SAINT JOHN, N. B., AUGUST 3, 1925.

THE WAR ANNIVERSARY.

We come again to the anniversary of the beginning of the great war, and today, nearly seven years after it was finished, Europe is still described as 'armed and afraid'.

"I am inclined to think," says Lord Balfour, "that we are at the beginning of a great era of peace."

With a growing sense of security there will come more rapidly that recovery in national trade which is so essential to the world's welfare.

Lord Balfour, whose knowledge of world conditions is not easily to be matched, is evidently convinced that progress toward peace will be more rapid than he is a man of conservative speech and outlook.

THE FUTURE OF THE RAILWAYS.

Although the latest crop reports indicate that the yield of grain will not be so large as was hoped three weeks ago, it will still be great enough to prove a sharp stimulus to the earnings of the railways.

Graham told the House, it would be impossible to secure anyone to assume responsibility for its administration. To convert it now to a national asset is one of our chief governmental problems.

WOMEN IN INDUSTRY.

Some rather astonishing figures concerning the number of women employed in American industries are given in a recent census bulletin. It is steadily contended that the standard of living is rising in the United States, but the fact remains that there is a vast increase in the proportion of the women who find it necessary to work for wages or salaries, and by no means all of them receive high pay.

Alabama has the lowest average wage for women—\$8.80—but in South Carolina it is only \$9.50, in Kentucky \$10.75 and in both Kansas and Arkansas it is less than \$12.

SEEKING BRITISH CAPITAL.

It is well to assume that a condensed report of a speech delivered recently in London by Premier Ferguson of Ontario does him somewhat better than it was when President Beatty was speaking.

"Canada looked to this country (Britain) for help, and he must say that Canadians were disappointed at the amount of help they got. British capital was needed in Canada. He would like to tell the people of this country that they were not the only people who were being heavily taxed."

GOOD NEWS OF THE FIRST ORDER IS THE ANNOUNCEMENT THAT THE BRITISH COAL STRIKE HAS BEEN AVERTED THROUGH THE EFFORTS OF THE PRIME MINISTER.

Opposition Meeting Last Night Also Addressed by R. G. McInerney.

Dr. Curren's statement that he had been instrumental in having the South Bay bridge built by day labor, R. G. McInerney, in addressing the Opposition meeting in the Plaza in East Saint John last night, declared to be rather peculiar in the face of the fact that a contractor told him (Mr. McInerney), that he had asked Dr. Curren why his tender had not been received, and Dr. Curren had replied that he knew nothing whatever of the matter and would look into it.

LANCASTER WORK.

The Mayor said he had information that until the election campaign was begun the Maritime Construction Company, in charge of the work on the roads at Lancaster, had been using a steam shovel. But as soon as the election was imminent the company had taken on 50 to 75 more men, giving all of the men 75 cents a day more wages while permitting the steam shovel to lay idle.

SOUTH BAY BRIDGE.

Mr. McInerney, in his statements regarding the South Bay bridge, said that Dr. Curren was eager to give work to the people of the county who were unemployed, he could have done so just as surely by awarding the work to a Saint John contractor. Mr. McInerney also said that the contractors had to tie up large sums of money when tenders were given.

O. L., in regular session, does hereby solemnly and emphatically protest against any change being made in our National Flag; and further, that copies of the resolution be sent to the Right Honorable W. Consolidated Optical Company Branch Here Handles Prescriptions For New Brunswick And Prince Edward Island

ONE OF SAINT JOHN'S smaller industries, yet one that has a great deal to do with the health of its citizens and one that manufactures a product which many people could not do very well without, is the Consolidated Optical Company, located at 35 Charlotte street.

The Consolidated Optical Company moved into its present premises in October, 1920, and will celebrate its fifth business anniversary in a few months.

The business of the company has grown steadily within the years of its establishment and the management professes increasing activity as time advances.

All products of this company pertain to spectacle or eyeglass wear. The chief activity of the firm is to make the focus, which is prescribed by the optometrist or doctor, for the lens.

The glass which is made into the finished lens, is known in the optical trade by the name of "ophthalmic" glass and is a pure white substance.

Approximately 10 dozen cases of these lenses are obtained by this local firm in monthly shipments.

In the manufacture of bi-focal lenses, two of the rough forms, taken as they are received at the local plant, are ground and fused together.

The rough grinding removes any superfluous glass from the lens. The medium grinding fines down the surface of the lens, removes the rough emery marks and prepares the surface of the lens for the third and final grinding operation by the fine emery.

