NOVA SCOTIA'S AGENTS AGAINST FREE COAL RECIPROCITY OFFER STRONG OPPOSITION

Ontario Must Respect Nova Scotia's Desire for Protection on Coal or Be Prepared to Lose the Protection on Flour—United States Passes the Rebate Coal Bill by a Big Majority—Uncle Sam is Out for No. 1.

Halifax, Jan. 14.—(From World's Special Correspondent)—Soft coal will not be placed upon the free list without a struggle from the coal interests of Nova Scotia and from the Nova Scotia government. News that the American government has offered Canada reciprocity in bituminous coal caused great excitement in the chief coal centres of the Province. While the Provincial government does not see fit to commit itself on the question, it is well known that it is strongly hostile to an arrangement which would admit American bituminous coal free of duty into Canada.

"An American appeal in an American crisis," the offer of reciprocity in coal by the United States government, is described by prominent politicians of Halifax.

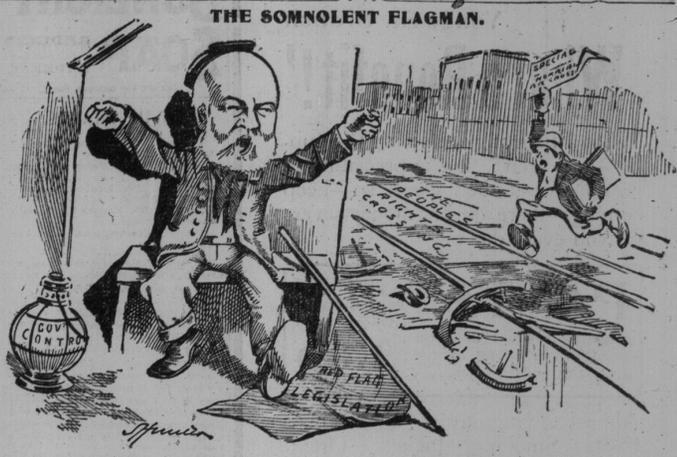

Treated With Contempt. It is well known that when the Anglo-American Commission met in Washington, and when the question of reciprocity was considered, the Canadian representatives were anxious that bituminous coal should be exchanged for duty in undisturbed control of the American commissioners treated the proposition with contempt. They were not willing to listen to any argument. But now, when American coal producers are away behind in their supplies, and when the American government coolly suggests that Canada should give up its protection against excessive prices, the Nova Scotia government is against the bituminous coal of the United States.

It is easy to see what the United States has to hope for from reciprocity in bituminous coal. It is not so easy to see what advantages Canada can derive from the arrangement. The soft coal producers of Nova Scotia are today in undisturbed control of the Montreal market. Their trade extends beyond as far west as Kingston, and in that wide range of territory, no American coal interest can question their sway. Also, at the enhanced prices

which the depression in the American coal supply has caused, the coal interests of Nova Scotia have a highly profitable market in the New England States. After paying the duty and freight they have left between \$3 and \$6 a ton.

No Compensation. "Why," says the coal interests of Nova Scotia, "should we expose to American competition the market which we secure for our coal, without securing compensating advantages in the markets of the United States?" This is a reasonable question. The Nova Scotia coal producers would receive higher prices in the New England States, under reciprocity in coal than under existing conditions. It is certain that their Montreal market would be menaced by the competition of American coal interests, and weighing all the risks, the Nova Scotia coal men say that they do not want the tariff disturbed. This statement is emphatically true, in so far as the principal coal districts in Nova Scotia, outside of the Dominion Coal Co. are concerned. The Pitou mines and the Spinghill mines have now a highly profitable market, and this market they are anxious to preserve. The position of the Dominion Coal Co. has not been definitely ascertained. But, while no official announcement has been made, it is known that the Dominion Coal Co. is quite as hostile to reciprocity in coal as the coal interests of the Province. The Dominion Coal Co., which is in complete control of the Montreal market, does the greater part of its shipping in the summer months. To expose the Montreal market to American competition would threaten their supremacy at this point, without giving them compensating advantages in the markets of the New England States.

Times Have Changed. It is pointed out that the United States absolutely refused to consider any proposition looking to reciprocity in coal while the coal interests of Nova Scotia were in their infancy. Now, the Dominion Coal Co., which began with the production of 3,000,000 tons last year, and this year will have an output of 3,500,000 tons. It

Prohibitionists to See Premier Ross Early Legislation Has Been Promised

The deputation was appointed at a general conference of prohibitionists, held in Knox Church on Dec. 16. It also included representatives of a number of out-of-town prohibition bodies, a number of whom are expected to attend to-day.

The reported defection of the Temperance Legislation League officers, the London and some of the county associations is expected to result in several conspicuous absences.

The understanding is that the conference will chiefly deal with the appointment of speakers. Should they be present, the selection is likely to include Rev. Dr. Carman, Rev. Prin. Caven, Rev. A. Macdonald and Rev. Dr. McKay, President of the Ontario Alliance.

The deputation is under instructions to ask the government to comply with this resolution:

The view of the recent expression by the electors of the Province of Ontario in favor of the Liquor Act, 1912, we request that effect be given to said vote, by:

The abolition of the public bar.

The abolition of the treating system.

The abolition of drinking in clubs.

The imposition of such other restrictions on liquor traffic as shall most effectively curtail its operation and remedy its evils.

It is understood that Premier Ross has given an assurance to the Alliance officers of early temperance legislation, probably implementing something of the government control principle.

It is further stated that the legislation, if it is enacted, will have a bombshell accompaniment, regarding the appointment of a commission upon

Commission to Be Appointed Re Compensation of Confiscated Liquor Interests.

The prohibitionists will hold a conference to-day for two hours before writing on the government. This is announced in a call sent out by Alliance Secretary Spence. The conference is summoned to meet in the large reception room in the west wing of the Parliament Buildings, at 1 o'clock. The hour set in the notice for the interview with the government is 3 o'clock.

