A quiet wedding was solemnized Thursday afternoon at Broadway Tabernacle, when Rev. L. W. Hill married Miss Irene Marie Weaver, the only daughter of Mr. and Mrs. Charles E. Weaver, to Mr. George W. Henderson. The bride, who was given away by her father, was attended by Miss Yvonne Peters, while Mr. Andrew Hunt supported the groom. The wedding music was rendered by Miss Dolly Blair, and palms and ferns formed the church's only decorations. The beautiful bridegroom was of Brussels lace over satin, of an empire model, and a chapel of orange blossoms caught up the veil, while a lovely shower of roses and lilies was carried. The bride's maid's frock was of pink silk voile and lace, with which she wore a large white picture hat adorned with roses and carried a bouquet of pink roses.

Mrs. Weaver wore a handsome gown of grey silk collette, with hat to match. After the ceremony the bride couple received their intimate friends and relatives at their new residence, 70 Beattie-street, departing later for a honeymoon across the lake. The going-away dress was of dark blue cloth, with hat of tulle, with pastel roses.

### Conservatory Concert

Pupils Give Good Account of Themselves in Massey Hall.

It was a splendid testimonial to the place the Conservatory of Music holds in the hearts of the people to see Massey Hall really crowded last night when the annual concert of this progressive institution was given by the most proficient pupils.

An excellent innovation was the employing of the Toronto Symphony Orchestra to assist the pupil-performers in the concerted pieces. The program was evidently designed to show the attainments of the young vocalists and instrumentalists, or what is the same thing, to prove that the Conservatory of Music is in the advance line of efficiency in music culture.

One could easily be convinced of this, even without having heard the pupils last night, simply by scanning the names of the teachers, whose students displayed their accomplishments so brilliantly. The teachers represented were:

H. Ethel Shepherd, Dr. Edward Fisher, Howard Massey Frederick, Dr. A. S. Vogt, Dr. Edward Broome, Mrs. B. Drachler, Adamson, Dr. Albert Ham, Frank S. Wetman, Henry J. Lauts and J. D. A. Tripp.

It would be an infringement of etiquette to make critical comparisons, at least amongst the young musicians. But it is justly said that an impartial appreciation of their singing and playing last night must be thoroughly congratulatory. Dr. Fisher and his staff of teachers are second to none on the continent; and the encores and bouquets their pupils received at last night's concert prove that the audience were in cordial agreement with this opinion. The work of the School of Expression was well represented in the last item of the program, "As You Like It." It was a good concert thrust and a credit to Dr. Fisher and his associates. J. D. Logan.

## SELL BAY ST. FIREHALL TO BUILD FOUR NEW ONES

Chief Thompson Thinks Sale Would Realize Necessary Funds—News of City Hall

That the city sell the old Bay-street firehall and use the proceeds to build firehalls in other sections of the city, was the proposal made to the board of control yesterday by Chief Thompson.

The chief said the property should bring in from \$125,000 to \$150,000, and that \$125,000 should cover the cost of four new halls for East Toronto, corner Bathurst and Dupont, Pegg-avenue, and the Avenue-road district. The plan will be carefully considered.

Owing to the establishing of the new central firehall on West Adelaide-street, the station on Bay-street is no longer needed.

Opposes Annexation. Chief of Police Graesset protested against the proposed annexation of a strip of land between East Toronto and Scarborough Township. He explained that he owned 42 acres, that the property was only a sandbank, and that there was no occasion for it to come into the city. He was advised to allow the Ontario Municipal Board.

It now looks as though the \$45,000 voted by the city council for the widening of the Dundas-street bridges will be insufficient. Two tenders were opened yesterday, one for \$22,000, and the other \$25,000.

Portrait of Early Mayor. The family of the late John George Bowes, one of the early mayors of Toronto, will present a portrait of him to the city. Mr. Bowes was elected by the council 1851-52-53, and by the people in 1861-62-63. The portrait is the work of E. Wyly Grier.

The most important of the batch of new street pavements recommended by the city engineer is medium asphalt on Shaw-street from Queen-street to Arthur-street, to cost \$15,625.

EARL GREY SAILS TO-DAY. OTTAWA, June 3.—(Special).—Earl and Countess Grey left this afternoon for Quebec. The governor-general will sail to-morrow for England. Lady Grey will make a brief stay in Quebec.

