ITALIAN QUARREL ENDS IN STABBING

Claremont Street Laborer Has Abdomen Slashed Open With Razor During Drinking Bout—Victim Likely To Die.

CROWD SEE THE FIGHT ASSAILANT WALKS OFF
 With a dangerous sash in his abdomen, Giuseppe Rizzo, Italian laborer, living at 106 Claremont-street, is at the point of death in Grace Hospital, and the police are scouring the city for Rocco di Sabbato, 208 Claremont-street, his assailant. The stabbing occurred at the home of the injured man at 5:30 last night in the presence of a dozen other Italians, who refuse to talk of the affray.

A dozen Italians had been drinking in the kitchen all yesterday. Three kegs of beer had been consumed. Rocco, who had just come in from the front of the house, became engaged in heated discussion with Rizzo, who reached into a coat pocket and produced a red razor case. There was a vicious upward movement of his hand and he and Rizzo fell to the floor. Rocco got up and went quietly out and was seen to walk slowly south on Claremont-street. Rizzo did not rise and a stream of blood flowed from a long rent in his clothing. It was some time before medical aid was summoned, and then Dr. D. W. McPherson, 556 Bathurst-street, was called. He found the man lying on the floor, a cut an inch long on the left side of his abdomen, and the intestines protruding. He had the man removed in his private ambulance to Grace Hospital, where surgeons worked over him for an hour and a half. His intestines were found to be punctured.

The police were notified by phone to the Bathurst-street station at 6:30, and Benjamin Umbach hurried to the scene, picking up Detective Cronin on the way. Cronin picked up a razor case in the hallway, which bystanders said was that from which the razor had been taken, but the weapon could not be found. A search was made along 208 Claremont-street, where Rocco boarded, but there, too, the officers were met with the same shrugs and professed ignorance.

Rocco's trunk was searched, and a letter found addressed to him at 24 Carr-street, but he refused to give the address. He was taken to the police station, where the Carr-street house was found to be vacant, and at an address in St. Clare-avenue, which the former occupants had moved, they learned nothing of Rocco's whereabouts.

Rocco is said to be 22 years of age and single. He was short and thick set. He is said to have worked on cement pavement for the city, but to have quit his job on Saturday, August 28, he is 39 years old, with a wife and children in Italy. He has been in this country two years.

Inspector Dickson and Detectives Twigg, Archibald and Jarvis kept up a search all thru the night through the Italian settlements in the city.

It was in this same locality that Pasquale Ventricini committed the murder for which he was hanged in June, and less than a year ago an Italian was arrested in this very house for a serious stabbing.

WOMAN SMUGGLER CAUGHT
Wealthy, Too, But She Tried to Cheat Customs.

NEW YORK, Aug. 28.—According to customs officials, Mrs. I. Reynolds, Adirondack, N.Y., social, prominent and wealthy, will be summoned to appear at the customs house tomorrow on a charge of smuggling. Arriving today, she failed to mention in her declaration a valuable goods \$6000 pearl necklace, found after a search, hidden in her hat.

A woman inspector found a gold medal which Mrs. Reynolds had hidden in her hat, she said she had bought in this country, until Miss Helen Adriance, her daughter, exclaimed: "Oh, mother, why don't you tell me you got it in Lucerne. I wanted you to do it for me." She is liable to a fine of \$5000 and to obtain possession of the jewels she must pay a penalty of twice their value, \$6000, plus a duty of 60 per cent.

BAD FIRE AT FALLS
Incline Railway and Big Grist Mill Destroyed.

NIAGARA FALLS, Ont., Aug. 28.—The Whirlpool Rapids Incline Railway on the American side, with the buildings at the top of the bank and at the base of the waters' edge, were totally destroyed by fire at 12:20 this morning, also the Suspension Bridge grist mill, just north of the elevator building. The total loss will reach \$70,000.

Two Killed in Auto Wreck.
SYRACUSE, N.Y., Aug. 28.—Mrs. Edgar A. Emens of this city, wife of Prof. Emens of Syracuse University, and Miss Martha Emens, sister of Prof. Emens, were killed this afternoon, three miles south of Geneva, when a fast express crashed into the rear of the automobile while they were crossing the tracks. Prof. Emens is in a serious condition. The chauffeur is badly bruised.

Escaped Girl Vagrants Caught.
 Sylvan Anderson and Mary Campbell, aged 18 and 20 years respectively, who escaped from "The Haven," 329 Section-street, at 10 o'clock last night, were arrested at 1 o'clock this morning at King-street by Policeman Miller. The girls had been charged with vagrancy in police court and had been remanded to the Haven for care.

Methodists Urging More Radical Reform

THE CRITICS

Conference Adopts Committee Report — Dr. Cleaver's Amendment Rejected, But Will Be Further Discussed To-day.

VICTORIA, B. C., Aug. 28.—(Special.)—The Methodist general conference Saturday night reached the clause in the educational committee report relating to theological teaching in colleges and how to deal with teaching not in harmony with the church standards. A charge laid against any professor, teacher or minister of the Methodist Church, and laid before the officer in the college. He must call the board together within two months, and if they decide that the complaint is well made they forward it to the board of education. If they decide otherwise, the charge is dismissed. Here the committee have right of appeal. The board of education, in turn, shall select five ministers of good repute and learning, who shall render a decision on the case. This, the substance of the report, was lumped together and disposed of as follows: "In regard to the control of theological teaching is sufficiently secured by the recommendations already passed, and that no further legislation is required."

A memorial from the Toronto Laymen's Association made the distinct request "to eliminate from our colleges such teaching concerning the Holy Scriptures, and the fallacy of Christ, as it is contained in Rev. Geo. Jackson's recent book, 'Studies in the Old Testament.'"

Rev. J. E. Starr deplores the lack of men who are willing to devote their energies to the cause of the people. There was eloquence, there was practical philosophy and there was genuine modern Christianity in the utterances last night of Rev. J. Edward Starr of Barrie, who occupied the pulpit of Simpson-ave. Church, in the absence of the pastor, Rev. Mr. Baker. The theme was "Jesus and The Corporation," and he came out fearlessly with an arraignment of the church for its remissness in believing an act as if the kingdom of heaven were above, in the other world, when as Jesus said it was within us. He should work for the social and industrial revolution which would make earth a new heaven.

BOY SCOUTS AT CHURCH
Rev. W. L. Armstrong Expressed Deep Sympathy With Aims of Movement.

Rev. W. L. Armstrong, pastor of the Metropolitan Church, preached to the Methodist members of the Baden-Powell scouts yesterday morning, when about 250 were present. Dealing with the scout movement the speaker referred to the motto, "Be always prepared," as one which they should always bear in mind, and he reminded them also of their promise to be loyal to God, loyal to their king, to help others and to obey the scout law, which involves honesty, truthfulness and obedience to parents.

MAYOR GAYNOR HOME
Fell Twice in Trying to Walk Unassisted.

NEW YORK, Aug. 28.—Mayor Gaynor was removed from St. Mary's Hospital in Hoboken this morning to his country home at St. James, L.I. He bore the trip well, but his insistent plea to be allowed to walk unassisted resulted in two distressing incidents. Once he sank to his knees as he tried to enter an automobile, and on the steps of his home, he fell on all fours from over-exertion.