When the polishing machine has completed its operation, the pitch is knocked from the lens. Any pitch that cannot be broken away from the lens without damaging the glass itself is removed by gasoline.

The chief opposition to this project—in fact the only opposition in Ontario against the export of Canadian Hydro.

The Financial Post is said to be most particularly the organ of vast private investing interests and which kind Providence has blessed the common people.

It is no election cry to say that hardly a home in New Brunswick would gather in their golden net all the natural blessings which these sinister influences resident in Canada and United States, and if they win this coming election it will be because the votes of the Province prefer to pay tribute to the Money Kings instead of organizing their own resources at minimum cost.

LATER: Since the above was written the Grand Falls contract has been let to the Dominion Construction Co., of Montreal, at a HALF MILLION DOLLAR SAVING on the estimate of the Engineers!

Premier Veniot says: "This is a saving of practically half a million dollars in the contract price of this work. This saving, added to the \$300,000 less than the estimate saved in the settlement of the claims of the International Paper Company, makes an excellent showing and goes to prove there is absolutely no fear the estimate of the engineers will be overrun, as the balance of the cost of the enterprise is a matter of calculations upon which no error can be made."

CITY SENIOR LEAGUE ARRANGE SCHEDULE OF POSTPONED GAMES

TO GIVE EVERY PLAYER CHANGE TO WIN TROPHIES

Will Carry Into The Second Week If Necessary

THE City Senior League drew up a schedule for its postponed and tied games at a meeting last evening and this will be carried out, even though it interferes with the date set for the closing banquet. It was felt that in order to give every player an equal chance for the various trophies that these games should be played. There are also games altogether and the following schedule for them was drawn up and agreed to by all the teams: Aug. 1, Baptists vs. Watermen, N. E. (July 11).

As had weather is bound to interfere with this schedule, it was further decided to run the league over into the second week in August. It necessary to play all games. The decision was unanimous. The teams were represented as follows: St. John the Baptist, F. Barrett and Joe Fitzgerald; Water Dept., A. Snodgrass; Baptist John, Thomas Campbell and G. Logan; Trojans, Walter Golding; Royals, J. H. Gay.

The league schedule run out last evening and the showing made in connection with playing off the league was considered by the meeting to be excellent. The schedule ran through two months and one week, commencing on May 24 and ending July 31. In that short period 83 of the 80 scheduled games were played off, leaving 7 postponed or tied games. The total is brought up to 9 through two tied games. Taking out Sundays in that postponed or tied games, exactly 60 playing days to be used. In other words, 88 per cent of the games were played as scheduled. Considering the weather that has been served up during the last two months this is considered an excellent showing.

JACK DEMPSEY IS HIS OWN MANAGER

Says He Has Not Agreed to Fight Anyone But Harry Wills.

NEW YORK, Aug. 1.—According to his own admission in a telegram to the New York State Athletic Commission, Jack Dempsey today is his own manager. An airplane letter to the board, Dempsey wired, "best explains conditions of clearing up my affairs with Jack Kearns." The telegram also said: "Mr. Kearns now knows that I will hereafter act for myself for my professional engagements."

Asks Indulgence. Dempsey also declared he had not yet agreed to fight anyone but Wills and asked the indulgence of the commission in the matter his delayed appearance before, but he failed to set forth his willingness to fight Wills next July 4, as announced by his press agent in Los Angeles. Official action on the Dempsey case is expected to be taken by the board next Tuesday. If the definite information showing that steps have been taken to bring about the Wills-Dempsey fight, it is not presented at this meeting, the board may vote to recognize Dempsey no longer as champion and order an elimination series for the title.

Richard Negotiates. Anticipating that such a series would likely be limited to Gene Tunney and Harry Wills, Tex Rickard has already negotiations for the battle to be staged this fall. His terms were accepted conditionally by managers of the fighters yesterday, but Rickard announced that further steps by him to promote the bout would depend on the action of the commission next Tuesday on Dempsey's case.

Hoppe Wins Match

NEW YORK, Aug. 1.—Willie Hoppe, former 182 balltime billiard champion, defeated Arthur Cohen, 50 to 22, at three-cushion billiards last night. The match went 64 innings. Hoppe had the high run of 6, while Cohen's best attempt was 8.

TROJANS BADLY BEATEN.