The Toronto prohibitionists appointed to wait on the government are: Rev. Dr. Carman, Rev. Prin. Caven, Rev. Dr. Chown, Rev. Dr. Courville, Rev. Dr. Goodspeed, Rev. Dr. Bates, Rev. A. L. Goggin, Rev. J. A. Macdonald, Rev. Dr. Parker, Rev. M. L. Pearson, Rev. Dr. Speer, Rev. Dr. Stewart, Rev. Charles L. Inglis, Rev. John Neil, Rev. J. G. Scott, Dr. B. E. McKenna, Dr. E. J. Fisher, Dr. D. Lowry, Hon. S. C. Biggs, J. A. Austin, Frank Buchanan, Alex. Mills, Cy. Fossey, D. F. Mills, R. J. Daley, Robert Davidson, J. J. Doan, W. G. Fee, H. E. Hillhouse, ex-Ad. J. McMillan, H. Moyle, William Mulholland, W. Munro, W. H. Gray, J. C. Peake, J. S. Robertson, A. D. Weeks, Thomas Yellow, and a delegation from the Toronto District W. C. T. U.

TWELVE BLOWN TO ATOMS IN A POWDER EXPLOSION

Death Comes With Awful Suddenness in B.C.—Circular Saw Bursts and Kills.

Victoria, B. C., Jan. 14.—An explosion occurred at the Hamilton Powder Works at Northfield this morning, blowing twelve men to atoms. Two were killed, the remainder Chinese.

CIRCULAR SAW BURST.

Campbellford, Jan. 14.—An accident occurred at 5:30 this evening at Wellman's Corners by which Alva Hogie of that place was killed and John Robinson of Rawdon seriously injured.

The two men were engaged, with others, sawing wood on Mr. Hogie's farm, when the circular saw broke, the pieces flying and striking Hogie, killing him instantly.

Robinson's arm and side are badly torn and slight hopes are held for his recovery.

Hogie was a young man about 25 years of age and leaves a wife and one child.

KILLED BY EARTH.

Victoria, Jan. 14.—John Nelson, 55, a native of Yorkshire, was killed as a result of the banks of an excavation falling upon him this morning.

LORD ROSEBERY ENAGED.

To Mrs. Alice Carr Chaussey, Formerly of Louisville, Ky.

Louisville, Ky., Jan. 14.—A letter received today from Mrs. J. W. Anderson, who is at present in Vevey, Switzerland, says the engagement is reported there of Mrs. Alice Carr Chaussey, formerly of Louisville, but now residing in Toronto, and Lord Rosebery, the former Prime Minister of England.

SUCEEDS LATE MR. MORGAN.

Hector Delorme New Inspector of Live Stock in Montreal.

Montreal, Jan. 14.—Hector Delorme of this city has been appointed assistant shipping inspector of live stock in place of the late H. B. Morgan.

Heavy, Blunt Instrument Caused Baby Tyers' Death

Four-Months-Old Infant Died From Laceration of the Brain. But Jury Unable to Say by Whom Blow Was Inflicted—Crown Will Investigate.

The jury empaneled by Coroner N. A. Powell, to enquire into the death of Arthur Tyers, the four-months-old baby who died on Monday in the Hospital for Sick Children, returned a verdict last night to the effect that the child had died from injuries to the brain, but was unable to say by what means they were inflicted.

The most important testimony was furnished by Dr. Pepler, who made the post-mortem examination of the remains. He pointed out that there were two bruises on the body, one on the thigh and the other on the left shoulder. The body, he found to be in a healthy condition and well-nourished. He found the brain badly lacerated, and a large clot of blood on the left side of the head. The skull was unbroken.

Now For the Police.

County Crown Attorney Curry, when the verdict of the jury was brought to his attention last night, said it would be for the police now to conduct an investigation into the cause of death and fix the responsibility. Should suspicion fall upon any person, the usual course would be pursued. But the finding of the jury did not dispose of the case.

HONOR TO A CANADIAN.

Lieut. Claude De B. Donnet Goes to Central Africa.

Montreal, Que., Jan. 14.—Word has been received here that Lieut. Claude De B. Donnet, a graduate of Kingston, Ont., who was with the Royal Engineers in charge of the blockhouse system in South Africa, has been appointed a member of the Anglo-German Commission lately named to delimitate the outer Lake Chad boundary in Central Africa.

THREE SKATERS DROWNED.

Twenty or More Thrown Into Water. When Ice Broke.

Washington, Jan. 14.—While a large crowd was skating on the bathing basin near the Washington monument this evening the ice suddenly gave way and precipitated 20 or more persons in the water. Three persons are known to have lost their lives and it is possible other deaths may have been caused by the breaking of the ice. Miss Jessie C. Thomas, a young woman, 20 years of age, employed as a clerk in the Bureau of Ethnology, died at the Emergency Hospital. Eight other persons were treated at the Emergency Hospital and recovered.

Cigars—Marquettes, Fortuna, large size, 25 for \$2.00. Alive 123 Yonge Street.

ST. LOUIS OVERDUE.

New York, Jan. 14.—No tidings of the American liner St. Louis, which usually reaches port on Saturday, had been received up to midnight. At the office of the line it was said that no notice was felt regarding the safety of the vessel and that her detention was doubtless due to bad weather and to the fact that her machinery and boilers were in need of overhauling. It is also pointed out that the St. Louis started from Southampton on her return trip a day late and that her last westward passage she did not reach here until Monday.

Smokers buy Perfection Mixture, positively cool. Alive 123 Yonge St.

SANDERSON'S MOUNTAIN DEW SMOOTH WARMS WITH BURNING.

GIVES \$15.00 TO HOSPITAL.

Vancouver, B.C., Jan. 14.—Lord Stephen has donated \$15,000 to the new hospital at Vancouver.

PATENTS—Fischer-Haushagen & Co. Head Office, Kilmarnock, Scotland. Toronto and Montreal Offices, Ottawa and Washington.