THE EXHIBITION OPENING
The Canadian National Exhibition is upon us—Greater and Grander than Ever Before.

Those who can recall the earlier days of the "Industrial Fair" will be more than amazed at what they will see this year: more extensive and better-appearing grounds, additional buildings of handsome appearance, and even more and better attractions.

Today is Opening Day on the program, but beyond a quartet of harness races, there will be none of the special features. To-night a re-thing will be in full blast and working as smoothly as the in the second week. The formal opening by Gen. Sir Robert Baden-Powell will take place at 2 p.m., followed by a review of an army of uniformed boy scouts from all parts of Ontario, while the famous band of the Grenadier Guards will give concerts afternoon and evening. The grand stand performance will also be presented in their entirety and the myriad of entertainment features will be in operation. And the greatest exhibition of the world will have begun its bid for the million in attendance mark. That Manager Orr's ambition may be realized, everybody will hope, and most everybody will strive to gratify.

HEROIC DEFENDER OF MAFEKING ARRIVES IN THE CITY TO-DAY

THE CHIEF OF THE BOY SCOUTS

Military Hero and Europe's Greatest Master in Scouting Will Be Received at Union Station at 3.15 p.m.

STORY OF THRILLING SIEGE IN SOUTH AFRICA
 Lieut.-Gen. Sir Robert Baden-Powell, hero of Mafeking, and originator of the Boy Scout movement, will arrive at the Union Station from Winnipeg at 2.15 p.m. to-day. An hour before the event the sixteen English boy scouts, who have been touring Canada for the past month, will reach Toronto, also from the west. The ceremonies, which will mark the arrival of the distinguished soldier and idol of every youngster in the empire, will be of simple character, and without military effect. When he steps from the train he will be given an informal welcome to the city by Mayor Geary and Ald. Maguire, chairman of the civic legislation committee. Also, he will be greeted by President George Gooderham of the Canadian National Exhibition, E. B. Omer, M.P., at whose residence in Rosedale Sir Robert will be a guest; Capt. E. S. Wilson, and probably one or two other gentlemen identified with the local scouts movement. No other fixed arrangements have been made. It is probable that Sir Robert will be promptly whisked away in an auto to Mr. Omer's residence to rest after his long journey and that the evening will be spent quietly in a social way. The English boy scouts are to be quartered at the model military camp on the exhibition grounds, and will take part in the review of the 5000 recruits before the grand stand after Baden-Powell presides the button.

WRECK ON THE ROCKS
"HOLY GHOSTS" VESSEL
Dramatic Climax to Sensational Voyaging of a Strange Crowd of Fanatics.

HALIFAX, N.S., Aug. 28.—(Special.)—Eljah Sanford, leader of the Holy Ghosts, and a motley band of fifty followers, are huddled together in a fisherman's shack on Mud Island, a barren spot of land thirty miles off Yarmouth, on the Nova Scotia coast, while their ship, the "Kingdom," is high and dry on the dangerous ledges within gunshot away. There is a great gaping hole in the bow of the craft and she is full of water. For months past Sanford has been cruising along the Nova Scotia and New England coasts to escape the authorities, who have been pursuing him in an effort to take off some female passengers, who are said to be unwillingly held on board the craft. For the past few weeks the American authorities have been giving keen chase, and it was in an effort to escape that Sanford pointed his craft eastward on a cruise along the Nova Scotia coast. During a dense fog early Friday, she struck the rocks. The Kingdom is a vessel of four hundred and ninety-one tons net, and was built 37 years ago. She was originally a merchantman. At present she has two hundred tons ballast on board. There is no insurance on the vessel.

MESSAGES FROM SPIRIT LAND
Late Prof. Wm. James Will Attempt Experiment.

BOSTON, Mass., Aug. 28.—To some of the members of the Society for Psychical Research, the passing of Prof. William James, the Harvard psychologist, means more than the loss of one of the most eminent and valued members of the famous organization. Before he left the earth he promised to those who remained after him to help them solve the great question which the society has for many years been trying to elucidate: "Can the dead communicate with the living thru mediums or otherwise?"

LONDON, Aug. 28.—(C.A.P.)—Altho arriving at Aldershot very late, the Q.O.R. were not disappointed at their reception. When the first train steamed in, it was a signal for cheers from the ranks, which did not cease until the regiment reached Rushmore.

SELLING A FARM
 The following letter from H. Gilbert of Mansfield, Ont., shows what the World can do in selling farm property and other real estate:

THE WORLD NEWSPAPER CO., LTD.
 Toronto, Ont.
 Gentlemen:
 Your letter enclosing card from Mr. Lillie has been given your credit for the great advertising medium with which you are connected. Since advertising my farm I have had no time for anything else but answer correspondence regarding same. Anyone wishing to sell property of the kind I will be well paid by patronizing your paper.
 Yours very truly,
 H. Gilbert.

 The barracks, inclusive of the parade grounds, cover a tract 2-1/2 miles in length by nearly a mile in width, and there are separate barracks for infantry, cavalry and artillery. Some of the older buildings are of stone and wood, the more modern ones of brick, and each barracks is named after a notable battle. More than 20000 men and 4000 horses can be accommodated. Our food and accommodation so far are great, better than we had expected.

Band Welcome 30,000 Cheered the Q.O.R. at Aldershot

Somebody Blundered, and the Grenadiers Came Late in Civilian Togs—Civic Reception Slighted.

ALDERSHOT, Aug. 28.—(From our man with the regiment.)—We're here at last, and the welcome we got is one of the greatest that any regiment ever had, so we are told. Thirty thousand people crowded around the depot late last evening and along the route of march to the barracks, and we got the real hearty British cheers that we've all read about. There were decorations along the way, too, and half a dozen bands from the British troops now here to "play us in."

HAMILTON HAPPENINGS

26 DRUNKS IN CELLS

Nine Corralled on Sunday—Cigar-maker Loses Part of Leg.

HAMILTON, Aug. 28.—(Special.)—Twenty-six drunks were the sum total gathered in by the police from Saturday afternoon until to-night. Nine of them were Sunday drunks so that it looks very much as though there were a few screws out of the lid.

John F. Kelly, cigar-maker, 215 South Ferguson-avenue, was struck by a T. H. and B. train on Saturday night, and so badly injured that a part of one of his legs had to be amputated at the City Hospital. He was walking the track between Catharine and Balle-streets when he was run down by the 6:45 train for Buffalo. The engine hit him a glancing blow and threw him to the side of the track. One of his ankles was badly crushed.

Policeman Assaulted?
There was a serious row in a south end hotel on Saturday night. It is said, in which Constable Gillespie and the proprietor figured. It was reported at No. 3 police station to-night that no arrests had taken place, also it was said that the officer was rather roughly handled because he went to the hotel to protest about the ill-treatment of a new boy, the proprietor attacking him.

Rev. Neil MacPherson, formerly of St. Paul's Church, but now of Springfield, Ohio, preached in St. Paul's this morning.

Constable Yaxley won the police championship at the city championship swimming races at the Victoria Yacht Club on Saturday afternoon. W. Ferguson won the 100 yard race and F. Hall the 50 yard race.

BRITISH CADETS HERE

Will Visit Falls and Algonquin Park This Week.

