairmanship of the Racing Board of the state division, and he is expected to return to Chicago on the afternoon of the 6th.