EVIDENCE NOT STRONG IN SOO ELECTION CASE

Petitioner May Reach Finish of Most Damaging Charges By To-Night.

Sault Ste. Marie, Jan. 14.—(Special).—The second day's proceedings in the Micambell election protest trial were more interesting than on the first day. The appellant's lawyers are making their case on the charges, with which the names of Moreault, Roy and Cloutier are connected. The evidence in these charges looks suspicious, but, coming down to the strict letter of the law, nothing has come out sufficient to unsettle the respondent, Moreault, in the case.

The second day's proceedings in the Micambell election protest trial were more interesting than on the first day. The appellant's lawyers are making their case on the charges, with which the names of Moreault, Roy and Cloutier are connected. The evidence in these charges looks suspicious, but, coming down to the strict letter of the law, nothing has come out sufficient to unsettle the respondent, Moreault, in the case.

The jury according to his own testimony, he had no personal knowledge of the charges which have been directed against Mr. Moreault for a long time, and if he appeared before your committee it would only be to represent his own name and to represent to you that I had good reason to believe the charges well founded.

The reading of the communication caused a dejected sensation. After some discussion it was decided to summon the recorder to appear personally before the commission.

TRY THE DEACON AT THOMAS.

AN APPRECIATION OF \$1300.

Rev. Dr. Barclay of St. Paul's Montreal, Given More Salary.

Montreal, Jan. 14.—The salary of Rev. Dr. Barclay, pastor of St. Paul's Presbyterian church, has been increased from \$2200 to \$2500. This, it is understood, is because St. Paul's congregation appreciated their pastor's decision to remain with them when called to Kingston.

Brian Pipes, silver mounted, reduced price \$40 each. Alive 123 Yonge Street.

Heavy, Blunt Instrument Caused Baby Tyers' Death

Four-Months-Old Infant Died From Laceration of the Brain. But Jury Unable to Say by Whom Blow Was Inflicted—Crown Will Investigate.

The jury empaneled by Coroner N. A. Powell, to enquire into the death of Arthur Tyers, the four-months-old baby who died on Monday in the Hospital for Sick Children, returned a verdict last night to the effect that the child had died from injuries to the brain, but was unable to say by what means they were inflicted.

The most important testimony was furnished by Dr. Pepler, who made the post-mortem examination of the remains. He pointed out that there were two bruises on the body, one on the thigh and the other on the left shoulder. The body, he found to be in a healthy condition and well-nourished. He found the brain badly lacerated, and a large clot of blood on the left side of the head. The skull was unbroken.

Now For the Police.

County Crown Attorney Curry, when the verdict of the jury was brought to his attention last night, said it would be for the police now to conduct an investigation into the cause of death and fix the responsibility. Should suspicion fall upon any person, the usual course would be pursued. But the finding of the jury did not dispose of the case.

HONOR TO A CANADIAN.

Lieut. Claude De B. Donnet Goes to Central Africa.

Montreal, Que., Jan. 14.—Word has been received here that Lieut. Claude De B. Donnet, a graduate of Kingston, Ont., who was with the Royal Engineers in charge of the blockhouse system in South Africa, has been appointed a member of the Anglo-German Commission lately named to delimitate the outer Lake Chad boundary in Central Africa.

THREE SKATERS DROWNED.

Twenty or More Thrown Into Water. When Ice Broke.

Washington, Jan. 14.—While a large crowd was skating on the bathing basin near the Washington monument this evening the ice suddenly gave way and precipitated 20 or more persons in the water. Three persons are known to have lost their lives and it is possible other deaths may have been caused by the breaking of the ice. Miss Jessie C. Thomas, a young woman, 20 years of age, employed as a clerk in the Bureau of Ethnology, died at the Emergency Hospital. Eight other persons were treated at the Emergency Hospital and recovered.

Cigars—Marquettes, Fortuna, large size, 25 for \$2.00. Alive 123 Yonge Street.

ST. LOUIS OVERDUE.

New York, Jan. 14.—No tidings of the American liner St. Louis, which usually reaches port on Saturday, had been received up to midnight. At the office of the line it was said that no notice was felt regarding the safety of the vessel and that her detention was doubtless due to bad weather and to the fact that her machinery and boilers were in need of overhauling. It is also pointed out that the St. Louis started from Southampton on her return trip a day late and that her last westward passage she did not reach here until Monday.

Smokers buy Perfection Mixture, positively cool. Alive 123 Yonge St.

HAMILTON NEWS BRENNEN WAS ACQUITTED The Charge That the Contractor Tried to Bribe a City Official Not Proven. A RATHER IMPORTANT ARREST. Carlton is Supposed to Be a Bad Character and He is Blamed for Several Things. Hamilton, Jan. 14.—The trial of Contractor Edward S. Brennan, charged with attempting to bribe city officials in connection with his coal contract with the city, was held this afternoon. The defendant was represented by Hon. S. H. Blake, K. C., and George S. Lynch-Staunton, K. C., while the crown's interests were looked after by L. F. Heyd, K. C., and city solicitor Maclean, K. C. Evidence was brought forth with the intent of showing that, on Jan. 22 last, Mr. Brennan had come into the office of Engineer Leckie, and had asked him to sign some contractor's receipt tickets, also some weight tickets. Mr. Leckie refused to sign for coal not delivered. Mr. Brennan is then alleged to have said that he was losing a lot of money on the contract, and offered to give halves with Leckie, if he would sign. After hearing evidence for the defence, the matter was submitted to the jury, who brought in a verdict acquitting the prisoner. In the case, Cusick v. Hamilton Electric Light and Cataract Power Co., the plaintiff filed a bill for \$150,000, the defendant's bill for \$900,000. B. A. Kennedy, general manager of the Deering Division, International Harvester Company, stated that he expects the workshops will commence operations next week, employing about 500 men, and that at least 2500 men will be on the payroll by the middle of May. Mrs. Patterson May Leave. Mrs. Patterson, hostess of Hotel Royal, says that it is altogether impossible for her to consider the proposition laid down by the landlord. Wearing Qualities. Good dental work—the sort of service faithfully rendered for fair value received—has good wearing qualities. It retains satisfaction. REV. DR. PROUDFOOT DEAD ABSOLUTE SECURITY. London Minister Stricken With Apoplexy on Saturday and Never Regained Consciousness. HAD BEEN A PREACHER 54 YEARS. scuffed in the Forest City in 1833 and spent a Very Active Life. London, Jan. 14.—The death of Rev. J. A. Proudfoot, D.D., occurred at 8 o'clock this morning at his home on Oxford street, Regent's Park. He had been stricken with apoplexy on Saturday and never regained consciousness. He had been a preacher 54 years. He was born in the Forest City in 1833 and spent a very active life. His association with the work of the Christian church in Ontario extended over a period of 54 years and the golden jubilee of his ministry was marked by the members of the Presbytery of London and his friends and the church. He was born in the Forest City, Scotland, in 1833. In the summer of 1852 he came with his parents to America and settled in Toronto and in 1853 he was ordained as a minister of the Gospel. He was a well-known and popular preacher and his sermons were listened to with interest and devotion. He was a member of the Presbytery of London and his services were rendered to the church for many years. He was a man of high character and his death is a great loss to the church and to the community. He is survived by his wife and several children.

