**The Paddler's Contests.**

The balconies and roof of the Toronto canoe club were thronged yesterday afternoon, a large number of the members and their lady friends being present to witness the contests.

A first-class program was carried out, although it was a little late in starting. Because of the late start, the first race was a match between clubs from the Toronto Swimming Club and a visiting tournament, in which three teams were entered. Forest gave a clever exhibition of fancy swimming and high diving, making several successful attempts.

On the conclusion of the program, an exhibition of canoe polo was given. The first race was paddled between the Toronto and the visiting team, the Toronto winning by over two lengths. This brought the first of the eleven races to a close, and the results of the other ten were presented to the winners. The large club

**N. Y. C. Accepts Ulster Challenge.**

N. Y. C. Accepts Ulster Challenge. The New York Yacht Club, in a special meeting to-day, unanimously voted to accept the challenge of the Ulster Yacht Club for the America's Cup. A committee was appointed to select the yacht which will represent the New York Yacht Club in the place of the race and all the other details.

**\* Dominion Won Four Races.**

Montreal, Aug. 12.—If the Dominion is chosen to defend the Seawanhauk Cup, she will be the only boat in the Sailing Committee of the Seawanhauk Yacht Club. It is claimed that the Dominion is not eligible, and her alleged double hull is a violation of the rules. It may, however, be that there will not be any necessity for the protest. Mr. Duggan was very much better to-day. Mr. Crane gave out that the Challenge Cup will be won by the Dominion, and everybody agrees that she is a much faster craft than the Seawanhauk.

They had four trial races to-day, Dominion being the only boat in the Dominion class. In the first, won by the Dominion, and in the last, at the helm, won all. Weather moderate to strong.

**The Late Dr. Pattullo.**

Many medical men, a large representation of other professions, together with numerous friends of the family, gathered at 24 College-street yesterday afternoon to take a last farewell of the late Dr. Pattullo. Rev. Dr. German conducted the service. The mourners were numerous, of whom the chief were deceased's two brothers, William and Joseph, W. B. Gregory, W. B. Hall and Abraham Campbell. The pall-bearers were: Messrs. J. S. Whillson, James Fleming, G. S. G. Lindsey and Dr. Scott, Parrish and Lehmann.

## UP TO THE EYES IN BUSINESS

## Second Day's Session of the Grand Lodge of the I. O. O. F.

Grand Master J. A. Young Presided—Election of Officers—Special Committee on Dues and Benefits Report Taken Up—Large Amount of Business Transacted.

Galt, Ont., Aug. 12.—The second day's session of the Grand Lodge of the I. O. O. F. convened at 9 o'clock yesterday morning, with the Grand Master, J. A. Young, in the chair. Since adjournment yesterday the various committees have been at work and the representatives are now up to their eyes in business.

The first committee's report was presented by Representative A. E. Harley on "Elections," which showed that all the grand officers had been elected by acclamation, with the exception of the grand warden. There were thirteen nominees in the field, but, after the first ballot, the five highest to fight it out. After three ballots P. G. Lewis of the Forest City was elected.

The other officers elected were: J. E. Farewell, Whitby, Grand Master; James McClurg, Woodstock, Deputy Grand Master; J. B. King, Toronto, Grand Secretary; W. J. McCormack, Toronto, Grand Treasurer; Harry White, P. G. M., three-year director for the Oddfellows' Home; Charles Packard, auditor.

**Mileage Committee's Report.**  
The Mileage and Per Diem Committee's report was adopted, the rate being \$2 per diem and \$5 a mile one way.

The Grand Lodge closed at 12 o'clock for lunch.

**Afternoon Session.**  
On previous motion, the report of the special committee on dues and benefits was the first business taken up. In substance it means a uniformity of dues and benefits throughout the jurisdiction. The discussion lasted the greater part of the afternoon. The report, after many amendments, was adopted, by the change of the clause relating to the amount of dues and benefits to be paid, it being permissible with the subordinate lodges to increase their dues and benefits, but they must be governed by the actuary's table.

The lodges throughout the jurisdiction will now have a table on which they must work in paying their dues and benefits.

**Permission to Appeal.**  
On a motion of Rep. R. S. Sheppard of Albert Lodge 194, he was granted permission to appeal to the Sovereign Grand Lodge against the decision of this Grand Lodge in the adoption of the report of the special committee on dues and benefits.