Lord Roberts' Imperial Cadets, who defeated the Canadian cadets at the D. R. A. shoot at Ottawa, arrived in Toronto yesterday morning at 7.30 and registered at the Queen's. Including Capt. R. McCalmont, who is in command, and Mrs. McCalmont, there were sixteen in the party. They leave this morning for Niagara Falls, and on Wednesday will go to Algonquin Park, where they will remain a week. On Tuesday, Sept. 3, they will sail on the Empress of Ireland for home.

The members of the party were: C. W. McEneaney, R. Burgess, R. P. Eley, all of Eton; O. Thompson and B. Bell of Winchester; V. Back, Norfolk; V. Norman, C. R. Knight, O. Osborn and C. P. O. Fickard of London; J. Morgan and H. Clarkson of New Zealand, and F. Candler of Surrey.

FRANCE AFTER PRICE RAISERS
Cabinet Resolves to Punish Speculation Affecting Cost of Living.

PARIS, Aug. 28.—The increased cost of living, especially for the working classes, has induced the government to take an exceptional decision. At a conference held at the ministry of the interior, M. Briand, premier and minister of the interior, presiding, it was resolved to institute proceedings where proof is obtainable of unlawful speculation tending to artificially increase the prices of the necessities of life.

It was further decided to take action on any conduct which while not legally punishable may result in interfering with the ordinary course of supply and demand.

159 YONGE STREET TORONTO

IN SOCIETY.

The parlor musicale at the King Edward Hotel Saturday was a great success, and the committee were more than repaid for their trouble, much praise being given to Mrs. Fisher Chicago and Mrs. Noel of Philadelphia, for the arrangement of the excellent program.

Miss Ella Mills of Chicago opened with a piano solo, and her playing was placed her among the leading concert piano players of the day. Mr. Tubb, Winnipeg's leading baritone, pleased the audience with two well sung songs.

Mrs. F. A. Godsoe of St. John, looking lovely in a low-cut black sequin gown, has a pure soprano voice of rich and rare quality, which charmed her audience, and she had to respond to several recalls. Percy Hollingshead was in the voice. Miss Louise Le Barron of the Aboon Opera Company, gowned in white satin, low-cut and trimmed with gold, more handsome than a Toronto audience has ever seen her look.

Several numbers and was greeted with storms of applause. Toronto should be proud in possessing two such artists as Miss Emma Taylor and Arthur George, who contributed to the success of the evening. Other kindly assisted were Messrs. Williams and Ham from St. James' Choir, and Tom George. A handsome sum—\$50—was contributed, which goes to assist the funds of the Hospital for Incurable Children.

HOTELS ARE CROWDED
Two Hundred and Fifty Guests Registered at King Edward Sunday.

The tourist traffic at the big city hotels has been so exceptionally great this season that it is not expected that they will have much larger crowds during exhibition, for the simple reason that they can't accommodate any more than they have now.

The King Edward has been housing over 800 guests every night for the last month, and the advance bookings are the heaviest on record. About 250 arrivals registered yesterday, which is probably a record for a Sunday. It is not thought that less than 700 persons will sleep at the King Edward any night during the coming fortnight.

All the big hotels expect to be taxed to their utmost capacity, which, in the case of the Queen's, is about 850; the Prince George, 900; and the Walker House, 400. Hundreds of visitors will be turned away disappointed every night.

York County and Suburbs

NORTH TORONTO.

NORTH TORONTO, Aug. 28.—(Special.)—The finance committee meets on Monday and the town council on Tuesday evening.

The North Toronto Athletic Club will meet at the office of The Gordon Press, on Wednesday evening next.

St. Clement's Church was occupied today by Rev. J. W. Fickett, of New York.

In the absence of the pastor, Rev. Mr. Robinson, to-day, the pulpit of Daville Methodist Church was occupied by Rev. J. W. Fickett, of New York.

The North Toronto Intermediate Football Club has a fine practice on Saturday afternoon.

North Toronto Council No. 433 will hold their monthly meeting in the Music Hall on Monday evening.

Sentiment around town favors the immediate installation of a system of electric lighting, preferably the hydro, but at any rate, some company. "I have had my house wired for four years," said E. G. Kirby, corner Yonge and Victoria, "for electric light, and have not been able to get it yet. Naturally the first company that can install it I would favor, all things being equal."

Will the town council accept the resignation of the board of health?
Prospect look good for the high school under the principalship of that peer of teachers, George H. Reed. It is said that not alone east and west, but for a long distance up the Metropolitan line recruits will come down to the new educational centre.

The steam roller is doing good work. Nearly all the summer ditches have returned.

WEST TORONTO.
WEST TORONTO, Aug. 28.—(Special.)—The death of Mrs. Sarah Rumble, 97 Ford-street, took place at the General Hospital on Saturday, from cerebral hemorrhage. Deceased was 55 years old and is survived by her husband, F. J. Rumble, and a grown-up family. Funeral will take place on Tuesday at 2 p.m., to Prospect Cemetery.

Harriet J., the infant daughter of Mr. and Mrs. Copeman, 24 St. John-place, died to-day, aged 18 months. Funeral to Prospect Cemetery.

Rev. Beverley Smith has returned to the city, and to-day occupied the pulpit of his own church.

S. C. C. John Gray, living at 25 Sinclair-avenue, died yesterday. Funeral takes place at 3 o'clock to St. Michael's Cemetery to-day.

THORNHILL.
Old Boys in September Will Hold First Reunion.

Rev. Geo. McKinley and family of Bolton spent a few days last week at the home of J. E. Davidson, and renewed many old acquaintances here.

J. J. Davidson is erecting a fine new residence, this adding some more to this thriving summer resort.

Dr. G. Langstaff, proprietor of the mineral spring resort, is further improving the plant, by the erection of a spacious veranda and many other improvements to the residence and grounds.

The Thornhill Old Boys will hold a reunion here on Sept. 17. The Toronto members have formed an association, and are actively engaged making preparations for this event, which promises to be a great success.

WHITBY.
Surveyors Strike Town and Are Said to Be Heading Northwest.

WHITBY, Aug. 28.—(Special.)—The surveyors employed on the new Oshawa Electric Railway, having been working in this vicinity for the last two weeks, have located the line north of Main-street, and will proceed north of the Royal Hotel. The street chosen is subject to revision.

After leaving the principal street, the line may strike a northwestward line, but nothing very definite is yet known. Further west and at Agincourt, it is said, a new road will be merged in the C.N.R. line, and that the electric road is only one of the Mackenzie-Mann interests.

RICHMOND HILL.
Rev. Dr. Teedy Pays Visit—Horse Breaks One of Its Legs.

RICHMOND HILL, Aug. 28.—(Special.)—Rev. Dr. Teedy has returned from abroad and is spending a few days with his venerable father, Postmaster Teedy, A. F. Teedy of Chicago.

A few nights ago a number of stones and boards were placed across Yonge-street, evidently with a view to wreck some of the passing autos. Fortunately they were discovered before any damage was done.

Breaking from its hitching post, a horse, belonging to Harry Moyle broke away, a few days ago, ran into a ditch, breaking its leg, and necessitating its being shot.

VICTORIA SQUARE
VICTORIA SQUARE, Aug. 28.—(Special.)—The local branch of the Women's Institute will hold their regular meeting at the home of Mrs. N. O. Hagerman, on Wednesday, August 31, at 2:30 p.m. A splendid musical and practical program has been arranged, and everybody is invited.