C.P.R. RETALIATES ON "JIM" HILL WILL ENTER U.S. WESTERN LANDS

With Two Invoicing Lines Already Projected It Is Expected That the Washington Lumber and Grain Trade Will Be Divided.

Spokane, Wash., Jan. 14.—The efforts of the Canadian Pacific Railway Company to get into the State of Washington and divide the heavy logging and lumber trade with the Great Northern and the Northern Pacific are rapidly assuming shape.

Senator George Turner and his associates have petitioned the Spokane City Council for a franchise to operate a street car system for freight as well as passenger business, connecting the wholesale and milling districts of Spokane with the terminus in this city of the proposed railway to the north, which shall tap the Canadian Pacific.

Two weeks ago Senator Turner and his associates incorporated the Spokane & Kootenai Railway Company, with the avowed purpose of building a line into Spokane from the Canadian Pacific. Three days later articles were filed in Seattle for the Seattle & Kootenai Railway Company for a road from that city thru Sumas to a connection with the Canadian Pacific. It would thus appear that the Canadian Pacific will have two entrances to this state—one on the side getting into the wheat country in direct opposition to the Northern Pacific and its branches, and on the west side tapping the great lumber districts in opposition to the Great Northern.

New Freight Route. By the new connection freight would travel between Spokane and St. Paul on a line from 50 to 100 miles in the distance between the United States and Canada, crossing into the latter country on the western end. There the line takes its course through the mountains of Idaho, and then enters the Great Northern territory at Minneapolis in its route to the west. The average distance being considerably less than that of the Great Northern.

For some time the Great Northern has been pushing its branches into the territory of the Canadian Pacific. Lines of the Great Northern now tap the Canadian Pacific at the points of Forks, Roseland, Nelson, Creston and Lehigh, Alberta, and the latter company is now pushing the purpose of James J. Hill report was announced to push the Great Northern line from Calgary, on into the very heart of the Similkameen country, in British Columbia, on way to the coast. Entrance in the British Columbia field with the character of the Vancouver & Victoria Eastern road has aroused fierce resentment on the part of the Canadian Pacific management, who have been endeavoring to obtain an agreement on territory.

The incorporation of the Spokane & Kootenai Railway Company are D. C. Corbitt and Senator George Turner, and the Spokane & Kootenai Railway Company are D. C. Corbitt and Senator George Turner.

NOVA SCOTIA FIGHTS. Continued From Page 1.

tariff on coal be interfered with. With cry they went to the people, and the counties strongly Conservative, like Pictou and Cumberland, responded with an expression of confidence in the provincial government. The coal interests of Nova Scotia transcend all other interests in the province, and it is confidently believed here that the Laurier government will think twice before antagonizing Nova Scotia's sentiment with concurrence in the American proposition for reciprocity in bituminous coal.

COAL REBATE BILL PASSES. Washington, Jan. 14.—The bill reported from the Ways and Means committee yesterday to provide for a rebate of duties on foreign coal for a period of one year was passed by the House today by a vote of 208 to 158.

Both Mr. Duffell of Pennsylvania and Mr. Payne of New York, the Republican leaders, expressed the opinion of the floor that the bill would not be passed. They said it would show the disposition of congress to do what it can.

The Democrats, who they all supported, took the view that it did not go far enough, and they were in favor of the free list, and when the bill came back from the Senate they provision which virtually placed anthracite on the free list, they applauded vigorously.

Mr. Duffell, in the course of his remarks, said that the first step was to amend the bill in the world extent that it has ever had.

When a message from the Senate announced the passage of the bill, Mr. Payne moved to amend the bill in the amendment. The amendment was adopted without division, thus passing the bill.

EAT SLOW. Across the table sat a young man, remarked an old gentleman from New Albany, Ind., recently, "with a sickly face, and I saw him chewing slowly. A fashon that led me to believe that his teeth were all in such condition that if he should forget himself and bit a little bit harder, or would try the top of his head. Finally, I remarked: 'You have to be very careful of them.' 'Yes, indeed,' he replied, 'I have no stomach. My doctor told me to eat slow. 'No odds what your hurry may be,' said he, 'eat slow.' 'You misunderstand him,' said I. 'What the doctor meant was to chew fast, fine and hard, but to swallow slowly. Now you are actually committing suicide. The doctor meant for you to use your teeth. Are you with all right?' 'Yes,' he replied, 'I can bite through sole leather. I wonder if the doctor did mean that I should chew hard, instead of slow.' 'Then I told him of my experience in the food line. In a pretty old man now, but like a good many other people, my stomach went back on me from time, and I cannot get any food and the requirements of the body. After experimenting a good deal I came across Grapes-Nuts and was convinced that this food met all the requirements of health, and as a daily diet is indispensable to me.' 'I am not a doctor, but it is easy to understand that the great change from my former condition to my present good health and ability at the age of 67, in walk 25 miles a day, if inclined, is due to Grapes-Nuts, and the proper nourishment my body has received from this valuable food.' 'The crispness of Grapes-Nuts gives the teeth sufficient action to keep them in good condition; its taste is delicious, and the way it is prepared corrects any digestive trouble a person may have. I know my lease of life has been renewed for a term of years by its use.' Name given by Postum Co., Battle Creek, Mich.