In the South End the Saint Johns smothered the Trojans with a score of hits and runs. In one inning alone they collected no less than 11 runs. The score at the end of the slugfest showed 21 to 6. The Saint Johns fattened their batting averages, making 28 hits. One of the features of the game was a one-handed catch made by Cyril Moore.

Rain Helps New York Giants Reduce Lead of Pittsburg Pirates

Along The Sport Trail

By RAY HANSEN

LOCAL FANS who have watched some of the heavy hitters in the City League clam the ball out of the lot are prone to agree with the contention that the baseball as manufactured today is more lively than heretofore. However, this is apparently untrue for an analysis made by a chemist at the mid-summer conference of the owners of the National League clubs held in New York a few days ago showed that there was no difference in its construction as compared with those turned out in 1914. Close followers of the game seem to be unanimous in the opinion that baseball is a changed game from what it was and the ball is not responsible. The analytical examination by a professor of chemistry should be convincing for he had nothing to gain one way or another. If the truth was known the man who deserves credit for the change is Babe Ruth, the mighty "king of swat." He made such a tremendous hit all over the circuit and received such a magnificent remuneration that he soon had others trying to tear the cover off the pill and get some of the easy money. "Get up there and hit," is the slogan in baseball today.

IF WEATHER conditions are favorable this afternoon local fans should see a wonderful game of ball between the leading contenders for the City League championship. The game is one of the most crucial of the series and should be a thriller.

THE FANS of Somersville, Mass., the home town of "Pie" Traynor, third baseman of the Pittsburg Pirates who are battling so gallantly for the National League flag these days, are holding a field day at Braves Field, Boston, on August 25, in honor of their native son and among those who will attend will be "Stew" Matthews, of this city, uncle of "Pie." Of the Pirate line-up, experts all agree none are better than this youngster who guards the hot corner for the National League leaders. His batting is also well up to average while his fielding borders at times on sensational. Traynor has an exceptionally large pair of hands. In addition to the fans, the Mayor of Somersville and the Masonic lodges of the city, to one of which Traynor belongs, are making suitable presentations on that day. It should be a gala day for "Pie" Traynor and none will be more proud of him than his uncle.

MEMBERS of the City League have certainly had every incentive to work hard this season. Beautiful trophies have been offered for leading pitchers, leading batters, base stealing and in fact for every department. So far seven trophies are up for competition.

JUDGING from the following article which was published editorially in the Boston Post, Champion Jack Dempsey is certainly losing a lot of his popularity.

"Says Grantland Rice, one of New York's ablest and most far-seeing sport writers: 'A few days ago we stepped into one of the largest of the Broadway moving picture houses where a moment later Jack Dempsey was shown on his arrival from Europe. There was first dead silence followed a second later by a salvo of hisses. Dempsey has stepped into ground as rough as even Jack Johnson walked in. His continued statements that he was here to fight and his refusal to do so have put him in the attitude of kidding the public, and the public in turn has turned against him. He now ranks with Jack Johnson as being the most unpopular of all heavyweight champions.'"

The Post adds: "It is a bitter harvest, but through deserved. It should have been expected by 'Champion' who will not fight his peers and who wants millions to fight men he is sure he can defeat. Is it any wonder that the people's thoughts are going back to the elemental, but willing John L. Sullivan?"

HORSES INJURED

Unusual Number of Casualties at Saratoga Track—Flying Ebony Out For Season

SARATOGA, N. Y., Aug. 1.—There have been an unusual number of casualties among the horses in training here for the month of racing. Gifford A. Cochran's famous three-year-old Flying Ebony, winner last May of the fifty-first Kentucky derby, has broken down, and it is doubtful if the black son of the Finn and Princess Mary will be seen under silks again this season.

The Idle Hour Farm's Shales crack three-year-old Broadway Jones, winner of the Latonia Derby, has been placed on the shelf and is not likely to appear in the stakes in which he is engaged. The Parkview Stable yesterday lost its hopeful stake candidate through the death of Ben H., two-year-old son of Eternal and Almadine II.

LEAGUE LEADERS HAVE HARD TIME HOLDING ROYALS

Narrowly Escape Being Defeated by Make-shift Team

ST. JOHN THE BAPTIST team, leaders in the City League, narrowly escaped being defeated by the Royals last evening on the North End diamond, the score ending 5-5. The Saints secured an early lead over their opponents, who took the field with a make-shift team, but in the closing stages the Royals started a rally resulting from ineffective pitching by Murphy and loose fielding on the part of his teammates. About 2,000 fans were in attendance and both teams apparently had a large following.