The Finance Committee, to whom were referred the litigation between Forest City and Dominion Lodges of London, reported and the Grand Lodge agreed to pay half the costs, also the counsel fees in the case of the appeal of W. J. McCormack, and the appeal of John T. Johns of Ottawa Lodge 224, was not successful.

W. H. Shaw v. Lily Lodge 211, no action, on account of incomplete evidence.

**Committee's Report To-Day.**  
At the Grand Lodge meeting to-day the report of the Committee on General Purposes was read. It showed that the lodges and requisites of Grand Lodge had been carefully attended to during the year.

The report of the Committee on the Law of Membership was read, after discussion of over an hour and a half, thrown out. In the absence of Grand Representative Hoyte, who is busy in the Legislature, and found it impossible to be present to assist in the giving of the unwritten work of the order, Grand Representative Thomas Woodruff made apologies for Representative Hoyte and announced that Grand Master Young had kindly consented to assume the work. The unwritten work of the ritual was given by Grand Master Young, Representative Woodruff exemplifying the work. To say that the work was performed in an efficient manner would not convey the feelings of the representatives, for seldom has the work been given in a more thorough and exemplary manner, and rounds of applause greeted the two representatives when they took their seats.

**Judiciary Committee.**  
The Judiciary Committee made a lengthy report on the decisions of the Grand Master during the year, which was a varied character, and in nearly all cases the Grand Master's decisions were upheld.

The Committee on Mileage and Per Diem reported that the mileage of the delegates amounted to \$4025, and that the expenses of the session were some \$300 less than at Belleville last year, on account of the central location of Galt.

**The Advisory Committee on the Oddfellows' Relief.**  
The Advisory Committee on the Oddfellows' Relief presented a lengthy report and commended the association as being one of the most attractive features of the order. The report showed that the members of the Belleville Lodges had been given in a more thorough and exemplary manner, and rounds of applause greeted the two representatives when they took their seats.

**Laws of Subordinates.**  
The report of the Committee on Laws of Subordinates was of a voluminous character, and showed that during the year some fifty lodges had submitted changes in their bylaws, the majority of which were approved by the committee.

The special committee appointed to report on the clauses in the Grand Master's report in reference to the establishment of a central fund to be taken up by this special committee.

No. 3 special committee commended the action of the Grand Master in giving permission to Bro. J. C. Hansell to issue a circular on the official history of the order, which was endorsed by Sovereign Grand Lodge as "official." They also recommended the establishment of an official organ for the order.

**Deceased Members.**  
Special committee No. 4, to whom were referred the clauses in the Grand Master's report in reference to the deceased members of the Grand Lodge, made a very feeling report, touching upon the sudden death of P. G. W. Grotte of St. Catharines, a nominee for Grand Warden, and Bro. A. C. Stewart, and extending sympathy to the Grand Master, Past Grand Master Hoyte, and several brothers who have sustained losses in their families. The number of deceased members during the year amounted to 154.

Congratulations were extended to the Toronto brethren on their unveiling of a magnificent monument, erected in the cemetery at Toronto in honor of deceased non-resident brethren.

**The Proposed Oddfellows' Home.**  
The report of the special committee on the Oddfellows' Home was submitted by P. G. S. Campbell and was of a very exhaustive character. The officers elected by the board were: C. T. Campbell, P. G. S., chairman; R. Farewell, vice-chairman; J. B. King, secretary; and W. J. McCormack, treasurer. It showed that for a site of 30 acres of land had been received and many more promised, and by the time taken by the Grand Lodge plans will be proceeded with at once. The report asked power to become incorporated, also instructed the representative to urge upon the lodges, municipalities and individuals, to make offers of free sites and contributions for the establishment of the home.

The sum of \$1000 was recommended from the Grand Lodge to the Home Board.

On motion it was agreed that when this Grand Lodge adjourn it do so to meet in Toronto. The other places seeking it were Kingston and Cobourg.

**Snake Attacks Girl.**  
The Reptile was in an Apple Tree  
New York, Aug. 12.—Miss Jennie Kernaghan, of Mohat Vernon had a fight with a black snake yesterday. The snake was killed by the shock of the encounter prostrated Miss Kernaghan. She lives at No. 62 West Second-street, Mount Vernon.