A TUG OF WAR! Five Thousand Tons in Railway Yards Wednesday's Receipts Were 40 Cars

Eluminous Sold to All Corners, But Down-Town Offices Displayed "No Hard Coal" Signs on Their Windows—Relief Officer Reports Very Little Distress During Cold Snap.

Receipts of coal in Toronto yesterday: By Grand Trunk 510 tons, Great Northern 450 tons, Erie 400 tons, etc.

Members of the relief committee of any number, say their services, for the first year at any rate, will be appointed.

MR. LONGLEY RETIREMENT. Hon. J. W. Longley, Attorney-General of Nova Scotia, was in the city yesterday.

FREE COAL DISTRIBUTION. Chicago, Jan. 14.—Wagons loaded with coal, purchased by funds subscribed on the part of the city, were distributed today.

SMACKS OF THE DEVIL. Editor World: The unconscionable greed of those that mine the coal, that conveys it to the city, is being experienced.

CO-OPERATING WITH MENELIK. Abyssinian Support Will Be Obtained Against the Mullah. London, Jan. 14.—Two British officers are being despatched from England to be attached to the force which the Emperor Menelik is sending to cooperate with the British in the coming operations against the Somali-Mullah.

INTERESTED IN CANADA. James J. Hill Makes Strong Address Favoring Reciprocity. Minneapolis, Jan. 14.—When the Hon. Clifford Sifton was banqueting here on Saturday night, James J. Hill made a strong address in behalf of reciprocity.

UPHOLD THE MONROE DOCTRINE SAYS LRD CHARLES BERESFORD

British Vice-Admiral Arrives in New York to Cement "Commercial Friendship"—Condemns Action of England in Joining Germany to Whip Venezuela.

New York, Jan. 14.—The Herald says: Vice-Admiral Lord Charles Beresford, C.B., M.P., arrived here yesterday on the Kaiserin Maria Theresa from Southampton on a mission, as he himself expressed it, of furthering the "commercial friendship which exists between the United States and England."

To study the administrative forms in business here and, perhaps, to talk on those questions which interest both countries is the object of the visit, which will last the first week in February, when he must return to take up his duties in parliament.

In no uncertain words did Lord Charles condemn England's hasty action in the Venezuelan matter, but said: "I mind you, I do not criticize Germany. Let each nation take care of its own affairs. He regretted that his country had done any act which might endanger the friendly relations between the United States and Great Britain."

When met at quarantine his first words to a reporter were: "How is my old friend, Mr. Roosevelt? I have just learned that he will stand for peace, and no one will dare attempt to start a war. The 'Great Old Man' of America. His advice on any question affecting national matters and the good of the world has always been invaluable. My first act after landing will be to go to once to his home and pay my respects to his family."

Believes in Monroe Doctrine. "There was the danger that such action would irritate the people of the United States, and that the Monroe Doctrine, an American sentiment should remain as it is from the United States point of view, and I am a firm believer in the theory that the Monroe Doctrine should be upheld."

TERRORIZED BY BURGLARS. Residents in West End Have Reason to Fear the Stanley Park Gang. Montreal Board of Trade Will Send Representatives to Ottawa.

Montreal, Jan. 14.—The Council of the Montreal Board of Trade today was addressed by W. G. Macdonald, representing the Canadian Cattle and Sheep Raisers' Association of Great Britain, who urged action against the embargo on fresh meat from Great Britain.

BURGLARY AND PURSE SNATCHING. On Sunday night last, the residence of James Corbett, 1000 West Kings-street, was entered by a cellar window, and three watches, one of them gold, and a revolver and a purse were stolen.

Robbed in Algiers. London, Jan. 14.—A despatch to a news agency from Algiers says the wife of Daniel S. Kédder, the American Consul, was assaulted by footpads in the street last night. She was knocked down and robbed of her purse and jewelry.

ACTIVE BOARD OF CONTROL
Got Thru Business at a Lively Rate at Their First Regular Meeting.

WILL RUSH THE YONGE ST. BRIDGE.

The Board of Control went at business with a vim yesterday and disposed of a lot of matters in a small space of time. The Mayor was in evidence at the Hall before 9 o'clock, and his correspondence was disposed of in time for him to attend the board meeting at 11 o'clock.

Application will be made to the Railway Committee of the Privy Council for an order for the construction of a bridge over the railway tracks at the foot of Yonge-street. There are some mysterious legal objections, which will be heard privately by the controllers, but the resolution will go on to council.

The City Treasurer is asked to report upon Waterworks finances. He is also asked to show the revenue and the expenditure of the Waterworks Department. The Controller of the Waterworks Department has taken out a writ of mandamus to compel the board to report.

The board decided to put a stop to the delay in the erection of civic coats of arms. The Works Department will be asked to make a report on the subject.

The Board of Control will be asked to consider whether it is in the interests of the nation to place a differential duty on refined petroleum, as against crude, in order to establish a national refining industry. The resolution is directed against the Standard Oil Company.

Baron Heyl Zu Hurnheim replied to the Standard Oil Company's offer to sell oil cheaply only long enough to ruin competition, and then sharply advances prices. Dr. Pasche, National Liberal, said he thought it was time to get rid of the Standard Oil Company's monopoly.

The Legal Department recommended settlement, but Controller Burns thought the Street Railway Company should do the settling. Controller Richardson agreed with the idea of settling the claim and the matter closed.