Ross Klink, who a week or so ago fell 25 feet from the hip roof of the barn to the floor, is getting around again all right. His injuries were not very serious.

The musical specialties introduced with songs and dances, contrast pleasantly with the rapid-fire situations and afford breathing spells in the merry-making. The cast selected is one of unusual excellence, and no detail has been overlooked in the costly production.

Wm. A. Brady, who will present "Mother" at the Royal Alexandra and children's theatre in America, and re-open the week beginning this evening, before he visits here, is a property which will live longer than "Way Down East," that other famous play which is now in its 15th season. The play is replete with dramatic situations and heart interest. There will be Wednesday and Saturday matinees.

After his long vacation, spent with his wife (Gertrude Elliott) and children at Miss Maxine Elliott's charming residence at Pushey Heath, in England, Forbes Robertson returns to America by the S.S. Laurentic, leaving Liverpool on Sept. 17, to resume his run of "The Passing of the Third Floor Back" in America, and re-opening at the Royal Alexandra Theatre, Toronto, on Monday, Sept. 26, in consequence of the curtailment of his visit there. May on account of King Edward's death.

Forbes Robertson and his London company return to Maxine Elliott's Theatre, New York.

A second company, composed entirely of English actors, with Ian Robertson, who has appeared with great success in his brother's original part, about 200 times in England, will be seen simultaneously in the smaller towns and one-night-territory that Forbes Robertson himself could not cover, even in the course of a third year, owing to the demand for this play.

Shea's New Theatre will have a real top-notch headline this week in Mile Dazie, the world-famous dancer, performing her sensational dramatic pantomime, "L'Amour de l'Artiste." Another special attraction will be Paul Spadoni, who juggles with cannon balls and other heavy articles. Others on the bill are Carlin, Steel and Carr, in "musical comedy," Levi, in "Japan," and "A Night in Venice"; the Three Leightons, in minstrelsy; Baldrin's trained dogs, and the kinestograph.

At the Star the original Billy Watson will be seen with the Beef Trust Burlesque, presenting "Levi in Japan" and "The Bashful Venus." There will be daily matinees.

Irwin's big show, the Majestic Burlesque, will be this week's attraction at the Gaiety, introducing Gus Fay, a German comedian of note, and Florence Bennett, a Toronto girl.

"The Alaskan" one of the most successful of the modern musical comedies, will be presented for the first time in this city, at the Grand, this week, with matinees on Wednesday and Saturday. The piece comes here after a phenomenal run of five months in Chicago, and while many of the original song numbers have been retained, many new and novel interpolations have been introduced. Amongst the latter is the now famous "Snowballing" number, in which the chorus throw snowballs at the audience, while the audience pelts them back.

At Scarborough Beach an especially attractive program has been prepared for the week. The free circus act secured is easily the best yet seen this season. Adone, the man with the pole, gives a marvelous exhibition of athletic skill and muscular development, and his feats are so remarkable that some of them are almost unbelievable unless actually witnessed.

Next week Robert Edson will be seen in his own Indian play "Where the Trail Divides."

AID FROM BISHOP INGRAM

His Lordship Hopes Building of Cathedral Will Get Strong Support.

Bishop Sweeney at last night's service in St. Alban's Cathedral read a letter from Bishop Ingram of London, England, who passed thru Toronto Saturday morning on the way to Ottawa, after a visit to the western provinces.

The communication bore the date of Aug. 27, and was as follows: "Dear Bishop: I am so very glad to hear that you are about to complete the cathedral in memory of the dear archbishop. I am leaving you this cheque towards the work. Hoping you will be backed up by all the church people in your diocese in this. I am very sincerely yours, "A. S. London."

M.W.M.S. NOW TO SHARE IN SUNDAY SCHOOL FUNDS

Conference Decides After a Rather Warm Discussion - The Signing of Cheques.

VICTORIA, B.C., Aug. 28.—(Special.)—The missionary committee of the Methodist conference took up its report again Saturday. The item referring to the women's missionary society's request for a proportion of the Sunday school funds, caused a warm discussion. The opponents could not see why the Sunday school should be asked to contribute to this any more than any other organization or department. The request was for not more than twenty per cent. of all the proceeds of the missionary collections in the Sunday schools, to be allotted at the discretion of the general board of missions. The majority favored the request, and declared it fair in view of the important place the W.M.S. has taken. In return for the proportion of funds requested, they will assist more definitely in instructing the boys and girls in missionary knowledge. Heretofore they have not felt free to do so.

The opponents to the recommendation thought it was a departure from the original agreement and should be dissolved, but the conference declared in its favor. The conference went up against more than it suspected when it came to a clause in the report asking that power be given to the mission council in China to receive native candidates for the ministry as probationers. An amendment was immediately moved to have the powers include ordination. This involved a question of great historical importance. The discussion waged with warmth for an hour. Then largely on Dr. Bland's advice, the conference dropped the matter for the present. To pass it would, it was pointed out, give the mission council the powers of an annual conference, and there might be only two ministerial members on the council board. Another special debate arose over the question of admitting ex-officio members on the general mission board. Conference decided the board was already large enough. Signing of Cheques. The signing of cheques drawn on mission funds gave rise to more debating. Several delegates believed there should be two or three signatories, and it was suggested that a lay clerk as a clerical treasurer should be appointed. Dr. E. B. Ryckman of Kingston said that he had never heard of anything but commendation with reference to the administration of the

AUTOS FOR FIRE DEPTS. ARE GROWING IN FAVOR

Chief Thompson Also Brings Back Some Other New Ideas From the Syracuse Convention.

The day of automobile fire apparatus is approaching, except perhaps, for the more cumbersome trucks and engines.

That's the word which Chief Thompson, president of the International Association of Fire Engineers, brings home from Syracuse, N.Y.

"Regarding the use of automobiles on all apparatus, there doesn't seem to be much change from a year ago, but there was a general feeling that they are the coming thing in the fire departments," said the chief, "but so far as auto power for the steam fire engine is concerned, most of us felt it would not be practical. The engines made only resulted in a medium stream that could easily be beaten by an ordinary hydrant, where a fair pressure is obtainable. The use of engines or combination chemical and hose wagons, they seem to me to be quite the thing and the general consensus of opinion was that they were the way ahead of the horse-drawn rigs. They are quicker and with the exception of the first cost, would be much cheaper to maintain."

During the convention, a test run of an auto engine from Syracuse to Rochester was successfully made.

Some New Ideas. There are some new inventions shown that Chief Thompson was impressed by. The one he believes is of other than Toronto, for his size, is not far behind the best of his class.

"There are certain things we can possibly improve and I hope will, by-and-by," he said, "I was very much impressed with the Eyras mechanical extinguisher, which is especially adapted to combat gasoline and electric fires. It was demonstrated very successfully. The extinguisher has a good thing. A test was made of putting out a fire started by electricity. It was not only effectively put out, but would not light a match. The extinguisher is 3 x 14 inches and weighs only 4 pounds. It is pumped up by hand for pressure and can be turned off and sealed at will. The extinguisher is used and is wasted and can be applied just where needed."

There was also an exhibit of electric lights for fire apparatus, which should be of immense practical use on aerial trucks and in all kinds of ladder work. By its wires could be easily located at night and the lights are used as headlights and search lights. They were also showing electric lights for firemen's hats that may come into use. They require only a small battery.