Sir Charles Fitzpatrick will be the administrator of the government in the absence of Earl Grey.

The Atlantic coast from Maine to Florida will soon be protected from foreign invasion by a squadron of dirigible balloons if congress can be brought to see the necessity and value of such defenses.

## LACK CONTRIBUTIONS FOR HOME MISSIONARIES

Unless Presbyterian Church Members Do Better This Year, Committee Will Retrench

HAMILTON, June 3.—(Special).—The Presbyterian General Assembly to-day discussed the reports on Home Missions and Young People's Societies.

In the report on home missions (western section) submitted by Rev. Dr. E. D. MacLaren, the following points are emphasized:

"The church made inadequate provision during the past year for the prosecution of this vitally important work."

"Because an insufficient number of missionaries were obtained, the expenditure (estimated at \$136,000) was only \$170,712.99, but contributions were \$13,753.10 less."

"It was accordingly decided to draw upon the reserve fund... and to appeal both to the piety and the patriotism of the church for the amount (\$25,000) necessary in the current year."

"The reserve fund includes \$50,000 from the Century Fund, and only the interest on this amount can be used by the committee."

"If the expenditure for the current year reach the estimated figure and the contributions show no advance, the reserve fund will be reduced next spring by \$10,000. In that event your committee will be compelled, not merely to call a halt, but to sound a retreat."

"With a record of achievement unassisted by the annals of any mission, we are prepared to confess that the task has grown too big for us, or that we have no longer any stomach for the fight? Altho thousands of Presbyterians have grown wealthy during the past ten years of great national prosperity, more are saying the whole Canadian public that Presbyterians can no longer bear their fair share of the financial burden that the Christians of Canada must be prepared to carry."

84 New Fields. "Eighty-four new fields have been opened, of which ten are in Ontario and Quebec, forty-one in Manitoba and Saskatchewan, eighteen in Alberta, and fifteen in British Columbia. The total number this year is the greatest increase of 47, an equal, if not greater, expansion will be called for during the present year."

"The weakest point in our whole system of home mission work is the inadequacy of the supply of workers, especially during the winter months. For the past two or three years, however, owing to the rapid increase in the number of fields for which our committee have had to make provision, the insufficiency of the number of missionaries has been keenly felt even during the summer months. This is the gravest of many grave problems that the church is called to deal with."

"Appropriations are made for mission work among the alien population of cities."

"We have now secured a series of evangelistic ports extending thru the whole of the statistical report will show that during the past year the list of societies has been considerably augmented, and that the membership has increased by more than 1300. Of these a goodly proportion were young men. There has been a slight decrease in contributions."

"The committee recommend that the young people each contribute ten cents a week to missions and that ministers call the attention of their young people to the importance of prayer for the quickening of spiritual life."

Queen's College Endowment. "The work done this year has been carried on under unusual difficulties. Uncertainty as to the future relation of the church and university, financial depression and the partial failure of crops in Eastern Ontario, and the many other appeals made to men of ample means, have made effective work well-nigh impossible."

Patten Wheat at Port Arthur. PORT ARTHUR, June 3.—(Special).—Shipments of high-grade wheat from local elevators are rather light at present, a large amount known as Patten wheat being held for July delivery.

Forest fires are reported to be assuming somewhat serious proportions in Guntiff section, near North Lake, on the line of the Duluth Extension Railway.

Capt. Thos. Trethewey and his son William are here from Goderich to announce arrangements under way for re-opening the Ferguson Silver Mine at Mine Centre.

The bubonic plague has broken out at Caracas, Venezuela. Mass. street railway strike has been settled.

Young People's Societies. "Altho the reports from year to year do not indicate remarkable growth, yet when the report of this year is compared with those of seven or eight years ago, it will be seen that real progress has been made. Then there was no text book covering the missions of our church; now there are three. Then there was probably not a single mission study class; now there are 84. Then there was no Young People's day; now the day is regularly observed and a special exercise is prepared for it."

"Then, so far as known to your committee, no lectures were delivered in the theological colleges on the organization and maintenance of societies; now lectures on these subjects are delivered in all colleges. A general card, guide pledge cards for both active and associate members, a guild wall pledge, a society button have been introduced. The societies have increased in numbers."