Deserved To Lose. The Saints deserved to lose, first because when Earl Nelson resenting a decision of Umpire Pinnamore hurled the ball out of the lot with men cramped off second and third, neither taking advantage of this opportunity to score, and again when Pitcher Murphy apparently forgot about a runner on third and took a wind up which allowed Nelson to steal home. Only fast fielding on the part of Tack Dalton saved the day.

Short of Players. The Royals appeared on the field short of players and used their bat boy in center field when Yarnold, their first sacker, injured his ankle attempting to score they had to send a boy to the field. The Royals star third-sacker, Paul Nelson, pitched well, fanning 18 batters. Murphy was effective during the early stages of the game, but weakened in the last two innings.

The official score and summary follows: Royals—A. B. R. H. P. O. A. E. R. Wilson, 2b. 5 1 1 0 1 0 1 0. H. McAleer, cf. 4 1 1 1 1 1 1 0. Harper, 3b. 4 0 0 2 2 0 0 0. Paul, 1b. 5 1 1 4 0 0 0 0. ONLY ONE GAME SEPARATES THE LEADING TEAMS

Kelly's Homer Was Responsible For Victory Over Cubs

NEW YORK, Aug. 1.—Midsummer rains, fickle, in casting their support among pennant leaders of both major leagues for the last month, have again freshened the drooping hopes of the New York Giants. By forcing inactivity on the part of the leading Pittsburg Pirates in the National, rain over baseball diamonds in many corners of both circuits yesterday, enabled the champion New York team to once more reduce the gap between first and second place to a single game. For while the Pirates were idle, the Giants role on the wings of a home run by George Kelly to a triumph over Chicago, 4 to 3.

Five hits proved sufficient for the Reds to pile up their seventh straight victory at the expense of the Boston Braves, 4 to 3. A wild pitch by Boston scored Roush with the winning run, after he had tripled in the sixth. Brooklyn rallied behind the speed balling, Dazzy Vance, in the last two innings of a game with St. Louis, and then choked off a counter spurt by the Cards in their half of the ninth, to pull out a victory 9 to 4.

LABILLOIS STANDS FOR POSTPONEMENT

Wants Hydro Decision Put Off For Further Investigation—Relies on Record.

CAMPBELLTON, July 31.—Hon. C. H. LaBillois of Dalhousie, held an enthusiastic meeting here this evening. An audience of between 200 and 400 people attended. The chairman was W. H. Wallace, who introduced Mr. LaBillois and his son, Albert, who were the spokesmen.

Albert LaBillois first explained the independent ticket. He gave the reason for his father's running as an independent. He said that in November last his father was called to attend a convention of the Liberal party to elect a new colleague of J. H. Currie and as he had always supported the Liberal party expected to be chosen to fill the seat but was cast aside. He said his father always played a prominent part in all civic affairs and was truly an honest representative of the people and asked that the people stand by him in the coming election.

CANDIDATE SPEAKS. Mr. Wallace next made a few remarks regarding Mr. LaBillois' career and then called on the candidate. Mr. LaBillois said he entered politics in 1882. In 1891 he was made Minister without portfolio, which office he held for six years when he was made Minister of Agriculture and later in 1900 made Minister of Public Works, which office he held until the defeat of the Robinson Government in 1908.

ATTITUDE ON HYDRO. He said that this question of hydro should be given a year or two of thought before spending so much money. He said the present debt of \$85,000,000 took 25 years to grow and

saw no necessity of increasing it by twenty or thirty more million in six months. He spoke of the tourist trade and said it was fast becoming the greatest industry of New Brunswick. He compared Switzerland to New Brunswick and said that the former had received \$400,000,000 from tourist trade and as scenery here was unsurpassed even in Switzerland it meant a great deal to this province.

RELIES ON RECORD. He said that with his thirty years experience he knew that the people would send him to Fredericton in preference to a man or less political history and ability. He gave as another reason for the people to send him as representative that as he was independent of everything and everybody, that he had no work to attend to and no corporation to bind him. He said he was 10 to 12 months of the year to politics. He said he had influence among the people of Quebec which would help to bring about the proposed bridge over the Restigouche and asked the people for support on Aug. 10. The National Anthem closed the meeting.

**QUIT'S SERVICE AFTER 27 YEARS**

Had Been Engaged in Blacksmith Work for More Than 55 Years.