A Large Convention. The chief says it was the largest convention and most representative that has yet been held in Toronto. There were there and there were more Canadians than ever before convened. All the cities and most of the towns of Ontario were represented. There were numerous delegates from Quebec, Manitoba, Saskatchewan and Alberta.

Among the papers read were: "Practical use of the fire hose and apparatus." "High pressure fire service, its operation and efficiency." "Values of fire clisters" (used where you have a fire hose and apparatus) "The use of the water required"; "Objects of tests and investigations at the Underwriters' Laboratories." "Automatic sprinklers—use and abuse" (bad installation and flooding of buildings when there is practically no fire and inability to cut them off at the right time) "Use of the fire hose" (abuse); but on the whole they were considered a good thing; "Safe and sane storage and handling of gasoline" (the local system of underground tanks and pumps was conceded to be the safe and sane way).

Roman Catholic International Eucharistic Congress, Montreal, Sept. 6th to 11th, 1910.

For this great event the low rate of single first-class fare, plus 25 cents, for the round trip, has been made by the Grand Trunk Railway, the only double-track line, and the route of Canada's fastest and best train, the International Limited.

Tickets will be good going Sept. 3 to 10, returning until Sept. 15, and apply from all stations in Canada, west of Kingston, also from Buffalo, Detroit. This makes the round trip rate to Montreal from Toronto \$10.25.

Remember that a double-track line contributes to safety. The excellence of the Grand Trunk roadbed is unrivaled, and that the wide along Lake Ontario shores and the view of the St. Lawrence makes the trip a delight. Early application for accommodation in sleeping or parlor cars should be made to Grand Trunk agents, or address J. D. McDonnell, district passenger agent, Toronto, Ont.

"EXHIBITION ILLUSTRATED." The "Exhibition Illustrated" is a publication which cannot fail to appeal to everyone who takes a patriotic interest in the growth of the Canadian National Exhibition. It is of newspaper size, is printed on the paper and contains 20 pages. While the reading matter gives an excellent review of the outstanding features of the exhibition, the crowning glory is the illustrations, which are remarkably good, showing typical scenes on the grounds, buildings and members of the directorate. The price is five cents.

HEROIC DEFENDER OF MAFKING ARRIVES

Continued From Page 1.

ture the place partly, at least, for sentimental reasons. The Jameson raid started from Mafeking, and since then the Transvaal has had the town's very name. Possibly the Boers thought it worth while to keep General Baden-Powell bottled up. The town possesses no natural defensive advantages. It is in a plain, and the neighboring hills gave the Boers all the advantage. But Baden Powell fortified it so admirably, and made an excellent use of his small force, that the place was never in serious danger of being taken by assault.

Little news came from Mafeking. Now and then a native runner, stealing out of the town in the darkness, and making his way over the ungainly erous veldt, managed, if he escaped the pot hunters seeking human game, to reach the British lines with accounts of life and heart in his people. No word of complaint came from the town, no appeal for relief, even when the border straits than Kimberley or Ladysmith endured. In the early days of the siege came stories of General Baden Powell's joking with General Buller. He bidding the Boers to lay down their arms and go home, promising that all would be forgiven, very likely amused the invested persons more than anyone else. They were in a position to understand the grimness of the joke.

The daily shelling of the town began with the siege in the middle of October. The bombardment was so constant that the beginning it was necessary to build bomb proof caves where women and children could be sheltered. As long as the town held out, General Baden Powell made sorties, but they did not avail. For months there was nothing to do but maintain unceasing vigilance and keep the life and heart in his people.

In Dire Straits. Fever came, rations neared the vanishing point, and every night fresh graves were dug in the cemetery; but there was no thought of surrender as long as the defenders had strength to hold rifle to shoulder. And never was there a better fight than the one they fought for months, knowing that relief was on the way, made their final desperate attempt to storm the town.

Before dawn on the 12th, of May, several hundred Boers rushed the British pickets and actually occupied part of the fortifications; but Baden Powell's men—men, he it remembered, who for months had barely kept body and soul together with mule soup for staple diet and locusts for luxuries—promptly rallied, and after fourteen hours of battling at close quarters outmanoeuvred and totally defeated the enemy, taking more than a hundred prisoners and driving off the rest with heavy loss.

In the beginning General Baden Powell had from six to eight thousand graves under his care. He had to defend them as best he could from the enemy within and without. He ruled Mafeking as an autocrat. He ceased to be a joker, going about but little in daytime, talking no more than was absolutely necessary, maintaining a gravity almost preternatural, and inclinations the townfolk with something like awe.

Loved the Night. In the night time he really lived. When the enemy was all about him, he knew the joy of scouting. He was his own intelligence officer. Long ago the Matabele called him Impeshe, "Wolf," and "The Man Who Never Sleeps," preventing Tommy Atkins dubbed him "Backdoor," because of his habit of appearing when and where he was least expected. Night after night he would steal thru the lines, there not to appear again until daylight was breaking. Nothing that the enemy did surprised him. He was always ready. He took no one into his confidence, and

ENGLAND SHY ON BACON

Hence Consumption of Cereals is Encouraged—Chance for Canada.

OTTAWA, Aug. 28.—(Special.)—Mr. Mussen, Canadian trade commissioner at Leeds, reports a great falling off in the supply of bacon in England. One result is that grocers are inducing people to use breakfast foods. Mr. Mussen thinks there is a good opening for the Canadian manufacturers of cereals. Canadian turkeys will be used in the demand this autumn. There will also be a demand for Canadian honey.

Arrested for Filmmaking. James O'Connor, Scranton, Pa., was arrested in Yonge-street last night by Sergeant Crowe, charged with theft of \$5 from William Mengaris, a Greek restaurant keeper, at 233 Yonge-street. The Greek declares that O'Connor went into his place with a lady. They had two dishes of ice cream, and a \$10 bill was tendered. The change was made in two and one, and O'Connor asked for a five. Then O'Connor decided to take his ten back, and returned the change to the girl and walked off with the five. This same trick was worked on a cigar dealer in West King-street last week.

Hit by an Auto. Driving east in Queen near Fortland-street John Smith, alias Bow-legged, 423 West Queen-street, struck Monty Malone, 34 Denison-avenue, with his auto. He was hurt about the head and was removed to his home in the police ambulance.

Musketry Instructors. OTTAWA, Aug. 28.—(Special.)—It is announced in militia orders that the officers in charge of the autumn course Canadian school of musketry to open at the Rockcliffe ranges on Sept. 6 will be as follows: Commandant, Maj. R. A. Helmer, chief instructor; Lieut.-Col. R. J. Gwynne, 15th Light Horse; adjt.-instructor, Lieut. K. C. Folger; medical officer, Major G. S. McCarthy.

Four in the Toils. Samuel Hawkins, Hastings, Ont.; James Robertson, 60 Pearl-street; Thos. Sheehan, 51 Duchess-street; and Wm. Boyd, colored, no home, were arrested yesterday charged with theft of a case of gin from the sheds of the Inland Navigation Co., at the foot of Bay-st. Upon Boyd was also found a suit of underclothing believed to be stolen from a box car consigned to the Eaton Company.