"The membership is considerably larger than it was; contributions show a decided increase, and apparently more earnest efforts are put forth to

FOUR CITY BEAUTIFIERS IMPROVEMENT MEETING

Some Recriminations Hurdled Across Board Over Proposed Yonge Street Widening

There was no quorum at the meeting of the civic improvement committee at the city hall last night. Only four members showed up, Ex-Mayor Ureghart, Ald. Adams, James Firstbrook and J. P. Hynes. Four Yonge-street property holders drifted in, however, John Morrison, Dr. Sheard, Matthew Sheard and George Sheard, and the meeting degenerated into a squabble on the question of the widening of Yonge-street, in which recriminations were freely hurled across the table.

"Some of these agitators will be found to have property in the neighborhood of College and Yonge," said Dr. Sheard, as he thumped the table. He also referred to the committee as "civic beautifiers, these civic butterflies, if I might so call them."

One of the committee took him to task for his reported saying that "it will take several garbage cans to cart this committee away," and he was told that it was no use his going round throwing stones at this movement, that he had no right to abuse

the committee and that it was beneath his dignity as a civic official. The clouds cleared away, however, before the meeting dispersed, and Dr. Sheard shook hands all round to show that there was no hard feeling.

## Note and Comment

Krausmann's Imported German Beers on Draught corner Church and King-streets.

Four of the beaten favorites yesterday finished second or just where they would keep some of the backed horses out of the place and show money. Ted River was the only straight favorite to land. Expansionist in the steeplechase being split with Steve Lane that finished second. Dredger in the sixth was the only public-choice outside the money.

Two long shots, one outsider and second and third horses furnished the surprises. Who ever heard of Wildfire that beat out Compton a head at any old price? Also Pokomo and Bobby Kean, who there were quite a few on the winner of the closing race at 10 to 1.

The layers displayed resolution by staying in line regardless of the muttering of the day before. They were kept on the jump by the uniformed officers, the latter doing their utmost to assist the men of odds in observing the race. The horse was merely practising the lock-step in preparation for the gloomy days ahead.

The withdrawal of Courtier induced Mr. Dymont to add Fort Garry to the Produce Stakes and was a fortunate move, the prize netting the Barrie turfman upwards of \$2000 and at the same time showing that the Fort Hunt or colt is more than a joke three-year-old.

The best in America is none too good to score sometimes at Woodbine Park. Yesterday King James won the Brooklyn Handicap, the only real opposition being from his own stablemate, Dia-blo the time 2:04 is a new record for the race. Last Saturday he captured the Toronto Cup with very little fight and then had all the best of the racing luck.

This year the Brooklyn is only worth \$5000 to the winner against \$19,750 last June. The race was instituted in 1887, when the value was \$500 and includes in its list of winners the most famous horses on the continent during that time, viz: Dry Monopoly (4), The Bard (5), Exile (7), Castaway II, (4), Tenny (3), Judge Morrow (5), Dia-blo (7), Dr. Rice (4), Hornpops (4), Sir Walter (6), Howard Mann (4), Ornament (4), Banister (4), Toronto Mack (4), Conroy (3), Reina (4), Irish Lad (3), The Picket (4), Delhi (4), Tokalon (5), Superman (3), Celt (3) and King James (4).

One bad innings gave the game to Toronto yesterday and two straight defeats seem strange to the Fort Hunt other to-day and it may be time for a change of name.

## Leafs Nosed Out By Rochester

## Bronchos Score Two in First Innings, While Toronto Count One in the Ninth.

ROCHESTER, June 3.—(Special.)—Rochester put the kibosh on Toronto again today, but the Leafs sprung a batting rally in the ninth that nearly tied up the score only a fast double play, which ended in the sixth, saving the day and ending with the score 2 to 1 in favor of Rochester.

Kellogg and Harger were the opposing twirlers and, although the former held the locals down to three hits, he was chock full of generosity, passing no less than sixteen men, his first charity paving the way for Rochester's two scores. On the other hand Harger only issued one base on balls, but was touched up for seven bingles, Harger controlling three.

Rochester counted their two runs in the first innings, when Anderson was passed and sacrificed, and Anderson pifered third, while Maloney was safe at first, when Erick tried to get Anderson at third on a home field crossing the plate and ending with the score 2 to 1 in favor of Rochester.