The proposal to appoint a special commission to deal with the fuel situation was dropped upon, as the board is already dealing with the matter. The City Solicitor Caswell will report on the steps necessary for the city to take to deal with the fuel situation.

The controllers agreed that the smoke nuisance should be dealt with, and that smoke consumers should be taxed. The matter was turned over to the Licensing Commission.

The proposition to raise the salary of the chairman of the Works Committee was turned over to the Licensing Commission. Ald. T. Sharpe of Winnipeg was shown around the City Hall by Mr. Crane yesterday afternoon, and called upon the Mayor, Mr. Sharpe found a congenial subject in Mr. Crane when he spoke of Winnipeg's municipal affairs, and the manner in which the city is being run.

The cabinet interested in the Station-street Stand want to be relieved of the \$200,000 cost of the Stand. The Station-street Stand appeal. The costs were \$200. The legal gentlemen will be called before the board.

Aldermen From Winnipeg. Ald. T. Sharpe of Winnipeg was shown around the City Hall by Mr. Crane yesterday afternoon, and called upon the Mayor, Mr. Sharpe found a congenial subject in Mr. Crane when he spoke of Winnipeg's municipal affairs, and the manner in which the city is being run.

The Works Committee of 1903 will be re-appointed, and the board will have a report on the work of the committee. The board will also have a report on the work of the committee.

City Engineer Rush is preparing plans and specifications for the new engine for the Waterworks, which the ratemakers decided to purchase a year before the engine is installed. Mr. Frederick Borden, Minister of Militia, will be in the city to-day, to review the School Cadets in their uniforms. He will, in all probability, be interviewed by Ald. Sheppard's special committee, who would like to know what he has to say regarding accommodations for cavalry corps in the city.

More offers of coal are forthcoming from Old Company firms, and they will call until Street Commissioners Jones returns from Kingston, where he is arranging for the leaseholding of the 1200 tons of Welch coal, which is stalled there. Negotiations are going on toward the purchase of the Michigan coal offered by a Bay City firm.

The new government at the City Hall will hurry up Engineer Rust in his dealings with the Street Railway Company. Mr. Rust has the power to reimburse many of the numerous grievances against the company, but he does not exercise it. The Mayor is peddling his own ideas, and yesterday there was a consultation between His Worship the Corporation Council and the Street Railway Company. The latter cars on some lines may be expected, if the active policy is continued.

Died in Winnipeg. Winnipeg, Jan. 14.—T. W. Bready, President of the Winnipeg Elevator Company, died suddenly this morning at Houston, Texas, where he went a short time ago on account of ill-health.

CHILD WEAKNESS.

You can worry for months about your weak child and not succeed in doing it a fraction of the good that comes from little daily doses of Scott's Emulsion.

The cure of child weakness is not the matter of a day but of steady common-sense treatment.

Children like Scott's Emulsion and thrive on it. Perfectly harmless yet powerful for good.

AGAINST STANDARD OIL.

Charge Made That Company Kills Competition and Raises Prices.

Berlin, Jan. 14.—The Reichstag today adopted by 143 to 70 votes the Tariff Committee's resolution, asking the government to consider whether it is not in the interests of the nation to place a differential duty on refined petroleum, as against crude, in order to establish a national refining industry. The resolution is directed against the Standard Oil Company.

Herr Wurm, Socialist, said the resolution was designed to increase the price of petroleum "for the benefit of the bankrupt fuel and alcohol industry."

Baron Heyl Zu Hurnheim replied: "The Standard Oil Company sells oil cheaply only long enough to ruin competition, and then sharply advances prices."

Dr. Pasche, National Liberal, said he thought it was time to get rid of the Standard Oil Company's monopoly, which already had cost Germany \$12,500,000 because of its discrimination against Germany compared with other countries.

Herr Goehen, Radical Liberal, said if the government attempted to do what it was asked to do, it would be failed. France had tried and failed.

LOAN TO COVER DEFICIT.

Berlin, Jan. 14.—The Prussian budget estimates for 1903 show a deficit of \$18,175,000, which will be covered by a new loan. The revenue is estimated at \$650,551,482, the ordinary expenditure at \$629,092,408, and the extraordinary expenditure at \$39,624,064.

GOVERNMENT OWNERSHIP.

Judiciary Committee of U.S. House Further Progressive Resolution.

Washington, Jan. 14.—The chairman of the Judiciary Committee of the House today introduced the following resolution: "Resolved, that the committee on the Judiciary be and is actively directed to investigate and report to this House with an convenient speed the opinion of that committee as to the power of Congress to declare that a necessity has arisen for taking possession of coal beds and coal mines in the United States, and that it is the opinion of that committee the power exists, and it is necessary to the exercise of such power as arises that committee forthwith report to this House a bill declaring it necessary, providing fully and in detail the occasions, modes, conditions and purposes for said appropriation that will fairly and completely exhaust the power of Congress in that regard."

License Commissioners.

More license commissioners have been appointed through the Province, as follows:

Addington—John Harris, A. A. Conroy, Peter Finn.

Carleton—William Bell, James D. Lindsay, John McKinnon, W. B. Purdy, W. C. Lewis, Alex. Grant.

Kingston—Robert Crawford, A. R. Martin.

West Nile—Terry Morin, Alex. Hamilton, S. W. Wright.

St. Catharines—F. Kilmer, William Shea, Robert Colgan.

North York—James Miller Veitch, William Schaefer, J. N. Zinkler.

South West—Fred Reinkens, Thomas Stewart, Smith.

Welland—C. D. Emmett, J. W. Jewson, T. H. Crow.

North York—Eugene Carl, E. O. Webb, H. W. Fleury.

South Bruce—Andrew Waechter, Dr. Sullivan, James McLeod.

Hamilton—John Proctor, A. Zimmerman, Dr. H. S. Griffin.

British's Ready Kissmen.