After 27 years' faithful and efficient service on the Canadian National Railways, William McNulty retired on superannuation yesterday. During that span of more than quarter of a century, Mr. McNulty was employed with the old Intercolonial, the Canadian Government Railways and the C. N. R., being stationed in this city in charge of blacksmithing. He first joined the mechanical staff at the old Intercolonial roundhouse on Forest street, and since the transfer of the shop to the Island Yard he has been located there.

**55 YEARS AT WORK.**

Prior to joining the old Intercolonial, Mr. McNulty was employed in Boston, Salem, Mass., and Noank, Conn. He has been constantly engaged in blacksmith work for 65 years which is considered to be a record. Originally, he was a ship blacksmith and was in business in this line with the late John McKelvie of this city. Mr. McNulty now joins the number of C. N. R. veterans who have retired recently, among them Cyrus McFarland, Charles James and William McLaughlin.

**TO TAKE A HOLIDAY.**

Mr. McNulty expects to spend a week during August at the shrine at the Holy Sepulchre, being accompanied there by his brother, Hugh McNulty of Boston, who arrived in this city a few days ago. The brothers also expect to visit New York.

**GIRLS RETURN FROM CAMP AT CHIPMAN**

C. G. I. T. Outing This Year Was Great Success—Treasure Buried.

The members of the C. G. I. T. camp, "Wegesequm," arrived home from Chipman last evening, after 12 days packed full of activity. They were all tired but very happy. They reported, Miss Laura Baxter, business manager, with her assistant, Miss Harriet Roberts, remained behind to see the last of the trip. True to its Indian name, the camp was conducted along the lines of the Indian government by tribes. Miss Marjorie Trotter, B. A., was Great Chief, assisted by Little Chief Grace Marshall and the little chiefs of the nine tribes into which the camp was divided.

**BURIED TREASURE.**

The final ceremony at camp is very impressive, when the girls march, according to their tribal ranks, to a certain spot and bury their treasure, usually by moonlight, just after twilight. This treasure is dug up on the second evening at camp by those who return next year. The treasure consists of souvenirs of the camp such as the camp paper, which was called "The Spider" this season, camp code for the season and other little items which distinguish each camp.

**GOOD WORK DONE.**

The little chiefs have full control of their respective tribes, and on very short notice prepare to give the physical plays when requested by the dramatic leader, who was Miss Marjorie Johnston of Saint John this year. The physical leader, Miss Hazel McCready, accomplished wonderful things with her direction of the tribes in her department.

Mrs. R. G. Fulton, camp mother, was impartial in her praise, and extremely pleased with the splendid leadership of every department. She said that it was the success of this camp and made everything go smoothly.

Miss Trotter left last evening for Wallace, N. S., where she is taking charge of a camp for leaders of the C. G. I. T. for 12 days.

**REVISORS HAVE PROBLEM TO SOLVE**

6,000 Names to Check and No Money to Secure Additional Help.

The activities of the workers for both political parties in seeking to have the names of eligible voters added to the official list, has created a rather unique situation in the city.

The election law provides that the names of all persons desiring to be added to the list shall be in the hands of the Board of Revision and posted 16 days before the date of election. Usually there has been about 100 or 200 names to be added, but this year there was over 6,000 names handed in on the last day allowed by the law.

To help in preparing these lists for the printers each party gave the services of two stenographers and this materially aided the revisors.

Before the names can be officially added to the list the revisors have to check up each individual name and go through the whole list wards to ascertain the name is not already on the list in one of them.

The revisors board numbers three, and they have no money with which to secure clerks to help in the work, no appropriation being made by either the city or province to cover an expense of this kind.

The result, under the present circumstances, must be either that the lists will not be completely checked before the election, or the revisors must work night and day or in some way secure additional help in order to have the lists in order before the day of polling.

**FEWER PRESERVES**

According to several dealers in the preserve bottle trade, the strawberry season failed to produce the average volume of trade, by far, for the year. It was probably due to the large quantity of berries which were shipped to Montreal and the States, thus reducing the price of the berries higher on the local market than last season.

He said that he had been four months making the arrangements and hoped to make this picnic the best yet. He will have a large staff of workers and the business men have loaned trucks and cars to transport the children to the grounds, where everything was completed noon today. The workers were there from 9 this morning.

should be considered from two standpoints — beauty and strength of construction. Some dealers, in their desire to cut prices show suites which are superficially attractive, but cannot possibly give many years of service. This is one of the reasons why you should come to a reliable concern which has proved, during more than thirty years of its business career, that no goods of an inferior character are sent out to its customers under any condition.