The withdrawal of Courtier induced Mr. Dymont to add Fort Garry to the Produce Stakes and was a fortunate move, the prize netting the Barrie turfman upwards of \$2000 and at the same time showing that the Fort Hunt or colt is more than a joke three-year-old.

The best in America is none too good to score sometimes at Woodbine Park. Yesterday King James won the Brooklyn Handicap, the only real opposition being from his own stablemate, Dia-blo the time 2:04 is a new record for the race. Last Saturday he captured the Toronto Cup with very little fight and then had all the best of the racing luck.

This year the Brooklyn is only worth \$5000 to the winner against \$19,750 last June. The race was instituted in 1887, when the value was \$500 and includes in its list of winners the most famous horses on the continent during that time, viz: Dry Monopoly (4), The Bard (5), Exile (7), Castaway II, (4), Tenny (3), Judge Morrow (5), Dia-blo (7), Dr. Rice (4), Hornpops (4), Sir Walter (6), Howard Mann (4), Ornament (4), Banister (4), Toronto Mack (4), Conroy (3), Reina (4), Irish Lad (3), The Picket (4), Delhi (4), Tokalon (5), Superman (3), Celt (3) and King James (4).

One bad innings gave the game to Toronto yesterday and two straight defeats seem strange to the Fort Hunt other to-day and it may be time for a change of name.

At Chilton—The best game of baseball ever witnessed in Chilton was that between Goderich and Clinton last night. The game was faultless up to the ninth inning, when Clinton apparently went to pieces. Up to that point the score was 4 to 2 in favor of the home team, but the ninth was the lucky one for the visitors, when they piled them up in hand. YESTERDAY'S ONE

BEST BET

LOST

Yesterday was the first time in five days that our One Best Bet failed to get the money. When playing the races you must make allowance for an occasional losing bet, as no man ever lived who concentrates his best efforts to locating one safe bet a day "that could give a winner every day."

Below is Our One Best Bet Record:

THURSDAY IT LOST

WEDNESDAY JUGGLER 13-5, WON

TUESDAY CHILLA 11-10, WON

MONDAY SHORE LARK 4-5, WON

SATURDAY STAR WAVE 6-5, WON

FRIDAY BELLWETHER 9-5, 3RD

THURSDAY GOLDEN BUTTERFLY 11-10, WON

WEDNESDAY DRESS PARADE 8-5, WON

TUESDAY BOBBIE KEAN 8-5, 2ND

MONDAY GUY FISHER 6-5, WON

SATURDAY SHIMONESE 6-5, WON

Yesterday's loss can be easily discounted by our clients, as they are all away ahead of the game. Don't let your confidence in us be shaken because our One Best Bet did not run up to expectations yesterday, and allow to-day's good thing to get away from you. If you do you will make a costly mistake.

Remember, "REYNOLDS" can always be depended upon to come right back with a winner after a losing day. His record proves this. During the seven-day meeting last fall at Woodbine, we gave six winners, and at the present meeting, of which eleven days have elapsed, we have not given as many as two straight losing horses at any one time.

YOU CAN DOUBLE YOUR BETS ON THE HORSE WE WILL HAND OUT TO-DAY, as he looks like the surest winner of the meeting, and he will be a good price, too.

FOR SATURDAY

we have the star good thing of the year. This will be another big surprise like JACK PARKER, 60 to 1, was, who won the first day of the meeting. See to-morrow's ad. for full particulars.

## THE GRAND TRUNK AWAKES IN NORTH TORONTO AT LAST.

Railways are not as far-seeing as the public sometimes think; in fact, nobody stands in his own light so much as a railway does in its at times. Take, for instance, the case of the Grand Trunk and North Toronto. Quite a number of years ago the Belt Line Railway was built around the city, crossing Yonge-street at Mount Pleasant Cemetery. On account of the small amount of traffic and the almost entire absence of freight, the proposition was abandoned. Now it is proposed to resurrect it, at least, as a freight proposition.

In the same direction the Canadian Pacific quite a number of years ago built a line across Yonge-street from Toronto Junction to Leaside, and the latter changed over the passenger service that, and now it went that way, they continued to develop their freight business; and, as a consequence, all the building material that has been used in Toronto north of Bloor-street for the past ten years, whether stone or brick or lumber, sand, or gravel, has been landed at North Toronto within easy teaming distance of the marvelous building development that has taken place in Rosedale, along Davenport-road, up on the Hill and all thru North Toronto.