London, Jan. 14.—The Attorney-General, Mr. Robert Balfour, yesterday spoke of the many services rendered by the colonial troops during the South African campaign. These services, he said, proved that British soldiers had a natural tendency to be loyal and willing to help the Old Country in any crisis or at any moment of peril.

Anglo-Saxon Union Banquet.

Holders of invitation cards may secure admission tickets to the banquet to be held tonight at the Rossin House at 7:30, instead of the Empire Building, as previously announced.

The committee or Captain Melville, honorary secretary, corner Toronto and Adelaide streets.

Now and again there is an item in the newspapers concerning the birth of a puny baby so small that a quart cup holds it comfortably.

If the article told all the facts it probably tells also of a mother who through weakness and misery had looked forward to the baby's advent with shrinking and fear.

To the fine, healthy children the mother must be healthy, and it is the common testimony of mothers that the use of Dr. Pierce's Favorite Prescription not only promotes the mother's health but also gives her strength to give to her child.

"Favorite Prescription" accomplishes these results by tranquilizing the nervous system, promoting a healthy appetite, and giving refreshing sleep. It increases physical vigor and gives great muscular elasticity, so that the baby's advent is practically painless. It is the best of tonics for nursing mothers.

I gladly recommend Dr. Pierce's Favorite Prescription to every mother who is weak, or who has borne a puny child, or who has had a difficult and a suffering very much less than I ever did before. Unsatisfactory advice expected from a mother to use the "Favorite Prescription." The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines.

Dr. Pierce's Common Sense Medical Adviser, containing 1000 pages, is sent free on receipt of stamps to pay expense of customs and mailing only. Send 50-cent stamps for the cloth-bound volume, or only 31 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

RAIL FIRST-PASSENGER TRAIN

Over the Grand Trunk Between Hamilton and Niagara Falls in the Year 1852.

DEATH OF ENGINEER DORMANDY.

Ran the First Empire State Express Over the Mohawk Division—Retired in 1895.

Schenectady, N. Y., Jan. 14.—Thomas Dormandy, one of the oldest railroad engineers in the United States, died to-day at his home in this city, as the result of a stroke of apoplexy, aged 75 years. He ran first in 1850 on the Grand Trunk, and was afterwards employed on the "John Bull," and in 1852 he went to Canada for the running of the first passenger train over the G.T.R. between Hamilton and Niagara Falls. He ran the first Empire State Express over the Mohawk Division, and in this service until he retired, in 1895. He was an alderman for many years, and recently was appointed Recorder of this city. He was a life-long Democrat, and was a candidate for Mayor in 1871.

WILLIE SMITH ENDORSES THIS REMARKABLE PREPARATION—MANY OTHER ENDORSEMENTS BEING RECEIVED—PROVE THIS REMEDY TO POSSESS EXTRAORDINARY EFFICACY.

BY MUNYON'S COLD CURE.

Willie Smith Endorses This Remarkable Preparation—Many Other Endorsements Being Received—Prove This Remedy to Possess Extraordinary Efficacy.

There is no other preparation that in any manner approaches my Cold Cure in curing colds, influenza, croup, expectorations and all such troubles with difficulty. I could not say there are no bad after-effects, as in the case of stimulants. No weakening of the system by the excessive sweating some so-called treatments require. The cold is cured, that's all. Simply breathe freely, and all such troubles that taste pleasantly and will infallibly cure. My Cold Cure is not expensive; twenty-five cents is not much to pay to get well. And yet the expenditure of that twenty-five cents in my Cold Cure has saved many a man, woman and child from consumption.

PUT ACT INTO FORCE.

Says Parkdale Royal Templars to Premier Ross by Resolution.

The Parkdale Royal Templars want the government to give the temperance people the Ontario Liquor Act, 1902. At this week's meeting at McMath's Hall, it was moved by George P. Scott, and adopted that the Ontario Liquor Act, 1902, be put into force.

ESCAPES THRU ILLNESS.

Former Bank President Never to Be Tried as Wrecker.

Elmira, N. Y., Jan. 14.—George H. Lapham, the former president of the Pennsylvania National Bank, which he is charged with wrecking in 1898 and misappropriating \$60,000, will never be tried on that charge. He is nearly 70 years of age, has sustained his health, and is now in a private hospital in this city. Three physicians have testified in the United States Court that if Lapham were tried, he would not be able to stand the trial, and that he would be likely to die.

Says Parkdale Royal Templars to Premier Ross by Resolution.

TRAINER FOR THE ST. GEORGE HOCKEY CLUB

Rev. Dr. Gordon Given a Warm Welcome at Kingston Yesterday Afternoon.

STUDENTS DREW HIM IN SLEIGH.

Mayor Bell Tenders the Civic Greetings—Speechmaking in Convocation Hall.

Kingston, Jan. 14.—Kingston gave a sterning welcome this afternoon to the new principal of Queen's, Rev. Dr. Gordon Given, of Halifax. Over 1000 people were in the station. In the car with the principal-elect were Sir Sanford Fleming, chancellor, and 45 college representatives.

Mayor Bell and the aldermen first entered the car on its arrival and were presented to the distinguished principal. A few minutes later Dr. Gordon stepped out of the car platform, and a great cheer broke forth, students waving their hats and canes and the ladies fluttering streamers of Queen's colors and handkerchiefs.

The new principal, accompanied by Sir Sanford Fleming, Mayor Bell and G. M. MacDonnell, K.C., was met in a sleigh by the students at the University. In convocation hall there was a tremendous crowd, and Dr. Gordon received another great ovation. The chancellor provisionally called the new principal, and in a few addresses of welcome were given by Mayor Bell, Sir Sanford Fleming, and G. M. MacDonnell, K.C., on behalf of the Senate, Prof. Gordon on behalf of the School of Mines, and J. H. Laidlaw on behalf of the King's Master Society.

Gordon made an eloquent and gracious reply. The flag on the city building, University, hospitals and other places were unfurled in Dr. Gordon's honor.

AUDIENCE ASPHYXiated.