Before Miss Kernaghan's house is a fine lawn on which a croquet set is spread. Miss Kernaghan and some friends were playing croquet, and she drove her ball through a croquet under an apple tree at the edge of the lawn. As she approached the ball for another stroke a black snake, which was afterwards found to be nine feet long, dropped from the bough of the tree and fell upon her. She shrieked as the snake coiled around her neck, but managed to seize it and throw it away.

The snake, angry, again attacked her, winding around her arm, trying to bite her. She managed to throw it away. With her free hand Miss Kernaghan tried to disentangle herself and hurried the snake away. Again it coiled around her body. All this very quickly.

Then Miss Kernaghan struck her deadly blow, and the snake was killed. Her brother William ran up, and, hitting the snake with his mallet, almost cut off its head. Then William dashed his mallet into the body of the snake, and it was killed. The snake was found to be a black snake, which was afterwards found to be nine feet long, dropped from the bough of the tree and fell upon her. She shrieked as the snake coiled around her neck, but managed to seize it and throw it away.

## Liverpool Cables Higher-Russian

Wheat Crop Said to be Largely a Failure-Details of United States Government Crop Report-Gossip and Notes.

Friday Evening, Aug. 12.

Higher cables from Liverpool and reports of the destruction of a great part of the Russian crop, together with a strong demand and light receipts at home, brought about an elevation in the price of wheat at Chicago today. The cash article advanced over a cent per bushel, the market's delivery 2 1/2 and the later options 1/2 to 1 1/2. The close was about at the top price for the day.

On the Liverpool Board to-day spot wheat was up, and also futures. The September option gained 1 1/2 per cent and the December future 1 1/2. The cash article advanced over a cent per bushel, the market's delivery 2 1/2 and the later options 1/2 to 1 1/2. The close was about at the top price for the day.

Corn was about unchanged at Chicago today. Spot maize was weak on the Liverpool board, but futures advanced 1/2 per cent.

Peas are 1/4 higher in Liverpool.

Light short cut American bacon advanced 1/2 in Liverpool.

An Antwerp cable says: Russia is harvesting a heavy crop of wheat.

Ingalls, the crop expert, says: The spring wheat crop in all American territory will be out of the way of the frost next week.

Total clearances to-day: Wheat 335,000 bushels, corn 612,000 bushels.

Exports at New York to-day: Flour 15,000 barrels and 330,000 bushels of wheat, 40,000 bushels of corn.

Receipts of wheat at Liverpool past two days have totalled 350,000 bushels, including 80,000 bushels of American, corn 350,000 bushels.

Kansas City wheat receipts to-day 218 cars, against 320 cars same day of 1897.

Wheat receipts at Minneapolis and Duluth to-day 90 cars, against 100 same day last year.

Toledo receipts of wheat to-day 88 cars, against 125,000 bushels same day last year.

September wheat puts at Chicago 40c, calls 88c. Corn puts 22 1/2c, calls 32c.

It is expected Monday's statistics will show a decrease of 800,000 bushels in the stocks of wheat at Minneapolis and Duluth for this week.

Thirty-five loads of new wheat were reported taken at New York to-day for export.

Argentine wheat shipments the past week none, against none last year. Corn 904,000 bushels.

Argentine shipments since Jan. 1 aggregate 22,946,000 bushels, as compared with 17,833,000 bushels the corresponding period of last year. Corn shipments since Jan. 1 are 8,348,000 bushels, compared with 7,970,000 bushels last year.

## U. S. Government Crop Bulletin.

## JAS. H. ROGERS

84 YONGE ST., TORONTO

## as follows: Minnesota 101, North Dakota

35, South Dakota 102, Nebraska 103, Iowa 104.

Following is a comparison in bushels of the indicated crops of this year, with the returns of similar harvests last year:

Wheat... 1897... 1898...  
Spring wheat... 332,408,000... 318,400,000  
Winter wheat... 107,451,000... 238,720,000

Corn... 1,301,938,000... 1,188,681,000  
Oats... 608,708,000... 678,670,000  
Barley... 27,933,000... 28,040,000  
Potatoes... 164,016,000... 217,467,000

The result in the total crop of spring wheat, using last month's figures on winter wheat, indicates a gain of 4,000,000 bushels, with the result of 74,000,000 more than last year. It brings the grand aggregate within a short distance of the record crop of 1891, when the output was 61,790,000 bushels. The result in corn was much better than expected, indicating a loss from last month of only 124,000,000 bushels, which still shows 91,000,000 bushels more than last year.