The point we wish to make is that the Grand Trunk Railway, having the Belt Line in its possession, has seen this marvelous amount of business going to the Canadian Pacific and has not made a single effort to share it. At last, however, the Grand Trunk has wakened up, and now it is reconstructing the Belt Line and intends to put freight sidings at Yonge-street, just north of the cemetery. The moment it does this it will be in the best position to deliver the building material for the enormous building boom that is now going on in the Town of North Toronto and adjacent territory. And this brings us back to where we started: why the Grand Trunk did not do this years ago, why it has only wakened up to-day to a very profitable business that has been at its doors for years.

## WHAT IS A COMMON CARRIER?

When the present Railway Act was introduced into parliament, the member for South York and some others tried to have inserted a definition of what a common carrier is. The then minister of railways and a number of other corporation lawyers in the house sidetracked the proposition. Ever since the act has been in force, this question has constantly been arising; and we have now the express companies claiming that, they even are not common carriers, and are therefore not subject to the law. Next we will have the steamboats who do business in connection with the express companies and the railways, making the same pretence. The act, The World has said, is a good one, but it is often lacking in clear definitions and declarations. This leads to long arguments before the courts, and delays and appeals, when a quick and certain process would be effected if more exact definitions were inserted.

Altho the express companies have been within the act now for over two years; they are still disputing the commission's authority to regulate their rates. Public opinion will justify the commission bringing these gentlemen to time at an early date.

## SCHOOL BOY MARKSMANSHIP.

Unfortunately the first attempt to bring Canadian school boys into competition in shooting with their cousins across the sea has proved a failure. So far as red heads to shoulder expense and despatch in sending the boys off were concerned, the Canadian Government is to be commended. Invitation by cable May 1, one boy ready to go on May 7, and two actually embarked for England on May 12, is a pretty good record. On the information it possessed, the government acted promptly and Toronto responded nobly. The boys were well fitted out, given a great send off and treated to the best that the land could afford so far as transport across the sea was concerned. In England they have been received with open arms and entertained as honored guests.

But what of the shooting? The contest—at a miniature range—was not worthy of the occasion, the expense and the trouble. The time selected was not suitable for school boys. The arrangements were made too hurriedly and the conditions of the contest were not thoroughly understood beforehand. It is to be hoped that future efforts of this kind will be proceeded with more deliberation, that more boys will be taken and that the contest will be brought on during the holidays. Such experiences as the recent one may be magnificent but, in the words of Marshal Canrobert, "they are not war."

## THE TWENTIETH CENTURY COLUMBUS.

Some years ago a Chicago newspaper undertook to find the North Pole by means of a balloon under the special guidance and direction of Walter Wellman, a newspaper man of reputation. The scheme appears to have been dropped, but Count Zeppelin has easily established that an airship can go a journey in a fixed direction of 10,000 miles, and it is certainly possible

to organize an expedition that will take a balloon by ship within 600 miles of the pole and thus enable the balloon not only to reach the pole, but either return to the station whence it started or to strike some post of civilization on the farther side of the pole. Our sizing up of the situation is that there will be a great competition now among the nations to reach the pole by airship. It also follows that interior portions of Africa, South America and Asia will be reached in a short time by means of aviation, and new areas of wealth will be more easily located in this way than by any other means. All the indications are that the airship is an immediate and near commercial proposition. Count Zeppelin by his perseverance and by his personal sacrifices has made himself one of the great romantic figures in the history of exploitation and adventure.

## CONFERENCE PRESIDENT WAS ONCE BLACKSMITH

Rev. Benjamin Greatrix of Belleville Has Advanced Another Notch in Noteworthy Career.

BELLEVILLE, June 3.—(Special).—From blacksmith's forge to the presidency of the Methodist Conference is the career of Rev. B. G. Greatrix of Belleville, to-day elected president of Bay of Quinte Conference. On the first of 194 votes, Mr. Greatrix received 122.

He said he was proud that the honor had been conferred upon him in the City of Belleville, where, in early life, he had spent some years at the blacksmith's forge.