Trouble Not Found Till People Fell From Their Seats.

St. Mary's, W.Va., Jan. 14.—Nearly the entire gallery audience at the Auditorium Theatre, as well as members of "The Actors' Company," suffered from asphyxiation on a whole-scale last night during a performance by the company.

THE PROVINCIAL SITUATION.

There is little use in condemning corruption, or condemning the "saw-off" unless some remedy can be proposed. The saw-off is the logical result of treating an election trial as a piece of private litigation.

Another important matter is the protection of provincial and municipal interests in the legislation that comes before the House. In a fight between a municipality and a private corporation, the former is likely to be at a disadvantage.

It is not necessary that there should be a stupid or factious or unreasonable opposition to any enterprise, which promises to develop the resources of the Province. What ought to be recognized is that every franchise or concession granted for this purpose is not a free gift, but a trust for the people.

Along with this the private corporations and holders of franchises ought to be taught that they are servants, not masters, of the people. They have a right to be heard before the committees of the House as suitors, paying due respect to the representatives of the people; but the methods which many of them now employ are not only unfair, but insulting to the legislature.

These suggestions for a Provincial program are made in the hope of drawing other suggestions and proposals. The wider the field from which these suggestions come the better chance of making a genuine people's fight.

Canada is asked to abandon a tariff principle that has been the life-blood of her magnificent industries, in order to pull a few chestnuts out of the fire for the United States.

Reciprocity in coal might prove a slight fiasco, in the mitigation of the fuel stringency in Ontario. It might, on the other hand, benefit the coal interests, to the absolute exclusion of the consumers.

But, the one opportunity has been lost, there is no reason why collateral considerations should suffer. Marconi's operations in Canada have been so far largely experimental. The formation of Marconi Wireless Telegraph Companies marks the departure from the experimental to the commercial.

The World is prepared to go even further than La Presse, and to say that any party which banked upon the physical weaknesses of its opponents would be in a very miserable position.

Boys' Fancy Vestee and Brownie Suits, worth \$4.50, for \$2.25

THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST

BOWEN COMING HOME. BRITISH SHIPS ARE SAFEST.

Hopes to See Venezuelan Trouble Settled Without the Hague. Kingston, Jamaica, Jan. 14.—The despatch boat Dolphin, with Minister Bowen on board, called here today for coal.

Too much coal is going up in price and too little of it in smoke. Time has returned the Canadian Senate, but it has made awful havoc of the Ottawa situation.

Mr. Bowen visited the Governor's residence. He says he has full powers as the representative of Venezuela, at the coming of the British fleet to the Gulf.

DANCING IN THE PALACE OF THE KING.

When a girl has safely survived the ordeal of a presentation at court, said a young society lady to the writer—and I can assure you it is a most formidable, if fascinating, ordeal for nine girls out of ten—she begins to look forward with delight to the day when she will be invited to dance in the King's Palace.

I shall always have the pleasantest memories of my first ball at Buckingham Palace. This was, of course, in Queen Victoria's lifetime; but one state ball is exactly like another, and as so many are looking forward to a resumption of these agreeable functions perhaps a little account of what they are like may prove interesting.

Certainly the overture to a royal ball is anything but attractive—the slow, almost endless procession of cardinals creeping along the Mall and halting every few yards; but this, like all things, comes to an end, and when at last we emerge thru the palace gates, where a courteous police official takes our cards of invitation, and pass into the courtyard, gay with the uniforms of the Household Cavalry Guards and Hussars, the transition is a delightful antepast of all that is to come.

As we leave our carriage and enter the large and brilliantly lighted entrance hall it is like passing into a fairyland of dazzling colors. Here we are drawn up the famous Yeoman of the Guard in their picturesque Old World uniform, bringing back a glimpse of England when Henry VIII. was King. Here, in brilliant groups, are men and women attired in a splendor that Solomon might have coveted, and in colors more varied and certainly more artistic than those of Joseph's coat. Duchesses and countesses blinding with jewels, and wearing the most sumptuous and daintiest gowns that skill and money can produce; cabinet ministers in all the glory of gold-embroidered uniforms and stockings of pink silk; admirals in their more sober but effective attire of blue, with epaulettes of gold, famous generals in all the splendors of scarlet and gold; stalwart young officers of Life Guards and Hussars, many of them adorned with medals, and hued as peacocks; portly ambassadors, ablaze with orders, rubbing shoulders with dandified young attachés with eyeglasses, diplomats in fizzes, and mandarins in yellow silk jackets—all smiling, chatting, joking, and grouping and regrouping themselves in the bewildering movements of a kaleidoscope.

Along the magnificent corridor, hung with priceless pictures and flanked by exquisite statuary and objects of art gathered from every part of the world, the same brilliant crowd overflows; and on the luxurious couches lining the length of the corridor sit stately dowagers side by side, with young lovers, who are snatching a few golden moments before the ball begins.

But their time is short, for in a few moments the strains of "God Save the King" are borne to our ears; the brilliant procession of royal personages files past and in a long, glittering stream the hundreds of guests flow in the wake to the ballroom.

Of the magnificence of this room I need not speak, beyond saying that it is perhaps the most superb ball-room in England, more than 100 feet long, 30 feet wide and 34 feet high, and that its decorations alone are estimated to have cost £200,000. At one end is a low dais, on which are chairs for the royal party, on the right are reserved for the principal persons, while other seats running round the hall are appropriated to less exalted guests. The musicians are in a gallery on the side opposite the dais.

The ball invariably opens with a quadrille, the principal sets in which are made up of royal dancers with all the privileges of a select society, and families. The King himself is still an ardent lover of a dance, and on the occasion I refer to took part in quite a number of dances, the dancing being a delightful free from formality as at a country house ball; and with a purple floor, the most enchanting music and ideal partners the dancing cannot be too perfect. There is a very good kind of creature.

In the intervals between the dances there are endless secluded and cool corners where the weary and the cold can find a moment's repose. The dancing is a very good kind of creature.