Boys Sleuths. Policemen Clark and Matthias arrested John Smith, alias bow-legged, charged with theft of a purse containing \$7 and 2 meat tickets, from James Stewart, 27 Simcoe-street. Stewart had been drunk and Smith is said to have gone thru him. It was pointed out by several small boys.

Seized Liquor. Policemen Black and Wilson seized 28 bottles of beer and a bottle of whiskey at the house of Mike McGrath, 23 McCaul-street, Saturday night. He is charged with keeping it for sale without a license.

Automobiles at Exhibition. The automobile exhibits this year far exceed those of any previous year. The transportation building presents an animated scene, automobiles from near and far, each vying with the other.

Among those early on the ground were the E.M.F. of Walkerville, under the direction of Mr. B. H. Sills, who have a large and attractive exhibit.

The Ontario Motor Car Co., whose exhibit is on the right hand of the automobile section as you enter have a number of their 1911 cars on exhibition, as well as motor trucks.

Next to the Ontario Motor Car Co. appears the exhibit of the Regal Motor Car Co. of Walkerville, Ont., under the direction of the company's sales manager, Mr. R. D. Aldrich.

The Ford Motor Car Co. occupy the space directly north of the E.M.F. and are showing an attractive line of cars under the management of Mr. Fox, assisted by the company's sales manager, Mr. McGregor.

The "Reo" of St. Catharines and the Dominion, Limited, are directly north of the Regal exhibit.

The centre of the exhibit is occupied by the White Motor Car Co., the McLaughlin, Dominion Automobile and Everett, all of whom have a creditable exhibit.

All the automobile firms are sending out invitations, through their various territories, to their customers to pay the Toronto Exhibition a visit. McKendry of the Ontario stated that they had issued invitations to over two hundred, and the greater number had accepted.

Mr. H. B. Sills of the E.M.F. stated that their firm had made extensive preparations to entertain a large number of visitors.

Mr. Fox of the "Ford" said they would expect a large number of their country customers this year.

A telephone and office has been installed in the E.M.F. exhibit for the convenience of the automobile trade.

FOR RHEUMATISM

MAGI Water, being a uric-acid solvent, brings remarkable relief to rheumatic users. For gout, gravel and other troubles arising from disordered kidneys, it possesses very decided therapeutic value. Nor does it in any way derange the normal functions of the organs.

Yet, the use of MAGI is not confined to invalids; a glass of MAGI before breakfast will keep the most robust in the full glow of perfect health—tonic one up for the day's work.

For the table, the crystal purity and wonderfully "fresh" taste of MAGI make it unexcelled. There is no mustiness about MAGI—it is not a "dead" water in any sense of the term—just the simplest and most delicious beverage you could imagine.

Bottled only at the Spring, MAGI Water, either plain or carbonated, may be bought from coast to coast. It is sold in splin, pints, quarts and half-gallons at cafes, hotels, bars, drugstores, on railroad-dining and cafe-cars, or to your grocer by the bottle or the case.

NEW E-M-F "30" ROADSTER—Price \$1450. Magneto, five lamps horn and generator included. Deliveries on this model will begin in January, 1911.

NEW E-M-F "30" COUPE—Price \$1850. Magneto, five lamps, horn and generator included. Deliveries on this model will begin in October, 1910.

THE SPECIFICATIONS

Our E-M-F "30" and Flanders "20" chassis remains unchanged for 1911 and the same standard specifications which have proven so successful, practical and economical in operation will be the rule during the coming season. There will be the same powerful motor, simple carburetor, practical rear axle transmission, automatic oiling system, safe steering apparatus and other practical features constructed by the same superior workmen from the highest class of materials. No necessity for changes appears in the case of a product which has stamped itself as standard and absolutely successful.

One Year's Guarantee With Every Car

The E-M-F Company believes that a stage has been reached in the automobile industry which makes it the duty of every responsible manufacturer to protect dealers and public by an absolute guarantee of his product.

We accordingly announce that, beginning August 1, 1910, every car manufactured at our plants WILL BE GUARANTEED FOR ONE YEAR as absolutely free from defects in material or workmanship, and will replace, free of charge, any part of the car OR ITS EQUIPMENT which proves defective in any such respect, except tires, which are guaranteed by maker.

E-M-F COMPANY OF CANADA.

W. E. FLANDERS, President and General Manager

A STARTLING DEVELOPMENT in manufacturing, is it not? Yet it is one which comes appropriately from the factory which was the first to give the public a satisfactory car at a reasonable price, and the company whose policies have always been pre-eminently original and progressive.

HOW CAN WE AFFORD TO DO IT? That is the question which is naturally first on the lips of the man unfamiliar with the E-M-F Company's progress and the merits of its output. There are several reasons, and here they are. The E-M-F Company will furnish absolute protection to its dealers and purchasers—the first time any such promise has been made in the history of the industry—because:—

WE MAKE ALL OF OUR OWN CAR. The E-M-F Company alone can say—and prove the statement—that every part which is assembled to build an automobile is manufactured in its own mammoth plants—plants conceded the most efficient in the industry, with machinery more specialized and organization better systematized than any firm of his character.

WE KNOW OUR PRODUCT and we have confidence in it—confidence born of years of successful manufacture and nurtured by the severest tests to which motor cars can be put.

WE WILL BUILD 36,000 CARS FOR 1911 SEASON in United States and Canada and are enlarging our capacity as rapidly as our contractors are able. Unlike some automobile manufacturers who say they aim to produce only a few cars of high quality and profess to believe that, the smaller their output, the better is each car; we maintain that the more cars we build according to our methods, the better is each individual car and the less is its cost both to us and the purchaser.

PRODUCTION IN LARGE QUANTITIES ASSURES QUALITY in each item of manufacture, according to E-M-F Company methods. It gives us the opportunity of providing, at a minimum price to each purchaser of E-M-F "30" and Flanders "20" Cars the most skillful engineers, the most efficient mechanical force and the most versatile array of automatic machinery ever gathered for one purpose in a manufacturing enterprise. It enables us to add to our equipment a laboratory where we test every carload of raw steel which enters into the manufacture of our cars. The purchaser of a car made at a smaller factory must pay more for every department of manufacture or else—far more likely—he pays for a product designed and manufactured by second-class men provided with second-class facilities.

PROVE IT? WHY, OF COURSE! Does the housewife who wants a sewing machine go rambling about the retail district, looking for a product made by hand in some small factory and therefore supposedly superior to a Singer that comes from a factory where they make a million machines a year and sell them through their own branches? Does the hunter who wishes a good rifle search something superior to the product of the Winchester Company which, by quantitative production, has made rifle-manufacture a science? Does the man who wants an adding machine ask for something better than the Burroughs and believe it possible for another company to make a better machine because it manufactures only a few score where the Burroughs manufactures by the thousand? Does the man who wants to buy a watch shun the counter where he would find the Waltham, Elgin or South Bend, and seek the little corner occupied by an obscure brand of timekeeper, manufactured by a company compelled to sell at a higher price, though providing an article unproven and comparatively unknown? Is the Steinway piano an unwelcome piece of furniture in the home of a musician because, forsooth, the manufacturers build them in large quantities which find a ready market at a reasonable and therefore popular price? Does the farmer who needs a wagon waste his time looking for something better than the Studebaker, merely because, by the systematic manufacture of 200,000 vehicles annually, that firm has made its product the standard article of the world? The answers are, of course, obvious. And the same course of reasoning is logical for the man in the market for a watch, a piano or an automobile. There is a standard in each realm of manufacture and "Standard" is synonymous with "Excellence."