He was born in London, England, and received into the ministry of the Methodist Church in Canada in 1880, and since then has served on eleven different circuits in this conference.

Rev. W. B. Tucker, of Oshawa, was appointed secretary.

At the ministerial session this afternoon the application of Rev. Rufus Garrett, duly qualified minister of the Society of Friends of Belleville, to join the ministry of the Methodist Church of Canada, was approved.

Rev. Mr. Reynar of Victoria College presented a verbal report of the prosperous condition of that institution. Railway reminiscences were recalled at the conclusion of Dr. Reynar's address by a number of ministers present, who had been under his tutelage.

Mayor L. W. Marsh gave a formal expression of welcome to the conference, being introduced by Sir Mackenzie King, a member of Bridge-street Church for over 75 years.

To-night at the anniversary service of Sunday School and Epworth League, P. R. Foley, Bowmanville, made a strong plea in the interest of league work. He considered the average age Sunday School members too young and tried to impress the necessity for older classes to take a greater interest in the study of the Bible.

One of the features of the meeting was the singing of a hymn by two little girls from the deaf and dumb institute, the principal of the school acting as interpreter.

Officers were elected for the laymen's missionary movement section. They are: President, M. A. James, Bowmanville; first vice-president, John Madill, Napanee; second vice-president, John H. Lakeland, secretary, R. L. Letford, Milbrook; executive committee, Jonathan Lane, Port Perry; A. M. Peterson, K.C., Colborne; B. Shorley, Peterborough; John F. Pilon; John T. Holgate, Foxboro; Dr. W. H. Clark, Lindsay; W. Flavelle, Lindsay.

## REV. J. W. SMITH PRESIDENT

Result of the Election in Hamilton Conference.

BRANTFORD, June 3.—(Special).—Rev. J. W. Smith, Guelph, who is slated for College-avenue Church, Hamilton, was to-day elected president of the Hamilton Conference on the first ballot, securing 175 votes out of 280. C. T. Bennett was elected secretary, and A. C. Cribb, secretary.

The laymen's proposal to extend evangelization of the church by holding more open air meetings in public places was voted down.

## WENT OVER IN IGNORANCE OF CONDITIONS OF SHOOT

Toronto Cadets Suffered From Sea Sickness and Had to Discard Own Rifles

The first letters from the Toronto cadets who went to London to compete in the match for the Princess of Wales' prize were received in Toronto yesterday by Principal Hagarty of Harbord-street Collegiate Institute. They were from his son, Galt. The young marksman makes no complaint in regard to his failure to make a good showing with the best boy shots of the empire. On the other hand he speaks in high terms of the reception accorded him and his comrades and of the arrangements for their entertainment.

The boys were unfortunate enough to have gone over when the old Atlantic was behaving badly. The Virginian went 1000 miles was sick all the way over, under the doctor's care and threatened with jaundice from which he had just recovered. He was under the influence of the mal de mer for several days. They arrived at Liverpool on the day after yesterday, and at London at noon. At the metropolites they were met by Dr. Hanson, secretary of the Lord Roberts' boys. Dr. Hanson expressed surprise that the boys had not received the program of the competition and it was not till then that Hagarty and Flood, who were with them, were able to get the program and what were the conditions.

The competition took place the next day, (May 24), and the boys were surprised that they had to use the Martini-Henry 22 rifle at 25 and 50 yards. They went over with their Ross rifles. The stages of the competition were 10 rounds in two minutes; 10 rounds at targets exposed 5 seconds and in eight 5 seconds; 10 targets in a minute and a half; then a walk to the Tower and back and 10 more shots in a minute and a half.

Under the circumstances it is not surprising that the boys did not carry away the prize. On the evening of Empire Day the Canadians were introduced to the Royal Albert Hall, where the Queen's Hall concert, and another of their pleasures was to be taken in review, and they were taken by Dr. Hanson to Buckingham Palace, where they were saluted by the King's Guards.

Principal Hagarty sent over with his son a letter to Lord Roberts suggesting the formation of a branch of the Lord Roberts' boys in Harbord-street. The field marshal was delighted with the proposal and it is expected that the steps to form the corps will be taken soon. Each company is presented with a library of 100 books and a book case.

The Toronto cadets were invited to stay over and take part in the Biscuit matches in August, but Galt Hagarty was anxious to get home and the party will sail on the Victorian on June 11. During the stay in London the boys took part in the miniature Biscuit match at 25 and 50 yards ranges.

## NOVA SCOTIA IN 1950.

In the June 5th issue of Collier's, "Practical Government," contributes to the "Canada of the Future" series an article upon Nova Scotia which is both historical and prophetic. No one in the Dominion can follow these forecasts of Canada's future greatness commercially as made by the leaders of the various provinces without painting new inspirations.

## A Progressive Newspaper.

In making it a point to give its readers the full advantage of the Lafan Press Bureau of New York for the supply of news, The London Free Press has just put itself on the back. This service is the outgrowth of an effort of the New York Sun to provide the public with the speediest and best news service possible, and the success that has attended is well known to the newspaper world throughout the Dominion. The rights of London Free Press has again given evidence of its progressiveness and its desire to serve the community in the most complete way.

## Prince Rupert Townsite Lots.

Latest adv. received at the general offices of the Grand Trunk Pacific Railway, Montreal, is to the effect that during the sales on Tuesday, Wednesday and Thursday of last week, lots of townsite of Prince Rupert—Pacific Coast terminus of the Grand Trunk Pacific—were sold in great numbers. The result is most gratifying, as the majority of sales were greatly in excess of the up-set prices.

## Horsemen

attending the Woodbine races will have a good opportunity to visit the Galt Horse Show on June 3, 4 and 5 and see Ontario's exceptional roadsters. Fare from Toronto to Galt and return \$2.00, including admission, coupon for the show. A splendid military ride by the Royal Canadian Dragoons on June 3rd and 4th is an attractive feature this year. Tickets and further particulars may be obtained at Canadian Pacific offices.

## SECOND CHARGE HANGS OVER

Arrested as Race Track Thief Phillips Must Stand Trial For Theft.

Charles Phillips, 144 Gamble-avenue, who was careful not to look like a tout, for it was that which got him into trouble yesterday after he had steered clear of it since February, 1908. It was the way that he was foreman in his home from Victoria street, intending to hold him as a vagrant until after the race meet.

When he got him to headquarters he discovered that he was wanted on a warrant for theft of over \$300 worth of goods from the Adams Furniture Company. The trick for which the warrant was issued was a neat one.

It is alleged that Phillips at the time of the Adams' store saying that he was Foreman in the street car motor shops and that an employee named Phillips, who was about to be married, would be up shortly to purchase an outfit for his new home. Shortly afterward Phillips appeared and got the goods.

After he had left the bogus Riley telephone again, saying that Phillips' pay would be ready Monday and the first instalment could then be collected. This gave the man time to dispose of the goods before any enquiry was made. On Wednesday there was nothing doing. No such person was known at the shop. The goods had been sold to various second-hand dealers and Phillips had disappeared.

otherwise constituted. Such commission to report to the next assembly.

Principal Forrest put in a word for the undenominational colleges which were turning out gentlemen, scholars and artists quite as ably as Queen's. Prof. Dyde adjourned the debate till the morning being Dr. Gordon's second.

The original motion is as follows: "The trustees of Queen's University having expressed their deliberate judgment that further changes in the constitution are necessary for the welfare of the university, the assembly resolve to appoint a commission to confer and co-operate with the trustees regarding the changes suggested, to consider all the interests involved, and to report their judgment in the whole question to the next assembly."

Principal Gordon began by pointing out that Queen's was not founded as a sectarian college, but as a university, the precursor of the present university. In 1827, John Sandfield Macdonald withdrew the provincial grant, the college then being regarded as denominational. As they passed, the college students became more and more national in spirit and service and became less denominational, it was because the university was simply sharing the expanding life of Presbyterianism, "for no church in Canada is less sectarian and more national than our Presbyterian Church."

The removal of denominational tests for the professors was sought. Twenty-seven years ago, the principal of the Presbyterian, and the principal of the Methodist, and the principal of the United Church, and the principal of the Baptist, and the principal of the We don't blame him—it is a beautiful handkerchief department, and our trade is growing like a young giant.

However, the great point is that 1000 women, confessing to a taste for fine linen, may each have a dozen Irish handkerchiefs, worth a dollar and a half, for 70c, in this store to-morrow.