A STANDARD ARTICLE; THAT'S IT! It has been the ambition of the E-M-F Company to build that very thing. And why not a standard for automobiles? The industry is surely old enough; the universal manner in which the E-M-F "30" and Flanders "20" cars are running in every city and almost every hamlet of the United States and Canada makes the claim logical. We are the one company that is building automobiles as the Singer builds sewing machines, as the Winchester builds rifles, as the Burroughs builds adding machines, as the Waltham, Elgin and South Bend build watches, as the Steinway builds pianos, as the Studebaker builds wagons and carriages—in large quantities and by expensive machinery which makes every part of every individual entirety of the product available for use in every other one. Standard? Why, of course, and therefore the most desirable.

THE SAME SQUARE DEAL we have always given our distributors throughout the world will remain in force in the future and we are now making contracts for the season of 1911. The work of distribution we believe will be facilitated by the establishment of a system of branch houses where dealers and owners may obtain supplies and extra parts.

ANOTHER NEW POLICY which we are announcing today, concerns particularly the relations between the E-M-F Company and our agents. Several manufacturers are at present engaged in an endeavor to persuade their distributors to handle the one line exclusively in 1911. In many cases such overtures have been made to E-M-F Company dealers who have handled other cars in combination, during 1910. As a result we have received hundreds of letters during the past month from dealers anxious to renew their contracts. To such inquiries we are replying emphatically "No!" E-M-F Company distributors are free to handle all the lines they believe consistent with their policies, whatever they may be.

WE WELCOME SUCH AN ARRANGEMENT. The E-M-F Company does not ask nor expect exclusive representation. We are not dictating the business arrangements of our agents. We believe that they should have the power to represent what companies they may elect. We certainly do not fear the competition of any other line of cars and will genuinely appreciate the opportunity to show our cars on the same floor with any others of their type. We shall stand by this policy and are ready to complete our arrangements for 1911 on this basis.

The 1911 Flanders "20"

Twenty horsepower, sliding gear transmission, four-cylinder motor.

STANDARD FLANDERS "20" RUNABOUT—Price \$950. Magneto, five lamps, horn and generator included. This model seats two passengers and has open rear deck for ample luggage.

FLANDERS "20" SUBURBAN—Price \$1000. Magneto, five lamps, horn and generator included. This is the popular four-passenger car.

FLANDERS "20" RACY ROADSTER—Price \$1000. Magneto, five lamps, horn and generator included.

NEW FLANDERS "20" COUPE—Price \$1200. Magneto, five lamps, horn and generator included. Deliveries will begin on this model November, 1910.

THE EQUIPMENT

Although the price of tires, raw material and the cost of labor has materially advanced during the past year, the E-M-F Company will continue to furnish its cars complete for the list prices noted. Bear in mind that every E-M-F "30" and Flanders "20" is equipped at the list price with a magneto, five lamps, tube horn and generator, all of which are usually listed as extras by other manufacturers.

We make our own parts and equipment and are able to eliminate a considerable source of expense to the purchaser. Otherwise it would be necessary for us to increase the prices of all our models or else to reduce the amount of equipment provided as standard.

Pastor Russell's Sermon

Immortal Worms and Unquenchable Fire—Text: "Where Their Worm Dieth Not and Their Fire Is Not Quenched." (Mark ix, 44).

BROOKLYN, N. Y., Aug. 28.—These words from the lips of our Master, the Great Teacher, have been grievously misunderstood. The teaching of our Protestant childhood was to the effect that only the entirely elect would go to heaven, but that others would go to hell. Thus our text was understood to portray what practically the whole world of mankind would be compelled to endure. This hell was pictured as our children's minds from outside the Bible as heated to a white heat. If we expressed our doubts as to whether any human creature could endure such conditions so long the answer was that God would exercise His omnipotent power to make the worm and pain-sensitive. Some theologians of the Thomas A. Kempis school of thought were inclined to believe that poor creatures in their fiery torment to show that the heat would form a kind of asbestos covering which would shield them from a measure of its intensity. But those who believed that proceeded to explain that these outer coverings would crack and shell off every little while, leaving the poor victim freshly tender than his suffering might be the more intense.

Of course, these theologians of the past had their difficulty in dealing with the worms. They could not figure out how worms would over-seer the torture as being made immune to pain by the chief torment. The worm, being made immune to pain by the chief torment, would be immune to pain by the chief torment. The worm, being made immune to pain by the chief torment, would be immune to pain by the chief torment.

Did the Great Teacher intend that such conclusions should be drawn from His language? And did He stop short of the description from reason and sympathy or modest or shame? Is this the general teaching of God's Word or has a great and terrible mistake been made? And have we not taken a figure of speech and treated it as literal? We erred. We misunderstood. The Great Teacher who rebuked His disciples, James and John, when they asked to call fire from heaven upon the City of Samaria, because the people thereof refused to believe on Him, said: "Ye know not what manner of spirit ye are of; the Son of Man came not to destroy men's lives, but to save them."—would the Son of Man in any wise intend to tell us that our great Heavenly Father had less of the spirit of love and righteousness than the two impatient disciples? Did He mean to intimate that while the disciples impetuously might have been willing to destroy the earthly life of the Samaritans, yet the Father would still more demagogically dispose of them? Would He have intended to tell us that our great Heavenly Father had less of the spirit of love and righteousness than the two impatient disciples? Did He mean to intimate that while the disciples impetuously might have been willing to destroy the earthly life of the Samaritans, yet the Father would still more demagogically dispose of them?

I wish that those of you who have modern Bibles with maps at the back would turn to the map of the City of Jerusalem and there notice on the southwest side of the city, just outside the wall, the Valley of Hinnom. That is the valley that in brief was called Geh-hinnom, the Greek name is gehenna. All of our Lord's uses of the word gehenna stand related to the valley. For the sake of my larger congregation it will be worth while for us to take a glance backward at the history of that valley during many centuries before Jesus' day.

The first mention of this valley in the Bible is found in Joshua (xv, 8), where it is given as one of the boundaries of the tribe of Judah, according to the red map of Joshua. The division of the land, that had come into possession of the Israelites. It is again mentioned in Joshua (xviii, 25), where it is given as one of the boundaries of the tribe of Benjamin. In the Valley of Hinnom, which had got a new name, namely Topheth, His-story tells us that the Israelites built a great brass image to the heathen god Molech. In various places they had groves in which a licentious form of worship was enacted and then they reported to this Valley of Hinnom to be sacrificed of a most revolting kind to the heathen deity. Sometimes it was a boy and sometimes it was a girl that was placed naked in the arms of the great image after it had been fired to a red heat with piled-up brush and various musical instruments. All of this, indeed, everything akin to suffering, was strictly forbidden by the divine law given to Israel. And they had been especially warned against this very form of idolatry (Leviticus xviii, 21; Deuteronomy xviii, 10). It is a gross mistake and error to suppose that it ever sanctioned torture. And it is a still worse error to suppose that He would send Himself down to earth when God's will shall be done on earth as it is done in heaven.

As gehenna lay outside of the wall of Jerusalem, so our Lord intimated there would be an antitypical gehenna outside the New Jerusalem. As the trash and offal of the typical city were consumed in the Valley of Hinnom, so the offal and trash of humanity will be refused all of the blessings and opportunities, will be consumed, destroyed, in the antitypical gehenna—which is the second death. Concerning antitypical gehenna, the second death, we are definitely informed of the characters which will there be destroyed, utterly, as Peter says, "as natural brute beasts."

We have a description of this symbolical New Jerusalem of divine kingdom (Revelation xxi) composed primarily of all from the world who during Messiah's reign, will enter in through gates and enjoy the blessings of divine favor and life eternal. And then we read, verse 8, "But the fearful, and unbelieving, and the abominable, and murderers, and whoremongers, and sorcerers, and idolaters, and all liars, shall have their part in the lake which burneth with fire and brimstone, which is the second death." Note that this lake of fire and brimstone into which all the off-scouring of humanity will be cast is a symbol of the second death, the symbol is plainly stated in the words, "Which is the second death." The first death passed upon all mankind on account of father Adam's disobedience. Our Lord Jesus was appointed the Saviour of Adam and his race and gave His life as ransom for all to rescue all from the death due to each and every member of Adam's race one full, fair opportunity for a test of loyalty to God and righteousness and to secure life eternal in the New Jerusalem. Contrarywise all who will reject that full opportunity will die the second death, from which there will be no redemption, no resurrection, no recovery of any kind.

should be noticed, namely, that a young man, whose name was Whosever, was in danger of his soul, had to choose between a boy and sometimes it was a girl that was placed naked in the arms of the great image after it had been fired to a red heat with piled-up brush and various musical instruments. All of this, indeed, everything akin to suffering, was strictly forbidden by the divine law given to Israel. And they had been especially warned against this very form of idolatry (Leviticus xviii, 21; Deuteronomy xviii, 10). It is a gross mistake and error to suppose that it ever sanctioned torture. And it is a still worse error to suppose that He would send Himself down to earth when God's will shall be done on earth as it is done in heaven.

The Lord declares all this thru the Prophet Jeremiah (vii, 31-34). Here it is that their wrong course would venturate in the terrible time of the year A.D. 70, when Jerusalem was estimated over a million died at the siege of Jerusalem. In fulfillment of this over the wall of Jerusalem into this valley, thus we read, "Behold the day is come, saith the Lord, that I shall no more be called Topheth, nor the Valley of Slaughter; for they shall bury in Topheth till there be no place. And the carcasses of this people shall be meat for the fowls of the heaven, and for the beasts of the earth."

After the reformation made by King Josiah the Valley of Hinnom was designated for the intent that it might thereafter be considered fit for any kind of religious worship, sacrifice or ceremony. It became the valley of defilement. It was used at certain times for the burning of the offal and rubbish of the city. It became the dumping place of dead cats and dogs, etc. If any of these fell upon the piles of the rock no one thought worth while to interfere, and the cats and dogs were destroyed them. Burnt were also lighted occasionally to fire the combustible rubbish, and brimstone was added so that the worms would destroy the malarial tendency, in the interest of the health of the city.

AGED PRIEST DEAD
Father Boubat of Windsor is Called to His Reward.
WINDSOR, Aug. 28.—Rev. Bartholomew Boubat, 73 years of age, one of the oldest ministers of the Catholic priesthood in Ontario, is dead at his former home, in this city. Father Boubat was born and raised in Clermont, France, and came to Canada about the middle of the last century. He was one of a number of young Frenchmen who answered a call made by the then Bishop of Toronto at a time when there was a dearth of priests in the Dominion. His first charge was St. Pierre parish in Raleigh Township, near Chatham, and he subsequently occupied 15 different churches throughout Western Ontario. Three years ago Father Boubat celebrated the fiftieth anniversary of his ordination to the priesthood.

L. SIMPSON

Our Millinery Opening

To-day we are making a complete showing of our Autumn Millinery Models from

Paris, London, New York

The women of Toronto have learned to expect something distinctive in Simpson's Millinery Openings, and to-day's display, it is safe to say, will more than uphold the past traditions of this store.

Of course the models will be the centre of interest, but this season our handsome exhibit of Ostrich Plumes and Paris Feather mounts will be sure to come in for a large share of favorable comment. Feathers of this kind promise to be very fashionable during the coming season, and you will find here a selection of Willow Plumes, Duchess Plumes, Osprey, and Heron mounts, and Paris, feather novelties that will make your heart rejoice—particularly when you note the modest prices. You cannot get any idea of the exhibit unless you come and see it, but we draw your particular attention, as values to look for, to the long handsome Willow plumes at ten dollars, the long Duchess plumes at three-eighths-five, the extra large Ospreys at two-fifty, and the handsome fancy feather pompoms at one-fifty.

The Exhibition of Silks and Dress Goods

From the Millinery Salon it is only a step into the new building where our autumn showing of Silks and Dress Goods is attracting the attention of "the women who know." As the new shipments are opened up, each one seems to be the supreme effort of the dyer's or the weaver's art—this year's new fabrics will make you forget any memories you have about beautiful materials of former years. They outclass anything we have ever shown.

A GREAT SHOWING OF WORSTED AND FANCY SUITINGS.

Latest Homespun Diagonal Suitings, latest Manish Worsted Suitings, latest Two-tone Cheviot Suitings, latest Hopsack Wale Suitings, latest West of England Serges, latest Hopsack Nette Suitings, lovely collection of Broadcloths and Venetians, in all the leading colors for fall and winter wear.

NEWS OF NEW SILKS.

New Persian Satins, new Dresden Silks, new Paisley Nihon-de Soie, new Persian Duchess Mouseline, new Dresden and Persian Foulards; all are here in profusion of design and color. These are the accepted fashion of London and Paris to-day, bringing with them all the daring originality known to European designers. Prices per yard 75c, 85c and \$1.00; double width, \$1.25, \$1.50 and \$2.00 per yard.

New Tosca Nets

Cotton Tosca Nets, 36 inches wide, in black, ivory, Paris, brown, navy, sky, rose, amethyst, in 3 shades of green. Many of our customers are waiting for these—they're in. Yard 65c.

New Hand-Bags at \$1.25

Leather Bags in medium sizes will be most favored this season, and there is a tendency in the direction of narrow deep types. The cordelier style continues good.

The leathers mostly used—seal, seal goat, grained cow, walrus grain, calf, mottled leathers, pin seal, also a large sale for all styles and sizes in metal chain bags. Every available inch of space in our bag department is crammed full of new leather novelties collected from all over Europe and U.S.A. Tuesday we are going to emphasize our one dollar and twenty-five cent bags, fifteen styles to choose from, and the best values in Canada, for \$1.25.

Many other Bags at \$2.00, \$2.50, \$3.00, \$3.50 and \$5.00.

Novelty Import Bags, at \$8.00 to \$35.00.

The Last Chapter of the Furniture Sale

The greatest furniture sale we have ever held ends with the end of this month. Our alliance with first-class manufacturers has enabled us to sell car-loads of high-class furniture at most unusual prices.

Of the specially bought furniture, there is still enough left for two big selling days, and you'll see from this list that we've made the prices fit the occasion. Our Fall shipments are beginning to arrive, and imperatively demand a showing. So we're going to make room to-morrow, by means of these heroic prices.
